# TARIFF BILL IS ATTACKED WOULD SUSPEND COASTWISE LAWS

## Cummins Leads Tariff Assault

### Strenuous Senator From Iowa Arises To Denounce Aldrich Payne Bill

WASHINGTON, D. C., Dec. 13.—Senator Albert B. Cummins of Iowa today opened the expected attack on the tariff bill in Congress by a bitter denunciation of the Aldrich-Payne bill, which he declared is created for the benefit of special interests. His condemnation of the existing schedules, which was general in its terms, was the feature of the day. The spectators' galleries were packed.

The Iowa Senator demanded also an amendment to the Depew bill which fixes the salaries of the judiciary. He would amend it to make the salary of chief justice of the Supreme Court \$18,000, of associate justices \$17,500, circuit judges of the Court of Appeals \$10,000, and district judges \$9000 per annum. The Depew bill is now pending and has the recommendation of President Taft, made in his recent message. Under its provisions, the chief justice is to receive \$17,500, associate justices \$17,000, circuit judges \$10,000, and district judges \$9000.

## AMID THE BOOMING OF GUNS REAR ADMIRAL CORWIN P. REES RETIRES FROM ACTIVE SERVICE

As the smoke belched forth from the muzzles of the guns of the salutary Union army in 1864 in an Ohio regaling battery this morning, Rear-Admiral Corwin P. Rees took leave of his officers at the naval station and drove from the grounds as the last gun of the admiral's salute boomed, and as his flag was hauled down from the mast and the pennant of Captain Walter C. Cowles was broken out in its stead.

It was not, perhaps, such an imposing ceremony in a way, but as the retiring commandant passed along the line of his officers, shaking hands with each and wishing them well, as a man who has retired to private life they did him, it marked the passing at the close of work well done. Every officer was present to take leave of his chief today, all being in line except Pay Clerk Thomas Dunn.

## NEW ROUTE FOR THE IMMIGRANTS

Will Be Sent to Isthmus From Portugal and Transshipped Here.

Plans made public yesterday afternoon at a special meeting of the Board of Health have suddenly changed the Territorial policy of handling immigrants. To carry out these plans, Dr. Victor S. Clark of the board will leave on the Sierra tomorrow morning for the Coast, where he will charter a special steamer.

The steamer will carry immigrants from the Isthmus to Honolulu, and the plans call for a new route of shipping the immigrants that Agent A. J. Campbell is now securing in Portugal. The new route is by steamer from Portugal across the Atlantic to the eastern side of the Isthmus, across the Isthmus by way of the Tehuantepec railroad, and across the Pacific by a chartered steamer.

The new plans are made necessary by the outbreak of cholera in Funchal, which has caused the board to abandon its plan of getting laborers from the Island of Madeira. Instead, the laborers and their wives and families will be shipped in small numbers across the Atlantic to the Caribbean side of the Isthmus and then transshipped on the Pacific side.

The Board of Health heard Dr. Clark's plans and approved them, in-

## DEMOCRATS MUST BALLINGER NOW ANSWER CHARGES FOR HOLSTEIN CABLES SUSPENSION OF LAW TO POSTPONE ACTION

Thinks Passenger Regulation Affecting Hawaii Should Be Lifted.

TRAVEL FACILITIES ARE NOW INADEQUATE

Secretary of Interior Makes Strong Recommendation in Annual Report—Urges Appropriations for Buildings.

Declaration that the coastwise navigation laws should be suspended in so far as they affect Hawaii, and that more facilities should be afforded passengers to and from the mainland, is to be made by Richard A. Ballinger, Secretary of the Interior, in his annual report. He says in part:

"There is a lack of proper facilities for passenger travel between Hawaii and the mainland, due in part to the fact that the through steamers making Honolulu a port of call are generally in foreign ownership and can not under the navigation laws, transport passengers between the Territory and the mainland. Relief should be accorded through the suspension of the navigation laws for a limited period, so far as they relate to such travel, or in some other way which will add to the opportunities for transportation of passengers."

Appropriations are needed for continuing the work upon Honolulu, Hilo and Kahului harbors, for beginning work on some harbor on the island of Kauai, and for the public buildings heretofore authorized at Honolulu and Hilo.

## ARIZONAN LOST PROPELLER BLADE

The loss of a blade in the propeller of the American-Hawaiian freighter Arizonan caused that vessel to make a rather slow passage to Honolulu. The big steamer was an arrival at the port early this morning, bringing down a large cargo from Puget Sound ports and transhipped cargo placed on board at Salina Cruz.

The vessel was compelled to slow down owing to loss of a portion of her wheel, and it required eleven days to make the passage to the Islands.

It is proposed to repair the damage at this port if possible, and to accomplish this object the vessel will be given a quantity of sugar in the forward holds with a view to elevating the stern of the steamer, thereby placing the wheel as far out of the water as possible. The Arizonan may be detained here several days pending the repairs.

The Arizonan will discharge about 3000 tons of freight, some of which was shipped at New York. The steamer will take on sugar at Island ports for Tehuantepec.

## NOTICE TO ADVERTISERS

Advertising copy for next Saturday's Bulletin should be sent in at once. The demand for space in the coming Saturday issue is so great that one section of the paper will have to be printed Thursday evening.

The demands of all the Bullentin patrons can be attended to if the copy is sent to the office early in the week.

