ARRESTED IN THE HOLD

SOLDIERS HIDDEN ON THE TACOMA.

Men Stationed Here Who Want to Get to Manila—Many Desertions From the Sixth Artillery.

Major Wood of the Sixth Artillery and two Honolulu police officers went aboard the transport Tacoma this morning to make a search for five soldiers of the hospital corps stationed here, who had stowed themselves away on board the Tacoma in the hope of getting to Manila. The five deserters were missed this morning and it was at once surmised that they were trying to get to Manila. After a careful search three of the men were found in the hold and placed under arrest. When brought up they were black and grimy and disappointed. They were marched to Camp McKinley and placed in the guardhouse there.

It is thought that the other two missing men are on the Tacoma, but a diligent search failed to discover them. If they are on the transport they are in a fair way to attain their desire and reach Manila where they will have to stand sentences for deserting their posts.

The Sixth Artillery batteries stationed here have lost between twenty and thirty men in the last few days. All the soldiers here are anxious to go to Manila, when the rest of the Sixth's batteries, more than half, now are. The men think they can steal aboard a transport and on arrival report to the officers of the Sixth at Manila and get off with a slight punishment. There would be a sentence of thirty days in the guardhouse, or something like that, and after that the new comers would be assigned to places in the batteries at the front. The soldiers are willing to stand thirty days in the guardhouse for the sake of getting to the scene of war.

The police are also being kept busy by men who want to get off the transports. This afternoon a number of officers are searching for deserters, all civilian employes such as firemen, coal passers and cooks, from the Grant and Tacoma both.

There was an exciting fight this afternoon when four of the deserting firemen were returned to the Grant. The men had been caught up town. As they were taken to the vessel by detective Harry Evans and several officers they showed resistance and a lively scrimmage ensued before they were placed on the ship. They were sent below in irons. The men want to stay here and complain of theintense heat they suffer on the Grant.

WANT BONDS CANCELLED

The Cabinet this morning considered a petition of the Hawaiian Planters' Association to eliminate the clause in immigration rules requiring that ten per cent of all contract laborers brought into the country shall be Europeans or Americans. The point is that a bond is required for the compliance with this rule, and the same is forfeited if the proportions named are not adhered to. The planters want this bond requirement annulled.

In their memorial to the Cabinet the planters represented that they had expended every effort to carry out the provisions of the law but were wholly unable to do so. The troubles with Italy and with Portugal recently were cited as instances of the hardships encountered.

The Government decided that, while the planters had acted in good faith intheir endeavor to provide European or American laborers, it did not feel that it had authority to eliminate the clause referred to, holding that that authority rested only with the legislature.

Consideration of the application of the Hawaiian Tramways Company to use the flat rail on its lines in Honolulu was taken up and approved.

The offer of Brewer & Company to sell land in front of the new May building on Fort street, required for street widening purposes, to the Government at $6 per square foot was accepted.

C. W. Spitz, at Nawiliwili, Kauai, was granted a wholesale liquor licnse for his town.

The matter of E. W. Barnard, former district magistrate in Hamakua, was discussed but no action was taken.

SHIPS IN COLLISION.

The Transports Centennial and Tacoma Come Together.

The parting of a hawser while the transport Centennial was being docked at Irmgard wharf last night resulted in a small collision between the Centennial and the Tacoma, the latter lying opposite. The Centennial was entering the dock when the accident occurred. Her bowsprit struck and tore some of the Tacoma's railing and the bowsprit received a heavy scratching. The Centennial then bumped into the wharf and scraped along it, her side receiving a considerable scar.

CRUELTY TO ANIMALS

SIXTY HORSES TOO EXHAUSTED TO STAND.

Sufferings of Those Brought on Transports—The Centennial's Excellent Record for Health.

Uncle Sam is guilty of cruelty to animals and on a big scale. If any private individual were to treat one horse as the United States Government is treating thousands he would be thrown into prison. The transport Centennial arrived in port last night with three hundred horses on board, sixty of them hanging in slings and ready to die from simple exhaustion. Two of them died after reaching port, one breathing its last on the dock and the other in its sling on the middle deck.

The horses had been at sea for eight days, each one fastened in a stall just wide enough and just long enough for its body. For eight days the suffering animals had no sleep, no rest whatever. They stood and kept balance with the rolling of the ship. A few days more and many deaths from exhaustion could not have been avoided. The horses started as fresh, spirited animals, brought from Nevada and Oregon. They arrive thin and jaded, a large proportion of them only kept alive by stimulants. About twenty gallons of alcohol were given to the horses during the Centennial's trip.

