(TRADE MARK)

Especially Designed

For Inside Work on

Factories and Public Buildings

It is a dry powder which can be prepared for use by simply stirring in COLD WATER and can be applied by anyone and will always produce good work.

It is VERY WHITE, extremely reflective and hardens on a wall like stone.

It will last for years, and is unaffected by gases.

One coat covers better than two coats of oil paint or whitewash.

It can be used on any surface and for all classes of work, even for the finest decorating.

It will not rub, scale or crack, nor will it soften with age or discolor.

It will not set in the mixing vessel, in fact it improves by standing a few days.

It can be used to good advantage over old whitewash without scraping.

IT DRIES OUT WHITE AFTER BEING WET.

It is cheaper than whitewash, durability considered.

Is supplied in barrels from 300 to 400 lbs., also in boxes of 100, 50 and 25 pounds.

EX-QUEEN ARRAIGNED.

Counsel Neumann Challenges the Entire Commission.

Her Plea Will Be Made To-morrow— J. H. Wise Pleads Guilty to Misprision of Treason.

SIXTEENTH DAY.

The courtroom was crowded this morning. Long before 10 o'clock, the hour set for the opening of the Court-martial, crowds of people of both sexes were seen wending their way to the entrances leading to the Executive building. At the hour mentioned all the seats were filled and there was standing room only. The bringing in of more seats was forbidden. The fair sex predominated in the assemblage in the courtroom. Lieut. L. T. Kenaka was kept pretty busy arranging for the comfort of all.

The Court entered at 10:05 o'clock. Reading of the minutes by Lieut. Jones was then proceeded with.

A. S. Willis, United States Minister, and Capt. A. G. S. Hawes, British Commissioner, were the only foreign representatives present.

At 10:25 o'clock John H. Wise, charged with misprision of treason, was brought in.

Mr. Wise had no objection as to the personnel of the Commission.

The charge and specifications were then read. They are the same as in former cases of misprision of treason with the exception that eleven specifications were ordered stricken out by order of the Commission. Only the fourth and fifth specifications were read.

Before allowing his client to plead Mr. Neumann read his objections to the jurisdiction of the Commission. Objections were overruled.

Mr. Wise then pleaded guilty to both specifications and charge.

Mr. Neumann pleaded leniency be shown his client, as there were no aggravating circumstances attending his case.

Judge Advocate Kinney held that the prisoner was college-bred and of superior education and was well aware of the seriousness of the situation when he went into the thing. The Court retired for ten minutes' deliberation.

At 11:18 o'clock the ex-Queen was brought into the courtroom by Major Potter. She was accompanied by her maid of honor, Mrs. C. B. Wilson. Mrs. Liliuokalani Dominis was dressed in black. She appeared indifferent and walked to her seat beside her counsel, accompanied by Lieutenant Kenaka. She conversed but very little with her counsel.

Admiral Beardslee, of the U. S. S. Philadelphia, Captain Cotton and officers of that ship occupied prominent seats during this trial.

The Judge Advocate asked if the prisoner was represented by any counsel. Mr. Paul Neumann stated that he represented her.

The order under which the Court sat was then read by the Judge Advocate.

Counsel asked Col. Whiting, Lieut. Colonel Fisher, Captains Ziegler, Pratt, Camara, Wilder and Lieutenant Jones if they had formed any opinion or had any bias in regard to the case to come before them.

They individually replied in the negative. Lieut. Jones had discussed the matter casually but had formed no opinion.

Mr. Neumann desired to enter an objection to the sitting of the Commission on the ground that its members had already sat on and decided on a similar case, and were therefore not qualified to sit. The matter to come before the Court had already been discussed and decided upon. In the present case it was the only the change of name that has made the case different.

The Judge Advocate held that the trial proceed. He contended that the case was quite different although the charge may be the same. The place and circumstances may not be the same.

Col. Whiting announced after due deliberation that the Court could not entertain any such objection as it amounted to a challenge of the array.

Mr. Neumann then objected to the sitting of Lieut. Col. Fisher in the Commission as he has had the matter under consideration.

Lieut. Col. Fisher stated that he had not sat on any previous case of misprision of treason, having been excused on each instance.

Mr. Neumann then would withdraw his objection to Lieut. Col. Fisher.

Counsel challenged Captain Ziegler, he having sat on a previous case for misprision of treason.

The Court retired for deliberation.

The Court announced that the objection was not sustained.

Neumann challenged the remainder of the Commission, and Col. Whiting announced that the previous judgment would rule, namely, that the objection would be overruled.

The Commission was then sworn. Judge Advocate read charge and specifications against Liliuokalani Dominis. They were the same as in the cases of J. F. Bowler, misprision of treason by having knowledge of a conspiracy to overthrow the Republic and concealing the same.

At the conclusion of the reading of the charge and specifications Mr. Neumann, counsel for Liliuokalani Dominis made a motion that the case be continued until to-morrow (Wednesday) morning, before the accused be required to plead. Other cases could be put on in the meantime. Counsel desired to formulate objections to the specifications and requested time on which to do so.

