LATEST NEWS FROM ABROAD.

Good News for Hawaii About the Commercial Relations.

COXEY'S ARMY GETS A BIG SET BACK.

Trouble Brewing For Some San Francisco Bank Wreckers—Gresham's Samoan Policy—Admiral Walker Said to Have Received Instructions to Acquire Possession of Pearl Harbor.

NEW YORK, May 12.—Cuban centrifugal, 96 degrees, 2.90 cents; granulated, 4 cents net.

The San Francisco market is fairly active and receipts continue large.

The tariff bill, as finally agreed upon by the Democratic members of the Senate Finance Committee, was made public on the 7th. Many changes have been made since the committee reported its first bill, but these changes are by no means considered radical. It is believed the new bill, or in other words the amendments to the original bill, will receive the support of all the Democratic Senators, with the possible exception of Hill, who may fall into line when the final vote is taken. There was a story in circulation today that Caffery and Blanchard may oppose the measure because their Louisiana constituents have protested against the abolition of the sugar bounty. It is a fact, however, that the colleagues of Caffery and Blanchard do not appear to be at all worried over this rumor. Neither of the two Senators will discuss the matter. The amendments on the sugar tariff follow:

THE SUGAR SCHEDULE.

The new sugar schedule provides: On and after Jan. 1, 1895, there shall be levied, collected and paid on all sugars not above number 16 Dutch standard in color, and on tank bottom, syrups of cane juice, or of beet juice, melada, concentrated melada, concrete and concentrated molasses a duty of 40 per cent. ad valorem, and upon all sugars above number 16, Dutch standard in color, there shall be levied, collected and paid a duty of ⅛ of 1 cent per pound in addition to the said duty of 40 per cent. ad valorem; and all sugars, tank bottoms, syrups of cane juice or of beet juice, melada, concentrated melada, concrete or concentrated molasses, whether imported from or are the product of any country that at this time the same are exported therefrom pays, directly or indirectly, a bounty on the export thereof, shall pay a duty of 1-10 of a cent per pound in addition to the foregoing rates; *provided, that nothing herein contained shall be so construed as to abrogate or in any manner impair or affect the provisions of the treaty of commercial reciprocity concluded between the United States and the King of the Hawaiian Islands on June 30, 1875, or the provisions of any Act of Congress heretofore passed for the execution of the same.*

On and after June 1, 1895, there shall be levied and collected and paid on molasses testing 40 degrees or less by the polariscope, and containing more than 20 per cent. of moisture, and molasses testing above 40 degrees and not above 56 degrees polariscope, a duty of 2 cents per gallon; if testing above 40 degrees and not above 56 degrees polariscope, a duty of 4 cents per gallon.

Secretary Gresham is evidently bent on trying to duplicate his Hawaiian record in Samoa as far as he can do so. The following dispatch from Washington explains itself:

WASHINGTON, May 9.—The President today submitted to the Senate the correspondence relative to Samoa called for by Senator Gray's resolution of April 6th. The correspondence is very voluminous, covering about 10,000 pages. In submitting it to the President Secretary Gresham has taken the opportunity to set out at length his conclusions as to the workings of the tripartite agreement. This letter of the Secretary is certain to give rise to much discussion and controversy.

The Secretary details at some length the facts connected with the tripartite protectorate in Samoa, the establishment of a new form of government, the election of Malietoa as King, the reluctance of the natives to accept the new regime, the resort to coercive measures, the breaking out of war in July, 1893, the intervention of Mataafa and eleven other chiefs. Then followed the appointment of Henry C. Ide as Chief Justice and the more recent troubles in Samoa.

The Hawaiian Matter.

President Cleveland recently informed a member of the House Foreign Relations Committee that advices had been received from Hawaii indicating that no trouble is likely to follow the formation of a new government, and that the change would be accomplished in a very few weeks.

The President feels confident that a republican form of government for the Islands is assured, based on a constitution similar in terms to that of the United States, and that the administration will be composed of members about equally divided between the present Provisional party and the factions opposed to the deposed queen, but not now represented in President Dole's Cabinet.

Reports asserting that Admiral Walker's mission to the Islands was for the purpose of being on hand to influence the convention in standing by the party in power to give the moral support of the United States in reaching a settlement of affairs, are said to be unfounded.

The statement made by the President showed conclusively that Walker's assignment had nothing whatever to do with Hawaiian affairs in general, but is for the sole purpose of taking possession of Pearl Harbor naval station, ceded to the United States under the treaty of several years ago.

The President informed his caller that Admiral Walker had received instructions to formally acquire possession of the tract of land, survey its approaches from the sea, take soundings of the depth of water leading from the ocean to the inner harbor, and make estimates of the cost of dredging a channel so as to give a draught for any of our war ships.

The Admiral will also survey the land and decide on the best location for piers, warehouses for storing coal and other buildings which may be necessary to give the Pacific station a first-class depot of supplies and coaling station, and a place where minor repairs may be made to ships.

San Francisco News.

The present grand jury is making things tropical for the wreckers of the Pacific and the People's Home banks. The prominence of the men connected with these institutions in this instance does not protect them from the clutches of the law. R. H. McDonald, Jr., as the principal offender was the first to be indicted and he has now been in jail a week being unable to secure bail of $100,000. A second indictment has been found against him and the bail increased to $150,000. So it is expected that he will have to stay in prison till after his trial unless his wealthy father, who is in New York, assists him, and thus far the old gentleman has not offered to do so. R. H. McDonald was president of the Pacific Bank and has had control of the People's Home since its failure. On the 11th inst. another bombshell was fired into the camp of the wreckers in the shape of indictments of Frank V. McDonald, a brother of R. H., Jr., Hiram T. Graves, ex-secretary of the Pioneer Society, Charles Montgomery, proprietor of the American Exchange and Montgomery Hotels, and H. L. Jenkins. The three were released on $50,000 bonds each and will stand for trial. Frank V. McDonald has fled to Japan to avoid explaining how $14,000 of depositors' money disappeared while in his custody. The charges are very grave, and it is among the possibilities that R. H. McDonald will get a term in prison. He declares he is innocent but the facts look the other way.

The Chronicle has furnished the city with a shooting scrape, but this time no damage was done. The shooter was "Jake" Rudolph, an old-time Buckley lamb, and who for years acted as guide and bodyguard to the ex-Boss. Rudolph got into a fighting mood and decided that he would kill Mike DeYoung, proprietor of the Chronicle, for referring to the fact that Rudolph was an ex-convict and a bad man generally. At the business office of the paper the would-be assassin in a loud voice called for DeYoung. J. B. Eliot, business manager of the paper, asked what he wanted. The next moment a big pistol flashed in Rudolph's hands, there was a struggle between the two men, and the weapon was discharged. The bullet struck some coins in Mr. Eliot's left trousers' pocket and glanced downward, making a slight abrasion of the skin on the inner side of the thigh. But for the coin in the left pocket the bullet would have severed an artery and would undoubtedly have caused death in a few minutes. Mr. Eliot succeeded in disarming Rudolph, and the latter was thrown into the street, where a policeman grabbed him. He is waiting trial with bail fixed at $20,000, and DeYoung is wearing a piece of boiler-iron under his vest.

The monument to the memory of the mother of George Washington has at last been completed, and unveiled at Fredericksburg, Virginia. The President and Cabinet were present, Mr. Cleveland presiding at the ceremonies.

William Oldham, of Nottingham, England, will attempt to cross the Atlantic in a ten-foot boat.

Seven bandits entered the town of Southwest City, Missouri, on the 10th instant, looted the banks of $5000, and shot down four citizens before they escaped from the town. It was the boldest robbery since the days of the James boys.

Dick Croker, the boss of Tammany, has finally resigned, and will devote his time to enjoying life.

The drought in California grows more severe, and in western Fresno county is the worst known in twenty years. In the San Joaquin valley the grain crop is almost a complete failure. The fruit crops in many sections will be very short, but better prices will be paid than for many years past, as crops of the same kind in the Eastern and Western States have been almost entirely ruined by frosts.

Wheat is now lower than ever before in this and the New York market.

John Patton, Jr., of Michigan, has been appointed United States Senator

to succeed Senator Stockbridge, deceased.

American News.

