Is a Profit Maker For Merchant and Customer

"Strictly speaking, although I seem to pay my own advertising bills with money from my patrons, the man who really pays my advertising bills is the non-advertiser. He loses his share of business which I gain, and his expense of doing business is, in the main, as great as mine."—Honolulu merchant.

ESTABLISHED 1882. No. 5022. 12 PAGES.—HONOLULU, TERRITORY OF HAWAII, MONDAY, SEPTEMBER 4, 1911.—12 PAGES. PRICE 5 CENTS.

100,000 DROWNED IN FLOOD

FEDERAL REPORT ON HAWAII LABOR

Larned Is Champ

(Associated Press Cable.)

NEWPORT, Sept. 2.—W. A. Larned, national tennis champion, defended his title successfully today, winning from Maurice McLoughlin, the brilliant young Californian, in the challenge round of the championship tournament. Larned won in three straight sets, the scores being 6-4, 6-4, 6-2. Larned as usual was steady at critical moments.

PHILIPPINE MAN PLANS JOINT AVIATION

Captain Mark L. Scott, long since identified with the Manila police department, a passenger in the United States army transport Sherman and en route to the mainland in that vessel, is also a specially commissioned emissary representing the Philippine Carnival Association, and one object of his trip to the United States is to secure one or more monoplane or biplane operators who will conduct a series of flights at Manila during the reign of King Carnival, the first part of next February.

Captain Scott spent the day in Honolulu in an earnest endeavor to interest one or more local promoters in an aviation meet to be pulled off in this city, on or about a month before the exhibition scheduled for Manila.

Captain Scott hopes in this way to materially reduce the expense involved in bringing several prominent mainland aviators to the Far East. His plans include the making a contract with the very best men in the business. While in Honolulu this morning, Captain Scott sought interviews with Ed H. Lewis, Joel C. Cohen of the Honolulu Amusement Company, and he also endeavored to interest Will Adams of the Bergstrom Music Company in the venture.

Captain Scott states that J. C. (Bud) Mars made a distance hit with Manila and Mars and Baldwin came very near being made a pair of six-cylinder deities by the Japanese, in whose native land the daring little aviator created a profound sensation at the big meets held at Osaka, Tokio and other large centers of population.

Speaking of the next Philippine Carnival, Captain Scott raises his right hand and deposes that it will be the best of any similar celebration ever held under the auspices of the Carnival Association. The Philippine carnival has become a fixture in amusement circles of the Orient. A daily attendance of fifty thousand is a matter of history and the receipts have netted the stockholders a handsome profit. It is a show that is unique in the annals of the entertainment world. The carnival combines all the important features of an instructive exposition of native resources and in-

EVERY DAY LABOR DAY AT REGISTRAR'S OFFICE

Father Time, the old man who wanders around the world with a scythe, does not believe in labor unions. Mainly because he has a monopoly of the business. Labor day he absolutely refused to recognize except for the fact that it stirred him up to work.

The clerks up at the registration office for births, deaths and marriages have to keep open to accommodate the old gentleman. They never get a holiday at all. Even Sundays they stay open until noon, and today, when most people are around the city, they had to keep at it just the same.

Four deaths were recorded, the various people having met the old man with scythe between half-past two o'clock Saturday last and noon today. One of them died today.

HAWAIIAN LABOR CONDITIONS BEST

DR. VICTOR S. CLARK, WHOSE REPORT PRAISES LOCAL LABOR CONDITIONS.

"The condition of plantation workers in Hawaii is probably better than in any other tropical country in the world where colored races are employed; and from a purely economic standpoint better than in any other insular tropical country inhabited by white people."—Dr. Victor S. Clark, in fourth report of commissioner of labor on Hawaii.

That Hawaii is making a sincere effort to build up a country of white settlers; that plantations are improving the conditions of the labor now here and that, as a whole, the labor of the Islands is well off, are some of the conclusions drawn by Dr. Victor S. Clark, commissioner of immigration and statistics, in a comprehensive review of economic and industrial conditions in the Territory.

The volume, which is the fourth report of the commissioner of labor, has just been issued in Washington. Extracts from it have been given publicity from time to time, and particularly some months ago, the fact that Dr. Clark and Commissioner Keefe did not agree as to the condition of labor here. An advance copy of the volume has been received here, and the Bulletin gives below a brief summary of some interesting points made by Dr. Clark on the labor situation.

Dr. Clark has subdivided his chapter on labor conditions in Hawaii into nineteen sections, and deals with each one of these fully. Nine of them are devoted to the sugar industry alone, and with most of them he has given tables bearing out what he has to say. The Japanese strike is reviewed in full and he draws some interesting conclusions from it. The volume is one of the most comprehensive that has over

(Continued on Page 2)

LOW FAVORS HIGH PRICED CAR

The highest priced motor-driven chemical fire engine may be selected by the fire committee of the city and county supervisors when a decision is reached within a few days.

This committee includes Supervisors Low, Arnold and Murray. Murray came forward at a recent meeting of the board and declared that, inasmuch as he was connected with a local firm which was in the market with a motor fire truck, he would not participate in the selection of the machine.

Supervisor Low, it is understood, favors the purchase of a Knox motor chemical engine, represented in this city by the Royal Hawaiian Garage. This machine is the costliest piece of apparatus listed in the tenders received by the city fathers at the calling for bids. A Knox machine was offered the city at $5960, or two at $11,920.

The Packard engine was offered by the von Hamm-Young agency at $5255, or two at $10,511, effecting a saving to the city of $605 on one machine or $1,419 in the purchase of two machines.

Knox People Are Active.

It is believed that the representatives of the Knox engine are prepared to "slip one over" their competitors in the race for supremacy and patronage. According to opinion heard along "gasoline row," the agents for the Knox are supposed to have cabled for one machine for immediate delivery at Honolulu. It is claimed that that move presages an early purchase in that an abundant opportunity would be offered to try out the Knox and test its abilities as a fire-fighting machine, while in a consideration of the other makes the city fathers would necessarily have but the recommendations and printed statements of the makers as found in the circulars and catalogues for their guidance in making a selection.

The board will meet in regular session tomorrow evening and it is safe to say that the matter of deciding upon a chemical fire engine will be brought to the fore.

Local Agents Demand a Hearing.

The several automobile dealers in the city are justly indignant at the rumor that the bids submitted by them in good faith may be thrown out and an award made for a machine which is to cost the municipality some six hundred dollars more than a machine offered by the lowest bidder.

Much pressure will be brought to bear upon the supervisors to call a special meeting of the local representatives of motor chemical engines. The

GOTCH IS WINNER

(Associated Press Cable.)

CHICAGO, Ill., Sept. 4.—Frank Gotch, champion wrestler of the world, today defeated George Hackenschmidt, the Russian Lion, in two straight falls at American League Park before one of the largest crowds that ever witnessed a wrestling match. Gotch tossed the Russian in 14 minutes 18 1-5 seconds for the first fall and 5 minutes 52 1-5 seconds for the second fall. Thirty thousand people saw the struggle.

The Gotch-Hackenschmidt match today was the second these two great wrestlers have engaged in. Gotch tossed "Hack" in two straight falls on their previous meeting. Gotch weighed about 220 pounds today and Hackenschmidt 230.

MAY ARBITRATE RAILROAD FIGHT

(Associated Press Cable.)

SAN FRANCISCO, Cal., Sept. 4.—Prospects today point to a possibility of arbitration between the Harriman railroad lines and the unionists, after the big labor parade here today.

During the day Samuel Gompers, president of the American Federation of Labor, spoke at Oakland Park before a big crowd of people.

FRANCE TAKES HEIGHT HONORS

(Associated Press Cable.)

PARANE, Fr., Sept. 4.—Aviator Carros today set a new altitude record for aeroplanes, reaching a height of 13,945 feet.

One of the first altitude records of any consequence was made by Morane on September 4, 1910. He went up to 7471 feet. This was beaten by Chavez, who touched the mark at 8795 feet four days afterwards, the flight being made at Paris.

Then on October 1 Wynmalan sent his machine up to 9191 feet. Legagneux on December 9 was the first one to reach the five-figure limit and registered 10,499 feet. Archibald Hoxsey jumped it up to 11,474 feet at Los Angeles on December 27. This was beaten again at Chicago during the past month by Lincoln Beachey, who recorded 11,578 feet on August 21.

NOT A FAMINE BUT NEW PIPE

Residents of Manoa and College Hills are not face to face with a water famine as stated in the morning paper, for, according to Manager Winchester of the Makiki Reservoir, the trouble has been caused through the putting down of a new water pipe.

This work necessitated cutting off some of the supply, and naturally enough the residents thought they would have to face a famine. The holiday coming along today makes the delay a little longer, but he hopes that the pipe will be fixed by tomorrow and that the water will once more flow through the mains as of old.

Meanwhile all that the valley and hill folks have to do is to wait patiently until the pipe is down.

Conrad, the four year old son of Amidie Fournier, of West Springfield, Mass., met death in his father's barn while playing with matches.

TERRIFIC FLOOD ALONG YANGTSE

(Associated Press Cable.)

HANKOW, China, Sept. 4.—One hundred thousand people have been drowned in a great flood in the Yangtse river. The loss of property is enormous. The floods have inundated hundreds of square miles of country and are sweeping everything before them.

Rev. Ebersole Scores Astor-Force Wedding

In declaring the approaching matrimonial alliance of Colonel John Jacob Astor of New York City, and Miss Madeline Force, a public outrage against decency, the Rev. Amos A. Ebersole, assistant pastor of the Central Union church last night added his quota to the indignant protests that have gone up from pulpit and press since the announcement of the engagement of the couple.

Rev. Ebersole spoke at some length on the demoralizing tendencies of so-called "high society" life and cited the Astor affair, as one of many, yet of such prominence in the world of news as to serve as an excellent example of the unworthy aims resulting from an atmosphere of this character.

Rev. Ebersole spoke pityingly of the young bride-elect, whom he termed "a poor weak girl of insufficient moral stamina to be capable of turning down the alluring prospect of great wealth and the superficialities it will buy."

He quoted as follows, from the Rev. George Chalmers Richmond, rector of St. John's Episcopal church, who declared that Col. Astor would not find one Episcopal clergyman in America or England who would perform his wedding ceremony:

"The Episcopal church is opposed to divorce," said the rector. "We abhor this Astor alliance. It is unholy in its origin and its end will be a defiance of God's laws and of our holy religion. We need a national uniform divorce law which will put an end to this overriding of court decrees by such men as John Jacob Astor and the social set with whom he associates.

"So, today I denounce from my pulpit this coming Astor Wedding. It is an outrage on common decency. It arouses all our moral anger. Mr. Astor will be socially ostracized by the best people the minute he contracts the bargain already made.

"It is a marriage of convenience. Astor wants another beauty. The poor, weak girl of 18 or 20 wants yatchts, and opera boxes will afford her a chance for social exploitation. Our girls and women are money mad. Lucre rules among the avenues of the smart set."

Rev. Richmond is said to be the pastor of the church which the Astors attend.

JAPANESE BUSINESS MEN CHARGE DISCRIMINATION IN MAILS HERE

Local Oriental business men, and Japanese merchants particularly, are preparing a vigorous campaign to get better service from the local postal authorities. Disregard of their interests and discrimination against mail from the Orient and in favor of mail from the coast, are charged by members of the Japanese Merchants' Association. They say they want better service and no favoritism.

