WILL GO TO WASHINGTON

JAMES B. CASTLE WILL SUCCEED
FRANK HASTINGS.

The Prospective Secretary of the Hawaiian Legation Said to be Acceptable to Minister Hatch.

James B. Castle, Ex-Collector General of Customs, will shortly be appointed Secretary of the Hawaiian Legation at Washington, to succeed the late Frank Hastings.

It is true that the Cabinet has not taken the matter under consideration, but it is understood that Mr. Castle will be acceptable to the Cabinet Ministers as well as to Minister Hatch.

The first information concerning the probable appointment was obtained last night. It was known that Mr. Castle's friends were urging his candidacy as a legislator before the American Union party convention. When his name was not presented last night it was learned upon inquiry that Mr. Castle had earnestly requested his friends not to place him in nomination for the reason that he had under consideration a proposition from the Government to succeed Mr. Hastings at Washington.

Minister of Foreign Affairs Cooper was seen this morning concerning the matter. He admitted that Mr. Castle had been spoken to concerning the secretaryship. "I had a consultation with Mr. Castle earlier in the week and again this morning relative to his appointment as secretary of the legation," said the minister.

"When will the Cabinet consider the matter?" was asked.

"Very likely after my return from Kana'i," was the answer.

THEY LAUGH AT IT.

Local pigeon men are laughing at the weird story published in a San Francisco daily that a pigeon flew 1200 miles from the Chilcott Pass to Portland, Ore., in six days, carrying a message written on ordinary paper, and tied to the leg by ordinary twine.

The longest fly on record is one of 1212 1/2 miles. This was made in July last and the first bird to arrive made the distance in 16 days and 4 hours.

NO WEAKENING NOW.

Uncle Sam Will Keep His Ships at Honolulu.

Chief Naval Constructor Hieborn, at Washington, is in receipt of information from Mare Island navy yard to the effect that the cruiser Baltimore will be ready for sea not later than October 1. She will as soon thereafter as practicable become the flagship of the Pacific squadron, and when Rear Admiral Miller has transferred his flag to her from the Philadelphia the latter vessel will proceed to Mare Island to undergo extensive and much needed repairs.

If it is possible to secure enough long term men to man the Baltimore, she will come to Honolulu to relieve the Philadelphia. If not the department will probably order the Philadelphia to San Francisco and transfer her officers and men to the Baltimore at that port.

A SERIOUS CASE.

T. Sherer, the Philadelphia coal passer who was nearly smothered to death in a coal bunker, last week while the cruiser was coaling, has been removed to the hospital ashore for treatment. Since the accident he has been subject to convulsions, and the surgeons fear that he has a blood clot on the brain.

LOTS OF CASH.

The R. M. S. Moana has in her strong box the sum of \$3,685,850 in gold sovereigns, en route to San Francisco to be coined into American double eagles. The sum is the largest that has been carried over the Oceanic line in many years. Usually at this time of the year a large amount of gold is shipped from the Colonies to San Francisco and received there.

BOUGHT AN OLD MILL.

The old sugar mill that has done service at the Honoumou plantation has been sold to the Honolulu Iron Works and a new nine-roller mill has been ordered and is due in Honolulu by December 1. A big derrick is now being put in at the Honoumou landing, the steamer Hawaii being at present engaged in conveying the material for the same to that place. A cable delivery of sugar to steamer is on the list for this plantation and Honoumou is being put in shape.

Fine Repair Work.

AMERICAN UNION PARTY GRAND RALLY. SENATOR MORGAN'S PLANS

Strong Platform Sustaining the Government and Urging Internal Improvements.

ANNEXATION THE KEystone OF PROSPERITY.

Tickets of the Fourth and Fifth Precincts Unanimously Ratified by the Convention.

FOR MEMBERS TO THE LEGISLATURE.

FOURTH DISTRICT.

ALATAU T. ATKINSON.
ALEX. C. M. ROBERTSON.
ALBERT V. GEAR.

FIFTH DISTRICT.

JOHN LOT KAULUKOU.
SAMUEL C. WILDER.
LINCOLN L. McCANDLESS.

The adoption of a platform of principles which will meet with the unqualified approval of the voters of Honolulu and Oahu and the selection of six well known gentlemen, who stand squarely upon that platform and sold for the annexation of the Islands to the United States, as candidates for the Legislature, was the business accomplished at the American Union party convention last night.

The convention was held in the American League hall on Nuuanu street. A fair sized audience of citizens and tax payers were in attendance and listened with considerable interest to the deliberations of the delegates. The candidates for Legislative honors were among the spectators. It had been intimated that the convention would call upon them for a pledge to support annexation and the party platform. This they were gladly willing to do.

The selection of a Legislative ticket was interesting in that a dark horse was sprung at the last moment. It was Samuel G. Wilder, son of the dead pioneer of Hawaii. When Ex-Collector General Castle announced positively he would not run for the Legislature from the Fifth district, Mr. Wilder's friends urged that he be nominated.

A. G. M. ROBERTSON,
Nominee of Fourth Ward.

It was not until the day of the convention that his name was presented.

DOWN TO BUSINESS.

The convention was called to order shortly before 8 o'clock by J. A. Kennedy, chairman of the central committee. In bringing the convention to order, Chairman Kennedy announced that this was the second nominating convention of the American Union party. The delegates had met for the purpose of adopting a platform, of choosing representatives for the Legislature and selecting a central committee, which will look after the work and interests of the party.

"As there is but one party in the field," continued Mr. Kennedy, "the responsibility is much greater. Our platform should be wisely considered, and our candidates carefully selected. Our platform must be constructed upon broad and liberal lines. The desires of the party that is back of us must be looked after. Harbor improvements, water works, sewerage and other important questions should be kept in mind."

In forming a temporary organization the convention selected Mr. Kennedy for chairman and Charles B. Gray for secretary.

A committee on credentials consisting of Delegates Bishop, Benner, Farr, Keliipio and Rathburn were then chosen by the chairman. In a few moments the committee reported through its chairman, E. F. Bishop, that credentials had been found in order for the following delegates:

FROM THE COUNTRY.