The coal strikers on the coal mine throughout the country are still out and in several places in Pennsylvania have resorted to bloodshed and violence to prevent the operation of mines by men who aid not desire to strike. In many instances these unfortunates who were working to keep their families from starving were beaten into insensibility by the strikers and so badly used up that they cannot continue work.

The latest strike is that of the Pullman employs at Pullman, Illinois, numbering 4000. They demand a restoration of the wages of 1893, which were cut 33⅓ per cent. Pullman the Palace Car King, says he cannot pay such wages and declares that he is now losing money on contracts he took to keep his men at work. The latter decline to believe this story and the strike may be a long one. In Chicago, there are about 60,000 men on strike or locked out.

The jury that tried "General" Coxey, the commonweal leader, found him guilty as charged. The charge was carrying a flag upon the capitol grounds and walking on the grass. Carl Browne was acquitted. Coxey will be fined.

A committee of the House is considering the bills proposed by Coxey, which provides for employing the idle men of the country in making good roads, and also for non-interest bearing bonds.

Foreign News.

Gladstone is reported to be rapidly failing, an some steps are being taken to keep his mind actively employed. He has been in active life so long that it is feared the change may result in his death.

The London Spectator is authority for the statement that grave unrest prevails in India and that another outbreak similar to that of 1857 may be feared.

Fighting continues near Santa Ana, San Salvador, between the government troops under Ezeta and the revolutionists. The result is not definitely known, though Ezeta claims decisive victory.

On the 7th inst. in the House of Lords, Baron Hood of Avalon, a Rear Admiral and formerly a Lord of the Admiralty, called attention to the large increase in foreign navies and asked whether the proposed increase in the British navy provided for by British estimates was sufficient to insure to Great Britain the command of the seas. The First Lord of the Admiralty, Lord Spencer, said the Government was determined to maintain the navy and render Great Britain paramount upon the sea.

Important news from Captain Watson of the United States cruiser San Francisco, now lying at Bluefields, Nicaragua, has been received at the United States Navy Department in two dispatches brought to New Orleans by separate steamers and sent thence by telegraph to the department. Captain Watson says that he has insisted that Arguello, who was charged with killing the American, Wilson, shall be promptly tried. He also notified the Nicaraguan authorities that, in his opinion, American citizens are not being adequately protected and that therefore he proposes to give them the necessary protection. He is acting with that end in view.

Another Nihilistic conspiracy has been unearthed in Russia, and over one hundred persons have been arrested in St. Petersburg and Moscow.

THE LOCAL TEAM WINS.

A Junior Team From the Champion Loses by Twenty-two Points.

The Honolulu Cricket Club and a junior team from the Champion played a game on Saturday afternoon at the old baseball grounds. The local team won by a score of 71 to 53. The following is the score:

Dr. E. C. Oggel's connection with the Presbyterian Church of Pullman, Illinois will end May 15. On the 26th he will leave with Mrs. Oggel for Europe, to remain abroad indefinitely. Both will be remembered here.

The Chinese claim to have possessed the art of enameling metals from at least 2000 B. C.

Statistics show that Russia produces and consumes a smaller quantity of beer than any other nation.

The ADERTISER is the leading paper of the Hawaiian islands. It has a larger circulation and prints more live news than any other island paper. Price 75 cents per month, in advance. Ring up telephone No. 88

Mme. Patti's Proudest Moment.

Mr. Arthur Warren asked Mme. Patti what had been the proudest experience in her career. "For a great and unexpected honor most gracefully tendered," said Patti, "I have experienced nothing that has touched me deeper than a compliment paid by the Prince of Wales and a distinguished company at a dinner given in honor of the Duke of York and the Princess May a little while before their wedding. The dinner was given by Mr. Alfred Rothschild, one of my oldest and best friends. There were many royalties present and more dukes and duchesses than I can easily remember. During the ceremonies the Prince of Wales arose and, to my great astonishment, proposed the health of his "old and valued friend, Mme. Patti." He made such a pretty speech and in the course of it said that he had first seen and heard me in Philadelphia in 1860, when I sang in "Martha," and that since then his own attendance at what he was good enough to call my "victories in the realm of song" had been among his most pleasant recollections. He recalled the fact that his wife had held up little Prince George, in whose honor we were this night assembled, and bade him kiss me, so that in after life he might say that he had 'kissed the famous Mme. Patti.' And then, do you know, that whole company of royalty, nobility and men of genius rose and cheered me and drank my health."—Popular Magazine.

An Apache Sea Cook.

Since the days of William Kidd, the talented but unfortunate buccaneer of the Spanish main, there has been a halo of romance over the head of sea cooks. Not one, however, is himself a more unique specimen than the cook of the British ship John Cooke. The vessel is now lying at the Santa Fe wharf after a long and dangerous voyage from Cardiff.

The cook is a full blooded Apache Indian, born in the White mountains of Arizona. His people, the terrible White mountain and Tonto Apaches, have caused no end of trouble to the troops and settlers in Arizona. This man was named Tumashancy (Silver River) and was taken when still a child to Mexico, where he was raised. He has followed the sea for the greater part of his life and has visited every part of the globe, learning several languages, including English, and becoming some years ago a member of the Masonic fraternity.

In civilization he is known as John Levin. He is quite dark, with the Indian physiognomy, and although 60 years of age appears hardly in middle life. He has a Mexican wife and family living on the peninsula of Lower California and says that this is his last voyage. He was picked up in Liverpool by Captain Lillia of the John Cooke. Levin, or Silver River, is an intelligent fellow and a good sea cook and does not seem to be half as bloodthirsty as many other cooks with a far different pedigree.—San Diego (Cal.) Union.

Earthworms Not Blind.

James Weir, Jr., in a curious little study in evolution, shows that all the five senses of man are found in the lower forms of animal life. Darwin, while admitting that earthworms are sensible to light, maintains that they are blind. Weir, in The North American Review, maintains the contrary. He says that the circumscribed spots on the dorsal surface of the worm are primitive eyes. The microscope reveals in these spots a transparent membrane, an accumulation of pigmentary matter, a special nerve spread out in this matter and extending to the central nerve structure. The membrane is the cornea, the pigmentary matter a retina and the special nerve an optic nerve. As there is no lens, the worm can distinguish only light and darkness. The arrangements for the sense of touch are not materially different from those in man. The sense which they are without is that of hearing, but sound waves are conveyed to the sensorium through the sense of touch. That worms have taste and smell can be proved by experiments with food. As to smell, put musk near them, and it is amusing to see them hunting their holes to escape it. "The nerves of taste and smell are blended together and can readily be made out with the microscope in the lips, so to speak, of the oral pouch."—Pittsburg Times.

Very Like a Whale.

The excavation of the ruins of Carthage promises to yield valuable results. The explorers of the Mound of St. Louis have come upon a wall composed entirely of large amphoræ bedded in earth, the numbers of which run vaguely into thousands.

A sinking of the soil has not left many intact, but the most interesting portions, the stamp of inscription which showed the name of the maker and the date of the wine, can generally be recovered in perfect preservation.

The most curious find, however, recorded so far is that of large fragments of a whale's skeleton among the ruins of what is supposed to be the capitol. Although completely buried in the earth, this was not a marine deposit, nor even a relic of the primitive days when Proteus, as the poet says, "Pecus egit altos visere montes."

The mystery is cleared up in a letter of St. Augustine to his friend Deogratias, written in 408 A. D., wherein he makes mention of a bellua marina, "now on exhibition" at Carthage, to prove that Jonah could have found comfortable accommodation for three days' sojourn in the belly of a whale.—Cosmos.

Candid.

Hostess (to Bobby, who is dining out with his mother)—Will you have another piece of pie, Bobby?

Bobby—Yes'm.

Hostess (smilingly)—And so you are one of the fortunate little boys whose mammas let them have a second piece of pie?

Bobby—Yes'm. She does when we're out visiting, but at home I never get but one piece.—New York Telegram.

The Daily Advertiser, 75 cents a month. Delivered by Carrier.

KAMEHAMEHAS AGAIN.

They Defeat the Crescents In Saturday's Ball Game.

	Games Won.	Games Lost.	Games Played.	Per-c'nt'ge.
Kam's....	2	0	2	1.000
Hawaiis.	1	1	2	.500
Crescents	0	2	2	.000

At the end of the first inning of Saturday's ball game, it looked very much as though the Kamehamehas were going to suffer defeat. The Crescents had piled up four runs, and were jubilant over their success with Meheula's curves. Their joy was short lived however, for the crack pitcher soon got down to work, and did not allow the Crescents to make but one more run during the game, while the students made three in the second, three in the fifth and one more in the seventh.

