PLOT TO KILL JAPAN'S RULER

CHANGING STATUS OF THE HAWAII ARMY POSTS

ONE HEAD FOR ARMY IN HAWAII

(Associated Press Cable to The Star.)

WASHINGTON, D. C., September 21—General Leonard Wood as head of the army, has made a recommendation to President Taft that the four military posts in Hawaii be placed under one command. This is a step in the direction of constituting a Department of Hawaii and taking the territory's military organization out of the Department of California, of which it is now a part.

THE "DEADLY PARALLEL" ON BRYAN, M'CANDLESS & THE DEMOCRATIC PLATFORM

C. R. Buckland, of the Republican campaign publicity bureau, is the author of the following interesting "deadly parallels" on the subject of Link McCandless and the Democratic platform:

Greatest Living Democrat.

(From McCandless' 1910 Democratic platform.)

During the growth of our great Nation the Democratic party has kept the faith of the founders of the Republic. No greater eulogy can be pronounced upon that noble band of men who gathered in council at Denver than reference totheir work and the nomination for President of the greatest living Democrat—William Jennings Bryan.

How He Bolted The Party.

(From Associated Press Dispatch.)

LINCOLN, Nebraska, September 21.—William Jennings Bryan yesterday bolted the Democratic party of his State, announcing in an authorized interview that he would not support Dahlman, the Democratic nominee for governor of Nebraska. Mr. Bryan bases his objection to Dahlman on the fact that the latter is not in favor of local option or prohibition.

LAND FOR HOMESTEADS.

Varied Views of the Democratic Candidate for Delegate.

(From the McCandless 1910 Platform of the Democratic Party.)

Third—"In laying out any homestead the commissioner of public lands shall include therein an amount, not exceeding eighty acres in area, sufficient to support thereon an ordinary family."

(From McCandless' Statement before Committee on Territories, on December 9, 1909.)

Mr McCandless. For instance, I will take the sugar lands. The best sugar lands, I think 10 acres would be enough for a homestead—first-class sugar lands. I think 10 acres would be ample. Then I would say of lands of the second-class may be 20 acres would be enough.

KAANOI BOUND OVER.

Charles Kaanoi, who is charged with having forged the signature of Makalena to a money order for $50, was before United States Commissioner Judd yesterday afternoon.

District Attorney Breckons appeared to prosecute, and Judge Stanley to defend. Both complainant and defendant denied that they had signed the money order. Kaanoi was bound over to the Grand Jury to meet on October 10, and bonds were fixed at $1000. Mayor Fern went as bondsman.

NOT PARTICULAR ABOUT HIS LIES

Anderson Grace yesterday turned the tables on Breckons by inviting him to invent lies for Grace to tell. Breckons had been doubting Grace's story and impressing him with the idea that as a liar he was so clumsy that he might as well open up.

"I have some respect for a decent lie," said Breckons, "but what's the use of telling such a story as this?"

"All right, Mr. Breckons," said the negro, with perfect good humor. "I'll tell any kind of lie you want."

STACKABLE AND FREAR DON'T AGREE

COLLECTOR OF CUSTOMS' REPORT TO THE TREASURY AS TO MAHUKA SITE NOT THE SAME AS THE GOVERNOR'S CABLE OF YESTERDAY—THE IRWIN SITE PROPOSITION AGAIN BROUGHT UP.

In the matter of the federal building site, the government in Washington has already received from its agent here, Collector Stackable, a report contrary to the advice cabled yesterday by Governor Frear and Delegate Kuhio.

It was learned today that Stackable's report does not sustain the contention that $350,000 is enough for the additional property desired, but on the contrary says that a larger sum is needed. Just how far the collector went in recommending action or placing a valuation is not known, but some of the property owners today were claiming that he had favored their side, and that the governor's intervention by cable, after the official who had been asked to report had sent in a report, would be resented.

G. B. McClellan, secretary to Delegate Kuhio, has been taking the matter up since his return, and the sudden action by the governor and delegate is attributed by some to his urging. The delegate's secretary took the position that the property owners concerned should either accept the appropriated price, or join in a general recommendation of the Irwin site as a means of settling the whole trouble.

"The difficulty has been brought about," said one of the interested property owners, "by the manner in which a cable to the Chamber of Commerce was answered without the members or the property owners concerned, being consulted. This was the cable asking for valuations. It was addressed to the Chamber of Commerce, but never got to more than about two members, and the governor, before it was answered. We, as owners of the property, were not told about it or asked what we thought our property worth.

"As the matter stands now, the federal government may either accept the report of the official whom it asked for a report,—Collector Stackable,—or the advice cabled by the governor yesterday. If there are condemnation suits we shall seek to get what we consider our property worth."

The Irwin site is again being brought to the front, and a renewed campaign for it may be made, as a result of the tangle in which the Mahuka site has become involved.

MAHUKA SITE PRICE VERY HIGH

Governor Frear this morning went into the question of the price to be paid for the Mahuka site. As a result of his calculations he considered that the rate per foot was a good one. He said that it worked out at a little over $14 per square foot, which included the improvements. The improvements were assessed at $75,000, but if these were knocked off then the rate would be about $11 per square foot.

Secretary Mott-Smith suggested that the same rate be applied to about 800 feet of land in the business center. A rapid calculation showed that the price to be paid would be about $8,690,000,—about one-tenth of the total value of the land of the islands, including the sugar plantations, the governor explained. If one were to look down upon the proposed site, the governor continued, one would see that it was but a very narrow strip that was being paid for; and, added the secretary, one would also see that there are a lot of trees in Honolulu.

THOUGHT SHE HAD RAZOR FOR ANDRADE

PORTO RICAN WOMAN "SASSED" DISTRICT MAGISTRATE AND WAS SEARCHED FOR WEAPON.

A Porto Rican woman belonging to the unfortunate class allowed her tongue to get her into trouble at the police court this morning. She was present as a witness on behalf of a young man of 18 years, named Carlos Rega, who was charged with vagrancy. With Rega was Antonio Ramon, on a similar charge. The police alleged that both men lived with Porto Rican women and were not working.

