CIVIL SERVICE REFORM.

This is one of the standing themes on which our contemporaries abroad are lavishing a large amount of discussion. Civil service reform is now accepted a as a very desirable object. It means the abolition of the oldfashioned system of appointment to office under government, on the sole recommendation that the applicant is in favor with the appointing power. Personal friends of members of legislatures were always in the line of succession to the best billets, no matter how destitute they were of the first qualification for the duties entrusted to them. Abuses, of course, under such a system, became unbearable, and the opinion is gaining volume and force in all free countries that the claims of the public to efficient service are necessary to be taken into account when appointments are made. It was probably the only sphere in which an employee could live and grow fat ion superior ignorance of his business. Examinations of candidates for office are now becoming necessary preliminaries to appointments, and the quackery of official inefficiency will, before many years, be a thing of the past.

KAU ROADS.

The agents of the Hawaiian Agricultural Company of Kau, Hawaii, have handed to us the following letter :--

H11.0, HAWAII, Feb, 17, 1886. D. FOSTER, ESQ. Manager Pahala Plantation.

Dear Sir A petition signed by C. N. Spencer and over 50 persons, mostly at Hilea, has been filed with the Minister of Interior, asking that the Government the Pahala Mill road now in use, from the Pahala Mill te Keaiwa, he closed, on account of its dangerous condition, and that the road now used by your plantation as a wood Road, be taken as the Government road. By direction of the Minister of Interior, a jury of six persons has been drawn to decide on the propriety of the measure proposed, according to the laws of 1872. As the roads cross the lands of the Pahala plantation, we

notify you of the above facts, that you may meet the jury, should you so desire. I remain, yours truly, F. S. LYMAN, Circuit Judge.

Here is a case where a law works abuse. Not because of its own terms, but because the Government flagrantly ignores the law which provides that the money raised by the road tax shall be spent in the district within the tax is collected. The facts in this case are: that this Government road has been out of repair and dangerous to travelers for nearly, if not quite, two years. The Hawaiian Agricultural Company having failed to influence the road supervisor to repair the road, and having to cart firewood by this road to its mill, was compelled to lay out a new road, and now come forward fifty natives, led by a foreigner, and petition that the new road laid out, built and kept in repair by the Hawaiian Agricultural Company may be taken and thrown open as a Government road. It is to be hoped that this petition may shame the Government to action.

Hides stand third on the list of domestic exports. During 1 85 the export value of hides amounted to \$71,532. Bananas stand next with valuation of \$58,809; and wool \$49,573. The aggregate value of these five commodities constitute 99.60 percent of the total domestic exports for 1885.

IMPORTS OF MERCHANDISE.

The value of imports during the year as already stated amounted to \$3,830,544, a falling off from the imports of 1884 of \$842,544, or 22 percent. The decrease in the value of dutiable goods was \$383,420; goods free by treaty, \$323,041; bonded goods, \$92,332; and goods free by law, \$43,751. Of this decrease in imports \$735,468, or 87.29 percent, occurred during the first six months of the year 1885.

COMMERCE WITH FOREIGN COUNTRIES AND OUR CARRYING TRADE.

The total value of our exports to and imports from the United States during the year 1885 aggregated \$11,874,043, or 92.04 percent of the value of our foreign commerce. The value of our commerce with Great Britain was \$486,023, or 3.76 percent; with Germany, \$161,892, or 1.25 percent; with China and Hongkong, \$134,318, or 1.04 percent: with Australia and New Zeal and, \$85,984, or 0.67 percent; and with all other countries, \$157,599, or 1.24 percent.

Of the total value of goods transported in our foreign trade 89.05 percent was carried by American vessels, 5.68 percent in British vessels; German, 2.11 percent; 1.81 percent in Hawaiian; Norwegian, 1.25 percent; and in vessels of all other nationalities, 0.10 percent.

TONNAGE.

The total tonnage of Hawaiian vessels engaged in the coasting trade for 1885 was 9,249 tons, as against 9,826 tons for 1884.

The tonnage entered at ports of the Hawaiian Islands in its foreign trade during 1885 was 190,138 tons, of which 133,044 tons were American, 43,203 British, 6,610 Hawaiian, 3,257 German, and 4,024 other nationalities.

I may here mention that during the year 1 steamer, 2 schooners and 1 brig, with a total tonnage of 669 tons, have been added to the list of Hawaiian registered vessels. The casualties to our shipping for the same period number 5 vessels. IMMIGRATION AND PASSENGER MOVE-

MENTS.

During the year 5,410 immigrants arrived in the Kingdom. Of this ples that support them and even at number 3,108 arrived from China, Japan, and 341 from .961 from other countries. The departures of immigrants aggregated 1,805, showing an excess of arrivals over departures of 3,605. The number of passengers that arrived during 1885 was 1,730; departures, 1,783; passengers in transit, 4,327.

Otherwise, an effort to have our constitution altered in consonance with modern free representative government must originate with the people out of office and be pressed by them so strenuously and unanimously that the office-holders cannot succesfully resist it.

A WELCOME ENTERPRISE.

The steam laundry being established in Honolulu should be as welcome a new industry as any that can be imagined. It will be the first thing to prove to the Chinese that they are not the absolute masters of the situation which their cavalier treatment of customers would indicate that they are presuming to be. If the steam laundry fulfils its promises, doubtless many of the Mongolian washers will have to close up. Those that survive the competition will probably be such as have given unqualified satisfaction in their care of the goods entrusted to them for cleansing, in the quality of the work performed and in their manners when dealing with patrons. To have the number of Chinese billeted on the community reduced, and remaining ones put on better behavior, would be a sufficiently desirable result of an enterprise to secure for it all required countenance and patronage. The success of the steam laundry may suggest other branches of industry, in which the expenditure of capital, pluck and energy may rid the city of a measure of dependence upon coolie labor. In the meantime, people who are professedly apprehensive of our civilization being overwhelmed by the Mongolian tide should act as if they really had regard for civilized institutions, by dealing with those peoa sacrifice, if necessary, dispensing

Another gross offense is repeated in the Advertiser's article to-day. from its former discussions of the general question of the opium traffic. It reiterates the insinuation that the backers of the anti-opium views of its contemporaries are themselves smuggiers of opium. There is, however, a conspicuous weakening in the manner of uttering the innuendo, which only makes the impropriety more despicable. A short while ago our contemporary was boldly threatening to expose the persons it alleged to be guilty of such nefarious hypocrisy. Dared to make good its threat, the Advertiser became discreetly silent on the subject; but now it ventures forth again with the insinuation in a diluted form. "It is" only "common rumor," now, "that many of those who are loud in their denunciation of legalized opium traffic upon 'moral grounds' are participants in the profits of the contraband or illegal traffic in that drug." Before, it apparently had a list of the double-dealing characters, duly attested, ready to unfold to the gaze of a scandalized community. At present, the record is abroad on the wings of "common rumor," the same bird that within the past few days has flown away several times with the present Ministry. If the Advertiser can name a single person who is professedly opposed to licensing opium, yet at the same time a participant in the illegal profits of the drug, then honesty, fairplay and regard for the good name of the community should induce it either to expose the guilty one or else refrain from uttering insinua-

tions that the masses will take the liberty of applying to any and every person against whom they may entertain a grudge or harbor a prejudice. Our contemporary's course in this matter cannot be otherwise than demoralizing to the community, the evil results inevitable therefrom being so readily imaginable that they need not be

stated.

