FITTING OCCASION NOW

VIEWS OF GENERAL HARTWELL ON HAWAIIAN AFFAIRS.

Islands Should Be Controlled by the United States—Monroe Doctrine Applies With Peculiar Force to Hawaii.

General A. S. Hartwell was recently interviewed by the Washington Star. In speaking of Hawaiian affairs, he said:

"If the application of Hawaii for political union with the United States, which will soon be made in official form, be referred to Congress for its action the President can call attention to the conditions in Hawaii, which require action to be taken in order to give any meaning to that part of the platform of the Republican party which reads:

"'The Hawaiian Islands should be controlled by the United States, and no foreign power should be permitted to interfere with them.'

"The doctrine so announced is nothing more nor less than the policy which for many years has been entertained by all parties and by many administrations. The only way of enforcing this policy is for Congress, by joint resolution, to admit Hawaii into the Union on such terms as it thinks proper.

"The obvious condition for the admission of Hawaii would be that no Chinese be allowed to come from there into this country, and that no Asiatics become citizens of the United States.

"The policy of allowing no control over Hawaii to be obtained by an foreign power may be rendered abortive, not only by Hawaii ceding its territory to any of its rights as a sovereign state to a foreign power, but by the existence of conditions which involve the indirect transfer of political power. This insidious but sure merging process will be accomplished unless something equivalent to annexation intervenes, and that not by the act of any foreign power, but by the operation of purely natural causes, against which Hawaii, standing alone, is helpless. A fitting occasion for annexing Hawaii now presents itself and there are sufficient and suitable reasons for such action.

"Our policy toward Hawaii has been dictated solely by the determination that no foreign power shall gain a vantage ground which may be used to our disadvantage or for any hostile purpose. In other words, the Monroe doctrine applies with peculiar force to Hawaii.

"To acquire the Hawaiian group in the manner now practicable, which it neither by conquest nor by purchase, shows no desire to enlarge our borders or encroach upon any sovereign state, is in strict pursuance of the policy of the Monroe doctrine, and manifestly an exercise of the right of Congress to provide for the common defense. To accomplish this result would end, once for all, the possibility of Hawaii becoming a base of supplies for a force directed against our western coast.

"It is believed that the President will before long recommend to Congress the enactment of such measures concerning Hawaii as will secure these national objects."

WILL ERECT A REFINERY.

NEW YORK, March 26.—Claus Doescher, a Brooklyn millionaire and former president of the Brooklyn Sugar Refinery Company, proposes to erect a sugar refinery in Long Island City that will cost about $2,000,000. The new refinery will be on New Town creek and will have a capacity of 3,000 barrels a day.

BOCK AT THE ANCHOR.

Seattle Brewing Company's Bock Beer doesn's need a doctor's certificate. It is a strength giving beverage and is on tap at the Anchor saloon. *

Typewriters Repaired.

Repairing typewriters is one of our specialities. We can do it right, with despatch, and guarantee our work.

Old typewriters taken in part payment for the Peerless. New and second hand machines on hand.

Have you decided on a typewriter yet? The Peerless fulfill every claim made for them. Only a few more left. Get yours to-day.

HAWAII'S FUTURE LABOR

COMMISSIONER FITZGERALD DISCUSSES OBJECT OF HIS MISSION.

His Position Made Clear on the Labor Question—His Report Will Be Based on Facts and Figures.

In the light of the recent developments at Washington over the Hawaiian treaty and sugar tariff, Labor Commissioner Fitzgerald consented this morning to discuss the object of his mission to this islands, and to make clear his position on the labor question. In an interview with a reporter for The Star, he said:

"There seems to be a great diversity of opinion among those interested in sugar growing on these islands regarding the future of this industry, and many hail the introduction of white labor as a menace to the welfare and profits of this and other industries.

"This may be true in a measure, as the cheaper the labor the greater the dividend. However, there are others to be considered who have rights in this matter, as well as the stockholders in the sugar plantations of the Hawaiian Islands, and it may not be amiss at this time to inform those who look at it in this light exactly how it is viewed from an American standpoint, as affecting American labor.

"To begin with the U. S. Federal laws exclude contract laborers from entering our ports for no other reason than that they may not compete with our free labor. They further realize that the article produced by the pauper, contract, or Asiatic laborer, works as great a hardship to the American laborer or the industry with which it comes in competition as if he were in our midst. This being a fact, the labor of America, and particularly of California, and their representatives in the Halls of Congress will undoubtedly be very much interested in knowing whether this is a white man's country and whether the white man can perform the work now done by the Oriental hordes comprising the majority of its population.

"The impression has gone abroad that they cannot do this work, owing to climatic and other conditions, which impression undoubtedly emanates from the sugar planter himself. I am here trying to determine to the best of my ability whether this is a fact or not. If it is a fact and the bone and sinew of these islands must, for all time to come, be the Pagan and Asiatic laborer, the heritage of which can never go to the children of the American or European, then it is time that the American people, with this knowledge at their command, should take decisive action.

"Let us reflect a moment and see where we, as Californians, stand under such conditions: To begin with, the slogan of the masses and the laws of the State are that prison, contract or Asiatic labor shall not come in conflict with free American labor. No better evidence is needed to show how far the hand of protection is extended to the wage earner in the States than to cite a few facts as they exist in California. The State of California has within the confines of her prison about 1600 able bodied convicts, maintained practically in idleness at the expense of the taxpayer, at an annual cost of nearly a quarter of a million of dollars, because they will not allow their product to compete with free labor.

"Is it reasonable to suppose that the people of California, to say nothing of the United States, will support convicts in idleness at their own expense and still allow the product of equally as dangerous competition to enter our ports free of all restriction. Further than this, the last Legislature passed laws that no alien should be employed upon public works and that the minimum price paid on public work should be two dollars per diem. The Citizens' Relief Committees of San Francisco and Los Angeles are now engaged in raising a fund to give employment with a view to relieving the distressed condition of the vast army of unemployed of those cities, whose deplorable condition is not due to their unworthiness, but to the existing economic conditions; the overproduction, the introduction of labor saving machinery, and, in some instances, a proper restriction upon foreign products, while the vote at the last election voices a sentiment that the present conditions were brought about by unwise tariff legislation. Further than this, there is probably no industry in the entire country, and certainly no one industry in Califor-

(Continued on Page Five.)

INSURANCE RATES GO UP

THE DEFUNCT UNION HAS BEEN GIVEN A NEW LEASE OF LIFE.

End of a Rate War that Has Raged for Two Years and Which Has Ruined Several Companies.

Fire insurance rates will be booming again in a few days. The defunct Pacific Insurance Union has been resurrected, and fully reorganized. The rate war is at an end, and all companies in the compact—and there are only five small ones that are not in—will, after April 7th, uphold the rates that prevailed when the old Union was in full swing and everything harmonious.

The news of the reorganization of the Union was received in this city yesterday by D. E. Miles, Assistant Manager of the Pacific Coast department, London and Lancashire Fire Insurance Company, who has been in the city for a few days past on business. Mr. Miles was advised by the home office of the reestablishment of uniform rates, and also had a private letter giving the details of the new compact. The reorganization of the Union was effected, only after several weeks of hard work, on March 30th, and at the time the Australia left San Francisco the fact had not yet been publicly announced. Only five small companies refused to enter into the new compact, which is said to be the most binding and strongest ever effected on the Coast. The president of the new compact is Charles D. Haven, and E. F. Morehart is the new secretary.

The reorganization of the insurance Union puts an end to a gigantic rate war that has been fiercely raging for more than two years, and which sent more than one weak company to the wall. When the combine was broken the agents in the Northwest attempted to go it alone, but made a signal failure of it. The rate war has played havoc with dividends on insurance stock, although those who had property to insure were invariably big gainers. The rate cutting was costly to the agents, too, for it was often necessary to sacrifice commissions in order to get the business.

