NOTICE TO MARINERS.

During the process of deepening the channel at the entrance to Honolulu harbor the Dredger will be in operation night and day. At night there will be a danger signal placed on the forward derrick of Dredger about 30 feet above sea level, which can be seen by all vessels approaching the harbor.

The signal consists of three red lights and a white light as in the diagram, the red lights being about 3 feet apart with the white light in the center.

Red	Red
White	
Red	

All steamers crossing the bar will stop at a safe distance from the Dredger and give one blast of their whistle which will be answered by a single blast from the Dredger, to be followed by three blasts from the Dredger when the passage is clear and they can proceed.

The Tug will be on hand when not otherwise engaged to assist sailing craft in passing the Dredger when necessary.

C. N. SPENCER, Minister of the Interior.

Interior Office, March 9, 1892. 366-tf

WATER NOTICE.

HONOLULU, June 21, 1892.

In accordance with Sec. 1 of Chapter XXVII. of the Laws of 1886.

All persons holding water privileges or those paying water rates, are hereby notified that the water rates for the term ending December 31, 1892, will be due and payable at the office of the Honolulu Water Works, on the first day of July, 1892,

All such rates remaining unpaid for fifteen days after they are due, will be subject to an additional 10 per cent.

Rates are payable at the office of the water works in the Kapuaiwa building.

JOHN C. WHITE, Supt. Honolulu Water Works.

452 23t

Irrigation Notice.

HONOLULU, H. I., Dec. 2, 1891.

Holders of water privileges, or those paying water rates, are hereby notified that the hours for using water for irrigation purposes are from 6 to 8 o'clock A. M., and 4 to 6 o'clock P. M. until further notice.

JOHN C. WHITE, Supt. Honolulu Water Works.

Approved:

C. N. SPENCER, Minister of the Interior.

THE
Daily Bulletin

SATURDAY, JULY 2, 1892.

HISTORY REPEATS ITSELF.

There was a ways and means committee of the Legislature in 1862 as there is in 1892, thirty years later. An economical breeze passed through the assembled wisdom in 1862, as one has done this year. The Polynesian of July 26, 1862, contains the following resolutions passed the previous day by the House of Representatives:

Resolved,—That the public service cannot be efficient if all regard be not paid to the honor of the Crown, in the ability, character, honor and integrity of those who serve the Crown.

Resolved,—That we believe it should be a maxim of all governments, to have as few employees as possible, and those properly paid; and that it would be not only detrimental but fatal to His Majesty's Government to have "many employees and those poorly paid."

Resolved,—That in every department the King should be represented only by men of education suitable for their duties; of good manners and abilities, and of a character for temperance, industry, prudence, discretion and proper dignity to secure the respect and confidence of the community; and that such men should be enabled to live in a style suitable to their situation—considered with reference to the community in which they reside.

THE PELE'S CREW.

The sailors of the Pele went ashore on Kauai to have a swim. Having some giant powder they used it, without regard to the law, to fish. Policemen had been watching for local offenders and came on the Pele men after they had bagged their fish. Four men of the schooner Liholiho were bagged by the police along with 12 of the Pele's crew. The captain of the Pele gave recognizances to the police for the men's appearance Monday morning, as he wanted them to work the vessel round to Waimea. At Waimea they were fined $100 and $1 costs each, and they were sent to Honolulu in default by the Pele, being allowed to work the vessel. Here they perfected an appeal to the Circuit Court on Kauai and were released on bail. J. L. Kaulukou is their counsel.

BAND STRIKE ENDED.

The bandsmen's strike is over for the present. As a result of the conference with the Minister of Foreign Affairs and Prof. Berger, the men have agreed to continue duty but reserving final decision until the Legislature has passed the Appropriation Bill. Their main objection is to the reduction in number from 36 to 25 pieces, they stating that they are so proud of the band that they wish to see it maintained in undiminished strength. In the matter of pay, the bandsmen are getting more now than they were two years ago. The band will toot up again at Emma Square this afternoon.

THE HILO ELECTION.

The election returns from Hilo, received this morning, give the election to Horner. There were 217 votes cast, of which Horner got 88; Rickard 65, and Mattoon, 64.

