HAWAII'S "BLUE" LAWS

CONSTITUTION and LAWS

Framed by the Missionaries.

LAWS of the HAWAIIAN ISLANDS.

8. On the last day of December of each year, the harbor masters having faithfully preserved the manifests spoken of in the sixth and seventh sections, shall deliver them all into the hands of the Governors, who shall deliver them to the Premier of the Kingdom.

9. Ships which come to these Islands for the purpose of obtaining refreshments, or for repairs, must first render a clear and explicit account of the kind and amount of purchases designed to be made, and this written account must be delivered into the hands of the harbor master of the port, and if he wish to pay for such refreshments, in any other articles except money, he must state what articles. And if he purchase articles not mentioned in the writien account, or if he sell any article not mentioned in the first writing, then previous to his sailing from the port, he shall give in another correct account. Whoever violates this law or evades it, and whoever gives in a false account, shall be brought to trial and on conviction thereof shall be fined two hundred dollars.

These accounts also shall be preserved in the same manner as those mentioned in section eight.

10. If any vessel arrived from a foreign country having a passenger, on board, then the Captain shall give immediate notice in writing of the name, country, age, and business of said passenger. And he shall neither set at liberty, or permit to be landed said passenger nor his property until the harbor master have seen said writing. Whoever violates this law shall be fined one thousand dollars.

11. No master of a vessel shall discharge or leave any of his men to remain on shore without the consent of the Governor or his agent in writing. Whoever violates this law shall pay sixty dollars, and he who is thus discharged shall leave the Islands by the first suitable vessel. But if he do not leave according to this requirement, then he shall be treated as the deserter spoken of below.

12. If any foreigner desert from a foreign vessel, it shall be the duty of the Captain of that vessel to make it known immediately to the harbor master who will search for the deserter. If said deserter be found near the harbor where the vessel is at anchor, then the Captain of the vessel shall pay to the harbor master six dollars and the deserter shall be returned to the vessel. If he be found at the place remote from the anchorage, or on the mountains, or at a distance of ten miles, then the reward shall be twelve dollars. But if he be found on another island, then the reward shall be twenty four dollars.

If the deserter be kept on shore and boarded, the pay required will be half a dollar per day. Though this section does not prevent a special agreement between the Captain of the vessel and harbor master respecting the deserter provided it be entered into previous to his being taken.

If a foreigner deserts, and the vessel from which he deserted sailed without the Captain's having given notice respecting said deserter, or if he delay to give notice for forty eight hours after the desertion of the man, then he shall be considered to have discharged his man and shall therefore be fined according to the requirement of the eleventh section of this law.

13. Every foreigner who deserts, or comes on shore secretly without the knowledge of the Governor or his agent, is obnoxious to this law. Whoever does it shall be put to hard labor, from which he shall not be freed until he leaves the country. He may also at the discretion of the Nobles be dispossessed of all his property.

But if the Nobles think best to leave him his property and substitute a flogging, it shall be lawful, though the stripes shall not exceed thirty.

14. If any native, or foreigner residing on shore entice a man belonging to a foreign vessel to leave his vessel, or if any one conceal a foreigner on shore, or if any one see a deserter and understand him to be such, and do not give notice to the harbor master nor to the Nobles, then he shall be considered as accessory to the desertion and shall be fined six dollars, one half to the captain of the vessel from which he deserted and the other half to the government.

15. It shall be the duty of the Governor, and officers, and of the people at large, as well as of the land agents, to be on the alert, and when they see a foreign deserter, seize him and deliver him to the harbor Master. Whoever seizes a deserter thus, shall receive one half of the reward.

16. If any foreign vessel be in difficulty, be wrecked, or suffering from a severe storm, or if in straits of any other kind, it shall be the duty of the Governors and all local authorities and all the people to aid within their ability him who is thus distressed. And they shall receive their pay by a salvage of the part of the property rescued by them. If there be no previous contract, and the owner of the property and those who saved it do not agree, then referees shall be appointed to decide the amount of reward.

