SHERWOOD'S Novelty Steel Harness.

One of the greatest revolutions in work harness of the present time. It is without doubt the most complete and wonderful thing in the harness line ever offered to the public. Singletrees, doubletrees and traces are entirely done away with, and a simple chain is all the coupling used between team and plow or wagon. It is one of the simplest, yet most durable harnesses yet invented. The whole arrangement is simplicity itself, and the price \$25 the set, well within the reach of every teamster.

We have also a very fine stock of strong and well-made DUMP-CART HARNESS in two qualities. You would go a long way to equal them at the prices, viz.: \$20 and \$23 per set.

By the last steamer we received a supply of real good BUCK WHIP LASHES, in all lengths, for 2, 4, 6 and 8-horse teams.

Call in and see our stock. An inspection will well repay you the trouble.

ELITE ICE CREAM PARTLORS

FOR AN ELECTRIC LINE

LOCAL CAPITAL ORGANIZED FOR ACTION.

Will Secure a Franchise From the Next Legislature—Success of the Project Assured.

The internal transportation facilities of Honolulu are to be increased at no very distant date by the construction of an electric railway system that will cause the Londoners who enjoy dividends from Mr. Payne's bobtail cars to grow envious. A company composed of local business men entirely has been quietly organized, with a paid up capital of \$250,000 pledged, and will be incorporated as soon as some agents now on the coast return home. Until then the stockholders and promoters desire to have their identity kept secret.

One branch of the new line is to run to Waikiki and another to Panahou and on through the valley to a terminus that has not yet been divulged. The Waikiki branch will run out Queen street and along the beach road, shortening the distance to the park by nearly a mile. The Panahou branch is to be laid on Thurston and Wilder avenues. There was some talk of utilizing Liliha street, but after a careful canvass of the field the promoters have decided that it would not pay.

The next Legislature will be asked to grant a franchise for the new road. As the company is composed entirely of local business men, and only local capital interested, it is believed that a franchise can easily be secured. There is such a crying need for a decent street railway that the chances for securing a franchise would be good on the single plea of common humanity.

The Star's information comes from a gentleman of business standing, who says that the incorporation of the company is assured. Some gentlemen who are heavily interested are now in San Francisco looking into the cost of equipment. As soon as they return and report, the detailed plans of the company will be made public. The preliminary survey of the road will be made at once, and everything will be put in readiness as soon as the franchise can be secured.

THE LADIES.

The pleasant effect and perfect safety with which ladies may use the California liquid laxative Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

VICTORIA'S JUBILEE DAY

DIAMOND CELEBRATION BRINGS OUT THE BRITISHERS.

Preparations for Doing Honor to the Great Day—Regular Gala Festivities—Boat Races, Foot Races, Sports.

The observance of Queen Victoria's Diamond Jubilee will be general in Honolulu on Wednesday of next week. There will be a complete suspension of business for the day, and every one that can be spared from the avenues of industry will render in some form or other a recognition of the holiday. President Dole has proclaimed the day a legal one, and in consequence there will be no sessions of the Government schools, and all offices will be closed.

The festivities will open on Tuesday evening with a grand complimentary ball, given by the British residents, at Independence Park. Over one thousand invitations have been issued and the committee has been obliged to exceed that limit and supply the polite missives to people who were not on the original list.

It is the ambition of the decorating committee to have old Independence Hall so beautiful on that occasion that should the noble Queen arrive on an air ship she would bless her subjects in far off Hawaii for their devotion to her. The National Quartette Club will provide the music. An elaborate supper will be served during the evening.

British Commissioner Hawes will entertain at his home in Palama on Friday evening in honor of her gracious Majesty. Dancing will be the order of the evening.

The committees having in hand the sports for Wednesday have been faithful in their labor to make them more than merely successful.

The regatta will begin at 8 o'clock on Wednesday morning. Alex Robertson and W. F. Love have been instrumental in arranging an excellent program of races. In the five-oared whale boat race the Pilot boys and Police will probably contest.

The second class yacht race will be very interesting. The Edith L., owned by George Jarris, Pakii, by Wm. Williams, and the yachts owned by John Ena, Mate L. Johnson of the Keahou, and H. M. Dow will enter. A cash prize of \$50 will be given the owner of the winning yacht and \$25 to the one finishing second.

In the six-oared sliding-seat shell race, two crews from the Myrtle will enter. The Healan Club may start a crew.

At last the Marion sailors will have a chance at the Philadelphia men, for both have entered the ten-oared barge race. The police, under Captain Parker, may start also.

The Waikiki, Kakaako and Punaona native crews have signified a willingness to participate in the six-paddle canoe contest.

It was originally intended that among the racing events should be a four-oared race in the Australian shells, but this has been abandoned. A surf boat race between the freight crews of the various island steamers and schooners in port has been decided upon.

The start and finish of all the races will be off the Oceanic wharf at the can buoy.

The children's sports will take place out at Kapiolani Park, commencing at 10 o'clock and lasting until 1 o'clock in the afternoon. There will be dashes of 100, 80, 60 and 50 yards for boys and girls, ranging in age from 8 to 14 years; a half-mile bicycle race for boys and one for girls; rope skipping contest, high and broad jumps, wheel race and a postoffice race for girls.

The field sports are scheduled to begin at 2 o'clock at Kapiolani Park. The entries for the various events will close Saturday evening. The names of the athletes who are in training were published in the Star this week. The men have been earnest in their practice for the past three weeks. The work has been done on the Makiki baseball grounds, but the athletes will go out to Kapiolani Park for practice from now on.

The Sports committee will meet this afternoon to determine in which event it will offer the gold watch and chain presented by British Commissioner Hawes. Chairman Wright is strongly in favor of the valuable prize being given to the winner of the 220-yard running dash.

A great many people will spend the day at Kapiolani Park, taking their lunch with them.

