CASTLE AND COOKE LTD. IMPORTERS

New Enterprise!

Our Retail Department

having met with success, and wishing to accommodate our patrons in

Furnishing Their Kitchens With Complete Outfits,

we concluded to add to our already large stock of House Furnishing Goods

Ranges and Cook Stoves.

Looking carefully through the different works in the East, we find

The Michigan Stove Company

of Detroit, Michigan,

re the largest manufacturers of this class of goods in the world. They make the largest and best line that is particularly adapted to this country.

We secured the Agency for these Islands, and now have on the way a large shipment of the

Justly Celebrated Ranges and Stoves.

They will be here on the arrival of the barkentine Archer, which will probably be about the 20th of this month. Anyone contemplating buying a new range will do well to wait a few days and have the finest assortment to select from ever brought to this market, and at prices to suit the times.

Due notice will be given of their arrival.

MISSION OF THE CRUISER

DOES IT MEAN ANNEXATION, RESTORATION OR WAR?

J. O. Carter Calls on the Admiral, But Minister Shimamura Comes Not—An Annexation Story.

Speculation regarding the mission of the Philadelphia here has not ceased, because Admiral Beardslee and his officers have been, since their arrival in port, paying more attention to their social duties than to preparation for war. In fact the inaction on the part of the Admiral has given rise to all sorts of rumors, and the people are constantly on the tiptoe of expectancy. Fresh food for speculation was furnished yesterday by a visit of J. O. Carter, the ex-Queen's representative in the islands, to Admiral Beardslee. Although it proved, on investigation, to be merely a friendly call, the mere "friendliness" of it was significant, according to the gossips.

It is now quite certain that Admiral Beardslee has not come to Honolulu clothed with executive power to execute a special mission for his Government. Had he come to annex the islands or to reseat the ex-Queen on her throne, he certainly would not hoist his deck awnings, set his painters to painting the ship and, with his officers, accept the hospitality of friends ashore. The forecasters of future events reason thus, and have concluded that the Admiral has come here under orders which carry him no further, and that he must await fresh orders by the next steamer before proceeding on his mission.

When the Mariposa left the Coast it was rumored that President McKinley was about to take the initial step toward making the islands a part and parcel of the United States. The story went that he was preparing a message to Congress urging the immediate annexation of the islands, and that it would reach Congress within a few days after the sailing of the Mariposa. There was no doubt, it was said, that Congress would take the President's view of the matter, and that the annexation bill would be put through with a rush. The next step would be the appointment of a Minister to Hawaii, who would come here and consummate the deal.

Should the rumor prove correct, the mission of the Philadelphia in these waters is easily explained. The annexation of the islands could not be properly accomplished without the presence here of a large armed force, under the command of an officer of high rank. With the Philadelphia, Marion and Petrel in port, the United States Government could muster about 700 men under arms, with a large quota of officers. Such a force, commanded by Admiral Beardslee, would make an impressive showing ashore.

But there are those who do not take any stock in the annexation story. They are of the class who believe implicity that the ex-Queen will be restored through the potent influence of her "great and good friend," who has just been retired from the head of the United States Government. Just how the restoration is to be accomplished does not appear, but so small a discrepancy ought not to destroy the effect of the story. To these people the visit of J. O. Carter to the Philadelphia yesterday was full of significance. Lieut. Stoney, the Admiral's adjutant, took the romance out of it when he explained that Mr. Carter, accompanied by Mr. Irwin, had merely called to formally thank the Admiral for some fine orchids he had distributed among his friends ashore upon the arrival here of the Philadelphia.

Mr. Carter, when seen this morning, also made light of the restoration story. He said that he had made

OUT FOR THE 1897 PENNANT.

MAKEUP OF THE LEAGUE TEAMS FOR NEW SEASON.

First Game Will Be Played on Next Saturday Afternoon—Three Rattling Good Clubs—Good Ball Promised.

It is an indisputable fact that base ball, during all the seasons in the last decade, has occupied a warmer spot in the hearts of the sporting fraternity of the city, than all other modern manly sports. It is the national game of Hawaii, just the same as it is in America, and is second to none save only, perhaps, rowing.

This season's games give every promise of eclipsing anything previously known on Hawaiian soil. New adherents to the sport are legion and intense interest in base ball matters seems to have manifested itself everywhere. Since the formation of the league several weeks ago, a cry has went up from each of the three town teams for clean-cut manly base ball and judging from present appearances, The Star is convinced that this is what

HARRY WILDER,
Captain Star Club.

will be given the Honolulu public this year.

