VOL. VII. HONOLULU, H. I., SATURDAY, OCTOBER 20, 1900. No. 2685

THE SHRINERS ARE COMING

ARRIVED IN HILO THURSDAY MORNING.

Were to Leave There This Morning at 3 O'clock—Will Probably Arrive Here Late This Afternoon.

THE ZEALANDIA SAILS FROM HILO FOR HONOLULU AT 3 O'CLOCK SATURDAY MORNING.

HILO, October 19.—The S. S. Zealandia with the Shriner excursionists arrived here Thursday morning, October 18. As soon as the vessel arrived in the harbor it was boarded by the reception committee. As soon after arrival at it could be arranged a party of about seventy-five of the excursionists started for the Volcano.

Thursday evening a reception was tendered by the pilgrims to the people of Hilo on board the Zealandia. This was very largely attended. This afternoon there is a luau in progress in entertainment of the pilgrims by the people of Hilo and it will be followed by a dance tonight in a very elaborately planned, and decorated pavilion in front of the hotel.

People have come into Hilo from all over the Island to welcome the visitors and to take in the entertainment. This is one of the biggest affairs that ever took place in Hilo, and the large number of strangers here reminds kamaainas of the time in 1881, when Princess Ruth came here with a big suite to offer sacrifices to Pele and stop the big lava flow.

The Zealandia will sail for Honolulu, at 3 o'clock a. m. Saturday morning.

The total number of Arabs on board was 190, and they report a pleasant trip in spite of a natural propensity to roll on the part of the Zealandia.

The committee of arrangements in charge of the expidition are: R. P. Hurlburt, Potentate; T. H. Brown, J. H. Goldman, A. F. Gunn, J. A. Marsh, George F. Neal, B. D. Pike.

The first newspaper published on shipboard in the Pacific was the Moslem Herald, a four-page daily made up of the daily happenings of the voyage, liberally supplemented by advertisements and boiler plate. The staff consists of George F. Neal, editor; Mrs. S. E. Reamer, vice-president; Mrs. L. Danskin, treasurer; Mrs. Thomas H. Brown, secretary. The subscription rates are $1 to pilgrims, and the advertising rates "all we can get." Cable address, "Islam." 'Phone Nit 101. As the editoriols have no reference to politics it would seem to be a religious sheet, though it shows no other symptoms of the disease except the name.

To provide against accidents and the perils that assail the pilgrim in strange and unknown lands, each Shriner has attached to him as he leaves the vessels to disport himself for a while on the sandy shore, a tag bearing the following inscription: I am out on a Hellula of a Time. Lost the Rope. My Lamps are Out. Sent Me Aboard the S. S. Zealandia. Berth——. Deck——.

Business houses generally displayed flags and were decorated in honor of the arrival of the Moslems. The decoration partook largely of an oriental character.

H. F. Wichman and H. H. Williams of Honolulu came down by the Zealandia.

RHODES' SPEECH.

CAPE TOWN, October 10.—Cecil Rhodes received an ovation today when he assumed the presidency of the Congress of the South African League. During the course of his address he attributed the South African war to the "mugwumps," and said that but for them Mr. Krueger never would have dared to send an ultimatum to Great Britain. Generally speaking, Mr. Rhodes was conciliatory in his remarks. He declared that now that "Kruegerism had vanished." Great Britain would establish a liberal government, "which would do everything possible to unite the interests of South Africa with those of the empire."

RECORD FROM NEW YORK.

The ship Helen Brewer, arrived this morning from New York via The Horn. She carried a general cargo. The ship made the record run for the season from New York to Honolulu having covered the distance in 117 days.

AT THE OLD STAND.

General blacksmithing and carriage repairing business in all branches at the old stand. Fort street W. W. Wright.

WATER FRONT WILL STEAM

HEALANIS ANNOUNCE A SMOKER FOR TO-NIGHT.

There Will Be a Good Time For Everybody—Special Races For The Afternoon.

Steam will be rising from the water front tonight. The Healanis have announced a smoker for then and the hottest time on the Front will be enjoyed by those who have been invited to attend the event. The boys call it a smoker and as everybody expects to "smoke up" here will be a feast of wit and a flow of soul.

There have been other smokers held during the history of the Healani club but none will equal in elaborate character the event which occurs tonight. The main idea is to bring the members of the club closer together and promote a deep and genuine feeling of fraternal sentiment. More interest is being taken in rowing at the present time than usual and the club managers have decided to hold the smoker when everybody is in the right humor. The match will not be applied to the smoker until 8 o'clock this evening.

As a prelude to this social feature there will be an athletic feature in which three crack, coming, champion crews will race for glory and anything else which may suggest itself to the minds of the boys. The first crew called the Stingerees, has been trained, coached and captained by Paul Jarrett. It is composed of Pat Gleason, stroke, Tom Treadway, No. 3; W. Stone, No. 2, and G. Wright, bow. Probably the darkest horse of the stable of sable chargers is the Hot Airs, who have been under the guidance of Dan Renear. This crew is composed of T. Lloyd, stroke, Frank Woodbridge, No. 3; Fred. West, No. 2, and George Ward, bow. This is the heavy weight crew of the bunch the average being 110 pounds. In order to keep the weight down to the maximum Woodbridge was put in to lower the average and as he weighs but 90 pounds in his racing suit the average was kept within the limit.

The Four Flushers is captained by James Lloyd. Stroke is Wall Scott, No. 3, Harry Murray, No. 2, Ralph Yardley, bow, Fred. Lowell. Of this crew the heaviest is Yardley who weighs 205 pounds while the lightest is Lowell who tips the beam at 101 pounds. Last night the Hot Airs made such a sudden and unexpected spurt that the Four Flushers became some what discouraged. Lowell could strike nothing but crabs while Yardley experienced a sudden attack, of feetitum consealitum, and declared that his wind was bad. Yardley has had considerable trouble catching stroke with the rest of the crew and has had to go into the sweat box for the last three days to reduce weight. The crew declare that he will have to remain with them however and help them to either victory or defeat.

The course will be from the head of the channel to a line between the Healani Club House and the light house, a distance of three quarters of a mile. The races are open to all and every body is invited to witness them.

The program for the smoker is one of the best of the kind which has been offered in a long time. The talent is too extensive and varied to attempt enumeration. The only thing which can be said for them is that they will make the stars of Hogan's Honolulu winners look like mud horses packing weight for age on a hard track.

A GREAT MASS MEETING.

The Republican mass meeting in the drill shed next Thursday evening will be the most elaborate function of the kind ever attempted in this city. It will be brimming with attractive features. The parade preceding the meeting will be the most complete ever seen in Honolulu. One precinct, Kaihi, alone has added one hundred new men to the line. A first class band will head the procession.

JAMES REED INJURED.

Mr. James Reed, struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whiskey in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House W. Va. Pain Balm is unequaled for sprains, bruises and rheumatism. For sale by all dealers, Benson Smith & Co., general agents for Hawaiian Islands.

