KONA MAKES GOOD SHOWING

The Plantation's Yield Next Season 2000 Tons Sugar.

IMPROVEMENTS IN BOTH FIELD AND MILL

Officers Elected for Ensuing Year---Twenty-one Hundred Acres of Growing Cane for Next Two Crops.

At the annual meeting of the Kona Sugar Company this morning the following officers were elected: J. M. McChesney, president; W. L. Hopper and W. W. Hall, vice presidents; F. W. McChesney, treasurer; E. O. White, secretary; J. S. Walker, auditor; Cecil Brown, director.

Reports of officers and manager will be issued to stockholders in pamphlet form.

Manager Cowan's report was quite encouraging. The last season three hundred tons of sugar was marketed besides the growing of seed cane for next crop. There are 600 acres under cane for the crop of 1901, which is estimated at 2000 tons of sugar.

ADD KONA .. ..

For the crop of 1902 an acerage of 1500 acres is planted, making 2100 acres of growing cane.

The mill will begin grinding the beginning of January. It is thoroughly fit excepting for two additional boilers to be installed in December. Its output will be 50 tons a day.

Five miles of cabel now on the way will be erected for the carrying of cane, in conjunction with the flumes, to the railroad and mill. Albert S. Horner, manager of Makaisu, will superintend the installation of the cable system, he being a recognized expert in that method of transportation.

Charged With Slave Holding

Ng Mon War, for many years the Chinese clerk in Paul Neumann's law office, and his wife have been arrested and released on heavy bonds to appear in the United States District Court tomorrow. They are charged with holding a Chinese girl in slavery. The child has in the meantime been taken out of their custody and by Rev. W. M. Kincaid and Mr. McClellan placed in Kawaiahao seminary. Information of the Wars, alleging cruel treatment of the girl, led to the proceedings. District Attorney Baird promptly acted under United States statutes and Deputy Marshal Hendry executed the warrants. High Sheriff Brown also took action on behalf of the Territory, causing Mrs. Ng Mon War's appearance in the police court as elsewhere reported.

Chronic Nephritis.

The coroner's jury in the case of Iokepa who died on Thursday night, met in the Deputy Sheriff's office this morning and decided that death had been the result of chronic nephritis. This was the opinion of the physician in the case. It was thought that he had died from the effects of some liquor off the Doric.

IS LIKE NEW SHIP

TRANSPORT SHERIDAN IS AGAIN ON HER ROUTE

Thoroughly Rennovated Throughout ---Carries Recruits and Supplies for the Philippines.

Shortly after 7 o'clock this morning the United States transport Sheridan on her way to Manila from San Francisco, made fast at the Navy wharf. She is under the command of Captain G. H. Pierce who should certainly feel proud of his charge. The vessel presented a very clean appearance as she glided up to her berth. The Sheridan has undergone a complete change from stem to stern, upwards of $300,000 having been expended upon her.

Under these numerous changes she is enabled to carry 1880 troops. The dining saloon has been enlarged so that fully 75 people can be seated at one time, while 120 cabin passengers can be accommodated easily and with comfort. Notwithstanding the fact that the vessel is just from sea, she presented an air of cleanliness in every department that was at once noticeable. a condition, one rarely finds in the majority of deep liners plying on this coast outside of the transport system.

The Sheridan has on board a total of 344 soldiers who go to the Philippines to join their company. The troops arre in command of Major Chas. L. Hodges of the 17th Infantry, while C. G. Sawtelle Jr. is the captain and assistant quarrtermaster of the U. S. Volunteers. There is a large number of civilian employes of the Government on board, which, together with the wives of officers now serving in China and the Philippines make a very merry party. Major L. L. Seaman is on his way to the Orient as surgeon in charge of the hospital ship Maine now stationed in Chinese waters. On board are also nine attaches of the Geodetic Survey who are on the way to resurvey the Philippine Islands.

The Sheridan will take on 750 tons of coal and expects to get away not later than Monday.

A MUSICAL TREAT

Miss Griswold's concert last evening was a decided musical success. The audience was large and appreciative and there were undoubtedly many tickets sold which were not exchanged for seats. The low prices proved very popular as was shown by the well filled balcony and gallery.

Miss Griswold easily carried off the honors of the evening. Her voice is wonderfully clear and sweet with a great depth and fullness of tone. Each number was so well received that it would be difficult to pick out what the audience considered best; perhaps the "Pariate D'Amour" from Gounod's Faust to which was sung as an encore Greig's "Margenthan."

Mr. Egry's playing was a close second in popularity with the audience. Mr. Egry's delicacy of touch and facility of fingering always bring him volumes of applause. The instrumental numbers on the piano by Prof. Ballaseyus were well received; he also accompanied both the others in all the numbers. The violin obligato to Guglielmo's "La Camellia," the first number on the program was composed by Professor Ballaseyus.

The concert was in every way a great musical treat and it is to be hoped that Honolulu will have more of such entertainments in the future.

The Orpheum.

There was a good house at the Orpheum last night, better than Thursday. The new program seemed to be highly appreciated throughout. Adams, Conlon and Ryder and Denning and Carroll scoring the biggest individual hits.

Several notables will arrive next week in the vaudeville line. The management has made strenuous efforts to make connections with the big Western circuits and succeeded in making satisfactory arrangements on Mr. Cohen's last trip to the city. In consequence, there will in future be a constant change at the Orpheum and the artists arriving will be only those who have created an assured success on a recognized circuit. Among the new comers are Mabel Le Claire, singer, who before she entered the vaudeville field was prima donna to the Bostonians No. 2 company. Kurkamp, who became known to many Honoluluites during the Shriners' visit brings with him no ordinary reputation as a tenor singer of finished style and purity of tone. Alice Raymond, the celebrated cornetist is also coming, as are Haulon and Singer, two of the finest acrobats in the profession. Altogether there is quite a little galaxy of stars arriving here for the Orpheum this week.

PRINCE TUAN IS DEGRADED

And the Powers Hope for Return of Peace.

GERMANY HOLDS COUNTER REBELLION AS HOPEFUL

Prospect That Emperor May Return to Peking---Peace Makers Said to Have Reached Understanding.

Washington, Nov. 16.—Minister Wu has received from Director General Sheng the following cablegram which he communicated to Secretary Hay today:

"An imperial decree of November 13 deprives Prince Tuan and Prince Chwang of their ranks and officers and orders them to be imprisoned; secondly, Prince Tuan to be deprived of his rank; Duke Lan and Ying Nien to be deprived of his rank; Duke Lan and Ying Nien to be degraded in rank; Kang Yi being dead, no penalty can be imposed upon him; and Chao Shu Chiao to be degraded, but retained office; Yu Hsien to be exiled to the farthest boundary."

NEVER BE EMPEROR.

