ARTESIAN FLOW DECLINES

SERIOUS CONDITION IN CITY WELLS.

Those Without Pumps Threaten to Run Dry—Government Flow Also Down—Result of Dry Weather.

The dry weather of the past nine months has produced a condition in the artesian water supply that may now be called serious. Heretofore, the deficit was noticed, but no alarm was felt. Without going into underground conditions it may be stated that the flow from wells in the city has declined about forty per cent in a year. This applies to all wells, the effect of the drought seeming not to be confined to any specific locality.

Private wells have been the first to notice the failure of the flow. As a rule in such cases the flow is depended upon for water for bathtubs, hot water tanks and regular use, and the water passes directly from wells into the containers. In the past few months the level has fallen from the tops of such containers to the bottoms, and shortly none can be had except by pumping.

There has been a notable fall in the flow in the Government well at Alapai and Beretania streets, but the situation there is not serious, as the reliance is upon the powerful pump. Just what the result would be with a drought of months longer, however, is not possible to tell. In all probability there would be such a drain that even the underground supply would be exhausted.

Superintendent Brown of the waterworks department, thinks that the new Palama well will somewhat relieve the situation, as it will probably draw from new streams, relieving those now held by the other wells in town. This is a practical idea.

Whether the matter results very seriously or not the past few months will long be remembered as among the dryest in the history of the country. Not only Honolulu, but all the Islands are affected. Hilo's dry record has been as remarkable as that of Honolulu, if not even more so.

A SUICIDE AT THE VILLA

BOHEMIAN SHOT HIMSELF LAST FRIDAY.

His Room Locked at the Time and Body Just Found at Noon Today—A Mysterious Case.

At noon today the body of a Bohemian, a stranger here, who had been dead since last Friday morning, was found in room 10, at The Villa, a lodging house on Fort street, alomst in front of the Orpheum theater, run by F. C. Betters.

This morning lodgers in the other rooms complained of a foul smell in the neighborhood. Mrs. Betters was found, and it was suggested that room 10, which seemed to be the center of the odor, be broken open. This was done.

Lying on the floor was the body of the man who had been occupying the room since March 1. By his side and partially clasped in his right hand, was a revolver. The ball had entered the mouth and passed through the head, causing death in a short time.

The skin was blackened and the body in an advanced state of putrefaction.

The police were at once notified, and Deputy Marshal Chillingworth promptly summoned a coroner's jury. Dr. Wood soon arrived and made an examination for the Board of Health. It was plainly evident that the shot in the head had caused death.

Mr. Betters makes the following statement:

"The man came to my house on March 1 and engaged the room. He had just arrived in the country. We assigned him room 10. He never gave his name, and I neglected to ask him for it. As far as I can learn no one about the premises knows anything about him or ever heard his name. He was, for all I know, a very quiet man. I know of no cause for the suicide."

Mrs. Betters says:

"Last Friday my Japanese boy who attends to the rooms told me that room 10 was locked and he could not get into it. I had no other key to fit the door. My opinion was that the man in there had gone out for a few days, perhaps to the other islands, and did not worry specially about it. His rent was paid in advance, and he was at liberty to leave for a few days if he chose, without notifying me. The next thing I knew was what we saw when we broke open the door this morning."

The Japanese boy says:

"I saw the German in room 10 at about 8:30 last Friday morning. When I went back there about 9 o'clock the door was locked and I could not get in. About this time or a little later I heard a pistol shot, but did not know where it was. It may have been in that room. I tried the door several mornings but it was always locked. The next I saw of the man was when the door was broken this morning."

Who is this man? Where did he come from? Why did he commit suicide? These are questions to whichthe police want answers.

The crowd gathered at The Villa this afternoon frequently asked where the inspector of that district was, that a body could lie in one of the rooms of the house for four days without being found.

The coroner's jury summoned to view the body and make inquest of the cause of death, consists of S. Kubey, Fred Goodie, C. Hyde, J. Schnack, Charles Clement and W. E. Bivens. The jury viewed the remains and will hear witnesses at 2 o'clock tomorrow.

Later information indicates that the suicide was Frank Peroutka, a Bohemian who came to the Islands by the Mariposa, January 4. He lived at the Queen Hotel for a time, and later at the California. He was about 45 or 50 years of age, short, thickset, light complexioned and wore a moustache and spectacles. It is known that when he came here he brought at least $4,000 with him, and that he has dealt more or less in sugar stocks since he came here.

He had the air of a man accustomed to live well. His clothes were good, and he had plenty of them. In his room are a large trunk and several valises and traveling bags.

His suicide seems to have been carefully planned and deliberate. Under his head when his body was found was a towel carefully spread out on the floor as though to keep his blood from staining the floor. The bed shows that it had been occupied shortly before his death. No examination has yet been made to see if the bullet entered the floor, as from the position of the body it would seem likely that it did if the indications from the placing of the towel are correct, that he lay down on the floor before shooting himself.

DESTITUTE WILL NOT PAY

THE COURT OF CLAIMS MAKES A RULING.

Will Admit Claims of Persons in Poor Circumstances—Court to Occupy Office of Chief Justice.

The Court of Claims had a meeting today and decided that the court claims it has discretionary power to order the filing of any petition for damages on account of sanitary fires without the $20 deposit prescribed in a section of the proclamation constituting the court on being satisfied after examination, that the claimant is in destitue circumstances.

This conclusion was reached by the court under a section of the proclamation which provides that the court shall admit and hear cases according to Hawaiian law. When presented to the Executive the President agreed that the court's construction of the matter was correct. The ruling will be a great advantage to numerous Chinamen, Japanese and natives who were burned out in Chinatown, as a large number of them will come under the "destitute" classification.

"As for the consideration outside of Chinatown," said a member of the court this morning, "we are not prepared to say at present what we shall do. That is a matter for the Executive to handle."

This morning arrangements were made for the court to occupy the room of the Chief Justice in the Judiciary building for the present. As soon as the Board of Health vacates the old Legislative Hall in the same building, the court will adjourn to it and there continue its meetings.

END OF FULL MOON.

Would be Uxoricide Who Did Not Succumb to Official Rat Poison.

Full Moon, the Chinese who tried to kill himself with rat poison a few days ago after trying to kill his wife with a hatchet, died this morning. An inquest will be held tomorrow the same jury sitting in this case that has been sworn in in the case of the suicide at the Villa.

Full Moon and his wife lived at Waikiki and his wife's cries when she was attacked, attracted the neighbors who interfered to save her life.

WAS NOT PLAGUE.

Dr. Hoffman this morning held an autopsy on the body of an old native named Lapaele, aged 80, who died under rather suspicious circumstances. Pneumonia and syphilis were found to have caused death.

Dr. Camp, who attended Catherine Sullivan, the plague victim of Saturday night, took plague serum last night. He feels quite nervous and dizzy today, though he thinks he will be all right tomorrow.

CURTIS J. LYONS, Observer.

PUBLIC CO-OPERATES.

The corps of inspectors report that the public generally gives very cordial co-operation to its work. Ed Towse who has charge of the force, says this is shown among other ways by the willingness with which sanitary improvements suggested by the inspectors are made. One inspector has secured the digging of no less than twenty-two new cesspools in one district, and the putting in sanitary condition of many others. The Japanese, Chinese and Hawaiians are especially willing to cooperate.