It is charged this last Monday the Pacific Mail liner Persia reached port from Japan two hours before the liner Mongolia came in from the Coast. The Japanese say that the Oriental mails were not brought from the Persia until after the Mongolia mail had been brought ashore and distributed.

As a result, the merchants are preparing a petition to Postmaster Pratt, asking a change in the rules, and say that unless the policy of "first come, first served" is carried out impartially, they will appeal to the Japanese Ambassador at Washington for redress through the postmaster general. It is pointed out that Japanese merchants

(Continued on Page 4.)

HALF-MILLION BREAKWATER JOB HANGING ON QUARRY SITE

The half-million-dollar Hilo breakwater contract from present prospects depends upon the location of a good rock quarry. Local contractors are now doing some quiet but deep and hard maneuvering to get a site that will furnish the rock for the breakwater work at a figure that will enable them to put in a reasonable bid.

In fact, the quarry question may settle the winner of the contract. Bids are to be opened for the big job next Friday in the office of the U. S. army engineer here. One contractor says, "The man that gets his rock quarry cheapest is the man who will land the job."

Failure of several prospective quarries to pan out as was hoped of them has put the bidders somewhat up in the air. The Lord-Young Engineering Company, which is doing the present breakwater work, located one quarry and then after spending a considerable amount of money had to get another quarry, not finding the rock suitable. And getting quarries anywhere near the breakwater work will not be an easy matter.

Several contractors venture the prediction that before the Hilo breakwater work is finished, it will be found necessary to use cement blocks in place of rock. The trouble is not with the quantity of rock available, but with the quality. From sixty to ninety per cent of the rock quarried is waste or "mush" and is useless for the breakwater. Together with the difficulty of getting good rock and the cost of transportation, it is figured that cement blocks can be laid as cheaply as the quarried material.

LOWRIE-BALDWIN ACTION NOW SHIFTED

Center of Interest In Famous $400,000 Suit Soon In Boston.

WHAT H. P. BALDWIN SAID IS VITAL POINT

Plaintiff's Attorneys to Bring Out Statement In 1901 That Plantation Was On 50,000-Ton Basis.

Complete so far as action in Hawaii is concerned, the center of interest in the noted Lowrie-Baldwin case will shift in a few weeks to Boston. Counsel for the plaintiff and defense have agreed to argue the famous case in November.

The three weeks allowed by order of the Massachusett's court for taking depositions in Hawaii closed last Wednesday, but Commissioner J. W. Jones took depositions for two days longer, as the defense had several witnesses it wished to call. Col. Jones estimates that the evidence taken here during the last three weeks will run between 450,000 and 500,000 words, and this is only part of the vast mass of statements, figures and data that are of record. It is a monumental case from the standpoint of words, at least.

The hearing of the depositions here have been kept absolutely secret by order of the eastern court, but some surprising facts have been brought out as to the history of Hawaiian Commercial and the various clashing interests that finally led to the dismissal of Lowrie.

Baldwin's Statement.

The suit was brought by W. J. Lowrie, former manager of Hawaiian Commercial plantation, against the late H. P. Baldwin and the Castles for $400,000, and a written statement

(Continued on Page 4)

WOMAN NEARLY KILLS CHINESE

"Unconscious and may not recover" is the verdict of physicians at the Queen's Hospital today, after an examination of Chun Ah Heong, a Chinaman, who was badly beaten this morning by a Russian, Nikidoroff, and his wife.

Early this morning a report was received at the police station that a Chinaman was being brutally beaten by a Russian on Aala lane, near King street. Captain Neilson dispatched Police Officer Poha to the scene, and on arriving Poha found the Chinese unconscious on the floor. After inquiry, he arrested Nikidoroff and his wife and took them to the police station.

Chun Ah Heong, bleeding, was taken to the Queen's Hospital, where he was attended to by the physicians. At 12:30 o'clock this afternoon his chances for recovery are short.

It appears that early this morning Chun Ah Heong, who has a room in a tenement house on Aala lane, near King street, was washing on the ground floor.

Nikidoroff, who has a room directly above Chun Ah Heong, wanted water at the same time for cooking. He called out to Heong, below, to shut off the water. The Chinaman, according to the police, shut off the water, but another person in an adjacent room just then opened the tap and began to use water. Nikidoroff, who thought that Heong was still using the water, came downstairs and started arguing.

Nikidoroff lost his temper and, picking up a long iron bar from the floor, attempted to strike the Chinaman with it, but Heong got hold of one end of

PERSONALITIES

HARRY BAILEY is reported to be seriously ill.

T. J. FITZGERALD, returned Saturday after a few days spent on the big island.

MAJOR TIMBERLAKE is away for the week end and will return tomorrow.

MISS JANE FAIR, with the Municipal Board of the City of Manila, as clerk, is making a tour to the United States as a passenger in the Sherman.

COLONEL HODGESON, Chief Quartermaster, U. S. A., stationed at Manila, is among the through passengers en route to San Francisco in the transport Sherman which called at Honolulu today.

WILLIAM H. SMITH, drum major in the Twentieth Infantry band, was an arrival from the Philippines in the United States army transport Sherman this morning.

COLONEL WILLIAM C. RIVERS, long identified with the Philippine Constabulary, is returning to the mainland as a passenger in the United States army transport Sherman, which called at Honolulu today.

F. J. LOURIET has purchased a tract of land at Manoa Valley and will erect a pretty bungalow at once. He is an author of some note and has concluded to become a permanent resident of Honolulu.

CAPTAIN RAYMOND S. PRATT, of the First Field Artillery, and Mrs. Pratt and child, were passengers in the United States army transport Sherman, arriving from Manila who left the troopship at this port.

JOSEPH C. SOUZA, who has been connected with the registry department at the postoffice for a number of years, has resigned and will accept a position with the Island Investment company.

ANTONIO DE LA MORA, is chief musician and leader of the Twentieth Infantry band of nineteen pieces, which arrived at Honolulu this morning in the United States army transport Sherman. The organization has been stationed at Manila and will remain at Honolulu for some time to come.

COLONEL WILLIAM T. WOOD, of the Nineteenth Infantry, is the ranking officer on board the United States army transport Sherman, which is en route from the Philippines to San Francisco. Colonel Wood has completed his tour of duty in Uncle Sam's fartherest possession. He is accompanied by his wife and daughter.

MARK L. SCOTT, Captain of the Manila police department, is a through passenger in the Sherman, bound for the mainland where during a six months' vacation he will represent the Philippine Carnival Association. Captain Scott has studied the carnival game for the past three seasons and has been a prominent factor in the success of the big show, which is now a recognized annual event in the Far East. Captain Scott is accompanied by his wife on the tour.

LOCAL AND GENERAL

St. Andrew's Priory will open next Monday, September 11.

Tuesday and Wednesday, Mrs. Taylor will make a special showing of fancy geraniums in Young building, you are invited. **

The three-roomed shack that has occupied the waterfront corner of the old fishmarket lot is being demolished.

Owing to Major Timberlake being away and the fact that today was a holiday there was no gun practice at Fort Ruger. It will be resumed through the week however.

The juicy steaks and roasts sold at the Metropolitan Meat Market are better than those sold on the mainland at higher prices. Ring 'phone 3445.

Persons who wish heavy materials, machinery, etc., hauled will do well to consult the Honolulu Construction & Draying Co., Robinson building, Queen street.

Genuine Persian Angora kittens will be on display in A. B. Arleigh & Co.'s window on Hotel street on Friday and Saturday of this week. They are pure white in color with long silky fur and a beautiful house ornament. Bred from pedigreed stock in Honolulu. *

News has come through the Manila papers that Dr. H. D. Gibbs, of the Philippine Bureau of Science, believes from experiments that good sugar can be obtained from the sap of the nipa palm, a matter that has been discussed in Hawaii frequently.

Chinese and Japanese merchants are preparing to petition the postal authorities requesting better service in the transportation of mails between Oriental steamers arriving here and the postoffice, on the grounds that much business will be facilitated.

The Pinectar Sales Co., Ltd., of this city was awarded a gold medal, a blue ribbon award and a cash prize for their Pinectar Syrup and the carbonated drink made therefrom at the recent California State Fair held at Sacramento. 41,000 bottles of the carbonated water were sold within the three days of the fair. *

Shipping

Sherman Making Short Stay.

A musical organization of no mean ability is the Twentieth Infantry band which filed down the gangway of the United States army transport Sherman upon arrival of the troopship from Manila by the way of Nagasaki, Japan, this morning.

The Twentieth is made up of twenty-one men including the chief musician and drum major. The band will remain here for some little time before resuming the journey to the mainland.

The Sherman departed from Manila on August 14th and therefore avoided a series of severe typhoons which caused sad havoc to a lot of shipping along the Philippine, China and Japan coasts. The army boat was in safe haven of refuge during the storm which prevailed a week or ten days before departure from Manila.

The Sherman is not crowded though the first cabin list is quite a formidable one. On board and en route to homeland are a number of prominent officers in the army. There are no regular organizations on board the list being made up of casuals of the army and navy and marine corps, together with a number of sick and discharged soldiers as well as 25 military prisoners and seventeen casuals making a total in the troop quarters of 359.

The Sherman will receive dispatch for San Francisco at five o'clock this evening and will probably be given a later mail for the mainland. Colonel Wood of the Sixteenth Infantry is the ranking officer on board.

Wilhelmina Has Hundred Passengers.

The Matson Navigation liner Wilhelmina is scheduled to arrive at the port at an early hour tomorrow with one hundred cabin passengers who embarked at San Francisco. The Wilhelmina will come to dock at Hackfeld wharf where 3460 tons general cargo including three automobiles and 75,000 brick will be discharged.

A late wireless received at the office of Castle and Cooke was to the effect that the Wilhelmina was 821 miles off the port at eight o'clock on Saturday night steaming through fine weather and smooth seas. It is the present intention to dispatch the vessel for Hilo on Thursday evening. In addition to the cabin passengers, it is reported that the vessel is bringing down eight passengers in the steerage, also 102 packages of Wells Fargo Express matter. Nothing is said about mail so it is inferred that the American Maru leaving San Francisco at about the same hour was given the consignment intended for the Hawaiian Islands.

Flint Writes Optimistically.

Ex-Senator Frank P. Flint has written Secretary Wood of the Promotion Committee concerning the likelihood of many large liners calling at Honolulu in the event of the opening of Panama canal. Among other things he says:

"In reference to the plan I have suggested of having the large steamers of the Atlantic make a trip through the canal to the Pacific, I desire to say that personally I will be very glad to have them also make a trip to Honolulu. I simply called attention of the Panama Exposition Company to this matter and am not advised as to whether they have taken any action. I am very much in hopes that they will make some such arrangements."

Quiet Day in Inter-Island Shipping.

No freight was received at the several wharves of the Inter-Island Steam Navigation Company today, but tomorrow gives promise of being a lively day along the local waterfront. Five steamers are on the boards for departure to a wide range of ports. The Likelike is on the berth for Mahukona. Kawaihae and ports with plantation supplies and is to get away at noon. The flagship Mauna Kea will presumably get away for Hilo and way ports at her regular ten o'clock schedule. The little Noeau on the Kauai run is listed for departure at five o'clock, followed by the Mikahala for Maui, Molokai and Lanai ports and the steamer Kinau for Kauai ports at the same hour.