After hearing the evidence Judge Andrade sentenced both to three month's imprisonment. The woman began to leave court, but one of them turned and looking at the judge said: "I'll get even with you for this."

Judge Andrade called her back. "Who will you get square with?" he asked.

The woman murmured something about sending the men to jail, and Judge Andrade directed her to take a seat, remarking that he would attend to her later.

While the woman was waiting for the judge's attention Chief Detective McDuffie imparted some information to the judge.

"Tell that woman to disgorge that razor she has in her stocking!" said the judge to the interpreter.

The woman stood up and lifted her skirts to her knee showing she had no razor in her stocking.

Judge Andrade then directed that the woman be taken to the matron and searched and as she left the room he reminded her that she would have to be mighty careful what she said before the court.

The search failed to reveal the existence of any razor on the woman's person and she was detained in the Police Station pending her appearance before the court tomorrow morning.

Frank E. Thompson was among the passengers to leave on the Sierra this morning.

CONSPIRATORS WILL BE TRIED SOON SECRETLY

(Associated Press Cable to The Star.)

TOKIO, September 21.—A great sensation has been caused by publication in the Hochi Shinbun of news regarding a plot among Japanese to assassinate the emperor. The plot was discovered by the police in time to prevent its being carried out and arrests of a number of those implicated were made.

The trials of the conspirators will be secret, and executions will soon follow, it is announced.

INSURGENTS STILL WINNING

ST. PAUL, Minn., September 21—Congressman Tawney, chairman of the House committee on appropriations and one of the most prominent of the stand-patters, has been defeated for a renomination by 2,000 votes. He is serving his tenth successive term in Congress. His opponent was Sydney Anderson, progressive Republican. Four other insurgent congressmen have been nominated.

COLORADO SPRINGS, Col., September 21—The Republican state convention has adopted a platform endorsing ex-President Roosevelt and the Republican insurgents, and failing to make any endorsement of the Taft administration.

CHOLERA SPREADS IN THIS DIRECTION

TOKIO, September 21.—Cholera has appeared in Kobe. Prompt measures have been taken for its control and suppression. Since the outbreak in Europe the authorities have been taking precautions and the news several days ago that it had appeared on the Manchuria-Siberia border caused special vigilance.

BIG CHARITY BEQUEST IS CONTESTED.

Special Cable to The Star,

NEW YORK, September 21.—The million dollar bequest made by the late George Croker of California, for the purpose of founding in Columbia college a department devoted to the study of cancer and to efforts to discover a cure, is being contested by the step-children of Crocker.

PRIZE FIGHTERS HAGGLING.

BOSTON, September 21.—A hitch in the arrangements for the Langford-Johnson championship prize fight has occurred. Champion Johnson refuses to make his deposit before Langford makes his.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the Seal of said Circuit Court, this 2nd day of September, 1910.

(SEAL) HENRY SMITH, Clerk of the Circuit Court of the First Circuit, Territory of Hawaii.

GREAT BRITAIN MAY HAVE AN EXPOSITION IN 1915

TORONTO, Sept. 6.—A proposal to hold a British imperial exposition in London, England, in 1915, is being brought to the attention of manufacturers, merchants, and other prominent residents of Toronto and Montreal by the Right Hon. Viscount Hill, who is at present in the city visiting family connections, says the Mail and Empire.

Lord Hill addressed the Board of Trade on the subject a few days ago. He had a brief conversation with Sir James Whitney before the prime minister's departure for England; he has conferred with Richard Grigg, the British trade commissioner to Canada, and will see many other prominent persons before he sails for England on September 23

The idea of an exhibit which would include the products of all the countries of the empire arises through the holding of a Christmas exhibition by the Union Jack League, formed four years ago to educate the English public to purchase goods made in Great Britain or in the Birtish dominions beyond the seas instead of in foreign countries.

So great was its success that the larger expositon was proposed by the leaders of the league, among whom was Lord Hill, its first president. The idea has grown in popularity in Britain, and this month a committee will be formed to make further preparations for the event.

Among those interested in the movement are Lord Strathcona, Canadian high commissioner in London; Colonel Seeley, M. P., under secretary of state for colonies; Lord Selborne, who succeeded Lord Milner as high commissioner in South Africa; the Duke of Marlborough; Sir George Reid, high commissioner for Australia; Sir Peter Stuart Gam, senior member for Cape Town in the South African Parliament.

In the beginning of the year duly authorized committees will be sent from Britain to all the over-seas dominions to take up the idea fully with manufacturers, board of trade and others with a view to securing exhibits for the exposition. The funds for the holding of the exhibition, which is not to make money for its promoters, will be raised in Great Britain, and steps will soon be taken to obtain grounds on which the exhibition buildings can be erected.

Viscount Hill holds strongly imperialistic views and believes that the proposed exhibition would open the eyes of producers and consumers both in Britain and in the colonies to the extent to which trade within the empire may be developed.

"We feel that we must work together and get what we call free trade within the empire," said Lord Hill. "By trade within the empire we can be independent of the rest of the world. The overseas dominions have given us trade preferences and we have been unable to give them anything because we have an open door. We have no weapon. If we had a tariff we could do something."

Lord Hill is convinced that the proposed exposition would educate the people throughout the empire to purchase goods made in British countries and thus bring them closer together. Viscount Hill will spend a day or two in ontreal prior to his departure for home. There his duties as member for Greenwich in the London county council, to which he was elected last March, occupy much of his time.

P. C. JONES IS MAKING RECORD

San Francisco Bulletin: Peter C. Jones, of Honolulu, who arrived in San Francisco on the steamer Sierra September 6, reached Boston today after one of the speediest journeys on record. He left Honolulu on August 31 establishing what is claimed to be the world's record between Honolulu and Boston.