MORE OF THE SUICIDE.

The suicide, Frank Peroutka, is a married man, and had a wife and daughter in Wisconsin or Minnesota. Thomas Ball, who was in his company on the Mariposa, and roomed with him here for a time, says that the name of the town in which Peroutka lived is Weynema. Peroutka stated that his business was general merchandise, and that he had just sold a store in his home town, to come here on account of poor health. He expected to engage in business here if the place suited him. Shortly after his arrival here the suicide invested some money in sugar stocks. "I was told that he had put $7,500 into bonds, but do not know how true it was," said Mr. Ball. "The last time I saw Mr. Peroutka was last week. He was complaining that his health was not good."

THE MACHINE.

No one knows better than General Harrison himself the practical difficulty of heading off Mr. McKinley from a renomination. Even Mr. Blaine failed in such an effort against General Harrison in 1892, and Mr. Blaine was a very popular man in the Republican party. The President now, like the president then, has a superb machine to support him. So far as delegates are concerned it is quite irresistible.—Springfield Republican.

CHANGE AT SAILORS' HOME

CAPTAIN BRAY TO TAKE HOLD THIS MONTH.

More Sailors in Honolulu Now Than Ever Before—A Boarding House Among the Prospects.

The change in management of the Sailors' Home is to take place on the fifteenth of this month, when Manager Bluxome will retire, and Captain Bray wil ltake charge. Captain Bray is a very well known ship's master, having sailed into Pacific ports for many years, and he understands the handling of sailors about as well as anybody. It is hoped that he can make a success of the Home, which has been a failure as far as carrying out the purposes for which it was built are concerned, almost from the start.

Captain Bray will take hold of the Home under rules very much the same as those under which it has been managed by Mr. Bluxome. The place is to be a home for seamen only, a temperance place, where they may live when on shore at trifling cost.

No shipping business is to be done in connection with the institution.

Since the plague began there have been many occupants of the sailors' home, which has had more success than for many months previous. At the present time there are a hundred and fifty sailors "on the beach" in Honolulu, but they do not go to the home. Sailors have a deep prejudice against "homes," growing partly out of the fact that rules are necessary for the management of such places, which Jack does not always like to observe. It is largely for this reason that the home has failed to make a good showing in the past.

A sailors' boarding house is being talked of as among the possibilities of the near future. There is plenty of room for such an institution to prosper. The laws in force here, however, would make it a very different place from the average sailors' boarding house on the mainland. There the bar is the principal source of revenue, enabling the man in charge to get the sailors' money as it cannot be done without the timely aid of plenty of cups that cheer. Here no liquor license could be secured under present conditions.

It is becoming the custom to pay off sailors of American vessels here. The law that prevented this being done is being disregarded, and for purposes of discharging men Honolulu is treated as an American port. Of the many vessels in the harbor scarcely one has not paid off some men and some of them have paid off almost their entire crews. In many cases it is the only way, as the men sign to be paid off at an American port, coming here under the natural impression that this is an American port and if when they get here they are told that it is not and attempts are made to hold them there is trouble at once.

Honolulu has never seen so many sailors ashore and out of employment as at the present time. They are loitering all day about the consul's office and along the water front, making very lively business for the shipping men.

LITERARY SOCIETY.

The regular monthly business meeting of the St. Louis College Literary Society will be held Wednesday evening at 7 o'clock.

A NEW LAWYER.

Harry A. Bigelow, of Massachusetts, has been admitted to practice law in the courts of Hawaii. He will be in the office of Kinney, Ballou & McClanahan.

PLUMBERS ARE WANTED.

Minister Young will call at once a meeting of master plumbers of Honolulu to talk over what is to be done about connecting houses with the sewerage system. It seems that there are not enough plumbers in the city to do the work in less than a year. Minister Young is determined, however, that the work will keep pace with pipe laying, even if it becomes necessary to bring plumbers from the coast by wholesale.

FEMALE PHYSICIANS.

Women physicians have established themselves all over Russia, and even their opponents must admit that they have achieved a respected position. Part of them have been employed by the Government, and since last year are entitled to a pension. They occupy positions as county physicians, school physicians, physicians for the poor and the municipal ambulance system, etc. A Mrs. Dr. N. Schultz, in the St. Petersburg Institute for Experimental Medicine, is one of the foremost experts in bacteriology, and her lectures are well attended by physicians of both sexes. Miss Dr. Lavroskaja of the city hospital, Obuchow, and a few other female physicians were last year with the expedition which went to Turkestan under the personal guidance of the Prince of Oldenburg to combat the pest. They all returned in good health, but their conduct shows a spirit of heroism worthy to be remembered. Dr. Pavloskaya has immortalized herself in another direction. At the right time and in the right manner she succeeded in interesting St. Petersburg society in the establishment of a sanitarium for consumptives, and through donations from private sources and the imperial treasury the establishment in Taitzi near St. Petersburg, is in operation.

Dr. Schabanova has gained distinction for the erection of a sanitarium for children on the Baltic seacoast.

NEW COMERS FROM CHINA

TWENTY-THREE BROTHERS AT THE CUSTOM HOUSE.

Mr. Then Why Returns to China and Mr. Ng Asks Permission to Land But His Paper is Marked N. G.

The court of the Bureau of Immigration, Judge John W. Short, was in session this morning, trying the cases of thirty-eight Chinese who want to land on Hawaiian soil. There was an odd collection of brothers on hand to swear before the court that the applicants had spent many years in Honolulu in the past. In fact it seemed to be brothers' day. One lot of five brothers, one lot of four brothers, and three lots of three each were on hand to give the necessary testimony for the dear ones that had come from far away China.

Among the returned travelers from China was Mr. Then Why, who arrived on the steamship China. Then Why had a certificate showing that he left here a year ago. The photograph on the certificate looked like the man who presented it and he was able to tell a good deal about Honolulu so Then Why was passed and he is now in town.

The Ng family consisted of three brothers two of whom were on hand to swear to the right of the other two to land. The Ng who had arrived was a doubtful case. His face was not altogether satisfactory when compared with his picture and he will have to make up for it by displaying knowledge of the map of Honolulu. One Ng, with his certificate endorsed "NG" by Judge Short, was sent back to China, but he belonged to a different Ng family.

Inspector of Immigration Short holds his inquisitions on Quarantine Island, and at the immigration office in the custom house. Until they are passed as fitted to land, the arrivals are not even allowed to talk to any Chinese here. They are examined and cross-examined, and their numerous relatives are also examined. Those who do the work are sometimes lost in amazement and admiration at the prevarications that are offered.

NEW GAMBLING GAME.

Brought to Judge Wilcox's Attention This Morning.

A new gambling game was brought to the attention of Judge Wilcox this morning. L. Smith, C. Roe and A. Buchanan were arrested in Thomas Square yesterday afternoon by Officer Hannahan and charged in the District court with playing a gambling game called "line-up." The game consists in the players tossing coins towards a line from a given distance. The one whose coin falls nearest the line takes all the other coins which fall "heads" up. The second best thrown takes the others, and these two toss for the "pot." It is described as a "quick gambling game," and it is the greatest gambling pastime of newsboys in the States. The three defendants were each fined $5 and costs.

