## THE TIGER AND THE LAMB

DEMOCRATS MAY INSPECT ALL REGISTRATION LISTS.

Toma Japanese Policeman Would Make Eligible Voter If He Carried His Spectacles With Him.

Swords have been sheathed, hatchets buried and the pipe of peace smoked between the Democratic leaders and the Board of Registration. The Democratic tiger is lying down with the Board of Registration lamb and the sessions of that organization are being conducted with the utmost security. Writs in the shape of mandamus proceedings in the Supreme Court, now threatened against the anatomy of the registration lamb, but, on the contrary, the Democratic representatives have been given seats inside of the railing of the Board's room where registrations of voters can be closely watched.

After the interview which Chairman McCarthy had with the Board of Registration wherein he demanded, on behalf of the Unterrified, the right to see the records of the registrations, Lorrin Andrews, the chairman of the Board, consulted with some of the Democratic leaders with the result that the misunderstanding was adjusted and the Democrats were given what they demanded. Two representatives of that party presented themselves at the meeting of the Board this morning and were given a table and chairs to facilitate the rather arduous task which is before them. They are required to canvass the registration lists from the opening of the registration until the close on the 10th of this month.

There were no particular incidents today at the registration. Toma the Japanese policeman was turned down for the lack of a pair of spectacles. Toma presented himself for registration and the usual question were asked him. Yes, he had lived in his precinct three months previous to asking for registration and he had moreover, lived in the Congressional district long enough to give him the right to vote. Mr. Gonsalves then inquired if Toma could read and write. Toma replied, with the greatest assurance, that he could do both, whereupon he was asked to read a sign which stated that the registration office would be open between the hours of 10 a. m. and 5 p. m. Toma read the first few words which were in big type but when he reached the line giving the office hours, he was effectually stuck. Finally Mr. Gonsalves decided to give Toma another opportunity for the registrar did not wish to be accused of suppressing a voter, so a portion of the organic law was given Toma to interpret. But this proved fully as hard a task, and in the end Toma had to declare that he could not read it on account of not having his spectacles. He left the office saying he intended to hurry home and get his glasses which would assure his eligibility as a voter.

BIRTHDAY PARTY.

Mr. and Mrs. R. Rothenberg entertained about twenty-five guests at their residence, School street, last evening, in honor of Mrs. Rothenberg's birthday. A splendid lunch was served. The Symphony club under the direction of Kaai furnished music.

VESPER RECITAL.

Prof. Ballaseyus gave a vesper recital at Pauahi hall, Oahu College yesterday afternoon. The program consisted of the following numbers: "D minor Toccata and Fugue," Bach; Stradella Overture," Flotow; "Cavatina," Raff; "Bridal Procession," (Lonengrin), Wagner; and "Triumphal March" (Naaman), Costa.

NEW SUGAR MILL.

KEALIA, Kauai, September 28.—The Makee Sugar company is just completing a new mill. The building is entirely of iron and encloses a completely new mill of the most approved design. It is so located with relation to the old mill that in case of a breakdown of the latter the power can be attached to the new mill in very short order, and grinding proceed. The new mill is larger than the old one. Grinding on the new crop will begin about December. The old mill will take up the work and the new mill will take up the second part of the crop.

This is said to be the only plantation in the islands which has a complete reserve mill in case of accidents or emergencies.

McInerny's shoes are right in it. They are made by the leading factories of America, and consequently have no equal.

## MUST PAY PORT CHARGES

OCEANIC STEAMSHIP COMPANY OWES A BILL.

Mail Contract Ran Out June 14 Last And Company is now on Same Footing as Other Companies.

The Oceanic Steamship Company is due the Hawaiian government a bill for wharfage, pilotage, rent of coals lot and water since June 14,1900. This company made a deal with the monarchy in 1886 for carrying the mails, in consideration for which it was not to pay any harbor dues. It has not paid anything since that time. The Pacific Mail had and does now pay. In considering the matter this morning the Executive were unanimous in the view that as the mail contract expired on June 14 regular charges were due and collectable from that date.

The contract for completing the sewer outfall has been let to Vincent & Belsar. The work is to be done by day labor, the contractors to receive ten per cent above the total cost. Wages and other expenses must be satisfactory to the superintendent of public works and the sanitary engineer.

Mr. McCandless reported a letter from the Board of Health requesting the government to raise the grade of the streets in Kewalo and Kakaako to conform to the new sanitary policy of the Board in those districts. It was found that the streets in Kewalo have never been accepted by the bureau of public works and still belong to Mr. Desky. It was the opinion of the Executive that the government should back up the Board of Health in its efforts to improve the condition of the district.

The Hilo Railway Company asked to be allowed to use the dead timber within 500 feet of the Waiakea branch of the road. Denied.

The agents of the Boston building asked that that house be connected with the sewerage system as soon as possible. The reply will be that the Boston building and a few others may be connected about November 1.

The dredgings of the Oahu Railway Company came up as another bone of contention. It seems that the wharf plan of Mr. Dillingham has never been officially sanctioned by the central government as far as the local authorities know. In view of this, steps will be taken to make the railway people keep the road from the cattle pen to Iwilei open.

## DIDN'T OBEY THE JUDGE

MELLO REFUSED TO TAKE HIS CLOTHES BACK HOME.

His Wife Gets Another Warrant Charging Him With Desertion—The Reef or Home.

Antone Mello did not return to his fireside when he was ordered to do so by Judge Wilcox, about two weeks ago, and he will therefore be compelled to stand before his honor again tomorrow morning and show cause why he should not be sent on the reef for refusing to live with the pretty young Portuguese whom only a year ago he swore to love and cherish. Mello was arrested for desertion on complaint of his wife and after hearing the facts in the case the judge ordered him to return home, intimating that the reef would soon be his home if he didn't.

This morning the young wife with her mother and attorney Davidson, appeared at the police station and announced that Mello had not yet come back. He was still living in bachelor-like loneliness somewhere or other, the wife didn't know where. All she knew was that her hubby had not obeyed the order by which Judge Wilcox fondly hoped to re-establish a happy home, and she wanted the police to take another hand in the exciting family game.

Mrs. Mello was duly allowed to swear to a warrant for the arrest of Antone on a charge of desertion, and after telling officer Hanrahan where she thought Antone could be found she left the station with the mother-in-law who is helping her to bring the recalcitrant husband to a realization of his duties.

If she can't have her hubby at home Mrs. Mello wants to have him on the reef.

The charge against Mello is desertion. The judge has done his level best to effect a reconciliation, even going so far as to tell Mello that he would have to make roads with Captain Henry's workmen from Oahu prison, if he didn't take his clothes back home. Now it remains to be seen what will happen when he and his wife stand before the bench again.

The desertion case of David Aea, which was taken under advisement by the judge on Friday last, was decided this morning by the discharge of the defendant. His honor stated that Aea had not deserted "without cause," and ordered him released.

## MAY SAILORS REGISTER?

QUESTION BEFORE THE SUPREME COURT TODAY.

Petition of J. J. Irving, of the Iwalani, Brings Out Lots of Legal Thunder—Decision Tomorrow.

