NINETY MILES OF RAILROAD TRACK

Will Soon be Laid in Kona and Kau, Hawaii.

RESULTING IN OPENING UP OF VALUABLE LANDS

At Elevations Between 1,000 and 1,400 feet--Carl Coerper Has Gone to Consult With His Associates.

Among the departures for San Francisco in the Alameda last evening was Carl Coerper of Chicago who has been here in the Islands on business for some months. Accompanying him was his daughter. The two are bound for their home in Chicago.

Mr. Coerper is the recognized head of the scheme now well under way, to run a railroad through the Kona district of the island of Hawaii as far as Pahala in the Kau district, and it is on matters in connection with this, that he has started out on his trip home Mr Coerper goes to consult with his associates among the monied men of Chicago and to tell them the exact state of affairs. As soon as he has done this, he will probably make another trip to the Islands.

Mention of the proposed road was made in this paper when the proposition was first being considered. Since that time, great strides ahead have been taken and the middle of next year will in all probability see a goodly part of the railroad complete.

W. A. Wall, the surveyor who has been placed in charge of all the operations in regard to the surveying of the land for the proposed road, returned recently from another of his frequent trips to Kona. To a Bulletin reporter this morning, he had the following to say:

"It is proposed that the name of the proposed railroad shall be the Kona-Kau Railway Co. From the surveys already made, the conclusion has been reached that the line must run along on the upper lands of Kona and Kau between 1000 and 1400 feet above the level of the sea. The Kona terminal has not yet been decided on but it will undoubtedly be at the very best landing place that can be found. As you know, there is a choice between some of the ports.

"The Kau terminal will be Pahala where the big plantation of that district stands. No part of the railway will approach the shore in the Kau district. The line will run up from the landing to the higher levels and will then continue along at the elevation mentioned until the terminal in Kau is reached.

"The road will be between 85 and 90 miles in length and will pass through the most fertile region of that fertile district of Kona. A large amount of this land has already been opened up but the great majority is still in its original shape, waiting for just something like a railroad to develop its vast resources. This will mean an untold benefit to the owners. The railway is to pass through tracts of land owned by the Kona Sugar Co., the South Kona Sugar Co., the Bishop Estate, W. C Achi and a large number of small holders.

"I shall start up on the first of next year to superintend the work of making preliminary locations for the road. I already have a party at work going over the proposed line."

Mr. Wall was asked if he knew anything about a propistion to connect the Kona-Kau and Kohala-Hilo railway systems but he replied in the negative. However, it has been learned on good authority that, as soon as the road is built, there will be a proposition made for such a connection. It will be but a step from that to a complete circuit of the Big Island.

As to the matter of stockholders in the proposed corporation, nothing can be done until a charter for the building of the road is obtained from the government. However, it is pretty well understood that the great bulk of the capital will come from Chicago. Mr. Coerper will undoubtedly be the biggest owner in the company. Several Honolulu men will also hold a considerable amaount of stock.

Gardner K. Wilder, formerly Circuit Judge at Hilo, has been made attorney for the company while Mr. Wall is the regularly appointed surveyor.

Stole a Lantern.

When the night watchman in charge of the concrete building now in process of construction on King street just Waikiki of the Judiciary building went to that place yesterday afternoon he put up his lanterns then went behind to attend to some other work. As it was broad daylight he had no idea that anything would happen but something did. He had only been behind the building about a minute but when he returned to the front part, he found one of his lanterns gone. Evidently someone was watching him.

THE OVERLAND MAILS

STAR ROUTE SERVICE IS NEARING COMPLETION

Four Principal Islands Will Soon All be Under Contract--Hilo Papers to Lose a Strong Cause for Kicking.

Mr. Carr, railway mail agent, has the "star" or overland routes of this Territory in an advanced stage. Oahu has had the service in smooth running operation for some months. Proposals for Hawaii and Kauai have been forwarded to the Postmaster General. Mr. Carr can judge only by the number of proposals, passing sealed as they do through his hands, as to the probability of having all the routes satisfactorily covered. He is quite satisfied of the result for the island of Hawaii from the many bids received. Once the service is established on the big island, there will likely be an end to the loud complaints of irregular overland mails with which the Hilo papers teem.

Proposals for routes on Maui will close on December 24. When the contracts are awarded on these, only Molokai will be left to deal with. All the principal islands, in a few weeks hence, may depend on having an internal mail service much superior to anything they have enjoyed heretofore.

Postoffice Lockbox Key Redemption

Uncle Sam doesn't charge as high a deposit fee for postoffice lockbox keys as the Republic of Hawaii did. It is but 20 cents, against 50 cents. Uncle Sam is honest—when you catch him timely—and he offers to redeem Honolulu lockbox keys at 30 cents for a period of ten days. The limit is December 18 to 28 inclusive. Boxholders are obliged to register their keys anyway, and, as 30 cents ought to be just as good for them as for the United States treasury, they might as well bring in their keys within the prescribed time. The redemption fee will only be paid for three keys to a box, and that only when all are brought in together. As there are 1039 lockboxes, at 30 cents for three keys each, Uncle Sam's redemption process might be good for putting $935.10 in circulation. It is like finding money.

Mr. Pond Married.

The Oberlin(Ohio) News of November 30 contains the following marriage notice:

"POND-ELDRIDGE—At the residence of Prof. George Mead, 5536 Madison avenue, Chicago, Monday, November 26, 1900, by Rev. C. N. Pond of Oberlin, the father of the bridegroom, Mr. Percy M. Pond and Miss Edith O. Eldridge, both of Honolulu, Hawaii.

"The parties will soon visit Oberlin friends and then return to Honolulu for their future home."

A complete new stock of shoes has been received at L. B. Kerr & Co.'s shoe store, corner Fort and Hotel streets and will be sold at the merest shaving of profits.

'TIS ONLY KNOWN THEY ARE DEAD

Coroner's Inquest on Death of Bennett the Scout,

AND OF MISS SCHNEIDER THE NEUMANN SERVANT

No Direct Evidence to Prove Bennett's Connection with Death of the Woman--No Positive Conclusions.