A traveling man who chanced to be in the store of E. V. Wood, at McKees Rocks, Pa., says while he was waiting to see Mr. Wood, a little girl came in with an empty bottle labeled Chamberlain's Pain Balm and said: "Mamma wants another bottle of that medicine; she says it is the best medicine for rheumatism she ever used." 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents.

CHEAP MONEY.

Editor Bulletin:—

We have observed that most writers on currency use the above appellation when they wish to slur and disparage all kinds of currency not made of gold metal, or when any other method of distribution of currency is proposed than agencies like the National Banks, that is, currency circulation only by individuals or corporations. For the Government to distribute currency direct to those who want to use it is, in their estimation, an outrageous proposition, a thing not to be thought of for a moment, and they seize upon any historical fact, where trouble has originated in attempts to improve the currency in quantity, or the methods of its distribution.

The trouble arising from the blunders of law-makers and dishonest or incapable agents are all charged against cheap money systems, and they endeavor to show that failure with an apparent relish, commendable only in a better cause.

A writer in the Century Magazine for April, 1891, [striking at Senator Stanford's Land loan scheme] has carried his zeal so far as to show up the failure of an attempt to start a private corporate "Land Bank" in England in 1696, and he seems to infer that if a private land bank failed to incorporate for want of means 200 years ago, Stanford's Government land loan scheme must also fail. If that is not the logic of the gentleman's reasoning we fail to see his point. How the fact that a private land bank failed to incorporate for want of means in 1696 can hold as an argument against a proposed Government land bank with ample means in 1891 he fails to inform his readers, or how such a failure can hold as an argument against an attempt to start a land bank, any more than it would against the attempt to start a gold bank, or a silver bank, and failing. Many such attempts have failed, and hundreds of so-called gold banks have failed after they did start and brought distress upon thousands. So if this argument is good against private land banks it should be good against all private banks for the same reasons.

What this writer means by "cheap money" we take to be any money whose actual value is less than its face value. The American gold dollar is five cents too cheap, the silver coin twenty cents too cheap, and the greenback dollar one hundred cents too cheap according to this writer's logic, and as there is no money in America except the three kinds named above, all of America's money is "cheap money" in his estimation. Notwithstanding his argument the fact remains that the "cheapest money"—the greenback—is the most valued for business. President Grant said the "greenback is the best money ever devised." The bulky nature of all coins is so objectionable that they are being deposited with the Government in America by hundreds of millions and packed away by it, and paper taken to use as money in their stead. The greenback is never so deposited, hence it is more acceptable as a business tool than the coins—the cheap money preferred to the dear.

Jno. M. Horner.

Hawaiians 30.54
Asiatics 26.40
All other nationalities 10.28

C. B. REYNOLDS,
Agent Board of Health.

LOCAL AND GENERAL NEWS.

LIGHT rains at Hamakua.

POLITICS in England is getting red-hot.

THE BULLETIN will not be issued on Monday.

THE Gaelic brought four Chinese passengers for this port.

THE Tramways Co. will run quarter hourly cars on the Fourth.

DIAMOND HEAD, 3 p. m.—Weather hazy; wind, high north-east.

THE S. S. Gaelic will sail for Japan and China at 6 this evening.

THE Y. M. C. Club meet to-morrow afternoon at 1 o'clock at the club rooms.

H. M. STANLEY was hooted down in his first attempt at a stump speech in North Lambeth.

DON'T forget the ample train facilities for getting the Pearl Harbor breezes on the Fourth.

PLAN the holiday by the official program and outside attractions advertised in the BULLETIN.

THE Gaelic will take from this port 67 Chinamen, 4 women and 1 infant, and 7 Japanese for the Orient.

HAWAIIAN Lodge of Free Masons will hold a meeting for important business at 9 o'clock Monday morning.

BOTH of to-morrow's diets of worship at Central Union Church will be devoted to the cause of temperance.

CAPTAIN Watson arrived this morning by the S. S. Gaelic, to take command of the U. S. S. San Francisco.

THE SIX Chinese who tried to enter San Francisco from hence by the Sonoma are being sent back on the Transit.

CHAUNCEY M. Depew will not take the Secretaryship of State. He prefers his seventeen "sartainties" to one big "onsartainty."

THE sailing of the cruiser Boston from San Francisco for Honolulu was delayed, at latest accounts, for a fortnight from last Saturday.

