PROGRESS.

The Life of the Land is Established in Righteousness.

HONOLULU, JUNE 18, 1894.

RATHER PUZZLING.

U. S. Officials With Apparently Conflicting Instructions.

Mr. Albert S Willis who is the representative of the United States to Hawaii and who is supposed to have carried out the lofty and just policy of President Cleveland (in his own very peculiar manner) has corresponded again. This time he has not addressed himself to the provisional government especially, but he has written a letter to one Francis M. Hatch whom he styles "Minister of Foreign Affairs" not indicating though if the said Francis M holds his title from the Emperor of Corea, from the King of Tonga or from the Dekingistan of Azul. Presumably he means little Hatch, the attorney of Spreckels and the gentleman who nows gets delighted by having a Japanese war vessel saluting him.

The letter is good. It is rare and juicy in tone, and it cannot fail to comfort the legal luminary who acts as "minister of war." Mr. Willis writes:

LEGATION OF THE UNITED STATES,
HONOLULU H.I., June 16, 1894.

HON. FRANCIS M. HATCH, Minister of Foreign Affairs.

SIR—I have the honor to enclose herewith, for the information of our Government, copy of dispatch received today from Hon. W. Q. Gresham, Secretary of State, transmitting copy of a resolution which passed the Senate of the United States May 31, 1894.

With renewed assurances of high esteem,

I am, Sir,
Very respectfully,
ALBERT S WILLIS.
E E & M P. U S A.

This promising despatch, of which the number does not appear, filled Hatch's soul with joy and "all the sheenies had a jubilee" In itself it wouldn't have been much of a comfort, but the letter from W. Q. Gresham which was attached to it filled the cup of joy to overflow. Mr. Gresham who shortly ago through the hands of Mr. Willis delivered a most eloquent address to the p. g., and the small balance of the world, has changed his tone somewhat and has got bravely over his lofty ideas and principles of "justice," "honor," "fairness," "equity," etc. etc. This time the great statesman expresses himself as follows:

DEPARTMENT OF STATES,
WASHINGTON, June 2, 1894.

ALBERT S. WILLIS, Esq., &c., &, &c, Honolulu.

SIR:—I enclose herewith, for your information, copy of a resolution which passed the Senate May 31st, 1894, declaring that of right it belongs wholly to the people of the Hawaiian Islands to establish and maintain their own form of government and domestic policy; that the United States should in no wise interfere therewith, and that any interference in the political affairs of the Islands by any other government will be regarded as an act unfriendly to the United States.

This declaration that the people of the Islands have the right to establish and maintain such institutions as they think best adapted to their wants is entirely satisfactory to the President.

I am, Sir,
Your obedient servant,
W. Q. GRESHAM.

Enclosure: Copy of resolution referred to.

IN THE SENATE OF THE UNITED STATES: May 31st, 1894.

Resolved, that of right it belongs wholly to the people of the Hawaiian Islands to establish and maintain their own form of government and domestic policy; that the United States ought in no wise to interfere therewith, and that any intervention in the political affairs of these Islands by any other government will be regarded as an act unfriendly to the United States.

Attest: WM. R. COX,
Secretary.

Barring that Mr. Gresham has made a lightning change from his former position his letter is really good. The closing word may prove him and Cleveland a pair of unmitigated asses, if nothing worse or it may show that they are the two best diplomats existing. Read the words carefully: "This declaration that the people of the Islands have the right to establish and maintain such institution as they think best adjusted to their wants is entirely satisfactory to the President."

Of course the President is right. When he told the p. g. to get out he did not do so, because he was especially fond of the monarchy but because he as a true American believed in undoing a wrong and at the same time champion the cause of the classes versus the masses. He simply now says, that the People of Hawaiii shall form their own government, and who the People are neither he or any body else have ever doubted.