The Coroner's jury in the case of the death of Frank P. Bennett met in the office of the deputy sheriff at the police station yesterday afternoon. The jury was composed of the following: F. O'Brien, Ed. Dekum, H. S. Bailey, J. Brown, F. H. Loucks and E. Edmunds. The first witness called to the stand was Alfred E. Hansen, a private at Camp McKinley. His testimony was to the effect that at about 10 o'clock on Friday morning last while sitting at his desk in quarters he heard a report like that of a revolver. The sergeant was sent for and, after investigation, he reported that he believed the report to have been caused by the slamming of a door. Oran Underwood, the acting commissary of the camp, reported having heard the report. He also testified to the fact that he had heard a Chinese storeKeeper say that deceased had borrowed $14.75 from him.

James D. Alexander, the man who made the horrible discovery Sunday afternoon, stated that he had last seen the deceased on Thursday morning. He had borrowed money from him in small amounts since July. The total was about $60. Deceased also said he had some sugar stocks that would pay him well and that, as soon as he received his money, he would pay him back. Dr. Pratt of the Board of Health, testified to the condition of the body when found and to other matters in connection with the cause of the man's death.

Sergeant George West, the officer from whom Bennett secured the revolver, testified to handing him the firearm and the conversation that took place. Sergeant Bullock testified to seeing Bennett on Friday morning. The deceased was up early and had his breakfast as usual. He complained about having slept but little on account of an attack of neuralgia.

The remainder of the evidence, which is but very little, will be taken this afternoon at the usual time. This having been done, the jury in the case of Miss Schneider will be called together and not until all the evidence in this case has been taken, will a verdict in either be rendered.

The following is what Deputy Sheriff Chilligworth, the coroner, had to say about the Bennett case to a reporter of the Bulletin today:

"It is my firm belief that there is not a soul living who can say what the cause or causes of the death of Miss Schneider and Frank Bennett were. There is no evidence to show that the former was given morphine or that the drug was taken voluntarily. There is likewise no evidence to show that there had been any intimate connection between Miss Schneider and Bennett. A Japanese in the Neuman household is the only witness who had anything to say on that score. He stated that he had seen the two deceased persons in conversation a couple of times. That was as far as he could go. Beyond this, he saw nothing. The reports published in various papers of the city have simply been surmises without the slightest foundation. I admit that there is something very strange about the whole thing but there is no evidence and without evidence, we are absolutely powerless to draw any conclusions. We only know that Miss Schneider died from the effects of morphine poisoning and that Bennett died as a result of a gunshot wound inflicted by himself."

The Orpheum.

The new bill at the Orpheum proved entirely satisfactory last night. The opening act is running much more freely, the smoothness adding not little to its merriment. Little Claire Fex made a big hit, impressing into her service a diminutive Hawaiian in full uniform gun and all, while Claire herself came out resplendent in full regimentals and sabre. Kurkamp was in good form last night, taking a single turn of ballad singing. Ida, the volatile, was as lively as ever with new ditties, making quite a hit with "Every race has a flag but a coon." Conlon and Ryder came out with the old time "Darkies on the Levee" act enlivening it with some good cross fire gags and some localisms that effectually caught the audience. Miss Le Claire is singing a selection from the "Serenade" and a new waltz song while Adams comes out with Oriental Echoes and another excellent character song. Raymond has new selections on her cornet and Hanlon and Singer vary their performances on the rings. The whole bill is fully up to the average. There was a good house.

BRITISH CRUISER ARRIVES.

H. M. S. Icarus which arrived this morning stopped at Kealakekua bay where the monument erected to the memory of Captain Cook was found in good order. The inscriptions were touched up and gone over. The Icarus will remain here until the 29th or 30th inst. when she will proceed on her periodical trips among the South Seas. The Icarus is well worth a visit, and in stepping on her decks the brasswork and guns glisten in the rays of the sunlight. She is 180 feet in length with 38 foot beam and has a registered tonnage of 990 tons and carries a crew of 130 men. She has triple expansion engines which are 1200 horse power under forced draft. Her armament consists of eight 5-inch guns, four quick-firing 6-pounders and four machine guns. The following is her complement of officers: Commander Geo. F. S. Knowling; Lieutenants Benwell, Scarlett, Cooke-hurle Tilchers, Paymaster H. C. Parker; Surgeon, S. H. Birt.

Struck a Snag

Two large rock crushers for the government arrived by the Wallace B. Flint. One of these is to be put up at the government quarries back of the insane asylum and the Superintendent of Public Works wants to put the other one up at the foot of Tantalus but has run up against a snag.

It appears that at about the middle of last year C. E. Rowell located a quarry at the place mentioned. He supposed that this place was situated on land belonging to the Government just as the land round about. In this he made a miscalculation for, instead of getting on government land, he struck a piece of private property owned by a certain estate of the city. It was not until just a few weeks ago that the mistake was discovered. It is now thought by the government that it will acquire the land by means of the right of eminent domain which will mean, if consummated, a payment of 20 per cent more than the last valuation of the land by the tax assessor.

Independents at Work

The Independents held another meeting last night but did not come to any definite conclusion as to the make-up of the charter committee. All the men who have been named have not been heard from yet, although the great majority of the thirty have. Another meeting of the Central Committee is to be held tonight and at that time, the whole thing will probably be settled.

Magoon Sues Cornwell.

J. A. Magoon has brought suit against W. H. Cornwell for a $1,000. Plaintiff alleges that this amount is due on a certain promissory note in favor of the Sanitary Steam Laundry Co., Ltd., for stock for which the defendant contracted. The papers were sent to the police station this morning.

Ready Made Houses From Puget Sound

W. P. Barry and J. A. Byrne are two business men who came here from the Sound not long ago to look over the field, with a view of furnishing ready made houses to people in the Islands. They have found the prospects good and will probably establish themselves permanently in business here.

The proposition of these two men is to take orders for frame houses and then have these transported to the Territory. They represent the West Coast Trading Co. which deals in portable houses and building supplies.

One of these houses, a three room cottage, came from Seattle in the Elihu Thompson that arrived in port just recently. It was sold to Harry Evans for the moderate sum of $300 and Evans immediately sold it to D. Dole of Wahiawa who will have it transported to that place as soon as possible. The last purchaser is very well satisfied with his cottage.