Wilhelmina Reports.

The following wireless message has been received by the Agents of the S. S. Wilhelmina, bound for Honolulu:

S. S. Wilhelmina, at Sea, Sept. 2, 1911, 8 p. m.—821 miles off port.

For Honolulu: 100 cabin passengers, 8 steerage passengers, 3460 tons cargo, 102 packages Wells Fargo Express matter, 3 automobiles, 75,000 bricks.

For Hilo: 775 tons cargo.

Fine weather, all well. Will arrive Tuesday, daylight. Ship docks at Hackfeld wharf, and sails for Hilo on Thursday evening.

Sierra on the Way.

The Oceanic steamship Sierra with passengers, general cargo and mails departed from San Francisco at noon on last Saturday and is believed will maintain the regulation speed to insure her arrival at daylight on Friday morning. The steamer Hall usually sailing for Kauai ports on Thursday will be held until Friday pending the arrival of the Sierra.

Alaskan on the Way.

The American-Hawaiian freighter Alaskan with general cargo for the Islands a portion of which was transhipped at Tehuantepec, is due to sail from Seattle for Honolulu on Wednesday. According to a late cable received at the local branch of the Merchants' Exchange the Alaskan sailed from San Francisco on last Friday.

Nitrates for the Islands.

A shipment of nitrates is understood to be on the way from Callao in the schooner Forester which is reported to have sailed from the South American port for Honolulu on last Friday.

Succulent Terrapin by the Kinau.

A number of fine turtles were received at the port as part of the list of supplies brought here in the Inter-Island steamer Kinau. In addition to this toothsome delicacy, the vessel returned to port wit ha large miscellaneous cargo including 3763 sacks sugar, 162 sacks taro, 15 bales hides, 20 crates alligator pears, 4 crates chickens and 150 packages sundries.

Newsboy Has Reached the Coast.

The barkentine Newsboy has arrived at the coast according to a cable received by the local branch of the Merchants' Exchange from Grays Harbor. The vessel sailed from Honolulu on August 9th and arrived at the lumber port yesterday.

For Hamakua Ports.

The Inter-Island steamer Helene is on the berth to sail for Hamakua ports including Laupahoehoe at noon Wednesday. The vessel will carry a goodly shipment of lumber and fertilizer.

Sugar on Kauai.

According to Purser Kent of the Inter-Island steamer Kinau the following sugar awaits shipment on Kauai: M. A. K. 64,492, K. S. M. 3750, V. K. 1150, M. S. Co. 500, K. S. Co. 1600, K P. 11,662, G. & R. 1350, L. P. 8895.

Helene Is En Route With Lumber.

The American schooner Helene with lumber consigned to Allen and Robinson, sailed from Grays Harbor today, destined for Honolulu.

PASSENGERS BOOKED

Per stmr. Mikahala, for Maui and Molokai ports, Sept. 5—J. N. S. Williams, Miss M. Nevin, Mrs. Ferdner.

HAWAIIAN LABOR CONDITIONS BEST

(Continued from Page 1)

been published on the industrial and economic situation here.

General Conclusions.

At the end of the chapter Dr. Clark makes some interesting general conclusions as to the situation. He says: "The legal and social condition of labor employed in Hawaii appears to have improved during the past five years. The economic condition of many classes is better. Wages of common laborers (males) on the plantations have risen on an average 11.1 per cent. The cost of staple articles of food has increased 12.9 per cent. But certain items of expenditure do not affect plantation employes who constitute the bulk of the labor here studied, they being provided by the employer with fuel, medical attendance, house rent, etc. Housing conditions have improved on the plantations without increasing the cost of living for the laborer.

"The condition of urban laborers, shown by the study of the cost of living and the wage schedules gathered in Honolulu, is not below normal. In general unemployment is not serious—and forced unemployment of manual workers, whether skilled or unskilled, for any considerable period is very uncommon.

"The position of the Oriental in the economic life of the Territory is more important than five years ago, because it is more securely established. The property holdings of people of these races have increased much more rapidly than the population. Their competition has extended to a greater variety of occupations and is backed by larger and more varied resources, both of skill and capital. On the other hand, this population is less shifting than formerly, has a rising standard of living, and is pressing more for higher wages and better terms of employment. The Oriental population promises by natural increase far to outstrip all other elements of the population, and upon this increase immigration restrictions are not likely to have determining effect. Some unpredictable change in population movements may reverse present tendencies, and the next decimal census may show a smaller number of Orientals than at present. But up to date there is no indication of such a change. The smaller proportion of Japanese working on plantations is about compensated by the increase of Filipinos, and it will take a series of years—until the field of employment sought by the Hawaiian-born Oriental population that will within a few years reach working age is ascertained—to settle the probable constitution of the future plantation force.

Want White Settlers.

"Meantime a bona fide effort is being made by the Territorial government, backed by the large employing interests, to settle a larger proportion of Caucasian workers and settlers in Hawaii. It is doubtful if any large industry upon the mainland has in the past been willing to disregard the economic demand for cheap labor, in consideration of what are at least partly civic motives in securing more costly labor to the same extent as have the Hawaiian planters. They are willing without reserve to employ all the Caucasian workers the government can bring to the Islands at a wage one-third higher than they pay for nearly as efficient labor brought from Asia.

"Little progress has been made in settling American farmers in Hawaii. Recent changes in the land laws may remedy this to some extent. The Territory has now under consideration a public marketing department to handle produce and promote markets for small farmers." This last fact has now, of course, become an established thing or will as soon as Expert Starrett arrives.

Wages.

Taking them on an average of all races, the salaries of the overseers and field bosses are on the increase, he finds. The report says: "The salaries of overseers and field bosses, like day wages, are increasing. This is in spite of the fact that Portuguese, part-Hawaiians, and in some instances Orientals, have now qualified themselves for such positions. These men are willing to serve for a lower salary and perhaps get along with workers of their own nationality better than would a white man."

In the matter of skilled hands on the plantations, a table given shows that the proportion of Orientals has risen and the rate of wages has fallen during the past five years. "The latter is contrary to what has occurred in other classes of plantation work, a [illegible] increasing employment of Orientals in skilled positions has not only lowered the average of all workers in this class, but also the average wage of each non-Asiatic race considered separately."

Plantation Wages.

Referring to plantation labor, he says: "There are no reliable means of knowing, taking into account the cost of living as well as actual wages, the economic condition of Hawaiian workers is improving slower or faster than the condition of workers upon the Pacific Coast. But there is no immediate prospect that conditions in these two places will be equalized. The differences of industries, traditions and race are too great.

"However, a comparison of Hawaiian conditions with those of California is hardly a fair one. More properly Hawaii should be compared with other tropical and insular countries having similar industries. Yet this comparison must be conditioned by important distinction. Without attempting either to confirm or deny a casual relation between the two facts, there is no cane-producing country outside the American tariff are where sugar is so highly protected as in Hawaii. There is no important sugar cane region except Queensland and Cuba where the rate of wages is so high for common field labor as in Hawaii. The condition of labor in Hawaii is better than in Madeira and the Azores—white labor countries—for the Territory is now drawing its main supply of immigrants from those islands. Wages are higher than in Porto Rico, and the material environment of labor is better than in most parts of the West Indies."

Immigration and Settlement.

Dealing with this, the report says: "The total effect of the restrictions upon Oriental immigration into Hawaii will probably be to hasten the formation of a native mixed race of preponderant Polynesian and Mongolian derivation, but with an easily traceable Caucasian strain. The Chinese element promises to be largely absorbed in this way within another generation. Isolated instances of the intermarriage of Japanese with Portuguese and mestizos indicate the beginning of a tendency likely to increase with longer race contact. It is not impossible that the sentiment of Oriental laborers in Hawaii will soon be not altogether adverse to such restriction of Asiatic immigration as will enable the local workers to maintain higher wages. Occasional instances of this sentiment already manifest themselves.

"Meantime the planters' association has been recruiting labor in the Philippines, not without success, and upon the whole probably to the advantage of the Filipinos. The better pay offered in Hawaii is sufficient when backed by free passage and other inducements, to draw labor away, even from Manila and Philippine planting districts, where the supply of workers is hardly sufficient for local needs. Voluntary labor immigration from the Philippines to Hawaii may in time follow, as the financial and commercial relations of the two countries are growing closer.

"The real present desire of the people of the Territory is to attract and to retain as permanent settlers immigrants of Caucasian stock who will become citizens. Political considerations on one hand, military considerations more or less remote on the other, and more powerful than either (with those whose chief concern is as employers), a desire to rid once and for all of the constant expense and trouble of seeking labor away from home in the face of the growing legal and economic obstacles, have created this sentiment in favor of an immigration policy different from that pursued in the days of contract labor. An added inducement for plantation laborers to diversify and increase the Caucasian labor force was the strike of Japanese field workers in 1909."

Strikes.

Summarizing as to the Japanese strike and the likelihood of another breaking out, he says: "A strike conducted on exclusively national lines can hardly succeed in Hawaii. Employers are too well organized, disciplined and financed. Probably no one nationality will ever again constitute so large a part of the plantation force as did the Japanese in 1909.

"Meantime the introduction of bonuses, which are practically conditional preferred payments, forfeitable by striking, and cultivation contracts, which give each laborer a property interest in the cane which he can maintain only by constant attention to its cultivation and prompt harvesting and manufacture at maturity, will probably divide plantation hands into two classes, the more influential and ultimately the more numerous of which will be opposed to labor conflicts."

A Saving Principle

100 PER CENT BETTER CIGAR VALUE FOR YOU.

Were we to make our cigars in Cuba, we'd have to double the present prices to meet the duty. So we have part of our establishment in Cuba and part in Tampa, where Cuba's climate prevails.

Our experts, on the ground, get the pick of the choicest Havana leaves grown.

These we mellow into rare aromatic flavor on native soil in our own warehouses.

Then, in Tampa, the final touch of Havana perfection is given in the deft handiwork of skilled Cuban cigar-makers.

Thus we lose nothing of the Imported's perfections, while we save the import duty.

And this saving goes into the cigar—goes to the SMOKER instead of the government—a principle to which is due the superb quality, the unrivaled values of

PARIS MEDICINE CO., St. Louis, U. S. A.

SUNDAY IN THE CHURCHES; PASTOR SCORES POLITICS

Declaring that American citizenship is affected with a disease which he was pleased to term politicitis, and which he says has gained an alarming headway in Hawaii, the Rev. Amos A. Ebersole, assistant pastor of Central Union church, took occasion to express several radical views on present-day conditions during the course of his sermon last evening.

Rev. Ebersole deplored the increasing number of men who neglect their families and even sell their honor for the privilege and so-called distinction of holding a political office for a little time. He declared that in Hawaii the state of affairs along this line is disconcerting to one who looks on from the outside, and who has the public welfare at heart.

"I have often thought it would be interesting to know the exact number of men here in Honolulu who are either in political jobs or are 'hangers-on,' waiting for positions of that sort," he said.