London, Nov. 16.—A news agency despatch from Shanghai referring to the alleged new imperial edict (depriving Princes Tuan and Chwang of all rank and offices and handing them over to the Imperial clan court for close confinement pending purther punishment), say the punishment of Prince Tuan means that his son, the heir apparent, can never be Emperor.

The edict also makes the early opening of formal peace negotiations probable.

AGREE ON DEMANDS.

New York, Nov.14.—A cable to the Sun from Peking, dated November 13th says: The Ministers today practically finished the work of formulating demands to be presented to the Chinese Government, only one or two questions remaining open for discussion at another meeting, which will be held next Monday. Meantime, the Ministers are conferring with their governments regarding the points at issue. The question of permitting the succession of Fu Chung, son of Prince Tuan, to the throne of China, the probable effect of which has already been pointed out, is considered so important that several of the Ministers have asked instructions from their governments as to whether they shall support or oppose the heir.

Morgan Returned As U. S. Senator

Montgomery, Ala., Nov. 15.—The joint caucus of Democrats of both houses of the Alabama Legislature tonight unanimously nominated J. T. Morgan as United States Senator. No other name was presented. Senator Morgan was called before the meeting and thanked the members for reelection. The ten opposition members of the Legislature in separate caucus pledged their votes to Morgan.

WORK ON SHAMROCK.

London, Nov. 15.—The work of building Sir Thomas Lipton's new America's cup challenger, Shamrock II, has been started in Denny's yard at Dumbarton, within an enclosure. G. L. Watson, the yacht designer, has laid out the lines of the framework, which will be constructed of nickel steel. The plates will probably be of bronze.

Wm. Haywood Back.

Wm. Haywood who recently resigned as Collector of Internal Revenue, returned from San Francisco in the Sheridan this morning. Seen by a Bulletin reporter this morning, Mr. Haywood had the following to say:

"While in San Francisco, I succeeded in making arrangements for a visit of Treasury Agent Thomas to this place. He will give me a receipt as the outgoing collector and will then authorize Mr. Hasson to act as collector until such time as President McKinley may appoint my successor.

"Mr. Taylor will be here in the China on the 27th inst. and I shall leave in the Zealandia, December 12."

HAYWOOD LUCKY STAR

CHRONICLE TELLS ROMANCE OF SUGAR MEN'S AGENT

Steady Progress in National Departments---'Tis Now $10,000 Against Uncle Sam's $3,000---Soon to go Hence.

San Francisco, Nov. 15.—William Haywood, the Collector of Internal revenue at the Hawaiian Islands, after being here four days will return tomorrow on the transport Sheridan and wait for the ceremony of turning his office over to his successor. Haywood has decided to resign his fat Federal office and take a fatter one. He came all the way to this city for the purpose of telegraphing his good luck to President McKinley and asking that a new man be appointed as soon as possible, says the Chonicle.

Haywood is credited with having exceptionally good luck. He had always been in the Government employ, but despite the fact that he had a pull like a kedge anchor Uncle Sam was unmindful of the fact that he was worth $10,000 a year. It remained for some Hawaiian planters to discover his real value, and when they offered him the handsome salary of $10,000 he thought that the Government was giving him only one-third—$3000—of what he was really worth.

The planters will have some matters come up in their interest at the next session of Congress and a lobbyist was needed badly. Haywood was approached on the subject and he reeled off the names of the powers that be at the Nation's capital as familiarly as though they were his own brothers. The wise men of the Islands opened their eyes immediately and Haywood was engaged.

Haywood's was certainly an uphill fight but success has dawned on him since his marriage. He first entered the employ of Uncle Sam in the year 1883, when just his majority at a salary of $900 a year as a clerk in the Alabama Claims Commission. Then he secured a position in the Secretary of State's office as a clerk. For ten years he worked at a s lary of $1,200 until one lovely night he proposed and was accepted by Georgia, the daughter of Judge Jere Wilson, a lawyer well known in Washington.

Wilson was an influential man. It was said he represented Mr. McKinley in the contest growing out of his election to Congress, and has been connected with other important cases.

After the marriage it has been one path of roses without any thorns for the fortunate Mr. Haywood. From $1,200 he was advanced to $1,600, then to $1,800, and finally he was prevailed upon to leave the Secretary of State's office and accept the office of Consul General for the United States in the Hawaiian Islands. From $1,800 his salary went to $4,000 as Consul General, and he cut a deep swath during his reign. Then he was appointed Collector of Internal Revenue when the Hawaiian Islands were classed as part of the United States. He was appointed on July 20 last, and the acquaintances he made in the few months more than compensated for the difference of salary, $1,000. Haywood will return to this country in a few weeks and proceed to Washington, where he will look after the interests of his wealthy island clients.

CHRISTMAS CONCERT

Wray Taylor's annual concert for the benefit of the Leper's Merry Christmas will be given in the Hawaiian Opera House on Tuesday evening, December 11th, when an unusually excellent program will be presented. Walter M. Gifford of Irwin & Co., was extremely nice about the use of the Opera House when approached by Mr. Taylor. Some idea of the program may be gathered when it is stated that the very best of the local talent will appear, both amateur and professional. Tickets including reserved seat have been fixed at $1 and will be on sale in a few days. The usual printing has been contributed by the newspapers. Full particulars of the program will be given as soon as all arrangements are made with the performers.

Mark Twain's Good Cheer.

New York, Nov. 15.—As the guest last night of the Society of American authors, Mark Twain convulsed a company of 200 men and women gathered at a reception in his honor in Delmonico's. Mr. Clemens was accompanied by his wife and daughter and was presented to everyone present.

GLADYS MINER GIVES EVIDENCE

Confirms Her Mother's Narative of Cruel Treatment.

MR. MAGOON MAINTAINS HIS STANDING IN COURT

The Trial Continues This Afternoon ---Several Matters of Law and Probate on Court Files.

Mrs. Miner was excused from the witness stand yesterday afternoon, in her divorce case against Dr. F. L. Miner, after having been there two days and a night session.

Mr. Silliman for libellant accused Mr. Magoon, counsel for libelee, of unprofessional conduct. He charged him with accompanying his wife on a visit to Mrs. Miner and under cover of an ostensibly friendly call endeavoring to elicit her case from her so as to gain an advantage to the defense.

Mr. Magoon indiginantly denied the accusation, affirming with most solemn adjurations that the visit in question was purely a friendly one. At the time he was not retained in the case.

Judge Humphreys questioned Mrs. Miner while still on the stand, and appointed a further hearing for this morning. The result left Mr. Magoon still of counsel in the trial.

Gladys Miner, daughter of the couple, was called a little before 11 o'clock this morning. Judge Humphreys after examination on that point declared her a competent witness. She is eleven years old. Gladys gave her evidence clearly and coherently, but in such a low key that the court had her draw nearer itself. The attorneys also shifted their seats, and Dr. Miner at the instance of Mr. Brown sat in the jury box right over his daughter. Her father's looming presence seemed to check the child's utterance, and Judge Humphreys taking in the situation quietly requested Mrs. Miner to take a seat near the witness.