JOHN F. SCOTT RESIGNS

POPULAR DEPUTY INSPECTOR OF SCHOOL RETIRES.

A Change in the School Department That Will Astonish the Teachers—Public Loses an Able Servant.

The resignation of John F. Scott as Deputy Inspector General of Government Schools will be among the matters to be taken up and considered at the regular session of the Board of Education this afternoon. The resignation will be accepted.

Mr. Scott's action is a surprise to the community. In him the public loses a very valuable and conservative official, and the teachers an excellent friend.

He has carried on the duties of his office with energy and has given special attention to the school buildings and property under his charge. Mr. Scott has been connected with the educational department since 1888, serving as principal at Kapaa, Kauai, and at Waianae, Oahu, each of which places he won, as he has done in Honolulu, strong and faithful friends.

The classification of the teachers, which occupied the attention of the Commissioners during all of last week's meeting, and was then referred to the Teachers' Committee for their consideration, will be reported back to the board this afternoon. The final classification will be made this afternoon probably. Assistant teachers of many years standing need not look for much raise in salary.

NO SUCCESSOR TO MEYER.

The Molokai leper settlement will be superintended for the present by Executive Officer Reynolds, under the direction of the Board of Health.

At an executive session of the Board of Health yesterday afternoon it was decided not to appoint a successor to the late R. W. Meyer for some little time.

DATE IS SETTLED.

The President today decided that he will proclaim Monday, July 5, the day on which to hold the Fourth of July celebration. This is the same day as will be celebrated in the United States.

JAPANESE IMMIGRATION.

Notwithstanding the fact the general impression prevails that the Japanese Government has shut off all immigration of Japanese to the Hawaiian islands, until the present differences have been adjudicated, two or three lots of Japanese contract laborers are reported to be coming to Honolulu very soon. The Kumamoto Company expect 98 men and 23 women within the next week or so. Another Japanese immigration firm report about 250 contract laborers coming. All of the companies have orders for Japanese laborers, but it is difficult to secure the men now, so the agents say.

EMBASSY.

WASHINGTON, June 7.—G. Creighton Webb, brother of Dr. Seward Webb of New York, and Erskine Hewitt, son of Abraham S. Hewitt of New York, have been appointed additional secretaries to the special Embassy appointed to represent the United States at Queen Victoria's jubilee ceremonies.

JAPAN ORDERS A BATTLESHIP.

LONDON, June 5.—Japan has ordered a battleship of 11,000 tons to be built on the Clyde. She will be a duplicate of the British battleship Jupiter. The Jupiter is 14,900 tons burden and 12,000 indicated horsepower.

VESUVIUS IN ERUPTION.

LONDON, June 4.—A special dispatch from Naples says: Mount Vesuvius is in eruption. An area of 2000 yards long by 500 wide is covered with lava and it is dangerous to approach within 400 yards of the principal crater.

RECEIVED U. S. MINISTER

BIG RECEPTION ON BOARD THE PHILADELPHIA.

Brilliant Social Success—Beautiful Decorations—A Happy Inauguration for Minister and Mrs. Sewall.

Fully 500 people attended the reception to United States Minister and Mrs. Harold M. Sewall on board the flagship Philadelphia last evening. The guests began arriving shortly before 8 o'clock, and it was midnight before the last boat load was taken ashore.

The big cruiser was decorated most magnificently. The main and upper decks were especially wired for the occasion, and red, white and blue lights were everywhere in evidence. About midships was a row of incandescent lamps making the word "Aloha." One or two other electrical effects of similar design were located in other parts of the ship.

A mass of ferns and flags began the decorations as far forward as the smokestack. About midships was a rockery, in the center of which was a miniature fountain from which issued a steady spray. The rockery was covered with an abundance of ferns and calla lilies. The flag decorations on the upper deck were artistic and beautiful. Lieutenant Commander Ingersoll, Dr. Hessler and Lieutenant Kearney comprised the decorating committee.

The Admiral's and Captain's cabins were used for serving refreshments. The board rooms on the lower deck were devoted for the same usage.

The flagship band, stationed on the after bridge, provided music during the evening. Dancing was indulged in on the main and upper decks.

In the turret just forward of the gangway stood Admiral Beardslee, Captain Cotton, Minister of Foreign Affairs, and Mrs. Cooper, who received the guests and presented them to Minister and Mrs. Sewall.

The guests were noticed. President and Mrs. Dole, Captain Book and officers of the Marion, Captain Kuroko of the Naniwa, British Commissioner Hawes, United States Consul General and Mrs. Mills, Vice Consul and Mrs. Boyd, Japanese Minister Resident Shimamura, Special Japanese Commissioner Akiyama, Portuguese Commissioner Canavaro, French Commissioner Vossion, Mr. and Mrs. T. R. Walker, Mr. and Mrs. J. O. Carter, Rev. and Mrs. D. P. Birnie, Mr. and Mrs. W. W. Hall, Mr. and Mrs. Ballou, Mr. and Mrs. Fuller, Colonel and Mrs. J. H. Fisher, Colonel and Mrs. J. H. Soper, Dr. and Mrs. High, Mr. and Mrs. Daniel Logan, Mr. and Mrs. J. S. Walker, Mr. and Mrs. Lansing, Dr. and Mrs. Monsarrat, Mr. and Mrs. W. C. Wilder, Mr. and Mrs. Humphries, Mrs. S. M. ATTEMPT TO BURN CHURCH

DASTARDLY WORK OF UNKNOWN INCENDIARY.

Set Fire to the Hoomana Naamoo's New Building—Escape From Destruction Almost Miraculous.

A dastardly attempt was made last Tuesday night to burn down the new Hoomana Naamoo Church on Paul Kanoa's property. A well-oiled pair of trousers, discarded by one of the painters after his day's work, was set on fire in a corner where there was plenty of inflammable material, but by some miraculous chance the fire after consuming the trousers and burning a small hole through the floor was extinguished. The painters on entering the church the next morning found only the incinerated trousers and the hole in the floor.