In discussing the subject, Rev. Ebersole declared that the commission form of government is, in his opinion, the best way out of the present system.

The minister took as his text, "What Seek Ye?" He spoke also in scathing terms of the Astor-Force nuptials.

Susannah Wesley Home to Open.

The Susannah Wesley Home, the school for Koreans and Japanese conducted under the auspices of the Methodist Episcopal church, will open for the fall term in about a week. The Korean compound, which is also financed and directed by the M. E. church, will begin its fall activities about the first of October.

The Woman's Board of Central Union church will begin its new year of work on Tuesday at 2:30 p. m. in the chapel. The program will be in charge of Vice-President Mrs. A. C. Alexander and Mrs. Doremus Scudder will preside. The literary topic for the afternoon will be presented by Miss Frances Dillingham, president of the College Club, and is entitled, "The Early History of Women's Missionary Societies and Early Representative Women Missionaries."

It is hoped that Dr. Dunning of Boston, known on three continents as the able editor of The Congregationalist, will be present and speak. Also Rev. W. B. Oleson just back from the mainland, will give some "Echoes From the World in Boston."

Pastor Returns.

The Rev. and Mrs. Amos A. Ebersole have returned from their vacation showing the fine effects of a two months' rest. Except for next week, when the minister will be in harness also, the assistant minister will have charge of the pulpit during the month of September. Next Sunday morning Rev. Dr. Albert E. Dunning, editor of The Congregationalist, of Boston, a preacher of eloquence and one of the great leaders of world Congregationalism, will preach at Central Union. In the evening Rev. Dr. Allen E. Cross, associate pastor of the Old South church, Boston, will probably consent to speak, making this a red-letter day in church life. Both of these guests are members of the round-the-world party expected here this week and next.

Dr. Ryder Says Farewell.

The following letter of farewell from Dr. C. J. Ryder, who spoke at Central Union church last week, will be of general interest:

"Dear Friends: My stay with you has been so delightful that I desire to speak this word of farewell as I sail away. I thank you each and all for your manifold kindnesses. This month of service and privilege has left bright and fragrant memories. My appreciation of the profound problems which you face and are bravely and wisely solving has been greatly increased. You face conditions that every patriot and Christian must deeply appreciate. Your problems are world problems and you are courageously solving them. I thank you for giving me this chance to have a brief touch with you in this great work. Sincerely yours,

"C. J. RYDER."

"Ladies' Night."

In accordance with a plan to have the first Wednesday evening of each month "ladies' night" at the Methodist Episcopal church prayer service, an interesting program has been prepared by the women for this week. Miss Drummond will be the leader. The various leaders are free to choose their own subjects, and some innovations will doubtless be introduced during the fall and winter months.

Guild Meeting.

The regular meeting of the Epiphany Guild will be held at the residence of Mrs. T. W. King tomorrow afternoon.

MRS. G. F. RENTON, wife of Manager Renton of Ewa, was a passenger for the coast in the Korea.

A Tonic Free from Alcohol

Are you pale, weak, easily tired, and do you lack nerve power? Ask your doctor if Ayer's Sarsaparilla would not be good for you. He knows, and will advise you wisely. Not a drop of alcohol in this medicine. It puts red corpuscles into the blood, gives steady, even power to the nerves; and all without stimulation. Make no mistake. Take only those medicines the best doctors endorse. Ask your own doctor.

Ayer's Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

REPORTED JUMP IN HON. OIL

With practically every broker celebrating labor day away from his office, and no banks or business houses open, the stock exchange closed and the sugar market dead, the market generally could hardly have been duller today. However, there was some activity in Honolulu Consolidated Oil, one unconfirmed report being that a block was sold this morning at 1.80. This is a big jump from the $1.65 of last Saturday, but there is much demand for it, and already the brokers are looking for a return to the prices that prevailed a few months ago.

DIABETES MELLITUS

Patient—Joseph Allen, Manufacturer, Collingswood, New Jersey.

Case—Diabetes Mellitus.

Diagnosis—by four physicians. Said the patient could not recover.

Condition—extreme, weight reduced from 210 to 150 lbs. Could hardly think, sleep or talk. Could not attend to business. The physicians were giving opium to keep patient comfortable until the end came.

The recovery of a wealthy lady in Philadelphia who was also in the last stages of the disease caused the treatment to be changed.

A fine recovery resulted. This was all five years ago. As showing the permanence of the results obtained Allen is still well and attending to his manufacturing business at this writing (1911).

The agent employed in both cases was Fulton's Diabetic Compound.

Diabetes is now a curable disease in people of middle age and over who have recuperative power.

The Compound can be had in your city at the Honolulu Drug Co.

We will mail literature from this office and desire to advise with every case not yielding. Start letters with the age. John J. Fulton Co., 645 Battery St., San Francisco.

GATES LEAVES BIG ESTATE.

NEW YORK.—The will of John W. Gates will be probated in Port Arthur, Tex., where the financier made his residence. It is understood that the bulk of the property will go to Charles Gates, his son. The fortune is estimated at between $40,000,000 and $50,000,000.

The body of Edwin A. Abbey, the celebrated American painter, was cremated and the ashes buried at Kingsbury Old church, near Willesden, England.

During the Hot Weather You Need a Healthful Beverage

Primo The Beer That's Brewed To Suit The Climate

TIMBER CASE MAY BE DROPPED

From present prospects there is a good chance of the case of malicious injury, brought against Manager Pia Cockett and four Japanese of the Cornwell Ranch, being dropped. Attorney-General Lindsay is now at work upon an interpretation of the law as to whether an algaroba tree is or is not timber within the meaning of the Hawaiian laws, but even should he decide that it is, and the Cornwell Ranch Company therefore be proved to have been cutting timber on lands soon to be homesteaded, legal experts think the case can not stand as one of malicious injury.

Under the Hawaiian statutes malicious injury must clearly include an act done with malice, and in this case the arrested men have the strong defense that they were proceeding under authority of a lease which does not terminate until November 1 and which expressly gives them the right to cut timber without waste.

The case has been continued and will not be taken up again until some time in the future, practically at the convenience of the attorneys for the defense. E. M. Watson, of counsel for the defense, has returned from Maui. The case was set for tomorrow, but will be again continued.

DISCUSS PLANS TO FIGHT WORM

A meeting of the Hawaiian Cotton Growers' Association was held Saturday afternoon in the Commercial Club rooms to discuss steps to campaign against the threatening boll-worm. Vice-president E. C. Smith presided at the meeting, and reports from members of the special committee in charge of the raising of a fund of $3,000 were that prospects are bright for securing that amount. With the fund, an entomologist will be sent to India to look for a parasite.

During the meeting there was a discussion of cotton prospects in the islands in general. Probably a thousand acres are planted to cotton now in the islands and the future of the industry is bright particularly if the boll-worm is destroyed. Several cotton-growers, however, say that with careful cultivation and cutting, the boll-worm's ravages can be held to ten per cent of the crop.

Attorney-General Lindsay is to send a letter to Maui on tomorrow's boat with his legal views on some phases of the matter, and a wireless from him caused a postponement of the hearing. In any case, it seems probable that the charge of malicious injury will not be allowed to stand.

WAIALUA TO BE CLEANED U

President of the Board of Heal Dr. J. S. B. Pratt left this morni with General Health Officer Dr. win J. Shepherd for Waialua, whe they make an investigation of son of the premises down there.

They will also take up the matt with the local physician, Dr. Woo and will map out a plan of campai with him for the district. Some the places are in a rather bad cond tion and President Pratt intends have them cleaned up.

SECRETARY WILLIAM E. BLA of the Board of Protests and Appea connected with the Philippine Isla Customs service, is a through pa senger in the Sherman bound for U States where he will spend the b ter part of six months at his o home.

ONDAY .....SEPTEMBER 4, 1911

Duty, be it a small maatter or a eat, is duty still, and it is only they ho do their duty in everything and ivial matters who fulfill it on great casions.—Charles Kingsley.

"Marry as soon as you can" is the vice that Dr. Wiley has given to e young ladies of the country. That ay be why he has been in so much ouble lately.

Again the bids for the structural n of the Judiciary building are stponed, and Manoa is crying for ater. All this comes under the man- ement of the Department of Public orks. What is the excuse this time?

Another argument has been pro- ced for municipal government by mmission. London, the largest city the world was laid helpless by a neral strike. Des Moines, Iowa, hu- hed a traffic tie-up in two hours. So e Government by Commission advo- tes feel that London is the next city be reformed.

Soldiers of the United States army ationed in and near this city con- uct themselves as a rule in a man- r to merit the highest commenda- on. They reflect credit on them- lves and the discipline of the ser- ce. The departures from the rule of od behavior are less frequent than ould be recorded by the same num- r of average citizens in civil life.

Society life in Washington is be- oming exciting, if disgraceful. One ongressman has secured unfavorable ention by his attention to a young dy clerk in one of the Government partments, and another has gained me for "licking" two Government erks who were improperly attentive his daughter. It appears that each partment of the Government needs little jacking up on a proper stand- rd of decency and morals.

LABOR DAY.

Honolulu by common consent cele- rates Labor Day as a day of rest. he reason for this is not a lack of terest in the man that works, but ther because of such a good under- anding between Labor and Capital at the militant feature of labor dem- nstrations is not necessary.

It is doubtful if there is a place in e world where labor in similar in- ustries is better paid or treated with ore consideration in the matter of ome and personal comforts, than the orking people of the Territory of awaii.

We have few labor unions because ere is not the need for them. The abor union is primarily a creature of dustrial warfare. As Capital and abor have no serious war in this erritory, the union is little more han a social organization to keep the embers of the craft together and on easonably good terms.

A community that can celebrate abor Day with all the evidences of ndustrial peace is indeed happy.

LOCAL JAPANESE AND THE DILLINGHAM LAW.

Certain Japanese of Hawaii are giving expression to opinions that suggest their disapproval of the provisions of the so-called Dillingham immigration bill. They speak in caustic terms.

This is to be regretted, as it must be remembered that the object of a commission appointed to study immigration problems is, to meet conditions in such a manner as to best promote the welfare of the American people. There are difficulties enough in satisfying Americans without attempting to please all other nationalities of the earth.

A long, long road is before the Dillingham bill. Immigration bills are harder to pass than tariff bills, and while there is much doubt regarding what Congress may do to the tariff next winter, not the slightest doubt exists that it will not pass any immigration laws.

But whether Congress pigeonholes this particular measure or not, the Dillingham bill presents the immigration issue in clear cut terms, and as it should be presented.

It might as well be accepted as a truth that the general sentiment of the American people is against adding to their race problems by allowing the Oriental coolie free entry to the country.

Americans don't want the Oriental coolie and they won't have him. But our immigration laws are now in such a mess that they make fish of one and flesh of another in a manner that is productive of trouble and always a source of danger by reason of obvious and admitted discrimination.

The Chinese are excluded under laws, many features of which are an abomination. Responding to the American sentiment, Japan exercises its own authority to prevent the emigration of its coolie population to American territory. In addition to these nationalities of the Orient there is another element to be taken into account, the British subjects of India. They are kept out because Great Britain has colonies of its own that exclude these British subjects.

The sensible and the natural, and the fair thing for the American nation to do is to pass a law that shall apply the same to all nationalities of a particular race. That is what the Dillingham bill proposes. Congress has to decide whether the door shall be opened a little wider for all or closed completely.

