The house is located but three squares from the Palace and Baldwin Hotels. Terms very moderate. [85

Insurance.

WHY THE

Equitable Life

Assurance Society

of the United States is the Best company with which to Assure.

I.—Because of its Safety.

Its surplus is larger than that of any other assurance company.

II.—Because of its Promptness.

Of 1,043 death claims paid in 1885, nearly one-half were paid the *very day* proofs were received; while of the remainder, the majority were paid within the following three days. No other company can show such a record.

III.—Because of its Liberality and Reforms.

All policies are INCONTESTABLE after three years. All incontestable policies are payable immediately upon receipt of proofs of death. The Society's policy contract is clear and simple, and liberal in its conditions. Its Non-forfeiting Tontine (or Semi-Tontine) policy affords all the ultimate benefits of the full Tontine, and has during its earlier years the surrender value and other material advantages of ordinary life policies.

IV.—Profit.

No other company is paying on its policies, as large profits as are shown under the Equitable's matured Tontine policies with fifteen-year periods. Persons desiring assurance may obtain estimates of the probable results of similar policies, and of policies with twenty-year terms, which are expected to show even larger profits.

V.—Prospective Advantages.

The unexampled progress of the Equitable in the past is the best guarantee of the increasing future value of assurance with the Equitable.

Assets,	$866,353,387.50
Liabilities,	52,691,148.37
Surplus,	$813,862,239.13
Surplus on the New York Standard,	$17,495,329 40
New Assurance in 1885,	$896,011,378.00

a larger business than that of any other company.

Outstanding Assurance,	$357,338,246.00
Total Paid Policyholders in 1885,	7,138,689.05
Paid Policyholders since Organization,	88,211,175.63
Income in 1885,	16,590,053.13

Improvement During the Year.

Increase in Premium Income,	$1,430,349.00

FRIDAY, MAY 14, 1886.

IMBECILITY.

Our youthful morning contemporary has become feverish again. For several days the fever had shown indications of abatement, with strong traces of imbecility trailing in its wake. It was grievous to see, in yesterday's issue, a violent return of the former, with the continued presence of the latter. We venture to suggest that a little hydropathic treatment, judiciously administered, to avoid "chilling to death," might alleviate the worst symtoms of the fever, and "slow down" the pulse a few beats; but we are sceptical of any method of treatment, old or new, being efficacious to remedy the imbecility. The ailment is apparently too deep-rooted for medical skill to reach.

It is really touching to see a dear young neighbor, who is an expounder of logic and whose progenitor we held in great veneration, in such a pitiable condition of intellectual decrepitude that his every effort to enlighten the benighted minds of his eager disciples betrays innocuous vapidity or subservient cant! But when, as in the startling exhibition of yesterday, he manifests a propensity for prevarication and perversity in preference to candor and truth, and essays to stuff the uninformed with falsehood and fiddle-faddle, he becomes a proper object of contempt.

Those who are familiar with the truth of the matter, concerning which our poor neighbor publishes a series of misrepresentations—to use an extremely mild word under the circumstances—will naturally feel unmeasured contempt for an organ that can wilfully deviate so widely from the line of truth. As for ourselves, we are accustomed to regard with cold indifference the mountebank posturings and senseless dribblings of an unpopular journal that has no particular opinion or meaning of its own, and therefore imposes no tax on the understanding of its readers. We have often seen light-headed egotists, who "write English indifferently well" and prate about "logic" of which they know as much as a cow of commerce, blustering furiously for a brief period, and then falling violently back on their native insignificence.

THE MORNING STAR.

There has been a considerable amount of criticism on the Missionary vessel, Morning Star, now in port. Disapproval is expressed regarding her build, and she is said to be poorly adapted for the services for which she was intended. In answer to enquiries, nautical men say that the Morning Star was intended for a sailing vessel, with auxiliary steam power for maneuvering in difficult harbors, and for calm weather. She was expected to be a great improvement on the old Star, particularly on account of her steam. But it would appear that she is not a thorough success as a sailing vessel. Some who have voyaged on her do not speak in flattering terms of her action under canvas. She is said to be too flat in the floor and to have too little depth of keel, causing her to make considerable leeway when sailing close hauled. Some say that with a sharp floor she would draw too much water to allow of her entering the lagoons of the South Seas. It must be admitted that so much hulk above water and her lofty houses on deck will naturally cause drifting to leeward. A differently made bottom, with less elevation to her deck houses, would have better adapted her to her requirements. While on the Marine Railway recently an addition was made to her keel, and a new propeller put in. These are improvements that were much needed, and she will doubtless do her work more satisfactorily in future than formerly.

NOTES AND QUERIES.

The Legislature was of an inquiring turn of mind this morning.

Mr. Baker adopting a patriarchal attitude toward the Minister of the Interior, in the house this forenoon, was a touching episode.

A motion to suspend the rules is not debatable, according to common parliamentary practice. The decision of the Assembly yesterday, in sustaining the chair on this point, conforms the Hawaiian practice to the above rule, and its enforcement will likely save much valuable time.

The honorable Postmaster-General has been neglecting the interests of his legislative constituency for several days, probably through a pressure of national duties. A heavy report of the postal department may be expected to fall upon the Assembly before the close of the session.

It was Mr. Kaunamano who introduced the bill to amend the Penal Code so as to make the Hawaiian the authoritative version in case of "a radical and irreconcilable difference" between that and the English version. When, therefore, we said that Mr. Aholo "fathered" the bill, we were only right to the extent that he promoted the document to its second reading.

