AFFAIRS OF FRANCE AND TURKEY NEARING A CRISIS

The French Ambassador Breaks Off Diplomatic Relations With the Porte.

CONSTANTINOPLE, August 21.—The French Embassador, M. Constans, has notified the Sultan's secretary that all diplomatic relations between France and Turkey are broken off and that the Embassador has informed his Government to that effect. M. Constans communicated directly with the Sultan because the latest negotiations were transacted with the Sultan personally.

The Embassador justifies his action on the ground that the Sultan broke his latest personal promise, given to M. Constans at an audience in the Yildiz Palace on Thursday, regarding the purchase of the quays and the settlement of the disputed French claims.

The Foreign Minister also gave formal assurances that the agreement would be carried out, so in view of this breach of faith M. Constans holds that it is impossible for France to continue diplomatic relations with Turkey.

SULTAN MUST KEEP FAITH.

PARIS, Aug. 21.—A high official of the Foreign Office said today that the exact situation at Constantinople is as follows:

The Sultan at the last audience which was granted to M. Constans, the French Embassador, agreed to send to him on the same or the following day a document giving complete satisfaction to France regarding the claims of French subjects and in the matter of the quays, in accordance with the terms arranged between the Sultan and M. Constans finally, instead of doing this, the Sultan waited until yesterday, when he sent M. Constans a document, the terms of which differed essentially from those arranged at the audience.

Thereupon M. Constans declined to negotiate any further or to hold other communication with the Porte, and referred the matter to the French Foreign Office. His dispatch to that effect arrived last night. As the matter stands relations between M. Constans and the Porte are broken off, but France and Turkey are still in diplomatic relations through the Turkish Embassador at Paris.

"If the Sultan does not keep the promises which he made at the last audience," continued the informant, "we will have to recall M. Constans and send the Turkish Embassador his passports. A solution one way or the other is probable within the next two days."

Replying to a question the Foreign Office official said:

"No naval action on the part of France has yet been decided on. The stories in the papers to the effect that French warships are under orders to be in readiness to proceed to the Bosporus have no foundation in fact.

FRENCH ACTION APPROVED.

LONDON, Aug. 22.—Diplomatic opinion in London generally approves of the French action toward Turkey. It appears that the chancelleries of Europe have been considerably annoyed by the Sultan's recent efforts to reassert himself and to shake off the limited control exercised by Europe over certain parts of his administration. The Sultan's dispatch of a mission to the Far East was also displeasing to the great powers. The latter, therefore, are expected to generally welcome France's rebuff of the Sultan.

The morning papers today, commenting upon the Franco-Turkish situation, consider that the action of M. Constans was fully justified. They do not anticipate any serious results, believing the Sultan will ultimately yield.

FRANCE SENDING WARSHIPS.

PARIS, Aug. 22.—The Matin this morning announces that the French second class cruiser Cassard started for Turkish waters yesterday and that a naval division is ready to follow.

THINKS THERE WILL BE NO WAR.

NEW YORK, Aug. 22.—Edward Brunet, the French Consul-General in this city, ridiculed the possibility of a war between his country and Turkey. "The trouble arises," he said, "over the wharves in Constantinople. A French company built wharves where they were to charge vessels for docking privileges and the Turkish Government guaranteed the income to a certain fixed sum yearly. If the income from the wharves did not reach that amount the Turkish Government was to make up the difference. The income did not reach the sum fixed and the company wants Turkey to make good its guarantee.

"There comes in another question. You know France has a postoffice of her own in Constantinople. Turkey does not like that. She says it interferes with her postal service, but France will not consent to do away with her postoffice. Then Turkey tries to force France. She says very well. You keep your postoffice and we will keep the money belonging to your wharf company.' Now France wants to have both the postoffice and the wharf company's money. She has had the success your country has had in collecting money from the Sultan and she is going to collect the money due her.

"But war! No. This is what you call war. It is like two children. One says it will not play with you,' and goes away. Then they don't speak until one of their mothers or a friend makes it up between them. You may think of war when President sends Munir Bey, Turkey's Embassador in Paris, his passports. France will not do that, though Munir Bey is not very well liked in Paris."

Mehmet Webb, the Turkish Consul-General in this city, also said that he did not think there was a possibility of war between France and Turkey.

Sugar Prices Drop.

NEW YORK, Aug. 19.—The American Sugar Refining Company and all the independent companies have reduced all grades of refined sugars ten points to the basis of 5.25 cents for standard granulated.

MINISTER MAY PROTEST.

WASHINGTON, Aug. 21.—Minister Takahira of Japan has received a copy of resolutions recently adopted at a mass meeting of the Japanese residents of Honolulu, protesting against the alleged action of Dr. L. T. Coffer, United States Quarantine Officer at that port, in subjecting S. Okabe, the Japanese Vice-Consul at Honolulu, and his wife to a physical examination upon their arrival there on July 25th.

At the Japanese Legation today it was stated that as yet no formal representations have been made to this Government. The communication from Honolulu asked that the matter be brought to the attention of President McKinley and the United States Senate and House of Representatives. It is thought here that the request was put in this shape because of the unfamiliarity of the usual procedure in such cases. The Japanese Consul-General at Honolulu also was supplied with the resolutions and forwarded these, together with other details of the occurrence, to his Government. Therefore, Minister Takahira probably will await instructions from Japan before bringing the matter before the State Department, or otherwise presenting it officially.

VENEZUELA WARS WITH COLOMBIA

Invasion of Territory Is Followed by Severe Conflict--May Lead to Complications.

WASHINGTON, August 21.—Conditions in Central America are such that the United States will be represented by ships and men on both sides of the Isthmus to insure the railroad being kept open and to prevent damage to American interests. Meanwhile all reports are that Germany is sending vessels to protect the German commercial interests.

The Department of State has received a dispatch dated August 1 from the Consul at Maracaibo reporting that Dr. Rangel Garbiras invaded Venezuela with 4,000 men from the frontier of Cucuta. Everything was done by the Venezuelan Government to meet the invaders.

The first fight took place at Encontrados and the invaders were obliged to retire.

The invaders took two steamers to come to Maracaibo, but these boats were recaptured by the Venezuelan troops.

A statement by Secretary Cardenas of Venezuela says: "While the Government of Venezuela was surprised by the first and second invasions of her frontier by 6,000 and 2,000 men, respectively, the invaders were victoriously expelled by the Government and the people of Venezuela. Since said events 10,000 men have been massed on the frontier for the defense and integrity of Venezuela and its national honor. These are quite apart from her active service troops on other parts of the frontier, as well as national troops scattered over the republic and the reserve militia now under arms."

Other advices from Venezuelan sources say: "The Caracas Government has been officially informed by the commander of our army in San Cristobal that among the troops that invaded Venezuela were the Colombian battalions of Sucre, Bombana, Giraldot, Vencedosre, Teneriffe and seventeen more commanded by Government officers.

"My advices also say that the dead, wounded and captured wore uniforms of the Colombian army. Two of the prisoners wore the insignia of the 'Grenadiers of Cucuta.' Authorities on the frontier have ordered a close investigation, and it is expected that it will yield some further telling evidence of Colombia's complicity in the two unsuccessful raids on our territory."

Meantime the United States ordered the Machias from this side to proceed down the Coast and the Ranger from San Diego to be followed by the Iowa. Other ships will be sent if necessary. Trains on the Panama railroad were threatened but communication goes on without interruption so far. The intention of the Government is to have a force of marines to maintain peace and keep the line open. No fear is felt here that Germany will interfere, but there will be a strong naval force to maintain peace.

ST. PETERSBURG, August 22.—The Novoe Vremya says:

"The fact must not be lost sight of that the German press is already beginning to urge the dispatch of German warships to the coasts of Venezuela and Colombia, on the ground that it is difficult to foresee the outcome of the conflict between those republics. Should the German Government follow these councils a German-American conflict may easily be started upon the dispute between Colombia and Venezuela. The United States remain a stout supporter of the Monroe doctrine of 'America for the Americans.'"

TWO VIEWS OF THE BIG 'FRISCO STRIKE

A Summary of the Present Status From Both Standpoints. Effect on Flour Trade.

Sand Teamsters Were Wavering But They Have Been Induced to Get Into Line Again. Non-Union Waterfront Workers.

SAN FRANCISCO, Aug. 22.—The strike situation has not changed in any important particular. A few more non-union men were put to work at Port Costa and along the waterfront, but additions to the working force were not made in the wholesale district nor at the Union Iron Works. The sand teamsters, who were reported to be wavering, were addressed by Secretary Rosenberg of the Labor Council and Grand Organizer Pierce at their meeting last night, and they declared anew their loyalty to the cause.

SAN FRANCISCO, Aug. 18.—Representatives of the employers give the following resume of the situation, and condition of business at the close of the third week of the strike of the City Front Federation, and the fourth week of the teamsters. These figures have been secured, the employers say, by a careful investigation of all the docks on the city front and by an inquiry among the wholesale firms and members of the Draymen's Association:

Number of non-union teamsters employed and at work	517
Number of teams working	721
Number of porters and packers at work	1,300
Number of longshoremen at work	1,318
Number of vessels in harbor hampered	175
Per cent of business being done	50
Loss of strikers' wages per day	$60,000
Number of new men put to work last week	500
Coal vessels being unloaded	3

Labor leaders say that the statistics of the employers are overdrawn, and that the true situation is far from being as rosy as it is represented. They give the following figures as their estimate of the situation, and say that they base their figures upon actual observation:

Number of non-union teamsters at work	250
Number of teams working	400
Number of porters and packers at work	400
Number of longshoremen at work	600
Value of work of inexperienced longshoremen equal to	100
Number of vessels tied up in harbor	175
Per cent of business being done	25
Number of men on strike in city	15,000
Loss of wages to strikers per day	$45,000
Number of workers idle owing to strike	30,000
Number of new men put to work last week	100
Coal vessels being unloaded	3
Work on these vessels equal to one-half usual rate on	1

FLOUR IS AT A PREMIUM.

SAN FRANCISCO, Aug. 20.—Flour is at a premium in San Francisco. The lockout of union workmen has so paralyzed the large milling concerns that they confess themselves unable to fill the trivial orders of bakers and grocers. Unless the congestion is relieved speedily bakers will be compelled to buy their flour a few sacks at a time before another week is over.

The Sperry Flour Company is one of the largest milling concerns on the Coast, yet for more than a week it has been unable to fill customers' orders. The manager of the company's downtown office at 134 California street admitted yesterday that business was at a standstill.

"Can you fill orders for flour?" he was asked.

"No," he said, "our teams are all tied up. We can't deliver any flour at all."

"Can't you get out small orders?"

"We have given up all attempts to deliver flour in large or small quantities. It is useless to attempt the impossible."

"Does that mean that there will soon be a flour famine in the city?"

"Not necessarily. Customers can get some flour at the warehouses if they will haul it themselves. We make a reduction of five cents per sack on such orders. Of course, the customer takes the chances of hauling. It doesn't pay us to keep any of our teams out."

BILLION DOLLAR TRUST TO CONTROL ALL SHIPBUILDING

CLEVELAND, Ohio, Aug. 21.—When the plans now being worked out are developed the American Ship-building Company, with general offices in Cleveland, will be a constituent company to the great corporation which shall control all of the ship-building plants of the United States. The backers of the enterprise are the interests behind the United States Steel Corporation and the Pennsylvania Railroad. As soon as the organization is completed, which will be before the opening of 1902, the commercial battle for the conquest of the world will begin, which when it is launched will have had no equal in history.

The first intimation of the intentions of the United States Steel Corporation and allied interests came through the recent purchase of the Bethlehem Steel Company and the exclusion from the armor plate production of the country of the Maxim Machine Gun Company, an English corporation. The next step in the promulgation of the enterprise was the purchase by the Pennsylvania Railroad, the Pennsylvania Steel Company and the Cambria Steel Company, and the last one which has been brought to public notice was the incorporation into a single company of three shipyards on the Pacific Coast, including the Union Iron Works of San Francisco, the Risdon Iron Company of San Francisco and Moran Bros.' shipyard of Seattle, Wash.

In addition to these plans negotiations are under way to include in the major organization the American Ship-building Company, combining in itself the shipyards of the Great Lakes; the Bath Iron Works of Bath, Me.; the Cramps Ship-building Company of Philadelphia, Pa.; Roach's shipyard of Chester, Pa.; the Sparrows Point shipyards of Baltimore, the Newport News shipyard and the new yard which has but recently been started by James J. Hill in Providence, R. I.

The design is to take under one general head with local management in places where the yards are located all of the ship producing capacity of the United States and to govern it much after the fashion of the management of the various plants constituent to the United States Steel Corporation. What the capitalization is to be is not even hinted at other than that the information is abroad that with the steel plants included with the allied interests represented it will require a capitalization into the hundreds of millions.

To Study Leprosy.

ST. LOUIS, August 20.—Dr. Louis Knapp, a practicing physician of this city, has forever separated himself from his wife and four children and will become isolated from the world to nurse Dong Gong, the Chinese leper, who was found here two weeks ago. The doctor, who is a graduate of a Detroit medical college, took final leave of his family today. With his patient and prisoner his only companion, Dr. Knapp will live in a three-room frame house, now being built by the city authorities at Quarantine, until necessity for his services is ended. Dr. Knapp will take his library to Quarantine and will there devote the greater part of his time to the study of leprosy. There were five other applicants for the position.

AN OCEAN TRAGEDY IN ICY ALASKAN WATERS

Crack Steamer Islander Strikes an Iceberg and Sinks With 65 Lives.

VICTORIA, B. C., August 18.—The steamer Islander, the crack Alaskan vessel, was wrecked last Thursday at 2 o'clock in the morning by striking an iceberg off Douglas Island. Sixty-five persons were drowned. An extra edition of the Juneau dispatch says:

"The word reached Treadwell at 8:30 a. m. by a party of passengers, headed by the chief engineer, who walked up the beach, a distance of twenty-five miles, to appeal to the city for help. The Treadwell steamer Lucy and the Juneau steamer Flossie promptly responded. The Flossie arrived in from the scene of the wreck at 12 o'clock with her flag at half-mast and six dead bodies on board, and the passengers.

"The description of the disaster by the survivors is heartrending, and those who live to tell the story are each and every one heroes and worthy of being called men and women. The Islander struck an iceberg, and so severe was the shock that every door was jammed fast in the staterooms, and the ill-fated passengers, numbering 107, and a crew of seventy-one were forced to break through the windows to reach the deck.

HEROIC WORK OF A STEWARD.

"Steward Simpson lost ten in his department, and his description of the wreck is very clearly given. He was awakened by the shock and could not get out of his stateroom until he broke out of the window. He reached the bridge, where Pilot Lablond was on watch, and with the mate ordered out the lifeboats, as she was then filling fast and the chief engineer reported the pumps unable to take care of the water. He also went below with an ax, broke down the lower stateroom doors and stayed with his work until the water forced him to go to the upper deck.

"By this time the ship's boats were loaded and had got away, and while the officers were getting out the last life raft, Captain Foote called to all hands to clear the ship as she was about to go down. This was the captain's last order, as at that moment the ship sank, and the captain, leaping clear of the wreck, was picked up by a lifeboat, which in some manner was overturned. The night was very misty and all hands were forced to shift for themselves.

PASSENGERS WHO ESCAPED.

The passengers saved were: F. H. Brown, N. Dispey, P. Ridighy, J. L. Wilcox, L. G. Young, W. Newland, F. F. McNaughton, J. Kockeyer, John Kockeyer, Mr. and Mrs. McLaughlin and child, Mrs. Whitmore, Mr. and Mrs. C. Flint, Mr. and Mrs. Bowman and boy, Mrs. E. Mills, Dr. McFarland, F. G. Baker, J. K. McLennen, J. G. Morgan, J. C. Henderson, L. J. Dean, T. D. Yoeman, E. H. Waller, C. H. Shoreman, J. L. Cotter, W. W. Powers, J. W. McFarland, Thomas Knowles, H. H. Hart, J. V. Snodgrass, H. A. Brigham, J. G. Stevens, R. Williamson, A. J. Walker and wife, W. Pluth, G. W. Brown, L. S. Robe, R. Ross, N. A. Bilcourt, C. C. Roy, M. Green, G. Puddichmbe, J. T. Snyder, J. Daniels, G. Gill, H. Daglish, M. Dehis, E. S. Carlson, F. Disch, H. Root, R. M. Wright, A. H. Morrison, L. T. Markwell, Dr. Phillips, S. Jamison, Arthur Lanerek, H. R. McBeth, V. L. Doyle, R. J. Marsh, A. Frasier, G. W. Doyle, M. Emphrey, S. Afflebrown, N. Pegeon, Mr. and Mrs. Walker, S. Smith, J. P. Penot, J. Bleason, H. W. Anderson, F. Castleburg, A. Kaisch, Z. Kochvar, L. Beriker, E. L. Spinks, W. G. Preston and wife, A. M. Blumaer, C. Doyle, J. E. Brian. Two waiters, Miller, the barber; N. Law, M. P. Jock, Porter and Maran, coal passers, were also saved.

F. G. Hinde Bowker, late manager of the British American Corporation of London, who was a passenger, says:

SAW THE STEAMER SINKING.

"My first intimation of an accident was the rushing of passengers on deck, which woke me up. I was in a cabin with Mr. Maghten. I got up, went out of the cabin and saw the steamer sinking at the bow. I woke my partner up and we dressed. By this time she was still lower in the water. By the time I got out of the cabin the water was abreast of the smoking-room floor. I went on the upper deck, followed by my partner and saw that the boats were gone. I went to a fall hanging davit. By this time only the stern was out of water. I saw a raft in the water with eight or ten people on it.