Judge Advocate Kinney objected to the continuance, as sufficient time had elapsed since the serving of the charge and specification, which was on Saturday last.

Mr. Neumann desired the ruling of the Court, as he had stated the ground of his objection.

The Court cleared for deliberation.

Col. Whiting announced that the adjournment would be granted in this case.

Recess was taken until 2 o'clock.

Afternoon Session.

The Court convened at 2 o'clock. John A. Cummins and Captain Wm. Davies were brought in for trial.

The charge against them is treason.

Mr. Cummins stated that J. A. Magoon would appear for him. Captain Davies had no counsel and desired none.

The Commission was then sworn.

Captain Davies pleaded guilty to the second specification which states that he did assist in procuring munitions of war for the purpose of levying war. To the charge he pleaded guilty. To the second charge and specifications the prisoner pleaded not guilty. The charge is inciting and abetting others to commit treason.

Mr. Cummins desired to make a statement before he would plead to the specifications. He had made a statement before the Commission a few days ago in which he disclosed his part in the affair. If what he had said came under the second specification he would plead guilty. He did not desire to add anything to what he had already said. He now saw the folly of what he had done.

After consulting with his counsel Mr. Cummins stated he would plead guilty. Also guilty to the first charge. To the second charge, namely inciting and abetting others to engage in open rebellion Mr. Cummins pleaded not guilty.

The statement which Mr. Cummins made before the Commission a few days ago and reported in the BULLETIN was then read by the Judge Advocate. Mr. Cummins desired that that would be his statement now.

Captain Davies stated that he had been offered \$10,000 if he succeeded in landing the arms. W. H. Rickard had guaranteed him \$1000. The captain knew what the arms were to be landed for.

After argument by Mr. Magoon for the accused and Judge Advocate for the prosecution the Court adjourned till 10 o'clock to-morrow.

The steamer Kimsu arrived this afternoon.

IN WINTER QUARTERS.

U. S. S. Petrel and H. M. S. Firebrand Half Buried in Mud.

The United States steamship Petrel is at Newchwang, China, where she arrived on the 7th of November, after a week's cold, disagreeable passage from Nagasaki, stopping one day at Chefoo, en route. Since her arrival there, the crew have been very busy preparing for a long winter at that place. All stores have been sent on shore and placed in warehouse, sails, running rigging, etc., yards and masts have been sent down and the ship stripped to a girdling, just the same as if she was about to be put out of commission and going into rotten row at Mare Island Navy yard.

Two fighting tops have been constructed, one on the fore and the other on the mizzen tops. Hotchkiss 37 millimeter revolving cannon will be sent aloft forward and a Gatling gun aft, these to be used in case of mob violence in the town or any interference with the European inhabitants who reside along the bank near where the Petrel is to be beached. The English ship Firebrand is also there and is already in her mud dock, high and dry, stripped the same as the Petrel, and is lying next to her. Both of the ships are lying there to be buried up in ice and snow until spring shall come again and release them from their ice bondage. The docks are a novelty, as many on the Petrel never saw anything like them before, and they never expect to again, and they are well worthy of mention for the information of those at Mare Island in the habit of seeing the great stone drydock at that place, in which a cruiser may so easily be floated in and settled down on the blocks after the water is pumped out. The dock was dug out by an army of Chinamen, precisely the same as a drydock before they are walled up. A thin layer of earth or caisson is left at the entrance to prevent the water coming in, and after the proper depth is obtained on the inside this earth in front is dug down as far as they can go at low water, then when all is ready at the next high tide, a full head of steam is put on the engines and ahead they go at full speed, running through the mud until the ship is fairly through. Shores are then put up to keep the ship on an even keel, the same as in a drydock, the ship resting on the bottom. As soon as secured the entrance is filled with mud and brush, the water is then pumped out by handbills and the ship is then high and dry. Mats are then placed around the ship, earth filled in around her nearly as high as the berth deck air ports, the ship housed in with bamboo poles and mats, and by this means made as comfortable as possible in a climate where the communication with the outside world is completely cut off for five months in the year. The river, completely frozen over with ice four feet deep and the thermometer ranging from 10 to 20 degrees below zero. The Petrel arrived Newchwang on the 10th of November with about 150 tons of coal on board, and 250 tons more were to be put on board in a day or two for heating ship. All the boats had been taken on shore and covered with mats and buried in sand to keep the frost out. The captain has given a free gangway to all hands from after-quarters in the morning until 10 p. m., and as long as the men keep it the privilege will exist—and it will not be broken, for the reason that the captain and all the officers are well liked, and allow every privilege possible. They have an iceboat, fully equipped, and skates, so that for all those on board the Petrel there is plenty of sport ahead during the long winter months. The officers on all the ships at the navy-yard seem to look more after the interests of their crews, in the matter of seeing that they enjoy themselves, than in years gone by.

OFFICERS FOR THE OLYMPIA.