The case of Joseph J. Irving, suit for writ of mandamus against the Board of Registration to compel them to register him as a voter in the Sixth Precinct of the Fourth District was argued in the Supreme Court this morning and submitted. The court took the matter under advisement to look up the authorities cited by counsel for petitioner and then announced that it would probably be ready to present a decision first thing tomorrow morning. The court stated that it would also be ready with a decision in the Loucks registration case, which was argued last Friday.

The Irving case is different from any of the others, although it affects a number of employes of ships in the island fleets. The petitioner works on the steamer Iwalani. His room on that boat he claims as his only domicile having no residence in the city. He sets out, however, that Honolulu harbor is the home port of the Iwalani and that she moors to a wharf in the Sixth Precinct of the Fourth District. Therefore, he declares, he is entitled to register and vote in that precinct.

It will be remembered that the Board of Registration declined to register Mr. Irving.

In court this morning Mr. McClanahan contended that the precincts not only extended to the harbor but included the harbor to the sea. For instance, he said, the keeper of the lighthouse had been registered and properly so. The fact that the Iwalani was frequently out of port did not, in the mind of the attorney, affect the contention that the home of the plaintiff was in the domicile. An American vessel flying the American flag was American territory at all times, and a sailor upon an American vessel was on American soil. The lawyer declared that if the Iwalani left port and did not return in forty years the domicile of the petitioner would still be in the Sixth Precinct of the Fourth District, if he stuck to his room on the ship and the ship stuck to the American flag.

Mr Andrews defended the case for the Board of Registration. He asked the attorney-general to take the case but that official replied that he would only submit it without argument. Mr. Andrews declared that a residence in the meaning of the law was stationery. In going to sea in the Iwalani the petitioner was moving from one precinct to another constantly and did not live the requisite three months in any one of them.

It is understood that Irving is a Democrat The case is important as it affects most of the petty officers on isl-and boats.

PORTO RICANS FOR HAWAII.

Planters Seek the Treasury's Permission to Transport Them.

WASHINGTON, September 19.—George E. Baldwin, formerly with the Treasury Department, but now of Honolulu, is in the city in the interests of the Hawaiian Sugar Planters' Association There is a great dearth of laborers in the Hawaiian Islands, and Baldwin wants to get 4000 Porto Ricans to go there to work in the canefields. The planters will pay their expenses there and will give from $20 to $23 per month (gold), plus house rent and medical attendance, to field hands. The Treasury officials, however, refuse to say whether Porto Ricans can come into this country under such a contract. George Aruz was recently admitted to this country from Porto Rico under contract, but the Treasury officials now say his admission was a mistake.

SHIP CLAN McPHERSON.

The British ship Clan McPherson, Captain Macdonald, arrived today from Newcastle, with a cargo of coal.

## CANNOT GET THEIR CHESTS

SAILORS AFTER LEWIS AND TURK.

Turk Committed for Trial on a Charge of Malicious Injury—Profitable Small Loans to Seamen.

Shipping masters Turk and Lewis had another police court session this morning, when Turk was on trial on a charge of malicious injury. He was accused by J. Bradford, a sailor of the bark Dunreggan, who claimed that Turk stole his clothes. A petty larceny charge brought on the same account last week was nolle prossed, but this morning, Judge Wilcox held Turk for trial in $250 bail.

Bradford and two other sailors, who declare that they were deprived of their chests as he was, are now trying to find a way of getting their trunks back. Bradford has succeeded in having Turk committed for trial, but he is still without his trunk.

The other two men are now talking of bringing two more charges against Turk, unless they get their clothes back, and Bradford says he will have a damage case if his clothes are held any longer, now that a court has decided that the shipping master have no right to them.

The case like most water front cases, was full of contradictory testimony. Three sailors from the Dunreggan took the stand and swore that they had told Turk and Lewis not to remove their clothes, while the two shipping masters swore that they had been told by the men to take the clothes for security for $5 loaned. It was shown that Bradford's clothes had been taken by Turk after the $5 had been paid back.

The Dunreggan men appear to have decided to patronize the Sailors' Home soon after they got ashore, deserting the Turk and Lewis place, and then their troubles began. They were asked to pay $2 each which they claim was not due and the clothes were held because they would not pay.

Bradford swore that he had paid $6 the next day for the five he had been loaned, and the other two gave the same testimony about the result of the kindly loan they had secured. "Do you want some money, boys?" said Lewis in the forecastle of the vessel, and the men all did. They got $5 each. Lewis denied that he had been paid $6 each the next day for the loans.

The judge decided that the shipping masters had no right to take the clothes after being told to leave them alone. He held Turk in $250 bail, but that has not resulted in the three men getting their clothes.

## THE VOLCANO ON MAUI

THE BLAZE THAT CAPTAIN ROBINSON SAW.

Not a Volcanic Disturbance But an Ordinary Forest Fire for Benefit of Hakalau Plantation.

The fire which Captain Robinson of the barkentine Skagit thought might be a new volcano on the island of Maui was at Hakalau plantation, where forest lands are being cleared away to prepare for more cane growing.

Captain Robinson saw the fire in the darkness early Thursday morning, when it had burned a considerable area and as he viewed it from his vessel, standing a couple of miles from shore, it looked so large that he thought Hawaii nei had a new volcano. He watched it till his vessel sailed out of sight of Maui and when he got to Honolulu one of the first things he inquired about was the big fire he had seen on Maui.

K. R. G. Wallace, who arrived here yesterday on the steamer Claudine, states that a fire started last Wednesday evening at Hakalau, near Honohina, was probably the one seen by Captain Robinson It was for the purpose of clearing away forest lands and it burned away a lot of timber

The Hakalau fire was at an elevation of twelve or fourteen hundred feet above sea level, so that it would be easily visible a long way out at sea.

TAX LAW UNCONSTITUTIONAL.

T. H. Davies and Company will shortly bring before the Supreme Court an action against T. F. Lansing, the territorial treasurer, to test the validity of the license tax law. It is claimed by the firm that the treasurer has no right to charge license fees on business in American goods brought into the territory.

DAY OF ATONEMENT.

The Hebrews will observe the Jewish holy day, the Day of Atonement, with services at Progress Hall beginning at 6 p. m. Tuesday and 9 a. m. Wednesday.

JAMES REED INJURED.

Mr. James Reed, struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whiskey in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House W. Va. Pain Balm is unequaled for sprains, bruises and rheumatism. For sale by all dealers. Benson Smith & Co., general agents for Hawaiian Islands.

FOR CAMARINOS' REFRIGERATOR.

Per S. S. Australia—Peaches, Grapes, Oranges, Lemons, Limes, Celery, Cauliflower, Cabbage, Pears, Plums, Fresh Salmon, Flounders, Halibut, Crabs, Eastern and California Oysters (in tin and shell), all Game in Season, Turkeys, Chickens. New crop of Nuts and Dried Fruits, Onions, Burbank Potatoes, Swiss, Parmasan, Rockefort, New Zealand and California Cream Cheese, Olives. All kinds of Dried Fruits.

## DEMOCRATS BUY A PAPER

GET THE ALOHA AINA FOR SUM OF $7,500.

Will be Run as Party Organ in Native Language—Kauai Convention—Prince David not Registered.

