Spanish Immigrants All Appear To Be Well Contented

ONLY ONE SLIGHT DISTURBANCE ON WHOLE TRIP

The Heliopolis brought her 2211 immigrants in this morning exactly on schedule time, docking at 7 o'clock and commencing to disembark the passengers at 7:40. In two hours and ten minutes every passenger was ashore and the larger part had been passed by the immigration and quarantine officials and had been taken immediately to the immigration station.

Wherever there was a case of sickness in a family, the entire family was detained in order that the child might not be separated from parents or wife from husband. There were remarkably few cases of trachoma, as compared with those to be found in a shipment of Japanese immigrants and the quarantine officers were very much pleased at the showing made.

ONE OF HELIOPOLIS FAMILIES

In regard to the distribution of the immigrants, Superintendent Walter Dillingham stated that there would be nothing done about that part of the work till Monday and everything now is centered on government inspection and making the families feel comfortable. He stated that there had not been the slightest hitch of any kind in the work during the morning and that there was no prospect of any. He said that there had been no complaints made and that everyone seemed to be very well satisfied.

From news which could be picked up from the immigrants through an interpreter there seemed to be a general spirit of satisfaction, and it appeared that only twice on the entire voyage was there any complaint. This occurred in relation to bread which was spoiled by the baker. The matter was remedied at once, but according to one man there were a couple of ring-leaders among the passengers who tried to stir up trouble. This was quickly stopped.

A Bulletin reporter saw specimens of the bread which was served and it was as good as is served at any restaurant in Honolulu. The ship's biscuit, which was served, was also of unusual

HOUSE

57th Day—Forenoon Session
The long-expected row over the Nuuanu dam broke loose this morning and it created more fuss and commotion than would be caused if the dam itself were to break.

Perfidious oratory flowed in a torrent, rushing, relentless, seemingly never ending stream. The House was overwhelmed with it, drowned, buried under a torrent of words. They eddied, and swirled and surged in a muddy flood that would not be dammed. But the dam was, and so was the Governor and the Superintendent of Public Works, and Contractor Whitehouse, even the Dam Committee itself.

The Value Of Confidence

In no line of business is the buyer's confidence of more importance than in the selling of clothing.

The dealer who attempts to convince the buyer that his goods are the best, and that his place is the place where the best could be obtained, must see that the facts conform to his statements, and that his goods are in every way up to the standard. He had better never try to sell to a man than to mislead him or to exaggerate; for the customer will quickly discover such practice of misrepresenting merchandise.

There is never danger of a protest and always a certainty of full value received when a coat or suit is recognized as

HOUSE IS DROWNED (Continued from Page 1) as violently as before when the House convenes Monday morning. The Health Committee returned a rather mild report on the Board of Health resolution refusing to allow Wallach to go to Motokai. It characterized the action as unfair and not in keeping with the spirit of moderation that marked the action of the House. It looks, the committee said, as if the doctors were actuated by jealousy, and although unable to cure leprosy themselves, were afraid to let anybody else attempt it. The report was adopted.

RAWLINS' LEGAL EYE Hughes got his chance to talk at last. He said that he had not heard one argument why the report of the committee should be tabled. "Is there a man who does not know the intolerable condition of affairs that exists at the Nuuanu dam; is there a man who does not know that the people's money has been wasted? The dam represents a waste of money; it represents a waste of confidence, but it does not represent any one thing that is in the interests of the people. "The Nuuanu dam is like an illegal female child—it has on it the bar sinister. It was conceived in haste; it was born in arrogance. "The motion to table the reports was lost. "The motion to reconsider the action on the Appropriation Bill was lost. "Bill moved to defer further consideration until Monday. He said there might be a sprinkle of rain over night that would start a crop of new ideas in the heads of the members. "His motion prevailed. LIQUOR BILL REPORT Rawlins presented the report of the Conference Committee on Senate Bill 91, the Liquor Bill, which was adopted.

The entire Rivers and Harbors Committee was invited, but only six members will be able to join the party. "To replace some other declinations, we have invited Messrs. Boutell, Underwood, and Needham, of the Ways and Means Committee, but none of them has answered as yet. Other declinations have also made it possible to invite Mr. Stevens, who is on

WILL STOP AT LAYSAN The gunboat Annapolis, Capt. Clark commanding, will stop at Laysan Island on her way back from Midway. This has been done at the request of Hackfeld & Co. The attention of the Secretary of the Navy was called to the fact that the schooner Lavinia, which should have made a trip to Laysan in February, had been wrecked at Waikiki and that no news had been heard from Capt. Max Schlemmer. The Secretary ordered that the Annapolis call at Laysan and if necessary leave some supplies.

SPANISH IMMIGRANTS (Continued from Page 1) then the fireworks were set off, while the immigrants cheered. Father Ramon, a Catholic priest, was one of the party and when interviewed through an interpreter, said: "There were some few complaints on the way over but in general the greatest satisfaction prevailed. The officers of the ship were very kind to us all and did everything that they could for us. We are glad to get here and I think that we will all like it very much indeed. I expect to stay here and come over on my own accord, not being sent by the Church. I have my parents and brother and sister with me." Before joining the Church Father Ramon was a soldier in the Spanish army and served through the last revolution in Cuba. He was sent home on sick leave before the war with America commenced. He is a rather bright looking man and has the old-fashioned courtesy which is attributed to the people of his race.

Partners of the Tide

By JOE LINCOLN

Author of "CAP'N ERI," "CAPE COD BALLADS," Etc.

If you read "Cap'n Eri" you will want to read "Partners of the Tide"; if you did not read "Cap'n Eri" you ought to read "Partners of the Tide." But whether you begin to read from motives of duty or pleasure, you cannot escape the pleasure in store for you.

Mr. Lincoln seems to have an inexhaustible fund of quaint Yankee humor with the twang of the salt sea in it. His new story not only sparkles with this indigenous fun but throbs with an undertone of tenderness, so that you are in doubt whether tears or smiles are the proper tribute to pay and you pay both.—Nashville American.

WE ARE GOING TO PRINT "PARTNERS OF THE TIDE" IN THIS PAPER. LOOK FOR IT!

"Partners of the Tide" appears so real, "reads so natural" that you feel the mantle of Deфоe must have fallen on the author, or else he has sketched his quaint characters from life. Perhaps both are partly true. A brilliant New York woman, who has summered on the Maine coast for years, has a notebook full of sketches of these people whom she intends to put in a book after they are dead. It need hardly be said that she is not a professional writer or she would be less Quixotic. Joe Lincoln has put them in his story and lives to tell the tale, though he has doubtless made composite characters from many individual types.

How real "that Nickerson boy" appears from the time the reader first meets him buying a "turnover" in the dingy little station! And the meeting between Captain Titcomb and Bradley Nickerson, who become "Partners of the Tide." Hear the Captain:

"Nickerson, hey? That settles it; you're a Cape Coddler. Minute I meet anybody named Nickerson I know they've got the same kind of sand in their boots that I have."

Again, those two delightful old maids, "Frissy" and "Tempy", and the "dog girl," as the old maids called her, whom Bradley met at school and who afterward became his sweetheart, the attachment developing into a love romance, in which Bradley finds a dangerous and unscrupulous rival.

Another Los Angeles Excursion To Hawaii Is Planned For Next Month

In all probability there will be another excursion of Los Angeles people to leave San Pedro next month for these islands on one of the Oceanic steamships, probably the Ventura. The excursion will start from San Francisco with a few passengers, proceed to San Pedro, where a large number of Los Angeles people will be picked up, and then the trip will be made to these islands following, in all probability, the itinerary of the S. S. Ohio. Lloyd Childs, the representative of the Promotion Committee, with headquarters in Los Angeles, is working the matter up and is almost certain of success. Such is the report brought back from Los Angeles by Harry H. Tomlins, who returned this morning on the Alameda, after a trip up on the Ohio with the Los Angeles excursionists.

"Mr. Childs told me last week," said Mr. Tomlins this morning, "that he was almost sure of success. He had just then returned from a trip to San Francisco, where he had got into communication with the Oceanic people and also with a number of tourist bureaus. There will in all probability be about 250 passengers on the steamer, the largest part to come from the Southern part of the State. It is thought at present that the date of sailing will be about May 30, possibly a little earlier.

"During the summer, if a steamer can be secured, there will also be an excursion from San Pedro with school teachers on board. The National Educational Association is to meet this summer in Los Angeles and there will be over 30,000 teachers in the city. Mr. Childs is confident that he will be able to get one shipload of teachers interested in the islands and he may possibly secure two. His facilities for reaching them are of the best, as his headquarters are in the Chamber of Commerce building in Los Angeles and next to him the headquarters of the N. E. A. are situated. He will not be troubled by having to look them up, but they come, one might say, directly to him.

"The last excursion did not do the good for the islands in an advertising way as was hoped for on account of the 'knocking' done by the excursionists about the trip. When asked regarding the islands they would reply, 'Oh, we had a delightful time on the islands, but, oh, the trip getting there,' and the party talked to would leave with an impression regarding the trip that it was not the pleasantest thing in the world.

"Upon the return of the steamer the Chamber of Commerce appointed a committee to carry on the work of getting the new steamship line under way and for a few days the work was carried on progressively, if the newspaper accounts of what was being done were to be relied upon.

Then Secretary Wiggins left for the Jamestown Exposition and the matter seemed to die out, and when it left nothing whatever was heard of the matter. The big interests, Harriman, Spreckels and Gould, are said to be interested in the deal and nothing can definitely be determined. The Los Angeles people would like to see the line put through but whether they will ever see it done is a mystery. San Pedro is nearly 20 minutes further east than San Francisco and furnishes a more direct route through to New York, and the Los Angeles people use that fact as an argument for the establishing of a new line direct.

"The purser of the S. S. Ohio turned out to be the secretary of the Northern Pacific Steamship Company, to which the Ohio belonged. He made the trip to see what was to be done in the way of freight, and what he determined he would not tell. The Northern Steamship Company at present has a line down the coast from Seattle to San Pedro and R. H. Herron is the authority for the statement that that company would like to put on a line of steamers from San Pedro to the islands. What was reported to his company by Purser Czont could not be learned by the Los Angeles people interested in the matter.

"In San Diego there is a feeling that Spreckels will put a line from

that port through to the islands as soon as his line east from that city is completed. They are at work on that line at present and there is no doubt but that it will go through. For years Gould has been trying to get a line of through steamers on the Pacific, but has been balked so far by Harriman. The San Diego people claim now that Spreckels is working in conjunction with Gould and that a line to the Orient will be established. Another report says that Harriman has again shut Gould out by getting in with Spreckels. The Los Angeles papers claimed a short time ago that the Salt Lake road was bonded to secure the Eastern line from San Diego. If this is true it looks as if Harriman was getting control of the line out of San Diego, for it is a known fact that he controls the Salt Lake road.

"Another fact that causes one to doubt if the line of steamers out of San Pedro will be put on by the Los Angeles capitalists, as is now talked of, is that one of the men most interested is J. Ross Clark, the vice president of the Salt Lake road. In that position he is but a tool of Harriman and it is indeed doubtful if Harriman wants such a line established.