Jock Carter, handling his new bat. The hole shows where the ball escaped when he tried to hit it.

After the first inning, it seemed almost impossible for even the crack hitters of the Crescents to reach the ball. They were retired with amazing regularity, and a number of strike-outs went to Meheula's credit. Several times during the latter part of the game, a base hit would at least have tied the score, but they could not get it, and seven to five was as near victory as they could come.

This was especially so in the eighth inning. The score was seven to four. Holt got his base on balls, and Baker hit safe to right. Carter and Wilder were put out and Lishman got first on an error. This left three men on bases, and a long hit would have made the score even. Pahau, at this critical stage of the game, let a ball pass him, and Holt came home. Baker also tried to get in, but was caught at the home plate and put out. This practically ended the game and the Kamehameha boys in the grand stand shouted themselves hoarse.

The following is the score:

KAMEHAMEHAS.

NAMES.	AB.	R.	BH.	O.	A.	E.
Mahuka, 2 b	4	2	2	1	1	1
Pahau, c	4	0	1	11	0	1
Koki, r. f	4	0	0	0	0	0
Lindsay, 1 b	4	1	1	12	1	1
Kaanoi, c. f	4	1	1	1	0	0
Bridges, l. f	4	0	0	1	0	1
Wise, 3 b	4	0	0	0	4	0
Ruevsky, s. s	3	2	1	1	1	0
Meheula, p	3	1	1	0	14	0
Total	34	7	7	27	21	4

CRESCENTS.

NAMES.	AB.	R.	BH.	O.	A.	E.
Wilder, W, s. s	5	1	0	0	5	0
Lishman, 2 b	5	1	0	1	0	0

Wood, p	5	0	0	0	9	1
McNicol, r. f	5	1	1	2	0	0
Lucas, W, 1 b	5	1	0	13	1	1
Holt, C, 1 f	5	1	3	1	0	1
Baker, c	4	0	1	7	2	0
Carter, c. f	4	0	0	0	0	1
Total	43	5	5	24	20	5

Time of game—1 hour, 50 minutes. Runs earned—Kamehamehas 1. Base on balls—By Meheula 5; by Wood 2. Struck out—By Meheula 10; by Wood 8. Left on bases—Kamehamehas 3; Crescents 11. Two-base hit—Panau. Three base hit—C. Holt. Double play—W. Lucas. Passed balls—By Pahau 5; by Baker 2. Umpires: C. Crabbe and M. K. Keohokalole. Scorer: A. Perry.

SCORE BY INNINGS.

	1	2	3	4	5	6	7	8	9	
Crescents	4	0	0	0	0	0	1	0	—	5
Kamehamehas	0	3	0	0	3	0	1	0	* —	7

NOTES OF THE GAME.

The Kamehameha boys in the grand stand are becoming a nuisance. They keep up a continual yelling and do not give any one else a chance to even hear the umpire's decisions. Several patrons of the game have said that if their noise is not stopped, they would discontinue going to the games.

The Crescents had a new pitcher in the box in the person of George Wood. He did effective work, and struck out several of the students' heavy hitters.

It is said that the reason Jock Carter struck out so many times was that he had just received a new bat from the Coast on the Australia, and did not notice that there was a big round hole in itu until after the game.

The Hawaiis and Kamehamehas will cross bats next Saturday.

A SAD DEATH.

Ettie Lycett Passes Away Saturday Afternoon.

Saturday evening shortly before 6 o'clock Ettie Lycett, a daughter of Mr. and Mrs. J. Lycett, died. She had been ill for some years, and had only returned from a year's visit to the Coast a short time ago. She left nine sisters and two brothers to mourn their loss. Miss Lycett was born in Sydney, N. S. W., and was a little over 21 years old. The immediate cause of her death was a tumor, caused by a bruise.

The funeral took pl[illegible] yesterday afternoon from the Ca[illegible] Church. The floral decorations [illegible] many and beautiful. The [illegible] bearers were D. W. Roach, [illegible]y Miller, John Coakley, Thoma[illegible] Lucas, A. F. Beritzhoff and J. Strow.

Germany has an electrically lighted life buoy.

THF LIEUTENANT'S SCHEME.

A German Army Officer Who Don't Like to Wear Clothes.

On the Australia Saturday there arrived a lieutenant of the German army, who, if reports be true, has decided to give up his former warlike avocation and adopt the ways of peace in a novel manner. Like our own and only Kekipe, he has founded a new kind of religion, and has come here in search of a suitable place to bring his disciples. The lieutenant's name is Boeter, and he is a good thing.

Lieutenant Boeter is a fruitarian. Just what a fruitarian is, only Lieutenant Boeter and his followers know. If it only meant that they lived on fruit it would be very easy to understand. But the new sect has very advanced ideas on other subjcts, and these ideas are such that they will create a revolution among mankind if they are carried out.

A recent number of the San Francisco Call tells all about the new ideas the Lieutenant intends to spring on the unsuspecting Hawaiians. His great and only idea is that it is not necessary to wear any clothes. This has until recently been considered, to say the least, improper. But the Lieutenant does not think so. He says that it is mock modesty to wear any clothes, and he goes on the principle that to the pure all things are pure.

Lieutenant Boeter has eaten nothing but fruit for nearly a year. He says that he used to be sickly, but that since he began his strange diet, he has gained steadily in health and is now a robust man. All this he gives the fruit the credit for. He says that meats and vegetables that grow under ground are not intended for man's consumption, and that it is in direct contravention to the commands of the bible to use them.

The lieutenant has some idea of buying one of the islands and founding a colony on it. He is said to be very wealthy, and money is no object with him. Just what island will suit his fancy is not known at present; but, with sugar at its present price, he evidently has an idea that he could buy Oahu for a song. However, Makee island will probably come nearer his figure.

Hood's Cures

Dyspepsia and Indigestion

Mrs. N. Fiske
San Francisco.

The combination of excellent stomach tonics in Hood's Sarsaparilla is such that, with proper attention to diet, indigestion and even the worst cases of dyspepsia are cured by this medicine. Read this:

"Having for several years been greatly troubled with indigestion, and having seen Hood's Sarsaparilla advertised, I concluded to

HOOD'S Sarsaparilla CURES

give it a trial. To my happiness and great satisfaction I found it to be the only remedy for this complaint." MRS. N. FISKE, 425 Geary Street, San Francisco, Cal.

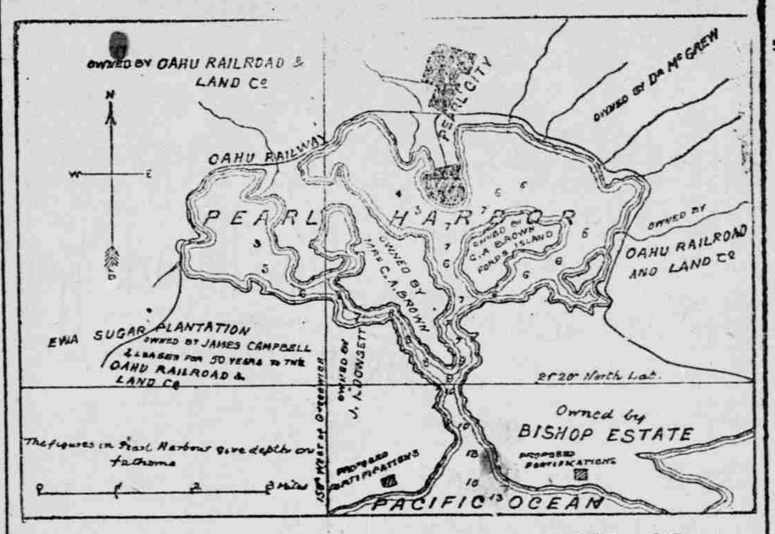
Homes at Pearl City!



THE OAHU RAILWAY & LAND CO.

Offer the Public Another Great Opportunity to Secure Homes in One of the Most Delightful Localities to be Found in the Paradise of the Pacific.