Gladys confirmed incidents related by her mother. She told of her father's kicking her, pulling her hair and calling her vile names that she only repeated when instructed by the court that it was necessary. The occasion was the child's messing of her playroom, which included the spilling of ink on the floor, and the mother was chastised on her account by the father. Several other instances of rough treatment of herself and her mother by the father and husband were related.

The trial proceeds this afternoon.

John H. Coney of Lihue, Kauai, has been appointed by Chief Justice Frear as trustee for Mary S. Ashton and others under the will of the late John H. Coney, in place of John Ena, resigned.

Ira Eskey, administrator of the estate of Donald G. Campbell alias James Osborne, deceased, has filed an inventory showing a valuation of $2116.

W. H. Hoogs, administrator of Edward V. Everett's estate, by his attorneys, Kinnley, Ballou & McClanahan, makes answer of general denial to the complaint of Polua Malina, claiming wages as housekeeper.

David K. Naone and wife by their attorney, C. C. Bitting, move to strike the complaint of Fred Meyer against them from the files because not verified by oath.

H. A. Bigelow has filed a master's report on the accounts of the executors of the estate of George Lucas, deceased. In the settlement the executors cleared $12,000 for the estate. The report recommends approval of accounts and discharge of executors.

Truants in Court.

There were three truants in the Police Court this morning and all were native boys. John Makuaole (John Without Parents), was sent to the Reform school for six months and Kekua and Joseph Kapu were reprimanded and discharged.

Mrs. Mon Wa in Court.

Mrs. Mon Wa apepared in the Police Court this forenoon on the charge of assault and battery on Ah Ho, a Chinese girl. The case was continued until November 27. Mrs. Mon Wa is accused of having beaten the plaintiff who was looked upon by her as a slave.

Suit for Ejectment.

Elizabeth Booth has brought suit against the Kahuku Plantation Co. for ejectment. The land in question is on the other side of this island and starts from a point below the Pali. The matter has been pending for a long time.

OOM PAUL AT SUEZ

HAS HAD GOOD TRIP AND IS IN GOOD SPIRITS

Will Not Tell of His Destination---Has Communed With Himself and His Pipe.

Suez, Nov. 14.—"Oom Paul" Kruger, on the Dutch cruiser Gelderland, arrived here today. He remained in his cabin during the voyage from Lourenzo Marques, except at Dar-E-Salaam where he apepared on deck smoking his pipe, and bowed to the crowd of enthusiastic Germans that welcomed him there.

The Gelderland was boarded here by a representative of the Reception committee of Marseilles, who was received by the ex-President in his stateroom. Mr. Kruger chatted pleasantly with those who welcomed him, but refused any interview. His health is good. When he got over his seasickness he enjoyed the voyage immensely.

The officers of the ship say he kept much to himself and talked little on the subject dearest his heart—the possibility of saving the independence of his home land. He was told here that his compatriots were still acquitting themselves well in their hopeless struggle against the British. This evoked a smile, but no word of comment.

He was also told of the offer of the German Government to allow 15,000 Boers to trek into German Southwest Africa and settle there. This seemed to please him, but he maintained silence.

Mr. Kruger wants to know exactly what sort of reception is being planned for him before he announces where he will land. The captain of the Gelderland will not say whether or not Marseilles is his objective point until after he has reached Port Said, where he will take on coal. Until then Mr. Kruger will not consent to any interview. There is little doubt, however, that the Gelderland will make for Marseilles after leaving the canal.

Bulletin Boys "The Bes'"

The Bulletin boys beat the Star players in a hot game of football this forenoon, the score being 5 to 0. This was the score at the end of the first half. When the second half began, the Star boys began to cry, saying the Bulletin fellows were no good. No score was made in the second inning and the Bulletin boys came off the field cheering.

HEALTH ARREARS ARE CLEARED UP

How Constituted Geo. W. Smith presided at a meeting of the Board of Health yesterday afternoon, the first in three weeks Other members present were Attorney General E. P. Dole, Dr. N. B. Emerson, ald E. C. Winston, together with Executive Officer Dr. Pratt, Superintendent of Public Works J. A. McCandless, Superintendent C. B. Reynolds of the Molokai settlement and Secretary Charles Wilcox.

About Plumbing Rules The report of the acting plumbing inspector to Dr. Pratt showed plans filed and permits issued 37 each, inspections made 98, final inspections aid permits endorsed as to correctness of work 55, permits refused 5. In three instances plumbing work was stopped on account of no permits. The following observations were submitted: "If property owners knew that before plumbing work can be considered properly done it will have to be passed upon by the plumbing inspector and a certificate issued to that effect, the property owners would require the plumber to show said certificate of good work before payment. This would have the effect of doing away with a great deal of the poor work heretofore done in this city."

Complaint About Carriers Mr. Reynolds complained of the cattle carrying service done by the Wilder Steamship Co. From one to five head were lost in each shipment. Lately the price was jumped up from $5 to $7 a head. He had conferred with the management of the gasoline steamer company, which would undertake the service at a lump sum of $800 a month. Pending a contract it would put the steamer Enterprise in the service. He recommended closing with the gasoline concern.

Dr. Emerson moved, seconded by Mr. Winston, that Mr. Reynolds and Dr. Pratt be authorized to request the company to submit a proposition in form for consideration. Carried.

Chinatown Still Tabued Mr. McCandless by request stated the purpose of his appearance. There was a tract of the burnt district in Chinatown bounded by Beretania, Nuuanu, Kukui and River streets, which formed the worst nest of the plague. Many applications for building permits were coming in, and he thought it would be well for the Board to pass a resolution that the area is unfit for building purposes until filled up to street grades. The Bishop Estate realizing the unfitness of the locality for building upon was filling up its property there to a height of four or five feet, and even at that Mr. Dodge, surveyor for the estate, said it was not yet in places quite up to grade.

Dr. Emerson moved a resolution in accordance with the request, which was unanimously adopted.

Various Molokai Matters Mr. Reynolds, in a lull awaiting the formulation of the resolution on the Chinatown land question, reported some clandestine importing of awa and liquor, likewise occasionally firearms, into the settlement all contrary to regulations. Among the things requested by some of the denizens were licenses for two liquor saloons—there has never been one allowed there—also the providing of two fire engines, although there has not been $5 loss by fire at the place in as many years. Contraband stuff went through in invoices of permitted merchandise for stores. In this connection Mr. Smith mentioned a bill sent to the Board for freight on a stove shipped to a storekeeper. Mr. Reynolds thought there was no necessity for the prohibition of awa.

Dr. Emerson, who moved that the matters be referred to the Attorney General, remarked that awa was not a peace disturber. Mr. Reynolds interjected that the people had an idea that awa eased their sufferings. The motion carried.