The first house of the kind that came to Honolulu may be seen on the Grace premises in Punahou but the very first that ever came to the Islands is in Napoopoo, Kona. This was brought from the Sound in one of R. R. Hind's vessels and was then taken over to the place mentioned in a steamer. It has given perfect satisfaction and, although put up a couple or three years ago, is still in first class condition.

Special attention is called to the display of toys and Xmas goods at L. B. Kerr & Co.'s. A full line is in stock and of the very finest.

An auction sale of valuable business property on Nuuanu street is advertised in Morgan's column.

SENATOR CLARK SELLS HIS LEASE

Fred. Harrison Buys It and Will Erect a Block.

WILL BUILD TO SUIT HIS TENANTS

To Advertise for Applications and Make Plans Accordingly---Building to Cover Lot at Fort and Beretania.

Senator Clark of Wyoming is not for the present to be a Honolulu landlord. The lease he held an option upon of the lot at Fort and Beretania street, adjoining the Catholic Mission, required that building operations must begin by the end of this year. Senator Clark did not choose to build, but he has sold the lease to an enterprising local builder. The lease has 38 years to run.

Fred. Harrison is the purchaser. On being asked today what kind of a building he was going to erect he said:

"It will cover the whole of the lot, which is about 110 feet on Beretania and 98 feet on Fort street. I intend to make the building to suit tenants. In a few days I shall advertise for tenants, asking them to state in their applications the sort of accommodations they desire. Then the building will be planned according to the wishes of accepted tenants. That is a good idea, don't you think?"

The reporter agreed that it was an excellent idea, and asked Mr. Harrison about the general style and material of the building.

"It will probably be three stories," was the answer. "I am not yet decided about the material, whether brick or stone or the proportions of both. I have several verbal applications from seeking tenants, but don't want to do anything until I give everyone a chance. The upper floors will be offices or rooms according to demand. Perhaps they will be made for hotel purposes."

FINED $250 AND COSTS.

Chun Poon, the Chinese detective, caught a man of his own nationality yesterday afternoon while in the act of hurrying away from a saloon in town with a bundle of opium. The man was none other than Lam Kau, one of the helpers at the Empire saloon. He was seen by Chun Poon to leave the place in a hurry by way of the back lane. The officer had been on his track for some little time and as soon as he got clear of the saloon, a detaining hand was placed in his coat collar. The Chinaman stopped and, upon being searched, twenty tins of first class opium was found on his person.

The defendant appeared in the Police Court this forenoon on the charge of unlawful possession of opium and, upon pleading guilty, was fined $250 and costs. The amount was immediately paid. As one-half of the fine goes to the officer making the capture, it can well be seen that Chun Poon is ahead of the game on account of his vigilance.

IMPROVED MEAT SUPPLY

Housekeepers are generally interested in the opening of the Honolulu Market Co.'s establishment in the Waverley block tomorrow. Several butchers who have seen the premises say it is the finest market west of the Rocky Mountains. It will probably be kept open evenings until after Christmas. The list of officers came out incorrectly in a previous notice. It should have been thus: Edgar Halstead, president; A. Dreier, vice president; A. Hocking, treasurer; L. Schweitzer, secretary; A. Gartenberg, auditor; L. Rostin, manager. With this new enterprise, together with the recent expansion of cold storage business by the Metropolitan Meat Co., the people of Honolulu are in a better-provisioned condition, out of sight, than ever before.

MALLET TO BE ARRESTED.

A warrant will be issued this afternoon for the arrest of Contractor Mallet, the man who has been doing the blasting in the excavations for the Young building. Mallet will appear in the Police Court tomorrow and will then and there have to answer to the charge of careless blasting yesterday morning. It appears that the contractor set off an extra big blast at about 10 o'clock. A log five feet eleven inches in length and forty-four inches in diameter, was thrown about ninety feet in the air and, falling into the Cowles yard on Hotel street, came near hitting Officer Maitland who is a boarder at the place.

Mallet was arrested not very long since on a similar charge and, at that time, he was made to pay a heavy fine. Sheriff Brown intends to put a stop to this careless blasting and decided this morning to serve a warrant on the contractor. The complaint was prepared and will be served this afternoon.

ZEIGENFUSS WAS SQUARE

The newspaper boys of the Republican and his friends about town are highly incensed over the attack upon C. O. Zeigenfuss published in the Advertiser.

Editor Gill said today, "The article is not only absolutely false but it is the most unprofessional thing I ever saw perpetrated. 'Zeig' had no money to take away with him except his last week's salary and some money I paid him for a few shares of stock. His dealings with Langton in connection with the Democrat were not shady and he made no secret of his intended departure. Zeigenfuss was city editor of the San Francisco Chronicle when Walter G. Smith applied for a position as reporter. Zeigenfuss introduced Smith to John Young to get him a position as an editorial writer. The unjustifiable villification inthis morning's Advertiser is a sample of the gratitude of a fellownewspaperman for past favors."

THE SUPREME COURT

BUSINESS AWAITS RETURN OF JUSTICE GALBRAITH

Barete Estate Trusteeship and King Minors Guardianship---Dr. Noblitt's Appeal on Trial.

Dr. Noblitt's appeal from conviction in the District Court of practicing medicine without a license is being heard by Judge Humphreys this afternoon.

P. Dauson Kellett Jr. has filed a bond in $3500 as trustee of the Barete estate, with P. D. Kellett and A. G. M. Robertson as sureties. He has also filed a receipt to the Circuit Court for a cheque on the First National Bank of Hawaii for $2438.58, the amount paid into court by Richard Antone, executor.

Judge Humphreys has approved the accounts of W. O. Smith, guardian of the minor children of the late Captain King, and granted his discharge. J. Lightfoot, the new guardian, has receipted to his predecessor for securities and for the sum of $924.95 balance cash due the minors.

Nothing has been done at Supreme Court term, that opened yesterday, as yet beyond calling the calendar. Business awaits the return of Justice Galbraith, expected in the steamer Sierra.

JOHN HENDRICKSON WANTED

The police are looking for a man by the name of John Hendrickson, a Swede, a warrant for his arrest on the charge of desertion having been issued this morning on the sworn complaint of his wife, Virginia Hendrickson, a Portuguese. Mrs. Hendrickson alleges that, not long ago, her husband sold the house in which they were living for the sum of $400, no part of which was turned over to her.