William Henry and R. A. McKeague, First precinct, Fifth district, embracing Heeia and Kaneohe.
W. K. Rathburn, Second precinct, Fifth district, embracing Kahuku.
Andrew Cox, Third precinct, Fifth district, embracing Waialua.
Judge Kekahune, Fourth precinct, Fifth district, embracing Waianae.
W. J. Lowrie, Fifth precinct, Fifth

district, embracing Ewa.
E. B. Mikalemi, Sixth precinct, Fifth district, embracing Pearl City.

CITY DELEGATES.

J. A. Low and W. R. Sims, Seventh precinct, Fifth district.

J. LOT KAULUKOU,
Nominee of Fifth Ward.

George W. Farr and L. D. Keliipio, Eighth precinct, Fifth district.
J. M. Poepeo and George R. Carter, Ninth precinct, Fifth district.

O. Bergstrom and J. C. Cluney, Tenth precinct, Fifth district.
B. F. Dillingham and F. A. Hosmer, First precinct, Fourth district.

J. A. Kennedy, W. H. Hoogs, Robert Grieve, J. S. Martin, S. B. Rose and Colonel J. H. Fisher, Second precinct, Fourth district.

E. F. Bishop, Third precinct, Fourth district.
George W. Smith, Walter M. McBryde and F. S. Dodge, Fourth precinct, Fourth district.

Senator John A. McCandless, Edward Benner and Charles B. Gray, Fifth precinct, Fourth district.
Ed Towse, Julius Aseh and George N. Day, Sixth precinct, Fourth district.

On motion of Senator McCandless a committee of seven on permanent organization for the evening was chosen by the chairman. The committee selected was: Delegates McCandless, Hosmer, Grieve, McBryde, Henry, Dodge and Bergstrom.

In order that the business of the convention might be expedited, Colonel Fisher suggested that a committee on rules and order of business be chosen at that time. This was agreed to and Chairman Kennedy appointed Delegates Fisher, Rose, Aseh, Cox, Day, McKeague and Cluney.

Both committee reported after ten minutes time. Chairman McCandless of the permanent organization committee, reported that George W. Smith had been selected as permanent chairman; J. M. Poepeo, vice chairman; George R. Carter, secretary; W. R. Sims, assistant secretary, and T. B. Murray, sergeant at arms. The committee also recommended that a central committee of sixteen members be chosen, nine to be selected from the Fourth and seven from the Fifth.

Delegate Carter declined the secretaryship, declaring that he could not conscientiously take it. Delegates Sims did not see the necessity of an assistant secretary. He wished that C. B. Gray would be made secretary. This report was acceptable to the committee and the report was adopted.

CHAIRMAN SMITH SPEAKS.

Mr. Smith on taking the chair invited Vice Chairman Poepeo to the platform. He then thanked the convention heartily for the honor it had conferred upon him. He looked back with pleasure upon the past two years during which time the American Union party had been true to its trust, that of favoring political union of the Islands with the United States. A platform was to be adopted this evening and representatives of the party selected for the Legislature. He trusted the convention would do its work well, worthy of the approval and support of the party, and all the people, irrespective of party affiliations.

The rules and order of business as reported by the committee, through its chairman, Mr. Fisher, were accepted. A committee on platform was then chosen consisting of Delegates Dillingham, Sims, Towse, Lowrie, Low, Hoogs, Carter and Kekahune. The committee was very quick to report. Mr. Dillingham presented the platform which the committee recommended. It had been carefully considered and decided upon by the delegates in caucus and it advocated first of all annexation. Many internal improvements were urged.

Here is the platform in full:

PLATFORM OF PRINCIPLES.

We, the elected delegates of the American Union party of the Island of Oahu, Republic of Hawaii, in convention assembled on this 15th day of September, 1897, announce and declare the following to be the Platform of Principles of this party:

(1) We reaffirm that the foremost mission of the American Union Party shall continue to be the unreserved effort to secure the Political Union of Hawaii with the United States of America, and heartily commend and approve the action of our Government so far as accomplished to this end.

(2) We commend the efficient, courageous and honorable conduct of affairs by the Government of the Republic of Hawaii.

(3) We are proud of the Government's practical and progressive policy of internal improvement. In witness we point to the recent completion of extensive public works, and to operations and projects of a similar nature.

(4) We reaffirm our opposition to the employment of Asiatic labor upon any public works, or of prison labor in any mechanical pursuit. We believe the welfare of the Government and of the people would be advanced by the withdrawal of the more criminal classes of convicts from road work, the same to be employed on a penal farm in the development of many possible and varied agricultural interests.

(5) We recommend legislation prohibiting importation by the Government of material of any kind whatever.

(6) We demand a more speedy improvement of our harbors and wharfage facilities to meet the requirements of our rapidly increasing commerce; the immediate acquirement by the Government of all harbor front property throughout the Islands, and that such properties be at all times free of access to the public.

(7) We urge the adoption of an equitable graduated income tax system, to the end that certain existing petty and burdensome levy may cease.

(8) We advocate continuation of the Government's policy in promotion of the occupancy of public lands by the small holders, and the encouragement of various industries.

(9) We pledge all the power and influence this party may possess to aggressive endeavor to further restrict Asiatic immigration.

(10) We are of the firm conviction that one of the first and highest duties of the American Union Party administration is to hasten to a realization the recently inaugurated effort to add to the population of these Islands by assisting the immigration of farmers, laborers and artisans from the United States of America.

(11) We especially commend the notable results attained and the intelligent efforts being put forth in the direction of extending and improving the public school system.

(12) We urge that the necessary steps be taken to carry out the plans for the proper sewerage of Honolulu.

(13) We urge the Government to secure cable communication for the Islands.

(14) We declare our opposition to trusts and monopolies of all kinds.

(15) We recommend the establishment of a public park in Aala, and a legislative act making the Waikiki beach property, now owned by the Government, a part of Kapiolani park, and that all of the said land be open for the use of the public.

(16) We cite the present peaceful and prosperous condition of the country as work of the American Union Party, and invite to join our ranks those citizens who have faith in a plain and progressive Government of equality.

Secretary Gray was frequently interrupted.

THE VETERAN STATESMAN HAS
A ROYAL WELCOME.

