# HAWAIIAN PROGRESS.

The *Loc of the Land is Established in Righteousness.*

HONOLULU, AUGUST 22, 1894.

## TOO BAD.

The *Advertiser* man has got the worms this morning, and he consequently wants the *HOLOMIA* suppressed. Since the \$500 verdict against him he has been irritable and nervous and his editorials have been even more erratic than when he is normal. It is rather amusing to see this, at other times, champion for the liberty of the press anxious to adopt Russian measures against a journal opposed to him and his party politically and socially, in worldly and spiritual matters. His accusation that the *HOLOMIA* is a vulgar and scurrilous leaflet does not deserve much notice. The *Advertiser* editor is neither by birth, education or instinct qualified to judge of the line of policy or style of our paper. We admit that we have been unable to follow him on his lofty path when he dropped to the level of a cur in his abuses of Queen Liliuokalani. When he heaped vulgar ridicule and indecent scurrility on the head of that much tried woman, whose presence in the days of her power was so frequently sought by his servile brothers and relations. We have been unable to imitate him when he gloated with triumph over the financial misfortunes of his political opponents and when he sneeringly referred to ruin brought on the heads of women and children belonging to the men who steadfastly adhered to their loyalty and refused to commit perjury and stamp themselves as traitors and ungrateful renegades as has been the case of the members of his family and his party. We will try to do better. We promise him that in the future we shall drop our alleged style of vulgarity and devote our time to learn from the *Advertiser* how most cruelly, and regardlessly to hurt the feelings of our political opponents and lift our voice in a ringing hosanna whenever misfortune overtake the members of the family compact and the evil breath of scandal touches the immaculate flock. And when we become adept pupils of the *Advertiser* and learn the "style" to perfection we hope to find grace from Mr. Castle and be able to persuade him not to suppress us. If he should still persist in his praiseworthy undertaking we must bow to the inevitable. We only ask him to let us know when he is going to begin, as we desire to be around when the circus takes place. And then we wish him a speedy recovery from his spleen and recommend him to the tender care of muscular Dr. Hatzopolus—and the Jews.

A HAWAIIAN jury has been drawn. The manner in which it was done is characteristic of our "republic." Fifty names were selected from the register, and a jury obtained in that manner. Under such circumstances the jury system becomes a sham and could as well be abandoned. Or why not order out a company of the dutch soldiers and command them to try cases and find all the, to the government unfriendly, defendants guilty. It would simplify matters.

MR. GORHAM D. GILMAN of Boston, delivered a lecture last night at the Y. M. C. A. In a rambling way he dished up what he called his reminiscences of Hawaii. He carefully omitted all references to that part of his life where he was the recipient of favors from the present reigning family which he during the last year has assisted in traducing and abusing. He was probably ashamed of himself which proves that even a former peddler of bad cognac to whalers in Lahaina, can have a conscience—and what is still more remarkable, that said conscience hasn't choked him years ago.

## Hitchcock's Brigade.

Once upon a time the virtuous *Advertiser* devoted much ink, much space and much abuses in criticizing the police department more especially when C. B. Wilson was marshal. Everything was as bad, as-bad can be. W. O. Smith the present Attorney General occupied the floor and the time of the Legislature with his verbose tirades on the same subject and all his songs about the police were set to the *Advertiser* tune. He derided in the strongest terms the personnel of the force. He delivered a regular Phillipica against the expenses of the department and his constant cry was retrenchment! retrenchment! In his most approved sanctimonious style he deplored the necessity of diminishing the numerical strength of the police and he illustrated in eloquent terms and with a tear-filled voice the absolute uselessness of the mounted police and of the Waikiki station—and he succeeded in his efforts. Ably supported by Cecil Brown, by W. C. Wilder, John Ena and other legislators he got the appropriation for the police reduced very materially and materially impaired the efficiency of the Attorney-General's department.

What change has come over his dreams! Why is the *Advertiser* so silent and blind to the exploits in the station house? Where is the virtuous indignation formerly displayed, where the energy of abuse and unbridled ire? Alas! the truly good have fallen. Smith has got the Attorney-Generalship and he does not propose to cramp the police as long as he holds the purse-strings, and Castle has filled Wilson's place with his brother-in-law. And brethren, can a member of the compact sin or become derelict?

But what do we see to-day? Although the revenues have been diminished the Attorney-General has increased the appropriation for the force materially. Although His Excellency claimed that the mounted police was a fraud we find that he, now, is steadily increasing that branch. Although the golden era is said to have dawned we are told that the criminal element has increased considerably since the revolution and we are asked to pay for a large "detective" force, for spies and informers. While in 1892 W. O. Smith denied the necessity of an appropriation for special service he now throws money right and left for secret purposes, and that while the roads and waterworks demand every cent which can be saved.

