A (~~Native Affairs~~ (Rehabilitation)) 1 March 47 Palau Dist.
1 (Rehabilitation)

(a) USNMGU assistance was given to the natives by permission granted to continue the salvage of former Japanese materials which are rapidly deteriorating. A limited amount of materials were made available on Angaur and Peleliu to the natives and missionaries for building churches and schools.
(b) Repairs continued on the Koror school and some school supplies were distributed from salvage on Peleliu.
(c) Permission was granted to Pastor Fey, missionary, to salvage some buildings on Repeliu and to transport them to Koror for the construction of a church and school. This will be done by native labor at no cost to Military Government.
(d) The construction of the Palau Market and Koror store is progressing satisfactorily. The loan of a cement mixer was made the last of February. An Abai (community house) is nearing completion in Airai.
(e) The homes on Koror are being rebuilt with materials as follows: the lumber is mostly coming from the Babelthuap sawmills; salvaged roofing tin from former houses, and some previously salvaged building material from Angaur.