The property owners will be the losers by the new condition of affairs, as rates will go away up. Policy holders in Honolulu are directly effected by the change, as the agents here are controlled by the managers in San Francisco.

MAY VISIT ENGLAND.

Minister of Finance S. M. Damon has not fully determined to visit England next month. It has been some years now since he has been to the mother country and he is desirous of seeing his son, who is engaged in the banking business with an old established institution in Scotland. Should Mr. Damon decide to go it is more than likely that he will time his trip in order to be in London on June 22 when the Diamond Jubilee celebration will be held.

SUGAR COMPANY.

ALBANY, N. Y., March 31—The New York Sugar Refining Company of Long Island City was incorporated today with a capital stock of $600,000 to manufacture and refine sugar. The Directors are Claus Doescher, Fred Behrevch-Tiebaut, W. R. Logan and Frederick Brommer, all of Brooklyn.

SUGAR BEET SYNDICATE.

CHICAGO, March 26.—Advices from New Carlisle, Ind., reached the city yesterday that Nelson Morris of this city had associated himself with an Indiana syndicate, which has purchased a large tract of land in the Kankakee region for the development of the beet sugar industry.

It is proposed to built an immense plant and reclaim several thousand acres. Morris' son admitted last evening that the deal was being negotiated. He said that the land was at present under water, but could be drained and converted into a splendid acreage for sugar beet culture.—

ALDRICH WANTS HIS SHARE.

William Holt Aldrich, well known in Honolulu, has brought suit in the Alameda county court, attacking the will of his father. Young Aldrich claims a quarter of the residue of a very large estate. Clarence W. Ashford, a former Hawaiian, is his attorney.

NO REDUCTIONS NECESSARY.

The goods sell themselves—the result of careful buying and knowledge of the market. The business breeze is always blowing at Kerr's. New goods arrive by every steamer and are sold at the smallest living profit.

VISIT PRESIDENT M'KINLEY

HAWAIIAN OFFICIALS DISCUSS ANNEXATION WITH HIM.

Joint Resolution May Be Introduced to Provide for a Protectorate—Closer Relations Favored by the President.

WASHINGTON, March 26.—A message from President McKinley to Congress advising legislative steps looking toward closer political relations with Hawaii is considered probable by those who have been following closely recent events here. A visit to the White House yesterday, by appointment, of Mr. Hatch and General W. O. Smith is believed to have direct connection with speedy action on the part of the executive. There are now here actively at work in the interest of annexation ex-Minister Thurston, General Smith and Judge Hartwell, all members of the Annexation Club of Honolulu, in whose behalf they are here. They have met many leading men and have taken a strong stand for the Island Republic and seem to be growing more hopeful each day.

Sentiment favoring closer relations is stronger in Congress, and a suggestion from the President would likely find a quick response. Most likely the form this will take will be a joint resolution providing for a protectorate over the islands. This would meet with very little of the opposition which would be a natural result of an attempt to secure the passage of an annexation resolution. Minister Hatch said tonight that the visit to the President was made by appointment, and all the grounds were gone over at length. He said the President showed great interest in the question and seemed well informed concerning it.

CONCERT TOMORROW EVENING.

The faculty of Oahu college extends a cordial invitation to the public to attend the musicale given in Pauahi hall tomorrow evening. A fine program has been arranged and those who accept the hospitality of the faculty and pupils of Oahu college are certain to be given a rare musical treat.

STUDENTS GET A VACATION.

The term work at Oahu college will close tomorrow noon, when the Easter vacation of one week will be given. The students have been undergoing examinations since Wednesday. Professor Hosmer is well satisfied with the work during the term.

PAY CLERK WALDMAN'S SORROW.

The many friends of Pay Clerk W. C. Waldman, of the United States navy, will be grieved to learn of the death of his wife, Mrs. Julia A. Waldman in Baltimore on March 22. Mr. Waldman was on board the Montgomery at Pensacola, Fla., and was telegraphed for, but arrived in Baltimore a short time after his wife's death. Mrs. Waldman leaves six children.

HAGEY BUILDING.

Matter Will Be Settled This Afternoon.

At a meeting of a number of people who are interested in the Hagey institute, in the Chamber of Commerce hall yesterday afternoon the matter of erecting a large stone and brick building in Honolulu was discussed. The idea seemed to meet with general favor. Messrs. Cowart and Kirkpatrick agreed to put into the project every dollar which they had made here, Alexander Young was still willing to guarantee $14,000 of the money, which would be about half the sum required.

It was decided to continue the meeting over a day in order to give the promoters of the scheme an opportunity to see other parties who might be induced to put their money into the building. Mr. Cowart stated today that the matter would be all arranged by this evening or the scheme would be abandoned for the time being.

In case the building is a go the institute will purchase a lot on Fort street opposite the Catholic church.

SIGNS OF SPRING.

With Spring comes the ever welcome Bock Beer. By the Miowera the Criterion saloon received a large consignment of the celebrated Bock Beer brewed by the Seattle Brewing and Malting Company.

BEST FOR WHEELMEN.

Careful wheelmen are never on the road without Reading's Russia Salve. It is the best thing extant for bruises, sprains and cuts Sold by Hollister Drug Co.

RACING CREW ON MARION

WILLING TO ACCEPT A CHALLENGE FROM LOCAL MEN.

Provision In Lease Not Liked by Leilani Club—They Can Be Ousted at Any Time—Jockey Club Affairs.

Probably one of the best boat crews in the America navy is attached to the man-o'-war Marion, now in the Honolulu port. The crew pulled at Callao, on the coast of Peru a few months back, in competition with an excellently organized crew from abroad the English gunboat Wild Swan. The race was over a seven-mile course and was intensely exciting. The men on both ships wagered large sums of money—all they had in fact—on the race. America's colors crossed the line first suspended from the bow of the victorious Marion's shell. Capt. Greene is very proud of the crew. Executive Officer Cogswell, who is in charge of the crew, stated this morning that the men are being kept well organized and get out to practice every now and then. The executive officer hinted that he would be pleased to see a match arranged between one of the local boat crews and the Marion men.

—:— —:— —:— —:—

There is one disagreeable feature in the lease of the water lot given by the Government to the Leilani Boat club. A condition has been inserted whereby the Government reserves the right to cancel the lease at any time and take possession of the lot. In case the club has erected its boat house, the Government agrees to purchase it at a reasonable price. The life of the lease is but ten years anyway and some of the Leilani boys say that it would be foolish to erect a boat house and run chances on the Government annulling the lease on any day. We have a fairly good membership," said Director J. H. Jones this morning," and what members we have are thoroughly good men. We are anxious to and I am confident that there would be no difficulty in getting the funds. We had a hard time securing the lease and now that we have got it the conditions of the Government seem far from satisfactory. However, we are going to have a boat house and it may be that the club will determine whether no not to build its proposed $2,500 club house one the Government water lot sometime this week."

—:— —:— —:— —:—

Since the Jockey Club announced its determination to have races at Kapiolani park on Kamehameha day and the day following, there has been activity among the horsemen on the islands. Secretary Sam G. Wilder has been notified by letters of several more running and trotting animals that will be entered in the various events. Already there is a good list of runners, which is an excellent indication that the '97 race meet will be a rattling success. Trotters are not lacking very much either. Some right smart animals will be put into training shortly. Secretary Wilder states that workmen will begin to put the track into condition shortly. The sports on Maui and Hawaii are getting their horses in shape to bring to Honolulu shortly. It is said that there will be some good runners among the horses which Adolph Spreckels of San Francisco will ship to Honolulu next month.