The appearance though of the alleged "declaration" of Admiral Walker in the same issue is rather puzzling. Mr. Willis tells Mr. Hatch that the United States will in nowise to erate any interference with Hawaii's domestic affairs, and Admiral Walker is instructed that "if it became necessary to act he was to act with the greatest promptness in case of any outbreak. In case of an attempt on the part of the Queen's adherents to resort to civil war he was to take advantage of the situation so as to have a voice in the settlement of affairs." Now, if Willis is ordered to tell the p. g. that no interference of any kind will be tolerated and that the Hawaiians in regard to their domestic affairs can do as they d—— well please; and at the same time this Admiral Walker states that he will by force interfere if the people should take possession of that which by their birthrights belong to them, where, if such should be the case, are we then? If that is American justice, honor and decency then save us from those qualities as preached by the men of that mixed race.

The days of bluff are over. Let Mr. Willis and Mr. Walker come out like men and plainly explain the situation. If Mr. Walker is such a great and clever diplomat as the American paper say, he is, let him solve the gordian knot and as a matter of decency proclaim what he proposes to do in regard to the protest and accepted claim of Liliuokalani. If he is only an understrapper, let the "superior" Willis come out and tell the people at large, where they are, where Cleveland is and where true Americans can be found.

The Paid Fire Department.

There is a general dissatisfaction with the work done yesterday by the fire department. When the p. g., in his immaculate wisdom, changed the system of a volunteer department into a paid one, it had ample material from which to select able, willing and competent men. Instead of doing so, a number of "heroes" from the 17th had to be fed, and the result is that the department is in a worse condition to-day than it ever has been in this city. Property holders are justly indignant, and the underwriters will, most likely, be heard from in the near future. It is fortunate that Minister King, under whom the fire brigade is, was present and enabled to see the defects for himself. It is seriously hoped that a thorough reconstruction will take place, either in the system or in the personnel. There are plenty of good and efficient firemen looking for work, and it should be remembered that one may be capable of driving a milk-wagon it is not an absolute proof of his ability to lead a company at a great and dangerous conflagration. Do the fire commissioners know anything about the work with which they are intrusted?

Nevada and Bert Lee, the famous races belonging to Graham & Davis will be shipped to-morrow to Maui, where they will be entered at the 4th July races.—Johnny Hayward will follow next week and take the purse and race.

WHO IS RIGHT?

Bishop Willis Differs From The "Admiral."

Who would have thought it? Our few lines on the 'Liberties of Hawaii' in the last number threw the New York *Evening Post* into hysterics, and visions of British Ironclads descending on Hawaii floated in his fevered brain. And all for what? Not for the opinions expressed, in which the *Post* concurred, but because the Editor is an *Anglican* Bishop. *Hinc illæ lacrymæ!* Isn't it time that the ghost of a delusion that haunted editorial sanctums in the States 30 years ago, when a missionary bishop was first sent here from England, should be laid to rest? The missionary bishops of the Church of England have no fingers on the political wires that radiate from Downing street. But as far as in them lies they will be on the side of truth and justice on behalf of the people among whom they dwell. The present is not a mere question of politics. It is a question of right. What wrong have the Hawaiian people done to America, that after half a century of well ordered self-government, she should in time of peace use her forces to put them under the heel of a handful of men whose fathers came here as preachers of the Gospel? The Hawaiian people have not lost faith in the justice of America That an act unworthy of a great nation was committed on January 17, 1893, has been publicly acknowledged. Hawaii and Hawaii's queen wait patiently for redress. It has taken time to sweep away the refuge of lies by which, at the outset, the American people were deceived. But when the truth is known, the duty of the nation will be seen, and there will be one voice from Maine to San Francisco, as to what must be done to save the prestige of the great Republic,

A WEDDING.

A Honolulu Belle Married.