"I slid down the rope to the raft, and as soon as I got on, the stern of the steamer sank and sucked the raft and people down. We were some time under water, but I held on, and when it came up only two of us were left. We hailed two men who were swimming and got them aboard, also a Chinaman. By this time the steamer had sunk out of sight. Many people hung to the raft at different times, but it was not air-tight, and we had much difficulty in keeping afloat. We were turned over once because of others climbing on, but generally managed to right ourselves.

CRIES OF THE DROWNING.

"The scene was heartrending. The boats were scattered and overcrowded, and people were adrift, pleading and crying for help. We gathered lumber and made our raft float. We were picked up by one of the boats returning from shore. I cannot speak too highly of the officers and crew."

Pilot Lablond, who had charge of the steamer at the time she struck, says:

"The night was fine and as we always expect to meet ice, a sharp lookout was kept. About 2:48 a. m. the crash came. The boat was under full speed and no ice was in sight and there was no fog. The fatal berg was no doubt even with the water. After she struck I stopped the engines. Then Captain Foote appeared with the night watchman, who reported the ship leaking forward. I told Captain Foote that we had better head for the beach, but the ship was taking water so fast she would not answer her helm. Then I called the mate and ordered the boats out. This was done and they were loaded with passengers. Many passengers jumped overboard with life-preservers on. I jumped overboard and was in the water two hours and a quarter before securing a piece of wreckage."

There was $275,000 in gold on the steamer, $100,000 of which was carried by passengers. H. H. Hart, who has spent sixteen years in the Klondike, lost $35,000 in dust. Some say that Captain Foote reached a raft, but when he saw the extent of the disaster he jumped overboard. No accurate list will be available until the arrival of the purser on the steamer Farallon tomorrow.

George McL. Brown, executive agent of the Canadian Pacific Railroad, after interviewing the officers and passengers who returned, said:

"The purser is remaining in the North attending to the forwarding of the through passengers. It is impossible to give an exact list of those lost, but from the fact that 113 were saved the number lost must be very much below the figures mentioned. In my opinion the loss of life will not exceed twenty."

PARLIAMENT IS PROROGUED

The Speech From the Throne Is Optimistic in Tone.

LONDON, August 17.—Parliament wound up its business today and was prorogued. Black Rod (General Sir Michael Biddulph) summoned the Commons at about 4 o'clock to the House of Lords to hear the King's speech. The royal commissioners on this occasion were the Lord Chancellor, Earl Halsbury, the Duke of Marlborough, Lord Ashbourne, the Earl of Kintore and Earl Waldegrave. They were all attired in their peers' robes. On the arrival of the Commons the speech was read. It says:

"My lords and gentlemen, it is satisfactory to be able to close the first Parliament of my reign with the assurance that the cordiality of the relations of Great Britain with the other powers remains undiminished."

A reference to China is merely congratulatory on the attainment of an agreement in regard to the indemnity, security for its payment and the punishment of the most guilty offenders.

In regard to South Africa the speech says:

"The progress of my forces in the conquest of the two republics by which my South African colonies have been invaded has been steady and continues. But owing to the difficulty and extent of the country to be traversed, the length of the military operations have been protracted."

The speech refers to the signal success of the Duke of Cornwall and York's visit to the colonies as "additional proof of the patriotism, loyalty and devotion of the people of my dominions over the sea."

The rest of the speech merely records the King's satisfaction with the liberal provisions made for the naval and military services, the arrangements made for the maintenance of the honor and dignity of the crown, "especially those which affect the state and comfort of my royal consort," and the authorization to change the royal title. It concludes:

"I earnestly commend you to the merciful protection and guidance of Almighty God."

Returning to the House of Commons, the members filed past the Speaker, shaking hands with him, and the first Parliament of King Edward VII was ended.

More Porto Rican Laborers.

SAN FRANCISCO, August 18.—Yesterday morning the Pacific Mail steamer Colon sailed for Port Los Angeles. Several hundred Porto Rican laborers for the sugar plantations of Hawaii will be taken on board at the southern port. This will make the Colon's third trip from Southern California to Hawaii with Porto Ricans.

Between Men's and Boys' Clothing

We make no difference in this case and furnish all attention to detail. There is no sweat-shop work on any of our suits. Is not this worth the thoughtful consideration of mothers? Isn't it worth paying a trifle more to have your boy's suit made in a proper manner. If the wife were consulted, wouldn't she insist that the husband avoid wearing sweat-shop clothing?

We have just received a new line of STAR WAISTS, with and without collars. Just the thing for the school season.

Also a fine line of EXTRA PANTS FOR MEN AND BOYS.

Extraordinary efforts have been made by us to find and prepare the things needful for your good appearance and comfort—the very best SUITS FOR MEN AND BOYS; SHIRTS, HATS, OUTING FLANNELS, ETC.

All these are worthy of your attention, being fashionable in cut and stylish in appearance.

Our TWO BIG STORES and their service are at your command.

No orders too great for prompt attention; none too small for the strictest care.

DRIVEN TO DESPAIR

Noises From Rock Crusher Annoy Insane.

SQUATTERS ON RESERVATION

Over Dose of Drugs Causes Death of Japs—No Baths for Porto Ricans.

THE insane patients at the Oahu Insane Asylum are being driven to further stages of insanity by the proximity of the Government stone-crusher to the asylum. The noise and flying rocks from the quarries are playing havoc with the already unbalanced minds of the inmates, and driving the keepers and attendants to desperation, according to the complaint made yesterday to the Board of Health in a written statement from Dr. R. M. Malster, superintendent of the Oahu asylum. If what he says is true the situation at the asylum is a very serious one, both for the Board of Health and for the Superintendent of Public Works.

Superintendent Boyd says it will cost $25,000 to move the crusher. Superintendent Malster says it is impossible to move the asylum, and that if the blasts are continued the lives, as well as the minds, of his patients will be in danger.

In his letter Dr. Malster says that the stone-crusher is located on the mauka side of the asylum; that his patients are exhausted and that the diseased condition of their nervous systems makes it imperative that they should be kept quiet and peaceable. In spite of that they are daily exposed to the noises from the blasts, and the incessant grinding of the stone-crusher. These noises, he goes on to explain, cause his patients to get nervous and excited, and at times wholly unmanageable. Not only that, but rocks are thrown by the blasts upon the buildings, sometimes crashing through the roofs and also upon all parts of the grounds, making it dangerous for the patients or attendants to walk about. He says further that numerous windows have been broken, and that the fences were knocked down and not properly replaced, making it easy for the patients to escape. Only by the vigilance of the attendants is this prevented now.

President Sloggett stated in regard to the letter from Dr. Malster that he had since its receipt discussed the matter with Mr. Boyd, Superintendent of Public Works, and he had been told by him that it would cost $25,000 to move the crusher from its present site.

Dr. Sloggett stated that this was a serious question and one not to be decided in haste; that the presence of the crusher probably was a menace to the asylum, but the matter was one of importance and should be thoroughly investigated before any action was taken. At his suggestion a committee was appointed which will visit the asylum in company with Mr. Boyd at an early date, to seek some way out of the present difficulty. The committee is composed of Messrs. Sloggett, Pratt and Moore.

BOARD GOES TO MOLOKAI FRIDAY.

It was decided that the semi-annual visit of the Board be made to Molokai on Friday, September 6, spending Saturday at the settlement and returning Sunday. The number of people who are allowed to accompany the party is to be very strictly limited. All those wishing to go must file a written application, stating their reasons, before next Wednesday, and the Board will consider the applications at their regular meeting on that day.

It was first decided that only members of the press and medical men be allowed to go, but the order was afterwards amended to allow people who could show some good reason for it to accompany the party. Messrs. Pinkham and McCandless will go along to investigate the possibility of success in sinking a well.

SQUATTERS MUST MOVE.

The squatters on the naval reservation at the harbor entrance are to be ordered to leave as soon as some other disposition can be made of them. Most of the squatters on that land are South Sea Islanders who came here to work on the plantations and have remained here ever since. The buildings occupied by them are in an insanitary condition and the matter was called to the attention of Captain Merry some time ago, as the squatters were occupying United States property. The Rev. Mr. Bingham, who is interested in these squatters, has stated to Dr. Pratt that they came here under contract with the planters, who were to send them back to their home upon the expiration of the contract. Mr. Smith thought that if the men had written contracts to this effect, the planters should be compelled to send them back. It was also suggested that they be turned over to Mr. Atherton. A good many of the squatters are said to be afflicted with tuberculosis, and it was also suggested that they might be sent to the hospital for incurables. Altogether there are over a hundred of these squatters, and it is generally conceded that some other disposition must be made of them. The whole matter was left to Dr. Pratt, who is to confer with Commandant Merry on the situation.

Captain Merry's letter on the subject is as follows:

Honolulu, Aug. 19, 1901.

Sir: 1. There are squatted on the U. S. Naval Reservation quite a number of native Hawaiians and South Sea Islanders.

2. When the U. S. government took possession of this land there were already several houses, which number were increased during the plague. They were allowed to settle there as they claimed that they had no other place to go having been burned out and lost all their belongings.

3. After the plague ceased notices were posted through the settlement forbidding any more houses to be built, some were removed by order, and the most prominent and oldest settlers were delegated to inform the rest of the people of that fact. But despite the order the number of people have gradually increased until now there are too many people huddled together and the place is, no doubt, in an insanitary condition.

4. I would respectfully request the Territorial government to provide some other place for these poor people to locate. I dislike to order them to leave without some provision being made for them. I have no objection to their remaining provided they keep the place in a sanitary condition. I would respectfully suggest that the Board of Health be directed to take cognizance of the health condition of the settlement.

5. In the meantime I will do anything the Territorial government may desire to abate the nuisance which I believe is existing there.

Very respectfully,

Signed. J. F. MERRY,
Captain U. S. Navy, Commandant.

JAPANESE BEING POISONED.

A letter was read from Dr. Archer Irwin in which he called attention to the very serious menace to the Japanese, of drug stores conducted by people of their own nationality. He said he had had two cases within the past week of Japs who were killed by taking medicine purchased at small Jap drug stores. One was that of a woman who felt ill one night after supper and had taken antifebrin, prepared at a Japanese store, and the next day was suffering from heart depression. She died the next day. He also reported a similar experience with a baby, who died last Monday, and suggested that the Board take action. Nothing was done, however, by the Board, as the drug in question is perfectly harmless unless taken in overdoses, when it is likely to prove fatal.

WOMAN CANNOT JOIN HUSBAND.

The application of Mrs. Kaiki, for permission to join her husband, who is a leper at Molokai, was refused, as he is not in any present need of her services, as far as could be learned.

PORTO RICANS DON'T HAVE TO BATHE.

By resolution it was decided to rescind the former order of the Board requiring fumigation of the Porto Ricans, and compelling all of them to bathe immediately upon their arrival at Honolulu. This order is only suspended in the case of the Porto Ricans expected next week, as there has been no report of smallpox or any other contagious disease from Porto Rico or any part of the United States through which they have passed.

NEW GARBAGE RULES.

Beginning next week a small fee is to be charged each householder for the collection of garbage, which work is now under the supervision of the Department of Public Works. The new rules suggested by Superintendent Boyd were adopted by the Board yesterday as follows:

24. The garbage carts will operate within the following limits, i.e., from the Fertilizer company's works in Kalihi, west, to Punahou street, east, and from Judd street, mauka, to waterfront, seaward, upon schedule of charges adopted by the Superintendent of Public Works.

25. It shall be the duty of each party from whose premises the garbage is to be removed, to provide a suitable container of not more than twelve cubic feet capacity, and to cause the same to be set out in such places and at such times as the Public Works Department shall direct, for the convenience of garbage collectors. All empty containers shall be kept thoroughly cleaned and disinfected.

26. The carts will remove all garbage regardless of its nature.

PLUMBING REPORT.

The following report was made by the plumbing inspector for the two weeks just ended:

Honolulu, H. T., August 15, 1901.

Dr. J. S. B. Pratt, Executive Officer.

Sir: I beg leave to submit my semi-monthly report ending August 15th, 1901, which is as follows:

Number of plans filed, 66.
Number of permits issued, 66.
Number of inspections of plumbing and house sewers, 136.
Number of finals issued, 31.
Number of sewer connections made, 38.

HEALTH BOARD NOTES.

The Board amended the regulation for keeping swine and the maintenance of slaughter houses in Hilo, so that in the future no special permission or exemptions can be made by the Board of Health.

The report from the Koloa Hospital was received and filed. They have but one patient at present.

The application of Dr. Henry Hayes for a license was favorably acted upon.

A letter was read from Sheriff Baldwin of Wailuku in regard to the appointment of a sanitary inspector, stating that he could not recommend an officer who would give faithful attention to the work, unless some slight compensation, ten or fifteen dollars a month was allowed. No action was taken by the Board.

Theo. Richards wrote to enquire if the Board had a place as Government physician for a friend, Dr. R. V. Anderson, a former surgeon at Bellevue Hospital. There is still a vacancy on South Kohala, at $50 a month, which is open to him, as soon as he has secured a certificate in the Territory.

The request of Mendoka for a permit to dig cesspools on Hotel street without complying with the regulation to fill in with earth, was refused on the ground that it would set a bad precedent.

Dr. Cleveland was appointed as physician to examine the female school children, and Dr. Sinclair for the boys. Each will receive $200 for the school year.

H. Bowman of Hilo was given permission to collect the garbage at Hilo.

Wants Dry Program.

Editor Advertiser—As we are to have a concert in a few evenings, a glove-wearer begs to suggest that the programs be printed early enough to allow rams be printed early enough to allow the ink to dry, and thus avoid the ruin of innumerable pairs of gloves. The writer is not a printer of sufficient experience to know whether the fault lies entirely in the quality of the ink used, or in the time allowed for it to dry.

SAFE FROM FIRE!

Stock-Yards Finds Safety

from fire in the concrete building of the Automobile Company until such time as they can erect a Steel or Brick

Fireproof Building On Their Own Land

No More Fire Boxes or Wooden Shacks to be used! Safety to Customers Guaranteed!

SHORTLY after the determination of the directors to carry on the business of the Stock-Yards, arrangements were effected with Manager W. H. Hoogs for the occupancy of the Automobile Co.'s concrete building, opposite the Capitol building, and almost immediately the company will be prepared to attend to its former customers and livery business, the shoeing of stock, repairing of harness, etc., etc.

Owing to the non-inflammable building to be occupied by the Stock-Yards there is no doubt that, with the fear of fire eliminated from their business, they will continue to draw the large patronage which was heretofore given them by the public of Honolulu and will lose little time in regaining their former position amongst affairs of this sort.

BEET sugar and cane sugar appear to be on the point of entering into a struggle which may not exactly be a struggle for existence, but which is likely to be very sharp. On the Pacific coast the indications of war between Hawaiian cane and California beet have been obvious for weeks, and now there are the rumblings of hostilities on this coast. The duty on Cuban sugar may or may not be removed, but what is of considerable importance is that the duty on Porto Rican sugar has been removed and the importation of sugar from that island has been rapidly increasing without awaiting the removal of the 15 per cent. In the meanwhile beet sugar manufacture has been growing till it has begun to feel that it must have more room. Additional refineries are projected. There are indications of increased efforts to get European sugar into the country, and there is discussion over the question of how cheap beet sugar can be produced. Undoubtedly sugar beets can be raised for much less money than has thus far been paid for them. When farmers raise wheat and corn for ten or twelve dollars an acre it is not absolutely necessary that they should get a clear profit of thirty or forty dollars for raising beets. But it is insisted that with an equal application of capital and science cane can be raised more cheaply than beets, and in Cuba it is possible that that can be done without all the capital and science applied to beets. In the meanwhile there is every indication of sharp competition in the marketing of refined sugar.—New York Journal of Commerce, August 3.

DR. MAXWELL'S REPORT.