(To Be Continued.)

HAWAII ∴ HOLOMUA

PROGRESS.

The Life of the Land is Established in Righteousness.

HONOLULU, AUGUST 16, 1894.

The Crown Lands.

We are indebted to Colonel C P. Iaukea, Agent of Crown Lands for a copy of his biennial report. The report which is gotten up in a very neat and comprehensive manner furnishes lots of a interesting information. Of course it is written with a pen dipped in the most roseate ink, and the opportunity to boom the lands and inviting settlers into the deserts have not been neglected.

The Olaa lands are pictured in the most glowing colors. If the colonel is to be believed settlers will find a perfect eldorado in that district. During the reign of the Queen, the Olaa lands were laid out in homesteads and especially designated to settlers. 47 holdings were taken up containing an area of 482.14 acres with an annual rental of $482.19. The "republican" government which is not interested in Hawaiians found the process too slow, and after illegally sequestring the crown lands the government offered more liberal terms to "settlers." Under the new regime 85 leases in Olaa have been granted comprising an area of 11,478.97. The lease holders are mainly foreigners who cannot be described as settlers as they do not live on the lands, but have them cultivated by Japanese coolies or Portuguese. To judge from the names of the leaseholders there are 72 foreigners to nine Hawaiians. Leases No. 58, 59 and 60, are not described. It is noteworthy that several lots have been taken up by Japanese.

Puukapu in Waimea is the hobby of the crown land agent. Homesteads have been laid out and taken up at a nominal rental, but the report is silent in regard to the improvements of these lands and give no description of what the settlers are cultivating and the lands producing. The colonel writes that they are choice lands—very choice—but if suitable for coffee, tropical fruits, other potatoes, fishponds or stolen cattle, we are not informed.

From his description of the crown lands, we learn what each tract is useful for and also what the estimated value is. The latter is not based on the rental received, but seems to have been placed at random. The report does not suggest anything in regard to markets for the products which it is claimed can be raised. If all the lands were settled and cultivated according to the report, we have an unpleasant presentiment that our future diet would consist of potatoes and corn. There is no market for the quantities now produced of these articles and an increase of cultivation would simply be disastrous. The "tropical" fruits about which, we read a great deal in the report are not specified, but we are inclined to suspect that the colonel—like Thurston—has got jelly on his brains and wants the settlers to "can;" we fear they can't.

The total area of Crown Lands is placed at 971,463 acres which the colonel values at $2,314,250. The rental is now $49,268.75 a year, and when the rents for the special leases recently issued fall due the annual rental will be $64,950.32, or nearly 3 per cent. of the supposed value. This is an exceedingly good showing when compared with landed investments in the most fertile countries in Europe where 1½ to 2 per cent. on capital invested in agricultural enterprises is considered fair and satisfactory. When it besides is remembered that these lands are at present treated as government property, and that the valuation placed on them is absurdly high, the results must be considered proper and satisfactory, and we see no reason why the agent should regret that certain lands are leased at too smalla rental. It is a pleasure here to notice that some of the lands over which he complains, are held by our highly respected missionary firms, and were secured under the immaculate reform cabinet. The leases of Kapapala is dated July 1887 (after the revolution) of Waiohinu, 1888, and of Waiakea, 1889. A number of very large leases which has not expired have been extended by our great and good republican government to the year 1913 This was probably done for the encouragement of the proverbial small settler. The rents as a whole are appropriate although in some instances an increase could be made with some show of justice. We notice a lease of a land called Welok, which has 24 years to run and for which the lessee only pays $100 a year. The colonel will probably agree with us that such a rent is ridiculously small.

OUR NEUTRALITY.

The *Advertiser* comes out in defense of the ridiculous neutrality proclamation issued by the Dole-Hatch combination. The semi-official organ says that

"The publication of this proclamation will have an effect upon the conduct of this alien population which cannot be ignored."