Details Made by the Navy Department.

Orders were issued at the United States Navy Department on Jan. 18 for a number of naval officers from present assignments to take positions on the cruiser Olympia. Some of the details have already been predicted in these dispatches.

The officers of the Olympia will be Captain J. J. Reed, Lieutenants Phelps, Buchanan, Sherman and Rose; Cadets Chadwick, Elder, Pearson and Strick, who are detached from the Independence, and Pratt and Doddridge from the Michigan; Past Assistant Engineer Carney, from the Union Iron Works; Assistant Engineer Robinson, from the Bureau of Steam Engineering; Surgeon Ayres and Past Assistant Surgeon Piggott, and Pay Inspector Allen. Captain Wilde is ordered to command the Independence.

Not the National Anthem.

EDITOR BULLETIN:—

I crave permission to point out, in regard to the beautiful poem published in this evening's BULLETIN, that you are slightly at fault in designating the same as the Swedish National Anthem, which latter differs from it materially in that it treats of the valorous exploits of Charles XII, the young soldier king of Sweden.

The "land of thousand lakes," of which Runeberg sings, does not refer to Sweden at all, but to Finland, in which country he lived and died, although the song—which has been set to a superb air—is familiar to every Scandinavian, be he Swede, Norwegian or Dane. The error, if yours at all, is a natural and excusable one, as the original verses were written in the Swedish tongue, which is mostly in vogue among the cultured classes of Finland. The author became famous chiefly through the publication of a splendid series of poems about the war of independence in 1808, which ended by the cession in the year following of the whole of Finland to Russia.

The predominating trait in the Finnish character being an intense patriotism—a fact aptly illustrated by the poem under notice—had become so patent to the conquerors that the Emperor Alexander I. wisely issued a manifesto undertaking to preserve the religion, laws and liberties of the vanquished people, who had offered such gallant resistance. This pledge has been taken by his successors, and probably Finland is to-day the freest and best governed part of the Russian empire.

Value of Ball Bearing.

An experiment with ball bearings was recently made in Canada. A street car fitted with ball bearings was drawn a distance of several hundred feet by men pulling on on three strands of ordinary sewing thread. A carriage manufacturer put another style of ball bearings on the axles of a coach ordinarily pulled by four horses. A trained dog was hitched to the pole, and he drew the coach around the yard with little effort. The combination of pneumatic tires and ball bearings would evidently relieve much of the strain now put on horses drawing heavy vehicles, and here is a tip for an enterprising carriage builder.

A Cyclone

struck my store during December. It was a strong, vigorous, full grown affair, and had no respect for other people's feelings. It would push its way in through the front door rummage among my choice goods, tear down, pick to pieces, growl at everything except the quality and price, buy a paper of Pins or a Silk Dress, go out and come back in a short time reinforced by neighboring cyclones. This nagging during the month has made me gray before my time, and standing in the middle of the store at 12 P. M. on December 31, 1894, I was glad to say "Pan." Feel somewhat better this week and have arrived at the conclusion that I will hold my Annual Clearance Sale. Now a clearance sale may mean nothing or everything. In my lease it means everything. I have a large assortment of goods on hand that I must get rid of before the return of next Australia. I must have shelf room and to get it I am prepared to make a sacrifice. Everything must be sold. Now each week I am going to offer something special, this time it is millinery. Nowhere in Honolulu can you buy Hats and all the attachments thereto for the next week as cheap as at Egan's. No other house in the city can sell these goods at 50c on the \$1. We can't keep it up long, but will endeavor to satisfy everybody as long as the Hats and Feathers last. And remember that you get two dollars' worth for one of King Kalakaua's silver cart-wheels.

Pure Milk.

The business of the country is settling into its former groove. Our gentlemanly driver has returned from his vacation, the cows in the pasture switch flies instead of bullets with their tails and the cream is richer in consequence. We believe we have satisfied every one of our customers who have taken milk from us and we are in a position to supply a great many more. The people who from choice or necessity visited Waialae during the past two weeks have had an opportunity to see just what sort of diet our stock feeds upon, and no longer wonder at the richness of the milk from our dairy. Our facilities for delivery are the best. With the exception of a day or two early in the late unpleasantness our drivers have always been on time at our customers' residences. We take this opportunity to thank those who have been patient with us and to solicit a continuance of their patronage. We will be pleased to fill all orders telephoned to us and guarantee all milk to be pure and free from adulteration.

AMERICAN CATTLE.

Another Hurtful Decree by Germany—Stock Sent from England Barred.

The State Department has been informed that the Hamburg authorities have forbidden the importation of cattle and swine from England and Ireland, says a Washington despatch of January 18. Inasmuch as a large proportion of American cattle entering Germany go through England, this is another severe blow at our cattle trade with continental Europe.

The official notice of this last action of Germany came to the State Department in the following report from W. Henry Robertson, our Consul at Hamburg, dated December 22d last:

"I have the honor to inform you that by a decree of the Hamburg Senate, passed yesterday and published to-day, the entry into this port of all ruminating animals and swine from Great Britain and Ireland has been for the present prohibited. The ground given in the decree is the outbreak of the mouth and foot disease in different places in England.

