TAKE FRENCH LEAVE

SOLDIERS ON MEADE SLIP UPTOWN.

Determined to Get on Shore—They Slip Down Cables While Sentries Call "Halt!"

The U. S. Transport Meade, Captain Wilson, Captain R. M. Schofield quartermastr in command, seventeen days from Nagasaki came into port this morning with a boat full of discharged soldiers of all colors and arms of the service, also regular officers on leave and time expired volunteer officers with their wives and families.

The Meade made an uneventful trip and has no sickness aboard. She will probably sail tomorrow afternoon. In order to prevent the men from staying over in Honolulu and forgetting to catch the ship, sentries were placed to stop any from leaving the boat, later on this morning they were doubled, as the crowd of boys in khaki passed up on the fore deck and, looking longingly at the land, was visibly melting. Notwithstanding peremptory orders the men, who feel that they are now free of all obligations to military discipline, have risked the not very threatening looking sentries and slid down the cables by twos and threes and made their escape uptown to the delights of a restaurant meal, ginger ale, primo beer and fresh fruit. By noon time nearly a quarter of the men were enjoying shore leave without leave. The others, less daring or less rich, and therefore preferably remaining over for the midday dinner, bargained with the Japanese vendors of candy, fruit and soda water, tossing the coin on the wharf and receiving the coveted dainties in baskets.

Several of the escaping men suffered in their nether garments, tearing them on the rat protectors. Probably half of the soldiers will have made their escape before dark unless an exceptionally strong watch is kept. The sentries themselves seem disposed to "wink the other eye" and apparently regret that their stations do not give them an equal chance of getting up town themselves.

No severe punishment can be meted out to the transgressors who have all served their terms of enlistment. If they lose the boat they will probably become nuisances to the local authorities and are likely to cause themselves a good deal of inconvenience in finally getting home. The Meade is being coaled today and is expecting to sail tomorrow afternoon, but there is a possibility of her not getting away until Monday, not getting away until Monday.

RAMPART OF PRAYER

BISHOP BARRICADES SECOND CONGREGATION.

"Protestant Episcopal Church" Services Rearranged to Occupy Nearly the Whole Day on Sunday.

Bishop Willis has issued a little printed slip giving the hours of the various services at St. Andrew's Cathedral. It is headed "Protestant Episcopal Church."

In the new arrangement of services "Pule Kakahiaka" or morning prayer in Hawaiian at 9 and morning Prayer and Sermon at 10:30 are sandwiched in between the former hours of Holy Communion at 7, and morning prayer and sermon at 11, so that it effectually barricades the cathedral against the second congregation's old Sunday school hour of 9 and morning prayer at 9:45. "Pule Kakahiaka" at 9 and morning prayer at 10:30 makes a pretty effectual rampart of prayer against any intrusion of the second congregation or their services.

In the afternoon the Bishop has replaced "Pule Ahiahi" or evening prayer in Hawaiian with "afternoon service and Catechising" at 3:30 p. m. Evening prayer is at 7:30.

The day is so well filled up with services in English and Hawaiian that there does not appear to be much time left for any second congregation services, even if the cathedral were not locked when the Bishops' "Protestant Episcopal" services are not in progress.

WILLIE CRAWFORD DISCHARGED.

Willie Crawford was arrested last night on a charge of slapping Officer Van Giesen in the fact. Inasmuch as the offence was not so serious in the eyes of the police, a nolle prosequi was entered.

THE ORIENTAL LIFE.

TWO WATER SCHEMES

HAWAII'S PLAN AND THE WASHINGTON PLAN.

Striking Differences Between the Kohala Irrigation Plan as Approved Here And Proposed to Congress.

Discussion of the Kohala water scheme as a subject for tonight's Republican mass meeting has brought out some interesting comparisons of the plan proposed to Congress and that which was finally adopted by the Executive Council here. In the one case the privilege was hedged about with all sorts of conditions to protect the public and secure a revenue for the government, while in the other case it is an unconditional perpetual gift.

The water franchise was before Governor Dole and the heads of departments for a long time. As first presented it was utterly rejected as there was no money in it for the government. Then an offer of $500 a year rental was made, and this too was rejected. The last proposition came from a hui represented by Col. J. W. Jones. He offered $1,000 a year and five per cent of the receipts from the scheme, and on this basis, after long discussion, an agreement was reached.

The form of the franchise as approved here contained provisions for a rental of $1,000 a year and five per cent. The privilege was to be fifty years. It was provided that the owners of the franchise should supply homesteaders and other settlers, at a stated rate, so that there could be no monopoly, the holders of the franchise bound themselves to develop a suitable system, and at the end of the fifty years they were to turn it over to the government. On this basis the capitalists were ready to go ahead with the plan, deeming it a paying one, and the agreement would have been entered into here, but for letters from Washington stating that the Attorney General's department held that the Territorial government had not the power to make such a contract.

The scene was transferred to Washington and there the plan reappeared in the form of a bill to give to Sam Parker and his associates a perpetual right instead of a temporary one, with no payment to the Territory, no provision for supplying homesteaders, no rate stated to prevent any kind of charge being made to those in the power of the holders of the franchise. There is also an additional power granted, by which the holders of the franchise can even seize land.

"CUT OUT" HONOLULU

PORTO RICANS AFRAID TO COME HERE.

Twenty-five of them Received Warning At Napoopo to Stay Away and Hurriedly Left Mauna Loa.

Evidently the stringent measures taken by the police authorities to rid Honolulu of Porto Rican vagrants, has had a salutatory effect. In future, it is very likely that the Porto Ricans will be content to remain on the plantations and work, instead of coming to Honolulu in hopes of livig without exertion. A striking example of this fact was observed by the passengers on the Mauna Loa this week when at Napoopoo.

About twenty-five Porto Ricans who had evidently been working on one of the plantations of Hawaii, boarded the steamer at Honuapo, bound for Honolulu. At Napoopo one of their countrymen boarded the vessel. It was noticed that he had soon aroused the interest of the crowd from Honuapo for they were seen gathered around him and after listening to him to begin talking and gesticulating in an excited way among themselves. Before the steamer left, the entire crowd picked up their traps and announced that they did not wish to come to Honolulu at all but wanted to leave the boat at Napoopoo. They were accordingly put ashore.

It seems that the Porto Rican who talked with them, had warned the crowd to keep away from Honolulu. He represented that the police here were making special efforts to round up the Porto Ricans in Honolulu and if they came here arrests and imprisonment would be inevitable. The crowd did not apparently relish such prospect for they decided to remain on Hawaii.

INJURED MAN VERY ILL.

Miya's case of assault with a weapon was continued this morning by Judge Wilcox until February 12. The Japanese who is alleged to have been cut with a knife by Miya during a quarrel, is said to be very ill at the hospital so the case against Miya was continued to await developments.

SENSE OF COMFORT.

The feeling of comfort often felt when visiting the house of a friend is often due to the taste displayed in selecting wall paper. Beal has handsomely decorated many houses from his stock.

AGENTS

"THE ISLANDERS"

Kipling, who has so often rudely jostled British self-complacency, has never been more severe than in his latest poem which he called "The Islanders," but which has come to be known as the "Muddled Oafs Poem." It was published in the London Times January 4, and immediately stirred two continents. The Literary Digest in its issue of January 18 gives these selections from it.

Fenced by your careful fathers, ringed by your leaden seas,
Long did ye wake in quiet, and long lie down at ease;
Till ye said of Strife:—"What is it?" Of the Sword:—"It is far from our ken;"
Till ye made a sport of your shrunken hosts and a toy of your armed men.

* * * * *

Then were the Judgments loosened; then was your shame revealed,
At the hands of a little people, few but apt in the field.
Yet ye were saved by a remnant (and your land's long-suffering Star),
When your strong men cheered in their millions while your striplings went to war.
Sons of the sheltered city—unmade, unhandled, unmeet—
Ye pushed them raw to the battle as ye picked them raw from the street.
And what did ye look they should compass? War-craft learned in a breath?
Knowledge unto occasion at the first far view of Death?
So! And ye train your horses and the dogs ye feed and prize.
How are the beasts more worthy than the souls you sacrifice?
But ye said: "Their valor shall show them": but ye said: "The end is close":
And ye sent them comfits and pictures to help them harry your foes.
And ye vaunted your fathomless power and ye flaunted your iron pride
Ere—ye fawned on the Younger Nations for the men who could shoot and ride!
Then ye returned to your trinkets; then ye contented your souls
With the flanneled fools at the wicket or the muddied oafs at the goals.

* * * * *

Ancient, effortless, ordered, cycle on cycle set—
Life so long untroubled that ye who inherit forget
It was not made with the mountains; it is not one with the deep.
Men not Gods, devised it. Men, not Gods must keep.
Men not children, servants, or kinsfolk called from afar,
But each man born in the island broke to the matter of war.

* * * * *

But ye say:—"It will mar our comfort." Ye say:—"It will minish our trade."
Do you wait for the spattered shrapnel ere ye learn how a gun is laid?
For the low red glare to southward when the raided coast-towns burn?
(Light ye shall have on that lesson, but little time to learn.)
Will ye pitch some white pavillion; and lustily even the odds
With nets and hoops and mallets, with racquets and bats and rods?
Will the rabbit war with your foemen—the red-deer horn them for hire?
The kept cock-pheasant keep you? He is master of many a shire.
Arid, aloof, incurious, unthinking, unthanking, gelt—
Will ye loose your schools to flout them till the browbeat columns melt?
Will ye pray them or preach them or print them or ballot them back from your shore?
Will your workmen issue a mandate to bid them strike no more?