The "great papier" does not deign to explain where and how the "effect" comes in. That the proclamation has had an effect on the risible muscles of the alien population we are ready to admit but that is all the effect it will have. The Chinese and Japanese residents in Hawaii don't care a fig for the Hawaiian government or its proclamations. The Chinese are, if anything, hostile towards the government and the Japanese only obey the representatives of their home-government. It is mainly due to the great influence and pronounced tact of Mr. S. Fujii the diplomatic agent of the Mikado that the large Japanese population here has kept so quiet and refrained from all irritating and insulting exultation over their Chinese neighbors. Anybody conversant with the true situation here will know that feelings and sentiments are very strained between the subjects of the two belligerent nations residing in Hawaii. If an open clash is avoided it is solely due to the good offices of Mr. Fujii and the calm demeanor of the leading Chinese. Mr. Hatch's proclamations are neither read or noticed by the parties in question. When will the "republicans" get rid of their "big heads."

To judge from the autocratic manner in which the board of directors ran the Healani Club at last night's meeting, it is evident that the example set by the p. g. is bearing fruit. Mr. McStocker is evidently an adept in "running" things from a boat club, to a political ward or a "republic."

THE sapient President of the Board of Health is said to state that, local physicians object to Dr. Hatzopulos being granted a certificate on account of his being somewhat of a "sport." Also, because the said Dr. Hatzopulos is too robust and not of the delicate, gentlemanly pattern which usually belongs to the profession which has the privilege to bury all mistakes. Doctors in Hawaii have always been known to be pretty sporty and so were other people when sheriffs in days gone by.

Herr Zeitung has been stopped from giving exhibitions of his bullet-proof vest in New York, as there is a law which prohibits any discharge of firearms at a human being in a theatre.

London, July 31.—The *Standard* announces the betrothal of Prince Adolphus, the eldest son of the Prince of Teck, to Lady Margaret Evelyn. the youngest daughter of the Duke of Westminster.

Warsaw, July 31.—The Governor has forbidden the usual pilgrimage to Czentochan on account of the prevalence of cholera.

Chino, July 30.—Farmers commenced hauling beets to the receiving sheds this morning. The sugar factor will start on the 1st of August. The present reducing capacity of the factory is 1000 tons per day.

OUR "REPUBLIC."

In its yesterday issue the *Advertiser* takes the *New York Nation* to task for daring to criticize the so called Hawaiian Republic and showing up the discreditable proceedings through which it was temporarily established. The *Advertiser* makes the remarkable statement that no revolution would have been necessary if the Hawaiians had been willing to protect the rights guaranteed them by the bayonet constitution of 1887. Great Scott! We always understood that the object of the revolution was to obtain "crosel union with the United States." We thought by this time that the main object of the revolution was to assist Mr. J. L. Stevens in plucking the Hawaiian ripe pear, and we have by this time received sufficient proofs to show that the revolutionary conspiracy for the bartering of Hawaii's independence had been in full blast since the arrival of the Kennebec scribbler.

It was then after all, not annexation, that was wanted And yet, a large number of the formerly most ardent supporters of the revolutionary party says, that they were ready to do anything for annexation, but they would never have raised a finger to substitute a government under which at least money flowed freely with the present missionary government which yet will cause general bankruptcy and financial disaster.

One thing is sure, says the *Advertiser*, the people shall never be heard in regard to the government of Hawaii. As long as the family-compact is "in" no notice shall be taken of the d—— people. The *New York Nation* is made to understand *that* "republican" principle in the following words:

"This is the case in a nutshell. The gain thus made for political liberty will never be submitted to any vote, popular or otherwise."

That shows us finally where we stand. The *Advertiser* and the compact will never allow the people to decide what form of government shall exist in Hawaii. And yet our esteemed contemporary gets indignant with the *Nation* for criticizing a "republic" established in such a manner and on such very unrepublican principles.

The *Advertiser* says that people don't fight for what they can gain by ballots, thereby indicating that it is justifiable and right to fight for what cannot be obtained by ballots. We thank it for the lesson. As popular government cannot be obtained in Hawaii by ballots, as even ballots, according to the *Advertiser* are refused us, we see no other remedy than to accept the prescription of the *Advertiser*, and gain by fight what cannot be gained by ballots, viz; government by the people, of the people and for the people.