We cheerfully commend Mr. Keau's zeal in the matter of repairs to Liliha street, and endorse the statement that "it is one of the worst streets in the city," but are not so ready to sanction the method adopted for remedying the evil. Moreover the assertion that "streets on which foreigners live are kept in good repair, while those inhabited by natives are neglected," is erroneous. Probably the best thoroughfare in the entire district is the continuation of King street, from Liliha street to and beyond Kaiihi, and a large majority of the inhabitants along its course are native Hawaiians.

HYDROPATHY.

EDITOR BULLETIN:—Having placed my services before the Hawaiian Government some time ago, which will involve a considerable risk for my own personal safety, for the benefit and alleviation of the unfortunate Lepers, and upon a resolution brought before the Assembly by the Hon. Noble Rhodes, "that our system of hydropathy be made available for the Lepers," I have been much surprised at the factious opposition made by some members of the Assembly, objecting to our treatment, first, on account of hydropathists not possessing a diploma of medicine.

I have to intimate that this diploma of medicine is the very thing we do not desire to possess. A diploma of medicine, with all its accompanying infinite number of drugs and chemicals, is the very thing which we repudiate and abhor. Therefore for an hydropathist to enter upon the study of medicine would be a waste of energy, and a retrograde movement to fill his mind with the accumulated rubbish of an effete system which is fast passing away, as a remnant of the dark ages.

The unfortunate Lepers of this Kingdom have been dosed with medicine in galore these last twenty-five years—yes, medicine of every kind which human skill could invent—and the public know with what results, with yearly increasing numbers of poor wretched diseased creatures chargeable upon the Government, resulting in a gross demoralization of these people, many of whom go down to death every year without any possible hope from the Materia Medica of all the schools of medicine. Every person in this Kingdom who dies, both young and old, rich and poor, literally soaked with physic, which is amply proved will not avail for the cure of these constitutional diseases. It is strange to see persons advocating a system which has been tried over and over again with such abortive results.

Having been a student of hydropathy and hygiene for a period of over twenty years, I have witnessed its healing power in nearly every disease under the sun, and I believe that hydropathy will yet restore a large proportion of these diseased people to sound health, and as soon as our science of hydropathy has operated upon them it will be revealed who are the quacks and who are the true physicians.

Moreover I consider it unbecoming for one gentleman to cast reflections upon another because he cannot meet his views, and say that his patients would be either scalded to death in hot water or chilled to death in cold, or any such ridiculous nonsense.

I wish also to state that hydropathy is not an experimental system, but is a positive science, as true and demonstrable as mathematics, astronomy, mechanics, or geometry. If any honorable member wishes to interest himself to prove this a science, I will, as soon as possible, take him to the Leper Hospital, and after careful examination point him to some of the individual patients whom I will undertake to restore to perfect physical health within a given time, and that time shall not, at the utmost exceed, six to nine months.

I am prepared to prove that hydropathy is a science by result, at any time. Within two hours I will extract and absorb a large quantity of diseased matter from any one of them without producing the slightest pain, unpleasantness, or prostration of any kind. I will not further prolong this note, which I have written to correct some errors of judgment, and will only predict to-day that our sanatory science of hydropathy and hygiene will heal large numbers of those gentle, hospitable, and afflicted Hawaiians, when all other means have failed.

J. HERBERT REEVE, F. H. S.
Professor of Hydropathy.
Honolulu, May 15, 1886.

THE LEGISLATURE.

TWELFTH DAY—CONTINUED.

THURSDAY, May 13th.

Rep. Amara presented a resolution that the Secretary be instructed to insert an item in the Appropriation Bill, of $4,500 for the improvement of roads in Waialua district. He said that heretofore it had been the custom for resolutions of this kind to be laid on the table, where they might be neglected when the Appropriation Bill was being considered. His idea, in asking to have the Secretary insert the item now, was that it would be sure to be reached by the house. An item for an anchor and buoy had once been asked for by him, but the resolution was tabled and neglected and the people of Waialua were without those conveniences.

Rep. Aholo moved that the resolution be laid on the table to be considered with the Appropriation Bill.

Rep. Amara again urged his case, saying that, being hard of hearing, he was apt to miss the proper opportunity for having items for his district inserted in the bill.

It was decided to lay the resolution on the table.

Rep. Castle moved that certain bills on the liquor traffic, presented since the reference of similar ones to a select committee, be taken from the table and given to the same committee. Carried.

Rep. Nahale gave notice of an act to make Kailua, North Kona, Hawaii, a port of entry.

Rep. Palohau gave notice of an act to require a certain fee to be paid by Government officials when they receive their commissions. Also, of an act requiring persons loaning money on real estate to take out licenses. Also, of an act to increase the fees to be paid by persons receiving licenses to practise law. Also, of an act to limit commissions received by Government officials to two years.

ORDER OF THE DAY.

Rep. Brown moved the order of the day, which carried.

Third reading of an act to amend sec. 1053, Civil Code.

Minister Neumann, for the purpose of having the bill discussed, moved that the enacting clause be stricken out. This was part of the statute of frauds, providing that certain transactions must be in writing. He would like the honorable member for Lihue to explain what the object of the law was. It appeared to him as if the enactment that no title in real estate be recognized except by process or operation of law, would nullify nuncupative wills (wills made verbally). He wanted to know of what good the proposed law was, or what evil it was to remedy.

Rep. Dole said his attention was directed to the necessity of this law lately, in a case in which he was engaged, by one of the Justices of the Supreme Court. The case turned on the cancellation or surrender of a lease. It was discovered, on citing an authority, that there was no statute of this country conforming the practice to that of England and America in this regard. In the opinion of the presiding justice there was no such thing as an act to pass the title of land unless there was something in writing. That was only one of many similar instances. The act relieves the severity and strictness of the statute of frauds.