FOR CAMARINOS REFRIGERATOR.

CHINA'S AFFAIRS CRITICAL

VIEWS OF JOHN F. BASS OF NEW YORK HERALD.

Says that Russia is Seeking the Dismemberment of China—Japan May Side in With Her.

John F. Bass who was in charge of the New York Herald's bureau in China during the Boxer uprising is a passenger on the Gaelic en route to the States. According to Mr. Bass the situation in China is very delicate and while there it is not probable that any trouble will occur during the winter, hostilities may break out next spring. The complications among the Powers he says is very intricate and it is difficult to predict the outcome.

"I consider" he said, "the situation to be very unsettled and things in a very delicate state in China. The United States is about the only nation which has observed a consistent policy to maintain the integrity of China. Russia has represented that she has been desirous of withdrawing from Peking but all the time she has been reinforcing her troops in Manchuria and the northern portion of China. Her desire is for the disintegration of China and she is seeking to obtain Manchuria and the northern portion of the country. She has steadily worked to obtain the dominant position in Chinese affairs and she has succeeded in doing so for she has now the control of the railroad and all of the arsenals, and important points along that line.

Germany is leaning toward the Russian policy and, I think, desires to control a portion of China. In regard to England Admiral Seymour, in the hopes of retrieving his defeat in the relief of Peking, went down to Shanghai and up to Hangkin and saw the viceroy. Seymour returned from Nanking and said that it was the desire of the government in that section for only English troops to land at Shanghai and to go to Nangkin. If troops from any other nation attempted to go to that section the viceroy said that an uprising was likely. As a matter of fact, this was simply done by the English to try and secure the control of the Yangtse Valley. It was a poor piece of judment upon the part of Seymour and England has lost the confidence of Japan in consequence.

"Japan desires to maintain the integrity of China, but she is in a very delicate position and has to watch Russia closely. It is possible that events may so shape themselves that she may deem it to her interests to side in with Russia. In this event it will be all up with us for the United States can not afford to combat both Russia and Japan for our trade in China. Naturally Japan desires to secure a portion of China.

"There is no question of the ability of our troops as fighting men compared with those of other nations. Our men can shoot better and retain their heads better than those of any other nation. As an illustration, the Russians were the first to get into Peking. They took one of the gates but just inside of this gate was a bridge over a small stream. The Russians were unable to get across this bridge the fire being too heavy. A Russian officer and fifty men tried to cross and within twenty minutes he was brought back wounded. A detachment of Americans under Lieutenant Going were able to accomplish it.

"Going saw that is was impossible to march over the bridge so he avoided the fire by marching his men to the side of the bridge and making them wade through the water which was not over knee deep. While the Russians were brave enough, this shows that they are unable to exercise judgment at a critical moment.

DRAFTS AT THIRTY DAYS

GOVERNMENT TAKES A MONTH TO PAY BILLS.

No Funds in Certain Appropriations Until the Taxes Begin Coming in—Warrants Issued Today Dated Nov. 20

Creditors of the government found today, that alas! it is true that the Territory is short of funds and will take advantage of the law which gives it thirty days in which to pay its bills after they are audited.

The treasury pays bills on the 20th of the month, among other days, and a great many people were expecting to get their money today. But when they got their warrants, they found that those drawn against the appropriations of certain departments were not dated October 20, 1900 as by usual custom they would have been, but November 20, 1900. So that they are not payable for a month yet.

The departments in which warrants are thus dated payable a month hence, are the Tax Office, the Board of Health, the Attorney-General's department, and the Department of Public Instruction. The banks refuse to accept these warrants as cash deposits except at thirty-day's discount.

Warrants in other departments where there is still money in the treasury to meet them are dated October 20, according to past custom and are payable immediately.

By November 20 it is expected that enough taxes will have been collected to meet all warrants drawn for payment that day.

THE KINAU'S CARGO.

The Kinau brought the following cargo: 225 sheep, 43 sks. corn, 38 sks. potatoes, 11 hogs, 2 horses, 171 packages sundries.

SPECIAL SALE NOW ON.

For a few days only L. B. Kerr & Co., Ltd. will hold a special sale of men's linen collars, black half hose black, Hermsdorf dye. The prices are a wonder to all enquirers.

McInerny's shoes are right in it. They are made by the leading factories of America, and consequently have no equal.

M'INERNY SHOE STORE.

Fine Job Printing, Star Office.

DELAYED BY HEAVY SEAS

GAELIC'S ROUGH PASSAGE FROM THE ORIENT.

Many Interesting Passengers Aboard Her bound for Home—A Number of Missionaries from China.

The Gaelic came into port this morning nearly a day overdue. Heavy head seas and strong winds were the cause for the ship not reaching port on schedule time. She was sighted last night after 10 o'clock but staid outside until this morning. She left Hongkong September 27 and Yokohama, October 9th. While the trip over was rough at intervals the passengers were not required to remain off the decks. The vessel carries 640 tons of freight for this port and one passenger, C. Saito.

A number of missionaries are aboard but none of them had any direct experience with the Boxers. Rev. and Mrs. J. R. Irwin and three children are among the missionaries from the interior of China who are on the Gaelic. Mrs. J. A. Fitch and two children also come from the land of the Boxer. She left her husband in China as he did not consider the situation sufficiently alarming to desert his post. Dr. and Mrs. J. B. Woods and four children and Dr. and Mrs. T. P. Crawford come from the interior of China where they served as missionaries until the outbreak of the Boxer troubles, and Rev. F. M. Morgan wife and two children were in the missionary service at Singapore.

Mr. and Mrs. John N. Bass and child are from the seat of the Boxer troubles in China. Mr. Bass was the correspondent of the New York Herald in the Philippines and upon the outbreak of the Boxer uprising was ordered to China. He was present during the fighting about Tien Tsin and the capture of Peking.

Dr. Frank Anderson and daughter are returning from Yokohama. Dr. Anderson is in the U. S. naval service, having been stationed at the Japanese port as physician for some years.

Mr. and Mrs. George C. Bogue are returning to New York. He is a prominent tea merchant of Japan.

H. V. Litt and E. Engel are tourists who are roaming the world for pleasure and recreation. Mr. Litt is from Liverpool and has been away from home for the last twelve months. During that time he has visited Australia, New Zealand, China, Japan and the various Pacific Islands. Mr. Engel is from Germany and for the last three years has been abroad from his own land. Among the various countries he has visited is Brazil of which he made a tour, taking an ox cart and traveling for hundreds of miles in this slow moving vehicle.

K. Yagi and C. Uyemura are wealthy Tokio capitalists who are going to Germany for the purpose of studying the brewing industry of the Fatherland.

J. G. Judson is returning to the States from an extended absence in the Philippines. While there he was the government rations contractor, and made a neat sum supplying rations to the soldiers.

Dr. John R. Jones is of the horticultural department of the United States. He has been in Japan for some time studying the conditions there and experimenting with the introduction of tobacco. He has been very successful in the planting of this article.