"In Los Angeles one hears all kinds of rumors, but when these rumors are run down little truth is to be found. The Los Angeles people, though, are

good gamblers, and if they think there is a chance of a line making good they will try it. That is what is taught by their efforts in the past along other lines.

"H. E. Huntington, the street railway magnate of Los Angeles, and a man who has done as much for the development of Southern California as any other, said to me: 'I would like to see that line go through. It would be a great thing for Southern California and I will do everything in my power to help it along.' When a man like Huntington talks like that there is pretty certain to be something done with the line before they are through with it.

"The capitalists who are represented by R. H. Herron are sending a man east at the end of this month to look at certain steamers with a view of either chartering or purchasing them. Herron, however, would not commit himself regarding the matter.

"The tourist season this year in Southern California has fallen off about one-third and that has probably hurt Hawaii. An open winter in the East, the earthquake of last year and the low rates which are to be given next month for the Shriners are a few of the reasons given for the shrinkage."

ELLEFORDS MADE GOOD LAST NIGHT

The opening performance of the Ellefords at the Orpheum last night received the hearty approval of the "first nighters," which places the stamp of success on all the productions to come during their several weeks' stay here.

This city has been treated to shows of all kinds, drama, farces, minstrels, comedies and in fact everything that lives behind the footlights, but the El-

lefords' extravaganza last night tops them all. It is in a class by itself. It has been many a long day since the Honolulu public has enjoyed themselves as they did last night. The house was packed to the doors and even beyond.

There was not a dry moment during the entire three acts, and better still, there was no wait between acts. After the first drop of the curtain it was immediately rolled up again and a male soloist entertained while the setting for the next scene was going on. Between the second and third acts the Osborn children did stunts from the German and the Irish. They were repeatedly called back. Their act alone

is worth walking a long way to see. If the show last night is a criterion of others, it will be too bad for anyone who enjoys a good laugh, to miss one of the series.

The boys in the gallery certainly enjoyed themselves and incidentally furnished amusement for the rest of the audience during the filling-up of the house. If any gentleman came in at the main entrance and so far forgot himself as to keep his hat on his head (and there were quite a number) they were quickly reminded of the delinquency by a concerted yell from the gallery gods of "Take off your hat!" When the object of their solicitude obeyed the demand he was given a

rousing applause.

The Ellefords Company present "A Royal Reception" for the last time tonight. Next week will witness three popular bills, Monday and Tuesday is an American comedy-drama that created a furor in the East last season, the pretty heart story, "The American Girl." It gives the Osborn children a chance to show what they can do in clever child actors. They have two prominent parts and will delight young and old. The bill for Wednesday and Thursday is Mark Swan's breezy Western comedy, "That Girl from Texas," a play bub-

bling over with fun and laughter, and a clever heart story that will interest and please. The bill for Friday and Saturday is the story of New York and its environs, "New York by Day." The play is a most interesting melodrama and is too well known to our theatre goes to need extended praise. Seats are now on sale for the entire week at the box office.

A Talk with the Consumer

Competition among brewers is keen. Perhaps you've noticed it.

You may not know what's back of it. You have a right to know the facts.

We have decided to print them.

Some of the large brewers to reduce the cost of brewing use cheap materials.

In place of Barley, the very soul and essence of perfect beer, they use Corn, because it is cheap.

They further reduce the cost of production by not having ample storage facilities to properly age their beer.

The result is beer that has little else but "Purity" and "Sterilization" to recommend it. As a matter of fact, nearly all beer is pure and properly sterilized.

Budweiser

—The King of all Bottled Beers—

Budweiser is brewed from choicest Barley-Malt, the finest Hops, imported from the province of Saaz, in Bohemia, Yeast of special culture, and a small percentage of Rice.

It is fermented in glass-enameled vats. It is lagered (aged) from four to five months in glass-lined steel tanks.

In fact, is in glass from "Kettle to the Lip."

Our enormous storage capacity—600,000 barrels—enables us to age our beer to full maturity, which accounts for its healthfulness and delicious flavor.

We produce beer of such unquestioned superiority that discriminating consumers demand it.

It is for these reasons that Budweiser, although the highest in price, has a larger sale than all other bottled beers.

The dam is safe. Go ahead with the dam, but see to it that the Territory is protected from incompetence of engineers and contractors. The Territory has paid enough for the education of some one,—no one seems to know whom.

Labor leaders have talked back to Roosevelt and called him names. The center of attack, however, is from San Francisco, whose name will be somewhat of mud till it is purged of the grafting scandal and conspiracies among labor-men to kill off their own leaders.

So Henry Vida is said to be canvassing for laborers to go to the Coast. Henry may feel that Honolulu is not entitled to much consideration after having turned him down. But he should think again before taking up projects that will injure the prospects of his home-town.

Senator Hayseiden's personal campaign against a public school teacher has caused him to charge that favoritism has been shown in the appointment of the object of his disfavor. Let it go at that. The unprejudiced outsider can draw his own opinion of the foolish tempest in the Lahaina teapot.

HELIOPOLIS IMMIGRANTS.

Any person who gave a few moments to watching the immigrants land from the steamer Heliopolis and did not become favorably impressed with the men and women from Spain, must be either a severe critic or a natural-born crank.

Without making comparisons, the families arriving by the latest immigrant ship are of a character to stir a higher degree of enthusiasm for European immigration than has prevailed in some quarters. Judged from appearances on landing, the Spaniards were in better spirits than the guests from Los Angeles some weeks ago, and there is no question that, if properly treated, they will add relatively as much or more to the wealth and progress of the Territory. Money expended in bringing such people to the Territory is money well invested, provided they work out as acceptably as the first appearances give promise. Commissioner Stackeable seems to have been fully justified in his assertion that he has found the most satisfactory people yet encountered, and appearances are deceitful if this new community added to the population is of the knife-wielding variety.

Since the Molokai enthusiasm the local tendency is to go slow in making a decision on new arrivals. But in view of the great importance of European immigrants to Hawaii, any lot of 2,000 people coming off the ship in such good condition and so good-natured and apparently ready to work, is entitled to the benefit of the doubt supplemented by a determined effort to give them homes and a fair chance to make a living.

May the pioneer Spaniards of the Heliopolis make good in a manner to bring more of the same kind.

HARD TIMES FAR OFF.

New York is beginning to feel more cheerful after the furry verging on panic of a few weeks ago, flaying gone back to bed rock, a period of revival has begun with prospects opening up brighter than was expected during previous weeks of gloom.

A financial review, issued about the middle of April in New York, says:

One of the principal sources of relief has come in the easier condition of the money market, which is largely the result of the new Treasury policy and of recent liquidation, as well as the check imposed upon large speculative operations. The latter had locked up immense sums for months past. These have been diminished by the forced sales amongst rich holders, and the supply of funds has increased correspondingly. Still another influence which tends towards larger money supplies is the growing conservatism of bankers, who are much more inclined to discriminate against new enterprises, unless of the most meritorious sort, than they have been for several years.

Another very favorable development is the easier condition in the foreign money markets, as evidenced by the decline in the Bank of England rate to 4-1/2 per cent. This, of course, indicates a slackening up of the strain at European centers, and it also shows less fear of American demands upon Europe's stock of gold. The fact is Europe has been sending back our stocks at such a rate that exchange suddenly shifted from the gold-importing point to very nearly the gold-shipping point. This change in the tendency of foreign exchange has done us no particular harm; it has, in fact, benefited us indirectly by relieving European markets. Many of the unfavorable developments which may come to the surface during the current year have been pre-

PAUOA WATER IS ABSOLUTELY PURE

Alahea St., Honolulu, November 26, 1906.

Bishop Restarick, Honolulu.

Dear Sir:—Your inquiry as to the Pauoa water, which has always been a matter of great interest to me, because of its accessibility and absolute purity. The samples I took myself from the various springs at that time I kept corked up in gallon bottles for four months, and then when I opened them we found the water clear as when we bottled it; no taste, no odor, no sediment. We could not find this with any other than distilled water. The Pauoa springs are from the mountainous rains, which are filtered through some sand-bed on their return to the surface, as evinced by the fact that at their points of ebullition white sand is found emitted and carried there by the pressure of water. No doubt, some day this water will be of public utility.

Faithfully yours, GEORGE HERBERT.

SENATE IS AGAIN OUT

(Continued from Page 1.)

Smith said the oil ships were the worst offenders. They had at times filled the harbor with petroleum. It prevented swimming and the pursuit of other pleasures in the harbor and there was also considerable danger connected therewith.

Dowsett answered that the refuse from the oil ships was caused by leakage in the pipes, which could not be helped.

Woods moved to amend so that the bill would be operative at Kawahae. Lane's motion to table was lost.

Woods' amendment carried. Dowsett wanted Kahului included also. Lost.

The bill passed on a vote of 11 ayes and 4 noes.

H. B. 219, making deputy sheriffs' trust officers, and H. B. 240, providing for \$5 permits for hunting with firearms, passed third reading.

H. B. 235, providing for a sinking fund for the redemption or purchase of County bonds, passed second reading.

FRANCHISE FOR LAHAINA H. B. 238, providing for an electric franchise for Lahaina, passed second reading after a number of amendments had been inserted by Hayselden, which conformed with the Governor's ideas on such franchises, such as he expressed in his veto message on the Waikuku franchise bill.

H. B. 241, the leper suspect bill, passed second reading with a minor amendment.

COMMITTEE REPORTS

The Lands Committee reported on the petition of Wm. Keolani in regard to his homestead lot in Oloa, recommending that no legislative action be taken before the matter had been decided by the Supreme Court, where it is now pending.

RAILROAD COMMISSION

It also reported on S. B. 83, relating to the encouragement and building of public railroads on Kauai and Hawaii, and S. B. 84, revising the general railroad law. It recommended a commission to look into such matters and report at the next session. Adopted.

CLAIMS PASSED

The Lands Committee also reported on the House amendments to S. B. 103, providing for the payment of certain claims against the Territory. The Senate adopted the original amounts, concurring with the House.

LAND LAW COMMISSION

The Judiciary Committee reported in favor of the resolution appointing a land commission to examine the land laws. Deferred until Monday.

MSTICKERS' BILL

H. B. 196, encouraging the transportation of fresh fruit to the mainland, came up for second reading. McCarthy said the bill was Frank McSticker's. He wanted it passed for the benefit of his Kona small farmers.

COMMITTEE DISAGREES

The Lands Committee reported on S. B. 94, the general electric franchise bill, as being a creator of unfair monopolies.

Hayselden moved to indefinitely postpone the bill. Carried.

WALLACH UP

Lane introduced the following resolution:

Whereas, the Board of Health has decided to refuse the request of the Legislature to permit Mr. J. Lor Wallach to treat lepers at Kalihi; and

Whereas, it is the belief of the Senate that it is for the benefit of those afflicted with the disease of leprosy that said Wallach may be permitted to treat the lepers at Kalihi; and

Whereas, the Senate believes that the Board of Health has made a mistake in refusing the request of the Legislature.