"Those animals will still be admitted which shall be proven to have left Great Britain and Ireland up to and including the 20th inst., but such animals are to be slaughtered immediately after their arrival. The regular penalties of fine and confiscation will follow any violation of the prohibition."

It will be noted that the action in this case was that of the Hamburg Senate, and not that of the Imperial Government of Germany, but the same course has been adopted at each of the other great German seaports, so that practically it amounts to national legislation.

It is not possible at present to calculate the exact effect on our trade of this last decree. A considerable proportion of the cattle and hogs shipped from the United States to Liverpool after passing into the possession of the English buyers is detained for a time in the stockyards and finally sold and shipped to Germany.

The German Government has been aware of this and recently sent a commission to England. It is alleged that this action was taken on the pretense of examining the English cattle, but really to lay the foundation for the present decree, which, it is asserted, really strikes at the United States over the shoulder of Great Britain, for it is believed here that no English-grown cattle are shipped to Germany.

Memorial to Cleveland from the House of Commons.

By appointment William Randall Creamer, a member of the British House of Commons, called upon President Cleveland in company with Secretary Gresham and presented to him a memorial signed by 354 members of the House of Commons, looking to the negotiation of a treaty providing for the submission to arbitration of any differences that may arise between the United States and Great Britain.

"I don't believe you can read minds, doncherknow," said a chappie to a professional mind reader. "Oh, yes, I can," replied the latter, pleasantly. "Bring around somebody with a mind and I'll soon prove that I can."—Pittsburg Chronicle Telegraph.

TUESDAY, FEB. 5, 1895.

Evidently the Advertiser does not appreciate the good offices of the BULLETIN in endeavoring to save it from trouble with a gentle caution born of old sores.

That wealth is not respected by the United States Government as putting its possessor above the law is shown by the prosecution of New York brokers for refusing to give evidence in the sugar investigation.

There has been introduced in Congress, as will be seen in our news columns, a joint resolution for an amendment to the Constitution absolutely prohibiting the use of United States revenue or credit for sectarian education. The Constitution of the Republic of Hawaii has such a provision for this country.

For several years discussion of a permanent arbitration convention between Great Britain and the United States has been going on. It has now come to a head by the presentation of a memorial from the British House of Commons to President Cleveland in favor of the consummation so devoutly to be wished.

Trade between the United States and Germany has become seriously affected by legislation on either side which is taken as hostile by the other. Germany does not like the American sugar tariff, and resents it by placing an embargo on American cattle and meat. An account is given elsewhere of the latest development of the case, which is the checking of American cattle exports to Germany by way of the British Islands.

A REVENUE CUTTER.

Events of the past few weeks have caused a revival of discussion on the matter of a revenue cutter. When the late King was looking out for a man-of-war to take his embassy to Samoa, it was suggested by some people who opposed that folly that there would be a grain of sense in getting a smart little steamer to guard the coasts against smuggling. There was no use in talking sense at that time, however, and so an old tramp steamer was bought and fitted up at an enormous expense. After she had served her brief and inglorious turn in making Hawaii a laughing-stock, this steamer was brought back and sold at auction only to be a white elephant on the hands of her purchasers. The money expended on that marine curio, now lying in rotten row, might have provided a serviceable steamer for the use of the Government. Yet it is not certain that a revenue cutter comes ahead of many other public improvements needed by the country at this time. The Government tugboat has proved within the past few weeks to be all that is required for patrol work, not to mention her eminent services in the late war as a gunboat, so far as the coast of this island is concerned. In some months of the year there are steamers available for charter by the Government to go on long cruises. For instance, there were the Claudine's voyage to San Francisco and the Iwalani's annexing expedition to Necker island, both of which were accomplished satisfactorily to the Government. It would hardly pay to buy and maintain a revenue cutter for such extraordinary expeditions as those mentioned. The successful landing of ammunitions of war for an insurrection by the steamer Waimanalo has been used as an argument for having a Government vessel besides the tug-boat. Yet if the Government had been apprised of that danger, the tug-boat would have been all that was necessary to head the seditious craft. Again, it is doubtful if the game would be worth the candle to maintain such a vessel as that in question for the prevention of opium smuggling, about the only

kind of smuggling that pays under our mild customs tariff. There is a plausible scheme for having a swift steamer available in extraordinary contingencies, however, which perhaps the Government may see fit to take into consideration. It would combine a great boon upon the public in ordinary times as well as serve the Government well in emergencies. This scheme which is now broached is to subsidize a fast passenger and mail steamer to run between Honolulu and Hilo, calling at some port on Maui. Such a boat would not take loads of sugar but only express freight and mails besides passengers. Without the annoyance of long waits rolling in the waves with a sickening monotony at every plantation landing, a boat of this sort would build up a passenger traffic for itself and be a great promoter of commercial traffic between the islands. It would be an additional attraction for tourists, allowing many who now pass through without seeing the volcano to have that rare privilege. The subsidy would have to be a pretty large one no doubt, but nothing to what the country would have to pay for the maintenance of a steamer for Government service exclusively. By her frequent trips, perhaps varied in course at different times, this packet steamer would furnish a very fair sort of patrol of the coasts for the discovery of suspicious craft incidentally. She would confer no small boon on the now rather isolated communities of the other islands by the additional mail facilities she would afford. The few times that she would be called off her route for particular Government service would be an inconvenience which would be easily borne in view of her great benefits in ordinary times. Let the matter be duly considered.