Dr. Maxwell's report, compiled at the request of the Federal Premier, is now available. It deals very voluminously with the conditions of the sugar industry in New South Wales and Queensland. In reviewing briefly the several considerations set forth in the report, Dr. Maxwell says, in concluding: "It is necessary to observe that while the economic factors may require that the sugar producing interests of Queensland and New South Wales shall be individually considered, and from the respective standpoints of the two States, the question of the cane-sugar industry of Australia must be approached upon broader lines and by the observance of laws which are laid down in the conditions of nature, in which conditions economic laws must have their foundation. In recognition of those 'conditions of nature,' the vast and extended sugar-producing areas of Australia are resolved into four several districts—New South Wales districts, and the districts of Bundaberg, Mackay, and Cairns, which districts are primarily distinguished by divers climatic conditions which obtain within them. The inquiry into and the comparison of the rate of compensation of white labor and South Sea Island labor in Queensland led to finding that white labor engaged in the work in the cane fields is compensated at the rate of £1 7s 10½d in the district of Bundaberg, £1 9s 11d in Mackay, £1 15s 4½d in Cairns, with an average for all districts of £1 11s 0½d per week, or 5s 2d per working day. The South Sea Islander is charged with a rate and cost amounting to 14s 3d in Bundaberg, 12s 4d in Mackay, and 13s 11½d in Cairns, making a general average of 13s 6d a week, or 2s 3d per working day. Connected with ascertaining the rates of compensation it was attempted to determine the relative coefficients of value of white and South Sea Island labor; and the co-efficients of the powers of the different races in the abstract, that is when each is at its highest, are very various. The Anglo-Saxon has the highest labor power in conditions most favorable for its exercise. The gradation in the co-efficients of other races is very various, and can descend to an equivalent that is only one-half or less than that of the labor power of the Anglo-Saxon. The co-efficients of the labor of the several races in abstract are vitally qualified by the conditions of nature in which the labor has to be performed, and these qualifications of labor-power have to be considered in the determination of the value of labor, which is found to depend upon such as the following factors: Skill, endurance and stability in the performance of labor. When white labor is considered in relation to these factors it is found that its highest co-efficient of value in Queensland obtains in the Bundaberg district, that the co-efficient is notably lower in Mackay, and that its value is reduced to a minimum in the ultra-tropical district of Cairns. When the South Sea Island labor is subjected to the qualification of the same factors its value is found to be lowest in the most southern districts, and highest in Mackay and the localities north. In bringing the relative co-efficients of value into comparison with the actual rates of compensation of white labor in the three several districts it is found that the cost is in inverse ratio to value; that in the Bundaberg district, where the co-efficient of the white man is the highest his labor costs least, while in the most northern district, Cairns, where the white man's labor power is at the lowest, the cost of that labor is 26½ per cent. higher than in the district of Bundaberg. This result, which occasionally can rule the white man in the north out of competition with the southern white laborer when their labor is engaged in producing the same commodity for sale at the same price and the same condition, appears in a less impressive degree and in a reversed form in the case of the South Sea Islander. The islander is worth least and costs most in the most southern districts, while in the districts of the Mackay and farther north, where his labor power reaches a higher level, the cost of his labor is least. If the conditions of the cost of labor in the sugar districts of New South Wales are considered then the laws and results observed to obtain in Queensland are found in a more accentuated form. The labor co-efficient of the white laborer is more pronounced, while the alien sinks in prominence and concern. From this it appears that the labor powers in the climatic extremes of the sugar areas are made to economically compensate each other. The higher efficiency of the South Sea Islanders at the relatively less cost who predominate numerically in the northern districts, counterbalancing the dominating efficiency of the white laborer who prevails in greater numerical strength in the districts of the south, and whose labor stands at a relatively low cost in those districts when compared with the north.

"It is indicated that invention may be expected to provide mechanical devices for harvesting the cane crop and other work. These will further strengthen the current tendency to substitute the lower by higher forms of labor when conditions of nature permit. This tendency is already very marked, and will be accelerated by the settlement of a greater number of white families upon the cane-growing area, resulting also in the more intense productive cultivation of the partially exhausted soils.

"The increment of white settlers upon the sugar-growing lands during the past decade, and the concurrent increase in the volume of sugar produced, with the reduction of the number of islanders employed, demonstrate the present tendency and indicate that under the current operation of given natural laws, and particularly in certain latitudes, the Pacific Islander is relatively a declining factor in the sugar production of Queensland."—Sydney Herald.

THE HERALD'S COMMENTS.

Advocates of a "white Australia" will, on the whole, be encouraged by the report of the expert appointed by the Federal Premier to examine into the conditions under which the sugar industry is carried on in this State and in Queensland. From the digest we published yesterday it will be seen that Dr. Maxwell has carefully considered these conditions in their different aspects, the comparison of colored with white labor, the natural and climatic differences, rates of wages, and the possibilities which must accompany closer settlement and the use of mechanical devices for harvesting the cane crop and other work. The "white Australia" argument will find its best support in the statement here that the Pacific Islander is already a declining factor, relatively speaking, in the sugar production of Queensland. But the statement does not stand alone. It is coupled with the results of other observations, showing among other things that while white labor costs on an average 5s 2d per working day, that of island labor averages only 2s 3d. But the influence of natural conditions comes in here to discount this calculation and illustrate the complexity of the subject, for Dr. Maxwell finds that where white labor is at its best it costs least, while the same remark applies to colored labor. With this difference, however, that whereas the white man in the north in the ultra-tropical district of Cairns is at his worst, his labor costing 26½ per cent above that in the district of Bundaberg, the islander is at his worst in the southern districts. This condition of things, which might have been anticipated, is further emphasized by the results of observation in the sugar-growing portion of our own State. Here, Dr. Maxwell tells us, "the labor co-efficient of the white laborer is more pronounced, while the alien sinks in prominence and concern." A comparison of the cost of white labor in the south and in the north of Queensland economically rules the latter out of the competition, says the report.

BY AUTHORITY.

CHINESE PILLS ARE EXPENSIVE

Interesting Testimony Before Fire Court Yesterday.

The Chinese held the boards yesterday before the Court of Fire Claims. There were in the neighborhood of a hundred claims proven up during the day, the claimants being sworn in a bunch, and each giving their testimony in a very few minutes. The Chinese Consul was a witness to the proceedings, a compromise having been reached in the majority of the cases through his intervention.

Chan Dong, a frail-looking Chinese, had in his claim one item for thirty-three pills, which were put in at $13.50.

"What is that for?" asked one of the members of the court.

"Pills—take lots of them," explained the claimant through the interpreter.

"What are they for?"

"Get hit on the head," returned the witness.

"Ask him if he is a pugilist," was the next question.

"No pugilist," was the answer, as the witness rubbed his stomach. "Take over hundred pills; some of them worth $2.50."

The next claim was then called.

One honest Chinaman said that he had $300 insurance on his property, but the company wouldn't pay him, and the court was just about to take that into consideration, when the witness, upon questioning, explained that his policy had been allowed to lapse while he was in quarantine.

Chun Sang, a patriarchal chap, had in a claim for $50. He said he had been living at the Toman Society, a benevolent institution, at the time of the fire, and lost all his clothes. He stated that he was 70 years of age and had been in the Islands for thirty-seven years.

Arrived From Hilo.

The big ship Falls of Clyde of the Hilo "brown" line reached port yesterday after a passage of twenty-eight days, bringing a number of passengers and a cargo of 50,000 bags of sugar, says the Chronicle of August 17. Among the passengers were Rev. Mr. Cruzan and his daughter, Miss Cruzan, who comes to be married in this city; Miss Griggs, a tourist; Mrs. A. B. Horner and A. P. Rice, an Eastern railroad man, accompanied by his wife.

Varicose Veins!

Dr. McLaughlin Offers a Permanent Cure or No Pay.

Sapping the vigor of youth from the body of the unfortunate sufferer; eating away his courage, ambition and happiness day by day; causing him pain and languor; making him tired at night, worse in the morning, and rendering his life miserable in general, this terrible malady goes on, and there is no cure for it except the surgeon's knife or ELECTRICITY. Which will you choose?

Dr. McLaughlin's Electric Belt Cures or No Pay.

I guarantee an absolute cure by my new method. You have only to wear my Belt while you sleep, with special attachment carrying the glowing current direct to the parts, washing out the stagnant blood, restoring vigorous circulation and new strength. It is a positive cure.

"Dr. McLaughlin's Electric Belt cured me of Varicocele and weakness of ten years' standing. I shall always be grateful for it."—LOUIS FOSCALINA, Mokelumne Hill, California.

Caution! Don't accept imitations of my Belt. All imitations burn and blister when they have any current at all. Call and test my Belt free or send for free book with full information. It will tell you if you have Varicocele. Inclose this ad.

THE PACIFIC
Commercial Advertiser

WALTER G. SMITH - - EDITOR.

THURSDAY : : : : : AUGUST 29

It must be a friendless prisoner who stays in jail during these piping times of deliveries.

Love is said to laugh at locksmiths, and now must be added to the old saw that the laugh is also on the guardian.

The fact that the bark Olympic, which has in its cargo flour and other staples, got away when expected, and is now eleven days out from San Francisco, will relieve the minds of many dealers who have daily watched their supplies of the necessaries of life grow beautifully less. There is not, even now, a famine, but the shortage of flour is not pleasant to contemplate. One effect of the present troubles will be to encourage lines of transportation from other Coast points than San Francisco. The fact is that the Albert, now at the Sound for a cargo, which will relieve any further shortage of stocks, will open new lines, and promises to be a forerunner of new connections which will be kept open to prevent any repetition of the present experiences.

The fact that five thousand residents of the city have requested in writing that their mail be delivered by carrier seems to me sufficient evidence that the people want free delivery.—J. W. Erwin.

Notice was given that the lock-boxes could no longer be crowded and on that account many people, having no other alternative, sent in their addresses for free delivery. A great many of them were Orientals; others were suburbanites; few were business men. Doubtless a good part of the population will benefit by free delivery; assuredly the boxes for the collection of letters is a marked convenience. But it still strikes us that a system which keeps a man from getting mail when it arrives, even at night, and puts him at the mercy of carriers who only work by day, and on the eight-hour plan, is open to fault-finding. Especially is this the case where one wants to answer by a mail leaving in the morning, the letters received the night before. The trouble may be obviated if boxes can be had, but heretofore there have not been half boxes enough.

The most critical news from the Mainland, in the files which arrived by the Sonoma, is that the strikes continue, although that there has been no violence is an encouraging sign, when it is taken into consideration that there have been labor troubles all summer, and that the violent stage usually comes after the first month of a lockout. The effect upon the trade of the Pacific Coast metropolis will be far-reaching if the shutdown of free shipments long continues. At this time, when the other ports of the Coast are reaching out for the trade which by right belongs to San Francisco, such a blow at the interest of the port is to be regretted. Taking into consideration also that it is estimated that one-half of the canning fruit crop has been lost, there promises to be added to a year of drought the loss of most of the fruits so carefully grown. Honolulu will feel the effects of this strike more and more though the drawing of supplies from the Sound country will relieve the pressure for immediate needs. Building must languish, for already there are many new structures tied up because of the non-shipment of supplies. The vessels which are now there would relieve all needs if they could be loaded and manned.

STATE OF THE STEEL STRIKE

PITTSBURG, Aug. 21.—While disclaiming any intention to sue for peace with the United States Steel Corporation, President Shaffer believes the end of the strike is not far off. Today he said: "It won't be very long until we have honorable peace. We are slowly getting what we started out to fight for. Just at present both sides are in the heat of battle and there can be no talk of truce; but it will come in a short while, I think."

Shaffer's statement is interpreted to mean that when the Lindsay & McCutcheon mill in Allegheny, owned by the hoop combine, is started in full non-union, the contention of the strikers will have fallen flat and they will be ready to accept the combine's proposition.

NEW YORK, Aug. 22.—The Iron Age says: The strike situation has been complicated during the past week by the desertion of the Joliet and Milwaukee men which cuts off a monthly production of 10,000 tons of merchant bars at Milwaukee and 30,000 tons of steel products at Joliet. Through the closing down of the Joliet rod mills the wire trade is for the first time affected, at least locally. To both these steel plants must be added three of the steel works of the National Steel Company, the Bellaire, Mingo Junction and Newcastle, and the Riverside and McKeesport Steel plants of the National Tube Company. Some of the blast furnaces have already been banked or blown out and others are likely to follow.

Consumers are seriously embarrassed in the lines affected, notably in tin plate, sheets, bars and tubes and larger premiums are being paid for prompt delivery. Since the South Chicago men remain loyal the steel rail trade is unaffected. The same is true of plates and shapes, and, with the exception of Joliet of wire also.

The loss in revenue which the United States Steel Corporation suffer through the closing of some of their most profitable branches must be serious and a considerable part of the business is gone past recovery. On the other hand it will take many months to catch up with deliveries and thus the mills when once started again, will be busy far into the winter period when work is usually rather scarce.

It is probable therefore that natural causes will tend toward a maintenance of values in the finished products in which the steel corporation has a commanding voice.

C. M. Schwab is said to be about to resign from the presidency of the United States Steel Corporation to manage his own Bethlehem Steel and Iron Company.

WORLD'S NEWS CONDENSED

A dispatch to the Pall Mall Gazette from Constantinople says a body of 400 Kurds has been raiding the Delmisara district of Armenia, and has destroyed twelve villages, leaving nothing but smoking ruins. Only the young girls were spared. They were carried off to the harems. All the males were ruthlessly butchered.

CHIEF M'LENNAN'S HAWAIIAN REPORT

Payment of Our Bonds—Cable Needed—Local Party Discord.

WASHINGTON, Aug. 12.—W. F. McLennan, chief of the warrant division of the Treasury Department, has returned from Honolulu, where he went to carry out the law of Congress providing for the payment of the Hawaiian debt. The debt amounted to $4,186,400. The United States Government assumed the payment of $4,000,000 worth of bonds.

"These bonds," said Mr. McLennan today, "were of different varieties, including the 5-20 and 10-30 year classes, bearing interest at 4½, 5 and 6 per cent. a year. Embraced in the Congressional resolution annexing the islands was a provision contemplating their payment by the United States, but it was only at the last session of Congress that the necessary funds for their liquidation were appropriated. The holders of the bonds were located at various places throughout the country and in London. Payment was made through the First National Bank of Hawaii, located at Honolulu, and of the $4,000,000 worth authorized to be discharged, all was paid with the exception of $32,000 in bonds, which still remain unpresented by the holders. Many of these bonds were held by residents of the United States."

In speaking of observations he had made upon his trip Mr. McLennan added: "From what I saw the Hawaiian Islands will cost the United States a vast sum of money before they are completely Americanized. American institutions, while making rapid inroads, are not yet as thoroughly established as they might be, but, of course, it requires time for such developments, and, altogether, the progress made in this direction is satisfactory. While Hawaii will cost this Government a great amount of money there is everything to lead to the belief that we will receive in return equal benefit in one form or another as an inevitable result.

"One thing must be accomplished in this connection, however, and the sooner the better. That is the laying of the Hawaiian cable. There is a general demand for this instrument of rapid communication throughout the islands. Business interests demand it and the people are extremely desirous of securing it.

"A subject that has been attracting a great deal of attention throughout the islands recently is the discord that exists between the Executive and Legislative branches of the local government. It seems that the native element predominates in the territorial Legislature, and its policy and action in the past have not agreed with that of the more progressive or American element, which is in the minority. Recently, the Governor of the territory submitted to the Legislature a number of local appointments, and owing to native opposition some of them failed of confirmation. The action of the Legislature, therefore, was not of a harmonious nature and caused considerable feeling throughout the islands. The Legislature adjourned some time ago without taking action on some of these nominations, but will reconvene shortly, when an effort will be made to effect complete harmony between the two branches of the government involved."

A Pathetic Scene.

NEW YORK, August 20.—A special to the Sun from Buffalo says: Crowds gather hourly around a piece of statuary in the court in front of the art gallery, which is entitled "El Caney." Today there was a pathetic little scene there. Mrs. Helen M. Packard of Springfield, Mass., read the inscription and fainted. She was carried into the art building and revived. It seems that the soldiers in this scene were her sons, who volunteered with the Second Massachusetts Infantry. The statuary was modeled on the magazine description by Richard Harding Davis, relating how he came on a soldier of the Second Massachusetts standing beside a dying comrade, who proved to be his brother. Arthur Packard was the dead soldier. Walter Packard, the survivor, was broken in health in the campaign, and is now in Oregon. His mother was on her way to Oregon to take up her home with him.

An immense meteor fell Aug. 17, almost due west of Phoenix, coming down, it is believed, somewhere in Harqua Hala desert. Before reaching the earth the mass exploded, scattering in a fine pyrotechnical display, lighting up the entire western horizon. The temperature there immediately dropped to the lowest point since May, and the local astronomical observer attributes the change to the meteor's action.

The Stimulus of Pure Blood

That is what is required by every organ of the body, for the proper performance of its functions.

It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions.

It perfects all the vital processes.

W. P. Keeton, Woodstock, Ala., took Hood's Sarsaparilla to make his blood pure. He writes that he had not felt well but tired for some time. Before he had finished the first bottle of this medicine he felt better and when he had taken the second was like another man—free from that tired feeling and able to do his work.

Hood's Sarsaparilla

Promises to cure and keeps the promise. Accept no substitute, but get Hood's today.

INSECTS AS DISEASE-BREEDERS

The Marine Hospital Service Receives an Important Circular.

INSECTS AS FACTORS IN THE CONVEYANCE OF DISEASE.

Treasury Department, Office Supervising Surgeon General M. H. S.

Washington, D. C., July 20, 1901.

To the Medical Officers of the Marine Hospital Service:

Your attention is directed to the importance of insects as factors in the conveyance of disease. There is no longer doubt as to the relation of the mosquito to the malarial diseases and to filariasis. According to Simond, plague is transmitted from the rat to man by the flea. The infection of typhoid fever, and to a certain extent cholera, may be conveyed from the excreta by flies. According to the recent work of the army commission, the mosquito plays an important role in the transmission of yellow fever. You are, therefore, directed to give particular attention to this subject, so far as it relates to the work of the service in quarantine and the prevention of the spread of communicable diseases. You are advised to carefully guard patients suffering with said diseases from the bites or annoyances of the insects above mentioned, and to this end to place mosquito netting over the sick bed. Excreta must be treated in a manner to prevent their becoming food or breeding places for insects. Hospitals where communicable diseases are treated should be thoroughly protected with fly screens at all windows, doors and other openings, particular attention being paid to the kitchen, dining-room and protection of the food. Should mosquitoes, flies, or other insects gain entrance to the wards, they should be at once destroyed.

The best method of killing insects in a large room is by sulphur fumigation. Formaldehyd can not be depended upon, for it frequently fails to kill insects. Pyrethrum powder when burned in an inclosure only stupefies mosquitoes and flies, and when used these insects must be subsequently collected and destroyed.

