JUDGE ANDRADE CALLED BEFORE GRAND JURY STRIKES CRIPPLE EUROPEAN TRAFFIC

Andrade's Check Now Figuring

District Magistrate Named In Connection With Police Court Developments

District Magistrate Andrade was called by the Territorial grand jury this afternoon, going before the inquisitors who are probing the police court fund scandal shortly after 2 o'clock. Andrade was still with the grand jury at 2:30 and was apparently making a lengthy statement in connection with the investigation that has been instituted, following the arrest of Henry Clark on a charge of embezzlement. Ben Zablan was in the grand jury room for a few minutes, but was told to be ready to return before the jurymen any time this afternoon.

The Territorial grand jury is in session this afternoon for the purpose of investigating the charges that have been made against Henry N. B. Clark, cashier, and Ben Zablan, clerk, of the police court office. The investigation into the shortage in the police court funds is intended to be thorough, and according to the developments today, the results of the investigation will involve Frank Andrade, district magistrate.

The investigation already made session this afternoon for the purpose of investigating the charges that have been made against Henry N. B. Clark, cashier, and Ben Zablan, clerk, of the police court office. The investigation into the shortage in the police court funds is intended to be thorough, and according to the developments today, the results of the investigation will involve Frank Andrade, district magistrate.

BOARD OF IMMIGRATION TO INVESTIGATE RUSSIANS AT IWILEI AND DISCOVER NEEDS

Investigation of the needs and conditions of the Russians colonized at Iwilei has been begun by the Board of Immigration, and an effort will be made to find out just what these immigrants should be supplied with in order to ameliorate their condition. The Board of Health has already taken steps to clean up the camp and put it in a sanitary condition.

Now the Board of Immigration, through Dr. Victor S. Clark, is busy with an economic rather than a sanitary investigation. A Russian has been employed to go among his countrymen and see if there is any reason why they can not get work, more are expected to leave by steamers shortly.

come an acquisition to the Territory's citizenship.

Some of the members of the board feel that there is plenty for the Russians to do and the only obstacle in their way is not knowing how to go about it. It is argued that the Russians were brought here at a big expense and that every opportunity should be given them to settle in the Territory. The board's labor department is in a position to help the Russians and will do so, as is evidenced by the move just made.

The colonists at Iwilei are getting away to the Coast in considerable numbers. The Wilhelmina carried out a lot of them yesterday, and more are expected to leave by steamers shortly.

STRAIGHT TICKET TALKS

By E. Faxon Bishop.

"A vote for the straight Republican ticket is a vote to continue prosperity in these Islands, prosperity for all classes. A vote for the Democratic ticket is a vote for a ticket named by a boss, ruled by a boss, and that, if elected, will be used by a boss. A Republican vote is a vote for representative government as against bossism; it is a vote against a machine that dominates the mayor's, sheriff's and treasurer's offices in this city.

"From the standpoint of the conservative business man who is interested in the industries of this Territory, the only way to vote is straight Republican. Every vote for Jarrett or Trent or Fern is really a vote for Boss McCandless either now or two years hence. No sane business man can afford to split his ticket this year. His own welfare is at stake."

"A straight, clean fight as between bona-fide political parties always carries with it the constitutional right of every citizen to follow the standard of his choice, but my contention is that the Democratic Standard in the present campaign is not in evidence; it has been converted into a standard of an individual, of McCandless, and is not representative of a bona-fide party. It is his ticket, his candidates, and his mastership of the whole caboodle that follow him—even Deacon Trent, whom the community had a right to believe had character enough to stand for proper motives in campaign methods—yet it seems that the "Boss" is dictator of all that are on the so-called ticket of the Democratic party, headed by a bolting Republican whose arrogant attempt to run the whole show did not work on the Republican side of the House, and resulted in his going over to the other side, where it appears that he has only to bid and the rest of them do his bidding.

"This being the case, what else is there for a self-respecting citizen to do but to make a straight fight against bossism, and straight fight and straight ticket are one and the same."

FATHER OF NEW REPUBLIC HAWAII INVITED TO CONGRESS ON COAST

While Theophile Braga is the president of the new Republic of Portugal, the real head of the successful party is Dr. Manuel d'Arriaga, of Funchal, Madeira. He is the last living of three great republican leaders, the other two being Jose E. Garcia, of Lisbon, and Philip de Freitas, of Oporto. d'Arriaga is a famous lawyer and statesman. He refused signal honors at the hands of King Louis because of his republican principles. Joseph F. Duro, of Honolulu, a former resident of Funchal, is a personal friend of Dr. d'Arriaga.

DR. MANUEL D'ARRIAGA, OF FUNCHAL

FIELD BATTERY ORDERED TO HAWAII

The United States Government has decided to send a battery of field artillery to Hawaii, to be stationed at Schofield Barracks. An order of the War Department has been received by Governor Frear, in which it is announced that Battery F, First Field Artillery, which has been attending maneuvers in Southern California, will be sent to Hawaii on November 5. The guns and animals of the battery will follow on the first available transport.

SPANISH TROOPS HARVESTER SETS KEPT UNDER ARMS

MADRID, Oct. 12.—The Spanish troops throughout all Spain are being kept under arms and ready for any move that looks like a revolution. Today being Ferrer Day, trouble was expected, but the day passed quietly.

BARK SINKS AND SEVEN ARE DROWNED

CUXHAGEN, Oct. 12.—The Swedish bark Diana was sunk today after a collision with a coast fishing steamer. Seven lives are reported lost.

TEDDY AT INDIANAPOLIS

INDIANAPOLIS, Oct. 12.—Colonel Roosevelt, accompanied by Senator Beveridge of Indiana, made a rousing campaign speech here today. An immense crowd gathered to hear him.

ALLEGED OPIUM SELLER CAUGHT

Chinese Is Under Arrest and Charged With Two Offenses.

Last night Chief McDuffie and his staff gathered in a Chinese named Chew Fong, and charged him with two separate offenses of selling opium without a license.

The trap was laid with the usual marked coins, and two informers were given money and told to try and purchase some of the poppy juice. Both the spies were successful, and they had just about had the rope handed to them when the detectives came along and, after a search for the marked coins, arrested the Chinaman.

There is still a lot of trading going on in the opium line, but the supply is running short and the price is now almost prohibitive. The amount that was handed out last night in exchange for half a dollar was very small, and, in fact, the whole dollar's worth was nothing much to look at.

Chew Fong has been released on bonds of \$150 in each case, and will have to appear in court on Saturday next.

French Strikes Are Spreading

Traffic Between Berlin and Paris Suspended and City In Turmoil

PARIS, Oct. 13.—The great railroad strikes have spread with remarkable rapidity, until today a large part of France is tied up. The city itself is in such turmoil as has not been known for years. The strikers, while not in possession of the streets, are still going about in disorderly mobs, and brawls are frequent, while the destruction of property is already reported.

Five strike leaders were arrested today, charged with conspiring against law and order, and will be

tried immediately. Other arrests are to be made later.

Four thousand five hundred coal miners who have been employed in the mines were dismissed today, as there is no chance to handle the coal by the railway. The dismissed miners, it is feared, will join with the strikers in their demands.

Traffic between Germany and France is practically at a standstill because of the strikes, according to reports from Berlin, where numberless trains are waiting to carry passengers across the borders.

LAND BOARD EXPECTED TO DEFER ACTION ON KAPAA LEASES FOR TWO MONTHS

No disposition of the Kapaa lands held for lease will be made until a full membership of the land board is in session, according to news that came from members of the board this morning. Since two of the most prominent commissioners, W. A. Kinney and J. C. ... are out of the Territory and not expected back before Christmas, it looks as if the noted case will be disposed of very soon.

The commissioners who are here and who have followed the matter closely feel that they want united action of the board, and several of them are not disposed, it is understood, to accept the offer of the Makoe Sugar Company or anything like it. For the 1500 acres of land in the Kapaa section, the sugar company offers \$7000 yearly rental.

A little figuring done by one of the commissioners showed the following facts:

The water supply will be 6,000,000 gallons daily. Figured at the average rate, six dollars per million, the value of the water supply yearly would be \$36,000. The value of the land is estimated at five dollars an acre, or \$7,500 for the whole, and the land and water together, according to these figures, is \$29,850 yearly. The Makoe company has bid, going by the above estimate, a bid of \$50 less than the value of the land alone, not counting in the value of the water.

Under such circumstances the board is not likely to take immediate action. A meeting of the board is set for this afternoon, but may not be held owing to lack of a quorum.

SAFFERY QUILTS CROWELL NAMED

WAILUKU, Oct. 13.—W. E. Saffery, Sheriff of the County of Maui, has resigned and Clem Crowell was named by the Board of Supervisors as Sheriff instead. Saffery's resignation is said to be due to his desire to run for Sheriff on an independent ticket.

He died. He struggled to his feet and, holding the bandage tightly pressed to his throat, took a zig zag course towards where he thought success could be obtained.

Late last night Akamu reached his home in Nuuanu Valley, and fell fainting on the floor of his room. He was too weak to walk any further and as his voice had failed he could not call for help. This morning a neighbor saw the old man crawling out on his hands and knees from his house, and at once the police were telephoned for.

The patrol wagon conveyed officer Nobriga to the old man's house, and the unfortunate Hawaiian was taken to the hospital where he was at once treated for his terrible injury.

At 7 o'clock tomorrow evening, the Hawaiian Women's Club, will hold its regular meeting at the home of Mrs. H. J. Auld, 1213 Puna lane. The members are urgently requested to be present, as matters of great importance will be discussed.

THINK FAKE COINS CHINESE

Government Experts Examine U. S. Counterfeits Found in Hawaii.

The counterfeit coins that have been found to be circulating in Honolulu and the Territory generally are believed to be of Chinese manufacture in the opinion of the experts of the United States Government on the mainland to whom the coins have been submitted.

The ten dollar gold pieces, several of which were found to be counterfeit, were examined thoroughly and the finding is a tribute to the ability of the counterfeiters and their cleverness in imitating the coin of the United States.

The report shows that the coins submitted for examination bear a great resemblance to the counterfeits that have been manufactured in China and brought to the United States. It is not believed that there is any extensive counterfeit plant running in the Territory at the present time and that the coins that have been found have drifted into the Territory from outside sources.

Four companies of the Twentieth are on a twenty-day hike around the island and last night they camped on the beach at Waialua. They have already been out for six days.

EXPECTED T. K. K. AGENCY WILL BE GIVEN TO CASTLE & COOKE

CONFERENCE HELD YESTERDAY AFTERNOON BETWEEN SHIPPING REPRESENTATIVE AND LOCAL FIRM—MATTERS OF DIFFERENCE TO BE TAKEN UP AT DIRECTORS' MEETING IN TOKIO.

That Castle & Cooke will be agents of the Toyo Kisen Kaisha line after January 1 seems assured although there are some details of the agency yet to be arranged.

Among the passengers on board the Chiyu Maru is B. A. Harnett bound for the Orient in the interests of the steamship company and during the time the Chiyu was in port yesterday he was in consultation with T. H. Peiric of Castle & Cooke in regard to the agency.

Mr. Harnett is the second in importance of the officials of the company of the Pacific Coast and he is going to Japan to confer with the directors of Tokyo on certain matters of importance.

During the time he was in Honolulu he had a lengthy consultation with Mr. Peiric on the terms under which the agency would be taken over or given to this firm.

In speaking of the matter this morning Mr. Peiric admitted that there were certain points over which a difference of opinion existed at present and these were under discussion yesterday afternoon.

Nothing any more definite was decided upon but the questions involved will be taken up with the directors at a meeting soon to be held at Tokio at which Mr. Harnett will be present.

