LATE NEWS FROM ABROAD.

Lord Rosebery Severely Criticised by Some of His Countrymen.

DICK CROKER SKIPS TO EUROPE

The Tammany Boss Becomes Frightened and Leaves New York, Taking His Sons—English Troops in Jamaica Revolt-Breckenridge's Friends Retaliate

LONDON, June 9.—Lord Rosebery has privately announced his intention to withdraw from the racing field, a public statement of which will be made here within a few days.

A ridiculous attack has been made upon Lord Rosebery because he happened to be the fortunate owner of the Derby winner. The word has gone forth to every large and small bethel that the "non-conformist conscience will not long tolerate a racing Premier."

Every tubstumping Stiggins has howled at the noble Earl for daring to say in a speech to the Eton College boys that he was not ashamed of owning a good horse. Even the newspapers which regularly quote the odds have joined in the outcry, and every mail brings his lordship hundreds of letters from meddling zealots warning him that his patronage of horse racing is daily driving many souls to perdition.

Radical parsons and puritanical lay partisans have deluged Liberal headquarters at Westminster with epistolary protests to the same effect, and there is talk of convening "a national convention" for the purpose of protesting against the shameful degradation of English statesmanship.

From all of which it will be gathered that Great Britain has entered into one of those periodical virtuous spells which have long been the scorn and wonder of foreigners.

Lord Rosebery is said to be amazed and indignant at the outburst and to have threatened to retire in disgust from public life. But this is all.

All the party managers admit today that Rosebery's character as an honorable, highly successful sportsman, indorsed as it has been this week by the victory of the horse upon which the masses had put their money, will stand him in good stead with thousands of electors who do not care a cent for politics, but vote according to impulse.

Death of a Prelate.

LONDON, June 9.—Rt. Rev. Lord Charles Arthur Hervey, Bishop of Bath and Wells, died today. He was fourth son of Frederick William, fifth Earl and first Marquis of Bristol, and uncle to the present Marquis. He was born August 20, 1808, and educated at Eton and at Trinity College, Cambridge, where he graduated M. A. in 1830, being placed sixth in the first class in classics. Having held a country curacy for a year, in 1832 he was appointed rector of Ickworth, Suffolk, a living in the gift of his father, to which was added, in 1833, the adjacient living of Horningsheath, in the same patronage. In 1862 he was appointed to the archdeaconry of Sudbury, and in November, 1869, he was nominated by the crown, on the recommendation of Mr. Gladstone, to the bishopric of Bath and Wells, vacant by the resignation of Lord Auckland. He was consecrated on December 21st in Westminster Abbey. He is the author of many sermons and treaties on religious subjects and open letters addressed to influential men. At one time he opposed the High Church party. He married in 1839.

Croker Goes to Europe.

NEW YORK, June 9.—To the amazement of his political associates, Richard Croker, ex-boss of Tammany, sailed for Europe on the Umbria this morning. He was accompanied by his two sons, Richard and Herbert. Mr. Crocker will not return to this city until late in the fall. To the few people who saw him off he said he would be away all summer. Mr. Croker is in good health, and it cannot be claimed that he has gone abroad at the request of his physicians. He has been at the race-track every day, and has enjoyed life ever since his retirement from the leadership of Tammany Hall.

Sullivan Hit With a Bottle.

BOSTON, June 9.—John L. Sullivan, the ex-champion, is not feared by the citizens of this city as in the days when he was the champion.

While in the Clarendon Hotel last evening he took offense at remarks made by a prominent physician regarding Paddy Ryan, and after some hot words the physician seized a bottle and hit the ex-champion on the cheekbone. Sullivan was taken to the Emergency Hospital, where the wound was sewed up. It is not at all serious.

More Trouble in Siam.

BANGKOK, June 9.—A serious deadlock has arisen between the French and Siamese. The latter refused to produce Phrayot before the tribunal for judgment today in order to prevent the French from seizing and conveying him to one of their gunboats. The French insist on his production, and their attitude is menacing. Prince De Vawongse left here today to consult with the King. The tribunal is dissolved.

Ten-Mile Record Broken.

NEW YORK, June 9.—The world's road cycling record was smashed by five men in the team contest today for the ten-mile bicycle championship of Union county, N. J. The start was made at Elizabeth, with a turn at Springfield, five miles distant. The first man to finish was William Beetner, of the Elizabeth Athletics, whose time was 27:17 4-5. The world's record was 27:27.

A Plan of Retaliation.

LEXINGTON, (Ky.), June 9.—It is learned today that many prominent ladies of this city who took a leading part in the anti-Breckinridge protest at the Opera House here several weeks ago, have been warned through a letter mailed from Pittsburgh that there are "skeletons" in their closets, and that they could not afford to take part in such a "detestable proceeding against Colonel Breckinridge."

General Hewston's Case.

LONDON, June 9.—The friends of General Hewston need not worry about him. It is quite on the cards that the Grand Jury may throw out the bill of manslaughter, and, if they should do so, and if the jury should find a verdict of guilty, the sentence is sure to be purely nominal. The Embassy and Consulate have done everything possible for the prisoner.

British Troops Revolt.

KINGSTON, (Jamaica), June 9.—There has been an outbreak among the native troops (second battalion of the West India regiment) stationed here. The mutinous soldiers terrorized the town for a time, wrecking the police stations and wounding many persons. The pickets joined the rioters. Order was restored today.

Mrs. Lease for Congress.

TOPEKA (Kan.), June 9.—It is announced here tonight that Mrs. Mary E. Lease will be nominated by the Prohibition convention for Congressman-at-large from Kansas. It is also expected this nomination will be indorsed by the People's Party.

Marriage of Millions.

PROVIDENCE, (R. I.), June 9.—Miss Hope Goddard, daughter of Colonel William Goddard and heir to $20,000,000, was married to C. Oliver Iselin, son of the late millionaire banker, Iselin of New York today.

Lord Coleridge Very Ill.

LONDON, June 9.—Chief Justice Coleridge, who has been seriously ill for some time, passed a bad night and is very much exhausted.

Death of Young Cyrus W. Field.

NEW YORK, June 9.—Cyrus W. Field, son of the late Cyrus W. Field, died this afternoon, aged 35.

