THE PAUAHI HALL DEDICATED.

Cornerstone of Punahou's New Hall Laid.

PROMINENT PEOPLE GATHERING.

President Dole Dedicates Building to Cause of "Science Education and Christian Civilization" — President Hosmer's Address—Pupils Take Part.

THERE WAS A short cessation in the work of erecting the new hall at Punahou yesterday. Yet the busy click of the stonecutter's hammers in the adjoining shed gave evidence that all was in readiness to push the work forward immediately the cornerstone was well in place.

The ceremonies attending the laying of the corner stone were attended by a large and representative gathering. Every feature of the program passed off with remarkable celerity.

The grounds, always attractive, were made doubly so in the vicinity of the new hall by the liberal distribution of bunting. Over the open basement a temporary platform had been erected, and about this festoons of buff and blue, the college colors, were tastily draped. From the peak of the derrick the Hawaiian flag fluttered in the wind. There was nothing particularly elaborate in the decorations, yet all was done well and in order. Seats for the guests were arranged on the platform and under the shade of surrounding trees. The National band was stationed on the lawn back of the audience and livened the proceedings with the usual national selections.

The exercises began promptly at the appointed hour. Besides the speakers those seated on the platform were: Minister Willis, Mr. J. B. Atherton, P. C. Jones, Col. W. F. Allen, Rev. Alex. Mackintosh, Prof. Alexander, Prof. W. T. Brigham, Rev. Hiram Bingham, Mr. Carter, Rev. Mr. Bishop and the faculty of Oahu college.

After the opening selection by the band, Rev. C. M. Hyde offered a most eloquent prayer. The opening address was made by President Hosmer. Mr. Hosmer said:

If there is anything in which we are all equally interested it is the welfare of the young, and there are few who do not have at heart the best interests of the schools. The question of education is always with us and it is always new.

Under a government where there is the utmost toleration of religious thought, the public schools must be carefully guarded from anything that would arouse religious controversy. They are distinctively for mental culture; but the end cannot be attained if no attention be paid to moral and spiritual soundness. The heart needs looking after as well as the brain. Sound morality is vital to all culture, and without it any course of education is in vain.

Nor can the schools safely assume that this moral instruction will be provided by the outside influences of the home and the church, for we know that a large proportion of every community is non-churchgoing.

Children soon learn instinctively the prevailing sympathies of their instructors, whether the atmosphere of the school is favorable or opposed to the teaching of Christianity. Shall that atmosphere be filled with agnosticism or with whatsoever things are true, and lovely, and of good report?

We have strong convictions upon this subject. We believe that in the bible are the sources of the highest information and the highest.

Oahu College is distinctively a Christian institution and the formation of character is recognized as the first object of all instruction.

True education is the development of the whole being—the heart, and soul, and mind, and strength. And as we are met to lay the cornerstone of this building, we call to mind the teachings of the missionary fathers who founded this school. While we have been determined to make the same progress they would have made, had they lived in this day, we are brought to testify that Punahou is still faithful to the same truth, which was the abiding principle of their lives.

"New occasions teach new duties; Time makes ancient good uncouth;
They must upward still, and onward, who would keep abreast of Truth;
Lo, before us gleam her camp-fires! we ourselves must Pilgrims be,
Launch our Mayflower, and steer boldly through the desperate winter sea,
Nor attempt the Future's portal with the Past's blood-rusted key."

Addresses were then made by Chief Justice Judd and Hon. William R. Castle. These were full of interesting historical facts and loyal sentiments for the cause of education. The full text of these addresses will be given in a subsequent issue.

The impressive ceremony of laying the cornerstone was performed by President Dole. It is interesting to note in this connection that Mr. Dole's father was the first President of Oahu College, and Mr. Dole was born during his father's term of office. As the President stepped to the front, the stone was lowered, mortar was spread and leveled with the bright, new trowel in the hands of the President. When the stone was leveled and well in place, President Dole said: "At the request of Hon. C. R. Bishop and the trustees of Oahu College, I now dedicate this building to the cause of science, education and Christian civilization.

He then stated that at the request of Mr. Bishop, he would announce the name of the building as Pauahia hall.

The scholars of the institution then sang, "God Bless Our Native Land," led by Miss Axtell. After the benediction, the "Hawaii Ponoi" was sung, the gathering dispersed and the busy masons and stone-cutters went on with their work of building carefully above the well laid cornerstone.

Colonel and Mrs. W. A. Allen were present at the exercises, as representatives of Mr. C. R. Bishop, and Rev. Hiram Bingham, as the representative of his father, who gave the grounds of Oahu College.

Following is the list of articles placed in the box of the cornerstone:

CANE SUGAR.

Spreckels to Go Into Cane Raising in California.

STOCKTON, Nov. 27.—John Sherman and Hugh Center, representing the Spreckels of San Francisco, arrived in this city this morning and visited the Government Experimental Station on Roberts Island, where sugar cane is being cultivated. The men said that from what they had heard of the station they believed the rose-bamboo, a different species than that now grown on the island, could be raised with considerable success. If three tons were yielded to the acre the business of raising sugar cane would be very profitable, as the cost of transportation of unrefined sugar to San Francisco by boat would be very small. From five to seven tons per acre is now raised on the island. If the representatives report favorably the Spreckels intend to establish a sugar-cane plantation on Roberts Island.

Stowaways Captured.

Word was received at police headquarters last evening that two of the escaped stowaways had been captured and were detained at Kaneohe court house. The three men were discovered in a house in the district. One escaped through a window, but it was thought he would be captured before morning.