Minister Neumann withdrew his motion, and Rep. Aholo moved the bill pass, which carried.

Third reading of an act to amend sec. 1, chap. 90, Penal Code.

Rep. Brown moved the bill be indefinitely postponed; Rep. Kaunamano that it pass.

Rep. Dole said they expected this bill to be brought up every session. He did not know whether it was a joke or not, nor whether those who brought it up had an idea of benefit from it. He respected the Hawaiian language very much, for its traditions, its literature and its history. But Hawaiians all over the islands were anxious that their children should learn the English language, and there was a great deal of progress in that respect by the children. Why was this? This nation was becoming a conglomerate one. The English language was the key to unlock the commercial and social life of the kingdom to all nationalities. No one who is confined to Chinese, Portuguese or Hawaiian can do business. A child or man who knows the English language, or how to read it, is in the line of promotion in every department of life, and in the future of these islands there is very little chance for the Hawaiian who does not understand English. He can work in the taro patch as well as anyone, he can pound taro, he can lasso cattle, but he cannot engage in business intercourse with his fellow-residents. Another great reason against the proposed change was that this Government has for a great many years conducted its affairs in the English language and all the traditions of civilization cluster around that tongue. All public business and legislation has been done on the principle that the English language was the best. To decree now that the Hawaiian language is the official language would be a severe shock to the regard in which our country is held among the enlightened nations of the world, and would, damage the opportunities and the prospects of every Hawaiian in the country. In behalf of Hawaiian she earnestly seconded the motion to indefinitely postpone this bill.

Minister Neumann said that, among various reasons why this bill should not pass, one was that the main strength of the Hawaiian kingdom is now that the world understands its business and affairs. Why should a law pass that the Hawaiian version of the Penal Code should prevail, while with respect to all other laws English should prevail? Where should they be landed with such a law as that? While the Hawaiian language could be used to perfection for the expression of religious, political or other sentiments, the moment they try to get into the technical terms of science or law it is found to utterly fail. How could they in geometry, for instance, express in Hawaiian such things as a tangent, a cosine, or a parallelogram? That the Hawaiian language can be used for singing is obvious, and for declamation is equally obvious—they had all heard that; but when it came to declaring a law, they would find that a great many men who should be convicted would go free, and many who should go free would be convicted.

Rep. Kaunamano moved the house adjourn till 2 o'clock. Some members desiring to come to a vote first, he said it was his bill, and he desired to speak at length on it in the afternoon.

Rep. Keau moved in amendment that the house adjourn till 10 o'clock to-morrow morning, which carried by a large majority. The house rose at 12:10 o'clock.

THIRTEENTH DAY.

FRIDAY, May 14th.

The Assembly was opened with prayer by the Chaplain, Rev. J. Waiamau, at 10 A. M., the President, Hon. J. S. Walker, in the chair. At 10:20 a quorum having arrived, the Secretary, Mr. E. A. Pierce, read the minutes of previous meeting, which were declared approved, after slight correction.

PETITIONS.

Rep. Paehaole presented a petition from Molokai, praying that an item of $5,200 be inserted in the Appropriation Bill, for the purpose of subsidizing a steamer to run regularly between the islands of Maui, Molokai and Lanai, to call at several points on Molokai. Referred to committee on Commerce.

Rep. Amara—a petition from Waialua, for an appropriation of $400 to improve a road used by the petitioners, sixty in number.

Rep. Aholo moved the petition be referred back to the introducer, because it was not endorsed explicitly with the object prayed for. Agreed to, and petition amended by the introducer, after which it was referred to the Committee on Public Lands, etc.

REPORTS.

Minister Gulick, from the Printing Committee, presented printed copies of the bills relating to the Chancellor and to a permanent settlement on Thos. W. Everett.

RESOLUTIONS.

Rep Castle, by leave, read a first time an act to amend an act of 1882, relating to internal taxes. The amendment decrees that no change shall be made in an assessment without previous written notice to the taxpayer.

Rep. Baker said that the other day he had introduced a resolution asking the Minister of Interior to state whether Z. K. Meyers had taken the oath of allegiance before being appointed clerk of the Waterworks. He had introduced the resolution with the best motives, but was not satisfied with the answer given yesterday by the Minister. Solomon had said that a wise parent should not spare the rod, and it was because he liked the Minister of Interior that he jogged him on this matter. (The President said the member was out of order unless he made a motion.) Mr. Baker thereupon moved that the Minister of Interior produce the record in this case. Carried.

Rep. Dole gave notice of an act to regulate the granting of pensions.

Rep. Kalua moved that Hon. C. H. Judd, His Majesty's Chamberlain, be requested to lay before this house an account of the expenditure of the item for "Household Expenses" for the two years ending Mar. 31, 1886. He thought the item of $10,000 for repairs to the palace, in the Interior Department, should be under "Household Expenses."

Minister Neumann moved the ayes and nays be called. Carried.

Rep. Castle moved to amend the resolution by adding a provision that the statement be made by next Monday. The introducer having accepted the amendment, the resolution was put and carried on the following division:—

Ayes—Ministers Gibson, Gulick, and Neumann. Nobles Bishop, Dominis, Dowsett, Isenberg, Cleghorn, Rhodes, Wilder, Kaae, Martin, Macfarlane and Kuihelani. Representatives Hayselden, Keau, Lilikalani, Amara, Brown, Kauila, Kaunamano, Wight, Nahale, Nahinu, Kauhane, Kalua, Aholo, Kaukau, Castle, Kaai, Thurston, Paehaole, Dole and Palohau, 33.