## Make Attack On Pure Food Bill

Selling Interests Would Prevent Ordinance From Becoming Law

An organized fight against the new "pure food" ordinance, which was passed a few days ago by the Board of Supervisors and is now up to Mayor Fern for signature, was started this morning by attorneys representing the Chinese fishing and vending interests. Further developments show that the objections to the ordinance are not confined to the fish sellers, but that a number of grocers as well as vendors of meat will raise loud protests before the ordinance becomes law.

Douthitt & Coke, attorneys for Wing Lock Hong, the association of Chinese fish sellers at the big King street market, have prepared a formal protest to be submitted to Mayor Fern today. The protest declares that the ordinance in its present form

## TAFT RECOMMENDS SELECTION OF FEDERAL BUILDING SITES BY EXPERTS OF GOVERNMENT

President Taft's message to Congress contains an important recommendation in regard to the selection of a site for a Federal building that is of particular interest to Honolulu owing to the present controversy over the Mahukia site. He says:

"In our public buildings we still suffer from the method of appropriation, which has been so much criticized in connection with our rivers and harbors. Some method should be devised for controlling the supply of public buildings, so that they will harmonize with the actual needs of the government. Not only are buildings appropriated for by Congress which are not needed, and buildings left unappropriated for by Congress which are needed, but when it comes to the actual construction there has been in the past too little study of

## TERMS OF KAPAA LEASE ARE AGREED UPON WITH RENTAL FIXED AT \$7,000

The Kapaa land question and a crop then growing is harvested, shall scrap over hills of the Land Board between Marston Campbell and Auditor Fisher were the features of the session of the commissioners held in the Throne Room of the Capitol this morning.

The expression of final sentiment of the Land Board majority in regard to the terms of the Kapaa lease was expressed in a motion made by W. A. Kinney, the only vote cast against it being by R. H. Trent.

The motion is as follows:

"I move that it is the opinion of the board that the Kapaa land applied for by the Makai Sugar Company should be leased for fifteen years at an annual rental of not less than \$7000 per annum, the lease also to include all the water of Kapaa, except such waters as the commissioner reserves for the needs of the people, residents and citizens of that section; it being understood that the lease shall contain an expressed provision that the government, after the

**POLICE PRODUCE PURLOINED FOWL**

The excited calls coming from affrighted hens and the clarion crow of a husky rooster proved one of several interesting diversions at the Lymer Matinee, held at the Police Court during the morning hours.

Chief of Detectives McDowell was out gathering and in his rounds he sighted the poultry that graced the District tribunal and which was introduced as evidence in a case wherein one Matsuya, a Japanese was charged with having stolen the fat pullets and the lord and master of the henry and attempted the sale of the chickens to a Chinese stall keeper at the city market.

The arrest was made at eight o'clock and the Japanese received sentence of a month's imprisonment by ten o'clock making but a two hours transit from freedom to confinement, which disapproves the oft-repeated statement that the wheels of justice are prone to travel at a snail's pace.

The Japanese is alleged by the police to have been an old offender. He was up before the court some months ago on a similar charge and appears to have a penchant for fine and fat poultry.

**FIXED AT \$7,000**

(Continued from Page 1)  
the rental of \$1590 acres of cane land, and pointed out that a rate of \$5 an acre for such land had already been established by the board.

In replying to Trent's criticism, Mr. Kinney declared that it was necessary to make some reduction for the terms of the lease, the government being empowered to acquire the land for homesteading purposes at any time, making the tenure of the plantation uncertain, and uncertainty that would mean much more expense to themselves that would be experienced if the Makai Sugar Company could go ahead with the assurance that it could raise crops on the land for fifteen years or other given period.

Alfred Carter declared his assent to the motion, provided every attempt would be made to homestead the lands at the earliest possible date and that homesteading effort should not be even temporarily suspended because a lease was carried into effect with the Makai Sugar Company. With this understanding he voted for the motion, the other members present this morning—Brown, Kinney and Dwight—registering their sentiments by voting for it.

When the meeting opened Auditor Fisher appeared on the scene with a sheaf of bills which he declared were not in proper form and could not be paid, there being no direct apportionment for the work of the Land Board. He intimated that some rather loose methods had been practiced in incurring expense, a view which was indorsed by a statement from Governor Frear when he was asked this morning concerning the Land Board expenditures. The Governor stated that the contingent fund might be available, while Marston Campbell stated that the Land Board bills would be paid from the funds in his departmental appropriation.

Special Agent of the U. S. Department of Justice, Frank Flint, at the capital and Attorney Frank Dunnington had a busy part to play in securing the release of the captain of the Aiden Besse. The release of McAllister was particularly inadvertent in prosecuting, was to be freed of all charges and released from prison. Shortly after midnight United States Marshal Leo Youngworth confirmed the report that Washington had ordered the dismissal of the charges against McAllister and that the old sea dog immediately would be released from custody. It is reported that the efforts of United States Senator Frank Flint at the capital and Attorney Frank Dunnington had a busy part to play in securing the release of the captain of the Aiden Besse. The release of McAllister is said to have a direct bearing on the resignation of Ridgeway. McAllister had been held at Los Angeles for weeks in the charge that he allowed two aliens placed in his charge to escape from custody, although they were starving at the time and the captain had no food with which to feed them.