THE Scotch yacht brought here by the ship Benmore has been entered for the regatta as "Bonnie Dundee," so that must be her name.

THE steamer Waialeale will leave at 7 o'clock this evening with the Sanitary and Special Committees for the Leper Settlement on Molokai.

A PORTION of the Royal Hawaiian Band will go to Maui with the steamer Claudine's excursion, to play at the 4th of July races at Kahului.

REV. Thomas T. Griffiths, chaplain of H. B. M. S. Champion, will preach at the 6:30 o'clock service in St. Andrew's Cathedral to-morrow evening.

THE tug Eleu has been placed, by permission of the Minister of Interior, at the disposal of the Regatta Committee for the yacht race, and will be used as the judges' boat.

HAWAII is among the countries named in a resolution passed by the United States Senate, authorizing the President to request their governments to send official delegates to the Pan-American Medical Congress to be held in Washington in September, 1893.

THE Rockland, Mass., Independent of June 10 has the following item: Mr. Henry Marchant, of the Hawaiian Islands, who has been getting his education in Boston for the past few years, was a guest of the Briggses last Sunday. He expects to return to the Islands in another year.

COL. G. W. MACFARLANE informs the Advertiser reporter that the decision against Waikapu Plantation Co. was only to the extent of requiring it to proceed by equity instead of jury trial. The item in this paper yesterday was telephoned in the last moment before going to press, when there was no time to gain any particulars.

THE following gentlemen have been appointed to act as judges in the yacht race on the fourth of July: Capt. Fuller, Capt. King, Capt. Griffith. Capt. Fuller will act as starter, and, in conjunction with the Hon. C. B. Wilson, will also act as timekeeper. Captains King and Griffith will be on the judges' boat and follow the yachts over the course.

AT its last meeting the Scottish Thistle Club made special recognition on the minutes of Miss Louise F. Dale's beautiful rendering of "Annie Laurie" at the Kauai Industrial School benefit concert in Kawaihao Church. The singer's mastery of the Scotch accent and dialect, besides her delightful vocalization, was especially mentioned.

THE Yacht Regatta Committee will not issue any invitations to the judges' boat to view the regatta, but an admittance fee of $1.50 will be charged to each person wishing to board the judges' boat, and follow the course of the yachts during the race, the number being limited to about 30. The committee do not guarantee to furnish refreshments.

THE bark Mary S. Ames sailed about 2 o'clock to-day for Lysan Island. Captain Freeth took 23 Japanese and a steam launch to load the vessel at the island. It is expected that if the weather is favorable she will be loaded in about two months, when the schooner Mary Foster will be dispatched from here to bring back those who are not to remain at the island.

NOTICE TO MARINERS.

Captain D. Robinson, of the barkentine Skagit, from Kahului, Maui, reports to the Hydrographic Office at San Francisco, that on June 12th, in latitude 36 45 N., longitude 137 55 W., he passed a wreck bottom up, probably of 400 tons, quite flat, bilge copper all gone along the keel; had evidently been in the water for a long time. There was no wreckage attached, and no sign of name on the stern.

THE LEGISLATURE.

THIRTIETH DAY.

SATURDAY, July 2, 1892.

Morning Session.

Assembly convened at 10 o'clock. Minutes were read and approved.

The following petitions were presented and referred:

By Noble Pua from Hanalei, that the duty on rice be retained. Tabled for future consideration.

By Rep. Nahinu from Molokai that $2000 be appropriated for a landing and $3,000 for a well at Molokai. To Committee on Public Lands. Also from employees of electric light works that their wages be not reduced. To Committee on Ways and Means.

Noble Baldwin from Finance Committee presented a report on a petition from J. Haalou, a mail-carrier on Oahu, praying that the sum of $204 be paid him for services rendered and to the effect that this was the tenth Legislature that the petition was presented to for consideration, and it had always been rejected, and the committee cannot obtain any evidence that it should be paid, therefore they cannot recommend that the prayer of petitioner be granted.

Noble Williams from the Printing Committee reported Bill No. 87 printed.

Rep. Smith announced that the Visiting Committee to the Leper Settlement would leave for there at 7 o'clock this evening.

Noble W. Y. Horner read for the first time a bill to impose a specific duty on rice in certain cases.