Wherefore it is resolved, that the Senate hereby requests the Board of Health to reconsider its decision in the matter; and

It is further resolved that the Board of Health is hereby requested to allow the members of the Senate or other persons who are interested in the question to come and express their opinions on this important question, before said Board of Health.

And it is further resolved that the Clerk of the Senate is hereby ordered and directed to send a copy of this Resolution to the Board of Health.

This was adopted.

House Bill 215, making special appropriations from the loan fund, passed first reading.

The Lands Committee reported on H. B. 204, exempting irrigation companies from taxes for ten years. Passed second reading.

Hayselden reported for the Conference Committee on the liquor bill, recommending the adoption of the amendments made by the House with a few minor amendments. Deferred until Monday.

Books, Bookish People and Things

SAUL OF TARSUS—A NEW NOVEL BY ELIZABETH MILLER—AUTHOR OF "THE YOKE"

Readers of "The Yoke" have no doubt kept their eyes open for some title by the author of a story which has impressed them so much, and they will be glad to have their reward in this tale of the early Christians.

Miss Miller is a thorough student of her materials, never venturing upon unfamiliar ground, and she always deals conscientiously with her readers. Her scenes laid in Jerusalem, Damascus, Alexandria and Rome, have an antique and historical setting, and her characters many of them known to history, are not spoiled by a want of dramatic instinct in the writer.

Miss Miller was certainly brave to attempt to bring to life a character like Saul, to expose his intolerance and hardness; to give him to us with all his faults and, then, to expect us at this age to love him as we did when he had the glamor of centuries about him. The author's orthodoxy has led her into a treatment of Saul's conversion which will not appeal to many latter-day readers. If the literal correctness of the Biblical record be acknowledged by the intelligent reader, he will question the normality of Saul's mental condition at the moment of his illusion; he will lay the conversion to physical causes.

Although a novel is known to be fiction, all in it that relates to facts or incidents already recorded, or to life in any of its phases, must be true. We cannot enjoy the reading of a tale in which we are told that the hero floated through the air like a bird, and the average man will resent being told that Jonah lived in a whale or that the sun stood still.

However, this incident is only one weak link in the chain, and by some it will no doubt be considered realistic. Miss Miller says that she has not written a less "best book." "The Yoke" remains her best, but, in both stories, she gives evidence of a latency of promise.

And, unless I am much in error, she will write a book that will be as good as if "The Yoke" had been written by the author in the year 1920.

The second annual report of the Hawaiian Board of Commissioners of Agriculture and Forestry is published in the "Hawaiian Forester and Agriculturist" for December. It makes interesting reading. There is in this number an editorial reference to the cultivation of the roseola or roseole. Mr. Woods of Kealahou has made quite an extensive trial of the "fruit."

"River and Jungle" is the second in the "Foreign Adventure Series," by the over-popular author, Edward S. Ellis, which has just been published by The John C. Winston Company, Philadelphia. Mr. Ellis has managed to give us many thrilling situations, vivid adventures and terrifying episodes without unhealthy sensationalism. His well-known humor and high moral character show constantly, and parents are glad to place his works in the hands of their children. "River and Jungle" is placed in the interior of Siam, where Dudley Mason goes to join his missionary father. The journey through the jungle is full of many dangers. Crocodiles, tigers, snakes, etc., are to be overcome. Many times Dudley is saved from almost certain death by Nughwa, his guide, once a prize wrestler of Siam and now Christianized. It is a book no adventure-loving boy should miss. The book is beautifully illustrated with frontispiece in color. Cloth, 12mo, 335 pp. Price, \$1.00.

We are in receipt of two copies of "The Trans-Pacific Trade," a journal of "business, commerce and progress" published weekly in Honolulu by Mr. C. R. Buckland.

These numbers are very promising, being well edited, well printed on good paper, and seemingly well patronized by advertisers.

There is unquestionable need for such a publication, and it should not have to go a-juggling in a place where commerce and business enterprise generally play so important a part.

"The Good Health Clinic" published by the International Health League, Syracuse, N. Y., comes to our table in December dress. There are many good things in it. Dr. Koeler, editor, is a copy, 50c. a year.

A CASE OF BRONCHIAL CATARRH PROMPTLY RELIEVED BY PE-RU-NA

Bronchial Catarrh Unless Stopped Often Spreads To The Lungs, Causing Consumption

Mr. W.B. Walby

Mr. Walby, of Ontario, Canada, a Victim of Bronchial Catarrh, Reports Himself Completely Cured In Three Weeks.

MR. W. B. WALBY, The Grand Union, Ottawa, Ontario, Canada, writes:

"I have been taking Peruna for three weeks, and was truly surprised to find that it effected a complete cure. I had heard good reports of this medicine, but had never really known of its valuable qualities until I tried it for myself, and found it such a fine remedy that I feel like writing you this. You have no doubt hundreds of endorsements, but no one is more sincere nor pleased to endorse it than I am, because I have found it of such benefit to myself."

Catarrh of the bronchial tubes often very quickly becomes catarrh of the lungs. Catarrh of the lungs makes the patient an easy victim to the germs that cause tuberculosis. Sound lungs protect themselves against disease germs.

Peruna has acquired a lasting reputation in relieving catarrh of the throat, bronchial tubes and lungs. This prevents the tubercular bacilli from gaining any foothold in the lungs, and saves the patient from the inevitable result.

and Mrs. Frederic Klamp. Fourteen covers were laid at a large round table with centerpiece and decorations of Jacquemont roses, and at each plate there was a corsage of roses awaiting ownership. Exquisite silver and glass, as well as the perfect menu, made the dinner not only a gastronomical success but an artistic one. The guests included Major and Mrs. Van Vleet, Mr. and Mrs. Harry Macfarlane, Jr., Mrs. Charles Wilder, Miss Louise Gerard, Miss Irene Dickson, Mr. Kurtz Eppley, U. S. A., Mr. Sidney Ballou, Bruce Cartwright Jr., and the guests of honor, Mr. and Mrs. Frederic Klamp.

Major and Mrs. Russell are to occupy the chalet belonging to Mrs. Mabel Wing Castle for four months.

An engagement which will greatly interest Honolulu will be announced in a day or two.

The Misses Fanny and Violet Sharp arrived in the Siberia from the Orient and will make quite a visit in Honolulu as the guest of their brother, who resides in College Hills. The late George Sharp, Esq., a noted lawyer in California, was the father of the young women.

Tenney as the soloist. The pretty faces peeping from the hood were very attractive and Vernon Tenney quite surprised himself in his delightful rendering of the song. His perfect composure and freedom from consciousness were favorably commented upon, and he played the part to perfection, his pleasing voice making itself heard all over the house without any apparent effort. The ballet des Fumées was something entirely new to Honolulu and the girls dressed like cigars, were enthusiastically received. Their song and dance was very graceful and full of action. Misses Marjorie and Dorothy Hoogs gave a spirited dance called "Army and Navy." Each carried an appropriate flag and were much applauded for their skill. Miss Margaret Center's Spanish dance was very pleasing and most gracefully danced and Miss Helen Center, who danced "Dixie" in great form and spirit. She danced like a professional and did many unusual turns not seen at an amateur performance as a general rule, and last came the cotillon, cleverly led by Ruth Soper and Reynold McGrew. This was particularly good and showed off the class to perfection. The President's March concluded the delightful evening, and in this all the pupils came down the center in twos, bowing to the partners and the audience, little Kinau Wilder coming last, with Mrs. Mary Gunn, who received a perfect ovation as she bowed to the audience, little Kinau doing her part with much baby grace. Mrs. Gunn was received with great acclamation and well she might be, for aside from the hard work of the year's class, she takes a personal interest in each pupil, and if they show unusual talents does all in her power to encourage it. She is not only a beautiful and graceful dancer, but a hard worker, and the exhibition on Thursday night is proof of what she can produce in a comparatively short time.

Mrs. George Carter will be at home on Wednesday, May 1st, for the last time until next October. Governor and Mrs. Carter expect to spend the summer at Del Monte.

Captain and Mrs. Basil Combe gave a dance on the Rostover last Saturday night in honor of Judge and Mrs. Stanley. As usual the top was a very gay affair, informally reigning and good cheer abounding. Judge Stanley sailed for Europe this week to be gone for several months, and Mrs. Stanley and the children are at Kona for the summer. Among those present at the top were Mr. and Mrs. Forster, Dr. and Mrs. Wilkinson, Mr. and Mrs. Lanz, Miss Danford, Mr. and Mrs. Hazeltine, Dr. Sheldon, Mr. Rowell, Mr. and Mrs. Laigton and many others.

The May Day festival is being eagerly looked forward to and old engravings and head dresses are studied, for all the old Elizabeth costumes are to be revived and one may expect to see something unusually interesting. The College Club party the night before will only add to the zest of May Day. Everybody is on the qui vive of expectation, and as the good weather has come, all will surely be as fair as May ought to be. Miss Justine McClanahan, who will be queen, and her maids of honor and dancing girls are having such pretty costumes, and the patient ox is being especially fattened for the occasion.

Mr. Augustus Knudsen gave a very interesting lecture at the Alexander Young hotel last evening to an audience who literally hung upon his words.

Mr. Gerrit Wilder's book is attracting great attention and will be a valuable addition to any library.

The Rev. Mr. Usbourne and Mrs. Usbourne expect to sail next week for their deferred trip to the Colonies and Europe. They have been at "The Cliffs" for a month past as the Cookburns have "The Rectory" during their absence.

Mr. Walters, who sailed for Hawaii this week, gave a charming lunch on Thursday at the Alexander Young hotel. The yellow coreopsis in the center of the table was artistically arranged and among Mr. Walters' guests were Miss Mabel Ena, Miss Levy and Dr. Walters.

There were a number of suppers on Thursday evening after Mrs. Gunn's exhibition. Mrs. Swany had quite a large one and Miss Nannie Winston, who gave an opera party, also had about fifteen to supper afterward. Her guests included Mrs. C. W. Cass Deer-

Mrs. A. F. Judd and Miss Bernice Hartwell are guests at Halewa.

Elks Entertain Monday night the Elks gave the Shriners a send-off which proved to be one of the most delightful lodge affairs which has been held in Honolulu for some time. Frank Thompson acted as the presiding officer and with him on the platform were seated C. E. Wells of Walluku, Dr. C. B. Cooper, L. E. Pinkham, Jack Atkinson and Palmer Woods. The evening was spent

in story telling with musical numbers interspersed and everyone had a good time. It was the occasion of the first entertainment given by the Elks at their new club rooms and the lodge hall was admired till the members of the lodge were fully satisfied.

Water Party Miss Schaefer gave a delightful swimming party at the Hotel Baths yesterday afternoon. About thirty young ladies entered the water and many spectators sat and watched the swimmers do all sorts of clever acts from the spring board, dives and chute.

HIS TONGUE DID NOT LASH, SAYS COMMANDER MOORE

Commander Moore, who is on his way to Samoa, called at the Bulletin office this morning and stated that ship gossip of the Alameda had given him a notoriety he hardly deserved.