The season will be formally opened on Saturday afternoon at Makiki base ball grounds. The initial game will be played between the Stars and Regiment teams. On the following Saturday the St. Louis College team will meet the Regiment laddies and a week later the Stars. This will be the order of the games throughout the season, until eighteen matches have been played.

The league players have been faithful in their practice and generally speaking are all in fine trim. Much is being said on the practice playing of the three teams and from all that can be ascertained, it appears that the teams are very evenly matched. There can be no question but what the Stars have been crippled by the loss of three of the best players in the team. Chris Willis, who established an enviable reputation for himself on first base last season, has left the Stars and gone over to the St. Louis college team. Willie Wilder, who was injured while in bathing at San Souci recently, and Tommy Pryce, also laid up on account of an accident, will be unable to participate in any of the games this year.

Just this week even, David Dayton, a good fielder and exceedingly clever batsman, sent in his resignation to the Stars, but Captain Harry Wilder has refused to accept it.

"Dayton signed with the Stars for the '97 season," said Captain Wilder yesterday, "and we intend to hold him to it. He has been showing up at practice right along until last Saturday. I have been told that he is anxious to play with the St. Louis College boys and that they have offered him a position. I have looked up the rulings on the matter and find at a meeting of the league in May of 1889, that a rule was suggested by Harry Whitney and adopted by the league, declaring the borrowing or exchanging of players by teams in the league against the rules. This has never been changed and I shall insist that Dayton be not allowed to play with any other team."

"Would you let him play with the Stars if he choosed to withdraw his resignation?" was asked.

"No, sir; the boys do not like the way he has treated us and we intend to bar him out of all league games this season.

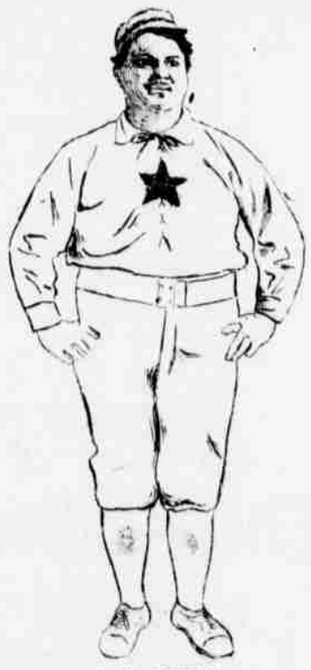
However, Dayton explains that he is tied down with work and it is impossible for him to play this year.

It will be remembered that the old Stars were defeated in 1888, and after scoring a victory in 1889 disbanded. The new Stars were organized in 1895 and have been masters of all they surveyed up to the present season. Capt. Wilder starts out with his team this season with the knowledge that the Stars are not quite as strong as last year but he is full of hope. The costumes, consisting of white jersey shirts with maroon star, blue serge trousers, maroon stockings and ma-

A. H. MOORE,
Captain Regiment Club.

roon caps with white stars, have all been brushed up for Saturday's game, when the town laddies hope to still keep their colors flying.

Lionel R. A. Hart will occupy the box. He has been pitching a good practice game and in the match with the Kamehamehas did good work. A. B. Babbitt will be the change pitcher. Popular Albert Cunha succeeds Harry Wilder as catcher this year. Cunha caught for the Regiment team last season. Sam P. Woods will hold down first base. Although it is readily conceded that he is not able to fill up the gap made by Chris Willis' withdrawal from the Stars, still Sam is a clever man. S. D. Koki, who was with the



A. R. CUNHA,
Catcher Star Club.

Kamehamehas last year, has been assigned to second base. Captain Harry A. Wilder will play third base. Harry caught for the Crescents three years and during the 95 and '96 seasons caught for the Stars. Percy Lishman, the best all-around player in the Star team, has been changed from third base to shortstop. A. B. Babbitt, Robert Pahau, formerly of the Kamehame-

J. A. THOMPSON,
Captain St. Louis Club.

has, and Donald M. Ross, comprise the field. "Duke" McNichol, the coacher, and J. O. Carter, Jr., manager of the team, are the substitutes.

The Regiment team is better organized than ever before. Captain A. H. Moore has the name of being one of the best baseballists in the Golden State, from where he hails. He has successfully captained three of four California teams, and he has the faculty of getting the best out of his men. Last season he was captain of Company F, First Regiment of California, team. He has played with the Klinkners and M. J. Flavin's, of San Francisco, and when with the Watsonville, California, nine in 1891, made a name for himself by his all around good playing.