Rep. Kaneahi offered a resolution that the sum of $3000 be appropriated for the purchase of the right of the Wilder Steamship Company in the Kahului wharf.

Rep. Iosepa presented the following questions to the Attorney-General: 1—Have deputy sheriffs the right to appear as attorneys in civil cases? 2—Are they acting under your instructions, if they do so?

Rep. Aki read for the first time a bill to repeal the law relating to the carrying of passengers and freights, and the letting to hire of carriages, wagons, carts, drays and other vehicles in the district of Honolulu.

Rep. Smith complained that one of the papers supplied to members of the House was always in a mutilated condition on Saturdays. He strongly objected to the practice.

Minister Parker said that some of the members were looking at him in a peculiar manner as though he was the guilty party (laughter and remarks about "a guilty conscience"). In a convincing and most bland manner he denied the impeachment.

Noble Cornwell was also anxious to clear himself before being charged. He wished to be as it were, like Cæser's wife, above suspicion even.

Rep. Smith said that the matter lay between the President of the Assembly and the Minister of Foreign Affairs.

Noble Neumann considered that the proper course would be to pass a vote of censure on both the officers named. (Laughter).

Rep. Kaunamano offered a resolution that the Advertiser reporter and the Advertiser newspaper be expelled from the Assembly on account of an item reflecting upon himself and published in the "House Notes." The introducer spoke at length on the subject and showed that the special cause of complaint was his being made secondary to a wooden idol as a Chairman of Committee of the Whole.

Rep. Smith said that he did not consider the member should take umbrage at the statement. He heard Rep. Kanealii mentioned yesterday in the House as a fog horn.

Rep. Kaunamano said that he could not read the item in English but he had been told about it. He felt aggrieved. He did not wish the reporter imprisoned; he only desired to have him expelled.

Rep. Wilcox stated that he had looked over the paper and noticed that the objectionable matter was not in the regular report but in another portion. He thought that if the reporter was reproved it would be sufficient.

Rep. Waipuilani said that the reporter should be made to apologize.

Noble Horner had noticed derogatory remarks about him in the same paper. He did not feel that he was knocked out, but it lowered the writer in his estimation.

Noble Thurston said this was a good opportunity to expose a grievances. He had one against the BULLETIN. He thought that the grievance of Rep. Kaunamano, Noble Horner and his own should be referred to a committee for investigation to ascertain their extent.

Noble Cornwell said he also had a grievance. The paper had this morning, in its editorial, insinuated that every Hawaiian member could be bribed with a dinner. He had more admiration for certain Hawaiians in the House than he had for the paper in question or its editor.

Noble Marsden desired to say that he had a grievance.

Noble Neumann objected to the introduction of any more grievances.

Noble Marsden—But this is a great grievance and I must relieve myself of the burden. That same paper had remarked upon his striped clothes the other day, and said that Solomon had not been arrayed like him. He wished to have his grievance referred to a committee. [Laughter.] His clothes were getting washed now and he intended to soon wear them again in defiance of all editors and reporters. [Laughter.]

Noble Neumann before venturing to intrude his little speech would like to know if any other member had a grievance. Don't know whether the member reads the Advertiser or not, but the manner in which it had written him [the speaker] up during the last campaign had essentially helped him to victory. [Laughter]. The paper and he were too great friends [laughter] to allow him to vote for this resolution. Even the other day when he was a little under the weather and was taking a needed rest the paper had remarked that he was qualifying himself for Attorney-General. [Laughter].

Rep. White had also a grievance against both reporters, and he quoted from the paper under discussion remarks about him.

Rep. Kanealii was very indignant and favored imprisonment for the reporter.

Rep. Iosepa said that it was better not to notice the matter. The previous day during the confusion he had heard Rep. Kanealii shout out to the introducer of this resolution, when in the chair, "Come down out of there, you are not fit to sit there." That gentleman now was very indignant over this small matter.

Rep. Smith offered the following amendment, "That the reporter of the P. C. Advertiser be requested to publish a suitable explanation or apology to the Representative for Hamakua for his apparently contemptuous statement in the P. C. A. of this morning."

Noble Young favored the amendment. He had been mentioned but sheltered himself with a quotation from Shakespeare, "He who takes offence at a fool makes himself the greater fool." He knew the contributor of the doggerel quoted; it was not written by the reporter.