Homer nods sometimes, and so does Tyrtæus. The Tribune caught us in the error of cabling as a new poem one which had been published two years before. Now the Tribune publishes in a long telegraphic depatch from Chicago the discovery in Honolulu of that Spaulding manuscript of Mormon interest, of which our Hawaiian correspondent sent us word about a year ago, and which has since formed the basis of long and learned discussions. Indeed saw lately an examination pape

aried interest seems to attach. Mr. tice was formerly an anti-slavery ditor in Ohio, and for many years state Printer at Columbus. When President James II. Fairchild, of way of scandalizing the mercantile berl n College, was in Honolulu firms of this city who were known nore than a year ago he suggested to be in opposition to the Governo Mr. Rice "that he might have ment and to political rottenness. It valuable anti-slavery documents in is not for us to say whether the ais possession, which he would be willing to contribute to the rich collection already in the Oberlin College Library. In pursuance of the benefit of the "discrimination" this suggestion, Mr. Rice began looking over his old pamphlets and papers, and at length came upon an old, worn, and faded manuscript of any way with the treaty, except it about one hundred and seventy-five be to ealist opposition to it from pages, small quarto, purporting to any narrow-minded politicians who be a history of the migrations and conflicts of the ancient Indian tribes, which occupied the territory now belonging to the States of New York, Ohio and Kentucky." Mr. Rice and President Fairchild examined the document, and decided that it was the long-lost story about which the Mormon controversy had raged for years; also that it bore no resemblance to the Book of Mormon, further than that both profess to set forth the history of lost tribes. In a letter written from here on March 28th, 1885, Mr. Rice says the manuscript had come into his hands in 1839-40, with the effects of the Painesville, Ohio, Telegraph, when he and a partner bought that newspaper. Thus the manuscript had been in his keeping over forty years, but he had never examined it, nor knew its character, until some six or eight months previous to the date of his letter just mentioned. President Fairchild was, of course, the first applicant in the field for the curiosity, but had a host of competitors immediately on the discovery being made known in the United States. He succeeded, however, in procuring the original copy for the museum of Oberlin College, Mr. Rice taking pains to make an exact copy to keep for himself. Spaulding's introduction shows what the story purports to be, namely, a translation made by Spaulding of part of a Latin manu-

script found in a box, within an artificial cave, near the west bank of Coneaught River. This original document consisted of twenty-eight rolls of parchment, the one of principal interest to Spaulding being a history of the author's life and that part of America which extends along the great lakes and the waters of the Mississippi. The author of the Latin purported to be a person

The fact of British and German bottoms being engaged in the foreign and inter-island carrying trade of this kingdom will in nowise affect the treaty, however frantic and persistent the efforts of the Advertiser may be in that direction. If any use whatever were to be made of the above figures in the treaty business, it ought to tell favorably upon the result that United States shipping carries Hawaiian products in the ratio of two to one as compared with all other foreign vessels combined. But the head and front of all the offending is that the principal shipping houses of Honolulu have broken through

COMMERCE OF HAWAII.

The following trade statement is from report of the business of the Bureau of Customs for the year ending December 31st, 1885, submitted by the Hon. Curtis P. Iaukea, Collector General of Customs, to His Excellency John M. Kapena, Minister of Finance :--

EXPORTS AND IMPORTS.

The total value of exports and imports of merchandise during the year amounted to \$12,899,862, as against \$12,832,696 for 1884, showing an increase of \$67,166.

The total exports of both domestic and foreign production for 1885 amounted to \$9,069,318, showing an excess over the value of such exports during 1884 of \$874,135.

The imports of merchandise were \$3,830,544, as against \$4,637,514 during the preceding year, showing a decrease of \$806,970.

The excess of the value of exports over imports of merchandise during the year amounted to \$5,238,774, being an increase of \$1,681,105 as compared with 1884.

During 1885 the specie imports were \$724,075, as against \$1,180,-361 in 1884. The exports of specie during 1885 amounted to \$64,602, showing an excess of imports of \$659,473 over the exports for the year.

DOMESTIC EXPORTS.

The total value of domestic exports for 1885 amounted to \$8,958,-663, showing an increase in the value of such exports as compared with 1884 of \$880,755.

The export of sugar shows a marked increase for the year. The CUSTOMS REVENUE.

The receipts from all sources during the year amounted to \$502,337. This, however, includes the sum of \$12,577 realized upon contraband goods, principally opium. Of the total customs revenue collected the duties on spirits amounted to \$247,-991, or 49.37 percent; and upon merchandise, \$156,800, or 31.21 percent. The receipts from all other sources amounted to \$97,546, or 19.42 percent of the total revenue collected.

A comparison with the year 1884 shows a decrease of \$22,804 on the duties levied on spirits, and \$35,905 on merchandise.

The total decrease on customs revenue for the year 1885 amounted to \$49,399.

FREEDOM JUSTIFIED BY HER CHILDREN.

By the recent lowering of the franchise in England, the electorate was increased from three millions to five millions. This tremendous accretion was from the working classes. Yet the new House of Commons appears to be as able, intelligent and well-educated a body as preceding ones. This goes to prove that the working people of the United Kingdom have justified the trust reposed in them, contrary to the apprehensions of a disastrous democratic deluge. They have not been carried away by preposterous notions of a betterment of their condition to be achieved by having their newly acquired power wielded by members of their own class. Their good sense has been displayed in selecting ability, intellect and experience to serve them in the councils of the nation, rather than the untrained

with the services of a race that notoriously, are not amenable, except by the steady application of force, to the social, moral and sanitary laws of civilization.

CALL OFF YOUR DOC.

The Advertiser has a practice, when it finds occasion of dispute with an individual contemporary, of including all the other papers in town. This is probably intended to increase the magnitude of its own effort in the eyes of its readers. It is, however, rather a small device, dishonest as well as paltry. A case in point is that of the captain who was dealt with at Hilo for importing opium on his store list. This paper was the first to give the very interesting piece of news, but only gave it as news, showing no sympathy for the person v ho came into collision with the law of the country. Yet the Adverticer talks this morning as if all the c her local papers were seething with an agitation against

the treatment accorded to the captain of the schooper Excelsior. So far as this pape" is concerned, no opinion has yet been ventured upon the case. Not that there was no occasion for di cussion, as the scrape Captain Piltz got into would lend itself readily to pointing a moral or adorning a tale for the benefit of other skippers, but being informed at the outset that he had adopted the role of injured innocence and was going to put the case in the hands of his country's representative, we considered that it would be as serious a breach of propriety for a newspaper to discuss the case at that stage as to argue the merits of a case pending in the Supreme Court. Our contemporaries do not seem to regard the matter in that light, however, but none of them has any right to drag unoffending papers into the controversy.

of a theological class in church history, in which it was fully considered.-New York Independent. Running across the foregoing

paragraph in the last number of the Independent received here, we applied to Professor W. D. Alexander, Superintendent of the Government Survey Department, as a gentleman likely to be able to give some information upon the subject of so notable a discovery in this quarter as that referred to. Nor were we disappointed, for the Professor, besides verbally telling us "all about it," has kindly loaned us a printed copy of the remarkable document. The title page of the book reads as follows: "The 'Manuscript Found,' Verbatim Copy of the Original now in the Care of Pres. James H. Fairchild, of Oberlin College, Ohio. Including Correspondence Touching the Manuscript, its Preservation and Transmission until it came into the Hands of the Publishers. Lamoni, Iowa: Printed and Published by the Reorganized Church of Jesus Christ of Latter Day Saints. 1885." The ecclesiastical body bearing the imposing title just quoted is known as the "Joseph Smith" or "Non-Polygamous Mormons." This church, the Utah Mormons and several people presenting claims to the custody of the manuscript, when its discovery was made known, had applied for the original. The Mormon bodie were eager to secure it, because it served to refute the statements of opponents of their systems, to the effect that Spaulding's Manu-

script was the basis of the Book of Mormon. It is also, for that reason, to be published, if not already done, by the Salt Lake "Saints." Mr. L.

Parson Spaulding writes it. To make a long story short, the ship carrying Fabius was blown out into the ocean, and brought up on the American beach, at the mouth of a vast river, up which she sailed many leagues until a town was reached. The narrative proceeds with a description of the kings, laws, customs, etc., of this new country. As to religion, that may be mentioned as being the center of the book's interest, the inhabitants of the new world are found by Fabius to have or 'Manuscript Story' of the late a theology in some points resem-Rev. A passage scored out in Spaulding's writing represents plural marriages as having been permissible among those primitive Americans. Whether Fabius and his parchment are myths or not, the scratching out of polygamy by Spaulding involves some interesting points that will suggest themselves to any mind. The printed book follows Spaulding's writing to the letter, even the erasures being shown by underlining, and atrocious spelling, together with the frequent underlining, makes the work a veritable curiosity. Spaulding's authorship and handwriting are clearly proven, but Fabius and his scrolls are another matter.