* * * * *

NO DOUBT BUT YE ARE THE PEOPLE—ABSOLUTE, STRONG, AND WISE;
WHATEVER YOUR HEART HAS DESIRED YE HAVE NOT WITHHELD FROM YOUR EYES.
ON YOUR OWN HEADS, IN YOUR OWN HANDS, THE SIN AND THE SAVING LIES!

OFFICER CAUSED TROUBLE.

Nearly Caused Crew to Desert—Andrew Welch.

There was trouble aboard the bark Andrew Welch this morning and had not Captain Harry Flint of the harbor police appeared in good time, the entire crew would have walked out of the vessel and left Captain Drew, her master, in a fix.

James Clarey the second mate of the vessel, gazed upon the wine and got red eyed. He was so badly intoxicated this morning that he could not navigate himself but he attempted to navigate the ship. He was giving all manner of orders to the crew. The men threatened to leave the vessel if the second mate was not removed. Captain Drew telephoned for Captain Harry Flint who went to the vessel and took charge of the drunken man. The crew then turned to Clarey was locked in the police station to answer to a charge of drunkenness. The vessel sails for San Francisco this afternoon.

THEY HAD EXPENSIVE FIGHT.

G. O'Hara and Kahale had a fight yesterday Judge Wilcox fined them $5 each for affray. Frank Joseph who stood on the side and urged them on, was $5 for aiding and abetting an affray.

BILIOUS COLIC.

H. Seever, a carpenter and builder of Kenton, Tenn., U. S. A., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him. The druggist sent him a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by all dealers. Benson, Smith & Co., general agents, Hawaiian Islands.

CAN'T BE BEAT.

Tremendous bargains are offered in all our shoe lines Note the prices we quote in our ad on page 4. The entire stock must go at this removal sale. Kerr & Co.

A RANGER IS NEEDED

EXPERT E. M. GRIFFITHS FINISHES HIS INSPECTION.

Water Question Lies Largely in the Hands of the Farmers Themselves.

Edward M. Griffiths of the forestry bureau, who has stopped over in Hawaii for a six weeks preliminary survey of Hawaiian forests and arboriculture, while en route to his position of assistant to Captain G. P. Ahern, 9th Infantry, now head of the Forestry Bureau in Manila, has practically completed his work here and will occupy his time before he leaves on the China in desultory inspection of Oahu forests.

He was agreeably surprised at the good condition of Hawaiian forests and would have liked to have spent considerable more time in the neighborhood of Hilo but his departure on the China is imperative. Especially loud are his praises for the work done by Eben Low for the preservation of Hawaii's trees. The forest on Tantalus he also declares to be in excellent condition and endorses the system of planting inaugurated by territorial forester Haughs, which was at first somewhat severely criticised for too close planting. Kauai will probably not be visited this trip, only the four Islands of Oahu, Hawaii, Maui and Molokai, having been taken in. This is however, as Mr. Griffith explains, merely a preliminary trip. Many recommendations will be made in the report to Washington, prominent among which will be the establishment of a forestry bureau and forestry rangers. The chief enemy, from Mr. Griffith's reasoning, which seems practically to coincide with that of the local experts, lies in the cattle being allowed to wander near the head springs of the water supplies.

Aside from the actual damage to the young trees, another factor lies in the result of their trampling the underbrush into a matted tangle which effectually prohibits the life of the young seeds. He explains the value of forests as a water preservative, showing how the undergrowth and the retarding influence of the trees themselves act as a retainer of the moisture and allow it to percolate slowly through the ground and not waterlog the top surface and then run off freely, as on treeless ground.

The preservation of the forests and the consequent conservation of the water supplies, says the expert lies mainly with the planters and farmers themselves. If cattle are allowed to graze along the unfenced edge of forest clearings the resulting injured trees rapidly form a home for insect pests. If the undergrowth is preserved the insects will be kept at bay and the entire forest found healthy as in the center of the forests.

Mr. Griffith had a long talk with Governor Dole yesterday to whom, as well as to Secretary Wilson of the Bureau of Agriculture, he will present his final report. He is now busied in gathering data and getting maps and surveys of the islands to complete his work. Considerable time has been spent with Jared Smith of the experiment station and also with Commissioner of Agriculture Wray Taylor to whom he has given valuable information and suggestions with regard to forage plants and other matters, which ideas will be scrupulously carried out by the commissioner.

Commercially the only wood estimated to be of value here by Mr. Griffith is the koa, for furniture. He has of course found examples of many species of woods growing here that would make excellent furniture timber but the quantity, as with the sandal wood, is not considerable enough to be seriously dealt with.

Certain species of pines will be sent here at the intance of Mr. Griffith for trial in this climate. He speaks most highly of the hospitality which has been extended to him throughout his stay. On Monday he makes a lengthy visit to Moanalua, where he will be piloted by E. S. Damon, and Tuesday, Wednesday and Thursday will visit the end of the Island at Waianae and the neighborhood.

On Thursday evening Mr. Griffith will give a talk on "Forestry" in the Y. M. C. A. hall at 8 o'clock. Invitations for which are being sent out freely by Wray Taylor to the Wahiawa colony and all those interested in the subject. The general public are welcome and the talk promises to be a most interesting one. Mr. Griffith, in conjunction with his wide experience in America and the timber of the temperate zone, has now become acquainted with a sub-tropical forest and the inferences and comparisons should prove both interesting and profitable from a local point of view.

The local department of Agriculture has received a book illustrated copiously with colored plates and entitled "Compilation of Noes of the Most Important Timber Tree Species of the Philippine Islands," by Captain G. P. Ahern of the Forestry bureau at Manila. Captain Ahern passed through here on his way to Manila some months ago. Wray Taylor has also received a number of specimens of lava and sulphur from the volcano which will be on exhibition in his office.

WAIALUA'S MASTER BACK.

Captain J. Irvin the master of the schooner Waialua, returned with his crew on the Ke Au Hou from Anahola this morning. The Waialua was wrecked at Anahola Sunday. Nothing new was reported from the affair. Irvin and his crew were not on the vessel at the time she went ashore. They left her anchored in the harbor and went ashore about 8 o'clock in the morning. The weather freshened during the afternoon and the waves drove the vessel ashore before they returned.

THE HOGAN SALARIES

RIAL WANTED THE UNBLEACHED AMERICAN.

He Gets $275 a Week and Expenses from The Orpheum Hui—Suit Brought for The Expenses.

The Judiciary building was full of Hogans this morning, all the members of the Hogan company having been summoned to appear before George Lucas who was commissioned to take depositions in the suit of C. A. Long against the hui that brought Hogan here. It was no light contract that the hui undertook, judging by the testimony offered. The plaintiff Long represents the claims of all the Hogans, for expenses of their trip which they claim were guaranteed but not paid.

It appeared from the testimony that the popular songwriter and comedian had received an offer from Rial of the World's Entertainers, when the latter passed through here recently of $300 a week and expenses. Rial wanted to add the unbleached American to his clever aggregation, but Hogan said he rejected the offer.

It was also stated that Hogan's contracts with the hui here is for $275 a week and expenses. The members of the hui being sued, according to Hogan agreed that he should get that much while playing at the Orpheum. Other salaries were quite large, but a few were as low as $20 a week.

REPORT OF DROWNIN

HOW SAILOR DAVIS WAS LOST OFF MALOLO.

Big Sea Which Flooded Cabin and Engine Room Thought to Have Washed Him Overboard.

Captain George Gardner sent his report from Hanalei to Henry Macfarlane this morning by the Ke Au Hou, giving accounts of the loss of Davis the sailor who was washed overboard Tuesday night about 25 miles off Kaena Point.

The vessel was proceeding under reefed mainsail and reefed jib and was making six miles an hour. There was a heavy sea running, with squally weather and frequent showers of rain. Suddenly the Malolo lurched and shipped a heavy sea which flooded her cabin and engine room.

It is thought that David was washed overboard by this wave but it was not until about five minutes after that it appeared that some body noticed he was missing. When last seen he had been sleeping, so Gardner reports, on top of the deck. The watch yelled "Man overboard." The man at the wheel put the mainsheet over the stern. Orders were given to work the engines so as to stop the boat and cruise around in search of the man, but the water which had flooded the engine prevented the engine working.

Captain Gardner hauled the jib down and kept the Malolo close up to the wind. It would have been folly to have launched a boat, he says, for the small boat could not have lived in such a sea. The Malolo stood by for half an hour however trying to get trace of the missing man but without success. The Malolo arrived at Hanalei Thursday from where the report was posted on the Ke Au Hou.

HAWAII'S PROTEST

TONIGHT'S OPPORTUNITY TO SHOW PUBLIC FEELING.

The Mass Meeting Called to Declare Against Making Molokai a National Leper Settlement.

"All good Republicans should turn out at the drill shed this evening," say the party leaders, "to show their party's opposition to the efforts of Wilcox to make Molokai a national lazaretto."

It is said now that the leper bill will probably be the only one discussed in the meeting, as the call made by the Central Committee did not mention any other. The Kohala water irrigation scheme was mentioned when the meeting was first proposed, but it was left out of the motion that was carried, to call the meeting.

The meeting tonight promises to be a brief one. The speakers will make short addresses and with the band to help it is expected that things will be kept lively all the time.

At the close of the meeting resolutions will be offered, expressing the undoubted opposition of citizens of the Territory to the leprosy bill.

FOUR-YEAR TERMS

FOUR SENATORS WHO CLAIM TO BE CHOSEN.

The Legislature did Apportion Four to Long Terms—Bill Sent to Congress Deposes Some of Them.