E. M. Lightner and J. A. Bennett are returning home after an extended absence in the Pacific islands in the oil business. They have been engaged in oil boring in Sumatra, Java, Borneo and other sections.

Luis Izquierdo who served as consul general for Chili at Yokohama is returning to his home.

Lieutenant J. Leynes of the Holland navy is also aboard the Gaelic.

K. Sekido is a merchant of Japan who is going to New York on business.

Major George Richards of the United States Marine Corps is returning home after service in the China campaign. He was present during the fighting at Tien Tsin and participated in the capture of that city as well as the subsequent taking of Peking.

The Gaelic sails for San Francisco at midnight with mail.

WHY Y. M. C. A. WAS CHOSEN.

The reason the Sugar Planters' Association will hold its annual meeting in the Y. M. C. A. is that a printing outfit over its hall Nuuanu street precludes a meeting there. Mr. Austin was asked if he could not shut down his presses on Monday and for four hours on Tuesday, but replied that he could not. The other places considered were the Pacific club and the Y. M. C. A. Choice was made of the latter on account of its hall being larger.

LOW PRICES ON SHOES.

Shoes are now being obtained at lower prices than ever before, owing to the cut made by L. B. Kerr & Co., Ltd. This firm have purchased three large stocks at about fifty cents on the dollar, and are selling them to their patrons accordingly.

THE CHINA IN A TYPHOON

SUFFERED DAMAGE OFF THE COAST OF JAPAN.

Vessel Brought to Kobe in Safety—Captain Seabury Gains New Laurels—A Testimonial from the Passengers.

The good steamship China has been in new peril, and Captain Seabury has gained new laurels for himself as a seaman and navigator.

While on the way from Yokohama to Kobe the China was caught in the tidal wave and typhoon which swept the coast of Japan September 27, and did such great damage in several cities of Japan as is reported in another column.

The news of the peril to the China came in letters to people here in town brought by the Gaelic, and by the officers of that steamer. While not in detail it shows that the China was in great danger. Her deck was sprung, part of her after deck works were carried away, and her hull was so sprung as to leak, some of her boats were smashed and some damage was done forward. Captain Finch of the Gaelic says that he was able to learn comparatively few details, but he did not understand that the vessel had suffered severe damage.

It was reported among passengers and others in the Gaelic that the damage was sufficient to make it expedient for the vessel to go into dry dock at Nagasaki. This report however is unconfirmed.

The passengers on the China got up an elaborate testimonial to Captain Seabury and he was the recipient of much commendation from the maritime authorities of Japan.

CUSTOM LAWS ARE STRICT

UNCLE SAM WILL ALLOW NO TRIFLING.

Ships and Masters Must Conform or They Incur Penalties which only the Department can Mitigate.

Collector Stackable has imposed a fine of $1000 on the French bark Bossuet and her master Victor Lordonne. This fine is imposed under section 2774 of the Revised Statutes of the United States, which requires that the master of every vessel from a foreign port, and every vessel from another collection district coming within a collection district must report his arrival to the collector of the district within which he comes within twenty-four hours after arrival, and file a statement like a manifest, within forty-eight hours, under penalty for neglect of either of $1000.

The bark Bossuet arrived here at 11 o'clock a. m., October 16. The time for reporting the arrival to the collector expired at 11 o'clock a. m. October 17. At that time no report of her arrival had been filed and the collector imposed the fine.

When the Bossuet arrived the quarantine physician boarded her and found that Captain Lordonne had put in here for medical treatment, being severely ill with stomach troubles. He was taken to the hospital.

The neglect to report the arrival appears to be due partly to ignorance of the law, partly to the sickness of the captain, and partly to inability to promptly find the French Consul. The mate of the vessel came ashore to find the French Consul and report to him, as it is the usual custom in case of the sickness or inability of a ships' master for the consul of the country whose flag his ship flies, to take charge of matters for him. The present French Consul has been here but a short time. The consulate is not down town and the mate had difficulty in finding anyone who knew where the consulate is and did not in fact find out until too late to make the required report within the time limit.

The fine was imposed by the collector as required by law. The master and vessel may appeal to the Secretary of the Treasury for a remission of all or part of the fine. If the bark sails from here without paying the fine she will find it awaiting for her at her port of destination, probably augmented, and besides a revenue cutter will doubtless be out looking for her.

Every fine and penalty so far imposed by Collector Stackable has been approved by the Treasury Department. In some cases there has been a recommendation for a remission of part of the fine by the collector, and in these cases the recommendation has been approved.

The first fine levied was $200 on the Doric for bringing H. P. Baldwin here contrary to the navigation laws. There was an appeal from this fine but the Department affirmed the fine. In the case of the Marion Chilcott fined $2000 for beginning to discharge without a permit, the Department remitted all but $300 of the fine. In the case of the American ship Invincible where the customs seals were found broken and a fine of $500 was imposed, the Department remitted $480 of it. The J. M. Weatherwax which came here without a proper clearance from her port of departure had her fine of $100 remitted, because it was as much the fault of the collector at the port of departure as of the master. The schooner William Olsen which came from South Bend, Washington, without any clearance at all was fined the statutory fine of $100 but secured a remission of all but $15 of it.

The Emma Claudine which arrived at Kahului without proper clearance was fined. Collector Stackable has just received word from the Department that this fine will be remitted.

The schooner Eva incurred a like penalty.

HAS FEW EQUALS.

For light running, easy adjustments, and good work the Singer Sewing Machine has few equals and no superiors. —B. Bergerson, agent, Bethel Street.

ENTERTAINMENT FOR GUESTS.

There will be music at Waikiki Inn by Van Prang's orchestra every evening from 6 to 10 p. m. until Saturday, October 20th.

Fine Job Printing, Star Office.

THE MURDERER MUST HANG

FUJIHARA'S HABEAS CORPUS FAILS.

Judgement of Court was Correct—Mittimus cut no Figure—Prisoner to Hang on October 26.

The Supreme court today presented a unanimous decision denying a writ of habeas corpus to Fujihara Oriemon, the Hilo murderer, and remanding the prisoner to the custody of the sheriff of Hawaii for the execution of the original sentence, hanging.

In the motion for writ it was alleged that the prisoner was not properly convicted and that the mittimus was informal, ambigious and illegal; that the court issuing the mittimus had no jurisdiction of the prisoner on account of the illegal method pursued in drawing and empanelling thejury trying him; that the whole proceedings by which the prisoner was arraigned, tried, convic and sentenced were illegal and void for the reason that the grand jury indicting and the petit jury trying him were not drawn, summoned and empanelled according to law; that the judgment was void, and the prisoner was denied his constitutional right to a trial by jury and was convicted without due process of law.

In regard to the matter the court makes the following ruling:

'A prisoner who has been properly and legally sentenced cannot be released on habeas corpus simply because there is an imperfection or ambiguity in the mittimus when placed in the proper custody He is therefore restrained by virtue of the judgment and not by the mittimus.