It is noteworthy, by the way, that the *Advertiser* constantly speaks about the "fight" made by the revolutionary party. We have yet to learn when and where the fight took place. The *Tiser* has told that lie so often that it finally believes in it, and evidently the philosophical editor occasionally sees a big read stream of blood before his eyes—or nose, and dreams that he is in the middle of a battle at Kakaako or measuring swords with Paul or Billy. There was no fight, brother. The revolution, if it can be called so, was manipulated and carried out through trickery, misrepresentations, lies and J. L. Stevens, the incarnation of the qualities mentioned. If everything had been open, and above board Mr. Dole would not sit where he is today, and the physicians in Honolulu would not have so many patients in the missionary ranks suffering from chronic palpitation of their hearts. Give us a rest on all your heroics, and prove to the *New York Nation* and the world, that today Hawaii boasts of a government based on truly republican principles, and deriving its authority from the only legitimate power—the people.

Berlin, July 31.—Princess Bismark, who sustained a shock by falling from her bed on Sunday last, has recovered.

Philatelic Notes.

The postage-stamp mania is one of the most curious of human fads. A collection of coins is at the most worth the weight of the metal. Not so a collection of stamps. The fashion may go out as it came in, and then the stamps will be only so much waste paper. The forger may perfect his evil art and flood the market with counterfeits not to be distinguished from the real And even if these sad events do not occur a postage stamp is a poor treasure to preserve in a house where fire may consume or thieves break in and steal.

The fad broke out, according to the Illustrated American, in 1861, in the form of a few sporadic cases among schoolboys and maiden ladies. It was not only a harmless fad, but, in the case of the schoolboys, it was even an educative one. It proved the easiest, pleasantest, and the most efficacious way of driving a knowledge of geography into the adolescent mind. But now that these first few sporadic attacks have developed into something alarmingly like an epidemic, one begins to speculate whether the craze of the philatelist is not a distinct bar to human progress, inasmuch as it consumes a large amount of brain force and vital energy that might better be turned into other and more useful channels of activity.

In the United States alone there is an organization called the American Philatelic Association, which numbers 1000 members. But this represents only a small fraction of the philatelists actually in the country. Among the number were men of the type of General William Tecumseh Sherman and George Gould. Then there are others who have an esoteric reputation among the philatelists themselves, but are little known to the world at large.

The greatest and most famous of living philatelists—considered merely from the phitalelist point of view—is M. Philippe de Ferrari, a dignified, courteous and white-haired old gentleman who lives in Paris. He is a son of the late Duchess de Galliera, who was also a passionate lover of stamps. His collection is valued at half a million dollars. He has been known to pay $500 for an album which contained only a single stamp that he coveted For more valuable collections he has never limited his expenditures. Mr. Philbrick, an English virtuoso, is understood to have sold him the fruits of sixteen years hoarding for £10,000. Four private secretaries are employed to attend to this stupendous collection. Three of them handle new issues, they revise and rearrange the old ones, then assort, catalogue, and mount the stamps that are constantly pouring in. The fourth does nothing but carry a correspondence with all the leading dealers of the world, with special view to obtain what collectors call "unattainables."

Next to the Ferrari collection comes that of Baron Arthur de Rothschild, which is so valuable that its owner, reserve the pages containing his rarest treasures for the delectation only of himself and his most intimate friends. There are two public collection in Paris which are known to all stamp-lovers throughout the world. One is at the Mint, the other at the Admiralty. Another, less famous, is in the Berlin Museum.—*S. F. Chronicle.*

Vienna, July 31.—Fifty-eight new cases of cholera and twenty-nine deaths from the disease were reported in Galicia on July 28th and 29th.

Constantinople, July 31.—A dispatch from Crete says a man fired a shot today at the Governor General. He was slightly wounded in the head.