You are also directed to guard against the breeding of mosquitoes about marine hospital reservations, quarantine stations, and camps by the methods now in vogue. Collections of water in buckets, barrels, cisterns, and the like are favorite places for the breeding of mosquitoes. Such collections should be carefully covered, or, if a cover is not practicable, petroleum should be poured on the surface and replenished from time to time. All collections of stagnant water, pools, ditches, and the like about the reservation should be drained, or, if impracticable, petroleum used as above. Approximately one ounce is sufficient in still water for fifteen square feet of surface and ordinarily the application need not be renewed for one month. Concerning the cultivation of certain plants and trees and other means of exterminating mosquitoes, you are referred to the works of Giles and Howard which have recently been furnished your station.

As far as ships are concerned, particular attention should be paid to the water tanks, casks, buckets, and other water collections, especially in regions where malaria and yellow fever prevail. In vessels coming from these regions measures as above indicated should be taken with a view to the destruction of possible mosquitoes or their larvae. WALTER WYMAN,
Supervising Surgeon General,
U. S. M. H. S.

Approved: O. L. Spaulding, Assistant Secretary.

LOCAL BREVITIES.

The schooner Helene and the bark General Fairchild arrived at San Francisco August 18.

An old anchor, weighing about 3,000 pounds, was fished out of the anchorage grounds on Tuesday by the United States tug Fearless.

Rev. J. P. Erdman, pastor's assistant at Central Union Church, returned yesterday on the Sonoma from his summer vacation, spent on the Mainland.

The crown prosecutor of New Zealand has a warrant for the arrest of Paul Egry for the non-payment of £37, due on a bill which the violinist had run up at the Prince Arthur Hotel of Auckland.

Col. C. J. McCarthy arrived on the Sonoma from a business and pleasure trip which extended to the Eastern States. Mrs. McCarthy and the children will remain in California for the rest of the year.

The Bricklayers' Union last night decided to be represented in the Labor Day games by a tug-of-war team. The fifty members of the union will parade dressed in blue shirts and white overalls, preceded by a hod carrier, carrying seven bricks.

A Hawaiian stevedore on the Mail dock had the misfortune yesterday to mash the end of the middle finger of his right hand. A fellow laborer with a knife, severed the end of the finger, bound up the injured member in a piece of the wounded man's shirt, and both were soon again at work.

The Ventura while in Sydney went on the dry dock for two days, where she received new propellers measuring twenty-two feet. The old ones measured eighteen feet six inches. It is expected she will make seventeen knots an hour on the run between this port and San Francisco, which should land her there not later than Monday afternoon.

Enterprise Not for Hilo.

The steamer Enterprise, Captain Frederick Miller, sailed yesterday afternoon for Panama with a cargo of New York freight and a number of passengers, says the Chronicle of August 17. The Enterprise, which was lately purchased by the Spreckels line for the Hilo trade, has been chartered for one trip by the Panama Railroad Company, and, upon returning to this port, will take her place on the Hilo route.

The barkentine Ruth, twenty-nine days from Kahului, arrived at San Francisco, August 20, with a cargo that included 13,169 bags of sugar.

SIXTO LOPEZ IN HONOLULU

The Famous Filipino Will Make a Short Stay in this City.

Sixto Lopez, the famous Filipino, who represented Aguinaldo in the United States, is a passenger on the Sonoma. He will stay here for a short time and then go to Manila. Mr. Lopez is registered at the Hawaiian Hotel. He was very tired and denied himself to an Advertiser reporter.

With Mr. Lopez are T. T. Patterson of London and Fiske Warren of Boston, the latter a wealthy merchant and until recently a member of the executive committee of the American Anti-Imperialistic League. He is going to the Philippines to study conditions. Mr. Patterson is an Australian and an intimate friend and sympathizer of Aguinaldo.

Talking in San Francisco, Mr. Lopez said: "My countrymen are not only fit for independence, but have a right to be independent. General MacArthur himself has testified to the complete 'unity of action of the entire native population.' Fully 70 per cent of the population can read and write. This compares favorably with the 58 per cent of Italians, 31 per cent of Russians and 28½ per cent of Spaniards. The percentage in the Philippines is higher than in any European country, with the exception of Germany, France and Switzerland."

One of the churches in a little Western town has a young woman as its pastor. She was called to the door of the parsonage one day, and saw there a much-embarrassed young farmer of the German type. "Dey say der minister lifed in dis house," he said. "Yes," replied the fair pastor. "Vell—m-I-I-vant to kit merrit!" "To get married? Very well, I can marry you," said the minister, encouragingly. "Oh, but I got a girl alreaty," was the disconcerting reply.

HOME FOR INCURABLES.

ELECTION OF OFFICERS.

AT THE FIRST MEETING OF the subscribers to the Honolulu Home for Incurables held at the rooms of Messrs. Bishop & Co., on August 30th, the charter for the institution granted by the government was accepted, and the following trustees were elected:

Messrs. A. Young and T. C. Davies, to serve for three years.

Messrs. J. B. Atherton and J. P. Cooke, to serve for two years.

Messrs. W. O. Smith and S. E. Damon, to serve for one year.

And at the first meeting of the trustees, held at the office of Mr. W. O. Smith, on the 20th instant, the following officers were elected to serve for the current year:

Mr. A. Young, President.
Mr. J. B. Atherton, First Vice President.
Mr. W. O. Smith, Second Vice President.
Mr. T. C. Davies, Secretary.
Mr. S. E. Damon, Treasurer.
Mr. J. P. Cooke, Auditor.

Subscriptions to the endowment and building funds of the institution are still solicited, in order to complete the establishment of the institution in a thoroughly satisfactory manner, and such subscriptions may be handed to the treasurer, Mr. S. E. Damon, at the Bank of Messrs. Bishop & Co.

T. CLIVE DAVIES, Secretary.
Honolulu, H. T., August 21, 1901. 5942

BIRDS HELD AS PESTS

Cupid's Collection Falls Afoul of Law.

JARED SMITH MUST PASS THEM

Tree Kangaroos and Specimens of Rice Bird Which May Be Kept Out.

UPON the decision of Jared Smith rests the fate of a cage full of pretty little birds and two little animals which, though classed as opossums, are in reality tree kangaroos. The beasts and birds are part of a shipment from Australia, sent in the Ventura by Prince Cupid, for the stocking of the Waikiki home of the two Princes.

There was a fair menagerie at the Pacific Club yesterday, for the lot of cages which came for Prince David had been removed to that place by Manager Wyman, when it was found that there had been no notification to Prince David of the arrival of the first installment of the natural curiosities which he expects to have domiciled in the aviary and corrals of the old homestead. In the shipment were a pair of kangaroos, two lively beasts, a cage with a magnificent specimen of the white parrot, a bird which so far has shown capacity to whistle only, and a cage containing two dozen birds of the cockatoo, macaw and love bird species.

As soon as the birds and beasts were landed there was an agreement to turn the collection over to Wyman, for the birds were in need of care, as three of them were dead. Yesterday morning, however, there was a visit to the place of their keeping paid by Assistant Director Sedgwick of the Agricultural Station and then the trouble began. Since last year there has been a stringent law concerning the importation of animals and birds into the United States. Of course the Prince could not have known that to send such things to his home must be procured a permit, so he sent them along. The law is designed to keep out of the country such birds and animals as would be inimical to the interests of the fields and trees. As soon as the presence of the collection was made known the attention of Dr. W. A. Bryan, curator in ornithology at the Bishop Museum, was called to them, and he at once made his verbal report. The kangaroos are permitted in the regulations, so are the parrots and their various species, but the others came under the ban.

The small birds, some of them resembling canaries and others the reed bird of the East, were called specimens of the Weaver bird, one of the species of the rice bird, and as such there was a danger that they might prove a pest in the rice fields. The little animals were pronounced the Australian tree kangaroo, and not the opossum, as they were thought to be at first. There was an opinion that they were a species of the woodchuck, and being in that event a burrowing animal, they were to be feared as dangerous to the field crops. So the rest of the collection was taken to the home of Prince David, where they will be disposed in cages and fenced enclosures, but the two crates with the tabu specimens are still in the custody of Wyman.

As the matter stands the customs authorities, who are still in nominal control of the birds and beasts, are waiting upon Mr. Smith. He is the only person who is recognized in the matter by the Treasury authorities, as the regulations say that the inspectors of the Agriculture Department must pass upon animals. There will be of course an appeal to Washington, as Mr. Smith has not been appointed an inspector of live stock at all. There is an inspector at San Francisco, but it is more likely that the matter will be referred directly to the Capitol than that it will go through the hands of another officer. In the meantime it is the opinion that the disputed specimens will be turned over to the Prince to hold in his custody until there has been a decision from headquarters. This is the course which Mr. Smith will recommend, and it is probable that the two cages will be removed to Waikiki today.

The shipment is the first of a number which it is expected will come from the South Seas for the suburban home of the Princes. Prince David said yesterday: "My brother had intended to send many specimens from the countries he visited. We have many animals and birds out there now and we want to have many more. While in South Africa he had an attempt made to secure a lion cub, but he was not successful, and so we will not be able to add this to our collection. As soon as he reached Australia he began to collect and these are the first specimens we have received. I expect there will be many others before my brother leaves the South Seas for home."

Prince Cupid is now on the last stage of his globe-circling tour. He has been in Australia for some time and has come on to New Zealand, where he expects to stay a month. He will then visit Tahiti and from there proceed to San Francisco, from which city he will come home, after only a short stop.

Chamberlain's Colic, Cholera and Diarrhoea Remedy has a world wide reputation for its cures. It never fails and is pleasant and safe to take. For sale by Benson, Smith & Co., Ltd., wholesale agents.

[P]LEASED WITH CANE FIELDS

[Gen.] Breckenridge and Party Pay a Visit to Waialua.

[G]eneral J. C. Breckenridge, accom[panied] by a number of the officers and [ladies] who are passengers in the [transport] Meade, yesterday visited the [Waialua] plantation, returning on the [evening] train. All were delighted with [the] trip, and of the party General [Breck]enridge was the most enthusias[tic. He] has visited Cuba and seen the [great] plantations there, and the oppor[tunity] to visit a Hawaiian cane field [natural]ly was one which was full of [interest] for him. General Brecken[ridge s]aid last evening:

[“I n]ever thought it possible for the [soil] to produce such vegetation as we [saw on] the plantation. I thought after [seeing] the Cuban cane fields that they [were] as good as it was possible for [cane] fields to be, but what we saw to[day w]as highly superior to those of [the At]lantic's island as could be. The [growth] of the cane and the excellence [of the cro]p in general was a revelation to [me, an]d I was delighted with all that

[The] mill which is chewing up such [a quan]tity of cane each hour was also [opene]d for us, and we spent as much [time a]s we could around the place and [then to]ok luncheon at the hotel. The [day wa]s full of pleasure, for the com[bination] of sea and mountain cannot be [excelle]d anywhere. The people of the [east m]ust think they have all these [things] at Bar Harbor, but what we [saw to]day was superior to all.”

BUSINESS LOCALS.

[Hav]e you tried Pacheco's dandruff [cure] and prickly heat cure?

[Fi]ne single rooms; also, good table [board] can be had at Vida Villa, 1030 [...] street.

[A n]umber of furnished rooms can [be ha]d at the Aloha House, on Fort [stree]t. Also board if desired.

[Aucti]on sale of vehicles, list of which [is pub]lished elsewhere. Will be sold [to]day at Morgan's salesrooms, at

[The] Native Daughters of California [are r]equested to send addresses, etc., [to] P. Barry, box 272, City, before [Septe]mber 8.

[Mr.] Albert F. Judd has power of at[torne]y to act in all matters for Mrs. [...] H. R. Judd during her absence [from] these Islands.

[Sale] of fine furniture and household [good]s at the residence of Mr. James [...]t, on Spencer street, between [...]nia and Magazine.

[Mr.] Bruce Cartwright has given his [power] of attorney to Mr. William M. [...]an, who will act for him in all [matt]ers during his absence from the

[The] Sons of California who wish [to p]articipate in the celebration of [Septe]mber 9th, are requested to call at [...] Able's office, on Fort street, and

[The] furniture of a five-room cottage [is off]ered for sale or rent. Purchaser [has] privilege of renting the cot[tage] which is centrally located. For [partic]ulars, see ad.

[Lost]—of a gold watch chain having [a sha]rk's tooth charm attached, has [been] lost. The name C. D. Lufkin is [engra]ved on the charm. Reward offer[ed for] return of same to this office.

[A ne]wly-built cottage of eight rooms, [ready] for occupancy, is offered for [rent.] Has all modern improvements; [also] stable and servants' quarters. [For p]articulars, see ad on next page.

[Edwa]rd R. Swain left yesterday on [the V]entura for the Coast. During his [absenc]e Mr. W. E. Pinkham will have [power] of attorney to act for him [in all] matters. Office, in 512 Stangen[wald] building.

[The] leasehold on some very valuable [...] property on Beretania street, [...]river, will be sold at public auc[tion t]oday by Will E. Fisher. The sale [will t]ake place promptly at 10 o'clock, [on the] premises.

[Will] E. Fisher will sell at public auc[tion a]t his salesroom on Friday, some [fine c]hoice household furniture, paint[ings, et]c. These goods are now on ex[hibition] at his salesrooms on Merchant [and] Kaahumanu streets.

[CON]GRESSMAN LOUD HERE.

[En Ro]ute to Australia to Make Postal Arrangements.

[Amon]gst the passengers of the Sono[ma, wh]ich arrived last night, was Hon. [Eugen]e F. Loud, member of Congress [from the] Fifth District of California, and [chairm]an of the House Committee on [Post Of]fices and Postroads.

[Mr.] Loud is making a flying trip to [Austra]lia, expecting to return by the [same] boat. He expressed his wish to [be able] to go ashore and see Honolulu, [which h]e visited eight years ago, but [owing] to the late arrival and early de[parture] of the Sonoma he did not feel [able to d]o so.

[The] purpose of Mr. Loud's voyage is [to mak]e postal arrangement with the [gover]nment of Australia. As the So[noma] will stay in Sydney for eleven [days] he will be able to proceed by rail [to Me]lbourne, the present government [seat,] and stay in that city about nine [days.] He may also meet the New Zeal[and] postal authorities in Sydney. As [he] wants to be back East in time [for the] sitting of Congress, he will not [be able] to make a stay here on his re-

[Fr]ancis Murphy's Plans.

[At a] meeting of the trustees of the [Franc]is Murphy Temperance Associa[tion] presided over by Mr. Murphy, the [follow]ing arrangements were made: As [Mr. M]urphy is fatigued by his recent [work] he has decided to lay off for a [day or] two. There will be a meeting, [especi]ally for Hawaiians, at the Ka[waiah]ao Church on Saturday evening. [Anoth]er meeting will be held on Sunday [aftern]oon at the Y. M. C. A. and pos[sibly] Mr. Murphy will make an address [at the] Central Union Church Sunday

To Get Big Ships.

[It is r]eported that Captain Smith of [the ...] will be given command of [the com]pany's large new steamer Si[beria, re]cently built at Newport News. [The Ko]rea, another large modern [steamer] turned out at the same ship[yard, wi]ll be commanded by Captain [...], now master of the China.

LOCAL BREVITIES.

A. Berg, of Bishop & Co., returned on the Sonoma.

Postmaster Oat returned from the Coast on the Sierra.

One hundred and seventy-five bags of mail were received on the Sonoma.

The fall term of the Kawaiahao Seminary will open Tuesday, September 3.

M. F. Prosser, of Kauai, returned on the Sonoma from a brief visit to the Coast.

Mrs. Wray Taylor and her two children returned from San Francisco on the Sonoma.

Walter M. Giffard, manager of W. G. Irwin & Co., returned last evening from the Coast.

Miss Lishman returned to Honolulu last evening from a pleasant vacation spent on the Coast.

Deputy Attorney General Cathcart will act as attorney general during the absence of Mr. Dole.

Willard E. Brown, the stock broker, accompanied by Mrs. Brown and child, returned home on the Sonoma.

W. C. Crook, of Makawao, Maui, returned on the Sonoma from a few weeks' vacation spent in California.

The local agents for the steamship Sonoma state that she is scheduled to sail for Auckland and Sydney at 6 a. m.

Mrs. McStocker and daughter, of Olaa, and Miss Afong, returned on the Sonoma from a visit of several weeks spent on the Coast.

Mr. H. M. Lull, teacher of mathematics in the High School, returned last night on the Sonoma, from a visit to his parents in Vermont.

Washington dispatches announce the commissioning of Levi Mahaiali, at Pelekunu, on Molokai. A new postoffice is established there.

John Lund, the first mate of the Foong Suey, will have a hearing Friday morning, his case having been postponed from yesterday.

Superintendent Dennison, of the Oahu Railway Company, who has been spending a vacation on the Mainland for several weeks, returned on the Sonoma.

On board the Meade, which sails today, is Rev. J. R. Milligan and his daughter, Miss R. E. Milligan. The latter goes to the Philippines to marry Lieutenant Foreman, of the Twelfth Infantry.

Secretary Cooper will go to his home at the Peninsula tomorrow and will probably not return for a week or more. He will take along all the necessary papers for the preparation of his report.

Yesterday was the forty-fourth birthday anniversary of Acting Governor Cooper, and his friends remembered the occasion by covering his desk in the Capitol building with flowers. The Territorial Band serenaded Mr. Cooper in the morning at the Capitol.

It is likely that the band will be given its anticipated trip to Kauai notwithstanding the action of the Executive Council, which was at first inclined not to allow it, because of the heavy expense. The matter will probably be reconsidered at tomorrow's session.

Don't hitch your horse to one of the new letterbox posts; it's against the law. A gentleman tried this on the post in front of Hobron's drug store. Chief Clerk Kenake, of the postoffice, was in the vicinity, and politely informed the gentleman that he was committing an offense against the federal government.