The proposed act of Congress to apportion Hawaiian senators for the long and short terms went forward by the steamer for the coast last night. It is desired that Delegate Wilcox shall introduce the act in Congress. One obstacle that may develop is in the fact that some of the senators claim to have been apportioned already, and claim that they are entitled to their seats.

The Legislature did not altogether fail to apportion senators, though it did the apportioning the wrong way, as it did some other things, according to some of the members. The Organic act provides for assignment to short terms, but the legislature chose to pick out men for long terms and it chose four members of the Senate for the honor. J. T. Brown, J. B. Kaohi, S. E. Kaine and William White were duly declared elected for long terms, before the joint session broke up in discord. These four Senators have the right, it is claimed, to serve for long terms, and this is one objection to the bill now proposed for Congress. The bill in question apportions the senators according to the vote they received, and would leave out some of the men whom the joint session chose.

The joint sessions were quite an interesting feature of the legislature. They ran through most of the term and fill up quite a space in the Journal of the House, with motions to adjourn. There were also motions to postpone action, motions to resolve that the session had never met and to strike everything about it from the journal, and on one occasion actual work was begun. Senators Brown, Kaohi and Kaine were chosen and Baldwin was nominated, but failed to get a majority of all the votes of both houses. The same fate befell William White, according to the Honorable Mr. President, who said that a majority of the members of both houses was not present. White appealed from the chair, however, and the chair was not sustained, whereupon the Honorable Mr. President declared that Mr. White had been duly elected. This was the end of the Joint sessions. On May 1, strenuous efforts were made to get the members together to complete the work, but they would not gather. The sergeants-at-arms tried hard, but their efforts came to little, and a motion to adjourn sine die, was carried at once, when, as reported in the Journal, "The sergeant-at-arms of the Senate reported that he had prevailed upon Mr. Kanuha of the Senate to return but that Mr. Russel, of the Senate, defied his authority, and threatened to shoot him if he used force."

Delegate Wilcox is said to be opposed to the bill to apportion senators in Congress, as the Home Rulers would lose some of the men they succeeded in choosing. The fact that such men were elected may be used against the bill, as the Organic act gives the Hawaiian legislature the power to do the apportioning, and it is claimed that its action should stand as far as it was taken.

TUG ROVER TO BE CLEANED.

The tug Rover arrived this morning from Hilo to undergo a cleaning on the marine railway. Captain Carson says his vessel was passed by the Federal inspectors at Hilo and given a license. She will be in port several days.

COMPANY WELL MANAGED.

Am. bark. Alden Besse, Kessel, for San Francisco, in morning.

Monday, February 10.

Stmr. Noeau, Pederson, for Honokaa and Kukuihaele at 3 p. m.

PASSENGERS.

Arriving.

Per stmr. Ke Au Hou, February 8, from Hanamaulu and Anahola.—W. J. England, J. Schulmeister, T. S. Canbern, Capt. J. Irvin and wife, H. Rathke, and 6 deck.

Per Nippon Maru, February 7, from the Orient, for San Francisco: Franz Braimsch, Otto Brockmann, Mrs. F. W. French, F. M. Knobel, C. Miller, R. E. Purvis, Rev. George Schneider, George H. Nisbet, A. Schiele, Alexander Tison, Mrs. Alexander Tison, Rev. Dr. Tsike, Lieut.-Col. Van Der Wedden, William Wolff, V. Shirkoff.

YACHTING.

The following measurements of the third class yachts have been made: Vi-ke, 18.41 feet; Skip, 17.28; Columbia, 16.78 (racing length); Princess, 16.78; Malihini, 16.34; Pirate, 15.40; Myrtle, 13.95. The Kahuna (Shamrock III), Hihimanu and Oio of this class have yet to be measured.

The rules and regulations as regards flags and other details will be strictly adhered to in the forthcoming trials for the Port Captain's cup. Breach of rules will lead to disqualification. Frank Halstead, Edgar Halstead, A. Lewis and R. G. Holt have been appointed regular members of the club with W. R. Castle as honorary member.

KOBE SHIPPING.

Last year 446 British steamers entered Kobe and 7 sailing vessels, against 460 steamers and 16 sailing vessels in 1900. The total for 1901 is thus 456 vessels against 479 for 1900. Thought the number of vessels shows a decrease, the aggregate tonnage shows an increase. Thus the tonnage of the steamers in 1901 reached 1,099 783 and of sailing vessels 17,697, a total of 1,217,339, while in 1900 the tonnage of steamers amounted to 1,174,676 and of sailing vessels to 34,696, a total of 1,209,372.—Japan Gazette.

THERE IS NO "YELLOW PERIL"

F. M. Knobel, Minister of the Netherlands at Peking was a through passenger on the Nippon Maru returning home from his post of duty. Speaking of the Chinese as a race he said:

"I do not believe in the 'yellow peril.' It is the experience of the East that with wider opportunities the Chinese readily take on greater appetites. Thus, when they find that they can earn more, they spend more, and then comes a demand for higher wages, so that the result is a working population which has greater needs and will consume more. Then, too, the Chinese lends himself to luxuries and is the most lordly spender of his money in the world. This means, if it means anything, that there could not long be any fighting competition. I have not studied the situation in the United States, and the fact that the workmen of your country are the most liberally paid of any artisans in the world, would make comparisons there impossible, but it would appear that the result of permitting Chinese laborers to enter the country would be to benefit the country at large. Chinese workmen are of the very best class. They are diligent and careful, and where they do not have the management of business for others are successful. They are able to learn rapidly and we could not get along without them in Java, where we have a large colony.

"There the Chinese have been for generations, so that they have become our citizens. There are field coolies who are taken there under contract to work in the tobacco fields, but there is also a class which has married with the Javanese, and whose only country is that in which they live. They seldom go back to China.

"China is not a nation, but a race. It would be as incorrect to call the peoples of Europe a nation as to apply the term to China. There is more difference between the residents of adjoining provinces than between the people of Italy and Switzerland, or between the French and the Belgians. Because of these differences I am not led to fear that there will be any great danger of China as a political factor. From the outlook the end of China will be as an interior country, perhaps under more than one ruler, while the sea coast is held by several great powers."

BURGHERS FIGHT BOERS.

PRETORIA, January 25.—Lord Kitchener has authorized General Vilomel, surrendered burgher, to raise an additional Boer corps of 1500 men. General Vilomel has written a letter to ex-President Steyn warning the latter of his intention to form such a corps, and adding that the Boers in the concentration camps are tired of the useless struggle and are determined to help the British end it.

AUSTRIA AND RUSSIA.

VIENNA, January 26.—The announcement that the heir presumptive to the Austrian throne, will go to St. Petersburg February 2 to present himself to the Czar in his new capacity of a general of Russian cavalry is much commented upon in the light of the alleged weakening of the triple alliance, which, it is supposed, led to Prince Henry's approaching visit to the United States, and to the idea of a rapprochement between Russia and Austria as a counter demonstration to Germany's action.

SAFETY APPLIANCES

THEIR EFFECT IN RAILROAD OPERATION.

What the Inter-State Commerce Commission Has to Say on the Subject. Hazard Greatly Decreased.

The Inter-State Commerce commission in its annual report has the following to say regarding the use of safety appliances on railroads:

The safety-appliance law became fully effective on August 1, 1900, and the beneficent results of its operation are now being realized. The greatly increased security to life and limb by which the men on freight trains and in freight yards now perform their work is now apparent on every hand. Evidence of the improved conditions resulting from the practically universal use of automatic couplers on freight cars appears in the records of accidents and in the testimony of railroad officials and employes. Further proof from a financial standpoint is also found in the records of the railway claim departments, as well as in those of the several trainmen's associations.

This gratifying state of affairs is due to the Federal statute, the railroad company's united action, and the efficient performance of their duties by the inspectors employed by the Commission. These inspectors, who are competent men of long experience in car and train work, have taken note of all features of operation, improvements, and repairs which seem to be germane to the work in which they are engaged, and this has proven satisfactory to the railroad presidents and managers, and has resulted in establishing amicable relations with the employes. The various railroad technical associations, including the American Railway Association and the Master Car Builders' Association, have contributed in marked degree to the success of the law.

The report then shows that for the year ending June 30, 1901, the number of employes killed in coupling accidents was less than in the preceding year by about 35 per cent, and the number injured was less by about 52 per cent. Attention is called to the form of accident reports promulgated by the Commission under the accident law of March 3, 1901, under which precise definitions are given for the purpose of these reports to the words "killed" and "injured" and that this has resulted in a uniform system of reporting. According to the accident returns for the month of July, only 4 employes were killed during that month while coupling and uncoupling cars. This warrants the expectation that casualties due to this case will be less for 1902 than for 1901. For the full year ending June 30, 1902, the number killed in coupling accidents averaged 2½ per month.

A RUNAWAY HACK.

A runaway hack caused quite a little consternation on the street yesterday. The horse and vehicle, without a driver, came up Fort street at a furious rate, around and along Hotel, up Richards to Beretania then to Punchbowl where the animal swerved again and went sea wards. No damage seems to have been done and nobody hurt.

NOVEL ADVERTISEMENT.

The management of the Santa Fe system has decided to establish at Albuquerque a large archaeological and ethnological museum. The purpose of the venture is largely advertising, as it is with a view of providing a novel attraction at that place. The museum building will be 120 by 40 feet, and will contain a collection to begin with which will be valued at between $100,000 and $150,000. For two or three years the officials of the company have had agents all over the world making collections for the museum, and one of the agents purchased for $10,000 a collection of Alaskan Indian relics at Seattle. The collections will be largely from the ruins of New Mexico and Arizona, but will include exhibits from Africa, New Zealand, Borneo, Australia, Hawaii, and, in fact, almost every country on the globe. It is expected that the institution will attract many visitors.