Leading Democrats have purchased the Aloha Aina, the daily native organ lately published in the interest of the Royalist cause and later on the side of the Independents. The price paid was $7,500 for the entire plant, subscription list, business and good will. It is understood that the paper will be run as a red-hot organ of the Unterrified in the Hawaiian language. It is reported that negotiations are under way for an interest, or more, in one of the English papers of the city.

The Democratic convention on Kauai will be held at Lihue on Wednesday. From all accounts complete tickets had been prepared. Most of the delegates were to reach Lihue tomorrow afternoon. It was arranged for J. M. Sims to open the meeting. A report arriving here has it that C. H. Bishop will be one of the candidates for the Senate and S. W. Rice the other. The house ticket will be made up largely of natives. Paul Isenberg and W. A. Kinney will leave tomorrow afternoon for Lihue to be present at the meeting.

The Democratic conventions on Hawaii were to take place early this week but the dates are not definitely known here. Palmer Woods will be temporary chairman in the Second district and Gardner K. Wilder will open the meeting in the first.

Headquarters of the Democratic party were thrown open this morning. After today about a dozen clerks will be there most of the time, engaged in various work.

Saturday afternoon the Board of Registration consented to allow the Democrats to copy the records of registration. This was after a threat to sue had formally been made to the Board. This morning Fred. Weed and Albert Cunha were installed in the office of the registratrars to copy the lists.

It has been discovered that Prince David has not registered for the election and will therefore not be able to qualify as a candidate for Congress if he does not return before Sunday. Arrangements are being made today to bring the candidate back at once.

## IT IS CRUELTY TO FISH

HUMANE SOCIETY ASKED TO TAKE UP NEW WORK.

Says Fish's Feelings Are Not Properly Considered—Officer Miller Says They Are Not Animals.

Is cruelty to fish allowable because they are not animals, is a question propounded by a correspondent of the local Society for the Prevention of Cruelty to Animals. He wants to know why steps are not taken to protect the fish. Unless fish are without feelings there is enough suffering at the fish-market in one day to put all local inflictions upon animals into the shade.

The Humane Society's correspondent addressed his letter to Officer Miller. "It is awful to behold the way the fish are used," he says. "You can see them leaping alive on the counters, and heaps are thrown away when they die.

"All should be kept in water and the dead ones should be sold first. Let the live ones swim about till they are wanted. Then fish would be cheap."

The correspondent did not describe the principal features of fish-handling at the fish market, from a humane point of view. When the fishing boats come in they are usually full of fish, swimming about in the boats' tanks. Large, deep baskets are brought to the boats, and the live fish are thrown in a struggling mass into the baskets.

This may be cruelty, but humane officer Miller says it is not cruelty to animals. That the fish do not enjoy it is quite evident to anyone who has seen a mass of them lashing one another as they struggle. They are carried away in the baskets and placed on the fishmarket counters, still alive and gasping for water and now and then indulging in a few bounces round the stone tables.

There is no society for prevention of cruelty to fish, and some how no one seems to bother about the way they are treated, except the local animal society's correspondent, whose heart was evidently touched when he saw unlucky captives brought in from the deep dying their slow death from lack of water.

STILL AFTER SHARKS.

Well pleased with the social feature of the recent grand shark fishing expedition to Pearl Harbor the yachtsmen are talking of renewing their trip, next Saturday. The second expedition will not, they assert, be modelled after the famous and fruitless march of the King of France and his twenty thousand men. On the contrary the yachtsmen, propose to profit by their last experience and on the coming trip will provide themselves with shark hooks instead of so much bait. A prize in the shape of a cup of some character will be offered to the yacht capturing the first shark.

There will also be a speech censor along and during the fishing portion of the trip nobody will be allowed to speak without the express permission of this taciturn official.

ANOTHER NOVELTY.

Ladies' felt hats in all the latest shades just to hand at L. B. Kerr & Co., Ltd. To be up-to-date visit the Millinery department at their Queen street store.

LOW PRICES ON SHOES.

Shoes are now being obtained at lower prices than ever before, owing to the cut made by L. B. Kerr & Co., Ltd. This firm have purchased three large stocks at about fifty cents on the dollar, and are selling them to their patrons accordingly.

## ALECK MACKINTOSH GONE

THE REPORT THAT HE TOOK A STEAMER ON SATURDAY.

May Have Gone to the Orient on the Nippon Maru or to the Colonies on Warrimoo.

Did Aleck Mackintosh leave here on Saturday on the steamship Nippon Maru or Warrimoo? This is a question many of his friends are asking today. He had been talking of taking a trip of the kind for some time, it is stated, and some of those who know him are inclined to think that he has gone.

Young Mackintosh left Cecil Brown's office, where he is employed at noon on Saturday. After that hour his movements are not known. Harry Von Holt, his half brother, stated this morning that he had seen some of young Mackintosh's friends yesterday who were looking for him, and that this was the first intimation that Aleck was not in town.

Mr. Von Holt did not know any reason to suppose that young Mackintosh had left Honolulu, unless he had decided to take the "trip" he had many times recently spoken of. Mr. Von Holt stated that he had advised Mackintosh not to go. "I told him to go ahead if he felt like it, but that he was wasting money for nothing," said Mr. Von Holt.

Von Holt is inclined to think that if Mackintosh left at all it was on the Japanese steamer for the orient. There was no reason why he should go to the Colonies on the Warrimoo, says the young man's brother, and if he suddenly decided to carry out his intention to take a sea-voyage, he would have chosen the trip to the orient.

"I think he would have let me and some others know before he went," said Mr. Von Holt, "but of course it is possible that he decided suddenly, and he may have gone. I should not be surprised, however, to hear that he is still here."

Aleck Mackintosh is a son of the Rev. Alexander Mackintosh, rector of the second congregation of St. Andrew's church. The young man is very well known in social and business circles here. The Rev. Mackintosh is now away on a vacation, in Europe.

THE WEATHER.

Weather Bureau, Punahou, 1 p. m.

Wind light, changing from north to northeast; weather clear.

Morning minimum temperature, 70; midday maximum temperature, 86; barometer, 9 a. m., 29.97, irregular, (corrected for gravity); rainfall, 24 hours ending 9 a. m., .0; dew point, 9 a. m., 70; humidity, 9 a. m., 75 per cent.

CURTIS J. LYONS, Observer.

HUMANE EDUCATOR.

The October number of the Humane Educator was issued today. This issue might almost be called a "bird number." There is a great deal in it about birds which is interesting quite apart from the humane purpose of the publication, because of the large amount of natural history and legendary lore it contains. "Kinau" has an interesting article about the old fort which used to face the harbor. This number of the magazine is an excellent one.

KAHUKU RANCH NOT SOLD.

The Kahuku ranch was not sold this morning owing to there being no one present who was willing to reach the upset price of $200,000. Jas. F. Morgan, the auctioneer was unable to induce any of the big crowd of speculators who were present to bid on the property so he withdrew the land. He said that he did not know what Colonel Norris the owner proposed doing with the property now.

ONE OF THE BEST.

The Provident Savings ' army of policyholders do not need any commendations to make them satisfied with their selections of a life insurance company; but those who contemplate taking out a life policy would do well to investigate the plans of this most excellent company before insuring. There is certainly none better. I. R. Burns, resident agent. Office in new Magoon building.