Visits the City—Sees Pearl Locks—To be Tendered a Public Reception by United States Minister Sewall.

Senator Morgan and his daughters are receiving a royal welcome in Honolulu. The pretty Ballou home on Judt street, where the visitors are comfortably domiciled, has been besieged with people since the arrival of the Australia, who are eager to meet the party.

Today has been a busy day for the veteran senator. He was the guest of Senator John A. McCandless this morning for a carriage drive about the city. In the party were George W. Smith, J. A. Kennedy and P. C. Jones. The party went to the summit of Halawa hill, where a grand view of the Pearl Harbor district can be obtained. The Senator was immensely delighted with the view. He says he was agreeably surprised in the city and greatly admires the magnificent homes and lawns.

This afternoon the Senator was down town in company with Minister Hatch greeting the people. Tonight he will be the guest of honor at a diplomatic dinner given by United States Consul General Haywood.

On Monday evening a public reception to Senator Morgan and the visiting Congressmen will be given at the United States legation. No invitations will be issued, but the public who wish to meet the veteran Senator from Alabama and his colleagues in the lower house will be heartily welcomed by Minister and Mrs. Sewall, at their charming Waikiki residence. The reception will commence at 7:30 o'clock p. m.

On Tuesday Manager Dillingham of the Oahu railway will run a special train to Pearl Harbor for the benefit of the Senator and Congressmen. Minister Hatch, Cabinet Ministers and prominent citizens will accompany the excursion. The party will remain at the Harbor all day.

The Hawaiians who are advocating annexation have issued a call for a meeting to select a committee to wait upon Senator Morgan and secure an appointment to meet him. These Hawaiians will, at this meeting, strongly urge upon Senator Morgan to continue his good work for the amalgamation of the two republics.

Other appointments are being sought for with the Senator. Minister Hatch is attending to these.

Senator Morgan is anxious to visit Hilo before he returns. His friends have advised him not to take the trip for fear it would be too rough.

Senator Morgan met President Dole and the Cabinet Ministers yesterday. The Congressmen will return from the volcano on Sunday.

SETTLEMENT OF CLAIM.

Elsewhere in this issue will be found the acknowledgment of Theo. F. Lansing to Bruce Cartwright, agent for the Preferred Accident Insurance Company, of New York, of the company's draft in settlement of the claim for loss of time caused by an accident. The quick dispatch with which the claim was settled speaks volumes for the business integrity of the company in living up to their statements. The letter coming unsolicited from as prominent a man as Mr. Lansing will no doubt cause many to examine into the benefits derived by insuring against accident with the company.

WHAT SAILOR MEN TALK OF

R. M. S. MOANA ARRIVES IN PORT THIS MORNING.

New Lumber and Coal Charters—Captain McKenzie and the Matilda Wreck—News and Gossip.

The Moana sails for San Francisco at 3 p. m.

The prospects are that the Comus will remain in the harbor here until October 1st at least.

The Kaala got in late last night from Lahaina, and will leave for there again tonight with a cargo of coal.

The Albert will have her inward cargo out today, and the S. C. Allen hers tomorrow. Both vessels will have to wait for sugar.

The Hawaiian bark Mauna Ala was reported off Diamond Head at 10 o'clock this morning. She has been 18 days on the way from San Francisco.

The schooner Spokane and bark Columbia, each with a carrying capacity of between 800,000 and 900,000 feet of lumber, have been chartered by Allen & Robertson to bring lumber from the Sound.

The American schooner Deiance and the Norwegian schooner Drammen, 1274 tons, have been chartered to load coal at Newcastle for this port. Up to the 30th ult. the Tullie E. Starbuck had not cleared for this port.

The S. S. Castle finished discharging her inward cargo this morning, and will move over to the Oceanic wharf; jog this afternoon to take sugar from the warehouse. As Captain Hubbard is anxious to secure a full cargo he does not calculate to get away before the latter part of next week.

Full particulars of the wreck of the old bark Matilda on Tatonosh Island, in Puget Sound, last month, have been received in this city. Captain McKenzie writes that the wind failed him in the channel, and a strong current carried his vessel on the rocks, while he had to stand helplessly by. A heavy sea was running and the vessel soon broke up. No blame is attached to Captain McKenzie, as he did his best under the circumstances to save the vessel.

Captain Dyer of the Philadelphia is not a believer in the old superstition that bad luck follows the ship that sails on Friday. On the contrary he says that he makes it a practice of sailing on a Friday, as it seems to bring him the best of fortune, and that is why the Philadelphia is booked for sea tomorrow morning. Captain Cook of the Marion sailed a day before he was actually ready, in order to avoid going to sea on a Friday.

The R. M. S. Moana arrived from the Colonies about 7 o'clock this morning, having left Sydney on the 30th ult., and calling at Auckland on the 3rd inst., and Apia on the 8th inst. She brings a small amount of cargo for this port, and only one passenger. Fine weather was experienced during the entire voyage. The Moana will sail this afternoon at 3 o'clock for San Francisco with a large passenger list. Purser Bendall saw the old Monowai in Sydney harbor, and says it made him positively homesick to be aboard of her.

The Star is indebted to the Sydney Daily Commercial News and Shipping List for special copies of its Annual Review issued on the 21st ult. This being the Festival or Record Reign number it contains not only a comprehensive report of the transactions for the past twelve months but also an account of the colony's wonderful progress—from the date of its foundation—and its grand natural resources. The Review is interspersed with appropriate photographs of the committees of the principal mercantile institutions, such as the Chamber of Commerce, Merchants' Exchange, the Underwriters' association, the presidents of the Marine Board, the committee of the National Shipwreck Society of N. S. W., etc. An interesting account of shipping, past and present, and commercial items of special note are also given, including a photo of the Costa Rica Packet, and a report of this famous case. On the richly colored litho cover is delineated a picture of Queen Victoria, surrounded by royal emblems and supported by very handsome views of Sydney Heads and Newcastle Harbor.

T. J. KING, agent for the two-disc plow, Honolulu.

Dear Sir: I have one of your TWO DISC PLOWS at work on my ranch at Waialua, and am pleased to report that it gives me the fullest satisfaction.