At first it was believed that the blaze had been caused by spontaneous combustion, but the evidence of the incendiary's work soon became evident. He had mounted to one of the windows by means of a wooden saw horse, and failed both to close the window and remove the horse. It was by the merest chance that his well laid plans failed to materialize, as the interior of the church has just received a fresh coat of paint, and the oils and paints were still scattered about.

The matter was reported to Marshal Brown, and Detective Kaapa set to work on it. The detective is much puzzled, as he has no clue, and cannot even find a reasonable motive for such a crime. The church has just been erected at an expense of about \$1500, and is very little in debt. The funds were contributed by but a few people. The only motive that can be assigned is spite. Even then the members of the church are at loss to find any one who could possibly harbor ill feelings against them.

EACH SURE OF A PRIZE.

W. B. Godfrey, Jr., and Ah Fook students of Oahu College, will be the only speakers for the prize oratorical contest at the Y. M. C. A. this evening. A cash prize of \$25 will be given the best speaker and \$20 to the other. There are six essays, five of which were from Hilo. The writer of the winning essay will receive \$10. Minister Sewall and President Dole have been selected as judges.

WAS A GOOD SERVANT.

Health Board Testify Its High Esteem of Meyer's Worth.

The thirty odd years of continuous service which the late R. W. Meyer had rendered to the Molokai leper settlement at the time of his demise was feelingly referred to by President Smith at the regular Board of Health meeting yesterday afternoon.

The board adopted a resolution offered by Dr. Emerson, which recognized the inestimable value of the lamented superintendent. The sympathy of the board was tendered to the widow and members of the family in their bereavement.

An executive session was held to consider the appointment of Mr. Meyer's successor.

THE HEALTHY WOMAN.
Aside from form or features, she has an attractiveness all her own. The bloom on her cheek, the elasticity in her step, the ring of her voice, her enjoyment of life—all these are magnets which draw others to her side. Wonderful and valuable as it is, health is not so difficult a thing to obtain as some discouraged ones think. Most of the troubles of women arise from impure blood, impaired nutrition, low vitality, and general debility. Modern science furnishes the most successful of remedies for this condition—namely
WAMPOLE'S PREPARATION.
It contains the flesh-building and nourishing properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, without its nauseous taste and smell, the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry Bark. Taken before meals it improves the appetite, makes fat, restores vitality, enriches the blood and cures those weaknesses peculiar to the sex, which are the seat of their troubles. It is a blessing to Tired Wives, Nursing Mothers and Girls growing into womanhood. It colors the pale faces and rounds out the hollow chests. In a word it nourishes and develops the entire body, and brings happy surprises to feeble, hopeless and discouraged sufferers. It is the typical medicinal success of our age. Palatable as honey. You cannot be disappointed in it. At chemists.

ALL ALONG THE DOCKS
CLOSE RACE BETWEEN ARCHER AND ALBERT.
The Bark Beaten by a Flake—Ship Iolani Due From New York—Yacht Aggie Coming.
The Henry B. Hyde arrived safely in New York after a passage of 100 days.
The Louis hauled over to the Mail dock this morning to finish discharging her cargo of coal.
The Aorangi was 11 days on the way to Vancouver. She was due here from the coast yesterday, but did not arrive.
The Ensenada did not get away yesterday afternoon after all, but will sail today. The Helen Denny sailed, as scheduled.
The ship Iolani sailed from New York for this port on February 19th, so that she is now about 120 days out. She is expected here about the 20th.
The James Makee came in this morning with 1650 bags of sugar, 1000 of paddy and 90 of rice. Capt. Tullet reports rough weather at Kapaa.
The A. J. Fuller commenced to load sugar in earnest at the Oceanic dock this morning. She will probably take about 15,000 there and then go to the railroad wharf.
The Kaala arrived from Oahu ports yesterday afternoon with 943 bags of paddy, 340 of rice and 30 hides. Capt. Mosher reports that the Mormons at Laie are clearing another 100 acres of land for sugar next year.
The Archer brings 1000 tons of general merchandise, consigned to Castle & Cooke, and 40 mules. The cargo of the Albert is made up of 1200 tons of general merchandise, consigned to Hackfield & Co., and a lot of fine horses and cattle for Paul Isenberg.
The barkentine Archer and bark Albert were towed in this morning, 12½ days from San Francisco. The Albert sailed just an hour ahead of the Archer, and arrived off port last night, but too late to be towed in. Capt. Griffiths stood off and on all night and the Archer crept up inside of him this morning and got the first tow. The race was much like that between Amythest and Antidote at the track last Friday, for while the Albert was first to arrive, the race was awarded to the Archer.

The Aggie, the largest and finest boat owned in Seattle, is the property of Mr. E. F. Sweeney, and is now up the Duwamish river, says a recent Post-Intelligencer. Mr. Sweeney says she will be put in commission shortly, and kept there for at least a portion of the summer. The crew has not yet been selected. The Aggie is an 85-foot schooner, with 23-foot beam. She was built in Port Ludlow in 1880, but was purchased in San Francisco by Mr. Sweeney. A cruise to Honolulu is a prospect for the Aggie this summer.

Hawaiian Electric Company.

The cleanest, brightest safest and really in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want. We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

how easy it is and how little it costs to get rid of Freckles, Eruptions, Sunburn, and Tan on the Face and Hands?

Everyone who is out of doors more or less is liable to have the complexion marred by these summer blemishes.

Those who spend a large portion of their time riding, daiving or in outings on the bicycle, should use great care with their complexion.

The disastrous results of wind and sun on delicate skins are distressing and painful.