DISCRIMINATION.

The Advertiser is meeting with marked success in making itself supremely ridiculous in its interminable tirades on "discrimination." Our contemporary is in a very distressing state of mind about the fate L. Rice, of Honolulu, has the honor of of the treaty, forgetting that the bringing to the light of day the first, worst, and only attacks made

THE CHINESE MUST CO.

Latest news from the Coast convey unmistakable proof that the white man's indignation against being assigned second place in the industries of the country has reached a point at which it is not to be trifled with. Facts have been coming to the front in stern and stubborn array, and there is a widespread determination to ignore them no longer. Although in some cases hoodlum excesses have shocked the public mind, there is, generally speaking, a disposition to deal with their grievances, on the part of the people, by the exercise of the legitimate functions of law-abiding citizens, and the measures taken for the execution of their purpose have been governed with a due regard to the claims of humanity. The special feature of the movement that ought to attract attention in this country is the unanimity and thorough organization which have, as it were spontaneously, come into operation. That the competition of the Chinese is. fatal to the white man's existence under civilized conditions is a fact no more fully demonstrated in America than in Hawaii. But the great difference between the results of a universally patent fact in America and Hawaii seems to be that in the former the aggregation of opinions. becomes an irresistible force, while here common grievances rather tend to the disintegration of the forces necessary to their removal. If such a thing were possible here as that the white population would make common cause with the Hawaiian, and that united action, as in California, might follow, the dominating influence of the Chinese in the document, to which so much and upon the treaty through "discrimi- industries of Honolulu would, in a

reasonably short time, be a thing of the past. The progress of Chinese ascendancy in this city is co-extensive with Chinese unity; while the weakness of the white man's resistance comes from every white man having a little axe of his own to grind, and confining his operations to that one selfish object without taking the greatest good to the greatest number into his calculations.

EDITORIAL NOTES.

The "little hatchet" should be planted in the minds of the children in Hawaii to-day, and maybe the harvest will be a more truth-loving generation than the present one.

Arbor Day is coming to be a great institution in the United States and Canada. The last mail announces that Feb. 10 has been set apart as Arbor Day by the Governor of Florida. Such a holiday in this kingdom would doubtless give an impetus to tree-planting, and come in well in the long interval between New Year's and the Fourth of July.

A Chicago lady, forty-second cousin to John Young's grandaunt, is trying to get hold of Queen Emma's estate. She will do it sooner and cheaper by raising a pirate fleet than by feeing lawyers.

An appreciatory sketch of the American Sugar Refinery has been issued as an extra to the San Francisco Merchant. It is estimated that this establishment, that is to handle more than half the product of these Islands, gives employment to at least 5,000 people, no Chinese being engaged, and has a capacity of 600,000 pounds of sugar daily.

Planters here are informed that the projected beet sugar factory at Alvarado, California, will next year be prepared to contract for Hawaiian raw sugars, to keep the plant employed in the intervals between beet crops. Thus it may be that the starting of beet refining on the Coast will be a benefit instead of an injury to Hawaiian cane-growers. California is bound, it would appear, to do all the refining for the West, hence will want all the raw product that Hawaii can give her.

We copy from the Alta California two articles that appeared therein at different dates recently, supplementing that paper's able argument on behalf of the treaty, previously the sidewalks of King street as of

tween conflicting Chinese testimony, else the standards they left for the lawyers of all time must needs have been more elaborate if not more lucid. The Hawaiian judiciary having to deal with this incomprehensible element, have often to be more of Solomon than of Solon.

If the law against carrying concealed weapons was permitted to be a dead letter in London, as it is in too many other cities of civilization, the results of the recent formidable riot would have been too terrible to contemplate. The fact of a mob numbering a hundred thousand, divided into quarrelsome factions, having its sweet will in the heart of the metropolis for several hours, without loss of life resulting, forms a grand testimony to the wisdom of strictly prohibiting men from going about as walking arsenals, always ready to be the avengers of their own wrongs, great or little.

Donald Crawford has been granted a divorce against his wife in London, on the ground of adultery with Sir Charles Dilke. The confession of Crawford's wife was the only testimony adduced, no proceedings having been taken against Dilke. From the tenor of the judge's charge, that held no doubt of the commission of the crime, and the Attorney-General's excuse for not putting Sir Charles in the witness-box-namely, "that his cross-examination would be on the indiscretions in life from which no man is free," it looks as if a judicial scandal had been added to the revelations of a most deplorable state of English society. The famous Radical politician's reputation is ruined, perhaps beyond retrieve.

Interviews with the heads of the police service elicit information of at least one difficulty in the way of suppressing the prevailing robberies. That is, that the police have too little power under the Hawaiian laws against vagrancy. It is said to be very difficult to secure the conviction of persons for being merely idle or roaming characters. The laws are certainly very lax if they do not permit the police to seize anybody found on other people's premises at night without being able to give a satisfactory account of his business there.

THE partial eclipse of the sun happened according to the estimated time to-day, and was observed by the Government Survey officials, through a good telescope, also by many others with smoked glasses. There was a maximum obscuration of about onethird Old Sol's face.

RESIDENTS ON YOUNG street complain of the city seavenger, saying that he collected all the soil and manure on the above street but left a pile of tin cans, dead chickens and bottles there. Perhaps the explanation is that the loam he gets off the streets is sold at 50 cents per load, while he has no sale for tin cans and bottles.

On Wednesday evening a Portuguese man was discovered on the pre-mises of Mr. Geo. W. Smith, of Benson, Smith & Co., who lives on Kukui street. The follow evidently meant burglary, but produced an alarm by falling over a box, the noise drawing Mr. and Mrs. Smith to the rear of the house in time to see him retreating.

ROFT. MORE & CO. ROBE D.

Last night the workshop a d store of Robt. More & Co., mat inists, K g street, were burglarize , three revolvers and a lot of am anition being carried off. Entrat e was effected from Bethel street, the breaking-in being done through the slop of Brown & Phillip, pl mbers. A gate about six leet high vas first cliabed over, and the bar at the back of it removed. This indicates more than one robber, the climber opening the gate to admit his comrades. The rear window of the plumbing shop looks out on the yard into which the gate opens. A stick was used to support the upper sash of this window. The robbers broke a pane of glass in the lower sash, when it was easy to insert an arm and remove the stick. When inside, the robbers climbed up on a rack of iron pipe, thus getting over a high partition into Robt. More & Co.'s shop, whence they had a clear road to the office on King street. They took the revolvers from the show case or window, or part from both, and in getting cartridges to suit disarranged the stock in the window, many boxes being found open this morning, with the contents of some scattered about. Nothing but the arms and ammunition mentioned is missed. There is no sign of any attempt upon the safe of either firm. It would therefore appear to be more the work of persons itching for the possession of deadly weapons than that of burglars after valuable spoils.

A BURGLAR VISITS THE BRITISH COMMISSIONER.

Another burglary was committed at an early hour this morning, and the boldness of the depred tor was so great that it makes one's blood tingle with madness to think that the culprit is still at large. It happened at two o'clock, an hour of profound darkness and heavy slumber, at the residence of Major Wodehouse, H. B. M. Commissioner. Mrs. Wodehouse, who was resting half awake, was disturbed by a peculiar noise in the hallway that leads from the parlor to the dining room, and fearing something wrong she got up and struck a light, when all of a sudden there was a terrible racket of falling chairs and a hasty retreat of someone. A burglar, apparently well acquainted with the inner structure of the house, had entered by one of the front doors t. at opens into the parlor, and although there were a great many valuables in that room he passed through nto the diming room and then to the Major's dressing room, where his daily apparel, gold watch and other valuables were. It was just then that Mrs. Wodehouse struck the light,

interesting point in one of these articles is where the sending of Hawaiian sugar to Louisiana is shown to be in response to a demand from there. The Spreckels newspapers, in their jealous blindness, tried to make that business out as utterly inimical to the treaty and a piece of suicidal madness. Hawaiian sugar, in truth, is wanted in Louisiana by the planters themselves, who are the chief stockholders in the local refineries, to supply the deficiency between the capacity of the latter and their own crop.