Another matter Mr. Reynolds desired action on was that of traders at the settlement. Mr. Winston stated he had heard complaints, at latest visit, of high prices charged at the Board's store. On motion Mr. Reynolds was authorised to keep prices down to a basis of such profit as would cover the expenses of conducting the store. The sales amount to about $20,000 a year, and the advance of 15 per cent on cost hitherto charged was deemed too great.

Mr. Reynolds further recommended that, instead of increasing the number of cottages, a large non-sectarian home should be erected at Kalaupapa. It should have a kitchen, dining room, etc. He was asked to submit definite plans.

Slaughter House Site The Metropolitan Meat Co. wrote saying it could not secure the land for a slaughter house at Kalihi, being unable to make satisfactory terms with Judge W. L. Wilcox the owner, and requesting permission to build upon its own land mauka of the formerly approved site. It was voted to grant the request under approval of the sanitary officers of the Board.

William McCandless wanted permission to maintain a hog corral at a site indicated at Iwilei. Referred to the executive officer.

A petition against the maintaining of a soda water manufactory in Emma street on the ground that it constituted a nuisance. Among the signatures was that of Dr. Pratt himself. Referred to the city sanitary officer, with instructions to have the premises made sanitary if practicable.

Lodging House License Henry Smith memorialized the Board on the refusal of a license for the New Era lodging house in Fort street by Dr. Pratt. He contended that the objection of the executive officer that there was only seven feet of space between the house and next building, was invalid because the plans were prepared before the ten-foot space regulation was promulgated.

Dr. Pratt, in submitting the matter to the Board, acknowledged that the New Era was in perfect sanitary condition and the best lodging house in Honolulu. Having given the case thought for two months, he should not care about taking it into court.

"I move then," said Mr. Winston, "that the license be granted." Members of the Board consulted the regulation in question. Dr. Emerson seconded the motion and it was carried.

W. K. Azbill applied for a license for the Queen hotel, Nuuanu street.

Mr. Smith quoted the regulation in such cases and read an adverse report on the hotel from the sanitary plumbing inspector.

Dr. Pratt reported that Mr. Azbill was willing to comply with the plumbing requirements and divide part of the expense with the agents of the property, but that the agents stipulated that he should bear the entire expense.

It was voted to extend the time for connecting the Queen hotel with the sewerage system.

Rather Bare Reports Mr. Smith stated that reports of government physicians to hand practically amounted to nothing. They gave records of visits, etc., but nearly all had the entry, "No remarks." Dr. Denigar was the sole exception, he reporting a difference with a plantation manager about a laborer sent to hospital.

Dr. W. G. Rogers and Albert Carey, having passed examination by the medical board, were recommended for licenses to practice in the Territory. Dr. L. G. Parker's application was deferred to await the examiner's report.

Don't Print Names A report of E. C. Shorey, food inspector, was received. Reporters were reminded of a rule adopted some time ago, that the names of brands of adulterated articles but not the dealers were to be published.

Dr. Pratt made a statement regarding cases of burial without permits recently reported, with the action taken to prevent repetitions of the breach of regulations. He also reported on the Board's finances.

It was resolved, on motion of Mr. Winston, to close the Kalihi detention camp.

A difficulty of having accounts passed by the Auditor, while the Board is without a president, was considered. Mr. Smith laughed away a proposition to have a president elected for forty-eight hours of office. On motion of Dr. Emerson it was resolved that until the election of a president the executive officer is authorized to call meetings and conduct all business not requiring a vote of the Board.

Good Boy, Dr. Pratt Adjourned at 5:15. No executive session. The thanks of the press are due to Dr. Pratt for provding an ample table with chairs near the seats of members.

Regulation Regarding the Interment of the Dead in the District of Honolulu.

Whereas, that there having been no place prepared for the burial of the dead as required by law at the expiration of the period set, October 1st, 1900, and an extension of time having been granted for such special burial permit until cemeteries as prescribed by law should be available, and now that such feasible arrangements are an accomplisaed fact, therefore,

Resolved, that no permit for interments shall be granted within the city limits except to those already possessing burial plots.

This regulation shall go into effect from and after the 1st day of January, A. D., 1901.

SATURDAY....NOVEMBER 24, 1900.

When a Governor fails to proclaim Thanksgiving Day, it may be supposed that a political hard luck story causes a loss of interest in the day.

Admiral Bradford's recommendation that the ships of the American navy be equipped with the Marconi system of wireless telegraphy shows that the practicability of the Marconi system is beyond the question of a doubt.

Peace in China has much the same earmarks and promises of speedy settlement that Cuban affairs had under Spanish administration. Promises may be made and officials degraded, but the same old policy of chicanery, murder and failure to maintain "government" goes on.

The opportunity now offers for one sugar planter to come out and support the Advertiser's statement that National Committeeman Sewall asked for a single dollar for the national campaign in the States. Mr. Sewall never made any such request nor did his requests imply such a disposition of funds.

The Bulletin, which is understood to be paying Mr. Sewall for substantial favors received.—Advertiser. "Is understood" is the way the morning organ now puts it. A little while ago it said Mr. Sewall paid for the Bulletin's new press. When given an opportunity to prove its statement, the Advertiser shut up. Mr. Sewall's substantial favors to the Bulletin are now "understood." The Bulletin defies the Advertiser or any person in Honolulu or anywhere else to produce a single instance of Mr. Sewall paying or promising to reward the Bulletin or anyone connected with it for political support past, present or future. If the Advertiser or any person wishes to continue the matter further the Bulletin will throw its books open to a committe of three disinterested persons and its proprietors will make their statements under oath. Here's your opportunity dear Advertiser. Now let's see you take it up.

THAT STEAM ROLLER.

The steam roller, now doing work on King street, near Kawaiahao Seminary, is becoming quite a nuisance. This morning, a reporter of the Bulletin was passing by in a hack to which was attached to a spirited horse. The animal began to jump about but the steam roller man would not stop the machine and the result was that there came near being a collision with a passing street car. A couple of mules attached to an army wagon, were also very badly frightened but this did not make any difference to the steam roller man. He kept on going.

While breaking up King street this morning, one of the spikes of the roller pierced the water pipe outside the Territorial Stables, causing considerable damage.

Incorrect Statement.

William H. Tell feels annoyed at a news statement in the Advertiser that he had "refused" the office of District Magistrate of Koloa, Kauai, as it tends to place him in a false light before his late neighbors in the district. As the private secretary informed the reporters of the evening papers and was published in the Bulletin, Mr. Tell was unable to accept the proffered commission on account of the illness of his wife. Mr. Tell will be remembered by many people as a most efficient and trusted captain of police in Honolulu under several marshals. He has removed from Kauai to this island.