London, July 31.—In the House of Commons Sir William Harcourt moved the closure of the debate on the evicted tenants bill, and to apply the guillotine to certain sections in order that the business of the session might be finished by August 9th. This was opposed, but finally the motion was adopted without a division.

Hawaiian

Hardware

Comp'y.

July 24, 1894.

In "Puddenhead Wilson's Philosophy" Mark Twain says: "Put all of your eggs in one basket—and watch that basket." Eggs are not the only things to which this applies, we can make it fit stoves and change eggs into dollars and make it read—Invest your coin in a Pansy Stove—and the stove will watch itself. We have been watching these stoves for the past five years, and find them the best iron stove sold in this market for the money, Where else than at our store can you get a stove that will do everything that a $50 stove will do and get it for $15? Echo answers, 'the place isn't built.' We have sold hundreds of these stoves in Honolulu, and never had a complaint. Two weeks ago, we sold one to a gentleman on Hawaii, and yesterday he ordered another for a friend. The stove sells itself through its fuel saving qualities, and because, it is a good baker. You can get other styles of stoves if you are not particular as to the quantity of fuel you burn or how your food is cooked. There's no dyspepsia in meals prepared on a PANSY.

We received last week a lot of wire clothes-lines that hold washed clothes without using pins. It is a sort of double wire arrangement and the pieces are held in between; the harder the wind blows the tighter the pieces are held to the line. There is absolutely no danger of the clothing being torn as there is nothing sharp about the line. While the cost is a trifle greater than rope, this new style will last so much longer that it is economical to buy the pinless line.

The CLAUSS is one of the new fangled saw-edge knives that cuts warm bread without leaving it heavy and iced cake without making crumbs There are two or three different makes of these knives, all on the same principle and each one pronounced the best on earth by the manufacturers. We selected the Clauss, which we believe as a disinterested spectator to be better than its neighbors. You never had anything in your life that give as much satisfaction for a dollar. If you were buying the other sort you would get only one.

The favorite sewing machine in any community is the one that does the most for the least money and which runs the easiest. In the "Wertheim" you have a machine that sews three distinct stitches—The Lock, Chain and Embroidery and runs easier than any other machine, and you pay twenty dollars less for it. Economy stands boldly every side when you buy a Wertheim. In tucking the chain stitch is preferable, but in other kinds of work, the lock stitch is the best. If you buy a machine that sews the lock, unless it is a Wertheim, it won't sew a chain stitch. There's no particular saving in buying a machine with but one stitch, the Wertheim does three and saves you lots of trouble and work.

We've just unpacked six casks of stand lamps that were built for hard times. They have metal bases and are decorated so as to make a very neat appearance in a room. We don't think you can get as good a lamp anywhere else for the money, try as hard as you please.

Our stock of table cutlery, spoons and forks is as large as you will find in any store in San Francisco, and our prices compare favorably with those in New York.

Full Moon Concert.

The band will give a public concert this evening at Makee island, the programme commencing at 7:30 o'clock. As the moon fills this evening the opportunity to view the waters of the blue Pacific under the beautiful effects of a tropic moon should be an additional inducement towards inducing a multitude of people to take passage for the spot by the pull-donkey cars of the local tramway. Following is the programme of musical events:

PART I.

1. Overture—"French Comedy".....Bela
2. Waltz—"Southren Breeze".....Meisler
3. Ballad—"On the Sea"..(by request)..
.....Schubert
4. Echo Piece—"In Switzerland".....Hume
Messrs. Kreuter and Kapus.

PART II.

5. Medley—"Palantation Songs"...Gouterno
6. Waltz—"The Paradise of the Pacific
.....Berger
7. Polka—"Nuuanu Valley".....Berger
8. Schottische—"Pretty Women of Honolulu".....Berger

"Hawaii Ponoi."

Armed Dudes.