Kaleo and two children, W. A. Bailey, R. H. Worrell, W. E. Bal, D. W. Driscoll, George Weight, H. C. Walker, Miss S. K. Daniels, Mrs. J. C. Sorenzen, A. J. Phillips, N. Omsted, J. Ferguson, Rev. O. H. Gulick, Wing Sing Chong, Dick Song, Apana, Ah Wong, Mrs. Jno. Kaaua, A. P. Musser, A. E. Storey, A. Smedley, Mrs. J. F. Aluli, S. S. Abraham, Mrs. Espinda and son, H. C. Austin, Mrs. L. Goldstone and 68 deck passengers.

Per Stmr. W. G. Hall, from Nawaliwili—W. H. Rice, James Kula, J. E. Bush, J. F. Bowler, Guy Ownes, J. L. McCammon, W. Berlowitz, C. W. Spitz, Mrs. Jones, Ho See, Chong Hee, Lee Tim Hoon, Choy Chin, 42 deck passengers.

Per S. S. Warrimoo, from Victoria, September 29.—Mr. and Mrs. A. S. L. Gurney, F. J. Scott, C. Girdler, L. Z. Cameron, John Dawson, W. E. Dimock, J. Wilson, Mrs. Boswell, Basil Coare, N. Johnson, H. V. Sutherland, L. W. Hanworth, I. Irisberg, S. Blackman, Miss Cross, Capt. W. G. N. Kenny, Miss M. E. Flemming, C. Brown, Miss P. Gilman, G. R. Taylor, Miss Potts, W. N. Zoller, E. G. Moore, I. A. Fink, I. Dall, R. R. Hollis, F. Bedwell.

Departed.

Per S. S. Warrimoo, for the Colonies, September 29.—Mr. and Mrs. Bennett, Mrs. and Mrs. S. Clementson, E. Mason, A. Preston, 3 Chinese.

HILO PASSENGERS.

Arrived, September 25, per bk. Roderick Dhu, from San Francisco—Miss Frances Washburn, George Potter and wife, F. C. Carter, Mr. McDonald, Lilinoe Hapai, Mr. Chalmers, Miss Chalmers, Mrs. Seabaker and child, Mrs. S. L. Austin, Miss Dollie Sumner, Mrs. Williams.

MEMORANDA.

Captain Gibbs of the bark Olympic brought a large deck load of live stock with him this time. He had 60 horses, 15 cows and 412 hogs on board. The captain says it was a pleasant trip down, especially the last few days, when the vessel was nearly becalmed.

The gasoline launch Manuwai, built in San Francisco for H. E. Cooper, arrived here on the bark Olympic on Saturday.

The little brig W. G. Irwin is in the Hawaiian trade again after her trip to Cape Nome, arrived on Saturday from San Francisco making a quick trip down. Captain Genereux is her master now.

The W. H. Dimond, which was reported as arriving on Saturday, when the W. G. Irwin was off port, came in yesterday.

The tug Fearless gave the schooner Aloha a slight bump yesterday. Some of the tug's machinery got out of order as she was approaching the schooner to tow her out of the harbor, and the Fearless' bow struck the schooner before the engines could be worked to keep the tug off. The damage was slight, and the Aloha went to sea all right.

The bark Dunreggan is now said to be not leaking at all, and she will probably start for Seattle tomorrow.

Reports from the windward islands brings no news of the overdue Wachussett. The Norwegian bark Stjorn, which arrived from Newcastle yesterday, left three months after the Wachussett.

LIGHTERS AT KAHULUI.

KAHULUI, September 29.—The new manner of setting the passengers and their baggage ashore all at once on a lighter is a great success, and a vast improvement over the old plan of rowing them over in boat-load installments. Before the passengers are well seated on the lighter, a second one is being loaded with freight, and the change has very much accelerated the dispatch which can be given to the Claudine, as well as being a boon to the passengers who disembark here.

A HOT TIME IN MAUI.

PAIA, Maui, September 29.—This is the warmest day Maui has experienced for some time.

PUBLIC OFFICER RESIGNS.

Intends to go Into Business at Honolulu.

PAIA, Maui, September 29.—C. H. Dickey has resigned his position as Tax assessor of the second division to take effect on November 1. There are a number of applicants for the position, prominent amongst whom being W. A. McKay and W. T. Robinson, both of Wailuku. Mr. Dickey will open a general business office in Honolulu, and make his home there after the end of the year.

A GOOD THING.

There's one good thing when they feel dry.
That business men cannot pass by,
For far and wide it's fame you hear,
They stop to drink of "Rainier" beer,
On draught or in bottle at Criterion.

Fine Job Printing, Star Office.

BERETANIA STREET NEAR FIRE STATION

## Alsen Portland Cement

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement which is the STONGEST AND MOST SERVICEABLE CEMENT MADE and will permit the admixture of a larger amount of sand or gravel, with less loss of strength, than ony other brand; it is therefore the most economical.

ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the seawall around Governor's Island, New York Harbor, has never been equally by any other ement. It is as follows: Tensile strength per square inch—One day, 384 pounds; seven days, 600 pounds; third days, 818 pounds.

For sidewalks it gives the best color and the most endurable wearing surface.

A few of the large contracts in which Alsen Cement was used: Cable R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. bridges, 20,000 barrels.

## Pale Blood,
Sunken cheeks, a sallow skin, irregular pulse, fluttering of the heart, palpitation, pain in left side, short of breath, loss of appetite, indigestion, fainting or sinking spells—all these and many more signs point with unerring certainty to a weak or diseased heart. Is your blood pale? Is your heart weak? Remember, a weak heart never cures itself. Weak hearts may be made strong, and thin blood made rich and red and pure with

## Dr. Miles' HEART CURE,
The Great Heart and Blood Tonic.

"I suffered a great deal from soreness about my heart, had no appetite, could not sleep at night and was run down in every way. The least noise or excitement would bring on a fluttering and palpitation of my heart and make me so weak that I could not stand alone. Exertion of any kind would cause fainting or sinking spells when the breath would seem to leave my body. Nothing that my physicians did for me seemed to give relief and I began taking Dr. Miles' Heart Cure. The first bottle helped, and after using six bottles I felt better and stronger than I had before in years."
MRS. HATTIE DAVIS, Farmer City, Ills.

Dr. Miles' Heart Cure is sold at all drug stores on a positive guarantee. Write for free advice and booklet to

## THE OLAA LAND SALES
MUCH INTEREST SHOWN IN THE MATTER.

Purchasers Visit Their New Property. What the Hilo Papers say About the Subject—Prices Paid.

HILO, September 29.—The interest in the sale of the Olaa lands last week, so far from abating, is, if anything growing. A large number of the purchasers visited the land they purchased last Sunday and some of them saw it for the first time then. They found some of the squatters there in possession among them J. Ryan, the king pin of the squatters. Ryan and the others received the visitors hospitably, but they would not move off until the Supreme court of the United States had said they had no claim. As the Hawaiian Government guarantees the purchasers peaceable possession, this difference of opinion as to who really owned the land was not allowed to mar the festivities of the day.

The Hawaii Herald this week gives a complete list of the purchasers with the prices paid. The highest price paid for any one of the fifty acre tracts was $2800 paid by G. V. Jakins for tract No. 2. The lowest price was $77.50 for tract No. 229 by Lonoaea. Of the eighty-seven tracts, fourteen sold for $1500 or over, each; twenty-eight sold for from $1000 to $1425 each; thirty-nine sold for from $300 to $975 each. The total sale amounted to $69,269.01.