Colors for Medicine Bottles

The use of colored glass for bottles has recently been investigated by H. J. Moller of Copenhagen, and in an article lately published by the German pharmaceutical society he describes the proper colors for bottles which are to contain medicines, liquors or other substances. In order to secure protection for the contents from the chemical action of the light, a glass of dark color is used, and the best for this purpose are black (opaque), red, orange and dark yellowish brown. Next to these in the matter of protection stand light brownish yellow, dark green that is without a bluish tint, and dark brownish green; while bluish green, violet, milky, bluish and colorless glass offer but little protection from the actinic rays of the sunlight. For preserving wine, beer and liquors a glass of dark yellowish brown or dark brownish yellow is the best.—Public Opinion.

Florence will celebrate on Nov. 2 the four-hundredth anniversary of Benvenuto Cellini's birth by a festival and by setting up the sculptor's bust on the Porte Vecchio. Invitations have been sent out to all known goldsmiths' associations.

Why Has Porter Left French Court

New York, Nov. 16.—A dispatch to the Herald from Paris says:

The following extraordinary statement is given prominence in La Presse:

"A personage who claims to be thoroughly acquainted with what is going on behind the scenes in the matter of the divulgence of the secrets of the latest French field gun to the United States, makes the following statement:

"'This affair is connected with the sudden departure for Gibraltar of an officers of the United States Navy, who was employed in the foreign section of the exhibition, after having fulfilled his functions as naval attache at the Embassy. The field gun incident was also the cause of the sudden handing over of the affairs of the embassy to the first secretary by Gen. Horace Porter and his departure for Spain.'

"'The former naval attache in question who was born of British parents and devoted above all to the Embassy on the Faubourg Saint Honore, acted almost openly as spy for several powers.'

"'The departure of General Horace Porter which is given out as temporary, is really final and he will be replaced in Paris by Mr. John Leishman, United States Minister to Berne, a diplomatist of the highest character, whose independence vis-a-vis the English Embassy can be counted upon for maintenance of good relations between the French Republic and the United States."

Threw Hatchet at Emperor William

Breslau, Nov. 16.—Emperor William was the object of an attempted outrage today, which, however, failed. As he was driving in an open carriage to the cuirrassier barracks, accompanied by the hereditary Prince of Saxe-Meiningen, a woman in the crowd hurled a short hand chopper or hatchet at the carriage. The hatchet struck the carriage but the rapidity with which the vehicle was passing saved its occupants. The woman was immediately arrested. She is believed to be insane.

The woman's name is Selma Schnapke. She occupied a place in the front rank of the spectators, on the side of the Emperor. A crowd of people who witnessed the outrage threw themselves on His Majesty's assailant, but the prompt intervention of the police saved the woman from injury.

MUSIC AT THE ORPHEUM.

The Orpheum has resolved to live up to its name, and has made every arrangement to give its patrons the very best in the musical line. Prof. Sharp has already gained a reputation by his skillful manipulation of the orchestra which is now being augmented and strengthened to a degree that will find it hard to pick a complete band of musicians. Paul Egry takes first violinship on Monday evening next, Van Praag and Rosen are his assistants on the strings. Stickney adds a skilled flute. Ensign, a first class clarionet was brought down from the Coast on the Zealandia, whence comes an Alchellict in a few days. With this material the overtures should be the delight of music lovers. But this is not the end of the Orpheum's aspirations. The drawing power of a band is well known as a powerful auxiliary to the box office, so all musicians' contracts at the Orpheum read "must double in brass," which being interpreted means a swift change at call from the violin to the alto and a nightly concert under the illuminate sign of the Orpheum before the doors are open. Sharp wields the baton and plays cornet. Adams hangs on to his drum and triangle as do the trombone and the clarionet; the flutist takes up a piccolo and the others grasp horns of various descriptions and sizes. Verily Honolulu is speedily getting up to date while the Orpheum's enterprise deserves success.

Pleased at Rebellion.

Berlin, Nov. 15.—The news that Prince Tuan and General Tung Fu Siang have rebelled was greeted here as a favorable sign. The Tagblatt says that if it be true the rebellion will probably induce the Emperor and Empress Dowager to return to Peking and place themselves under the protection of the Powers.

A St. Jerome painted by Albrecht Durer in 1521, 24 by 19 inches in size, has just been discovered by a German art critic in the Lisbon National Museum of Fine Arts. Durer tells in his diary that he presented the picture to a Portuguese who had befriended him at Antwerp.

HIS DAY FOR PAYING.

A curious and highly drmatic incident occurred in Tom Sullivan's sample room near the City hospital one evening during the last week.

A hobo with a highly colored nose and a choice crop of whiskers entered and in a husky voice said to the barkeeper, who rejoices in the name of "Shorty:"

"Gimme a beer, please, mister!"

The beer was drawn and placed on the counter, the hobo drew a long breath and in a few moments his nose could be seen shining through the bottom of the glass, which was empty.

Then turning to "Shorty" he politely said:

"Will you please bend your ear this way?"

"Shorty" complied and the tramp whispered something.

Then "Shorty" politely made the same request:

"Will you please bend your ear this way, sir?"

The tramp complied, bending over the bar, and was given a terrible half-arm poke in the ear, and a moment later chased him through the swinging doors with the beer mallet.

When the bartender returned he explained the matter by stating that the tramp had asked him to wait until Saturday for the money for the beer, and when he asked him "What Saturday?" the tramp had answered "Easter Saturday."—Cincinnati Enquirer.

Ranges for the People at Popular Prices. For Hard or Soft Coal or Wood.

This construction is provided with perfectly square SHEET-STEEL OVENS, which renders them very quick and perfect bakers. Have Self-mounting Cast-iron Door, and the entire outside finish is of Aluminium. Particular attention is directed to the fact that the inside of the Sheet-steel is also Aluminized, which protects the wearing qualities and prevents rusting out. DETACHABLE RESERVOIR, which fits all sizes. The prices of the above are extremely low.

The "OAKLAND" Four Holes, for Wood Only.

The Best Designed and Best Made Stove for the price ever offered. Heavy Fire-back, Large Fire-box, Large Smooth Hearth, End shelf and Outside Oven-shelf.

The "SUPERB GARLAND" Square Oven Range

SIX HOLES, FOR SOFT COAL OR WOOD. Spacious Pouch-feed, Large Broiling-door, Heavy Bostonring Covers, Extra Heavy Cast-iron Sectional Linings, Large Ash-pan, Rods Mounted on Outside. DUPLEX GRATE, which can be moved and replaced without disturbing the remainder of the Fire-box. Aluminized Oven-door, Oven-back and Oven Rack. Aerated Oven, admitting Fresh, heated Air.

ALUMINUM is mixed with the iron from which all "GARLANDS" are made. This mixture adds strength, prevents blow-holes, and is a benefit to iron in every way. For Sale at the

By Using The

Hydro-Carbon Lamps

which give 100 candle-power for each burner at a cost of 1-5 of a cent per hour, you save 4-5 of a cent per hour over a kerosene lamp giving 50 candle-power; and 4-5 of a cent per hour over a 16 candle-power electric light. The cheapest ARTIFICIAL LIGHT.