And how they complained over the men employed by Wilson. It did not take long for the present regime to employ that *bet noir* of Mr. Smith, Captain Larsen and to place him in a most responsible position. And the present personnel! We could hardly believe our senses when we looked at the brigade which Hitchcock dares to parade in open court as his officers and on whose very many bosoms he dares to put the badge of an officer. In what hands is the law and order of the community fallen? If the Attorney-General's motto is to set a thief to catch a thief he has succeeded wonderfully well in living up to it. Ex-police-officers cashiered for bribery, convicted for gambling and punished now sport a commission signed by W. O. Smith and Hitchcock and display with pride the badge which the dishonored and disgraced. Vagrants and bums drifted to these shores from unknown parts and with unknown antecedents are heartily welcomed into the flock at the station house and invested with police authority. A mounted police force composed of ignorant, indiscreet and overbearing aliens who neither understand the people or the language of the land are allowed to roam about with sufficient authority to cause trouble and annoyance to every respectable and law-abiding citizen. The police force under former regimes has not been perfect. Nobody claims that it was, but every intelligent man will surely admit that never before has so disgraceful a spectacle been witnessed in Hawaii as that

presented by the Smith-Hitchcock brigade.

From the day when police officers placed dynamite in the yard next to the Queen, nailed the anarchistic placard on Spreckels' gate, and conspired in a criminal manner to bring a few unfortunate girls to punishment, and did all this unopposed and with the sanction of their superior officer from whom they received promotion instead of dismissal, from then till the present day the department has degenerated more and more until these pets of the Smith-Hitchcock combination have become an eyesore to the community, a blot on the fair name of Hawaii.

## HARD TIMES.

It seems that the *Star* statement that there are no hard times in Hawaii since the revolution receives no endorsement from the supporters of the government. The *Advertiser* this morning urges the government to do something to relieve the hard times and it suggests to the councils to grant a franchise to the syndicate, which it is claimed desires to build an electric road in Honolulu. The *Advertiser* does not boom the local syndicate which is headed by Thurston. It has only an eye for the Victoria syndicate of which Mr. J. Castle, the brilliant Kahuku financier, is a member. The *Advertiser* states that this syndicate will immediately spend \$150,000 on the roads, which undoubtedly would furnish work for many of the unemployed. But we are very sceptical in regard to this latest scheme. We have seen so much of franchises in this country, and we have seen very little of the work which was supposed to be done under the franchise. The councils should not undertake the granting of such a franchise. In a few months the legislature is supposed to meet, and it would certainly be improper for the present temporary self-elected assembly to pass a measure of such an importance.

The *Advertiser* goes so far in its anxiety to railroad brother Jim's scheme through that it actually besmirches the coming legislature—of its own creation by saying that "the lower house of the coming legislature may, possibly, if the natives finally register, be largely in the control of the native members, who can hardly be counted on as specially interested in any public improvements." It is pleasing to see the official organ at last coming out in its true character as a kanakahater.

Whatever is done in regard to the proposed franchise the authorities should assure themselves before granting it, that it is a *bona fide* scheme and that the money is there. It may turn out to be a game of bluff and a speculation to get the Tramway Company to compromise or buy the syndicate out. Even the name of the immaculate collector general is not a sufficient guarantee that there is not a fall-born Ethiopian somewhere in the electric woodpile.

WHILE the Japanese and Chinese representatives here are doing their best to prevent any serious outbreak of the ill-feeling existing between the Chinese and Japanese residents, the official organ is doing all it can to create trouble by printing idiotic pictures of imagined battles between the two nations. Mr. Castle should remember that the semi-civilized Asiatics haven't got his wonderful vein of humor, or yet, acquired the taste for satire. Irritation and strained feelings are the only results of his folly. There is surely sufficiently close relations between his clique and the Japanese and Chinese to teach him this.

WASHINGTON, August 1.—The Hawaiian Royalist commissioners, who reached the city last night, kept to their rooms at the Arlington most of the day arranging for their plan of work here.

## A DANGEROUS SYSTEM.

During the recent trial of certain parties charged with illicit liquor-selling, it was proven that the special officers employed by the marshal and holding commissions as police officers are paid by the case and have no regular salaries. This is the most pernicious system ever inaugurated here, and we are surprised to see the present government tolerating it. The organ of the reform party has heretofore been a warm champion of abolishing the system of paying informers in opium cases a share of the fine and of the opium seized. Formerly informers received shares in the fines for the conviction of diverse offenders, but at present opium-offenses are the only instances where the system has been retained.