Noes—Nobles Kanoa and Parker. Representatives Kauai, Pahia and Baker, 5.

Rep. Brown moved that His Majesty's Ministers furnish in writing to this house the amount of debts now owed and unpaid by the Government irrespective of the Government bonds now in force and those bonds that may have become due and are unpaid, and to furnish the names of the persons to whom due and the amount due such persons.

Rep. Thurston moved that the Minister of the Interior report to the house in writing the amount of road tax collected in each district for the last biennial period; the amount of such road tax expended in each district; the disposition made of the unexpended balance of road tax amounting to $38,131.82 remaining and unexpended on the 31st of March, 1884; the whereabouts of the unexpended balance of $67,376.17 of the road tax collected and unexpended during the last biennial period.

The mover said his object was to ascertain what had become of the road tax. The law stated that the money shall be expended in the district where it is collected and for no other purpose. In the Finance Minister's report it was shown that there was only about $9,000 in the treasury at the close of the period, while in the Appropriation Bill had an item of $67,000 for unexpended road balance. His resolution was to find out where the money was that was represented by the difference between those two amounts.

Minister Gulick said it was impossible to have his report printed as early as had been desired, owing to the excess of work among all the printers. But the report of the Interior Department, when it appeared, would give full information on all the points embraced in the resolution.

Rep. Dole moved that the Minister of Foreign Affairs be requested to lay before the house, within four days, an account of the expenditure for guards and military volunteers for the last biennial period. Carried.

Rep. Nahale read a first time an act to make Kailua, in the collecting district Kealakekua, Hawaii, a port of entry.

Rep. Brown read a first time an act relating to Hawaiians leaving the country, given notice of yesterday.

Rep. Kaiua read a first time an act to provide for the descent of property to next of kin.

Rep. Castle moved that the Minister of Foreign Affairs be requested to lay before the Assembly on or before Monday, 17th inst., a detailed statement of the expenditure during the last biennial period of the amount of

Expenses of Foreign Missions	$19,875.12
Education of Hawaiian Youth in Foreign Countries	22,343.39
Office Expenses of Foreign Agents	3,862.92

Minister Gibson begged to inform the honorable member and Assembly that the Secretary of his department was already preparing a statement on this and all other heads of expenditure, which would be laid before the house at the earliest possible date.

The resolution passed.

Minister Neumann read a first time an act to amend sec. 21, chap. 20, laws of 1870, relating to license of carrying fowling pieces and other firearms.

Rep. Dole moved that the various bills relating to the tax laws before the house be referred to a select committee of five. Carried.

The President appointed the following as such committee: Reps. Dole, Hayselden, Noble Bishop, Reps. Aholo and Kaunamano.

Minister Gulick presented the house with printed copies of the act relating to commissioners of private ways and water rights.

Rep. Kauhane gave notice of an act to provide a board who shall have direction and supervision of Hawaiian youths receiving intsruction in foreign countries.

Rep. Brown moved a resolution asking for the Auditor-General's report.

The President, speaking for himself as Auditor-General, stated that his report had been prepared and was in the hands of the translator. He stated that a great many matters in the report arose after the books for the fiscal period had closed, involving some difficulty in having it ready sharply within the time prescribed by law.

Rep. Brown thereupon withdrew his resolution.

Minister Neumann gave notice of an act to amend sec. 12, chap. 51, laws of 1884, relating to the punishment for cruelty to animals. Also, of an act to provide for an official shorthand reporter.

At 11:45 the Assembly adjourned till 1 o'clock.

H. DAVIS. — J. K. WILDER

DAVIS & WILDER,

CARGOES FROM ISLAND PORTS.

Stmr C R Bishop—2,600 bags of sugar.

SHIPPING NOTES.

The steamer C R Bishop sails to-morrow, at noon, for Hamakua.

LOCAL & GENERAL NEWS.

A special meeting of the Honolulu Rifles will be held this evening.

WINSTON and Burk received 245 hogs by the Winkelman yesterday.

THE usual service at St. Andrew's Cathedral at 7 o'clock this evening.

A BLACKSMITH out of employment can find work by applying to Hackfeld.

YOUNG People's Prayer and Praise meeting at the Lyceum this evening at 7 o'clock.

U. S. MINISTER Merrill was again an attentive spectator of the Legislature this forenoon.

THE recently arrived Chinamen that were retained in quarantine have been released.

APAU, of Koloa, Kauai, and Kong Fui, of Honolulu, have each made an assignment of their property, for the benefit of their creditors.

THE skating race at Yosemite Rink last night, between T. H. Lewis, of the Triumph, and M. Hartman, of Honolulu, was won by the former.

A GAME of base-ball—Benedict vs. Hawaii—will be played at Makiki to-morrow afternoon. Dodd's bus leaves for the grounds at 3 o'clock.

THE schooner Malolo returned empty last evening, being unable to reach Kaiwilahilahi on account of rough weather and her sails being split.

THE party on the British flagship Triumph, Rear Admiral Sir Michael Culme Seymour, yesterday afternoon, was largely attended by people from the shore.

PRINCESS Poomaikalani, Governess of Hawaii, celebrated the birthday of Prince Edward Keliiahonui, now at school in California, by a grand luau at the palace yesterday.

"THE Sabbath and the change from the seventh to the first day of the week" is the subject which the Rev. E. C. Oggel will discuss at the Lyceum next Sunday evening.

MR. Sachs, of the popular Millinery House, Fort street, "continues to the front," with a new line of dress goods just opened, at unusually low prices, as will be seen by reference to his new advertisement to-morrow.