**Steered With Propeller.**  
Accounts have come to hand of a smartfeat accomplished by a master in the employ of Messrs. A. Holt & Co. (Blue Funnel Line). The vessel concerned was the big liner Ning Chow and, steered by the propeller, she made her way into Yokohama from 700 miles at sea after her rudder post snapped when outbound from Puget Sound. The rudder post, a heavy casting of several tons weight, snapped during a gale and Captain Allian resorted to the twin screws to steer, going ahead with one propeller and astern with the other engine at short intervals to keep the big steamer on her course. At Yokohama the

Chinese are being held at Angel Island for deportation. One of the women is suspected of being a resident of the San Francisco Chinatown, whose duty in the plot was to act as guide to the newcomers and get them from the water front to Chinatown.

Suspensions from the service are almost sure to follow, and if the evidence can be secured the matter will be brought to the attention of the Federal Grand Jury.

Object to "Those Chairs."

Those hard and unyielding wooden steamer chairs that the Pacific Mail Steamship Company provide for the use of the traveler to the exclusion of an other and more comfortable article is one of many matters that was brought up for consideration at the time that Vice-President and General Manager Scherwin was touring the Pacific as a passenger in his own vessel. The regulation that compels a passenger to use a steamer chair provided by the company at a rental of one dollar has been a bone of contention for some time. Speaking of the regulations imposed in his name on the passengers who traveled on Pacific Mail line ships, which were removed after he had sampled them on his trip, Scherwin said that many of them were his only in a Pickwickian sense, because he knew nothing about the rules until he ran up against them.

Lurline Here at Noon Tomorrow.

With less than fifty passengers but a fair consignment of general cargo from the mainland, the Matson Navigation steamer Lurline from San Francisco should arrive on the port at noon tomorrow.

Castle & Cooke the local representatives for the liner have received a tele wireless message stating that the vessel is steaming through light north east wind and smooth seas.

The vessel was 626 miles off the port at nine o'clock last evening and in bringing 47 passengers and 2300 tons freight for Honolulu.

There are one thousand tons of freight and supplies for Kahului. The vessel also brings an even dozen automobiles for local importers.

expected with the arrival of the steamer.

**Competition in Passenger Business.**

Vice President and General Manager Scherwin of the Pacific Mail appears to see keen competition arising in the Pacific with the advent of four passenger steamers to be operated by Alfred Holt or what is better known as the Blue Funnel line. He claimed upon arrival at San Francisco that Japan, by means of heavy subsidies, is fostering the growth of its already large merchant marine and more competition is to be looked for from the Holt line, which operates the "blue funnel" freighters and is making arrangements to put four passenger ships in the trans-Pacific trade. Scherwin also heard while in the Orient that the big German liner Deutscherland was to enter the field before long.

**Logan Sailing This Evening.**

Bearing the headquarters' band and accoutrements belonging to the Eighth Cavalry, the United States army transport Logan is scheduled to depart for Manila by the way of Guam this evening. The trooper has been given a supply of coal to the amount of about five hundred tons. The Logan is well crowded with officers, their families and enlisted men. Considerable preparation has been made for a Merry Christmas on board. Chief Steward Hannagan has laid in a supply of good things that will bring joy to the most despondent or lonely American who may be wandering far afield.

**Manila Impossible as Terminal.**

Manila, Philippine Islands, is an impossibility as a terminal for vessels operated by the Pacific Mail Company according to the accredited statements coming from Vice President and General Manager Scherwin. While he admits that the vessels now flying the Pacific Mail flag will probably make monthly calls at the Philippines port, Hongkong will continue to be considered the terminal of the line in the East. Scherwin is reported to have said that "physical reasons" debar Manila from becoming the Oriental terminal.

**Hilonian Sailing for Island Ports.**

Having completed the discharge of seven hundred tons of general cargo brought here from San Francisco and Seattle, the Matson Navigation steamer Hilonian is scheduled to sail for Port Allen, Kaanapali, Kahului and Hilo this evening. From the last named island port the Hilonian will proceed to San Francisco. It is expected that the vessel will receive a small shipment of sugar from Maui ports this being the initial consignment from the Valley Island for 1911 season.

**Chief Officer Charged With Smuggling.**

A Seattle dispatch states that First Officer T. Cheethan of the Great Northern liner Minnesota was arrested by customs inspectors on a charge of smuggling opium. Cheethan was caught in the act of passing the opium ashore. Ed Robinson, watchman at the dock, to whom Cheethan was passing the smuggled goods, was also arrested. Cheethan is said to have admitted his guilt to the inspectors and to have made a pliant pie for mercy. The officer was found with sixty pounds of dope in his possession.

## MR. KEEFE AND HAWAII'S PROBLEM.

Commissioner General Keefe will please everyone in Hawaii if he can invent a system by which this Territory can gain the full benefit of the immigration that it solicits from Europe and Asiatic Russia, and put an end to our spending money to transport people to the islands, where they remain only so long as they can secure the price to proceed to the mainland, and there possibly freeze or starve.

Mr. Keefe, judging from his interviews, looks on the situation in Hawaii in much the same manner as the average intelligent and alert American.

Reared in a section of the country where the Oriental is more or less a curiosity and the Oriental laborer of the Far East bitterly opposed, any American coming to Hawaii gains a first impression that these islands have too many Orientals—the numbers are appalling—and the Filipino appeals to the exacting American mind as merely another shade of Orientalism, though he is an American Oriental.

Mr. Keefe wants these islands Americanized.

His wishes coincide with the desires of every honest American in this Territory, and we believe that the majority of the Americans here are honest, on this point.

We also believe that Mr. Keefe coincides with the honest Americans of Hawaii who want the prosperity of these islands to continue, who want development along traditional American lines without purchasing it at the price of a wholesale wrecking of industry.