The first mass was celebrated yesterday morning by the Bishop of Panopolis in the new St. Augustine Chapel near Kapiolani park. The music was under the direction of Father Valentin for whom the new chapel was built. The date for the formal dedicatory services has not been fixed.

Judge C. W. Dustin and Dr. C. H. Humphreys of Ohio are visitors in the city having arrived Tuesday on the Ventura from Pago Pago where they have been spending the past month. They had many interesting experiences among the South Sea Islanders, and before their departure intend to visit the volcano.

A. L. C. Atkinson has sold the idol found in a swamp near Wapahu to the Bishop Museum where it will repose in the future. When the idol was first discovered by natives a year ago it aroused considerable interest among archaeologists and museums in England and the United States attempted to purchase it.

A Bundy clock was received on the Sonoma last night for use in the Honolulu postoffice. The clock is intended to keep tab on the time of arrival and departure of the clerks, carriers and all persons connected with the office. Each employe is provided with a separate key, and upon entering the office for work in the morning he inserts the same in a lock below the face of the clock, turns it, and returns it to a rack nearby. The act of turning registers his number and the time on a card.

ENGLISH RUGS

At Prices to Surprise Knowing Shoppers

A recent importation of English Rugs secured by us at economy prices, enables us to sell all the newest and most appreciated patterns and designs at figures less than you have been accustomed to pay for inferior qualities of older goods elsewhere in Honolulu.

Manufacturers' Shoe Co.

Putnam's Cherry Cough Comfort

Cures coughs and colds quicker than any other known remedy. It is quite agreeable to take and the first dose will give relief.

If you have a cough don't neglect it. There's no cure for consumption in advanced stages. A neglected cough leads to consumption.

It is particularly valuable for throat and lung diseases, such as colds, croup, whooping cough and influenza. Children take it readily.

To Buy . . . . . Plumbing Material

WITHOUT A PLUMBER to put up the articles in first-class style is of very small advantage to the average householder. The people of Honolulu have been "cinched" so often by plumbers that they are afraid to set one onto a job by day's work.

BAILEY'S PLUMBING SHOP will put your plumbing in condition and connect with the sewer for a very low figure. And guarantee the job will PASS INSPECTION by the GOVERNMENT officials. And also guarantee that day's work by honest men is cheaper than contract. Contracts are taken, however, and promptly filled by

Bailey's Plumbing Shop

What The Bible Says About Linen Underwear.

Ezekiel xliv:17-18 reads: "They shall be clothed with linen garments and no wool shall come upon them . . . they shall not gird themselves with anything that causeth sweat."

Hippocrates, the father of medicine, gave the following advice: "Pure linen should be worn next to the skin."

Another writer asserts that want of linen causes leprosy.

We don't handle linen underwear for men, but for women we have a few samples to be sold at San Francisco prices. A complete stock will arrive in a few days. Ask for the

Deimel Linen-Mesh Underwear.

Sharp Cuts in Scissors

Our stock of scissors of all kinds is a very large one—nickel-plated steel stiletto scissors, all sizes; embroidery scissors, pocket scissors, etc.

Embroidery Scissors - 25 Cents
Pocket Scissors - - 50 Cents

French Lawns and Organdies

A great range of beautiful patterns to select from at late in the season prices. Regular 30c and 50c per yard goods are reduced to

20 Cents per yard, or Five yards for $1.00

Purses For Women

or for that matter, for girls. They all need them.

REAL SEAL and ALLIGATOR—$1.00.

ALL-LEATHER RHINOCEROS—$2.50.

HAND CARVED MEXICAN—$2.50.

The latter are exquisitely carved in beautiful designs.

You Need Belts, Too

No woman or girl can get along without one. Anticipating this, we have selected particularly stylish ones.

WHITE WASHABLE BELTS—25c.

WHITE KID BELTS—35c and 50c.

BLACK PATENT LEATHER BELTS—35c.

Pillow Tops, 25c. to $1.50

Our upstairs is full of them. A selection of the handsomest patterns on Fancy Art Denims such as have never before been seen in Honolulu. Their beauty is simply indescribable. You must come and see them for yourself.

Some of them have reproductions of the finest art works photographed upon them by a newly discovered process. Around these are stamped exquisite designs to be worked with fancy silks. Prices run, as we said, from 25c to $1.50 each.

We also have a fine range of plain and hemstitched stamped white linen scarfs, centerpieces, lunch cloths, doilies, etc., at prices from 10c to $2.25 each.

WE'LL BE GLAD TO SEE YOU ANY TIME.

Full moon on the 29th at 9:51 a. m.

Times of the tide are taken from the United States Coast and Geodetic Survey tables.

The tides at Kahului and Hilo occur about one hour earlier than at Honolulu.

Hawaiian standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 0 hours 0 minutes. Sun and moon are for local time for the whole group.

SHIPPING INTELLIGENCE.

DIAMOND HEAD SIGNAL STATION, August 28, 10 p. m.—Weather clear; wind light E.

THE WEATHER.

Mean Temperature—79.3.
Minimum Temperature—72.
Maximum Temperature—85.
Barometer at 9 p. m.—30.04; rising.
Rainfall—.025.
Mean Dew Point for the Day—70.
Mean Relative Humidity—72.
Winds—N. E., 3; weather slight showers to fair, rain in valleys and high humidity.
Forecast for Today—Light trades; mostly fair weather.

CURTIS J. LYONS,
Territorial Meteorologist.

ARRIVED.

Wednesday, August 28.

C.-A. S. S. Miowera, Hemming, from the Colonies.
Schr. Luka.
Schr. Lady.
S. S. Sonoma, Van Oterendorp, from San Francisco; 9:15 p. m.
Str. Iwalani, Greene, from Makaweli, at 6:20 a. m., with 3,626 bags sugar, 14 barrels pol, 21 barrels glass, 12 crates glass, 2 boxes, 1 piano, and 32 packages sundries.

DEPARTED.

Wednesday, August 28.

Str. Lehua, Napala, for Molokai, at 5 p. m.
S. S. Miowera, Hemming, for Victoria and Vancouver; 5 p. m.
Str. Noeau, Wyman, for Kaanapali and Lahaina.

SAIL TODAY.

S. S. Sonoma, Van Oterendorp, for Auckland and Sydney; 5 a. m.
Str. Mikahala, for Eleele, Hanapepe, Makaweli, Waimea, Kekaha; 5 p. m.
U. S. A. transport Meade, for Manila; 12 noon.

SAIL TOMORROW.

Gaso. schr. Eclipse, Townsend, for Lahaina, Makena, Kihei, Kailua, Napoopoo and Hookena, at 3 p. m.
Str. Noeau, Wyman, for Honokaa and Kukuihaele, at 5 p. m.
Str. Niihau, W. Thompson, for Anahola, at 5 p. m.
Schr. Moi Wahine, for Punaluu, at 5 p. m.

IMPORTATIONS.

Per steamship Sonoma—Twenty-one packages H. H. goods, 362 packages fruit and vegetables, 1901 packages meat, etc. (ice house goods), 1 bag coin ($3,560.26), 15 packages papers.

The bark Edward May, twenty-six days from Honolulu, reached San Francisco, August 18, with a cargo of sugar. The barkentine Benicia, twenty days from Honolulu, brought a cargo of 22,636 bags of sugar.

REAL ESTATE TRANSACTIONS.

August 22. J. H. Raymond and wife to H. Waterhouse and A. B. Wood, trs.; Rose ranch and sundry leases, etc., Maui. Consideration 100 bonds of Dowsett Company.

Edward Suhr and wife to George R. Carter; piece of land, Judd street, Honolulu, Oahu. Consideration $30,000.

August 23. I. E. Ray to Caroline O'Rouke; lots 2, 4, 5, 6, 7 and portion of lot 3, Hilo, Hawaii. Consideration $1,465.

Kahoomana and wife Makou to F. W. Bartels; one-half interest in kul. 10842, R. P. 6083, Kahuku, Kau, Hawaii. Consideration $22.50.

Pilahi and husband to L. L. McCandless; piece of land, Kalauao, Ewa, Oahu. Consideration $158.

Othello Williams to L. L. McCandless; aps. 1 and 2 of R. P. 767, kul. 2055, aps. 1 and 2 of R. P. 770, kul. 2187, Halawa, Ewa, Oahu. Consideration $150.

Mrs. J. Boyd et al. to L. L. McCandless; R. P. 7624, kul. 2042, aps. 1 and 2, R. P. 764, kul. 2043, aps. 1 and 2, Halawa, Ewa, Oahu. Consideration $250.

Kaupe to L. L. McCandless; Grant 464, Waikane, Koolaupoko, Oahu. Consideration $15.

Fanny Strauch and husband to J. F. Brown; R. P. 5205, Pohakupili, Molokai. Consideration $50.

Lilia Naone to Tung San et al.; two pieces land, Kawailoa, one piece land, Kapala, Kailua, Koolaupoko, Oahu. Consideration $1.

Shipping Notes.

The Gaelic arrived in San Francisco August 21.

The Bennington and Petrel arrived in San Francisco, August 16.

The schooner Helene, twenty-six days from Honolulu, arrived at San Francisco, August 18, with a cargo of 26,527 bags of sugar, 200 barrels of molasses, and the following passengers: Mrs. C. Platts, W. Douthett, R. H. Hooge. Another vessel reaching that port from Honolulu was the ship General Fairchild, thirty-ope days out, in ballast, to load grain here.

Transports Sold Cheap.

At the Morse Iron Works, Fifty-sixth street, Brooklyn, the United States Government recently sold at auction the transports McPherson and Terry to the highest bidders. The McPherson was sold for $18,700, to E H. Parsons, of Baltimore, who is said to represent the Pennsylvania Railroad. Miles E. Barry, general manager of the Chicago & Muskegon Transportation Co., bought the Terry for $19,600. She will be placed in service on Lake Michigan.

Both boats went at an absurdly low figure, especially the McPherson, which is said to have cost the Government $200,000 at the outbreak of the Spanish war. She was formerly the trans-Atlantic liner Obdam, is 410 feet over all, and was built in Belfast, Ireland, in 18[illegible]. During the times of the transport service between New York and Porto Rico and Cuba the McPherson was considered one of the best boats on the run. She has only recently been brought North after being on the rocks off Cuba for several months. It is believed that the Government has lost money in removing the McPherson from the reef and bringing her North to be sold for only $18,700.

The Terry was formerly the Hartford, and ran on Long Island Sound. She is a twin-screw steel steamer, 228 feet in length and was built in Philadelphia in 1892.

PASSENGERS.

Per S. S. Miowera, August 28, from the Colonies—Miss Rieviere and Mr. Searle.

Per steamer Iwalani, August 28, from Koloa—Miss Soper, Mrs. Brewer, J. A. Akina, J. Dyson, T. Thomas, G. Klugel, Mrs. Kapuniti, E. E. Conant, J. H. Godfrey, L. Nakapaahu, Mrs. S. Makaila, Mrs. McLennon, Miss Kopa, L. Kaulukou, Miss Kapuniai, Miss M. Lucas, Miss A. Kalaweola, Mrs. W. S. Wells, Master S. Kawewehi, Akina, Kopa, Edward Hart, and twenty-four deck.

Departed.

Per steamer Miowera, for Victoria and Vancouver, August 28—C. B. Mackenzie, Miss I. E. Johnson, Mr. and Mrs. Wheeler and son, R. F. Bailey, Mrs. E. Ludgate, R. B. Bell, F. W. Jones, I. H. Godfrey, Mr. and Mrs. T. D. Halloway, A. T. Clapham, H. F. Marsh, M. L. Lawrence, C. H. W. Duncan, H. C. Holden, T. A. Pettus.

CONSIGNEES.

Per S. S. Sonoma—John Lucas, W. E. Howell, R. N. Halstead, Metropolitan Meat Company, J. M. Levy, F. J. Schneider, Lewis & Co., Order Bishop & Co., W. E. Brown, M. J. Carvalho, Sang Lee Chang, W. A. Irwin & Co., Mrs. Ehrlich, Wing Sing & Co., Wing Lung, D. H. Camarinos, Hawaiian Electric Company, Coast Feed Company, Commanding Officer Fort McKinley, Benson, Smith & Co., M. S. Grinbaum, Bruce Cartwright, Grimwood & Richardson, I. M. Dowsell, Collector of Customs, Pearl City Fruit Company, H. Hackfeld & Co., T. H. Davies & Co., Waldron & Co., L. I. Prescott, Castle & Lansdale, Wall, Nichols & Co., D. Lawrence, James Schwartz, Hawaiian Trust Company, M. M. O'Shaughnessy, Mrs. J. O. Carter, W. O. Barnhardt, Bulletin, Gazette, Hawaiian News Co., T. F. Thrum.

IT'S A CONUNDRUM.

This is the way a Chicago Journal paragrapher puts it: "Captain Strong and May Yohe Hope sailed for Japan yesterday under the name of Smith. For those who saw May when she was here a few weeks ago it is difficult to understand why Smith left home."

The Haw'n Realty and Maturity Co Limited.

FOI.TY-FIVE CHOICE RESIdence lots just opened to home-seekers, comprising a seven-acre tract of land adjoining the Punahou grounds, each lot facing on a good broad street and bounded by Wilder avenue, Metcalf and Dole streets. The land in itself is unquestionably, aside from being desirable on account of easy access to and from the city, the best and cheapest property yet placed on the market. Wide streets, electric car line, high and alluvial soil, besides being situated climatically unexcelled.

Terms most reasonable. Those desiring homes will do well by calling on or filing their applications early. Only applications from responsible parties will receive recognition.

For full and complete particulars apply to the sales agents, 32 King street, over Castle & Cooke's. Phone Main 141. P. O. Box 262.

FLOUR SUPPLY IS WAY DOWN

Dealers Have Only Few Sacks on Hand.

SELLING CUSTOMERS TEN POUND LOTS

New Stock Expected in Olympic. Smoked Meats and Many Canned Goods Short.

WHEN the lookout reports the bark Olympic off Diamond Head there will be several easy minds in the city. The grocers are already in straits for flour, but as the sailing ship got away on time and is within a few days' journey of this port there would be no actual famine. While the usual supply of flour in the local market is in the neighborhood of 25,000 sacks, at present there are in the hands of the dealers not more than 500 sacks. But it is not wise to endeavor to accumulate a supply, for the retailers will not sell any flour in large quantities. In fact, the trade seems to be down to a ten-pound basis, and yesterday all orders for sacks of flour were scaled down 50 per cent.

The bakers are in fair shape, the average supply being for ten days at the average rate of consumption. In case the shortage for households is such that there must be a drawing upon the supplies of bread usually served to regular customers of the various bakeries, then the supply will not last more than a few days. Put in the words of one grocer, "If there was no supply in the various households, the flour in sight would not last the people of the city more than two days." This underestimates the case, however, in that there is an underestimate of the supplies of flour in the hands of the bakers, as some of the grocers thought there was not more than two days' stock in their hands, while it is five times that amount.

Flour is not the only article supplied by the grocers which is short. Perhaps next in the list would come all kinds of smoked meats. For some time there has been a shortage in these lines, but there has been nothing like a famine. The bacon and hams which are being sold out to consumers are the remains of a large supply which was on hand when the strike at San Francisco assumed proportions. But there has been some brought in since that time. Potatoes also are in short supply, and so great has become the demand that while most grocers are keeping their regular customers in shape, there are some dealers who are offering two cents a pound more for the goods than they are bringing at retail.

Canned goods are not in good supply at all. There are several kind of fruits which are getting short, and the canned milk supply is much below what it should be. There is canned cream but this does not move so rapidly. The supply of canned corn is only fair, and the worst of it all is that there seems little chance for the filling of the supply of this commodity. The practical failure of this crop on account of the drouth will cause a shortage in all the canning supplies into which it enters. As it will be with the fruit crop of California, for the strike has kept the canners out of at least half of the supply of the fruit which usually comes to them.

Manager Auerbach of May & Co. said yesterday: "We will have enough of everything for our customers, but we will be very short with them. We are selling no one more than ten pounds of flour, and will not be able to do so until the arrival of a supply. The Sonoma will have some flour and the Olympic surely has, but until there is a stock received we will be very anxious. We will have enough of everything else, however, as we laid in supplies sufficient to carry us through. There has been no advance of prices as yet on account of the shortage, but there have been advances on some lines on account of the great advance in the Coast market. For instance the greatest rise is in corn. Only a couple of months ago we could buy corn for $26.50 now the same article costs $29. Bran could have been purchased at the same time for about $14.

and now the rate in San Francisco is $19. Here the prices have gone as high as $32 bid, but there is none in the market. On bacon the advance has been marked, the same supply which cost us fourteen cents in the spring being now quoted at seventeen and one-half cents a pound. This has advanced the prices here and we have been compelled to make the higher rate. We will not advance rates unless there is a higher price quoted on the Coast."

Mr. Lewis of Lewis & Co. said: "There will be a shortage of supplies until we can get a new stock from the Coast. Flour is so short that we are compelled to hold all that we have for our regular customers. The same is true of potatoes and several lines of canned goods. There is hope that the Olympic will have a fair supply and that we will all get enough to give our customers without any serious contraction of supplies. Canned goods in general are in good supply, but there is a decided shortage of cheese. There is some little shortage of butter, and we hope that the Sonoma will have a supply for us. The cheese supply will come by steamer, too. All smoked meats are in demand, too, and no one has a heavy supply of them, but enough to keep the people without suffering for a few weeks yet. We are informed that Hilo will have a fair supply of all kinds of goods by the Santiago, which was said to have had a load and a crew about the same time as the Olympic."