India has a 6000 foot wire span.

LATEST NEWS FROM MAUI.

Interesting Programme Carried Out at Maunaolu Seminary.

GOSSIP ABOUT THE COMING RACES.

A Game of Baseball at Makawao—Malicious Japanese Get Two Years in Jail—A Grand Ball to be Given on the Evening of the Fourth of July.

MAUI, June 23.—The dolce far niente period for teachers is fast approaching; the signs of the times—summer heat and commencement days—both point impressively toward that restful word, vacation. The 20th inst. witnessed the annual reception day of that pleasant school on the mountain slope, Maunaolu Seminary. Friends and relations were early at hand in large numbers, and were much interested in the class-room exercises which consumed the hours between nine and eleven.

After the heavy viands of literature and mathematics came the sweetmeats of the banquet, rhetoric and music. The anthem "For God So Loved the World," was nobly sung by a magnificent chorus of girl voices, and was a fitting prelude to a long programme replete with solos, duets, trios, choruses, recitations, dialogues and farces.

The thirty-three events on the schedule all merited compliment, and the singing might be termed professional in its perfect harmony and execution. The following seemed to especially please the audience: a piano trio by Miss Morris (one of the teachers) and Lizzie Rogers and Maggie Daniels; a recitation, "The Owls' Convention," by Lottie Taylor; a solo, "Makalapua," by Caroline Kapohakimohewa; and the scarf drill which was loudly applauded. Speeches, eulogistic and advisory were made by Mr A T. Atkinson, Rev. A. Pali of Lahaina, Dr. E G. Beckwith. Rev. S Kapu of Wailuku, and John Kalama Esq. The teachers of the school are: Miss McLennan, Principal; Misses Hammond, Morris, Renwick and Smith assistants. The trustees of the institution, who held an annual meeting during the day, are: Dr. E G. Beckwith, Messrs. H. P. Baldwin, C. H. Dickey, J. W. Colville, and Geo. E. Beckwith. The autumnal term opens September 5th.

STRAY SCRIBBLINGS.

During Saturday P. M., the 16th inst., the June term of Court at Wailuku came to an end, just after the foreign jury had finished with the civil cases.

The sentence of the Lahaina Japanese for malicious burning of cane was two years in prison and $100 fine.

It is reported that C. A. Doyle of Honolulu received the $500 reward offered by Mr. Horner for the conviction of the guilty party or parties.

Hamakuapoko Mill stopped grinding this week.

W. L. Holokahiki, Esq., the oldest Hawaiian member of the bar, is visiting in Makawao.

Haleakala Hall, Makawao, was again gaily decorated last Friday evening, the 22d inst, and twenty devotees of Terpsichore tripped lightly through the mazes of polka, quadrille and waltz. A stringed band from Hamakuapoko, consisting of two guitars, a taro patch, and accordeon made the rafters echo and reecho with lively strains of dance music. "A good time" was the verdict of the ladies and gentlemen, and "gratitude" to Mrs. Alexander was the ruling of the judges.

On dit that the social history of the 25th of July will record another pretty wedding at the Paia church.

The Maui Racing Association will give a grand ball on the evening of July 4th, at Spreckelsville Hall. Dancing will commence at eight o'clock sharp. Music will be furnished by the Hawaiian National Band. Special trains will run.

Mrs. P. B. Aiken is a new arrival and resident of Paia village.

Misses McLennan and Smith departed on Friday for a Hilo vacation visit. Miss Renwick will depart next week for Kailua to spend a short time with Miss Anna Paris.

Miss Morris is to teach the remainder of the term at the Waihee school. So much for Maunaolu teachers.

The week's arrivals: Rudolph Spreckels came per Wednesday's Claudine, and Delegates Baldwin, Pogue and Kalua per Friday's Kinau.

The Haiku and Spreckels ditches rose seven inches and more during Wednesday the 20th inst., but, alas, they soon fell again.

Race notes: Per Claudine of this week, the horses Nevada, Amarino, Lolokulani, Queen L, and Sarah H. have arrived. Jockey "Cal." Leonard and "Dickie" Davis came up with them. More racers are expected next week.

It is reported that among the entries in the Corinthian race on the 4th are Billy C., Black Diamond, Winfield, and Queen L.

Madame Gossip says that a great match race will occur in September in Honolulu at $1000 a corner. It is whispered that the horses concerned are Amarino, Lord Brock, Duke Spencer and possibly Senator Stanford. If true, the event will be of more than slight interest.

During Wednesday afternoon the 20th inst. on the Makawao Polo Grounds a match game of ball took place between the Makawao and All-Kula nines. The following score tells the story:

SCORE BY INNINGS.

	1	2	3	4	5	6	7	8	9	
All-Kula	1	0	0	3	5	4	0	0	0	—13
Makawao	1	5	2	2	3	0	1	0	*	—14

The schooner Zampa, Peterson master, set sail for San Francisco during the 21st inst. She bore away 278,250 pounds of Haiku sugar and 930,000 of Paia—a total value or $30,206 25.

Weather: Dry, very dry.

London has a fur company which was dealing in furs as long ago as when Henry VIII was king.

ACCURATE! THE Hawaiian Revolution. IMPARTIAL! THE Hawaiian Revolution. BREEZY!

DEDICATED BY SPECIAL PERMISSION

—TO THE—

Provisional -:- Government

The Crisp photo process, by which "The History" will be illustrated, is acquiring a well-merited reputation for excellence, the productions being artistic triumphs.

An instantaneous success!!! The project received by the business men of Honolulu in a most enthusiastic manner.

Art connoisseurs warm in its praise. "An artistic gem of the purest ray serene." TO BE PUBLISHED IN 1894.

The historians have commenced with the frame-work of the construction, setting forth the remote causes of events and the motives of human action; and follow up their connection with other developments, and present the whole in a finished exterior of hich literary worth. The foundation principles of government, the predominant sentiments swaying human minds at different epochs, the physical condition of different parts of the land, the nature of different influences brought to bear upon the people, have all been closely studied, and the effects philosophically traced. Accuracy of statement, soundness of reasoning, clear presentation, and high literary merit will be the commanding aspect of this ambitious effort. It will be published in an attractive form containing over 200 pages,—fully illustrated, supplied with many maps and plans, containing tables of useful information and a complete index, it comprises all the accompaniments necessary to complete a work of its character.