The Centennial brought the largest load of horses for her size of any transport that has come here, but as regards sickness and losses she has the best record, a fact of which the veterinary surgeon in charge, Dr. F. A. Nief, has reason to be proud. Dr. Nief attended the animals night and day and he reached port about as exhausted as they were on arrival.

The horses on the Centennial were on three decks, one being down in the hold. Throughout the trip the heat in the two lower decks was most intense, it being necessary to keep the port holes closed most of the time. The suffering of the animals standing without sleep in the heat and constantly compelled to use efforts to keep their balance, for eight days and nine nights, may be imagined. The Centennial docked at once on arriving and began to unload, keeping up the work in the dark till every horse was on shore except the one that hangs in a sling, with its head drooping over the feed box.

The transportation of horses has seldom in the history of the world been carried on on so large a scale for a distance of 7,000 miles as during the present time by the United States army. The right kind of transports, however, are lacking and this, with the necessity of haste in getting animals to Manila, is responsible for the existing conditions.

"The troubles of a horse at sea are usually only exhaustion," said Dr. Nief when asked regarding the effect of ocean traveling upon horses. "The equine stomach is so constituted that the seasickness that effects human beings is not possible, but the animals sometimes feel dizzy. Those that become very tired get dizzy and then they refuse to eat. The result is a sinking that soon causes death if opportunities for rest are not afforded. Stimulents such as alcohol and quinine will often keep a horse alive till the end of its journey, when a little rest on shore will soon make it all right."

The Centennial brought forty private horses, for officers of the 26th, 27th, 30th and 32nd regiments. Unlike most of the transports she has gang planks up and down which the horse can walk, so that only those unable to stand need be hoisted. The Centennial's horses will stay here till she goes to San Francisco and back for another load.

SHOT AT HIS MOTHER.

Joseph Lovejoy, a boy of 16, was arrested at the city prison for having, it is alleged fired at his mother with a revolver. He is declared to have demanded of her his share in the Lovejoy estate and to have followed up the demand with a shot. Doubts have been expressed of his sanity.

OFFICIAL LETTER.

Special Agent Sewall sent a letter to the Executive building this noon addressed to President Dole. As the President had already left, not to return today, the department heads know nothing of the contents of the document; and of course it would be discourteous on the part of the Special Agent to give out the contents in advance to the newspapers.

The communication is from Washington, but is not thought to be concerning land matters. It will reach Mr. Dole tomorrow morning.

A DOCTOR IS WANTED

BY THE DEPARTMENT OF PUBLIC INSTRUCTION.

An Appropriation Will be Asked for to Secure One—Examinations to be Introduced in California.

The physical examinations of school children should be done by a special physician of the Department of Public Instruction, says Minister Mott-Smith, president of the Board of Education. The facts made public yesterday regarding the manner in which the work is done were a subject of very general discussion. According to the opinion of Mr. Mott-Smith there should be inspections every three or four months and a physician in charge should see that the children are properly looked after as regards health.

"If we can get an appropriation," said Mr. Mott-Smith, "I shall endeavor to have a doctor appointed as school physician whose duty it will be to do all the examining and he will have time to do it properly. There would have to be a woman physicain as well, to look after the girls.

"The examinations need not be so thorough if they are held oftener. The physician would know the pupils he was looking after and probably would not want to examine some of them a second time. The system may be unpopular with many people but it is certainty a necessity in this part of the world."

The public schools of California are likely to adopt a rule compelling physical examinations, though it will be mainly with a view to the proper direction of physical culture. Every student of either sex is examined on entering the State University and the authorities of that institution which leads the entire school system of the state, are moving to introduce their system into the lower schools. Prof. W. E. Magee, head of the State University department of physical culture, has already done a good deal of campaign work in the matter, with the result that some private and High schools have followed his advice and soon physical examinations are likely to be the rule all over California as in Honolulu.

CLEARING TANTALUS LAND.

The Board of Agriculture held a meeting this morning. Commissioner D. Haughs reported that the three acres of land on the Tantalus side set apart for public use were being injured in the clearing and burning of W. R. Castle's property there. The three acres have not been picked out and are in danger of being cleared with the rest. The board adopted a resolution to appoint a committee to confer with the Minister of the Interior and the Attorney-General to ascertain its rights in the matter.

It was decided to employ Japanese laborers in place of the Portuguese at Thomas Square. At water pipe from the main has now been secured and the square will be better cared for hereafter.

HARRY MURRAY HERE.

Harry Murray, coporal of the First Nebraska regiment, arrived home by the Coptic late yesterday. He looks well after the American part of his trip. From San Francisco he went home with his regiment and visited the exposition at Omaha. "Harry" has spent today shaking hands with old chums and relating stories of the Philippine campaign.