If the Japanese or other nations object, the practical answer is, that the citizens of the United States have to settle their domestic problems in their own way. We have a great and at times threatening racial problem today in the colored citizens hardly fifty years removed from slavery.

If many well-meaning Japanese friends declare that this domestic American problem is not of paramount importance when compared with the privileges granted the coolie classes of that nation, the least the American can do is tell the Japanese friend that he doesn't know what he is talking about.

Furthermore it is mighty bad taste as well as excessively poor judgment for Japanese to threaten retaliation if the American government looks after the interests of its people in a manner that best suits the American sentiment.

It must be remembered, if there is one thing that will hasten radical action on the part of the United States, it is an attempt by some other nation to tell our people what they must do. All foreigners are more warmly welcomed and, with the exception of the Chinese, more courteously treated in America than by any other nation on earth. If the foreigners appreciate that welcome and that courtesy, well and good. If they step up and expound in threatening tones on how we should conduct our own affairs, the result to them will depend on the extent to which they arouse the American people.

EVENING SMILES

Upon his arrival in Philadelphia Admiral Togo enjoyed, almost first of all, one of those famous meals for which Baptiste, of the Bellevue-Stratford, has a national reputation. Of course, the bill of fare was very French — beginning with "Martini" (whatever may be the aquatic translation of that!), and going on, Jeunes Clovisses," "Gelee de chapon n' tasse" and so on to glaces Milado.

Admiral Togo, the Silent, studied the card languidly and then turned it over to Captain Potts, the American. "I should think," remarked the American, "that an interpreter ought to go with this." Thereupon Admiral Togo smiled.—Philadelphia Times.

Dr. Bones decided to have a day with the birds, and started out early one morning fully armed, "game" writ large on his features.

About 4 in the afternoon he returned, tired out and empty-handed.

"Not a feather, John," he told his coachman. "I don't seem to be in form somehow."

John scrutinized his master's features for a while before replying. Then he said:

"I allus ses, sur, every man to his trade, I does. Look at me, sur; I couldn't shoot if I tried; but I can groom a hoss, sur, as well as anybody. There's you, sur, one of the best doctors in the town, sur. You ain't much good with the gun, sur—beginn' your pardon for the liberty—but I'll defy any man to beat you with the med-sin bottle."

DISCRIMINATION IS CHARGED

(Continued from Page 1)

The petition reads as follows:

"We, the undersigned residents of Honolulu, representing large and important business interests in conection with the countries of Japan and China, with which countries our commercial and personal correspondence through the mails is considerable and of great importance, respectfully request that the department consider the extension of the present mail transportation service now in operation between mail steamers from United States ports arriving at quarantine ground and the Fort street dock, advancing the letter mails for delivery at the Honolulu postoffice, to all such letter mails arriving from oriental ports."

and the city in general are losing money by not being able to fill orders from Japan promptly or to write business letters in reply to those received and get them off as they could have done if the Oriental mail had been handled first and then the Mongolia mail.

PHILIPPINE MAN PLANS JOINT AVIATION

(Continued from Page 1)

dustries as well as a reign of carefree hilarity and funmaking.

Captain Scott is confident that he can bring one or several of the best aviators on the mainland to Honolulu, give a series of successful flights, and leaving everybody satisfied, proceed to the Philippines, where the keenest of interest is manifested over the aviation game.

PERSONALITIES

REV. S. L. DESHA, pastor of the Haili Church, Hilo, Hawaii, who arrived on the Mauna Kea last Saturday, preached a good and interesting sermon in the Kawaiahao church yesterday morning. He will leave for Kona next week, on the Mauna Loa.

FIRE CHIEF THURSTON this morning took out in his automobile, Senator R. K. Makekau, of Hawaii, to point out to him the new city fire limit. Supervisor Harry Murray went along with them.

Bringing 5800 sacks sugar and seventy head cattle from Hawaii the Inter-Island steamer Nilhau was an arrival at the port on Sunday. On the return trip the vessel met with moderate northeast trades and favorable seas.

DREDGING FIRM ABSORBS RIVAL

SAN PEDRO, Cal.—Negotiations have been closed by which the North American Dredging Company of Nevada, one of the largest concerns of its kind in the West, has been absorbed by its younger rival, the Standard American Dredging Company of San Francisco.

The Catholic Order of Foresters has decided to raise the order's insurance rates so as to equal the rates adopted by the national fraternal congress.

Land of Puupueo

Manoa Valley

WHEN a man buys something useful which at the same time is steadily increasing in value he is twice fortunate. It is only a little over ten years ago since the pioneer settler on the land of Puupueo made his home there. Then there were none of the many conveniences required by the exacting suburbanite. Now all the advantages that can possibly be asked for are procurable: Mountain spring water, telephone, electric light and Rapid Transit service, and gas for cooking.

BE TWICE FORTUNATE, and purchase one of the most desirable house lots to be had within three miles of the Capitol.

Remember, Easy Terms Are Offered.

LOWRIE-BALDWIN ACTION NOW SHIFTED

(Continued from Page 1)

credited to Baldwin himself will form one of the strongest points on which counsel for plaintiff will base the arguments for the fortune involved. This statement, it is believed by Lowrie and his attorneys, proves beyond doubt that it was Lowrie who laid the foundations for Hawaiian Commercial's present greatness.

The statement is made in a report of the plantation dated March 8, 1901. The report is signed by Lowrie, but under the heading "Future Improvements" there is a paragraph inserted, it is stated, by H. P. Baldwin, the handwriting being that of J. P. Cooke it is declared. The paragraph says:

"After the completion of the new mill and railroad, the plantation will be fully equipped, without the addition of any further expensive improvements, to cultivate and harvest 50,000 tons of sugar each year."

According to the sworn depositions that have been made during the last three weeks, all on behalf of the defense, Lowrie was an inefficient manager and his incompetency was the reason for his discharge. The paragraph above quoted will be relied upon to show that in the short time that Lowrie was at the head of the plantation, he put it on a fifty-thousand ton basis, which he had agreed to do. His suit is brought to recover the difference in the value of his stock as it would have been when the plantation actually produced the fifty-thousand tons, and as it was when he was forced to sacrifice it and get out.

Many Discredit Lowrie.

Witness after witness has appeared and testified that Lowrie was harsh to his men, a driver, a hard disciplinarian, temperamentally unfitted for the position. Against this the plaintiff's attorneys, it is evident from the examination of witnesses during the taking of depositions here, will put the facts as to the crops produced by Hawaiian Commercial while Lowrie was its manager and immediately afterward, the letters written to the management by interested stockholders and agents and the testimony of some of the defense's witnesses themselves.

Although the case has occupied a long time in getting to its present stage, the both parties to the suit seem to have prosecuted the matter diligently, but so great has been the mass of evidence taken that it is only now the matter is coming up for final argument. It may be postponed a little beyond November, as the deposition taken here must be read to the auditor in court in Massachusetts.

James E. Cotter, of Boston, counsel for the plaintiff, left on the Korea last Saturday for the mainland. Judge R. D. Silliman, of New York, and formerly of Honolulu, who, with Mr. Cotter, arrived here last month to represent Lowrie during the taking of depositions, will leave by the next boat for the mainland, according to his present plans.

A Last That Lasts

HAIR HEALTH

If You Have Scalp or Hair Trouble, Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if it did not do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

We assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness.

Our faith in Rexall "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded if it does not do as we claim. Two sizes, 50c. and $1.00. Sold only at our store—The Rexall Store. Benson, Smith & Co. Ltd.

Because there is very little profit in school books, owing to the fact that they are sold in Honolulu at absolutely list price, all the booksellers in the city have decided to sell school books for cash only during the coming season. •

RIO MICOL RUBBER CO.

At the annual meeting of the Rio Michol Rubber Company, lately held in California the report was of a very satisfactory nature, there being more to show for last year's expenditure than in any previous year. The plantation is in excellent condition, more than 14,000 trees having been tapped during the past year yielding 3,000 pounds of rubber. In order to carry on the development of the plantation it was resolved to raise a loan of $20,000, that amount being considered sufficient for the upkeep of the plantation till it should be on a dividend-paying basis. To avoid the expense of issuing bonds for so small an amount it was decided to issue loan certificates, bearing interest at the rate of 8 per cent and secured by the deposit of treasury stock with the bank as trustee. These loan certificates will be issued only to shareholders on a sound financial basis but also provide a return on capital invested during the development period till the dividends become payable. The term of the loan is only four years as it is expected that the surplus from sales of rubber and sisal will be sufficient to pay it off by that time.

PINECTAR MAKES GREAT RECORD

How the mainland is taking to Pinectar is shown by a splendid record just established by the Hawaiian product at the Sacramento state fair. Pinectar there, in competition with many other of the prepared drinks, won a gold medal, a blue ribbon, denoting first prize winner, and a cash prize, sweeping every honor in its class. Forty-one thousand bottles sold in three days is another proof of what the "home-made" product can do when it goes abroad.

LOVERS LEAP FROM SHIP TO SEA

NEW YORK, August 14.—The Oriental freighter Indravelli was tied up at her pier here this morning after a fast trip from the Far East. The most unusual incident of her trip occurred during a week's stop at Singapore, where John Tickle, a Lancastershire man, discovered that one of the stokers, who had been with the ship for several months, was a young woman in disguise. The girl, who was sixteen years old, told the officers that she was engaged to be married to one of the other stokers and had shipped as one of the crew in order to be near him.

As the chief engineer was leading the girl to the captain's quarters she sinuously eluded his hold and climbed the ladders, followed by her fiance. Reaching the deck, the pair hurled themselves together over the rail into the harbor, landing in a ruck of sampans and other native craft. Neither was seen again. Whether both were drowned or one or both rescued by the sampans the ship's officers will never know.

HOTEL STEWART
SAN FRANCISCO

Geary Street, above Union Square
European Plan $1.50 a day up
American Plan $3.00 a day up

New steel and brick structure. Every comfort and convenience. A high class hotel at very moderate rates. In the center of theatre and retail district. On car lines transferring to all parts of city. Electric omnibus meets all trains and steamers. Hotel Stewart recognized as Hawaiian Island Headquarters. Cable Address "Trawets" ABC code. J.H. Love, Honolulu representative.

Hotel St. Francis

Union Square, San Francisco
Under the Management of
JAMES WOODS

FACING the beautiful park in the heart of the city, which is the theatre of the principal events of the famous festivals of San Francisco, this hotel, in environment and atmosphere, expresses most pleasantly the comfortable spirit of old California.

The royalty and nobility of the Old World and the Far East and the men of high achievement in America who assemble here contribute to the cosmopolitan atmosphere of an institution which represents the hospitality and individuality of San Francisco to the traveler.

The building, which marks the farthest advance of science in service, has now the largest capacity of any hotel structure in the West, and upon completion of the Post street annex will be the largest caravansery in the world.

WHILE THE SERVICE IS UNUSUAL, THE PRICES ARE NOT.

European Plan from $2.00 Up

(Special Bulletin Correspondence.)