"The statutes of the Territory make ample provision for bringing the record of the Circuit court before, the Supreme court for revision. The writ of habeas corpus cannot be made to serve such purpose.

"A prisoner sentenced by a court having jurisdiction of the crime charged and of the person of the prisoner is not entitled to his discharge on habeas corpus unless it affirmatively appears that the judgment under which he is confined is void."

When Fujihara applied for writ of habeas corpus a respite was granted him from September 21 to October 26. It is now to be presumed that he will be hung at Hilo on the latter date, unless he can get before the Supreme court on a straight appeal on some ground. The sylabus of the Supreme court seems to indicate a loophole through which an appeal may be made. The prisoner will probably be returned to Hilo by the Kinau next Tuesday.

Isabella M. C. Jones has filed her accounts as guardian of her minor children, charging $3305.54 and crediting $2732.28.

The application of John Dominis Holt for the payment of money due him by his guardian into court has been denied.

A resale of the James Dodd premises on the Waikiki road has been ordered by Judge Humphreys. The upset price will be $6,000.

The accounts of Sarepta Gulick as administratrix of the late C. T. Gulick have been approved.

J. R. Prengergast has filed his bond, in the sum of $250, as guardian of Kala Kaaihue, a minor. Isaac H. Harbottle is his surety.

Judge Humphreys has issued an order forbidding clerks of the court allowing official documents to leave the court room for any purpose whatever.

CONSUL CANAVARRO.

The Treasury Department under date of October 4 has notified Collector Stackable that "the Department is informed by the Secretary of State, under date of the 29th ultimo of the recognition of Antonio de Souza Canavarro as consul general of Portugal at your port."

WONDERFUL PROGRESS.

For a company which has but just completed twenty-five years of corporate existance, the Provident Life of New York puts forth a statement showing really wonderful progress. Only sixteen companies of the United States have over $100,000,000 of ordinary life business in force, and the Provident Savings is one of the youngest companies attaining that distinction. I. R. Burns, resident manager; new Magoon building.

Renear's boat—T. Lloyd, stroke; F. Woodbridge 3; F. West, 2; George Ward, bow.

Jarrett's boat—P. Gleason, stroke; T. Tredway, 3; W. Stone, 2; W. Wright, bow.

SHAME OF SERVIA'S KING

HE MARRIES AN ABANDONED WOMAN.

Alexander Desperately in Love—Ordered Ministers to Resign When They Opposed the Approaching Ceremonies.

"Servia morally dies in the marriage of the king with a vulgar courtesan," said a Servian paper when the engagement of King Alexander and Mme. Draga Maschin was announced. A Servian statesman says it was known for some time that the king nourished a tender sentiment for the lady, but no one really believed he would lead her to the altar. Mme. Maschin completely subjugated the King, and that is the only reason they can give for his action. The Servians have never held that their king should marry a princess, but would have been satisfied if he had taken a bride from a respectable family; but Draga Maschin, never! It has even been said that ex-king Milan would be recalled to the throne by the indignant people.

The bethrothal took place on a certain Saturday evening in Mme. Maschin's house. At 2 o'clock in the morning the king called the ministers and the president of the skupitschina to the palace, announced to them his betrothal and placed before them a proclamation which he wished them to confirm and sign. All the ministers refused, saying the marriage was not worthy of the king. "Gentlemen, I accept the resignation of each of you, and beg that you will leave the palace at once," King Alexander answered angrily. In the proclamation he says: "From the people, I bind myself to a woman of the people," and "having tasted happiness, I will work for the happiness of my people. I will give to my people the example of a true conjugal alliance of affection and esteem." The marriage took place in spite of all opposition.

The lady whose sudden elevation to a throne threatens to produce a revolution in Servia is the daughter of a simple police officer, Punta Lungeviaca. He has lately been showered with high honors and given a pension from the imperial coffers. Queen Draga, as she is now styled, has been married before and is the mother of three children, the eldest of whom is 16 years old. She lived very unhappily with her husband, Svetoza Maschin, a mining engineer, who committed suicide, or, as has been whispered, was poisoned. After his death the widow was in very straitened circumstances, receiving from the state a monthly pension of only 65 francs $12. Then she was taken up by the court. A little palace was constructed for her in the neighborhood of Konak and she entertained the better class of society in the Servian capital, with whom she became a great favorite.—Chicago Record.

A WONDERFUL PHONOGRAPH.

Repeats Messages So That They are Audible Ten Miles.

A phonograph that shouts so loudly that every word can be heard at a distance of ten miles has been tested at Brighton, England.

You can whisper a sentence into the machine's small funnel shaped mouthpiece and it will repeat it in tones that are more deafening than the shrieks of a liner's steam siren. Yet every word is perfectly articulated and a shorthand writer ten miles away can take down the message as easily as if you were dictating to him in a small room.

In appearance it (the machine) is merely an ordinary phonograph, with a large trumpet measuring four feet in length. In side this trumpet there is a small and delicate piece of mechanism that looks something like a whistle. This is the tongue of the machine.

Instead of the "records" being taken on wax in the usual manner, a sapphire needle is made to cut the dots representing the sound vibrations on a silver cylinder, and when the needle travels over the metal a second time, the vibrations cause the whistle to produce a series of air-waves, and the machine thus becomes a talking siren which transforms the human voice into a deafening roar.

The experiments were made near the Devil's Dyke, Brighton, where the inventer has his workshop.—Examiner.

MAKING EACH OTHER VOTES.

According to the republicans Bryan is making votes for them and the democrats declare that Roosevelt is mightily assisting their cause. It is evident that the party will win that first calls its man off.—Chicago Record.

REV. S. A. DONAHOE.

Testifies to the Good Qualities of Chamberlain's Cough Remedy.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by all dealers. Benson Smith & Company, general agents for Hawaiian Islands.

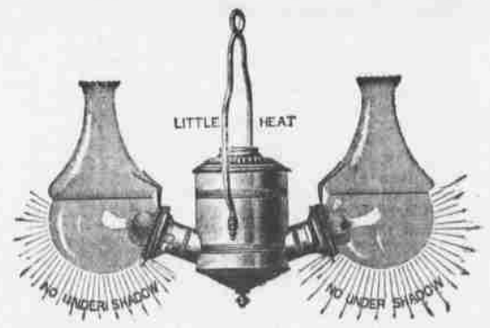
The Angel Lamp



JUST RECEIVED another large shipment of these lamps. These lamps burn in such a manner that the combustion is almost perfect, and for this reason the light is magnificently brilliant, smokeless and odorless. The lamps are absolutely safe, it being simply impossible to explode.

The Angle Lamp accomplishes perfect illumination. It presents an opportunity of securing light which is easily operated and more brilliant than gas or electricity, with no more heat, at a mere fraction of their cost. It provides a lamp for homes, stores, offices, factories, halls, libraries, hotels and churches that is ideal in every way.

The public is cordially invited to call and inspect these lamps.