Noble Thurston spoke strongly in favor of leaving the matter alone, and in support of the liberty of the press. He believed that it was in the interest of the public to give reporters the utmost freedom.

Noble Macfarlane did not agree with the previous speaker. He was not in favor of letting the newspaper off so easy; favored the amendment of Noble Smith. He moved the previous question.

On motion the resolution offered by Rep. Smith was adopted.

The Assembly at 12:20 adjourned until 10 a. m. Tuesday.

BAND CONCERT.

The Royal Hawaiian Military Band under the leadership of Professor H. Berger will give a concert this afternoon at Emma Square, at 4:30 o'clock. The following is the program:

March Defilir ..... Lehnhardt
Overture—Hungarian ..... Bela
Polka—Cavaliers ..... Fahrbach
Selection—Italian Melodies ..... Rempezotti
Waltz—Spanish Students ..... Waldteufel
Medley—Yankee Tickle ..... Beyer
Hawaii Ponoi.

DOULTON WARE.

Ex "Benmore."

The PACIFIC HARDWARE Co., Ld., have just received from England an invoice of the well-known Doulton Ware, comprising Breakfast and Dinner Sets, Toilet Sets, Cups and Saucers, Jugs, etc., etc.

Their supply of Plantation Tools and Supplies is very complete, as also of Lubricating Oils.

Carbolineum Avenarius by the barrel, case or smaller quantity.

HOT WATER BAGS.

THE efficacy of hot water in inflammatory conditions can hardly be overrated. To a limited extent its value has long been known. Our grandmothers made use of wooden cloths dipped in hot water as a substitute for hot-water bags. At present the worth of this remedy in almost all forms of pain is generally recognized by the medical profession.

Hot cloths, however, are not convenient of application; are apt to wet the clothes, and they soon cool and require repeated dipping. The rubber bag is in every respect superior. Once brought to the proper temperature, the heat is long retained; it is neat, and easy of application.

We have them in sizes of 1, 2, 3 and 4 quarts.

Every household should have one at least ready for an emergency.

HOBRON, NEWMAN & CO.,
DRUGGISTS.

ANHEUSER-BUSCH

BREWING ASSOCIATION,

ST. LOUIS, MO.

BREWERS OF FINE BEER EXCLUSIVELY!

— MANUFACTURED FROM —

Pure Malt and Highest Grade Hops!

☞ No Corn or Corn preparations used in place of Malt, as is done by other Eastern Breweries, in order to cheapen the cost of their Beer, and to compete with our world-renowned and justly famed article.

With the Completion of the New Brewhouse, the Brewing Capacity is the Largest of any Brewery in the World.

BREWING CAPACITY: 6 kettles every 24 hours, 6,000 Barrels, or 1,800,000 Barrels per year.

CONSUMPTION OF MATERIAL: Malt, 12,000 bushels per day — 3,600,000 bushels per year. Hops: 7,500 lbs. per day—2,250,000 lbs. per year.

No Corn or Corn Preparations are used in the manufacture of the ANHEUSER-BUSCH BEER. It is, therefore, the highest priced but the most *wholesome* and really the least expensive for its *superior quality*.

• ANNUAL SHIPPING CAPACITY: **100,000,000** Bottles and **5,000,000** Kegs. •

The Anheuser-Busch Co. have carried off the highest honors and the highest class gold medals wherever they have competed. At all of the International Exhibitions, throughout the world, their Beer excelled all others.

This Company have prepared a special brand of their highest grade Beer, for the Hawaiian Islands, known as **"SPECIAL BREW,"** with a handsome label and in white bottles, which with their best **"EXPORT ANHEUSER"** in dark bottles, heretofore imported, we will now supply to the trade in quantities to suit.

G. W. MACFARLANE & CO.,

445] **Agents for the Hawaiian Islands.** [1f

INSURE IN THE

Equitable Life Assurance

Society of the United States.

An Eminently Conservative and Safe Company.

FINANCIAL STRENGTH.

The consideration of first importance in judging of the condition of any financial institution (and notably of a life assurance company, the majority of whose contracts extend over long periods of years) is its *surplus strength*. The Equitable has, over and above all liabilities, a larger surplus than any other assurance company.