In two days, with four Hawaiian mules, I can do as much work with your implement as I can do in seven days when using eight mules or twelve oxen, with a mould board plow, and the pulverization is much better when using the disc.

In the rocky ground your plow either rolls over the rocks or cuts through them, and we find it unnecessary to sharpen the discs, which scour perfectly and were set at such an angle that friction with the earth makes them self-sharpeners. I am, dear sir, yours very truly, PAUL R. ISENBERG.

Hawaiian
Electric
Company.
 The cleanest, brightest, safest and really
 in the long run, the cheapest and best light
 for use in the family residence, is the incan-
 descent electric light. Safe; nothing could
 be safer. A few days ago a prominent gen-
 tleman of Honolulu came rushing down to
 the office of the Electric Company and said:
 "Give me figures for wiring my house, and I
 want it done at once; no more lamps for me.
 Last night a lamp tipped over and it came
 so near setting fire to the house and burning
 my children and I take no more risks."
 This is the sentiment of quite a number in
 the past few weeks, who have ordered their
 houses fitted with the perfect light.
 Just think it over and make up your mind
 that you want the best and safest light; send
 for the Hawaiian Electric Company and tell
 them what you want.
 We have a complete stock of everything in
 this line and have just received a lot of the
 very latest designs in chandeliers.

FROM THE OLAA COUNTRY
 INDICATIONS OF A PROSPEROUS
 SEASON.

The Government Should Exterminate
 the Minah—More Land Being Clear-
 ed—Tribune's Olan Scribe Writes.

Olaa is having some more of its lovely
 weather and everyone except a few
 Klondikers are happy.
 Mrs. Higgins paid a visit to Hilo, as
 did a number of others, last week.
 They all remark "how hot Hilo is and
 how lovely it is to get back to Olaa."
 Mrs. Omsted paid the Volcano a vis-
 it last week and while there was
 nothing but smoke to see in the crater
 she expressed herself as well repaid
 for her trip as there were many things
 of interest outside of the crater to see.

The Peck family enjoy a trip to Hilo
 every week and the young people
 of Olaa spend many a pleasant evening
 at their residence. The Pecks are ideal
 entertainers. Long may they stay in
 our midst, is the wish of all.

Mr. Reinhardt is having a dry house
 erected and is putting in a brick oven
 to dry his coffee. As in the handling
 of coffee trees so in the drying, each
 one has a brilliant idea of his own.

Mr. Cannery planted an oil can of
 hog potatoes and dug several bags of
 good potatoes, which he sold for \$1.25
 each at his door. Mr. Cannery also
 harvested several bushels of corn off
 a small patch of ground about 100
 feet square.

Otto Reinhardt has delivered several
 of his coffee pulpers in the district
 within the past week.

Mr. Furneau is making coffee every
 day now and has a Reinhardt pulper,
 which he says pulps a bag of berries
 in eighteen minutes. Mr. Furneau
 has an interesting place as many of
 his trees have as much as five pounds
 on them and it is their maiden crop.

Olaa has had a number of Hiloites
 staying here enjoying the pleasant
 showers. Among the number that
 the writer saw were Mesdames Sickles,
 Linder, Omsted and Greja. All of
 whom are loud in their praises of Olaa
 and the sociable people living there.

Mr. Zimmerman is building a dry
 house 20x20 and will soon be in condi-
 tion to handle the large crop that is
 coming off. Mr. Zimmerman is well
 pleased with the outlook for coffee
 this season. His trees will average at
 a conservative estimate one and one-
 half pounds to the tree.

Mr. Stewart, who has been spending
 a few months with Mr. Hall received
 a severe injury while walking through
 the plantation one night, running
 foul of a plow handle, thereby rupturing
 himself.

A thing for the Government to take-
 hold of is the extermination of the
 minah as it is destroying a lot of coffee
 in its green state, taking it soon
 after it forms. Coffee planters at the
 next meeting should take the matter
 up and offer a bounty of a few cents
 per head and the Japs will soon ex-
 terminate them. It will cost five cents
 for every one killed by white labor,
 and the adps will kill them for half
 that sum.

Captain Ella Peterson of the Salva-
 tion Army, Hilo, held the second
 meeting in Olaa and a number of peo-
 ple turned out to hear about salvation.
 The army has three recruits among
 the coffee planters—Otto Reinhardt,
 James Hiten and H. T. Hamby.

A trip through Olaa coffee fields is
 one of the things that tourists do now.
 A short time ago a number of tour-
 ists visited the K. C. Company's plan-
 tation and carried off a number of
 views of coffee in its different stages.
 They came in reform suits so they
 could tramp right through wherever
 the manager led them. Asked a num-
 ber of interesting questions and took
 a number of notes about cost of clear-
 ing, planting, upkeep, etc. If the coffee
 planters had an organized plan of
 entertaining tourists and showing
 them over the coffee fields Olaa would
 soon come to the front as an ideal
 country.

FOR THE SIBERIAN RAILWAY.
 PORTLAND, Or., Sept. 2.—The British
 steamship Glenloch arrived in
 port today from Kuchino Tsu, Japan,
 in ballast, for a cargo of lumber sold
 to the Manchurian Railway at Vladivostok,
 Siberia, by the Pacific Export
 Lumber Company of this city.

She is the largest steamer that ever
 came to this coast for lumber, having
 a gross tonnage of 4656 tons, and a net
 tonnage of 2997 tons. She is expected
 to carry between 3,250,000 and 3,500,000
 feet of lumber, or about 500,000
 more feet than was ever put aboard on
 a single vessel before.

THE PLATFORM.

The platform of the American Union Party is now before the public, and it will be found a broad and masterly document, advocating first and foremost the sheet anchor of the party, the very corner stone upon which it hangs together—annexation—and then laying down a series of strong and healthy opinions such as every voter, no matter of what nationality or stripe must desire to see honestly carried out.