Marshal Hitchcock has started it again, and it is on record that his spies receive \$25 for each and every case of illicit liquor selling in which a conviction is secured. If there is no conviction the informer gets nothing.

A more pernicious and outrageous system cannot be imagined and it should be stopped at once. In another column we have referred to the class of people employed by the marshal and vested with police authority, and the aspect of the situation becomes extremely aggravated when we add that these creatures are encouraged to run the people down and to, if necessary, make cases for the purpose of making a living. Men who couldn't earn twenty-five cents in a week at a legitimate trade are told that they will be paid \$25 if they can bring any taxpaying citizen into trouble and cause him to be fined and punished. What a magnificent chance for a conspiracy, what gigantic prospects of unlimited wealth, the system opens to these "gentlemen" of fortune with unknown antecedents! And what unlimited dangers threaten the community through Mr. Hitchcock's method!

In these illicit liquor selling cases marked coins play a considerable role. Senior Captain Andrews, whose intelligence is only exceeded by his beauty and who evidently desires to beat the record of Videoq is a great manufacturer of marked coin, and he gives it around to his tools in a most promiscuous manner, not knowing where they will spend it or who will receive it. It was stated by one of the witnesses in the Houghtaling case yesterday, that he, who is a spy and officer, had received twenty-seven dollars (\$27), from Captain Andrews in marked coin. How the coins were marked, he did not know, nor did the senior captain and where it was spent nobody knew.

The danger to the community under such circumstances is very plain. Mr. A. lives alone in a cottage, say in Puna valley. He goes to town on Saturday, makes his purchases among which are a bottle of whiskey and a bottle of gin, and in getting change from the barkeeper he receives—unknown to himself—a marked coin paid over the counter by one of Mr. Hitchcock's pets out of the Andrews funds. A goes home, receives a few friends on Sunday morning at 9 o'clock and treats them to a drink. Is visited again at 10 o'clock by more friends who also accept his hospitality, and at noon he is left alone with his store rather diminished. In the afternoon he sits in his garden when the gallant senior captain comes tearing along, with an officer, jumps of his horse, reads a warrant of arrest and then proceeds to search the house (without a search warrant) and behold! finds two half-filled bottles four or five cocktail glasses and a pitcher with ice water. Liquor, glasses, pitcher, and A. are seized to the great surprise of the latter and dragged to the station house. Mr. A. is asked to empty his pockets which he does and with a cry of triumph "hawk-eye" pounces on the change and holds up a marked half dollar which he preserves. The next day the case is called before the learned district magistrate, who looks wise, but does not propose to "sit" all day if he can help it and to the utter surprise of A. the prosecu-

tion brings forth an array of witnesses. The senior captain testifies to the arrest and the marked half dollar which he immediately recognizes as one of the thirty or forty coins, which he has marked and distributed during the last week. Two or three of the "gentlemen" of the force are called, and in very different languages testify to drinking in the house of A., whose name they don't know and to have given him just that half dollar found on his person. Some Chinaman from Punaq is produced who states that at 9 o'clock, he saw people go into A.'s house and come out again, and that a similar criminal proceeding occurred at 10 o'clock. That settles the case. A. has no defense to offer; how could he. A fine is imposed and the formerly respectable taxpayer goes home with the sad experience that it is "not good for man to be alone" as long as the Hitchcock system is in force. In the mean time, the spies are warmly congratulated by the triumphant senior captain, and pocket their \$25 a piece, for later on to blow them in while bragging of and enjoying the reminiscences of the cute manner in which they did, that clump from Punaq up. And like the jackals they are, they go forth looking for other prey and for more \$25 pieces.

Any unbiased man who will investigate the system now in vogue will find that the presumed case above stated is not exaggerated, or, very imaginary. It is sincerely to be hoped that the retirement from office of Marshal Hitchcock will lead to the abolishing of his dangerous system. If not, we will encourage the Councils to take the matter up, and take measures for preventing the outrages which eventually will result from the principle referred to. Let the government employ decent and respectable men, and pay them a sufficient salary and all necessary work will be done, and law and order upheld.

## A Kingdom for Sale.

A genuine kingdom, with a capital, residence and seaport, is at present offered for sale in Berlin. It consists of a part of the island Tatota, and is called Matupia. The island is part of the Bismark group, between New Zealand and New Meclenburg. The "Empire" covers just seven square miles (German), and was purchased, during the eighties, by Herr Georg Weisser, a retired paymaster of the German navy, and afterward director of the New Guinea Company.