It pays to buy the Hydro-Carbon Lamp. The ONLY Lamp of its kind FULLY GUARANTEED to give satisfaction OR MONEY REFUNDED.

The removable reservoir is a special feature. Does not require taking down lamp to fill. This feature will pay for the lamp in preventing breakage of mantles. Requires no care, the burner being absolutely self-cleaning. Contains all the advantages and none of the faults of other gasoline lamps. Fully approved by Fire Insurance Underwriters.

SERVED at the Banquets in Cherbourg and Versailles, tendered by the French Nation to the CZAR of RUSSIA.

In the manufacture of Pommery Champagne only the first pressing of Selected Grapes is used, the subsequent pressings, not being up to the standard adopted by the House of Pommery, are disposed of in various ways. This is one of the many reasons why Pommery Champagne commands the highest price the world over.

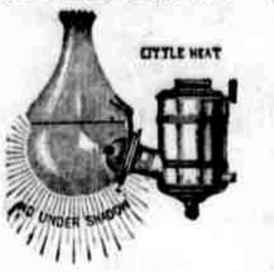
Another Large Shipment of
ANGLE LAMP!



These lamps burn in such a manner that the combustion is almost perfect and for this reason the light is magnificently brilliant, smokeless and odorless.
The lamps are absolutely safe, being simply impossible to explode.
If you are tired of the bother of ordinary lamps, if you wish to rid yourself of their care, the above will appeal to you very strongly. When coupled with economy the appeal is irresistable.
The Angle Lamp accomplishes perfect illumination, it presents an opportunity of securing a light that is easily operated and more brilliant than gas or electricity with no more heat at a mere fraction of their cost. It provides a lamp for Homes, stores, offices, factories, halls, libraries, hotels and churches, that is ideal in every way.
The public is cordially invited to call and inspect these lamps.

SUNDAY AFTERNOON AND EVENING

The ship Albert, Griffith, will take her departure for San Francisco on Sunday or Monday with some 18,000 bags of sugar.

The W. G. Hall was a day ahead of time this trip usually coming in on Sunday. This is due no doubt to there being no sugar for her.

The Norwegian bark Stjorn arrived at Portland, Ore., on the 13th inst from Honolulu. She is under charter to load wheat and left for the Islands on the 15th.

The ship Iroquois is looked for shortly after the first of December from the Sound. She has in her hold a large cargo of general merchandise for local houses and several plantations.

The R. M. S. Aorangi of the C.-A. Royal Mail Line from Vancouver and Victoria on her way to Sydney and way ports, arrived this afternoon and docked at the Pacific Mail wharf.

Captain John Utterstrom, wife and seven children arrived in San Francisco Nov. 3 on the bark Annie Johnson from Hilo, where he is captain of the tug boat Rover. He will return in the Johnson to Hawaii.

Among the passengers from Kauai ports in the W. G. Hall this morning were the following: G. N. Wilcox, A. S. Wilcox, wife and child, Dr. Carmichael and wife, Geo. Fairchild, Miss J. King, Mrs. Kaae, W. A. Hardy, W. F. Love, G. B. Curtis, A. Harris and H. Crabbe.

United States and European mails will be dispatched as per postal schedule and contain supplies of our "Hawaiian Souvenir Art Calendar" for 1901. Edition limited. New subjects better than ever. Strictly high class work. Best calendar yet produced. Don't fail to mail one to the friends at home. Wall, Nichols Co., Ltd. •

BOTHA TALKS TERMS

London, Nov. 15.—Commandant General Botha, according to a dispatch to the Daily Mail from Pretoria, has sent to Lord Roberts a statement of the terms on which he will surrender.

"We understand," says the Daily News, "that Lord Roberts has intimated that it is impossible to withdraw more troops from South Africa."

"The Portuguese Government," says the Lisbon correspondent of the Daily Mail, "has cabled depriving Herr Potts, Transvaal Consul at Lourenzo Marques, of his exequatur."

PACIFIC MAIL PRESIDENT.

New York, Nov 14—For some unexplained reason the meeting of the Pacific Mail directors which was scheduled for today, was again postponed, this time indefinitely. It was expected that at this meeting Charles H. Tweed, vice president of the Southern Pacific, would be elected president of the Pacific Mail Company.

A genial young Englishman, Capt. John Bertram Clayton, who died recently at Nice, has bequeathed his estate of $700,000 ultimately to his two daughters on their attaining the age of 35 years, provided "they have not previously married either a citizen of the United States of America or a member of the Hebrew race or religion."

George Dolby, who was Charles Dicken's secretary and manager during the last reading tour in the United States, died recently in the alcoholic ward of a London hospital. Drink had made him a tramp, and he had been turned out of his last lodgings on account of his dirty habits. He wrote a book of reminiscences of Dickens with the title "The Chief as I knew Him." His sister was the once famous English contralto Mme. Sainton-Dolby.

What's In a Name.

Although the present fashion of christening children with family surnames is much to be commended for many reasons, it carries with it some awful possibilities unknown in the days of Mary Anns and John Henrys. A glance at the following list, each name of which is genuine, will illustrate sufficiently well the possibilities of nomenclature resting with parents in their choice of names for the men and women of tomorrow: Edna Broker Mothershead, Marian English Earle, Sawyer Turner Somerest, Will W. Upp, Nealon Pray Daily, Benton Killin Savage, Owen Taylor Money, Ima Little Lamb, Broker Husbands Hart, R. U. Phelan-Goode, Marie A. Bachelor, May Tyus Upp, I. Betty Sawyer, Mabel Eve Story, Will Waltz Wither, Waring Green Cotes, Iva Winchester Rifle, Etta Lotta Hammond-Degges, Barber Cutting Mann, Weir Sick O'Bryan, Makin Loud Noyes, Hurd Copp Cumming, Rodenor Pullman Karr, Doody Spies Sourwine, Knott Worth Reading.—Life.

FOR SATURDAY SADNESS

BY DIOGENES.