It is expected that everything will be settled in a satisfactory manner for both parties and that the formal taking over of the agency will occur when the break between the two companies comes on January 1, 1911.

Teayo Early. Instead of arriving Saturday morning as expected the T. K. K. liner Teayo Maru in command of Captain Filmer will be off port tomorrow morning at eight o'clock.

As no message came through from the Teayo two days ago and as the Chiyu operator had a cable from Yokohama to leave certain parts of instruments here it was thought that the Teayo would not be heard from until arrival.

A message came through last night however, when the vessel was about thirty hours off port stating that the time of arrival would be eight o'clock tomorrow.

The Teayo brings 1,232 tons of cargo from the Orient and will sail for the coast sometime Saturday.

Asia Was Slow. On the trip from Honolulu to San Francisco the Asia made the trip in six days and seventeen hours, being an exceedingly slow trip.

The officers of this company expect of the vessel in port on October 1 at eight in the morning but instead the Asia did not appear until nearly four in the afternoon.

Speed is not expected primarily on an intermediate steamer but less than two years ago when Chief Engineer Allen was in charge of the engines of the vessel she made more speed on her trip from Nagasaki to Manila than on her trial trip more than twenty years before.

The Asia has been in the trans-Pacific trade since 1896.

Arrive on Time. October 22 then the T. K. K. liner Chiyu Maru will arrive in Yokohama thus making up the two days that she was late in leaving San Francisco. Nearly one day was made up on the run from San Francisco to this port and the vessel sailed from here but a scant twenty-four hours behind her regular schedule.

The Chiyu sailed yesterday afternoon at five o'clock for Yokohama taking a large number of Japanese in the steerage from this port, and the sailing was the usual picturesque scene of one of these Japanese liners off for Oriental ports with hundreds of subjects of the Mikado on the deck to say sayonara to departing friends.

Virginian In. It was about eight-thirty this morning that the American-Hawaiian freighter Virginian arrived at the railroad wharf to begin discharging her cargo of 3,000 tons brought from the coast and part of which came from New York via the isthmus.

All but about 400 tons of the cargo on board the Virginian is destined for Honolulu including a bit of the paving outfit coming to J. A. Gilman.

Saturday morning the Virginian will sail for Seattle via Hilo and will take on at the two Hawaiian ports of call a small cargo of sugar and shipment of canned pineapples, the latter going to the northwest, the eastern market and to Europe.

Captain Greene of the Virginian reports a pleasant trip of eight days and twenty hours from Seattle leaving that port at the same time as the Hyades which has not yet arrived. The first two days a little rough weather was encountered but after that time the sea was smooth and the weather clear.

Hyades With Livestock.

According to a wireless report received from the Matsen freighter Hyades by Castle & Cooke the vessel will be in port at noon on Saturday.

The Hyades is bringing seventy horses for Honolulu and in addition 1,000 tons of cargo and 100 drums of gasoline.

There are also on board 225 tons for Port Allen and 400 tons for Kahului.

Sherman Tomorrow.

On account of the quartermaster stores and supplies which the Sherman brought from San Francisco as well as the equipment of the squadron of the Fifth Cavalry the vessel will be busy discharging all day today and will not be dispatched for Manila until tomorrow morning at nine o'clock.

The cavalry troops stayed on board last night and this morning left for Lelehua barracks.

Hilonian Saturday.

The Hilonian of the Matsen line is expected in port from San Francisco Saturday morning with a general cargo and passengers. The Hilonian is making the trip on the regular run of the Lurline which is laid up in San Francisco for one trip.

Largest French Ship.

The steamship France, built for the Compagnie Generale Transatlantique (French Line) for its New York and Havre service was launched at St. Nazaire, France, on September 29. The France is the largest ship in the French merchant marine.

Cruisers in November.

Early in November two Japanese cruisers are due in this port from Yokosuka and will be in port for more than a week. From Honolulu the cruisers will go to the coast and stay here again on their return home a few weeks later.

Hail to Kaula.

There is but one regular sailing for island ports today that being the W. G. Hall which is scheduled to get away for Kaula at five this afternoon. The steamer takes a general cargo and passengers for ports of the Garden Isle.

Mexican Next.

The next vessel of the American-Hawaiian line to sail from Puget Sound for Honolulu is the Mexican which is scheduled to leave Seattle next Sunday. The Missourian follows the Mexican sailing on October 28.

Lurline Arrived.

Yesterday the Matsen liner Lurline arrived at San Francisco from Honolulu. The vessel sailed from this port October 3 and will be off the run for one trip.

PASSENGERS BOOKED

Per S. S. W. G. Hall for Kaula ports, October 13.—H. C. Waldron, A. J. Boling, A. R. Traphagen, G. R. Moritz, Rev. H. A. Aise, Mr. and Mrs. Nicol.

Per S. S. Maui for Maui and Hawaii ports, October 14.—H. Chock, M. Cabral, L. L. Joseph, S. Aiken, F. Awana, N. Savores, Miss Lizzie Kaleo, Mrs. John Medeiros and child, Mrs. W. Haia, Miss Alcock, Mrs. E. Kruse, Mrs. Pheian, Mrs. F. Dubois and 2 children, R. C. Brown.

NUUANU WANTS HELP

Editor Evening Bulletin:—They told us that the electric cars would come up to the Hanaleiama hill and that we could get to our work and come home on the cars. The men with land gave it to let the road be made wide so the cars could come up further and the supervisors agreed to do it. Now nothing is done but move a few wood fences and the stone walls have no men work moving them back.

Will it not be better if you vote for some men that will help us. Never mind Republican or Democrat if we get help.

Let the men that wants votes say if they will help. Please Mr. Bulletin editor help us. JACKS LANE, Nuuanu Valley, Oct. 12, 1910.

SIERRA TALKS

The following wireless message has been received by the Agents from the S. S. Sierra, bound for San Francisco: S. S. Sierra, at sea, 8 p. m., October 12, 1910.—145 miles from Honolulu. Fresh head winds and sea. Weather clear. Barometer 30.28. Air 76. All well.

STOCK MARKET IS DEVOID OF INTEREST

The local stock market was quiet this morning, with little trading of any kind and that at the low figures recently reached by the sugar stocks. Wainaina shows a rise of five points. As a matter of fact, although it has been quoted at par for several days, only a very small amount was sold at that figure and although 100 was repeatedly offered, no more came out, which naturally resulted in the rise. Honolulu is at 12 still and Pioneer while McByrde also suffers from the at 190.—Ohu shows a slight decline, general slump.

2185 editorial rooms—2256 business office. These are the telephone numbers of the Bulletin.

SULTAN TRIPPED IN AUTOMOBILE

Drank Coconut Milk and Ate Guavas During First Ride.

Jim Quinn's moustache is commonly called red, but it might be called pink the same as the whiskers of Hon. J. Hamilton Lewis of national fame.

Be that as it may, however, Jim's personal appearance and his car took the eye of His Majesty, the Sultan of Sulu yesterday afternoon and for several hours Jim took the party around the city and up the Pali, while the Sultan thought Honolulu the next place to Sulu way down in the coral sea next the equator.

Going up the Pali road the Sultan spied some guavas and nothing would do but he must stop and have some of them to eat, and again up near Diamond Head His Highness was taken with a violent thirst for coconut water and again the machine was stopped while a green nut was cut open for him to drain the juice to the last drop.

The Sultan did not say much on that ride, a Malay does not give vociferous expression to his feelings when he is pleased, but by certain short remarks he made of the trip and what he saw were to the effect that Honolulu was all to the good.

Today the party are going around town singly and in pairs seeing things for themselves and employing their own feet as a means of transportation.

It is unlikely that they will take another automobile trip during the stay of the Sherman in port, but will put in the time that they spend ashore in seeing things slowly and in their own way.

PRISONERS TO WORK AT KAU

Labor of Completing Much-Needed Roads On Big Island to Proceed.

Fears entertained by residents of Hilo and the island of Hawaii that the Territorial prisoners now at work on important road construction on the Big Island would be sent to Honolulu shortly, have been set at ease by A. L. C. Atkinson, chairman of the Republican Territorial central committee. When Mr. Atkinson was in Hilo recently the Board of Supervisors put it up to him to see that the prisoners were allowed to go on with the work and to complete the Kau road.

Mr. Atkinson got busy as soon as he arrived in Honolulu. He held a conference with High Sheriff Henry, and was assured that the prisoners are not to be returned to Honolulu, but that as soon as their present work is finished they will go to work on four miles of the Kau road still uncompleted. When this is done, they will start building a road to the seven craters. Furthermore, the High Sheriff intends to send six more men over to aid in completing the work rapidly.

LIBRARY OFFICERS TO MEET FRIDAY

Business of importance and general interest will be transacted at the annual meeting of the Honolulu Library and Reading Room Association to be held at 8 p. m. Friday evening. Annual reports will be read and four vacancies on the board of trustees are to be filled. Three of the present incumbents will probably accept reelection, and it is possible that President Gilmore will take the position vacated vacant by the resignation of E. W. Campbell.

The endorsing committee of the Civic Federation held a meeting yesterday and decided by resolution not to endorse any political candidates at present. The resolution is as follows: "Whereas, the Civic Federation recognizes the efforts made by the various political parties to nominate good tickets, it will not at this time take action in regard to individual candidates."

IN FOREIGN PORTS.

Thursday, October 13. YOKOHAMA—Sailed Oct. 12: S. S. Korea, for Honolulu. Correction.

Our No. 882, Oct. 5, reporting Schr. Columbia, sailing from Grays Harbor should be: SALINA CRUZ—Arrived Oct. 4: S. S. Columbian, from Hilo, Sept. 21.

Wireless. S. S. Teayo, from Yokohama. Will arrive tomorrow 8 a. m. S. S. Hyades. Will arrive from Seattle, Saturday noon.

Masonic Temple Weekly Calendar MONDAY: Pacific—Stated. TUESDAYS: Oceanic—Second Degree. WEDNESDAYS: THURSDAYS: Honolulu Commandery—Regular—5 p. m. Hawaiian—First Degree. FRIDAYS: Oceanic—Third Degree. SATURDAYS: All visiting members of the Order are cordially invited to attend meetings of local lodges.

WINE ENGINEERS' BENEFICIAL ASSOCIATION. HARMONY LODGE, No. 3, I. O. O. F. Meets every Monday evening at 7:30 in I. O. O. F. Hall, Fort Street. E. R. HENDRY, Secretary. H. E. MCCOY, Noble Grand. All visiting brothers very cordially invited.

HIKERS HAVE BIG MEETING

Trail and Mountain Club Plan To Make Kilauea National Park.

Governor Frear, Superintendent of Public Works Marston Campbell and the directors of the Trail and Mountain Club met at noon today at the University Club to discuss plans for making a national park of Kilauea. Acting President Thurston of the Trail and Mountain Club outlined a plan, stating that the entire crater, as well as the adjacent crater pits and a part of the Koa and fern forests, should be included.

Governor Frear heartily approved of the proposition, and Superintendent Marston Campbell stated that he might help with a survey, and that the trails to the crater pits that would have to be cut in surveying might be useful to the trail and mountaineers.

After the surveys have been completed a bill will be drawn up and forwarded to Delegate Kubio and Congress.

The matter of roads and trails from Hilo to nearby, but practically unknown, places of scenic beauty was taken up, and with the cooperation of the Hilo branch of the Trail and Mountain Club will probably be put through successfully.

The directors authorized Mr. Thurston on his return to Hilo next week to announce to the trail and mountaineers there that four out of every five dollars of their dues would be appropriated for trail building on the Big Island.