The Hilo Tribune says of the land:

"As to the character of the land as a whole, it seems to be all that could be desired, or at any rate expected. Some portions to be sure have considerable a-a, and some have streaks of pahoehoe, but in general the soil is deep and fertile. The forest growth is not as heavy as generally prevails in the old Olaa tract at the same elevation, but this is an advantage rather than otherwise. The buyers think they will be able to raise cane and eventually get convenient transportation. The lots sold border upon the new Olaa road from three miles to nine miles."

Of the sale and the price the Tribune says:

"If the Hawaiian Government had made the financial condition of the recent land sale a little easier (?) and provided that the purchaser need not pay anything for a period of ten years, instead of merely requiring him to pay interest it is hard to tell to what fabulous figure the eager bidders might not have raised the selling price. Speculation and gambling are generally not very much encouraged by governments, as they are considered contrary to public policy, but if the prices paid—on paper—for the recent choice cuts of Olaa backwoods are anything but the rankest kind of speculation, there are more candidates in this community for an asylum for the feeble-minded than we had previously suspected. In looking over the list of purchasers we discern a certain number who undoubtedly either belong to, the latter or are under the effect of the "small farmer" hypnosis. As to therest, if they are not speculating in futures, and putting up a margin under the name of "interest payable semi-annually in advance," with the design of transferring upon a rise in the market, without putting up a York shilling of purchase price, they are showing less acuteness in this than in their other business transactions * * * *

"How many of these people intend to maintain a continous residence for six years on this land, improve 25 per cent of it and wait ten year for a patent? Or to whom do they expect to sell who will do this? Yet if this is not the object of the sale, and if this is not the meaning of the inquisitorial series of twenty-four questions, a copy of which which he must ultimately answer, what which he mush ultimately answer, what is their object?

"* * * We submit that there is something rotten in the public land system when men who pay, or promise to pay, $50 an acre for uncleared forest land are bound down to these conditions; or, on the other hand, where men who assumedly bind themselves down to such conditions pay $50 per acre for such land."

### FIRE CLAIM OF THE JAPS.
Consul General Miki Saito Wants Statements of Losses.

A meeting of Japanese was held Saturday night for the purpose of taking steps to provide Miki Saito the Imperial Consul General with data and other information of losses sustained by Japanese from the fire in Chinatown. The Consul General said it was desired that the Japanese present, in English, an itemized statement of their losses in the fires both in Chinatown as well as in other sections of the city where the Board of Health had ordered property destroyed.

Three weeks additional time was granted the Japenese to supply this information. The consul suggested that each statement be attested by two people in order that there would be less liability of items being disallowed. The consul general said he would appoint a committee to canvas block by block, for the information desired. The information is to be sent to Washington and also presented to the Territorial Government.

### COMPANY E, N. G. H
Company E, fifty-three strong, was formally mustered into the National Guard Saturday evening. Major White of the Governor's staff, was presiding officer. Nahora Hipa was elected captain; Joseph K. Maulua, first lieutenant; Thomas K. Kakalia, second lieutenant. The new company will be equipped at once.

### PEITANG FORTS TAKEN.
Germans and Russians Lose Heavily in The Assault.

TIEN TSIN, September 19 (via Shanghai, September 20)—Two thousand six hundred Germans left Tien Tsin today to join a force forming in the neighborhood of Taku already composed of 4000 Russians, 1500 Germans and other foreign troops, the intention being to attack the Peitang forts tomorrow at daybreak.

NEW YORK, September 21.—A cable to the Journal, dated Taku, September 20th via Shanghai, September 21st, says: I saw 5000 Germans and Russians attack the Peitang forts yesterday. Of these 300 were killed or wounded. The attack on the forts began at 2 a. m. The forts replied with a hot artillery fire, well directed against the camp of the Russian infantry. At day break the allied forces advanced and the Chinese received them with a rattling rifle fire, in addition to shells from heavy guns. The ground was mined over which we advanced, and the explosion of the mines killed and wounded almost all of the 300 who fell. Their fire was silenced during the morning, and tonight the infantry dashed in and took the ruined fortifications and the city.

## THE FIRST GUN.

The Republican party will have its views pretty solidly set forth during the next ten days. While the issues before the voters are local, still national politics have a bearing upon them. This is especially the case with the selection of a delegate to Congress. Of what use will an independent, and such an independent as Robert Wilcox be in Congress? None what ever. For any good that we may expect him to do for the Territory we might as well send a block of wood. He would be a pawn in the hands of Don Celso Caesar Moreno, who still haunts the parties of Congressional politics and would have the support of Washington's negro paper, which certainly would be a mighty victory and rebound to the glory of Hawaii.

At Hauula and again at Kahuku and finally at Waialua the Republicans have carried on a vigorous campaign. All these are strongholds of Republicanism, but there is nothing like rousing the enthusiasm of the supporters, and the commencement of the country campaign of the Republican party opened most auspiciously on Saturday. The strength of the Independents does not lie in the country districts, it lies directly here in Honolulu.

The Republican platform has caught on. The planks are so different from what enemies of the party had led the voters to expect. The favoring of the employment of qualified voters and citizens of the Territory upon public works, together with an eight hour day, appeals to men from Haena to Ka Lae. The taxation plank is another popular idea. So is the appropriation for the ex-Queen. Indeed the Republican speakers go before the country well equipped and can show definitely what the party will do for the Territory if it is elected. And when it is further considered that this party will be affiliated with the party of the Adminstration on the mainland, all voters who have the interests of the Territory at heart will vote the Republican ticket.

## MORE LESSONS ON FORESTS.

Continuing the argument upon the destruction of forests and the fatal results to sections of territory from reckless waste, the Island of St. Helena can be cited. When first discovered, 397 years ago, St. Helena was densely covered with a luxuriant forest vegetation, the trees overhanging the seaward precipices and covering every part of the surface with an ever green mantle. This indigenous vegetation has been almost wholly destroyed, and though an immense amount of foreign plants have been introduced and grow luxuriantly where the soil remains, other parts remain denuded and barren and can never again be reforested.

The cause of this is plain, and is a lesson to us in denudation if we can only learn it. The rich soil formed by decomposed volcanic rock and vegetable deposits could only be retained on the steep slopes so long as it was protected by the vegetation, to which, in a great part, it owed its origin. When this was destroyed, the heavy tropical rains soon washed away the soil and left a vast expanse of bare rock or sterile clay. Any one with eyes to see can go about these islands and see similar results. The causes of destruction have been at work a much less time than at St. Helena, they are spread over a greater area, so they have not yet proved as disastrous yet, but they will do if they are allowed to go on unchecked.

Goats are charged with a great deal of the destruction. They were introduced by the Portuguese in 1513, and before the end of the century existed in thousands. We have also introduced goats and they abound in our upper ridges, in spite of the war that is waged upon them. On the Island of Molokai Kamehameha V turned loose a couple of pairs of deer, and the woods of that island have to contend against both goats and deer. The herd of the latter is considerably over 1000.