It isn't the American style to smash things in order to cure them, that is, not the approved American style, not the Taft system.

To accomplish the revolution in our labor population and do it without "smashing things," furnishes the real problem of the situation.

We shall await with great interest the final conclusions of Mr. Keefe because he gives the impression of absolute sincerity, and when he gets through with his tour of the islands it is certain that he will appreciate that drastic revolution rather than evolution will spread wreckage all along the way.

The question is not, What are you going to do about it? but rather, How should we best go about it?

If Mr. Keefe can invent a scheme of law by which the immigrants coming to the Territory under the auspices of the Territorial Board of Immigration shall be subject to the same restrictions of travel to the mainland, as the Oriental, he will give the Territory something that would make the population more permanent and save the immigrant a great amount of suffering.

Unfortunately for Hawaii, its sugar industry has gained the reputation of being sort of a slave-driving affair, while the dog life of the ditch digger, the miner and the railroad worker on the mainland is pictured in most brilliant hues. So the poor devil of an European immigrant who is brought to Hawaii gets an idea that, while this is better than home, "over there" is an El Dorado. The result—he saves his dollars to help pay his fare to what turns out oftentimes to be purgatory for himself and family.

In so far as Commissioner Keefe criticizes the plantation store that enters into direct and aggressive competition with the independent trader in the sale of everything from a steam roller to a pound of butter, he is absolutely correct. A spirit of live and let live should prevail in the principal industry of the Territory. In some places it does and others it doesn't, and in still others the plantation store is a blessing because the independent storekeeper could not possibly live and give the residents of the most distant country districts the advantages gained from the plantation mercantile establishment.

As to the rate of wages paid, it is well to remember that there are few industries subject to the extreme market fluctuations of sugar. Last year for instance, sugar prices were good and everything was swimming; next year the price will be low and more than one property will exist on its ability to make overdrafts. To establish an absolutely correct schedule, that will cover all contingencies of the market, and be adapted to what this Territory has to stand in meeting the competition of the larger producers of the world's supply of raw sugar, is a task that will make any man famous if he can do it.

Most every American who comes to Honolulu to study conditions has a desire to correct things by getting an axe and going at them. Then he thinks it over and usually concludes that the axe is all right in its place but can't be used with advantage to all concerned, including the broader interests of the American people in developing new territory and solving new problems.

by the Board of Supervisors of said city and county, and now in your hands for signature, upon the following grounds:

"1. That if said ordinance becomes a law, it will work great hardship and inconvenience not only on behalf of the undersigned, but likewise upon the general public.

"2. That said ordinance requires fish to be protected from the contact of and contamination by flies by means of screens of bronze or other non-corroding wire net, of not less than sixteen mesh and made of wire finer than No. 28. The undersigned respectfully call your attention to the fact that by placing such screens over fish exposed for sale, would prevent the free circulation of air, and thus produce early decompo-

sition without obtaining any good result.

"3. All fish which is purchased by the general public, is freshly caught and disposed of the same day when it is brought to the fish markets.

"4. That there is no danger from contamination by flies according to the present method of handling fish at the various markets, inasmuch as the same are continuously driven away by the vendors.

"5. That if said ordinance becomes a law, it will not be productive of practical results for the reason that the said wire screens must necessarily be constantly removed in order that purchasers may observe the quality and condition of fish exposed for sale, and that the same must be taken therefrom as the fish is sold.

"6. That the maintenance of said screens would cause great inconvenience, for the reason that it is necessary to pour fresh water over the fish at frequent intervals during the day in order to preserve and keep them fresh."

## FILIPINO MAKES WELKIN RING

Thought He Was Once Again Holding Fort in Legislative Halls.

District Court room and corridors rang with choice Castilian eloquence at the close of the session of court this morning. A Filipino giving his name as Edil de Gussman was responsible for a fervent tirade against what he termed mistreatment at the hands of the police.

Gussman made up the masculine end of a little tête-à-tête that was interrupted by an invasion of officers who armed with a warrant, placed Gussman and a Russian woman under arrest charged with having committed adultery.

Owing to the failure of certain important witnesses to attend court this morning, the preliminary hearing was put over until tomorrow.

Before leaving the stand, Gussman declared that he had a complaint to lodge against the police department, alleging that he had not been treated with respect due "a little brown brother" so fondly designated by President Taft.

When Judge Lymer permitted the Filipino to make his statement the man from Manila readily assumed the attitude of a ten-twenty-thirty cent tragedian in depicting the role of protector of the innocents at a harrowing "tank drama."

The basis of Gussman's complaint was that he had been ruthlessly dragged from his apartments without having been given time to assume all the various articles of dress that should adorn an Illustrado and a gentleman. As it was Gussman appeared before His Honor arrayed in a coat cut along the "ultra fashionable" lines pursued by the drapers of Tondo district in Manila. He was sans shoes, and shirt, while coat and trousers represented the latest wrinkle of "Rah Rah" raiment.

Judge Lymer smilingly accepted the apology bolsteringly offered by the Filipino. A brief investigation showed that Gussman was inclined to be very "cocky" and assumed the pompous airs so dear to the half-baked Manila Filipino whose chief ambitions is to either become a lawyer or the star in a dramatic society.

Gussman will have another opportunity to raise the loud voice of protest tomorrow when he attempts to explain his action and the alleged infringement of the laws.

## BOWMAN STARTS IN STRENUIOSLY

Marston Campbell's Hilo Apointee Begins Administration With a Scrape.