THE CITIZENS' GUARD.

The Plan of Reorganization Not Yet Agreed On.

A morning paper purports to give the entire plan of re-organization of the Citizens' Guard, but it would seem that it is somewhat previous in so doing. In conversation with several prominent members of that body this morning a BULLETIN reporter was informed that such re-organization was not yet perfected and probably would not be so until after martial law was ended. One high official of the Guard said that he considered such action at the present moment ill-timed, as it would interfere very much with discipline, and assign members to the command of those whom they were not familiar with and to places probably remote from their homes. In this view he further said he was supported by nearly all members with whom he had talked on the subject.

It is understood that a meeting of the officials of the Citizens' Guard will be held to-night for the purpose of considering and agreeing upon a plan of re-organization, and that such plan will be afterwards submitted to a mass meeting of the members to be called after the present trouble is ended.

Amateur Athletic Club.

At a business meeting of this organization held last evening James Thompson, formerly captain of the Hawaii's, was appointed manager of the baseball team to be selected from the members of the club. Chas. Hyde was made chairman of the tennis committee. The treasurer's report showed a balance of \$25.90.

Timely Topics

February 5, 1895.

The occasional heavy rains we are having appears, to the uninitiated, like a balm to the injured roses and tropical foliage for which Honolulu was once famous. You've noticed, perhaps, the absence of the rose bug for several weeks past; they seem to have disappeared as effectually as the cargoes of some of the mysterious crafts that enter the port. But they are simply taking a vacation; if you will dig down into the soft earth you will find hundreds of little white worms which, if these heavy rains do not kill them, will in a short time develop into full fledged rose bugs. Without knowing positively that the rain will kill the larvae we would imagine it would do what nothing else has done.

The Grand Rapids Carpet Sweeper is as well known as Pears' Soap. For polished or covered floors there is nothing more effective and nothing easier to handle than one of these sweepers. We have a few and we sell them cheap.

If your mangoes are ripening you will want a fruit picker because it saves your mangoes from being mashed when they fall to the ground. If you sell your fruit you will save ten times the price of a picker the first season you use it. Four, bits if you don't want a handle; six, if you do.

One of the new lot of Carriage Whips we have just received will suit you unless you require to have it gold mounted, in that case it will be done for you at the Coast. Ours are really good ones for the money; you can get one pure whale bone or imitation as you wish.

The Pasteur Filter seems to be a good one, judging from the quantity of dirt that collects on the cylinders as the water is filtered. We rent them at a dollar a month or sell them at a fixed price—try one of them for a month or so and if you like it well enough, buy it.

You will never have a loaf of heavy bread in your house if you cut it with a Clauss Knife. For real genuine usefulness nothing can compare with it. Just fancy! For a dollar we give you a knife that will cut warm bread, another that will cut iced cake and still another that pares apples or potatoes with the least proportion of loss of material.

Haviland China leads all others and we have the stock from which you may draw from. Our assortment is made up off all sorts of the very best and we have arranged the price to suit your purpose.

Said a customer: "Your Powder seems to be better than any I have used. I have never had any irritation of the gums since using it. I have my children use it al-o."

That's the whole story. It came voluntarily. A bottle of Aloha Powder will convince you of the correctness of this customer's opinion.

A Map of the Hawaiian Islands will be given with each bottle as a premium. This is a handsome Lithograph Map, is about 8 by 10 inches in size, and shows clearly all the Islands.

A SHOOTING SCRAPE.

John Carroll Seriously Wounds His Brother-in-Law.

About half-past two this afternoon Mrs. Wilder telephoned to the Police Station from her residence at Pensacola street, to the effect that there had been a shooting scrape in a native house near by. Captain Scott immediately went out to investigate and found that John Carroll, who was formerly a drummer in the army, but now claims to be a member of the mounted patrol, had shot his brother-in-law. The shooting took place in house opposite that occupied by Carroll, where a number of natives had been carousing since yesterday. Carroll claims that he shot in self-defense and in this he is borne out by his wife. Three shots were fired from a pistol, only one of which took effect.

The wounded man was taken to the hospital where Dr. Wood found that the ball had entered behind the left shoulder and passed around the surface to the front of the breast bone. The wound is not serious and the man will be all right again soon. Captain Scott brought in the owner of the house, Carroll's wife and two others as witnesses.