As a healthly resort—PearlCity has already established an enviable reputation. Many good citizens in this community have experienced the wonderful effect produced by a few days sojourn in that dry, cool atmosphere, and give grateful testimony to the relief they have almost instantly gained from severe and long continued attacks of asthma. Physicians acquainted with the climate of Pearl City recommend it as a natural sanitarium.

The Water Supply is Ample.

And can be increased to meet the needs of a population equal to the largest city in the world.

PROF. A. B. LYONS of Oahu College is our authority for stating that the water supply is the purest yet discovered in this country.

SPECIAL INDUCEMENTS TO EARLY SETTLERS!

For ninety days from date we will sell LOTS ON SPECIAL TERMS favorable to bona-fide settlers. For a term of three months from date, lumber and all building materials will be supplied, and delivered at Pearl City at much lower price than ever before obtained.

For further particulars, call at this office or on any of the lumber dealers in this city. Those who now own lots as well as those who propose to become residents of that growing city, will do well to embrace this opportunity. Those who avail themselves of this offer, within the time named, will be entitled to, and will receive the following benefits:

For a term of ten years, this Company will carry such residents and their families from Pearl City to Honolulu in the morning [arriving a little before seven o'clock], and from Honolulu to Pearl City in the evening [leaving Honolulu station a little after five o'clock], for ten cents each way, a rate less than one cent per mile. The rates on all other passenger trains running during the day or night will be 1½ cents per mile first class, and 1 cent per mile second class.

A good school is about to be opened in the Peninsula, in the fine, large, new school-house erected by Mr. J. T. Waterhouse. Residents living at Pearl City heights, [above Pearl City station] and those having homes on the Peninsula, will be allowed to ride free on regular trains between Pearl City stations to and from the Peninsula.

Those who want to continue to send their children to schools in Honolulu, can have transportation on all regular trains to and from Pearl City, for the purpose of attending school at five cents each way for each pupil. This is equal to 24 to 26 miles ride for ten cents.

Equal inducements for those desiring to secure homes in this country have never before been offered to the public.

This Company has been requested from abroad to name the price of all their unsold land in that locality.

Should a clearance sale be made to a syndicate, no opportunity like the present would again occur for the purchase of homes at Pearl City.

"A word to the wise is sufficient."

H. N. CASTLE, : : : : EDITOR.

MONDAY, : MAY 21, 1894.

THE President submitted to the Senate on the 9th instant, the correspondence regarding Samoa. The subject is discussed at length. Secretary Gresham concludes a review of the case, by stating that the departure of the United States from its traditional policy of non-intervention has resulted in entanglements which have brought no good, and has aggravated, instead of removing the evils, existing on those Islands.

ON May 3, a large meeting, which favored woman suffrage, was held in the reception room of "Sherrys," a fashionable restaurant on Fifth Avenue, New York City. The meeting was a rouser. Fifteen hundred women of the richer classes attended. Dr. Rainford, who probably knows more about the condition of the poorer classes in the city of New York than any living person, said that "the so-called ignorant woman is as well fitted for the suffrage as the so-called ignorant man."

ENCOURAGING.

The mail by the Australia brings a despatch from Washington which contains the chief news, and the best news, which has come across the water for many a weary month. The text of it will be found verbatim in this issue. The Senate Finance Committee has inserted in the Wilson Bill a provision exempting Hawaiian products from duty. The duty on all sugars will be 40 per cent. ad valorem, or about a cent a pound. Positive assurances are received from the highest sources that there will be no restoration, and that the President is friendly toward a Constitutional Republic. A vigorous effort will be made to pass the Turpie resolution, which contains a specific declaration in favor of non-interference with the Provisional Government.

President Cleveland, it is stated, has given Admiral Walker positive instructions to acquire formal possession of a tract of land at Pearl Harbor, and of the harbor itself.

The immense significance of all this news is that it outlines the future policy of the administration toward Hawaii and shows that policy to be one of marked and unmistakeable friendliness.

A better and happier day is dawning.

A CHANCE FOR WOMEN.

The need of woman suffrage is clearly demonstrated in the case of Colonel Breckenridge, of Kentucky, who, after being convicted in Court of the most flagrant immoral conduct, presents himself as a candidate for re-election to Congress. His male friends, to a large extent, have rallied around him, and agree with him that no immorality disqualifies a man for statesmanship. The church of which he was a member has again received him, on the ground that his sins are "forgiven," although he persisted in his scandalous conduct for years and until he was "found out." Then he asked to be forgiven, and was informed by the Church that he was "forgiven."

But the women of Kentucky do not take much stock in this comfortable penance, and have the audacity, in the opinion of the anti-suffragists, to hold that he has disqualified himself for public life. They have organized to defeat him by appealing to the voters. Of course they will be met by the anti-suffrage leaders with the question, "What do you know about politics?" just as the militia colonel, pulling on his glittering uniform for the first time, turned on his gentle wife and fiercely exclaimed, "What do you know about war?"

The women will and must have something to say when the church and the "respectable citizens" stand by a man who has polluted, beyond endurance, the moral atmosphere of the country.

A DIPLOMATIC FIASCO.

The correspondence submitted by President Cleveland to Congress on the Samoan matter plainly shows that the Government of the United States has made a miserable failure in the effort to get a footing in the Pacific. The correspondence submitted by the President admits and regrets it.

The trouble arose, as it usually does in such cases, from the ignorance of those dealing with a subject about which they knew little and failed to inform themselves.

The American Commissioner, before going to Berlin for the purpose of concluding the Samoan treaty with Germany, was seriously warned by one who had some acquaintance with Polynesian character, that an agreement based on the good faith and moral stamina of the Samoans, would signally fail, and the result would be complications and disorder. The matter was illustrated to him by an account of the native Hawaiian character, its lack of "sand" and moral staying qualities. The Commissioner was too much of an optimist to assent to these views, and concluded a treaty which has only made confusion, and tends to create in the public mind in America a distrust of any political arrangement with the islands of the Pacific. Whenever the question of annexation is discussed in Congress the Samoan spectre will rise and confront the friends of Hawaii. We have no reason to be discouraged if this should be the case, but the lesson taught us by this foolish act of American diplomacy in the Pacific is that our own case should be so presented that American statesmen may clearly see that in this instance they will have something better to bank on than Samoan character.

PERSONALS.

Miss May Damon has returned from a year's stay at Mills College, near Oakland.

Captain Barker of the Flagship Philadelphia returned from Hawaii on Saturday.

August Dreier, the Kauai planter, arrived on the Mikahala yesterday.

Mrs. Frank Hastings, the wife of the Secretary of the Hawaiian Legation at Washington, arrived yesterday from Kauai.

E. R. Lilienthal and wife accompanied by their daughter and Miss Lilienthal, a daughter of the manager of the Anglo-California Bank, are late arrivals. Mr. Lilienthae is a prosperous San Francisco merchant.

Rev. H. H. Rice, of Oakland, California, and a party of tourists arrived on the Australia and are quartered at the Hotel. They may visit the Volcano and other points of interest.

Colonel J. H. Soper is a late arrival.

W. G. Irwin and W. R. Castle arrived from Maui yesterday on the Claudine.

C. J. Falk, who hails from Mahukona, arrived on Saturday. While at San Francisco he took in the Midwinter Fair and everything else that was worth seeing.

Robert Lewers, the well known local merchant, returned home on the Australia.

Colonel George Macfarlane and his wife and Mr. and Mrs. F. W. Macfarlane were passengers on the Australia. The Colonel was kept busy on Saturday shaking hands and receiving congratulations.

C. B. Ripley has returned after a brief visit to San Francisco.

H. C. Austin, an occasional ADVERTISER correspondent, is in town for a brief visit.

Mrs. H W. Severance and Miss Severance were incoming passengers on Saturday. They were warmly greeted by their many friends.

William Ross, of the Inter Island Company is again in town. Mr. Ross declares that he is glad to get back. He is looking exceedingly well.

Emil Berger, the sixteen year old son of Professor Berger, arrived on Saturday. He has been attending school at San Francisco and will spend his vacation here.

Australian papers use American plate matter.

HOPE FOR HAWAII.

Cleveland Friendly To a Constitutional Republic.

The following highly important dispatch has been received from the Secretary of Legation at Washington through the Consul-General at San Francisco:

SAN FRANCISCO, CAL.,
May 12th, 1894.