—:— —:— —:— —:—

That the magnificent silver cup presented to the Jockey Club by King Kalakaua and won by Col. Spalding at the race meet on Kamehameha day

Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

HER MOTHER'S GIRL.

A bright, handsome girl on the borderland between childhood and womanhood is at once a source of pride and anxiety to her mother. Being intelligent and dutiful she is her mother's pride. But she has grown fast and is still growing. Nature makes stern demands upon the slender body. The skin is dull, the eyes lusterless, the cheeks and neck are sunken, the appetite is capricious, and the movements languid. The trouble is impurity and sluggishness of the blood. It needs the life-giving elements from which alone the body derives its vigor and health. The remedy is ***Wampole's Preparation*** made from Fresh Livers containing the active medicinal principles of Cod Liver Oil, with Wild Cherry, Hypophosphites and Malt, has saved many such girls. It contains all the flesh-forming and strengthening qualities of the oil without its loathsome taste. The most sensitive and feeble can take it as they take syrup, and digest it perfectly.

Creates an appetite, stops the loss of flesh and replaces the dull yellowish hue of the skin with a rosy complexion. Girls and women gain weight and vigor by the use of it. Prudent mothers keep a bottle of it always on hand; gives results from the first dose. At all druggists.

Wicker Furniture

Is well adapted to this climate because it is cool and light, at the same time strong and serviceable. No establishment in Honolulu has such a stock of this ware as we carry, and the quality is good.

Rockers:

Straight Back and Easies.

Our prices for these goods have never been equalled and on this one point alone we defy competition.

We have our usual large assortment of high class Oak and other Hardwood Chairs—Carved and finely Polished.

ADDITIONAL SHIPS TO LOAD SUGAR FOR NEW YORK.

Bark Albert on Her Way to Honolulu —Arrivals at San Francisco—Mariposa Expected Any Hour—Notes.

The ship Henry Villard left Astoria on the 21st ult. for Hilo, to load sugar for New York.

Twenty apprentices ran away from the U. S. training ship Adams at San Diego on March 22nd.

The Babcock is topping off her cargo from the sugar brought down by the Helene and Kaala.

The Mariposa may get in tonight, but she is not expected before tomorrow.

The Skagit put to sea this morning, bound in ballast for the Sound. The Callao will not get away before tomorrow.

The Kaala and James Makee got in late yesterday afternoon, the former with 2025 bags of sugar and the latter with 2500 bags.

The Mohican discharged in less than three days and has already received 5000 bags of sugar on her outward cargo from the Lehua.

The American ship George Curtis finished discharging ballast this morning, and hauled out into the stream, where she will take in a cargo of sugar for New York.

The American ship Iriquois, Capt. Taylor, arrived last night, thirteen days from San Francisco. She is in ballast and is chartered to load sugar for New York. The Iriquois was here last year. Capt. Taylor is accompanied by his family.

Capt. W. J. Bryan, for many years superintendent of the O. & O. S. S. Co. at San Francisco, is a passenger on the Coptic, en route for Hongkong. He recently resigned his position and retired from active service. Mrs. Bryan accompanies him on a trip to the Orient.

The big ship Kenilworth was to have left San Francisco on the 1st for this port, under charter to load sugar for New York. The ship Dirigo, now due in San Francisco from New York, has also been chartered to load sugar here for New York. Both the Kenilworth and Dirigo were here last year.

Lloyd's agents have received word that the fine four-masted British ship Lord Dufferin and British bark Kankholme are missing. All hope for the Lord Dufferin is abandoned. There is still some hope for the Bankholme, but very little. The combined crews of the ships numbered sixty-seven men, all of whom are supposed to have perished.

The bark Albert left for this port on the 2nd with an assorted merchandise cargo valued at $34,500, including 1400 barrels flour, 2135 sacks bran, 16,700 pounds bread, 45,654 pounds sugar, 1890 ctls. barley, 401 bales hay, 2507 gallons wine, 450 cases coal oil, 117 barrels and 20 half barrels salmon, 200 packages potatoes, 600 barrels lime, etc. The Albert was obliged to lie over a day or two before leaving San Francisco harbor, on account of the heavy weather outside.

The barkentine W. H. Dimond, Capt. Nelson, arrived from San Francisco this morning, after a fine run of fifteen days. She brings 800 tons of general cargo, consigned to W. G. Irwin & Co., and 24 head of horses to Harry Agnew. A fine Jersey cow and calf are also on deck. The cattle must be submitted to the tuberculosis test before they are landed. The Dimond has the following passengers: Mrs. Mary McLamb, Albert Ingalshi, William Stoll, John Missing and Chas. Stoll. On the voyage up the Dimond encountered some very heavy weather, and carried away her rudder. She was repaired in San Francisco and is as good as new.

The Call of the 27th says: "Six sugar vessels from Hawaii arrived yesterday. The Santiago made the quickest run of the fleet, arriving here last Thursday night in the fast time of fourteen days. The bark S. C. Allen made the run from Honolulu in sixteen days and the barkentine Planter from Kahului in sixteen days, while the barkentine George C. Perkins took twenty days to come from Mahukona, the Metha Nelson nineteen days to come from Kahului and the Marie Hackfeld eighteen days to come from Honolulu. All the sugar boats had fair weather and every one of them sailed in. The Metha Nelson when she entered port completed her first round trip. She was built a year ago in Mendocino and was named after the wife of Capt. Nelson, since deceased.

ARRIVALS

Thursday, April 8.

Stmr Waialeale, Parker, from Kauai.

Am. bktne W. H. Dimond, Nelson, 15 days from San Francisco.

Am. ship Iriquois, Taylor, 15 days from San Francisco, in ballast.

DEPARTURES.

Thursday, April 8.

Stmr Kaala, Mosher, for Kahuku and Punaluu, at 4 p. m.

Bread and Pastry.

How can the consumer know that

PORT COSTA FLOUR

is of superior quality to other brands.? Leave it to the palate. If you are not using

PORT COSTA FLOUR

you are missing a luxury in bread and pastry.

Am bark Highland Light, Lewis, for the Sound.

Missionary packet Morning Star, Bray, for San Francisco.

Am bktne Skagit, Robinson, for the Sound.

Real Estate Values In New York.

Mrs. Schuyler Van Rensselaer has a paper on "Places In New York" in The Century. Speaking of the rapid increase of value of real estate in that city, Mrs. Van Rensselaer says: Two miles from the city hall? Very much farther away than this stands the new Herald building, where Broadway and Sixth avenue intersect. In 1845 the city owned its site and sold it for $9,930. The Herald now pays rent for it —for the land alone—at the rate of $60,000 a year. At the same sale 50 years ago a corner lot on Fifth avenue and Forty-second street brought $1,400, and in 1840 400 lots on Fifth avenue above Twentieth street were sold at prices ranging from $200 to $400. Within 20 years some of these were resold for $15,000 each, and you may guess their present worth for yourselves, remembering that business and business values have now moved into this region also.

Less than 20 years ago a much more northerly district, between Fifty-ninth and One Hundred and Tenth streets, west of Eighth avenue, would have shown you little but rocks and puddles and predatory goats and boys. Now much more than half its surface is covered with buildings, all of a very good class, and their estimated cost has been $170,000,000. Land up here is more precious than was land two miles from the city hall in the days of Philip Hone. And it is just as easy now as then to grow greatly richer in New York if you are already rich enough to buy little bits of its soil and to hold on to them for a little while.

"B'ar" and "Keow" the Watchwords.