WASHINGTON, D. C., Aug. 20.—The Treasury Department has hastened to correct the impression that artificially colored tea, designated by pure food experts as "poison tea," will again be permitted to enter the United States. To definitely settle the matter, and set at rest false rumors, a formal statement was issued by the Treasury Department declaring that no further importations of artificially colored tea would be permitted. The statement was added that no a pound of this tea has been brought into the country since the prohibition of the Tea Board several months ago.

FOLLOW ALONG M'CORMACK LINES

Medical Association Plan Campaign for Better Work and Harmony Throughout.

Following out the advice given them by Dr. J. N. McCormack during his visit here last week Dr. Raymond made a plea for greater harmony and activity among the members of the Hawaiian Territorial Association at a meeting at the headquarters Saturday night. He also proposed that the Japanese doctors should be asked to come in with the association as well as all the country and army physicians. The constitution is to be altered to meet with the requirements and a series of monthly lectures are to be given by local men on various specific diseases.

"It is a matter of either standing altogether or allowing the profession to degenerate and the quacks control the business," he told them. "It is up to the younger members to get out and hustle and to make the society what we should like to see it. We older ones are not in the class to make hustlers. The profession must be purified and we must all work to that end."

He proposed that the members should get out among the Japanese doctors and get them interested in the association and its work. The ordinary Japanese doctor should know more about the American surgeons than he does and many times there might be difficult cases brought up to them in this manner and which they could handle better than the Japanese doctors, having better appliances.

The idea of bringing in all the country organizations with the head association and also of getting the army doctors stationed here interested would, he thought, give new life to the association and be a benefit all round. The constitution will be altered to meet with the ideas along these lines.

SMALL FARMING FOR JAPANESE

Association Is Formed to Disseminate Knowledge Where Most Needed.

Telling those assembled that Hawaiian grown rice could be produced on a grade equal to that grown in Japan Professor Frederick G. Krauss of the College of Hawaii made the initial address at a gathering of Japanese small farmers yesterday afternoon. The meeting was brought off as the results of Editor S. Sheba of the Hawaii Shinpo who has been trying to stir up the interest of some of his country people in small farming.

Chief Forester Ralph F. Hosmer also spoke along agricultural lines and told of the work that was being done in the various experimental stations here. Sheba translated both speeches and also stated that a column would be set aside in the Shinpo in which questions might be answered for any of the small farmers. There were not many at the meeting but they passed a resolution to form an organization and another meeting will be called very shortly.

Professor Krauss told of the work that he had done in rice and also of the samples that he had brought home from Japan. The Chinese and Japanese community did not take much notice of these, however, and as a result the only part of them that were planted were such as was put in by some of the Hackfeld tenants.

Regarding the future of rice cultivation here he stated that the rice growers would either have to grow a rice that suited the people or go out of business. One of the short comings about locally grown rice was that it had not that oily taste that the Japan grown had. This he thought was largely due to the use of chemical instead of organic fertilizers as used in Japan. There was no reason, however, why the flavor could not be brought up to the same.

He also touched on cotton culture and its possibilities which he declared were great.

Several of the Japanese students at the College of Hawaii have offered to answer all inquiries regarding small farming and dairying work through the pages of the Shinpo and other Japanese papers.

President Taft accepted an invitation to address the good roads congress at Richmond, Va., on a date in November to be set later.

The war department has begun a determined campaign to procure the highest number of cadets allowable under the law for the class entering the United States military academy next June.

Save Your Money for JORDAN'S SPECIALS

SECOND SERIES OF OUR

September Specials

Money Cheerfully Refunded if not well Satisfied

On Tuesday and Wednesday next we will offer

10,000 Yards of Embroidery

AT LESS THAN HALF ITS REAL VALUE

ON account of Monday being a Holiday, our Second Series of September Specials will be reduced to two days instead of three, but this should be more than enough time to close out every yard of Embroidery in offer; in fact the values are so remarkable that two hours should be plenty to quit the lot.

We wish to say about these Embroideries it is a snap line that came our way and was only received last Monday by the Mongolia and not a yard has yet been offered over our counters.

We would like every Lady in Honolulu to see the quality of the goods on this special sale.

Nothing like these values may occur here again.

At 10c Embroideries well worth up to 25c
At 15c Embroideries well worth up to 35c
At 25c Embroideries well worth up to 50c
Flouncings 25c, 50c, 65c, 75c worth double
All-Overs at 50c worth up to $1.25 yard
All-Overs at 65c, 75c, 95c less than half

LOW FAVORS HIGH PRICED CAR

(Continued from Page 1)

tenders under consideration range from a Packard at $5255, Seagrave at $5300, Locomobile at $5400, Rambler at $5400, a Honolulu Iron Works Seagrave at $5750, Pope Hartford at $5750, to the Knox, last on the list, at $5960.

Nothing is known here concerning the Knox save from a presentation of its qualifications through the local agency. What has apparently stirred up the other dealers is the report that an attempt might be made to bring down a machine, which, once on the ground, could be turned over to the city for a limited period with the understanding that if it proved satisfactory it would be purchased at a figure arranged between the agents and the city fathers.

It was said this morning that one or more members of the board favor the purchase of two machines each of different make.

The Packard people still defy competition with their figures, and it is said that they will set forth the claim that as the tenders were submitted in good faith their offer, which is $1419 lower than that given by the Knox agency, should receive favorable consideration. Any other move upon the part of the supervisors, it is predicted, will stir up trouble.

CALIFORNIA POET WILL READ HERE THURSDAY

For the first time this season Honolulu society will have an opportunity to hear Charles Keeler, the well known California poet, read from his own poems. Mr. Keeler is making a tour of the world and Honolulu will be his first stop. While personally almost unknown to Honolulu folk his poems have been widely read by cultivated people for several years.

The readings, there will be two, will partake of the society order and will be well patronized for the patronesses are from the leaders in Honolulu. The affair is to be in the ball room of the Alexander Young Hotel and the reading will begin at quarter past eight on Thursday night.

GOO-KEKUKU NUPTIALS.

The Rev. Elmer Smith, pastor of the Methodist Episcopal church, was the officiating clergyman at the marriage of Miss Esther Goo to Mr. Edwin K. Kekuku, which took place at 7:30 o'clock Saturday evening at the parsonage on Beretania street. A small company of relatives and friends witnessed the ceremony.

Mr. Kekuku is a popular young man of the city and holds a responsible position in the registry department of the postoffice. His bride was formerly a teacher in the Pohukaina school.

BENEFIT FOR ST. LOUIS TEAM

For the benefit of the St. Louis baseball team, a big show will be given tonight at the Park theater, beginning at 8 o'clock.

There's a chance here for the people of Honolulu not only to see a big show for the money but to help the St. Louis boys along in their proposed trip. The program for tonight is an especially good one, and Ernest Kaai and his singers and musicians will do their share toward giving the public a treat. Besides this, the management of the benefit is today trying to connect with Eddie Fernandez and get him to show his special moving pictures on the recent baseball series between the Keio team and the Hawaii players. It's a big show for the money, and the boys ought to be given a good boost.

Rear Admiral Charles E. Fox, commandant of the Charleston, S. C., navy yard, has asked to be retired.

CORRESPONDENCE COURSES WILL BE GIVEN

The College of Hawaii is sending out its annual announcements of the opening of the year's work. Considerable emphasis is laid in the announcements this year on the correspondence courses, which have proved successful. Courses will be given this year in soil and crops, plant life, practical horticulture, poultry culture, cooking and zoology. The announcement says in part:

"That people may be taught in many of the subjects of the school and college curriculum through correspondence study is a demonstrated fact, and while the method lacks some of the advantages of resident study, it has certain advantages of its own. Among other things, it has a tendency to encourage self-reliance and self-determination. It affords earnest persons the opportunity of working and studying at the same time, and each student gets individual instruction. On the other hand, advanced subjects requiring extensive laboratory equipment are at a disadvantage, as the manipulation of laboratory apparatus may not be taught by correspondence.

"The specific classes of persons that correspondence study is designed to benefit may be enumerated as follows:

"1. Those who wish to learn but who are prevented from attending the college by exigencies of employment or place of living.

"2. Those who find new demands made upon them by the progress of the industry in which they are engaged.

"3. Those who are engaged in manual employments and who wish some mental activity to occupy their leisure hours."

DROWNING IS THE VERDICT.

That Cornelia Peris, came to her death by drowning, was the verdict of the coroner's jury, summoned last night at the police station by Deputy Sheriff Rose. It will be remembered that a few days ago, Peris and friends went out swimming off the Ala Moana road, at Kalia. While she was trying to return, she sank below the water and died. Subsequently her body was brought ashore by a Hawaiian.

BENEFIT SHOW TONIGHT AT PARK

The first benefit show for the St. Louis College baseball team will be given this evening at the Park Theater and there will no doubt be a full house to greet the boys.

Arrangements have been completed for the show and it will prove to be a dandy. Ernest Kaai's club, fifteen strong, will be one of the best attractions on the program. The boys are noted for their singing and instrumental selections. Especially when they come under the leadership of Ernest Kaai the public knows what quality the club is made of.

The show will be put on for the next three nights and the boys wish to get as much money in as possible.

The team is composed of the following ball players, all of whom will make the trip next spring if nothing happens: Barney Joy, Henry Bushnell, Henry Chillingworth, George Bruns, Francis, Albert Akana, En Sue, Haole Sumner, Bob Leslie, Johnny Williams, Pat Gleason and Markham.

The program for the three nights is as follows:

1. Motion pictures.
2. Kaai's singers, fifteen strong.
3. Fox & Claire.
4. Motion Picture.
5. Louise Bright.
6. Coffman & Carroll.
7. Motion picture.
8. Three O'Hagans.
9. Motion picture.

BULLETIN ADS PAY

BALDWIN WILL NOW PROBATED

(Special Bulletin Correspondence.)

WAILUKU, Sept. 2.—The will of the late Henry Perrine Baldwin with three codocils were admitted to probate by Judge Selden B. Kingsbury of the Second Judicial Circuit Court this morning. The original will was signed by testator on November 19, 1906, and the last codicil was signed April 25, 1911, prior to his last trip to the coast. Attorneys W. O. Smith and L. J. Warren from Honolulu personally conducted the matter before the probate court. The witnesses to the original will were W. W. Chamberlain and L. J. Warren, while Messrs. Andrew Adams and R. D. Mead were witnesses to the codocils.

The will and codicils are as have already been published in the Bulletin.

The executors of the will are Mrs. Emily A. Baldwin, widow, H. A. Baldwin and J. P. Cooke, who serve without bonds, and were ordered to file the inventory of the property belonging to the estate within ninety days.

Messrs. W. O. Chamberlain, W. O. Aiken and J. N. S. Williams at the suggestion of the attorneys, were appointed by the court as appraisers to appraise a fair valuation of the property for the benefit of the inheritance tax. Mr. F. F. Baldwin was also present in court.

Major W. A. Phipps, multimillionaire of Pittsburg and former partner of Andrew Carnegie, died at Los Angeles yesterday, aged 57.

TOURNAMENTS AT COUNTRY CLUB

The bogey tournament which was pulled off at the Oahu Country Club yesterday turned out to be an interesting affair. It was a success and the players were out in force. The first prize was won by J. F. Fendick, who competed against nineteen others. He won a handsome suitcase. T. Gill captured the second prize.