TWO MURDER CASES.

Meida and Eston Before the District Court.

Meida, the companion of Animoto, the Japanese charged with the murder Heira at Kahuku two weeks ago, was brought before the District Court this morning. Deputy Marshal Chillingworth asked that a general charge of murder in the first degree be entered against him, and the case continued until next Tuesday.

Judge Wilcox asked if there was not a district magistrate over in Kahuku, and demurred somewhat to hearing causes arising in another judicial district.

The Deputy Marshal said he could not go over to Kahuku to prosecute the case on account of the quarantine. Judge Wilcox asked him how the witnesses could come here to testify.

"They can come," said Chillingworth, "but they can't get back."

Judge Wilcox finally agreed to the charge being entered and the continuance granted. The prisoner visibly started when Toma Abe informed him in Japanese of the charge, but seemed reassured when he learned the case had been continued for a week.

William Eston, the negro charged with the murder of Toyo Jackson was again in the District Court this morning. His attorney, who a few days ago was clamoring for a speedy hearing, was today clamoring for a continuance. The case will be continued until April 6.

REMARKABLE CURE OF RHEUMATISM.

Kenna, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistant in any manner, and she has not had a similar attack since.—A. B. THE DEATH OF D. W. ROACH

END LAST NIGHT AFTER SHORT ILLNESS.

Post Mortem Showed Double Pneumonia to Have Caused Dissolution—History of the Young Man.

D. W. Roach, the well known barber, died at his home at the corner of Hotel street and Adams lane last night of pneumonia. He had been ill only a few days and the disease did not take a serious turn until Sunday morning. Dr. Day was attending physician.

During the night the body was taken to the morgue and this morning a post mortem was held. The verdict of Dr. Hoffman was "double pneumonia." By this is meant pneumonia of both lungs. The second attack evidently came on during yesterday, as in the forenoon the patient was apparently better.

Deceased had been a resident of Honolulu fourteen years, having opened a barber shop on Hotel street at the Pantheon saloon in 1886. Prior to that he was barber on the Australia. While there he made many acquaintances in Honolulu and was finally induced by local young men to open shop here. For many years the shop was the finest in the city and drew an immense trade.

When the Pantheon was burned Mr. Roach's old shop and landmark went with it. Deceased thereupon bought an interest with Bert Bowers in the Criterion shop, where he has since been.

Mr. Roach was married about five years ago to Miss Schimmelfenig and leaves, besides the widow, two very bright and interesting children. Mrs. Schimmelfinig, mother of Mrs. Roach, died only about a week ago.

Deceased was a native of San Francisco, having been born and reared out at the Mission. Several members of his family, including a brother, still reside here. He was a man of most pleasant disposition and of many good qualities, which combined to make him a host of staunch friends.

The funeral will take place at 4 o'clock this afternoon from the hall of Mystic Lodge, Knights of Pythias.

NO UNION.

Amalgamation of Different Branches of the Mormon Church Denied.

Concerning the report sent out from Salt Lake City, some time ago, of a plan for the reunion of all the organizations claiming to be followers of Joseph Smith, "Zion's Ensign," a paper published in the interests of the Reorganized Church of the Latter Day Saints, at Independence, Mo., says:

"So far as the Reorganized church is concerned there is but one way in which there can be a uniting of any member of the Utah church with it, and that is to repent of the transgressions and comply with the requirements of the gospel of Christ, His church having no concessions to offer any one so far as obedience to the gospel ordinances are concerned.

"We understand two of the Hedrickite brethren, Elders Frisbee and Cole, have had a conference with the Utah representatives, upon what basis we are not informed, but we have also understood that the interview was not a satisfactory one to these brethren, so there need be no uneasiness felt by any that anything in the nature of a compromise with error will be made by the Reorganized church by which the cause of truth and right will be made to suffer. Neither do we believe the Hedrickite brethren will take any such steps."

TRAM CAR WENT TOO FAST.

Whereupon the Driver Was Immediately and Promptly Arrested.

One of Pain's tramway chariots got up a little speed last Friday and the charioteer, A. Lino was immediately arrested for heedless driving.

Manager Pain was in the District Court this morning with Attorney De Bolt, to defend the act of his employe.

The officer who made the arrest said the car was coming down Fort street, the mules on a gallop. At Hotel street a hack crossing the street narrowly escaped damage from the car by the skill of the hack driver. The tram car in the efforts made to avoid a catastrophe was derailed.

Stmr Ke Au Hou, Mosher, for Lahaina and Kaanapali.
Schr Bertie Minor, Raven, from Eureka, March 3; 265,432 feet lumber, 30,000 posts, 20,000 shingles.

DEPARTING.

Tuesday, April 3.

Sp Charles E. Moody, Anderson, for the Sound in ballast.
Russian Bk Aldebaron, Douglass, for Baker's Island.
Bk Highlands Smith for the Sound in ballast.

MEMORANDA.

The bark Aldebaron leaves here for Roberts' Island with thirty tons of freight for there which she carried by on her trip here from Newcastle. She was not able to get to Roberts' Island on the trip up on account of adverse winds. This time she will load at the island with guano for Sydney.

The steamer Ke Au Hou was not able to get away yesterday afternoon and will leave some time today.

Captain Bennet has taken charge of the steamer Kilauea Hou this trip. Captain McAllister is wanted on shore as a witness in a damage case growing out of the wreck of the William Carson.

Purser Clapham of the Ke Au Hou, took some very good pictures of the wrecked steamer Kilohana on his last trip to Lahaina.

Captain Mosher of the steamer Ke Au Hou, is the possessor of a piece of stone that looks like a petrified potato. It was found in a Kauai cave. The captain is telling that it came from the stomach of a Makawell whale.

Captain Dower and the chief engineer of the Lehua, were the first of the Wilder employes to finish six days after inoculation with serum, and had the first chance to go ashore. Captain Clark, the superintendent, will have had the prophylactic in his system seven days this evening.

The barkentine Addenda started from Chile with nitrate for Hawaii on the same day as the Echo, which has been in port here a week.

The three-masted schooner Bertie Minor, Captain Raven, got into port this morning after a quiet trip from Eureka. She went to a berth at once, at the Oceanic wharf.

TO ABANDON KALIHI CAMP

HEALTH BOARD DECIDES TO CLOSE IT.

In Keeping With the Policy of Reducing Expenses—Discussion of Executive Officer and Other Matters.

At yesterday afternoon's meeting of the Board of Health the matter of the appointment of Dr. Garvin to the executive officer was brought up. Dr. Wood explained that the appointee will have in his hands all the business of the Board. The question of whether or not Dr. Garvin would be willing to devote his entire time to the work for the salary of $250 a month was mentioned, and it was deemed best to ask him before completing the appointment.

The matter of a new president was not mentioned. In fact, it will probably be some days before it comes up, as there is a not a disposition on the part of Dr. Wood to retire until the situation is clear. It was reported in the meeting that Dr. Day and Mr. Hatch would shortly be going away. Indications are that George W. Smith will be the new president of the Board.