THANKS to Messrs. Wolfe & Co. for a parcel of some of the finest grapes we have ever seen anywhere. They were grown at Mr. Wolfe's residence on the plains, and he has more of the same kind on sale at his store on Hotel street.

AT the Police Court this morning Ah Chung, charged with importing opium per S. S. City of Rio de Janeiro, pleaded guilty, and was remanded for sentence to the 15th inst. Three Chinese, up for perjury, were remanded for trial to the 17th inst.

MR. L. J. Levey holds two sales to-morrow, one at 10 o'clock A. M., the other at 12 noon, both at his salesroom, Queen street. At the first, being his regular cash sale, dry goods, jewelry, a sloop, &c., will be offered. The second, a special sale, will include horses, a buggy, and a coral building on Hotel street, known as the International Hotel.

WE are glad to welcome back by the Mary Winkelman, which arrived yesterday, Mr. John Magoon, who has been absent on the Coast for several months. He is so much improved in health and has grown so stout that he looks almost another man. He says the short season of absolute rest has spoilt him, but we don't believe it, and predict that ere long he will be at work again as hard as ever.

THE prize mug for the six-oared senior race, won by the Poomaikelani crew, of the Iolani Club, in the regatta of Nov. 16, 1885, and the prize cup for the junior six-oared race, won by the Kaiulani Club in the same regatta, were made in New York at the cost of $225, and arrived here by the Zealandia a few days ago. These prizes have been engraved by Messrs. Spear & Pfeiffer and are on view in their show window.

THIS afternoon the Legislature is in committee of the whole on the Appropriation Bill, Hon. A. S. Cleghorn in the chair. The items of the Foreign and Interior Departments were, on motion of Mr. Thurston, postponed till the reports of the Ministers are received. Under the Finance Department, Mr. Dole moved to strike out the salary of Auditor-General, $10,000, supporting his motion in a speech, in which he alleged that the country received no benefit whatever from the office. The motion was lost by a rising vote of 11 to 15.

BUSINESS ITEMS.

PICTURE Frames & Cornices made to order, old Frames repaired, regilded, etc. King Bros.' Art store. 328 6t.

ANY person having business with the Hawaiian Chinese News Co., will please call on Mr. Ho Fon, at Tai Wo Co., shoe makers, 86 Nuuanu street. 72 2t.

HAWAIIAN LIME.

LAHAINA, May 11, 1886.

MESSRS. ALLEN & ROBINSON, Honolulu,

DEAR SIRS:—In reply to your favor of last week I beg to state that we tested lately both the Hawaiian and the California Lime in our Sugar Mill and I am decidedly of the opinion that the Hawaiian Lime stands higher in every respect for the reason that it is much stronger, thus causing a considerable saving. It furthermore does not coat our pipes and drum so much as the California Lime and should therefore be used in every Sugar Mill. I remain, dear sirs, yours respectfully,

JAS. CAMPBELL.

The Hawaiian Lime has to be slacked in hot juice in order to use it to advantage.

MOONLIGHT CONCERT.

The Royal Hawaiian Band will play this evening at Emma Square, beginning at 7:30. Following is the programme:—

PART I.

Overture—Frolicsome Student....Suppe
Waltz—Laura.....Millocker
Cornet Polka—Caibarien.....Michiels
Selection—Faust.....Gounod
Pili Aoao.

PART II.

Medley—Christy Minstrels.....Riviere
Lancers—The Mikado.....Sullivan
Waltz—The Mikado.....Sullivan
Echo Piece—Ka Hea a Hiku.....Berger
God Save the Queen. Hawaii Ponoi.

REMEMBER.

THE second and last of Professor Parker's recitals, for the benefit of the Library and Reading Room, will be given this evening, at the Y. M. C. A. Hall. The programme will be varied, and the skillful manner in which the first programme was announced is sufficient assurance that the second will be satisfactory. As to the quality of the entertainment that may be expected, those who had the pleasure of attending the former one are more than satisfied that a rare treat awaits their presence this evening. If having made a splendid hit on his first appearance is worth anything, the professor should have a crowded house at the second. The recitals commence at 8 o'clock. From previous experience of the spirit and culture of the citizens, we predict a large audience, and a respectable addition to the Library funds from the event.

MYRTLE KITCHEN AND BALL.

The Myrtle Boat Club's New England kitchen and ball at Central Park last night was a brilliant success. The attendance was large and chiefly consisted of young people. The hall was magnificently decorated. Strings of variegated lanterns ran the length of the building, on both sides and in the center. Palm leaves, ferns, and evergreen, intermingled with flags, were in gorgeous profusion. The four-oared boat, Alf. Rogers, with a photograph of the boys, and the trophies won, were on view. The kitchen at the further end of the hall was separated from the ball room by two large flags. Numerous tables with fragrant flowers, a brick hearth-stone, a mantle piece containing an old fashioned match-box and candlestick, and lanterns, flags and pretty girls composed the scene of the New England kitchen. Dancing began soon after 8 o'clock to the euphonious strains of the Hawaiian Band, and was kept up with zest until after midnight. Dainty refreshments were served throughout the evening by the lady friends of the club. The committee of arrangements, W. C. King, C. J. McCarthy, J. L. Torbert Alex. Robertson and G. K. Wilder, are to be congratulated on their efficient management. The affair was very informal, and no doubt all were well satisfied with the evening's entertainment.

ENTERTAINMENT.