Officer Toma, near whose home on Punchbowl the Hendrickson's used to live, was sent with the warrant this forenoon but he could not get track of the object of his search. He went to the Inter-Island office where the man had been employed for a long time and it was stated there that Hendrickson had left in the Alameda last night. However, there is no absolute proof of this and so the police are still out on a search after Hendrickson.

FOR HONOLULU MAIL CARRYING

Proposals for Fourteen Months of Service Invited.

THE WAGONS MUST BE OF REGULATION PATTERN

Closing at Washington on January 8 the Proposals Must be Accompanied by Bond in $3,000.

From May 1 next mails will be carried between the postoffice and all transportation stations of Honolulu in Uncle Sam's way. The gay little wagon brought into use by the Hawaiian postal service in its latter days is inedaquate for compliance with the United States postal regulations, while the supplementary express wagons hired from private carriers are by the same authority outlawed. Local expressmen are, at the same time, given the privilege of competing for the mail-carrying service in question.

A call for proposals signed by C. Emory Smith, Postmaster General, is posted up at the Honolulu postmaster's office door, for carrying the mails between the postoffice and all railway stations and steamboat landings in Honolulu—being route No. 480,061—during the period beginning May 1, 1901, and June 30, 1902, in covered screen wagons as prescribed by the postal laws of the United States. Proposals must be accompanied by a bond in $3000 with two or more sureties for the faithful performance of the contract. Time of receiving the proposals will end on January 8, 1901.

Mr. Carr, railway mail service agent for the Territory of Hawaii, stated to a Bulletin reporter this morning that two orthree of the prescribed mail wagons would be required by the contractor. They are made by the big manufactories of vehicles in the United States, but they may be built here on the official plans to be seen at Mr. Carr's office. Second class mail matter, such as newspapers and packages, must be carried in the regulation wagons as well as first class.

JAPANESE WANTS HIS MONEY

S. Fukuda vs. John H. Wilson and L. M. Whitehouse, assumpsit, is a suit that was filed in the Circuit Court yesterday afternoon. The plaintiff claims the sums of $92, $114.40 and $1900.80 as being due him. The first amount, he claims, was laid out in goods chattels and effects, the second was money advanced and the third was work on one mile of road at Nahiku, Maui, the defendants being the contractors for the road. Plaintiff claims that these debts were contracted at the beginning of the year when the two defendants were in partnership and a solemn promise to pay was made at that time.

With the exception of a few, people of the city and no idea whatever that the mail for the Alameda was to close at 5 o'clock yesterday. The result was that a regular string of people could be seen making their way toward the steamer shortly before 6 o'clock, to give their mail tothe purser.

The new Hawaiian hotel two story cottage on Beretania street that has been building for the past three months or so, is completed. The electric lights were turned on last night for the first time and found to be everything that could be desired. The rooms are finished in fine shape and are large and airy. This cottage will undoubtedly be one of the choicest places in connection with the hotel.

Moke Kamakaluhi appeared in the Police Court yesterday forenoon on the charge of assault and battery on his lawful wife, "Sweet Emelie." He pleaded guilty and offered as his excuse the fact that his wife persisted in going out at all hours of the night. Judge Wilcox smiled and told the man he should have known what to expect when he married the angelic personage that happened to be his wife. He certainly could not expect the lady to change all of her habits at once. A fine of $5 and costs was imposed.

PROTECTIVE LEAGUE

AN ALLEGED OUTRAGE IN NAME OF JUSTICE

Two Matters for Investigation Submitted at General Meeting--List of Standing Committees Confirmed.

A meeting of the Honolulu Protective League was held at Y. M. C. A. hall yesterday afternoon, there being present: President W. A. Bowen, Secretary Dan. H. Case, Revs. O. H. Gulick, G. L. Pearson, W. M. Kincaid, W. D. Westervelt, W. K. Azbill, Hamilton Lee, A. E. Cory, T. Okumura; Major Wood, S. A.; H. E. Coleman, A. J. Coats and M. G. Johnson.

Mr. Azbill reported the following list of standing committees appointed by the directors, which was adopted on motion:

Finance—W. C. Weedon Dr. Burgess, W. M. Templeton.

Investigation—G. B. McLellan, Wood, Kincaid, Azbill, Johnson.

Legal Aid—Lorrin Andrews, Case, Pearson..

Legislative—Westervelt, H. Waterhouse, D. L. Naone.

Membership—Coleman, J. M. Moore, Okumura, H. Kihara..

Press—Cory, D. Logan, Sam, Kamaiopele, Gulick, Mitamura..

Mr. Azbill also reported two matters for the investigation of the league. One was that of two Japanese women from Iwilei in the Queen's hospital, who desiring a new mode of life needed such assistance as the league migat be able to give.

The other was the case of three Japanese laborers sent up from Hawaii under sentence of the Circuit Court at Kohala for assault on a Japanese luna in the so-called Kona plantation riot. These men were sentenced to imprisonment for eighteen months, hence belong to the long term class having to do their term in Honolulu. Eight others under shorter terms remain on Hawaii. Extraordinary allegations are made regarding the trial and conviction of these three men in particular.

It is said that it can be proved that they were at home when the riot took place and had not the remotest connection with it, but that on the following morning the police hauled in every Japanese in sight. At the trial, the league directors state, the proceedings were rushed because the attorney for the defendants had to hurry off to a political meting of the Republican party. Indeed the attorney is said to have left before the trial was concluded, and the Japanese entrusted the crucial part of their case to a new lawyer.

Both matters were referred to the legal aid committee.

After discussion of a suggestion by Mr. Pearson, Mr. Azbill drew up a resolution which carried, to the effect that any member of the league or of the community knowing of cases for the league's action may report them to the investigating committee, which in turn may refer the cases to the legal aid committee, leaving these committees to bring them to the attention of the board of directors.

Mr. Westervelt brought up the question of incorporation and it was resolved that the league should be incorporated upon a limited liability basis,. the business to be entrusted to the legal aid committee.

WILLIS-STEELE WEDDING.