RISTORI HONORED.

The eightieth birthday anniversary of the Marquise del Grillo (Adelaide Ristori) is being made the occasion for many celebrations. King Victor Emmanuel, accompanied by a numerous suit, visited and felicitated the actress, who held a kind of court, the Mayors and other dignitaries of a number of towns paying their respects to her. Queen Helena sent the Marquise a present and she received many congratulatory tele grams from monarchs and other distinguished personages of various countries. At the command of Emperor William, the German Embassador Count von Wedel, congratulated the Marquise upon the eightieth anniversary of her birth, expressed the regret of the Emperor at not being personally acquainted with the actress and presented to her a beautiful basket of flowers.

A NEW OBSERVATORY.

The Meteorological Observatory planned by H. I. H. Prince Yamashina will be established on the summit of Mount Tsukuba and necessary apparatus was installed, by Mr. Iguchi, an expert of the Central Meteorological Observatory. Four days later the whole scenery of the summit was photographed. The thermometer recorded fifteen degrees below the freezing point. It is reported that the gross amount of funds required for the establishment of the meteorological observatory aggregates about Y. 50,000 and that the amount of expenditure to be defrayed annually for it is fixed at about Y. 3,000.—Japan Gazette.

OUTLOOK IN HAYTI.

People familiar with Haytian affairs would not be surprised if trouble occurred in the "black republic" next May. President Sam has an active competitor for the chief magistracy in Callisthenes Fouchard, now living at Kingston, Jamaica, and practically an exile. Fouchard is a banker, and was formerly minister of finance under President Sam. As the result of alleged intrigues against Sam, Fouchard left the islands. It is asserted that in Jamaica he is carrying on intrigues to win the support of the Haytian army with the view to the ultimate violent depellation of President Sam.

President Sam's adherents say his term will not end until May, 1902. The adherents of Fouchard say that under the constitution he should retire on May 15 next and they deny his right to name his successor. Registration for the general election for deputies in Hayti is in progress, and the Fouchardites accuse president Sam of all sorts of illegal practices to control the vote. President Sam is also accused of various acts of cruelty and oppression toward the adherents of Fouchard.—New York Sun.

FRANK L. HOCKS .....Manager.

SATURDAY, FEBRUARY 8, 1902.

THE MEETING.

The Republican meeting of tonight will be a most important one. It will put the party, and it will put the mass of the people upon record as utterly adverse to the infamous bill of Delegate Wilcox. There will be no dallying about the matter, it will come straight from the shoulder and will have its influence in Washington very adversely to Delegate Wilcox. The Delegate seems to have lost his head somewhat, if he ever had any, for he is putting in bills without any reference to even his own party, let alone for the benefit of those who have to work and support the country.

The measure for making these Islands a National Lazaretto, the Lazar House of the Pacific Ocean, was an idea which might have entered the mind of a man who had never been on the Islands, who had never known our seakissed coasts, fringed with vegetation, with the blue sky over head, the beneficent, health giving trade winds, the exuberant soil and everything that makes life worth living. But that such a measure should have been proposed by a son of the soil, that he who had an opportunity to help his fellow countrymen should have been led off to propose that these beautiful isles should become the pest house of seventy-eight millions of people, seems almost inconceivable, except that Robert Wilcox has always been doing the inconceivable.

The consensus of opinion at the meeting tonight will be a revelation to anyone who has been thinking that our people are anxious and willing to turn our Islands into the Leper Hospital of the New World. The speakers will denounce the idea in no uncertain tones. It will be denounced as a crime upon an unoffending people. True we have the disease of leprosy among us. But we are not singular in this. Almost every state in the Union has lepers, some more, some less. Every country in Europe has lepers within its borders. Asiatic countries simply reek with leprosy. Why should we, of these lovely Isles of the sea, be made the dumping ground for the rotting filth of every State and Territory of the Union, and probably of Europe, for there would be an incentive for Europeans to get over into the United States for the purpose being shipped to the New World's Lazar House.

As has been said in these columns again and again, the sides upon which this question can be attacked are almost endless. To a certain extent our own good heartedness is to blame. There is not a settlement of the kind which was established by the government of Kamehameha V on Molokai which has had more money spent upon it, which has had more care and thought and hard work expended upon it, than that one. Managed as it has been, improved as it has been, it has naturally attracted a very large amount of attention, and the place has been written up and talked about, and lectured about and photographed, till a considerable number of people only know the Hawaiian Islands as through this, to them, most interesting and most philanthropic settlement. Our hard work and our lavishly expended money upon the settlement has practically been used against us.

Who knows how many lepers are in Louisiana. We do know that there are many, but no one can tell how many. In Louisiana leprosy is practically kept a secret. It is true, every one knows it is there, but it is kept as carefully hidden as the traditional family skeleton. We, on the other hand, have come right out and faced our issue like men and we have to meet the issue still. But while we have to face what are our own ills, there is no reason why we should face the ills of others. If we have one burden upon our shoulders, why should we have the burdens of others thrust upon us. Why should we be made the garbage heap of the new world.

What we have to meet of our own, we have always been able to meet, and not that but to meet and to overcome. There is a manliness and a determination about the men who have come so far West and who have held the outlying fort of Anglo-Saxon civilization against Orientalism which is a marked characteristic. But what any man who thinks must deprecate is the saddling us with what other States and Territories hardly dare face themselves. Hawaii has come into the galaxy of States and Territories, robed in spotless white and wreathed in charming flower leis. This is Hawaii's prettiest attribute. And then a wretched little boy of Hawaii's own blood, proceeds to squirt mud upon her spotless garments and to try to bedraggle her sweet scented leis. It is not a pretty picture which Home Rule Delegate Wilcox makes, and the Republican party intends to make its protest tonight that the Hawaiian garment shall remain clean, and the leis shall still retain their bloom. No national Lazar house for Hawaii.

CHINESE HUMOR.

The humorousness of the Chinese is seldom dwelt upon. Indeed we look upon the Oriental as entirely devoid of humor, but he is not, though it is a humor which the burly Anglo-Saxon does not understand. The humor of the Asiatic is set forth with great skill in Kipling's "Kim," and one only needs to have an intimate knowledge of our Chinese fellow citizens to know how they appreciate humor.

But it is not only the ordinary Chinese or the ordinary Oriental who can be humorous and frolicsome. Her Majesty the Empress Dowager can, through her nephew the Emperor, be very humorous indeed as the following document shows. The Chinese Imperial edict says:

"The development of men's talents is certainly at the present time in urgent importance. Some time since it was proposed by the provincial authorities of Kiang-nan, Hupeh, and Szechuen to select and send students abroad to travel and study—an excellent suggestion.

"Let the viceroys and governors of the various provinces all act in accordance with it and exert themselves to select students of mental gifts, upright character, literary talents, and a general knowledge of affairs, who shall go abroad to thoroughly educate themselves, particularly in the specialized branches of industrial science. Let them acquire a thorough mastery of some profession, and genuinely exert themselves in the pursuit of knowledge.

"When their education shall have been completed and they shall have obtained their diplomas and returned to China, let the viceroys and governors and literary chancellors of the provinces concerned at once divide them into classes, according to the courses of study which they may have pursued, and examine them. If their knowledge shall really correspond with the statements made in their diplomas, the authorities mentioned shall issue a document certifying the same, and send it with the student to the Board of Foreign Affairs, who, after further examination, shall select the most worthy and memorialize us, requesting honors to be conferred on them. As to the expenses attendant upon such travel and study, let each province arrange some satisfactory method of paying the same and it will be permitted to enter the item under the head of Government expenditure.

"Should any person go abroad to study at his own expense, let the viceroy and governor of his province at once report the fact to the Chinese minister in the country to be visited, that he may look after such students as occasion may require. If he shall complete his course of study and obtain a first-class diploma, on his return to China he shall be permitted to enter the examinations on the same terms as the students which have been sent abroad by the Government. Afterwards, they will await an imperial decree bestowing upon them, according to their attainments, the degrees of doctor and master of arts, that they may be prepared for official employment and to encourage the pursuit of learning.

"Let this edict be published abroad for general information. Respect this."

Could anything be funnier than the dyed in the wool Chinese "viceroy, governor or literary chancellor" examining a a University student from Harvard, Yale, Michigan, Oxford, Cambridge, Leipsic or Heidelberg upon his knowledge of the higher sciences, or even upon his knowledge of the mere ordinary branches of Western education. Such a farce could only be imagined by a Dean Swift, and was to some extent foreshadowed in his voyage to Laputa, but how infinitely funnier he might have made his story had he lived to see this Chinese document.

And it is with this kind of stuff that the whole Western world is bamboozled from monarch to missionary. Meanwhile the wiley celestial laughs in his sleeve.

Sleeping in box cars will not be as popular as it has been, when it means six months' work at the quarries. Judge Wilcox is making it quite interesting for tramps.

The United States Senate can furnish lively scenes as witness the bout between Senators Spooner and Tillmann.

Again there come Boer peace rumors which are repudiated by the Boer leaders who are living in luxury in Europe. The Boer generals seem gradually falling into the hands of the British, and a collapse of the guerrilla warfare looks as if it were at hand.

The question of sore headed chickens was investigated before the present investigators were born, and no definite result were reached. It is to be hoped that the recent investigations may bring results which will prove thoroughly satisfactory. One can give the Agricultural Department this praise, that it honestly tries to learn and then to disseminate its knowledge, whether the knowledge when acquired is valuable, or whether the study has been carried on, on proper lines is an entirely different matter.

