(a) Five males and two females arrived from the BONIN Islands for special training. Since they arrived with no money and only the clothing on their backs, Military Government issued them each a two week's supply of food, and 3 sets of working clothes. The Native Welfare Society loaned each one $20.00, and donated a total of four cases of canned food. No further gratuitous issues will be made to this group since they will receive their first pay in two weeks.

(b) The Native Welfare Society also issued the following food to needy persons:

Japanese Rice	250 lbs.
Japanese Bircuits	15 cans
Apples	1 case

The Welfare Society received donations of $50.00, spent $10.00 leaving a balance of $824.85 in their treasury.