Jones on arriving in San Francisco on the Sierra immediately boarded the Overland Limited for Chicago, reaching that city September 9 at 1 o'clock in the afternoon. He connected there with the Twentieth Century Limited of the New York Central lines, going directly to Boston in 20 hours. The trip from Honolulu to Boston, a distance of 5,416 miles, was accordingly made in practically ten days, or 240 hours.

Jones has made himself famous by making speedy trips from one part of the world to another. Once he made the trip from Boston to Honolulu around the Horn in 156 days.

BRITISH STEAMERS TO CARRY ARMY SUPPLIES

NEW YORK, September 11.—Advices from the Far East reached New York today that in the face of the present agitation throughout the United States for the re-establishment of American shipping and the emancipation of this country from the three-hundred-million-dollar toll it now pays annually to the foreign steamship trust, the Federal Government has granted a great army contract to a British steamship line. The contract calls for the transportation of all government supplies for the American army in the Philippines from Seattle to Manila. Bids were asked for and the Blue Funnel line, which is owned and operated by A. Holt & Co., of Liverpool, was the successful bidder.

Dodwell & Co., of Seattle and Tacoma, agents for the Blue Funnel line offered to carry general cargo, coal and grain for $3 a ton and lumber at $7 a thousand feet. As more than 60,000 tons of freight and 9,000,000 feet of lumber were moved last year for the government from Seattle to Manila, the contract promises to be a large one.

A. Holt & Co. are the owners of the China Mutual Steam Navigation Company, which operates more than sixty steamers. The Blue Funnel line which is a round-the-world service between Victoria and Liverpool, is part of the Ocean Steamship Company.

WAS ATTEMPT MADE TO ASSASSINATE ROOSEVELT

COLUMBUS O., September 11.—Superintendent Anson of Goodle Park, where Colonel Roosevelt spoke yesterday, today turned over to the police a suitcase containing a quantity of gunpowder which had been found near the speakers' stand today. Although it was reported that the suitcase also contained nitro-glycerin and dynamite this was denied by Chief of Police Carter.

JAPAN'S NEW COLONIAL OFFICE AND HER DREAM OF EMPIRE

The most remarkable incident in these developments has, however, passed almost unnoticed. It is the formation of a colonial department in the Japanese ministry, having for its president the prime minister of the country. At present, the jurisdiction of this committee extends only to the islands of Formosa and Saghalien, and the peninsula of Korea. It is, however, only the first step of the Japanese in their bid for Empire. If Japan is ever to become a power of any magnitude, it must have colonies for its ever-expanding population. Opposite her shores lies China, the impenetrability of whose policy no statesman has yet succeeded in piercing. Today, China utilizes the genius of Japan for the drilling of her armies, and the organizing of her services. In spite, however, of the ease with which Japan won her comparatively recent victory over China, in spite of the apparent tutelage in which the vast Celestial empire stands to the little islands on her coast, Japan has little belief in her immediate ability to overcome the resistance which 400,000,000 of people are capable of offering to 50,000,000. It is elsewhere that Japan must look for expansion, and practically the only other ground open to her is the East Indian archipelago, which extends from the southern limits of the Japanese islands to Tasmania.

In this archipelago Japan could find room for her immediate necessities. The nearest objective would, of course be the Philippines, within a few hours steam of Formosa, but beyond them lie the great island of Java and Sumatra, Borneo and Papua, and finally, Australia itself. Over the first, however, waves the stars and stripes, and over the last the Union Jack. That the possibility of the Philippines and Australia and all the intervening and surrounding islands passing under the sway of Japan is a vision that has passed before the eyes of Japanese statsmen, it would be foolish to deny. It is certainly a dream of which the chancelleries of the world are not unconsious.—Christian Science Monitor.

LYMAN AND DESHA AT PEACE

HILO, September 20.—Supervisors Desha and Lyman have buried the hatchet and are now working together on and off the board for Republican success in the coming campaign. This healing of the breach between the Republican leaders brings the party together in harmony for the first time in many years, thus practically ensuring party victory this fall.

Campaign Manager Carl Smith brought Desha and Lyman together in a conference yesterday. At this conference the two talked over their own individual differences and agreed to call it all off until after election.

The Democrats will convene in county convention tomorrow and have advertised a mass meeting for Thursday evening, at which Link McCandless will open the Hawaii campaign for his side.

AN OMITTED PLEDGE.

Economy used to be a regular watchword in political platforms, election after election, in Hawaii. It was made a joke by the action of successive legislatures in appropriating money far beyond the probable revenue, as well as by the conduct of successive administrations in reckless spending of appropriations as fast as possible after they became available. The rule has been a feast just after the legislature adjourned and a famine beginning long before the legislature next met.

Even at present with a surplus in the Territorial treasury, various public services are starving because of the early exhaustion of appropriations. Indeed, the boasted surplus is delusive, when taken in conjunction with the facts that many highly necessary public improvements cannot be made in this period owing to lack of funds, that never before have the public schools been so miserably dealt with as in the period now passing, and that even a liberal contingent fund is unlikely to sustain all the demands that are being made upon it. In the meantime new positions have been created, in some cases with excessive salaries, wherever the legislature has left any leeway to the executive authorities.

Although the platforms of the present campaign are remarkable for their omission of pledges in behalf of economical government, all candidates for the legislature should be required to assure the voters that they stand for clearly defined policies of economy and retrenchment.

President Taft's campaign for economy in government will likely add to his record of solid performance. It may not prove that Senator Aldrich was nearly right when he said that three hundred million dollars could be saved by running the government on business lines, but there is little doubt that the practical steps being taken for economy will save a good many millions.

The lynching of four leading members of the Italian colony in Tampa, Florida, can hardly fail to advance the day when the federal government must stop such lawlessness with the iron hand. National self-respect will have to prove itself superior to states' rights.

Among the humors of the campaign none is more tickling than the armistice concluded between Desha and Lyman at Hilo. They agree to keep the peace, politically, toward each other "until after the election." And then—will it be four-ounce gloves and Marquis of Queensberry rules?

Honolulu, it would seem, does not have the artistic talent to make a symbolic picture to advertise its Floral Parade. A Seattle artist, who probably took his first lessons in art with chalk on the lumber piles, gets the prize away from all of our Kilohana Art Leaguers.