Cold waves in the Southern States may turn the eyes of injured fruitgrowers there to a country whose tropical balminess never fails. Come hither, where the orange and the myrtle ever bloom, and Jack Frost is never numbered among the burglars.

Mr. Heydon, Minister for Justice in New South Wales, has resigned his position owing to the decision of the Ministry to propose a property tax. Would it not be a funny thing to see a Minister in Hawaii resigning on account of disagreement with his colleagues, or for any constitutional reason, such as the vetoing of one of his measures?

In this issue is given a description of the yacht now building to defend American honors in this year's international race. It would seem that sailing racers are running to the same standard of inutility that has characterized racing rowboats for many years. Speed and nothing else is the desideratum. Therefore, marine architecture for peace or war is not going to benefit much, if any, from the models of craft, with centerboards and leaden keels, which win gilded trophies.

Coke nor Blackstone ever had ex-

named, at least, should be rid of such encumbrances, and it will not be surprising if the public patience gives out before long and then the question of the right of way may be solved in a summary manner-if not with the assistance of the police, by some method that will give those gentry work, provided law is to govern the city.

Harper's Weekly pays a high compliment to "the grand old man." An article on his return to power and the course he may take on the Irish question, closes with the words: "But no vituperation or calumny, no cry of treachery, surrender, demagoguery, or vanity is likely to confuse his judgment or daunt his courage. It is fortunate both for Ireland and for England that one great British statesman still survives." Such a testimonial more than offsets volumes of the petty criticisms which many small-fry newspapers delight in dealing out to their readers. Ireland may be sure that the justice of her course, and not the votes of her representatives, will be the guiding star of whatever policy Mr. W. E. Gladstone adopts for bettering the condition of her people.

KAUMAKAPILI.

An interesting and crowded native audience assembled in the basement of Kaumakapili Church on Monday evening. A lecture was delivered by his Majesty the King, on the physical structure of the Hawaiian Islands and the important position occupied by them on the great highway of the Pacific ocean, showing that these islands must continue to be, in the future, as they have been in the past, the half-way house of a large part of the world's commerce, and paid a graceful tribute of acknowledgment to the influence of foreigners by whose agency the Kingdom rose from obscurity to its present condition of civilization. THE steamer Iwalani, that arrived this morning from Kauai and Niihau, brings news of fair weather with little rain all along her route except at Niihau, where the sea was very rough. No wreckage was obtained by her from the Planter, and she will not call there this trip. She sails this evening for Kauai, and will return on Sunday with sugar and passengers.

It is reported that while the bark Elsinore was last here arrangements were made whereby the bark, with lumber from the Pacific Coast for Australia, will call here and take the South Sea Island return laborers to their homes for \$3,000. Also, that in returning from a hunting expedition on shore, his son trod on a catfish, the dorsal fin of which penetrated the sole of his boot an inch into the foot, causing a poisonous wound that laid him up for some time.

SAN Francisco reporters besieged Mr. J. W. McCarthy on his arrival over, getting from one to two columns about him for each paper. Mac was very facctious about the mistake of Gov. Stoneman in addressing his requisition to "His Royal Highness" instead of to "His Majesty." He was going to claim his office and spoke of his safe having been "burglarized," also was going to complain against the American Minister Resident for interfering in his case. McCarthy was admitted to \$3,000 bail to answer the indictment found against him for embezzlement.

MR. Charles Hiram's house on the plains was entered on Saturday night, the burglar blowing out a light in Mr. and Mrs. Hiram's room and getting away with \$13 in silver coin. On the same evening a native woman saw a man leaving her house on Maunakea street, and discovered that \$3 had been stolen from the pocket of a dress hanging in her room. Mr. George Patterson, hackman, surprised an intruder rummaging his room on Emma street the same night, who fled when challenged by him. It is also reported that the storehouse in the Government yard was burglarized on Friday night, and some tools and a large bunch of keys stolen.

THE REIGN OF TERROR.

SEVERAL BURGLARIES AND ATTEMPT-ED ROBBERIES LAST NIGHT-CITI-ZENS ARMING FOR PROTECTION.

SUSPICIOUS VISITORS AT THE HOUSE OF HON, SAM PARKER.

was seen prowling about Hon. Sam. Packer's house, King street, Sunday last. He was noticed to hang a horseshoe on a gate, as if to mark the place for a necturnal visit. A close watch was therefore kept, but nebody came round that night. Last evening, while the concert at the Hotel was in progress, a telephone message came there to inform Mr. Parker that too strange men were at his place. At the same time

and the burglar becoming alarmed made the disturbance with the furniture, in his hasty retreat dropping his plunder, the Major's ci-thes, in the dining room and parlor. It is believed that the robber dropped everything he had been collecting for removal. Precaution will be taken against another visit of the kind.

THE AUGER BUSINESS.

On Sunday night a Chinese store kept by So Sam Lee, Nuuanu street, nearly opposite the White House, was entered and \$205 in money, three shawls and two felt hats carried off. Entrance was made by perforating a board in a water closet with an auger and then removing it, from that apartment the burglar finding easy access to the rest of the building. An unsuccessful attempt at a similar game was made on Friday night, on a Chinese store on Fort street, the proprietor being wakened up by the grating of the auger on two occasions, and finding in the morning a board with fourteen holes across it but not removed.

A SUPPOSED HIGHWAYMAN.

At 12 o'clock last night hack number 179, with Mr. Bielenberg as passenger, was coming down Nuuanu avenue, and when in front of Mr. P. C. Jones's house a man was seen to emerge from the darkness. He had a revolver in hand, and when the carriage approached he came forward as though to intercept the vehicle. The driver drew up the horse and was almost at a stand, when Mr. Bielenberg shouted to whip up and go as fast as possible. The driver obeyed, and the carriage was allowed to pass. From the light of the hack lamp the highway-A suspicious-looking character man was seen to be a foreigner and was noticed to mount a horse that was hitched to the fence and ride off towards the Pali.

ANOTHER BURGLARY.

The Gazette has the following, missed by its daily contemporaries: On Sunday evening the residence of Mr. Geo. Ordway, on Punchbowl street, was visited by a couple of burglars, who after try ig to gain admission by means of alse keys, word was sent to the Police Station, awakened the own r, who with pistol and Mr. Crabbe, Station k eper, in hand awaited their entrance into had occasion to cough slightly, when the burglars, who were barefooted. immediately decamped in opposite directions

SELF-PROTECTION.

Residents are generally talking "vigilance committee" and "pistol. as antidotes to the present robbers' carnival. Rusty weapons are being brought forth, furbished, oiled and loaded, by people to defend their homes against the depredators, who must be taken for granted as ready for any act to prevent capture if discovered. It is to be hoped, however, for the good name of the place, that poor men, unable to buy defensive weapons to protect their small household stores, will not resort to burglary to obtain them. Such an anomaly would suggest that an undignified panic had seized the community .--- [Mar. 9th.

MORMONISM.

EDITOR BULLETIN :--- As you have taken interest enough in the Mormon question to publish an account of the Spaulding Manuscript recently in my possession, it occurs to me that a more specific statement of some points connected with Mormonism and the Mormon Bible, may be of interest to you and your readers; especially as it is alleged, with some evidences of probability, that the Utah Mormons contemplate establishing a large colony of their followers on these Islands, and even of transfering their headquarters here:

The Spaulding Manuscript recently discovered in my possession, and published by the Mormons, in no wise determines the question as the authorship of the Book of ormon, or of Spaulding's connecn with the latter. It shows consively that this writing of Spauldwas not the original of the Book Mormon-nothing more in that regard. It gives the Mormons the advantage of calling upon their opponents to produce or prove that any other Spaulding Manuscopt ever existed-and that is the gist of the whole matter. Until lately I have been of the opinion that there was no tangible evidence that any other production of Solomon Spaulding, bearing upon the question, could be shown as having ever-existed. But correspondence and discussions growing out of the publication of this document, have shaken my faith in that belief, and indeed produced quite a change of opinion on that subject. I will refer to several items productive of that change of opinion.