SAMOAN CLAIMS.

WASHINGTON, September 28.—The British Commissioner to Samoa, Mr. Eliot, has received from Apia a full report on the claims made by the British subjects for damages resulting from the bombardment and the native uprising. Of this amount £6000 grows out of the depredations of the Mataafa rebels in January and March last, while some £1000 is for losses resulting from the bombardment of the British-American naval forces and the succeeding operations on land.

THE LEELANAW.

SAN FRANCISCO, September 27.—The transport Leelanaw, which grounded on a reef just south of Point Montara on Saturday night, was put on the Spear-street dry dock today and a hasty examination made of her injuries. The steamer has a very bad dent in her steel hull on the port side. There are two cracks in her hull and a number of rivets have been twisted out of position. The water poured out of the vessels through the rivet holes while she was on the dock.

AT OMAHA.

OMAHA, September 18.—Those in the White City from the Islands during the last few days included Fred. A. Jacobs and wife, and James A. Kennedy.

Johnnie Emmeluth, aged 9 years, son of a hardware merchant and pioneer public man of the Hawaiian Islands, arrived in Omaha Saturday evening direct from Honolulu, unaccompanied. The little fellow made the journey from the mid-Pacific to San Francisco on the sugar packet William G. Iriwn in the fair time of twenty-two days. From the Golden Gate the lad was "billed" to his father's friends, Captain Towse of the Hawaiian exposition commission. From Omaha the youngster went east yesterday in charge of his aunt, Miss Caroline Emmeluth of Cincinnati. The boy is to be educated at Boston.

HEAVY DEALS ON 'CHANGE

BIGGEST TRANSACTIONS FOR MONTHS.

Generally Ascribed to the Money Set Free by the Honokaa Deal—Millions of Foreign Capital.

The Stock Exchange has not shown such activity for months as it displayed today. Sales amounting to nearly 50,000 were made within a few minutes. The whole list of stocks felt the activity.

The reason generally ascribed for this activity was the news received by the Coptic of the completion of the Honokaa deal. This deal was initiated by Edward Pollitz of the firm of E. Pollitz & Co. Through E. C. Macfarlane he secured an option on 15000 shares of Honokaa stock at $28.50 a share on condition that he should list it in San Francisco and place it at $35 a share. The option was secured from big holders of Honokaa who were asked to give options on one fourth of their holdings. Between the time the movement to get the stock was begun and the time it was all secured there was a very great change in conditions. The banks in the States very materially shortened their accommodations particularly for speculative transactions and there was a general downward tendency in stocks. Pollitz ability to carry out his program under these conditions was doubted, and it was expected that he would ask either an extension of time or some modification of the option. He did neither, however, but in one day placed the whole 15,000 shares in San Francisco New York and Europe, thus introducing Hawaiian sugar stocks into these markets. Honokaa is considered one of the first class stocks. The land is nearly all owned in fee simple and a crop of from 12,500 to 13,000 tons next year, the largest crop in the plantations history is already practically assured.

This Honokaa transaction makes $10,600,000 worth of Island securities Pollitz has found a market for, not including his Hawaiian Commercial deal or his large purchases on the open market. The stocks comprising this $10,600,000 are Paauhau, Onomea, Kilauea, Hutchinson and Honokaa.

Henry St. Goar, Mr. Pollitz' partner was on the Stock Exchange this morning and it is understood gave a number of large orders.

NICHOLS GETS THE LAND

END OF AN IMPORTANT OLAA SUIT.

Aloha Coffee Company Compromises by Selling Its Estate to Olaa Sugar Company at First Figures.

A compromise has been effected in the case of Albert E. Nichols vs. Aloha Coffee Company, specific performance. This is a matter in which plaintiff obtaining a time option on the lands of defendant. The matter was heard and proceedings for a final decision were pending. The statement of the petitioner in relation to the settlement is as follows:

"Full satisfaction of plaintiff's demand herein having been made by a conveyance of the land described in plaintiff's bill of complaint to the Olaa Sugar Company, Limited, by said defendant, this suit is discontinued."

The land in question will be added to the estate of the Olaa Sugar Company.

In the matter of Manuel Silva vs. C. S. Desky, assumpsit, defendant yesterday filed an answer denying the various allegations in defendant's complaint contained. Judge Stanley overruled same, and exceptions were taken. Same were allowed in the afternoon.

In the matter of Minister of Interior vs. David Kawananakoa, et al., Minister King has moved that his name be inserted for that of S. M. Damon as party plaintiff and that the Kapiolani Estate, Limited, be added as one of the parties defendant.