But man had also his share in destruction just as he has had here. Two of the St. Helena native trees, red wood and ebony were good for tanning. To save trouble the treets were stripped of their bark and allowed to rot, while the fast disappearing ebony was finally used up by using it to burn lime for fortifications. In the early part of last century the governor of St. Helena reported to the East India Company that the goats should be destroyed for the perservation of the ebony wood and "because the Island was suffering from drought" owing to the diminuation of the forests. The results of less than 200 years recklessness were beginning to be felt. The directors of company replied "the goats are not to be destroyed, they are more valuable than ebony," and gave no heed to forest preservation and droughts.

This kind of recklessness has gone on here very much as it has gone on in St. Helena, only fortunately we have begun to realize the danger, though we have not grappled with it to any extent yet.

It must be plain to any one, however, that the aim of civilized man can not be to live in a primeval forest. There may be too much forest as well as too little. What the country at present needs is an expert on forestry. Such men are to be found on the mainland, in Germany, in France, in British India. They can tell accurately where forest lands should be perserved and where they may with safety be opened up. If we are going to save ourselves the first thing for us to do is to obtain the services of such an expert. Upon his report an intelligent law could be passed. We want no amatuer work. At the present time there is no one on the Islands who understands forestry upon the lines above indicated. A forest expert we must have and it will pay the agricultural interests to employ such a man, and not consider the expense.

## THE REPORTED MASSACRE.

We have had so many aprocryphal tales from China, so many horrors which have been drawn by some Eastern word painter, which is the present euphemism for monumental liar, that when any tale of crime and barbarity reaches us from that direction we should be very chary of believing it.

The details of the Peking massacre were most elaborate. How the report got into circulation and who embroidered it remains one of the secrets of telegraphic journalism. But it went through the press of the world and thrilled with horror every civilized nation. Other like stories have been exploded, till there is mighty little that one does believe about China save what is contained in the terse telegrams of the various military and naval commanders.

The story of the massacre by Russian troops of 5000 Chinese, by drowning them in the Amur river is a little too lurid to be swallowed at a gulp, as it has been, apparently, by the Moscow correspondent of the London Standard. Siberia, like China, is a fertile soil for fake reports of all kinds, they breed as maggots do in carrion. Many years ago the escape of a score of Persian prisoners from the mines was magnified into a Tartar invasion, and similar stories have been rife ever since.

That individual Russians may be cruel, is true especially the Tartar descended nobility, but the true Russian is a kindly creature. The only thing that will rouse him is disregard for his religion, like all primitive and ignorant people he has a fanatical regard for it. The amiability of his character is shown even when he is drunk. A Briton when in his cups wants to fight and quarrel. A Spaniard or an Italian will use his knife or a pistol, even the gentle Hawaiian becomes bellicose under the influence of swipes, but the drunker a Russian gets the more amiable and loving he becomes, and it is no uncommon sight to see two great bearded peasants with their arms round one another's necks, and kissing because they have taken too plentifully of the national vodky.

Until there comes far better confirmation the 5000 massacre may remain in the region of the myths.

There will be a great Republican rally of young Republicans tonight, and the meeting should be a rousing one.

The question as to who can register and who can not is being argued in the courts. There has not been such keen interest in registration for many years as there is at the present time. We are beginning to realize the value of our votes and the necessity of voting.

We no sooner get one insect pest out of the way, than another comes to take his place. Judge Wilcox has got hold of a bug that burrows in the banks of the taro patches and causes them to leak. He is a formidable beggar and works with lightning speed. Why he particularly enjoys burrowing in the banks is not clear. He does not touch the taro.

There is great controversy about the value of water per miner's inch in the West. There must be a good many people here who are acquainted with the subject As the matter of water and the charges for it are now under public discussion any light upon the matter would be of value. It is probable that people on the other Islands know more than those of Oahu do on the subject. If so let them write.

We shall have some Chinese voters upon our lists when they are complete but Idaho can go us one better. Idaho has a woman suffrage law, and the wife of a Chinese merchant in Idaho City, having been born in the state, has naturally the right to vote. This is probably the only Chinese women in the world who has such a right. She has a common school education and speaks, reads and writes English fluently.

For sixty years, until the nomination of Adlai Stevenson, no man had been renominated for the office of Vice-President. John Adams, Thomas Jefferson, and Martin Van Buren are the only Vice-Presidents who were subsequently elected to the Presidency. Four Vice-Presidents have succeeded to the Presidency upon the death of the President—John Tyler of Virginia, Millard Fillmore of New York, Andrew Johnson of Tennessee, and Chester A. Arthur of New York. Only two Presidents were ever elected by the Whig party—William Henry Harrison in 1840 and Zachary Taylor in 1848—both of whom died in office, and were succeeded in the manner indicated.

# Strength

Many people "GO TO PIECES" as soon as hot weather comes. Appetite becomes fickle, sleep is not refreshing, energy disappears and strength all gone.

## Malt-Nutrine

For such a condition as this, IS THE BEST medicine to take. It gets at the seat of the matter by correcting conditions in the body which bring about this lassitude. Doctors prescribe it a great deal. There are several kinds—all good—try this.

| S. K. Kaeo | ..... | ..... |

MAUI REPUBLICANS BUSY.

They Will Thoroughly Canvass the District Until Election.

PAIA, Maui, September 29.—Last evening in the Paia Hall, the Republican party opened the campaign on Maui. The hall was packed to the doors and the different speakers were enthusiastically applauded. The Republican nominees A. N. Kepoikai, George Hons and Henry Long addressed the meeting on the issues of the day, and announced their policy if elected to the legislature. J. E. Kekipi, one of R. W. Wilcox's former lieutenants, made a very forcible address, speaking from personal experience, and advised the Hawaiians to throw Wilcox over, entirely. Other speakers were P. N. Kahokuoluna and J. P. Kapihe. The meeting was in every way a success.

Tonight another meeting takes place at Spreckelsville, and Monday evening there will be one at Hamakuapoko.

On Wednesday next, A. K. Kepoikai, George Hons, and others will leave for Hana, and meetings will be held there throughout the district. After Hana, Lahaina district will be well canvassed. Work has already been begun on Molokai. This will be kept up until election time, and the signs are now favorable for the success of the Republican Party.

ELECTRIC POWER.

WAILUKU, September 29.—Mr. Dexter, in charge of the surveying for Grimwood & Richardson in Iao Velley, has about completed the preliminary survey, and it will soon be known about how much horse power will be available.—Maui News.

REV. S. A. DONAHOE.

Testifies to the Good Qualities of Chamberlain's Cough Remedy.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by all dealers. Benson Smith & Company, general agents for Hawaiian Islands.

**SNEEZE**

And sneeze again. Then keep on sneezing. Perhaps you think you can sneeze La Grippe out of you in this way! But the trouble is La Grippe isn't in your head alone. It's in your back, your blood, your nerves, your muscles; all through the body, everywhere.

It don't take a doctor to let you know you have it.

And it don't take a doctor to cure you, either.

**Ayer's Cherry Pectoral**

is the cure. It's a sure cure and a quick cure. It quiets your restlessness, controls your fever, stops your coughing, and drives La Grippe right out of the system. One dose relieves; a few doses cure.

In Large and Small Bottles.

A cure is hastened by placing over the chest one of Dr. Ayer's Cherry Pectoral Plasters. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

# TUG RACE FOR A VESSEL

FEARLESS AND ELEU AFTER THE OLYMPIC.