Governor Frear is one of the active enthusiastic members of the Trail and Mountain Club, and is one of the most active trail followers in the islands.

LINK-NOTLEY FOR MORMONS

Late, the Mormon settlement, has been headed by the political armies of the Democrats and the Home Rulers. Their banners will be hoisted in the air this evening before sunset.

Link McCandless, Democratic boss, and Charles K. Notley, Home Rule leader, will both be on deck at late tonight, as the meeting is a joint one.

Link and Notley will be the principal speakers. They will address the Laieites on the same battlefield tonight and will undoubtedly throw explosives at each other.

The Democratic boss has taken with him Kaniho, the "Cannon Ball of Kohala," and Notley is accompanied by D. Kalanokalani Sr.

Beside the Laie people, the meeting tonight will be attended by the Hauula and Waialua voters, who have expressed their desire to be present. Tomorrow night the two armies will meet again at Waialua.

ANDRADE'S CHECK NOW FIGURES

(Continued from Page 1) ceure in connection with this feature of the case will be section 2966 of the Revised Laws, which reads as follows:

"If any officer or any other person, who, by any law, regulation or appointment, is charged with the safe keeping, transfer or disbursement of any money, note or other effects or property belonging to the Territory of Hawaii, shall convert the same to his own use or benefit, or to the use and benefit of another than the owner or person entitled thereto, or shall loan with or without interest, or shall deposit in his own name, or otherwise than in the name of the Territory of Hawaii, in banks or with any person or persons, or change for any other funds or property, any money or moneys entrusted to his safekeeping, transfer or disbursement, except in the manner prescribed by law, he shall be deemed guilty of embezzlement."

It is claimed that that portion of the law reading "or change for any other funds or property" covers the check for the \$335 mentioned and is sufficient grounds for proceeding against the district magistrate in connection with the police court financial exposures.

This morning a Rapid Transit conductor visited Sheriff Jarrett and produced a half dollar that, when sounded, rang badly. The coin was sent on to Breckons, and that expert decided that it was good; a slight split made the money give forth a sound like lead.

LOCAL AND GENERAL

The tablet sold by the Bulletin for a nickel is twice as large as the tablet usually sold for this price.

Autos, \$1 per hour, Lewis Stables. Hotel St. Mark Stand, Phone 1452. Try a case of Pineetar. It is pure. Phone 1557.

It goes without saying that every thing is Best at The Enceore.

Miss Louise Irwin, hairdresser and manicure. Room 55, Young Bldg. A new stunt every day at the Anchor Saloon, Nuuanu and King.

All the cases at the police court this morning, with the exception of one went over till future dates.

C. Brewer & Co. held a regular quarterly meeting this morning for the transaction of routine business. For distilled water, Hire's Root Beer and all other popular drinks—Ring up Phone 2171. Consolidated Soda Works.

"What was the trouble?" enquired McByrde at the police court this morning. "The trouble was marriage," answered the witness, and everybody smiled.

Attorney McByrde and Attorney Peters had many arguments in court this morning and, at times, the spectators broke out into laughter, only to be quickly suppressed by officer Weed.

Board of Supervisors held a short session this noon to pass the necessary payrolls upon which disbursements must be made on Saturday. Nothing else of importance came before the board.

A card party and dance follows the Decoration of Chivalry ceremonies by Canton Oahu, No. 1, Patriarchs Militant, tomorrow night at Odd Fellows Hall. All Odd Fellows, Rebekahs and friends are invited.

Chemist Blanchard is on the trail of a number of butchers and vendors of dried and fresh fish. Five warrants were sworn to this morning, and the men concerned in the matter will probably be arrested this afternoon.

In a police court case this morning there was absolute perjury on one side or the other. A girl and another witness swore that the defendant in the case were at the Hiram hotel on a certain night, and that they had spoken to him. The defendant swore positively that he was at home, and called a number of witnesses to prove it.

TALES TOLD WERE FALSE

(Continued from Page 1) according to the men who conducted the investigation at the instigation of the Bureau of Labor.

One man who was particularly insistent in the charge that he had been induced to sign a contract under false representations, after making several conflicting statements, was confronted with a threat of prosecution for perjury.

He at once told his story in a different manner, corroborating the statements of detectives that when the launch went out to the Tanager just before it left for Hongkong, he had announced that he did not care to stay in the Philippines and wished to go to Hawaii. At Hongkong, with his companions, he was induced to turn back, he said.

LEG WAS NOT BROKEN

Mr. Bushnell, who was reported to have sustained a broken leg in a collision between the Pearl Harbor construction train and a plantation train, called at the Bulletin office today to make known the fact that although he received a severe shaking up and a number of bad bruises, he had no broken bones under his skin that he knew of.

GIVING THE LITTLE FELLOW A CHANCE

Many an oak has sprung from the acorn of advertising. Many a man with an unusual proposition has won a big following from a small newspaper ad. Many a specialist has developed tremendously from the indirect appeal of a bit of publicity judiciously placed.

That is the purpose of the Bulletin in its classified ads.—to help the unpretentious to help themselves. The Evening Bulletin sets a special low rate to those who shall use its classified advertising columns simply as an inducement extraordinary to taste of the advantages of sensible publicity.

One woman has been heard from who has absolute confidence in her husband. She insists upon living with in two blocks of Broadway.

Peter Crinicon, the 6-year-old son of a wealthy Armenian, was sent from in front of his home in Union Hill, N. J., recently by two men in a carriage and driven away with them.

That Castle & Cooke will be agents of the Toyo Kisen Kaisha line after January 1 seems assured although there are some details of the agency yet to be arranged.

Among the passengers on board the Chiyu Maru is B. A. Harnett bound for the Orient in the interests of the steamship company and during the time the Chiyu was in port yesterday he was in consultation with T. H. Peiric of Castle & Cooke in regard to the agency.

Mr. Harnett is the second in importance of the officials of the company of the Pacific Coast and he is going to Japan to confer with the directors of Tokyo on certain matters of importance.

During the time he was in Honolulu he had a lengthy consultation with Mr. Peiric on the terms under which the agency would be taken over or given to this firm.

In speaking of the matter this morning Mr. Peiric admitted that there were certain points over which a difference of opinion existed at present and these were under discussion yesterday afternoon.

Nothing any more definite was decided upon but the questions involved will be taken up with the directors at a meeting soon to be held at Tokio at which Mr. Harnett will be present.

It is expected that everything will be settled in a satisfactory manner for both parties and that the formal taking over of the agency will occur when the break between the two companies comes on January 1, 1911.

Teayo Early. Instead of arriving Saturday morning as expected the T. K. K. liner Teayo Maru in command of Captain Filmer will be off port tomorrow morning at eight o'clock.

As no message came through from the Teayo two days ago and as the Chiyu operator had a cable from Yokohama to leave certain parts of instruments here it was thought that the Teayo would not be heard from until arrival.

A message came through last night however, when the vessel was about thirty hours off port stating that the time of arrival would be eight o'clock tomorrow.

The Teayo brings 1,232 tons of cargo from the Orient and will sail for the coast sometime Saturday.

Asia Was Slow. On the trip from Honolulu to San Francisco the Asia made the trip in six days and seventeen hours, being an exceedingly slow trip.

The officers of this company expect of the vessel in port on October 1 at eight in the morning but instead the Asia did not appear until nearly four in the afternoon.

Speed is not expected primarily on an intermediate steamer but less than two years ago when Chief Engineer Allen was in charge of the engines of the vessel she made more speed on her trip from Nagasaki to Manila than on her trial trip more than twenty years before.

The Asia has been in the trans-Pacific trade since 1896.

Arrive on Time. October 22 then the T. K. K. liner Chiyu Maru will arrive in Yokohama thus making up the two days that she was late in leaving San Francisco. Nearly one day was made up on the run from San Francisco to this port and the vessel sailed from here but a scant twenty-four hours behind her regular schedule.

The Chiyu sailed yesterday afternoon at five o'clock for Yokohama taking a large number of Japanese in the steerage from this port, and the sailing was the usual picturesque scene of one of these Japanese liners off for Oriental ports with hundreds of subjects of the Mikado on the deck to say sayonara to departing friends.

Virginian In. It was about eight-thirty this morning that the American-Hawaiian freighter Virginian arrived at the railroad wharf to begin discharging her cargo of 3,000 tons brought from the coast and part of which came from New York via the isthmus.

All but about 400 tons of the cargo on board the Virginian is destined for Honolulu including a bit of the paving outfit coming to J. A. Gilman.

Saturday morning the Virginian will sail for Seattle via Hilo and will take on at the two Hawaiian ports of call a small cargo of sugar and shipment of canned pineapples, the latter going to the northwest, the eastern market and to Europe.

Captain Greene of the Virginian reports a pleasant trip of eight days and twenty hours from Seattle leaving that port at the same time as the Hyades which has not yet arrived. The first two days a little rough weather was encountered but after that time the sea was smooth and the weather clear.

Saturday Specials

Exceptional values will be offered on Saturday morning in the following lines:

CHILDREN'S HANDKERCHIEFS—With Colored Border and Initialed; put up three in a box. Regular price, 35c; special price, 25c per box.

WHITE HEMMED BEDSPREADS—Size 72x80; very nice quality and weight. Regular price, \$1.25; special, 90c each.

MOTT-SMITH ON HILO'S HEALTH

Board of Health President Is Pleased With Results of Campaign.

The following statement was made by E. A. Mott-Smith, president of the Board of Health, while at Hilo, in reference to the sanitary conditions on Hawaii:

"The occasion of my last visit to Hilo and the Island of Hawaii was just about a year ago. Just prior to that time there had been a further outbreak of sickness in Hilo and vicinity. It then became obvious to the Territorial Board of Health that immediate steps should be taken, not only in Hilo, where Territorial funds were being expended for better sanitation, but also in the neighboring districts, and, in fact, throughout the entire Hamakua coast. The reasons which existed at that time fully justified and even required that an extra effort be made by, not only the health authorities, but by the people of the districts. On the occasion of that visit I was compelled to point out that not only were the sanitary conditions of Hilo itself a menace to the health of the general community, but that an equal menace existed in the plantation camps from Olaa to Kukuiahae. That this observation was correct was fully demonstrated later in the year, under the most deplorable circumstances.

"In company with Dr. Pratt and Mr. Bowen, conferences were had with the shippers' wharf committee and about every manager of the plantations within the districts mentioned. In addition to this, visits were made to every plantation and almost every plantation camp and the conditions of such camps carefully looked into. A plan was then formulated and submitted to the shippers' wharf committee and to each of the plantation managers, as well as to the plantation agents in Honolulu, for the extension and application of a more efficient campaign for better sanitation throughout the entire district. To this plan almost every individual and organization mentioned lent ready assistance. While a few have been somewhat reluctant to adopt the plan, the necessity and benefits of it are now gradually becoming apparent to them, so that at the present time we have a fairly unified effort toward better sanitation.

Results Are Good.

"Hence it is that one of the objects of this, my second, visit is to look over the ground and to see the results of the work started a year ago. I can not help expressing great satisfaction over the results obtained. These results are such that surely all of those who have participated in the work have cause to congratulate themselves. The work, however, has only just begun. It has begun well and should be continued with even greater effort. There is no reason why this side of the island should not be entirely cleared of all trouble. In this I include typhoid and diphtheria, which have gained somewhat of a foothold here. Nothing, however, can be accomplished unless persistent efforts are made in the future as in the past.