A reception was given last evening, by the members and friends of the Y. M. C. A. to the crew of H. B. M. S. Flag-ship Triumph. The affair was conducted by Mr. P. C. Jones, acting chairman of the Entertainment Committee, in his usual happy manner. Mr. T. H. Davies delivered a witty and effective opening address. This was followed by a duet, "Dog and Cat," by Hon. C. H. Dickey and Miss Atherton, who were loudly encored and responded with the "Gipsy Countess." Mrs. W. L. Hopper recited "Jenny McNeil's Ride," a soul-stirring incident of the American Revolutionary War. The story was given with fine elocutionary grace and power. Hon. S. B. Dole next came forward and delivered an able ten-minutes address. A trio, "The Bells of St. Michael's Tower," by the Misses Von Holt and Mr. T. R. Walker, with piano accompaniment by Mrs. Walker, was heard with rapt attention and received deservedly loud and long applause. A song, by Mr. Theo. H. Davies, "The Yeoman's Wedding Song," followed, and was sung with that gentleman's usual ability. General Secretary Fuller came forward with one of his condensed *multum in parvo* speeches, which, like all similar efforts of the "tall man" clinched a moral in the peroration. The Misses Von Holt with Messrs. May and Walker gave "May-day" with piano accompaniment by Mrs. Walker. This number was admirably rendered.

Part second of the programme was taken up by the crew. Wm. Newel, quarter-master, recited "Auld Glaiscae on the Clyde," being a parody of "Bingen on the Rhine." The piece was given with due dialectic effect, and was loudly cheered. Cris. Parnell, 2nd class petty officer, sang "Sweet Violets" in capital style, chorused by the crew, and in answer to an encore, gave "Down by the River Side." Richard Oram, leading seaman, sang the "Charge at Balaklava," with chorus by the crew. This song in eulogy of "Cardigan the fearless" and the "Noble Six Hundred" was sung with inspiring effect. A chorus was given by eleven of the crew, one taking the piano, "We've sighted the Golden Gate" from Sankey's Christian Choir, and loudly encored, in response to which the hymn "Christ receiveth sinful men" was sung by the same party. Mr. Jones announced at the close that he was pleased to be able to say that those were all blue-ribbon men.

Mr. Davies called for three cheers "for our friends of all nations," for their hospitality and kindness on this, as on previous occasions, a call which was answered with a vim by every seaman present, after which "God Save the Queen" was sung by the crew.

The third part of the programme consisted of a liberal collation of ice cream and cake. The whole affair was unanimously voted a Triumphant success.

HE OUGHT TO HAVE A PENSION.

"I don't see upon what grounds you can secure a pension. You were not in the army during the war."

"I know, but I was in the Home Guards."

"Were you wounded or disabled?"

"No; but I first saw the woman who is now my wife while we were on parade. Since then I've had nothing but trouble, and think the Government ought to give me a pension."—[Philadelphia Chronicle Herald.

INNOCUOUS DESUETUDE.

The expression "innocuous desuetude," that appeared in President Cleveland's message to the Senate regarding removals from office, has become a popular phrase here.

In a dry and dusty argument before the Supreme Court a lawyer was citing a lot of authorities, when the opposing lawyer kindly suggested another which, he said might not be accepted because it had fallen into "Innocuous desuetude." The solemn Justices laughed until the folds of their gowns shook.

In the Senate Mr. Plumb was trying to beat the Blair bill by showing that a United States school history he held in his hand was written for Southern children from a Confederate point of view. The book was published fifteen years ago and he had no evidence that it was now in use. "Oh," said Mr. Edmunds, dryly, "probably it is in innocuous desuetude."

Everybody wonders where the President got the expression. It is not his own, nor is it Mr. Garland's. Opinion is devided as to whether Bayard or Lamar is the inventor, and slight odds are offered on the Mississippian.—[Washington Correspondence New York Sun.

There will be a Meeting of Lodge Le Progres De l'Oceanie, No. 124, F. & A. M., on THIS FRIDAY EVENING, at 7:30 o'clock. 3rd Degree. Members of Hawaiian Lodge No. 21 and visiting Brothers in good standing are cordially invited. By order of the W M. (1t) E. KISTLER, Sec'y.

Admin'trator's SALE.

By order of L. A. Thurston and Mrs. H. G Alexander, administrator and administratrix of the Estate of C. H. Alexander, deceased acting under order of sale of the Supreme Court, I will sell at public auction, at my Salesroom in Honolulu, on

MONDAY, May 24, 1886,

At 12 o'clock, noon, all of that certain property known as the

The Haleakala Ranch

situate in Makawao and Kula, Maui, consisting of the lands of

KAJIALINUI, containing 19,838 acres,
PULEHUNUI manka, containing 11,550 acres,
AAPUEO 1 and 2, containing 683 acres,

Total, 32,071 acres, more or less,

The Lands are all in fee simple, and title is perfect.

The Ranch Stock

—— CONSISTS OF ——

600 head of Cattle, more or less,

4,500 head of Sheep, more or less,

85 Horses, more or less,

A portion of the land is wooded, supplying an abundance of firewood

A portion of the land not at present necessary for carrying on the ranch is rented out, bringing in an annual rental of $650.

The lands extend from Maalaea Bay, including fishing right, to the top of Haleakala, and are bounded on one side by the Von Tempsky and Goodness ranches, and on the other side by Spreckelsville, W. H. Bailey's ranch, the East Maui Stock Company's ranch (Brewer's) and Haiku-uka.

The soil is in great part rich and fertile, and the pasture for stock excellent.

The land and stock will be sold as a whole, being put up at an

Upset Bid of $50,000,

Terms are: $25,000 cash, the balance to be paid in equal installments in 1, 2, 3, 4 and 5 years, secured by first mortgage upon the premises sold, and improvements hereafter placed thereon. Interest at the rate of 8 per cent. per annum, free of taxes, payable semi-annually. Principal and interest payable in United States gold coin. Deeds at expense of purchaser.