Of annexation at this stage there need be here no argument. It is a proved proposition that it is the thing, and the only thing, that will secure to the Hawaiian, to the Latin, and to the Anglo-Saxon races upon these Islands that protection for their interest, their industry, and their very existence which they need. As far as the Hawaiian side of the question is concerned, the country, through its representatives, has spoken. The treaty as presented by President McKinley has been ratified by the Senate of the Hawaiian Republic. That this treaty will also be ratified by the Senate of the United States there is every hope. That annexation will come there is no doubt, though, knowing the forces arrayed against it, we may feel satisfied that there will be a bitter struggle to prevent it. The American Union Party on these Islands has been pledged to annexation from its inception, and it will remain its corner stone until it has been carried out. No matter what stripe of thought the members of the party may be; no matter whether Republicans or Democrats; no matter whether supporters of free silver or of a gold standard; no matter of what nationality, whether American or European, all differences cease before the one great aim and object of the party—annexation to the United States.

That the platform of the party should commend the Government for its courageous conduct of affairs is most just. It is easy to criticise and find fault, but when the history of the administration is written, it will be found that strong commendation must be given to this body of men who have guided the ship of state in many trying and dangerous positions. In nothing have they shown their courage and determination more than in the matter of Japanese immigration. A small, weak power has protected itself from an overwhelming avalanche of Asiaticism, under which the civilization of the West must have gone to the wall. That we had the sympathy and protection of our Great Neighbor detracts nothing from the boldness and determination which took the bull by the horns and turned it aside before it could gore us.

In dealing with internal affairs the platform is comprehensive and progressive. The employment of Asiatic labor and of prison labor upon public works is opposed, and this must meet the approbation of every mechanic and free laborer here. The improvement of harbor and wharf facilities, and the acquirement by the Government of all harbor front property throughout the Islands appeals to every district from Haena to Kalae. It shows that the Honolulu section of the party will assist the country districts in obtaining what to them is a prime necessity, and that the capital city appreciates and aims at a broader field than the mere wants of a local nature.

The Income Tax is a measure in which all will acquiesce. That the law was found technically unsound, as passed by the last Legislature, will only make the next House the more careful in drawing another. No fairer method of taxation has ever been devised, for it is one which puts the burden of contributing revenue upon those best able to bear it.

The planks referring to restriction of Asiatic immigration, to the promotion of the settlement of public lands by small land holders, and offering inducements for introduction of farmers, laborers and artisans from the United States are on the lines of true progress and promise to build up for us that sturdy population which is above all things

needed in this outpost of the Western world, where we must build carefully, solidly and with the certainty that it can meet and throw back any wave of Asiaticism that hurls itself against it.

The public school system of the Islands though good, and which any nation may be proud of, yet needs both extension and improvement. Few countries can point to such results as have been obtained here. The interest taken in the schools is very great, but it can be greater. The machinery for bringing children within the reach of educational institutions is good, but it can be still better. The number of school houses needs increasing, the staff of teachers needs increasing. And there is nothing to which a growing community should devote itself more earnestly than to the schools. The school house is the cradle of the stalwart citizen as the mother's breast is the cradle of the stalwart man. The American Union Party strikes at the root of things when its candidates pledge themselves to support, enlarge and improve the school system of the Islands.

Of the other planks special mention need not be made. They are all good, sound, solid timber, and there is not a rotten bit among them. It is right that the Government should not be an importer of material, thus coming into competition with the merchants and mechanics who support it. To obtain cable communication is the desire of every one, and the Islands will be in instant touch with the great centers of the world when the cable is laid. An opposition to trusts and monopolies should be a watchword of every free citizen.

Of a purely local character is the recommendation of a public park at Aala and the making of Waikiki property owned by the Government open to the use of the public. But these are necessary improvements and to the direct advantage of the poor man.

Taken as a whole the platform of the American Union Party is a good one, it is doubtful if it could be improved. It is framed in no petty spirit of local exclusiveness, and the party is justified in asking all citizens to join its ranks "who have faith in a plain, progressive Government of equality." Those are ringing words. They are words to which all can subscribe. They mean much and give us bright promise in the future.

To support this platform the candidates nominated last night have pledged themselves and they can certainly come before the voters of this Island strong in the hope that all who desire the permanence of peace and prosperity, who wish for the advancement of the Islands upon the path of progress that they are now embarked on, will give them their loyal and ungrudging aid. There is no nigger in the fence, everything is fair and above board. We want good government, we want advancement, we want prosperity, and we can only have these by one means, the raising of the Stars and Stripes upon the flag staff of the Executive Building, or in other words, annexation to the United States of America.

FROM SCULPTOR HUTCHINSON.

Viggo Jacobsen received news by the moana from his friend, Allen Hutchinson, the sculptor, who went from here to Sydney, and writes cheerfully of his experience and prospects. Among other things he says: "Thanks for your advice and hints about the Colonists. We find them docile in the extreme, in fact so much so that I sometimes wonder if they care for anything outside of cricket, foot ball and races. The physical development of the masses is quite distressing. I could forgive them almost anything if their legs were only straight. They are not picturesque in any way; even the beautiful harbor which is by itself superb, is rendered vulgar with the round greasy hat of a 'Sydney duck' in the foreground. I have however taken your suggestion and enjoyed the reflections by myself. As an ethnological study of development they are certainly interesting. Where did they get those legs, those hats and those clothes? Not from their ancestors."

Annexation is near at hand we are told, and the arrival of Senator Morgan and Representatives Cannon, Lindsagler, Berry and Towney seems to point in this direction. With annexation an unprecedented wave of prosperity is expected to sweep over the land, bringing with it dinners and feasts and merry making. We have quietly been preparing for this event, and laid in a stock of articles useful and ornamental for the festal board.

Our stock of **Haviland China** is more complete than ever, and if any set or piece is broken by careless servants, you can always have it replaced from our stock.

Novelty Week.

The smokeless stove, on which water is boiled in our show window, has been a great attraction for several days to students in philosophy. The Jewel is a good stove, anyway.

The special subject for the people this week is not stoves. That subject is a daily one. This week you will have novelties of all sorts.

This is the season when the hens go on strike and the price of eggs goes skyward. Hens want a little encouragement now and then, and the best thing known to science is green bones. But they must be cut up fine. We have the best green bone cutter in the world.

Another novelty is the soap saver, made of re-tinned wire, basket shaped, with long handles. This is the best soap known, and we have three sizes. They are cheaper than dirt and much more beautifying.