This forenoon a special tournament was held, and the feature of the day were the competitive driving, putting and approaching events. There were fifteen entries for the special tournament, and A. Cook took first place. T. Gill, who captured second prize yesterday, repeated his performance this morning. F. Brown and C. P. Morse were tied for third honors. Cook gave a fine exhibition of driving, putting and approaching.

The next event to be pulled off at the Country Club links will be for the President's Cup, on September 9-10.

SAVOY'S ATTRACTION.

Ayesha and Barnett will appear again this week at the Savoy. Their performances have certainly caught on and are going big.

At each show some new novelty will be introduced. Tomorrow evening a local man will be put to sleep by Ayasha for twenty-four hours and will be placed in a Fort street store until 8:30 Wednesday night.

Saturday night the audience was laughing from start to finish. Perhaps the hit of the evening was the circus scene, where each subject was made to believe he was a performer. There were rope-walkers, strong men, clowns, etc. The cat fight, baby and nurse and the love scenes kept the audience screaming with laughter. Ayesha and Barnett undoubtedly give one of the funniest shows before the public. They are exceedingly clever and their entertainment is wholesome without the objectionable features so often featured by the average hypnotist.

The Honolulu Amusement Company has been to great expense securing this attraction, and it is certainly deserving of the hearty patronage of the public.

BUSY DAY AT DISTRICT COURT COMES TOMORROW

Things will move around the United States District Court tomorrow morning. There are two cases to come up first thing and the Celtic Chief case is also to be called again. It is thought that this will be continued for a few days however as some of the witnesses are at the present time out of the jurisdiction of the court and will not be back again until later on in the week.

In the afternoon the drawing for the grand and petit juries will take place. These will be drawn for the October term.

The present Federal grand jury reports during the morning and it is understood that there are three more opium cases to be taken up and dealt with. These are said to have no connection with the last cases but are ones that the evidence given during that investigation gave the officers a tip to work along.

CHARGES MILLER RUNNING STEAMER WITHOUT LICENSE

Charging him with operating the steamer James Makee without a license United States District Attorney Robert W. Breckons has filed a suit against Captain Fred C. Miller of the Miller Salvage Company.

According to the papers filed in the case the steamer has been running under the charge of Fred Kaake, as chief engineer and he does not hold the necessary papers for such a position. It is a civil action and the penalty is $100.

THE STARS ARE DOWNED AT LAST MOMENT BY JAPANESE

Big Crowd Sees Two Rattling Good Games—Hawaiis Beaten Again—Fans Turning Out In Large Numbers

STANDING OF SENIORS.

	P.	W.	L.	Pct.
J. A. C.	4	3	1	.750
P. A. C.	4	3	1	.750
Hawaiis	4	1	3	.250
Stars	4	1	3	.250

Manager Marcallino's "Beauts," after putting up a hard battle for eight long innings, lost the fight in the ninth to the J. A. C. team, which narrowly escaped defeat.

Down at the Athletic Park yesterday afternoon it was seen that the Japanese were still boycotting the park, but that did not prevent the games from being good. The crowd was much larger than that which attended the games the previous Sunday. The fans who witnessed the games yesterday were treated to some good ball, and they all left with a good word for both matches. Among the fans present were many well-known business men, which goes to show that in spite of the Japanese boycott there are others who will attend the park while the teams pull off good ball games as those which were brought up yesterday.

Games Good.

The first game of the afternoon was a hard-fought one, and the fans rooted themselves hoarse for the poor Stars, who were trying their best to win from their opponents. Up to the first half of the ninth the score stood 2-1 in favor of the Stars, but a sudden surprise sprung up in the last half of the ninth, when the Nipponese slipped by and scored two runs, winning the game 3-2 after a very interesting match.

The second game of the afternoon turned out in a victory for the Portuguese nine, which played a fine game. Mike Hardee twirled for the Hawaiis and was off his regular pitching, which helped the P. A. Cs. a great deal in taking away the cake after defeating the popular Hawaii nine 5-4. This game was also an exciting one. The Portuguese team had a good backing along the sidelines yesterday. The rooting was great, and there was hardly a dead moment throughout the game.

The Hawaiis worked for all they were worth to defeat the future champions, but the luck was not theirs.

In the first match Kealoha twirled for the J. A. Cs. and he was touched for seven hits. Bill Myers, who was in the box for the Stars, allowed seven hits also, but he played a much more steady game. L. Tin and Kan Yen were back on the Star team again after a long absence. The former played an excellent game for his nine. Kan Yen lost his batting eye, for he fanned three times.

Walker played his usual place at centerfield after being on the bench for some time. Once during the game he lost his head and tried to raise a rumpus with Umpire Desha, and the crowd derided him for his action. On the other hand, he did some heavy slugging.

Souza and Flizer were the stars in the second match. The former found luck his way every time he took his cap off at the plate. He also robbed a liner off Ayau in the fifth which he should not have done. Soares split his hand in the second and it was hard luck. The team did not lost faith because of his absence from behind the bat again, but went along and worked hard and finally won to the tune of 5-4. It was a dandy game right through.

First Game.

To the delight of the fans, the Stars started things going in the very first inning. Kan Yen bingled to short and was out. L. Tin was safe on a hit over second. He then stole second and third after making two pretty slides. Myers sent Tin home on a hit to right field. Nascimento came to the plate and received an awful crack off one of Kealoha's curves, which allowed him to reach first, advancing Myers. Marcallino took Myers' place and came home on Hoopii's two-bagger, which was made off his 48-ounce bat. Joy was out on a fly to left field, and Hoopii was caught off the second bag.

In the third Kan Yen made a brilliant one-hand catch off Brito, which looked like a safe hit. The fifth inning saw a few exciting moments. The Stars had two men on bases, one on second and the other on third, with none gone. Kan Yen came up and it seemed as though there was a hole in the bat, as he fanned. L. Tin came up next, and, if not mistaken, used the same bat, not noticing the hole, as he also struck out. Myers ended the chance of scoring by hitting to short.

There was no scoring on either side till the lucky seventh was reached, and it was the Nipponese who struck luck, as they scored one run. Akana, as in the game last Sunday, was the hero, reaching first on a hit to right field, then soon stole second. Franco was next up and picked out a good one, but it turned into a fly ball to leftfielder. Notley was up next and while waiting to find a nice curve of Myers, Akana stole third and Notley was out on a bunt. Walker was next to face the pitcher; Akana came home on a passed ball, Walker was out on a fly to left field, Brito also got out on a liner to center.

Both sides failed to score in the eighth, and in the last half of the ninth, when the score was 2 to 1 in favor of the Stars, the J. A. C. kahuna worked his stunt and the Nipponese went in and made two runs just in the nick of time, winning them the game. Chillingworth was safe on a bingle to third; Akana was up and forced Henry out at second; Akana stole second, then Franco picked out a nice one and swatted it out for two bases, sending Akana home. Notley was then out on a fly to Joy. Walker came up and sent Franco home with a long drive to centerfield. They won the game by 3 to 2.

Second Game.

The second game proved to be a dandy. Mike Hardee was not in his regular pitching form, and he handed out free transportation to first freely during the game. He was in danger many times, and the Portuguese nine has no excuse for not scoring more runs off him.

The Hawaiis were to bat first. After two men had gone, Desha reached first on a bingle to third, stole second and third, and—just think of it!—even stealing home and then safe at that. This was the only score.

Heavy Hitting.

In the second there was some heavy hitting. The Hawaiis scored another run in their half. Mike Hardee sent the sphere to deep center and turned it into a three-bagger. He soon came home on Dreier's hit to short. During this inning Soares retired with a split hand and Joseph took his place behind the bat. The P. A. Cs. netted three runs in the second. Deponte went to first on dead ball, Flizer lay down a pretty bunt and Hardee tried to get Deponte at second, but threw wild and the runner scored while Flizer went to third. Lino sent Flizer home on a hit to left field. Lino stole second and third and then the walking procession began. Joseph was handed a pass to first. Hardee had another pass to get rid of and Freitas kept his eyes open for it and was also given free transportation to first cushion. Bases were full when Souza came up and brought Lino home on a hit to short. Full bases again. Bushnell was out on infield fly and Ornellas fanned. Three runs, two hits.

The third inning was all Souza's, he picking up three hot ones off Ayau, Desha and Markham and retiring them at first.

Out of Tight Hole.

The Hawaiis saved themselves in the third, when the P. A. Cs. had full bases and none gone. Deponte was safe on a hit past third, and advanced to second on Madeira's walk. Flizer bunted and everybody advanced. Full bases, no outs. Lino failed to find Mike's smokeless shots, and fanned. Joseph could not do any better and he was sent to the bench by the strike-out route. Then Deponte, who had waited so long on third cushion to be sent home, lost faith in waiting and tried to steal home, but was out.

In the fourth the P. A. Cs. scored one, Freitas doing the trick, the score then being 4-2.

In the fifth the Hawaiis scored one run. This time it was Ayau who crossed the plate off Markham's hit to center. The P. A. Cs. also added another run, Joseph coming home on a wild throw to third by Hardee. Score, 5-3.

The Hawaiis ended the scoring of the day in the seventh. McIntyre was out on a bunt, Kualii made a two-bagger, Bill Rice was out on a hit to first; Kualii to third and home on the bingle of Ayau to third. There was no more scoring by either side after the seventh, and the P. A. Cs. were victorious over the Hawaiis for the second time this series by 5-4 after a most exciting contest.

The official scores of both games, which were made out by Scorer Bill Raposo, are as follows:

GOOD RACE AT ATHLETIC PARK

Big Crowd to Turn Out to See Men Run—Relay Team Favorites.

This being Labor Day the sport fans will have much to see in that line. One of the most attractive sporting events of the day is the team mile relay race, which is to be pulled off at the Athletic 0Park about 4:30 o'clock.

All the runners are in perfect condition and are ready to give the public their money's worth (which is very small) this afternoon.

The local relay team, headed by "Soldier King," is confident of winning the race from Jimmie Fitzgerald. Scharsch is in excellent condition and if Fitzgerald ever tries to get a lead on him he will surely go to no success, as the Hawaiian lad has come back again and can hold his own for his share of the race, which is two and one-half miles.

The line-up of the local team as it now stands is that Scharsch runs first, then Jackson and King finish up the last legs of the journey. This seems to be the best plan as Fitzgerald will not be as fresh when he meets poor Jackson and so may not gain so much on him as if he started out with Jackson fresh, he certainly would make a big gain on him. Whatever way they run Fitzgerald has his program laid out and he promises the public he will go for all he is worth during the event.

Everybody agrees that if Fitzgerald can have a lap to spare when he meets King he will have little fear of being defeated.

The race has certainly drawn a great deal of interest and a great amount of money was put up this morning, the bets being 10 to 8 in favor of the relay team.

In Scharch, Fitzgerald comes out and states that he has a hard man to start with but claims that he can not gain much on him. Nigel Jackson, who is named to tackle Fitzgerald during the second part of the five miles, is the weakest man on the team and a great deal of the success of the local team in winning the race depends on him, as it is where Jimmie is expected to lead if he does any at all.

Fitzgerald is in the pink of condition. He said, "This is going to be a great race and the public will certainly have a chance to see me run this time.