Fair Skins are made fairer by the application of

There is no excuse for having facial blemishes such as are enumerated above, when by the application of MAILE CREAM they may be eradicated and finally cured, leaving the skin clear and soft.

After a seabath, a game of golf or tennis, a drive or a run on the bicycle, a small portion of MAILE CREAM applied to the face and hands proves most beneficial in relieving the skin of that burning and irritating sensation caused by the action of the elements upon a tender skin.

SUPERVISOR HASKINS MET WITH OPPOSITION.

Hugh Craig Showed the Resolution Came From the Sugar Trust—Petition in Favor of Treaty Passed.

The Peru brought an interesting bit of news from San Francisco. On Monday of last week the members of the Chamber of Commerce appeared before the Judiciary Committee of the Board of Supervisors and protested against the passage by the board of the resolution offered by Supervisor Haskins favoring the abrogation of the Hawaiian treaty.

Hugh Craig was spokesman and he insisted that the opposition to the treaty came from the Sugar Trust. Supervisor Haskins said that he had offered the resolution at the request of persons interested in the matter, but was not pressing its passage. If the abrogation of the treaty would be bad for the country he did not want to have the resolution passed.

The committee decided to recommend to the board the adoption and transmission to California's representatives in Congress of the following petition:

"The sentiment of the people of this city, expressed by petition, representing the commercial and financial interests more particularly, favors the treaty relations now existing between the United States and Hawaii; and believing that such is the prevailing sentiment and that the abrogation of the reciprocity treaty would be not only injurious to the city of San Francisco, but would imperil American interests in the Pacific, we petition your honorable body not to abrogate the treaty, but to recognize and ratify its terms in the proposed tariff law."

McKINLEY'S VIEWS.

President Proposes to Deal With Business Depression.

WASHINGTON, June 7.—President McKinley's opinion is that the two main things needful to abolish business depression and restore prosperity are the passage of the tariff bill and the enactment of a measure for financial reform. He said today that he expects to give the American people, as a Fourth of July present, the Administration tariff act. On or about June 21st, he said further, an Administration bill will be presented to reform the currency. The measure will provide for a commission of from eleven to fifteen members to consider the subject and to report its conclusions to Congress at its session beginning next December.

Speaker Reed says it will not take more than one week to pass such a bill in the house. What progress it will make in the Senate, with the opposition united and against all financial legislation except in the interest of silver, cannot now be foreshadowed.

Mr. Isaac Horner, proprietor of the Burton House, Burton, W. Va., and one of the most widely known men in the state, was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered. My physicians told me that nothing could be done for me, and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1894, Mr. Evans, then salesman for the Wheeling Drug Company, recommended Chamberlain's Pain Balm. At this time my foot and limb were swollen to more than double their normal size and it seemed to me my leg would burst; but soon after I began using the Pain Balm the swelling began to decrease, the pain to leave, and now I consider that I am entirely cured." A LIVELY CORPSE.

So Annexation is dead, is it? It certainly seems quite a lively corpse. It is very evident that the coffin has not yet been bought for it and there are indications that the wood for it has not been sawn from the log, and one feels somewhat sure that the tree, out of which that final bit of attire has to be constructed, has not yet got out of the sapling stage, even if it has been planted at all.

No, Annexation is not dead. The policy of the McKinley administration is to annex the Islands, of that, there is no doubt in anyone's mind. There never should have been, for annexation was foreshadowed in the Republican platform, and it was well known that the personnel of the Cabinet was strongly in favor of the move. Secretary Alger's words, uttered a couple of months or so ago, were straight from the shoulder. He said "We want your Islands—we must have them," and we may rest assured that the United States will have them.

The card that the Royalists of the Islands have played in getting the ex-Queen to go to Washington, has had no influence upon the main issue. That lady, in a private way, has seen a number of people, and some to whom a garbled account of the brief year of her reign has been given, have sympathized with her, but the bearing of the visit upon the real march of events has been absolutely nil. Through the writings of interested persons, a feeling is kept up here that the ex-Queen is, by her presence, accomplishing something, and, the wish being father to the thought, a certain number believe what they read, and try to make others believe, but it is an empty hope, and it would be better and wiser for these blind leaders of the blind to face events as they are and prepare to meet the inevitable, and what will prove for them the best and most satisfactory issue of events.

The time has come in the history of the United States when she must reach out in order to maintain her prestige for the future, and her statesmen understand it. They fully realize the immense power that her ever increasing millions of individuals and billions upon billions of wealth must exercise upon the future history of the world. The modest Atlantic seaboard and attention to the development of their own affairs suited the original thirteen states, but what suited them, does not suit that immense state which stretches from the Atlantic to the Pacific and from the Canadian border to the Gulf of Mexico. As well might a multi-millionaire citizen of a town or state remain in his humble little cottage and take no part in municipal or state affairs. With wealth, come the duties of wealth, and the multi-millionaire, who, in his early days simply minded his own little affairs, has to take an interest in the affairs-at-large of his fellow citizens. With Power, comes the duties of Power, and it is the duty of the United States to prepare herself for the great destiny, for the mighty figure she will have to sustain in the great life drama that will be played in the Pacific Ocean.

Among the preparations, undoubtedly, the Annexation of these Islands, small as they are, is one of the most important. The fact is now fully realized by the United States statesmen and annexation will now come as surely as the needle ever points to the Pole. There have been many doubts, but there are doubts no longer. Before another year rolls its course through the months, the Stars and Stripes will float over the Executive building and Hawaii will be an integral part of the greatest republic the world has ever seen.

REGISTER.

Nothing can be a stronger argument in favor of registering than to find that you can't, seems to be a paradox, but it is not. The fact that a man cannot register unless

his taxes are paid, is nothing new. It is the business of people to know the law. Ignorance of the law is no plea in favor of mitigation of sentence.