It would certainly be a reform to have an independent board of health in every senatorial district, and confine all the boards strictly to district sanitation and district quarantine matters. The Molokai settlement properly belongs to the care of the department of public works, with its therapeutic needs in the hands of a resident medical superintendent. Government physicians might well be placed entirely in the control of the Secretary of the Territory, and their pay from the public treasury be regulated strictly according to their sworn returns of services actually rendered to indigent people. The Board of Health has grown too much a government of and by itself, whose protection against pestilence invariably proves worthless when a visitation comes. The people have to pay for the pound of cure every time which the neglected ounce of prevention would have saved. Sanitary rules should be made in times of immunity when calmness rules, and not when a dread visitation causes action such as panic suggests. And the rules should not be given to Board of Health inpectors to enforce, but relegated to the power of the police under strict accountability for most rigid enforcement. It is the man in blue with brass buttons who should serve stern notice on the property holders to abate nuisances upon their premises. With the certainty of a warrant of arrest to follow in a day the disregard of a warning there would be a clean town very soon. What are the police for, if not to enforce all wholesome laws that carry penalties? Another thing a Board of Health should have absolutely nothing to do with, save the making out of requisitions, is the supplying of food, medicine, fodder, building material or anything else. This should be strictly under the control of the Territorial Executive, through some responsible departmental head. Then woe betide the political party at the polls whose elected nominees for office conived at jobbery or tendered unmerchantable necessaries of life to the wards of the people on Molokai. The proposition to better the health—the word should be sanitary—administration of the Territory by having a paid president of the Board should be scouted out of hearing by the taxpayers. There are too many salaries to pay now in this little Territory. Why should the president be paid, any more than ordinary members who give their valuable time to the Board's affairs? A president's duty should be only to umpire the meetings and sign the papers requiring such attestation. Think of these things.

* * *

Has anybody thought of getting a system of municipal government for towns and counties from the Congress of the United States? Its supreme power over territories may surely include this matter. Municipal charters from the Home Rule Legislature elected would mean that Wilcox & Co. would name all the mayors and aldermen.

* * *

The native has taken the bit in his teeth, but it is apt to make his mouth sore before very long.

* * *

If there is but a slim chance that the Republican Administration and Congress will lavish Federal money on public works in the Territory of Hawaii, after the stunning knockout of the Republican party in the Territorial elections, how would it fare with us had the Democratic party come to rule national affairs when its Hawaiian standard-bearers were trodden with greater roughness under the Home Rule hoofs? Verily, our situation might have been worse than it is.

* * *

Following the sewerage operations, when the Rapid Transit people get through with their tracklaying, Honolulu will have to face the necessity of making at least ninety-five per cent of its streets entirely over again. It is time for civic financiers to put on their thinking caps, for the wherewithal of this coming expense is beyond the scope of a primary school arithmetical exercise.

* * *

Where is the dead nerve in the local government anatomy that prevents the cutting off of the antiquated frontages protruding on the amended lines of Fort street on both sides? These disfigurements permitted to endure are nothing short of a public disgrace.

* * *

With three common carrier corporations getting into strenuous rivalry for graveyard concessions from the Government, it would not be surprising if the traveling public became stricken with nervous prostration.

* * *

The incident about to be related only lacks confirmation. A milkman on his rounds, the morning after a social event at Makiki, saw a hat lying in the middle of Wilder avenue. As it looked like finding a good Wilcox election wager he picked it up, when to his horror he discovered beneath where it lay a man's head with facial evidence of vitality. With a thrill of hope that he might save a life the milkman thrust his arms down on either side of the head and grasped a pair of armpits. Tugging with all his might he brought a bust to the surface, when he was startled by a voice at his bosom. "Be easy, friend," it moaned piteously; "my left foot is caught in the treadle. There's a bicycle under me."

The band will play in Emma Square this afternoon and on the Capitol grounds Sunday afternoon, should the weather not be inclement.

WEAK MEN!

It seems that the Creator has ordained that the vital seminal fluid next to the blood itself is the most precious substance in the body of man, and any unnatural loss thereof will always lead to disastrous results.

Many men have died of common diseases such as diseases of the heart, liver, kidneys, lungs, etc., through having allowed their vitality to be wasted, thus exposing themselves to become the easy victims of these diseases when a few boxes of our remedies taken in time would have prevented those debilitating losses and preserved the proper vitality to resist the attacks of these dangerous infirmities.

Many men have been slowly but surely drifting into a hopeless insanity because of these losses, without knowing the real cause of their sufferings.

Are These Your Symptoms?

Inclination to onanism, emissions either during the day or at night, losses on being in the presence of a person of the opposite sex or on entertaining lascivious thoughts, pimples, contractions of the muscles (the precursors of epilepsy), voluptuous thoughts and dreams, feelings of suffocation, tendency to drowse or sleep, feeling of numbness, loss of will-power, want of energy, impossibility to concentrate the thoughts, pains in the legs and muscles, feeling of sadness and dejection, disquietude, failure of memory, indecision, melancholy, weariness after the least effort, specks floating before the eyes, weakness after copulation or involuntary loss, losses while straining at stool, noise or singing in the ears, timidity, hands and feet cold and clammy, fear of approaching death or misfortune, partial or total impotency, premature or late discharge, loss or diminution of desire, decline of the sensibility, undeveloped or weak organs, dyspepsia, etc.

Any of these symptoms is Nature's warning to a man that he must repair his wasted vitalforces or become the easy prey to some fatal diseas.

We ask all men who suffer from any of the symptoms enumerated above TO HEED THE WARNING, and communicate at once with our company of specialist physicians who have had twenty years' experience in treating diseases of the nervous and sexual system, and who alone can guarantee a radical and permanent cure.

Send us a complete statement of your case, giving us your full name and address, age, occupation, married or single, which of the above symptons have already appeared in your case, and whether you have ever been treated for gonorrhœa, stricture, syphilis or any other venereal disease. Our medical staff will at once carefully diagnose your case (gratis) and inform you of the cost of a complete treatment which will effect a radical cure and restore you to health and full manly vigor.

If you desire treatment at once, and will send us (as a guarantee of good faith) the equivalent of five United States' dollars in draft on London or New York, or in postal order or current money of your country, we will send you, by registered mail, the proper remedies immediately after our staff of physicians have decided the requirements of your case. Write us in English if possible.

SPLENDID LINERS FOR PACIFIC TRADE

New London, Conn., Nov. 15.—Actual work began this week on the laying of the keels to the mammoth iron steamships to be built for the Great Northern Railway at the works of the Eastern Shipbuilding Company at Groton, opposite New London. There was issued from the office of the company today an authoritative statement regarding the size of the ships, which show them to be the largest vessels in the world now building or planned. The new vessels will be of 20,000 tons register and 33,000 tons displacement, or just 10,000 tons more displacement than the new Atlantic greyhound Deutschland. The new steamers, which are being built primarily for cargo carriers, are not as long as many Atlantic liners, but are much wider and deeper. The following are the principal dimensions of the vessels: Length, 630 feet; beam, 73 feet; depth, 56 feet. They have each five continuous decks, extending the whole length of the ship, with three additional partial decks amidships.

Passengers as well as freight will be carried, and accommodations are provided for nearly 1000 passengers in three classes. The vessels will have a speed of fourteen knots an hour, and will carry over 4000 tons of coal in their bunkers. They are designed to carry cattle, chilled or frozen meats in refrigerator chambers, fruit or any kind of cargo that may appear for transportation. It is estimated that when completed the steamships will cost fully $5,000,000, and they will run from the Pacific Coast to Oriental ports in connection with the Great Northern Railway.