The Wilcox education bill bears the usual ear marks. All the Delegate desires is to put in bills in order that his dupes down here should be led to thinking that he was doing some work. He does no work. This education bill is taken from some Eastern State, and has not even a semblance of adaptation to Hawaiian conditions. It is no use analyzing such a document. One is almost tempted to hope that a few such bills would be passed and then the voters would begin to understand why responsible and able men should be elected.

The Chinese gentlemen of the city entertained lavishly as usual on their New Year celebration, and the Caucasian who never sees a Chinaman from one year's end to another, duly visited and filled up on chicken and champagne. It is a matter of interest to see those who accept the Chinese hospitality. There are of course those who being engaged in business relations or official relations are in duty bound to pay their respects, but there are those who only look upon the entertainment as a "dead easy" way of getting a free lunch and plenty of booze. However matters in this direction and not nearly as bad as they were twenty-five or thirty years ago.

Jewel Stoves.

Jewel Stoves are made from the higher grades of iron, selected and chemically tested before melted.

Test bars of each day's melt are made to insure uniform strength of casting, and a most rigid inspection of work insures perfectly smooth and properly made castings.

No stoves are sent out from the factory until they are thoroughly fire tested.

We are not in business for a day, but to build up what will be a continuous business for ages to come, therefore we cannot afford to sell any stoves, bearing our name, which will not last for a great many years, and work as stoves should.

In our house furnishing goods department, you will see samples of thirty-five different Jewel stoves and ranges, from the little four hole wood cook stove, up to the large hotel range.

They are all made from the same material, and are constructed under the very latest principles of economy, durability and beauty.

We can show you hundreds of testimonials from customers.

If you require a range or stove, with hot water coil, to be connected to your boiler, we have competent help, and can do satisfactory work, under a very nominal charge.

Do not wait until your old stove is completely worn out and worthless.

We may be able to save you a few dollars by taking it off your hands now, and supplying you in place with one of our celebrated Jewel stoves.

If you feel that you cannot afford to pay cash, we will make the terms very easy for you.

We deliver our goods to all parts of the city and suburbs. Deliveries to Manoa Valley, Moanalua, and Diamond Head are made every other day.

Call on us and be convinced.

BOATS WEATHERBOUND.

Noeau and Ke Au Hou Return to Port Today.

Weatherbound steamers arrived this morning from Kauai and Hawaii ports. The Ke Au Hou came in from the former island and the Noeau from Hamakua. The Ke Au Hou left here last Monday, went to Kilauae and Anahola but found the weather too rough and had to go to Hanalei and remain until Thursday. From there, the vessel went to Anahola where 3725 bags of sugar were loaded in 3 hours and 15 minutes. The weather was terribly rough and during the trip some fruit was washed off the upper deck of the steamer.

The Noeau had a terrible time off the Hamakua coast. She arrived off Kukuihaele Monday but the weather was so rough that she could not discharge and for that day and the following day she laid at Waipio gulch. On Wednesday morning, she went to Kukuihaele and unloaded a portion of her freight but parted the head buoy and had to return to Waipio gulch. On Thursday morning, the steamer went to Honokaa and unloaded a small part of freight. One boat was damaged. It was too rough to get more than 640 bags of sugar at Kukuihaele, the next day so the vessel returned to Honolulu.

There are two Emile Zolas in France. One of them is an inventor and does not lack ability in the art of advertising himself and in his inventions. In a Paris newspaper this notice has appeared: "M Emile Zola, of Plamhoeuf, inventor of the spring nippers, notifies the public that he has nothing to do with his namesake, Emile Zola, the writer."

MORE LIGHT, LESS EXPENSE,

Can be obtained by using our old reliable M. & M. Arc Portable Lamps for Stores, Street Lighting, Churches, Halls, and in fact, any place where you want light of 500 Candle-power.

One M. & M. Arc Lamp gives more light than one electric Arc Light at cost of only one-half cent per hour.

This lamp is sold on trial subject to perfect satisfaction; is fully guaranteed for one year; over 30,000 in actual commercial use in the U. S. today.

If you want MORE LIGHT, do a little figuring. Note how many hours your burn your Gas, or Electric Lights, then figure cost of our Gasoline Arc Lamps, which are ABSOLUTELY non-explosive. They meet in every way the requirements of the National Board of Fire Underwriters. You will be astonished at the CUT IN YOUR LIGHT BILLS, and you will be MORE astonished at the INCREASE of your light.

Don't turn us down because you have had some other lamp that did not work satisfactorily, but GIVE US A TRIAL: if not perfectly satisfactory it COSTS YOU NOTHING TO FIND IT OUT. Write for particulars. Agents wanted for all unoccupied territory.

It is doubtful whether a man of General Kitchener's practical turn of mind puts much faith in poetry.—Washington Star.

The Bulgarians may eventually be grateful if they are not compelled to buy Miss Stone a ticket to New York.—Washington Star.

FIRST COTILLION.

The first cotillion of the season will be given Tuesday evening at Progress Hall by Mrs. Mae Gunn. Four new figures will be given under the leadership of Miss Gertrude Bates and Lieutenant Hancock. The patronesses are Mrs. S. B. Dole, Mrs. F. M. Hatch, Mrs. F. M. Swanzy, Mrs. B. F. Dillingham, Mrs. S. M. Damon and Mrs. H. R. Macfarlane.

BIG CARS.

John A. Hughes, master car builder for the Oahu Railway Company, is building forty cars for the road each with a capacity of thirty tons. The cars themselves will each weigh about nine tons. These are the largest cars ever built for a narrow gauge road. The experience of the Oahu road has been in favor of large cars it having been found that the proportion of dead weight to cargo carried is thereby decreased.

WILL NOT SPEAK.

A. G. M. Robertson states that his name was used without authority as one of the speakers at the Republican mass meeting to be held tonight in the drill shed. Robertson was attorney for the Jones hui that was seeking a Kohala water franchise recently, and says that on that account he would not take part in any meeting at which the other plan is being discussed.

MORTGAGEES NOTICE OF INTENTION TO FORECLOSE MORTGAGE AND OF SALE.

Pursuant to Mortgagee's notice of Intention to foreclose mortgage and of sale heretofore published in the matter of Dibble K. Ilae to J. Alfred Magoon, dated April 10th A. D. 1901 recorded at the Register Office, Oahu, in Liber 192, pages 124 and 125, which sale was on the 11th day of January 1902 postponed to the 10th day of February 1902. Notice is hereby given that I shall sell the property described in said mortgage at public auction, at the sale rooms of Will E. Fisher, Honolulu, on Monday the 10th day of February A. D. 1902 at 12 o'clock m. of said day said property being described as follows:

First. All the right, title and interest of said Dibble K. Ilae in and to the lands and premises situate at Aala, described in Royal Patent 1758, Land Commission Award 980.

GOT QUICK DISPATCH

NIPPON MARU STAYED BUT SEVEN HOURS.

Captain Greene Expects to Get Into San Francisco Two Days Ahead of Schedule Time.

The Nippon Maru arrived from the Orient yesterday afternoon with the smallest amount of freight that has been brought here in many months. She had only 337 tons. The vessel experienced very nasty weather during her trip. Captain Greene would have made port earlier in the day but for the heavy swell which prevailed. Second Officer D. Mori is acting as first officer as Mr. Smith is being held on waiting orders in Japan.

Among the through passengers for San Francisco was William Wolff president of Castle Brothers. Wolff and Son of Manila. He has been at the Philippines looking after the interests of his house.

Lieutenant Colonel Vander Wedder is an officer in the Dutch army who is returning from service in Java.

F. M. Knobel who is a through passenger was the Minister at Peking for the Netherlands and was in Peking during the Boxer siege. This is his first relief from the irksome labor of representing his country in China.

V. Shirkoff and George H. Nisbet are mining engineers who were in Vladivostock. They had quite an exciting experience, incidental to catching the Nippon. They took steamer from Vladivostock to Kobe, the intention being to catch the Nippon at the latter port. To their consternation, they found that the vessel had left Kobe for Yokohama. They took train overland from Kobe and reached Yokohama just as the Nippon was getting under way for Honolulu. The men got into a shore boat and were rowed after the steamer. One of them wildly waved a satchel and shouted at the top of his voice to attract the attention of the officers of the Nippon. Captain Greene heard the noise, saw the satchel and thought that there must be important documents in the valise, so he stopped the steamer and the engineers got aboard.

The vessel left Hong Kong January 18 and Yokohama January 29. She left here last night at 10 o'clock for San Francisco after taking 100 tons of coal. It is intended to get into port two days ahead of time. She had no lay over cabin passengers for Honolulu although a number of Japanese came. No one departed on her.

Mist, wife, child and maid Mrs. Koli and daughter, D. R. Vida and 82 deck passengers.

HENDRY ON KAUAI.

United States Marshal E. R. Hendry left last night for Kauai on official business.

ORIENTAL COMMERCE.

The Austrian Consul at Yokohama reports that the number of European and American firms established in Japan is decreasing. At Yokohama in 1899 there were 303, while in 1900 there were only 248. The number of Japanese merchants in China and Korea is increasing As soon as things in China return to their normal state it is expected that a large contingent of Japanese merchants will proceed thither and carry on a keen competition with foreigners. In Korea they have already made all competition impossible. The report points out that Japan is thus becoming more and more particularly in the Asiatic continent, an important commercial factor which ought not to be underestimated.

RHODE'S SCHEME.

Cecil Rhodes, in a long letter to the Daily Telegraph, advocates the settlement of large numbers of suitable British subjects on land among the Boers as the only safe means of eradicating race hatred in South Africa. He contends that if the Britishers confine their attention to mining districts and the towns it is impossible for the race difficulty to be solved.

A MEMORIAL SUGGESTION.