Dripless tea and coffee strainers are new and very serviceable. There's a cut-off attachment which prevents coffee or tea from dripping on the table cloth after the cup is filled. Very cheap, these, and pretty, too.

A six-knife Victor meat chopper for a quarter seems like a dream, but it isn't. We sell them at that price, and we sell the holdfast dust pan—the best you ever saw.

The latest in toasters is the revolving star. Enables the cook to toast five pieces of bread at once. Try one.

A Liberal Foreign Policy.

A liberal foreign policy when dealing with out of town customers is sure to make life long friends for your business.

It has always been our policy of dealing with mail orders or other Island business to give just what is asked for, or if we are compelled to substitute an article, we make it a point to give something a trifle superior rather than inferior.

We may not make any money by the transaction, but we feel that we have renewed our friendship with the buyer.

ANOTHER SUGAR PLANTATION.

Will Soon be Established on the Island
of Lanai.

The Australia's mail brought the news of the probability of London capitalists starting a sugar plantation on the Island of Lanai. The parties were in Honolulu last year and were favorably impressed with the scheme. Negotiations are now pending to secure land and if successful the plantation will be started. There is unlimited capital behind the English firm.

These people have hardly had time to learn of the recent discovery of arsenic water in various places on the Island by R. D. Walbridge.

DOPE FIEND'S GALLERY.

Licensed Hitlers of the Pipe Can Here-
after be Easily Identified.

City Physician Howard has prepared and presented to the Police Department a book containing photographs of the Chinese to whom he has given special license to use opium, together with the amount allowed each smoker. There have been nineteen licenses issued in all. Aswan, the king of all smokers, has permission to use sixty grains of the drug daily, and the amounts permitted to the other fiends run down as low as fifteen grains.

The book will be valuable to the police. The Marshal has given orders that those who are permitted to smoke must hereafter enjoy their pipes in solitude. It has been the practice for one licensed smoker to invite in two or three friends to join him. If the place was raided, the pipe was invariably found in the hands of the man licensed by the city physician to use it.

COURT NOTES.

The China steamship case has been taken under consideration by the Supreme Court.

The Supreme Court today remanded the case of C. M. Hyde against S. M. Damon back to the Circuit Court for another trial.

DIAMOND RING STOLEN.

Prince David lost a valuable diamond ring at the boat house during the races last Saturday, and he has sought the assistance of the Marshal to help him find it. It is believed to have been stolen. It contains a stone worth \$500, which is, however, more valued because of its associations than for its intrinsic value. Detective Kapa has been set to work upon the case and will spare no possible pains to restore the ring to its owner, and bring the possible thief to justice.

CURIOUS KITE FLYING.

Favorite Pastime of South Sea Islanders Living on Maui.

Captain Mosher of the steamer Kaala, while in Lahaina the other day, took a trip over to Lewawea, the South Sea Islanders' settlement, and became very much interested in their pastime of kite flying, which, he says, is more scientific than the box kite scheme. The captain took pains to measure some of the kites, and found the largest to be 20 feet 8 inches long by 5 feet in width, and weighing just 4 pounds. The kites are made of paper, on wooden frames, and are very peculiar in shape.

The big kite was flown for the amusement of Captain Mosher. It went straight up over head, until about 600 fathoms of line were paid out, and then remained stationary. The captain was then given the string and says the pull on the kite did not exceed two pounds. The kites once up the pastime of the natives is to bring them to the ground, so that they fall flat, for if they come down on the edge, they are sure to break. The village now consists of about forty grass huts, housing 230 inhabitants. The women are skillful but makers and very industrious, but the men lie about naked in the sun and smoke.

Sleep

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. It undermines the health and shatters the constitution and the patient is steadily growing into a worse condition—often resulting in the terrible slavery and misery of the cocaine and opium habit. Sleep induced by the use of Hood's Sarsaparilla may not come as quickly, but it comes more surely, permanently, and is

Sweet

And refreshing because it is realized through nature's great restoring and rejuvenating channel—purified, vitalized and enriched blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and life—the blood—pure, rich, red blood.

Refreshing

"I was generally run down last spring, appetite was poor and I could not sleep. Hood's Sarsaparilla built me right up, gave good appetite and I was soon able to get a good night's rest." G. F. WHITNEY, Merchant, Yeomans St., Ionia, Michigan.

SHE IS COMING THIS WAY

SOPHIA SUTHERLAND BOUND FOR SOLOMON GROUP.

Will Seek Gold in South Sea Islands—Heavily Armed Expedition—Will Mine and Hunt Pearl Oysters.

The schooner Sophia Sutherland, in charge of the South Sea Commercial Company, which left San Francisco last week with a party of men on a gold hunting expedition, may be expected to sail into the harbor within another week or so en route to the South Sea Islands, where in the Solomon group of islands is said to lie almost inexhaustible mines of gold quartz. The party left Frisco with considerable secrecy and it is not yet known definitely whether she will stop here or not.

While the vessel was preparing for her trip at Hatherley's wharf the impression was given out that she was to seek hidden treasures left in some South Sea Island by pirates many years ago. But the stores that were put aboard at once disproved the statements made by the promoters of the expedition. Among the stores were a large number of muskets, rifles and pistols, besides a quantity of mining machinery.

Captain Alexander MacLean, who was in command of the Montserrat during her incursion among the natives of the Gilbert Islands, is in command of the expedition. He has now gathered around him a galaxy of gun fighters, who will shoot at the drop of the hat, and who in addition to the arms and ammunition carried in the schooner's outfit, are individually armed to the teeth.

For years the cupidity of the traders to the Solomon Islands has been excited by the display of crude gold ornaments worn by the natives of the islands. Several expeditions have endeavored to land on the islands, but hostile demonstrations have driven all the gold hunters away. The crew and passengers on the Sophia Sutherland however are made of sterner stuff, and a few Solomon islanders more or less will not be allowed to stand in the way of the daring spirits engaged in the venture.

The Sophia Sutherland is provisioned for eighteen months. At the custom house she cleared for Samoa and islands of the Pacific ocean. The members of the expedition expect to remain on the islands for three years and come back with more gold than the luckiest miners of the Klondike region. In order that no delay may interfere with their visions of wealth a ten stamp mill has been taken along to crush the quartz.