Captain Moore has had every man belonging to either of the regular military companies and had the least bit of a hankering for base ball out practicing this spring. From the men he has picked an exceptionally strong team. Nearly all of the players are new men here and their playing will be eagerly watched by the island people.

F. M. Kiley, a new man, will be catcher, Edward Hennessey will pitch. Captain Moore says that Hennessy is a fair ball tosser, but nothing of an expert, as has been currently reported.

LIONEL HART,
Pitcher Star Club.

Hennessy had his right arm injured in a scuffle the other day, but he says he will be in shape Saturday. C. Mayne will be the change pitcher. Captain Moore will hold down first base. A. C. Davis, of Company F, is second baseman and J. B. Gorman third baseman. G. A. Bower is short stop; J. F. O'Connor, right field; Adam Duncan, center fielder, and Joseph Luahiwa, left fielder. Both Duncan and Luahiwa were in the Regiment team last year. Gorman and O'Conner are very clever men. W. J. Scanlon and Harry Vincent are the substitutes.

The Regiment's colors are red, white and blue. The suits consist of gray shirts with "1st R" across the breast, white duck trousers padded, black stockings, black belt and gray cap with two black bands.

In a game with the Petrel team yesterday afternoon, the Regiment team won by a score of 20 to 3.

Not even the opponents of the St. Louis college team will deny but what the college boys will come in for their share of the honors in this season's games. Both the Stars and Regiment laddies recognize its strength and are fearful lest the prize shall be wrested from them by this team. The college team was organized this year with J. A. Thompson as captain. The members have gone into the sport with a determination to do their best and if they should fail to get victory this season it will not be due to a lack of interest or want of practice.

New costumes have arrived from the States. They are attractive and were ordered through T. G. Thrum. A white shirt with "St. Louis" in maroon letters across the breast, navy blue trousers, maroon stockings and a navy blue cap with red bands, make up the suit. The boys will give a stereopticon show at the college on Saturday to pay for the expenses of the team.

Captain Thompson has announced the position of his men as follows:

Akina, formerly with the Wailuku team, catcher.

B. Lemon, with the Kamehamehas for some time, pitcher.

(Continued on Page Five.)

THE BRITISH RESIDENTS

PLAN TO ESTABLISH A HOSPITAL FOR INCURABLES.

Lasting Memorial to the Queen of England—A Suggestion that Finds Many Warm Advocates—Jubilee.

The British residents of Honolulu and vicinity will congregate tomorrow evening in the Arlington hotel parlors to discuss plans for the celebration of Queen Victoria's Diamond Jubilee. A suggestion will be offered, which already has many supporters, that a lasting memorial be established in Honolulu complimentary to Queen Victoria, in the form of a hospital for incurables.

Here is the plan to be proposed: The the Queen's subjects in the Hawaiian Islands be asked to contribute toward a fund with which a building can be erected for incurables. The institution to be known as Victoria Hospital for Incurables. The institution to be run by Britons and open to all.

An English resident who is prominently identified with the scheme and does not care to have his name divulged until after the meeting, stated this morning that there could be no question of the success of the enterprise if once taken up. He said that something of this sort, which would be a lasting memorial of the celebration and to Queen Victoria as well as a public benefit, was what the majority desired. "Of course, I don't intend to say that the celebration of June 21 or 22, or whenever it might be given here, should be done away with. Not by any means. But I do believe that funds could be realized out of the celebration which could be used to aid the project. The English people would be asked to contribute, if only small amounts, and by installments at that. The Government could donate the land and possibly make a small contribution.

"Only a small building need be put up at first. Say five or six rooms, requiring the expenditure of about $2,000. The building could be enlarged as the funds increase and necessity demanded. Donations from the general public would be received."

A home for incurables is something that is badly needed in Honolulu as there is no place for them at present and a little less frivolity and sociability and more charity would not be begrudged by Honolulu British residents. A free bed in the hospital has also been spoken of.

The committee calling a meeting of the Englishmen is composed of British Vice Consul T. R. Walker, Alex. Young, F. M. Swanzy, T. May, Robert Catton and James Campbell.

AGAINST PORTUGUESE RULE.