(Special Bulletin Correspondence.)

HILo, Dec. 11.—D. S. Bowman of the Board of Health was this week appointed by Marston Campbell as the Hilo representative of the Public Works Department.

"There is going to be something doing," said Campbell the evening before he returned to Honolulu. "I have told him to take up the matter of the squatters on the Makaoa reservation, and tomorrow you will see one of the houses going down."

Campbell was quite right in his prophecy that there would be something doing. The tale of Bowman's campaign the following day was quite an epic.

The house of T. A. Dranga was selected for the first object lesson.

Dranga had, like Ajax, been defying the lightning for many years, and when it smote him it struck with such suddenness. Dranga and his family had not lived in the house for some time, but a part-Hawaiian woman was occupying it. At 2 o'clock in the afternoon Bowman appeared on the scene with a gang of carpenters. In the meantime Dranga had learned what was about to happen and had taken possession of the fort. Bowman advanced on the house, and Dranga warned him to approach at his peril.

Bowman approached, and as Dranga refused to get out of the house, Bowman assisted him. He assured him three times, holding Dranga down once when he had fallen to the ground, but no blows were

struck. After the third round, Bowman got the decision. The carpenters removed the possessions of the tenant, and then the house was torn down in short order. Within a couple of hours the desolation was complete. The following day the remains were sold for \$20.

In the meantime Dranga had gone uptown thirsting for revenge. He got hold of the county attorney and asked him to issue a warrant for the arrest of Bowman on a charge of assault and battery. Deers told him to bring along the witnesses. The following morning Dranga, however, decided to let the matter drop, telling Bowman that he intended to carry his fight no further.

There are a couple of other squatters who have built small houses on the Makaoa reservation, and these have been notified to vacate the premises within thirty days. If they do not do so, it is the intention to tear down their houses also.

Another bit of warfare may be the result of the case of Gouvelia, the blacksmith, who has built his shop, which he had to move when Front street was widened recently, on the makai side of the street, on the land which has been set aside for the continuation of King street to the sea.

Bowman last week notified the Board of Supervisors of the fact that Gouvelia had built his shop on the street. The county fathers diplomatically placed the letters on file, and Bowman states that next week, unless Gouvelia moves his shop, it will be torn down.

**PRODUCT OF KLONDIKE.** What is known as the Klondike placer mining district has produced \$150,000,000 in gold since 1898, and mining experts estimate the amount yet to be mined equal to that already produced. However, as the remaining gravel is of lower grade the work must be done by machinery, and for this purpose twenty dredges are in operation this season, as well as a number of hydraulic plants.

## REGIMENT TAKES AWAY PARROT

Eighth Cavalry Adopts Valuable Bird at Fresno, California.

Under date of December 3 an Oakland dispatch tells of a valuable parrot being stolen by men of the Eighth Horse at Fresno now en route to Manila by the Logan, and the hunt for this bird.

The dispatch follows:

Superintendent of Police Wilson this morning received telegraphic advice from the Chief of Police at Fresno to the effect that the regiment had stolen a parrot from a Fresno hotel and had adopted the bird as a mascot.

He instructed the Oakland police to hold up the train bearing the soldiers at the Sixteenth-street depot and not to allow the fighting men to proceed unless the bird was returned.

He informed the superintendent that he held a John Doe warrant for the man who stole the parrot.

Although he realized it would be like hunting for a needle in a haystack to locate the bird if the soldiers decided to hide it, Inspector of Police Lynn dispatched Patrolman Conroy to the Sixteenth-street depot and Patrolman Sherry to the Oakland mole.

The regiment had stolen a march

on the Fresno police and instead of coming by way of the Sixteenth-street depot passed through Oakland at First street and Broadway at 8:15 this morning. At the mole Patrolman Sherry dodged hither and thither among the cavalrymen in a vain search for the parrot.

Florence is said to be 100 years old.

and very valuable, speaking five languages. A reward is offered for its capture.

### TROUBLES SETTLED WITH A TALK-FEST

Governor Frear and Superintendent Campbell Hear Complaints at Hilo.

(Special Bulletin Correspondence.)

HILo, Dec. 10.—The bitter fight which has for many months been carried on between the Territorial and the county government was settled in the most amicable manner, when Governor Frear and Marston Campbell had a personal conference with the County Fathers. The meeting took place last Wednesday afternoon, and the supervisors were invited to bring up such matters as they would like the Territorial officials to discuss.

Lewis brought up the Halemaumau road question. The county had spent a large sum of money on that road, he said, and still it had no control over the prisoners who were working there.

The Governor answered that the Territory would do its best to keep twenty to twenty-five prisoners working there all the time, but it could make no promises as to the number, as it could not determine how many people would be sent to prison. All the prisoners were needed on Oahu, and Maui had for over a year been clamoring for prison labor, but the Territory would allow this island to keep the prisoners to work on the new Kau road.

Lyman said that the county had been disappointed with the work done on the Halemaumau road, on which it had spent \$1953.04 since October, 1906.

Frear said that he saw no reason why the Territory and the county governments could not work together in complete harmony. He suggested that hereafter, when the supervisors send resolutions to the Territorial officials, these documents should be accompanied by explanatory letters, in order that the object might be better understood. In case the Territory turned down a request, it was useless to get angry about it. That did not end the matter, and possibly arrangements could be made by further negotiations. The Territory took it for granted that the county meant to do the right thing, and there was no question of bad faith.