Mr. A. B. Deming, of Painesv'le, Ohio, who has investigated the subject thoroughly, writes to me that he has evidence that Spaulding, after writing the story which has recently come to light, without finish-ing it, changed his plan, and got up a more elaborate story, which he denominated "Manuscript Found," of which he made two or more copies, and sent one to Pittsburgh for publication-from whence Sidney Rigdon obtained it-and on which the historical part of the Book of Mormon was based. (It is to be noted that the title "Manuscript Found," is not given in the manuscript recently in my possession, at all. It was added by the publisher of the copy furnished you by Prof. Alexander.) Colonel William H. Leffingwell, a well-known teacher in Northern Ohio, says recently, in the St. Louis Republican : "Long ago in the past, I have forgot-ten the year, Mr. Spelding wrote a drama called 'The Book of Mormon,' in a hotel at Conneast, Ashtabula county, Ohio, where I had been teaching school. I was known theore the acoustry school. I was known though the country as a good grammarian and possessing an necurate knowledge of the English lan-guage. My father had been principal of the Meadville school, at Meadville, Penn., for eight years, a position which I subsequently filled on my father re-tiring to a farm. Mr. Spalding was a lawyer by profession and had taught school. He had never been a reverend, as some accounts give that prefix to his name. He was about 35 years of age when I first fell in with him, was very poor, and sick with consumption, and toward the last nearly lost his voice, so that he could not plead at the bar. He said he wanted to make some money, and wrote the drama, which he handed me for correction. It was full of Bible expressions, and as I had read the Bible from lid to lid I knew the proper phraseology to use. I corrected the grammar, and had to reconstruct and transpose entries to make good Eaglish out of it. I was engaged three months,

an examination the Old Meth 2.0 ville. the a attorney for torney for Dr. Benjamin Bi-WHE Smith and I was the atorney for Dr. Hurlburt. The examination produced much interest. Covilery, Hyde and Pratt. Mormon leader , were there with "Joe" Smith. J said to Mr. Bissell, let us get from "the Prophet" his history of the finding of the "golden plates," Mr. B. consented and for two days we had The Prophet, Joe' Smith, on the witness stand. He swore, that is, under oath, that he found the golden plates buried in the carth in a field in Palmyra. N. Y., and when he found them for any R. kicked by an unseen foot out of the hole in which they vere placed. All present knew that it was a Mormon lie. Rigdon was a natural orator, and had much native genius. He got the manu-script in Pitt-burg at the printing office of Mr. Robert Patterson, the father of the present Mr. Robert Patterson, who has published an interesting history of

Ins published an interesting history of Mormonism, showing without doubt that the Rev. Sidney Rigdon was the compiler of the Boek of Mormon. In 1879, Dr. Huribart was living at Gibsonburgh, Oaio. In a letter to Mr. Fatterson, of Pittsburg, he says: 'I gave the manuscript with all my other docu-ments interesting of the says: 'I gave

ments connected with Mormonism to Mr. Howe," Mr. Rice was the successor AIT. Howe. AIT. Rice was the successor of Mr. Howe in *The Telegraph*, and this accounts for his possession of the 'manuscript found' at this late day in an island in the Pacific Ocean."

This testimony of Mr. Briggs is entirely reliable. I was acquinted with all the members of the "selfconstituted committee" of which he speaks.

The mooted question now is what became of the Manuscript before the Committee, which they "compared chapter by chapter with the Mormon Bölle," and found them to correspond so perfectly? Mr. Deming, already refer ed to, says that Dr. Hurlburt sold it to the Mormons for \$4000, with which he purchased the farm he occupied at Gibson's burgh, at the time he wrote to Mr. Patterson, as related by Mr. Briggs. My belief is, from the above and other testimony in my possession, that either Hurlburt or Howe sold it to the Mormons, who of course destroyed it, or put it out of the way.

Yours for the truth and the right. L. L. RICE. Honolulu, March 4, 1886.

and not have relegated this matter affecting the jurisdiction of the proclamation to an inferior place in the attesting clause. Moreover, it is not proper to call the constitution in this connection, "Our Constitution." It is the constitution of the Hawaiian Kingdom and not that of His present Majesty.

The proclamation is countersigned by the Minister of Foreign Affairs. The law, (Section 38 of the Civil Code) prescribes that "the Minister of the Interior shall promulgate such proclamations as may be made by the King for the observance of days of fast and thanksgiving, and all other proclamations which do not specially relate to the business of other departments." Clearly, this proclamation is a matter of domestic concern, and has no relation to our affairs with foreign countries.

Until the incumbency of the present Foreign Minister, such proclamations were promulgated by the Minister of the Interior, but the usurpations of the functions of other officials by this present incumbent is so common that his colleagues seem to forget that they are his peers, and acquiesce in his unsurpations as well as in his assumption of the title of "Premier" which is without the authority of law, it having been abrogated by the constitution of 1864.

James A. Briggs, Esq., a well known and reputable lawyer in Northern Ohio for many years, and for a dozen years past a public officer in New York City, resided at Willoughby, Ohio, four miles from Kirtland, when the Mormons first located at the latter place. In a letter to the New York Tribune, dated Jan. 29, 1886, Mr. Briggs says :-

"In the winter of 1833-84, a self constituted committee, consisting of Judge Allen, Dr. Card, Samuel Wilson, Judge Lapham, W. Corning and mys. 1, met at Mr. Corning's house, in Mentor, now known as the Garfield farm, to investigate Mormonism and the origin of the Mormon Bible. Dr. D. P. Hulburt, whose name is mentioned in the article in your paper this morning, was em-ployed to look up testimony. He was present, with the committee and had Spaulding's original manuscript with him. We compared it, chapter by chap-ter with the Mormon Bibie. It was written in the same style, many of the City of Cleveland; Dogs and their Management; With the Afghan names were the same, and we came to the conclusion, from all the testimony before us, that the Rev. ALBANY, Feb. 18 .- The Evening Journal says that Prof. Lewis Boss, of the Dudley Observatory, has made the discovery that the comet seen at Paris on December 1st is slowly increasing in brightness. The increase will continue slow until April 1-t. when it will begin to be much more rapid, and by the middle of the month will become visible to the naked eye. Two weeks later it will reach its maximum of brightness, when its appearance will be much like that of 1882. and be visible all night. It will also, as that of 1881, be seen in the western sky. When nearest the earth it will only be 12,000,000 miles distant. It will retain its brightness until May 15th, when it will gradually fade from the vision, to appear later to the people south of the Equator. The Barnard comet is also discovered to be increasing in brightness, but will not become visible to the naked eye. In August it will also disappear from telescopic view, to reappear with the Paris comet south of the Equator. Neither comet has a previous recorded appearance.

IMMICRATION.