SIR:—I have received the following message from the Hawaiian Legation—"Advise Hatch Finance Committee have amended tariff bill by clause exempting Hawaiian products. Duty fixed on sugar 40 per cent. ad val. and upwards, this action gives assurance of friendly feeling among the Senate democrats for Provisional Government. Senator —— will endeavor to push request of Thurston's letter and secure early action on the Turpie resolution. He gives positive assurance against any possibility of restoration in which his colleagues join. A member of the Finance Committee and Foreign Affairs of the House says the President will favor a Constitutional Republic."

Under separate cover I forward my report for the month ending April 30, 1894.

The regular file of papers go forward per bearer this day.

I have the honor to be, sir,
Your most obedient servant,
CHAS. T. WILDER,
Hawaiian Consul-General.

To Francis M. Hatch, Minister of Foreign Affairs, Honolulu, H. I.

GARIBALDI WILCOX WRITES.

He Sends a Letter to Moreno in which he Declares Himself.

Robert Wilcox has written a letter to C. C. Moreno in which he says that a bloody revolution will follow if the Senate fails in its duty to uphold Cleveland, and then says: "Whatever the Senate may do, you may be assured that I will do my duty to my country and that very soon."

COXEY IS CONVICTED.

The three leaders of the Commonweal, Coxey, Browne and Jones have been found guilty of violating the laws by their recent demonstration on the Capitol grounds.

May 14, 1894.

There's a rather interesting bit of loveliness in the shape of a lamp down in our store that we would like you to see. It's been here sometime, because the price was too high for the average lamp user; we've cut it down a half so that it may go to the home of some one who likes really good things for the parlor. Some persons prefer bright metal for lamps, because they are more showy; we don't, neither do most people abroad. Oak makes up into lovely furniture, but where is there a piece of it for parlor decoration that compares with ebony. So it is with lamps—high class lamps, the wrought iron style, as black by comparison as the Ace of Spades, is richer and adds more to the furnishing of a room than a half dozen polished ones. We can give you either style, but the Wrought Iron is the best, this one is better than the best, because it has a fount made of Rockwood Pottery, decorated in subdued tints.

Other lamps, good, bad and indifferent, in so far as styles go, are as thick with us as flies around a sugar barrel. We don't ask you to believe all we say about lamps, we don't believe it ourselves; come along and see for yourself.

Until the tariff business is settled in the United States, there will be a feeling of unrest among sugar producers in Hawaii owing to the doubt about the duty on foreign sugars. To relieve this restless feeling and in a measure to compensate the planter for the loss he may have sustained through the McKinley bill, we have decided to advise every owner of land on the islands to adopt the Jones Locked Fence as a measure of economy. From fifty to twenty-five dollars per mile may be saved by its use and it will be staunch for years when an ordinary fence will fall from its own weight.

COURT NOTES.

Joseph Caecires convicted of murder in the second degree, has been sentenced to twenty years imprisonment at hard labor.

Ben Gallagher for mayhem was sentenced to be imprisoned at hard labor six months and pay a fine of five dollars and costs taxed at $18.50.

Judge Cooper has heard the demurrer filed in the divorce case of Henri G. McGrew by C. L. Carter, his guardian, vs. Alphonsine McGrew. The respondent claims that the statute does not allow a guardian in this country to come into Court and ask for a decree of divorce but that the statute may allow it to a libellant against the party alleged to be a non compos-mentis. The question is a novel one in this country, there having been no divorce granted in the nature of the one now pending before the Circuit Court. A. S. Hartwell for libellant, C. W. Ashford for libellee.

The only divorce granted on Saturday was in the case of Kupihealiilii (w) vs. Kawahahee on the ground of desertion. S. K. Kane for plaintiff.

Hawaiian jurors are required to be in attendance this morning. Causes on the civil side of the calendar will be called, and it behooves every attorney to be present to answer to their cases when called.

Hon. J. Hardy has been reappointed as Circuit Judge for the Fifth Circuit in the Island of Kauai, his commission dating from the 17th instant. Under the new Judiciary law, the appointment is for six years. Formerly it was only for four years.

The will of the late A. Tyler of Molokai has been filed in the Clerk's office, and the testator has left all his personal estate to one J. M. Maunaloa, who took care of the testator while in Molokai. The will was admitted to probate by Judge Kepoikai of Maui on the 5th instant.

"The Vedalia's Ally."

Never was there such a complete vindication as that which has come to Professor Koebele and the State Board of Horticulture in connection with the introduction of the steel-colored lady-bird (orcus chalybeus) as an enemy of the Red Scale.

A confirmed attack all along the line was made upon them during the past winter and spring. They were charged with squandering the State's money, the lady-bird was said to be of no use as a parasite of the Red Scale, and all sorts of abuse were showered upon them. Through it they have maintained a dignified silence, waiting for the vindiction which they knew would come and which has now arrived. A dispatch from Los Anegles states that investigation shows that the lady-bugs have increased in numbers and are making clean work of the scale, with the promise that it will prove as deadly an enemy there too as did the Vedalia to the Cottony Cushion Scale.—Californian.

The Paradise of the Pacific.

The well-known monthly journal "The Paradise of the Pacific" has changed hands and is now owned by Fred Clay and Frank L. Hoogs. Both gentlemen have been trying for some time to get possession of the property and finally succeeded in doing so last Saturday when the transfer was made. The new owners' intend to materially improve the journal in every department.

The Dakota River, with an estimated length of 600 miles, is believed by many to be the longest unnavigable stream in the world.

THE INSOMNIA RECORD.

An Indiana Farmer Sets the Mark High and Puzzles the Physicians.

Since the case of George Woodruff, the Rossville (Ind.) farmer, has been made public through newspaper accounts of his strange affliction numerous inquiries are being received from medical men in all parts of the country. Mr. Woodruff is a substantial farmer, well known in his and adjoining counties.

Some two months ago upon retiring as usual at night he found himself unable to sleep. Woo it as he would, sleep would not come. The next night he was also unable to sleep, but felt no worse for his wakefulness. For two months he has gone with less than an hour's sleep. On the third night a physician was called, but even under the influence of opiates Woodruff refused to close his eyes. The only thing which conquered his ailment was a quart of whisky, taken in rapid doses, and that only produced a half hour's sleep. Then his attending physician gave up the job, confessing his inability to fathom the mysterious ailment. He had heard of people sleeping indefinitely, but here was a case of a man who couldn't sleep at all, and who was apparently none the worse off because of it. Several other medical men took a hand at Woodruff, but each was in turn baffled.

Woodruff complains only of a slight distress in his stomach, but his appetite is unimpaired, and he attends to his duties as he did previous to breaking the record as a man who defied ordinary rules of nature and to whom it was all the same whether it was night or day. About three years ago he had a similar attack, but it lasted only a week.

Reports of his strange disease became current several days ago, but they were discredited. To satisfy all doubters Woodruff has made a statement of the truth of the reports. His physician and family declare that he has slept less than an hour in two months, and that all his faculties are unimpaired. His physician will make extensive comments on the case for several medical journals.—St. Louis Republic

GREATEST IN THE WORLD.

Kiralfy's Projected London Amusement Park Will Cost a Million.

Imre Kiralfy is at the head of a company of English capitalists which proposes to take a long lease of Earl's court, in the west end of London, and build one of the greatest amusement parks in the world. The plan for the enterprise is outlined by Charles B. Atwood, the Chicago architect who designed the Art building and other structures of the fair. He has just returned from London, where he has been assisting Mr. Kiralfy. It is proposed to produce a replica of the Court of Honor as it appeared at the World's fair. The reproduction is to be exact and on a scale of one-third. The lagoon, the MacMonnies and electrical fountains, the peristyle and the facades of all the buildings bounding the court will appear.

Arrangments will be made to reproduce all the grand electric light effects on fete nights. Other features of the amusement park will be a Ferris wheel, 50 feet larger in diameter than the one at Jackson park; a theater capable of seating 10,000 people, in which will be produced "America," and a large hippodrome, such as are conducted in Paris. Over $1,000,000 will be expended in the work of construction.—Chicago Journal.

TAKE PART OF THE TIPS.

Grievance of the Paris Waiters Which Is Considered Just Grounds For a Strike.