LONDON, April 7.—Dispatches from Pretoria and Delagoa Bay say that the whole of Gazaland is in open revolt, twenty-five thousand natives having rebelled against the Portuguese Government. The principal rising is only about forty miles from the Transvaal border. The Portuguese troops are mobolizing rapidly and the situation is regarded as most serious.

MARRIED.

KITCAT-DANFORD — At St. Andrew's Cathedral, Honolulu, on Monday evening, April 19, 1897, by the Rev. John Usborne, assisted by the Rev. Alexander Mackintosh, Elizabeth Mary, eldest daughter of the late William Danford, Esq., of Dublin, and Lady Herron, to the Rev. Vincent H. Kitcat, third son of James B. Kitcat, Esq., of London.

Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

THE CHILDREN.

Nauseous and bad-tasting medicine is objectionable to adults and a horror to children. No doubt its frequent lack of good effect is, at least partly due to the disgust it excites in them—the shock to the system. This is especially true of Cod Liver Oil, in the form of the ordinary old-fashioned mixtures so often forced upon the terrified and helpless children. A most marked contrast is ***Wampole's Preparation***, which, although it contains all the curative and flesh-producing properties of Cod Liver Oil, is entirely free from its taste, odor and appearance. In combination with this drug are the Hypophosphites Compound and the Extracts of Malt and Wild Cherry Bark. In building up pale, puny, emaciated children, particularly those troubled with Anæmia, Scrofula, Rickets, and Bone and Blood Diseases, nothing equals the Preparation. Its tonic qualities are of the highest order.

It creates new blood, strong muscles, sound teeth, solid bones, and enables them to grow up into healthy men and women, for cures made in the young are economical and permanent. It is a product of modern study and science. Druggists everywhere sell it.

Wicker Furniture

Is well adapted to this climate because it is cool and light, at the same time strong and serviceable. No establishment in Honolulu has such a stock of this ware as we carry, and the quality is good.

Rockers:

Straight Back and Easies.

Our prices for these goods have never been equalled and on this one point alone we defy competition.

We have our usual large assortment of high class Oak and other Hardwood Chairs—Carved and finely Polished.

ALL ALONG THE DOCKS

ARCHER AND C. D. BRYANT ARRIVE FROM SAN FRANCISCO.

The Iriquois Fast in the Mud—Petrel and Wild Swan Coaling Up—Kenilworth's Fast Time.

The Mikahala arrived from Lahaina this morning with 5151 bags of sugar.

The old bark Rosalie was run ashore on the reef this morning, and will there be broken up and sold for fire wood. She has already been stripped of everything of value.

The U. S. S. Petrel is coaling up this morning, preparatory to sailing on Thursday, probably, for Yokahama. In addition to ninety tons in her bunkers, she will take thirty tons on deck for the long voyage.

The Wild Swan will commence to coal up tomorrow for a long cruise in the South Seas, on which she will probably sail on Sunday or Monday. She has room for 100 tons. An officer stated this morning that the Wild Swan will take all mail for the Fanning and Gilbert groups put on board by Friday night.

Capt. Fitzgerald will go back in the Helene when she leaves tomorrow, Capt. Freeman returning to the Likelike and Capt. Wiesbath to the Claudine as first officer. There promises to be trouble on the Helene in consequence. The crew are rebellious against Fitzgerald and say they will not work the vessel if he is in command.

The schooner William Bowden hauled alongside the Mail dock to discharge her cargo of coal. Capt. Fjerem had an experience with a midnight prowler similiar to that of Capt. Bruhn, of the Kauai. The fellow entered the captain's room while the latter was asleep, but only made his escape after he had been given a sound thrashing.

The Iriquois, while backing out into the stream, got fast in the mud off the Irmgard wharf this morning. There is a schooner alongside to discharge sugar, but she cannot take it. It looks very much as if the Iriquois is hard and fast until high tide tomorrow morning, and there is a chance that she may not get off then until she lightens cargo.

The Archer, Capt. Calhoun, arrived this morning, eighteen days from San Francisco. She brings 845 tons of general cargo to Castle & Cooke, and a deck load of forty mules, and five horses. The Archer experienced no heavy weather on the trip, light winds prevailing. William Higby and family, E. M. Boronda and William Morton were the only passengers.

Capt. Colly, former mate of the C. D. Bryant, brought the vessel into port this morning, after a pleasant run of seventeen days from the Golden Gate. Capt. Lee resigned his command in San Francisco. The Bryant brings 1300 tons of general cargo to H. Hackfeld & Co., and is chock full. Capt. Colly is accompanied by his wife, and Bernard Gallagher and Kate Gallagher came as passengers.