"On this visit I have noted the efficient cleaning up and better sanitation of that district of Hilo which is known as Nippon Alley, among other things. I went down the Hamakua coast as far as Laupahoehoe, and all along the line saw better laborers' camps, as well as the establishment of hospitals for ordinary treatment and isolation hospitals. Throughout the whole district to Waipio Valley the system of sanitation and sanitary inspection has been applied with more or less efficiency. From the reports of the sanitary inspectors I can see that a great deal of work has been done.

"In this matter of sanitation, both in Hilo and in the plantation camps, I can not urge too strongly the maintenance of continued interest in better sanitation. The Territorial Board of Health is using, and will continue to use, every effort to this end. Its work and the work of its officers is not to be compared to the work which may be done by the various corporations and individuals in the district if they believe and take a hearty interest in bettering their surrounding conditions, be it for the cause of better sanitation or for the cause of better and more satisfactory labor conditions.

Tuberculosis.

"Another object of my visit is to institute in Hilo and vicinity a campaign against tuberculosis. For this purpose I have asked Dr. Sexton to accompany me here to organize such a campaign on the ground.

"Another object of my visit is to lay out, on the ground, plans for the extension of the quarantine station here.

"Perhaps the most important object of my visit is the extension in Hilo and vicinity of the cooperation between the U. S. Public Health and

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Grantville, Vt. I was passing through the Change of Life and suffered

from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter.—MRS. CHAS. BARCLAY, R. F. D., Grantville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

SOFT PEDAL ON SAN FRANCISCO

New Chief of Police Muffles Merriment of the Tenderloin.

San Francisco is experiencing one of its periodical moral waves just now, according to news from the Coast, and the famous "tenderloin" district is coming in more prominently its usual share of the effect. Mayor McCarthy has removed Chief of Police Martin after evidences of graft in the district had been proved, and a new chief, Seymour, is already reigning in his stead.

Seymour put the soft pedal on the tenderloin in a hurry. He has stopped dancing in the many resorts and declared for law and order. He has even prohibited women from smoking cigarettes in the resorts, and the orders are carried out to the letter. With the passing of the dancing features the proprietors of the places have erected stages and prepared vaudeville attractions, but it is probable that this, too, will be prohibited.

The tenderloin is bounded by Eddy, Turk, Mason and Taylor streets.

Weekly Bulletin \$1 per year.

Marine Hospital Service and the Territorial health department. For this purpose Dr. Ramus, head of that service in the Territory, has accompanied me at my request. It has been very gratifying to note the interest he has taken in the efforts of the local health officers toward better sanitation and the satisfaction he has expressed regarding the results of such efforts. Dr. Ramus accompanied me to Laupahoehoe and also made an inspection of Hilo and particularly of the wharves and landings and shipping facilities. The work of the Territorial health officials naturally leads up to the work of the Federal department which he represents, in that it is the work of prevention of the spread of those diseases against which it is the province of his department to act in connection with shipping and commerce. I think I am safe in saying that because of the work done by the plantations, the shippers' wharf committee and many individuals, Dr. Ramus will leave Hilo with a great deal of assurance in the safety and efficiency of the measures that have been taken and in the likelihood of their continuance.

"Personally, I have thoroughly enjoyed this visit to Hilo, for one reason greater than all others, that of satisfaction that a system beneficial to all here has been put into successful operation and has every prospect of greater success in the future."

Be not hurried away by excitement, but say, "Simplify, let me see what you are and what you represent."—Epictetus.

In the not far distant future it will be regiments for Honolulu.

Honest effort for good government will be a straight vote for all Republicans.

Faxon Bishop gives mighty good advice from the business man's standpoint. Think it over, and vote straight.

Is it to be like Roosevelt that the Governor turns editor occasionally, but unlike the ex-President avoids the limelight in this capacity.

According to all the statistics, the prospective drop in the price of sugar has now been amply discounted in the quotations on the stock exchange.

Roosevelt campaigning with Senator Beveridge is in the midst of the enemies' country, if ever he was. Indiana's Old Guard is a more ancient institution than New York's and not a whit less honorable.

Congratulate the Civic Federation on its decision to let the people judge of the candidates. The only improvement we would suggest is an endorsement of the straight Republican ticket.

It would be surprising indeed if Treasurer Trent should use the Police Court incident as campaign material: The people have been very lenient in dealing with the method at one time followed by Treasurer Trent in depositing public funds.

Now don't try to make political capital out of the Police Court trouble. Republicans when they find an administration going wrong, correct it promptly. Democrats under similar circumstances shout "No fair. You have no right to hit a cripple."

THE POLICE COURT MUDDLE.

With the Police Court scandal in the hands of the Grand Jury it is certain to have a thorough investigation. It is well to remember that the public will hardly be satisfied with a division of responsibility in connection with any misuse or improper handling of the public funds entrusted to the officers of the Police Court.

The Grand Jury will naturally establish the criminal liability according to law.

There is also to be considered the moral responsibility of the District Magistrate under whose administration the misuse of funds has gone on. If Judge Andrade has known of checks being cashed from public funds and allowed it to go on till it became a custom he should tender his resignation to the Chief Justice.

You can't meet the people on a moral principle if a man careless in the use of public funds is made the victim of a criminal prosecution, and his superior officer who knew of the doubtful methods is retained in his position.

Unless the Grand Jury discovers facts that furnish a complete and clear vindication of all those involved in the Police Court difficulties, it would seem highly proper that there should be an entirely new staff in the office of the District Magistrate.

The people in the final analysis demand fair play.

TO GET RESULTS IN NUUANU.

"Never mind Democrat or Republican, if we get help.

"Let the men that want votes say if they will help."

This sentiment is contained in a letter sent to the Bulletin in connection with the extension of the street car tracks on Nuuanu street, and widening of the avenue.

We admire the spirit of the citizen who is determined to get results and continues agitating at all times for improvements in his section.

But he makes a mistake when he says that it makes no difference "Republican or Democrat," so they promise to do what is asked in his particular part of the town.

Where does he land, if they all promise to do this work? And then where does he get off, if when these men get into office they find that, owing to the mixed political condition of the city administration, no headway can be made?

Where does the city land, if every district makes a claim upon all the candidates on the basis of "Never mind Republican or Democrat" and when the "never mind" crowd get into office, it is found that more promises have been exacted than there is money in the public treasury to satisfy.

We don't believe that the system of our correspondent, though it is a very common one, is the best.

If he wants results that will be the most satisfactory to him, without sacrificing the interests of the community as a whole, he will vote a straight ticket for the representatives of a party that has a reputation for progressive work in the past, and can be depended on to uphold that record in the future.

He should vote for the candidates of a party that will carry out a broad and competent policy of city development, which will include the Nuuanu extension as a matter of course and make it a part of such general im-

Improvement as the funds available make possible to carry through.

He should vote for the Republican candidates, as they are the representatives of the party organization that has "done things" in this city. With a straight Republican administration in power, he is certain to secure all that is his proper share, if not all that he thinks should be coming to him. In any case it would be more than he could possibly expect from an administration hopelessly divided between the two parties and possibly thus made up of men, all of whom had promised to help.

Vote for the Republicans and vote straight. That's the way to secure the greatest good for the greatest number, and the Nuuanu extension.

A copy of a proclamation by President Taft has been received by which the United States Government acquires two hundred acres of public land on the Lileleha reservation. The land in question has been wanted for some time by the Federal Government and a private holding that is near the land is expected to be acquired by condemnation.

HIGH MASONIC LEADER DEAD

W. Frank Pierce Dies After a Short Illness—Was Late Visitor to Hawaii.

W. Frank Pierce, the high Mason, is dead. It was but a short time ago that Mr. Pierce paid a visit to Hawaii and was entertained by the local Masonic bodies.

The Coast papers, of October 4, say of him:

W. Frank Pierce, one of the foremost Masons of the United States, Grand Master of the Grand Lodge of California and Captain General of the Grand Encampment and Conclave of Knights Templar at Chicago last August, died last night at his home, 1009 Chestnut street. He had been ill a month or more. It was realized some time ago that he would be unable to preside at the California Grand Lodge session to be held in this city, beginning next Tuesday.

Mr. Pierce was fifty-four years old. He was born in the East, but most of

his life was spent in this State. With his brother, Charles D. Pierce, formerly of Oakland, he went into the hardware business across the bay. The brothers sold out five or six years ago to go into the cash register business. About two years ago Charles D. Pierce died.

For several years past W. Frank Pierce made San Francisco his home. His wife died a year ago. The surviving members of his family are three daughters, the Misses Hazel, Mabel and Frankie Pierce. The latter is now at Vassar College.

Mr. Pierce, a thirty-third degree Mason, was Deputy Sovereign Grand Master of the Scottish Rite Masons in the United States. He was a leader in the establishment of the Masonic Home at Decoto, Alameda county, twelve years ago. For some time past Mr. Pierce was largely interested in real estate on the San Francisco peninsula. He is supposed to have amassed a fortune.

In the California Grand Lodge session next week, Mr. Pierce will be succeeded by Deputy Grand Master Dana R. Weller of Los Angeles.

GEE WILL PLAY TENNIS TODAY

Former Champion Does Not Leave for Manila Till Tomorrow.

As the transport Sherman does not leave Honolulu till tomorrow morning, some chance of seeing E. S. Gee, former champion player, in action seems good. Gee dropped into the Bulletin office this morning and said that he would be out at the Beretania courts this afternoon, and that he and Captain Low would probably play a couple of sets against A. L. Castle and Nowell.

Gee does not feel very confident that he can play in his usual form this afternoon, as he has hardly got his shore legs. However, he will do his best with borrowed rackets and shoes, and the Honolulu people will be able to see the expert once more in action.

Gen played a lot of tennis in Washington, and he was one of the eight men who were selected to represent that city. It appears that they have a great scheme of competitions now a days, and teams travel from one city to another and play. The standings are kept the same as in baseball, and a tremendous amount of interest is taken in the series. Gee was number three on the Washington list, and the first two on the list were the Doyle brothers, who both play great games of tennis.

At the San Francisco Gee ran against Jack Densham, and he reports the long fellow as looking well. Densham sent his Aloha to all his Honolulu friends, and they are many.

DEERING BACK FROM FIRE MEET

Assistant Fire Chief Deering came back to Hawaii yesterday on the transport Sherman. Deering has been attending the International Association of Fire Engineers which was recently held in Syracuse.

This is the first time that Honolulu has ever had a representative at the gathering of this association, and it is whispered that Deering boosted so for the islands that the association came very near to voting to hold the next convention in Hawaii.

Mr. Deering put in quite a number of days in New York and Philadelphia, and also stopped at Chicago and St. Louis on his way West.

In making his plea before the association for holding the next convention in Honolulu, Mr. Deering said:

"If you will come to Honolulu I can assure you the best time you ever had in your lives, and I will show you a fire that will baffle all your efforts. That is the famous crater of Kilauea."

NOON HOUR POLITICS

During the lunch hour today, some of the candidates on the Republican ticket went down to the Hackfeld wharf and talked politics to the poolas. Edwin Fernandez, who is aspiring for the Legislative honor was one of the speakers.

David Kama, who once occupied a seat in the Legislature presided over the meeting. He urged his fellow poolas to vote for Chas. Kanekoa, one of the regular republican nominees for Legislature. S. P. Maclua, foreman of the Oceanic dock also advised his friends to vote for the best men. The meeting was not well attended. Another political gathering will be held tomorrow afternoon at the Oceanic wharf.

THE ORIGINAL AND GENUINE HORLICK'S MALTED MILK

is the most delicious, nourishing food-drink known for the anemic, the debilitated and the dyspeptic. So easily and promptly digested that it agrees with the weakest stomach. It is simply a pure food, invigorating and vitalizing.