There is much dissatisfaction among Parisian waiters, and a general strike among them has been spoken of. It is estimated by their trade society that there are 40,000 of them out of work, and the men contend that the masters take advantage of this to cut down their earnings. Practically, fixed wages are unknown. The men pay so much to the masters in proportion to the business they do. Thus in great cafes on the boulevards they have to pay at the cash desk the full selling price of whatever they serve plus 5 per cent. In some cases, it is said, the rate has been increased of late to 6½ and even 7½ per cent. Of course this percentage represents a portion of their gratuities, which they have to give up.

In Paris the general rule is for customers to give 'tips" at the rate of a halfpenny for every 10 pence expended. This is at the rate of 5 per cent, which would show a loss to the waiter of 2½ per cent on the larger percentage. In practice, however, the tips are higher, as no one gives less than a penny, however small the purchase, and some customers, of course, give more than the recognized minimum.—London News.

Horrible Abuse of Children.

A horrible disclosure has been made in Biskipitz, Austria, by the arrest of a gang of men who for some time have been engaged in crippling children for the begging trade. Several unfortunate children were found in the house with their legs and arms broken and bound in positions of deformity. One little girl had both eyes gouged out. Instruments which had been used in producing physical deformities were discovered in the cellar. After the children, who had been stolen, were sufficiently deformed they were sold to other persons for begging purposes.—Vienna Letter.

An Aged American In Italy.

David Dudley Field, who is enjoying his tour in Italy with all the enthusiasm of a young traveler, celebrated his eighty-ninth birthday in Rome. He was entertained at luncheon by Mr. Terry, the veteran American artist. Mr. Potter, the American minister, and his wife and several others of his countrymen congratulated the hale, hearty old man. Mr. Field is now in Florence and will remain six weeks more in Italy.—Rome Letter.

FROM THE OTHER ISLANDS.

The News That Has Been Agitating Our Near Neighbors.

MARVELLOUS TOUR OF A MAUI COW.

Kohala Plantation to Have Splendid Facilities for Putting Their Sugar on Board Steamers—A Hilo Japanese Who Has the Ideas of a Financier.

MAUI, May 19.—During the 18th inst., the Friday evening before full moon, three score or more of Makawao people filled the parlors of Mr. and Mrs. H. P. Baldwin, of Haiku, not only to enjoy an interchange of social compliments, but also to appreciate the following programme of the monthly meeting:

1. Piano solo.....F. E. Atwater
2. Piano Solo.....Miss Grace Dickey
3. Recitation — "Little Orphan Annie".....Lottie Baldwin
4. Piano solo..... Miss Chamberlain
5. Recitation—"The Shadow of Doom".....Miss Grace Dickey
6. Duet (piano and violin).. ....Messrs. Atwater and Gilhus
7. Recitation — "The Wreck of the Rivermouth"..... ....Miss Chamberlain
8. Vocal solo..... .....Miss Nape
9. Piano solo.....Miss Morris
10. Shadow scenes (arranged from "The Rose and the Ring").....Thackery

Between Nos. 9 and 10 occurred an intermission of ten minutes, which was devoted to conversation, the topics and partners being assigned by the wording of sundry cards.

The question concerning the next probable engagement created the most interest and amusement.

"The Rose and the Ring" shadow pantomime deserves special mention, the arrangement and abridgement from the witty story being a bit of clever work.

After sandwiches and coffee, ices and cake, a chat, and a waiting for a shower to cease its pitter-patter, the May evening of the Literary Society was a pleasing event of the past.

STRAY SCRIBBLINGS.

The Kula Chinese are unduly fond of the opium pipe. Deputy Sheriff Hocking has been marching them in to jail all the week.

Tonight (19th) at the Wailuku skating rink occurs a "grand athletic and scientific entertainment by the local sporting men of the Pacific Athletic Club." The events de la programme will consist of slack-wire w..king, club swinging, wrestling, and much sparring. Among the galaxy of champions mentioned appears the name of James Barrington.

Hamakuapoko's highest run is exactly 267.57 tons of sugar in six days, a slightly better record than was reported last week. But, alas for fame, Fortune, the fickle jade, has this week turned her back and there was a break-down in engine and trash carrier, and eighty cars of Hamakuapoko cane were shipped to Paia to be prepared for market by a rival mill. The disaster, though only a slight one, will probably take two weeks to make good.

Among the arrivals per this week's Claudine were Messrs. W. R. Castle and W. G. Irving, who, accompanied by Mr. H. P. Baldwin, immediately departed for Hana—Reciprocity Plantation, probably; Mrs. H. G. Alexander, who returned from a visit with Mr. and Mrs. L. A. Thurston, of Honolulu, and Captain L. A. Andrews, who made a short stay in Wailuku.

Stray Japs, arrayed, like McGinty, in their best suits of clothes, are frequently encountered on Maui roads. The police are investigating and searching for an explanation as to their means of support.

The members of the Sunrise Tennis Club, of Haiku, are fast becoming experts through constant practice.

Just below Hamakuapoko mill a 42-inch (as it is stated) iron pipe of the Spreckels ditch crosses a gulch. One day during the present week a cow was seen to shoot out of the makai end, and a Portuguese woman standing by loudly bewailed and lamented what she thought to be the untimely end of her valuable animal. However, the cow was not dead, only stunned and decidedly groggy, to be sure, but by the morrow as well as ever, barring a fractured leg and a broken horn. Previously boars and horses have been shot through this pipe, but forever "hors de combat" upon reaching the makai terminus.

The schooner Maid of Orleans, McLeod master, departed for San Francisco on Wednesday, the 16th inst., laden with H. C. Co.'s sugar.

On Sunday, the 13th inst., the schooner Anna, Captain Norberg, arrived in Kahului harbor. She brought some bales of bags for Paia plantation, but mostly ballast. Her log showed eleven days' passage. On Thursday, the 17th inst., she sailed for the Coast with a freight of Haiku and Paia sugar.

Weather — Trade winds, with but little moisture.

HILO, HAWAII, May 17th, 1894.—Another Hilo store has the Sheriff's padlock on its front door. Nakatskassa the former owner of the place four years ago was a contract laborer with the Onomea Sugar Co. One morning the happy thought of going into the store business took possesion of him and he immediately converted the idea into a fact by borrowing some five hundred dollars from his friends, buying his unexpired contract from the plantation, renting a store in Hilo, selling goods at prices the sound legitimate houses could not compete with and paying interest on money borrowed from his countrymen at 5 per cent. a month. He has done this for four years and the original five hundred dollars has been transformed into five thousand dollars, the greater part of it owing to Honolulu merchants. This is only one example of many and it is to be regretted that Hilo merchants doing business on a sound basis cannot be better protected against these mushroom growths.

Mrs. E. G. Hitchcock was tendered a lunch and reception by her daughters last Wednesday, the 9th inst. Many of Mrs. Hitchcock's old Hilo friends were present, with some new faces. Covers were laid for sixteen guests and a dainty luncheon was served to them by Mrs. G. E. Thrum and Miss Lowrey.

The following names were those present:

Mesdames S. L. Austin, F. S. Lyman, Rufus Lyman, J. P. Sisson, L. S. Severance, Van Atta Le Blond, V. H. Curtis, C. C. Kennedy, C. E. Richardson, Jules Richardson, A. B. Loebenstein, Maxwell, Weight, Miss Chamberlain.

Last Friday evening the 11th inst. a number of Mrs. Jas. Gibb's friends engaged two of Wilson's volcano coaches and in defiance to very threatening weather, sallied forth to say good bye to Mrs. Gibb at her home on Wainaku. Dancing and music brought the hour of parting all too soon. If the wishes of Mrs. G.'s friends are fulfilled, she will have a very pleasant visit to her old home in Aberdeen. She leaves on the bark Annie Johnson and expects to be gone about six months. Mr. Gibb hopes to be able to go on a flying trip and bring her back.

Mr. Frank Damon, who has been a guest of Mr. and Mrs. Terry, was tendered a reception by them on Monday evening the 14th inst., when a number of townspeople met him in pleasant conversation.

Rev. Mr. Hill of Benecia preached morning and evening at the First Foreign Church on the 13th inst. He is at present the guest of Judge Lyman.

Mr. H. L. Holstein is here on business not political. He says the Kohala people are very indignant at not having a representative in the Convention.

The ice and soda water companies have done a brisk business the last few days. The thermometer has registered somewhere near ninety, and the snow is fast disappearing from Mauna Loa.