Several other matters, such as the county's not getting a share of the income taxes of branch houses having their head offices in Honolulu, the proposed condemnation of land at the water head, and the division of license fees, were discussed, and in conclusion the Governor suggested that the financial report of the county to the Legislature be made to the

### FIRST BOAT ENTERS AND SAILS PANAMA CANAL

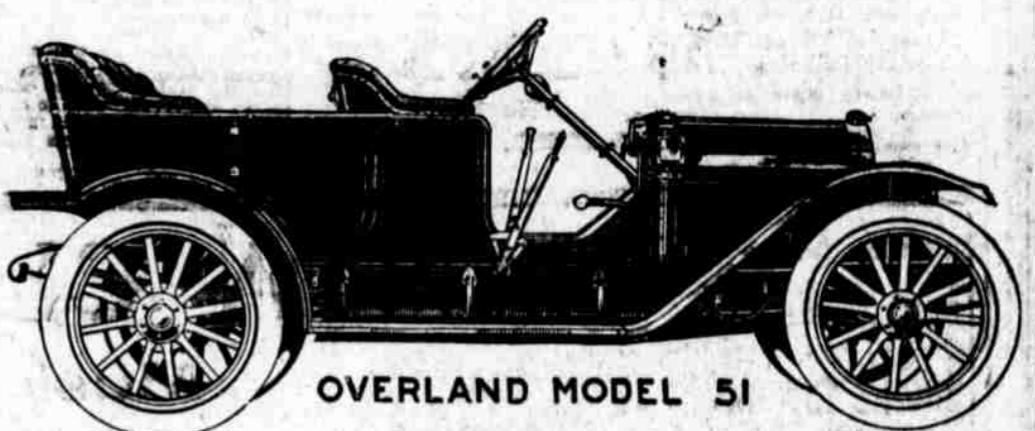

Yacht Visitor II Goes Up to Gatun Lock From the Atlantic Side.

(Special Bulletin Correspondence.)

NEW YORK, Dec. 1.—The first vessel to navigate a part of the Pan-

ama Canal is the American steam yacht Visitor II, owned by Commodore W. Harry Brown of Pittsburgh. Word was brought today that on November 23 the Visitor II, with Colonel Goethals, chief engineer of the Panama Canal; Commodore Brown and others on board, entered from the Atlantic side, went up as far as the Gatun lock, and returned. The yacht draws about seventeen feet.

## A Still Higher Type of Efficiency, Entirely New at the Price is offered in the

OVERLAND MODEL 51

(Licensed under the Selden patent.)

FOR 1911

### It Creates a New Measure of Value in the Automobile Industry

Thirteen beautiful models now ready, comprising the latest ideas in automobile design and construction. Completely equipped with Magneto, Lamps, Generator, Horn and Tools. Altogether the greatest value ever offered in motor cars at prices anybody can afford.

We start this new season with a record of having delivered 20,000 cars into the hands of satisfied owners in the first eight months of this year—with deposits already in hand for more than 15,000 of the new models just coming out.

#### HOW THIS DEMAND WAS CREATED

This wonderful demand for Overlands is due to the sheer merit in the car itself. There was never a car so simple and none ever offered nearly so much for the money.

Overlands embody the good points of automobile construction, which have been developed and suggested since the inception of the industry, together with new features and exclusive ideas, all of which make the entire Overland one thoroughly distinctive.

THE NEW OVERLANDS ARE MADE WITH FORE DOORS AND WITHOUT. YOUR CHOICE AT ONE PRICE.

#### PRICES FOR 1911

The Overland prices for 1911 begin at \$775 for 20-horse power, 4 cylinders—and \$850 for a Torpedo Roadster with 4 cylinders.

The 25-horse power Overlands sell at \$1000 and \$1050, according to style of transmission. The 30-horse power Overlands sell at \$1250. So does an Inside drive coupe.

The prices run to \$1600 and \$1650 for the finest cars—possible in 40 horse power with 116-inch wheel bases. Every price includes a magneto and full lamp equipment.

OUR ADVANCE BOOK FREE—Send for our latest book showing all the new models with complete specifications. It will enable you to make your comparison. No catalogue published shows so many styles at this. Send for it now before you forget it.

The cars are on show by more than 800 dealers.

 who was gassed twice, the first time he has been in uniform since his automobile accident several weeks ago.

As Admiral Rees came down the stairs from his office accompanied by Captain Cowles, the officers were in line on the lawn, while along the drive the battalion of marines was extended in two lines from the entrance to the grounds and facing the station building.

Greeting each officer, the retiring commandant was shown to his carriage by Captain Cowles, and as the band ceased its music the first gun from the saluting battery boomed and Admiral Rees stepped into the waiting vehicle.

Time after time the guns spoke until the whole thirteen of the regulation admiral's salute had boomed forth, and as the last one gave its message the two-starred rear-admiral's flag was hauled down by two marines, while two others broke out the blue captain's pennant, which was coiled in a ball at the top of the mast.

Those in line on the lawn to say farewell to Rear-Admiral Rees were Surgeon G. T. Smith, Civil Engineer A. C. Lewellen, Paymaster H. E. Stevens, Assistant Civil Engineer Roy F. Smith, Assistant Civil Engineer G. S. Burrell, Chief Boatswain R. H. Shepley (captain of the yard), Carpenter T. H. Scharf, Pay Clerk J. W. Caum, and Pay Clerk Thomas Dunn, seated just inside the door.

Captain Cowles, who succeeds to the command of the naval station here, is no stranger to Honolulu, having been in the city for various lengths of time on four previous occasions, the last one being with the battleship fleet, when he commanded the Kentucky.