"Many people are unaware," said Representative Curtis of Kansas, "that Kansas had a shibboleth in border state times. In 1854, when the first tide of New England settlers began to drift into the southwest, it is related that the Missourians tied a cow at each crossing of the Missouri river. When an emigrant arrived at the crossing, he was certain to make some remark about the animal. If he said 'cow,' he was suffered to cross, but if he said 'keow' he was hustled out of the country as a bloody minded abolitionist. In retaliation for this the Kansans tied a bear on their side of the river, and when an emigrant crossed who called it 'bear' he was welcomed with open arms, but if he pronounced it 'b'ar' he was scooted back into Missouri as an unwelcome slavery advocate."—Washington Post.

Hard on the Victim.

Some very funny things sometimes creep into the schoolroom. A few days ago the class in physiology had the subject "asphyxia" for its morning lesson. Wishing to impress upon the pupils the necessity of being ready for an emergency, the teacher asked one of the members of the class to state what she would do in case some one was brought in who was supposed to be drowned. The young lady very promptly answered, "Lay the person flat on his back, with his face downward." It is needless to say that closed the recitation for that day.—Washington Pathfinder.

Diplomacy.

His Father—If you marry old Stubbs' daughter, you shan't have a cent of my money.

The Son—But, father, if I don't marry her I can't get a cent of old Stubbs' money.

His Father (with a grudge to satisfy)—My own boy! Marry her and render that old skinflint penniless!—Pittsburg Chronicle-Telegraph.

Laura Bridgeman was the most remarkable example of the patience and tact requisite in the education of blind and deaf mutes. It is said that at the beginning of her mental training one lesson was given her over 500 times before she finally comprehended it.

THE EVOLUTION

Of medicinal agents is gradually relegating the old-time herbs, pills, draughts and vegetable extracts to the rear and bringing into general use the pleasant and effective liquid laxative, Syrup of Figs. To get the true remedy see that it is manufactured by the California Fig Syrup Co. only. For sale by all leading druggists.

A neat advertisement is always attractive and will attract purchasers to your store if you put it in The Star.

SPECIALIST NOT NEEDED

EYE TROUBLE ON MOLOKAI NOT OF SERIOUS NATURE.

Weekly Meeting of Board of Health—Report from Sanitary Inspector in Japan—Smallpox Still Epidemic.

A communication from Superintendent Meyers, of the Molokai leper settlement, was read before the regular meeting of the Board of Health yesterday afternoon, stating that he had interviewed Dr. R. Oliver on the matter of a specialist going to Molokai to attend to the eyes of the affected lepers in the settlement. Dr. Oliver gave it as his opinion that the nature of the eye trouble requires no specialist, as it is not a matter requiring any operation at all. Superintendent Meyers says that the foreigners who wrote him first about the matter have become thoroughly convinced of this. The Superintendent advised the Board to pay no further attention to the complaint but suggests that when the Board makes its semi-annual visit in May that it bring up a specialist for the satisfaction of the people who first gave notice of the disease.

J. H. Babcock, a leped, also writes the Board in regard to this matter, stating that after a careful investigation he has learned that the eye trouble now prevalent in the settlement is not an epidemic, as all seem to have different eye trouble. The Board decided to accept Superintendent Meyers' advice in the matter.

The health report of Dr. Stuart Eldridge, sanitary inspector for Hawaii in Japan, showed that from March 13 to March 23, there were 3,743 cases of smallpox in Japan and 1,100 deaths. In Yokohama and its suburbs alone there were 95 cases and 37 deaths during this time. There were also 47 cases of typhus fever and 13 deaths in the city of Tokio.

Dr. Shaw, upon motion of Minister Cooper, was retained by the Board as special physician in examining cattle afflicted with tuberculosis. His salary was fixed at $125. Dr. W. T. Monsarrat was also employed to devote all his leisure time to this work at an additional salary from the Board of $50 per month.

Dr. Monsarrat was requested to draw up a list of dairies in the district of Honolulu for the use of the Board.

Rev. Mr. Kaai, pastor of the Molokai church, was granted permission to attend the meeting of the Evangelical Association in Lahaina this month.

Louisa M. Todd's request for two months' pay for her services upon a sick woman who happened to drop in at her place, was denied.

There were 38,700 fish received at the fish market during the week. Dr. Monsarrat's report showed that 79 persons had been examined under the act to mitigate. At the slaughter house 103 bullocks, 27 calves, 158 sheep and 168 hogs were found to be in good condition.

Minister Cooper presided at yesterday's meeting. Those present were Dr. Emerson, T. F. Lansing, C. A. Brown, Dr. Monsarrat and Fish Inspector Keliipio.

LOSS BY SHIPWRECKS.

English Companies Suffer During the Past Two Months.

NEW YORK, March 11.—An official of one of the companies of this country which makes a specialty of assuming maritime risks has received a circular from London stating that from January 1st up to February 27th, this year, the various English companies have lost £2,000,000 in shipwrecks. The loss exceeds any estimate for the same period within twenty years. The estimate for the two months, according to the circular, is a low one, and it is thoughtt hat fully £500,000 will have to be added to the amount to make the figures correct, thus making all the enormous loss of nearly £2,500,000 for the first fifty-nine days of this year. Careful examination of the various losses show that fully 50 per cent are attributed to what are officially known as "missing vessels."

FEED THE NERVES

Upon pure, rich blood and you need not fear nervous prostration. Nerves are weak when they are improperly and insufficiently nourished. Pure blood is their proper food, and pure blood comes by taking Hood's Sarsaparilla, which is thus the greatest and best nerve tonic. It also builds up the whole system.

HOOD'S PILLS are the favorite family cathartic, easy to take, easy to operate. Hobron Drug Co., wholesale agents. 3

Accommodating to Patrons

You can get Buffalo or Pabst beer at the Cosmopolitan, Pacific or Royal saloons. Exchangeable checks good at all the above-mentioned resorts are given in change if you only want one drink. "Best beer ever in Honolulu," is the verdict of many of our prominent citizens.

ANNEXATION PROSPECTS.

The annexation question is a very live one in Washington. Both Hana and Davies, chairman of the Senate Committee of Foreign Relations, and a number of other Senators, talk earnestly upon the necessity of annexing Hawaii, and the question will be taken up now that the Dingley bill has passed. President McKinley has accorded an interview to Minister Hatch and Attorney General Smith and they were closeted with him for a considerable time, the topic of conversation being the annexation of the Islands, the President listening most carefully to the arguments advanced. The fact that President McKinley readily granted an interview to the Hawaiian representatives is most encouraging to the cause. Gen. Hartwell was also to be accorded an interview in a few days. Another encouraging fact is that Secretary Long of the Navy is decidedly in favor of Annexation. Dr. Wayland, Dean of the Yale Law School, is also taking a vivid interest in the question. From the standpoint of a close student and a distinguished jurist his statements to the President are likely to be very serviceable.

Oppose to all this the fact that the ex-Queen has, through "Captain" Julius Palmer and others, been striving to obtain an interview with President McKinley and has signally failed, and one can judge for oneself how the question of annexation at Washington stands. The entire change of program in the American administration can be no better shown than by the readiness with which ex-President Cleveland received the ex-Queen, and the manner in which President McKinley coldly puts aside her advances. The Cleveland policy and the Cleveland traditions, the plans of Gresham, and his methods for carrying them out, the hopes of the Royalists and the hopes of the ex-Queen are all buried in one grave.

The cause of annexation will triumph and it will be the happiest day for Hawaii when the Stars and Stripes float over the executive building. Then all this senseless bickering will cease, Hawaii will no longer be a prey to outside Powers, but will calmly and steadily advance to the agricultural and commercial prosperity which is before her. The Royalist will no longer strive to clog the wheels of Government and attempt to desseminate false information about the Government, the prosperity and the social features of the islands. "Othello's occupation being gone" he will settle down as a good Republican and try to do some good in the world. The men who have mislead, for selfish ends, the misguided Royalist are much to blame. In some cases there can be allowed the element of mistaken zeal, but in the majority of cases it has been pure selfishness, and the hope of place if there came a turn in affairs.