"I didn't give anyone a tongue-lashing, on the way down, for insulting the flag," said the Commander. "I guess your reporter got hold of someone who exaggerated things. I never hesitate to defend the flag, but I did not hear anyone aboard the Alameda insult it."

Speaking of the work to which he is returning, the Commander said it was very interesting. The Commander is a little king in his way. "But we give everybody American justice," said he, in talking of life in the south ern island. "No person is punished without a trial, and the people like our government." It was suggested that the best comment on the excellence of the government is the fact that very little is heard of Pagopago. The Commander asserted that this might be so. Asked how many white people there are on his island, the Commander began counting on the fingers of one hand, and finally decided that there are about fifteen outside the complement of the government. There are about 6000 natives, Commander Moore leaves here in the Annapolis.

SOCIAL CHATTER AND HOME TALK

College Day's Dinner

The Harvard men in Hawaii were given a delightful dinner by Mr. James Wilder—who was certainly one of the most popular men in his class when a student—on Friday evening at his villa at Waikiki. Crimson, of course, was the color scheme, and crimson carnations, maidenhair and asparagus ferns were used lavishly in the decorations. Dainty bon-bon dishes of the same glowing color and crimson candlestick with crimson shades added to the stunning effect of the table. Many of the dishes served were garnished with crimson leaves, and the whole effect was most brilliant and a fine compliment to old Harvard. Speeches, toasts and songs made the evening pass right merrily. Mr. Wilder is a prince of a host and not a dull moment obtains where he is. He can sing a college song in a most rollicking manner and always brings down the house whenever he makes a speech. There were twenty-two guests in all. Among those invited and present were Mr. A. F. Atkinson, Mr. R. B. Anderson, Mr. R. W. Atkinson, Mr. Sidney Ballou, Mr. E. B. Blanchard, Dr. W. R. Brinkerhoff, Mr. W. W. Brunner, Professor W. T. Brigham, Mr. Harold Castle, Mr. W. R. Castle, Mr. S. H. Derby, Mr. H. Dillingham, Mr. J. D. Dole, Mrs. S. P. French, Mr. A. F. Gillette, Honorable A. S. Hartwell, Mr. C. A. Hartwell, Mr. P. L. Horne, Mr. R. S. Hosmer, Mr. E. A. Knudsen, Mr. W. A. Love, Mr. E. A. Mott-Smith, Mr. A. M. Newell, Mr. C. H. Olsen, Mr. Gordon Runkle, Mr. C. H. Smith, Mr. H. G. Spencer, Mr. Raymond Sharp, Mr. D. L. Withington, Judge W. A. Whiting, Mr. J. T. Crawley.

Birthday Party

Mrs. Harry Lewis remembered her son Donald's birthday last Saturday by inviting forty children to a party at the Seaside. It was a pretty sight to watch the games so dear to the hearts of children which were indulged in with all the enthusiasm of their tender years. The table was set under the trees overlooking the broad Pacific and baskets of bon-bons and sweets of all kinds made the prettily decorated table most attractive. Donald quite sustained the dignity of his twelfth birthday and did the honors with much grace. A number of old ones enjoyed a quiet little bridge game while the romping was going on, and a substantial tea was served to them while the little ones were having theirs. Among them were Mrs. Van Vleet, Mrs. Andrew Fuller, Mrs. George Macfarlane, Mrs. Schoeffel, Mrs. Klamp, Mrs. Mary Gunn and Mrs. A. M. Brown. It was a delightful affair thoroughly enjoyed by old and young.

Country Club Opens

The opening of the Country Club this afternoon will be quite an event. The beautiful situation and comfortable house must be seen to be appreciated, and it makes an era in the progression of our country that the time has come when the need for an up-to-date club, where healthy out-door sports can be encouraged, was so great that the citizens subscribed for the fine piece of property which they now possess. Buses will run to and fro from the end of the car line to the grounds. Among the ladies who will receive this afternoon are Mrs. Faxon Wilson, Mrs. J. P. Cooke, Mrs. Gerrit Wilder, Mrs. George Carter, Mrs. Holloway,

Mrs. James Wilder, Mrs. Clifford High and Mrs. J. Young. Tea and punch will be served in an informal manner and a general good time is anticipated.

Surprise Party

A surprise party was given Mrs. Heapy at the Kaulani Girl's Home last night. A number of Mrs. Heapy's friends had been invited to bid her farewell, among them being the directors of the Home, Mrs. George R. Carter, president; Mrs. H. Waterhouse, vice president; Mrs. F. W. Macfarlane, treasurer; Mrs. B. M. Allen, auditor; Miss I. Pope, secretary, and Mrs. C. Du Iol, director. During the evening Mrs. Heapy was presented with two neat traveling suit-cases and also a well filled purse by some of the girls who formerly made their home with her.

Bungalow Luncheon

The luncheon which Mr. and Mrs. E. M. Watson gave on Sunday in conjunction with Dr. and Mrs. Smith at the bungalow of the latter couple, at old Waikiki, was a typical Hawaiian affair, much enjoyed by the strangers, who tasted their first native dishes. The table was spread under the trees and looked most attractive with its covering of ferns and carnations, and the deliciously cooked viands disappeared like magic. Hulas, and the old time dances by several retainers of loyalty, were not the least of this entertainment. Mr. and Mrs. Watson and Dr. and Mrs. Smith were assisted by Miss Henry in looking after the guests, which they did in a most hospitable manner. The view of the Pacific in the distance added to the charm of the picturesque surroundings, and everybody had a remarkably enjoyable afternoon. Among those present were Major and Mrs. Van Vleet, Paymaster and Mrs. Brooke, Prince and Princess Kawananakoa, Dr. and Mrs. Blanchard, Judge and Mrs. Lindsay, Mr. and Mrs. Kevin, Misses Louise Girard and Sereta Van Vleet, Captain Clark of the Annapolis, Paymaster Rodgers, Lieut. Kilbee, Lieut. Jackson, Lieut. McNair and Lieut. Brooks.

Seaside Hop

There was a gay little hop at the Seaside hotel on Monday evening in honor of the U. S. S. Annapolis, Captain Clark commanding. Honolulu society turned out in great numbers and the Ellis quietest club played. Camp McKinley, led by Major and Mrs. Van Vleet, were all there, and among others were Major and Mrs. Russell, Paymaster and Mrs. Brooke, Dr. and Mrs. Smith, Miss Harvey, Mr. and Mrs. Turner, Miss Edgerly, Mr. and Mrs. Harry Macfarlane, Mr. and Mrs. Fairchild, Mr. and Mrs. James Scott, Misses Lady, Helen and Alice Macfarlane, Mr. and Mrs. Ingram, Dr. Fitzgerald, Mr. Weller, of Kauai, Miss Van Vleet, Col. and Mrs. George Macfarlane, and many others.

Scott Dinner

One of the most delightful occasions of the week was the dinner given at the Hawaiian Hotel on Wednesday by Mr. and Mrs. James Scott. Crimson carnations, artistically arranged with maidenhair, made an attractive centerpiece, and the hand painted place cards representing figurative were much admired. Each guest was decorated with

Walters. Mr. Hart, and a brother of the hostess. The table was pleasantly decorated with lilies and maidenhair. Mrs. Buck and her son had as dinner guests Mr. and Mrs. George Potter—Mrs. Potter looking particularly well in a charming toilette. Mrs. Burke has only just returned from Hawaii, where she was a guest of Mrs. Richardson, visiting the volcano and all points of interest on the big island. Mr. and Mrs. Rupert were dining Mr. and Mrs. Rhodes and there were many other little dinners which added to the gay appearance of the dining room.

Moana Luncheon

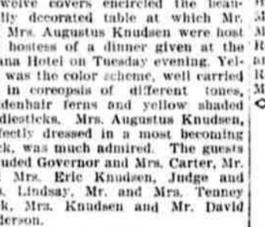

Twelve covers encircled the beautifully decorated table at which Mr. and Mrs. Augustus Knudsen were host and hostess of a dinner given at the Moana Hotel on Tuesday evening. Yellow was the color scheme, well carried out in corsage of different tones, maidenhair ferns and yellow shades, candlesticks. Mrs. Augustus Knudsen, perfectly dressed in a most becoming frock, was much admired. The guests included Governor and Mrs. Carter, Mr. and Mrs. Eric Knudsen, Judge and Mrs. Lindsay, Mr. and Mrs. Tenney Peck, Mrs. Knudsen and Mr. David Anderson.

MISS IRENE BOYD
Miss Boyd is a Honolulu girl whose friends expect she will be numbered with the party to take the trip to the Coast as the guests of the Bulletin. She is a daughter of Col. and Mrs. James H. Boyd and her friends are legion. She attended school at Kaulani and was for some time teacher in the Palama Free Kindergarten. She is one of the youngest on the list but a hustler.

Malice. Mrs. Raymond has been very popular socially since her sojourn in Maui, and she will be greatly missed by many charitable organizations as well, of which she was an active member. Miss Malice is now in Honolulu but will join her mother very soon at Rose Haech, Ulapalaka. Among the guests were included Mr. and Mrs. E. H. Hart, Mrs. S. Anuli, Mrs. T. Cummings, Mr. and Mrs. George Weight, Mr. and Mrs. S. P. Lyon, Misses Nancy and Etta Cummings, Miss Emma Daniels and Miss L. R. Hart.

thirty-five University Club men and their guests had a very jolly outing at Ford's Island on Sunday at the O. A. Brown place. Swimming races, golfing and sailing contests were some of the joys of the day, and the delicious and substantial lunch was heartily enjoyed. The Gladsy took many of the picnics home, although many returned by train. It was considered one of the pleasantest outings of the year. Mr. James Wilder was a bright participant in the day, so I have been informed, and it goes without saying that the others were not backward in expressing their relief to get away from the restraints of town.

MISS LOTTIE JORDAN
Miss Jordan is one of the Kauai favorites for the Pacific States Tour of the Lucky Six. She is also well known in Honolulu, having spent last winter in town as the guest of Mr. and Mrs. J. J. Belsor.

The largest and among the most successful functions of the week was the "at home" give by Mr. and Mrs. Clive Davies at their beautiful residence in "Crabtree" on Thursday afternoon from four until six-thirty. Mr. and Mrs. Davies received their guests on the lanai, which is admirably adapted for a garden party. The hostess wore a charming frock of pale pink crepe and her picture hat of black with drooping features suited her perfectly. A buffet table was served, the large table being dressed with cut flowers, and pretty girls passed the delicious refreshments. One corner of the grounds was a picturesque alcove gayly draped in red where Japanese vireaters and geisha girls entertained the guests with all the charm of their race. This was a particularly popular spot, and the guests thronged the entrance during the latter half of the afternoon. Mr. Ernest Kaali's admirable orchestra played on the lanai overlooking the sea in their best manner throughout the afternoon. Over six hundred guests called during the reception hours, and it was a remarkable sight in Honolulu to see so many men at an afternoon function. Among the young girls who passed the refreshments were Misses Elsa Schaefer, Rennie Catton, Violet Damon, Lily Paty, Kathleen Ward, Annie Ward, Sophie Ryeroff and Irene Schaefer. The guests present included Her Majesty Queen Liliuokalani and suite, Prince and Princess Kawananakoa, Princess Kalaniana'ole,

Among those fitting away for the summer is Mrs. Clifford Wood, who expects to sail about June 11th for the States and Europe. Dr. and Mrs. Wood have rented their house on Thurston Avenue to Mr. and Mrs. Frank Damon, who will take it for a term of months. Mrs. Henry Waterhouse and Miss Sturgeon will probably return from the Orient by that time and occupy their residence on Nuuanu avenue, which the Frank Damons will vacate.