It is pure, rich milk, with the extract of malted grain, in powder form, soluble in water. A nourishing drink is prepared in a moment by stirring vigorously in water, hot or cold. Unequaled as a food for infants, invalids and nursing mothers. Endorsed by physicians everywhere.

Samples free to Physicians and Druggists.
At all Druggists.

HORLICK'S MALTED MILK COMPANY, Racine, Wis., U. S. A.

NEW SUGAR YEAR IS BORN

Small Quantity of Cuba's Old Crop No Effect on Market.

FORECAST FOR NEAR FUTURE NOT MADE

Willet & Gray's latest Sugar Journal under date of Sept. 29, has the following comment on the raw sugar market:

VISIBLE SUPPLY.—Total stock of Europe and America, 881,429 tons against 831,271 tons last year at the same uneven dates. The increase of stock is 50,158 tons, against an increase of 65,923 last week. Total stocks and afloats together show a visible supply of 1,302,429 tons, against 1,078,271 tons last year, or an increase of 224,158 tons.

RAWS.—During the week under review prices have followed the trend of the European markets, as has been the case for the past three weeks.

Those markets continued their decline, until today beet sugar touched 10s. 5 1/4d. (4.20c. parity here), the lowest point of the campaign.

The business of the week was 29,000 bags Centrifugals from store at 4.18c. per lb., 96 test, against previous sale at 4.21c. per lb. and later a cargo of Cubas for prompt shipment at 2 1/2c. equal to 4.11c. landed, 96 test, followed by sales at 4.05c., now the spot quotation.

At the close of a very considerable amount of Centrifugals in all positions are on offer at 4.05c., with buyers showing little, if any, inclination to go on, while waiting for European markets to find steadiness at some level.

Under present conditions it is useless to attempt to forecast the immediate future.

The remaining stocks in Cuba are so small as to be of little effect on our market, but the fact that several unsold Java cargoes are fast approaching our ports, is an important influence to be dealt with soon. These Javas are owned abroad, and thus directly under the influence of the European markets, in which beet is now relatively cheaper than cane.

The new sugar campaign year is at hand, and reports from the various crops of cane and beet indicate large outturns of both, while on the other hand, the consumption of the United States at least is being curtailed somewhat by the political crisis through which we are passing this fall.

Stocks in the United States and Cuba together are 249,429 tons against 233,097 tons last week, and 194,271 tons last year.

From India we print the first memorandum of the crop of 1910-1911, issued by the Government, indicating an acreage in cane nine-tenths of 1% less than last year. Weather conditions on the whole have been favorable for the crop. The latest official estimate of last year's crop is 2,125,300 tons. A decrease of 1% would mean a crop about 200,000 tons less, or say 1,912,500 tons. The imports of foreign sugar into India for the month of July show a decrease of about 10,000 tons from last year, but as our advices from Java show the cause of this to be delayed shipments of Javas to India the total shipments of Java sugars to India are expected to be fully as large as last year.

We print this week the "Commercial Estimate" of the new beet crop as published in F. O. Licht's Monthly of Sept. 16, 1910, and to which we referred last week. The average of these figures gives Germany a crop of 2,350,000 tons, Convention countries together 5,130,000 tons, and all Europe 7,205,000 tons, as compared with crops of 2,027,000 tons, 4,533,000 tons and 6,138,000 tons respectively last year. It is to be noted that these estimates credit Russia with a very large increase, and as that country has had large deficits during the past two years its stocks are now short, and large supplies are needed at home immediately. As the sugar trade of that country is carefully regulated by Government, the necessity should act as quite an equalizer. The increase in Russia is thus given as 405,000 tons, or 35.3% over the last crop, while that

PURE FOOD TO BE DISCUSSED

City Physician at Work On Ordinance to Promote Health.

WILL MAKE IT STICK IF GETS INTO COURT

Suggestions from several sources as to provisions in the new health ordinance that will be considered by the Board of Supervisors will be put before a special committee today. With the active consideration of measures to protect Honolulu's food-stuffs, the campaign for health and public safety will be fairly on.

The Board of Supervisors at its last meeting named City Physician Mackall and Supervisor Logan a committee to draft an ordinance that will force the covering of foodstuffs now exposed in the city markets. This afternoon the provisions of the new regulations will be taken up, with Chemist Blanchard present. Dr. Mackall declared last night that the ordinance will go into detail regarding the protection of foods, in order to make it binding if it should ever be questioned in court.

The ordinance will be so drawn, he states, that violators of its rules can be successfully prosecuted. His statement gives evidence that the Supervisors and the city physician expect to enforce it in letter and in spirit and to make Honolulu's food-supply what it ought to be, as good as any in the world.

Good, But Can Be Bettered.

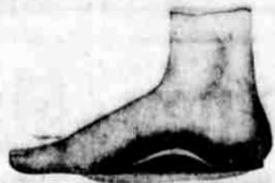

"As a matter of fact, Honolulu's food is pretty good now," said Dr. Mackall last night, "but the meat, fish and vegetables exposed for sale in the market certainly should be protected. The ordinance, it is apparent from the preliminary work I have done on it, cannot be a 'blanket' ordinance. It must specify various kinds of vegetables that must be protected, and must be so exact that we can arrest a man for violation of it and when he is taken into court we can prove a specific case."

The city physician, who is familiar with the successful health regulations of practically every American municipality and has paid particular attention to milk and food supplies, says that the new milk ordinance will be enforced strictly, beginning about the first of the year. The other ordinance, which is now being prepared, will not be ready for several days, but will be enforced as soon as promulgated.

Dr. Mackall thinks that the most available protection for food-stuffs right now is wire netting, probably of copper. He says that gauze is not advisable, because it gets soiled easily, cannot be cleaned and is less efficacious than wire screening. The ideal cover is glass, but owing to the expense involved, this will not be insisted upon for the present.

for the statistical countries 597,000 tons, or only 13.2% over last year. It will be noted that F. O. Licht's latest estimates for the last two crops are also changed this week. Thus the figures for the last crop is now 6,138,000 tons, and for that preceding 6,543,865 tons, while Otto Licht's latest figure for the last crop is now 6,107,281 tons and the Factories estimate 6,116,500 tons.

EUROPEAN BEET CROP.—From F. O. Licht's monthly report of Sept. 16, 1910: The weather during the last days has been favorable for the beet crop. It was in east early in west later, beautiful sunny days, with cold nights. In most sections the stand in the fields is reported as good, especially full and strong, and from present appearances one looks for a yield of from 16 to 15 per cent. higher than last year. Owing to the recent rains the sugar content has not increased much and at present seems no higher than last year. Should the present warm, sunny weather continue the sugar content will quickly improve. It is well known what extraordinary and unaccountable changes touching the sugar content as well as the yield, the weather during the next six weeks can effect greatly, and especially for this reason must one take the present estimate carefully.

Chalmers

MOTOR CARS

"30" \$1500

"Forty" \$2750

The Beauty of Chalmers Cars
Is More Than Paint and Varnish.

No low priced car on the market can even approach the Chalmers in refinement of line and finish. None at any price can surpass it. It was this that put the Chalmers in a class by itself from the very first.

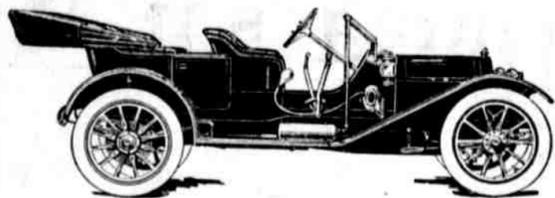

No part of the Chalmers has been exaggerated or overdone at the expense of the whole. The car is a unit. Every part bears the proper relation to every other part. The result is symmetry, beauty—and Chalmers beauty is more than skin deep. It is built right into the framework of the car, into the iron and steel of the chassis, as well as the lines of the body. This is why Chalmers beauty means efficiency.

Every detail of design spells beauty in the Chalmers. The low effect of the car with its long wheel base is pleasing to the eye.

You can't overlook the graceful sweep of the fenders, the wide, handsome door and the big, roomy tonneau. Even the painting and striping present a better finish than that on cars selling at twice the price. The heavy brass fittings, the costly woodwork, the high quality upholstery, all these contribute to the substantial, rich and elegant appearance that gives the Chalmers a style all its own.

More than this, Chalmers finish is not put on simply for show. It is put on because it is the kind of finish that will preserve the car—because it will last.

We would be very glad to show you the 1911 Models and point out more of their good points in detail.

BABY REPUBLIC IN FULL SWING

Told King to Quit His Job—
New Cabinet and
President.

More extensive details of the recent change in Portugal, when the people took the reins of government into their own hands and created a republic from a kingdom, are contained in the Coast news that arrived in the *Chico Maru* yesterday:

LONDON, Oct. 5.—It is impossible to estimate the number of those killed or wounded in yesterday's fighting, but it is expected to reach several hundred. The city has been considerably damaged by the bombardment of insurgent warships. The buildings occupied by the Ministries around the Praça de Commercio and the Necessidades Palace were made the particular targets, and today show broken walls and turrets. The tower of the church attached to the palace was demolished.

Thus far, however, no attack has been made upon private property and it is reported that the banks are being guarded by bluejackets. Night of Terror and Hard Fighting. All through the night artillery fire was incessant and toward dawn it increased in intensity. At 11 o'clock last night insurgents encamped on the heights of Avenida de Liberado tried to force their way to the center of the city, but were driven back by loyal troops.

As the latter passed the barracks of the First Artillery they discovered that it was in the hands of the rebels. They charged the civilians and dislodged them, inflicting considerable loss. The night firing was carried on in complete darkness, the electric lights having failed. The insurgents were led by the retired Admiral Carlos Bels. Their forces were greatly augmented by desertions from among the monarchists and they succeeded eventually in getting control of the city.

The inhabitants today paraded the streets, most of them carrying rifles, singing the Portuguese "Margaritense," which has now become the national anthem.

Mobs Raid Buildings of Loyalists. Red Cross ambulances and police and men from the fire brigade are patrolling the streets and removing the dead and wounded. The revolutionists raided all buildings that flew the old flag and tore down the emblems of the monarchy. The warships greeted the hoisting of the republican flag with salvos of artillery.

Eusebio Leao, the republican leader, made a speech from the balcony of the Town Hall, saying that he entrusted the policing of the city and the maintenance of order to the care of the citizens.

Notwithstanding the thrilling events of the last two days, the people are now showing composure, and it seems likely that order in the city of Lisbon will be maintained. It is rumored that General Gorjas, who commanded the defending forces, committed suicide when he saw the fall of the palace was inevitable.

Premier Canalejas said tonight that he was ignorant of the whereabouts of King Manuel, but was certain that he was safe and possibly on his way to Gibraltar in an English warship.

It is estimated that ten of the Portuguese regiments are still loyal to the monarchy.

To add to confusing reports concerning King Manuel it was stated at the Portuguese Legation tonight that the King was aboard a Brazilian warship. It is not questioned that the King succeeded in eluding the revolutionists, who, according to one report, were not anxious to have him on their hands.

Further dispatches say that the fighting was confined to Lisbon, and that a considerable number of troops took no part, their attitude being undetermined.

The greatest uneasiness prevails in Madrid, but all is quiet, although fear was expressed in political circles that disorders might occur here. The government has taken the most elaborate precautions to preserve order, and it is understood the troops at the garrison at Seville are ready to depart for the Portuguese frontier. The cruiser Carlos V. sailed for Lisbon tonight.