That Hawaii will be advantaged by its annexation to the United States is very true. But there are great advantages in it to the United States, especially in holding the outlying post in the Pacific. Both trade and the military and naval forces will reap the benefit of the annexation of the Hawaiian islands, while they in their turn gain a stable Government which no power on earth can meddle with.

In annexing Hawaii the United States only follow out a policy to a logical conclusion. That policy has been, as has been ably put by one of its friends in Washington, that no foreign power should gain any vantage ground which might be used to the disadvantage of the United States or for any hostile purpose against that Government. In point of fact the Monroe doctrine applies with peculiar force to the Hawaiian Islands, and the plank in the Republican Platform of 1896 which said "The Hawaiian Islands should be controlled by the United States, and no foreign power should be permitted to interfere with them," only more strongly emphasizes the position. The cause of annexation is indeed well to the fore and gaining ground through sheer good argument and presentation of acknowledged facts.

CRETE.

The Cretan imbroglio continues and the coercive attitude of the Powers has passed from the passive to the active stage. At Izzedin the Cretan Christians made an attack upon the Turks who hold that town. They were warned not to attack, but they advanced. Whereupon a Russian ship, then an Austrian, and shortly after, a British ship began to shell their position and after two hours' bombardment drove them back.

The position of the Powers, except upon the financial theory put forward in these columns a few days ago, is inexplicable. The feeling in Great Britain is very strong against the Government and the Parliamentary debates during the early part of this month will be extremely lively. It is a case where the policy of the governors is opposed to the desires of the governed.

The position of the Cretans is also a curious one. The Powers say to them "you have been cruelly treated, we will step in and help you, and you shall have autonomy and nothing else. We, Russia, France, England, Germany, Austria and Italy have agreed upon this point. The only thing we shall retain for Turkish rule is annual tribute to the Sultan, to salve his feelings." And the Cretan replies "I don't want autonomy, and I don't wan't above all, to have a vestige of Turkish power left in the shape of a subsidy. I want to be annexed to Greece and Greece is perfectly willing to annex me. Only leave us alone and we will settle affairs with the Unspeakable." And then by way of showing the Cretan how much they love him they shell his troops from five miles distance with thirteen inch shells, verily when the inner workings of this affair become known to the world there will be some startling revelations. But the inner workings will not be learned until the middle of next century, when the affair will be treated historically and the actors are dead.

One of the most interesting questions to be investigated is, who is behind Greece. The German and French papers say England, the English papers say Germany and then unite in a howl about the Muscovite, and yet almost in the same breath the French are repudiating their treaty with Russia and seeking alliance with England. Truly the European concert is of a Wagnerian type and chiefly to be admired on account of its magnificent discords.

The Dingley bill has passed the House and now goes to the Senate. The Democratic papers are all imagining that it will be terribly mauled in the Senate, but this is by no means likely. There will be amendments, certainly, but the bill is framed on lines agreeable to the majority of the Senate, and, from information received it seems very likely that it will pass the Senate very much in the condition it now stands. The bill is satisfactory to the sugar growers and agriculturalists of Hawaii and will give a boom to our trade. This is one of the first benefits we get from a Republican administration, and there is far more to follow.

The harnessing of water to the car of electricity is remarkable. Niagara has been utilized in this way, and now the Egyptian Government has determined to see what can be done with regard to the cataracts of the Nile. Fancy the change that will occur in Upper Egypt and the Soudan when electrical force can be used there. Of a truth the forces of civilization advance to the uttermost corners of the earth. As a preliminary to this project Professor Forbes, the eminent electrician, who was consulting electrical engineer to the Niagara Company, has been appointed to make an exhaustive report. Professor Forbes was on the islands with Transit of Venus party in 1874 and has visited the islands twice since.

ALWAYS HUNGRY.

The greatest living authority on Indian statistics calculates that from 30,000,000 to 40,000,000 people scarcely ever lose the sensation of hunger—in fact, do not know the feeling of a full stomach except in the mango season.

Mrs. A. Inveen, residing at 720 Henry Street, Alton, Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

JUST BEFORE BEDTIME

Nervous folks and those who suffer with sleeplessness will find a glass or two of Rainier Beer invaluable. It quiets the nerves and insures refreshing sleep. On tap or in bottles at the Criterion.

VALUES NOT TO BE BEATEN.

There are no better values to be found on the islands that at L. B. Kerr's. For bedspreads and curtains we lead the way. Likewise for hosiery, gloves and ribbons. These are positive facts. What are you going to do about it?

Timely Topics.

APRIL 3, 1897.

The arrival of the last "Australia" was greeted with a sigh of relief from the whole community. The unusually long interval between mails had made people quite anxious, and rumors of war and other political disturbances were flying about as thick as leaves in Vallambrosa. The encouraging news of the probable passage of the Dingley Bill, imposing a duty on all foreign sugars, while preserving for Hawaii nei the advantages of the Reciprocity Treaty, gladdened the hearts of all—planters as well as merchants—who predict a new era of prosperity and progress for these beautiful Isles of the Pacific. News was also brought of the knocking out of Champion Jim Corbett by his sturdy opponent Fitzsimmons.

The Tribune Bicycle

knocks them all out. Like the Roman tribunes of old, it stands on a pinnacle of fame; elevated above all others, and, like Fitzsimmons, it beats all the other Champions.

The '97 Model is the acme of perfection in wheels. It has no equal. We received a number of them by this "Australia," and can furnish them in Black, Royal Blue or Maroon.

The Sager Pneumatic Saddle is recognized as the best for ease and comfort. No disease of the spine or jar to your nerves if you use it.

The Stoddard Punctureless Tire is impenetrable by glass, nails, thorns, pins, etc., yet it retains all its elastic and resilient qualities. Every tire guaranteed for one year.

In addition to the above we handle the "Zimmy," Stormer, and other bicycles, and carry a full line of M. & W. tires, rims, handle bars in wood and nickel, bells, cyclometers, etc.

Come and inspect our new stock.

Corn Plasters

It is the little things of life that are a constant worry—things so little and insignificant that we hardly consider them worth a thought. But the little grow to big ones and give us more vexation. So it is with corns. We feel them, but are too thoroughly interested with other matters to give them much thought until forced to do so.

It remained for the firm of

Wasmuth & Co.

to prepare a remedy that would remove corns permanently. The result was

WASMUTH'S

CORN PLASTER RINGS

(IN THE WATCH.)

At the Franco-Columbia and International Exposition at Chicago in 1893 they were awarded a GOLD MEDAL. The simplicity of application of the plasters recommend them to all who are troubled with corns.

THREE DAYS' application is all that is required, and at the end of that time off comes the plaster and corn, leaving healthy, natural flesh.

Full particulars regarding the manner of using enclosed with each watch.

Sulphate of Ammonia.

Valuable testimonials to the efficiency of sulphate of ammonia as a manure for sugar land is contained in the official report on agricultural work carried on during the years of 1891-92 in the Botanical Gardens of British Guiana.

The results for the first year's test show that "where more than forty pounds of nitrogen per acre was applied, sulphate of ammonia gave distinctly the best results."

Prof. Maxwell,

under the head of "Mineral Nitrogen," says: "I consider the nitrogen in ammonia sulphate has a higher value per pound than nitrogen in any other form for the cane on these islands. . . . The examination of our soils has shown us that fertilizers must be applied; that cane prefers to take its nitrogen from ammonia sulphate."

PUBLIC LANDS NOTICE.

On April 17th, 1897, will be open for application as Right of Purchase Leases or Cash Freeholds under the Land Act, various lots in Puukapu, Waimea, Hawaii, of from 10 to 20 acres in area.