The Supreme Court is today busy with the case of Margaret V. Carter vs. Wing Chong Wai Company. Monsarrat and Weber appear for plaintiff; Kinney, Ballou & McClanahan and Cecil Brown for defendants.

L. Ahlo, convicted of selling goods in Ewa without license and fined $50, has appealed to the Circuit Court.

PASSENGERS LEFT BEHIND

TRAVEL TO THE ORIENT ALMOST STOPPED.

Two Hundred and Fifty Chinese and Japanese Cannot Secure Tickets. Prospects for Future Travel.

Travel from Honolulu to the Orient is almost at a standstill as a result of the chartering of passenger steamers for use as army transports. The Coptic leaves this afternoon with the largest load she ever carried, being packed to the extreme limit that the law allows, but enough would-be passengers are left behind to more than take all the room there will be on the next steamer. Hackfeld & Company refunded the money to a hundred and fifty Chinese who had booked to leave on the Coptic today.

The Coptic leaves this afternoon with a hundred and five cabin passengers and with her steerage crowded to the limit. The room is occupied to such an extent that baggage had to be placed on deck. At the offices of the agents, however, there was a constant stream of enquirers all day today, trying to secure passage on the vessel. They were all told that no more tickets could be sold. As a result, about 250 Chinese and Japanese who want to go to the Orient are not able to secure passage and there is a probability that many of them will fare no better when the next vessel arrives. The America Maru is expected from San Francisco on the 22nd. She will not call here, say the agents, on her way from Yokohama. It is expected that she will be crowded at San Francisco as the Coptic was and a still larger number of intending travelers may be left behind here.

The conditions at San Francisco are much the same, so that passengers for Honolulu have difficulty in getting bookings, travelers for the far east taking all the room. This accounts for the Coptic's small list for here and will send a good deal of the business to the Canadian line, it is believed.

Steamers going westward are also crowded, though not so badly. A number of bookings have already been made, by people who want to be first in line, for the China, which goes on the 24th. Those booked are: Mr. and Mrs. H. St. Goar, Mr. and Mrs. J. C. Raas, Miss Lily Blum, Mrs. E. Lyon, Godfrey Brown, Capt. Matson, wife and child, M. M. Grossman, Miss Chalotte Hall, Mrs. Lovejoy.

ORIENTAL MISSIONARIES.

There are ten preachers on board the steamship Coptic, bound for Japanese and Chinese ports, as missionaries. The Revs. J. C. Ambler, J. J. Chapman, A. W. Cooke, P. A. Davey, H. St. G. Tucker and J. A. Welbourn are going to Yokohama and the Rev. J. C. Worley to Kobe. For Shanghai there are the Revs. B. L. Ancell, W. Kelly and C. F. MacRae.

ORPHEUM THEATER.

Last night the Orpheum presented its new program to a big house. A large number of the boys from the transports were present and the program went with a dash. Albert P. Smith appeared for the first time in buck and wing dancing. He is a clever performer and the best in his line that has appeared here. "Travelle" continues to hold the audience with his wonderful feats in magic and mystery. Eddie, the king of the trunding rope, is on his last week. He is introducing some new and startling feats. Hamilton Hill continues to be a strong feature.

MEMORANDA.

The ship Jabez Howes has been purchased by William Mighell and will hereafter be employed on the Pacific. She recently arrived on the coast from Baltimore with coal, and has already been chartered to carry a cargo of coal from Puget Sound to Honolulu at $3.85.

The steamer Ke Au Hou is having a new wench put in place of the old one which was broken, and may not be able to leave this afternoon.

The hospital ship Relief had a hard time getting away last night. Several of her crew had imbibed too freely and were late.

The transport Tacoma may be delayed till tomorrow morning for the completion of repairs in her machinery.

ARRIVED AT KAUNAKAKAI.

A four-masted schooner loaded with lumber arrived yesterday morning at Kaunakakai. She was sighted at about ten o'clock by the Kinau but was not near enough for her name to be distinguishable.

PILOTS WORKED HARD.

Yesterday was a very busy day for the harbor pilots, who were kept going till late in the evening. During the afternoon four vessels at once wanted pilots. The Dimond, Bankoku Maru, and Relief went out and the Centennial and Coptic arrived almost together.

SAFELY IN PORT.

The Centennial a Subject of Gloomy Perdictions.

The queer-shaped steamer Centennial is in port again and as in the case of the hospital ship Relief every one on board says she is a fine ship while most of the waterfront wiseacres indulge in gloomy perdictions about her. She has had a checkered career, part of the vicissitudes of which was a series of condemnations as unseaworthy by Government inspectors who examined her a little over ayear ago. "The bottom will drop out of her some day," says the knowing ones, while her officers declare that she is a good sailor and safe enough for anyone to travel in.