Dr. Wood reported that it had been decided to close Kalihi camp as soon as it is emptied of quarantined persons. The reason for this move is to reduce expenses, it being possible to quarantine the small number of people at battery camp much cheaper. There are still a large number of people in the camp who do not belong there. Quite a few incurables are quartered there also. These will have to be sent to the new Victoria Hospital at Kakaako.

The petition of the white men and others in the drill shed camp to be allowed to remain was again considered. As the Board did not see its way clear to keep up the place it was decided to refer the petition to the Executive.

Dr. Wood reported that in future all persons leaving quarantine would be given the plague prophylactic.

Attention was called to the fact that minutes had not been read in a very long time. It was decided to hold a special meeting this evening for the purpose of getting them out of the way.

THE BOAT TOO SMALL.

District Customs Inspector Keister, who was boarding officer for the month of March ended this month Sunday by almost falling into the harbor when he was trying to get aboard the bark Mohican. The lack of a proper boat for the customs men to go out in was the cause of Keister's being so near to finding a watery grave. Two years ago an appropriation of $5,000 was made for the purchase of a steam launch, and the customs men dreamed for a few months of the coming steam craft. But it has never come.. Negotiations are under way for securing a launch, as they are supposed to have been for over two years.

The boat in which the custom house men have to board vessels is declared to be too small for the purpose. It cannot be handled quickly enough, and yesterday, as it was coming round alongside the Mohican, which was moving quite rapidly, it almost turned over. Kiester made a flying leap for the ladder of the Mohican, and managed to get aboard. The same thing has happened before.

PRAYING FOR A WHALE.

Makawell Japs Want Another On the Beach.

The whale that lost its life on the beach at Makawell now has a grave on the seashore, over which the Japanese have held services of thanksgiving, with prayer for the arrival of another whale. Some of them got rich, according to their standard, by selling the whale's meat, of which there was about $300 worth, and the bone will be of considerable value. It is to be brought to Honolulu. The part of the carcass that was of no use was buried.

VENEZUELA'S AREA.

The republic of Venezuela contains 596,159 square miles. It is larger than any country in Europe except Russia.

Don't Preach

Economy these good times some one says—but the smokers we cater to are men of affairs who know what's what and we'll get their cigar trade if we convince them they save money buying here.

We pay a little more than some dealers for cigars to get extra care in the selection of the tobacco leaf and for better work.

Our specialty is selling imported cigars that you pay more for elsewhere—and don't get as good tobacco either.

BOARDING HOUSE FAVORED

DIRECTORS OF THE Y. M. C. A. ENDORSE THE IDEA.

Believe It Will be Important Adjunct to Institution—Endowment of $100,000 —Reports.

The annual business meeting of the Y. M. C. A. was held last evening, President Weedon in the chair. The most important thing taken up and discussed was the proposed boarding house for members. Attention was called to the fact that a large number of the members are young men without homes.

Secretary Coleman said he was impressed with the need of a home, and believed steps should be taken at once to establish it.

W. R. Castle believed the matter quite feasible. His idea was that it should have an endowment of, say, $100,000, as a permanent guarantee of stability.

President Weedon stated that such a boarding institution, while being a great help to members, would prove an excellent investment for them. He thought there would be no trouble in getting the money.

Rev. H. C. Brown remarked that such an institution would interest a great many young men who were strangers in the Association and its work.

It was finally decided to leave the matter for the present in order to get a general expression from the members regarding it.

J. P. Cooke and Theodore Richards were elected new members of the Board of Directors, and Charles H. Atherton was re-elected to succeed himself. The nine directors will meet Wednesday evening to elect the regular officers of the Association for the ensuing year.

George A. Howard, Rev. S. P. Perry and Dr. G. Waldo Burgess were appointed a committee to arrange for the anniversary meeting to be held on April 19.

W. R. Castle, A. B. Wood, Edgar Wood, Rev. S. P. Perry and H. E. Coleman were appointed a committee to provide a summer camp for members. This scheme has proved a great success in Associations of Mainland cities.

The remainder of the evening was devoted to hearing reports of officers and heads of committees, and discussing same.

COMPOSER OF "ANNIE LAURIE."

Death of Lady Spottiswoode—Regard for Old Customs.

LONDON, March 18.—A quaint, venerable old lady, who might, to all appearances have just stepped out of a Goldsmith comedy or a Gainsborough picture, died this week in the person of Lady John Scott Spottiswoode, the composer of "Annie Laurie" and other familiar melodies. She was 91 years of age, an aunt of the Duke of Buccleugh and closely related to the late General Wauchope. She had a very strong character and was a great upholder of the old manners and customs. When traveling she rode in a carriage, always had postillions and encouraged the observance of old customs. She was a liberal benefactor to the poor, and maintained a meal mill as a relic of old times and she prefererd a thatch on roofs and peat for fires. She was an indefagitable collector of antiques.

SEEDS FROM WASHINGTON.

Commissioner Haughs has received from the Agricultural Department at Washington a considerable lot of seeds of various useful vegetables and fennels for distribution in the Islands. The list includes artichokes, brecholli and many other things. Secretary Wilson also inclosed the latest inventory of seeds on hand with the request to Mr. Haughs to send for anything desired by the people of Hawaii.

A special invitation to everybody to visit Honolulu's most delightful residence site, PACIFIC HEIGHTS.

Via Maxima.

Kalulani Drive—aptly termed, the via Maxima or Grand Boulevard, and in itself an artistic piece of engineering—affords easy access to all points, as also senic and marine views of exquisite grandeur at every turn.

Electric Railway.

Contracts have been let for material, and the work of construction equipping and installation placed in the hands of a competent electrical engineer to be fully completed by June 1st. Having an independent power plant we are prepared to furnish electric power for lighting, heating and other purposes, to our home builders at most reasonable rates.

As Promised.

Our reservoirs are now completed and water mains laid so as to supply each lot. Permits for making water connections will be granted on application.

An inspection of the attractive homes now building, or the name of purchaser of lots, will convince anyone that PACIFIC HEIGHTS is the choicest and most select of all the residence sites of Honolulu.

The stationing of hose carriages at Nuuanu, Palama and Waikiki will be a very excellent move if there is pressure of water enough to supply the hose. You might have an ample water supply in Nuuanu Valley, and the fire engines could never reach any house above the hill in time to be of any practical assistance. But if there were a hose carriage stationed on Judd street a good deal of assistance could be rendered, and buildings saved, always providing there was a sufficient water supply. By the time we get the hose, the water question may have been solved.

The letter from the chief engineer of the Mikahala to the Board of Health authorities is an indictment of some of the minor officials of the Board. It is evident that discrimination was shown in the matter of allowing passengers to mingle with shore people before going on board. In matters of this kind there should be no discrimination. It is no wonder that men who have been cooped up on board of steamers for three months should register a kick. Confinement of this kind is not calculated to improve the temper.

A "resident" drew attention in yesterday's Star to the hardship which a $20 fee for filing a case before the Court of Claims would entail upon the poor man. In the course of the Council of State meeting later in the afternoon, the subject was a matter of debate. It was shown that a man might have to pay filing fee and legal fee, and the two together might exceed the amount of his claim. The man who goes to law is accustomed to see the oyster appropriated by the lawyer, but he has always expected his shell. According to the $20 filing fee method, he would be deprived of even the usual shell, which is manifestly unjust.