I wonder if everyone realizes the many advantages of the chafing dish in a climate like this! It is so easy to invite a few people in and prepare an appetizing dish for a "little supper," and we all know that in order to get on with the sterner sex we must "feed the brutes."

Sad, but too true. The young girl just budding into womanhood will hardly believe this, as she is apt to

I am sure many a home would be happier if the mistress had even a slight knowledge of the art of cookery. —for it is indeed an art in these days of progression. Athenaeus, the Greek philosopher, asserted "that nothing has so powerfully contributed to instill piety into the souls of man as good cookery," and we all know that a chafing dish was a familiar adjunct on the altars of old French churches. And in this town, where one's servants leave at a moment's notice it is wise to have some practical knowledge of cooking, and with our long-tried friend, the chafing dish, one can rail boldly in and conquer man by tickling his palate.

Mrs. Day, the widow of Dr. Day, spent some time with Mrs. J. A. Gilman at Waikiki before sailing in the Sibiria for the Coast. Mrs. Day has written some exquisite stories, and they are deservedly popular. She expects eventually to return to Chicago.

TELL you that a boy has a lot of trouble in this world. It isn't all play for all work, not even all school, but sometimes it's even worse than that. If you can believe me, Grandma gave us a party out at the farm Saturday afternoon, and if anything ought to be all joy for a fellow it's what the grandmother does for him. You know how a fellow's grandma waits him to have a good time always, and doesn't get the fidgets over verbs and such things which make life a double trouble, especially irregular verbs, which I hope Mr. Roosevelt will attend to when he has time to think of little folks. Mothers are all ways fussing over what you will be when you grow up, and they even don't tell you for the difference it makes to you now for the difference it will make when you are a grown up. I don't see what differ-

ence it will make, any way, for when I am grown up I am going to be a broker like dad, and so secure the country people from their incomes, and Fourth Bob says that if your own income is big enough the world won't turn its back on you even if you turn your toes in. Grandma was want you to do the things which make a difference now, which is why they let you eat all the cake and jam you want without telling you that you will be a dry-gulch when you are grown up. Well, anyway, mamma and papa were up on a visit when we had our party, and the trouble I had in taking care of them tonight was what a hard life a leader of society must have. Papa said that he had brought mamma up for a visit because he wanted to look at some real lambs. He hadn't seen one in Wall street, he said, for so long a time that he had forgot almost how nice their warm wool looks.

But dad must have been joking then, for when I took him over the farm to show him where the sheep had been and the squirrels were, and the trees we got the most nuts from, and how the older oak worked, and where the pond is we are going to plant one, we passed a meadow with a herd of pipe smoking around and dad said, "There's some lambs now. How good they do look!" I had never before seen any mamma's with grandma, and it was good fun to hear her bellow about just as much as she bawled me about "Grandma, did you see that Virginia wool, and what she had forgot it, Virginia looked and he said, "I should just as soon think of your 'respecting your parents' and what you can do with the sheep, the figures to me and you get them, per-

fect!" And, by good fortune, dad, looking as the hearth. One, which was oozing red juice, fell on the cat's back, and she made a leap which landed her in the bowl of popcorn, and there I was, master of ceremonies, with no roasted apples and the popcorn to do all over again. I'll never go by for social leadership when I'm grown up. Well, mamma and dad to bring some apples and jam up in front of the fire, and when he was considered one of the best factors on the street. He's no good, he had strung to the string of the fire, and apples all right and hung from the ceiling in front of the fire and then he'd say because he said he had to be in the room all the things were true that he had forgot it, grandma's head over, and what you can do with the sheep, the figures to me and you get them, per-

Quarantine And Commerce In The Pacific Arena

BY DR. LELAND E. COFER,

Passed Assistant Surgeon, U. S. Public Health and Marine Hospital Service—Chief Quarantine Officer Hawaiian Islands

PART FOUR

(Continued from Last Saturday)

The school should have two main and distinct objects, one of these being the study of tropical and quarantine diseases, and the other the didactic application of the results of such study to quarantine and municipal sanitation. In other words, the school should be divided into two departments, one being the department of scientific research, and the other the department of practical quarantine and sanitation.

The faculty should be composed of men specially fitted by education and experience for the work outlined above, and should be augmented by the presence when possible of independent investigators on the one hand and quarantine representatives of all of the countries in the Pacific on the other.

The effect of this would be to place this school upon the same footing as a war college, where questions are discussed, theories verified or repudiated, and actual results given definite form for practical application. The results possible of attainment in this school of tropical diseases and applied tropical sanitation would be the giving of a fresh and progressive impetus to public health work in general, and the placing of the United States on a par with other nations in the field of tropical disease investigation. Fortunately, there is a steadily increasing interest on the part of the medical world in the study of tropical diseases, and the forcible appeals which have been made of late in medical literature for the foundation of an institute devoted to this work may, after all, play an important part in the solution of the sanitary problem of the Pacific Arena.

THE ELABORATION OF MARITIME QUARANTINE

Under this heading will be suggested:

First—The adoption of circuit quarantine inspections in the case of the large ocean-carriers in the Pacific Arena.

Second—The adoption of vermin proof construction in quarantine station buildings in the Pacific Arena.

Third—The use of fottila or floating quarantine plants as far as practicable at ports in the tropics where yellow fever and plague are to be operated against.

PROPOSED CIRCUIT QUARANTINE INSPECTORS

The home port or ordinary quarantine inspection only admits of the determination of a vessel's sanitary status by a process of deduction. The considerations upon which judgment is passed and from which an opinion can be deduced are divided into three classes:

First—Facts obtainable from the bills of health, ship's papers, and certificates from medical officers of the Public Health and Marine Hospital Service.

Second—Facts gathered through the personal observation of the quarantine officer.

Third—Suppositions based upon:

- (a) The probable sanitary history of the voyage.
- (b) The likelihood of latent infection.
- (c) The reputation of the captain of the vessel.
- (d) The likelihood of concealed infection.
- (e) The attitude of the ship's surgeon.
- (f) The kind of cargo carried.

Inasmuch as the ability to deduce is a quality inherent in the individual, and dependent perhaps upon age, temperament, experience, and astuteness, the results of deduction must vary according to the degree in which these qualities are present in the individual. This postulate when applied to the judgment of a vessel's status demonstrates the fact that the protection afforded a given port may vary with the personal qualifications of the quarantine officer, the regulations and the questions arising through their proper interpretation being equal.

Therefore the questions which arise during the proper interpretation of quarantine regulations or the suppositions which invariably confront the quarantine officer constitute a problem, the solution of which must involve the changing of these suppositions into facts. It is believed that the inauguration of the proposed circuit quarantine inspection would accomplish the object and

therefore solve the problem. By a circuit quarantine inspection is meant an inspection which takes place throughout the time when a vessel is loading or unloading in the various ports, and throughout the voyage. In other words, it is proposed as one of the methods of solving the future great sanitary problem in the Pacific Arena to have quarantine officers travel on all of the large ocean-carriers.

Such constant observation would not only ensure an absolute knowledge of the health status of the vessel and its personnel, but in the event quarantizable disease did appear on route it could be recognized at once and certain necessary quarantine measures immediately instituted by the traveling quarantine officer himself. On the other hand, whenever the vessel's status proved satisfactory, the fact over the quarantine officer's signature could be stamped through the International Code upon the vessel's arrival at the home port quarantine station and the vessel allowed to proceed without delay to the dock. The total savings in time for each large vessel in the year would more than pay for the expense of such a system of quarantine inspection. The present method of port inspection will always be practical and efficient in the case of the old type passenger steamers and sailing vessels, but with the large modern steamers in the Pacific Arena, which carry from 1000 to 1500 persons on board, and which load and unload at from 3 to 5 disease centers during every voyage, it is impossible to get an accurate idea of their sanitary status by making an ordinary port inspection. A port inspection gives the basis on which the sanitary status of a vessel is judged.

The proposed circuit inspection will give the basis upon which the sanitary status of a vessel will be studied and known.

To make the system effective the circuit quarantine officers should be required to have special instruction in tropical diseases and in quarantine practice. In other words, it would be essential that they attend the proposed school of quarantine and tropical diseases and have a certificate showing proficiency in the two subjects just mentioned. The details of officers on vessels could be given in such manner and at such intervals as would afford every officer the maximum amount of shore duty and comfort, and engender the feeling on his part that he was part and parcel of an organization and not simply an itinerant quarantine agent. In other words, esprit du corps could be maintained by administrative policy framed to this end.

A quarantine officer having been detailed for circuit duty would proceed as follows:

Let it be assumed that the detail covers a voyage from San Francisco to Hongkong and return. Upon joining the ship a complete disinfection of holds and quarters could be made, and all water tanks emptied, cleaned, refilled, and properly covered or protected from contamination. This would effect the destruction of rats, mosquitoes, and the like, and would ensure a clean ship to start with. The attention of the circuit quarantine officer could then be devoted to the

prevention of the ingress of new infection, as well as of any of the indigenous hosts thereof. Provision could be made for guarding the lower portions of wire screening, and for the protection of all lines running to the deck by rat funnels. As rats frequently enter a ship at night over the ordinary gang plank, the medical officer could enforce the raising of the latter between sunset and sunrise at a height of at least six feet from the wharf. All passengers could be inspected before being admitted on board of the vessel. Occasionally foodstuffs, which are occasionally carried by passengers, particularly by Oriental steamer passengers, could be inspected. After the cargo had been loaded into the vessel the circuit quarantine officer could see that all freight batches were carefully fastened down.

During the voyage there would naturally be a daily inspection of all persons on board. This would ensure the detection of disease almost immediately after its appearance. Even obscure lesions might be possible of detection under such careful surveillance. Immediately upon the discovery of quarantizable disease on board isolation, general prophylaxis and disinfection could be begun by the quarantine officer, who would have a very clear idea as to the source and probable extent of the infection, and who would be able to carry out such quarantine measures as would ensure the greatest safety to everyone on board and effect the least amount of delay and annoyance for the vessel upon her arrival at the next port, Honolulu. Upon the arrival of the vessel at Honolulu, the circuit quarantine officer could either pass the vessel through quarantine by signal, afterward rendering a receipt for the vessel's safety to the quarantine officer stationed at Honolulu, or in the event of there having been disease on board or some other consideration preventing him from thus passing the vessel he could likewise signal the fact.