China is now importing less merchandise from the Occident than ever before. There does not appear anything to indicate that the trading of China with her Oriental neighbors will not increase. All the tendencies of the times appear to favor the conviction that only in nursing and promoting trade with her Philippine possession will the United States maintain a respectable position in the commerce of the Far East.

Next to its position on the immigration question, the rottenest plank in the Democratic platform is the proposal to make district magistrates elective. This is Bourbon to the last degree.

"My Honolulu Lady" now achieves world distinction. She sets the fashions for San Francisco, the "Paris of America."

If anything should stir the land tortoises of the middle states to support of measures for restoring the American merchant marine, surely the spectacle of British steamers carrying all United States army supplies to the Philippines should be sufficient.

It is eminently fitting that P. C. Jones should have been the man to make the travel record of ten days from Honolulu to Boston. When he is in Honolulu his spirit is in Boston, and when he is in Boston his heart is in Honolulu.

When rendered some months ago, the report of John S. McKenzie, state commissioner of labor statistics for California, made a sensation on account of its advocacy of Japanese immigration. It appears that his comment of 200,000 words upon his statistics was outside of his duties. He was employed only to collect figures. The Senate of California by unanimous vote expressed its disapproval of what the San Francisco Chronicle calls "the unauthorized comment of the superserviceable McKenzie." That paper further comments: "The objections to Asiatic immigration are no more strenuously urged by workingmen than they are by all others who care for the maintenance of the civilization of the white race. It is favored only by the few employing and transportation interests who do not care what becomes of our civilization so only that they can make immediate personal gain."

AUTO FIRE FIGHTING APPARATUS.

New York has begun to substitute auto fire apparatus for the various wheeled vehicles drawn by horses. If the change prove a success there, no hesitation should be felt for making it in Honolulu. Chief Engineer Thurston some time ago proposed to the board of supervisors that a combined chemical and hose cart automobile should be procured for the department.

A fire engine has been patented in which the motive power pumps the water. There are now machines for the various uses of throwing water or chemical extinguishing liquid, and carrying ladders and hose. Different cities have for some time past been using auto fire apparatus.

Assistant Chief Deering, who is spending a vacation on the mainland and who attended the firemen's national convention, is learning all he can about automobile apparatus and will bring home valuable information on that and other subjects connected with fire fighting.

General Wood's latest recommendation for Hawaii—that four army posts under one command should be established here—is further evidence of the importance the government places on the defenses of this outpost of the nation.

With cholera at Kobe, a calling port of the transpacific steamers touching here, there is a grave responsibility devolving upon the public health sentinels at Honolulu.

THE POLICE COURT

The bums stood up, a dismal row, before the solemn judge, and when they told their tale of woe, he simply answered "Fudge!" Poor victims of the world's abuse, dyed in misfortune's vats! And as each muttered his excuse, the jurist murmured "Rats!" Perhaps the narratives were true told by these waifs and strays; it matters not, for each one drew ten dollars or ten days. I watched them shamble from the court as they had shambled in; the youthful bo and aged sport, the gent who smelled of gin. "Poor flotsam on the human stream!" I moralized aloud: "Each hobo had his youthful dream—each bum in all that crowd! Life's morning seemed serene to him, and full of promise fair; and then the light of hope grew dim and storm clouds filled the air. And whose the fault if he has strayed from sunny paths of peace, to wander in the darksome shade pursued by fat police? Was there a voice, when first his feet from virtue wandered wide, to cheer, encourage or entreat, to counsel or to guide? We put the broken bums in hock—'twere better lad we tried to show them paths wherein to walk before they wandered wide. I pity them in all their woe, these homeless, friendless jays!" The jurist, dozing, murmured low: "Ten dollars or ten days!"

DIVIDEND CAUSES A FLURRY IN EWA

The monotony in the stock market this morning was relieved by quite a little flurry in Ewa—the cause being the decision of the directorate to pay an extra dividend of two per cent, making eighteen per cent paid thus far this year, with a certainty of at least one more extra before the year is over.

Ewa closed yesterday at 32.625 bid and $33 asked. During the afternoon rumors of an extra dividend got abroad and 165, 65 and 26 shares were scooped in by the wise at $32.-625. On the board this morning selling started at $33, the first sale being of $150 shares. Then came 7 shares at $33.125 and finally 9 shares at $33.25. At the close $33 was still bid and $33.125 asked.

There were two large sales of Brewery between boards, but at reduced figures. Yesterday the market was $20 bid and $20.25 asked. Between boards sales of 100 and 100 shares were made at $20. This morning bidding was at $19.50, while $20 was asked.

Waialua was still weak, 25 and 10 shares selling between boards at $129, followed by 25 on the boards at the same. At the close $128.75 was bid and $129 asked for the stock.

Sales of 5, 5 and 5 shares Hawaiian Pineapple were made at $31, after which the same was bid for more, $31.50 being asked.

A sale of 25 Olaa was made at $6.-125, after which the same was bid, $6.25 being asked.

Interesting quotations without sales were: Hawaiian Commercial, $39.50 bid and $39.875 asked; Honokaa, $17 bid and $18 asked; Oahu, $32 bid and $32.50 asked; Pioneer, $225 bid and $230 asked.

LARGE SHIPMENT OF PINEAPPLES

By the Sierra, sailing this morning for San Francisco, the Hawaiian Pineapple Company shipped 10,812 cases, aggregating 259,488 two-pound tins, of new pineapples for distribution among their customers in the mainland cities. This is one of the biggest shipments ever made at one time, but will be closely followed up by others, as the cannery is now running full blast.

By the last previous steamer 700 cases of Dole's famous pineapple juice were shipped to Germany. Germany imposes no duty on fruit juices, so that this product is landed there on a competing basis. The Hawaiian Pineapple Company has every reason to expect that that shipment will be the forerunner of considerable business in Europe. Unfortunately the German duty on canned pineapple is about eight cents a pound, so that that market is practically closed to the solid product.