No Pastor Called.

The Central Union Church is yet without a permanent pastor. At the meeting held last evening only 127 ballots were cast. As 160 ballots are required to call a pastor the meeting adjourned to hold another session at 7:30 next Wednesday evening. It was voted that the polls should remain open until next Wednesday.

The Trans-Mississippi Congress met at St. Louis on November 28, and at the evening session Hugh Craig, a merchant of San Francisco, read a paper on "Hawaii, Its Resources and Its Value to the United States."

CLAIM THE YOUMANS ESTATE.

The Wealthy New York Lady Leaves no Will Behind.

VALUABLE INTERESTS IN HAWAII.

Octogenarian Relatives Appear to Claim a Share of the Money—Mrs. Youman's Life Dating to the Time of Her Marriage in Honolulu.

NEW YORK, November 28.—Behind a somewhat dry inquiry to establish what relatives will secure the estate of the late Mrs. Katharine L. Youmans, which was heard before the Surrogate's assistant, Underhill, today, there is a very interesting story of the lost will of that famous old lady, who had been prominent in society and literary circles of this city for many years previous to her death, August 29th last.

That she made a will all her nearest friends are convinced, but it cannot be found, and since her death James L. Newton and Lucy Ladd, both more than eighty years old, have come forward from Ohio with a claim that they are the uncle and aunt, respectively, of Mrs. Youmans, and therefore entitled to her property in place of about forty second cousins who would otherwise benefit by her demise, providing a will be not discovered. The uncle and aunt admit that they had not seen or communicated with Mrs. Youmans for more than fifty years.

Mrs. Youmans had a handsome apartment in the Knickerbocker apartment house on Fifth avenue, which was filled with beautiful and costly antique furniture worth probably $40,000, and besides that she had a large estate consisting of several hundred thousands of dollars.

LEFT NO CHILDREN.

She was about seventy-five years old and left no children or near relatives surviving her. It is believed that in her will she made large public bequests to charitable institutions in and about New York, but just where she put her will and private papers is not known.

Mrs. Youman's property consisted largely of sugar plantations and estates on the Sandwich Islands, her ownership of which is invested in a romance of her youth. An early sweetheart, William Lee, wrote to her from Boston fifty years ago asking her hand in marriage and saying that he would sail for Honolulu if her answer did not reach him at a certain date. His letter was not received by the young girl until after Lee had sailed, but found her as greatly interested in him as Lee had been in her.

She followed him around the horn with a company of missionaries, having written him by an intermediate sailing vessel that she would come to him, and asking him that he meet her in Honolulu harbor with a minister if he had not meanwhile changed his mind.

HE WAS WAITING.

When her ship arrived at the Sandwich Islands, there was Lee with the dominie, and the couple were married aboard ship. Lee became chancellor of the island government, and at his death, fifteen years later, he left his widow property enough to make her wealthy. After her return to America she met and married Professor Edward Livingstone Youmans, who died in 1887.

Mrs. Youmans was a woman of very rare abilities, of wide and intelligent interest in the important movements of the age. It was said of her that she was a chief factor in securing to the Sandwich Islands the clause in the tariff laws admitting sugar from those islands free of duty. Her literary talents were of a high order.

Mrs. Youmans had repeatedly told Mary Mapes Dodge that she had no relatives in whom she had the slightest interest and no near relatives of any kind.

Recognition by Chili.

A letter of recognition from President Jorje Montt of Chili was received at the Foreign Department yesterday in answer to the letter sent out by President Dole July 7th. President Montt has the usual formal congratulation to offer the Republic and its President.

Important Sales Today.

James F. Morgan will hold auc-sales today as follows:

At 10 a. m., at salesrooms, dry goods, hardware, boots and shoes, furniture, etc.

At 10 a. m., at the Mail wharf, 1500 barrels of cement.

At noon, at salesrooms, real estate on Wilder avenue.

WILSON TARIFF BILL BLAMED.

The Reason Why Hawaii's Output is to be Diverted.

SHIPS TO GO DIRECT TO NEW YORK.

About 30,000 Tons in All Will be Shipped Around the Horn.—The Sugar to be Sent in Foreign Bottoms.—The Supply Exceeds the Demand.

After the first of the year the Western Sugar Refinery will commence shipping raw sugar from Honolulu to New York direct by sail. This will be the first time in the history of the islands that such a thing has been done, and the announcement will cause considerable surprise among merchants and shipping men. The fact has only been known to a few, although notice was served on the planters a few weeks ago. The reason given for the change is the world's over-production and consequent oversupply in this country. The Western Sugar Refinery has a contract for five years to take all the sugar produced on the islands. A special clause in the contract provides that the corporation may ship one-third of each year's production to any port, but the rest of the output must come to San Francisco. Various conjectures have been advanced as to the cause of the shipments around the Horn, and by some it is said that the railroad is at the bottom of it. The Western Sugar Refinery supplies the Coast and also sends considerable sugar across the Rockies. It is hinted that a greater amount than usual was to be sent East next year, but that the Southern Pacific would not make a suitable rate and that the sugar men decided to ship by sea and back from New York by rail. This statement, however, is denied by the officers of the Western Sugar Refinery, who claim that the change is merely due to an over-supply on the Pacific Coast, says a late Chronicle.