Assets, Dec. 31, 1891, - -	$136,198,518.38
LIABILITIES, including the Reserve on all existing Policies, (4 per cent. Standard) and Special Reserve (toward the establishment of a 3½ per cent. valuation) of $1,500,000	109,905,537.82
Surplus, - - -	$ 26,292,980.56

This Surplus remains after making provision for every obligation, on a rigid calculation of *Liabilities* based on the standard prescribed by the Insurance Law of the State of New York, which assumes that Assets will be invested so as to realize interest at the rate of 4 per cent. per annum. In addition to this, in a spirit of conservatism, the Directors of the Society, on the recommendation of its Finance Committee, have set aside a Special Additional Reserve, looking towards even a more stringent and conservative future standard of valuation than the law now prescribes.

ALEX. J. CARTWRIGHT,
General Agent for Hawaiian Islands.

THE LEGISLATURE.

TWENTY-NINTH DAY.

FRIDAY, July 1, 1892.

Afternoon Session.

The Committee reconvened at 1:40 and proceeded with the consideration of the item relative to "Salaries of Clerks" in the Postal Bureau, and the proposition offered by Noble Baldwin before recess to itemize a portion of this lump sum.

On motion it was decided to divide the amount $33,120 as follows: Salary of Secretary, $4,200; salary of Superintendent Postal Savings Department, $3,600; Superintendent Money Order Department, $3,600, and pay of clerks, $21,720.

The next item, Postal Money Order reserve, $5,000, was struck out.

On motion of Minister Widemann the item "Return of Taxes illegally collected, judgment of courts" was passed at $4,404.05.

The items under the head of "Salaries last Period not paid" passed as follows:

District Justice Lihue, $250.
District Justice East Kau, $88.
District Justice North Kona, $100.
District Justice Honuaula, $34.
District Justice Molokai, $50.
District Justice Hanalei, $125.
First Associate Justice McCully, $138.88.
District Justice Waimea, $125.
Clerk Second Judicial Circuit, $100.
Envoy at Washington, $506.05.

Items under the head of "Bureau of Customs," were next in order for consideration.

Salary Collector General, $6,000.

Before argument was had Rep. Koahou moved the transfer of the item Subsidy of the Oceanic Steamship Co., $36,000, from Section 2 to Section 1, and in the "Postal Bureau" department.

The member placed his item so that the steamship company was to obtain $24,000 as a subsidy if coming direct to Honolulu from San Francisco, and $36,000 if they would call at Hilo en route to Honolulu.

Noble Thurston supported the proposition. It was a proposed reduction; to give the company but $1000 per month if they called simply at Honolulu, but if they performed the extra work of calling at Hilo then to give them $1800 per month. In 1886 the subsidy was $72,000, in 1888 it was reduced to $48,000, the present stringency warrants the reduction to $24,000. Considered this was a good plan to insert an entering wedge towards obtaining increased service for the subsidy given. The idea of calling at Hilo was good. Sooner or later Hilo would develop as a port for the arrival and departure of steamers. At first had considered that this proposition of the Australia going direct to Hilo from San Francisco would interfere with the business of the inter-island steamers. Had learned that it would increase the business in that line. The proposition had been talked over between him and Mr. Cockroft, the passenger agent of the Spreckels' line, and also by Mr. John D. Spreckels and they were satisfied to have the steamers call at Hilo and they were of opinion that it would greatly increase travel if they could advertise a direct line to the Volcano. Mr. Irwin had been spoken to, he had no authority to settle the agreement but was in favor of the project.

Rep. Koahou considered that the matter was of sufficient importance to warrant consideration by a special committee.

Minister Widemann favored the project relative to the Australia calling at Hilo.

Rep. Ashford approved of reference to a committee and that inquiry be made whether there was not a pool between the Oceanic and the Pacific Mail by which the Pacific Mail got paid for keeping away from here. The Pacific Mail would take no freight or passengers for here now and that was undoubtedly due to an arrangement between the companies. He had heard, but did not know, that the Oceanic Company merely turned over the subsidy to the Pacific Mail to keep away. He would like to know whether that was a fact or not. The public should know. He would follow the illustrious example of his illustrious friend Noble Neumann and with becoming modesty would ask to be placed on the committee when formed.