A representative of Davies & Co. yesterday spoke rather reassuringly of the threatening shortage. While the holdings of flour are very close at present, still the firm does not believe that the shortage will assume serious dimensions. News had been received that the bark Olympic had been loaded in San Francisco, and in case she sailed, as she was expected to, she is now twelve days out. Upon this vessel the firm has 2,500 barrels of flour. On the Santiago, which should have sailed for Hilo a little later than the Olympic, the firm also has a supply. As well the firm expects 1,000 barrels of flour on the Sonoma.

As far as groceries are concerned, it is said, the supply on hand would probably be sufficient for present needs, and as supplies are on their way now, there seems to be no reason for serious fear of a shortage in this direction.

M. J. Bissell, manager of the Washington Mercantile Company, took a more serious view of the situation. The fact of the Sonoma's being overdue seemed to indicate, he said, that the strike is still in full swing. In that case it is probable that neither the Olympic, upon which the firm has 250 or 300 barrels of flour, or the Santiago, has been able to get a crew to get away. "There is no bran here at all," said Mr. Bissell, "and there is next to no barley, no flour, and very few oats. The plantations have no bran whatever, and the local market demands it, but as there is no bran on the Coast, there is no prospect of having the need supplied. The firm's representative on the Coast got a lot of bran, which was being milled for the firm, and received several offers for it in San Francisco. The supply of hay is also low here. Though the company has received numerous offers for feed, they refuse them all, as they prefer to keep the stock on hand for their customers.

"With groceries the situation is about the same as with the feed, several lines of groceries, as for instance, vermicelli, being entirely out.

"Things can go on all right for a short while, but if the strike should keep on for two or three weeks more there will be pilikia, as the Albert, which went to the Sound, cannot be expected for quite a while yet, and several Sound steamers are tied up in San Francisco."

TONIGHT AT THE OPERA HOUSE

Mr. Jean Gerardy, the World's Most Famous 'Cellist Under the Direction of A. H. Canby.

TONIGHT at the Opera House the musical and social world of Honolulu will turn out to what promises to be a rare treat in the first appearance of Jean Gerardy, the Belgian 'cellist, who has just completed an eminently satisfactory tour in Australia under the management of Mr. A. H. Canby of New York.

Jean Gerardy is only 23 years of age, and holds a position in the musical world, in his own line, equal to that of Paderewski or Patti in theirs. He was a pupil at the Conservatorium of Liege, where his father, a celebrated pianist, was a teacher, and at the age of 7½ years performed the great feat of winning the second prize for 'cello playing against pupils of twenty years and over.

After that he was taken in hand by Belimann, the renowned 'cellist of the Heckmann Quartet, and when that master was travelling continued his studies under Massan, the instructor at the Vervieres Conservatorium.

He made his first public appearance, when nine years of age, at Liege, Lille and Aix la Chapelle, and two years later graduated at the Conservatorium, being the youngest graduate ever sent out from it. He then toured England with Ysaye and Paderewski, and the latter, at the opening concert at the Crystal Palace, played his piano accompaniment, thus showing his high appreciation of Gerardy's accomplishments. He next visited Germany, playing in all the leading cities, and when in Vienna appeared with Richter, on which occasion he was awarded a diploma by the Philharmonic Society.

When only 16 years of age he was engaged for a series of fifty concerts in America, with Stavenhagen, the pianist, and drew such large audiences that he was re-engaged for a further series to take place on the completion of Continental engagements. Gerardy visited Russia three times, and played at three concerts in Spain, where in Madrid he was honored by a command to play at the Queen's Palace, and was specially decorated with the Order of Knight of Isabella la Catholiqua. In Paris he won still another distinction, the order of an officer of the public instruction, the first 'cellist ever to be so honored. When twenty years of age he returned to America, and played at sixty recitals on the Pacific Coast, accompanied by Ysaye. He then returned to Europe, and afterwards paid a third visit to America, still meeting with marvellous success.

The instrument he plays is one of the best known, made by Stradivarius, purchased at a cost of $2,000.

At the concert this evening he will have the assistance of Mrs. Tenney Peck, accompanist, and Mrs. Whitney, piano soloist.

The attention of the public is particularly drawn to the fact that the concert will commence promptly at 8:30, and that nothing is more distressing to the virtuoso's temperament than the rustling of silks and shuffling of shoes during the interpretation of an artistic passage. Honolulu has sinned in this respect aforetime.

ALLAN DUNN.

COULD MUSHROOMS BE GROWN TO ADVANTAGE IN HAWAII?

CAN mushrooms be successfully cultivated in the Hawaiian Islands? Jared Smith, head of the experimental station, thinks they can be, but only under certain limitations, and then not with any assurance of profit. The innumerable caves of the mountains could be used for this purpose, but artificial ventilation would be necessary, and the expense of this would eat up any profit which might arise.

"Under certain conditions mushrooms might be successfully cultivated in the Islands, but hardly with any profit, and I do not believe the experiment would be worth while," said Mr. Smith yesterday. "The chief requirement in the cultivation of mushrooms is not so much a dark place as one where there is an equable temperature. If the cultivation was to be taken up in Hawaii it would necessitate some artificial method of ventilation, in the caves where they could probably best be raised. On that account I don't think the cultivation would be successful here, as the ventilation of the caves is almost impossible, or at best would necessitate a large expenditure.

"At present the mushroom market of the entire world is supplied almost exclusively from Paris. The mushrooms are cultivated in the catacombs or quarries beneath the city. The preserved mushrooms sold in the markets come from there. The cultivation of these mushrooms is a big industry in Paris. The caves or catacombs are specially prepared for the cultivation. The manure is allowed to ferment slowly; it must contain a large amount of ammonia, and is piled up in small beds for this purpose. These beds are made as regular as possible and then covered with a finely broken limestone.

The mushroom spawn is then planted, and the subsequent growth depends on the cultivator. These mushrooms consume an enormous amount of oxygen and special provision is made for a free current of air by the construction of ducts leading from the caves into the open air. Fires are built below to make a draught. If sufficient fresh air is not supplied the growth of the mushroom is arrested, and does not grow to its full size.

"The spawn is prepared by sowing the spores on the slabs of pressed manure, which is then cut up into small blocks, somewhat resembling plug tobacco, and sold in that manner to the mushroom cultivator.

"The cultivation of mushrooms in the United States is carried on in the East chiefly by gardeners, and is not on such an enormous scale as in France. In Washington, New York and the larger cities good mushrooms sell for a dollar a pound.

"Where they are not cultivated but gathered in the dark and damp woods, there is always danger of coming in contact with the poisonous toadstool.

"In St. Louis at the experimental station we have successfully cultivated mushrooms, but not in large quantities. Some of those grown were six or seven inches in diameter. Here in Hawaii the cultivation would not be successful unless great care was taken, and if one attempted to utilize the caves for this purpose, provision for ventilation must be made. The manure used must also be specially prepared by a slow process which will allow fermentation without the combustion of the oxygen."

NEWS OF THE WATERFRONT

Sonoma Delayed by Railroad Accident.

A RAILWAY accident on the Overland train delayed the sailing of the Sonoma from San Francisco until the evening of the 22d. The vessel pulled out into the stream at 10 o'clock in the forenoon and waited ten hours for the belated mails. When these were put aboard the Sonoma put her best foot forward and came down to Honolulu in less than six days. She was sighted off Koko Head yesterday evening at 7:15 and was at the Oceanic dock at 9:30. No delay was made in getting the passengers ashore and the mails were brought off at once. The Sonoma brought an unusually large number of passengers for Honolulu. The scene on the Oceanic dock upon the arrival of the steamer was suggestive of the old days in Honolulu, when a steamer coming into port was an event of considerable consequence. The great crowd surged forward when the gangplank was raised and it was with the greatest difficulty that Honolulans were prevented rushing pell mell up the plank to greet their friends on deck. Fred. Whitney foresaw the difficulties attendant upon loading the liner at San Francisco with coal and had a huge pile of it on the edge of the wharf ready to load in as soon as the ports could be opened. The officers stationed at the foot of the gangplank last night were firm in their refusal to allow the Honolulans to rush up the gangplank before the passengers were landed, and facilitated their landing in every way possible. The following are the passengers:

For Honolulu—W. M. Giffard, S. B. Rose, G. de S. Canavarro, E. A. Berndt, A. H. Sengstaek, G. I. Hulme, C. Sterling, Mr. and Mrs. O. H. Walker, M. M. Lull, H. F. Sturtevant, I. Covington, Miss Lishman, A. N. Halstead, S. B. Dixon, Mr. and Mrs. R. E. Burke, O. C. Scott, Mr. Burguer, Miss I. Rice, Mrs. Wray Taylor, 2 children; G. Ledley, G. Lehner, A. Simons, W. A. Lowe, C. C. Hopkins, K. S. Gjerdrum, A. Berg, H. N. Selby, Mrs. and Miss McKinley, Miss H. Needham, W. C. Nicoll, C. I. McCarthy, A. T. Searle, Mrs. I. Peterson, W. M. Alexander, C. W. Goodale, Fiske Warren, S. Lopez, T. T. Peterson, W. Thompson, C. L. Argues, A. H. Lewis, C. J. Holt and child, Mr. Hall, Miss B. H. Frost, Miss N. Holden, Miss F. L. Barker, Mr. and Mrs. Keleinoe, Mrs. A. Ordway, Mr. and Mrs. J. M. Oat, G. P. Denison, Mr. and Mrs. M. R. Higgins, Mr. and Mrs. Able and child, E. O. Meeks, O. H. Eddy, H. F. Dillon, I. F. Colburn, C. A. Long, Mr. and Mrs. J. F. Humburg, Miss F. Humburg, Mr. and Mrs. W. E. Brown and child, Mrs. and Miss Barnard, Miss A. Van Anglin, Mrs. Elealich Lore, E. K. Carson, W. F. Wilson, M. F. Prosser, Mrs. T. M. Cox and child, T. M. Cox, Miss M. E. Hyde, E. A. Powers, J. W. Mason, W. C. Crook, S. A. Crook, I. P. Erdman, W. P. Whitney, Mr. and Mrs. J. L. Bachelder, Dr. Alvarez, Mrs. E. F. Gerard, Mrs. S. D. Heapy, Mrs. W. H. Patton, F. A. Alexander, Miss McPherson, Mr. and Mrs. Oerdau, Mrs. Curtis and child, Mrs. and Miss McStocker, Miss Afong, Miss C. A. Porter, O. W. Leffler, Mr. Bertrans, Mr. Mark, Mr. Anthony, Mrs. A. J. Smithers, child and maid; Miss Mellinish, Miss Johnstone, Mr. and Mrs. R. F. Ruthven Smith, H. A. Held, Mr. Rosenberg, Mr. Van Dine, J. Pearson, Mr. and Mrs. Antoni, Mrs. Prizeau and son, Miss Burrell, Miss P. B. Dillon, Miss Steele, Miss A. Clark, F. Licot, C. T. Warwick, A. E. Carter, W. R. Trent, H. Laughney, G. Borchgrevauk, Mrs. Kelner, Misses Kellner (2), C. G. Bailey, H. C. Schmidt, Mrs. H. Broack, Miss Melrich, Mrs. H. H. Hardy, Mrs. T. Giovanda R. Candy.

Miowera to Carry Salmon Ova.

The Royal Mail steamship Miowera arrived in port yesterday morning at 10 o'clock from the Australian Colonies, after a very pleasant and successful trip. After discharging coal in sacks, which will be taken aboard here on her return trip, and taking on a dozen passengers and twenty-five sacks of mail, she resumed her voyage to Victoria and Vancouver at 5 yesterday afternoon. The Miowera left Sydney at 1:20 p. m., August 12, arrived at Brisbane at 8:52 a. m., August 14, sailing at midnight on the 16th. She experienced moderate to fresh southeast trades and fine weather generally all the way across. Two passengers were brought to Honolulu—Miss Rievierre and Mr. Searle.

The passenger list for this season of the year is fairly full, and included a number of business men proceeding to Canada and the Eastern States of America. Among the passengers were Alexander Morton, curator of the Tasmanian Museum and Art Gallery, who is proceeding to Canada on business connected with the fisheries department; Rev. Canon and Mrs. Hay, Mr. H. B. Morley, of the Kemp Manufacturing Company; Mr. Pollard, Mr. and Mrs. M. J. Mansfield, Messrs. H. and J. Gilliat, and other well known Sydney residents.

The Canadian government has presented to the fisheries department of Tasmania half a million Pacific salmon ova, and arrangements have been made with the Royal Mail line to have these brought over in the refrigerating chamber of the Miowera. On receipt of a cable from the Canadian government, Alexander Morton was specially selected by the Tasmanian government to proceed on the Miowera to Canada to take charge of the shipment. The Union Steamship Company of New Zealand granted the available space in the Miowera's refrigerating chamber for the transit of this valuable shipment of American ova.

Repairs Delayed on Transports.

A dispatch has been received at the War Department from Colonel Long, quartermaster at San Francisco, showing that a serious condition exists there as a result of the strike, says the New York Sun of August 9. It has been found impossible to secure skilled labor, and almost impossible to find labor of any kind to work on the ships. For this reason the government will turn the transport Lennox over to her owners without removing the government fittings. Heretofore it has been the custom to have a transport refitted upon the expiration of her charter, as she was when the government took her. Colonel Long says that the commerce of the port of San Francisco has been practically tied up, and that the strike situation there is more serious than at any time since it began.

The government has been able to get its ships fitted up, but with delay. The Kilpatrick and Meade have been repaired and refitted, but the Sherman is now tied up and nothing is being done to her. The Logan is being fitted out at the navy yard.

Suggestions have been made that the work on the transport be done at northern ports, but the quartermaster's department has experienced serious difficulty at Seattle and Tacoma in fitting the Egbert and the Rosecrans for Alaskan trips on account of the strikes. These transports were finally refitted at the Puget Sound navy yard.

While the delays have been annoying, they have not been of such a character as to cripple the government service, and no doubt is felt that supplies will be regularly sent to the troops in the Philippines and in Alaska. The fact that there is no necessity for a rapid movement of troops makes the condition regarding the transports less vexatious than otherwise.

Britannia Coming to Honolulu.

The cable steamer Britannia arrived at Suva from Auckland and Norfolk Island on July 29, says the Auckland Herald. A report by the Rotokino, which arrived last night, states that after leaving Auckland soundings were continually taken, notwithstanding very bad weather. The Fiji Times, of August 3, says: "The specialists on board the cable steamer Britannia, of which there is one representing contracting parties, and another the contractors, have been busily engaged with the local authorities during the past few days in selecting two sites—one for landing the cable and another as a depot for workshops and a tank to store spare sections of cable in order that they may be available for urgent repairs. As the method of preserving cable appears to be by steeping it in water, the process, if any extensive length of cable is kept as a reserve, will necessitate the erection of a corresponding tank accommodation. We gather that the site selected for this latter depot is in the neighborhood of the government carpenter shop on the road to the hospital." The Britannia was to leave Suva for Fanning Island and Honolulu on August 5.

Oceanic Company's Vessels.

It would appear from facts to hand that some unfavorable criticisms which have been passed on the three sister ships of the Oceanic Company, are only one side of the picture, and that a brighter side can be presented to the traveling public. The New Zealand general agents, Messrs Henderson and Macfarlane, lately received a letter from Rev. Charles Williams, speaking in high terms of the Sonoma and Ventura, which was published in our issue of the 10th instant. Following on this, they inform us that the traffic manager for the Auckland Harbor Board, Mr. Burgess, is in receipt of a letter from his brother, who, with his wife, traveled to Sydney by the Ventura which left here on the 20th ultimo. It will be remembered that stormy conditions prevailed on the trip across, therefore what he states in the letter speaks volumes for the ship. The writer says that New Zealanders need not be afraid of traveling by the Oceanic steamers, and is warm in his praise of the sea-going qualities of the ship, and of the care and attention which passengers receive at the hands of the stewards.—New Zealand Herald.

Likes the Ventura.

The Rev. Charles Williams, of the Baptist Union, who arrived at Sdney from Honolulu by the American mail steamer Ventura on her last trip down, sent the following letter to Messrs. Henderson and Macfarlane, the Sydney agents for the line: "I have recently come from San Francisco to Honolulu by the steamship Sierra, and from Honolulu to Auckland by the steamship Ventura. May I say that my daughter and myself find the steamers exceedingly comfortable; in most respects fully equal to the Cunarders for comfort and convemence, and in some particulars, superior to them. Both state cabin and table arrangements were satisfactory, while the promenade deck was the best I have met with.

Cricket on the Miowera.

One of the diversions aboard the Royal Mail steamship Miowera is cricket playing. Despite the cramped deck space and the uneven state of the "field" while the vessel is plowing her way across the Pacific, a splendid game of practice cricket is played. Nets are arranged on the port side of the vessel along the main deck, and the stumps and wickets are placed in movable sockets on the deck. Bats are used with as much energy on the deck as on terra firma. On the voyage of the Miowera from Sydney on this trip, cricket was the principal amusement.

Newcastle Coal Trade.

The four-masted barkentine James Tuft arrived today at Port Pirie to load a cargo of coal from the Duckenfield Colliery for Honolulu, and the four-masted barkentine Jane L. Stanford arrived from Adelaide to load coal, also for Honolulu, says the Sydney Herald of August 12.

Shipping Notes.

The Niihau sailed for Anahola at 5 o'clock yesterday.