There is probably no country in the world that, in proportion to its area and population, expends as much money on immigration as does the Hawaiian Kingdom. As a rule, the class of immigrants im orted here, at public expense, meets with a barely civil reception on other shores. Immigrants of a desirable kind usually find their way, on their own account, into places offering favorable inducements. And among the best inducements that can be offered are a genial climate and easy terms in the acquisition of landed property. The first of these, Hawaii has to offer in perfection, but the second is too conspicuously wanting. The first step of any importance taken in this connection is due solely to private enterprise. The very scheme which successive Governments failed to hit upon has been set afoot by the proposed Land Colonization Company. Should this company succeeded in floating its stock, it is to be hoped that its affairs will be managed so as to command public confidence, and thus solve one of the great national problems of the day. And when private enterprise is endeavoring to launch a scheme of immigration intended to secure for the country a population, it becomes a fair question to ask whether the time has not arrived for government to call a halt in the importation of contract labor. The class of people introduced by this system is, generally speaking, of a very low order. While these laborers are numerical accessions to the population, they are a source of weakness rather than of strength to the commonwealth. The crying defect in the immigration system is that no provision seems to be made for the disposal of laborers at the

expiration of their contracts. Contract service ended, the laborer is almost sure to gravitate towards the city, where he has at least fifty chances out of a hundred to become a "dead beat" if not something worse. It is the experience of mankind everywhere that the unemployed are apt to settle down to "murders, stratagems and spoils," and become burdens to themselves and pests of society. These are the bare facts of the matter in this city. The danger of the white man's industries being stamped out by the Chinese is increasing from day to day as batch after batch of contract laborers is thrown upon the community. It is difficult to understand why labor cannot be supplied to the planters by utilizing the idle muscle to be seen every day about the streets instead of perpetuating a erving grievance by increasing the sources of its supply. If legislation is potent enough to hold laborers to the fulfilment of their contracts. it ought to be competent to deal with them for the prevention of vagrancy, after they have served their terms. And, before importing any more Asiatics into the country, it would be well to ascertain how many of those now here are available for service in honest labor, instead of prowling about the streets and devouring the proceeds of other people's industry. At least a thousand Chinamen could be spared from this city, without leaving any appreciable vacuum in the Mongolian hive, and every surplus laborer ought to be re-shipped to whence he came, or set to work at permanent and useful employment. And no measures more effective can be adopted to encourage the class of settlers the country needs than to make a grand clearing out of the riff-raff foisted upon the Kingdom by the contract labor arrangements of past years.

Croup.. 1 Dysentery..... 3 A correspondent of the Press recounts the details of a shocking Dropsy 1 Disease of brain. 2 tragedy that occurred near Haiku, Maui, a few weeks ago. Ah Len, a well-known Chinese cook, owed Tora, a Japanese employed by Mr. Baldwin, fifteen dollars, and bad given him his watch as security. Ah Len waylaid Tora on the road to Hamakuapoko, at a point where an immense stone almost bars the path, beside a precipice of a hundred feet or more. When Tora approached Ah Len fired a revolver at him, but missing followed up the attack with the clubbed weapon. A fearful struggle ensued, in the course of which the pistol went off, shooting Ah Len in the leg. All the time he was beating Tora about the head with the weapon, and thus inflicted a score of wounds. Tora, weak from loss of blood, was forced over the precipice, but dragged his as-sailant with him. Ah Len saved himself, however, by clutching a shrub, while Tora rolled on down the face of the cliff. Ah Len went on to Haiku and asked help of the Deputy Sheriff, Halekunihi, saying that he had been shot by a Chinaman in Hamakuapoko. In the meantime a party of natives passing by heard Tora faintly crying for help, and having a lantern they found him caught by one leg in a shrub about twenty feet down the cliff. With great difficulty they succeeded in fastening a rope round his body and drawing him up. He was taken on a horse to Mr. Baldwin's, where Dr. Bull dressed his wounds. His head was in a frightful state, but, although his life was in danger for some days, he gradually recovered. Ah Len's wound was found to be slight, and early next morning he was removed by Sheriff Chillingworth to the Makawao jail, partly to protect him from an anticipated Japanese mob, and also to await the result of Tora's injuries. After languishing there about two weeks he hung himself in his cell. Both men bore peaceable reputations and were excellent house servants.

BUSINESS MEETING OF THE LIBRARY.

The regular meeting of the Board of Officers of the Library Association was held last evening. A report was presented by the chairman of the hall and library committee, giving interesting details concerning the work of the association. The circulating department had on the 1st inst. books out in the hands of 124 different persons. The catalogue now shows 4,850 volumes, being an increase of 1,874 volumes since the association moved into its present building just a year and a half ago. About 600 of these books were from the bequest of Queen Emma, who it will be remembered left her library to the association. The remainder have been acquired partly by purchase and partly by gift, the largest individual contributor having been Mr. A. J. Cartwright. The committee on a printed catalogue reported progress and were continued. Matters pertaining to the work of the entertainment committee were discussed at some length, but no action taken which calls for public notice at this time. The committee hope to have something to announce at an early day.

CHICKEN thieves paid a visit to Mr. Dexter's hen-roost last night.

THE Hawaiian bark Kalakaua, 126 days out from Panama for San Francisco, is supposed to be lost.

His Majesty returned by the W. G. Hall this afternoon. A royal salute was fired from the battery in honor of his arrival.

SIXTY-ONE Americans contributed a dollar each to pay for the national salute of 21 guns in honor of Washington's birthday, the money being collected by Messrs. John H. Paty and J. E. Wiseman.

MR. C. B. Patterson has just completed the painting of the second steeple and tower of the Kaumakapili Church, also the glazing and the glazier's designs on the windows. The building committee and members of the church have expressed themselves well satisfied with the work, which is creditable as well to the city as to the workman.

At an early hour this morning Mr. McChesney was notified by the milkman that burglars were at work in the vicinity of his house, King street. Whereupon all hands turned out, and a trunk belonging to the family was found on the road rifled of its contents-clothes and jewelry. Nothing else has as yet been missed and it seems to be the work of Chinamen.

Ox Sunday night the premises of Mr. Wm. Maertens, Beretania street, were invaded by a barefooted prowler, who left impressions of his feet on the verandahs. Finding nothing portable at the front, he went to the rear of the house, and carried off a pair of gaiters, an odd shoe and a school bag with its contents. The odd shoe was dropped a short distance from the house. Not long since Mr. Maertens had a garden hose stolen from his place. The same night as the theft first-mentioned occurred, Mr. John Nott's house, King street, about opposite Mr. Maerten's, was visited, and clothing stolen from the verandah, including a coat with some money in a pocket. In both cases it was likely the same thief.

CITY COVERNMENT.

Honolulu has outgrown the style of its government. Nothing is clearer than that proposition. The state of affairs in this capital city is growing worse instead of better, so far as public works are concerned. Indeed, it is hard to see how internal matters can be improved, under existing conditions. Public improvements required will take money to pay for them. There never will be sufficient means for city purposes, in all probability, so long as the expenses all come out of ordinary national revenues. If this is to be a well-appointed and properly gov-

WASHINGTON'S BIRTHDAY.

American patriotism is abundantly manifest in the number of starspangled banners floating in the breeze, from flagstaffs on shore and in the harbor, to-day; while the universal respect and good-feeling of other nations toward the Great Republic is equally obvious in the bunting displayed by other than American residents. At noon a national salute was fired from the shore battery, Kakaako, in honor of the birthday of the "Father of his country." His Excellency Geo. W. Merrill, United States Minister Resident, and Mrs. Merrill are holding an informal levee at the American Legation. The first to call this morning was Mr. Taro Ando, Japanese Consul and Diplomatic Agent. Their Excellencies W. M. Gibson, Paul Neumann and C. T. Gulick, of the Cabinet, called later; also Mrs. Gulick, Hon. A. S. Cleghorn, Mr. R. W. Irwin, Hawaiian Consul-General to Japan; and Mr. R. W. Laine, Spanish Consul. Doubtless the diplomatic corps generally will have called, before this is read, as our report is necessarily made at the height of the event, when there was a steady stream of visitors at the Legation. The Royal Hawaiian Band was playing on the grounds, having been sent out of compliment to the United States, and her popular

Co.'s wharf was crowded with spectators, many of whom were strangers eager to get a glimpse at the King. and natives who set up a clamorous yell of welcome as the steamer neared the wharf. His Majesty was received by His Ex. W. M. Gibson, Minister of Foreign Affairs; Gov. J. O. Dominis; Hon. A. S. Cleghorn ; His Ex. Paul Neumann ; Hon. Curtis P. Iaukea; Col. J. H. Boyd of His Majesty's staff; Majors Rosa and Holt of the Governor's staff; Col. Purvis and Mr. G. W. Macfarlane. His Majesty having landed entered his carriage and was driven to the Palace, where he was received by the Household troops, at "present arms," while the Hawaiian Band played the National Anthem. Later on, Hawaiian subjects paid their respects to His Majesty, who is looking remarkably well.

OAHU COLONIZATION --- THE OUTLOOK.