PLANTERS AND FORESTRY

The following written by R. E. Furnow, chief of the forestry division of the Department of the Interior in reply to a letter of inquiry from Dr. Walter M. Maxwell is extremely pertinent to any consideration of the forestry question in the Territory of Hawaii.

"The much more forcible argument for retaining hilltops and mountain sides under forest cover lies in the function which this cover plays in the disposal of the fallen precipitation. This influence is purely mechanical, easily understood and easily observed.

"There is one other well known detriment to agriculture resulting from forest devastation which has impoverished large areas in France and through which many millions of soil capital are lost annually in our States, namely by erosion and gullying of fields. It is estimated that we lose in the United States annually some 200 square miles of fertile soil by this erosion, besides losing the fertile soil which is washed into the rivers, in addition large expenditures are necessitated to keep the rivers open for navigation. The Mississippi problem is undoubtedly aggravated from this cause.

"I shall not weary you further with details, which you can find discussed in my publications from this office sent you.

"I come now to your question as to what course it would be well for your government to take with reference to your forestry problems. I believe in acting upon facts, rather than theories. I would, therfore, advise that before any permanent measures are proposed, an examination of the facts bearing upon the problem be made; in other words to employ an expert or experts to make a physiographic description of the Islands with special reference to these problems.

"This office just now is making precisely such a reconnoissance survey for the State of Wisconsin prior to and as a basis for desirable legislation.

"Such a survey or inspection, if I understand the conditions of your Islands aright, may be made by a competent man in three or four months. As you may have gathered from the foregoing remarks, it should comprise a statement of the geologic and topographic conditions, the location and condition of forest cover, the relation of the forest areas to agricultural lands, the water supply conditions and such forestry knowledge as is necessary to form an idea of the ease of reproduction and also of such other economic conditions as will aid in forming a judgment of the relative protective values of existing forest areas, the need of their extension and their location.

"You will see that not merely a forester, a man skilled in the technique of forest growing, but a man of judgment should be entrusted with such a mission. Perhaps it might be well and expedite the survey to associate with the examiner a resident geologist and perhaps the Surveyor-General, when the three would not only more rapidly get over the ground, but a discussion between them might lead to a more mature judgment as to what recommendations should be made.

"After such an examination and report is made, which may be accomplished with an expenditure of less than $3,000, it will be time to formulate further measures of a permanent character. It may then be found desirable to employ a permanent officer, whose business it is to look after the forestry interests, executing any laws and assisting by advice any efforts of rational management. While I believe that at present the material value of Hawaiian forests is of slight moment, I am inclined to think that the Islands would be able to grow on the soils unfit for agriculture all the wood supplies for their increasing needs, instead of importing the same. Hence the existence of such an officer in this direction too would find ample justification."

AUTOMOBILE REGULATIONS.

Safeguads Municipalities are Taking with the New Machines.

The introduction of Automobiles has made necessary new regulations in regard to street traffic. The following are the rules in force in Chemnitz.

(1) Persons under fifteen years of age and persons who have no knowledge as to the management of such machines shall not be intrusted with the running of automobiles.

(2) All persons who do not give their undivided attention to the management of automobiles or who while using the same fall asleep or get intoxicated are liable to punishment.

(3) The signal to turn out shall be "Heeh." The use of signal horns will be permitted until further notice.

(4) Every automobile must carry at least one very good lantern; the same shall be lighted at the same time as the street lights.

(5) The speed of automobiles in the city shall not be faster than that of an ordinary trotting horse.

No one shall run an automobile faster than a horse walks—

(a) On leaving buildings or sheds bordering on the street.

(b) During church service in the neighborhood of churches.

(d) In places where there is large foot traffic.

(e) In places where fast driving is forbidden.

(6) Automobiles shall not be left unattended on the street.

Anyone disobeying these rules shall be punished.

A HAPPY RELEASE.

The two candidates, Messrs. J. O. Carter and E. C. Macfarlane, who have been turned down by the home rule party, in their replies treat the curt letter of George Markham, Secretary of the Independent party in somewhat different fashion. Mr. Carter is sarcastic and thanks the Secretary for his letter which he says is in harmony with his letter to the nominating convention, and relieves him from an embarrassing position. Undoubtedly it was an awkward position, the company Mr. Carter found himself in and the sentiments expressed by that company could not be agreeable to Mr. Carter as a man of honor and a good citizen.

Mr. Macfarlane, however, carries the war into the enemy's camp. He tells them his nomination was unsolicited but challenges the authority of the central committee to take his name off the ticket. The excuse under which Mr. Macfarlane was turned down, was that he was affiliated with the Democratic party. But that was a thoroughly wolf and the lamb excuse. The wolf accused the lamb of muddying the water from which he was drinking, and the lamb pointed out that the wolf was up stream. The Independent wolf accuses the Macfarlane lamb of being affiliated with the Democratic party and the lamb shows that the affiliation was publicly known long before, without solicitation, the Independent party nominated Mr. Macfarlane in its convention.

Mr. Macfarlane is sarcastic, too, for he wants to know if the Independents will read out Bob Wilcox if he affiliates with Democrats in the House, and asks how they expect he will get along in solitary dignity. The fact is the Independents have an idea that they will be a power in Congress. They have been accustomed to one man power and they expect it can be exercised there. The illustrious Bob they imagine will say "McKinley I want a breakwater for Molokai," and the President will answer "Certainly M'Liege; I will order the slaves of Congress to vote one." Or again "Say, Bill, let me have fifty thou' for the boys at home, there pretty thirsty and those bloated haoles will not let us have gin free, the miserable sneaks," or "Say I want everyone of my party to have a fat job, plenty of pay and nothing to do." This is what the Independent party expect.

But Mr. Macfarlane gives them a pleasant little ha! ha! when he says he would rather go down to defeat with Prince David than to victory with Wilcox.

The Independent party however is swelling just now in the anarchistic ravings of Emmeluth and Quinn and is going into a delirium which will have a somewhat rude awakening at the polls. It is a pretty "box of monkeys" which the Independents now have, but my! won't they scratch like cats by and by. Messrs. Carter and Macfarlane are well out of such company. As Democrats one may oppose, but one can thoroughly respect them. The Independent party leaders are beneath contempt, while their followers as soon as their eyes are opened, bolt to safer and more respectable quarters.

A PLAN FOR FORESTS.

On the subject of tree planting and forest preservation there is enough literature to wake people up if they will only listen, and enough lessons if they will learn it. The last knight that has a tilt at ignorance in this direction is Dr. Felix L. Oswald in Health culture whose words ought to be taken to heart for he shows how wide spread is the evil, and yet we go calmly to work to "clear" area after area, and this with a diminishing rain record staring us in the face. This is the way Dr. Oswald sketches the conditions in the old world:

"Spain, in the glory of her ancient woodlands, was the Eden of Southern Europe; treeless Spain has become a gehenna of proverty and disease. Forest shaded Sicily begat athletes and philosophers, heros and merchant princes: Sicily in its present sun-blistered condition evolves chiefly bandits, beggars, and vermin. The entire coast region of the Mediterranean has been 'cleared,' with the result of losing four fifths of its former population and at least nine tenths of its former productiveness.