After being reinstated by experts as a good vessel the Centennial went to the Philippines. She went aground off the island of Luzon and was thought to be a total loss, but was finaly saved and returned to San Francisco. She will leave here for that city on Sunday, to get another load of horses. The present program is for her to forward to Manila after that, with the horses she landed here last night.

The Centennial is in charge of Captain S. G. Orr, quartermaster and has 18 soldiers and 23 civilian teamsters on board. Her officers are Captain J. C. Eagles, first officer W. H. Johnk, second officer John F. Helander, chief engineer Frank A. Jones and steward T. Murray. Mr. Murray was here a year ago with the New York troops.

A GOOD THING.

There's one good thing when they feel dry
That business men cannot pass by,
For far and wide it's fame you hear,
They stop to drink of "Rainier" beer.

DR. NANSEN.

Contemplates a Trip Searching for the South Pole.

Dr. Nansen has not yet finished the large scientific book on the results of his last Arctic voyage, which is to supplement his more popular "Farthest North," but he expects to have it completed soon, and is even debating whether or not to tackle the South pole, after coming so near to giving the North its quietus. His new book will of course not excite general interest, but to scientists it will be of great value. The Fram was a finely equipped laboratory, and observations were taken with the utmost regularity during the whole period of the cruise. Of course such precision was not possible for Nansen and Johansen on their boat trip, but they did as well as their equipment allowed. It may be remembered that Nansen's watch, which he used as a chronometer, ran down, so that all his observations for longitude had to be corrected after he found the error of his timepiece.

ALL RUN DOWN.

Without vital power the heart, stomach, lungs, bowels and all organs of the body would be unable to perform their functions and life would cease. The nerves furnish this vital power; and when the nerves are all run down, the appetite disappears, rest is broken by sleepless nights and a tired feeling reigns supreme. Dr. Miles' Nervine will put things to rights. "Four years ago my nervous system was broken down from overwork and I was prostrated for many weeks. I could not sleep at night, had no appetite and could gain no strength until Dr. Miles' Nervine gave it to me. It is a grand medicine."

SOUTH AFRICA IN ARMS

WAR IN TRANSVAAL NOW SEEMS INEVITABLE.

Boers are Mobilizing Their Troops. Action of Orange Free State—Peace Party Active in England.

LONDON, September 29.—3 a .m.—(Cable to the Chicago Tribune.) The news from South Africa warrants the worst fears. The "Daily Mail's" war correspondent at Charlestown says that commandeering is going on in the Wakkerstrom district and probably throughout the Transvaal. Two thousand burghers have been ordered to assemble tonight or early tomorrow at Wakkerstrom Nek, eight miles from the Natal border and eleven miles from Laings Nek.

Hopes of peace are vanishing before the Boer silence. The full Cabient meeting today leaves only one construction. The last word but one has been spoken. Only the ultimatum remains.

Mr Balfour's significant speech in Scotland yesterday emphasized this fact. He said:

"We have now got to the point where, if I am judging aright, those responsible for the policy of the Dutch Republic refuse to give way on the point on which we cannot and will not give way. The interests of South Africa, the interests of civilization, the interests of naval honor, all make such a course impossible."

The Government has decided, in the event of its being necessary, to present an ultimatum to the Transvaal that Parliament shall be summoned in special session at once.

The efforts of the peace party in England are now being redoubted, and even prominent conservatives are pushing the crusade against war.

LONDON, September 28.—The decision of the Volksraad of the Orange Free State to join with the Transvaal in the event of hostilities, although fully expected, will naturally stiffen the Boers' independent attitude.

CARNEGIE FOR PARLIAMENT.

Andrew Carnegie it is said, will be the next Liberal candidate for parliament for Sutherlandshire.

WE INVITE INSPECTION

Pacific Heights

Residence lots on Pacific Heights are now offered for sale. No residence property having similar advantages and attractions, as far as healthfulness of location, having an elevation of from 170 to 800 feet, and affording the grandest marine and scenic views, as also its proximity to the business part of the city being less than a mile from the Progress Block. has ever before been presented to the people of Honolulu.

One of the main features of this property, and procured at great expense, is the abundant supply of pure spring water, pronounced by Dr. C. B. Wood as being the purest and best drinking water obtainable in the Island, which is now being conducted into storage reservoirs upon the property by an independent pipe line, and will be supplied to residents at Government rates.

OUR GUARANTEE.—We guarantee to all purchasers of lots on Pacific Heights that we will, within six months, provide rapid transportation to the highest lots on the property, connecting the same with the Honolulu Rapid Transit Co.'s line on Pauoa Road at the beginning of Kaiulani Drive.