Why should not the McKinley memorial take some more apt and disposable shape than a statue? There is no design preferable for a monument to that of the exedra, as exemplified by the Shaw memorial or that to Richard Morris Hunt on the wall of Central park, New York city. An excellent place for an exedra would be found in the grounds of the high school, perhaps independently disposed, or in connection with the building itself. The placing would be a problem for architects, but one not offering any notable difficulties. The exedra should, of course, be of such proportions as to assume a proper importance in its situation, and it should have in the center a medallion bust in alto relievo, with fit inscriptions on either wing of the structure.—Springfield Republican.

TO CURE CONSUMPTION.

Sir Ernest Cassel, whose gift of £200,000 ($1,000,000) has enabled the King to make another move in the campaign against consumption, is a well-known merchant. He is just 50 years of age.

Sir Ernest, who has been prominent in various works of philanthropy, received his knighthood three years ago. He is a sportsman and has a house in the Melton Mowbray country as well as in Grosvenor square, London. Sir Ernest's munificent gift has naturally suggested the question whether benevolence will not be moved to give an equally handsome endowment for the treatment of cancer.

DRAWING RULED OUT

CAMPBELL'S SHOWING OF A BULLET'S COURSE.

William Davis' Motion for a New Trial and the Bullet That Described a Curve.

McCants Stewart came into court this morning prepared to prove to Judge Gear that a bullet goes straight and cannot describe a curve, after leaving the muzzle of a revolver. He had affidavits and a drawing to show how true the important fact was and didn't propose to leave any doubt in the court's mind, but the court ruled out all the evidence. The particular bullet which Stewart wanted to show went straight was the one with which William Davis was convicted of wounding a Chinese some months ago, in Ewa.

When the motion for a new trial in the case of Davis, who was sentenced to two years, was heard in Judge Gear's court this morning, Stewart offered a drawing which he posted up before the judge's eyes. The drawing was by Assistant Superintendent of Public Works Marston Campbell. It represented a man on horseback and a man in a cart ahead of him. The man on the horse was shooting at the other man, as Davis is alleged to have shot at the Chinese on an Ewa road, and the course of the bullet was shown. It was claimed that the diagram and affidavits showed that the jury's conclusion in the case was an impossible one, requiring the bullet to describe a curve, or turn a corner.

When the carefully prepared sketch, with an affidavit of Campbell's stating that he was a civil engineer and competent to calculate the course of bullets and other missiles, was offered in evidence, however, Assistant Attorney General Douthitt objected, on the ground that Stewart was offering evidence that did not go to the jury. After a lot of argument the court sustained the objection, and the picture-making went for nothing.

It was divorce day in Judge Humphreys' court, and the case of Virginia Da Sa vs. Francisco Da Sa was heard and decided. The plaintiff was awarded a divorce on the ground of extreme cruelty. Russel appeared for the plaintiff and Correa for the defendant.

JILTED KITCHENER.

"The girl who jilted Kitchener" is the title now added to that previously possessed by Lady Helen Stewart, the daughter of the marquis of Londonderry. Lady Helen is a beauty, and one of the most famous belles of London court society. She became engaged to Lord Kitchener of Khartoum about a year ago. Some time in the autumn following she broke her engagement to him and immediately bestowed her hand upon Lord Stavordale. The undoing of Lord Kitchener in his affairs of the heart came about, it is said, through Lady Helen's reading and seeing the awful accounts and caricatures of her lover in the French illustrated papers; from a hero in her sight he became the cruel creature that the French press represented him to be. It was said that Kitchener was a woman-hater till he met Lady Helen; he was deeply infatuated with her loveliness and courted her persistently. His rank and military achievements fascinated her and she became engaged to him. Kitchener is now 50 years of age, a tall handsome man, with broad shoulders and a frame as lean and sinewy as a greyhound's. It is said he has taken his dismissal from Lady Helen far more deeply than any defeat in war.—Leslie's Weekly.

A MONSTER STORY.

While a party of young people were skating on Pontneuf river, near Chesterfield, Idaho, a human monster suddenly sprang out of the woods upon the party. The creature showed fight, and, flourishing a large stick and giving vent to a series of yells, attacked the skaters, but it being slow of movement they regained their wagons and got away in safety.

A party of young men returned armed and got a good view of the monster warming itself by the fire they had left. The monster was at least eight feet high, covered with reddish brown hair. The face was hidden by immense bushy whiskers, and no part of the naked skin was to be seen except a small spot about the eyes. The boys concluded not to bag the game just then.

Measurements the following morning showed the tracks to measure twenty-two inches broad, with the imprint of only four toes. Stock men report having seen similar tracks along the range west of the river, but as far as known no one has ever been able to see the animal, which was trekking westward. The people, feeling unsafe while this beast is at large, have sent some twenty men on its trail to effect its capture.

PHILIPPINES EXHIBIT.

Felipe Buencamino, one of the directors of the Federal party, is endeavoring to inaugurate an exhibition of commerce to be held next December. He relies mainly upon exhibits from the United States, China, Japan, Siam and Borneo. The merchants of Manila are inclined to think that this exhibition should be delayed another year, but if sufficient support is promised the United States Philippine Commission will be asked to assist in carrying out the idea.

NEW ADVERTISEMENTS

BY AUTHORITY

SHERIFF'S SALE NOTICE.

In pursuance of an Execution issued by Lyle A. Dickey, Second District Magistrate of Honolulu, Island of Oahu, Territory of Hawaii, on the 5th day of February, A. D. 1902, in re matter of W. C. Achi, plaintiff, vs. T. C. Polikapu, John Kanui, Wm. Kaleihuia, J. Keau, D. W. Kamalikane and H. H. Kekua, partners, doing business under the name of "Ka Laea Kalaiaina," defendants, I have, on this 6th day of February, A. D. 1902, levied upon and shall expose for sale at public auction, to the highest bidders, at the Police Station, Kalakaua Hale, in Honolulu aforesaid, at 12 o'clock noon of Tuesday, the 11th day of March, A. D. 1902, all the right, title and interest of said T. C. Polikapa and J. Keau in and to the following described property, unless the judgment amounting to Two Hundred and sixty-five and 50-100 Dollars, interest, costs and my expenses are previously paid:

(1) All the right, title and interest of said T. C. Polikapa in and to that certain portion of Apana 1 of Royal Patent 4462 on Kuleana 5697 to Kukeahia, in Auwaiolimu, in said Honolulu, set forth in deed of Kaaimaia to him, recorded in Liber 66, page 398.

(2) All the right, title and interest of said T. C. Polikapa in and to that certain lot on the North corner of Pauahi and Smith streets in said Honolulu as set forth in deed of Kahookamalii, recorded in Liber 123, page 38.

(3) All the right, title and interest of J. Keau in and to that certain parcel of land in Kawaiiki, in said Honolulu, described in deed of Kikaha to Keau, recorded in Liber 21, page 92, and being a portion of premises in Royal Patent 4505, Land Commission Award 32 to Butler.

All of the above land will be sold subject to that certain mortgage made by said T. C. Polikapa et al. to W. R. Castle Tr., for $2,750.00, with interest at 10 per cent per annum, dated April 30, 187, and recorded in Liber 170, pages 246, 247 and 248.

CHAS. F. CHILLINGWORTH,
Deputy Sheriff, Territory of Hawaii.
Honolulu, Oahu.

THE HEALTHY WOMAN.

Aside from form or features, she has an attractiveness all her own. The bloom on her cheek, the elasticity in her step, the ring of her voice, her enjoyment of life—all these are magnets which draw others to her side. Wonderful and valuable as it is, health is not so difficult a thing to obtain as some discouraged ones think. Most of the troubles of women arise from impure blood, impaired nutrition, low vitality and general debility. Modern science furnishes the most successful of remedies for these conditions—namely

WAMPOLE'S PREPARATION

It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Taken before meals it improves the appetite, makes fat, restores vitality, enriches the blood and cures those weaknesses peculiar to the sex, which are the seat of their troubles. It is a blessing to Tired Wives, Nursing Mothers and Girls growing into womanhood. It colors the pale faces and rounds out the hollow chests. In a word, it nourishes and develops the entire body, and brings happy surprises to feeble, hopeless and discouraged sufferers. Dr. E. J. Boyes says: "I have found it a preparation of great merit. In a recent case a patient gained nearly twenty pounds in two months' treatment, in which it was the principal remedial agent." It is the typical medicinal success of our age, for time has proved our claims are supported by results, and a remedy which acts in harmony with nature's own efforts and processes. Effective from the first dose. "Never disappoints." Sold by chemists everywhere.

NOTICE.

Intending passengers by the S. S. "SONOMA," leaving Honolulu for San Francisco on February 11, are hereby notified that the above mentioned steamer will be given quickest possible dispatch and will not remain at this port more than six hours, day or night.

Tickets for the above sailing must be purchased at the office of the undersigned not later than Monday, February 10th. The Company will not guarantee to receive baggage after the arrival of the steamer, nor to arrange transportation after the above date.

All Run Down

No Appetite. Weak. Discouraged.

Warm climates always debilitate the nervous system. The digestion is slow, and the liver becomes sluggish. Impurities in the blood accumulate, and you go about downhearted and depressed. All this may be quickly changed with proper treatment.

Mrs. C. Kennedy, of 26 Erskine St., North Melbourne, Victoria, sends us her photograph and this letter:

"I had lost my appetite, was very weak, and all run down. Nothing did me good, and I was discouraged. I then tried

AYER'S Sarsaparilla

and it brought me right up to my usual health and strength. And I want to add a word here about Ayer's Cherry Pectoral. It has cured me of such hard coughs and colds that I feel I could not do without it. For family remedies I rely on that word, 'Ayer's.'"