"The same in Southern France, in Portugal, Asia Minor, Mesopotamia, Armenia, Persia and Hindustan.

"It might indeed be questioned if all human follies and crimes taken together have caused as much permanent mischief as the insane destruction of nature's safeguards against life-blighting droughts. A land without trees is in as sad a plight as a flayed animal. The New World's wealth of woodlands is the chief guarantee of its prosperity.

"Forests of shady leaf-trees mitigate climatic extremes, and there is not the slightest doubt that they attract rain showers. A few hundred square miles of wooded dells in the valley of the Rio de San Pedro, Peru, enjoy an annual average of twenty inches of rain, while in the adjoining desert of Atacama droughts have been known to continue for six years. Ibrahim Pasha's tree plantations in upper Egypt increased the yearly rainfall from nine to fifteen inches. In Italy it has decreased one half; in some districts of Northern Africa (the ancient Numidia, for instance) at least four fifths. Forests shelter insect-destroying birds and prevent the destructive effects of inundations by adsorbing rain showers that would pour down from treeless slopes as from a slate roof."

Dr. Oswald boldly attacks the theory that the sun destroys disease germs, and marshals his facts. He says a house in a grove is worth twice as much as a house on a naked hill side. He goes for Dr. Dio Lewis and his sunshine propaganda in the following terms:

"In his zeal for the propaganda of the sunshine gospel he caused the destruction of trees enough to supply a first-class sawmill for a number of years. His objection was founded on the belief that sunshine is a microbe killer, nature's chief specific for the cure of germ diseases; but in sparsely wooded Hindustan, sun rays have not prevented the spread of frightful epidemics. They do not check the development of malaria germs in the fens of the Adriatic, nor the typhoid germs in the slums of our Southern seaport towns.

"Nor would it be easy on that theory to explain the longevity of our backwoodsmen, or of the German foersters (government forest wardens), who vie in sourrounding their cottages with over-arching leafy trees. Not a sun ray reaches the Foersterhaus from May to November; but in winter, when sunshine is really a blessing, the screen opens, or holds its own just enough to mitigate the blasts of the north wind."

After all there is nothing in these remarks of Dr. Oswald. Arguments of similar character have been advanced again and again based upon these facts and upon the facts presented by St. Helena, the Azores and the Canary Islands. Indeed we have no need to go abroad, we have this destruction and this deterioration before our eyes. We are allowing there islands to be made a waste. We have only to study the meteorological reports to see it. But how many care to study the meteorological reports. Dry stuff says the average reader. Scientific twaddle says the rule of thumb cultivator.

But deride as the unthinking may, the facts are there and are incontrovertible. Even in the matter of Health they are true. In spite of its heavy rain fall Hilo district was remarkably healthy, but with its diminished rainfall, due to the clearing away of the forest lands, Hilo is not nearly as healthy as it used to be. Of course the selfish man says, what have I got to do with the future, the present is good enough for me and as for posterity, posterity never did anything for me. But the earth is given to use and not to misuse, and to destroy these beautiful islands amounts to a sin, and a sin which our descendents, alas, will have to expiate.

Is there not a plank in the Independent platform against trusts? But then that platform was made some time ago and is forgotten.

With Wilcox's record it is rather amusing to hear John Emmeluth compare him to Josept. There are other Biblical characters to which the whole Wilcox outfit might be compared, perhaps John will carry out the similes in some future oration.

The Olaa Sugar plantation seems to have a good prospect before it. Assessments will not be called for some six or eight months, and as soon as the Wilcox-Emmeluth uncertainty is eliminated, the financial situation will be in normal condition again.

Emmeluth was and is very anxious to start a plantation Has the Wahiawa water right anything to do with his present attitude? Is he running a bluff, with a view of cinching the California colony and a rival planatiaon. As the colonists pay their debts, live cleanly and don't require any plumbing no doubt are d—d missionaries.

The boys should not forget the tip about the rough riders in the parade next Thursday. There are plenty of good horsemen in the Republican ranks It would add to the show and be a compliment to Roosevelt and Parker as well. Had we been annexed a squadron or two of rough riders would have volunteered for Manila.

Betting is always a pretty good sign in politics. The odds are steadily going up in favor of McKinley, and men would not put up their hard coin unless they were pretty sure of winning, with the Democrats it is just a flutter in hopes that some unforeseen turn may come their way. Large bets on McKinley, even at 2 and 3 to one find no takers.

"We pledge ourselves to resist the furtherance of trusts in the Territory of Hawaii." Independent Platform.

How does John Emmeluth swallow this. For a nice little comfortable hold up and trust commend us to the Plumbers. They are cinching the town and Emmeluth is raking in the crumbs in great shape. It would cost a poor laboring man from eight to ten dollars to get a tap mended. Verily the city has fallen among thieves, and has need of a good samaritan to get her out of her trouble.

The evidence supplied by the Board of Health relative to infraction of the buildings law seem to be always unsatisfactory. If the authorities want to make a strong case before the District court, they should see that the evidence is in proper shape. Yesterday a man was summoned and the authorities did not know if he was the owner of the premises or had ordered the work complained of. It is not the business of the district court to find evidence, its business is to hear it, if the evidence is faulty the case is thrown out. The worst of it is that this constant mismanagement of cases brings the rules of the Board of Health into derision and contempt.

A BIG STORM IN JAPAN

MUCH DAMAGE DONE TO HOUSES IN YOKOHAMA.

Telegraph and Telephone Communication and Railroad Traffic Interrupted.

A number of People Killed—Detals.

YOKOHAMA, September 29.—Investigations show the extent of the damage done by yesterday's storm in the neighborhood of Yokohama. The following are the details: Persons injured, 7; houses completely destroyed, 8; houses partially demolished, 2; dwellings damaged, 6; roofs damaged, 120; fences, gates, etc, damaged 135; chimneys destroyed, 4; telephone and electric-light poles blown down or damaged about 122; and gas lamps damaged, 2.

After 3 a. m. yesterday nearly all the telegraphic lines throughout the country were interrupted by the storm. By 2 p. m. the wire between Tokyo and Shidzuoka and the Tokyo-Aomori line were reopened to traffic. Other lines are expected to be gradually reestored.

The train from Kobe, which was expected at Shimbashi at 10:48 a. m. yesterday, arrived after a delay of 7 hours The Idzumi.Uyeda section on the Japan Railway was damaged by the storm. The road was, however, repaired the same day.

In Numadzu several houses were blown down, and injuries were caused to rice fields. Owing to heavy seas a junk was wrecked and some of the crew drowned. The storm ceased at 11 a. m.

In Chiba the storm commenced towards dawn and continued till 10:30. Many roofs, fences, and walls were damaged in the town. No loss of life occurred.

In Kofu the storm caused the destruction of several houses.

COMMISSIONER'S COURT.