SYNOPSIS:

Chapter 1—Prof. Alexander's History of King Kalakaua's Reign.

Chapter 2—Prof. Alexander's History of Liliuokalani's Reign.

Chapter 3—A Brief Account of the Revolution of 1893.

Chapter 4—A Brief Account of the Provisional Government to date.

Chapter 5—Minister Willis' Letters to President Dole to abdicate.

Chapter 6—President Dole's Reply.

Chapter 7—Willis and Dole's Correspondence.

Chapter 8—Minister Thurston's Protest issued at Washington.

Chapter 9—Minister Thurston's Statement of the Hawaiian Case.

Chapter 10—President Dole's Specifications.

Chapter 11—Morgan's Report to the Senate.

Chapter 12—The Senate's Action on Hawaiian Affairs.

THREE OUT OF FIVE.

WOMEN TAKE A MAJORITY OF ART PRIZES OVER MEN.

Recent Awards at the National Academy of Design In New York—Miss Clara McChesney, Miss Edith Mitchell and Mrs. J. Francis Murphy the Winners.

The women have scored another triumph. This time it is in the art field, and at the staid, conservative National Academy of Design in New York. Never before in the long history of that dignified institution has a woman been awarded one of the Hallgarten prizes. At this spring exhibition women capture two out of the three. Taking these with the Dodge prize, three out of the five awards fall to women.

This is especially significant owing to the fact that a much larger percentage of men than women are exhibitors.

The Norman W. Dodge prize of $300 for the best picture painted in the United States by a woman is awarded to Miss Clara T. McChesney for her pic-

MISS CLARA T. M'CHESNEY.

ture of "Her Old Spinner." It shows a dimly lighted interior in which an old peasant woman is at work. The tone is low, the coloring harmonious, the drawing fine and the treatment full of feeling.

Miss McChesney is a tall, fair, Titian haired California girl, with no end of energy, perseverance and a large capacity for hard work. When a student in San Francisco, she used to send pictures to the eastern exhibitions which were accepted and hung. Back in 1886 two pictures of hers which attracted some attention in the New York Water Color society's exhibition were "A Street Corner In Chinatown, San Francisco," and "Entrance to a Josshouse In Chinatown."

Four years ago Miss M[illegible]esney came to New York and [illegible] She spent her vacations i[illegible] Paris and Holland, l[illegible] other place rather better t[illegible] as her pictures show. This ye[illegible] she will go to the north of France and will doubtless make some good studies a[illegible]ng the picturesque peasantry there.

Miss McChesney has for some time been regarded among the New York artists as one of the "strong" ones. Her handling of a subject has always a certain boldness, confidence, dash and breadth which some men are pleased to call "masculine," but which now in art has become a misnomer.

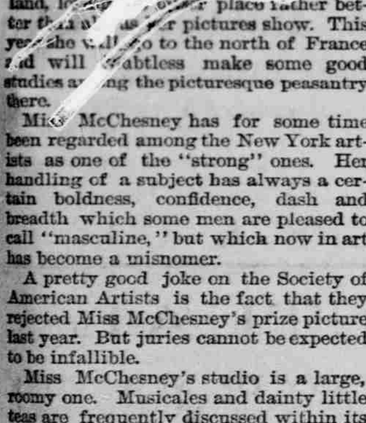
A pretty good joke on the Society of American Artists is the fact that they rejected Miss McChesney's prize picture last year. But juries cannot be expected to be infallible.

Miss McChesney's studio is a large, roomy one. Musicales and dainty little teas are frequently discussed within its walls.

Miss Edith Mitchell, winner of the second Hallgarten prize, which is for one of the best three pictures in oil colors by an American citizen under 35 years of age, is a New Yorker who studied first at the Art Students' league. She afterward went to Paris and attended the Julien academy, her teachers being Bouguereau, Robert Fleury and for a short time Gustave Courtois.

Miss Mitchell first exhibited in New York in 1884, when a "Study of Roses" was hung in the autumn academy. This was followed by flower pictures, portraits and landscapes at intervals.

"Hagar," the prize painting, represents the unfortunate mother at the moment when she has laid the wasted form of the child upon the ground in the wilderness, and with arms stretched despairingly toward heaven prays God that she may not see it die. The treat-



MRS. J. FRANCIS MURPHY.

ment of the subject is strikingly dramatic. The agony of the mother and the desolation of the arid waste graphically tell the story. In color it is subdued and low in tone.

Mrs. J. Francis Murphy, winner of the third Hallgarten prize, is a charming little woman, with a merry, girlish face, blue eyes that will laugh in spite of her and a head of fluffy, light brown hair. You would never think, to look at her, that she was such a persistent, earnest little worker.

At first, when she painted only landscapes, people were wont to say, "Oh, her husband helps her, of course!" Then, when she began to put in the little figures, they concluded she did have some talent of her own. Strangely enough, the prize picture is her first painting of a large figure. It is about life size and is admirably drawn and modeled. Her other figures have been only a few inches tall.

The picture is called "That Difficult Word" and represents a girl of about 12 years sitting by a table before a window, with her finger upon the open page of a book. The pretty face is in profile and the figure mostly in shadow.

In some ways it is rather trying to be the spouse of a noted individual in your own line of work. Mrs. Murphy, by her independent departure in a different field of art, has demonstrated that she no longer shines by reflected glory.

ALICE E. IVES.

ENTRE NOUS.

Kate Jordan's Gossip of Fact and Fad For the Fair Sex.

Why do my lady's teeth decay so much earlier than her mother's and so very much earlier than her grandmother's? Scarcely a woman can be found without gold filling in many teeth, even if it is not visible, and from the legions who have been forced to the horrible creations known as "false sets" deliver us. According to a dentist, the reasons are many. In this country there is little or no lime in the water, Americans eat tons of sweetmeats and are devotees of pie. A great many think a hurried scouring with a wet brush sufficient every morning, and meanwhile the interstices of the teeth become thickened with all sorts of ruinous refuse matter that corrodes and discolors. Try using a fairly hard brush twice a day with a good powder made of camphorated chalk and orris. After every meal run a piece of waxed dental floss between the teeth—this may be found at the toilet counter of any large shop—say goodby to candies forever and make periodical renunciations of pastries and drugs.