Upon the arrival of the vessel at Honolulu the same care in guarding against infection would be exercised, and the embarking passengers would be subject to inspection before being allowed to board the vessel. Thus would the circuit quarantine officer keep himself posted as to the exact status of the vessel until the port of destination, Hongkong, was reached. After the removal of the cargo at Hongkong the holds and other parts of the vessel would be inspected, and if necessary disinfection again performed, although after exercising the care described such a precaution would probably be unnecessary. In making preparation for the return voyage the circuit quarantine officer would be assisted by and could render assistance to the Public Health and Marine Hospital Officer in Hongkong, so that the status of the passengers, cargo, water, vegetables, and other food supplies would be known to him at the time of the vessel's departure. At the other Oriental ports of call similar assistance could be exchanged with the medical officers stationed in those ports, so that the exact sanitary status of the vessel from day to day could be determined and this, too, without either the necessity for deduction, or the individual power to deduce. Upon the return of the vessel to United States ports, she could be again passed by signal or placed in quarantine according to circumstances.

It is not intended that the duties of the circuit quarantine officer should conflict with those of the ship surgeon. The idea is that a large ocean carrier, plying between the disease centers of the Occident and Orient on voyages lasting 60 days or more, is practically a small floating community with a population varying from 1000 to 2000 persons, said population representing every degree of society from almost every nation, and that such a community or floating world should have the usual health officer for its protection and for that of the general public.

WHAT CAUSES DANDRUFF.

Greatest European Authority on Skin Diseases Says It's a Germ.

The old idea that dandruff is scales of skin thrown off through a feverish condition of the scalp, is exploded. Prof. Linn, Hamburg, Germany, European authority on skin diseases, says dandruff is a germ disease. The germ burrows under the scalp, throwing up little scales of cuticle, and sapping the vitality of the hair at the root. The only hair preparation that kills dandruff germs is Newbro's Herpicide. Destroy the cause, you remove the effect. Not only cures dandruff, but stops falling hair and prevents a luxuriant growth. Delightful hair dressing sold by leading druggists. SECTION 1. A new Section is hereby added to Chapter 135 of the Revised Laws of Hawaii, to be known as Section 2115A, and to read as follows:

"Section 2115A. If it shall appear upon the trial of any cause wherein service has been made as provided by law upon any attorney, agent, factor or trustee of a defendant, that such defendant is in receipt of any salary, stipend, wages, annuity or pension from such attorney, agent, factor or trustee, the Court before which such trial is had shall order and direct such attorney, agent, factor or trustee to have noted it shall be incumbent upon such garnishee to pay to such plaintiff such sum or sums as shall theretofore have been sequestered and not drawn against in pursuance of such suit if such judgment shall equal or exceed such sum or sums. If the amount so sequestered and not drawn against shall not suffice to extinguish such judgment, then such sequestration and delivery to such plaintiff by such garnishee of a sum equal to twenty-five per cent. of such salary, stipend, wages, annuity or pension shall continue from week to week, or from month to month, until such judgment, with legal interest thereon, shall be fully paid, or until such defendant shall quit the service of and dissolve his relation to the garnishee upon which sequestration is founded."

SECTION 3. A new Section is hereby added to Chapter 135 of the Revised Laws of Hawaii, to be known as Section 2115C, and to read as follows:

"Section 2115C. In case of successive suits being brought wherein the same attorney, agent, factor or trustee, trustee not to pay to such defendant or permit or cause to be paid to him more than seventy-five per cent. of such salary, stipend, wages, annuity, or pension, which shall then be or shall thereafter become due, owing or payable to such defendant until the suit against him shall have been finally determined and the final judgment obtained against him, if any, shall have been fully paid with legal interest thereon; provided, however, that no more of such salary, stipend, wages, annuity or pension shall be thus withheld from said defendant in advance of final judgment than shall be sufficient to meet the demand of the plaintiff or plaintiffs in such suit or suits together with costs and legal interest."

SECTION 2. A new Section is hereby added to Chapter 135 of the Revised Laws of Hawaii to be known as Section 2115B, and to read as follows:

"Section 2115B. In case there shall be certified to such garnishee a judgment for the plaintiff, from or to which no appeal or execution shall, at the time of its rendition, and the same defendant are named, precedence shall be given by said attorney, agent, factor or trustee to the demand made in the suit wherein service is first made on said attorney, agent, factor or trustee, and if two or more such processes are served simultaneously, they shall be entitled to precedence in the order of the priority of their issue from the court or courts from which they respectively were issued. This order of precedence shall not be disturbed by the fact of a posterior suit being carried to final judgment earlier than its anterior in time of service upon such attorney, agent, factor or trustee, but in such case the attorney, agent, factor or trustee, shall pay or cause to be paid on account of such earlier judgment, only such sums as shall be payable upon such judgment from the amounts which shall thereafter become due and payable to such judgment debtor. All amounts withheld on account of such anterior suit shall be held to await the final result thereof, when, if final judgment shall be entered against the defendant, the amount so withheld shall be applied in payment of such judgment. In case such amounts are not sufficient to satisfy judgment, then all judgments obtained in posterior suits shall be

again postponed to that in the anterior suit until it is satisfied."

SECTION 4. This Act shall take effect from and after the date of its approval.

Approved this 25th day of April, A. D. 1907.

G. R. CARTER,
Governor of the Territory of Hawaii.

ACT 100.

AN ACT

TO PROTECT THE PUBLIC ON THE PUBLIC STREETS AND OTHER PUBLIC GROUNDS, FROM ANIMALS.

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. ANIMALS TO BE TIED. No person shall leave any horse or mule, or other animal while in harness or under saddle in any street, lane, or alley, or in any other public grounds within the Territory of Hawaii unless said horse, mule, or any other animal shall be tied.

SECTION 2. PUNISHMENT. Any person who shall do any of the acts prohibited by or violate any of the provisions of Section 1 of this Act, shall be liable upon conviction to a penalty of not less than five dollars, nor more than fifty dollars discretionary with the Court.

SECTION 3. This Act shall take effect from and after the date of its approval.

Approved this 25th day of April, A. D. 1907.

G. R. CARTER,
Governor of the Territory of Hawaii.

ACT 101.

AN ACT

TO PROTECT THE OWNERS OF BOTTLES AND SIPHONS USED IN THE MANUFACTURE AND SALE OF SODA WATERS, MINERAL OR AERATED WATERS, PORTER, ALE, BEER, CIDER, GINGER ALE, OR OTHER BEVERAGES.

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. Any person engaged in the Territory of Hawaii, in manufacturing soda water, mineral or aerated waters, porter, ale, beer, cider, ginger ale, or other beverage in bottles or siphons, with his name or other mark or device branded, stamped, engraved, etched, blown, impressed or otherwise produced upon said bottles or siphons used by him, may file in the office of the Treasurer of the Territory of Hawaii, a description of the name, mark, or device to be used by him, and cause such description to be printed at least once in each week for two weeks successively in a newspaper published in the English and Hawaiian languages in the County where said business is located or in some paper of general circulation published in the English and Hawaiian languages in Honolulu, Island of Oahu.

SECTION 2. It is hereby declared to be unlawful for any person to sell, buy, or otherwise dispose of or traffic in any bottle or siphon so marked and distinguished as aforesaid with any name, mark or device of which a description shall have been filed and published as provided in Section 1, without the written consent of the person whose name, mark or device is in or upon such bottle or siphon. Any person violating the provisions of this Section shall be deemed guilty of a misdemeanor and on conviction thereof shall be punished by a fine of not more than fifteen cents for each bottle and siphon so bought, sold, or otherwise so disposed of, or trafficked in, or by imprisonment for not more than three days.

SECTION 3. This Act shall take effect from the date of its approval.

Approved this 25th day of April, A. D. 1907.

G. R. CARTER,
Governor of the Territory of Hawaii.

ACT 102.

AN ACT

TO AUTHORIZE THE APPOINTMENT OF FISCAL AGENTS BY THE TREASURER OF THE TERRITORY OF HAWAII, ADDING A NEW SECTION TO THE REVISED LAWS OF HAWAII TO BE KNOWN AS SECTION 1172A.

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. A new Section is hereby added to the Revised Laws of Hawaii, to be known as Section 1172A and to read as follows:

"Section 1172A. FISCAL AGENTS. The Treasurer is hereby authorized and empowered to appoint, with the approval of the Governor, such fiscal agent or agents as may be necessary and expedient to facilitate the sale, purchase and redemption of the bonds of the Territory and the payment of interest thereon. The Treasurer may authorize and empower such fiscal agent or agents for and on behalf of the Territory to receive and receipt for moneys realized from the sale of such bonds and to pay out moneys for the redemption or purchase thereof and for the payment of interest thereon, and to receive receipts for all moneys so paid out. All appointments made under this Section may be revoked by the Treasurer at any time."

SECTION 2. This Act shall take effect from the date of its approval.

Approved this 25th day of April, A. D. 1907.

G. R. CARTER,
Governor of the Territory of Hawaii.

ACT 103.

AN ACT

TO AMEND SECTION 1177 OF THE REVISED LAWS OF HAWAII RELATING TO THE REGISTRAR OF PUBLIC ACCOUNTS.

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. Section 1177 of the Revised Laws of Hawaii is

hereby amended by adding to said Section, at the end thereof, the following sentence:

"In case of the absence of the Treasurer from the Territory, he may authorize and empower in writing the Registrar of Public Accounts to exercise such of the powers and discharge such of the duties of his office as the Treasurer may deem necessary and expedient."

SECTION 2. This Act shall take effect from the date of its approval.

Approved this 25th day of April, A. D. 1907.

G. R. CARTER,
Governor of the Territory of Hawaii.

ACT 104.

AN ACT

TO PROVIDE FOR THE PROTECTION OF BIRDS BENEFICIAL TO THE FORESTS OF THE TERRITORY OF HAWAII, AND TO DEFINE THE SAME.

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. For the purposes of this Act, Hawaiian geese (nene) and all perching birds (scientifically known as Passerine) that frequent the forests of this Territory shall be considered as beneficial, except such as are specified in Section 2.

SECTION 2. The European or house sparrow, the house finch, the rice bird, the mynah, the native crow or alala and any imported species of perching bird (or Passerine), (injurious to forestry or agriculture) shall not be protected by this Act.

SECTION 3. It shall be unlawful for any person to catch or kill any perching bird (or Passerine) other than those specified in Section 2, or to have in his or her possession the body of any such bird, or to take, destroy or have in possession the nest or eggs of any such bird.

SECTION 4. Any person violating this Act shall be guilty of a misdemeanor and on conviction shall be fined Ten Dollars (\$10.00) for each offense, and Fifty Dollars (\$50.00) for each perching bird (or Passerine) killed or caught, other than those specified in Section 2, or for each body or part of the body of such bird that he or she has in possession, or for each nest or egg of such bird as is destroyed or possessed in violation of this Act; or shall be liable to imprisonment for two weeks or to both fine and imprisonment at the discretion of the court; provided, however, that the preceding sections of this Act shall not apply to any person holding a permit, issued in accordance with the provisions of the next Section of this Act, giving him or her the right to collect any species of perching bird (or Passerine), their eggs or nests for scientific purposes only, unless such person shall violate the conditions of such permit.