The Cabinet has given the contract for sewerage to Vincent & Belcher, being urged thereto by a letter from the Board of Health which set forth the necessity of speed. Though the contractors' figures were $21,000 higher than any others, they agreed to do the work in five months less time. Of course, with the opinion of the Board of Health to back them the Cabinet has acted rightly. But it is a question whether the Board of Health when urging the need of haste in the construction of the main sewers, took into consideration the amount of plumbing that will have to be done by private parties to connect with the sewers. There is an enormous amount of work to be done in this direction. How soon can it be finished?

MEDITATION.

Another crime of violence has to be credited to the Japanese community. The Star has kept pointing out these crimes for a long time past. It is a list far longer than Leperello reads to Don Juan about his "faux pas," and they were legion as the last new play on the Mainland shows. There should be some kind of propaganda by the reputable Japanese among their countrymen to keep them within the paths of very ordinary rectitude.

A large number of the crimes which occur are caused by jealousy or improper conduct on the part of one or the other in the matrimonial contract. Others again, are prompted by revenge for slights, or imagined injuries. Some for actual injury, but the revenge going utterly beyond the injustice.

It is well that we should understand these traits of the Japanese, of a certain class. The Japanese of culture and education indulges in no such passions. He is a thoroughly polished gentleman uniting in his mind the ethics of the East and of the West. He has a sense of keen honor, and a courtesy peculiar to his civilization, which even the cosmopolitanism of the West cannot erase. But the cultured Japanese gentleman is not under consideration.

It is true we have roughs in every nation. We have the larrikin of Australia, the hoodlum of America, the rough of Great Britain, the blackguard of France, and so forth. Each of these are foul enough for suffocation when it comes to thinking about them. And they are murderous enough when aroused in their filthy passions. But the Japanese can be as gentle as the sucking dove, can pass his cheery "O hio," can work honestly and well for you, and then can stick a knife into the heart of his just as gentle "O hio," friend, or do away with his erring wife by clubbing her to death, and find his countrymen ready to shield him as genially with the same "O hio," and the same smile as he bore before he committed his crime.

The Star does not want to cast any slur upon the Japanese living amongst us, but it must draw attention to the fact that crimes of violence are frequent among these people, and that it is the duty of the leading Japanese to do some work among their people whereby these attempts to take life can be shown to them in their true color. In point of fact here is a big field for several Japanese missionaries, no matter of what denomination they may be. It wants not so much outside work as it wants Japanese work. The Japanese can regenerate themselves. The trouble is they leave this kind of work to others.

SECRETARY WILSON.

Secretary Wilson of the Agricultural Department at Washington evidently takes a deep interest in the progress of the Islands. He has sent down to Mr. Haughs, Hawaiian Agricultural Commissioner, a large number of seeds for distribution on the Islands, and intimates that he is quite ready and willing to send more. The Agricultural Department under Secretary Wilson's management has made great progress and has done an immense amount of good in arousing interest in diversified industries. There is no doubt that much can be done in this direction on these Islands.

In the matter of vegetables, we are far behind what we ought to be. We are satisfied with the unscientific cultivation of the Celestial. Instead of having a large variety of excellent vegetables we have the same round of stringy beans, watery leaks, nubby carrots and hot radishes. There is no reason why the better and choicer varieties of vegetables should not be grown. A tomato the size of a marble is all the same to Chinaman. He does not care to raise the fine varieties which are six inches in diameter and are a true delicacy. Splendid onions can be raised in Honolulu if the proper seed is obtained from abroad. But no Chinese vegetable gardener is going to cultivate them. He thinks an onion the size of a quarter quite good enough.

Secretary Wilson's aim is to improve on all such lines, and he may one of these days send a special commissioner or come himself to look up the possibilities of our minor industries, and incidentally teache our vegetable gardeners to improve their stock.

A FELL DISEASE.

The deaths from plague during the month of March amounted to 6 or about 1 every five days. For the month of February there were 9 deaths from this cause, a total of 15 which after all is not so very terrible a record. During the same two months consumption has claimed 37 victims, two and a half times as many. Certainly the latter is more to be dreaded than the plague, as far as its ravages among the human race. Every medical writer points out the terrible havoc that this disease is making, and yet people never seem to realize that it is preventible, and that there is no necessity for so many people succumbing. It stands at the head of the list of causes of death among our little community. It stands at the head of the list in the United States, where the annual loss from consumption is 100,000. It stands in the same category in Russia where its victims are 279,000 annually, in France they are 136,000, in Germany 128,000.

This is a fearful death roll from the disease. It cannot be denied that no other disease plays such havoc as this. An epidemic may for a few months sweep ahead, but consumption claims its victims steadily. Year in and year out it reaps its steady harvest. And the evil of it is that it strikes mostly at those between the ages of 15 and 35, carrying off the very flower of the race

That some of these days strenuous efforts than other forms of sickness which are not near as deadly, is that it does not usually kill quickly and that it is not repulsive as some of the more dreaded diseases are.

We have made somewhat of a beginning in the battle against consumption by establishing a home for incurables. To this will go the cases in their worst stages, and by the care exercised in that establishment, no doubt many will be protected. But great and necessary as this work is, consumption will have to be fought on a larger scale, before we can hope to make a thorough impression upon it. When we see a number of deaths from typhoid fever, we at once become alarmed and look to our water supply. Articles will be written about it, and the Health authorities, or the government charged with neglect. This is common all over the world. In our own city there have been in the last three months 31 deaths from typhoid. In two months, as was shown above there have been 37 deaths from consumption, and in three there have been 57, which is not so very far removed from twice as many.

We quarantine against plague, small pox and yellow fever. We ought to quarantine against consumption. Such a quarantine would not interfere with commerce, as the quarantine against plague does, it would merely consist in not allowing consumptive people to land and take up their residence amongst us. If we could have such a law passed, we could soon deal with our consumptives. But the ranks of our consumptives are constantly being recruited from abroad, just as the ranks of the consumptives in California are recruited from the East.

Consumptive children should not be allowed in school, and consumptive teachers should not be allowed to spread their ailment among children. To fight consumption will not take a tithe of the expense that fighting the plague has done, it will not cause a dislocation of business, but it will prove an ineffable boon to the race. This is a subject that the Board of Health might well give attention to, now that the plague is practically over.

Sale of Land in MANOA VALLEY.

HONOLULU, OAHU.

Opportunity is given to purchase in Manoa Valley a beautifully situated property containing all the necessary essentials for a homestead, and where healthful climate and picturesque scenery are in the midst of historic surroundings, and all in contact with improved grounds, planted with various foreign fruits, as well as supplied with fruit trees indigeneous to Hawaii. The acreage of 45.64 acres in fee simple and 31.16 acres under long and favorable leases.

Included in the improvements on the fee simple portion is a roomy, modern dwelling house furnished with sanitary and other conveniences; there is also situated thereon a roomy carriage shed and stables.

The celebrated Waiakeakua (Water of the Gods) Falls is in near proximity, and the cool, clear, sparkling water therefrom flows through the grounds, supplying ample opportunity for increased irrigation to the acreage already planted and which is capable of considerable improvement.