Mr. Herbert Reeve, of New South Wales, Australia, arrived here by the Mariposa, two weeks ago, en route to the United States. Mr. Reeve has large interests in sheep and cattle raising in Australia, and was induced by hearing of the fame of the Hawaiian Islands, to remain over and "do" the country so far as time would permit. He has just returned from a six days' expedition round Oahu, during which time he visited Honouliuii, Waimes, Hawailoa and Kahuku ranches, and is favorably impressed with the practicability of converting those areas into fair and profitable homesteads for a large population. The Hononiuli and Kahuku properties he considers exceptionally good, not only in the natural richness of soil but also in the elevations being at such an average level, about 30 feet, above the sea, as to secure for the lands a fine natural drainage. Mr. Reeve is of the opinion that artesian wells placed along the foot of the mountains which form the headlands of the cultivable areas, would be likely to secure all needed water for irrigation purposes, and considers that once the colonization company is far enough advanced to provide the water supplies, the whole region will representative and his lady, by the be immediately available for settleerned metropolis, its citizens will Hawaiian Government.-[Feb. 22nd. | ment. THE Y. M. C. A. AND THE BOYS. The entertainment at the Y. M. C. A. hall last evening came off in fine style. The combination of the Boys' branch with the adult membership gave a feature of special interest to the affair. The parts of the programme were carried out with splendid success, several encores being given and responded to. A

larger proportion than usual of the audience consisted of young people, whose exuberant enthusiasm itself was sufficient to keep the audience in high spirits. Following is the programme :---

Near the close of the literary performances, Mr. Henry Hart appeared on the back stair with a couple of heavy tubs from the Ehte ice cream parlors. The ice cream man, of course, was received with the honors due to members of his craft in this climate. A liberal collation of ice cream and cake was served out, and for a quarter of an hour or so there was "lashins of eatin'," but no "drinkin'," after which a short speech from the tall secretary closed the proceedings.---| Mar. 6th.

HAWAII IN WASHINGTON.

The Washington Star of Feb. 1st contains the following in its "Society " items :-

"Mr. and Mrs. J. Mott Smith and their daughters gave a most delightful 'at home' on Saturday evening, which brought together many notable people. Mrs. Smith

drew a fair crowd. The distance was two miles for a prize, which was won by a native.

A FINE collection of Hawaiian ferns, made up by Mr. Clarke, has been presented to Vassar College by Mrs. Emily Talbot Walker, of San Francisco.

MR. J. E. Wiseman has placed a picture of Geo. Washington, decked with an American flag, in his office window, in honor of Washington's birthday, Feb. 22nd.

A FEW weeks ago the people of Hawaii were crying for rain, and now abundance of the needed moisture is reported on that island by the steamer Kilauea Hou, arrived yesterday.

FIVE persons were sent by the schooner Millie Morris, this evening, to the leper settlement at Molokai. One hails from Hawaii, two from Maui, and the other two from Oahu.

THE British flagship Triumph is to leave Esquimault, British Columbia, in the latter part of March for Honolulu, where she will meet the Satellite and Heroine, bound from Callao for Hongkong.

THE Japanese immigrants remaining at the Depot were allowed to roam about town yesterday, forming an interesting addition to Honolulu's cosmopolitan aspect in the eyes of numerous strangers brought by the Alameda.

Two magpies kept in a cage at the residence of Dr. McGrew are very knowing birds. Yesterday morning a party of Japanese immigrants had congregated about the cage, when one of the birds cried "Ohio" to the great astonishment of the Japs.

MACHINERY for a steam laundry for Honolulu arrived by the Alameda Sunday, and Mr. McLaughlin, one of the projectors, has already procured a large number of persons who are willing to patronize his venture. The clothes are to be laundried better than done by the Chinese and as cheaply.

MR. C. Michiels, of the Louvre of Brussels, returned from San Francisco yesterday. He reports that he could not find the "Marquis of Teano" on his arrival, after eighteen days' passage on the bark Caibarien, while the money, \$800, entrusted to that nobleman, for payment to a San Francisco firm, had not reached its destination. Mr. Michiels says the real name of the "distinguished"

THREE lady passengers en route to San Francisco, by the steamer Australia, decided to stay over, and are now at the Hawaiian.

F. C. PARKER has started a coffee house at Maalaea Bay, so that passengers arriving by steamer may refresh themselves before going up town.

COMPANIES A. & B. of the King's Own were out for a street drill last night. They are to have a target shooting practice on Kamehameha day, March 17th.

COLONEL Burlton and Lieutenant Colonel Wilson, London, England; Sam Kay and Son, Stockport, England; Abe Brown and A. L. Brown, San Francisco, are registered at the Royal Hawaiian Hotel.

E. P. ADAMS & Co. sold the Astor House fittings to-day. They were knocked down to a Chinaman for \$275, but as the cash, payable at noon, has not yet been put up the sale may have to be repeated.

A GENUINE Chinese funeral took place at the Nuuanu Valley cemetery yesterday. A Chinese band, making a terrible din, followed the hearse. Some articles of the dead man's personal property were carried along on the coffin. The attendants deposited fire crackers and eatables on the grave.

THE body of the late "Mr. Underwood, one of the proprietors of the Russ House, San Francisco, was brought to Honolulu by the steamer W. G. Hall yesterday, to be sent to the Coast for interment. Mr. Underwood came to the Islands in December last for the benefit of his health, but died Jan. 1st at Kealakekua Bay, Hawaii, of consumption.

THE body of a Chinaman was fished out from among the rocks at Koholalele last Friday by the sailors of the steamer C. R. Bishop, Thecoolic had been in search of work. and having been unsuccessful is supposed to have jumped from the bluff with suicidal intent. The body was buried at Koholalele by some Chinamen working on the plantation.

THE DAILY BULLETIN SUMMARY: HONOLULU, H. I., THURSDAY, MARCH 11, 1896.

Their last communication from him was dated Honolulu, about fifteen months ago, when he was in the gentlemen's furnishing business. Any person, able and disposed to supply the desired information, can direct to the Consul General's office,

A NATIVE prisoner, employed by the Water Works, who not long ago was charged with stealing two sacks of coal, was seen yesterday in a happy state of intoxication ascending the gang-plank of the steamer Iwalani. If prisoners are allowed to get drunk and wander about in joyous freedom, what is the use of well-disposed persons drudging themselves to death as slaves of honest industry?

THE S. S. Australia that arrived here Monday morning from the Colonics was advertised to sail for San Francisco at 8:30 P. M. sharp. At the time stated the vessel was about to steam to sea, when the mail from the Post-office arrived on the wharf. The steamer was still held by a stern line and the mail (nine bags) was thrown on board. Had the delay been a minute longer, the mail would have been left behind.

THE recently arrived Japanese immigrant continue to be assigned to their respective scenes of labor. The steamer Kinau takes 12 men, and the Likelike 15, as sailors. Mahukona, Hawaii, and Kahului, Maui, take 10 men and 1 woman, each; the Kilanca Sugar Company, Kauai, 9 men and 9 women; Hon. Sam Parker's plantation at Paauhau, Hawaii, 15 men; the Kukuiau Plantation, Hawaii, 25 men and 10 women.

Some "bully" news came by the steamer W. G. Hall yesterday. While the vessel was lying at Punaluu, Hawaii, the chief officer and a mad bull had a game of "tag" around the foremast. The chase was very exciting, and before the bull could be captured the officer was caught and thrown over the ship's railing. When the cattle were landed one of them got loose and stampeded a crowd of Chinamen. Fortunately no one was hurt.

MR. C. K. Miller, who returned from Maui by the W. G. Hall, reports having established two express agencies on that island-one at Paia, in charge of Mr. C. H. Dickey; the other at Wailuku, in charge of Mr. W. A. McKay. Mr. Miller reports business good at Wailuku, and that he was very successful with collections. The electric light on Spreckelsville plantation illuminates the place very effectually, and every appliance of modern invention is used there to save labor. Mr. Miller intends to do all the interisland express business in connection with Wells, Fargo & Co., his trip just made to Maui being the first move in that direction.