Hilo, Dec. 13.—The marriage of Miss Helen Willis to Archibald C. Steele was solemnized at Wainaku Lawns last Saturday evening, December 8th, in the presence of intimate friends. The ceremony was performed by Rev. J. A. Cruzan, of the First Foreign church. Miss Dollie E. Sumner of Oakland, Cal., was maid of honor, Miss Marguerite Scott bridesmaid and Mr. W. McKay of the Wilder Steamship Co. the groomsman. The bride was attired in white organdie over white silk, with a tulle veil caught at her forehead with orange blossoms. She carried a bouquet of birde's roses, Miss Sumner wore a gown of white organdie over pink silk, and carried La France roses. Miss Marguerite Scott was daintly dressed in pink and carried pink roses.

The large and handsome lanai was the scene of the ceremony.. In one corner a large fish net was tastefully arranged in the form of a canopy draped against the adjoining walls, among the meshes of which were interspersed sea weed, coral and shells. A huge basket of La France roses, with a background of ferns and vines, caught the fish net close up into the corner, some eight feet from the floor. The bride and groom with their attendants entered from opposite doors to the thrilling strains of the wedding march from Lohengrin, rendered by Miss Potter, now of Wainaku, proceeding to a position under the canopy where Mr. John Scott gave the bride away. The intimate friends of the bride and groom present at the ceremony were Mr. and Mrs. E. N. Holmes, Mr. and Mrs. Chas. H. Fairer, Mr. C. C. Kennedy and Mr. Wm. H. Smith.—Herald.

GOT WRONG MAN.

There was an incident in the Police Court Monday that created a good deal of amusement. Two Japanese named Inoue were arrested yesterday. When "Inoue No. 1" was called, the other man answered, and came before the judge. The charge of drunkenness was entered and the defendant pleaded not guilty. A mounted patrolman was called and he swore that the man before him had created a big disturbance at the corral and also, that upon remonstrating with him, the fellow put up some insolent talk. The Japanese then took the stand in his own defense and began to talk of having gone out to sea and fished for mullet. He returned to town and tried to sell some of the fish to a native.

At this point Deputy Sheriff Cihllingworth arose and asked that a nolle prosequi be entered. The wrong man had answered. There was a different charge against this one. The Judge asked how it was that the mounted patrolman had sworn to the fact that the man was drunk. There was no answer but the officer looked very foolish. The other Inoue was called up and he pleaded guilty to the charge of drunkenness.

Postmaster Thos. B. Lyons.

Wailuku, Dec. 15.—It is with great pleasure that the many friends of Thomas B. Lyons read the Washington dispatch announcing Mr. Lyon's appointment as postmaster for Wailuku, vice W. T. Robinson, promoted to be Maui tax assessor. Mr. Lyons is a deserving and capable young Hawaiian. He was educated in the Royal School under Rev. A. Mackintosh, principal.

Much the Same.—Mrs. Hayseed—Did you go to hear the howling Dervishes while you were in the city? Mr Hayseed—No but I went to Cousin Miranda's, and she's got twins.—New York Weekly.

TUESDAY.....DECEMBER 18, 1900.

If Mr. McCandless promulgated his sewer tax with a view to hastening municipal government for Honolulu, he is to be congratulated on the probable success of the movement.

It is now within the province of the Republican executive committee to prove that a majority of the men appointed on its charter commission are not opposed to a municipal charter.

According to the report of justice as she is administered in Kona, given by the Hilo Tribune, the Kona canary exerts a power in official life that ought to make it worthy of a representation in the Territorial cabinet.

C. O. Zelgenfuss had his faults like the average humanity. That he played the shyster, as indicated by the morning organ with an axe to grind, is not borne out by the facts as known nor by his career previous to his arrival in this country.

Land Commissioner Brown is bound on as difficult and distressing a mission as the special agent and unofficial delegate of fond memory. Brown's handicap is the fact that he is an understrapper and is supposed to have business enough in the local office to occupy his time. It is to be hoped the expenses of his trip will not be charged up to the taxpayers through the diplomatic and consular appropriation.

Who will pay the bill when a carriage is dumped into the Rapid Transit subway on Wilder avenue. Almost the entire length of the street is absolutely free from any protection against teams being toppled over into the track ditch by an unmanageable horse. The narrow passageway left for teams is full of gullies as a lumber road in the backwoods. This is another evidence of the advantage of centralized government.

What Hawaii can do in the way of diversified agriculture to supply its own market and what it is doing are as widely removed as the magnetic poles. Let the planters once approach the labor problem on the basis of cooperation, offering homes for American or European families, and the problem of living expenses, citizenship, small farming and sugar dividends will work out speedily and with the greatest possible benefit to present and future citizens and industry.

An ex-president of the Chamber of Commerce is credited with the statement that Honolulu has no particular atractions for tourists. If this be true, the hotel men and steamship companies have invested in gold bricks. It is not true and the only cause for such a statement must be a desire to take things easy and stand off the time and money required to properly advertise the countrq. It is about timethe merchants and business men directly interested in this work formed an organization, merchants' association or board of trade, that has time to devote to subjects of this character and is not entirely swallowed up in the overwhelming ponderosity of the "vast" interests of the Islands. What the merchants of New York and any number of smaller American cities found necessary is equally important to Honolulu.

Officials of the Hawaiian Electric Company are disposed to believe that criticism of the plant's temporary break down is unfair in view of the money and effort being expended for improvement. The electric company has been operating under and obtaining the large financial benefits of an exclusive franchise. This presupposes that their plant shall at all times be in a condition to supply the demands made upon it, that it shall have auxiliary machinery to be brought into service on occasions of inevitable breaks. Any first class electrical plant of the United States where competition is sharpest has such machinery. How much more important is it that such equipment should be possessed by a plant having a monopoly protected by law. The fact that such additions are being made as the exclusive features of the charter are about to expire simply go to show wherein the corporation has failed in the past to fulfill what is practically a contract with the people.

THE SEWER TAX.

By putting a sewer tax upon the property holder, Superintendent McCandless has furnished a very postive argument in favor of municipal government. If double taxation were more completely exemplified, the instance has to be sought in some European city where taxes are levied according to the number of windows in a house or the number of servants employed.

Mr. McCandless is credited in his interview with the Republican as saying, "I believe it better for the users to stand the expense than to raise the money by taxation whereby the people of the other islands would be dragged in. It would not be fair to ask the people of Hilo for instance to help stand the expense of a sewer system used only in the heart of Honolulu."