Rep. White was in favor of reference to a committee, and to one composed of seven members. He, not being overburdened with modesty, like his friend Rep. Ashford, would also ask to be placed on the committee.

Minister Parker had been in favor of reference to a committee at the first; what had been said strengthened him in that conviction.

On motion the item was referred to a select committee of seven members.

Salary Collector General of Customs, $7,000, passed at $6,000.

Salary Deputy Collector of Customs, $6,000.

Rep. Bush asked if the item could not be struck out.

Noble Marsden said that it could not, as the deputy was a necessary officer. The Collector might be away and some one was needed with authority to represent him.

Rep. Bush said that his idea was to compel the Collector to attend to his duties, as it is now his social calls occupy so much of his time and attention that the duties of his office are not performed by him but by his deputy. Thought if this item was struck out the Collector would then have to attend to his duties.

Rep. Koahou was also in favor of striking out the item. Here was simply a bureau in the Finance Department with the office of deputy attached: did not think it was necessary.

Minister Widemann had heard the hints that the Collector did not attend to his duties. He had known Mr. Cleghorn for over fifty years; had been cashier for him for several years. Mr. Cleghorn was not a lazy man, works from early to late. Knows that he attends to the duties of his office. Of Mr. Boardman he did not know as much, but believed he was a working man also.

Rep. Ashford said that if the deputy was to perform the duties of Collector General it might be well to abolish the office of Collector General. It was not essential to have the two offices running side by side with different salaries, they might as well be merged into one. He would move to reduce the item to $4,800.

On vote the item was passed at $5,000 by 21 to 18, but the Chair [Rep. Kaunamano] in stating the result, reversed the statement and said the item was lost. Confusion worse confounded now ensued, cries of "question! question" being loudly vociferated and many members endeavoring to obtain the floor.

Clerk McCarthy stated the tally as taken by him, which showed that the item had passed.

Rep. Ashford said that it made no difference now, the Chair had said that the motion was lost.

Noble Cornwell said that the Secretary had made a count and the result showed that the item had carried.

Rep. Ashford said that the secretary was not the presiding officer of the committee.

Clerk McCarthy, *sotto voce*—I'm not in this; I only reported the result to the chair, he can proclaim what he wishes.

Rep. Kamauoha moved that another vote be taken and that "ayes and nays" be called.

Rep. Smith said that the record of the clerk was correct.

Another vote was ordered by the chair and after the result, 22 in favor of $5000 and 21 against, was told to the chairman by the clerk there was a long pause, by the chair, before announcement.

A number of voices could be heard calling for "let us hear the vote!" "what is the result this time?" "Mr. Chairman, I rise to a point of order!" but above the storm the fog horn voice of Rep. Kaneali could be heard moving that the committee rise and report progress.

The item was declared passed at $5000.

Salary Harbor Master, $5000.

Rep. Kaneali moved that it pass at $4800.

Noble Ena supported the item as in the bill. The incumbent worked early and late. He was a competent man and attended strictly to his business.

Rep. Bush was opposed to the item. It was not fashion of the Government officials to work from 5 a. m. until 9 p. m., rather the reverse. He knew the incumbent of the office, he had been to sea with him and when $6000 was asked for this salary he was at sea with regard to the reason. He favored a reduction.

Noble Walker and Rep. Smith were in favor of the item as in the bill.

Rep. Wilder said that Harbor Master Fuller worked from daylight till long after sunset day in and day out, Sundays included. The office required ability and honesty. The present official had both requisites. If he was not honest he could cheat the Government out of more money in the period than the proposed reduction would amount to and no one be any the wiser. He favored $6000.

Noble Baldwin considered the proposed redution, fair nothing unjust about it. It was necessary to reduce all along the line.

The item passed finally at $5000.

At 4.05 the committee rose and reported the work accomplished.

The rules being suspended Rep. Kapahu read a proposed amendment to Rule 94. Referred to committee on Rules. Also read questions to the Attorney-General: (1) Had police informers, in opium seized from January to April, 1892, been paid their share of fines? (2) How many cases were there of opium seizures? (3) Has the pay of any police officer been reduced for sickness, and if so has the money been paid into the Treasury.

The President announced the Oceanic Subsidy Committee as follows: Hons. Thurston, Cornwell, Nawahi, Ashford, Hind, Marsden, Baldwin.