J. LYONS, Auct'r.

☞ Maps of the land can be seen, and full particulars obtained at the office of L. A. THURSTON, 38 Merchant street. 321

Valuable

REAL ESTATE ON MAUI.

By order of Mr. W. H Cornwell, I will sell, at public auction,

On MONDAY, May 24th,

At 12 o'clock, noon, for account of Estate of Henry Cornwell, deceased, that certain tract of land known as PULEHUNUI MAKAI, adjoining Pulehunui Manka, belonging to the Haleakala Ranch, estate of C. H. Alexander, deceased. This property is bounded on the west by the Hawaiian Commercial Company's cane fields, and extending from the Wailuku commons to Maalaea Bay, containing over 1,500 acres of the finest sugar and grazing lands on the Island of Maui. On the side adjoining the cane fields a new wire fence has recently been built.

TERMS OF SALE—One-third cash; balance at 6 and 12 months, at 8 percent. A map of the property can be seen at our office.

ALDEN FRUIT & TARO CO.

Poi, Mush, Hot Cakes, Muffins, etc.

The Flour we are at present supplying is far superior to any previously offered, and can be made into

AN UNLIMITED NUMBER OF PALATABLE DISHES

at less expense than any other farinaceous preparations.

Highly recommended by physicians as an invaluable diet for persons suffering from disordered stomach or bowels, as well as a nutritious food for the healthy.

For Sale by all Grocers.

DIRECTIONS FOR MAKING POI.—Take the desired amount of flour and mix very thin with cold water, being sure there are no lumps. Confine this in a bag or cloth and place in a kettle of boiling water, and let it continue to boil 1½ to 2½ hours, according to quantity used, care being taken to place a piece of perforated tin at the bottom of the kettle so as to prevent the cloth from burning. When done (while warm) stir with a stout spoon, adding a little water until the whole is well mixed. Let this stand from five to six hours. Then add water in small quantities, mixing thoroughly and kneading until the desired consistency is obtained. Owing to its purity it takes from three to four days to become acid or sour. [313 3m

FRIDAY, MAY 14, 1886.

MICRONESIA.

JOURNAL LETTER FROM REV. E. W. LOGAN, OCTOBER 2, 1885, TO MARCH 8, 1886, EX MORNING STAR.

December 7th.—We went last week to Utet, about 12 miles west, where Emelios, from Ponape, labored 18 months, and died. A small church had been gathered, but all have since fallen into sin. There is a good church building which they keep in repair and keep up regular services but as none of them can read of course their services are but a going over and over the same things. Their singing brought a broad smile over the faces of our scholars who went with us.

The church is built on a beautiful site, the summit of a gentle ridge sloping down on both sides to the water, bright green grass all about and shaded by cocoanut and breadfruit trees. If one could only multiply himself by one hundred he could still find plenty of most promising work in this field. We met at Utet people from two other places who wanted teachers. We were struck by the bright, intelligent faces of the young men. It would be such a promising field for a good man there at Utet. I hope we shall succeed in getting some of them to come to our shool here and thus fit them to go back and do something for their people until a teacher can be supplied them.

We had a fair wind to go, but had to beat coming back, so that we were in all nearly nine hours in the boat, getting home about half-past 8 P. M.

To-day a chief has been here from the Island of Toloas. He came last Friday while we were at Utet and finding us not at home came back to-day. He has abandoned heathenism, observes the Sabbath and holds such meetings as they know how to conduct. He says he is tired of war and wants to be a Christian. I promise to go to see them and invite them to come to see us. He says he will begin upon a church if only someone will help him to know how to frame the timbers together. This seems a very encouraging incident.

Our church was crowded yesterday and we feel encouraged to think that the good seed is taking root. We so long to see some thoroughly converted ones to make the foundation for a church. May God send the Holy Spirit into their hearts.

To-day we held our monthly concert. The church was filled and the contributions from the natives were about 250 cocoanuts.

It is troubling us somewhat now to feed our family of boys. The taro on the place is not sufficient to do much for them and the "mar" or preserved breadfruit is all gone. I have tried to buy some but thus far without success.

January 14, 1886.—Captain Bray said he would try to eat New Year's dinner with us, but he has not yet arrived.

Our boy, Esaiam, has run away to the heathen. He and Joni had slept in our house until two weeks ago. He had built a house for himself, but let Mr. Worth live in it until Mr. Worth finished his own. The second night that they slept in their own house, Esaiam ran away. He had complained of being sick the day before, and took the time when the others were at the evening meeting to carry away his clothes, and would not let them have a light, saying it hurt his head. The next morning a young woman, one of our scholars, was missing, and her friends were hunting for her. Arthur went to see how Esaiam was and could not find him. Then the truth flashed upon us like a shock. It was the hardest blow we had received. We had so trusted him, and put him forward, and we had such high hopes of his future. The deserted husband and his friends were furious, and threatened to kill Esaiam if they could find him. He took refuge at Metitu where he had been preaching a few Sundays, and where he has relatives. These protect him, so thus far he is kept from harm. We, of course, knew from past experience that some will fall, but the blow is felt none the less keenly when it comes. We much feared the influence the event might have upon the natives generally, but thus far there has been no special evil results. We shall not, however, hear the last of it for many years.

We closed our school the day before Christmas, a 12 weeks term. The interest was good until the close. Mr. Worth was able to take the largest share of the responsibility toward the close. I only spending two hours in school. We had a pleasant little celebration Christmas day. Different ones among the scholars, read from their New Testament, the account of the birth of Jesus: there were four short addresses on the life and work of the Saviour, by two of the scholars, Mr. Worth and myself; the whole ending with a little feast we provided for the school.