Herr Weisser had several bloody fights with his Samoan and Kanaka chiefs, but managed to quell all rebellions and became very popular with his subjects. He died last year and his heirs, who reside at Kaiserslautern, do not wish to exercise their regal duties and have instructed their agents to sell the unique property. Matupia, the capital of the little kingdom, contains about 100 inhabitants, many of whom are Europeans. It is one of the best harbors in the archipelago.—*The Literary Digest.*

## Artificial Lightning.

With a current of 500 volts of electricity shooting through his body Harry Willits, a young visitor from Camden, fell on the sidewalk unconscious to-night, and it was only after a half-hour's hard work that he was brought back to consciousness. The accident was a peculiar one. It was raining, and young Willits was walking along Atlantic avenue carrying an umbrella with an entire steel handle. The tip struck an arc light which hung suspended above the sidewalk, and in an instant the young man was hurled to the ground as by a lightning's bolt. He is still suffering from the shock. The umbrella was rent and twisted completely out of shape by the powerful current, the silk covering being torn into a hundred fragments.—*New York Exchange.*

# Hawaiian Hardware Comp'y.

July 24 1894.

In "Paddenhead Wilson's Philosophy" Mark Twain says: "Put all of your eggs in one basket—and watch that basket." Eggs are not the only things to which this applies, we can make it fit stoves and change eggs into dollars and make it read—Invest your coin in a Pansy Stove—and the stove will watch itself. We have been watching these stoves for the past five years, and find them the best iron stove sold in this market for the money. Where else than at our store can you get a stove that will do everything that a \$50 stove will do and get it for \$15! Echo answers, "the place isn't built." We have sold hundreds of these stoves in Honolulu, and never had a complaint. Two weeks ago, we sold one to a gentleman on Hawaii, and yesterday he ordered another for a friend. The stove sells itself through its fuel saving qualities, and because, it is a good baker. You can get other styles of stoves if you are not particular as to the quantity of fuel you burn or how your food is cooked. There's no dyspepsia in meals prepared on a PANSY.

We received last week a lot of wire clothes-lines that hold washed clothes without using pins. It is a sort of double wire arrangement and the pieces are held in between; the harder the wind blows the tighter the pieces are held to the line. There is absolutely no danger of the clothing being torn as there is nothing sharp about the line. While the cost is a trifle greater than rope, this new style will last so much longer that it is economical to buy the pinless line.

The CLAUSS is one of the new fangled saw-edge knives that cuts warm bread without leaving it heavy and iced cake without making crumbs. There are two or three different makes of these knives, all on the same principle and each one pronounced the best on earth by the manufacturers. We selected the Clauss, which we believe as a disinterested spectator to be better than its neighbors. You never had anything in your life that give as much satisfaction for a dollar. If you were buying the other sort you would get only one.

The favorite sewing machine in any community is the one that does the most for the least money and which runs the easiest. In the "Wertheim" you have a machine that sews three distinct stitches—The Lock, Chain and Embroidery and runs easier than any other machine, and you pay twenty dollars less for it. Economy stands boldly every side when you buy a Wertheim. In tucking the chain stitch is preferable, but in other kinds of work, the lock stitch is the best. If you buy a machine that sews the lock, unless it is a Wertheim, it won't sew a chain stitch. There's no particular saving in buying a machine with but one stitch, the Wertheim does three and saves you lots of trouble and work.

We've just unpacked six cases of stand lamps that were built for hard times. They have metal bases and are decorated so as to make a very neat appearance in a room. We don't think you can get as good a lamp anywhere else for the money, try as hard as you please.

Our stock of table cutlery, spoons and forks is as large as you will find in any store in San Francisco, and our prices compare favorably with those in New York.

## LADIES' COLUMN.

When the trade finds time to doubt our assertions about sales and prices, but one conclusion can be formed, and that is that we are setting the pace on prices, as well as doing the business.

There is an old proverb that "what is one man's loss is always another man's gain." We are going on record and charge it to what is your gain, by trading with us, and ours by increased business—is the other man's loss. So down we go from day to day in prices. There is not a dull counter in our Store; we have gotten out of the old rut. The days of large profits are over. Every day it will be something new and tempting in styles and prices. We can't mention but a few articles in this column, but wish to impress you that if you want anything in our line you can get it at ROCK BOTTOM PRICES and a guarantee the goods are as represented.

If you buy those Turkish Towels of ours you will surely pray for rain. They are so different from the cheap things offered as Turkish Towels. Cash bought these so that we can sell them at just as low a figure as the cheap goods are offered at. A handsome PURSE is a very deceptive thing. It almost always creates the impression that there is money in it, and so there is, if you save on the purchase price by buying of us. We struck a snag in our purchase of PURSES—and will give you the benefit of it. They run from 25 cents to perfect beauties in Real Alligator and Russian Seal with Sterling Silver Mountings.