These are the days for equestrians. I notice that black is the popular color for the habit this spring, and anything more natty than this with a scarlet waistcoat, a lustrous white silk cravat and a mannish boutonniere in the lapel would be hard to find. The derby is still popular, but nothing is so becoming as the regulation pot hat.

There is a revolt of English girls against the chaperon and the maid. Every one knew this would come some day, and now the rebellion is here. The English girl has grown to see the absurdity of having to take every step abroad under a watcher or a bodyguard. This state of affairs has really been responsible for many loveless marriages in England. It became a question of escaping from the rigor of an uncongenial home and the slavery of the unmarried state. Miss Pretty Face has to have her maid with her from the house to the shop, the chaperon at every fete or rout. She did not breathe save under surveillance of some sort. But Miss Pretty Face marries and becomes Mrs. Go Ahead. Ah, witness the difference! She can go anywhere alone, drive in a hansom, even go without her husband to a ball, and, more than this, the men flock around her as they never did when she was prim Miss Pretty Face. The English girls have mentally digested this problem and have decided to obtain liberty without making the sacrifice to self respect demanded by an uncongenial marriage. Good luck to them, say I!

Peach pink is to be a very popular color this summer. It is almost pretty enough to eat in the gauzy organdies displayed. A very good combination is peach pink and faint dove gray.

Would you believe it that in New York, that great big progressive town, at the end of the nineteenth century there is a little negro man who makes a good living by invoking all the black art attached to voodooism in the behalf of lovelorn ladies or forsaken wives? One almost becomes ashamed of one's sex at such a discovery. Women fairly flock to him. He makes the troubled one send forth an invocation to the immortal spirits to give her back her love. This is written in blood, and the poor idiot sits obediently with her feet on a skull, a naked sword under her chair.

If you want to keep the throat white and soft, close collars should never be worn. These make the skin yellow, and after a year of this binding a thin neck will be found to be thinner.

Belts disfigure the form at the waist line. The girdle drooping low in front adds to grace and makes a waist longer.

It is wonderful how accepted the fashion of parting the hair in the middle has become. It was a rare thing to see a woman with this coiffure two years ago. Now it is almost universal. But I hardly think the severe plastered style that was really in vogue in 1830 will ever be revived. The sense of beauty is too strongly developed now, and the severe parting is relieved by flossy tendrils on the brow or soft waved bands.

The black silk coat, with a frou frou of lace or silk half bodice worn underneath, is popular and economical. A very pretty one displayed in a Broadway shop was made of crusted lustrous silk, lined with lettuce green taffeta. Quite apart from this is the vest made on a foundation like a man's waistcoat. This was of the delicate green veiled in draped folds of softest black tulle. The collar was of velvet to match the vest, and at the left side a pin, representing a green lizard with green eyes, was coquettishly stuck.

The superstitious say that to wear a moonstone on the middle finger of the left hand will surely bring luck.

To make your skin white lay peroxide of hydrogen on with a small silk sponge once a week. This is absolutely harmless, yet an excellent bleach. Be sure to rub it off after a few moments.

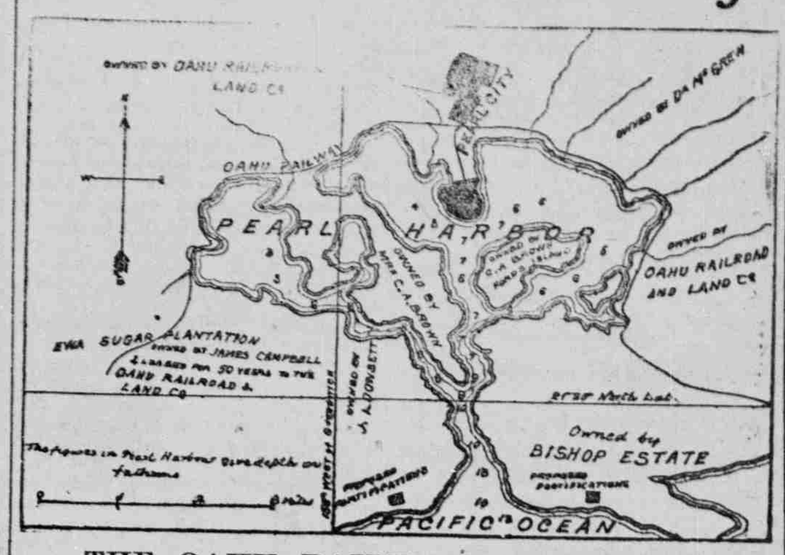
Homes at Pearl City!



THE OAHU RAILWAY & LAND CO.

Offer the Public Another Great Opportunity to Secure Homes in One of the Most Delightful Localities to be Found in the Paradise of the Pacific.

As a healthly resort—PearlCity has already established an enviable reputation. Many good citizens in this community have experienced the wonderful effect produced by a few days sojourn in that dry, cool atmosphere, and give grateful testimony to the relief they have almost instantly gained from severe and long continued attacks of asthma. Physicians acquainted with the climate of Pearl City recommend it as a natural sanitarium.

The Water Supply is Ample.

And can be increased to meet the needs of a population equal to the largest city in the world.

PROF. A. B. LYONS of Oahu College is our authority for stating that the water supply is the purest yet discovered in this country.

SPECIAL INDUCEMENTS TO EARLY SETTLERS!

For ninety days from date we will sell LOTS ON SPECIAL TERMS favorable to bona-fide settlers. For a term of three months from date, lumber and all building materials will be supplied, and delivered at Pearl City at much lower price than ever before obtained.

For further particulars, call at this office or on any of the lumber dealers in this city. Those who now own lots as well as those who propose to become residents of that growing city, will do well to embrace this opportunity. Those who avail themselves of this offer, within the time named, will be entitled to, and will receive the following benefits:

For a term of ten years, this Company will carry such residents and their families from Pearl City to Honolulu in the morning [arriving a little before seven o'clock], and from Honolulu to Pearl City in the evening [leaving Honolulu station a little after five o'clock], for ten cents each way, a rate less than one cent per mile. The rates on all other passenger trains running during the day or night will be 1½ cents per mile first class, and 1 cent per mile second class.