Among the prospective travelers, there are a few who have booked for both steamers, intending to take which ever they find it most convenient to go on.

ACTIVITY AT HILO.

(From the Herald and Tribune.)

The increase in the number of visitors from the outer districts since the completion of the belt road is noticeable.—Hawaii Herald.

THE RUSH TO HILO.

Just arrived a full line of the best brands of liquors.

A limited amount of Island butter arrived in Hilo last week.

A. R. Crockett owner of the Kaawalli Coffee Company, was in Hilo during the week.

Fred Breyman, accompanied by his wife and child, came up on the Helene.

V. M. Fulcher will arrive by the Roderick Dhu.

L. A. Thurston and C. Hedeman, manager of the Honolulu Iron Works, have been in town during the week.

The Hilo Drug Company is receiving each month from England fresh platinotype paper.

C. W. Ragsdale made a brief visit to Hilo on Wednesday, returning Thursday to Olaa with Dr. Jones of the Siam.

D. Kaiser, representing Hyman Bros., drove over from Kailua the early part of the week.

Captain Scribner, late of the Henry B. Hyde, may visit Hilo before returning to the United States.

M. Rothwell, manager of Peacock & Co., is expected in Hilo by the first steamer from Honolulu after quarantine is raised.

J. T. Lewis has resigned the management of the Olaa store at nine miles and resumed his former position with the Hilo Mercantile Company.

J. E. Grossman and Leon Riester, manager of the Mauna Coffee Company, were in Hilo on a brief visit this week.

THE RUSH FROM HILO.

Sheriff Andrews will leave for Kailua tomorrow. He goes overland.

Mr. Metz, sanitary inspector for the Board of Health, will probably make a trip around the Island in a few weeks.

E. Fuhr and family leave for the Coast by the Annie Johnson for three months' visit to relatives.

Mrs. C. O'Rourke, proprietor of the Club restaurant on Front street, left for the Coast by the Spokane, which sailed on Friday morning.

It is reported that the Lennox carried away two dead mules when she left Hilo.

Antone G. Serrao will leave next week for a three weeks' trip on a visit to Kona. About the middle of June he intends leaving for Portugal, visiting the Paris Exposition, and hopes to return to the Island about October.

THE RUSH FOR THE DOCTOR.

Miss Anna Rice is confined to the hospital with an attack of fever.

Dr. W. G. Irwin has been confined to his house for some time with malarial fever.

Mr. Kelsy of Wall Nichols Company, has been confined to his home with illness during the latter portion of the week.

C. E. Richardson has been confined to his bed during the past two weeks with a rather severe attack of illness.

W. S. Terry is now well on the way to recovery from typhoid fever, by which he has been for some time confined to the Hilo hospital.

HER OPPORTUNITIES.

Miss Helen Gould is said to have had last week opportunities presented by mail to give away $3,000,000. The requests for gifts came from all parts of the earth. John D. Rockefeller once received a letter from a stranger who wrote: "Please send me $50,000 immediately." And that was all. Miss Gould is having the same experience.—Springfield Republican.

THINK OF THESE THINGS.

If we cannot eat we starve. Everybody who does not die of violence finally starves to death. "In nearly all diseases," says an eminent physician, "starvation is the final cause of death." It is not the food on the table, but the food you eat and digest, that nourishes you. In all wasting complaints the appetite and digestion weaken or fail and the body fades away. The true remedy must be one which at the same time invigorates the digestive powers and acts, in and of itself, as a food. It must build up the body faster than it is destroyed and also stop the tendency to wasting by curing the disease. The researches of modern science have placed such a remedy within our reach; and the wasting diseases, which have so long been the terror of the human race, yield at once to the healing power of

WAMPOLE'S PREPARATION.

It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites, and Extracts of Malt and Wild Cherry. The palate accepts it as it does sugar, confectionery or cream. You don't have to force it down the children; you don't turn away from it yourself. The action of this effective remedy is prompt and its effects permanent; taken before meals it goes to the very secret stronghold of all digestive disorders. Prevents and cures Fevers, Scrofula, Rheumatism, Bowel Complaints, Anæmia, General Debility, Throat and Lung Troubles and all diseases due to impurity of the blood. No slow or doubtful action. Effective from the first dose. "You cannot be disappointed in it." Sold by chemists everywhere.

AT THE ORPHEUM.

The new program for the beginning of the week is in some respects the best yet presented, and in one or two other places decidedly weak. These latter spots, however, are to be eliminated this evening, leaving the program an unusually strong one in talent. The first last night was exceptionally well chosen. All of the numbers were deservedly encore winners. Hogan sang a new song with the usual number of encores trailing along behind it. Hearde, Murray, Livers, Chenault, Saulsbury, Miss Moss, in fact everybody won a good share of applause. Hogan is very clever and amusing in the "Blackville Duel," while his stump speech brought down the house. The audience was as usual, large. Owing to the demand for "Uncle Tom's Cabin" seats the box-office are selling seats today for that play.

PATRIOTIC BREWERS.

An English brewing firm in Birmingham and other towns, has offered to the war office 1,000 barrels of best stout for the use of the troops in South Africa.

Boils. Pimples.

Sure Signs of Impure Blood.

Do not think that washes and ointments can cure eruptions of the skin. They cannot. The cause is deeper, even down in the very blood itself. Purify your blood, and your skin will be smooth and clear.

Mr. James Johnson, of South Forbes, New South Wales, sends us his photograph, and says:

"My whole body was almost covered with boils. Reading about

AYER'S Sarsaparilla

I thought I would try it. I took one bottle, and was entirely free from any eruption whatever. My eyesight was greatly strengthened also."

Mr. Johnson's eyesight was strengthened because the Sarsaparilla is such a wonderful nerve tonic. For impure blood and weak nerves there is no remedy in the world equal to it.

You cannot enjoy good health if your bowels are constipated. Ayer's Pills cure constipation every time.

NECROLOGY FOR MARCH

A PLAGUE CASE EVERY FIVE DAYS.

Consumption However Leads the List in Number of Victims With Typhoid Fever a Close Second.

The deaths in Honolulu for the month of March numbered 112. Proportioned to the length of the month it is almost exactly at the same rate per day as February when there were 100 deaths. It is considerably below the rate for January when there were 176 and December when there were 175. It is nearly the same rate as for November when there were 111. It is more than any other month of last year.

Consumption led as a cause of death reaping a harvest of 21. Typhoid fever is the only other cause that requires two figures to enumerate its victims which were 19.

The plague victims numbered 6, an average of one every five days.

There were two murders and one suicide.

The cause of death for the month were: Abcess, 1; alcoholism, 1; anaemia, 1; angina pectoris, 2; ascites, 1; asthma, 2; Bright's disease, 1; bronchitis, 4; bubonic plague, 6; cholera infantum, 1; colic, 1; consumption, 21; debility, 3; diarrhoea, 5; dropsy, 1; dyspepsia, 1; enteritis, 2; epilepsy, 1; fever, typhoid, 19; fever, malarial, 1; fracture of skull, 1; gastro-enteritis, 4; heart disease, 2; hemorrhage (cerebral), 3; inanition, 2; inflammation of brain, 1; knife wound (homicide), 2; malnutrition, 1; meningitis, 6; nephritis, 2; oedema pulmonum, 1; old age, 3; pericarditis, 1; peritonitus, 1; pneumonia, 3; septicaemia, 1; strangulation (suicide), 1; syphilis, 1; uraemia, 1.