The output of the Hawaiian Pineapple Company, in both fruit and juice, is greatly increased this year over last, and an even greater increase is contemplated for next year. The market is rapidly expanding, however, so that there is no fear of overproduction.

THE FIRST PRIZE GOES TO SEATTLE

D. Howard Hitchcock, J. T. Warren and Ed. Towse, the committee appointed to judge the designs submitted by artists for a poster for the coming floral parade, have awarded the prize to Maring & Blake, Seattle.

This design is distinctly Hawaiian, and clings admirably to the Floral Parade idea, instead of wandering off into hula dancing, surfing and what-not. It represents a Hawaiian girl, richly garlanded in tropical flowers, beside a palm tree. In front is a grassy landscape, and at one side the sea and in the distance a glimpse of Diamond Head. After the lady's arms have had a surgical operation; a few boats are set on the sea and some floral floats are pictured on the grassy landscape aforesaid, the design will be quite passable.

Some of the other designs were quite attractive, while others failed to bring out the idea sought by the committee in the most important points.

SMALL JOKERS IN G.O.P. PLATFORM

"We favor the establishment within each county of an office for the registration of conveyances and other instruments affecting property within each county and declare for such legislation as will effectively carry out this purpose."

The above plank in the Territorial platform of the Republican party is coming in for a good deal of serious consideration at the hands of Honolulu business men. So small was it that it attracted little attention in the convention which passed it; and only after the whole platform had been digested did the full import of this clause dawn upon the men who have mortgages, deeds, bills of sale, etc., to register.

The fight to legalize the registration of papers at the different county seats is an old one. Such a provision became law in the first county act but met with such a storm of disapproval that it was dropped from the present law creating counties within the Territory. Dozens of reasons were given at the time for making Honolulu the exclusive place for the registration of documents, the principal one being that nearly all business of this character in the Territory centers altogether or in part here

It is now said that the plank above referred to was ingeniously smuggled into the platform by an official of Maui county, who was a delegate to the convention and had to do with drawing the platform.

WEATHER ON MAUI.

A letter from Pala way on Maui, dated yesterday, states that the weather has been extremely hot and it is very dry. Yesterday, however, the wind arose again and the indications were of rain.

GOLFERS RETREAT.

There is something about the links at Haleiwa that lures the Honolulu players to them. It may be the pure dry climate and the sight of the sea and mountains that makes it one of the most tempting spots on this island. There has been no tournament there lately but the town players are considering one. Manager Kimball of the hotel is a most enthusiastic player and enters into the sport with a keenness that is ocmmendable. Most bonifaces are backward in the matter of exercise.

That Little Hacking Cough

Hard coughs are bad enough, to be sure. But it's often the little, hacking, tickling, persistent cough that means the most, especially when there is a history of weak lungs in the family. What should be done? Ask your doctor. He knows. Ask him about the formula on the label of every bottle of Ayer's Cherry Pectoral. Ask him if this medicine has his full approval for throat and lung troubles. Then do as he says.

SPORTS

WATER POLO LEAGUE WANTED

The regatta which was held last Saturday and the consequent discussions which have since raged with regard to the victories of the Myrtles and the defeats of the Healanis seem to have directed the attention of sports generally to the necessity of waking up and organizing further aquatic events.

"Why," said a well-known official of one of the Clubs yesterday, "there was not even a swimming race on Saturday." Of course, one does not usually look for swimming races at a rowing regatta, though an event or two of that character might easily have been sandwiched in between the rowing races. The decision of the Healani Club to hold a swimming carnival as soon as the details can be arranged and the men given sufficient time to train, has set swimmers generally talking about this branch of aquatics, from which to water polo is an imperceptible distance.

With two strong clubs such as the Myrtles and Healanis, most of whose members are swimmers, and with the hundreds of good swimmers in the islands outside of these two organizations, it seems incredible that water polo has been allowed to almost die out. An occasional game is played, but is very occasional indeed; so seldom that comparatively few of the swimmers know the rules of the game. Of course many are posted as to the general regulations, but if asked to decide a knotty point or to act as referee for a match, their knowledge would fail them.

All this is to be changed, however, if the secretary of the Healanis is able to bring the committee of his own and other clubs to his way of thinking. Yesterday afternoon, J. B. Lightfoot waxed enthusiastic in discussing this matter with the writer. It ought to be an easy matter to get fourteen teams to enter a water polo league, if one were organized. Four teams each could be entered from the Healani and Myrtle clubs, two from the Outrigger and two each from the Oahu college and the High School. With fourteen teams playing on the league system, each team to play each of the others, would mean ninety-one matches; playing seven matches a week would ensure that the competition would last for three months and interest should be sustained right to the end. If the cup-tie or knockout system were adopted there would be thirteen games and two byes, and the competition could be finished inside of three weeks. Each game takes about thirty minutes to play on an average, though there is only fourteen minutes actual play, but time taken off for breaches of the rules, etc., usually brings the time of the game to half an hour.

The provision of boundary lines for the field of play should be a very easy matter, and if necessary two games could be played at the same time, one at the Myrtle Club and the other at the Healani Club. These matters and the provision of prizes for the winners, would not cause the promoters any difficulty, if the cooperation of the three clubs and the college and high school is obtained.

It is probable that the matter will be further discussed within the next week or so, though it may be some time yet before the league is formally started. It is better for those favoring the movement to proceed carefully from the start, rather than to rush into the project without consideration. However, the very fact that the subject has been raised indicates that it is the turn of aquatics to loom largely on the public horizon during the next few months.