Robert Oxnard, secretary of the Western Sugar Refinery, was seen yesterday and admitted that shipments were to be made from the islands to New York. "The real cause of the new move," said Mr. Oxnard, "is the Wilson tariff bill, which has allowed so little margin on refined sugar. Under the McKinley law raw sugar was admitted free, and there was a duty of half a cent a pound on the refined product. Wilson put a duty of 40 per cent. ad valorem on the raw material and refined sugar, and added one-eighth of a cent to the latter. This leaves a very small percentage to the manufacturers to work on, with all other things equal. What has hurt California principally is the large amount of China sugar which has been shipped to San Francisco. This was done in anticipation of the passage of the tariff bill, and the shipments have been continued on account of the light duty on refined goods.

"We cannot compete in this country with Chinese manufactured goods, for the Asiatics can make them much cheaper than we can. In the Orients laborers receive $7 per month in the refineries. This amounts to $3.50 a month in our own money, or a fraction over 13 cents a day. We pay our men 20 cents an hour. Besides coming into competition with cheap labor, we have against us the fact that Hongkong is a free port. The manufacturers there have nothing to pay for any of their supplies. We supply Nevada and Utah exclusively and ship our goods as far east as the Missouri river. The supply, however, will be so much in excess of the demand of our territory that we must have another outlet. Consequently, we have decided to send our surplus raw material to New York."

"Is the railroad a factor in the new arrangement?" was asked.

"Not at all," replied Mr. Oxnard. "There are no other reasons than that which I have told you."

John D. Spreckels, president of the Western Sugar Refinery, corroborated the statements of Mr. Oxnard, and added that the new arrangement would have a weighty effect on the shipping trade between here and the islands. He said that there would be about 30,000 tons of sugar in all to go to New York, the transportation of which would require at least ten big deep-water vessels. Nearly all these vessels will be foreign bottoms, he said, owing to the lack of suitable American ships in port.

Among the shipping firms who will suffer by the diversion of freight to New York will be Williams, Dimond & Co., Welch & Co., Kentfield & Co, George F. Smith and Captain Charles Nelson. They all have lines plying between here and Honolulu, and the new arrangement means a loss to them.

A gentleman identified with the shipping interests in the island trade expressed it as his opinion that the sea shipments meant a fight against the railroad in the interest of the sugar trust. "The sugar men," said he, "have probably been unable to get satisfactory rates to the Missouri, and are going to fight the railroad by sea."

Kamehameha School for Girls.

The First Term of Kamehameha Girls' School opens

Wednesday, December 19th

Applications for admission may be addressed Miss Pope, either at Kamehameha Manual, or Miss Pope will be in the Hawaiian Kindergarten Room, Queen Emma Hall, Saturday mornings, from 9 to 12, where she will be pleased to meet applicants. The tuition is fifty dollars a year. No applicants received under 12 years of age.

All Is Not Gold That Glitters.

Behind a fair face oft times lurks deceit. A book with a handsome cover may contain nonsense. Shoes made for style alone, are like the house built upon the sands, the storms come and its glory departs—so does the customer to come again never more. For a firm grip on the affections of a customer, try McInerny SHOES, where style is not omitted or quality sacrificed.

The M'INERNY SHOE STORE is now an established fact, and prepared to show all graders and styles of shoes.

McINERNY'S

SHOE STORE.

The Accommodation Line.

ON AND AFTER NOVember 26, 1894, there will be a daily line of Stages from WAIALUA to PEARL CITY [Sundays excepted], leaving Waialua at 7 A.M. and arriving at Pearl City in time for the 11 o'clock tain for Honolulu; leaving Pearl City on arrival of 1:45 train from Honolulu, arriving at Waialua at 6 P.M.

Marshal's Sale.

BY VIRTUE OF A WRIT OF EXEcution issued out of the First Circuit Court, on the 1st day of November, A.D. 1894, against W. H. Cummings, defendant, in favor of Mrs. J. K. Iaukea, plaintiff, for the sum of $567.00, I have levied upon and shall expose for sale at the Police Station, in the District of Honolulu, Island of Oahu, at 12 o'clock noon of SATURDAY, the 29th day of December, 1894, to the highest bidder, all the right, title and interest of the said W. H Cummings, defendant, in and to the following property, unless said judgment, interest, costs and my expenses be previously paid.

List of property for sale:

1—Land at Kaluaopalena, Kalihi, Oahu, described in deed of J. Wahineaua to W. H. Cummings, dated April 14th, 1890, and recorded in Liber 122, pages 312.

2—Land described in R. P. 3494 to W. H. Cummings, dated August 28, 1890, containing 1 acre.

3—Land described in deed of Kuanu [w] and Luka [k], her husband to W. H. Cummings. dated July 30, 1890, recorded in Liber 25, page 291.

4—Land in Keonepanee, Kalihi, Oahu, described in R. P. 3477 to W. H. Cummings, dated March 20, 1890, containing an area of 4 acres.

5—19 Taro Patches with crop almost ripe.

6—House and Furniture.

7—Leases of lands at Kalihi:

A—Lease from Kahikina (w) and others to W. H. Cummings, dated July 1, 1890, recorded in Liber 124, page 473.

B—Lease from Kapule (w) to W. H. Cummings, dated April 26th, 1890, recorded in Liber —— page ——

The above to be sold subject to a mortgage of $5000.00 to H. E. Cooke, Trustee, dated Dec. 18th 1890, recorded in Liber 132 page 9.

Teams Cash; U. S Gold Coin.

TALKING UNDER WATER.

Mr. Rowell Communicates by Telephone.

Divers No Longer Needs Use the Signal Rope—Successful Test Made Yesterday.

Telephonic connection with a submarine diver is the lalest improvement that Superintendent Rowell has introduced in the department of Public Works.