If people will not take interest enough to run members and vote for them, they must not complain if legislation goes against their wishes. The only way to get legislation to go your way is to look out for it at the polls first and then to influence your member afterwards. Through him your voice can practically be heard in debate.

Certain measures of the tax law were displeasing to the merchants, but they only discovered them many months after they had become law. Certain matters connected with registration are unsatisfactory to would-be voters, but they only find out about it at the last moment. What men should do is to look after their political rights, and see that their representatives guard their interests and their rights. The first thing to do is to obtain good representatives, and to do that, one must vote. Therefore, register.

GET UP FACTS.

When people write letters about the Islands they should inform themselves upon the subject in hand. The Philadelphia officer who has indulged himself in criticizing the government, should have read up the constitution before he ventured to make the remark that the Japanese "are not debarred from citizenship, the only requirement being that they read and write the English language." Now it is very evident that the gallant officer did not carry his studies into the constitution far enough, for if he had, he would have found that an alien may be admitted to citizenship only upon the condition that "he shall be a citizen or subject of a country having express treaty stipulations with the Republic of Hawaii concerning naturalization." There are other stipulations but the one quoted above quite settles the matter.

It is a great pity that people will write without adequately posting themselves. It spoils the graceful turn of their sentences and militates against the brilliance of their diction. Of what advantage are the keen political forecasts, the deep reasoning of the gallant follower of the sea, if the premiss upon which the whole fairy structure hangs, is false? It becomes nothing more solid than a dream, an airy nothing which, flung upon a cold, hard world, is shipwrecked on the pitiless rocks of fact. More close study of the subject is recommended to the gallant man of the sword.

When all signs fail try newspaper advertising. A line in The Star brings a line of customers to your store.

THE WAILUA EXTENSION.

Manager Dillingham Secures the Right of Way

General Manager Dillingham of the Oahu Railroad returned this morning from Wailua, where he succeeded in making satisfactory arrangements with the landowners for a right of way for the proposed extension of the railroad. He drove over the entire district, and found no trouble anywhere in securing the right of way on reasonable terms. Everything will be arranged during the coming week. Mr. Dillingham also made freight contracts with prospective shippers and attended to such other matters in connection with the extension of the road as demanded immediate attention.

THOROUGH-BRED STOCK.

Paul Isenberg Receives a Big Shipment by the Albert.

By the bark Albert this morning Paul Isenberg received a shipment of some of the finest Durham and Jersey cattle ever imported into the islands. There are 21 cattle in the herd, all thoroughbred animals, including eight bulls. All of the cattle have been neatly dehorned. They are a fine looking lot, and attracted a big crowd to the dock. Mr. Isenberg also received five fine road horses, two of them beautifully matched and said to be faster in double harness than anything on the islands. Four thoroughbred hogs and two coops of fine chickens were included in the shipment. Evidently Mr. Isenberg intends to do a little fancy stock raising.

Sales Talk

With Hood's Sarsaparilla, "Sales Talk," and show that this medicine has enjoyed public confidence and patronage to a greater extent than any other proprietary medicine. This is because it possesses greater medicinal merit and produces greater cures than any other. It is not what we say, but what Hood's Sarsaparilla does, that

Tells the Story.

All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy Hood's Sarsaparilla almost to the exclusion of all others.

Customers Want Hood's.

"We order Hood's Sarsaparilla in large quantities and it is the only blood purifier which a druggist can buy in large quantities without risk. It is selling very rapidly and customers who buy it once are sure to call for Hood's the next time. We believe Hood's Sarsaparilla must possess true merit in order to retain its popularity. Its sales exceed all similar preparations and its praises are often heard." L. SOMMER & SON, Springfield, Illinois. Thousands of druggists say the same.

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier. Prepared only by C. I. Hood & Co., Lowell, Mass.

Everyday Philosophy.

You must take things as you find them, as the father who wanted a son and heir said when the nurse brought him in a pair of baby girls. Touching the Crimson Rim, if you take things as you find them, you will be supremely satisfied. The things which go to make up the Crimson Rim are the things which high aspiration and perfect handicraft seal for their election. They are worked together on the symmetrical whole with the Crimson Rim motto "Crimson Rim Quality" to inspire adequacy in everything.

Of all the things, therefore, in the composition of the Crimson Rim Syracuse wheel "Crimson Rim Quality" is easily first.

When you take things as you find them, as a buyer of a Crimson Rim, you start with a splendid foundation.

That Tired Feeling AND GENERAL DEBILITY.

The cause is poor, thin blood, resulting in deficient vitality. To overcome this, the blood needs to be enriched and vitalized, and for this there is no medicine in the world equal to **Ayer's Sarsaparilla**. The cures it has worked, the men, women and children it has restored to health, are countless in number. One such experience is related by Mr. Robert Goodfellow, Mitcham, South Australia, as follows: "I have used

AYER'S Sarsaparilla

in my family for years, and would not be without it. I used to suffer with boils and skin eruptions, attended with great lassitude and general debility. In fact, I was so ill that I could not attend to my business. Being advised to try Ayer's Sarsaparilla I did so, and I am happy to say that the medicine restored me to perfect health. I have since used Ayer's Sarsaparilla for my children, in various complaints, and it has always proved effective. I can safely recommend it to sufferers as

THE FIRST TO GRADUATE

KAMEHAMEHA SCHOOL LOSES FIFTEEN GIRLS.

Exercises at Kaunakapali Church on June 29—Last of the Graduates to Take Part—Excellent Music.

The fifteen young ladies who will participate in the commencement exercises of the Kamehameha School for Girls at Kaunakapali Church on the evening of June 29, have the distinction of being the first graduates of that institution. The school has been established for years. The limit of pupils is sixty, but the number now enrolled there exceeds this limit seven students. A limited number of full scholarships by the will of Mrs. B. F. Bishop and of half scholarships by the C. R. Bishop trust deed are established for the advantage of deserving pupils, unable to pay their own tuition.