This is true indeed. Nor is it fair to ask the people of Hilo for instance to help stand the expense of any Honolulu public improvement of which this city is the direct beneficiary. On the same basis of Mr. McCandless' sewer argument why should he not make the specially favored householders pay a tax for the removal of garbage. If this general scheme is indorsed by the Legislature it under the present form of centralized government means that the total taxes paid by the householders of this city will within a comparatively short time be higher than those charged by the most "corrupt" city inthe United States. The present saving factor in Mr. McCandless' order is that sewer connections now are not demanded by the department.

What with a one per cent tax on full valuation of property, sewer tax, and tax upon the small business men by means of licenses, and salaried officials drawing down more pay than the Governor of the Territory, it is about time that Honolulu was placed in a position to stand on its own bottom. Possibility of any public official arbitrarily placing a price on the use of public work constructed by the people's funds indicates a condition where centralization of power has about played its limit.

SHRINERS RETURN MONEY.

Hilo, Dec. 14.—The Shriners still remember with pleasure their Hawaiian pilgrimage, and particularly that portion of it in which they rested at the oasis in Hilo. Mr. Peck has just received from their Secretary, J. H. Goldman a request for a list of all the members of the various committees which took charge of their entertainment. Also a check for $27 which shows a very nice spirit on the part of the Shriners. It seems that when our local music fell asleep on the night of the ball, and terpsichorean operations were thus suspended, the musicians of the Zealandia were requested to fill the gap and charged the entertainment committee the above amount. This was at the time unsuspected by the Shriners, as they had paid the band for all services on the trip. A short time they found it out and returned the amount by the last mail, although of course they were under no obligation to do so.

Muster Rough Riders Out.

[New York Evening Post.]

Is not Roosevelt's regiment in need of defence from its own colonel? He is working it harder than ever the Spaniards did. Its latest forced march was into a letter of the Governor's acknowledging the gratifying news that Princeton University was strongly for McKinley and Roosevelt. Out came the inevitable regiment. Princeton men were in it, and "there was no more gallant fighters in a regiment of fighting men." If this thing goes on, the Six Hundred will surrender their fame to the Rough Riders. In 1904 we shall see Roosevelt thanking the Hyphenated Hibernians for supporting him for the presidency, and assuring them that the Irish in his regiment were simply holy terrors. In 1913, after his second term, ex-President Roosevelt will make a tour of the world and will severally congratulate the nations of the earth on each having a representative in his regiment, each one a little more of a death dealer than the other. By the time the Republican National Convention of 1932 rolls round, Roosevelt will give the delegates a little novel information about his fighting regiment. Dear Governor, do muster out your men. They have served you long and faithfully and deserve a rest. So does

Agents "Arabic" Cooling Compound

GENTLEMEN:
I have painted several large Iron Warehouses here in Honolulu with your "ARABIC" Roof Cooling Compound, and am pleased to say it is giving the very best of satisfaction. It preserves the iron from rust, is most durable, and keeps it cooler by 15 degrees. I have had 20 years experience as a painter, 5 years here in Honolulu, and I have yet to find as good a paint as the "ARABIC" for Iron Roofs.
Yours very truly,
W. R. RILEY.

Individual Hot Corporation.

A statute enacted in 1895 by the Maine Legislature provides that "no corporation organized hereunder shall have authority without special act of the Legislature to construct its lines along the route or routes used or authorized to be used by any other telegraph or telephone company, person or firm, or between points connected or authorized to be connected by the lines of any such company, person or firm, unless it shall first obtain the consent of such other company, person or firm." Notwithstanding this statute, Mr. Maurice W. Crosby has established and operates a telephone line along the route of the Readfield Telegraph and Telephone Company without its consent. In a suit by the company for an injunction against him on the ground that he is violating the provision which we have quoted, the Supreme Court of Maine holds that the prohibition applies only to corporations and does not forbid an individual from putting up competing telegraph or telephone lines. The statute says "no corporation." It does not say "no corporation or individual." Under this construction of the law, any person who can obtain the right of way, and probably any partnership, can erect competing lines without let or hinderance from existing organizations.—New York Sun.

The police officers on Kaui have been sent all over the island in search of the man Bailey who is a witness in the case of Matt Howard, charged with assault with a deadly weapon, but he cannot be found anywhere. There is something peculiar about the disappearance of this man. He seemed to be perfectly willing to testify in the case of Howard on the forenoon when it was first called but, on continuance being granted, he mysteriously sunk from view and try as the police may, they have not been able to locate him definitely. There is a belief that Bailey went to Kauai but that is as far as the thing goes.

Suit for Partition.

The Hawaiian Trust & Investment Co. has brought suit against Annie Barton, Helen A. Dunning and Gear, Lansing & Co., for the partition of a certain piece of land on Hotel street, near Cook. The plaintiff claims that it is the owner of an undivided one-fourth part of the property and that Annie Barton and Helen A. Dunning are the owners in fee simple, of the remainder Gear, Lansing & Co. are the lessees. The plaintiff wishes to have the land partitioned but the defendants have refused to consider such proposition. The plaintiff now asks relief at law. The petition is signed by E. D. Tenney, the president of the company mentioned and J. R. Galt, the secretary.

ADAMS TARGET PRACTICE

The U. S. Training ship Adams arrived in Hilo on Monday last, 27 days from SanDiego. She arrived off this port yesterday and left this morning for target practice. Her officers are as follows: J. Warland, captain; Walter Goodwin, commander; James Hetherington, lieutenant commander; Stephen A. Graham, second lieutenant; Thomas A. Carney, ensign; D. S. Mahoney, ensign; Orrin G. Murfin, ensign; Z. T. Oversett, ensign; R. T. Orvis, assistant surgeon; John C. Sullivan, paymaster; J. H. Frazier, chaplain.

On Thursday night a big reception to the captain and officers of the Adams was given by the Hilo people at the hotel. The most prominent members of society of the Rainy City were present. The occasion proved a most enjoyable one. On Friday night a return reception to the people of Hilo was to have been given aboard ship.

ON VERGE OF PNEUMONIA.

Sam Ah Kee, well known in this city, was taken to the police station on Saturday and kept there until Sunday morning. It was thought that he was insane and it became necessary at one time during the night to put irons on his wrists, so violent appeared his symptoms.