Commissioner Robinson will this afternoon hear the evidence in the case of Lin Chin Chow, charged with accepting a bribe, to determine whether or not it is sufficient to bind him over to the grand jury of the United States district court.

THE WEATHER.

GET ACQUAINTED.

The more people you know the greater your chance of finding useful friends among them. The same principle obtains as to labor-saving conveniences. It is much better to get a light by pressing a button at your bedside than to rise, strike a match and set the gas going. The more things you know how to do, the more thoroughly safe-guarded you are in emergencies and times of trouble. It is ignorance along these lines which induces incalculable loss of time, money and health. "Oh, if I had only known of it in time," is the sad, deploring cry of multitudes who find themselves in the grasp of some disease from which a certain remedy might have delivered them. Now, information comes through the eye and ear. It is reasonable, therefore, to suppose that what we are now going to tell you about

WAMPOLE'S PREPARATION

may be the most valuable intelligence printed in this newspaper. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, Malt and Wild Cherry. It has no equal for the use of Invalids and Consumptives. In all cases of Fevers, Anæmia, Nervous Debility, Pneumonia, Scrofula, Rheumatism, etc., it may be implicitly depended on. Progressive physicians indorse and prescribe it. Thin and wasted patients quickly gain new health and strength. One sufferer gained twelve pounds in weight from a single bottle. If you need it now take it now. If not, get acquainted with it and know what to do when occasion arises. One bottle convinces. Effective from the first dose. "You cannot be disappointed in it." Sold by all chemists.

TREASURER'S OFFICE.

Notice is hereby given that Chapter 100 Penal Laws 1897, provides that whenever any two or more persons shall carry on business in this Territory in Co-partnership, it shall be incumbent for such persons to file in the Office of the Treasurer a statement of

1. The names and residences of each of the members of such co-portnership.
2. The nature of the business of such co-partnership.
3. The firm name of co-partnership, and
4. The place or places of business of the co-partnership.

Whenever any change shall take place in the constitution of any such firm by the death or withdrawal of any member thereof, or by the addition of any member thereto, or by the dissolution thereof, a statement of such change or dissolution shall also be filed in the said office of the Treasurer within one month from such change, death or dissolution, as the case may be.

All such statements shall also be published by the members of each co-partnership at least twice in the Hawaiian and English languages, in two newspapers published in Honolulu.

There shall be paid to the Treasurer a fee of fifty cents for each name so recorded as aforesaid.

The members of every co-partnership who shall neglect or fail to comply with the provisions of this law, shall severally and individually be liable for the debts and liabilities of such co-partnership and may be severally sued therefor, without the necessity of joining the other members of the co-partnership in any action or suit, and shall also severally be liable upon conviction, to a penalty not exceeding five dollars for each and every day while such default shall continue; which penalties may be recovered in any District Court.

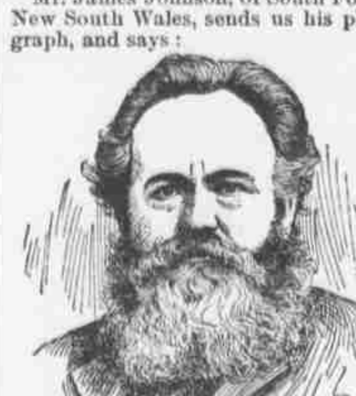
Boils. Pimples.

Sure Signs of Impure Blood.

Do not think that washes and ointments can cure eruptions of the skin. They cannot. The cause is deeper, even down in the very blood itself. Purify your blood, and your skin will be smooth and clear.

Mr. James Johnson, of South Forbes, New South Wales, sends us his photograph, and says:



"My whole body was almost covered with boils. Reading about

AYER'S Sarsaparilla

I thought I would try it. I took one bottle, and was entirely free from any eruption whatever. My eyesight was greatly strengthened also."

Mr. Johnson's eyesight was strengthened because the Sarsaparilla is such a wonderful nerve tonic. For impure blood and weak nerves there is no remedy in the world equal to it.

You cannot enjoy good health if your bowels are constipated. Ayer's Pills cure constipation every time.

MASS MEETINGS GALORE

SEVEN HELD IN THE CITY LAST NIGHT.

Democratic Spell Binders Appear in Four Places—Republicans Hard at It—Independent Haranguers.

Democrats and Independents held the boards with mass meetings last evening. There were four by the former and two by the latter. As a rule the turnouts were good, particularly at the Independent meeting in Kakaako, where both John Emmeluth and James Quinn, the new Moses and new Aaron of the party made big speeches.

The first Democratic meeting, and one of the largest, was at the Booth residence in Pauoa. C. W. Booth conducted this meeting. There were about a half dozen speakers and a great deal of enthusiasm was manifested.

The second meeting was at the residence of H. J. Mossman in Aala. The yard is a big one and the platform had been erected in one side of it. E. B. McClanahan spoke earnestly for ten minutes on the questions of the day. Mossman presided and also made a speech. Frank Harvey was another speaker. A novelty in connection with the meeting was that an officer of the Wilcox outfit got up and declared himself converted to Democracy.

The third meeting in Kakaako was held in the yard of Mike Harvey. One side of the yard was equipped with chairs and the other with benches. W. H. Johnson was chairman of the meeting. The principal speakers were S. W. Spencer, Abraham Fernandez, Frank Harvey and H. J. Mossman. Within fifty yards of this place the Independents were holding a big meeting. It was in the middle of a large lot, and 500 people were present. Quinn, Emmeluth, S. K. Pua and others made speeches.

The fourth Democratic meeting was in the square at the end of the car line at Kamehameha school. Eugene Sullivan was chairman. There was an immense crowd to start in with but right in the middle of the program the list of speakers was exhausted and there was nothing to do but wait for others. S. K. Kaloa, who was to make the principal Hawaiian speech of the evening, was a half hour late in getting there, having first to speak in Pauoa valley. During the delay many people left. Things warmed up again later however, and when Kaloa arrived and began to speak the crowd once more pressed around the stand to hear. The principal speakers were Abraham Fernandez, Fred. Weed, Eugene Sullivan and S. K. Kaloa. When the meeting was nearly over David Kanuha, candidate on the Independent ticket, asked if he might talk to the crowd when the Democrats had finished, using their platform. Permission was given. "Don't do what they have told you; do what I will tell you," was the substance of Kanuha's first expression. He then proceeded to roast both Republicans and Democrats, particularly the former.

There was a meeting of Republicans last evening at Niolopa. The attendance was very good. The speakers were George R. Carter, W. C. Achi, W. J. Coelho and others.

A big party of Republicans have gone to Waianae today to harangue the natives. Among the number are W. C. Achi, Clarence L. Crabbe, Enoch Johnson, T. McCants Stewart, John C. Lane, George R. Carter, L. L. McCandless, Frank Archer, Frank Pahia and others. They will divide down there and speak in several places.

There will be Democratic meetings at 4 this afternoon and 4 Monday afternoon at the fish market. All the speeches will be in native.