Those who will graduate, including their addresses are: Abellie Kapali, A Plea for Children. Elizabeth Keiinoi, poem, At School Close, by Whittier. Julia Lovell, Practical Nursing. Jessie Mahoahoa, Domestic Science. Elizabeth Waiauan, Wake the Divine Within. Hattie Kehalohe, poem, The Greatest Discovery, anonymous. Lydia Aholo, The Use of Music. Kalei Ewaliko, A Bit of Clay. Lewa Tokia, The Teacher and Trainer of Hawaii's Little Ones. Elizabeth Kahanu, The Servant of the Soul. Helen Kahalehau, History of the Class. Kellina Kiwaha, Class Prophecy. Miriam Hale, poem, Introduction to the Vision of Sir Launfal, Lowell. Aoe Wong Kong, My Life at Kamehameha. Julia Akana has not selected the subject of her address as yet.

The music to be rendered at the commencement exercises under the direction of Miss Cordelia Clymer will be a feature of the evening. A full chorus will sing Mendelssohn's "In Heavenly Love Abiding" and "Cradle Song." The class will sing "Sweet May," by Barnby.

The music program for class day as furnished by the girls is as follows: Chorus, My Native Home (Dannheuser)—Class. Mirth (Gounod)—Class. (a) Bless the Tree, (b) The Class Tree. Class song—Words and music by Cordelia Clymer. Class yell—K. G. S. call.

Miss Ida May Pope, the principal of the girl's school, states that it will not be known how many will comprise the class of '98 until the pupils have been examined and classified. Miss Pope has for her assistants Miss Helen Harding, teacher of moral methods and psychology; Miss Cora Belle Albright, elementary science and literature; Miss Flora Albright, mathematics, language and callisthenics; Miss Nettie Eugenia Hammond, reading, geography and drawing; Miss Cordelia Clymer, vocal and instrumental music; Miss Jennie Denzer, dressmaking and sewing.

The school term will open September 6th. A number of the girls will remain at the school during the summer. The faculty will spend their vacations on the different islands. The design of the school to make it as homelike as possible has been successfully carried out during the past year. Good discipline has been secured by appealing to the honor of the pupils. A system of demerit marks for laxity in department, disorderliness, untruthfulness and other offenses has been adopted with some degree of success.

AMANDA.

Where sun and flower are beaming
Amanda's charms appear,
Her beauty's rays are streaming
Round all this earthy sphere.
The breeze when gently blowing,
The rose that scents the grove,
The vine when brightly glowing,
All tell of her I love.

I hear her song's sweet numbers
When zephyr's breezy wings
Sweep o'er the gold harp's slumbers
And wake its tuneful strings.
All, all the charms of nature
Amanda's beauty bear
And show in every feature
Her godhead imaged there.

The spirits of the dying
Must quit this clay's control,
But they to rest are flying
In regions of the soul.
The floods, now onward striding,
Are foaming, force and free,
Yet soon their waves, subsiding,
Will slumber in the sea.

But I must vainly languish
For joys I never can know,
And wear a careless anguish
In loneliness and woe.
For goodness I shall ever
Behold thy beauty shine
Like stars above, but never
Can hope to call thee mine.
—Eric Johan Stagnelius.

HIS NOVEL METHOD.

A Sheriff Who Appointed His Deputy With a Double Barreled Shotgun.

That tale related of an Alabama girl who shot a young man a couple of times and then married him recalls the method employed by George Bardsley, one of the early day sheriffs of Ellis county, in appointing his deputies. One night he was called to Chris Riley's saloon, where "Texas Frank," a newly arrived desperado in Hays City, was "shooting out" the place—a performance which consisted in the promiscuous firing of his "gun" at the bar-keeper, bystanders, lamps, bottles and pictures. Sheriff Bardsley grabbed the first weapon handy in his own saloon, which happened to be a double barreled shotgun, and proceeded to Riley's on the run. Dashing in he ordered Frank to throw up his hands, and the response was a bullet from Frank's 44. Letting go both barrels of his shotgun, Bardsley brought the desperado to the floor, so full of shot holes that he couldn't hold either air or water.

Frank was not killed, however, and in course of time recovered, under the kind attention which he received in the county jail. Presently it was observed that the Texas man was walking around town without a guard, and a little later the people were astonished to find him serving legal papers and making arrests. Bardsley was approached by a newspaper man at this time, when the following colloquy took place:

"Is 'Texas Frank' your deputy?" queried the reporter.
"Yep!" was the sententious response of Bardsley.

"How does that come?" was the next inquiry.
"Well, you see," said Bardsley, "most sheriffs appoint their deputies, but I like to shoot mine."—Kansas City Journal.

Men, Women and Hats.

A German professor has been studying that article of masculine apparel which the irreverent call a "stovepipe" and has found in it proof of man's superiority to woman. Time was, he says, when men, like women now, ornamented their hats with ribbons and feathers more or less beautiful and wore garments of the brightest colors they could find. This was all "plumage d'amour;" it indicated no intellectual superiority and no moral worth. It merely represented the superiority of the peacock over the peahen. Now men have molted. Their headgear has become the unplumed "stovepipe," their habit the inexpressive frock coat. It is woman, the professor points out, who wears the "plumage d'amour" today, in her hat and elsewhere.

Nature, he explains, means something by every evolution or revolution she permits. What she means by this one is that fine feathers are best suited to the feather brained. The plumed hat of woman is symbolical of her fall, the plain "stovepipe" of man, of his rise in intellectuality. Man's moral worth, in short, has become such that he can lose plumage to the inferior animals. If this isn't "just like a man for all the world," nothing ever was.—New York Times.

All Wrong.

One of the boys brought home his arithmetic lesson, and his mother, after watching his struggles for a time in silence, offered to help him.