Marshal Hitchcock expected to return to Honolulu this steamer, but has changed his mind and will probably return by the next.

The monthly church social will be held at the residence of Mrs. J. A. Scott, Wainaku, on Friday evening the 18th inst., when a pleasant time is anticipated.

The Onomea Sugar Co.'s warehouse is clear of sugar, the first time since the mill started up in January.

The steamer Kinau leaves Hilo today at noon, which gives the tourists an opportunity to view the Hilo and Hamakua coast, something well worth seeing.

The bark Annie Johnson arrived here on the 9th inst., fourteen days from San Francisco. The schooner Spokane arrived on the 15th, twelve days from the same port.

KOHALA, May 18.—The schooner J. G. North brought up a load of material for building warehouses and wharves at Honoipo. Mr. R. R. Hind has secured the necessary land around Honoipo, and will open that port specially in connection with sugar traffic. His own plantation, and possibly others, will ship their sugar in future from Honoipo. A large cable will extend from the bluff to a buoy some distance out in the harbor, and a car is to work up and down the cable, dropping the sugar into the sailing vessel, which will be anchored midway under the cable. By an ingenious contrivance, the loaded car, in descending, generates power enough to haul up the empty car again. A donkey engine stationed on shore will haul up the car when landing freight from the vessel. Everything is to be in working order for next year's crop. We understand the buoys are already placed and the plant landed, and work will at once begin in erecting the warehouse and other buildings.

The new Music Hall here is almost finished, and is a structure the Kohala people may well be proud of. It will be formally opened by a grand public ball on the evening of Friday, May 25th.

There have been a good many interesting social entertainments of late, one of which was "Dickens' Evening" by the Literary Club, at the residence of Mr. James Renton, of Union Mill. The club appeared in costume, representing various characters from Dickens' works, and the costumes were singularly good. The papers read were "The Life of Dickens," by Mrs. J. Hind; Dickens' Literary works, by Mr. E. C. Shorey; "Bleak House," by Mr. J. Barnett; "David Copperfield," by Mr. G. F. Renton. There were selected readings and recitations from Dickens' works, by Mrs. Dr. Bond, Miss C. Bond and Messrs. W. P. McDougall and G. P. Tulloch. The Literary Magazine was read by the editor, Dr. Bond, and was of more than usual interest. The evening closed with an exhibition of Mrs. Jarley's waxworks, a great semicircle of draped statuary, embracing every curiosity you can think of, from Captain Kidd to the Chinese Giant. Miss Bruce officiated as Mrs Jarley, delivering an intensely interesting descriptive address, after which the waxworks were wound up, and went through their motions almost as naturally as if alive. They had to be wound up two or three times before the audience could be controlled. After this, performers and guests sat down to an elaborate refection prepared by the hostess.

The friends of Mr. H. L. Holstein are rather disappointed at that gentleman's failure to get a seat in the Constitutional Convention. But, in general, we feel that the Island of Hawaii is fairly well represented by the men chosen.

Planting has begun throughout the district. Niulii is the only mill still grinding.

The late John Parker's many relatives in Kohala have the profound sympathy of the entire community.

Mr. and Mrs. Kynnersly have returned from their Honolulu trip, and Mr. and Mrs. Henry Renton are welcomed in our midst. The young couple are receiving the congratulations of their scores of friends and well wishers here.

The weather seems to be settled, and, judging from the nightly sounds of horses' feet on the roads, the moonlight nights are proving attractive to the young folks.

IMPORTANT!

National and Citizens' Guards.

Having now arranged for the insertion of the Process photos on the HISTORY OF THE REVOLUTION of nearly all the social and political bodies connected with the Revolution we feel that there is nobody that deserves to be placed more highly on record than those citizens that at great inconvenience banded themselves together to protect life and property during the stormy days of the formation of the Provisional Government, and have decided to devote a series of pages to the officers and privates of the National Guard and Citizens' Guard. Some thirty or forty names have already been sent in and we shall be grateful if any member desiring to appear will send word to Mr. Wellesley Parker care of this office when he will immediately call and furnish full particulars.

Early attention to this is requested as the pictorial pages to the History must positively be closed next week.

Provisional -:- -:- Government

The Crisp photo process, by which "The History" will be illustrated, is acquiring a well-merited reputation for excellence, the productions being artistic trimuphs.

An instantaneous success!!! The project received by the business men of Honolulu in a most enthusiastic manner.

Art connoisseurs warm in its praise. "An artistic gem of the purest ray serene." TO BE PUBLISHED IN 1894.

The historians have commenced with the frame-work of the construction, setting forth the remote causes of events and the motives of human action; and follow up their connection with other developments, and present the whole in a finished exterior of hich literary worth. The foundation principles of government, the predominant sentiments swaying human minds at different epochs, the physical condition of different parts of the land, the nature of different influences brought to bear upon the people, have all been closely studied, and the effects philosophically traced. Accuracy of statement, soundness of reasoning, clear presentation, and high literary merit will be the commanding aspect of this ambitious effort. It will be published in an attractive form containing over 200 pager,—fully illustrated, supplied with many maps and plans, containing tables of useful information and a complete index, it comprises all the accompaniments necessary to complete a work of its character.

SYNOPSIS:

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

The attention of Planters and Agents is called to the following letter from Mr. JOHN A. SCOTT, Manager of the Hilo Sugar Co., regarding the working of the National Cane Shredder, which he has just introduced into the Mill of that Company:

WAINAKU, HILO, HAWAII,
January 22d, 1894.

HON. WM. G. IRWIN, HONOLULU, H. I.

DEAR SIR:—In reply to yours of the 16th inst. regarding the National Cane Shredder furnished by the Universal Mill Co. of New York, and erected by the Hilo Sugar Co. this past season,

I would beg to say, that it has now been in operation day and night during the past three weeks working on plant cane, and also hard ratoons, and it is giving me the greatest satisfaction. The more I see of its capabilities, the better pleased I am that I put it in, as I am satisfied that it will repay the original outlay in a short time, in saving of labor, higher extraction, etc.

It is shredding from 350 to 400 tons cane every 22 hours with the greatest ease, and it could shred a much larger quantity if necessary. It delivers the shredded cane in an even uniform feed to the three roller mill, which receives it without the intervention of any labor, and as the cane is thoroughly shredded or disintegrated it relieves the mill of a great deal of strain, thus reducing the liability of broken shafts, gearing, etc.

There is a saving of four (4) men daily on the mill, as only one man is required to regulate the amount of cane delivered by the carrier to the shredder. It has increased the extraction from 4 to 5 per cent.

The economical use of steam is generally a serious consideration in adding new machinery, as in most mills the boiler power is taxed to its highest limit, as it was in this mill, and any increased demand necessitated an additional boiler. But I find that the shredder and the three roll mill engines combined use no more steam than the three roll mill engine did when working on whole cane, while doing better work and more of it, and owing to the uniform feed on the mill, the engine demands very little attention.

The Megass from the shredded cane makes superior fuel, and the firemen have less difficulty in maintaining a uniform pressure of steam than formerly.

I will be pleased to have a call from parties interested, as it is necessary to see the machine at work to fully appreciate its capabilities.

I remain, very truly yours,
(Sig.) JOHN A. SCOTT,
Manager Hilo Sugar Co.

☞ Plans for erection of these shredders may be seen at the office of the Agents, where prices and other particulars may also be obtained.

Daily Advertiser, 75 cents a month.

LOCAL BREVITIES.

A tenement is for rent.

The Jockey Club will meet to-night.

The Jockey Club will meet this evening.

Sugar was quoted at $2.90 at last accounts.

This is positively the last week of the Dailey company.

The American League will nominate officers this evening.

Two natives were hauled in yesterday for selling swipes.

The Hawaiis and Kamehamehas will play the next league game.

A sale of stock will be held today at noon at Morgan's auction room.

The members of the American League will meet tonight to nominate officers.

The seaside residence of James Love will be sold at noon today at Morgan's sales-room.

Purser McCombe, of the Australia, has the thanks of the ADVERTISER for news favors.

If yon don't go to the Pantheon for some of their new bottle beer, you will miss a good thing.

At the concert at Emma Sqnare tonight the band will play a new selection, entitled "Liberty Bell."