The first test of the new scheme was made yesterday at the Pacific Mail wharf. Though the first trial was not a complete success, it was sufficient to assure the practicability of the idea. By means of this marine telephone the diver is enabled to talk with those above him, thus doing away with the multitude of signals by means of the rope, which are, at best, rather unsatisfactory.

This magneto-telephone is a very simple affair and, like many other things, the only wonder is that it has not been thought of before. The transmitter at the diver's end of the wire is placed in the helmet in such a position that the diver can easily put his ear close to it. The wire, which is enclosed similar to a submarine cable, passes through holes pierced in the helmet and connects with a transmitter and receiver to be used by those above.

At the trial yesterday Mr. Rowell was able to hear the diver distinctly, but owing to the noise of the the pump, transmitted by the air tube, it was very difficult for the one below the water to make out the conversation distinctly. This, it is thought, can be remedied by placing another transmitter on the opposite side of the helmet.

The work was done by a Mr. G. W. Otterson, who is said to have arrived in the country only a short time since. He advanced the scheme to Superintendent Rowell a short time ago, who thought it at least worth trying, and is now highly pleased with the result. The entire cost, after the second transmitter is put in the helmet will be only $30.

Fair Proceeds.

The following tabulated statement of receipts and expenditures of the Fair, recently held at St. Andrew's Cathedral premises, will prove interesting:

RECEIPTS.

Donations	$532 00
Entrance	280 90
Luau	225 35

Sewing Society's Table	130 70
Fancy Table	176 15
Children's Table	97 60
Chinese Table	84 60
Fish Pond	91 50
Grab Box	38 35
Flower Stall	114 80
Candy Stall	68 95
Lemonade	26 65
Porcelain Stand (profit)	10 15
Phonograph	6 95
	$2283 95

EXPENDITURES.

Erection of tents and tables	$ 142 95
Purchase of materials	227 00
Miscellaneous	163 26
	$ 533 21
Net receipts	$1750 74

HENRY SMITH, Treasurer.
December 8, 1894.

W. C. T. U.

The New Century Club building, recently opened by the enterprising and gifted women in Philadelphia who organized that club years ago, and the appointments of which are so complete and beautiful, has given out the following rule for the renting of its elegant drawing room: "No intoxicating beverages shall be served at any entertainment given therein." Clubs of men should note this progressive step on the part of the representative women in the "City of Brotherly Love."

Of the twelve thousand saloon keepers of New York city, whose "good moral character" entitled them to license, eight thousand have served terms in prison.

An exchange states a fact concisely: "A drunkard is a man who has failed as a moderate drinker."

Evil often triumphs, but never conquers.—Joseph Roax.

Going to Kauai Today.

The passenger accommodations of the James Makee will be taxed today. A number of school children will leave for their homes to spend the holidays with their parents. The following persons will leave also: G. N. Wilcox, A. S. Wilcox, C. B. Makee, Dr. Wolters, August Drier and C. H. Bishop.

Addresses by Mrs. Haalelea and others.

SPORTS in charge of the boys will take place at 3:30 P. M.

☞ Inspection of buildings of GIRLS' SCHOOL from 3 to 4. 3865-td

Announcement Extraordinary

What is acknowledged to be the oldest and most extensive business house on the face of the globe, has at last established a branch in Honolulu.

During the past twelve months we have been negotiating with that renowned firm, SANTA CLAUS & CO., and have finally received the sole right to handle their goods in this Republic. We are aware that others are putting forth similar claims, but we feel it our duty to warn the public against them; their goods are but feeble imitations of the genuine article. They buy from agents who have purchased from other agents, and by the time the goods reach here it would be a difficult matter to ascertain where they did come from originally. Not so with us; we are DEALING DIRECT WITH THE HOME FACTORY, and what is more, the head of the firm, OLD SANTA HIMSELF will be here to supervise the arrangement of the stock. It will of course necessitate the laying aside of his sealskin robes, &c., which he has consented to do, and he will appear for the first time in a costume suitable for the tropics. Our assortment of Xmas Goods consists of Dainty Souvenirs, entertaining and instructive; Puzzles, Automatic Animals, novelities for the children, and a thousand and one other amusing and ingenious contrivances suitable for a Christmas gift. We have purchased this stock at an extremely low figure and as we desire to dispose of the entire lot during the Holidays we will mark THE PRICES SO LOW that no one will hesitate to take advantage of the excellent offers we shall make.

WHITNEY'S

Mothers

Nestlé's Milk Food for infants has, during 25 years, grown in favor with both doctors and mothers throughout the world, and is now unquestionably not only the best substitute for mothers' milk, but the food which agrees with the largest percentage of infants. It gives strength and stamina to resist the weakening effects of hot weather, and has saved the lives of thousands of infants. To any mother sending her address, and mentioning this paper, we will send samples and description of Nestlé's Food.

W. N. ARMSTRONG, : : EDITOR.

THURSDAY, : DECEMBER 13, 1894.

THE SUGAR TRUST.

President Cleveland, in his recent message to Congress earnestly recommends, that the differential duty in favor of refined sugar be abolished at once. He says that it gives the American workmen no advantage, because the Sugar Trust, though it has the advantage of this difference continues to close up its factories. This direct attack by the President, on the Trust, indicates that he and his friends are sharpening their knives for a fight with it. If the question of retaining the differential duty, is made a single and separate question before Congress, and it is not confused with other questions, it is more than probable that the Democratic Congress will cripple the Trust.