His brother did not believe him insane and the family decided to send for a private physician. Dr. Howard was telephoned for and, upon arrival at the police station, he found at once what was the matter with the poor fellow. Ah Kee had a temperature of 103 and was on the verge of pneumonia. Undoubtedly, when he had been thought insane the night before, he had been wildly delerious. He was quieter yesterday morning, but was still in a slightly delirious state.

As there was no charge against Ah Kee, the clerk told the physician he could take the man out at once. The poor fellow was placed in the patrol wagon and hurried to the hospital where he now lies in a serious condition.

Death From Natural Causes.

The Coroner's jury in the case of Wun Chung, found dead Sunday night near the government wash house at Iwilei, met in the office of the deputy sheriff yesterday afternoon. During the course of the inquiry, the testimony of Dr. Emerson who performed the autopsy Sunday night, was brought in. He found that the deceased was a very old man and that he had been attacked by several diseases that could easily have been the cause of death. The jury after hearing this and the testimony of Chinese witnesses, handed in a verdict of death from natural causes.

Nicely furnished rooms at the Popular House, 154 Fort street, from $1.00 per week up.

Charged With Vagrancy.

John Fritz was arrested Monday on the charge of vagrancy. He appeared in the police court this forenoon and pleaded not guilty to the charge, saying he had come here in the Mariposa with money in his pocket. His trunk had been left aboard the steamer, and in it was his ticket to continue to the Colonies by one of the steamers of the line, within a certain specified time. The steamer went with his trunk, a local express company failing to get it. He then went Hilo and returned here Saturday. It was his intention to leave in the Sierra to follow up his trunk. Judge Wilcox did not seem to put much confidence in the man's statements and remanded the case until tomorrow in order that more investigating may be done.

News of Shipping Along Water Front

The ship St. Katharine was towed to the railroad wharf today. She will take on a load of sugar for the Coast.

The Alice Cooke is rapidly loading her cargo of lumber for Lewers & Coke. It will take about a week longer to clear her out.

The Alameda of the Oceanic Steamship Company docked at the wharf yesyesterday at 2 o'clock from the Colonies. She left again for the Coast at 6 o'clock with a light passenger list.

Chief Engineer Little of the Alameda has been promoted to that position on the new steamship Sonoma. For eighteen years he was engineer on the Alameda, and his promotion is a deserved one.

The ship James Drummond left Sydney on Nov. 29th in ballast for Newcastle. She will load with coal for Honolulu. She is in command of Captain H. C. Mason and has a registered tonnage of 1415 tons.

The cold storage steamer Albion of the Kimball Steamship Company has not completed discharging her cargo as yet. She is lying at the end of Fort street wharf with about 60 tons of meat in her cold storage ready tobe delivered. When this portion of her shipment is out she will get away for the Coast without delay.

If Captain Going of the America Maru is quoted correctly, it is evident that the Toyo Kisen Kaisha who own her do not intend to be outclassed so far as speed across the Pacific is concerned. The captain is credited with saying that orders have been issued by the T. K. K. Company to make the best possible time across the Pacific.

The United States Government has ordered the battleship Indiana and the armored cruiser Minneapolis to reinforce its squadron in the Far East. The cruiser has already left New York on her new comission and the battleship will shortly follow. The latter is of 10,400 tons displacement with a speed of 14 knots and carries a crew of 470 officers and men. The Minneapolis has a complement of 500, is of 7,450 tons displacement, and has a speed of 18.50 knots. Both vessels were constructed in 1893.

The arrival of the steamer Alameda from the Colonies made things quite lively for a awhile yesterday at the Oceanic wharf She departed from Sydney on Dec. 1st making a splendid run to this port. The Alameda left here last evening at about 7 o'clock and will make all speed possible in order to reach San Francisco in time to load and take up the run of the Sonoma, one of the three new boats constructed by the company, which was scheduled to leave San Francisco on January 2. The Alameda will shortly be retired from the run to the Colonies, after fifteen years of service. She is a good boat yet, as was in evidence on her voyage from Sydney to Honolulu.

The American delegates to the International Marine Conference. Rear Admiral S. R. Franklin, U. S. N.; Capt. John W. Shackford, the Hon. W. W. Goodrich, Mr. Clement A. Griscom, and the Hon. S. I. Kimball, met at the Bureau of Navigation, Treasury Department, on Thursday to consider the proposition to modify, in several particulars, the rules for preventing collisions at sea in so far as they relate to lights on fishing vessels. The changes relate particularly to trawlers in the Nort hSea. In so far as they relate to American fishing vessels the changes proposed are in accord with the views of those most directly interested. After some discussion the delegates determined to ask Congress to adopt the proposition, which originates with Great Britain. The enforcement of these rules, if adopted by Congress, will be conditional upon their adoption by the other principal maritime powers as the intention is to secure greater uniformity in the rules to prevent collisions at sea. The American rule for lights on steam pilot vessels is also to be made the international rule.

The P. and O. steamer Egypt which recently arrived at Plymouth, landed the crew of the British steamer Indra, who were so long missing after the wreck of their vessel at Cape Guardaful. The Indra, bound from Java to Philadelphia, with 8,500 tons of sugar, was wrecked on August 20th about twenty-eight miles from Cape Guardaful in fine weather. The crew left in four boats, but the captain and second officer were soon picked up and the men conveyed to Aden. Twenty-three days later the remainder of the crew arrived there after extraordinary experiences.

Two days after leaving the Indra they fell in with a Somali dow, which offered to conduct them to the shore to find fresh water. One of the native crew understood something of the language, and gathered that the strangers intended making prisoners of the shipwrecked mariners and holding them for ransom or selling them into slavery. The Somalis had placed an armed man in one of the boats but during the night he was thrown overboard and the towline was cut adrift. Hoisting sail, the two boats stood away, but were soon followed in pursuit by the Somalis, who were seen preparing their blow darts and stones.

The sailors' smaller craft was abandoned, its occupants being taken on the sailing boat, which now had thirty-nine people on board, with a diminished supply of water and food. In the darkness the Indra's crew effected their escape but another eight days elapsed before a friendly village was reached on the Arabian coast. Meanwhile the water supply was limited to four tablespoonfuls a day, whilst for the last seven days there was nothing to eat. The victims' sufferings were frightful. Several steamers were seen, but signals were not regarded.