J. Franklin Brown, the well-known hypnotist, intends to pay a visit to this city at an early date.

There is a movement on foot to form a club for the purpose of giving a monthly dance at Remond Grove.

Mrs. J. L. Lewis sang at Kawaiahao Church yesterday at both services. She has a very pleasing voice.

Nawahi is said to be making a ramrod to use in his salute of 101 guns that is to take place when the Queen goes back.

Marshal Hitchcock will return on the 29th inst. Police Captain Andrews is in town again. He returned from Maui on Saturday.

An excursion party numbering seventeen persons arrived on the Australia. The members will take in the volcano during their stay.

Mr. and Mrs. J. Lycett wish to express their thanks to all their friends who were so kind to them during their recent bereavement.

The serpentine dance has captured Honolulu, and the nights that Miss Gassman has been billed to appear in the dance have seen crowded houses.

In an interview President Cleveland informed a member of the House that Admiral Walker had received instructions to formally acquire possession of Pearl Harbor.

Ireland will be on view at Kawaiahao Church this evening. Mrs. Gans will introduce a number of her new Hawaiian views into the lecture, which bids fair to be a most interesting one.

Dr. Twombly preached his farewell sermon to the congregation of Central Union Church last evening. He leaves on the Australia Saturday. On June 3d, Dr. Coyle, of Oakland will occupy that pulpit for three weeks, and during July and August Dr. Penrose will preach.

A native named Kanakaokai was found on Emma street early yesterday morning insensible. He was taken to the police station, where, a few hours afterwards, he died in an epileptic fit. Dr. Cooper held an autopsy on the body of the unfortunate man during the afternoon and found that he died of epilepsy.

At the Theater.

A large audience was present at the Opera House Saturday night to see the Dailey Company in the "Crushed Tragedian" and "Mulahey's Visit." It was announced that both comedies were constructed for laughing purposes only, and judge from the hearty laughter which was heard on all sides, the skits accomplished their mission. The company will appear again tomorrow night in "The Celebrated Case."

Thrown From Her Horse.

While Miss May Cummins was returning home from a luau at Waikiki yesterday, she was thrown from her horse, and, it was at first reported, quite seriously injured. Inquiry at her home last evening, however, proved the rumor as to her injury to be incorrect.

Daily Advertiser, 75 cents per month. Delivered by Carrier.

A SILVER CUP.

Mr. Hopke Pleasantly Remembered by a Host of Friends.

A. F. Hopke, who has been a resident of Maui for fourteen years, a number of which he has been in charge of the Spreckelsville store, besides holding a position as Consular Agent of the United States, leaves the island on the 24th of this month, as he will return on the Australia to his home in the States. Mr. Hopke has made many warm friends during his prolonged stay on Maui, who showed their esteem the other day in presenting him with a very handsome silver "loving" cup, the work of Mr. Wichman. Mr. G. P. Wilder presented the cup, along with a brief speech, which was still more briefly responded to, as Mr. Hopke was somewhat overcome.

Besides a number of Mauites, several gentlemen from Honolulu were present, who joined with the company in wishing Mr. Hopke many prosperous years to come.

To Let.

THE TAGAWA COAL MINE!

is located in Fukuoka Ken in the Island of Kinshui, Japan, and was discovered about twenty years ago. It was owned by the government and mined simply for the government's use.

Great improvements, however were made since it was sold to a corporation about six years ago, by importing mining machinery from Europe and America.

TAGAWA COAL

is used more than any other Japanese coals in the following countries: China, Manila and Strait's Settlements. It has found its way even to Bombay.

Two cargoes have been imported into the Hawaiian Islands recently, and it has no superior in this market as stove or steam coal.

DIED.

LYCETT—In this city, May 19, 1894, Ettie, beloved daughter of James and Annie Lycett, aged 21 years and 3 months.

WHARF AND WAVE.

DIAMOND HEAD, May 20, 10 P. M.—Weather clear; wind, light northeast.

The W. G. Irwin sailed for this port on the 9th inst.

The Mary Winkelman left for San Francisco on Saturday.

The steamers Pele, Mikahala and Claudine arrived yesterday.

A jib on the steamer Pele was blown away yesterday while the vessel was making her way to this port.

The Charleston has been ordered to Montevideo, when she will probably get orders to proceed to the Pacific station.

It is understood that Purser Piace, formerly of the Likelike, will succeed Archie Gilfillan as freight clerk on the Claudine. Mr. Gilfillan joins the custom house force today.

The steamer Kinau arrived from Hilo and way ports on Saturday. She brought nearly 8000 bags of sugar besides a lot of general merchandise. She had a good-sized passenger list.

The schooner G. W. Watson did not get away on Saturday and the chances are that she will leave for San Francisco with a cargo of sugar instead of for Port Townsend in ballast. The matter will be settled today.

The Australia arrived about 6:30 o'clock on Saturday morning, from San Francisco. The voyage down was a most pleasant one. She brought sixty cabin and thirty-eight steerage passengers, and thirty-seven bags of mail.

The sealing schooner Matthew Turner is reported lost. No particulars are given, but it is thought that she struck a hidden rock along the Aleutian Islands and went to the bottom suddenly. All hands are supposed to have gone down with the vessel.

SAN FRANCISCO ITEMS.

Arrivals—May 5, s.s. Australia, 6 days 14 hours; 7, King Cyrus, 18 days; schr. Lizzie Vance, 22 days; schr. Transit, 21 days, all from Honolulu; 8, bkt. C. F. Crocker, 17 days from Hilo; schr. Robert Lewers, 20½ days; schr. Lyman D. Foster, 19 days; 10, s.s. Alameda, 6 days 19 hours, all from Honolulu; 11, schr. Olga, 23 days from Mahukona.

Departures—May 3, schr. Spokane for Hilo; 9, brig W. G. Irwin for Honolulu.

Projected Departures—May 29, s.s. Gaelic for Yokohama and Hongkong, via Honolulu; 31, s.s. Alameda for the Colonies, via Honolulu; June 28, s.s. Belgic for Yokohama and Hongkong, via Honolulu. Schr. Aloha, bark Ceylon, bkt. Planter, bkt. S. G. Wilder, schr. Transit, bkt. W. H. Dimond, all for Honolulu; brig Lurline for Hilo; schr. Allen A for Mahukona.

Victoria—May 10, arrived s.s. Warrimoo from Honolulu.

Hongkong—May 9, arrived Haw. ship Helen Brewer from Honolulu.

Port Townsend—May 8, arrived bark Hesper for Honolulu.

The hull of the wrecked steamer Los Angeles, off Point Sur, is breaking up. An official investigation is being conducted by the United States inspectors. Mate Ryfkogel, who was charged with carelessness, has been acquitted of a charge of manslaughter by the courts of Monterey country.

The British steamer Miowera is now at Newcastle-on-Tyne undergoing necessary repairs occasioned by her mishap at Honolulu. It is intended to have her fitted up with refrigerating machinery, so as to develop the growing trade in frozen meat. Before leaving for Australia she is expected to make several trips from Newcastle, England, to Norway, and upon her arrival at Australia will resume her old running in the Canadian mail service.

Captain Herksen, an old-time shipmaster who is well known in this port and was here last year in command of the German bark J. C. Glade, is now at Port Glasgow, on the Clyde, superintending the building of a new steel ship at Russel's yard for the Laitz German line of vessels. Laitz is known as the Nitrate King of Germany and has a large fleet of vessels sailing to the West Coast. The new vessel which will be finished in June, will be called the H. F. Glade and will run in the Hackfeld line between Bremen, Honolulu and this port.

SAVED TWO LIVES.

Heroic Act of an Apprentice on a British Ship.

VANCOUVER (B. C.), May 3.—Last night the little son of Captain McRae of the American barkentine Kitty Flickinger fell overboard into the chilly water of Burrard Inlet before the eyes of his mother.

Mrs. McRae immediately jumped over after him, but being unable to swim both would probably have been drowned had not Dick Tibbett, an apprentice on the barkentine Xantippe, lying alongside, gallantly plunged in after them.

He succeeded in holding both above water till a boat arrived, though terribly exhausted, and could not have held them much longer. This evening Tibbett was presented with a gold ring by Captain McRae.

Public Concert.

The Hawaiian band, under the leadership of Professor Berger, will give a concert this (Monday) evening at 7:30 at Emma Square.