SECTION 5. To any person who shall furnish satisfactory evidence that he or she is a duly authorized agent of some scientific institution and is collecting birds, their nests or eggs, for such institution, or for private scientific study and not for sale, the Commissioners of Agriculture and Forestry of this Territory, or such agent as they appoint, may issue a permit to collect for such scientific purposes, a limited number of any species of perching birds (or Passerine), (the number of each and any species that may be caught or killed being stated by the aforesaid Commissioners of Agriculture and Forestry or the agent appointed by them), at any time between and including the first day of October and the last day of February next following, but at no other time whatsoever.

SECTION 6. Any person to whom such permit to collect perching birds (or Passerine), their eggs or nests shall be issued, shall file with the Commissioners of Agriculture and Forestry, or their agent, a good and sufficient bond to the Territory of Hawaii in the sum of Two Hundred Dollars (\$200.00), with two responsible citizens of this Territory as sureties, conditioned that if the holder of said permit shall be convicted of violation of any of the provisions of this Act, or of those of the permit issued to him or her, the said bond shall be forfeited.

SECTION 7. The applicant to whom a permit to collect perching birds (or Passerine) is issued, shall pay a fee of One Dollar (\$1.00) to defray the expense of such permit, said permit to bear the name and post office address of the holder, a copy of this Act, to which the holder shall attach his or her signature, and a list showing the greatest number of each species of perching bird that may be killed or caught by the holder of the permit; said permit is not transferable and holds good only for one season, i. e., from the first of October to the last day of February next following.

SECTION 8. In all proceedings against any person for violating the provisions of this Act, such person shall be deemed to be without the permit herein provided for unless he shall produce the same.

SECTION 9. All Acts and parts of Acts inconsistent with this Act are hereby repealed.

SECTION 10. This Act shall take effect from and after the date of its approval.

Approved this 25th day of April, A. D. 1907.

Weekly Bulletin, \$1 Year

Will You Be One of the Bulletin Party

To Make The

PACIFIC STATES TOUR

The Bulletin Contest Has Started—Join Now

You may head the list---try and see. So well has the plan of this contest been arranged that it is impossible for WEALTH to influence votes. Why not be one of the young ladies who will enjoy the hospitality of the BULLETIN'S PACIFIC STATES TOUR? You may be the favored one. Perhaps your friends are stronger than you imagine. Perhaps you have more of them than you ever dreamed. You are on an equal footing with all. Some of the most sensational spurts for the honor of heading the list have been made by those who started early in a contest.

GO IN AND WIN

Personally Conducted--It will not be a hit or miss plan, a turn loose proposition, but under the personal supervision of Mrs. WEATHERED, who will arrange all details for the comfort of the Bulletin's guests. She will pay all the expenses, including transportation, berths, meals, rooms at hotels, baggage transfers, etc. There will absolutely be no expense to the guests from the time of departure until the arrival at Honolulu on the return trip.

The Contest Opened April 1st, 1907, and will Close Tuesday, July 30th, 1907

The successful contestants' names will be published in the BULLETIN Monday, August 12, 1907 Outside islands will be notified by wireless August 10, 1907.

RULES Of The Contest

The contest opened Monday, April 1, 1907, and will close at 5 o'clock p. m., Tuesday, July 30, 1907. The final count will be made Saturday, August 10, 1907. Winners on the outside Islands will be notified by wireless.

WHO MAY ENTER

This contest is open to reputable young women born in the Hawaiian Islands, excepting anyone in the immediate family of any person in the regular employ of the Bulletin Publishing Co., Ltd.

Old and New Subscribers will receive the same number of votes in return for money paid in for renewals or for new subscriptions.

SUBSCRIPTION COUPONS GOOD FOR ONE MONTH

Subscription coupons will be good for one month after the date of issue; if coupons are turned in after the date of expiration appearing on the face of the coupon the votes will not be counted.

THE FINAL COUNT

The final count will be made by three judges, selected from among those having no interest in the Evening Bulletin and no active interest in any one of the candidates. The result of the voting will be announced by the judges and the SIX CANDIDATES having the highest individual totals will be declared winners in this contest by the judges, and from their findings there is no appeal.

Subscription accounts and everything pertaining to this contest will be open to the inspection of the judges.

Any candidate withdrawing from the contest cannot have her votes counted for another.

Only one name shall be written on any ballot, and transfers of votes from one candidate to another will not be allowed.

THE RESULT OF THE THIRD COUNT

The supposition that the local young ladies would not give a free read to the representatives of the other Islands is confirmed in the result of the count in the Pacific States Tour Contest published today.

Daisy Todd has increased her margin by several thousand votes and is making a remarkable record. But the appearance of new names in the list and the advances made by others show that the Hilo girl will not have the whole thing to herself.

The record made early in the contest has demonstrated the popularity of the project offered by the Bulletin and the large number of votes cast might make some think this is the close instead of the beginning of the event. This is only the third week. There is lots of time ahead in which to canvass for new subscriptions.

The fact that the race is but just begun is further indicated by the appearance of a new name, Miss Kawainui of Waiailua, who lands at the start right up in first company with over thirteen thousand votes. Another mark of the barometer is found in the advance of Emma Rose. Last week she had less than ten thousand votes. Today she is fifth on the list with nearly forty thousand.

Also take notice of L. Callie Lucas. Last week she had less than a thousand. Now go down the list and see where she is. Still another factor in the running who should be watched is Emma J. Clark, whose friends have placed nearly twenty thousand to her credit during the week.

All of which gives the thousands of people interested in this contest a full realization that the appearance of a contestant with a few votes this week doesn't prove how many more she will have next.

Others have held their own in good shape. Hattie Saffrey of Honokaa added a long list of votes and jumped three places ahead. Hester Lemon keeps well to the top and although Watty Holt dropped back a little she has lots of friends saving ballots for her.

Right here the Bulletin wishes to issue another warning note.

Keep close watch of the date on your ballots. Don't hold them too long. None has been thrown out yet, but the margin on some has been pretty close. Get the votes in early and then you'll be sure they are counted.

Already queries have come in concerning the final date when ballots will be issued. July 30th is the last day on which a vote of any character will be issued. July 30th, 5 P. M.

The count will take place August 10, the last votes being received at 4 o'clock on the afternoon of that day.

But all this is some way off. The time to canvass for votes is right now. This is well understood by the young women in the contest. Getting votes and subscriptions all the time is what counts and the one with the largest number of subscribers to her credit is the one likely to win.

The result of the count Thursday afternoon follows:

SCHEDULE Of Vote Credits

In every copy of the paper there will be printed a coupon which being properly filled out with the name of the party for whom it is desired to vote and deposited with the EVENING BULLETIN Within 3 Weeks After the Day of Issue, will be credited as ONE VOTE. Subscription vote credits will be allowed as follows:

EVENING BULLETIN		Votes
Daily, 1 year	\$8.00	3500
Daily, 6 months	4.00	1500
Daily, 3 months	2.00	750
Daily, 1 month	.75	250

EVENING BULLETIN		Votes
Weekly, 1 year	\$1.00	425
Weekly, 6 months	.50	200

This Contest offers the largest number of opportunities of any ever held in Hawaii. There are Six First Prizes instead of one as in previous events. The winners will not only prove their popularity in their native land but they will be more greatly honored by representing Hawaii in the United States.

HOUSE VOTED MONEY FOR NUUANU DAM

\$132,000 For Completion Of Big Engineering Project

HOUSE

56th Day—Afternoon Session

The House yesterday afternoon voted to appropriate \$132,000 for the completion of the Nuuanu dam. It also voted \$140,000 for Kaleo's petition measure, the purchase of the Puna water rights.

The motion to appropriate the money for the dam carried without any opposition. In fact, the House seemed to have little interest in the subject, few of the members voting on it at all. It is generally understood that the Senate will kill the appropriation, but this is not certain.

Kaleo's Puna water rights proposition went through without any opposition. In fact, the House seemed to have little interest in the subject, few of the members voting on it at all. It is generally understood that the Senate will kill the appropriation, but this is not certain.

A message from the Senate announcing that it had sustained the Governor's veto on House Bill 139, relating to hunting with firearms, called forth a caustic comment by the Speaker on the Senate's haste in acting on a House bill before the House had acted.

Senate Concurrent Resolution 3, relating to the promotion of the principle of local self-government in the Territory, was transmitted from the Senate. Referred to Rules Committee.

House Bill 192, to allow anybody to treat lepers, came back from the Senate, amended so that the Board of Health shall not have power to revoke the permits at the end of two years, as in the original bill. The measure could keep on treating until he got tired or his patients died.

Action deferred.

HOUSE CONCURS TWICE
H. B. 19, Kaleo's freight toll bill, also came back looking like a singed cat. House concurred.

The Senate had also amended H. B. 239, relating to acknowledgments. Rawlins moved the House concur. It did.

MAUI BONDS BILL
S. B. 114, to authorize an issue of bonds by the County of Maui in the sum of \$110,000, was transmitted from the Senate and carried through first reading.

DISPOSITION OF PROFITS
The report of the Education Committee on H. B. 242, to provide for the disposition of the profits arising from agricultural and industrial pursuits at Lahainaluna and the Waialeale Industrial Schools was read. The committee recommended amendments, which would have the effect of leaving the Waialeale Industrial School out of the provisions of the bill. Adopted.

Rawlins thought the House was wandering away from the intent of the bill. "We are told," he said, "that the judges of our lower courts are held to be honest, and I think we may hold that the heads of our departments are honest and are not going to divert the funds that come into their hands. The intent of this bill is to put back into those two schools the net income derived from them. I know of no institution in the world where the inmates come out with their pockets loaded with money."

"We place confidence in the Superintendent of Public Works and give him a large sum of money to spend," Pail said. "Why shouldn't we trust the Superintendent of Public Instruction?" Then he made a vituperous attack on the Board of Education. "If we would leave the selection of our teachers to the Superintendent of Public Instruction, everything would be all right. The trouble all comes from letting the Commissioners choose them."

Then he got back to the matter in hand, and said that with 200 acres of land that could be planted to sugar cane, the Lahainaluna school ought to be self-supporting in two years.

Hughes said he did not object to giving the Lahainaluna school all the money it could make, but he did object to giving one man the power to spend the money as he thought best, and would vote against the bill for that reason.

The bill passed 22 to 5.
COMMITTEE REPORTS
The report of the Committee of the Whole on H. B. 215, was adopted, bringing the bill through second reading.

MAUI WATER WORKS AGAIN
H. B. 121, making special appropriations for the Territory for the next two years, was taken up for the second time.

Kaleo's Puna water works amendment was adopted, the item amounting to \$140,000.

MONEY FOR THE DAM
Coney offered an amendment to make the item for the completion of the Nuuanu dam \$132,000. The amendment carried.

PUNCHBOWL ROAD
Then Castro jumped in with his Punchbowl road, for the extension and widening of Prospect street around Punchbowl. He wanted \$10,000 for that. The motion to table the amendment carried. The Speaker casting the deciding vote.