STRANGERS as well as residents can scarcely spend an hour more agreeably than in looking over the art productions of Mr. C. Furneaux in his studio above Mr. Sachs' store, Fort street, which is open every day except Thursday, when the artist is giving lessons at Oahu College. A great variety of subjects are on view in the show room, comprising Hawaiian landscapes, views of the volcano from different points and in different aspects, trees and flowers, in oil and water colors. One series in water presents the most striking scenes in a tour round this island. There is a fine large picture of the beautiful Kaliuwaa Falls, on the other side of the island. A screen of four panels, bearing two varieties of ponciana, the "golden shower" and other flowering trees, is nearly completed, making an exceedingly beautiful combination. Mr. Furneaux esteems it no trouble to show visitors the treasures of his artistic industry, whether they come to purchase or otherwise.

unless allowed occasionally to come back to read the BULLETIN in his favorite chair at Nolto's. POLICEMAN No. 9 reports a little

native girl about three and a half years of age, Kapuu by name, fall-ing into the bay near the fish market this morning. The child had sunk to the botiom for the last time, when several native men dived and recovered the body. Life was apparently extinct, but after judicious and patient treatment the child was resuscitated and is now doing well.

THE schooner Jennie Walker, that arrived this morning from Fanning Island, will sail again next Thursday for Gilbert Islands, calling at Greig's place on the way to get his return Gilbert Island laborers. The schooner will also visit Jaluit for South Sea Island produce, and will return to Honolulu about June 1st. Captain Lovell leaves by the Jennie Walker for the Pacific Navigation Co.'s trading station at Jaluit.

MR. A. J. Cartwright received a letter from a friend of his by last steamer, wherein it is announced that the world-renowned Signor Campobello would be delighted to make a trip to this country, bringing a superb opera company for a short season, if our music-loving people would extend the invitation and raise a suitable subscription to warrant him coming. Sig. Campobello's voice is a baritone, and he stands eminent in respect both of talent and gentlemanly bearing.

The bath-house now building near the Marine Railway promises to be a great boon to lovers of natatorial exercise in salt water. The building will be 24x40 feet with two stories. The upper floor will be similar to that of the Myrtle's boat house, the center room being used for temperance refreshments. On the balcony around the refreshment room will be chairs and sofas for those who choose to look on. The lower floor will contain dressing rooms and fresh water showers. The swimming place, 60x40 feet, will be enclosed by a wire netting to prevent the entrance of large fishes. A fee of 25 cents will be charged for a single bath, and monthly tickets will be sold at a reduced rate. There will be spring boards and all such conveniences for swimmers. The place will be conducted in a strictly respectable way, as the proprietors intend to make it a resort for ladies and children as well as gentlemen.

FRIDAY, Feb. 26th.

HUSTACE & ROBERTSON moved into their new office this afternoon.

THE dredge has been at work deepening the bay for about three years. THERE is talk of forming a swimming club when the bath-house is finished.

SOMEBODY with a large head thinks a bicycle club would pay well in Honolulu.

MR. F. Harrison began work on the new Police Station additions this afternoon.

HAWAII baseball clubsappears to be the only one practising for the ensuing season.

THE Japanese Consul's 'carriage met with a disastrous smash-up this morning. It is in Page's yard and looks as though it was struck by a locomotive going at full speed.

THE candle race at the Yosemite rink last evening was won by one of the Beaver Saloon waiters, who shielded the lighted candle with his coat and sped around like the "Flying Dutchman."

MR. A. B. Kerr, painter, has hoisted an artistic sign over his paint shop, Queen street. On one side of the signboard the steamship Alameda passing the bell buoy is painted and on the other a large stag.

THE skull with tusks of a Hawaiian wild boar, killed on Hon. Sam. Parker's ranch, Hawaii, is exhibited in Oats' window, giving occasion for learned demonstrations by amateur native naturalists.

OUR reporter found everything, at midday, in the Police Court, as peaceful, mild, serene and still as the mist slumbering on yon hill." It was pay day and the buttons shone brighter than usual in the glint of the siller.

STRONG E. N. E. winds and rough seas raged at Koolau all the week until 4 o'clock yesterday morning, when the wind shifted to the S. E. The schooner Manuokawai could not receive freight at Punaluu on account of the weather.

CAPTAIN McGregor, of the steamer Mokolii, reports a terrific wind storm on Kahoolawe last Thursday mothing. Vast clouds of soil were blown from the land, completely enveloping the Mokolii and compelling her to retreat. It appears that a tornado had taken possession of the island and played the very mischief for about an hour. The captain says the weather was very good last night.

KATE Foote, Washington correspondent of the New York "Independent," describing an "evening" given by Mr. Chief Justice Waite, among other guests mentions " Mr. minister from the Sandwich Islands, who looks much more English than the British Minister." Among the ladies receiving at a "Kaffee Klatsche," given by the Homeopathic Hospital to celebrate its opening, the same writer names Mrs. Mott Smith. THE inventor of the puzzle " Tower of Hannoi" offers \$100 to any person who correctly performs the trick in 59 seconds. There are 255 movements in all when the thing is properly done. The smallest disk, termed "the joker," moves 128 times, the next in size 64 times, and so on, each piece being moved half as many times as the one above it. Shifting four pieces to a second would not cover the time, and the money offered is pretty safe. The best time made in Honolulu is two minutes and a half, and then the board had to be strapped to the table and both hands kept in continual motion. JOHN DeGraves' appeal from the sentence of Justice Bickerton in the Police Court, of \$200 fine and 30 day's imprisonment, for having opium in possession, was tried in the Intermediary Court before Judge Preston to-day. Defendant was caught with 88 tins of opium enclosed in a bag in his hack, coming from the berth of the brigantine Consuelo. He claimed to have no knowledge of the contents of the bag, but to have been engaged by a Chinaman to convey the package to another Chinaman uptown. The judgment of the lower court was confirmed with costs, whereupon defendant appealed further to the Supreme Court.

A HORSE attached to a most elaborately painted carriage, with fancy harness, was hitched to the Chinese Theatre on Queen street vesterday. while the owner boarded a vessel lying close by. Owing to some unseen phenomena the animal became stupefied, probably by the effluvia emitted from a little square

hole in the side of the building, and fell to the ground in a heap, breaking the harness in about seven places.

Two beautiful shotguns, the finest ever imported into this kingdom, are to-day on exhibition at the offices of G. W. Macfarlanc & Co. They were made to the order of James Olds and Chas. B. Wilson, by the great gun manufacturers of England, Messrs. W. C. Scott & Son. The guns are the finest that can be made by these celebrated manufacturers, and cost \$350 each. They will be delivered to their owners to-morrow, and all sporting men should not fail to see and examine these fowling pieces, before they are taken off by their

owners. Hon. W. C. Parke returned from Maui by the Likelike yesterday. There were seven foreign vessels anchored at Kahului on that steamer's arrival Thursday last. She towed the Ferris S. Thompson out to sea that day and a tern on Saturday, leaving five vessels waiting for sugar, that was being supplied as fast as the mills in operation could be driven. They are making 80 tons of sugar a day at Spreckelsville, but at Hana there is not water enough to run the mill. The Reciprocity mill is well

Campobello here in April with the following opera company, namely : Miss May Mitchel-Spring, the Joran sisters (3), and Mr. Sebastine Hill. There is not much apprehension felt that the required sum will not be obtained. Mr. Cartwright has had a private 1 tter from a friend abroad, testifying to the high reputation the Signor has won in Europe. Other prominent residents know the members of the company to be genuine operatic artists. There will be six concerts in the series, to be given on alternate nights.

ABOUT noon to-day a native named Kanai was taken with a severe attack of hemorrhage of the lungs, while walking on King street near Castle & Cooke's store. He was assisted into his house in the rear of that place, where a reporter found him sitting on the floor in a pretty weak state, and, asking him through an interpreter brought in from the street if he did not wish the Hospital physician called, was answered, "Aole;" that he would be better when relieved of the blood, and it made him feel bad to go to the dector. The poor man looked very emac ated, and those who know his case ay there is not much chance of his surviving the night. He had a similar attack