While the Trust, in one sense, has no politics, it adheres to the protective policy of the Republican party, and, therefore, it is game for the Democrats. Its vast interests are almost wholly dependent upon legislation, and it follows the party, which legislates money into the pockets of the manufacturer. Politicians would like to see Congress attack the Trust again, because that will compel it to pay out a lot of money, for political purposes. As we have said before in these columns, the Trust has locked horns with the American people, and, in the end, will be thrown.

THE MASSACRE AT PORT ARTHUR.

The correspondent of the London Times telegraphs that the Japanese were guilty of great cruelty to the Chinese inhabitants, after the capture of Port Arthur.

The atrocities were like those committed by the Versailles troops in the city of Paris in 1872, after the Commune had surrendered. We were present during a part of the time.

When a conquering army enters a place there are always foolish, indiscreet people, who, instead of quietly surrendering, fire on the conquering troops from behind windows and from the roofs of houses. These attacks, which accomplish nothing, simply madden the invading army. It cannot protect itself. The soldiers see their comrades shot down, and cannot return the fire. The defending army has surrendered, and there should be no further fighting. But the ignorant and excitable populace continue a feeble and useless war. The invading force cannot be controlled, because there is no longer "fair fighting." Then the atrocities begin. In Paris over 10,000 men and women men killed by the national troops. A shot would be fired from the top of a five-story house, and a soldier be killed. Then the troops would rush in and attack every floor, and kill everyone in sight, as the source of the firing was not known.

Undoubtedly there were the same conditions in Port Arthur. The Chinese residents foolishly attacked the Japanese troops after the surrender, and fired upon them from concealed places. It is one of the terrible incidents of war. The Japanese have steadily declared for a humane war, whatever that term means. But their troops have acted as all troops act, in any country, when maddened by shots from secret places. It cannot be helped. It is the incident of the capture of any large town.

It will be recalled that the German troops, on entering Paris, after the surrender in 1872, marched up one broad avenue and stopped. They did not penetrate the city. Von Moltke knew that if he entered the streets, near the central points, excited French people, who were not soldiers, would fire on his men, and that they would retaliate in a general massacre. He, and the French generals, sought to avoid it.

The explanation which we have given will, no doubt, be the one sent to the Japanese Government.

DEDICATION OF PAUAHI HALL.

The laying of the cornerstone of the new building, at Punahou should not be an idle ceremony. It has a deep, and indeed solemn, significance at the present time, for it is an event in the creation of educational institutions, which will have much to do with the future population of these islands.

We said the other day, in these columns, that the Anglo-Saxon can maintain his dominance here only by the use of his brains. He must confront other races, who have brains, too; but, his must be the master. To equip that brain, so that it can do the superior work, is the task before our educators. The outlook is not very encouraging, but the issue must be met, or we are lost, or, rather, we shall be absorbed by other races.

When the Englishmen wished to dominate Europe, they took Gibralter, and commanded the sea ways to the Mediterranean. If the American wishes to dominate the Pacific, in these days of peace and not of war, he must construct his solid Gibraltar of education here. He cannot wait and dream about it. He must do it now. Punahou must be a spot for the education of men and women in the highest sense. Its course must be kept abreast with the best systems of the world, just as nations must keep abreast of the latest improvements in arms, and warfare. And, as we have said before, it must be so thoroughly organized, that it will attract youth to these islands.

Many of those present at the exercises, yesterday, and who witnessed the final act of the laying of the cornerstone, by President Dole, took a flying leap backward, in memory, to the period fifty years ago, when his father was the master of the school in its humble beginning. He, indeed, in his dreams, would hardly have pictured the the scene of yesterday, when his son, the President of a Republic, laid the cornerstone of an edifice, which is destined to become an important factor in Hawaiian history.

Timely Topics

December 8, 1894.

One of the plantation managers who had his eye on an Avery Stubble Digger last week still has his eye on it, but he has moved it to his plantation, where, under his vine and fig tree, he can sit and watch the wonderful work it is doing.

The difficulty which island steamers have experienced during the past two weeks in making landings on Maui and Hawaii is a great big point in the argument favoring the building of an island cable by the government. Even though it would not pay expenses during the first two years, the advantage it would be to every one on the islands would be so fully recognized at the end of that period that after that time it would be self supporting, and possibly profitable. Let the agitators agitate and the enthusiasts enthuse.

Solid silverware that goes to you at 25 per cent. less than you have ever paid for the same quality should be inducement enough for every one to use solid ware instead of plated. Our assortment contains some beautiful single pieces and sets, so pretty in fact that they will not remain long with us. You cannot all get the best; the early bird gets the rose bug. If you do not feel that you can afford solid goods, we can accommodate you in the plated line and serve you just as satisfactorily. We have been careful in our selections buying only what is really useful and of good value to our customers.

If you have never used a Dietz's oil stove with an oven and real cooking utensils, you probably do not know its value; you're probably "agin" oil stoves, because the small one you have had smoked and blackened your saucepan. Do not estimate the convenience and worth of a Dietz by comparison with one of the small sort. The plan upon which the large ones are built precludes the possibility of smut, smell or explosion. It will cook a meal for two cents and give you as much satisfaction as an iron stove. You may use it in any part of the house without the labor and trouble of removing the stove pipe; the Dietz is its own smoke consumer and needs no pipe to carry it off. We sell them complete at a price that will surprise you.

Among our silverware, (an additional lot by the Australia) we find some very elegant flasks, men's size, which will be appreciated by those who need a little "drop o' suthin'" to keep their spirits up. We have smaller sizes, both plain and engraved.

The new refrigerators, the "Alaska," is the best we have ever seen. The air channels are constructed so that the air strikes the ice directly on top and must go entirely around it and become thoroughly cooled before it decends to the compartment for meats, etc. The Alaska is by far the best made refrigerator we have ever handled. It is economic of ice and is a "good looker."