THE KAUFMAN LANG FIGHT

According to a Philadelphia report of the boxing match between Al. Kaufman, of America, and Bill Lang, of Australia, which took place on the 5th inst., there was general disappointment over the showing of both contestants. Kaufman had the honors of the first round, landing left and right to the face twice, staggering the Australian, who only succeeded in planting two lefts to Kaufman's chin. Both men mixed matters in the second, Lang forcing Kaufman to the ropes and battering him wildly. Kaufman clinched to avoid punishment. Again Lang scored in the third round, forcing Kaufman to his own corner, but thence to the end Kaufman had all the better of matters. In the fourth Kaufman hit Lang almost where he liked, but the Australian took his gruelling well and repeatedly came back for more. Three stiff rights from Kaufman almost finished Lang in the fifth and in the sixth a hard right to the jaw had Lang rocking. However, Kaufman lacked the ability to win on a knock-out and at the conclusion of the sixth round he won on points. About the only favorable feature of the contest was the capacity Lang showed for taking punishment. He fought Kaufman at his own game and though Lang had the worst of the deal, Kaufman's reputation was not improved by the encounter. Neither man has any hopes of meeting Johnson.

CHINA NOW IMPORTING LESS FROM OCCIDENT.

WASHINGTON, September 17.—The growing commercial independence of Oriental countries, as against their former dependence on the Occident, is shown by the Department of Commerce and Labor. In most cases China's imports from Occidental countries indicated a decline.

The largest actual gains in imports were in merchandise coming from India, Japan, Russia, French Indo-China and Singapore. The figures show a larger decrease in imports from the United States than from any other of important countries of the world.

$5000 BULLDOG DEAD.

LONDON, Sept. 3.—Dick Stone, a famous bulldog, grandson of the champion Rodney Stone, finer animal than its grandfather, for which Richard Croker, Jr., paid $5000, died today of heart disease, aged 6 1-2 years.

The owner had refused $6000 for Dick Stone.

Ask Her This Question!

"Do you know of any woman who ever received any benefit from taking Lydia E. Pinkham's Vegetable Compound?"

If any woman who is suffering with any ailment peculiar to her sex will ask her neighbors this question, she will be surprised at the result. There is hardly a community in this country where women cannot be found who have been restored to health by this famous old remedy, made exclusively from a simple formula of roots and herbs.

During the past 30 years we have published thousands of letters from these grateful women who have been cured by **Lydia E. Pinkham's Vegetable Compound,** and never in all that time have we published a testimonial without the writer's special permission. Never have we knowingly published a testimonial that was not truthful and genuine. Here is one just received a few days ago. If anyone doubts that this is a true and honest statement of a woman's experience with Lydia E. Pinkham's Vegetable Compound write and ask her.

Houston, Texas.—"When I first began taking Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had been sick for three years with female troubles, chronic dyspepsia, and a liver trouble. I had tried several doctor's medicines, but nothing did me any good.

"For three years I lived on medicines and thought I would never get well, when I read an advertisment of Lydia E. Pinkham's Vegetable Compound, and was advised to try it.

"My husband got me one bottle of the Compound, and it did me so much good I continued its use. I am now a well woman and enjoy the best of health.

"I advise all women suffering from such troubles to give Lydia E. Pinkham's Vegetable Compound a trial. They won't regret it, for it will surely cure you."—Mrs. Bessie L. Hicks, 819 Cleveland St., Houston.

Any woman who is sick and suffering is foolish surely not to give such a medicine as this a trial. Why should it not do her as much good as it did Mrs. Hicks.

HONOLULU BELLES URGED START RESERVOIR HAT FASHION

The San Francisco Call's society writer has the following:

Reservoir hats are announced for next season in Paris. Recent millinery has left us prepared for anything. Which is just as well. Genius is allied to madness, and the inspirations of French designers can not be questioned. Vegetables are an imminent possibility. They should be accepted with equanimity. There have been baskets of fruit; gooseberries were once quite common. A vogue of parsley, cress and cauliflower, logical outcome of last year's inverted soup kettles, may be looked for.

Meanwhile there are reservoirs to consider. Women will soon appear with basins of water on their heads. Set in them will be fresh flowers, to be replenished daily by a florist. The color scheme may be changed at will to harmonize with different gowns. The tin or aluminum receptacle is, of course, carefully concealed by material of a neutral tone, and every precaution will be taken to prevent leakage. The rims will be arranged to allow the greatest latitude in bending or nodding without spilling water.

First appearance of the new headgear in San Francisco will be awaited with interest. Miss Helene Irwin, who was the local pioneer in the chantecler fashion, may introduce it. Or Mrs. J. J. Moore, who wore the first and heaviest Russian moujik helmet of fur last winter.

Princess David Kawananakoa gracefully supported the largest plumed picture hat of last season. It required skill and a stately bearing, which may serve her this year in carrying a reservoir. Mrs. Joseph Andersen Chanslor has been a successful exponent of extremes in millinery. She is in Paris, and may possibly bring a reservoir home with her.

GAY F. MAYDWELL PASSES AWAY

WELL KNOWN AND POPULAR YOUNG ATTORNEY SUCCUMBS AFTER TWO OPERATIONS.

Guy F. Maydwell, well known attorney of Kailua, Hawaii, died at the Queen's hospital yesterday afternoon from the effects of operations for a tumor performed several weeks ago.

Mr. Maydwell had been a severe sufferer from headaches for more than two years and after treatments for the ailment finally consulted Dr. Judd who advised him to go to the Coast and consult a specialist and to go at once. He declined on the ground that if it was as bad as that he had better take chances here and asked Dr. Judd to do whatever was necessary.

But few operations of the character have been performed here and when the skull was cut and the brain exposed to the view of a number of surgeons present the condition was such that they advised Dr. Judd to go no further as the man could not possibly live more than a few days. Attached to the brain was a tumor the size of a small orange. To remove it required four hours of the surgeon's time.

For a few days Maydwell hovered between life and death but gradually mended until he was able to leave the hospital and appear on the street supported by a friend. The operation left him with partial paralysis and it was with difficulty that he could raise one of his arms. This condition continued and it was decided that he undergo another operation to remove the cause of the paralysis. This was done and he could then raise his arm naturally. Improvement in his general health did not follow and he lingered in great suffering until yesterday.