The Spreckels Tug Drops the W. G. Irwin to Over Haul the Government Tow Boat.

The tugs Fearless and Eleu started out at noon Saturday on a race for the bark Olympic, which was reported 20 miles off. The Eleu had the first start, but the Fearless put on all steam and started after her, Captain Brokow having made a rapid move to get to the scene when he found that the Eleu was after the bark.

The brig W. G. Irwin and bark Olympic were both outside early in the morning, the brig being reported first as the Irwin and then as the W. H. Dimond. She showed up first and the Fearless went after her and took her in tow.

Just as he was approaching the channel with the Irwin in tow Captain Brokow observed the Eleu starting from the wharf for sea. She was after the bark Olympic. The master of the Fearless, with a tow already on hand and the other tug on the way after the Olympic, appeared to be in line to lose the latter but he quickly made arrangements to give the Eleu a fight at any rate.

Arrangements were made whereby the Irwin was dropped by the Fearless, to wait for the steamer J. A. Cummins to come along, and the Fearless started out on its race with the Eleu. The Irwin dropped her anchor at the mouth of the channel and when the Cummins came was brought inside, while the two tugs were continuing their race.

The Olympic was brought back by the Fearless, which naturally outran the Eleu, arriving back with her tow at about five o'clock in the evening.

GALVESTON NORMAL.

Civil Authorities Resume Their Regular Functions.

GALVESTON, September 21.—At noon today martial law was abolished and the civil authorities resumed control of affairs. The contract for clearing the streets has been awarded. The contractors will establish boarding camps on the beach and commence work Monday morning with an army of laborers at $2 per day.

Adjutant-General Scurry of the Texas Volunteer Guard has placed his regiment of militia at the service of the city, and the soldiers will remain here for guard and patrol work. No saloons will be permitted to open. There will be no impressment of men to work, and there is plenty of work both for mechanics and laborers.

Fine Book and Commercial Printing at the Star Office.

# BY AUTHORITY

STANDARD SPECIFICATIONS FOR SIDEWALK CURB AND PAVEMENT FOR THE CITY OF HONOLULU.

On and after this date all sidewalks and curbings, constructed within the limits specified below, shall conform to the following specifications. In accordance with Section 371, Civil Laws, 1897.

CURB.

The sidewalk curb shall be of good quality lava rock in blocks not less than 30 inches long, six inches thick at the top edge and sufficiently wide to be held firmly in place by the street paving; to be hammer dressed on the outside for width of not less than ten inches and on top edge which must show a uniform width of six inches. Blocks to be well bedded, laid true to line and grade and the joints between the blocks filled with cement grout. At street corners curb to be carried around on a curve the radius of which is not less than width of sidewalk.

PAVEMENT.

To be artificial stone flagging composed of cement concrete, constructed in alternate slabs in place. It shall consist of two parts: First, a base course 3½" thick; second, a finishing or wearing course ¾" thick.

BASE COURSE.

The base course shall be composed of three parts crushed blue lava rock known as No. 2, no piece of which shall be larger than will go through a two inch ring: two parts of crushed blue rock known as No. 3, leaving out all which will pass through a screen of mesh to the inch; two parts of clean screened beach or other good sand; one part of cement. Sand and cement to be thoroughly mixed before being wet and then with only enough water to make a stiff mortar. Wet broken stone before putting on mortar. Mortar to be spread evenly over stone and the mass turned in the box till thoroughly mixed. The concrete shall be properly deposited in place without being scattered until the mortar flushes to the surface, using care to compact the outer edges.

FINISHING COURSE.

The finishing course of cement mortar shall be in no place less than ¾" thick and shall be composed of one part cement and one part of the fine screenings from the No. 3 rock, and 2 lbs. lamp black to each barrel of cement. It must be spread on the base course, and floated, while the latter is still soft, and adhesive, after which the surface will be smoothed and compacted by thoroughly and skilfully troweling before the cement is too hard for such finishing. The work must be kept moist and protected from the direct rays of the sun for at least three days by covering with 2 inches of sand.

PREPARING SUB-GRADE.

The space to be occupied by the walk shall be properly graded to a depth of 4¼" below top of finished walk. Any soft, loose or unsuitable material found in the sub-grade shall be removed and the space filled with fine broken stone or cinders, after which the whole surface shall be thoroughly compacted by ramming or rolling and finished to required grade and cross section.

GRADE.

Unless otherwise especially provided for, the finished surface shall be a true plane rising from the curb grade at the curb line at the rate of one-fourth inch (¼") to one foot (1') to the property line.

PORTLAND CEMENT.

Cement must be of a well known or standard brand, in good condition and must stand the test required for cement in Government contracts.

CONCRETE.

The material used in construction must be proportioned by exact measurement, and for this purpose contractors will be required to provide themselves with rectangular boxes for measuring materials and tight boxes for mixing. No mixing of materials on pavements will be permitted. No retempering will be permitted and concrete which has already began to set before being put in place will be rejected. Concrete shall be laid in blocks of not to exceed 3 ft. in width by the width of walk and shall be marked off into squares by the use of proper marking and jointing tools. Screeds of sufficient stiffness must be used to perserve a true and straight edge the width of the walk. Concrete blocks shall be put in alternating, and each block finished with top coat immediately so that a good and sufficient bond may be had between them. Intermediate blocks shall not be put in for at least 12 hours after finishing the first blocks.

DRIVEWAY.

Whenever driveway occurs, the artificial stone flagging shall not be less than eight (8) inches in thickness, and the surface shall be finished with sufficient longitudinal groves or corrugations to provide a safe foot-hold for animals. Stone paving of approved construction may be substituted for concrete in driveways.

BITUMINOUS PAVEMENT.

Outside of the limits mentioned for cement paving, the property owners shall have the option of constructing sidewalk pavement of either cement concrete as specified or of approved bituminous material.

LIMITS.

The specifications for cement pavement shall apply to all sidewalks constructed in the City of Honolulu, Island of Oahu, within the limits, bounded by the waterfront, commencing from the marine Railway to River street, thence along River street to Vineyard street, thence east along Vineyard street to Nuuanu street, thence up Nuuanu to School street, thence east along School street to Lusitana street, thense along Kinau street to Victoria street, thence down along Victoria street to King street, thence west along King street to South street, thence down South street to Queen street, thence west along Queen street to Punchbowl street in a direct line to place of commencement, including both sides of the streets named and also King street as far as the Palama Pumping Station, Nuuanu Avenue as far as Judd street, and Beretania Avenue from River to King streets.

The specifications for curb and for option of bituminous pavement shall apply to that portion of Honolulu bounded on the southeast by a line running N. E. true from the sea passing through the Diamond Head trig. station; on the northwest by the Kalihi stream, on the makai side by the sea and on the mauka side by a line parallel to, and one and one-half miles from the waterfront.

NOTIFICATION.

Property owners will be notified when they are required to construct sidewalks.

J. A. McCANDLESS,
Superintendent of Public Works.

Public Works Department, Honolulu, September 25, 1900.

# ADDRESSING THE RURALES

REPUBLICAN SPELL-BINDERS IN THE COUNTRY.