The residence of Mrs. C. Benjamin, No. 818 South Hope street, was the scene of a very pretty wedding last evening. Miss Edith Auld of Honolulu and Henry C. Morton of this city were married at 8 o'clock, Rev. B. W. R. Tayler officiating. The house was handsome by decorated. La Marque roses and ferns were used in profusion in the drawing-rooms. The mantel was banked with these flowers, white lilies and date-palm foliage being also used. The bride looked very pretty in a gown of white china silk, trimmed with brocaded satin and handsome lace, and carried a bouquet of white carnations and orange blossoms. A tulle veil and wreath completed her costume. Her sister, Maud Auld, was maid of honor. She wore yellow china silk, with bertha of white lace. Little Miss Vivian Stephens made a cute flower girl. After the ceremony an elaborate supper was served. Mr. and Mrs. Morton will go to house keeping at once at No. 1324 Hope street. Many handsome presents were received, consisting of silver, cut glass and bric a brac. Those present were: Mr. and Mrs. E C. Stephens, Mr. and Mrs. McKnight, Mr. and Mrs. K L. Folsom, Mr. and Mrs. James Harvey, Mr. and Mrs. J. M. Murphy; Mmes. Parker, Bernard, Ginty of San Jose; Misses Crawley, Folsom, Ellsworth, Reeder, Jordan, Maud Auld, Louise Ameston; Messrs. Louis Sentous, Alex Harvey, H. Melande, Ginty, Hopperstead, Barney Benjamin, Bisbee, Dr. Dearth, Percy and D. Benjamin.—*Ex.*

During the big fire yesterday morning, an old "saved" hack which had been dragged down to Hobron & Newman's corner started a small blaze of its own. A small watering pot and a big policeman brought the back down to its normal condition of delapidation

There are 15,000 persons houseless in the valleys in British Columbia where the Fraser river made its destructive flood.

Washington, June 8. — The House Committee on Commerce will submit a favorable report on Senator Morgan's Nicaragua canal bill, with some modifications. Seventy millions of stock is to go to the United States, Costa Rica is to get $1,500,000 and Nicaragua $6,000,000 for the concessions granted, as was allowed in the original bill.

The Maritime Canal Company will receive $4,000,000 of stock as compensation for their expenses instead of $6,500,000. The shares which they hold in excess of the $4,000,000 may be bought at the market price by the United States at any time the Government elects. The committee express their opinion that inasmuch as the Maritime Canal Company obtained their concessions at a cost of not more than $150,000, $4,000,000 will cover their actual expenses.

London, May 31.—Rumors are in circulation that the Right Hon. Lord Coleridge, Lord Chief Justice of England, has tendered his resignation to Lord Roseberry. It is also stated that he has for some time been suffering from a serious internal disorder. These rumors have caused a sensation.

Annapolis, (Md) June 8—The examination of the Naval Academy exercises was reached to-day, when the graduates received their diplomas from the hands of the Secretary of the Navy, a formality that disbanded them as the class of 1894, and forever absolves them from the fetters of the academy discipline.

Armore, (I. T.) June 8—Bill Dalton; outlaw, train robber, band robber and leader of the Longview raid, is dead. He died as he always said he would, with his boots on and a six-shooter in his hands. The encounter occurred three miles southwest of Elk, I. T., this morning, between 7 and 8 o'clock.

The Cunard steamer Lucania which arrived at Queenstown from New York, on the eight, lowered the best record thirteen minutes and at the same time sailed seventeen miles more than any of the earlier trips. Her time was five days, twelve hours and fifty eight minutes.

Nathan E. Seligman, the well-known money broker in Oakland committed suicide at his home, 585 California avenue, yesterday morning. The deceased shot himself throught the heart.

Washington, June 4—Attorney General Olney has filed against the estate of the late Senator Stanford a claim in behalf of the United States for the sum of $15,000,000, that being the proportionate share of the debt of the Central Pacific Railroad that estate owes the Government under the theory that the personal assets of the individual members of the original Central Pacific syndicate are liable for the debt of that corporation due or to become due to the United States.

The Advertiser who catches a persons eye usually wins a customer. Many different styles of advertising have been adopted and with more or less success, by the believers in the use of printers ink. The manufacturers of Pears Soap, for instance, occasionally buy paintings that have been on exhibition in the Paris Salon and have lithographs made from them for the purpose of bringing their product before the people. In addition to such side issues, Pear spends hundreds thousands of dollars annually among the newspapers and magazines. Some years ago the Agents of certain article on sale in New York made a hit in advertising by having on Broadway during business hours two fatluessly dressed Negroes wearing very high collars, on the backs of which was printed "Use Smiths Pills." The idea was novel and the public caught on. Rising Sun Stove Polish has been kept before the public for years through persistent, and sometimes expensive advertising. Twenty odd years ago the manufacturers of this polish started half a dozen men across the orniment to paint signs on rocks and fences. The Aermotor Co., of Chicago have increased its sales more than five hundred per cent in two years by the use of printers ink. We believe we have been instrumental in increasing the sales of the Aemotor by keeping everlastingly at it in Hawaii.