## PARASOLS.

No fancy prices on these goods.

The McGrew Divorce Case

This case was finally brought to a finish yesterday. Attorney for libellant (per guardian) called as witnesses Mrs. S. S. Robertson, Mrs. J. S. McGrew, J. Col-laco, Purser Kibbling, J. Buckley, Sam Ladd and C. B. Jte. For the libellee, Mr. and Mrs. J. Winter were called. After argument by counsels Judge Cooper reserved his decision until further points of law relating to marriage relations have been submitted to him.

It is stated that the government has finally decided to cancel the commission of circuit Judge Kapaikai at the end of the month. Ch. Baldwin, a nephew of H. P. Baldwin and a member of the family compact, is mentioned as his successor. He will make a daisy judge. What's the matter with Kalia.

K. Amaya's photographic gallery on Nuuanu Street is turning out some first class work. The pictures of the Takahiko and groups of Japanese naval officers prove that even in the art of photography the Japanese are equal to their white brethren. And the charges are within the reach of anybody desiring to be "perpetuated" on paste-board.

The famous Rawlins case was continued by Judge Whitting and a jury this morning. The case would probably have been finished before noon, but the sudden illness of Mr. P. Iseberg, a juror, necessitated a recess, to 1:30 p. m. After a short deliberation this afternoon, the jury rendered an unanimous verdict in favor of Rawlins laying the damages at \$5,333.

Teach Them to Swim.

In view of the many and harrowing deaths by drowning that are always among the distressing incidents of the summer season, it would seem as though parents would consider it far more necessary to have their children taught to swim than to spend so much care and trouble on accomplishments that are of no earthly value to any of the latter who gets into the water over his or her head.

This little preach, says the Philadelphia Times, is not meant in any way to run down the advantages to be derived from this highest mental training, but what good will diplomas and honorary degrees be if in a moment of impulsive recklessness, or owing to some unforeseen accident, the student learns, alas! that it is sink or swim, with nine chances out of ten in favor of the former, if there has never heretofore been given, along with the other thought-to-be necessary lessons, a single one of the most important branches of human education: Boys and girls alike should be given instruction in this branch. Parents would feel highly incensed if some outsider were to remark that they cared more for their physical welfare. Yet in many cases this is true, though perhaps unwittingly so.

Church and Liquor.

New York, July 30.—The World will tomorrow say: Archbishop Corrigan has written a very important letter to the editor of the Wine and Spirit Gazette, in which he makes an authoritative statement with regard to the decision of Mgr. Satolli affecting Roman Catholic liquor dealers. The Archbishop's letter was called forth by an editorial recently published in the Gazette, which says of Mgr. Satolli's decision:

"Will it be enforced in the cities of the country? Fully two-thirds of the retail liquor dealers of the country are Roman Catholics. Some of these are liberal contributors to the church funds. We appreciate fully the delicate position in which Archbishop Corrigan and the other Bishops of the Catholic world in this country are placed by the decree of the Papal delegate. We voice the sentiments of a large majority of the liquor dealers of this city in Brooklyn in saying: 'We dare Archbishop Corrigan to enforce in letter and spirit the decree against the liquor traffic just issued by Mgr. Satolli. Let the Archbishop do it, and watch the consequences.'"

The Archbishop's letter is in his own hand-writing. In it he says: 'In reply to your expressed wish, I have the honor to say that I loyally accept the principles laid down by Mgr. Satolli both in their spirit and to the letter. More than this, no Catholic can refuse to accept them. As to the fear of consequences, I have yet, thank God, to learn what fear is in a discharge of my duty. Please remember, however, that acceptance of principles is not to be confounded with the blind application of the same on all occasions and under all circumstances.'

The editor of the Gazette (Smith) has this to say about the Archbishop's letter: "The answer does not entirely and squarely meet the issue. It is not a question of accepting a principle laid down by the head of the church, but of the courage to carry out in letter and spirit the principles just proclaimed by the Papal delegate in the face of seemingly adverse public sentiment. The issue is: Will the Archbishop give orders to refuse admission to Roman Catholic societies to any one engaged, either as principal or agent, in the manufacture or sale of intoxicating liquors, and will he instruct the clergy to deny the rights and privileges of the church to liquor dealers who sell on Sunday?"

"The declaration of the Archbishop seems to justify the conclusion that in the discharge of his duty he will enforce this principle, although he does not say so in his letter in distinct terms. Future developments will show how far this conclusion is justified."