The Rich, the "Man With the Hoe" and the Artless Swain All Learn of McKinley and Republicanism.

The Republicans fired the first distinctive campaign gun at Hauula Saturday afternoon. It turned out that when the party arrived there a court case and a wedding were in progress. These two events had attracted almost everybody in the district to the place. The meeting began about 3:30. L. K. Naone was chairman and George Kepuka was made temporary secretary. The speakers were L. L. McCandless, J. L. Kaulukou, Frank Archer, George R. Carter, Enoch Johnson and W. C. Achi. All of the argument was addressed particularly to the natives, the district being one claimed by the Independent party.

From Hauula the party came back to Waialua. In the meanwhile Sam. Parker had arrived at Haleiwa to speak. The meeting was held in the little court house. The accommodations were very bad, but what was lost there was made up in enthusiasm. Sam. Parker, George R. Carter, L. L. McCandless, W. C Achi, J. L. Kaulukou, Enoch Johnson and Frank Archer were the speakers. Mr. Parker's speech was as follows:

"Fellow-citizens: I have the honor to be the nominee as Delegate to Congress for the Republican party.

"About eight years ago I came down with the Queen and spoke to you at the church. Tonight I speak to you as a Republican. I suppose you know that Prince David has been nominated as the Democrats' choice for Congress. Two-thirds of the members of Congress are Republicans. Is it not, then, better for you to vote for a Republican Congressman? It is not because I want to go for my own interest, but it is for the interest of all.

"The Territorial Delegate will have no vote. He can speak, however, and bring up the various bills he may have.

"During my last visit to the United States I asked President McKinley if Government lands could be divided and distributed to the people. The President answered: 'But all the Government lands are under the plantations?" I told him that I had immense Government lands in my possession on the Island of Hawaii. If a law could be passed to that effect, I would very willingly return that land to the Government, that it may be distributed to the poor. (Applause.) So before I left during my last visit, preparations were on the way, to send a commission out here to consider the question. Prince David may have had this idea. But I warn you to send a Republican Congressman. If you vote for a Republican Congressman you had better also vote for the Republican candidates for the next Legislature. Again, as for your Congressman, I would leave the matter to your own discretion.

"You will not that one of our platforms is to secure an appropriation for the Queen. A bill to that effect was introduced in the United States Congress last February, but the matter was deferred for our local Legislature to consider.

"When I was in the United States President McKinley asked me, 'Col. Parker, can you defeat Wilcox?' I told him that was a hard question for me to answer. I told him, however, that I would use every possible effort to defeat Wilcox. If you should grant me your suffrage, I will do the best I can for our benefit."

# SINCE THE "ARMY" CAME

SALVATIONISTS TELL WHAT THEY HAVE DONE.

How the Outbreak of Plague Served to Secure Them Release From Poor Quarters—Rescue Home Needed.

The Salvationists who came to Honolulu on the Australia eight months ago have sent to their San Francisco associates a review of their work and experiences here. The following are extracts from the report, as published in the War Cry:

"We love Honolulu. Who does not? What comrade who has toiled here in the past but loves the Islands, Honolulu, and its people? I am sure the word Hawaii recalls many happy memories to those who have been privileged to make their home here, even for the short time allotted a Salvation Army officer.

"For some reason the Army's open-air meetings were restricted to the Oriental side of Nuuanu street six nights in the week, Sunday night being the only time we were to venture on Occidental territory. Naturally our crowds were small indoors, as on the street, few white people, comparatively, seeing anything of the Army. We began to pray, 'Lord, give us the people. Give them the story of the Cross.'

"Nineteen days after our arrival our hall was in plague quarantine, and we were shut out of Chinatown entirely. We secured the Y. M. C. A. hall for a time, and saw an immediate increase in attendance. When all public meetings were forbidden we found occupation in house-to-house, jail and hospital visitation, besides spending eighteen days in a Detention Camp hospital, while Captain Mills and Major Wood did inspection work, rat poisoning, etc., for the Board of Health.

"Mr. Henry and his assistants have done much to make our jail work successful. We can never forget the interest, co-operation and kindness of the warden of Oahu prison. While there is real discipline, there is certainly effort made to help the men to better lives. Two of our faithful soldiers were won for God through our work during their incarceration there.

"A Rescue Home is the crying need of the hour. Almost every week we hear of unfortunates, with whom we can do nothing because we have no place to take them to. It is just sorrowful to meet and try to deal with them, as we cannot take them from their environments. How many times I wish Beulah Rescue Home and its devoted officers were not so far away!

"Our visitation is considerable; in fact, much more is necessary than we can find the time and strength to do. We visit the United States hospital, the Queen's hospital, Oahu prison and hospital, the Relief Camps, the ships, and as many homes as possible.

"The War Cry work in the saloons Saturday night is thoroughly done, and I believe much good is accomplished. Honolulu's streets are crowded Saturday night, and we usually hold two or three street meetings in different places."

# CUTICURA

**REMEDIES**

# THE SET

Consisting of CUTICURA SOAP, to cleanse the skin, CUTICURA Ointment, to heal the skin, and CUTICURA RESOLVENT, to cool the blood, is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humours, rashes, itchings, and irritations, with loss of hair, when the best physicians, and all other remedies fail.

**Millions of Women Use Cuticura Soap**

Exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other *medicated* soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic *toilet* soap, however expensive, is to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world. Sold throughout the world. "All about the Skin," post free of Aust. The regular monthly meeting of the Woman's Board of Missions will be held at Central Union church tomorrow afternoon at 2:30 o'clock. Miss Graydon of Oahu college will read a paper on Alaska.

The wives of all Master Masons are requested to meet at the Masonic Temple on Tuesday afternoon at 4 p. m. for the purpose of making arrangements for the reception of the Shriners and their wives.

The Hawaiian Tribe, I. O. R. M. will give a moonlight excursion to Remond Grove on Thursday evening October 11, 1900. Trains will leave the depot at 7:30 P. M. Fare for round trip, including supper $1.25.

## FIRE AT DAVIES & CO'S

Theo. H. Davies & Company came near having a disastrous fire at an early hour yesterday morning. The blaze was in the cellar of the hardware department, mauka side of the general office. This cellar contains a great deal of paint oils, paint, etc. The fire evidently started in sweepings on the floor of the cellar and spread to the floor above, going through the boards there and spreading to a hardware table. At the center of the blaze the sills of the first floor were nearly burned out.

A clerk, coming down to work awhile, noticed the smoke arising from the cellar and turned in the alarm. The chemical engine responded and soon had complete control.

The fire was almost unquestionably the result of spontaneous combustion. There is always danger of this in an oil store room, especially if there are any oily rags or trash about. It is clear that the fire started inside the cellar, and it is impossible that it could have started from a cigarette or anything from the outside, as the cellar had been tightly closed for nearly twenty-four hours.

A policeman was stationed at the store all of last night to watch for any fresh manifestations of fire, but nothing occurred. The Underwriters will investigate the matter and determine the amount of damages. The loss will not be very large.

It is impossible to estimate the amount of damage had the fire gotten a good start. The immense stocks of Davies & Company would undoubtedly have been wiped out. Gonsalves & Co. Phillips & Co., Macfarlane & Company, Bishop's bank and the entire Campbell building are in the same block and almost abut on the Davies premises.