CHILDREN'S WORST FOE.

Children show symptoms of disease quicker than grown people, and are accordingly easy to treat for all troubles. The worst foes of children are worms, but their presence can be readily detected and speedily removed. When a child becomes restless in sleep, picks at its nose, grinds its teeth, has an irregular apetite, is nervously irritable, and has bad breath, it is a victim of worms' work. There is just one way to treat worms—that is to kill them. Don't waste time on any other treatment, and don't waste money on any other medicine, for Kickapoo Indian Worm Killer is the safest, surest, promptest and most permanent relief from worms. News of Shipping Along Water Front

The Fanny Adele is discharging at Eleele.

The brig Consuelo from San Francisco general cargo.

The bark St. Katharine left San Francisco for Honolulu on October 30.

The gasoline schooner Surprise is at Eleele discharging her cargo.

The Kauai for Kii is at Niihau loading 250 head of sheep for H. Waterhouse.

The Kaiulani from Oahu is at the Irmgard wharf discharging rice and bananas.

The bark Olympic, Captain Gibbs, arrived at San Francisco from Honolulu on October 21st.

The S. N. Castle hauled alongside the Mauna Loa this morning to take on sugar for the Coast.

This is varnish day at the Kilohana Art League. Monday evening the full view reception will be held.

The ship Servia is loading at San Francisco for Melbourne, Sydney, Newcastle and thence to Honolulu.

The ship Great Admiral and schooner Annie M. Campbell from Honolulu arrived at Neah Bay on October 31st.

The weather on Kauai is very smooth with little rain and no wind. In the channel is fair with northeast winds.

The barkentine Planter which left San Francisco on October 31st for Honolulu, carried an immense deck load, ten ten-ton boilers.

The schooner Ada, Weisbarth, is discharging at the Irmgard wharf 520 bags paddy, and will take on general freight and leave on Monday.

The Kamoi is lying at Allen's wharf. She is having a new mainmast put in, and a general overhauling and will again enter the island trade.

The Moiwahine from Hawaii has finished discharging sugar at the railroad wharf, and is taking on freight. She will leave the fore part of next week.

The total sugar left on Kauai per recent reports is as follows: K. S. M., 2000 bags; Diamond W., 300; G. & R., 69; M. A. K., 2700; L. P., 600. Total, 5,669 bags.

The W. G. Hall will take the place of the Mauna Loa on the island run while repairing is being done and the Mikahala will take the place of the W. G. Hall.

A large number of Portuguese contract laborers are expected on the Aorangi. They are consigned to the plantation at Spreckelsville and will take passage on the Maui which leaves today provided the Aorangi arrives.

According to the report of the Sydney Commercial News, the number of marine disasters is just three for the year. The wreck of the ship William Carson being the only serious loss. When the large anual volume of shipping to Honolulu and the islands of the group is taken into consideration, this showing becomes all the more remarkable.

It is rumored that some positive action will be taken at the forthcoming session of Congress having in view the securing of a naval appropriation to carry forward the work of erecting a government dock and machine shops at Pearl Harbor. It is believed by those in naval circles, that the benefits that would accrue to the United States government in expediting the repairing of vessels would more than justify the establishing of a naval station here.

Papers have been filed in the United States District Court in San Francisco by the John D. Spreckels & Bros. Co. and the Shipowners and Merchants' Tug Co. libelling the Austrian steamer Olga, 14,356 baskets of sugar cargo, and all of her freight, to recover claims for salvage. The libellants allege says the Examiner of the 14th inst. "that the value of the steamer is $300,000, that of the cargo and freight $260,000, and claim $175,000 as a competent allowance for having pulled the vessel off the beach a short time ago." It seems that the vessel went ashore during a heavy fog, and take it all in all the accident will prove an expensive affair.

CANAL ALL RIGHT

Washington, Nov. 15.—The Minister from Nicaragua, Senor Don Luis Corea, arrived in Washington this morning, after an absence of four months in Nicaragua, during which time he conferred with President Zelaya and the members of the Cabinet concerning Nicaragua canal affairs and other subjects of interest to the two countries. He says that by a happy combination of circumstances the way is now clear of private concessions and border misunderstandings, so that direct governmental consideration of the waterway may be taken.

AUTO THAT RAN DOWN.

A well-known woman started out the other day in an automobile to keep an engagement to luncheon. She had so arranged it that just sufficient time was left to make the journey from her house to her destination and to arrive at the proper moment. All went well until she reached the street in which the house was situated wherein she was to take luncheon, but, instead of stopping there, the "auto" sailed majestically past the street. Thinking the driver must have mistaken the address, she was just reaching up to raise the little cover to the hole in the roof through which driver and passenger can communicate when it was opened from above and the driver called down: "I don't know whatever's happened to the thing, ma'am, but I can't stop it, and, what's don't you be afeerd, ma'am, for there ain't a bit of danger."

"No danger!" gasped the astonished passenger. "Why, what are you going to do? How are you going to stop?"

"I ain't a-goin' to stop," replied the man; "leastway I ain't a-goin' to just at present. I've got ter keep a-goin' until the blessed thing runs down."

The passenger reflected that it was no use screaming, and, as they were in a particularly quiet part of the city, there was no particulad danger of running into anything; but then there was the luncheon. So she poked up the cover again, and, explaining the situation to the man, asked that he keep her as near as possible to where she wanted to go. "Sure!" was the prompt reply, and so round and round that block they went for what seemed to the passenger to be an eternity. Her first feeling of fear gave way to hunger, and that in turn to thirst, and still they held on their seemingly unending course. Just as she was resolving that she would take a chance and jump, there came a cry of joy from the driver, then speed slackened, and, with a final despairing squeak from the machine, it came to a full stop next door to where she was to have luncheon. She arrived just as the lunchers were getting up from the table.—New York Tribune.

Eduard Strauss Orchestra.

The New York Tribune says of the first popular concert given by Eduard Strauss and his orchestra in New York: "Strauss is a name to conjure with, and there are many musical persons who do not know that all Strausses are not Johanns. So curiosity paid its tribute. But for the rest—for the enthusiasm displayed over the poorest performance ever heard at a Sunday night concert in New York—there is but one explanation, and to offer that would be a public humiliation."—Public Opinion.

ANOTHER CORNEGIC GIFT.

Pittsburg, Pa., Nov. 15.—At a dinner given tonight by W. N. Frew, president of the board of directors of the Carnegie Institute, to Andrew Carnegie, Mayor W. J. Diehl and other prominent citizens, Mr. Carnegie made an offer to the city of Pittsburg to build a technical school in connection with the Carnegie Institute and endow it with $1,000,000. The tone of Mr. Carnegie's address would indicate that, as in the case of the institute, his contribution would be increased later to meet the needs of the proposed school.