TERMS.—One-third cash, ⅓ in one year, ⅓ in two years; interest, six per cent per annum on deferred payments.

Our carriage will convey parties desiring to inspect the property to and from the same.

Mrs. Craft marching Uncle Sam up from the water front to the police station and entering a charge of cruelty to animals against him would seem to be the appropriate sequel to the experiences of the horses on board the Centennial.

It looks decidedly like war in the Transvaal. And yet, somehow, it seems as though a peaceful way out must be found. It would be such an unequal contest. The very inequality of it makes it seem so wanton for England to go to war that whatever the merits or justice of her contention she is under bonds to the world to find some peaceful way out.

PHYSICAL EXAMINATION.

The Star in making public some of the methods in practice in the physical examination of school children, simply voiced the indignation and protest felt, by parents, teachers and pupils. That there should have been such a disregard of the conventions and convenances of civilized life as there has been in this matter seems almost incredible. It is no wonder that some parents smarting under a sense of outrage have taken their children out of school. To require pupils to disrobe in the presence of their schoolmates is to violate personal rights. Dr. Cleveland says "their modesty would not be so extreme if they were swimming together." This is begging the question. If they were swimming together it would be because they had chosen one another as companions. In school they are together through no exercise of choice as to companions whatever. If it were a matter of swimming any who objected could decline to go swimming, or could seek privacy for disrobing. In the school it is different. There is no choice. It is compulsion.

It is proper that there should be a physical examination. It ought to be searching and thorough. It ought to be both for the good of the individual as well as of the school and the community. But let it be conducted with a decent regard to personal feelings and a decent regard to privacy. There is no need of wholesale nudity. There is nothing gained by the wholesale methods anyway, for the examination if it be an examination must deal with each pupil individually.

Minister Mott-Smith has recognized that things are not as they should be when he proposes an examination at frequent intervals by a physician or physicians specially commissioned by the Board of Education.

DEWEY.

The San Francisco Examiner of September 28th devotes a large part of its first page to an article booming Admiral Dewey for president. It states that no word of welcome had come from the White House to the Hero of Manila, and that none of the Cabinet officers or heads of departments had gone to greet Dewey, and that the Administration was to be represented at New York only by Assistant Secretaries.

With this as a basis The Examiner goes on to say that this attitude of the President is an affront and that Dewey may yet consent to accept the Democratic presidential nomination.

Continuing, The Examiner says:

"Coincidently, Representative Leonidas Livingston, of Georgia, the Democrat who introduced the resolution and the bill to honor Dewey—the resolution extending the thanks of Congress, the bill making Dewey the Navy's Admiral—is convinced that Dewey can be prevailed upon to accept the Democratic nomination for the presidency, and that in such an event, Colonel Bryan would withdraw from the field. In this connection Admiral Dewey's letter of thanks to Mr. Livingston has peculiar point.

"The Administration is alarmed, and Dewey will be watched with hawk-like intensity henceforth by the McKinley managers. His interviews yesterday were regarded here as clever pieces of diplomacy, while his remark to The Examiner-Journal as to Otis' censorship being so strict that it prevented favorable mention of the navy getting into the newspapers was a rapier stab that drew blood."

As for any affront to Admiral Dewey or any failure on the part of the Administration to show him the proper attention, that can be dismissed at once. President McKinley has too often and too uniformally shown himself the tactful polished gentleman, never wanting in courtesy or courteous action, to allow any such suggestion to have weight.

But the suggestion of Dewey as a presidential possibility is another matter. The suggestion shows how anxious the Democrats are to find a candidate with a name to conjure with. If Dewey could be prevailed on to accept the nomination of the Democratic party, the managers would be saved the expenditure of a great deal of gray matter in thinking up campaign issues and utterances for their platform.

The American people have several times chosen a military hero for president, but Dewey, should he become a candidate and be elected would be the first naval hero to be thus honored. Perhaps there is something in this fact that might bewitch Dewey into accepting the nomination. This president making business is a strange one, but if any man could ever look forward a year and a half with confidence to a second presidential term it is President McKinley.

McInerny's Shoe Store

FORT STREET, HONOLULU.

"KEEP THOU THY SHOP AND THY SHOP WILL KEEP THEE!"

There is but one successful way to do this—
Do it by being systematic!

Don't think that after you have opened your store in the morning, swept and dusted, your day's work is done; for the serious part of it has just begun. From that hour until closing time you begin to change a large stock of goods into money, and to do this you must know what you are doing.

DO YOU KNOW WHAT YOU ARE DOING?

If you are still using old pound and ounce scales, you are not keeping your shop; you are unconsciously giving it away! You can keep your store by locking the doors, if everything else fails, but you can not increase your profits.