While some of the party are engaged in extracting gold from the Solomon Islands mountains, others will devote their attention to fishing for pearl oysters. Two expert divers accompanied the expedition, and they will engage native talent to assist them. Others will devote their time to visiting various islands of the big group and trade with the natives. In fact, the expedition is so equipped that there is nothing in the islands which can be converted into gold that will not be handled.

At the office of the South Sea Commercial Company great secrecy is still maintained regarding the object of the expedition. Every member of the expedition is a member of the company and is financially interested in the outcome of the venture. Although pledged to secrecy by the articles of agreement, some of them, dazzled by visions of prospective wealth, have told their friends, and in this way the object of the enterprise has become well known.

BEEF SUGAR INCORPORATIONS.

STOCKTON, Cal., Sept. 3.—Articles of incorporation for the Stockton Sugar Beet Manufacturing Company have been signed and will be filed tomorrow. The projectors are John J. Hurd and K. C. Korn of San Francisco, and S. Sewell, F. M. West and W. R. Harrison of Stockton. These five directors will hold the first meeting tomorrow. They propose to build a factory at the junction of Mormon and Stockton channels and draw their supply of beets from the islands, where tests have shown that the beets richest in sugar in the State can be raised.

WILL HELP COFFEE.

Professor Swing of Oberlin College Talks Encouragingly of Annexation.

A. T. Swing, professor of theology in Oberlin college, Oberlin, Ohio, upon his arrival in San Francisco, gave an interview on Hawaii. He was in the Islands partly for recreation and partly to make a careful study of the coffee industry and its prospects.

He spent several weeks examining coffee lands on the different islands. He says that coffee culture is only in its infancy in Hawaii, and that there are great areas of land well adapted to coffee, but not yet planted. He is emphatically in favor of annexation, and believes that it would greatly promote the culture of coffee. The islands themselves he looks upon as a valuable acquisition for commercial and naval purposes in the event of the completion of the Nicaragua canal.

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Company of St. Louis, Mo. I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no medicine or prescription equal to it. I consider it a household remedy." For sale by all druggists and dealers. interrupted while reading the platform by cheers from the delegates and the spectators.

The reading of the annexation plank and the principle opposing Asiatic labor were warmly applauded.

The platform was adopted without a dissenting vote against it.

GOOD RESOLUTIONS.

Chairman Martin of the committee on resolutions, reported back the following resolutions which were tacitly adopted:

"Resolved, That the Government is urged to provide means for the improvement and extension of the water system to meet the increasing demand of settlement and housing.

"Whereas, The growth of the City of Honolulu is impeded by the absence of adequate transit facilities, and

"Whereas, This striking fault is an inconvenience, annoyance and expense to thousands of citizens.

"Resolved, That the Government is respectfully requested to bargain with responsible parties for an electric street railway line for Honolulu and its suburbs.

"Whereas, Business principles and the practices of economical and intelligent management have been exemplified, and vindicated by the Government's conduct of its own electric lighting system.

"Resolved, That the same should be maintained and enlarged if necessary, to insure for the future the further illumination of the streets of Honolulu and of all public buildings by the Government plant or plants.

"Whereas, The Government powder magazine in its present location is a menace to lives and property, and

"Whereas, The continuation of the storage of explosives at a place imminently dangerous to many citizens and their possessions is unwise.

"Resolved, That in the opinion of the membership of this convention, advised by a united constituency, the Government powder magazine should without delay be transferred to some isolated situation.

"Resolved, That the present crowded condition of our school rooms and the rapid increase of the school population, as evidenced in Palama and other districts, demands a liberal increase in the appropriations for school facilities."

GREETING TO MORGAN.

Senator McCandless then arose to announce that a distinguished American citizen, Senator John T. Morgan, was in the city. He was a good friend of Hawaii and his influence was felt from his own state of Alabama to far off Hawaii. He would ask the adoption of the following resolutions of greeting:

"We, the delegates of the American Union party, in convention assembled, do hereby extend to Senator John T. Morgan of Alabama, a most cordial greeting and hereby welcome him to these Islands.

"Whereas, said Senator Morgan has so ably, with untiring zeal and with distinguished ability championed the cause, which is so dear to us, and which is the cornerstone of this organization, therefore be it

"Resolved, That we extend to Senator Morgan our most grateful acknowledgment for his earnest and faithful support, and be it further

"Resolved, That a copy of these resolutions be presented to him."

The resolutions were adopted with a will. Delegate Kennedy suggested that the resolutions be engrossed and sent to the Senator. This will be done.

THE NOMINATIONS.

Chairman Smith announced that the next business before the convention would be the placing in nomination of candidates.

Delegate Dillingham arose and announced that it gave him special pleasure and satisfaction in nominating Alan T. Atkinson for the Fourth district. "He is well known to almost every individual in this country," continued Mr. Dillingham. "I would respectfully call the attention to the labor this gentleman has performed for the welfare and highest interests of our country. It is truthfully said that 'the pen is mightier than the sword.' The gentleman has wielded the pen since way back in '82 or '84, and even an earlier period, and he has always labored earnestly for the lasting prosperity of these Islands. His efforts have been such as to commend him in the highest possible manner to every loyal citizen of the country. He has worked faithfully and fearlessly for good government and I do not hesitate to say that his efforts have helped largely in weaving out the cornerstone upon which the Government rests. Now, gentlemen, we trust that this worthy man will receive your full support."

Delegate Bishop, representing the precinct in which Mr. Atkinson is a voter, seconded Mr. Dillingham's nomination.

Delegate McBryde nominated A. G. M. Robertson, Senator McCandless seconded Mr. Robertson's nomination.

Albert V. Gear was placed in nomination by S. B. Rose.

PRAISE FOR NAONE.