On same date 5 lots of about 4 acres each, also in Puukapu, Waimea, may be applied for under provisions of Land Act for Homestead Leases.

Applications should be made to Chas. Williams, sub agent second land district. Further information may be obtained at office of sub-agent, Honokaa, or at the public lands office Honolulu.

J. F. BROWN,
Agent of Public Lands.

SALE OF LEASE OF LOTS 10 AND 11, BLOCK "A," HILO, HAWAII.

On Tuesday, May 18th, 1897, at 12 o'clock noon at the front entrance of the Executive Building, Honolulu, Oahu, will be sold at Public Auction the leases of the following Government lots, situate in Block "A," corner of Bridge and Shipman streets, Hilo, Hawaii, viz:

Lot 10. Upset rental $240.00 per annum.

Lot 11. Upset rental $180.00 per annum.

Rent payable quarterly in advance. Term: Lease for 30 years.

This sale is upon the following conditions:

The purchases of the Leases shall, during the first four years of the term of the lease, cause to be erected upon each of these lots a fire-proof building or buildings of brick, stone or metal, in a workmanlike manner, satisfactory to the Minister of the Interior, at a cost of not less than $7,500.00 on Lot 10 and $5,000.00 on Lot 11, and shall keep the same suitably insured at not less than two-thirds of its value, for the benefit of the Lessor; and shall keep such building in good repair during the remainder of the term of the lease, reasonable use and wear thereof only excepted; and in case of damage or destruction of such building by fire, shall make good such loss or damage by the necessary repairs or reconstruction or else surrender the insurance to the Lessor.

And further that upon the request in writing by the Lessee, or his representatives, before the expiration of the term thereof, the premises, with the improvements shall, if all of the conditions to be performed by the Lessee have been satisfactorily performed, be put up at auction for a lease for a term of not over twenty years, unless said premises shall be required for Public uses, of which the Lessee shall receive at least one year's notice. Such Auction sale shall be held not more than six months nor less than one month before the expiration of said term.

Map showing the above lots can be seen at the Interior Department, Honolulu, and at the office of A. S. Loebenstein, Hilo, Hawaii.

J. A. KING,
Minister of the Interior.
Interior Office, April 8, 1897.

IRRIGATION NOTICE.

JOSEPH M. CAMARA, Jr.,
ROBT. H. BAKER.
Board of Registration, Island of Oahu.
Honolulu, April 6, 1897.

SEALED TENDERS.

Will be received at the office of the Minister of the Interior till 12 o'clock noon of WEDNESDAY, April 21, 1897, for the construction of the Road over Nuuanu Pali.

Plans and Specifications at the Office of the Superintendent of Public Works.

The tenders are to be based upon the condition that at least fifty per cent of the unskilled laborers employed on this work are to consist of Hawaiians, Americans or Europeans.

The Minister of the Interior does not bind himself to accept the lowest or any bid. J. A. KING,
Minister of the Interior.
Interior Office, April 6, 1897.

RACING CREW ON MARION

(Continued from Page One.)

last year, is to be replaced with another trophy is sure. In all likelihood it will be known as the "Willian G. Irwin" cup for it is believed that Mr. Irwin will remember the club in this manner. It is the intention to have the cup run for, should it be given, under the same condition and rulings as the Kalakaua cup. The appearance of such a prize at the next race meet would tend to liven up things among the owners of running horses.

—:— —:— —:— —:—

Horsemen generally will be pleased to know that Adolph Spreckels' string of excellent horses are coming to Honolulu. It is quite likely that the animals will reach here in due time to participate in the Kamehameha Day events. This would give a meet that would bring back a reminder of the good old days to the lovers of this sport. By the way, there seems to be trouble brewing in the San Francisco Jockey Club, and Adolph Spreckels has handed in his resignation to the club as its president. Other officers have also resigned.

—:— —:— —:— —:—

The Myrtle Boat Club has received a letter from Rodgers, the San Francisco boat builder, in which he states that he will have the construction of the new-four-oared racing shell for the Myrtles well under way by the middle of April. The members have no hesitancy in saying that the new shell will be a daisy. "Rodgers has put boats together before for the Myrtles," said a member, "and he knows what we want—the best that money will buy."

—:— —:— —:— —:—

It must be amusing to non-interested parties the way the two boat clubs watch each other. The greatest jealously exists between the two organizations just now, which bids fair to continue until Regatta day in September. The Myrtles constantly keep an eagle eye on the Healanis and vice versa. It is just too funny to have a Myrtle man tell you what the rival club is doing or to have a member of the latter organization explain the new strokes that came down to the Myrtles on the last boat.

Charles Gray, a staunch member of the Healani Boat club, said this morning that it was undecided as yet whether the Healani Club would have a new shell built this year or not. Mr. Gray said it depended entirely on the arrangements made with the Myrtles in regard to the use of the same shells this year. Charlie says that the Healanis have a good crew this year.

—:— —:— —:— —:—

It is understood that the Leilani boys may be in shape to enter a speedy crew in the Regatta Day races this fall. Chris Willis, Sam Woods, J. D. Holt, Prince Cupid and others would be the material to choose from.

—:— —:— —:— —:—

Capt. Charles Crane, of the Myrtles, expects to get his novice crew organized this week. The regular crews, composed of Leslie Scott, Olof Sorenson, Thomas King, Henry Giles, Geo. Martin, Percy Lishman, Charles Crane, W. F. Love and T. H. Petrie, are rowing in the harbor twice and three times a week now.

—:— —:— —:— —:—

In less than a month now the annual May tennis tournament, under the auspices of the Hawaiian Tennis Association, will be in full blast. The tournament will continue throughout one whole week. The playing will all be in the afternoons and on the various tennis courts of the city. The club having the most men in the finals will be entitled to have the finals come off on its courts. Should all be equally represented in the finals, then a toss-up will decide where the finals shall be played.

In the singles the favorites are Walter Dillingham, of the Pacific Tennis Club and Mr. Shanks, of the Beretania club. Dr. Dillingham won honors both in the singles and finals in last year's tournament and was also the winner of the recent tennis racket tournament on the Pacific courts. In Mr. Shanks he will have a strong antogonist. Although a new comer to this land Mr. Shanks has established an excellent reputation as a tennis man. He recently defeated Dr. Smith, a clever player, from aboard the U. S. S. Adams. Benjamin Lodge Marx, of the Valley Tennis Club, is a handy man with his racket, but it is not likely that he will participate in the tournament.

The doubles will be warmly contested. From the Pacific Tennis club will come Charles K. Hyde and Will Godfrey, Walter Dillingham and Ned Adams, S. G. Wilder and D. H. Hitchcock and others. Dr. Nichols and S. M. Ballou will be one of the doubles from the Valley Club and Mr. Babbitt and Mr. French from Punahou. From the Beretania Club will be Mr. Shanks and Donald Ross; W. H. Beardmore and E. A. Mott-Smith, and Sam Woods and Earnest Wodehouse.

Of ladies' shirt waists for 25 cents; flanelettes, 16 yards for $1; unbleached cotton, 25 yards for $1; Victoria lawn 60 cents a piece at Sachs'.

HAWAII'S FUTURE LABOR

(Concluded from First Page.)

nia, have so great a future promised under wise laws as the beet sugar industry.

"During the year 1896, 17,000 acres were planted to sugar beets, which produces about one-fourth of the consumption of sugar in the State. While from Tehama to Bakersfield, there is a strip of country 400 miles long, with an average width of 60 miles, suitable to the production of sugar beets. The raw sugar has never been produced in California at less than 2.13 per pound; no one can be a better judge to what extent the Asiatic labor of the Hawaiian islands competes with our free labor than the sugar planter himself, who is undoubtedly more familiar than anyone else with his profits and cost of production, as it comes in competition with beet sugar at its present cost.