Hughes expressed a doubt as to result and the roll was called. The result was the same.

The bill then passed as amended by a vote of 29 to 9.

RAWLINS TABLES HIS BILL
H. B. 195, Rawlins' general electric franchise bill, was tabled without debate on motion of its introducer.

VETO OVERRIDDEN
The Governor's veto on H. B. 164, Sheldon's Waialeale river embankment bill, was overridden by a vote of 26 to 4.

Kalana's H. B. 193, to let anybody treat lepers, was called up, and on motion of Kalana the House concurred in the Senate amendments.

MORE DAM TALK
The Speaker suggested that it

GREAT CHESS MATCH PROGRESSING

The most important event in chess history for the last ten years was the acceptance of Marshall's challenge by Lasker, for a match for the championship of the world.

Marshall certainly had some right upon which to base his hopes of wresting the championship from Lasker, as his records in recent tournaments show, but to one who has followed his career closely, as well as that of Lasker, there was little doubt as to the ultimate outcome of the match.

The official score of the match as published in Lasker's Chess Magazine was Lasker, 4; Marshall, 9; drawn, 6. A newspaper of recent date gave the score up to last files as Lasker, 6; Marshall, 9; drawn, 8.

As the match goes to the one first making a score of seven wins, it would seem that Marshall was not to receive a won game.

This is not a surprise to the writer. He has followed both players' careers for several years, and while nothing is so full of surprises as chess tournament scores, yet when the style and past history of the players is considered, this was an occasion when the usual surprise might well be expected not to occur.

Marshall has never played two tournaments in succession of equal strength. Indeed, with the exception of the Cambridge Springs tourney his play has not been sustained at high value right through a tournament. In one tournament he might come out first, but in the next he was as likely to come out tenth.

Lasker, on the other hand, while he has not taken part in as many contests, could be reckoned on as coming out with certainty among the three prize-winners.

Marshall's play could be depended upon to electrify the whole chess world by some dashing brilliancy somewhere in the course of the tournament; but there again it was as likely to be marked in the next game by mediocrity. Not so with Lasker. His brilliancies in tournaments were few and far between; his games presented an equality surprising; his mistakes something so few and far between as almost to permit the assertion that they never occurred.

Indeed, it is interesting to speculate if the present match is not a test of the value of the style of play of the last decade, and that of the present day.

Steinitz was, perhaps, the first great player to show the advantage of many small minor advantages.

A match between Lasker and Tarrasch would be of far greater interest than the present one, for truly it would be a case of Greek meeting Greek. While Lasker would undoubtedly win it would not be a result of no wins for his opponent. The match would be a very close one and the scores perhaps more draws than wins for either player.

If Dr. Tarrasch could be persuaded to lay aside the scalpel and medicine case for a long enough period to meet Lasker, it would be of incalculable interest and benefit to the chess players all over the world.

One point is worthy of note in the present match and that is that the first three games were won straight off by Lasker.

Marshall undoubtedly felt his only chance was his strong suit, dashing play; he realized that calculating play placed him at a disadvantage. But after three attempts resulting in disaster he was forced to adopt his opponent's strong suit, playing for minor advantages, since which time the result of the match was almost a foregone conclusion.

The Weekly Edition of the Evening Bulletin gives a complete summary of the news of the day.

Barney Joy Will Make Good

Barney Joy is homesick but he has no thought of breaking his contract with the San Francisco ball team. Such is the report brought by the steamship Alameda this morning. One of the boys who returned said in regard to Barney: "The big boy has been quite sick and he is homesick all right, but he will make good without a doubt if he stays with the team. All of his teammates speak highly of his work in practice and all are sure that he will make good when put in the box. He has already done some great work in practice games and it has been difficult for Long to find a man to catch him. He has found the groove to the plate all right and he can put them over."

"The boys who are knocking Barney in 'Frisco are the boys who have gone up from the Island shore and who should have stood by him. But no; they are telling all kinds of tales about his going to the bad and they say he has 'cold feet' and the like. But you don't hear the Frisco boys doing that."

"Barney is homesick. He stood the other day at the dock when the Alameda was about to leave and he had tears in his eyes. 'I want to go home but I can't,' he said, and he meant it. But he has the grit to stick to it and try and make good."

"Dick Sullivan is the boy who has gone bad. I saw him the other night out at Dreamland pavilion and he certainly was on the bum. He and another man who was as bad as Dick were hooted out of the ring almost. It was certainly a bum exhibition. Dick lost the decision and he should have lost it as well as the other fellow. They were hooted and they deserved it."

YACHT CRUISE

This afternoon is the opening of the yachting season and all the members of the club will take part in the cruise to Waianae. From the looks of things this morning there will not be very much wind but with as big a crowd as is going there will be a good time even if it is a drifting match to the destination. The La Paloma, Helene, Kapolei, Gladys, Kamehameha, Hawaii, Spray, Hulumann and Sam Parker's new launch will compose the fleet. If there is no wind this afternoon, a start will be made early tomorrow morning from the Oceanic dock.

MINOR CHANGES IN THE BASEBALL RULES

The changes in the baseball rules this year amounted to little or nothing. Here are the most important of them: A rule to prevent any other player than the pitcher from soiling a new ball. The pitcher can moisten the cover, but if any other player does this he is subject to a fine of \$5. That if a pitched ball strike in front of the plate and bounce fair at a height at which it could be hit by the batsman, if he cared to do so, it is to be called a ball. That a batsman cannot change position from one side of the plate to the other while the pitcher is getting ready to pitch, on penalty of being called out. That a batsman becomes a baserunner if the catcher interferes with the pitched ball. That a baserunner from third base to the plate shall be called out if a batsman interferes with the catcher. That one baserunner who passes another while running passes shall be called out. No batsman shall be given a base hit if he is called out after being hit by a batted ball that he hits himself.

PACIFIC COAST LEAGUE

The following is the standing of the clubs in the Pacific Coast League on April 29, the date of the last files from San Francisco:

SPORTING NOTES

Longboat, the Canadian Indian runner, won the 25-mile Marathon race from Natick to Boston, which is held on Lexington Day, April 19, every year under the auspices of the Boston Athletic Association. He made the distance in 2 hours 24 minutes

20 4-5 seconds. This breaks the previous record by over five minutes.

Squires is getting into training in San Rafael and will probably fight the winner of the Burns-O'Brien fight in Los Angeles. It is dollars to doughnuts that he will meet Jack O'Brien.

This afternoon at 1:30 the Rapid Transits play the Oahu College team and the House plays the Senate at 3 o'clock. The gate receipts will be given to the settlement at Molokai.

Dr. Rowatt will turn his practise over to Doc Monarrat while he is away. Between the Puns and lame horses our kindly friend will be kept a little bit busy.

Polo practice at Moanua today. It is said that "Smiling Bob" McCortright is going to take up the sport of millionaires and British army officers.

Al Kaufman, once touted as a coming champion, but whom Jack O'Brien put a sudden finish to, is to fight in 4-round battles in San Francisco.

The Iolanis defeated the Kaahumanu yesterday in a game of soccer played at Makiki by a score of 2 to 1.

FINAL ACTION ON IAUKEA MATTER

Supervisors Roast Him But Do Nothing Further

The meeting of the Board of Supervisors last night was remarkable by its quietness. Estimate were decided on without the slightest kick and even the police committee's resolution censuring Iaukea passed without a murmur. This was the most important feature of the meeting. It was introduced by Dwight and seconded, oddly enough, by Fern. It read as follows: Whereas, it appears that eleven prisoners arrested by the County Sheriff on bench warrants, issued by the Circuit Court of the First Circuit of the Territory of Hawaii, were on the 16th day of March, 1907, left unguarded by said Sheriff for the space of two hours in the court room of said court, presided over by the Honorable W. J. Robinson; and

Whereas, it was by law the duty of said Sheriff of the County of Oahu to guard and safely keep such prisoners; and

Whereas, After the attention of said County Sheriff had been called to such unguarded condition of the prisoners and a request made of him by the court, through its bailiff, to provide proper custody for the prisoners, he neglected and refused to send an officer or to provide such custody; and

Whereas, The reason, given by said County Sheriff, for so leaving said prisoners unguarded, that he understood the High Sheriff would take measures to safely keep the prisoners, is an insufficient excuse; and

Whereas, the action of said County Sheriff in the matter was careless and negligent; and

Whereas, Said County Sheriff therein failed and neglected to perform a duty imposed upon him by law; but

Whereas, The special committee appointed to investigate this matter does not find that said County Sheriff willfully intended to neglect or refuse to perform the duty imposed on him by law.

Now therefore, Be It Resolved, That no further action in the premises be now taken by the Board of Supervisors; and further

Be It Resolved, That the Board of Supervisors believe that said County Sheriff deserves grave censure for his negligence and dereliction of duty in leaving, on the 16th day of March, 1907, in the court presided over by the Honorable W. J. Robinson, Third Judge of the Circuit Court of the First Circuit, said prisoners without guards or custodians.

S. C. DWIGHT Captain Dwight wrote as follows: "I propose next week to start construction of a lighthouse at Makapuu Point. Before any operations can be taken up at the light itself, it will be necessary to construct a road passable for wagons to Makapuu Point."

"After looking over the ground, I have decided that the most feasible route is by way of Koko Head. I will place a party in the field next week to begin the construction of this road. It is possible now to drive a short distance beyond Kuapa pond, and to reach Makapuu Point the construction of about three miles of road will be necessary."

It was estimated that \$6000 would establish communication with Makapuu, but I consider this estimate too

low for the construction of anything except a barely passable road.

"I understand that the county has had under consideration the construction of a road around the island, and a portion, at least, of this road would be over the line which I now propose building. I have thought, therefore, that the county has an interest in the extension of the road to Makapuu, and such being the case, that they might be willing to aid with a few teams and such implements as were not in use."

"I therefore present the matter for your consideration and would be thankful for an early reply. Very respectfully, C. W. OTWELL."

The Pawa Improvement Club wrote asking that the Aloha lane extension be fixed up. Residents of Kaneohe wanted the Haiku road repaired. All these matters were referred to the Road Committee.

Dwight reported on his trip of inspection of the island roads. Repairs were needed on the stretch between Waimea and Waialeale, at Kaluanu and at Heala-kea, as well as on the Kaneohe and Waialua bridges. Work on the former bridge will begin immediately. Kenaloa wanted to reduce the salary of Road Overseer Peck of Koolanipo, but the suggestion met with no favor.

CONGRESSMEN WILL BRING DAUGHTERS

In recent advices received by Secretary Atkinson from Secretary McClellan, the latter states that the Territory may expect a good representative party being made up wholly of committeemen directly concerned with Hawaiian legislation.

McClellan also states that there is another probable party of four or five members of Congress who will visit the islands early in June, but will come at their own expense.

"Four of the members," McClellan writes, "made special request that they be permitted each to bring a daughter with them, and Mr. Hatch and I both concluded it was best to extend that privilege. We would have preferred to have had more of the space occupied by members, but under all circumstances we could not well do otherwise than to permit them to come, since the member in each case pays for his daughter's transportation."