We do not wish to say that advertising will sell any manufactured article; there is no use spending money in advertising "cheap and nasty" goods because the people will not be hoodwinked. If Haviland China was not the superior article it is, all our advertising of it would not have sold the thousands of pieces that we have. We simply call the attention of the people to it and its superior quality is apparent to the customer directly a piece of it is examined.

Printers ink has helped the sale of the James Locked Fence but it would not have dones so if it had been as flimsy as the ordinay wire fence. First; the economy there is in building it recommends it to the plantation manager and then its durability clinches the the sale If the stays and washers cost as much as an ordinary redwood post our sales of the material would not have reached such enormous proportions.

Our average sale of the Pansy Iron Stove is about two a day the year round. If was not the best iron stove on the market we would not sell that many in six months. Advertising is the tip to the public the good points in the article sells it just as the good qualities of the Fischer Steel Range make it a desirable article for people who wish to economise in the use of fuel.

We buy only what has proven good after people in the United States or Europe have given it a trial; we profit by their experince if the articles are goood we buy and sell them; if they are poor we steer clear of them. When we advertise an article it is to attract attention to it; the newspaper is the button we push, the salesman does the rest.

Persistent advertising coupled with the article being a superior one has sold thousands of the Frank Walcot Emory File. If it had been no better than an ordinary scythe stone we probably would not have sold twenty. When a man finds out that his table knives may be kept sharp at all times at an expense of fifty cents and a very little elbow grease he is quite willing to try the experiment.

Need Practice.

The Philadelphia men will probably be landed tomorrow for a shore drill. It is understood that they will come fully equipped, and reassume the old custom from the days of Wiltze of parading the town once a week or more. The boys are evidently getting "rusty" by their inactivity, and Admiral Walker wants them to be "scraped." We also understand that the Japanese sailors will begin shore-drill. The different war-vessels will probably land alternatively.

The Meanest Man.

Many instances of refined meanness have been mentioned and found to be really perpetrated by alleged human beings whose essence of cruelty is unparaellled, but the latest reported action of His Excellency the Attorney General beat sthe record. It is said that after the fire yesterday he had Mr. E. S. Cunha arrested for violating the Sabbath law by letting his property burn down on a Sunday. The fire department may also get a taste of the modern "blue laws."

Not So.

A rumor was circulated yesterday to the effect that a successor had arrived to Colonel Soper whose resignation has been accepted as commander in-chief. The presence in town of a well-known military gentleman from California probably started the rumor. Those who know, state positively that Colonel Soper's resignation was simply caused by an effort to retrench on the part of the government, and that the office and salary of Colonel-commanding will be abolished. The gentleman from California is simply here on a pleasure trip.

LOCAL NOTES.

The latest puzzle: Who can find Aldrich?

What is the matter with Lococq Larsen and his spies?

They say that Billy Aldrich went up in smoke yesterday at the fire.

People who owns property should insure it. Those who don't always regret it after a fire.

"Who struck Billy Patterson" is no longer the "gag" here—it is: "Who's seen Billy Aldrich?"

Next Saturday the Crescents and Hawaiis will play baseball—at least it is to be hoped that it will be baseball.

The benefit performance for Jerry Connor which will take place next Thursday should be largely patronized by Jerry's friends.

The Misses Ward, Parker, Neumann and Finkler who are making a circuit of Oahu on horseback are at present rusticating in Waialua.

Dont forget the fresh invoice of Bock Beer at the Anchor. Gunnigham is a limited stock-company this time, and no Magpies on it either.

Dr. George Herbert, a most popular physician, who has resided for a number of years on Maui intends to move to Honolulu in the near future.

A number of people got their Sunday-go-to-meeting-clothes wet by occasional showers from the hoses during the fire. Some of the firemen thought that the fire was on the other side of the street.

If Messrs. Bradford and Clay succeed in making a complete and correct directory they will be deserving of public thanks. All citizens should extend a cordial support to the enterprising young gentlemen.

A BLAZE.

A Couple of Houses Burn Down.