Told King to Quit. "We have given King Manuel notice to quit. The coming revolution will be a kindly affair. We shall kill the least possible number of persons." In these words Dr. Alfonso Costa, the most advanced of the Portuguese republican leaders, warned the world of the intentions of the revolutionary party immediately after the general elections at the end of August. Part, at least, of his prediction seems to be verified in the brief undetailed dispatches to hand this morning.

The following are those who will

NEWLY-WEDS COMING IN HOWARD COMPANY

Seattle Minister's Daughter
Weds Member of Orpheum
Troupe.

The Howard Stock Company, which soon opens a season at the Orpheum, has a couple of newly-weds in it, and the following dispatch from Seattle tells how Cupid made good on short notice:
SEATTLE, Sept. 19.—It was only when his daughter returned home today from a visit to Alaska that Rev. Dr. G. Clement King, a prominent minister of Ballard, was aware that during her short absence the girl had become the wife of Charles Murphy, an actor member of the Howard Stock Company, formerly of Vancouver, B. C., that has been playing the cities in the north since May. The young couple became acquainted on a trip down the Yukon and were married at Fairbanks. Dr. King was somewhat surprised but welcomed his actor son-in-law with good grace.

ORPHEUM SEAT SALE NOW ON

The sale of seats for the opening week of the George B. Howard season began this morning at the New Orpheum box-office. The demand for reservations for the opening night indicated a crowded house while the sale for the balance of the week gives assurance that a hearty welcome awaits the new troupe. "Father and the Boys," which will be the first offering of the Howard Company, is a celebrated comedy and was William H. Crane's starring vehicle for two years. It was presented in San Francisco early this year at the New Columbia theater with Crane, in the name part and it scored one of the biggest hits of the season. Wherever it has been played it has met with the same success.

The members of the George B. Howard company are due from the mainland tomorrow per the S. S. Marama. The company consists of fourteen actors and actresses, all of them well known performers.

Authorities in charge of the Overbrook hospital for the insane at Newark, N. J., have decided to establish a moving-picture show for the benefit of the patients.

RECREATIONS
EMPIRE'S NEW BILL.
Clara Keating, the mighty atom, was easily the first choice of the first nighters who went to the Empire Theater to see the four new performers that opened there last night. She reminded Honoluluans mightily of Tobia Claude, the little vaudeville performer who made a hit here earlier in the year. While her songs do not verge so near the risque as those of Tobia Claude, at least not to American ears, she has a way of conveying the impression that they do just the same. Clever little charmer of the masculine as she is, she wins the approval of the ladies in the audience, just because she secures the men's admiration through simple little mannerisms. She sings a song or two and does a dance in fast times. Last night she invited some of the men to flirt with her and finally dared a soldier to be "a sport and come up and shake hands." One of them did, much to the pleasure of his comrades. Two of the Willis sang a song and another does a turn in blackface.

NOVELTY THEATER.
WIM present a real novelty on Thursday evening, when the Australian Cascoote Sisters make their Honolulu debut. These two young ladies are artists of repute, having performed in all the principal cities of India, South Africa, Australia and New Zealand. They have just closed a season of three years in Australia, playing both the Rickard and Brennan vaudeville circuits, where they received nightly ovations for their neatness and dexterity in their novel acts, consisting of singing, dancing, acrobatic and contortion work. They are very versatile and will offer an entire change of acts every Monday and Thursday during their engagement at the Novelty Theater.

THE PARK THEATER.
"Alberta," an illusionist of unusual ability according to press notices from Australia, where he has been showing for some years, will open at the Park Theater tonight. There is a treat in store for Park patrons if he can do half the mysterious things that he is credited with being able to do.

CASTORIA

for Infants and Children.
Physicians Prescribe Castoria.

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: 1st, The indisputable evidence that it is harmless; 2nd, That it not only allays stomach pain and quiets the nerves, but assimilates the food; 3rd, It is an agreeable and perfect substitute for castor oil. It is absolutely safe. It does not contain any opium, morphine, or other narcotic and does not stupefy. It is unlike soothing syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a medical journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Maui's Journal of Health.*

LARGE MEETINGS HELD BY PRINCE

Throughout Maui Precincts Crowds Hear the Truth of Land Laws Matter.

(Special Bulletin Correspondence.)
WALLUKU, Maui, Oct. 11.—Dele. gate Kalaniana'ole, accompanied by Rev. S. L. Desha of Hilo, arrived in Walluku from Hawaii per the steamer Mauna Kea last Friday night. The Delegate was put up at Hon. and Mrs. A. N. Kepoika's residence, while the "Hawaiian Spurgeon" was entertained at Assessor and Mrs. J. H. Kunewa's.

On Saturday afternoon the Delegate and Rev. Desha spoke at the Waiehu church to about sixty voters. It was a good meeting, and Mr. Desha was at his best. The speech of the Delegate was well received by his Hawaiian hearers.

On Saturday evening the Delegate and his traveling political worker spoke again to a large gathering on Market street. Notwithstanding it had been quite showery during the day, when it was noted about that the Delegate was in town and that he was to undo the harm scattered broadcast by Link M. Candless only a week before, hundreds turned out to hear the Prince.

The Prince was preceded by County Attorney D. H. Case, candidate for reelection; Clem Crowell, who is running for sheriff, and C. Lake, the Walluku candidate for supervisor. The county officials merely made their initial appearance in the present campaign. As each candidate took his seat after making his announcement, each time the evening air was rent with loud hurrahs. But when the Prince made his appearance there was immediate silence to hear him speak on momentous questions of the day, especially the public land question, which greatly concerns the people at the present time.

With forceful words he nailed the misrepresentation that "Ellwal" had helped pass the land laws in Congress, and in conclusion he asked why the necessity of Ellwal's making such a determined fight to be elected if he could easily help pass laws in Congress in his capacity as a private citizen. If he is more useful in that capacity, why change? A few Democrats who had imbibed too freely that afternoon could not remain silent when they heard Ellwal's name mentioned, so they made their presence known just to show the Prince that the Democrats can show a thing or two to the Republicans in the shape of rowdiness. But it was of short duration, for the audience could not tolerate any tendency towards disorder.

The Prince spoke in English to satisfy the demands of the English-speaking voters of Walluku.

Rev. Desha was the last speaker, and he kept the large assembly quiet from the beginning to the end. In eloquent words he pictured to them the work of the Delegate in Congress, and then told them how the Prince opened his home at Honolulu to receive the hundreds who were rendered homeless by the bubonic plague fire. Link was there, too, but instead of kissing babies as he did recently at Kona, and seeing that the homeless were made comfortable, he was promoting the public streets of Honolulu with a gun to see that none of the homeless should get away. Of the attitude of the two men at that most heartrending scene, Kuhio proved himself a benefactor and a lover of mankind beyond compare.

Senator W. T. Robinson was chairman of the meeting.

On Sunday Delegate Kuhio, Rev. Desha and Clem Crowell went to Kanaloa, in the Honouaule district. About sixty greeted the travelers at the little church at Kanaloa. The Prince made a deep impression there, while Rev. Desha caused copious tears to flow from the eyes of his hearers as he related to them how the Prince had opened his home, yea, his heart, for the reception of those of his own people who were in deep distress.

The same afternoon the Prince and suite spoke to a large audience at Pulehu, Kula. Last evening the Prince and party spoke at the Puu-nene club-house. The large hall was filled, a large number of those present being Hawaiians.

This evening the Prince will speak at Pala, and tomorrow evening at Waiehu. On Thursday afternoon the party will drive over to Lahaina, where Kuhio will speak prior to embarking on the Mauna Loa for Honolulu that evening.

It is evident from the enthusiastic receptions that are being accorded the Prince and party everywhere on Maui that the voters still remain true to him.

WHY TAKE ANY CHANCES with some untried medicine for diarrhoea, cramps, dysentery, when for 70 years Painkiller (Perry Davis') has been relieving millions of cases.

EDWARD CAMPBELL v. H. HACKFELD & CO.

EXCEPTIONS FROM CIRCUIT COURT, FIRST CIRCUIT. ... DECIDED OCTOBER 4, 1910.

HARTWELL, C. J., PERRY and DE BOLT, J. J.

TRIAL—verdict—evidence in support of—plaintiff's habits.

A verdict is not set aside because evidence was rejected or struck out if it afterwards went before the jury. It was not error to refuse to allow the plaintiff to ask his witness whether he was a drinking man or not at the time of the accident.

TRIAL—instructions—facts for the jury, law for the court—court not required to summarize facts to which instructions are to be applied.

Instructions were properly refused involving a finding by the jury of defendant's liability or a finding by the court that the plaintiff was not negligent.

It is not the duty of the court to refer specifically to facts in the case to which its instructions are intended to apply.

TRIAL—witness—voluntary submission of personal examination.

The plaintiff waived his exception to an order that he be examined by a physician by voluntarily submitting his person for examination by the physician in presence of the jury.

OPINION OF THE COURT BY HARTWELL, C. J.

The plaintiff brought an action on the case to recover damages for injuries to his person received in the defendant's employ, resulting from the breaking of a defective rope used in hoisting from the hold of the ship on which he was employed two trucks which had been used in discharging cargo. The details of the case, as shown at the former trial in which a directed verdict was set aside, appear in 20 Haw. 35. A verdict for the defendant was rendered at the second trial and the plaintiff brings exceptions to rulings upon evidence, to granting the defendant's motion that the plaintiff's person be examined by a physician, to certain instructions refused and to others which were given, to the verdict as contrary to law, the evidence and the weight of evidence, and to the refusal of his motion for a new trial based on the same grounds.

The verdict was not unsupported by evidence. On the contrary, there was evidence, and more than a scintilla, in support of it which in conformity with the established practice of this court requires the verdict to stand unless there was prejudicial error in the rulings or instructions or in requiring the plaintiff to submit to a personal examination.

Exceptions were taken to the striking out of certain answers made by witnesses for the plaintiff on the grounds that they were inferences, hearsay, irresponsible to the questions, not appropriate for re-direct examination or immaterial, and to the rejection of certain offers of evidence by the plaintiff on the ground that the offer was not sufficiently specific, failing to state specific facts sought to be shown; but as the evidence struck out or rejected was afterwards presented and went to the jury it is unnecessary to discuss whether they were right or wrong as the plaintiff was not harmed by them. *Territory v. Nobriga*, 16 Haw. 29. This applies to exceptions 1, 2, 3, 4, 5, 8, 9, 10, 11 and 16.

In exception 6 a witness for the plaintiff when asked "What was the manner in which Tom Pedro showed the rope to the captain?" answered "It seemed to me he was showing the rope to the captain and at the same time it seemed to me in the way he was speaking that the rope was rotten, unfit to use." The answer was struck out as not responsive and as giving the witness' opinion. The witness having testified that he did not remember that he understood "any word spoken between the captain and Tom Pedro," the ruling was correct.

As no reference to exceptions 7, 13, 14 and 15 appears in the brief of either party they are not to be taken as relied upon.

Exception 12 was taken to the refusal to allow the plaintiff to ask one of his witnesses whether at the time of the accident the plaintiff "was a drinking man or not." It is not obvious what bearing the fact that the plaintiff was not a drinking man, if shown, would have had upon the case since at the most it would only have affected the amount of damage to which he would have been entitled if he had received a verdict, and for the further reason that in the absence of evidence to the contrary the presumption was that his habits were good.

The plaintiff requested the following instructions, which were refused:

"If you find that at the time of the falling of the trucks, plaintiff was working in the hold under or near the hatch and that plaintiff had no duty or liability as to selection, oversight, or charge of the ropes used in hauling out the trucks, and that the plaintiff did not hear the call to stand from under, if you find there was such call, then the plaintiff was not guilty of contributory negligence."