Keep your bowels in good condition with Ayer's Pills. Take just enough to produce one good free movement of the bowels daily.

Prepared by Dr. J. C. Ayer Co., Lowell, Mass., U. S. A.

Guaranteed Rubber Stamps

We believe that we can make better rubber stamps than any other place in town and to back our belief, if any stamp we make is not satisfactory we will make it over and over until it is.

CLAIM WAS TARDY

BOARDMAN LOSES A $7,000 INSURANCE POLICY.

May Recover From the Fire Claims Court—Circuit Court Cases—Mrs. Irene Holloway Appeals.

The Supreme Court, by Justice Perry and Cecil Brown sitting in place of Chief Justice Frear, disqualified, yesterday rendered another decision reversing an insurance company from damages sustained in a plague fire, this time ... was on the ground that the proof of loss had not been made in time. Justice Galbraith again dissents. The decision was rendered in the case of George E. Boardman vs. the Fireman's Fund Insurance Company, the sum of $7,000 having been demanded on a policy on Boardman's residence on Kinau street. Boardman, however, may recover from the Chinatown fire commissioners.

In the lower court the jury returned a verdict for the plaintiff, though it was admitted that the proof of loss was not filed within 60 days, as required by the policy. The Supreme court holds that the lower court should have directed a verdict for the defendant, and remands the case for the entering of a judgment for defendant. Justice Galbraith holds that plaintiff did comply with the 60-day clause as far as it was possible for him to do so and that a literal compliance with this part of the policy is not necessary.

A Perry was found guilty yesterday in Gear's court of selling liquor without a license. The court imposed a fine of $250 and costs, remarking that it was time to stop the liquor joints in corner groceries all over the city, there being plenty of saloons in the liquor business.

C. B. Malle has sued W. C. Achi for a $3,000 note due upon certain Waikiki property sold to defendant. The note is secured by a mortgage which it is alleged Achi refuses to cancel or pay the money.

L. L. McCandless has brought suit against the Territory, to establish fishing rights at Wulanae, this island.

George ucas as master has filed his report upon the accounts of A. G. Cunha, executor of the estate of A. G. Cunha deceased. The total receipts were $2,025.50 and disbursements $2,845.62

An amended complaint has been filed in the case of Chee Kit vs. Lee Lung, a damage suit for $1000. The plaintiff claims defendant incited Lee Choy and Tung Chong to assault him.

Notice of appeal has been given in the matter of the guardianship of the Brown minors by Mrs. Irene Holloway. She appeals from the decision of Judge Humphreys allowing the father, C. A. Brown, to see the children.

Mrs. Hendrickson has asked that Alice F. Beard be appointed guardian of her minor children.

The McKechnie Paint and Wall Paper Company has filed mechanic's lien against Mrs. Fred Harrison for $25.

INDOOR BASEBALL MATCH.

The regular game of indoor baseball will be played in the Y. M. C. A. gymnasium at 7:30 this evening, all spectators being invited. The match will be between the Intermediates and the Evening Classes. The names of the players and their positions are as follows:

Evening Classes: Cheatham, catcher; M. Johnston, pitcher; C. Taylor, first base; J. Gorman, second base; C. Girvin, third base; W. F. Dunn, short stop; R. S. Pierson, right field; J. Templeton, left field.

Intermediates: M. Keoho, catcher; W. Kerr, pitcher; T. McGuire, first base; C. Gilliland, second base; Olaf Oss, third base; T. Evans, short stop; P. Perreira, right field; J. Schuerman, left field.

THE FOOTBALL GAME.

The Maile Ilimas and the Hackfeld-Davies teams will try conclusions in a match game of association football this afternoon at Makiki, starting off at 4:15. The struggle should be a close one. The line-up is as follows:

Maile Ilimas: Goal, J. Cummings; backs, R. Anderson, J. C. McGill; half backs, J. Anderson, J. Craik, J. Brown; forwards, E. Munro, P. M. Lansdale, J. S. Boyle, J. Bolster, C. Chamberlain.

Hackfeld-Davies: Goal, Dusenberg; backs, Ross, Beardmore; half backs, Churton, Sinclair, Guild; forwards, George Davies, Bayer, Stopp, Morse, Brett.

WILL PLAY AT BOWLS.

A bowling tournament, handicap, is announced for next week at the bowling alley. All entries, which are free, must be in by tonight when the drawing of opponents and order of play will be made. A committee of three will handicap the players and the finals will be played off next Saturday night. The prize offered is a box of cigars.

JUNIOR FOOTBALL LEAGUE.

A junior association football league has been formed for those boys under fourteen who wish to play the game. They are to give in their names to L. B. C. Renear today or Monday. The number of teams will of course depend upon the number of applicants, but six boys will compose each team, the positions being three forwards, two backs and a goal keeper. The games will be played under senior league rules and regulations, the matches to take place every Saturday immediately preceding the senior game, in two halves of twelve minutes each with a six minute interval. The winning 6 of the season will each be presented with medals. Twelve names have already been given in and as many more are expected, making up four teams. The main object is of course to provide a nursery for young football players who will be chosen from time to time to act as substitutes or fill vacancies in the senior teams besides spreading the liking for the association game locally.

POLO TODAY.

What is practically a match game at polo will be played at the Kapiolani Park this afternoon between the first and second match teams, the whites and the reds and whites. The game will have fully the interest of a regular match with the probability of the game being much keener as No. 2 team will undoubtedly strain every nerve to lower the colors of No. 1. There is not much doubt as to the result however. Between periods practice will be indulged in by other teams. There are no handicap points. The men and positions are as follows: Whites: G. C. Potter, 1; G. H. Augus, 2; W. F. Dillingham, 3; C. S. Dole back. Red and Whites: R. Atkinson, 1; Lieut. Hancock, 2; A. F. Judd, 3; J. Fleming, back. The game commences at 3:30.

NEGROS INSURRECTOS.

MANILA, January 27.—Col. Charles W. Miner of the sixth infantry reports the conditions of the island of Negros to be unsatisfactory and that 400 bolomen and 40 men armed with rifles under the command of the fanatical bandit leader Papa Isio, are terrorizing the people.

TO BUILD OR CRUSH

WHICH THE BETTER PLAN FOR NATIONS.

George F. Hoar in the Senate Last Month Eulogizes the Elevation of Japan.

The following is a part of a speech delivered by Senator Hoar in the United States Senate January 7, last:

There are truths in this world which are God's truths: there are doctrines which are doctrines of eternal righteousness and justice; and among the truths which are doctrines of eternal righteousness and justice, is the truth that no one people has a right to crush liberty out of another, and that every people has a right, under God, to establish its institutions in such form as to itself, and not to any other, shall seem most likely to effect its safety and happiness. That is true of these 10,000,000 people today. We are engaged in the unholy office of crushing out a republic, the first great republic ever established in the eastern hemisphere. If we had dealt with this people as we dealt with Cuba we should have had today a civilized, happy, peaceful republic, sending their youths to our schools, studying our laws, imitating our example, animated by a love, an affection, and a gratitude such as no one people on earth ever yet felt for any other.

Why, Mr. President, one of the great events in the history of the world is the discovery and civilization of Japan. Another, in my judgment, is the adoption of the Declaration of Independence. Last summer the people of Japan celebrated, I think it was, the 50th anniversary of taking their place among free nations, and the great citizen, Baron, whose name I shall not attempt to give from memory, who represented the Japanese government on that occasion declared that everything that Japan is she owes to the people of the United States. Just think of it! This wonderful nation taking its place amongst civilized people in a half-century, already encountering China as a superior and Russia as an equal, putting on record her declaration that she owes it all to us! Was there ever such a tribute in all history? Ah, Mr. President, that came from the application to the affairs of modern life of the great doctrine of the immortal Declaration! That is the kind of a world power I want my country to be. The elevation of Japan was the glorious fruit of the seed sown in the great Declaration. I do not believe that the character of my countrymen has so changed in a few short years that we are to wipe out or disgrace either.

PHILIPPINES AHEAD.

Will Exhibit at St. Louis Exposition. German Prince Expected.

ST. LOUIS, January 26.—President Francis of the World's Fair has received the following message from Washington:

The German Embassy states today that Prince Henry will go to St. Louis probably about March 5th.

In reply to an invitation sent by wire to Governor-General Taft, now en route to his home in Cincinnati from the Philippines, to come to St. Louis and be the guest of the exposition management the following reply was received:

OGDEN (Utah),—David R. Francis, St. Louis: Thanks, sincerely. Regret unable to visit St. Louis now. Before return hope for personal conference concerning Philippine exhibit.

WILLIAM H. TAFT.

TAFT ON PHILIPPINES.

May Create Policy of Philippine Government.

CHICAGO, January 26.—The Tribune has the following:

COLUMBUS (Neb.), January 26.—On board overland limited Union Pacific Railway. So great is the confidence of the President and Congress in the Judgment of Governor Taft, that he has been notified by telegraph that all matters concerning the future government of the Philippines will be delayed until his arrival. He received a message to that effect from Secretary Root today and he immediate replied that he would be in Washington Wednesday afternoon and would remain there as long as he could be of any assistance to the Administrationn in formulating its insular policy.

The anxiety of the Government officials at Washington for Governor Taft's advice strengthens the belief of his friends that he is to be practically the creater of the Philippine form of Government.

SCHLEY'S POPULARITY.

CHICAGO, January 26.—Rear-Admiral W. S. Schley arrived in Chicago today at 9:30 a. m., and was greeted with a tumultuous acclaim from thousands of people, who crowded the Baltimore and Ohio depot and thronged near-by streets. His reception here was the culmination of the demonstrations in his honor which have occrred all along the route from Washington.