Mr. Maydwell came here from California with his wife and sister and located in Hilo. His sister married Dr. Philip Rice and is living in Oakland, and Mr. and Mrs. Maydwell decided to live in Kailua. The wife taught school there until a year ago when she gave up her position and made a trip to the coast. The deceased was an Elk and had many friends here.

The funeral will take place this afternoon at 3 o'clock from the residence of W. A. Wall, 930 Lunalilo street.

AT THE THEATERS

The weather for the past two nights has not been favorable to the theaters, and while the various managers have kept smiling the receipts have been away off just the same. At the Park programs have been maintained, although last night the water had to be swept out of the wings of the theater before the crowd could be admitted. The streets have been so muddy and the nights so uninviting that all of the amusement places have been meagerly attended. Better things are promised, however, for the remainder of the week.

At The Novelty.

At the Novelty this evening there will be a complete change of pictures. Wise and Milton will reappear in a new sketch and new songs and Rance Smith will present some of his best specialties.

The Park Tonight.

At the Park theater this evening Manager Congdon will offer a varied program. Connie Marina and Laurel Atkins will appear in favorite specialties, and the fine sketch "Dr. Cutemup" will be repeated. The feature film will be "Victim of Fate," being a true story of the hills of North Carolina, but whether it deals with the "hookworm" or moonshining Manager Congdon does not state in advance.

The Empire.

Owing to the departure of Miss Maude Rockwell this morning for the bedside of her sick mother in the east, the vaudeville program at the Empire this evening will be rather tight; but what is lacking in specialties will be made up in the high quality of the pictures shown. The little Aflague sisters will reappear in pretty numbers.

Music at Aala.

The Hawaiian band will give a concert this evening at 7:30 o'clock at Aala park as follows:

March—The Myrtles.....Berger
Overture—Smuggler's Bride....Bohm
Intermezzo—Queen of the Ball.....
.....Vollstredt
Selection—Bilbao .....Retford
Vocal—Hawaiian songs..ar. by Berger
Selection—Chocolate Soldier..Strauss

SUPERVISORS HOLD MEETING

ROUTINE MATTERS GIVEN ATTENTION IN THE SESSION OF YESTERDAY EVENING.

After having difficulty in getting a quorum, the Board of Supervisors held a short meeting last night with Mayor Fern and Supervisors Quinn, Ahia, McClellan and Logan present.

Financial reports from the roads and police department were presented by Quinn and Ahia. A petition of Peacock of the Criterion saloon, for permission to hang out an electric sign was referred to the road committee, Logan offering a caution as to the character of the sign.

Wade Warren Thayer, wrote a communication as president of the Alewa Heights improvement committee, asking that the Alewa road be improved, which will be done, Jim Quinn said that a gang of men had been ordered up that region to clean the gutters out at once.

Brid.-Gen. Edward Davis U. S. A., retired, wrote the board that he was building a house at the end of the Kapiolani Park for his daughter and he wanted electric lights so he wouldn't have to walk from house to house with a lantern in his had. This also will be attended to.

Marston Campbell, superintendent of public works, had a communication to the board in regard to filling in a fish pond at Iwilei, and stated that arrangements had been made to accomplish this improvement. He asked the board to establish a road there which he had dedicated.

A bill for eight dollars, being expenses incurred during the investigation of J K. Paele, on the other side of the island, for alleged irregularities, was approved. The expense was incurred by a man hustling around to gather witnesses.

Fire Chief Thurston wanted hose. The board voted to let him buy hose from the Honolulu Iron Works at 87 1-2 cents, that being the second lowest bid and the best hose offered.

The Inter-Island Steam Navigation Company was awarded the contract for 8300 pounds of No. 6 wire, at $16.85 per hundred pounds, that bid being about $4 lower that the bid of the Hawaiian Electric Company.

Quinn remarked how well the storm sewers had stood the recent heavy rains, saying that he took pleasure in informing the board what a good job the supervisors had done in this regard.

Next meeting of the board of supervisors will be held on September 28, at 12,25 p. m.

BRYAN BOLTS PARTY TICKET

LINCOLN, Nebraska, September 21—William Jennings Bryan, yesterday bolted the Democratic party of his State, announcing in an authorized interview that he would not support Dahlman, the Democratic nominee for governor of Nebraska. Mr. Bryan bases his objection to Dahlman on the fact that the latter is not in favor of local option or prohibition.

Dahlman was nominated at the State convention that refused to accept the local option plank presented by Bryan.

PROMINENT ITALIANS LYNCHED IN SOUTH

TAMPA, Florida, September 21.—Gastenge, Ficarotta, Angelo and Albano, four prominent Italians of this city, who have been conspicuous during the strike of the cigarmakers, were yesterday taken from the charge of deputy sheriffs and lynched. It was charged against them that they had been accessories to the recent shooting, in which a number of the strikers were wounded.

The lynching of these men has recalled th etrouble that followed the lynching of a number of Italians in New Orleans some years ago, for which Italy demanded reparation and over which incident the relations between the two countries were strained almost to the point of war.

SHERMAN LOSES HIS OWN PRECINCT

NEW YORK, September 21.—One startling result of the primary elections yesterday was the defeat of Vice-president Sherman in his own district, in spite of which Timothy Woodruff predicts that he will be elected as temporary chairman of the State convention to assemble at Saratoga on on Tuesday next.

Sherman will attend the convention at the head of the delegation from the First Oneida district, while Colonel Roosevelt, who will contest the election and the control of the convention with him, will come at the head of the Nassau delegation.

LORIMER NO MORE A HAMILTON MAN

CHICAGO, September 21—The board of governors of the Hamilton Club has accepted the resignation of Senator Lorimer, tendered because of the request of the board that he return an invitation sent him to attend a dinner given in honor of Colonel Roosevelt, who had refused to sit at the same table as Lorimer. As a result of the incident, a new club is to be started, founded by members of the Hamilton Club who have likewise resigned owing to the Roosevelt incident.

PRESIDENT TAFT IN OHIO TODAY

CINCINNATI, Ohio, September 21.—President Taft arrived here yesterday on a visit to his brother, Charles Taft. He will return to Washington on Saturday, in time to attend the meeting of the cabinet called for next week.