At 4:13 the Assembly adjourned.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of that state during a recent blizzard, says the *Saturday Review*. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and that in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. Fifty cent bottles for sale by all dealers. Benson, Smith & Co., Agents.

DRESSMAKING, Cutting and Fitting done at ladies' houses. Perfect fit guaranteed. MISS WOLF, 73 Beretania street, or Mutual telephone 696, before 8 a. m. or 5:30 p. m. 8-3m

SHE WILL NEVER TELL THE SECRET.

Here is a piece of glass; it is cut into facets; it is pure white glass; it is fit to be one of the pendants hanging from a chandelier in a millionaire's drawing room; it is about as big as a hazelnut. How it sparkles as I hold it between my thumb and finger. Yet it is merely glass and scarcely worth a shilling, oh! if I only knew how to turn it into a diamond! a blue or a rose diamond! Why there are thousands who would give all their health, and then mortgage their souls, to buy it of me. Then good-bye to work and care, for I should be rich beyond the dreams of avarice. Who will show me the process? Alas! nobody. Who will tell me how to transmute tin or copper into shining gold? Alas! nobody. A bit of coal is carbon. A diamond is also carbon. Where is the link between them? We yearn to know. Thousands of men have burned out life's candle in the effort to ascertain. How vainly! In the bosom of her hills Nature hides that secret, as she hides the secret of man's destiny under the mountains of ashes and crumbling bones. On our bended knees we beg her to break one unbroken seal, to speak one unspoken word. She only regards us with contemptuous pity and remains for ever dumb.

Yet, is there no other mystery, just as deep, that comes home to your thoughts in a way to frighten you? Think a minute, man. What builds and repairs the house you live in, that is, your body? What changes a loaf of bread into nerves, flesh, skin and muscle?

What does this mean? as when a lady says of her daughter, "She took food but got no strength from it." It means that in her case the base products of the ground were not turned into the diamond called the human body. What does that mean in familiar English? Simply that the process of digestion is interrupted, a process stranger than the transmutation of copper into gold would be.

The lady proceeds to say that her daughter was seventeen years of age when she was taken ill. This is the age of hope, brightness, vigor, and enjoyment, and, by rights, illness ought to be unknown to it. Still, she lost her strength and languished as though stricken by time. She grew tired and weak, and could keep nothing on her stomach. She would, so her mother says, often throw up a quantity of green fluid as bitter as gall. This was bile, the fluid which in health nature takes from the blood and sends to the bowels to aid digestion there. The liver failing to do this work, the bile remains in the blood, and is returned to the stomach, which rejects it as a poison. That is a part of it. The rest saturates the body, producing headache, nervous depression and debility, bad dreams, cold hands and feet, furred tongue, yellow eyes and skin, dizziness, bad taste in the mouth, and the gulping up of a nauseating gas and slime, with loss of appetite and ambition for labor or pleasure. This state of things is often called a bilious attack, and is part of the results and symptoms of indigestion and dyspepsia. This affected life, to young or old, is one constant misery. It is the copper, the glass; not the gold or the diamond.

"This was my daughter's condition," adds her mother, "for nearly two years. She took various medicines, and was treated by a physician, but without benefit. She grew daily weaker, and with her decline our anxiety increased. We knew not what to do, nor where to look for help.

"It was at this worrying time that we first heard of the preparation called Mother Seigel's Syrup, and read the statements of different persons who said they had derived great good from it. Thinking, or rather hoping, that it might avail something in my daughter's case, I procured a bottle from Mr. Rogers' Drug Stores, Mullingar. To our great joy she found relief after taking the first bottle, and before she had finished the third one she was completely cured and has had no return of the complaint. I have since recommended Seigel's Syrup to many friends and neighbors. The facts in my daughter's case are well known to Mr. Rogers and to others in the vicinity. I append my initials and address. R. J. M., Slanemore, near Mullingar, Ireland."

Mr. Rogers certifies as follows:—

"I remember the lady above named informing me of the cure of her daughter by taking Seigel's Syrup, and can vouch for the accuracy of the statement.

"RICHARD G. ROGERS,
"Mullingar, June 4, 1891."

To recur to our illustration, we may say that the remedy employed assisted nature to resume her work of producing the most precious of all her jewels—health and happiness.