In a recent editorial the *Salem, Oregon, Independent* says: "Time and again have we seen Chamberlain's Cough Remedy tried and never without the most satisfactory results. Whenever we see a person afflicted with hoarseness, with a cough or cold, we invariably advise them to get Chamberlain's Cough Remedy; and when they do, they never regret it. It always does the work, and does it well." For sale by Benson, Smith & Co., Agents for the Hawaiian Islands.

Resolutions of the Pioneer Building and Loan Association.

At the regular monthly meeting of the Pioneer Building and Loan Association, of Hawaii, held at their office on the date mentioned, the following preamble and resolutions were unanimously adopted:

WHEREAS, In view of the loss we have sustained by the decease of our friend and associate, Charles L. Carter, and of the still heavier loss sustained by those who were nearest and dearest to him; and

WHEREAS, This association has lost a faithful and efficient officer, who zealously guarded its interests, and through whose advice it has attained its present prominence and success; therefore, be it

Resolved, That it is but a just tribute to the memory of the departed, to say that in regretting his removal from our midst, we mourn for one who was, in every way, worthy of our respect and regard;

Resolved, That we sincerely condole with the friends of the deceased in their hours of trial and affliction, and commend them to the keeping of Him who looks with pitying eye upon the widowed and the fatherless;

Resolved, That these resolutions be spread upon the records of this association, and a copy thereof be transmitted to the family of our deceased friend and associate, and to the *Daily Advertiser*, *DAILY BULLETIN*, *Hawaiian Star*, and *Kuokoa newspapers*.

It was also ordered that notice be given to the creditors and others having claims against the estate to show cause on a date to be advertised why said appointment should not be made permanent.

LADIES' COLUMN.

Commencing SATURDAY, February 9th, and continuing for ONE WEEK, we will hold the LARGEST REMNANT SALE of the SEASON. At the prices we are asking every piece will be sold. Read what follows and kindly bear it in mind.

POPULAR APPROVAL.

Goes far toward establishing the standing of a business house in any community, and the good-will and patronage we have had during the last forty years indicate, not only that we have the POPULAR APPROVAL, but that those who have dealt with us have been eminently satisfied with their transactions.

WE ATTRACT

And retain patronage more by the EXCELLENCE OF QUALITIES shown and our REASONABLE PRICES than by preposterous claims of selling goods below cost, etc.

WE REPEAT

As we have said before that when you pay less for goods than we ask for them you get an inferior quality.

WHILE WE

Carry a stock of dry goods that is complete in every sense, from the lowest priced goods to the most luxurious made, we make a specialty of the highest grade, and exclusive designs of the most recent and accepted styles.

IT IS

Worth your while always in making purchases to look at our stock before deciding. If we have what you want you will certainly buy it, if quality and price are any consideration.

B. F. EHLERS & CO.

What Shall We Drink?

When the rays of Old Sol are boiling down at a ninety degree rate, the air like the breath of a furnace and everything hot, dry and dusty, the natural desire of the average human is to drink. But, what to drink? There's the question.

The serious effect of an over-indulgence in ice water is well known. The thousand and one cheap gassy beverages are known to be more or less injurious to the health, while the mineral waters of known purity and healthfulness are a luxury beyond the reach of but few. What shall we drink?

A beverage to meet the requirements, must, first of all, be absolutely pure and non-alcoholic. It should possess a medicinal element to counteract the effects of the heat and keep the blood pure and the stomach healthful. In order to be palatable and refreshing, it should be sparkling and effervescent. Last but not least, it must be economical and within the reach of all. A beverage that fully meets all of the above requirements and one that is entitled to more than passing mention is HIRES' ROOT BEER, manufactured by the CHAS. E. HIRES & Co., of Philadelphia, U. S. A. This preparation has been analyzed by the highest authorities and pronounced by them to be free from any deleterious substance and absolutely non-alcoholic; while all physicians acknowledge its health giving qualities. It has a delicious, appetizing flavor, is full of snap, sparkle and effervescence, and is without a peer as a refreshment.

A package from your storekeeper will make five gallons of this great temperance drink. Truly it answers the question—What shall we drink? There are many substitutes and imitations of HIRES' ROOT BEER offered for sale which should be carefully avoided.

Testimonials:

"We have used your Root Beer for over a year and find it delicious and healthful. We would not like to be without it a single day. We find it is helping all of us.—Mrs. F. H. CLARK, 735 Chester St., Oakland, Cal., U. S. A."

"We have used over one hundred bottles of your Root Beer, drinking it winter and summer. My brother and myself are total abstainers, drinking nothing but Hires' Root Beer.—MICHAEL KELLY, 16 Water St., Waltham, Mass., U. S. A."

Blood Poisoning

is Running Sores Cave Way to Hood's Sarsaparilla.