New Year's day, we were startled by a report that the Morning Star was in sight, but it proved to be a little schooner of only 12 tons. The captain and owner is a German-American, who has come to try to work up trade. He has established himself near us, and plans to run about the lagoon, and to the neighboring islands, making this his headquarters. His success seems somewhat problematical. He seems to want to do right, and manifests a very kindly spirit toward us. He brought us a bag of papers and magazines, our mail down to the beginning of last August. Most of the letters had been sent from Ponape, by a vessel bound to Yap, to call here on her return. These will probably not get here until some time next month.

(To be continued.)

WANTED,

A SITUATION in a Law or other office, by a person conversant with the practice of law, the drawing and execution of all kinds of legal instruments and Notarial duties; also, with Fire Insurance. Great Excitement in Wales about a Marvellous Cure.

Living Six Years Without Going to Bed.

MR. EDITOR:—While spending a few days at the pleasant seaside town of Aberystwith, Cardiganshire, Wales, I heard related what seemed to me either a fabulous story or a marvellous cure.

The story was that a poor sufferer who had not been able to lie down in bed for six long years, given up to die by all the Doctors, had been speedily cured by some Patent Medicine. It was related with the more implicit confidence from the circumstance, as was said, that the Vicar of Llanrystyd was familiar with the facts, and could vouch for the truth of the report.

Having a little curiosity to know how such stories grow in travelling, I took the liberty while at the village of Llanrystyd to call upon the Vicar, the Rev. T. Evans, and to enquire about this wonderful cure. Though a total stranger to him, both he and his wife most graciously entertained me in a half hour's conversation, principally touching the case of Mr. Pugh, in which they seemed to take a deep and sympathetic interest, having been familiar with his sufferings, and now rejoiced in what seemed to them a most remarkable cure.

The Vicar remarked that he presumed his name had been connected with the report from his having mentioned the case to Mr. John Thomas, a chemist of Llanon. He said Mr. Pugh was formerly a resident of their parish, but was now living in the parish of Llanddeinol.

He strongly vouched Mr. Wm. Pugh's character as a respectable farmer and worthy of credit. I left the venerable Vicar with a livelier sense of the happy relation of a pastor and people, feeling that he was one who truly sympathised with all who are afflicted in mind, body, or estate.

On my return to Aberystwith, I was impressed with a desire to see Mr. Pugh, whose reputation stood so high. His farm is called Pancom-Mawr, signifying "above the dingle," situated near the summit of a smooth round hill, overlooking a beautiful valley in which is situated the lovely ivymantled Church of Llanddeinol. I found Mr. Pugh, apparently about 40 years old, of medium height, rather slight, with a pleasant and intelligent face. I told him I had heard of his great affliction and of his remarkable and almost miraculous relief, and that I had come to learn from his own lips, what there was of truth in the reports.

Mr. Pugh remarked that his neighbors had taken a kindly and sympathetic interest in his case for many years, but of late their interest had been greatly awakened by a happy change in his condition. What you report as having heard abroad, said he, is substantially true, with one exception. I never understood that my case was ever given up as hopeless by any Physician. I have been treated by several Doctors hereabouts, as good as any in Wales, but unfortunately no prescription of theirs ever brought the desired relief.

Fifteen years ago, he said, I first became conscious of a sour and deranged stomach and loss of appetite, which the Doctors told me was Dyspepsia. What food I could hold in my stomach seemed to do me no good and was often thrown up with painful retchings. This was followed after a time with a hoarseness and a raw soreness of the throat which the Doctors called bronchitis, and I was treated for that, but with little success. Then came shortness of breath and a sense of suffocation, especially nights, with clammy sweat, and I would have to get out of bed and sometimes open a door or window in winter weather to fill my lungs with the cold air.

About six years ago I became so bad that I could not sleep in bed, but had to take my unquiet rest and dreamy sleep sitting in an armchair. My affliction seemed to be working downward into my bowels as well as upwards into my lungs and throat. In the violent coughing spasms which grew more frequent, my abdomen would expand and collapse and at times it would seem that I should suffocate. All this time I was reduced in strength so that I could perform no hard labor and my spirits were consequently much depressed.

Early in this last spring I had a still more severe spasmodic attack, and my family and neighbors became alarmed, believing that certainly I would not survive, when a neighbor, who had some knowledge, or had heard of the medicine, sent to Aberystwith by the driver of the Omnibus Post, some seven miles distant, and fetched a bottle of Mother Seigel's Curative Syrup.

This medicine they administered to me according to the directions, when to their surprise and delight no less than my own, the spasm ceased. I became at ease, and my stomach was calmed. My bowels were moved as by a gentle cathartic, and I felt a sense of quiet comfort all through such as I had not before realized in many years. I could walk around the house and breathe comfortably in a few hours after I had taken the medicine. I have continued to take the medicine daily now for something over two months, and I can lie down and sleep sweetly at nights and have not since had a recurrence of those terrible spasms and sweatings. I have been so long broken down and reduced in my whole system that I have not tried to perform any very hard outdoor labor, deeming it best to be prudent lest by over-exertion I may do myself injury before my strength is fully restored. I feel that my stomach and bowels have been and are being thoroughly renovated and renewed by the medicine. In fact I feel like a new man.

I have been much congratulated by my neighbors, especially by the good Vicar of Llanrystyd, who with his sympathetic wife have come three miles to shed tears of joy on my recovery.

I bade Mr. Pugh good-bye, happy that even one at least among thousands had found a remedy for an aggravating disease.

Believing this remarkable case of Dyspepsia Asthma should be known to the public, I beg to submit the above facts as they are related to me.