The town was alarmed yesterday morning by the breaking out of a fire in the center of the town, which resulted in the destruction of two buildings occupied by a number of people. The fire was noticed about nine o'clock in the morning in the rear of the building rented by Geo. Lincoln. James Spencer of the Bell Telephone Company saw the smoke from his office and turned in the alarm. The Chemical Engine was the first on the scene, but the fire was then spreading with great rapidity. It was evident that the houses had been burning for some time before the fire was noticed. Fortunately there was very little wind or the houses between those destroyed and Bethel street would be in ashes. The fire department responded promptly, but did not work as well as in former days. There seemed to be a lack of judgment and knowledge, which should not be tolerated. Chief Hunt was at Little Briton when the fire was announced and consequently arrived when the flames had control. Minister King did excellent work and it is due to him that the shops and offices occupied by Redward and Phillips and their neighbors didn't burn down. Messrs. John Nott and C E. Williams, both old firemen, also assisted materially. A detachment from the Takachiho was sent ashore with a pump and operated from the rear of the buildings That no engine was stationed in Merchant street where there is a cistern, and where so much valuable property is located was a suprise to all. The fire is supposed to have started in a room makai side of Kube's tobacco store, but how it originated will remain a mystery. The buildings were solely used for shops and stores and nobody were living in them. The property destroyed is: The house owned by E. S. Cunha and occupied by W. W. Wright as a carriage manufactory. The building was insured for $1000, and Wright has an insurance of $2000 on his stock in hand, tools etc. His loss will not be covered, though, by that amount as he had about six carriages under building and a number for repair. In the same building was the office of McCorriston, who runs an express business. The fire didn't reach his office and he succeeded in getting his furniture out through the assistance of willing friends. It is to be regretted that Ned Imhoff who assisted everywhere broke his left arm in helping to remove McCorriston's safe. Ned is around to-day with his arm in bandages and will have to do the one-armed act for a month or two. A chinese painter had some stock in the upper part of the building and lost it all. He had no insurance. The next building was the property of the Von Holt estate and was not insured. It was occupied by Kubey whose stock is insured for $500, a Portuguese shoemaker who lost most of his stock. Charles Molteno the barber, whose stuff was all saved and the Hawaii Furniture Co., a recently established business Young Nap's cigar store was not burned down, but his stock was destroyed. He holds an insurance of $500. Redward's adjoining shop was scorched, and he was damaged to the amount of about $100. John Phillips' plumbing shop and "Legislative Hall" was saved for which all royalists are truly thankful. While the fire department is being severely criticized, the able assistance of many of the old time firemen is worthy of notice. Besides the veterans already mentioned Jim Keawe and Geo. Barker were to the front. The willingness to "save" that is so characteristic of any crowd around a fire was also prominent yesterday. As a result, several "saviors" will have cigars and cigarettes, fruits and tools for the coming week. The owners will probably have nothing. The Attorney-General was personally directing the removal by Chinese drays of melons grapes and pumkins, and the police did generally very good work—rushing to and fro. Brick buildings will now take the place of the burned down shanties and materially improve the appearance of that part of the city. While the owners are about it they might as well tear the remaining shanties in the block down and make one job of it.

BASEBALL.

The Kams Win Again.

The game between the Hawaiis and the Kams last Saturday was certainly not a good one although it became interesting on account of the close shave the schoolboys had. None of the nines played well, but the Kams have got the advantage that they play not alone with their hands and feet, but also with their heads. If the Hawaiis would stop getting rattled they might yet be the champions of the season. But they won't. The following is the score:

Sans Souci was visited by a large number of people yesterday, who all enjoyed the fine bathing and excellent *cuisine* of host Simpson.

A number of people were present at the Hotel last Saturday evening when the band serenade Captain Houdlette in honor of his jubilee. Merchants in Honolulu presented him with a purse of $600, in recognition of his services.

Notice to the Public.

The undersigned respectfully gives notice that, commencing with next MONDAY, JUNE 18th, they will begin the compilation of a new trade directory for the Islands. Being thoroughly acquainted with the needs of the people in this respect, we ask the support and co-operation of the merchants of Honolulu and persons throughout the Islands.