"Oh, no," said he, with a look of scorn, "you can't do it to save you." As the mother was a college graduate she naturally felt somewhat nettled at this and insisted upon her ability to solve the problem. She did so to her own satisfaction, but not to the boy's. He declared that she did not do it right, though he could not tell what was wrong.

"We'll leave it to papa," said she finally. The father, too, was a college graduate and had taken high honors in mathematics. The father said that the mother's method was the right one and, indeed, the only one. Unconvinced, the boy went off to school the next morning. At noon he came home triumphant.

"There, I told you so!" he shouted as he entered the house. "You did it wrong."
"What was the matter?" both parents asked.

"Well, you left out two 'sines' and a 'hence,'" was the convincing reply.—Brooklyn Eagle.

Baboon Guides.

It seems probable that travelers and explorers who are usually accompanied with dogs, who hunt with them and guard their camp from danger, would find a more reliable companion in a baboon.
So far as speed is concerned, the dog, of course, has the advantage, but for keenness of scent for the instinct of finding edible plants and hidden water and as a sentinel against every kind of danger, the baboon is unequalled.
Le Vaillant, an African traveler, gives an account of a tame baboon, which accompanied him on some of his journeys. "By his cries," he says, "he always warned us of the approach of an enemy before my dogs discovered it. The dogs were so accustomed to his voice that they used to go to sleep, and I was at first vexed with them for deserting their duties. When he once had given the alarm, they would all stop to watch for his signal, and on the least motion of his eyes, or the shaking of his head, I have seen them all rush forward to the quarter where his looks were directed."—Pearson's Weekly.

A LOSS TO TENNIS.

The Retirement of Carr B. Neel Costs America One of Her Best Players.

For the last few years Carr B. Neel and his brother, Samuel R. Neel, have been the hope of the west in the annual struggle for national lawn tennis honors at Newport. During that time the two brothers have represented their section of the country in the double championship matches against the best eastern experts and have succeeded in putting the west on an equal footing in play with the east. They were beaten by a small margin in the first three years, but last season by the best double play ever seen at Newport they captured the first United States tennis championship ever brought to Chicago.

In singles Carr Neel is looked upon as the mainstay of the west. For three years he has been the western and north-western champion, showing his superiority in every tournament in which he has entered, and his recently announced retirement is deeply regretted. The last two years he has reached the semifinal round in the Newport championship tournament, being beaten each time by the man who afterward won the championship. His sensational finish last summer against National Champion R. D. Wrenn, when he was several times within a point of winning the match, is still fresh in the minds of the Chicago players. This year, in case he played, the tennis judges predicted championship honors for him in singles, as well as for himself and brother in doubles.

Mr. Neel gives as the reason for his retirement from the game the summer course of study he is about to take in the school of mines at Houghton, Mich. He says he hopes to be in San Francisco during the western tournament, and thinks, if he finds it possible to do so, he will perhaps defend his title of western champion, although that will be the only playing he will do.

The retirement of Neel from all tennis playing, as announced in the dispatches from Chicago, is not a surprise to his Oakland friends who have kept up a correspondence with him since he left Oakland for Chicago. He has been talking of this step for some time.

The Neels were Oakland boys, who obtained their education in books and athletics in the High school of this city. Carr began by playing football, and his brother Sam was the original tennis player of the family. Carr was taught the game by Sam Hardy in his private tennis court, and just as he became an average player he injured his ankle very badly playing football and was compelled to stop all athletics for a considerable time. In this interval his brother Sam took rapid strides forward in tennis, and he soon became various kinds of minor champion.

In 1891 the Neel family went to Chicago to live, and both of the boys became students in the University of Chicago. Both left the coast before they had been able to capture any coast championships in the game, but when they made their advent in Chicago they went heavily into athletics. They played a little football and did some sprinting, but finally settled down to tennis, and in this they soon shone above all other players in the west.—San Francisco Chronicle.

Hulme's Show Circuit.

George B. Hulme, owner of the five champion harness horses Golden Rod, Blazeaway, Great Scott, Cracksman and Marksman, sailed recently for England. His horses went over last December. Mr. Hulme has entered them in a long list of English shows. They will be shown to American built carriages, and his trainer, Aurel Batonyi, will go over to show this lot of home bred high steppers against their English competitors. So far as entries have been made, these trotting bred carriage horses will compete at the agricultural and horse shows at Ottery, Yorkshire, Newark, Notts, Banbury, Oxfordshire, Bath and West of England at Southampton, Crystal Palace, London, where the Duke of Marlborough will be one of the judges; Richmond, the great society show of the year, where Mr. Hulme has his only four-in-hand entry; Royal Agricultural show at Manchester; at Doncaster, Huntingdon and Petersborough. The horses may also be entered at the annual Dublin Horse show.—New York Herald.

The Perfect Horse.

Dr. R. S. Hindeker recently delivered in New York an interesting lecture on the horse in the sale ring of the Horse Exchange. The subject matter dealt with the unsoundness of the animal, such as splints, curbs, spavins, ringbones, etc., and a few general points for laymen on the correct formation of a horse. In a perfectly formed horse the length of the head from the poll to the nose should represent the distance from the withers to the point of the shoulder; from the posterior point of the shoulder blade to the point of the pelvic bone, the length of the pelvic bone; from the point of the shoulder to the knee, and from the stifle joint to the hock. Classic unsoundness, such as splints and spavins and curbs, are, according to Dr. Hindeker, of comparative unimportance in the cold blooded work horse, as against similar ailments in the highly bred running and trotting horse, where every such disease acts as detriment to speed.

First Hudson Bass.