The Imperial present to the soldiers now in Korea has already been referred to in these columns. It consists of cigarrettes and wine. On the 2nd instant the Iwaya Co., in Ginza, Tokyo, received from the Imperial Household an order to manufacture within the space of three days no less than half a million packets of cigarettes, each packet to contain twenty-five cigarettes; the firm was also ordered by the War Department to make 1,300,000 packets of a particular kind of cigarette, each packet to hold ten. The Imperial intention relative to these very acceptable gifts had already been communicated to Major-General Oshima, Commander-in-Chief of the troops in Korea, and to Rear-Admiral Ito, in command of the Japanese squadron in Korean waters. The replies of these two officers have since reached the Imperial Household Department, asking that their profound gratitude and respect should be conveyed to the Emperor and Empress for their Majesties' most gracious consideration for the comfort for the soldiers and sailors in Korea. —*Japan Mail.*

LOCAL NOTES.

Full again!

Smith's busses are receiving well-deserved patronage.

Plenty of wind, too much heat and dust, and yet no rain.

The Board of Health *did* meet yesterday afernoon.

Tho political racket in the Healani Boat club will probably end in a law-suit.

There is not a very pronounced enthusiasm among the members of the Theosophical Society over the lecture of Mrs. Third.

Do not forget the programme by the modern Hercules, Dr. Hatzopulos at the Opera House on Saturday evening.

It is reported that there is a fellow feeling, with a club, between the League and the Scheutzen club.

The residence of Her Majesty at Washington Place is still closely watched as is also the residence of Mr. Dole.

Remember the HOLOMUA is only FIFTY CENTS per month, delivered at your residence and you get all the news, worth knowing. Order by telephone.

Captain Griffiths of the clipper bark Albert does not now expect to get away for San Francisco before Tuesday of next week.

The *Tiser* compels two fishermen to hook a "mystery" bring it to land and then lose it again and the find, therefore, yet remains a "mystery."

We will all be there. Where? Why, at the Scheutzen Club Masquerade Ball, Monday, September 3, 1894. Everybody is going. Are you?

Professor Berger is composing a new waltz which will be entitled "Waikiki Waltz" and which will be the delight of all followers of Terpsichore.

Mine host Lycurgus of Sans Souci and Col. Jim Sherwood of the famous Long Branch Baths will be at home to callers this evening before and after the band concert at Makee island.

Quite a number of the fair sex are devoting their evenings to the instruction of Japanese in the arts of a "higher civilization," the Lyceum corner Kukui street being the school-room of instruction.

An ex-British sailor named Coutler has been arrested charged with highway robbery of a Chinaman who "stood up" at the Pali on the night of the 14th inst. Coulter wears war-medals of service in Soudan and Egyptian rs.

The case against J. Coulter the alleged burglar and highway robber will be heard tomorrow in the District Court. The chinaman who was robbed near the Pali was brought into town this morning. The poor fellow has been cruelly assaulted and looked a fright.

The funeral of the late Mrs. Malia Kahai took place from the residence of Hon. J. A. Cummins this afternoon at 3 o'clock. There was a large attendance of friends and acquaintances many of whom followed the body to its last, earthly, resting place.

At the adjourned meeting of the Healani Boat Club held last evening in the rooms of the Chamber of Commerce the following members were elected officers; president, G. E. Boardman; vice president, L. de L. Ward; secretary, C. F. Herrick; treasurer, Albert Lucas; auditor, J. A. Low; Captain A. L. C. Atkinson

☞ IF YOUR HORSE OR DOG is sick send them at once to 205 King Street. The only Veterinary Infirmary in the Republic fully equipped with modern appliances and skillfull attendants.
aug1-1m

Mrs. Thirds, the lately arrived Theosophical lecturer, made her debut before an Honolulu audience last evening, at Theosophy Hall, Nuuanu street, a large number of people being present. In plain, terse language the lady gave to her hearers an introductory insight into the intention of theosophists and the principles of belief of the latter days religion and, besides, gave an answers to many inquiries from amongst the audience. Mrs. Thirds will remain here for some time yet and intends to give another theosophical talk in the near future.

Colon (Colombia), July 30.—Refugees from Rama and Bluefields tell horrible tales of the cruelties perpetrated by General Cabazos and his subordinates when they found Chief Clarence approaching. Not even the women escaped their fury.