D. L. Naone, speaker of the last House of Representatives, was nominated by E. E. Bishop, who spoke of him as an able man and fitting representative. He made a good speaker of the house. Mr. Bishop further said, "It has always been contended by the American Union party that there is nothing in its principles against the Hawaiian race. On the contrary, it wishes to be with and to help them for this and for all time. The Hawaiians are between two fires. On one side there is the warmth that attracts and that will be good to them. On the other is something to be dreaded. I refer to the influence of the Orient and the Orient. The native Hawaiians have reached a point where they are to be overcome and taken under the wing of one side or the other. It is strange that they do not look toward the country that has naturally favored and fostered them for such a long time."

Robert Grieve seconded Mr. Naone's nomination.

This closed the nominations for the Fourth.

Delegate Henry nominated John Lot Kaunaoa from the Fifth. D. Keliipo seconded the nomination.

Manager Lowrie of Ewa plantation nominated A. J. Campbell as a candidate who will look after the interests of the country districts. E. B. Mikalemi seconded the nomination.

WINSTON IS POPULAR.

E. C. Winston's name was greeted with considerable applause. Delegate Low placed him in nomination with a few complimentary remarks. Captain Cluney seconded the nomination. En Towsse also seconded the nomination, and in doing so stated that Mr. Winston would ably represent his constituents. He was the father of several important measures in the last house and he was a right hand bower to Mr. Robertson. He sincerely trusted that he would be chosen.

Delegate Sims nominated J. C. Cluney. Seconded by Delegate Bergstrom.

Judge Kekahane nominated L. L. McCandless.

Vice President Poepe stepped down from the platform to place in nomination the name of S. G. Wilder before the convention. In doing so Mr. Poepe said:

"I wish to present a name that is familiar to you all—that of S. G. Wilder. I think he has stood fairly with the Government and established motives. He has worked for nothing but the best."

Delegate Farr seconded Mr. Wilder's nomination.

On motion of Delegate Hoogs the nominations were closed.

AN IRON CLAD RULE.

A ruling was asked of Chairman Smith in the case of Mr. Winston. He was not in the hall to pledge his allegiance to the platform and party. The rules provided that he should be.

Delegate Carter, who had opposed this paragraph in the rules from the first, insisted that, since they had been adopted, they should be lived up to.

Senator McCandless, Delegates Low, Sims, Towsse and others thought that the rules could be suspended in Mr. Winston's case. Delegate Low explained that he was on his way to Honolulu from the Island of Hawaii. He could assure the convention that Mr. Winston would support the platform.

Colonel Fisher was not in favor of establishing a precedent. It was Mr. Winston's misfortune.

Vice President Poepe suggested that the law of the land be suspended in Mr. Winston's case. He was a Winston voter, but where is Winston? Not in existence in the eyes of the law because he is not in Honolulu. He did not believe in suspending the rule.

Senator McCandless was of the opinion that the rules could be reconsidered.

A vote of the convention decided that the rules must stand, thus making Winston ineligible. The vote stood 15 to 15, Chairman Smith casting the deciding vote.

MAKE THEIR PLEDGES.

The chairman, in pursuance of the regular order of business, called upon Mr. Atkinson to take the platform.

Mr. Atkinson came forward and he spoke briefly as follows:

"I have heard the principles laid down in the platform and I have also read them carefully, and I can unhesitatingly pledge myself to support them to the best of my ability. It is not necessary to state my views upon annexation—all know them here. I have worked steadily for this cause from the year 1881. In those days and up to 1886 I remember we could not hold such a meeting as we have here tonight. We used to meet secretly in houses for fear that we might come within the objections of the authorities. All this has been swept away, but the work that was then done has prepared us for the question as it stands today. It has prepared us to meet the annexation of the United States. Some people have been kind enough to say that I have joined the Annexation party for what is in it, and that is exactly what I did it for, with both feet. I joined it as you joined it, to obtain safety for our homes; to save us from the Asiatic avalanche which threatens to overwhelm the civilization planted here, and to obtain this protection and safety from the flag which I see on the wall behind me."

A. G. M. Robertson stated that he had also read the platform which the convention had adopted and also swore allegiance to it.

D. L. Naone apologized for his poor English. He knew that annexation would be to his interests, as well as his countrymen. He was not a government employe, but worked hard for his bread. His motives were not actuated because of pecuniary gain from the present power.

J. L. Kaukau, ex-marshal of the Kingdom, was strong in his support of the platform because it was not for the interests of one party, but for the welfare of the whole community. His opinions on annexation had been well aired in the city dailies.

L. L. McCandless disliked opposing the Metropolitan Meat Market and the Ice Trust. He would support the platform and party, however.

A. V. Gear, A. J. Campbell, S. G. Wilder and J. C. Cluney also pledged their allegiance.

The delegates of each district then repaired to separate rooms and proceeded to ballot for candidates to represent their respective districts.

The Fourth district very quickly selected Atkinson, Robertson and Gear.

In the Fifth there was considerable diversion. About midnight Delegate Carter for his district reported the selection of Kaukau, Wilder and McCandless.

The candidates were ratified by the convention.

THE CENTRAL COMMITTEEMEN.

A central committee composed of the following gentlemen was chosen:

From the Fourth—J. S. Martin, J. A. Kennedy, J. H. Fisher, P. B. McSticker, T. E. Lausing, J. A. McCandless, E. Towsse, George W. Smith and W. H. Hoogs.

From the Fifth—W. J. Lowrie, J. A. Low, William Henry, E. B. Mikalemi, E. C. Winston, W. R. Sims and B. F. Dillingham.

Shortly after midnight the convention adjourned subject to the call of Chairman Smith.

INFANTILE LOVELINESS of the skin, scalp, and hair is assured by the use of CUTICURA SOAP, the most effective skin purifying and beautifying soap in the world, as well as purest and sweetest for toilet, bath, and nursery.

To preserve, purify, and beautify the skin, scalp, and hair of infants and children, and restore them to a condition of health when affected by distressing, itching irritations and scaly eruptions, no other treatment is so pure, so safe, so speedy, as warm baths with CUTICURA SOAP, assisted, when necessary, by gentle anointings with CUTICURA, and sweetest of emollients and skin cures.

For bad complexions, pimples, blotches, red, rough hands and shapeless nails, red, rough, oily, mothy skin, dry, thin, and falling hair, itching and scaly eruptions of the skin and scalp, and simple baby blemishes, it is simply wonderful.