There were 26 deaths of persons under 1 year of age, and 19 of persons 60 or over. Of Hawaiians there were 53 died; of Japanese, 25; of Chnese, 17; of Portuguese, 7; Americans, 5; British, 1; and of other nationalities, 4.

FIFTY YEARS' FIGHTING.

A Parliamentary paper has just been published of the "wars and military operations on or beyond the borders of British India, in which the Government of India has been engaged since 1849." Of such, great and small, there have been no fewer than 110, from which fact an easy sum in simple division shows that the average has been rather more than two per annum, or one every six months. Inasmuch as wars and expeditions in Africa and China, including the Egyptian campaigns, in which the Indian troops have been employed, are counted, the list gives a remarkable birds'-eye veiw of the ceaseless work of policing what is, after all, only a portion of the British Empire. In the course of these fifty years' perpetual fighting Great Britain had to employ bodies of troops of all numbers, from the 71,726 men who took part in the second Afghan war from 1879 to 1881 down to the 71—without any thousands behind them—who punished the raiders in the Naga Hills in Assam in 1883.

BY AUTHORITY

EXECUTIVE ORDER.

CREATING A COURT OF COMMISSIONERS TO TAKE EVIDENCE OF LOSSES CAUSED BY THE BURNING OF CHINATOWN IN HONOLULU, AND TO MAKE AWARDS AND JUDGMENTS ON SUCH LOSSES.

The Court of Commissioners to take evidence of losses caused by the burning of Chinatown in Honolulu and to make awards and judgments on such losses shall consist of a presiding member and four associate members, as hereinafter appointed. Each of the Commissioners shall take an oath to support the Constitution of the United States and of the Republic of Hawaii and to discharge faithfully the duties of his office.

The Court shall have a seal with such device as its presiding officer may order.

The establishment of the said Court is not to be taken as an admission of the existence of any liability on the part of the Government, but the question whether or not liability exists for the losses in question is in each case to be decided by the Court.

Such Court being created for the sole object of hearing and adjudicating claims against the Government based upon the losses caused by the burning of Chinatown, has exclusive jurisdiction in the premises; and such new class of claims being referred only to the arbitrament of a court specially created therefor, no right of appeal exists from its decisions, which are therefore final.

The Court is authorized to entertain claims for actual losses of property only, and claims for speculative or consequential damages, or for rents, loss of the use or occupation of property, or loss of profits through the interruption of business, will not be considered.

A majority of the Commissioners shall constitute a quorum and may hold Court for the transaction of business, but all final judgments, as well as interlocutory rulings, must be concurred in by three Commissioners.

The Court shall have power to appoint a clerk, whose duty it shall be to keep a record of all claims filed, proceedings had thereon and the final judgment entered by the Court and to receive all moneys paid into Court, who shall give a bond in the sum of $1,000 to the Minister of Finance for the faithful accounting thereof, to be approved as to sureties by the said Minister, and who may administer oaths and affirmations.

The Court shall have authority to employ one or more stenographers and such interpreters as may be necessary, and all evidence transcribed from the notes taken by said stenographers shall be considered the final record, subject to correction, of evidence taken on each claim. It may also appoint a bailiff and janitor.

In case of a vacancy in the Court the same shall be filled by the President of the Republic of Hawaii by a new appointment, and in case any Commissioner is unable to sit at any time for causes, as applicable to judges of the Circuit Courts, and the presence of such Commissioner is necessary to constitute a quorum of the Court, his place shall in like manner be temporarily filled, and the person so appointed shall receive the compensation due to the position during the time he so acts.

The Court shall have power to make rules for the conduct of the work before it within the scope of its authority.

The Commissioners may administer oaths and affirmations.

The Court shall have jurisdiction to hear and determine all claims founded upon actual losses caused by the burning of Chinatown in Honolulu, which are filed before the 1st day of June, A. D. 1900, according to the general principles of law applicable to Hawaiian courts, except as the same may be modified by the provisions of this order.

The said Court shall sit in Honolulu, holding one session, which shall be opened as soon as practicable after the publication of this order, and public notice shall be given of the time and place of convening. The said session shall continue as long as may be necessary for the prompt disposition of the business of the Court, provided that brief adjournments may be made from time to time.

The said Commissioners and the officers and employes of the said Court shall be entitled to receive such pay as may be provided by the Council of State.

No person shall file or prosecute in the Court of Claims any claim for or in respect of which he or any assignee of his has pending in any other Court or before any Department in Washington, before the Congress of the United States, or the Legislature of Hawaii, any suit, process, plea or petition with relation thereto.

All claimants and persons admitted to practice in the existing Courts of the Republic of Hawaii shall be entitled to appear and represent claimants before this Court.

The said Court shall have the same power now possessed by the Circuit Courts as at present established, to compel the attendance of witnesses, to compel the production of books, papers and accounts, to administer oaths, to punish persons guilty of contempt before the Court, and to do all such other acts and to take all other steps necessary to carry into effect all the powers hereby granted or which may be necessary for the promotion of justice in matters pending before it.

Each claim must be brought before the Court by the person who was the owner of the property destroyed at the time of the destruction thereof, by an itemized statement in the English language of the loss sustained, the situation of the property at the time of its destruction (and if the claim is for the loss of a building) the name of the owner of the land upon which it stood, when and upon what consideration the claimant became interested therein, the amount insured on such property, if any, the name of the company insuring and the steps taken, if any, to recover the same, that no assignment or transfer of the claim or any part thereof or interest therein has been made except, in case of insurance, to the insurance company insuring such property, and that the claimant has actually suffered the full amount of loss claimed, and shall set forth whether any proceedings whatever are pending before any other court or authority for the recovery of the loss or any part thereof, for which the claim is filed. Provided that in case such owner of the property destroyed has deceased or is a minor, the claim shall be presented by his legal representative.

The statement of claim must be verified by the affidavit of the claimant or some one on his behalf that the claim is true of the affiant's own knowledge except as to matters stated upon information and belief, and as to those that he believes them to be true.

Claims shall be filed in duplicate and the clerk shall immediately deliver one duplicate to the Attorney-General. No other service shall be made upon the Government, and it shall not be necessary for the Government to answer or otherwise join issue on any claim.

Sworn copies of the minutes, resolutions and death records of the Board of Health; sworn reports of agents to the Board of Health as to sanitary conditions of premises condemned by the Board of Health and sworn statements of the appraisers appointed by the Board of Health are to be taken as prima facie proof of all acts, matters, conditions and values therein stated.

Claims shall be tried in the order in which they are filed, unless the Court shall for special reasons otherwise direct.

No claim shall be heard within ten days after the same is filed, except upon agreement.

The Government may appear before the said Court by attorney and present evidence and otherwise defend against such claims.

The expenses incurred by the attendance of witnesses called by claimants, according to the practice of the Circuit Courts, shall be taxed as costs and paid by the claimants. No other costs shall be charged to claimants.