If you need any serviceable article for the holidays it will be to your interest to examine our stock.

THE SUGAR KING'S CHECK.

Claus Spreckels Draws a Million and a Half Dollars.

Friday was red-letter day in the history of the San Francisco Clearing House. High-water mark was reached in a grand total of $1,600,000, says a late Examiner.

There were no great deals on hand, nor did the general run of business indicate that the tidal wave in the commercial history of San Francisco had appeared. The big total was caused by a check signed by Claus Spreckels for $1,500,000, thereby overshadowing the history of financial transactions in this city of many millionaires.

There were rumors of the big check on 'change during the day, but the shrewdest could not guess what it meant. No large transaction was in sight, and the big check towered above the commonplace business of the week without apparent reason for its existence.

Last evening Claus Spreckels admitted having just made his check for $1,500,000. "It was drawn on the Nevada Bank," said he, "and was made payable to the Bank of California. It was promptly paid. There is no special significance in the transaction. It is only a little private matter—in fact, a family affair. If it had been twenty millions it would be worth talking about."

Card of Thanks.

Wray Taylor desires in this way to thank all those ladies and gentlemen who so kindly assisted at the concert for the "Merry Christmas" for the lepers; also, the Hawaiian Gazette Co. for advertising, Hawaiian Star Co. for tickets, Daily Bulletin Co. for programmes, Fritz Wilhelm for putting up screen, Mrs. Ed. A. Williams for use of piano, Williams Bros. for moving the same, Brother Bertram of St. Louis College for use of slides, Lewers & Cooke for lumber, Ed. Benner for taking charge of the door, and E. V. Sturdevant the gates; trustees of Kaumakapili church, J. W. Bergstrom for tuning piano, James Carty, the livery man, for favors; also to Mr. C. Hedemann and Dr. J. S. B. Pratt who manipulated the stereopticon, Mr. Marsden the lecturer, and to the general public who responded so liberally when called upon.

Got His Ticket and Money.

A Japanese confidence man is wanted by the police. He ingratiated himself into the good graces of a countryman of his who was about to depart on the Oceanic and secured his ticket and about $80 in coin. The duped man watched the steamer and is confident that the confidence man did not depart.

Patterns from the most celebrated Factories in the World. Our shot and embroidered Silk Patterns are the most beautiful ever brought to Honolulu In Wool Dress Goods, I have an assortment that will please the most fastidious; also, Grenadines plain, striped, and figured from the European markets.

Gloves

In all grades, shades, lengths and widths, from a long glove to a short glove, and a narrow one to a wide one. I cannot help but suit you in any style and shade desired.

Christmas

Goods are naturally what I wish to call your attention to, and to accommodate my patrons I have laid in a stock of Table Scarfs and Draperies, that are a perfect dream of beauty; also, Silk Shirts, Ties, Handkerchiefs, Pajamas and Hosiery suitable for gentlemen of the most correct habits.

Those People

Who always "put off things" will have to "bemoan their fate" after the Holidays, for never in my long experience in the dry goods trade have I seen such beautiful goods of so much value offered for so little money.

"A word to the wise is sufficient."

TO BE GIVEN AWAY

N. S. Sachs'

Guessing Contest

How Many Seeds are There in the Watermelon?

SEE IF YOU CAN GUESS

We have placed in our window a large watermelon; the nearest guesser as to how many seeds it contains will receive as a New Year's gift, the handsome BANQUET LAMP with SILK SHADE, now exhibited in our window.

All guessing blanks must be sent in by SATURDAY, Dec. 29.

☞ Guessing blanks will be given away to purchasers at the store of

N. S. SACHS,

520 FORT ST. HONOLULU.

To the Public

I HAVE OPENED UP A COMplete stock of Groceries and carry everything needed for your table. New goods arriving by every steamer. Call and get my prices before buying.

GEO. McINTYRE,

3855 27t 322 Nuuanu street.

Ladies' Column.

Commencing Saturday we will KEEP OPEN EVENINGS till the Holiday trade is over. We have put electric lights into the store, and are ready for the rush. From day to day our business increases. We are kept moving from morning till night; not only ourselves but the goods are; what is the reason of it? It's simply this: We have been whispering words of economy; we have talked about judicious buying, until at last you realize that you can really obtain first-class goods of us at prices you would pay for shoddy goods elsewhere. We call them Quick Sales and Small Profit Prices, which means in plain English that there is no such thing as just the same goods for less money. You realize it; everybody realizes it; hence our increased business. Judicious buyers, shrewd buyers, those that appreciate the best goods for the least money, are the ones you see snapping up the new goods as fast as they go on the counters. They are the class of buyers we are looking after.

This week you will find a genuine Bargain counter loaded down with CALICOS, GINGHAMS, ORGANDIES, COTTON CHALLIES, SHAWLS, ETC., ETC.; come and look at them, and if you don't think they are the best goods for the money, don't buy them.

☞ Have you counted up the Sales Checks you have received from us yet?

☞ REMEMBER, we keep open nights from Saturday Dec. 15th, till the Holidays are over.

B. F. EHLERS & CO.

SPRECKELS' REFINERY TO RUN.

Why the Eastern Factories Are Obliged to Suspend Business.

An Interview with Adolph Speeckels—Hawaiian Sugar Refined Without Profit—Protection the Remedy.