"If you find that at the time of the falling of the trucks into the hold, plaintiff was working in the starboard wing of the hold not directly beneath the open hatch, but on the starboard side of the space in the hold directly beneath the hatch, and out from under heavy bodies falling through the hatch, he was not guilty of contributory negligence."

The instructions were properly refused as they involve a finding by the jury of the defendant's liability or duty which was a question of law for the court, and a finding by the court that there was no negligence in being where the plaintiff stood at the time of the accident.

The plaintiff excepted to the following instructions, which were given:

"If you find from the evidence that although the defendant may have been guilty of negligence through its servants contributing to produce the injury complained of, still if you find that the plaintiff was also guilty of negligence proximately contributing thereto, the defendant is not liable unless his negligent act occurred after he became aware of the danger to which plaintiff by his own neglect may have exposed himself."

"If you believe from the evidence that the danger to which the plaintiff was exposed was a risk assumed by him, or if such danger was a risk ordinarily incident to his work, or was a danger of which he knew, or by the exercise of ordinary care in the discharge of his duties might have known the plaintiff is entitled to nothing, and your verdict must be for the defendant."

"If you find under the above instructions that plaintiff and defendant were both guilty of negligence which contributed to bring about the accident to plaintiff, then plaintiff cannot recover herein, and you will find for the defendant."

"It is the duty of one engaged in dangerous employment to keep a constant outlook for the dangers that beset him, but if he receives an injury because of a danger to which he is exposed or which he had equal advantages and opportunities with the employer to know and fully understand, he cannot recover for an injury as a result of such danger."

"If you find that the defendant furnished reasonably safe tools, appliances and machinery for the work of discharging the cargo of coal from the bark "Aeolus," and that the defendant was injured on account of the negligence of one or more of his

co-workers, then your verdict must be for the defendant."

The plaintiff's objection to the instructions is that they are a "bald statement of the law—without a summary of the facts taken from the case;" were "inapplicable to the weight of evidence" and might have misled the jury to misapply them and omit to apply them where they were properly applicable, and that they ignore the doctrine of "last clear chance." We do not regard it as the duty of a court to refer specifically to facts in the case to which its instructions are intended to apply if not requested to do so. The instructions state the law correctly. The evidence did not require further recognition of the "last clear chance" than appears in the instructions shown in the bill of exceptions. The entire charge is not brought here and may have further referred to this matter.

Exception 12a was taken to the granting of the defendant's motion for an order requiring the plaintiff to be examined as to his physical condition, alleged in the complaint, "by such physician and surgeon as the court may think proper, at such time and place as the court may appoint." The motion was based upon the affidavit of the defendant's attorney of his information and belief that the plaintiff "was suffering with tuberculosis and that unless he would submit to an examination of his physical condition the affiant would be unable to procure expert testimony as to the extent of the tuberculosis condition, its effect upon the plaintiff's earning capacity or his life expectancy because of it," and that the examination was necessary in order that the defendant might intelligently defend the action. The motion was presented and argued before the trial and denied without prejudice to its renewal at a subsequent time during the trial. The plaintiff having rested his case, after testifying in his own behalf and without offering any expert testimony as to his physical condition, the order was made, the plaintiff objecting that it "was a violation of his personal liberty," that "James R. Judd, a physician and surgeon duly authorized to practice and practicing in the Territory of Hawaii, and having no interest in the suit herein he and he is hereby appointed to examine at a time suitable and convenient to the said Judd and to said plaintiff herein, the said plaintiff as to his physical condition, the result of said examination, to be established by the oral evidence of said James R. Judd so far as the same is competent, relevant and material, to be used by either party hereto." The doctor was called by the defendant, and after stating in part what he had observed in the examination, said, "If I had the man stripped I could show very much better than I could talk about it just what his condition is." Thereupon the plaintiff's attorney asked the defendant's attorney, "Have you any objection?" the reply being, "I have no objection, let's have it." The plaintiff was then stripped to the waist in the court room and examined by the doctor who showed that the plaintiff had not been injured in the manner or to the extent he had testified for himself. The defendant claims that this was a waiver of the plaintiff's exception.

Undoubtedly the defendant did not intend to waive his exception to the order by offering himself for examination but it may be inferred that he expected to show to the jury that the doctor was not correct in what he would testify concerning him and perhaps could convince the doctor of this, as he afterwards tried to do in cross-examination. If he meant to rely on his exception could he consistently seek in this manner to gain any benefit for himself? Instead of objecting to the doctor testifying or afterwards moving that his testimony be struck out, thereby giving the court an opportunity to reconsider the order, the plaintiff proposed that his person be examined in the presence of the jury. This was inconsistent with relying upon his exception. It was held in *Union Pacific Railway Co. v. Botsford*, 141 U. S. 250, 251, 253, a case like that before us, that the United States Circuit Court had properly denied a motion by the defendant three days before the trial that the plaintiff be required to submit to a surgical examination on the ground that "No right is held more sacred, or is more carefully guarded, by the common law, than the right of every individual to the possession and control of his own person, free from all restraint or interference of others, unless by clear and unquestionable authority of law," and that "no order to inspect the body of a party in a personal action appears to have been made, or even moved for, in any of the English courts of common law, at any period of their history." In *Camden and Suburban Ry. Co. v. Stetson*, 177 U. S. 172, 174, an action in the U. S. District Court for New Jersey to recover damages for injury to the person of the plaintiff caused by the defendant's negligence, a similar motion was denied on the ground that the court had no power to order the plaintiff to subject himself to examination against his will although there was a New Jersey statute authorizing it. The court held that the statute applied in trials at common law in United States courts as Sec. 721 Revised Statutes provided that "the laws of the several States, except where the Constitution, treaties or statutes of the United States otherwise require or provide, shall be regarded as rules of decision in trials at common law in courts of the United States, in cases in which they apply," saying, "There is no claim made that the statute violates the Federal Constitution, and we are of opinion that such a claim would have no foundation if made."

Assuming, but only for the purpose of this case, that under like conditions the rule in the *Botsford* case would be obligatory on this court, we are of the opinion that it does not apply to the circumstances here shown. If the plaintiff was wronged by the order it was because of the unjustifiable invasion of his person which it authorized, but its sole object was to obtain evidence of his physical condition. As the same evidence, to be obtained in the same way, was proposed by the plaintiff, he was not in fact harmed thereby. That an illegal method of obtaining evidence does not make it inadmissible is settled in *Territory v. Soga*, 20 Haw. 71, 82. If wrong had been done to the plaintiff after he had voluntarily subjected himself to examination, it was a wrong in theory only. His offer to be examined was intended to make a favorable impression on the jury and if he had succeeded in obtaining a verdict thereby he would have had no cause to complain of the order. It was not the order which was objectionable to the plaintiff when he took the exception, but the examination it required. By requesting examination he showed as plainly as words could do that he no longer objected to it. If the doctor had not examined the plaintiff, or had not been called to testify, the order if illegal would have been harmless. Upon the whole the plaintiff's conduct in this matter appears to have been a practical waiver of any right he may have had to be exempt during the trial from invasion of his person.

Exceptions overruled.

HONOLULU REALTY MEN HELP BOOST THE FAIR

C. A. Stanton, Founder of the Ten Thousand Club, Returns From East.

SAN FRANCISCO, Oct. 5.—With the intention of boosting Honolulu, and incidentally assisting in making the Panama-Pacific Exposition a success, a coterie of Hawaii real estate men have formed a Ten Thousand Club, the object of which is to have that amount of American population in the islands by the time the exposition opens.

Charles A. Stanton, president of the Honolulu Realty Board, and largely interested in land in that city, is in San Francisco on his way back to Honolulu, after an extended trip through the East and Middle West. He it was who started the Ten Thousand Club and he is very enthusiastic over its possibilities.

With the words, "Honolulu Ten Thousand Club, 1915," and a scene representing Waikiki beach with the surf riders coming in on the waves printed on it the club has issued a very attractive watch fob.

Weekly Bulletin \$1 per year.

LEGAL NOTICES.

IN THE CIRCUIT COURT OF THE First Judicial Circuit, Territory of Hawaii.—At Chambers, In Probate, in the matter of the Estate of Andrew Fuller, Deceased. Notice to Creditors. Notice is hereby given by the undersigned Ino Susan Fuller, Executrix under the Will and of the Estate of Andrew Fuller, deceased, to the creditors of and to all persons having claims against the said Estate to present their claims, duly authenticated, with the proper vouchers, within six months of the first publication of this notice (said notice being published for the first time on September 29, 1910), to the said Executrix, at the office of The Bank of Hawaii, Limited, in the Judd building, corner of Merchant and Fort streets, City and County of Honolulu, Territory of Hawaii, the same being the place for the transaction of business of said Estate in said Territory. INO SUSAN FULLER, Executrix under the Will and of the Estate of Andrew Fuller, Deceased. Dated September 29, 1910. 4736—Sept. 29; Oct. 6, 13, 20, 27.

IN THE CIRCUIT COURT, FIRST Circuit, Territory of Hawaii.—In Probate. At Chambers, No. 4214. In the matter of the Estate of Kapea Kalaikawaha, late of Waiakoa, deceased. On reading and filing the Petition and Accounts of William R. Castle and Bishop Trust Company, Limited, administrators of the Estate of Kapea Kalaikawaha, deceased, wherein petitioners ask to be allowed \$2428.39 and charged with \$1009.50, and ask that the same be examined and approved, and that a final order be made of Distribution of the remaining property to the persons thereto entitled and discharging petitioners and sureties from all further responsibility herein: It is ordered that Monday, the 7th day of November, A. D. 1910, at 10 o'clock a. m. before the Judge presiding at Chambers of said Court at his courtroom in the Judiciary Building, in Honolulu, County of Honolulu, be and the same hereby is appointed the time and place for hearing said Petition and Accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property. Dated the 21st day of September, 1910. BY THE COURT: (Seal) M. T. SIMON, TON, Clerk of the Circuit Court of the First Circuit. Castle & Withington; Holmes, Stanley & Olson, attorneys for administrators. 4720—Sept. 22, 29; Oct. 6, 13, 20.

Cable News

STRIKERS REFUSE SOLDIER DUTY

(Associated Press Cable.)
PARIS, Oct. 12.—A condition bordering on civil war has arisen as an outcome of the railroad strike declared on Tuesday in the northern and western provinces. The call to the colors issued by the government, directed to thirty thousand of the strikers, has been practically ignored, the men refusing to join the reserves which may be ordered out against the other strikers.

The situation is made worse by the silliness of the railroad operators in other sections, and it is not improbable that every railroad throughout France may be tied up. Today the men of the Paris subway line and those of the city surface lines voted to join the strikers in forcing wage concessions.

Food Supply Low.
The city faces a famine. Already the one day's demand has about exhausted the available supply in the city, and none is coming in from the country to make up the deficiency or meet further demands. The government is hurrying preparations to bring food in by way of the sea and the Seine.

Rioting Has Commenced.
Already the streets are filling with rioters, and there have been several clashes between the strikers and their sympathizers and the gendarmes. The mobs center around the various railroad stations and yards and are forcibly preventing any attempts to start trains with army engineers in charge.

Declare It a Revolution.
Premier Briand today issued a statement declaring the strike and the refusal to respond to the call to the colors a practical revolution. This statement is believed to have been issued in order to pave the way for whatever drastic steps to recreate order the government may have in view.

SWITZERLAND ALOHA TO PORTUGAL

LISBON, Oct. 12.—Formal recognition of the Republic of Portugal was received here telegraphically today from the Swiss government, the Republic of Switzerland welcoming the birth of another republic in Europe.