'I notice by yesterday's mail that the sugar beet growers are bringing influences to bear upon representatives from California in the Senate. They are undoubtedly in a position to bring considerable weight to bear, but the same is infinitesimal compared with the influences of the wage earners, if they once take this matter up. And it is a well established fact that they lend the hand of assistance to their white brethren, and strike with equal determination at the classes or producers that undermine them in their struggle for a right and reasonable day's pay.

"If, on the other hand, the work now performed on these islands by Chinese and Japanese can be done by white labor and the climatic conditions offer no barrier and sugar planters and employers of labor are desirous of bringing about this change, it is doubtful is there are many who would hold that the feeling of protection and friendship should not be maintained. I doubt that there are any who demand that these conditions should change so speedily as to work a hardship upon any industry of the Hawaiian islands; but there is no use in denying to ourselves facts and existing conditions, and so long as the product of any industry at home or abroad is produced by this kind of cheap labor there is bound to be contention.

"So far as I am concerned any report that I may make shall be based upon facts and figures, as I have no one to injure and no one to favor; and shall go as I have come, with only the friendliest feelings for the Hawaiian islands and its people.

BASE BALL ON SATURDAY.

The Stars will make their first public appearance this season on Saturday afternoon. The Kamehameha lads, who have defeated the Punahous three successive games, making them champions of their class, have challenged the Stars to a game and the latter have accepted just for the practice there is in it. While the Stars are not in the best of form yet there will be a large crowd of admirers who will turn out to watch them play.

DELEGATES RETURN TODAY.

The Oahu Evangelical Association, which has been in session since yesterday morning, finished the business of the semi-annual meeting this morning, and the delegates will return on the afternoon train. There were over sixty people in attendance, among whom were Rev. and Mrs. C. M. Hyde, Rev. and Mrs. O. H. Gulick, Rev. Mr. Emerson and Miss Mary Greene.

Two years ago R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section: today Chamberlain's Cough Remedy is a household word." It is the same in hundreds of communities. Where ever the good qualities of Chamberlain's Cough Remedy become known the people will have nothing else. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

We can afford to say: "Get every sort of *Schilling's Best* tea of your grocer and get your money back on what you don't like."

Your tea-trade for the rest fo your life is worth the risk—and there is no risk.

A Schilling & Company
San Francisco

ELECTION OF OFFICERS.

At a meeting of stockholders of the Hawaiian Land and Improvement Co., held in Honolulu April 7, 1897, the following officers were elected:

W. A. Kinney, President.
S. M. Ballou, Vice President.
P. C. Jones, Treasurer.
E. A. Jones, Secretary.

P. C. JONES,
Secretary Pro Tem.

For good results and quick sales in business use the columns of The Star.

Merit

Made and Merit Maintains the confidence of the people in Hood's Sarsaparilla. If a medicine cures you when you are sick; if it cures your neighbors and your friends when they are ailing; if it makes wonderful cures of many diseases everywhere, then beyond any question that medicine possesses merit. That is just the truth about Hood's Sarsaparilla. Prepared by a combination, proportion and process unknown to other medicines, it has curative powers peculiar to itself. We know it possesses great merit because it has

Made

Cures, not once or twice or a hundred times, but in thousands and thousands of cases. We know it cures, absolutely, permanently cures, when all others fail to do any good whatever.

Hood's Sarsaparilla is known to possess merit or the power to cure disease; it is known to be the best building-up medicine on earth; it is known to be honestly advertised, and for these reasons the people buy and take Hood's Sarsaparilla almost to the exclusion of other preparations. In fact, Merit Made and Merit Maintains the confidence of the people in

PROTEST FROM HAWAII

REASONS WHY TREATY SHOULD BE CONTINUED.

Canadians Are Anxious to Secure Trade from This Country—Business Men Would Welcome Closer Relation

TACOMA, March 25.—The following is a copy of a letter sent out by Honolulu merchants to Pacific Coast business men urging them to protest against the proposed duty on sugar:

"The custom house report of Hawaii for the past year, now in press, will show that of the total trade of the islands for the year 1896, 92.26 per cent was with the United States, and of that 75.35 per cent with the Pacific Coast. Of the total Hawaiian trade, amounting to nearly $23,000,000, 82.53 per cent was conducted in vessels of American register. Every merchant in this city is receiving correspondence from Canada looking to larger trade relations with that country, but with the existence of the reciprocity treaty you have the advantage of most of your goods coming in duty free, while those from there are obliged to pay.

"While the large majority here would welcome annexation to the United States as bringing us into closer relations to the country from which most of us come, yet we realize that efforts will be made to prevent such a consummation, and that the same influence will be used toward the abrogation of the present reciprocity treaty. Such abrogation would require the placing of the same duties on American goods as are now placed on those from other countries, as it would be unreasonable to expect this country to waive duties from yours unless there was reciprocity of some kind, and merchants and manufacturers of other countries would then be able to compete for this trade on an equal footing with those of the United States."

AN ASTONISHED INDIAN.

Signals by the Heliostat Fairly Overwhelmed Geronimo.

At one interview with Geronimo, says General Miles, I tried to explain to him the uselessness of contending against the white race. I told him that we had the use of steam, and the telegraph and heliostat, both superior to any of their methods of communication. I then had the heliostat set up and said to Geronimo:

"We can watch your movements and send messages over the tops of these mountains in a small part of one day, over a distance which it would take a man on a swift pony 20 days to travel."

He was both curious and incredulous.

"How is that?" he asked.

I asked the operator to open communication with the nearest station 5 miles away. He turned his instrument upon that point and flashed a signal of attention. As quick as thought the sunlight was flashed back again. Then Geronimo confessed that he had observed these flashes on the mountain and had believed them to be the manifestation of spirits.

"From here to that point," said I, "is a distance of nearly a day's march. From that point we can communicate all over this country. I can send a message to Fort Bowie, 65 miles away, or to Fort Apache, nearly 300 miles from here, and get an answer before the sun goes down in the west."

"If you can talk with Fort Bowie," he said at once, "do this. I sent my brother there as a guarantee of my good faith. Now tell me if my brother is all right."

I gave the order to the operator.

"Now," I said to Geronimo, "you will have to wait, for that inquiry, with the reply, will have to be repeated six times."

In a short time the answer came back that Geronimo's brother was there, was well and waiting for him to come.

This struck the savage with awe. He said something to one of his warriors, whereupon the latter quietly turned on his heel, mounted his pony and roade rapidly back in the direction of the mountains whence Geronimo had come. I asked the interpreter, standing near by, what Geronimo had said.

"He told him to go and tell Natchez," was the answer, "that there was a power here that he could not understand. He told him to come in and come quick."

The heliostat had performed its last and best work. In a few hours Natchez came riding down from the mountains, with his band of warriors and their families, and so surrendered a tribe that has never been matched since the days of Robin Hood.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H. I.

HALF AND HALF.

The Royal, Pacific and Cosmopolitan saloons are now serving half and half for their customers. Two glasses are sold for a quarter. They still supply Pabst and Buffal beers at the same price.

If you want to keep your clerks busy use the columns of The Star by telling the public what goods you have to sell.

Vapo-Cresolene
WHOOPING COUGH, CROUP, ASTHMA, CATARRH, COLDS.
CRESOLENE being administered by inhalation, gives the safest and most effectual means of treating the throat and bronchial tubes. Its efficiency in Whooping Cough and Croup is wonderful. Its antiseptic virtues render it invaluable in contagious diseases, as Diphtheria, Scarlet Fever, etc. Descriptive booklet with testimonials free. Sold by druggists.
HOLLISTER DRUG CO., Honolulu, H. I., Agents.