President H. O. Havemeyer of the Sugar Trust recently authorized the publication of a statement in which he said: "If one will fairly and dispassionately consider the President's recommendation it will become apparent that it comes down to this: The sugar company has taken action, the result of which is to deprive temporarily of work 50,000 persons emplyyed in the various industries dependent upon the refining of sugar, together with the members of their families. I recommend such action as to deprive those persons of work permanently. If the industry is languishing the proper course is to destroy it."

Mr. Havemeyer's statement was shown to Adolph B. Spreckels, director and secretary of the California Sugar Refinery, last night, says a late Examiner.

"I have read that Havemeyer interview," he said, "and I understand the exact condition of sugar refining in the Eastern States. Havemeyer and his people control the sugar trade of all the country east of the Missouri river, and the California refinery controls pretty much all west of the river. There are a few small concerns that refine; but their output cuts little figure. I think Havemeyer is right when he says that closing his refineries will throw 50,000 people out of work. The reason they are to close is not likely to be published in a Democratic newspaper, but the truth is simply this: They cannot compete with foreign sugars. The Democratic Administration has effectually shut out the sugar-refining business in this country. German granulated sugar is laid down in New York at $3.56 the hundred pounds, and raw or crude sugar costs laid down there $3.50 the hundred. That leaves a margin of six one-hundredths of a cent per pound on which to pay refinery charges and make a profit. The thing is simply absurd. In the East they pay refinery hands $1.70 per day. In Germany the wages are but $1.13. The trade cannot stand the difference. The German sugar is beet sugar that has been refined abroad. This market is now bringing in a great deal of Chinese sugar that is refined by two English firms in Hongkong.

"They use raw sugar from Batavia and the Phillippine islands. These refineries employ coolie labor at 10 cents per day. Here we pay $2 per day, and we have to meet that competition. There is only one remedy and that is protection. In the United States we use sixty pounds of sugar yearly to each person. What difference would it make if each of us paid a cent a pound more and made possible the maintenance of a great industry. We are keeping our refinery going now merely to keep our plant in order, keep our force of 600 people together and support our hands. There is not only no profit, but an actual loss. The importation of raw sugar from the Sandwich Islands last year was 300,000 pounds, and it was refined without profit. We shall not shut down, but we ought to be protected to the extent of a cent a pound."

To Plantation Managers.

The following letters received from MR. JNO. A. SCOTT, Manager Hilo Sugar Company, refer to the AVERY FERTILIZER DISTRIBUTORS and STUBBLE DIGGERS, for which the Hawaiian Hardware Company are sole agents. Mr. Scott first saw these implements at the Columbia Exhibition to Chicago, and was so favorably impressed with their appearance that he immediately ordered samples shipped in the Hilo Sugar Company. Mr. H. Deacon, Manager for Pepeekeo Sugar Company, secured one each of these implements from Mr. Scott and expressed his satisfaction with them in the letter published herewith:

PEPEEKEO, Aug. 8, 1894.

J. A. SCOTT,

Dear Sir:—In reply to yours in relation to the "Avery" Stubble Diggers and Fertilizer Distributors.

I would say that I have been using the Diggers almost constantly since I received them, and am highly pleased with them. As the name signifies, I find them specially adapted to the work of loosening the soil about rattoon stools, and they may be used to great advantage either before or after the Fertilizer Distributors, thereby putting the rattoon fields in the very best condition for a rapid growth. They are a light draft machine, and I would recommend them to any plantation owner.

The Fertilizer Distributor is a great labor saving machine, and I find that I shall need one more to fill our requirements here.

I remain, yours respectfully,
(Signed) H. DEACON,
Manager for Pepeekeo Sugar Co.

WAINAKU, Hilo, Aug. 9, 1894.

MR. E. R. HENDRY, Honolulu.

Dear Sir:—In reply to your enquiries regarding the working of the "Avery" Stubble Diggers and Fertilizer Distributors. I would say that I have been using the Diggers for some months and have dug some eight hundred acres of stools with them, thoroughly loosening the soil in and about the roots, thus giving them an excellent opportunity for many more shoots to come forth than usually do. And I find that there is a thicker stand of cane where it has been stubble dug. The machine works in fertilizers on rattoon stools without any further hand labor, mixing them thoroughly with the soil and allowing them to get to the roots of the plant

The Fertilizer Distributors I have had at work for some time and I have fertilized about four hundred acres with them thus far and they are doing all the makers claim for them, distributing the fertilizers in an even manner on each side of the cane and in whatever quantity desired. They are a good labor saving machine and are doing the work of several men. These machines are of light draft and strongly made and there is nothing liable to get out of order I can fully recommend these to plantation owners.

I remain, yours truly,
(Signed) JOHN A. SCOTT,
Manager Hilo Sugar Co.

We received by the Alameda a carload of Avery & Son's Implements which include Fertilizer Distributors, Stubble Diggers and Improved Sugar Land Cultivators. The latter has solid discs and shovel attachments. They are admirably adopted for use in the soil here and will be found necessary on every plantation.

The Fertilizer Distributor is arranged to work on land where the furrows are irregular with the same facility as where they run even.

☞ Any information regarding these machines will be furnished on application to

It's easy, cheap, time-saving,— business-like,

to use a "Caligraph" typewriter.

Who will think you are wideawake and progressive if you stick to the way your grandfather wrote? Steel pens instead of quill pens; you're ahead there. Take another step. Use a Caligraph.

You can do more work on a Caligraph than with a pen.

It's more comfortable to use a Caligraph than a pen.

The Caligraph

is better than any other typewriter, because it is simpler, lasts longer and does cleaner work than any other.

It's easier to learn than any other, too.