In speaking of this part of the world this morning, in his office, Captain Cowles stated that he liked it, and he especially liked Manila, where he had spent considerable time.

He was off there first at the naval station at Cavite, and later as executive officer of the Rainbow, the flagship of the bamboo fleet, spending some time in the Far East on both those occasions.

He was in command of the Kentucky from the time the big sixteen started on their world-encompassing tour until they arrived back at Hampton Roads at the close of the remarkable cruise.

Captain Cowles is one of the sailor-

## AMUSEMENTS

### CIRCUS GIVES CHANGED BILL HOWARD FACES MUSIC BRAVELY

New Features of Big Show Highly Pleasing to Crowd.

"This show is all right. It is well ka hao."

That was the common expression heard last night under the tent of the Great American Show, which is giving nightly exhibitions at Asia Park. The audience was large, and from the beginning to the end everyone present enjoyed the performance very much. The bill showed an entire change.

The aerial performances by the Siestrist and Silbon troupe was the most interesting of all the program. Silbon was at his best when he went through the daring acrobatic tricks, including a double somersault, blindfolded. His daring acts in the air, as the Hawaiians said last night, were so unusual that they thought he was a supernatural being. In other words, they called him "aqua-lapu"—devil.

Diaz, Pojo and Diaz, the three experts on the horizontal bars, were applauded as they went through some surprising acts.

The entire program last night was changed, and on that account a large number of the people, who had previously attended there, brought their friends along to see it.

The children were especially interested in the performances of the dogs. The little spectators, who were unable to see through the big people who sat in front, stood on their seats and watched with interest the dogs—dane, stand on two legs and go through other clever tricks.

Tonight other interesting features of the performance will be shown.

#### ACROBATIC ACT SUCCESS AT PARK

Morris and Wilson, the two Australian pantomime acrobatic actors, were an instant success from the moment they appeared at the Park Theater last night, in their uproariously funny act, "The Crazy Hostlers." So absurd is the headgear and so perfect the costuming that it is moments before one realizes that the third figure on the stage is really only a dummy. But it is a dummy that has as much natural suppleness as the two live hostlers have. They tumble off and on the stage in the most ludicrous manner with perfect immunity from contact with the stage or wings. They bounce about at times as though they were incased in rubber padding, and at other times hit with a thunderous thud. The act is just beyond description; it all happens so rapidly that it seems an accident and for this very reason the audiences roar with laughter, although at the time they are watching an act that they would sit and cheer for its acrobatic qualities if they were not so thoroughly taken up by the humor.

Miss Sandart, as a singing soubrette, is very pleasing. There is more than one laugh in the odd act of the Medoras in which they appear on a miniature stage. They have set cat talk to music and the crowd approves of their attempt. The Melotte Sisters were also well received.

For the last half of the week Thursday, Friday and Saturday and Saturday matinee, Bret Harte's famous and pretty story of the hills "Tennessee's Partner," will be given. The announcement that the Howard company would surely close their Honolulu season next Saturday night is causing no end of regrets being expressed and letters to the management of the Orpheum theatre are coming in daily asking that Mr. Howard be prevailed upon to extend his season. While this change of program

is hardly practicable, on account of other arrangement having been made, all sorts of pressure is being brought to bear to have Howard and his company remain here at least two weeks longer. At all events the company is booked to leave here for Vancouver, January 3.

### FIRST NIGHTERS CROWD NEW BIJOU

The popular Bijou broke all records last week in the way of attendance, the opening night being no exception. Three shows were given Saturday and each played to capacity. Last night a complete change of program was given which called for a full house and got it. The new bill includes the excruciatingly funny farce "Slattery's Boarding House," in which the members of the American Musical Comedy Company are given ample opportunity to display their best talents and versatility. This farce is along lines entirely different than those presented previously and produces some fine character work. The vaudeville numbers consist of the usual surprises, and there are three complete sets of new motion pictures. Hughes' orchestra is playing among other pieces, selections at the special request of patrons.

All of the Bijou-favorites, including Dunn and Branton, Vernet Hughes, Ed Mongrel, Walter Perry, Gladys Middleton, James Rowe, Richard King and others, are cast in new and novel numbers. Two of the features of the program will be a xylophone solo by H. Overbeck and a cornet solo by Harry Auerbach.

The Bijou displayed the S. R. O. sign long before the curtain rose on the first show last night. It was by far the banner first-night crowd of the season, the opening night, of course, excepted. The new show is best described as a "corker," and every time pleased. Crowding five separate turns into the vaudeville program, a one-act musical comedy and three sets of motion pictures are regarded as an immense show to give for ten and fifteen cents.

The Bijou is a gigantic undertaking, but the present success explodes the fallacy that the place would be too big for the town. On the contrary, it is just big enough and comfortably takes care of its thousands of patrons and practically assures everybody a seat. There was not a vacant seat when Director Hughes swung his baton for the overture. Everything went off with a snap and a bang, and the big and varied program was heartily received.

### GOOD COMPANY AT NOVELTY

The Barkley Company, which opened at the Novelty Theater, are appetite makers for more entertainment of the kind they provide. The Barkleys have the stage presence and acting of talented people and with a very funny vehicle for their opening bill which they call "The Man Outside," or "Oh You Samie," they immediately won favor with Novelty patrons. Master Jamie Van is the better part of the show. He almost comes up to what his advance man claims for him, that he is "the youngest and best of all boy comedians." He sings and dances like to the stage horn, before the footlights he is as much at home as is a diving boy on the waterfront. Let the Novelty continue to secure talent like that they now have and its success against all competitors will be certain. Wise and Milton are an important part of the program there and deserve the applause they secure.