A good school is about to be opened in the Peninsula, in the fine, large, new school-house erected by Mr. J. T. Waterhouse. Residents living at Pearl City heights, [above Pearl City station] and those having homes on the Peninsula, will be allowed to ride free on regular trains between Pearl City stations to and from the Peninsula.

Those who want to continue to send their children to schools in Honolulu, can have transportation on all regular trains to and from Pearl City, for the purpose of attending school at five cents each way for each pupil. This is equal to 24 to 26 miles ride for ten cents.

Equal inducements for those desiring to secure homes in this country have never before been offered to the public.

This Company has been requested from abroad to name the price of all their unsold land in that locality.

Should a clearance sale be made to a syndicate, no opportunity like the present would again occur for the purchase of homes at Pearl City.

"A word to the wise is sufficient."

MONDAY. : JUNE 25, 1894.

THE Constitutional Convention will renew its labors this morning with the revised draft of the Constitution before them. The second reading should be completed and the Constitution printed and ready for promulgation by the 4th of July.

THE statement that the refusal of the Government to allow the sailors and marines from the Champion to land for drill was due to the influence of American naval officers, is absolutely without foundation and is, indeed, preposterous. The officers of the Philadelphia knew nothing whatever of the matter.

MERELY A FORM.

The filing by Liliuokalani of a protest against the new Republic of Hawaii must be regarded as a purely formal act, without ulterior significance. As the ex-queen has not abandoned her claims to the throne of Hawaii, she cannot well avoid entering a protest when she sees foreign powers about to recognize a permanent government which takes no account of her claims and simply leaves her out. She protested because that is all that is left which she can do. Probably this unregarded protest by the ex-monarch will prove to be the last official or unofficial act of the royalist party. Unless the ex-queen is even more foolishly advised than her worst enemies imagine her to be, it is not likely that she will prove longer recalcitrant, now that the Republic of Hawaii is about to be firmly established. Her advisers of the better class, men of the stamp of J. O. Carter and H. A. Widemann, are not likely to recommend an opposition which, in the face of the actual situation, can only be prejudicial to her interests. The lost cause of the monarchy is not one for which the few men of weight on that side are willing to do, or to recommend others to do, any fighting. Men of sense among the royalists—and, of course, there are some men of sense among them—recognize the fact that even if the monarchy could be restored it would not bring peace to Hawaii. They know, moreover, that it cannot be restored. It is therefore probable that the influences of such men will be used henceforth to induce Liliuokalani and the stalwarts of her party, to give up the unequal fight.

Those royalists, who really value the peace and welfare of their native land, have now an opportunity to contribute to both. They can step within the law, acknowledge the situation, and assume the position of a constitutional opposition. To persist further in an opposition which has become as hopeless as it is refractory, can benefit neither the country nor themselves. On the other hand, both will profit if the course indicated above is adopted.

If Liliuokalani will seize the present occasion and formally abandon her claims to sovereignty, it is not improbable that the Convention or the new Government will be disposed to deal liberally with her. It is true that her attitude hitherto has not been of a kind to make friends of her enemies. The spirit, moreover, which she has manifested toward them has been, to put it very mildly, somewhat tinged with vindictiveness. No one, however, has the least desire to serve her as she would have served us, and we believe the new Republic will be very ready to let bygones be bygones. The glorious day which sees the permanent establishment of a Republic in Hawaii should be a day of malice toward no one, but of the widest charity toward all. There is a corner of the mantle for Liliuokalani, if she chooses to get under it.

Let it not be imagined, however, that the willingness of the Government to make provision for the ex-queen, is something which will last forever. There is an end to the largest stock of patience. Now is the time to compromise a claim which will soon be as effectually barred in grace and charity as it already is in law and equity. The eleventh hour has already struck. When it has run out there will be no more pensions.

THE SENATE ON HAWAII.

The unanimous adoption by the Sonate of the Turpie Hawaiian resolution puts our relations with the island republic on a satisfactory footing at least for the present. The resolution declares "that it belongs wholly to the people of Hawaii to establish and maintain its own form of government and domestic policy, that the United States ought not in any way to interfere therewith and that interference in the political affairs of those islands by any other Government will be regarded as an unfriendly act to the United States."

This is a notification to the world that Hawaii must be left to work out her own destiny until she is ready to ask our assistance with the consent of the majority of her people. It is also a notice to the ex-queen and her partisans that they can look for no help from the United States. Among the ignorant natives of Hawaii the belief has been sedulously propagated that President Cleveland would soon restore Liliuokalani by force. This resolution, introduced by a Democratic Senator and passed without a negative vote on either side of the Senate, will make it impossible to keep up such delusion any longer.

The effect of this action in Hawaii will be decisive. It will either ease the present strain or bring on a clash that will determine once for all which party in the islands is physically the stronger. It has been darkly intimated that the royalists have been only waiting for a definite announcement of American policy, and that if intervention in behalf of the Queen should be finally refused there would be an immediate and bloody rising. We shall see now how much truth there is in these rumors. The Queen has no longer any resource beyond her own followers. If they fail to carry out their threats the constitutional government may be considered reasonably stable.—S. F. Examiner.

Excursion to Maui.

MR. EDITOR:—The entries for the Fourth of July races closed on June 21st with all the races filled. We will make it a good day. We would like to see our Honolulu friends up here again. If some one would get up a paper and get 100 signatures no doubt the Wilder S. S. Co. would run a steamer, leaving Honolulu on Tuesday and returning on the 4th after the races. The track is in good order, and everything promises a good day's sport. MAUI.

To Walk Around the World.

Another pedestrian tour of the world is about to be undertaken, this time by Fred Thoernir and Gus Koegel, who will start from this city this morning at 6 o'clock.