With the Money Weight System everything in weighing and changing goods into money is safe and certain.

Every merchant needs a tonic these days, and the Money Weight System is that tonic. It is not only a system regulator, but a well regulated system for safely handling merchandise.

WHAT LOCAL MERCHANTS SAY:

I have had one of the Dayton Computing Scale Co.'s Market Scales in use in my store for the past year and am pleased to be able to say that it has been a good investment. As to accuracy and convenience it cannot be beaten.

H. E... TYRE.

We have kept the Standard Computing Scale you sold us, in constant use and consider it perfectly reliable. We are thoroughly satisfied it has paid for itself.

The cleanest, brightest safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: 'Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

to others. While in the bush of this country I had an attack of scurvy but I soon got free of this complaint by using the same remedy. For cleaning the blood and for eruptions of the skin I do not think it can be beat. All the bushmen use it."

MILLIONS GREET DEWEY

THE HERO OF MANILA REACHES AMERICA.

Preparations for the Greatest Popular Demonstration Probably Ever Given an American—7,000,000 Strangers.

NEW YORK, September 26.—The Olympia, flecked here and there with the rust of a long voyage, passed from the monotonous tossing of open sea and dropped anchor inside Sandy Hook at 7:30 o'clock in the morning.

As she did so, the great guns on the Ordnance Station at the Hook thundered out the 17 mighty notes of welcome which are due an admiral, and the long, black-muzzled dogs, whose bites made an end of Spanish rule in the Philippines, barked in answer. Tired men, who tomorrow will find honors that they never dreamed of, strained their eyes to catch through the fog and mist which enveloped the bay, the low-lying lines of land, to discover in some momentary lift of the white curtain, some habitation of a countryman—some place that some American called home.

NEW YORK, September 28.—New York was decked brilliantly today in honor of the gallant sailor who is waiting at her gate. Had an ocean of color swept through the city, its ebbing tide could not have dyed the streets more brilliantly. Hundreds of miles of red, white and blue bunting cover the noble facades of Broadway and Fifth avenue, and countless flags flutter over the town. Not even the churches have escaped the universal decorations. The doors and gothic windows of Old Trinity, on Lower Broadway, are gracefully draped with the National colors, and in ancient Trinity graveyard the tomb of that gallant sailor who, dying, issued the command not to give up the ship, lies shrouded in the silken folds of the flag for which he died.

A million visitors are here to participate in the glorious celebration. Every road is pouring in a steady stream, until the streets are crowded morning and night, the surface and elevated cars are filled to overflowing and the hotel corridors are jammed with strangers. The gayly appareled soldiers of many States, who are to take part in the land parade on Saturday began trooping in today, and there was no hour when uniformed men were not moving in some quarter of the city to the sound of martial music. Sailors and marines, ashore from the big fighting machines, helped to swell the crowd moving in all directions. Uniformed members of the staffs of arriving Governors were everywhere.

NEW YORK, September 28.—George Dewey, hero, never in his whole life put in a busier day than today. It was a strangely diversified day, too, in which the business of being an Admiral and the pleasure of being a hero followed each other in swift alternation.

From mid-forenoon until the sun fell the Admiral shone in gold lace, cocked hat and epaulets. It all made him officially fit to welcome the state and national dignitaries, who in like trappings went to do honor to him, but it did not hinder him from doing kindly honors to humbler folks. He left high officials standing bearheaded while he kissed the little babies. He stopped in the midst of toasting a Governor to pass his glass of champagne up through a skylight to a woman who knelt on the hard deck to gaze at him. And through all the changing duties of a trying day he was the same Dewey, prompt, frank, democratic, gracious, but always the dignified Dewey pictured on the first day of his arrival home.

The day's first ceremony was the presentation of the bronze Congress medals to the 350 men who fought under Commodore Dewey's one-star red flag in Manila Bay. Captain Lamberton, of bushy whiskers and rosy face, pinned the priceless trinkets to the blue jackets, each tar coming forward as his name was called. Even the Chinese servants of the Admiral came in for decorations, and the crew cheered as the small images of Dewey were pinned upon the Celestials' breasts.

WASHINGTON, September 28.—Admiral Dewey is assured of a fine home in Washington as a free gift from the Amerian people. Subscriptions received today brought the fund up to about $48,000, and there is no doubt it will reach the $50,000 mark set by the committee.

NEW YORK, September 28.—Twelve hundred strong, the People's Choral Union, led by Frank Damrosch, paid a tribute of song tonight to the sea heroes. About 700 of the singers were women. In the steamer Warwick they left the pier at Beekman Street at 7:40 p. m., and forty minutes later the Warwick lay to fifty yards from the stern of the Olympia.