The British minister here has announced that Great Britain will recognize the new republic as soon as the government at Westminster becomes convinced that the revolution is definitely ended successfully and a general amnesty has been granted to the military and naval forces that have so far remained loyal to their king.

THROUGH THE AIR AT A 75-MILE CLIP

ST. LOUIS, Mo., Oct. 12.—The fastest thirteen miles ever covered in flight was made today by Leblanc, the French aviator, who, in a Bleriot monoplane, flew that distance in ten minutes. His average speed over the course was seventy-five miles an hour.

ARGENTINA'S NEW PRESIDENT.
BUENOS AYRES, Argentina, Oct. 12.—General Pena, who was chosen by the representatives of the provinces as the President to serve for the coming six years, was today placed in office with elaborate inauguration ceremonies.

After conferences extending over several weeks officials of the Southern Pacific railroad and representatives of the dissatisfied employees of the car-repairing department of the road announced an agreement for an increase in wages of 2 cents an hour, and certain shop rules demanded by the men.

REPUBLICANS SPEAK AT PRECINCT RALLY

Issues of Campaign Presented To Large Crowd of Voters.

Most of the Republican county and legislative candidates took advantage of a precinct meeting at Kalihi last night to be present and present themselves and their claims to the voters of the district. The audience was flatteringly large, and the Republican speakers were heartily received.

Cecil Brown made the principal speech of the evening so far as campaign issues are concerned, touching particularly on immigration questions. He showed the Hawaiians that their prosperity depends as much on the immigration of laborers as that of the richest sugar planter, and declared that McCandless' policy, if carried out, would be disastrous to the Territory.

A Hindu prisoner in the penitentiary at Vancouver, B. C., has refused to eat the regular prison fare because he says he will be contaminated. He declares he will die before he will degrade himself.

WORLD'S SERIES STARTS SOON

FIRST GAME TO BE PLAYED IN PHILADELPHIA

Schedule For Four or More Games Is Arranged—Umpires and Scorers Are Selected—No Bonuses.

Fate played its part here today at a meeting of the National Commission, when the toss of a coin decided that the first game for the world's baseball championship between Philadelphia, the American League champions, and Chicago, pennant winner of the National League, would be played in Philadelphia, says an exchange of October 8. A few moments later the commission announced that the contests would begin at 2 p. m., Monday, October 17. It has always been a superstition that the team winning the toss for the first game loses the series. For this reason, President Murphy of Chicago was not much downcast when President Ben Shibe of Philadelphia called the turn on a half-dollar today.

The series will be played off as follows: First game, Monday, October 17, at Philadelphia; second game, Tuesday, October 18, Philadelphia; Wednesday, October 19, train trip from Philadelphia to Chicago. Third game, Thursday, October 20, at Chicago; fourth game, Friday, October 21, at Chicago.

In case other games are required to settle superiority, a fifth game will be played on October 22, after a hurried run in a special train from Chicago to Philadelphia, and in case another game is required, another hurried run in a special train will be made from Philadelphia to Chicago in time to play the sixth game in Chicago, on Sunday, October 23.

Umpires Are Appointed. If the series should not be settled by this time the place of playing the seventh game will be determined by the toss of a coin. The umpires for the big series will be Rigler and O'Day for the National League and Connelly and Sheridan for the American League. The scorers selected are Francis Richter of Philadelphia and Taylor Spink of St. Louis. John Heydler, secretary to President Lynch of the National League, and Robert McRoy, secretary to President Johnson of the Americans, were selected business managers.

Reserved seat prices were fixed at from \$1 to \$3, while the price for general admission will be 50 cents.

As usual, the players will receive 60 per cent. of the proceeds of the first four games, but to allow the players to partake of the benefit of a possible Sunday game the commission put a provision in the rules that if none of the first four games' receipts equals those of the Sunday game in Chicago, in case the latter game is played, the players' proportionate share shall be made on the basis of the Sunday game in Chicago. The commission has called attention to the rule of the series which forbids the teams to give any part of the world's series proceeds to former team-mates released to clubs in the same league this season, and prohibiting the giving of bonuses by the owners to players of the two clubs.

Now that the newspaper men are getting into some kind of tennis form, a tournament is being suggested, and it is probable that Manager Hertsche of the Moana Hotel will offer the use of the beach courts to the scribes.

The Trial and Mountain Club will hold a meeting today, and at it many matters will be discussed. The relationship of the Hilo organization will be talked over, and committees will be selected to go ahead with the plans for the year.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded.—Made by PARIS MEDICINE CO., Saint Louis, U. S. of A.

TEAMS GETTING INTO GOOD FORM

COLLEGE OF HAWAII AND HIGHS AT WORK

Games Start Up On October 29—Suggested that Puna-hou Get In and Play High School.

All the football players are hard at work practicing signals and other stunts that will get them into first-class condition for the opening of the gridiron season. The schools are all on the job, and the Marines and other service teams are arranging to get into the fray as soon as possible. The College of Hawaii men do some great work every afternoon on the land adjoining their alma mater, and they are improving wonderfully under the expert direction of Coach Jones. Manager Jay Kuhns is very enthusiastic about the chances of his team, and although he knows that he has too few subs, he hopes for the best.

With McCandless and Rice on the team the college would have two really fast men who, under the new rules, would prove to be invaluable. The pair are good men and they will be a great help to the college team. The High School men are also doing good work and getting the enthusiasm worked up over the coming schedule of games with the college. The games between the college and the High School start up on October 29, and it has been suggested that the Puns come in and play the High also on alternate days.

WAIPAHU MAN KICKS ABOUT FAN'S LETTER

Claims That Bad Language Was Used By Excited Youths.

The following letter from a well-known Waipahu man needs no explaining and speaks for itself:

"Sporting Editor, Evening Bulletin:—In your issue of October 11, under 'Baseball,' appears an article by an Ewa correspondent criticizing the treatment accorded the Ewa contingent of rooters at the game played on our grounds between Ewa and Waianae.

"As I am one of the gentlemen referred to, I take this opportunity of stating the other side of the case. In the first place, they were accorded a square deal from start to finish, and to my knowledge there was no objection made to their rooting, but I did take exception to the use of indecent language, especially as ladies were present, in close proximity to the offender. I informed this so-called gentleman that such language would not be tolerated. This was resented by him and his friends, whereupon I told him that if he continued I would have him put off the grounds. This apparently disgruntled his coterie to the extent that they must air their grievance through the press.

"The suggestion made by the writer of that article, that the National League Commission abolish rooting, is timely, if the continuous rapping of a few brainless but leather-tongued hoodlums is considered rooting.

"I, myself, can not see any pleasure in being forced to listen to the indecent and constant howling of a small band of self-styled sports, who have neither the mental nor physical qualifications for anything in the sporting line stronger than marbles or plugging, but who insist on making themselves obnoxious to everyone within hearing.

"I have labored all along under the impression that the game was played largely for the pleasure of the majority of the spectators, but possibly I am mistaken; if so, I apologize. Yours truly,

"E. M. SCOVILLE.
"Waipahu, Oct. 12, 1910."

The proposition that the Oahu League take over the Athletic Park and run the place themselves will come up at the meeting to be held tonight.

LONG DISTANCE IS ABANDONED

KAOO AND JACKSON ARE AT LOGGERHEADS

No Money In Sight, Claim the Waiailua Horse People—Sprints Would Attract Big Crowd Without Other Event.

It now appears as if the sports meeting that had been arranged for Sunday next will fall through. There has been trouble as regards the fifteen miles race between Kaoo and Jackson and, for some reason, the match has been called off.

Kaoo's people say that the money for the purse was not put up and that to run for a percentage of the gate money is not good enough. The Jackson followers say that their man put up such good time over ten miles that the old Waiailua Horse got cold pedal extremities. That hardly seems possible considering the past performances of Kaoo.

Connie Hayes was another man who was training for the long distance race, but he has had to quit the game for all time. He says that he is to be operated on and that, in future, he will only consider half mile and one mile runs.

The news of the proposed abandonment of the meeting has disappointed many people who were banking on seeing Bill Rice and Pat McDonagh race over the 100 and 220 yards course. The long distance race was merely an incidental in most people's minds and probably 90 per cent of the spectators would have been attracted by the other events on the program.

McDonagh has been training hard and doing some fine running; he is confident that he can lower Rice's figures over the hundred yards, and that he can take Bill's scalp for the distance.

There are many people in Honolulu who pin their faith on Rice, and a meeting between the two would certainly draw a big crowd. It is to be regretted that the sports seem to be given up, and it is to be hoped that someone else comes through and arranges an afternoon's fun. Sprint races should draw the crowd in Honolulu, and a series of runs ranging from 50 to 880 yards would appear to be a good scheme.

Leaving the long distance race out of the matter, the program of short sprints would be good enough. Then throwing the baseball and other events would surely attract people. However, unless something extraordinary happens today or tomorrow the whole affair appears to be knocked on the head.

E. S. Gee will have a chance to play tennis while in this city, and he may have a hit by electric light tonight at the Moana courts. The ex-champion of Hawaii has been playing some tennis on the mainland and is in fairly good form. It would be interesting to see how Gee would stack up with A. L. Castle nowadays. The latter player has improved wonderfully and he would make Gee extend himself.

- Oct. 13-16.—Manoa Electric Light Tournament.
- Football.
- Oct. 29.—Season Opens.
- Running.
- Oct. 16.—Mixed Program.

MANOA GAMES THIS EVENING

TOO MUCH RAIN FOR PLAY LAST NIGHT

Some Interesting Matches Scheduled For Tonight—E. S. Gee Unable to See Play—Hope For Fine Weather.

Once more the rain interfered with the progress of the Manoa night tennis tournament, and play could not be resumed last night. The showers that drifted along frightened people and, although at times there was a clear sky, there was no play.

It is to be regretted that the rain prevented play as E. S. Gee, former Honolulu man and tennis player, is on board the Sherman and he wished very much to see the game played in Honolulu by electric light. Gee was formerly champion of Hawaii, and a most enthusiastic player; he held the Wall cup for a while but had to hand it back as he had no chance of coming from Washington to defend his title to the trophy.

There were several good matches scheduled for last night but they will be played tonight instead. That between Greenfield-Savage and Bockus-R. A. Cooke should be a beauty and no doubt a big crowd will turn out to see it.

The Manoa night tournament has, so far, met with fierce luck and the rain has made several postponements necessary. However, the matches that have been played, attracted large crowds and as the remaining ones will be far more exciting, there is a treat in store for the lovers of the game.

The program for this evening is as follows:

Mixed Doubles—Miss Lucy Ward and Gerald Irwin vs. Mrs. Ethel Coulter and Clarence Cooke, at 7:30 p. m.; Miss Paty and Habbitt vs. Mrs. Clive Davies and Anderson, at 8:30 p. m.

Men's Singles—Gerald Irwin vs. R. A. Cooke, at 8 p. m.

Men's Doubles—Greenfield and Savage vs. C. G. Bockus and R. A. Cooke, at 9 p. m.

The Oahu League will hold a meeting tonight, and the question of whether or not the second series will be gone on with, will be decided. The most sensible thing the league could do would be to drop the matter altogether till next year, when everybody would come in eager for baseball. At present things are in such a state that it is doubtful if the games would draw any better than they did last year, and everyone knows what that was like.

The Makiki Walking Club will have a number of members out on the trail on Saturday and Sunday. A large party will stroll from the end of the Kaimuki car line to Makapuu cave, and, after spending the night there, will proceed to make the trip to Waimanalo, and then back via the Pali to town.