Never Satisfied

has been the constant feeling of man since his origin. The first step towards arriving at the goal of his ambition was the sacrifice of a rib in order that he might have a companion and helpmate in bringing about a state of perfection.

Malt Nutrine

Marked improvements have taken place from time to time, and in striving to keep pace with the same many find that their physical strength fails them. Some attribute the cause to fickle fashion; others to over-work, climatic conditions, etc., etc.

Satisfies

We claim that if you are ailing—no matter what the cause—*Malt Nutrine*, the perfection of remedies, will build you up, give tone and strength to the system, and produce flesh.

Both Old

Don't wait until you are compelled to call in your family physician. Just keep a few bottles of Malt Nutrine at hand and when you feel that tired feeling coming over you take a bottle. The curative powers are wonderful.

and Young.

It contains 15 per cent of nutritious matter with less than 2 per cent of alcohol, making it a non-intoxicant.

Paints & Compounds
Roofing,
Pile Covering and
Building Papers,
FOR SALE BY
WM. G. IRWIN & Co.,
LIMITED,
Sole Agents for the Hawaiian Islands

The building papers are 1, 2, 3, and 4 ply. They come in rolls, each roll containing 1000 square feet. They are water proof, acid and alkali proof and vermin proof. A house lined with building paper is far cooler than one that is not. There is also a cheaper grade of paper adapted for use under matting keeping out insects.

HONOLULU, July 29th, 1895.
MESSRS. W. G. IRWIN & CO., LTD.
GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted: I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied.
J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement.

LEWERS & COOKE.

The modern way to spark your girl

is to get a mixed Tandem and ride out to Waikiki. A Tandem that will ride easy and move along without any exertion on your part is what you want. Then you can give all your attention to the question of the hour, or minute.

OUR RAMBLER TANDEM,

which arrived by the Australia is the very one you want, and after today, the 31st, will be for rent day and night.

Besides the Tandem, we have now a full line of ladies and gents wheels to rent by the hour, day, week, or month, and when you rent a wheel of us you get a new wheel, in perfect running order.

Telephone your order and you will get just what you ask for, delivered at your door, and it will save you a trip to pick one out.

Only twenty-seven wheels came on our "Rambler order by this steamer, the shortage being on the 1896 wheels. We had all there were left of the '96 wheels, and can get no more, but while they last we shall sell them as usual for $75 and $80, so anyone wishing this well known, well tested wheel, should place an order early, as they will not remain in stock long, and we can get no more.

"Nuf sed."

When you want to buy or rent an up to date bicycle you know just where to come, or telephone.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

The Australia brought $2,000 in nickels.

By the Australia H. E. Walker ordered ten Cleveland racers.

The Central Union church social will be given this evening.

Mrs. J. A. Kennedy and three children go to America early next month.

Mr. Smith, of the Manufacturers' Shoe Company, is expected on the Mariposa.

Two weeks' business will be taken up by the Board of Education this afternoon.

Adjourned meeting of the Honolulu Road Club at Y. M. C. A., 7:30 this evening.

The schooner Alice Cooke was reported at 2:45 p. m., twelve miles to the eastward.

Mr. and Mrs. W. F. Allen left on the Coptic today for a three months' visit to the Orient.

Miss Birnie, sister of Rev. Douglas P. Birnie, left by the Coptic today for a visit to Japan.

The First Battalion of the National Guard will drill this evening. Lieut. Col. Fisher will view the parade.

Mr. and Mrs. F. A. Schaefer and son have arranged their plans to sail for America on the next Australia.

Honolulu Commandery No 1, K. T. will hold a regular conclave at its asylum this evening at 7:30 o'clock.

A James Campbell and Miss Kimball will be married at Oakland on the 21st. Invitations reached this city yesterday.

The agent of public lands has a notice regarding lands to be opened in Punkapu, Waimea, Hawaii, in this issue.

J. T. Waterhouse advertises the largest and best assorted stock of crockery and chinaware, French and English, in Honolulu.

Pacific Cycle & Manufacturing Co. will receive their stock of Remington bicycles and sporting goods by the bark Albert, due any day.

Mrs. E. Suhr, wife of Mr. Suhr, of Hackfeld & Company, will leave for California on May 5. She will be accompanied by her children.

The annual meeting of the Hawaiian Coffee and Tea Company will be held at the office of F. A. Schaefer & Co., Saturday morning at 10 o'clock.

A great many pale, thin children are so because their system cannot absorb the food they eat. Whole wheat bread made by Love's Bakery is just the thing needed.

The puncture proof tires and pneumatic saddles for the Hawaiian Hardware Co., have been delivered to the store. It is worth investigating their relative merits.

A local fire and marine insurance company is being organized. It is understood that some of the strongest financial men in Honolulu will be identified with the enterprise.

Some men are clothes cranks in that they feel no clothes are good clothes save tailor-made clothes. The Kash claim that it can convince you to the contrary, and they are ready to wear.

Hawaiian Safe Deposit & Investment Company are agents for the London and Lancaster Fire Insurance Co., of Liverpool, England, and the Norwalk Fire Insurance Co., of Norwalk, Conn.

The Minister of the Interior advertises that on Tuesday, May 18, 12 o'clock noon, at the front entrance of the Executive building, will be sold at public auction the sale of lots 10 and 11, Block "A," Hilo, Hawaii.

One hundred and sixty-two Japanese immigrants, who arrived by the Sakura Maru and were not permitted to land by this Government were taken out of quarantine this noon and placed aboard the Coptic to be taken back to the port where they embarked.

The Coptic did not sail until 1:30 o'clock this afternoon. The Pacific Mail dock presented quite a gala day appearance. A party of eastern university men, who are on their way to the Orient on a visit were given an ovation at the dock by numerous friends here.

CYCLISTS DRINK IT

—in preference to all other beers—because Rainier is pure—because it's nourishing and strengthening—because "immoderate indulgence" does not give them a "head" the next morning. On tap or in bottles at the Criterion.

Weekly Star, $4 per year.

ROYAL BAKING POWDER

Absolutely Pure.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

NEW ADVERTISEMENTS.

The Photo Album Won't be Complete

until your photo and those of the children go in. You've said time and time again that you would have the photos taken—and forgotten it every time. Let this prove a reminder that will bring you HERE very soon.

Williams' Art Studio.

Fort Street, Honolulu.

A thousand millionaires in the United States do not take ocean voyages because they fear

SEA SICKNESS.

A thousand remedies have been made but not one percent have been effectual. Most of them are catch pennies,—baits thrown out to a suffering public.

TAROENA

IS NOT. It is natures own remedy for weak stomachs and **will be retained** on the stomach when every things else fails. Passengers on TRANS PACIFIC STEAMERS who have tried

TAROENA

experience none of the discomforts of a sea voyage.

TAROENA is not a fake preparation; it is cooked and powdered taro and by this process much of the starch is changed to dextrine.

For Dyspeptics TAROENA

is the boon of their lives. People with weak stomachs get instant relief and nourishment from it and grow stout through its regular use.

MRS. THOMAS WRIGHT,
Proprietress.

Delicate Dishes.

If you get your money's worth you get your money back. We do not sell goods that are not worth the money. We buy right. That's the first thing. You buy right when you buy from us.

Lots of good things to eat on the Routenbeck, and they came to us. From us they go to you at the lowest prices you ever heard of. Copeland's English Peas are a delicacy not often found in this market. We have a stock of them, and they have proven to be the finest ever sold in Honolulu.

English packers also put up another delicacy for the table: Cod's Roe. These fried in cracker or bread crumbs cannot be detected from the fresh article and they make a delicious entree. The price of the goods is nothing compared with the quality.