Their course will be through California, Nevada, Utah, Wyoming, Colorado, Nebraska, Iowa, Illinois, Indiana, Ohio, Pennsylvania and New Jersey. From New York they go by steamer to Spain, France, Switzerland, Germany, Bavaria, Austro-Hungary, Russia, Siberia, Japan and Honolulu. They are to make the trip in two years, starting without a cent and not borrowing, begging or receiving gifts on the way. They expect to make enough money to keep them going by selling their photographs.—S. F. Examiner, June 10.

Germany Will Not Retaliate.

WASHINGTON, June 9.—The German Legation denies the story that the German Minister has notified the United States that Germany will place a retaliatory duty on pork if this Government insists upon a discriminating duty on sugar.

There are no undertakers in Japan. When a person dies it is the custom for his nearest relatives to put him in a coffin and bury him, and the mourning does not begin until after burial.

Those who declare that the earth is gradually drying out, and that within a few centuries every drop of water will have disappeared from our planet, will find consolation in the announcement that the water line has risen one foot all around the Gulf of Mexico since 1850.

FOR A GREAT GLASS.

Telescope Fifty Inches in Diameter.

PITTSBURG (Pa.), June 9.—The hope of John A. Brashear, Pittsburg's famous maker of telescopic lenses, that Pittsburg and Allegheny might some day possess the finest telescope and observatory in the world is in a fair way to be realized. Andrew Carneige and Henry Phipps Jr., it is stated on reliable authority, have offered to contribute the greater part of the $150,000 which will, at the lowest estimate, be required to equip the proposed observatory with the largest lens in the world. Mr. Carneige, it is understood, stands ready to pay his subscription as soon as the details of cost for its construction and maintainance can be estimated.

It is proposed to make the lenses fifty inches in diameter. Mr. Brashear is confident that he can make them that size, but to grind the monster piece of crown and flint glass, which fit together to make the archromatic refractive lens, will take at least a year. The idea of the cost may be imagined when it is known that a glass less than a foot in diameter costs $8000 unmounted. The tube for the telescope will be at least sixty three feet long. The location is to be on a hill recently purchased by the city of Allegheny adjacent to Watson Park, and may bear the name of "River View."

The absence of the "Maui mule" at this season's races should not deter people from visiting the race track on Monday, there are enough events to satisfy everyone and give people opportunities to place their money. The road to the park has been put in first-class order by the road supervisor and his aids and everything will be in shape for a glorious holiday.

The Clauss Bread Knife sold by us is acknowledged to be the best bread knife made; it will last longer than an ordinary knife for cutting bread because it cannot be used for anything else. One set of three knives goes to you for a dollar; you would'nt part with them for $10 if you could not replace them.

If you believe the "ads." you read, the Grand Rapids Carpet Sweeper is the best manufactured; we know from experience that the "ads." are correct. We've sold a great many of these sweepers to people who have polished floors in their houses and who don't care to get down on their "hunkers" and shove a dust brush. The price is the same all over, our's is a little less.

The season for using Hendry's Ready Mixed Paints is here and so are the paints. We have a complete stock of desirable colors for inside and outside work. Color cards furnished upon application.

KAUAI NOTES.

Concert in Lihue for the Industrial School.

A delightful treat was given the residents of Lihue and neighboring districts on the evening of June 16th by a grand concert for the Kauai Industrial School, gotten up through the kindly efforts of Mrs. W. H. Rice, who is always so active in all good works.

The Lihue church was beautifully decorated for the occasion by the skillful hands of Mrs. Hastings and Mrs. Coney, the flowers being furnished by Mrs. S. W. Wilcox. The fine piano was loaned by Mrs. Alexander.

The pleasing programme included many brilliant artists with new names but familiar faces. Madame d'Evers, Signorina Anini, Rose White, Daisy Bell and Pansy Rice's rendering of their several instrumental and vocal parts was specially effective, as the frequent encores testified. Messrs. Jan Allister, Fitzgerald, St. Clair and Sir Francis were in unusually good voice and were enthusiastically received. The singing of the boarding school Glee Club was excellent and showed the results of careful training.

After the concert was over, refreshments were served from booths in the church yard, bringing in returns that added materially to the proceeds of the concert, which netted $175.

The trustees of the school take this opportunity to express their hearty thanks and grateful appreciation of the kindly feeling shown by all those who planned and took part in this charming entertainment, including the friends in distant parts of the island who contributed toward it by purchasing tickets.

The following is the programme:

PART I.

1. Chorus—Autumn Winds.....Root
   Malumalu Glee Club.
2. Piano Duet—Jubilee Overture..Weber
   Signorina Anini and Madame d'Evers.
3. Part Song—Sweet and Low ...Barnby
   Signorina Anini, Rose White, Jan Allister, F. St. Clair.
4. Ballad—The Fugitive .....Schumann
   Jan Allister.
5. Piano Duet—Transcription from a German Song.....Mendelssohn
   Rose White and Pansy Rice.
6. Song—Leonora.....Trotere
   Fitzgerald St. Clair.
7. Piano Solo—Fandango.....Grau
   Signorina Anini.

PART II.

1. Chorus—The Happy Peasants...
   ..... Schumann
   Malumalu Glee Club.
2. Piano Duet—Lustspiel Overture...
   ..... Kelar Bela
   Daisy Bell and Rose White.
3. Song—Paradise Square.....Lohr
   Sir Francis.
4. Chorus—The Village Bells.....Ogden
   Malumalu Glee Club.
5. Piano Solo—Champagne Perls....Voss
   Madame d'Evers.
6. Solo—Patria.....Tito Mattei
   Jan Allister.
7. Piano Duet—Czardas.....Kelar Bela
   Signorina Anini and Rose White.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

The attention of Planters and Agents is called to the following letter from Mr. JOHN A. SCOTT, Manager of the Hilo Sugar Co., regarding the working of the National Cane Shredder, which he has just introduced into the Mill of that Company:

WAINAKU, HILO, HAWAII, January 22d, 1894.

HON. WM. G. IRWIN, HONOLULU, H. I.

DEAR SIR:—In reply to yours of the 16th inst. regarding the National Cane Shredder furnished by the Universal Mill Co of New York, and erected by the Hilo Sugar Co. this past season,

I would beg to say, that it has now been in operation day and night during the past three weeks working on plant cane, and also hard ratoons, and it is giving me the greatest satisfaction. The more I see of its capabilities, the better pleased I am that I put it in, as I am satisfied that it will repay the original outlay in a short time, in saving of labor, higher extraction, etc.