"Whoever wins must work mighty hard. I am in to win and if I lose to the relay men all well and good. The winner should make the distance in about 58 minutes."

Preliminary.

There will be a preliminary to the ten-mile relay race in the shape of a baseball game between the Cavalry and Chinese team. This should be a rattling good game and there surely will be plenty of excitement. Both teams have been working hard and are out to fight to a finish on the diamond today.

The Chinese team will be the strongest ever and which means practically the same nine which bucked the Keios. Both teams have defeated the Keios, which goes to show that they are built of good material.

The crowd is expected to be a large one and those who stay away will miss a good afternoon's sport.

FANDOM AT RANDOM

Kan Yen seemed to have too much vacation on Maui, as he did not play his usual good game yesterday. He failed to connect three times during the match.

In the third inning of the Hawaii-P. A. C. game Freitas had it in for Rice when he came to bat and tried to strike him out but failed, walking him; then he tried to nab Bill at first and at last threw wild, Rice going to second, and even then Freitas tried to catch him off the bag but finally had to give it up. Rice certainly had Freitas going some for a while.

Walker of the J. A. Cs was seen in the game yesterday after having been nailed to the bench for some time. He did some good batting yesterday, netting three hits while four times at bat. Joy was also seen out in left field for the Stars. He played his position well.

Manager Marcallino was well pleased with the fight his team put up against the J. A. Cs. yesterday, although the team did not win still it made the Nipponese sit up and take notice.

C. A. U. WIN FIRST GAME

Asahis and Palamas Still Lead Series—Muhocks Out of Race.

The Oahu Junior League continued its usual games at the Athletic Park yesterday morning before a fair-sized crowd. The Huhocks were handed a package of surprise by the C. A. Us., who won their first game yesterday morning by beating the Muhocks by a close margin—4-3. This allows the Asahis and Palamas to fight out the honors for the first series.

Hong Chup was in the box for the Chinese nine, and he did good work throughout the game. In the sixth Peterson, who had been shooting the horsehide over the plate in fine style up to that time, was touched for two hits which netted three runs.

The second game proved to be a victory for the Asahis over Sam Hop's wood-chippers by the score of 10 to 6. The game was full of errors, which accounts for the large score.

Both teams shifted players a great deal during the match. Parker and Brito pitched for the Aala team, and the former was in better trim.

The official summary of both games is as follows:

C. A. U.

	AB	R	BH	SB	PO	A	E

* * *

In spite of all the talk going around about the Park management the haole fans are turning out to the games in larger numbers. The boys are putting up some good games and the management is feeling good that there are not any others so foolish as the Japanese fans. There were many well known fans at the games yesterday and they saw two good games.

* * *

William Chillingworth, the last of the Puunene crew members, has arrived and started in training yesterday morning. Willie was at the ball games yesterday with many of the other members of the crew.

BY AUTHORITY.

SEALED TENDERS.

Sealed tenders will be received at the office of the Superintendent of Public Works until 12 m. of Tuesday, September 12, 1911, for furnishing the Honolulu Water Works with 14,000 feet of 4" galvanized pipe.

Blank forms for proposals on file in the office of the Superintendent of Public Works.

The Superintendent of Public Works reserves the right to reject any or all bids.

MARSTON CAMPBELL,
Superintendent of Public Works.
5020-10t

Sealed proposals will be received by the City and County Clerk up to September 19, 1911, at 7:30 o'clock p. m., for resurfacing 2298 square yards of Queen street between Fort and Alakea streets with a two-inch (2") wearing surface.

Each bidder shall state in his proposal:

1. The material which he proposes to use in the construction of the wearing surface and the specifications under which he agrees to lay the same.
2. The price per square yard for such wearing surface, which price shall be understood to include the removal of the present wearing surface.
3. The price per cubic yard for such concrete as may be necessary.
4. The time within which he will complete the work.

Proposals shall be in a sealed envelope addressed to the City and County Clerk of the City and County of Honolulu, and plainly marked on the outside, "Proposals for Resurfacing Queen Street."

All proposals shall be accompanied by a certified check as provided for in the specifications for a sum equal to five per cent. (5%) of the amount of the proposal.

The Board of Supervisors of the City and County of Honolulu reserves the right to reject any or all bids and to waive all defects.

Plans and specifications can be had on application to the City and County Clerk.

D. KALAUOKALANI JR.,
City and County Clerk.
5015—Aug. 26, 28, 29, 30, 31; Sept. 1, 2, 4, 5, 6.

Sealed tenders will be received by the Superintendent of Public Works until 12 m. of Monday, October 16, 1911, for furnishing the Department of Public Works with three 18", one 12" and one 15" Venturi Meters with recording apparatus.

Specifications are on file in the office of the Superintendent of Public Works, Capitol Building.

The Superintendent of Public Works reserves the right to reject any or all tenders.

MARSTON CAMPBELL,
Superintendent of Public Works.
5015-10t

Honolulu, T. H., August 23, 1911.

Tenders are called for by the Department of Immigration, Labor and Statistics of the Territory of Hawaii, for Three Hundred (300) three-tier iron hospital beds with pencil spring wire mattresses or equivalent, to be delivered and erected at the receivnig station of the department, Alakea street, Honolulu, not later than November 15, 1911.

Bids will close at noon, September 5, 1911.

VICTOR CLARK,
Commissioner of Immigration, Labor and Statistics of the Territory of Hawaii. 5012-10t

CONSTRUCTION WORK, Headquarters, U. S. Marine Corps, Quartermaster's Department, Washington, D. C., August 17, 1911. SEALED PROPOSALS will be received at this office until 11 a. m., December 4, 1911, and then be publicly opened, for the erection of a barracks building, one commanding officer's quarters and two double sets of junior officers' quarters at the Naval Station, Pearl Harbor, Territory of Hawaii. Proposal blanks, plans, specifications and other information can be obtained from the Commanding Officer, Marine Barracks, Naval Station, Honolulu, T. H.; the Depot Quartermaster, U. S. Marine Corps, 182 Second Street, San Francisco, Cal.; the Commanding Officer, Marine Barracks, Navy Yard, Bremerton, Wash., or from the undersigned. A deposit of $20.00 will be required of each applicant to obtain the first set of plans, said deposit to be subject to conditions stipulated in specifications. This office reserves the right to reject any or all bids, or parts thereof, and to waive informalities. W. B. LEMLY, Major, Assistant Quartermaster, Officer Acting in Charge, Quartermaster's Department.
5016—Aug. 28, Sept. 4.

Sold everywhere. Be sure to get the genuine; 25c and $1.00. Stearns' Electric Paste Co., Chicago, Ill.

ALL DRUGGISTS

BOYS SUCCEED IN REACHING TOP

Yesterday four members of the Ukulele Patrol made their third attempt to reach the top of Lanihili after succeeding in climbing seven waterfalls by way of the Hildebrand Glen.

The party started up by way of the Ewa side of Nuuanu, going about a mile along the crest. Gilbert Brown was the only one to try to make the ascent by the precipice route, but he failed to pull through, and came back to the crowd, who were watching him try his stunt.

After he had failed, the party, led by the secretary of the Trail and Mountain Club, led a hard climb up a steep wall of lele vines and reached the top of the pali. They then worked their way through the vines till they succeeded in reaching the top of the seventh fall.

The party moved up the stream, which proved to be easy, and during the whole mile of traveling they met with only one difficult climb. A waterfall about 30 feet high had to be ascended, and it was finally reached by way of an old koa tree, which slanted up the side of the fall.

After being satisfied by reaching the top of this fall, the party turned homeward, where they arrived late in the evening.

The death of Godfrey Morse, a leading lawyer of Boston, was announced in a cable message from Dresden.

MOB ATTACKS GENERAL REYES

(Associated Press Cable.)

CITY OF MEXICO, Mex., Sept. 3.—A political riot broke out in this city today when General Bernardo Reyes, candidate for the presidency of Mexico in rivalry with Francisco Madero, tried to make a speech in the public square.

General Reyes, accompanied by several of his friends, appeared on a balcony opposite the municipal theater and attempted to make a political speech to a great gathering in the square.

Candidate Stoned.

At first he was greeted with only hoots and yells, but in a few minutes someone threw a stone and a moment later the party was driven from the balcony by a storm of missiles and several of them were more or less bruised.

General Reyes called upon the police to preserve order, but in vain. He charges that the Maderistas were those who stoned him and his friends, and asserts that the police were complaisant.

Reyes Is "Touched."

While emerging from the building to reach his automobile, General Reyes was jostled in the crowd and had his pocket picked of 3000 pesos. All of his companions also were robbed by pickpockets.

The police were again called upon to protect the automobile, and a platoon of them escorted it slowly from the plaza, assisted by a company of troops, which had been called out in an effort to preserve order.

JOSE SUAREZ IS MADERO'S RUNNING MATE

CITY OF MEXICO, September 3.—After a stormy session of the national convention of the Progressive Party, held in this city yesterday, Jose Pino Suarez was nominated as the running mate for Francisco Madero as candidate for vice-president of Mexico.

Before the final choice for vice-president was made, General Madero, candidate for president and leader of the party, forced the delegates representing all factions to swear to support the final choice of the convention. The scene was a most dramatic one.

Madero Loses in Popularity.

Following the disagreements and wire-pulling of the convention it is admitted, even by some adherents of Madero, that he has lost greatly in popularity, having evidenced an inability to control his party.

KEENE HAS RELAPSE.

LONDON, September 3.—James R. Keene, the American multi-millionaire sportsman and banker, has suffered a relapse at his temporary home here.

AMBASSADOR HILL QUITS JOB.

BERLIN, Ger., Sept. 3.—David Jayne Hill, ambassador from the United States to Germany, retiring tomorrow as representative of his country, announces that he has declined a decoration from the Emperor of Germany.

Mr. Hill also quotes from a letter written by President Taft in which the President denies that the Ambassador's service in the potash controversy were unsatisfactory.

In conclusion Mr. Hill strongly intimates that his leaving his post is the result of an intrigue.

TWO HUNDRED MILES IN RECORD TIME

COLUMBUS, Ohio, September 3.—Sustained speed at the rate of over a mile a minute enabled Harry Knight, driving a Wescott automobile, to win the two-hundred-mile race here today. His time was three hours and forty seconds.

The races were attended by a tremendous gathering and were a great success. Only two accidents of consequence happened, in which two men were slightly injured.

STRIKE ORDER RECALLED

PADUCAH, Kentucky, September 3.—Notices were posted in conspicuous places about the city today calling a general strike of the railway shopmen for Tuesday.

Later the notices were removed by the orders of the officers of the shop employes federation, who disclaim any responsibility for their being posted.

MINERS CUT TO PIECES IN STRANGE ACCIDENT

BUTTE, Montana, September 3.—While six miners were riding in the cage of the shaft of the Black Rock mine, near here today, the long steel drills with which the cage was loaded, on the way up to be sharpened, caught in the side timbers with the result that the men were literally cut into mincemeat and beheaded.

KAISER LEADS CHEERS FOR PRESIDENT TAFT

BERLIN, Germany, September 3.—Emperor Wilhelm led the cheering for President Taft at the unveiling yesterday of the statue of General von Steuben, who helped the American patriots in the war of the revolution and was a friend of Washington. The statue is a gift to Germany by the United States.