Today he will be the principal speaker at the opening of the Ohio Valley Exposition and his speech is being looked forward to eagerly as it is supposed that he will deal altogether with matters affecting the State campaign.

COL. BULLARD GIVES ADDRESS

MEETING IN KNIGHTS OF PYTHIAS HALL TO START BOY SCOUT MOVEMENT.

Lieutenant Colonel Bullard addressed a meeting in the Knights of Pythias hall last night, in advocacy of the organization of Boy Scouts in the islands. He was listened to by an attentive audience, which included many well-known officials and business men, and his explanation of the movement was received with appreciation. After condemning the present strenuous life in which all energies were strained simply for one object, the pursuit of the Almighty dollar, Colonel Bullard explained that it was because they realized that unless some efforts were made to instil into the minds of the growing generation the reverence which was due to the flag and the service which was due to the country, the future would be no brighter than the outlook was at present. The boy scout learnt to be self-reliant, to be truthful, to obey his superior officers, and generally to conduct himself in such a manner as to win the approbation of the nation as a whole and of his immediate associates in particular.

An appeal was made towards the close of the meeting by Paul Super, Chairman of the Organizing Committee, for Scout Masters. He announced that he preferred men who had no time to spare. If they would apply at once they would be assigned to a patrol.

ANSWER TO SHIPMAN.

Chairman Quinn of the road committee, at last night's meeting of the board of supervisors, took occasion to answer part of the criticism of Mr. Shipman of Hawaii on the roads of Oahu.

He said that the broken down culvert, in which Mr. Shipman thought he discovered graft, was built eight or nine years ago. The present board had built nearly a mile of storm sewers, all of which had stood the test of the recent storm.

WOULD STOP BURIAL AT SEA

PHILADELPHIA, September 12.—A movement has been started here to have steamship companies discontinue the practice of burying at sea the bodies of persons who die on shipboard. Last week the Rev. William McLaughlin, a prominent clergyman of this city, died at sea, and, notwithstanding that a wireless message had been sent to the captain of the liner requesting that the body be landed, the clergyman's body was consigned to the waves.

Yesterday the Holy Name Society of the Roman Catholic Church of Our Lady of Mercy adopted resolutions protesting against the custom. The society authorized several clergymen to correspond with steamship companies with a view of ascertaining the opinions of the officers on the subject. It is understood that leading steamship companies already have this subject under consideration.

FOUR BRITISH COLLIERS HERE

Yet another British steamer has arrived with a cargo of coal for the U. S. Naval Station. This makes the fourth at present in harbor, the other three being the Selsion, Volney and Katherine Park, which are now busily engaged in discharging their cargoes and incidentally covering everything in the vicinity with fine coal dust. The Masanda, which arrived this morning, is a vessel of 3198 tons, under the command of Captain Burns. She left Newport News on July 19 and St. Lucia on July 25 taking in all 64 days to reach Honolulu. The Uganda, also with coal for this station, is already 68 days out from Newport News and should arrive any day now.

HENRY SMITH GUARDIAN.

The Circuit Court this morning granted the petition of Elizabeth K. Booth to have Henry Smith appointed guardian ad litem of Laola Evelyn Booth and Marjorie Manoheali Booth, to represent them in the matter of the discharge of trustee in the estate of Malia Kahia.

CHARGES BIGAMY.

Ho Kee says he learnt that Chang Yook-lin, whom he had taken as his wife in July last, had deceived him by telling him that her husband was dead, when he was not, so he has filed a petition in which he asks for a divorce.

MOTION TO QUASH.

In the case of the United States vs. a Japanese named Hirata, the defendant today withdrew his plea of not guilty, and a motion to quash was submitted by his attorney, Lorrin Andrews. The United States was given until Wednesday next to file a brief. All the jurors were excused for the term.

HELGA COAL CASE.

Manuel Silva was before Judge H. E. Cooper today on a charge of having stolen coal from the wrecked vessel Helga. E. A. Douthitt who appeared for Silva filed a demurrer, and City and County Attorney J. W. Cathcart said that he was not quite au fait with the case, so it was continued until Monday next.

TENNIS ENTRIES FOR HALL TROPHY

Entries closed for the E. O. Hall tennis trophy competition at noon this morning, at which time there were twenty names on the list. This will necessitate a preliminary round of four matches, the remaining twelve players receiving byes. In all five rounds will be played, nineteen games in all. The large entry is very gratifying to the donors of the trophy and from the list of those competing some excellent games are expected. The draw will be made this evening and handicaps alloted. The following is the list of competitors:

R. A. Cook, A. M. Nowell, G. R. Warren, H. S. Gray, C. G. Bockus, W. G. Singlehurst, W. L. Stanley, W. A. Wall, Jack Guard, T. Waterhouse, J. E. Steere, W. T. Schmidt, N. Deerr, H. E. Savage, F. E. Greenfield, W. N. Eklund, P. B. Collins, Gerald Irvine, Atherton Richards and Theodore Richards.

PHEASANTS PLENTIFUL AT MAUI.

A letter from Maui states that when the shooting season opened on the 15th inst. there was a great turn-out of sportsmen, and good bags were reported. Pheasants are plentiful on the island, but with the object of preserving the game an agreement has been entered into by all the sportsmen on the island not to shoot any hen birds for a twelve-month. Such a step will undoubtedly result in the increased propagation of the birds and next season there should be even better sport than the sports are getting now. It would be well if a similar arrangement were put into force on this island, in order to prevent the extermination of the birds.

MANOA TENNIS TOURNAMENT DOUBTFUL.

There is a possibility that the night tennis tournaments which were announced as being settled upon by the Manoa Valley Tennis Club may not take place, as it is in some quarters considered inadvisable to put the competitions on at the present moment. In order to discuss the situation a meeting of the club will be held tomorrow evening, at which a decision will be reached on the subject. It will be something of a pity if the tournaments are abandoned, but this step will not be taken unless it is considered essential.