It is shredding from 350 to 400 tons of cane every 22 hours with the greatest ease, and it could shred a much larger quantity if necessary. It delivers the shredded cane in an even uniform feed to the three roller mill, which receives it without the intervention of any labor, and as the cane is thoroughly shredded or disintegrated it relieves the mill of a great deal of strain, thus reducing the liability of broken shafts, gearing, etc.

There is a saving of four (4) men daily on the mill, as only one man is required to regulate the amount of cane delivered by the carrier to the shredder. It has increased the extraction from 4 to 5 per cent.

The economical use of steam is generally a serious consideration in adding new machinery, as in most mills the boiler power is taxed to its highest limit, as it was in this mill, and any increased demand necessitated an additional boiler. But I find that the shredder and the three roll mill engines combined use no more steam than the three roll mill engine did when working on whole cane, while doing better work and more of it, and owing to the uniform feed on the mill, the engine demands very little attention.

The Megass from the shredded cane makes superior fuel, and the firemen have less difficulty in maintaining a uniform pressure of steam than formerly.

I will be pleased to have a call from parties interested, as it is necessary to see the machine at work to fully appreciate its capabilities.

I remain, very truly yours,
(Sig.) JOHN A. SCOTT,
Manager Hilo Sugar Co.

☞Plans for erection of these shredders may be seen at the office of the Agents, where prices and other particulars may also be obtained.

TWO NEW UNITED STATES SENATORS.

TRAMPING AROUND THE WORLD

Charles Randall to Receive a Large Amount under Conditions.

The San Francisco Chronicle of the 10th instant says: "The Australia sailed for Honolulu with quite a number of passengers. Among the passengers who did not go, however, was Charles Randall, the young Englishman who is tramping around the globe for $10,000, to be given him in case he gets home in two years. As he cannot 'beg, borrow or steal,' his modesty is likely to cost him the purse put up by the Liverpool Athletic Club. That organization has lost $10,000 on him already on his tramp from New York to this city. He lost the Alameda by refusing to stay aboard without being asked, as that would be stealing a ride, and, with that steamer, went his last chance of reaching the islands. Yesterday he was waiting to see John D. Spreckels, but, as that gentleman did not arrive, nothing could be found to induce him to go aboard the Australia. This morning he will start to walk to Alaska, but how he expects to reach Honolulu from there is a mystery. He may next be heard of in the Arctic.

A Big Map.

The giant of the map family is now in course of preparation and construction at Washington, D. C. It was begun over 12 years ago, under the supervision of the United States Geological Survey Corps, and it will not be more than half completed at the end of the present century. Some idea of the gigantic plan upon which the map is being constructed and of the magnitude of such an undertaking mry be formed by considering the fact that the portion which delineates the little State of Connecticut and the northern tip of Long Island is six feet in length and nearly five feet wide. When this wonderful map is finished it will indicate the exact location of every brook, creek, river, hillock, mountain, valley, farm, village, schoolhouse and public and private road and highway as perfectly as the surveyor's map gives them in the townships. When completed this map will cover almost an acre in superficial area. This being the case it cannot be eitner hung up or spread out, and in order to make the information it contains available it will be issued on the sectional plan.—St. Louis Republic.

The Corinth Ship Canal.

According to the recent report of the British Acting-Consul at Patras the Corinth ship canal is up to the present but little used. Between the opening of the canal in November and the end of February the only vessels passing through have been a few ships of war, some yachts, and about 200 small Greek sailing craft, although the canal is open to vessels of all nationalities not over 65 feet 7½ inches wide, and drawing not more than 23 feet 8¾ inches of water. The toll charged are as follows: Mail and passenger steamers, either to or coming from the Adriatic Sea, pay 15 cents per register ton and 20 cents for each passenger carried, both in gold.—Scientific American.

IMPORTANT!

National and Citizens' Guards.

Having now arranged for the insertion of the Process photos on the HISTORY OF THE REVOLUTION of nearly all the social and political bodies connected with the Revolution we feel that there is nobody that deserves to be placed more highly on record than those citizens that at great inconvenience banded themselves together to protect life and property during the stormy days of the formation of the Provisional Government, we have decided to devote a series of pages to the officers and privates of the National Guard and Citizens' Guard. Some thirty or forty names have already been sent in and we shall be grateful if any member desiring to appear will send word to Mr. Wellesley Parker care of this office when he will immediately call and furnish full particulars.

Early attention to this is requested as the pictorial pages to the History must positively be closed in a few weeks.

A liver-and-white pointer dog, about three months old, has been lost.

The National Band will go to Maui to furnish the music at the races.

The closing exercises of the Kamehameha schools will take place on Wednesday.

Three new pieces will be played at the band concert this evening at Emma Square.

James Quinn, the hackman, was attired in a suit of delicate green yesterday. His friends claim that he has been appointed Minister for Ireland.

The Fourth of July Committee offers prizes of $50, $40, $30, $20 and $10 for the five buildings that show the best decorations on the glorious Fourth.

The Rev. T. D Garvin preached, morning and evening, in Central Union Church yesterday. Rev. Mr. Penfield is expected to arrive on the Mariposa.

The crew of the Philadelphia made up a purse of $70 recently and presented it to Nick Burley, the pugilist, before his departure on the Australia.

Osaki, the Japanese merchant, who is charged with making a false entry, had a preliminary examination on Saturday. Judge Perry reserved his decision.

The mail sent away by the Australia contained 8498 letters and 3615 papers. About one-half of the letters were left at the post-office during Saturday morning.

The variety troupe expected on the Belgic is said to be a first-class combination. It is said that orders have been received by the local agents of the steamship company to hold the vessel over night.

There was a very slim audience at the Opera House Saturday night. The Champion minstrel company was the attraction, and the performance was given for the benefit of the British Benevolent Society.

One of Mr. Paine's palatial conveyances ran off the track on the curve at the corner of Beretania and Fort streets yesterday morning and smashed into a picket fence. Fortunately, no one was hurt. The cause of the accident was the fact of the driver being in too great a hurry.