Ewa plantation has refused to allow any political party to hold meetings within its line fences. The parties are getting around the difficulty by sending button-hole brigades into the plantation.

Democrats will hold a big meeting at the residence of S. K. Hui, in Waianae at 2 o'clock tomorrow afternoon. It is understood that the same party will hold meetings at Waialua, Laie, Pearl City depot and two places in town at the same time.

IS LEPROSY CURABLE?

That lepers may be cured if they will only keep from eating fish, was recently asserted in a lecture at the Polyclinic (London) by Jonathan Hutchinson. The speaker, "showed a case of recovery from leprosy, remarking that he would use term 'cure' but for his awe of certain captious critics, for the patient had permanent anesthesia of the hands and, to a less extent, of his feet. All evidence of active leprosy, however, had less from anesthesia and muscular 'cure' and 'recovery' meant cessation of disease processes, not absolute restoration to normal condition. He mentioned another case of a florid, healthy-looking man quite blind from leprosy, whose hands were to some extent helpless from anaesthesia and muscular atrophy. But for fifteen years he was free from aggressive symptoms. The treatment consisted in small doses of arsenic, liberal diet, and abstinence from fish. In about eighteen months all traces of patches had disappeared from his hands and feet. From that time unusual slow restoration progressed. The patient enjoyed good health except that he suffered from dyspepsia."

COLONEL BADEN-POWELL.

Colonel Baden-Powell, who at the outbreak of the Transvaal war asked to be placed in "a warm corner," held his "little corner" long enough to break all British siege records, including that of Lucknow. The place he held so long, by the way, is, according to Collier's Weekly, pronounced Mahf-king, not Mafeking. In rgard to the colonel himself, Dr. Haig Brown, his former headmaster at Charter House, has this to say: "I notice that the name is invariably mispronounced," said the doctor. "The 'a' in Baden is generally given the sound 'ah,' but it should have the usual sound of 'a' as in 'Bathing Towel,' which was his nickname among the boys at school. The boy was essentially the father of the man; he was very active, lively, full of fun and amusement, and exceedingly popular with his schoolfellows."

NOT A THING OF BEAUTY.

Bootblack—Shine, boss? I'll polish 'em up so yer kin see your face in 'em.

Grumpy—Get out of here! I don't want a shine!

Bootblack—I don't blame yer, boss, if I had a face like dat I wouldn't wanter see it neider.—New York Journal.

A GOOD THING.

There's one good thing when they feel dry.
That business men cannot pass by,
For far and wide it's fame you hear,
They stop to drink of "Rainier" beer
On draught or in bottle at Criterion.

SAVE YOUR SKIN

How to Preserve Purify and Beautify the Skin and Complexion.

To preserve, purify, and beautify the skin, and prevent pimples, blotches, blackheads, redness, roughness, yellow, oily, mothy skin, chapping, and many other forms of skin blemishes, no other skin or complexion soap is for a moment to be compared with CUTICURA SOAP, because no other soap reaches the cause, viz., *the clogged, irritated, or inflamed* condition of the PORES

SAVE YOUR HAIR

How to Prevent Falling Hair Scalp Humours and Dandruff.

Cleanse the scalp and hair thoroughly with a warm shampoo of CUTICURA SOAP, rinse with warm water, dry carefully, and apply a light dressing of CUTICURA, purest of emollients, gently rubbed into the scalp. This simple, refreshing, and inexpensive treatment will clear the scalp and hair of crusts, scales, and dandruff, soothe irritated, itching surfaces, stimulate the hair follicles, supply the roots with energy and nourishment, and make the hair grow upon a sweet, wholesome, and healthy scalp, when all else fails.

SAVE YOUR HANDS

How to Make the Hands Soft and White in a Single Night.

Bathe and soak the hands on retiring in a strong, hot lather of CUTICURA SOAP. Dry thoroughly and anoint freely with CUTICURA Ointment, the great skin cure and purest of emollients. Wear during the night old, loose kid gloves with the finger ends cut off. For red, rough, chapped hands, dry, fissured, itching, feverish palms, shapeless nails, with painful finger ends, this *one night treatment* is simply wonderful and a blessing to all afflicted with sore, chapped, rough, or tender hands.

Cuticura The Set Complete External and Internal Treatment for Every Humour, Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment, to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the most torturing, disfiguring, and humiliating skin, scalp, and blood humours, with loss of hair, when all else fails. Sold throughout the world. Aust. Depot: R. Towns & Co., Sydney, N. S. W. So. African Depot: LENNON Ltd., Cape Town. "All about the Skin, Scalp, and Hair," post free. POTTER DRUG AND CHEM. CORP., Sole Props., Boston, U. S. A.

Nature's Perfect Laxative

No medicine yet discovered quite takes the place of castor oil. It is purely vegetable, and harmless The taste has retarded its more general use.

KASTOL

is our new preparation of castor oil without the unpleasant taste. No one can object to taking KASTOL. The most delicate stomach will retain it. Children take it cheerfully and cry for more. No struggling, crying or tantrums when KASTOL is administered. KASTOL is not a patent medicine—you know just what you are taking. 25 and 50 cent bottles.

Prepared only by

Hobron Drug Co.

The man that is content to whisper down a well,
About the kind and quality of of goods he has to sell,
Will never make one-half as many dollars
As he who climbs a tree and "HOLLERS."

ALL ABOUT THE

Nice Lunch

The New England Bakery

serves every morning and noon in its cool lanai, and which only a first-class Bakery could afford to furnish at the price. Rooms reserved for ladies.

We make up lunches, also cold sliced ham, cheese and sardine sandwiches, in any quantities, for basket picnics.

PACIFICHEIGHTS

Magnificent View,
Refreshing Breezes,
Easy of Access,
An Unsurpassed Residence Site

These lots are on the Pauoa side of Pacific Heights. They face on Pauoa Road, now being widened and macadamized, and adjoin the Pacific Heights Electic Railway.

A Chance for Investors:

Any one with money to invest looking for something that will bring good returns on sums invested, has here a fine opportunity. Houses built on these lots will find ready rental at strong rates by good tenants.

Attractions Offered in this Site to Homeseekers:

LOCATION. They are located on high ground at an elevation of from 200 to 500 feet, affording unsurpased scenic and marine views.

ELECTRIC RAILWAY AND LIGHTING. The Electric Railway makes access most easy, and power for lights may be had at most reasonable rates.

WATER. Water will be supplied at the rate of $15 per year for each lot, from out Pacific Heights Water System. This is less than city rates.

SPECIAL INDUCEMENTS TO BUILDERS. To all who will begin the erection of houses within 60 days, we will make special inducements in the matter of transportation of building material over our railway.

LOW PRICES, GOOD TERMS. Prices of lots range from $400 to $750 each, according to size and location. One-fourth cash only is asked. Balance in installments at terms to suit purchasers.

HEALTHFUL AND COOL. The air is always cool and bracing. We can recommend this property as being especially desirable and attractive to persons seeking a choice location for a home at a moderate cost.