# CASTORIA

for Infants and Children.

## The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversions, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers, are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

The signature of *Chas. H. Fletcher* guarantees genuine Castoria.

Your preparation knows no Castoria I have used for years in children's complaints and I have always found it an efficient and speedy remedy."

JOHN J. LEPPA, M. D., Cleveland, Ohio.

"For several years I recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

EDWIN F. PARTRIDGE, M. D., New York City.

"Your Castoria is a meritorious household remedy. It is purely vegetable and acts as a mild cathartic. Above all, it does no harm, which is more than can be said of the great majority of children's remedies."

VICTOR H. COFFMAN, M. D., Omaha, Neb.

J. A. PARKER, M. D., Kansas City, Mo.

"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a safe and reliable medicine for infants and children. In fact it is the universal household remedy for infantile ailments."

EDWARD PARKER, M. D., Brooklyn, N. Y.

"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a safe and reliable medicine for infants and children. In fact it is the universal household remedy for infantile ailments."

### BILL TO FAVOR NATIONAL GUARD

(Associated Press Cable)

WASHINGTON, D. C., Dec. 12.—A bill of far-reaching interest, affecting in a great measure the effectiveness of the national guard in every State and Territory in the United States, was introduced in the Senate today by Senator Tales Penrose of Pennsylvania, providing for the payment to all members of the national guard who attend at least forty-eight drills a year a sum equal to twenty-five per cent. of the pay of a soldier in the regular army.

Should this bill pass—and the sentiment among all classes of the legislators at the national capital seems in favor of the bill—it will mean, according to the advocates of the bill, added efficiency in the national guard, more interest by the enlisted guardsmen and an increased enrollment.

There are at present about 120,000 men and officers on the rosters of the various States and Territories, more than double the strength of the regular army, upon which nearly \$100,000,000 is expended annually, and it is estimated that while the proposed legislation will mean the expenditure of a large sum yearly, the benefit to follow in case the country calls for trained soldiers will be incalculable.

Within the Territory of Hawaii the members of the national guard consist of twelve staff officers, thirty-seven regimental officers and 557 enlisted men. But there, as well as in other parts of the country, it is expected that the new law, if passed, will greatly increase, not only the efficiency of the guard, but probably double or more the number of enlistments.

## IS NOW IN THE ATHLETIC UNION

Hawaii Taken In at New York Meeting Held Recently.

Information received from the mainland is to the effect that the application from Hawaii for admittance into the Amateur Athletic Union of the United States was granted at the annual meeting of the union held in New York recently.

The notification was received by Lorin Andrews, president of the local amateur association, from Secretary J. E. Sullivan in New York.

Luther Gulick seconded the motion for the entrance of the Honolulu clubs, which was made by R. W. Dodd, the Pacific Coast representative at the meeting, Gulick being a former Honolian.

The notification reads:

"Your communication of recent date to hand, regarding the formation of a new association to be known as the Hawaiian Association of the Amateur Athletic Union. The request was granted by unanimous vote and with much enthusiasm. The resolution was presented by the delegate from the Pacific association, Mr. Robert W. Dodd, and it was strongly recommended by all connected with the Pacific Association of the A. A. U., and by President Peixotto especially.

"I hereby authorize you as a representative of the Amateur Athletic Union of the United States to call together again the clubs of your association and organize, unless you think your present organization is entirely satisfactory, which I know would be satisfactory to the board of governors of the Amateur Athletic Union.

"The territory allotted to your association is that of the Hawaiian Islands, which has been taken from the Pacific association. The constitution and by-laws of your association are sent herewith; you will find them on page 155 of the A. A. U. handbook; the constitution and by-laws of each association is identical. It may be necessary for you to change your constitution and by-laws to suit conditions; if such is the case, have the changes legally attended to at your meeting and send them on to the Amateur Athletic Union for approval. No amendments to your constitution and by-laws can be considered passed unless approved by the board of governors.

erners of the Amateur Athletic Union.

"Your association has been created under article IV., page 74, A. A. U. Handbook, Constitution of the Amateur Athletic Union. Read the same very carefully.

"I can assure you it is a great pleasure for me, as secretary of the Amateur Athletic Union and one who has been connected with it since its organization, to notify you that a new association has been created, because we expect great things from the formation of this branch. I am going to send you tonight, under separate cover, some registration blanks and cards. Perhaps it would be much better if you would have these printed out there. It would save a lot of time. If there is anything we can do, or if there is any information you want, let us know and we will cheerfully cooperate. In relation to your constitution and by-laws, if you wish to have them printed yourself, well and good; if you want us to print them, we will be glad to do so. I send you a sample of the handbook of the Metropolitan association."

The notification reads:

"All the men are in training and working out hard every day, so that when the night of the big fight comes they will be in fine condition for the contest of endurance and generalship.

Everything looks promising for the big fight on the evening of December 26, as the forfeits have all been posted, Hoano and McGurn coming through yesterday afternoon with their cash to assure their appearance in the ring on the specified date.

Jackson has his permit for the fight secured, and there appears nothing now that can come up to spoil or postpone the big fight.

All the men are in training and working out hard every day, so that when the night of the big fight comes they will be in fine condition for the contest of endurance and generalship.