A deposit of Twenty ($20) Dollars shall be made on the filing of each petition for claim, to cover the cost of the proceeding.

It is desired that such Court shall require clear and detailed evidence of the property destroyed as to description and value and shall, as far as possible, promote such simplicity in the proceedings and trials as shall favor fair and prompt adjudication of the claims submitted.

In accordance with the foregoing limitations and principles, and by virtue of the authority in me vested by William McKinley, President of the United States of America, I Sanford B. Dole, President of the Republic of Hawaii, hereby appoint the following persons: J. Alfred Magoon, George A. Davis, Lorrin Andrews, A. Noa Kepoikai and Albert F. Judd, Jr., to take evidence of losses caused by the burning of Chinatown, in Honolulu, either by the direct orders of the Board of Health or incidental thereto, and to make awards and judgment on such losses.

The first person herein appointed as a member of such Court shall be the presiding officer thereof, with the title of "President," who shall have the general supervision of the work of the Commission. The title of the Court shall be "Court of Claims for Losses Caused by the Board of Health in the Suppression of Bubonic Plague."

GIVEN under my hand and the Seal of the Republic of Hawaii, this 2d day of April in the year of our Lord, one thousand nine hundred.

[SEAL]

(Signed)

SANFORD B. DOLE.

TALK ON COURT OF CLAIMS

COUNCIL OF STATE TAKES UP THE MATTER.

Insists Upon Investigating Items of Expense, as Well as Rules of the Court—Other Appropritations.

The entire matter of the Court of Claims was yesterday afternoon referred by the Council of State to its finance committee. There was considerable discussion of the matter, and several neat questions were raised. One of the members went so far as to say that the Council could amend the rules of the court. President Dole thought the Council could only recommend amendments.
The provision of a fee of $20 for filing claims was the stickler for the Council. Attention was drawn to the fact that the claims of a number of poor people would probably be very little more than that. Mr. Achi contended that the fee should be graduated, or increased in proportion to the size of the claim. One member objected to Mr. Magoon sitting as a member of the court for the reason that he owned considerable property that was burned by the authorities. Mr. Robertson objected to the principles of the court. He said that the total awards would reach into the millions of dollars, and it would be impossible for the Government to pay. In the first place his opinion was against the court at all. Now that it was established, however, its arrangement should be carefully considered. It was Mr. Robertson's motion that passed the bill over to the Finance Committee.
Mr. Damon introduced a bill appropriating $2,500 for further assistance to relief camps 1 and 2, which was passed and the money was made available at once. It was explained that this was the last money required for the purpose indicated, as the camps would in future be self-sustaining.
The report of the Executive denying the petition of 800 Japanese for exemption for taxes for the year 1900 was adopted.
The report of the Cabinet, recommending that the Zerbe claim go back to the Legislature, shared a different fate, however, the Council insisting upon considering it, and on motion of Mr. Gear decided to take it up with Act 3.
The one other important matter disposed of during the afternoon was the appropriation for the fire department, the amount passed being $66,164. This includes money for hose carts in Nuuanu, Palama and Waikiki, as well as a new number-one firehouse, to take the place of the one burned on King street. The bill also carried an item for new hydrants, which will supply water to the fire fighters.

Three houses in Kakaako and one on Vineyard street, have been burned by orders of the Board of Health on account of recent plague cases. The Vineyard street house was the one occupied by John Hurley. At Kakaako were three houses, two of which had double stories. One was the building from which Yamasaka was taken. The other two houses were on the Waikiki side of it. They were burned at the request of the Bishop Estate, the owner.

IT IS DANGEROUS TO NEGLECT A COLD.

Pneumonia is one of the most dangerous and fatal diseases. It always results from a cold. Chamberlain's Cough Remedy will quickly cure a cold and perhaps prevent an attack of pneumonia. It is in fact made especially for that ailment and has become famous for its cures over a large part of the civilized world. It counteracts any tendency of a cold toward pneumonia. Can you afford to neglect your cold when so reliable a remedy can be had for a trifle? For sale by all dealers and druggists. Benson, Simth & Co., general agents, Hawaiian Islands.

Several persons are qualifying to sail by the American Maru on April 10, for San Francisco.

The "rubber" of the indoor baseball series will be played at the Y. M. C. A. gymnasium Saturday evening.

Superintendent McVeigh began on Sunday charging room rent to persons remaining in the camp at Kalihi.

There will be a business meeting of Company A at the drill shed this evening at 7:30 o'clock. Important business.

A good bicycle is a splendid investment. E. O. Hall & Son carry that kind, and sell them at very low prices.

The Sach's Dry Goods Co., Ltd., are making great preparations for their millinery opening on Thursday of this week.

The regular meeting of the Ways and Means Committee will be held Thursday morning at 10 o'clock, at the Castle Home.

A business meeting of the St. Louis College Literary Society will be held tomorrow evening at 7 o'clock at the college.

James Steiner is having a concrete sidewalk laid in front of the new Elite building. He says it is for the use of the Salvation Army.

"Distinguished People, and Where I Met Them," is the title of the lecture to be given this evening by Miss Mary Krout at Oahu College.

On Thursday, April 5, at 10 a. m., James T. Morgan will sell at auction at his Queen street salesroom a quantity of household furniture.

A meeting of the Triangle Club of the Y. M. C. A., is called for this evening. In future, meetings will be held regularly on Tuesday evenings.

Miss Mary Krout gave her impressions of Manila and the Philippines in a drawing room lecture at Mrs. W. C. Wilder's yesterday afternoon.

B. F. Ehlers & Co. beg to announce their spring opening of millinery on Thursday, the 5th, extending throughout the remainder of the week.

Prof. S. P. French and Miss Florence Kelsey will be married on the evening of April 12. The wedding will take place at the residence of W. R. Castle.

First Battalion, First Regiment N. G. H., are ordered to assemble under arms at the drill shed this evening at 7:30 o'clock, for battalion parade and drill.

On Thursday, April 5th, James F. Morgan will sell at auction, a cargo of coal, ex-bark East Africa. Sale takes place at old Fishmarket wharf, at 12 o'clock noon.

A meeting of those intreested in a hospital for the care of incurables, will be held at the office of the Hawaiian Trust and Investment Company tomorrow at 2 p. m.

A HARD CASE.

There is a man about Washington—you see him at the capitol, at the hotels and at some of the clubs—who used to be famous and influential, but is now without money or influence, and lives on loans that from time to time he is able to secure from more fortunate friends. The other day he asked a certain senator for $20, whereupon the latter said:

"Tom, you have been borrowing money from me for twenty-five years, and you have never paid me back a cent. How long do you propose to keep it up?"

"Until you get me something to do," replied the borrower frankly.

"That is impossible," replied the senator. "You ought to understand that a man of your record cannot obtain an office, and should go to some place where people don't know you and seek employment."

"I don't understand it," replied the borrower bitterly. "Everybody seems to be down on me and stand in my way. When I first knew you, Senator, I was way up at the top of the heap, and you were a friendless and unknown man at the bottom; and I can't understand how it has happened. It certainly was not my fault."

"No, Tom," said the senator, kindly. "It isn't your fault; it's your misfortune. An inscrutable providence gave you a mind which is unable to tell right from wrong, and you have been a blank poor guesser."