The first big striped bass caught this season in the Hudson river fell to the rod of Mr. John Dutil of the Tarrytown Rod and Gun club. It weighed 9½ pounds, which is more than double the weight of the prize bass of last season, a male fish weighing 4½ pounds. Mr. Dutil will probably win the 1897 prize offered by his club for the largest Hudson river bass. The big fish was captured on white worm bait. The fisherman cast from the wall running along the railroad tracks and was obliged to play his game for fully 20 minutes.

HIS BRINDLE ALLY.

Paw Was Doing His Best, but He Needed Assistance Badly.

"Paw," said Hiram Beeswinger, a husky young granger of 18—"paw, I'd like to borrow your razor now that I'm a man!"

"Waal, I swan! Now that you air a what?" queried the old man.

"A man, paw," Hiram repeated diffidently.

"Waal, I swan! A man? Why, gosh dummit, Hl Beeswinger, you ain't never lambasted your old father yet, have you?"

"Nope, paw, but"—

"Then you're nothin but a sucklin babe, and don't you forget it. When you're lambasted your old father, you can grow whiskers and chew tobacco and wear a billed shirt, but not till then."

"But, paw, I licked the boots offen St Parker, and him a year older."

"St Parker ain't me, Hl Beeswinger. But p'rhaps you think you kin lambaste me too?"

"I think I kin, paw."

"Waal, I swan! Shuck your coat, Hl Beeswinger. You're 6 foot tall now, but you'll think you're wearin a bib before I git through with you!"

"Mebbe so, paw; mebbe so."

"Now, boys, boys," cried Grandma Beeswinger, "you'll break your arms or legs or somethin, sure!"

"No, we won't, maw," said the old man. "Where shall I lambaste you, Hl—down in the pasture or over'n the orchard?"

"The pasture'll do, paw. The brindle calf kin act as referee."

For five minutes after the combatants reached the arena of conflict it seemed to Grandma Beeswinger's failing eyes that the air was filled with flying arms and legs. Then the brindle calf got mixed up in the scrimmage and it speedily came to an end.

In about ten minutes the pair returned. Hiram's chin was devoid of cuticle, the old man's "galluses" were a total wreck, one of his eyes was discolored and he walked with a limp.

"Waal, maw, I lambasted him," he said with a sigh. "Yes, I lambasted him all right, but gosh dummit, maw," he added, rubbing his eye as he spoke, "that boy would be growin whiskers sure's your born if me an the calf hadn't worked it on shares! Waal, I swan!"—Truth.

An Enterprising Dentist.

About the coolest thing in the way of nerve that has been seen lately was that displayed by a Jersey City tooth carpenter who got into an altercation with a man on the street and knocked out two of his best front teeth, and then, when he saw what he had done, hurried into his office and promptly made out and forwarded to his victim by the next mail the following bill for professional services:

"John Smith,
"To I Yankem, Dr.
"To extracting two teeth at 50 cents each, \$1.
"N. B.—Please remit and oblige."

We don't know whether he got the dollar or not, but he richly deserved it. Enterprising and nerve of that description certainly ought not to go unrewarded.—New York Sunday World.

A Recurrent Experience.

Willie Washington had just proposed to the young woman upon whom he had set his affections and she had declined to marry him. He sat in silence for a few minutes and then said:

"I dislike to prolong conversation on a subject which cannot be other than unpleasant to both of us, but before we drop the topic forever there's one question I'd like to have you answer."

"Certainly, Mr. Washington. What is it?"

"Did you or refuse because you don't like me or simply because it has gotten to be the fact?"—Washington Star.

His Reputation.

Grace—Mr. Wheeler is awfully cool headed. Why, do you know, the other day on the speedway he told me the most remarkable series of adventures while the tandem was going a regular 2:40 clip.

Carmelita—Oh, well, I've always heard that he could lie as fast as a horse can trot.—New York Press.

NEWS IN A NUTSHELL.

Bits of Paragraphs that Give Condensed Notes of the Day.

Sharpshooters meet tomorrow night. First and Second Battalions will drill tonight.

Kilohana Art League members will gather this evening.

Chris Willis has left the St. Louis baseball team. His place in the field has been filled by Atwell.

Dr. Sinclair's application to practice medicine has been favorably reported on by the medical examiners.

Harold Dillingham will accompany his brother, Walter Dillingham, to the United States in July.

In another column is published a correct time table of the arrival and departure of foreign steamers.

Dr. Monsarrat's report shows that 297 head of beef cattle have been slaughtered during the past week.

In the new advertisement of shoes on page 3, McInerney says: "Grace is to the body what good sense is to the mind."

The regular monthly meeting of the First Company of Sharpshooters will be held at company headquarters at 7:30 p. m.

The police drill in special tactics that had been planned for tomorrow morning on the Wakiki grounds has been declared off.

It will take a majority of the votes cast by the military officers to elect a Major Saturday night, and not 23 votes, as is generally understood.

Benson, Smith & Co. Maile Cream as an eradicator of freckles, eruptions, sunburn and tan, those facial blemishes most dreaded by the fair sex.

Hail CHEWALLA!

The greatest remedy yet discovered for GOUT or RHEUMATISM. The proprietors of this remedy are the discoverers—they worked for years to find the ingredients, which compounded would bring relief to

SUFFERERS

from Rheumatism, Gout and allied sickness. Ten Thousand alleged cures have been foisted upon a confiding public but the results have not always been satisfactory.

CHEWALLA

is the one that may depended upon.

The majority of cases when not chronic, are cured by the use of CHEWALLA in 24 to 36 hours.

CHRONIC cases require two or three bottles. Small doses only. It PURIFIES THE BLOOD regenerates the DISEASED NERVES and MAKES A NEW MAN out of a pain-racked wretched sufferer.

NO REMEDY for rheumatism, gout, etc., either in Europe or America can surpass

CHEWALLA IN EFFICACY.

No more fly blisters, morphine or injections, no more rubbing with liniments. CHEWALLA is taken internally in small doses. One dose will bring relief, four, in most cases, effects a cure.