Minneapolis (Minn.), July 30.—The third disastrous fire in the history of Minneapolis broke out about 3:30 o'clock this afternoon in the lumber yards of the Shevlin-Carpenter Company, on the bank of the Mississippi river, at the foot of Eigth avenue north. It spread with remarkable rapidity, and before it was controlled destroyed property valued at nearly $500,000.

San Bernardino, July 30.—Last evening about 9:15 o'clock an earthquake shock was felt here, causing doors and windows to rattle. The First Methodist Episcopal Church contained a large congregation, which became panic stricken, but a few cooler heads quieted the people in time to save what might have been a fatal crush at the doors.

ADMINISTRATION'S :-: NOTICE.

THE UNDERSIGNED having been duly appointed Temporary Administrator of the Estate of JOSEPH HEANOPELE, deceased.

Notice is hereby given to all creditors of the deceased to present their claims whether secured by Mortgage, or otherwise, duly authendicated and with the proper vouchers, if any exist to the undersigned within six months from the date hereof, or they will be forever barred; and all persons indebted to the said deceased are request to make immediate payment at the Office of S. K. KA-NE, Corner of King and Bethel Streets, Up-stairs.

S. K. KANE,

Woven :-: Wire Mattresses

Now, for the first time manufactured right here in Honolulu. By the only man outside of the United Kingdom, who uses WIRE, which will not RUST; he having secured exclusive rights to use the same.

PATRONIZE HOME INDUSTRY

is a hackneyed phrase. But if you want to build up a Nation, industries must be fostered. Keep your money in your own islands, and buy a

Non-Corrosive Solid Comfort Spring Bed,

made in Honolulu, which will not SAG or RUST, or,

A Perfection Cot,
Child's Crib, Verandah Chair,
Lounge, Three-Quarters Single and Full Size, Folding Wire Beds.

ARTICLES suitable to your climate; PRICES suitable to the times, as you find them. For the

Best BED in the Market,

I recommend the HARTFORD WEAVE SPRING BED, Treble Wire all through,

WOVEN as fine as cloth. Solid 4 inch. Maple frames, Malleable Castings, Warranted in every particular. Never yet failed to give satisfaction.

I offer these goods to the public with confidence, having made them for years. You can now get your very

Large KOA BEDS,

fitted with a WIRE MATTRESS. Any size made to order.

☞ Buy the BED of the FUTURE, of Messrs. T. H. Davies & Co. Lt'd., Hopp & Co., Williams Bros., I. X. L., Ordway & Porter, or of the Maker

WOVEN WIRE BAILEY,

Hotel Street, Honolulu, (next door to Horn's Steam Bakery.)
aug 14-1m

LADIES' COLUMN.

This something for nothing article, we had in last week has demonstrated three things,

FIRST, that a good many people want something for nothing and

SECOND, the vast difference there is in the ideas of values—the guesses made, ranged from $150 to $2,000, while the nearest guesser Miss Lena Bruns, who wins the Dress Pattern, was $300 under the value of the goods; and the second best guesser Mrs. Harry Lewis was $310 over the value, winning the second prize.

THIRD, that the real judges of values snap up bargains, when a real bargains is offered. 1682 people entered our store last week, of which 1563 made purchases, because, they found what they wanted at satisfactory prices.

This week, Embroideries, Laces, Fedora real Torchon Valenciennes, Black Spangled and Beaded Laces in latest novelties will go; also, we want to call your special attention to LADIES RIBBED VESTS in COTTON at 10 cents, 12½ cents, 15 cents and 25 cents; these have only to be looked at to cause you to buy them. Fine pure white and Egyptian Lisle at 75 cents. All wool Ribbed Vests in white and natural colors. Silk Ribbed Vests, and Merino Ribbed Vests. These goods we carry in low neck no sleeves; high neck, ¼ sleeves, they are beautiful and new goods.

The *Australia* has brought us no end of new things, that we will mention next week.

B. F. EHLERS.