Day after day in the fierce sunshine the Europeans, although longing for water to moisten their cracked lips, manfully kept up their spirits; but the natives handed knives to one another, and would have induced each other to put an end to their troubles but for the influence of the officers. At last Barrall was reached, and during the twelve days spent ashore the food was of the scantiest description, though everything possible was done for the comfort of the men. On reaching Aden the unfortunate sailors were sent home.

WEATHER FOR NOVEMBER

Temperature mean for the month, 74.1 F.; normal, 73.8; average daily maximum, 78.8; average daily minimum, 69.9; average daily range, 8.9; greatest daily range, 15 degrees; least daily range, 2 degrees; highest temperature, 84; lowest, 65.

Barometer average, 29.929; normal, 29.957, (corrected for gravity by .06); highest, 30.11; lowest, 29.57. Greatest 24-hour change 0.17 inch. The lowest was during the Kona storm of the 13-17th and was the lowest since February, 1891; that being at the same figure (corrected).

The lowest on record was in Jan. 28, 1881, 29.40.

Relative humidity, 76.6; normal, 76.6; mean dew-point, 66.3; normal, 65.7; absolute moisture, 7.16 grains per cubic foot; normal, 6.93.

Rainfall, 11.30 inches; normal, 5.52; rain record days, 19; normal, 17; greatest rainfall, all in one day, 5.45, at Luakaha; monthly rainfall, 16.03. Ahuimanu reports 27.55 for the month; Kaneohe, 8.13 in one day; Kula, Maui, 11.00 in one day, 15th; Paia, 12.35 same day.

The artesian well level rose from 32.19 to 33.62 feet above mean sealevel (i. e., five inches).

Trade wind days, 15, (6 of N.NE.); normal number of trade wind days, 17; average force of wind, Beaufort scale, 2.2 Cloudiness, tenths of sky, 5.7; normal, 4.6.

Approximate per centages of district rainfall as compared with normal: Hilo, 140 per cent; Hamakua, 140 to 200; Kohala, 100; Waimea, 380; Kona, 130; Kau, 300; Puna, 110; Maui, 200 to 500; Oahu, 150 to 300; Kauai, 135 per cent.

Average temperatures.—Pepeekeo, Hilo, elevation 100 feet, mean maximum, 76.4; mean minimum, 66.2; Waimea, Hawaii, 2730 elevation, 73.8 and 64. 4; Kohala, 585 elevation, 80.7 and 63.1; Kulaokahua (W. R. Castle), 60 feet elevation, height 82, lowest 65; Kilauea, Kauai, 325 elevation, mean maximum, ..; mean minimum, ...

The main features of the month were the two storms; the one a heavy northerly gale from the 9th to the 11th prevailing over the whole group and probably the S. W. side of an extensive storm; and the other a Kona or S. S. W. storm on the 14th to the 17th.

Altogether Honolulu is on the exposed side of the island for such storms, still the high land back of the town deadens the force of the wind so that this is a sheltered port. The wind was severe on Maui especially on the isthmus.

It could hardly have been the same storm as the one at Guam which took place only two days earlier and probably could not reach here in that time.

The heavy rain storm of the 25th extended over the whole group, but was light in Kona. There was a heavy swell on Hawaii coast during the first week of the month; also two days before the Kona storm

SMALL ELECTRIC PLANT

George H. Paris has on show at his office on Merchant street a five horse power gasoline engine that is capable of supplying between fifty and sixty incandescent electric lights of sixteen candle horse power. The lights were first tried on Saturday and crowds have been around to see them today. The plant is a modern one in every respect, capable of registering the exact amount of power consumed. The cost of running the number of lights mentioned as calculated by Mr. Paris, is twenty cents per hour.

This all goes to show how a small plant can be run on an economical basis with absolutely no danger. The gasoline that furnishes the power is buried in the ground about a hundred feet away from the place where the engine stands. A larger plant could be operated just as good or perhaps to better advantage.

A remarkable thing was noticed abotu the lights produced by the gasoline engine. Whether these are turned on or not, the engine runs with the same speed. There is absolutely no difference. Again, if only half the lights are on and then the second half are turned on suddenly, there is no difference whatever in th eintensity of the first. This can be demonstrated to those who will but take the trouble to call at Mr. Paris' office.

The use of the Singer in millions of homes shows the unprecedented success of these ideal sewing machine. It is convincing proof that the Singer excels in all kinds of family sewing and art needle work. All our sewing machines are of the best construction, beautifully decorated, and are mounted on selected woods in finely finished cabinets of artistic design. B. Bergersen, agent, 16½ Bethel street.

A Youthful Thief.

Lui Smith was this forenoon sentenced by Judge Wilcox in the Police Court to two terms of six months each in the reform school, the crime with which he was charged being larceny in the second degree.

Smith stole a lady's bicycle and then traded this off for a man's. He sold the second bicycle and then stole Dr. Clark's. It was while he was riding the latter around the streets that he was arrested by a detective who had been put on his track.

Harry Chilton, a boy who has frequently appeared in the Police Court, was another defendant who appeared before Judge Wilcox this forenoon on the charge of larceny in the second degree. The case was put over until the 20th inst. at the request of the attorney for the defendant. Chilton is charged with having stolen a certain sum of money.

Cheaper to Move than Pay Rent

is the saying, but we don't believe it. We have moved twice within a year, up had to in order to erect our new building. We have now moved from the store next to JOHN NOTT'S to our new building on the Corner of Fort and King Streets.

At present we are occupying the upper floor and basement, as the carpenters are not through work on the main floor. We ask our friends to overlook the inconvenience and confusion that will exist for a few weeks yet. When once we are settled we will be able to take care of you and attend to your wants in first class shape.

Our **Bicycle Shop** is now running in the new store, and we have a fine line of wheels, COLUMBIAS, RAMBLERS and CLEVELANDS, and a lot of good wheels suitable for the little folks for CHRISTMAS at prices that will suit everyone.

Call at the corner of Fort and King Streets, King St. side, UPSTAIRS, and see the results of a Kansas Cyclone.