WHY NOT HAWAII?

MONTEREY, (Mexico), January 27.—If the efforts now being made by United States Consul-General Hanna are successful $4,000,000 of Andrew Carnegie's wealth will be used in the establishment of libraries in Mexico. Of this amount one-fourth is planned to be used in the establishment of a magnificent library in Monterey. The plan contemplates the expenditure of the remaining $3,000,000 in the establishment of libraries at Chihuahua, Durango, Tampico, Torreon and San Luis Potosi. Consul-General Hanna has taken up the matter with Carnegie direct, and feels confident of success.

CHINESE NAVAL COLLEGE.

The Tien-tsin correspondent of the London Standard says that the Emperor has ordered Admiral Yeh to organize a naval college at Chefoo, and to engage Rear Admiral Lord Charles Beresford to act as naval instructor at the college.

SOMETHING THAT WILL DO YOU GOOD.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C., U. S. A.) Messenger. Sold by all dealers. Benson, Smith & Co., general agents, Hawaiian Islands.

no one ever quaffled a bumper of good ale or beer to equal the rich flavor and absolute purity of

Primo Lager

For a beverage at home and for health and muscle building there is nothing like it.

Order a trial case from Brewery.

Telephone Main 341

Who will do it?

You are going to have your house Papered, Painted or Decorated.

Who's going to do it?

No one does or can do better work than we. Investigation proves that few do as good.

All we ask for it is a fair price—not high, not low. Either extreme is dangerous.

Any one who gives us work gets the best going at the fairest and squarest price.

IN THE CITY'S CHURCHES

QUINQUAGESIMA SUNDAY.

Collect for the day.

O Lord, who hast taught us that all our doings without charity are nothing worth: Send thy Holy Ghost, and pour into our hearts that most excellent gift of charity the very bond of peace and of all virtues, without which whosoever liveth is counted dead before thee: Grant this for thine only Son Jesus Christ's sake. Amen.

Central Union Church: Rev. William M. Kincaid, pastor. Sunday school and Bible class, 9:50; public worship and sermon, 11; Y. P. S. C. E. prayer meeting, 6:30; public worship and sermon, 7:30; prayer meeting, Wednesday, 7:30; children's meeting, Friday, 2:15.

The pastor will preach morning and evening. As tomorrow is observed by the Christian world as a day of prayer for young men, the pastor speaks Sunday morning, especially to young men, subject, "Example of Christ, the Example for Young Manhood." Evening subject, "What We All Want."

DIED.

BACHELOR—In Washington, D. C., January 24, 1902, Catherine E. Bachelor, beloved mother of Frank, Louis, Charles and Henry Warren, Mrs. E. S. Douglas and Mrs. G. T. Fink, sister of Frank W. James and Joseph Dunne; aged 85 years. Interment Mountain View Cemetery, Oakland, Cal.

USING TUA-TUA.

Superintendent Reynolds of the leper settlement secured a large quantity of Tua-Tua from the Planters' Experiment station yesterday. It is to be sent to Molokai, where Dr. Oliver will use it in experiments with the supposed cure. Some private parties have been after the plant too, and it is reported that experiments are being made with it in private. Physicians caution against use of the plant, as its action is most violent and painful, and it contains a poison not yet identified.

BAND CONCERT.

The Territorial Band plays tomorrow afternoon at the Capitol Grounds. The following is the program:

PART I.

Overture—"The Road to Glory".....Kling
Entre Act—"The Gossiper".....Gille
Sacred Selection—"Providence"..Tobani
Vocal Selection, Four Hawaiian Songs.

PART II.

Grand Selection—"Il Trovatore"..Verdi
Ballad—"Sunshine and Rain" (new)
.....Blumenthal
By Request. (a) "Salome." (b) "Mosquito Parade."
Overture—"Light Cavalry".....Suppe
"Star Spangled Banner."

THE CLASSIC DRAMA

In spite of the decadence of public taste in matters theatrical in the past five years, and the consequent temptation for actors of ability to waste their talents in unworthy plays that please only for the moment, for the sake of mere pecuniary emolument, Frederick Warde has persistently clung to the legitimate drama, firm in the belief that it is but a question of time when Shakespeare and the higher dramatists will resume their place, justly regarded as the best and noblest form of dramatic entertainment. Recent events justify his faith in this regard, and it is encouraging to note that the so-called problem plays, with their thinly veiled indecency and disgusting double entendre, no longer pleases the metropolitan theatre-goers, and the so-called burlesque and extravaganza are relegated to the minor theaters and variety houses, where they justly belong. In contrast to these meretricious productions comes a grand old play, "Virginius," with its integrity of manhood, and its atmosphere of virtue and purity; with it an actor, who, by years of sound study and experience, together with thoroughly developed ability, justly stands at the head of his profession, such a combination is pleasant to contemplate, and gives assurance of complete satisfaction with the performance to be given.

AMATEUR DRAMATICS.

The Hawaiian Dramatic Society an organization of local amateurs will appear at the opera House on Tuesday, February 18 under the management of W. D. Adams. The caste has been well selected and the pieces for production bright and pleasing. They are comprised of a drama by Oliver Bainbridge entitled "The Romance of Elise"; a comedy, "Lost in the Fog" and a burlesque on "Romeo and Juliet" by Allan Dunn. The orchestra will be under the direction of Miss Jessie Teasdale.

A GOOD THING.

There's one good thing when they feel dry,
That business men cannot pass by,
For far and wide it' same you hear,
They stop to drink of "Rainier" beer
On draught or in bottle at Criterion.

The Japanese Methodists of Lahaina have just completed the construction of a church and parsonage there. The total cost was about $2,000 exclusive of the land. The church will be dedicated February 19 by Rev. George L. Pearson Presiding Elder for this district.

BERGER'S OFF NIGHT

BAND PLAYERS GO ON A STRIKE.

Orchestra at the Orpheum Consists of The Kappelmeister. Two Trombones and Two Clarionettes.

Captain Berger's band did not show up to the usual standard last night at the Orpheum theatre. In fact it was declared very poor, and the reason therefore was a strike that made the popular Kappelmeister so wrathy that he sat and sawed the violin as if it were an enemy he was cutting up.

The members of the band, with a few exceptions, declined to play for a benefit, on their night off. It was a benefit for the boat clubs, and the musicians for some reason got it into their heads that they didn't want to work. The idea was so nearly unanimous that Berger was helpless. The men went to the theatre and they stood around but they would play nary a note. Berger threatened and cajoled and said things in German, but it wouldn't work.

Before the curtain rose on the first scene Berger strode to the orchestra leader's seat and seized a violin—instead of a baton. Only four men were with him. Two had clarionettes and two had trombones. In the back of the theatre stood other members of the band, gleefully anticipating the music. Angry, but nothing daunted, Kappelmeister Berger gave the signal, and led off with his violin. The two trombones and the two clarionettes joined in, and there was music in spite of the strike.

TWO NEW POSITIONS

DEPUTY TAX COLLECTOR THOMPSON MAY LEAVE.

Likely to Serve at Ewa for a Time. Electrical Inspector Will Have An Assistant.

Two new positions in prospect in the Executive and Judiciary buildings have caused activity among several applicants for each, and members of the Republican Central committe are being buttonhoied for endorsement. An assistant to Electrical Inspector W. F. C. Hasson will probably be appointed next week, and Chief Deputy Thompson, in the tax collector's office, may be transferred to Ewa, leaving room for another man in Pratt's office.

The tax collector is considering transferring Thompson to Ewa to open a new office and take charge of that district, but this would not necessitate the resignation of Thompson, or any change in his official position. He is deputy for Oahu, and can serve at Ewa as well as at Honolulu.

Ewa district has greatly increased in value and is a very large district, and it is thought that there is too much work theref or one man to handle. For this reson the transfer of Thompson is being considred. It would probably be only temporary.

The news that Thompson was to be transferred caused a number of men who would like to get a place in the tax office to begin working wires, and it was reported about town that Thompson was withdrawing altogether. If he goes to Ewa, another man will probably be given a place to keep up the force here.

Hasson's assistant will probably be appointed Monday. The electrical inspector said today that he had received a number of applications.

KINAU FROM HILO.

The Kinau arrived from Hilo and way ports at 12:45 today. She had a small list of freight as the weather was very rough during the trip. On the up trip, the weather was the roughest known in a long time Judge Little was a passenger for Honolulu.

KAAE'S OLD CLAIM.

Junis Kaae's suit to set aside an old will, of the year 1885, and claiming title for heirs-at-law of that day to property which includes most of the city of Honolulu, will soon be filed by T. McCants Stewart. It is estimated that the property is worth $50,000,000. The alleged titles include all the property bounded by Nuuanu stream to Pacific Heights, to the Lunalilo Home and from thence directly makai to the sea shore.

A Great Sale of Oriental Rugs

A large importer has consigned to us a quantity of rich Oriental Rugs, with instructions to sell them at Eastern prices.

In compliance, we shall on Monday, February 10th and during the week following, offer the people of Honolulu an opportunity to purchase rare and beautiful rugs at prices as low as could be secured by going to New York.

Those familiar with fine rugs will recognize the India, Cashmere, Feregh-han, Kerman, Guendjis, Karabagh, Daghestan, Kheva and Bokhara as high class goods.

The sizes are: 15x10, 12x9, 12x8, 11x8, 10x7, 10x5, 9x6, 8x5, 7x4, 6x3, 3x4 and 4x3.

There are also about 30 samples of 26x63 inch American made Smyrna and Moquette rugs, which will be included in the sale at very low prices.