The Lehua left last evening at 5 o'clock on her Molokai run.

The steamer Noeau sailed yesterday at 4 o'clock for Kukuihaele and Honokaa.

The steamer Mikahala sails this afternoon at 5 o'clock for Koloa, Eleele, Hanapepe, Makaweli, and other Kauai ports.

Sugar from the steamer Iwalani, which arrived yesterday, was discharged into the ship Emily F. Whitney. The latter will proceed to Kahului to take on more sugar before sailing to the Coast.

The transport Meade sails at noon today for Manila. The repairs to her machinery were completed last evening, and her heavy cargo of coal stowed away. Coal in sacks has been taken on on the lower decks. Loading at Manila at this time of the year is difficult on account of the rainy and typhoon weather, which accounts for the heavy load of coal taken on at this port.

PROUD OF THEM.

MOST of the possessors of our Photographs are proud of them. They are pleased with the posing, the retouching and the finishing These photographs are worth the price for many reasons. You can best see just what you want if you come in and let us tell you about different qualities.

NEW VIEWS!

Mr. Melvin Vaniman is now at the Volcano, where he hopes to get a photo which will do the subject justice. His wonderful photo of Honolulu, the largest direct photo ever made in the Islands, not to mention the smaller, but not less perfect pictures of the Pali, Waikiki Beach, etc., place him in the front rank of his profession. It is not unreasonable to expect equally good results from his present trip, which will include all points of interest between Honolulu and the Volcano.

When completed Messrs. King Bros., who are associated with Mr. Vaniman, will have a series of photos equal to anything made anywhere, and which will do more toward advertising the Islands than any other medium.

Part of the series are now ready and on sale at

KING BROS. Photo Studio and Art Store 120 Hotel Street.

Transportation to Molokai a Hard Problem.

WILDER COMPANY GETS CONTRACT

Dr. Sloggett Votes Against It. Board of Health Expects to Build Steamer.

THE Wilder Steamship Company was given another two years' contract yesterday by the Board of Health, but it was only after a long discussion, and for a time it appeared that the leper settlement was to be cut off from communication with the outside world. About a month ago the Board was notified by the Wilder Company that the old contract for transportation, having expired, would not be renewed at the old figure, which included a subsidy of $200 a month. The Board thereupon advertised for tenders for this service, both for freight and passengers. Only one bid was tendered, that of the Wilder Company, which was higher than under the old contract. When the matter was brought up yesterday at the meeting President Sloggett stated that he thought the charges were unreasonable, and objected to making a two years' contract at the tenders made, especially as the Board has hope of soon securing a steamer of their own.

The Legislature appropriated $35,000 to be expended in the purchase or construction of a steamer for the use of the Board of Health, and also the sum of $36,000 for the maintenance of the service for the next two years. The money is to be expended under the direction of the Superintendent of Public Works, and the bill has only one defect—the lack of money provided for in the appropriation. President Sloggett was of the opinion that the money would be forthcoming before the end of the proposed two years' contract and wanted a proviso made that the contract might be terminated by either party upon three months' notice. President Wight, who was present, objected and stated that his bid was submitted upon the supposition that the contract was to be for two years, and if the term of the contract was to be shorter his bid would have been higher.

"Make it, then, that the contract can be terminated on six months' notice. How would that suit you, Mr. Wight?" suggested Dr. Sloggett.

Mr. Wight couldn't see it in that light and objected to a contract for any term less than that for which tenders had been asked.

"It seems to me," said Dr. Sloggett, "that this is all one-sided. I am strongly of the opinion that the Board shouldn't be tied up for two years. We may get the money from the Government and would have our own boat, and this contract on our hands besides."

Mr. Wilder replied that the bid tendered was as low as could be made; that the company had been losing money on the last contract, and had received on an average from the Board of Health not more than $700 a month for the service.

Mr. Smith thought it impossible that they would be able to secure the steamer for which the money had been appropriated by the Government within two years. He thought that the contract should be made, as otherwise the Board would be unable to make any arrangements for transportation to Molokai, and the leper settlement would be cut off from the rest of the world. The contract was finally accepted by a vote of three to one, Dr. Sloggett dissenting.

Below is given the substance of the tender made by the Wilder Steamship Company and accepted by the Board:

TENDER FOR CARRIER SERVICE.

Dr. H. C. Sloggett, President Board of Health.

Dear Sir—We beg leave to tender for weekly common carrier service between Honolulu, Molokai, Maui, and Lanai, as follows, viz:

From Honolulu to Lahaina and Kahului, on the Island of Maui, by steamer Claudine, substitute steamer Maui, sailing from Honolulu every Tuesday, and returning to Honolulu Sunday morning.

From Honolulu to Halawa, Wailau, Pelekunu, Island of Molokai; Kaunakakai, Kamalo, Pukoo, Island of Molokai; Kahalapalooa, Manele, Awalua, Island of Lanai, by steamer Lehua, substitute steamer Mokolii, sailing from Honolulu on Mondays and Wednesdays excepting boiler week, when departures will be made on Tuesdays and Thursdays, returning to Honolulu on Tuesdays or Wednesdays and Saturdays or Sundays; all of the above, including the services of the steamers Claudine and Lehua for substitute steamers, for the sum of $50 per week.

Very respectfully,

WILDER'S STEAMSHIP CO.,
By C. S. WIGHT,
President.

FREIGHT SERVICE TO LEPER SETTLEMENT.

For transportation of all freight, including packages for lepers, between Honolulu and Kalaupapa, $3.50 per ton of 2,000 pounds, or forty cubic feet, excepting paiai and pieces of machinery weighing more than a ton. For paiai, Honolulu to Kalaupapa, 17 cents each.

Machinery, single pieces, exceeding 2,000 pounds, at proportionally larger rates.

Transportation of lepers, or agents of board from Honolulu to Kalaupapa, $4 each. Cabin accommodations for agents, deck for lepers.

Cattle from Kawaihae, Hawaii, or Makena, Maui, to Waikolu, Molokai, $7 per head. Cattle from any port on leeward side of Maui, between Kihei and Kaanapali to Waikolu, Molokai, at $6 per head. Shipments to consist of not less than fifty, nor more than one hundred head.

Rate per bundle of paiai from Halawa, Pelekunu, Wailau, or intermediate ports on windward, to Kalaupapa, 17 cents. Each bundle not to weigh over twenty-five pounds.

It is contemplated that this service shall be performed by the steamer Lehua, substitute steamer Mokolii, sailing from Honolulu every Monday at 5 p. m., excepting on boiler week, when departure will be made on Tuesday.

With paiai or lepers aboard she will sail direct from Honolulu to Kalaupapa; thence to Wailau, Pelekunu and Halawa, returning to Honolulu on Tuesday night. Without paiai or lepers aboard, the visit to Kalaupapa will not be made until on the return.

The tender is made subject to the acceptance of all parts of the contract and for a term of two years.

A Trip on the Harbor.

The members of the Young Men's Christian Association and the Young Women's Christian Association are invited to take a trip down the harbor in Young Bros.' launch on Saturday evening. The party will meet at the entrance to the Boston building on Fort street at 7:30 sharp, and will then proceed to the launch in a body. As the party is limited to fifty it is imperative that all who desire to go should notify the secretaries of the associations as soon as possible. During the evening Young Bros. will raise a fine new flag over their island home, and appropriate songs will be sung.

A CURE FOR CHOLERA INFANTUM.

"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera, and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this remedy frequently, and have never known it to fail in any single instance." For sale by Benson, Smith & Co., Ltd., wholesale agents.

News of the Volcano.

Prof. C. J. Lyons states that he has received a note from Mr. Waldron, the manager of the Volcano House, stating that there are signs of an outbreak of the floor of the crater Kilauea. Several people who returned from the Volcano on the last Kinau, have corroborated this statement, saying that during the last days of their stay the temperature around the crater rose considerably. Professor Lyons mentions the fact that while Mauna Loa generally sends out lava over its sides during an outbreak, the eruptions of Kilauea are generally only partial breaks in the floor of the crater, most often in one of the corners. The only eruption from Kilauea during last century, accompanied by a flow was the one in 1840, when a great lava stream went into Puna district. The professor expressed his opinion that the present eruption, if there is one, will only be one of these partial breaks, which he, however, describes as exceedingly interesting. Professor Lyons expects to get further particulars in the next mail.

The Days of Tight Belts Are Over

Cling-Surface

"CLING-SURFACE" IS A BELT filler, which produces a clean, clinging surface on the belt after it has penetrated the belt, and it is a belt preservative, making and keeping the leather, cotton or rope flexible and elastic, vastly increasing its life. It also acts perfectly on rubber belts.

One-third more power is transmitted by its use, or in other words, a belt two-thirds as large will transmit the power if "Cling-Surface" is used.

Send for a sample ten-pound tin.

Price 50c per lb.

HOW TO GAIN FLESH

Persons have been known to gain a pound a day by taking an ounce of Scott's emulsion. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking Scott's Emulsion.

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

If you have not tried it, send for free sample; its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists,

ARE BEING MADE HERE

A Cigar Factory Running Full Blast.

STOCK IMPORTED FROM MANILA

How Leaf is Treated From Plucking Until it Takes Shape as a Cigar.

IN THE COURSE of two or three weeks home-made Manila cigars will be on sale in Honolulu.

The promoter of the enterprise is H. J. Nolte, the veteran proprietor of the Beaver restaurant, on lower Fort street, whose factory is situated immediately over his chop-house.

The factory started running several weeks ago and is now in full blast, though operations are considerably hindered on account of the difficulty in securing competent help. A man must have had three years' experience as a cigarmaker before he becomes thoroughly proficient and there are few possessing the necessary qualifications in Honolulu today. On the pay roll at present are several Porto Ricans and a man who used to follow his trade in Manila.

The new factory is registered as Factory No. 3, District of Hawaii, in accordance with the requirements of law. Factories No. 1 and No. 2 are operated by Chinese who handle American or domestic tobacco.

The cigar-making is superintended by Manager Medan, who gave up two factories in San Francisco in order to come here. Mr. Medan told an Advertiser reporter yesterday that he had enough stock on hand to put thirty men to work today could he but get them. He thinks that the enterprise will be signally successful.

Before inspecting the factory the writer partook of a cigar, which although fresh made smoked very agreeably. It possessed a peculiarly individual flavor and for an unseasoned "weed" burned evenly and well.

Conchas and Londres of four or five different brands are being turned out.

There is over $3,000 worth of stock now on hand which was obtained from Manila six months ago. This represents the pick of the crop and cannot be duplicated. The war in the Philippines caused a suspension of cultivation of the leaf and as a result the demand at present greatly exceeds the output.

As soon as the crudely cured leaf was received it was found to be too new and had to be resweated. This was done by allowing it to stand packed in barrels for two weeks. The heat thus generated is so great as to dissuade a person from plunging his hand in the tub.

After the sweating process is completed the leaf is subjected to three different operations before it actually starts on its journey cigarwards.

First of all it has to be cased, which is a water treatment devised to facilitate the process of stripping. Then the leaf is stripped.

Stripping consists in removing the great middle vein of the leaf and dividing the leaf into two sections. This must be done without in any way tearing the leaf. The operation requires considerable finesse and the grace and lightning-like rapidity with which an expert removes the vein by a simple twist across the back of the hand is wonderful.

Then the leaf has to be booked by stretching it across a dome-shaped block after which it is tied in pads and after a few days is ready for the cigarmaker.

Leaf intended for wrapping and binding purposes is stripped and booked; stock to be used as filler is stripped and laid out to dry but is not booked.

After the leaf finds its way into the maker's hands it soon assumes the shape of a cigar. The wrapper or outside covering is first cut from selected stock; then the binder or inner covering of the filler is cut, after which the filler is introduced and rolled up in the binder. Lastly, the wrapper is added and fastened at the end with an almost imperceptible atom of gum tragacanth, and any necessary trimming attended to. The gum used is tasteless and odorless.

The speed with which a cigar is turned out is surprising. A good man averages 250 cigars a day. Recently Mr. Medan completed the phenomenal number of 500 in one day.

There are now 17,000 cigars manufactured and being boxed. After boxing the cigars are left to season for two or three weeks, at the end of which time they are ready for consumption.

Manager Medan states that the climate of Honolulu is admirably adapted for seasoning purposes. Here cigars season naturally, while in San Francisco and elsewhere artificial devices have to be resorted to in order to mature them.

COBURN IN MANILA.

The Former Honolulan Had a Detective's Job There.

The Detective Bureau have received information of the arrest of F. G. Coburn in San Francisco. Coburn was a member of the Manila Detective Department under Captain Trowbridge. He left Manila on the Kilpatrick last January. On arriving at San Francisco he called at the United States secret service office in quest of employment, he representing himself as a secret service agent of the Government in Manila and Honolulu. He showed a letter of recommendation purporting to have been signed by Alfred Wilkie, chief of the United States Secret Service Bureau at Washington, recommending Coburn as a first-class detective and stating that Coburn had been in the service of the Government for twelve years. He also exhibited a letter from Lieutenant Trowbridge certifying that Coburn had acted as a duly authorized secret service agent in Manila. Another letter purported to be from Jules Uri at Honolulu and certified that Coburn had been in charge of the bubonic plague quarantine for the Government. Chief Hazen of San Francisco put himself in communication with Chief Wilkie and was informed that Coburn was a fakir and that the Wilkie letter was a forgery. Coburn called at Hazen's office again and was detained by Operator Moffitt until Mr. Hazen appeared and arrested him. Coburn admitted that the Wilkie letter was forged, but said that a friend of his had signed Wilkie's name. He ran a board bill in Woodland, Jolo county, California, lately, representing himself as a Government official. Coburn was charged with impersonating a United States officer.—Manila Times.

A HONOLULU MAN

Talks of Doan's Backache Kidney Pills.

When an incident like the following occurs here at home it is bound to carry weight with our readers. The public statement of a reputable citizen living in this city leaves no ground for the skeptic to stand on.

Mr. James C. Stevens, of this city, informs us: "I was troubled with an ache in the small of my back for a long time, and such was the condition of things until I tried some of Doan's Backache Kidney Pills, which I obtained at the Hollister Drug Co.'s store. A short treatment gave me the desired relief, and I am satisfied that they are a good remedy for backache and deserve to be recommended."

Mr. Stevens is one of our own citizens. Is not such testimony stronger than that of someone living in America?

Does your back or side ache so that it is hard to stand straight? Do you have headaches, nervousness, frequent thirst, hot, dry skin, or shortness of sleep? Are your eyelids distended or breath? Evil forebodings, or unsettled sleep? Are your eyelids distended or feet and ankles swollen and have you lost flesh? Are the secretions from the kidneys thick, dark colored, and do they deposit a sediment? Kidney disease is insidious and if you leave any of these symptoms you should treat them at once. Delay may mean you you can't be cured.

Doan's Backache Kidney Pills are sold by all chemists and store keepers at 50 cents per box, six boxes $2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

REVIVAL IN TENNIS

Tournaments to Be Held Next Month.

PACIFIC CLUB CLASSING PLAYERS

Class Scheme Works Admirably and Keeps Courts Occupied From Noon to Dark.

THINGS are livening up considerably in tennis circles and a visit to the courts of the Pacific or Beretania tennis clubs any afternoon will amply support this statement.

About the middle of next month each of the big tennis clubs will conduct a tournament in which Honolulu's most expert racket-wielders will exhibit their prowess.

The feature on the Beretania courts will be an invitation men's singles tournament. The prize is a handsome silver cup to be won thrice before becoming the individual property of any player. This will be the first contest for the trophy.

After the above has been decided the Pacific Tennis club will hold an invitation men's doubles tournament. The prizes in this event are two silver cups which must be won three times before being retained permanently. Messrs. Elston and Ross were last year's winners.

The Pacific Tennis club has hit upon a scheme which is arousing much interest among the members and which is stimulating practice wonderfully.

A system of classifying the players has been adopted. Five classes have been instituted. The classes were filled arbitrarily by a committee and there is great contention among the players to graduate from one class to a higher one. If a class No. 2 man is desirous of getting into class No. 1 he must first beat all the players in his class.

Players in classes No. 3, 4 and 5 are called upon to beat one man in the class ahead in order to earn their advance.

A player can put another player down a class by conceding a man in his own class fifteen points and beating him. This applies to all classes barring No. 5. By this means many players advance and not a few recede.

If a man succeeds in putting down a peg all the other players in his class he becomes, of course, sole representative of his class, an honor which is much coveted.

Should a player fail to concede an opponent the fifteen points agreed upon, he is fined the modest sum of fifty cents which is dropped into a Boys' Brigade collection box.

The classification system is developing a number of good players and Messrs. Elston and Ross will have to get to work if they desire to retain the emblems of last year's victory. Among the most formidable of their prospective antagonists who are practicing every afternoon, may be mentioned:

F. Atherton and C. Cooke, W. Dillingham and W. Roth, D. H. Hitchcock and P. M. Lansdale, E. R. Adams and A. T. Brock, J. P. Cooke and John Waterhouse.

Dillingham and Roth are both men's singles ex-champions and are now playing together. Adams and Brock have held the men's doubles championship for the last three years.

The Pacific Tennis club is providing a lunch every Saturday afternoon for members. Players belonging to the Beretania club are cordially welcomed. After lunch last week the courts were kept occupied until dark. Such is the enthusiasm among the players that stakes are played for in the shape of watermelons and soda water.

Quite a lot of tennis is being played at the Davies' place, "Craigside," whither a number of devotees of the sport make pilgrimage every Saturday.

The courts at Alex. Young's residence on King street have been but little played upon of late, on account of the absence of the Misses Young at the Coast.