C. I. Hood & Co., Lowell, Mass.: "Gentlemen—Thirteen years ago I was in Cour De Alene, now called Fort Sherman, Idaho. While there I went in swimming one day and caught cold, chilling the bone in my leg, causing a fever sore on my limb. The sore continued about three months, continually rotting my leg until it got up to my knee, when I had the limb amputated. My leg was so rotten that after the limb was amputated the foot dropped off. From this state I got blood poisoning and had

Thirteen Running Sores on my body. These sores continued from three to four years, my blood being in a terrible condition. After this I commenced taking Hood's Sarsaparilla. I used three bottles and found it did me good, so I kept on until I had used ten bottles or more. My blood was com-

pletely cleansed. The sores stopped running and have not troubled me any now for six years. My appetite and digestion are good and I am perfectly well. I owe my cure to Hood's Sarsaparilla." P. S. KINZIE, Washington, Vt.

Hood's Pills are purely vegetable and perfectly harmless. Sold by all druggists. 25c.

THE HOLY SEE AND ITALY.

Leo XIII. Sees No Hopes for the Re-Establishment of Peace Between Them.

LONDON, Jan. 11.—The Standard hears from its correspondent in Rome that the Pope recently, in conversing with several Italian nobles of the intransigent party and others, said: "Nothing would be more consoling to us than to see peace re-established between the Holy See and the government of Italy, and we devoutly hope that the men who are at the head of public affairs will be inspired to understand what good this peace would produce both for church and state. But false and erroneous reasons of state are likely to prevent a realization of our wishes, since it is useless to speak of conciliation if the rights of the Holy See are not acknowledged and the pontiff is not placed in a position to enjoy full liberty and independence as the basis of any agreement."

"It is true, however, that there are men of good will in the government and they have caused to be expressed to us the desire of finding means of living on terms of less hostility, although our hostility consists only in reclaiming our rights. Such good intentions must be taken into account. We cannot, however, abandon our mission. The ills to be lamented would be greatly limited if there were more stability among the men in power. Under the present aspect our position becomes more difficult and dangerous. Let us hope that Providence will place us in the position which our pastoral ministry requires. The attention with which its governors and princes surround us are proof that all feel the necessity of our absolute autonomy."

BACKED OUT OF MARRIAGE.

An Old Man Declines to Wed and Is Sued for Damages.

James Urquhart of Napavine, California, has been made defendant in a \$25,000 breach-of-promise case. The plaintiff, Miss Myrtle Blanchard of Napavine, is aged 15.

The parties came to Chehalis to get married. Urquhart had already bought an expensive wedding outfit for his intended bride, but his children persuaded him not to marry, and Miss Blanchard had the papers of the suit served upon him within two hours.

Urquhart is over 75 years old, and is one of the oldest settlers and wealthiest men of that part of the State. His children say the case is blackmail and that the girl and her family have worked several months to get hold of the old gentleman's money.

SIXTEENTH AMENDMENT.

Measure Aimed at the Sectarian Indian Schools.

Representative Linton, who has been prominently connected with the contest against sectarian Indian schools, has presented a joint resolution for a sixteenth amendment to the Constitution in the following terms: Neither Congress nor any State can pass any law respecting an establishment of religion or prohibiting the free exercise thereof, or use the property or credit of the United States or any money raised by taxation, or authorize either to be used for the purpose of founding, maintaining or aiding by appropriation payment for services, expenses or otherwise, any church, religious denomination or religious society, or any institution, society or undertaking which is wholly or in part under sectarian or ecclesiastical control.

A Great Battle

Is continually going on in the human system. The demon of impure blood strives to gain victory, over the constitution, to ruin health, to drag victims to the grave. Hood's Sarsaparilla is the weapon with which to defend one's self, drive the desperate enemy from the field, and restore bodily health for many years.

Hood's Pills cure nausea, sickness, indigestion and biliousness. 25c.

THIS CUT is a fair and comprehensive example of a cheap and un-centered lens. You think you get the same amount of relief from a cheap glass, because it may have the same amount of refractive power as the more costly. See where the above lens focuses. See the scattering of rays. As much spherical aberration in such glasses as there is aberration of the mind in an insane person; yet this is the general run of glasses you buy cheap. How long will your sensitive eye stand this strain? Why, until they are ruined entirely. Can you afford to wear such glasses, simply because they cost you a little less than the perfect? No, a thousand times, No. You could not if they were given you with a bonus. We will not sell such glasses; would not be guilty of giving them away. But we guarantee to fit every manner of complicated case with the proper and correctly ground glass, and to give perfect satisfaction.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3004 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of

NAVAL GUNS.

Information Concerning Their Size and Capabilities

It is a source of frequent inquiry, concerning the size, weight and capabilities of modern naval guns. The following will give readers a fair knowledge of the subject:

The Gatling gun will fire 1000 rounds in a minute.

The 1, 3 and 6-pound rapid fire guns can be discharged 20 times a minute.

The 4-in rapid fire gun, weighs 3400 lbs; the projectile 33 lbs; and has been fired 5 times in 17 seconds. It has a range of 4 miles.

The 5-in rapid fire gun weighs 7000 lbs; the projectile 50 lbs, and has been discharged 5 times in 24 seconds.