IN TEN INNINGS.

The Hawaiis and Crescents Play Good Ball.

	Games Won.	Games Lost.	Games Played.	Per-c'ntge.
Kam's....	5	1	6	.833
Hawaiis.	3	3	6	.500
Crescents	1	5	6	.167

JUST one error, made by Percy Lishman, ruined the chances of the Crescents in Saturday's ball game. The score stood two each, two of the Hawaiis men were out, and one was on third. The Crescents' catcher thought he was leading off his base too much, and tried to catch him napping. He threw the ball to Lishman straight as a string, but Percy got rattled, and made a costly muff, and the winning run was scored.

It was essentially a pitcher's game. Woods, the Crescents speedy twirler, did some splendid work. At one time, with three men on bases, he got down to his work and struck the next three men out, retiring the Hawaiis without a run. Ahia also pitched a strong game for the Hawaiis.

Twice during the game the score was tied. At the end of the eighth inning, it stood two to two. The Crescents were retired in their half of the ninth without a run, and the Hawaiis came very near meeting the same fate, and probably would have, but for Lishman's unfortunate play.

The following is the official score:

THE TAGAWA COAL MINE!

is located in Fukuoka Ken in the Island of Kinshui, Japan, and was discovered about twenty years ago. It was owned by the government and mined simply for the government's use.

Great improvements, however were made since it was sold to a corporation about six years ago, by importing mining machinery from Europe and America.

TAGAWA COAL

is used more than any other Japanese coals in the following countries: China, Manila and Strait's Settlements. It has found its way even to Bombay.

Two cargoes have been imported into the Hawaiian Islands recently, and it has no superior in this market as stove or steam coal.

MURDERER ST. CLAIR.

The United States Attorney Receives the Supreme Court's Opinion.

United States District Attorney Garter yesterday received from Washington a copy of the Supreme Court's opinion affirming the decision of the Circuit Court in the case of J. St. Clair, one of the trio of Hesper murderers says the Examiner of the 10th inst.

The opinion holds that the indictment against St. Clair was legally drawn; that, contrary to the claims of the appellant, the jury was properly chosen, and that the fact that the jury rendered a verdict of simply guilty did not make the verdict indefinate, because it was an answer to the indictment which charged St. Clair, together with Sparf and Hansen, with the murder of Mate Fitzgerald of the American bark Hesper on the high seas within the jurisdiction of the United States.

Sparf, Hansen and St. Clair are all confined in the San Jose County Jail awaiting the arrival of the mandate of the Supreme Court which condemns them to be hanged.

WHARF AND WAVE.

DIAMOND HEAD, June 24, 10 P. M.—Weather, cloudy; wind, light N. E.

P. Cassidy, formerly mate of the ship Empire, and two seamen left for San Francisco on the Australia.

The steamer Waialeale came in on Saturday without a bag of sugar. She leaves again this morning.

The departure of the Australia was a lively event. A large crowd of people was on the wharf to see her off.

The British bark Alexandra is on her way to this port from Newcastle, N. S. W. She left during this month.

The schooner Zampa left Kahului for San Francisco on the 21st instant. Her cargo of sugar was valued at $30,206.25.

What remains of the steamer Waimanalo was sold at auction on Saturday for $1000. Captain Davies was the purchaser.

The steamers Claudine, Iwalani and James Makee arrived yesterday. The Makee was the only vessel of the three that did not bring any sugar.

The British bark Drumeltan which went ashore on the coast of Japan while bound for Tacoma from Shanghai, has been towed off the rocks and taken to Nagasaki for repairs.

A so-called "rockless" boat is creating considerable speculation both in Seattle and Tacoma. The inventor has made several tests with it, and the rocking of the boat is declared to be almost imperceptible.

For the past two weeks the island steamers have been bringing quite a number of Japanese, whose contracts have expired, to town. Most of them will soon leave for home on the Japanese steamer now due.

WASHINGTON, June 9.—The report of Past Assistant Engineer Willets, who represented the Engineering Bureau on the Minneapolis' trial trip, was received at the Navy Department today. The report says the performance of the machinery was remarkably good.

SEATTLE, June 9.—The United States cutter Grant arrived here tonight. She had started for Alaska, but, off Cape Flattery, captured two schooners—the C. C. Perkins and Puritan—with 380 sealskins. Ten Indians are in custody. They refuse to give the names of the owners.

VICTORIA, B. C., June 9.—During a heavy south-east gale, the British ship Borrowdale, which was just leaving the harbor to tow to Vance, ran on the rocks off McAuley Point, where she is still lying in a dangerous position, despite the efforts of the steamer Islander and other powerful craft to release her.

The steamer Australia slowed down while off Coco Head on Saturday and lowered a boat, and to all appearances a search was made. The boat then put back and the steamer went on her way after a stop of a half an hour. The supposition is that one of the passengers either fell or jumped overboard.

PHILADELPHIA, June 9.—The big cruiser Columbia is resting on the blocks in the dry dock at the League Island Navy Yard. The court of inquiry took a look at the Columbia today, and were as much surprised as the attaches of the navy yard at the apparently trifling nature of her injuries. The Cramps will begin the work of repairing at once.

The schooner Transit, Captain Jorgensen, arrived yesterday fourteen days from San Francisco. She brought four passengers and the following cargo: 550 bbls. flour, 700 bbls. lime, 6040 feet lumber, 6150 lbs. lard, 2765 gals. wine, 600 lbs. hops, 76 tons fertilizers, 30,000 bricks, 380 sacks bran, 7293 lbs. bread, 11,682 lbs. sugar, 1046 ctls. barley, 6083 lbs. beans, 19 cs. boots and shoes, 613,000 shingles, 380 lbs. tea, 100 bbls. 10 hf. do. and 10 cs. salmon, 20 bales hay, valued at $24,662.

A rain maker in India has an apparatus consisting of a rocket capable of rising to the height of a mile, containing a reservior of ether. In its descent it opens a parachute, which causes it to come down slowly. The ether is thrown out in fine spray, and its absorption of heat is said to lower the temperature about it sufficiently to condense the vapor and produce a limited shower.

Swedes believe that the devil has power over a child until it is baptized.