AGREEMENT WAS MADE YESTERDAY

Fox and Agnew Will Surely Come Together for Points Next Month.

Jimmy Fox and Lon Agnew met yesterday and agreed to box four friendly rounds for points before the Oahu Athletic Club on September 5th. Both men are eager to settle the vexed question as to who is the better boxer. They start training for the event today.

Fox will go into the ring weighing about 135 pounds while Agnew will tip the beam at close to 160 pounds.

Other bouts on the same evening will be between Joe Reilly and a sailor, and Mike Patten and an unknown.

Billy Woods, the famous trainer, leaves for Manila on the transport Meade today. Among the firemen on the vessel is Con Tobin who won many laurels boxing at the middleweight limit in the navy.

Woods will probably give a sparring exhibition under the auspices of some local club when he comes this way again.

Apropos of boxing gloves Billy said yesterday that before every big fight the trainers of the men receive numerous letters offering to purchase the gloves used in the battle.

"Why," quoth Woods, "before the Corbett-Fitzsimmons scrap I must have had a hundred letters asking for the mitts. I sent away about two dozen 'genuine' pairs and I believe that there is a pair of Corbett's Carson City gloves in every State of the Union and in every country on the face of the earth."

Billy has a little puzzle of a pugilistical nature which he springs at stated intervals.

Fitzsimmons' first wife was divorced from him obtaining the guardianship of a son. Martin Julian married the former Mrs. Fitzsimmons and has a child by her. Fitzsimmons married Martin Julian's sister, Rose Julian, and has been blessed with two children. Billy wants to know how the parties concerned stack up on a relationship basis.

Woods knows both Fox and Agnew well. The former he says is very clever, while of the latter he remarked to a friend yesterday:

"He is a good game fellow, and any time people go to see him box they can be sure of a run for their money."

A YOUNG LADY'S LIFE SAVED.

At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Charles H. Utter, a prominent physician of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual, and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet, and at the end of one week she was entirely well." For sale by Benson, Smith & Co., Ltd., wholesale agents.

LEILANI'S WAIT FOR CAP. CUPID

Orange and Black May Not Flutter Until Its Leader Returns in October.

The lack of activity in connection with the Leilani Boat Club is said to be due in great measure to the absence of the captain of the club, Prince Cupid.

Cupid was always the life and soul of the organization, and the native members of the club seem by unanimous consent to have decided to do nothing until their captain returns.

The club has a good four-oared shell, and S. E. P. Taylor, about the oldest member of the club, is heartily in favor of reorganizing and entering crews in the forthcoming Regatta Day races.

Prince Cupid's term of office does not expire until September, and the club is not likely to take a new lease of life until his return to Hawaii, next October.

Not so very long ago the Leilani Club was in as flourishing condition as either the Myrtle or Healani clubs, and it was decided to erect a pretentious clubhouse. For the purpose about $350 was subscribed by the members, and Prince Cupid promised to donate $500 to the good cause. Most of the money subscribed went to pay the training expenses of the Leilanis in the 1900 races.

When Cupid went to the Coast he took the balance to purchase a new boat with, and since then the club has heard nothing from him.

The club has upwards of sixty members, and rowing men hope that when Prince Cupid returns the orange and black of the Leilanis will be colored on the cards of future races, alongside the cardinal of the Myrtles and the Healani blue and white.

Several Valuable Pieces of Real Estate

AT AUCTION

BY VIRTUE OF AN ORDER issued out of the Circuit Court of the First Judicial Circuit, Hon. George D. Gear presiding, in a cause at chambers entitled Adelaide Schlief et al. vs. Joseph Clarke et al., equity division, No. 1208, the undersigned will sell at public auction to the highest bidder, subject to confirmation by said court, on

Saturday, September 14, 1901,

AT 12 O'CLOCK NOON,

At the mauka entrance to the Judiciary building in said Honolulu, Oahu, the following described lands and the improvements thereon, to wit:

1. That certain piece or parcel of land situate on the northeast corner of King and Punchbowl streets, in Honolulu, Oahu, Territory of Hawaii, and bounded and described as follows:

Commencing at north corner and running

South 29°, east 75 links, along Keolewa's; thence

South 48° 30', west 389 links, along Hana Haalilio's; thence

North 67°, west 37 links, along King street; thence

North 42°, east 342 links, along Punchbowl street; thence to place of commencement. Area 1-6 acre. The same being R. P. 5705 of L. C. A. 243 to Honokaupu, and being the same conveyed to the said Joseph Lazarus by Mrs. D. K. Fyfe and D. K. Fyfe, her husband, as per deed dated November 3, 1883, and recorded in liber 86, pages 104-105.

2. Royal Patent Grant No. 3506. That certain piece or parcel of land situate at the south slope of Punchbowl hill, Honolulu, Island of Oahu, and described as follows:

Lot No. 502—Beginning at a point on mauka side of Kinau street, and 200 feet westerly from iron pin at west angle of Boardman's premises, thence the boundary runs by true bearings:

North 21° 12', east 286 feet along lots 503 and 505;

South 81° 34', west 115 5-100 feet along Lunalilo street;

South 21° 12', west 229 feet along lot 501;

South 68° 48', east 100 feet along Kinau street to initial point.

Area 25,750 square feet.

3. Two lots, Nos. 117 and 118, on Beretania street, being lots or parcels of land described in Royal Patent No. 284, and described as follows:

Commencing at the makai south corner of lot No. 116 (T. Metcalf's) and running

South 78° 15', east 200 feet along mauka street to west corner of lot No. 119 (R. H. Rowlin's); thence

North 11° 45', east 150 feet along lot No. 119 to its mauka north corner; thence

North 78° 15', west 200 feet to mauka east corner of lot No. 116; thence

South 11° 45', west 150 feet along lot No. 116 to place of commencement, containing 833 fathoms and 12 feet, more or less. Less what has since been deeded to the wife. (This lot is on the Waikiki side of lot now occupied by Mrs. A. L. King.)

4. That certain piece or parcel of land situate at the mauka corner of Punchbowl street and Palace Walk, in said Honolulu, described as follows:

Apana 1. Commencing at a point on Punchbowl street; being north corner of Palace Walk and Punchbowl street, which is the southwest corner of this lot; thence

North 43°, east .96 chains along Punchbowl street; thence

North 44°, west 3.17 chains along lot of Keliiahonui; thence

South 37°, west 1.09 chains along government to Palace Walk, along lot of French; thence along same to place of commencement. Area, 1 rood 10 perches; R. P. No. 4514, L. C. A. 278, to G. Laanui.

5. That piece or parcel of land at the west corner of Maunakea and Pauahi streets, Lot "B" and Lot "C."

Beginning at a point on the northwest side of Maunakea street, 35.0 feet makai of the corner of Pauahi street, and running

South 57° 10', west true 61.5 feet along Maunakea street;

North 32° 50', west true 42.0 feet along Malia Kahai lot;

North 57° 10', east true 62.0 feet along Mutch lot;

South 32° 22', east true 42.0 feet along fire department lot to the initial point and containing an area of 2,500 square feet. This lot is leased to Lau Chong at $25 per month, which lease will expire on the 1st day of May, 1905.

6. Also the undivided interest of the late Joseph Lazarus in and to those certain pieces or parcels of land situated in the District of Hana, Island of Maui, described as follows:

1—That certain piece situate at Kapohue and conveyed to G. Keakaulaiwi and J. Kiliaka by deed recorded in the register of deeds in Honolulu, in book 78, on pages 354 and 355. Area acquired, 7¾ acres.

2—That portion of the ahupuaa of Nuolea conveyed to said G. Keakaulaiwi and J. Kiliaka by deed, recorded in said register, book 78, on pages 356 and 364. Area acquired, 25 acres.

3—That portion of the ilaina of Koali conveyed to said G. Keakaulaiwi and J. Kiliaka by deed, recorded in said register, in book 78, on pages 352 and 353. Area acquired, 21 acres.

All of said pieces of land being the same that were conveyed to Joseph Lazarus by D. Toomey by deed dated April 6, 1896, and recorded in book 158, on page 298, and now under lease to the Hamoa Plantation, said lease to expire on March 19, 1904.

Terms of sale are cash in United States gold coin; that ten (10) per cent of the amount be paid on the day of sale, and deeds at expense of purchasers. For further particulars, enquire of the undersigned at his office in said Judiciary building.

J. A. THOMPSON,
Commissioner.

Sheriff's Sale
— OF —
Valuable Rice and Kalo Land

In pursuance of an execution issued out of the Circuit Court, First Circuit, Territory of Hawaii, on the 9th day of August, A. D. 1901, in re matter of Kwong Mow vs. Kiliona, I have levied the real property of said Kiliona on this 20th day of August, A. D. 1901, and shall expose said property for sale at Public Auction to the highest bidder, at the Hauula Court House, at Koolauloa, Island of Oahu, at 12 o'clock noon, of Thursday, the 19th day of September, A. D. 1901, unless the judgment, amounting to $1,314, interest, cost and my expenses are previously paid. Said property levied upon being to wit:

A valuable rice or kalo land situated at Punaluu, Koolauloa, Island of Oahu.

Royal Patent No. 3959, L. C. A. No. 7694, to Kahaleaahu. Area 8.15 acres, more or less.

FRANK PAHIA,
Deputy Sheriff of Koolauloa, Island of Oahu. 5941

DIVIDES HIS ESTATE

Love Spendthrift Trust Is Ended.

DEFECT IN NEW HABEAS CORPUS

Motion to Instruct Overruled in Magoon Case—Frank Pahia Again in Court.

After an entire day spent in hearing arguments on a motion to instruct for the defendants in the case of Harrison vs. Magoon, Judge Gear yesterday afternoon overruled the motion, and the case may go to the jury this afternoon. The court held that the evidence was sufficient to be considered by the jury, and after the arguments today the case will be submitted on its merits.

LOVE DIVIDES UP ESTATE.

An order was made by Judge Gear yesterday morning terminating the guardianship trust of James Love, and discharging J. Alfred Magoon as such guardian. An order was made requiring Mr. Magoon to turn over to Love all the property of the trust as soon as he is paid whatever sum is coming to him from Love.

"There is no reason why this spendthrift trust should exist; there was no reason for its creation in the first place," said the court in terminating the trust. "Mr. Love does not come within the statute and never did, and he should be discharged and will be discharged."

Following the discharge of Love from guardianship yesterday the old man, who has been having such a hard time all on account of his daughter, filed a trust deed with the recorder, by which Mrs. Hart is to get one-half of his estate at his death, the son in Japan to receive the remaining half.

The disposition of his property is made voluntarily and without agreement or compromise with anybody, and according to the terms of the instrument filed yesterday his estate is to be disposed of as follows: Love conveyed to Mrs. Hart and her brother the life estate in the King street residence, the fee of which he presented to them years before being adjudged a spendthrift. This life estate is estimated to be of the value of $4,000. He conveyed to Mrs. Annie Roe in recompensation of her faithful service for seven years, and his friendship and regard for her, the Emma street property, valued at about $9,000. The remainder of his property, valued at about $50,000, he conveys to George A. Davis as trustee. A portion of this to be sold by the trustee, and after paying a $12,000 mortgage thereon, the balance is to be invested in mortgage loans; the interest, as well as rents on unsold property, to be paid to Mr. Love during his lifetime, and at his death to be conveyed one-half to Mrs. Hart and one-half to Mr. Love's son in Japan. Of the proceeds of the $12,000 mortgage, $2,000 will go to settle Magoon's claims, $5,000 will be retained by Mr. Love, and $5,000 will be devoted to the payment of counsel fees.

THE HABEAS CORPUS CASES.

The Territory won a temporary victory yesterday in the Circuit Court in the two new habeas corpus cases. The case of Chida was first called and Deputy Attorney General Cathcart filed a motion to quash, arguing then that the petition was defective, in that it failed to particularize for whom it was wanted, did not state who he is being held by, and did not say upon what order he was discharged. Mr. Cathcart argued further that the order of the court and the proceedings by which the first writ of habeas corpus was granted should have been made a part of the petition. The court sustained this part of the argument, but refused to quash the writ, and advised the attorneys for the defendants to amend their petitions. They are given until Friday morning to file the amended paper, at which time the case is to be argued.

PAHIA SUED NOW.

Suit was entered yesterday by Attorney Davis against Deputy Sheriff Frank Pahia for a cancellation of the deed to the property he purchased from Puhipaka Malama, a minor, said to have been a ward of the court. This is the same case wherein Pahia was adjudged guilty of contempt by Judge Gear for refusing to obey his order to return the deed to the property to the girl, and accept the money paid for it, and which had been paid over to the court by Poepoe upon the order of Judge Gear. Pahia appealed to the Supreme Court and Gear was overruled and Pahia released from custody. In the petition it is alleged that Pahia obtained the consent of the girl to a sale of the property by fraud and undue influence, and that he paid but $400 for land which was worth $1,500. An order is asked for a cancellation of the deed, and also for an accounting as to rents, etc.

COURT NOTES.

Judge Gear made the order yesterday morning adjudging Willie Hall a spendthrift. George Carter was appointed guardian, and gave bond for $5,000.

May & Co. sued out a writ of garnishment yesterday morning against the Waikiki Beach Company for $750 alleged to be due for groceries. The First National Bank was garnisheed, and has filed an answer denying that the Waikiki Beach Company has an account there. All the guests at the Waikiki Inn, which is the property of defendant, were made parties to the suit, as owing money to defendant. They are F. J. Ranier, A. Gartenberg, Miss Ella McInerny, Mrs. A. J. Raseman, J. M. Davidson, E. C. Brown, J. E. Fullerton, L. B. Kerr, H. Easton, J. C. Evans, Miss Rickett, Miss Collers, Mr. White and M. T. Harrison.

In the matter of the estate of Makanoe, a motion to re-sell the property sold to A. Montano for $6,100, was presented yesterday. A. V. Gear was put on the stand and testified that the property was worth more, and should be cut up into lots, when it would bring a much higher price. Judge Gear took the matter under advisement.

The appeal was withdrawn yesterday in the case of M. E. Lennon, charged with gross cheat, who had been sentenced for six months. The case was dismissed on motion of Deputy Attorney General Cathcart.

Chang Kim On was appointed guardian yesterday for the Chang Shui minors.

The September term of court begins September 4th. Both Judges Gear and Little will hold sessions at the same time. Deputy Attorney General Cathcart will not be able to attend the September term of the Fifth Circuit at Kauai, and John T. de Bolt will prosecute for the Territory.

Teachers' Association.

On Saturday the Teachers' Association of Hawaii will meet at the Honolulu High School. Teachers of public and private schools throughout the Islands, kindergartners, The Mothers and Teachers' Club of Honolulu, and all interested in education, are cordially invited to attend. A very interesting, entertaining and instructive program has been prepared. Among those who will take part are Rev. Alexander Mackintosh, Superintendent Alatau T. Atkinson, Professor Wm. D. Alexander, Dr. Arthur Maxson Smith, Philip Dodge, Gordon Usborne, Estelle Darrah Dyke, T. H. Gibson, C. W. Baldwin and Jared G. Smith. During the noon hour luncheon will be served at the High School grounds to the teachers and their friends by ladies of the Y. W. C. A. The secretary, Mrs. H. C. Brown, has charge of the affair, and the ladies of Honolulu are uniting their efforts with hers to make the noon hour one long to be remembered by those who attend this annual session of the Teachers' Association of Hawaii.

WHEN THE MUSCLES BALK.

When the muscles balk from strain or overwork almost unendurable pain follows as a natural consequence. Kickapoo Indian Oil overcomes pain in a manner that is marvellous to those who have suffered and found no help in the various so-called "pain destroyers." The action of the oil is magical. Its effects are miraculous. The pains resulting from neuralgia, sciatica, rheumatism, lumbago, pleurisy, from strains and pains, burns and bruises, are instantly controlled. One single application of the Oil will prove its power over pain in the most practical way, by bringing instant relief. Kickapoo Indian Oil is a preparation of rare barks, herbs and gums in combination with potent vegetable oils. It does not numbe the body into forgetfulness of pain as do most pain remedies, but by direct action on the inflamed parts, or diseased organs, fortifies them against the power of pain.

HOBRON DRUG COMPANY, agents for Kickapoo Medicines.

New Corporation.

Articles of incorporation were filed yesterday by the Hawaii Wine Company, with a capital of $50,000. The business of the corporation is to deal in wines, liquors and tobacco. Wong Tow is president, Lam In Chew secretary and Lam Man Tai treasurer; $39,200 of the capital stock is paid up.

For the Nerves

Horsford's Acid Phosphate

Nourishes, strengthens and imparts new life and vigor by supplying the needed tonic and nerve food.

Gives good appetite, perfect digestion and restful sleep

The genuine bears the name "Horsford's" on label.

Losing your hair? Do you bring out a combful each morning? Has it lost its natural brightness? Is it beginning to look faded and dead?

Do you like this condition of things? Certainly not. Then stop this falling of the hair at once. Stop it before your hair is thin, short, and lifeless. Make your hair beautiful, glossy, silky, abundant.

Ayer's Hair Vigor
Is a Hair Food.

When your hair is well nourished it does not come out. 'Tis weak hair, starved hair, that falls. It's just so with thin hair, short hair, rough hair. Such hair needs feeding. This is why Ayer's Hair Vigor stops falling of the hair.

If your hair is gray, and you don't care to look at thirty as if you were sixty, then you should use Ayer's Hair Vigor. It always restores color to gray hair, all the dark, rich, beautiful color it had when you were young.