THREE DOCTORS IN CONSULTATION.

From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consulation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural healthy condition. For sale by all dealers and druggists. Benson, Smith & Company, general agents, Hawaiian Islands.

KILLED BY THE FILIPINOS

ACTIVE OPERATIONS IN LUZON RESUMED.

President Schurman is Now an Annexationist—Announces His Change of Heart to the Cornell Students.

MANILA, September 29.—9 a. m.—It is reported by a person who has just arrived from Turdac that Naval Cadet Welborn C. Wood, who was in command of the United States gunboat Urdaneta, recently captured and destroyed by the insurgents in the Orani River, on the northwest side of Manila Bay, and five of the nine enlisted men forming the crew, were killed during the fighting previous to the destruction of the vessel.

The four other men and the captured canon—a one-pounder, a rapid-fire gun, a Colt machine gun and a Nordenfeldt 25-millimetre gun, were conveyed to Malac.

MANILA, September 28.—3:50 p. m.—General MacArthur entered Porac today, after half an hour's fighting. The insurgent loss is not known. The enemy fled northwest. When the Americans entered the town they found it practically deserted.

The movement was a strategical success and resulted in the possession of Porac and the clearing of several miles of country thereabout.

The insurgents are estimated to have numbered 600 men. Ten dead Filipinos were found, and the Captain and commissary of Mascarno's command were taken prisoners.

The American loss is five killed, but there were many prostrations from the heat.

ITHACA (N. Y.), September 28.—President Schurman of Cornell, addressed the students of Cornell this afternoon in the armory of the University.

After thanking the collegians for their warm reception, President Schurman took pains to announce that his ideas on the Philippine subject had experienced a change since he was last heard by those present. At that time President Schurman was decidedly opposed to the acquisition of foreign territory, but today he came out flatfooted for the annexation of the Philippine Archipelago. The Paris treaty of peace, Mr. Schurman declared, gave to the United States the sovereignty of the Oriental group of islands and he contended that this authority must be maintained at all hazards. He added that by degrees the Filipinos should be given authority over the islands and he thought that eventually they would be happy and contented.

HOLT ESTATE MATTER.

To correct any erroneous impression it is stated that neither in the accounts of Bruce Cartwright as trustee of the Holt estate, nor in the master's report on the same, is there any inaccuracy or lack of clearness or any suggestion of such defects. The master's report in full will be published very soon.

COMMISSIONER ATKINSON.

Census Commissioner A. T. Atkinson writes from Washington under date of September 22, that he has adjusted the business of his mission. He had had one conference with President McKinley on Island matters and had accepted an invitation to another "talk" on the same subject.

FIRST-CLASS ENDORSEMENT

(Established 1870.)

AMERICAN JOURNAL OF HEALTH,
156 Fifth Avenue.

New, York, August 14, 1899.

CAPITAL BREWING CO., Tumwater, Washington.

Gentlemen:—The article regarding your beer has been prepared for our columns and we would ask you to make any technical corrections in the same that may be necessary to insure its accuracy and completeness. It will be published in the reading columns of the Journal of Health without the slightest cost to you, as we accept no pay for the article and charge nothing for the circulation we give it, and would ask you to send us all the information in regard to pure food.

Yours respectfully,

AMERICAN JOURNAL OF HEALTH,
J. A. DAVIS, M.D.,
Editor and Manager.

Only last week we examined the beer brewed by the Capital Brewing Company of Olympia, Wash., and it is a perfect illustration of the quality of beer which we are always glad to commend, for the analysis showed it to be entirely free from any trace of any injurious substance. Such a high grade of beer is most beneficial in its use, for none of the pure malt and hops have been displaced by harmful ingredients. Every hygienist will concur with us in saying that a beer of such superior excellence is a very wholesome beverage. Physician often have occasion to prescribe a pure beer for cases of debilitation, and they can safely order this beer, made by the Capital Brewing Company.

L. H. Dee has in his keeping the American Journal of Health and can be [illegible] anyone.

This [illegible] can be had in bottle or on draught at the HOFFMAN, corner of Hotel and Nuuanu streets. A large assortment of the very best of American and foreign liquors. We are pleased to sell you and give you value for the benefit of your health. Yours,

The End is Fast Approaching!

In three weeks' time the shoe busines of A. E. Murphy & Co. will close. We have been selling shoes at remarkably low prices, and will continue to do so up to the end. Get what you want in the line of shoes before it is too late. It is a case of sacrifice now. We must sell the stock, for there is no intention to carry on the business beyond the time stated. So remember, this is your benefit.