The 6-in gun has a weight of 4.8 tons, the projectile 100 lbs, and can be fired 10 times in 3 minutes.

The 8-in gun weighs 13 tons, and can be loaded and fired in one minute.

The 10-in gun weighs 25 tons; the projectile 550 lbs; the powder charge 250 lbs. At 2500 yards—1 1/4 mile—it will penetrate 14 inches of steel.

The 12-in gun weighs 45 tons; the projectile 850, and at 2500 yards the projectile will penetrate 19 inches of steel.

The 13-in gun is the largest used in the navy, and weighs 61 tons, the projectile 1100 lbs; the powder charge is 550 lbs. At 2500 yards 21 1/2 inches of steel can be penetrated.

A new rifle has been adopted for the navy with a calibre of .236-inch, and a velocity of 2400 feet per second. The Naval Board convened to determine upon a gun for the navy was criticized by the Army Board on account of the small calibre adopted, but the power of the new weapon is best shown by stating its point blank range—725 yards; that is, up to two-fifths of a mile a man need never adjust or look at his sights.

THE SUGAR INVESTIGATION.

One of the Indicted Brokers Taken Into Custody.

Broker Elverton R. Chapman of New York city, who with two other brokers and two newspaper men were indicted for refusing to answer the inquiries of the Senate sugar investigating committee, was placed nominally in the custody of the United States Marshal at Washington on Jan. 18. His surety, Lewis J. Davis of this city, accompanied him in order to petition the United States Supreme Court for a writ of habeas corpus.

Judge Cole immediately ordered that the bondsmen be relieved of further responsibility and the defendant admitted to the custody of Marshal Wilson. District Attorney Birney urged that the defendant be committed to the custody of the Warden of the jail, but this suggestion was overruled by the Court, so Mr. Chapman is not actually in jail.

A test case has been made out in the Supreme Court and application was to be made the following week to hear the case on petition for habeas corpus.

The exposure to all sorts and conditions of weather that a lumberman is called upon to endure in the camps often produces severe colds which if not promptly checked, result in congestion or pneumonia. Mr. J. O. Davenport, ex-manager of the Fort Bragg Redwood Co., an immense institution at Fort Bragg, Cal., says they sell large quantities of Chamberlain's Cough Remedy at the company's store and that he has himself used this remedy for a severe cold and obtained immediate relief. This medicine prevents any tendency of a cold toward pneumonia and insures a prompt recovery. For sale by Benson, Smith Co., Agents for the Hawaiian Islands.

Real Estate and Loans

The enlargement of the LOAN Market so as to cover the wants and necessities of the large number of honorable people who are not owners of unincumbered Real Estate was one of the most necessary innovations of recent years. To many it has meant relief from pressing claims at the very time when most essential. When properly and honorably conducted this business is of equally great importance and value to the community as Building and Loan Associations have proved themselves to be.

The Hawaiian Investment Co.

Makes a specialty of Negotiating and Procuring Loans for Borrowers who are unable to discount their Notes at the Banks and who do not care to obligate themselves to some friend or acquaintance by asking his endorsements to their Note. This Company will make Loans upon Household Furniture, Pianos, Organs, Horses, Mules, Wagons, Carriages and Personal Property without removing the property from the Borrower's possession. FOOTBALL GAME ASSURED.

Arranging for One Between the Local and Philadelphia Teams

Captain Chas. Crane of the local football team received a letter from Captain Olmstead of the football team of the U. S. S. Philadelphia, stating that the naval men were willing to meet any local team in Honolulu in a game or series of games of football. Captain Crane was only too willing that a series of games be played and called a meeting for yesterday evening.

At the meeting held in the rooms of the Y. M. C. A. it was decided to have the first game with the Philadelphia team on the 22d inst., and thereafter every two weeks. All games are to be played under the rules of last year, without the wedge. W. E. Beckwith's resignation as coach of the team was accepted and James Wilder elected in his place. Captain Olmstead of the warship's team was present and expressed himself as satisfied with the arrangements made and congratulated the club on the harmony and unanimity prevailing.

Its Officers Decorated With Badges - Hawaiian Branches.

There was a large attendance at the meeting of the American League held yesterday evening. After routine business was disposed of D. B. Smith and in a neat little speech presented the eight officers of the league with badges. These emblems are of very neat design and cost \$185. The presentation was not unexpected as Mr. Smith had promised them some time ago.

Other business transacted was the furtherance of the establishing of Hawaiian branches with the object of annexation. On this island eight branches will be established. Annexation is the cry of the American League and the members are endeavoring to instill the idea into the Hawaiians, hence the movement. A large number of Hawaiians have signified their willingness to sign any paper having for its object the ultimate annexation of the Hawaiian Islands to the United States.

The February Paradise.

The February number of the Paradise of the Pacific is out and copies can be had at the newsdealers. The current number is fully up to the standard. It contains a great deal of interesting reading matter and a number of handsome half-tone illustrations. Send a copy with your letter to-morrow.