You can buy one on easy terms. It helps pay for itself while you're buying it.

Let me sell you one.

WHARF AND WAVE.

DIAMOND HEAD, Dec. 12, 10 P.M —Weather, clear; wind, light, N E.

The Arawa is due today from the Colonies.

The James Makee will leave for Kauai this afternoon at 4 o'clock.

The bark Sumatra is expected from Hilo daily. She is coming down under command of Captain Berry.

The Oceanic resumed her voyage late yesterday afternoon. She took away 134 adult Chinese and 21 children, and 36 Japanese.

The Likelike will go on the marine railway after the J. A. Cummins. After being overhauled she will be put in the sugar trade.

The schooner Kaulilua has been purchased by Captain Weisbarth, who will use her for carrying wood between Molokai and Honolulu.

The schooner W. F. Jewett will leave for the Sound today in ballast. She will return with another cargo of lumber for the railroad.

The schooner Lyman D. Foster arrived yesterday, forty-six days from Newcastle, with a load of coal consigned to the Inter-Island Company.

The schooner William Bowden, Captain Fjerem, arrived yesterday after making the run from Newcastle in the quick time of thirty-seven days.

The Occidental and Oriental and Pacific Mail companies have issued a new time table for 1895. During the year eleven steamers will put in here from San Francisco.

The Wilder Steamship Company is negotiating for a lease of the boiler shop formerly used by the Union Iron Works. It will be used as a repair shop by the company.

ADVERTISER 75 cents a month.

BUT ONE MORE TRIP.

The Steamer Oceanic to be Replaced by the Coptic.

The Oceanic will make one more round trip to this port, and then sail for Belfast for a complete overhauling, says a late San Francisco exchange. Her place will be taken by the steamer Coptic, which has been in this port before on the China and Japan route. Second Engineer Roger Cross, of the Oceanic, will be chief engineer of the Coptic, and he will leave San Francisco in a few days for Liverpool to take charge of the engine-room on her trip through the Suez Canal to Hongkong. Chief Engineer Allen will remain with the Oceanic, and probably some of the executive officers will go with him, but the majority of the crews of both ships will be transferred when the vessels are exchanged, and there will be few new faces on the Coptic.

The Oceanic, although a seaworthy steamer, is somewhat antiquated in the matter of machinery and fittings, and it is proposed to reconstruct her according to modern ideas.

BBEAD AND APPLE SAUCE.

Bill of Fare on the Andrew Welch for a Week.

The Hawaiian bark Andrew Welch arrived from Honolulu this morning, says a late Examiner. She had been outside the Heads since Sunday morning waiting for a chance to get in, and for more than half of her trip she was drifting about within a few hundred miles of port. Her provisions ran short and for over a week the bill of fare consisted of bread and apple sauce. She had only 250 tons of ballast, and it was not enough to hold her up in good sailing trim, and twice she attempted to make the port, but drifted uncomfortably near the shore. Her skipper managed each time to get her out of danger, and the third time she anchored while drifting towards Duxberry reef, where she lay until a tug went to her assistance.

National Cane Shredder

(PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.)

Mr. John A. Scott, Manager of the Hilo Sugar Company gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 300¾ tons. This is fully 10 per cent. more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company. And by its use the extraction has been increased from 3 per cent. to 5 per cent. on all kinds of cane, and in some cases 80 per cent. has been reached; the average being 75 to 78 per cent., according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

☞Plans and specifications of these shredders may be seen at the office of

Wm. G. Irwin & Co. L'd.

SOLE AGENTS FOR THE HAWAIIAN ISLANDS.

3594-3m

Of Interest to Sugar Mill Owners

Managers and Agents of Plantations, and to Everybody Using Machinery.

The undersigned begs to inform the public that he has opened an establishment at the corner of QUEEN and NUUANU sts., HONOLULU, where will be kept in stock a full supply of Engineer's Findings; Steam and Water Pipe and Fittings; Brasswork, Finished and Rough; Hooker's Steam and Double Acting Pumps; Deep Well Pumps; Windmill Pumps; Hand Power Pumps of various designs.

Being sole agent and representative of the firm of W. T. GARRATT & Co., of San Francisco, who are manufacturers of this line of goods, I am enabled to sell at prices never before quoted in this market, saving my customers the wholesale and jobbers profits.

Agent for the Hawaiian Islands of the Richard's Lock Nut, which is an ordinary hexagon nut constructed so that it is impossible for the nut to become loose or slack, and fall off the bolt. It costs no more than the ordinary cold pressed iron nut and dispenses with the use of the lock washers, keys and split pins. This nut is now exclusively used on all the principal railroads and street cars lines in the United States. Samples and pamphlets furnished on application to the undersigned.

Agent for the Siphon Water Elevator, which is automatic, for irrigation, city supply, farms, etc. This invention as its name indicates is based upon the principle of the siphon known to the Ancients but it is devised in such a manner as to greatly enlarge the field of application. Used until today only for the drawing off of liquids to a lower level, the siphon now becomes an Automatic Water Elevator, which under favorable conditions is endowed with great powers. In many instances, land situated higher than the irrigation ditch can be irrigated at a nominal expense. The Siphon Elevator is especially adapted for such conditions, as it can elevate the water from the main irrigation ditch to a higher one, while the waste is available for irrigating the lower levels. The siphon elevators are made of brass and iron in sizes ranging in capacity of from two hundred to three million gallons per day.

☞Estimates and plans furnished for new machinery and repairs.

C. R. MCVEIGH, Consulting Engineer.

Office and warehouse cor. Queen and Nuuanu sts., Honolulu.