The Kenilworth hauled alongside the Oceanic docks this morning and commenced to discharge ballast. It is expected that she will be ready to receive sugar by Friday and as the cargo is all in sight she ought to be away for New York in two weeks' time. The Kenilworth now holds the record time from New York, via San Francisco. She left New York 144 days ago, calling a San Francisco to discharge a full general cargo, take on 1000 tons of ballast and ship a new crew, and running down here in clipper time.

ARRIVALS

Tuesday, April 20.

Am bktne Archer, Calhoun, 18 days from San Francisco with 845 tons of general cargo to Castle & Cooke.

Am. bk C. D. Bryant, Colly, 17 days from San Francisco, with 1300 tons of general merchandise to H. Hackfeld & Co.

Stmr Mikahala, Thompson, from Kauai ports.

DEPARTURES.

Tuesday, April 20.

Stmr Iwalani, Gregory, for Lahaina, Honokaa and Kukuihaele, at 10 a. m.

Stmr James Makee, Tullet, for Kapaa at 4p m.

Stmr Mikahala, Thompson.

Stmr Helene, Fitzgerald, for Mahukona, Paauhau and Ookala, at 12 m.

A Famous Brew

The Royal, Pacific and Cosmopoli saloons have on sale the celebrated Pabst Milwaukee draught beer. It is one of the finest in the world and its excellent qualities have gained for it an enviable reputation.

HE KEPT THE RECEIPT.

And an Unjust Suspicion, Eighteen Years Old, Was Dispelled.

"That time when I was dumped and robbed in the house of my friends," said the old politician, "I was so disgusted that I pulled up stakes and decided to try a new community in the west. While I was out there prospecting for a location I came across a country judge whom I had known as a boy. He had stolen my knife, my rabbits and my pigeons. He became incorrigible and was sent to the reform school. It was the popular verdict that he would never be any good, and he was held up as a terrible example to the rest of us boys.

"I thought it my duty to give the good people out there a warning and took a prominent man of the place into my confidence. He had implicit faith in the squire and believed him as good a man as they had in the state.

"'It's easily tested,' I said, 'and you can't afford to have a dishonest man in his position. Here's a promissory note given me 20 years ago, and I indorsed it at the time. I loaned that fellow money to get out of town and turn over a new leaf. He vowed by all that's good that he'd repay me, and this is all I have to show for my investment. If he's an honest man, he'll make some settlement.'

"'We'll see,' said the squire's friend. In an hour they came back together, and the squire gave my hand a wring that started the tears. 'I paid that paper 18 years ago,' he declared. 'Here's the receipt. I wondered why you never wrote me.' There it was. With it was a letter from the man that was then my lawyer, saying that the note had been mislaid and that the receipt would serve.

"In five days the squire and I were back to the old town. The man who had been the nomination from under me was the rascally lawyer to whom the money had been paid. You should have heard the squire comb the scamp down and then make him resign in my favor. We don't need men any more honest than that same justice of the peace that I suspected."—Detroit Free Press.

Of the Same Mind.

"It's a shame!" cried the young wife. "Not a thing in the house fit to eat. I'm going right home to papa."

"If you don't mind, dear," said the husband, reaching for his hat, "I'll go with you."—Yonkers Statesman.

THE SECRETARY DENIES

WHITE MEN WILL BE EMPLOYED AT SPRECKELSVILL.

Two Men Reinstated Recently—Newspaper Comment on the Recent Episode at the Big Plantation.

When C. A. Spreckels was in Honolulu last week he did not give the fullest details regarding the discharge of the white men on the Spreckelsville plantation on Maui. He confirmed the report that a number of men who were at the head of the different departments, had been relieved, but insisted that Asiatics were not to take their places.

But, nevertheless, according to reliable information coming from Maui citizens, Japanese and Chinese have been installed in many of these positions. Information has gone abroad that this big plantation has supplanted the labor of the white man with that of the Asiatic and comments are being made by the press on the matter.

Good news came on the Rio de Janeiro. Secretary J. H. Sandford, acting under instructions of the Hawaiian Commercial and Sugar Company, has inserted notices touching on the situation in each of the San Francisco dailies, of which the following is taken from the Bulletin:

"Referring to a statement which appeared in the papers this morning, to the effect that all the white men had been discharged from our plantation at Spreckelsville, and their places filled by Chinese and Japanese, we beg to state that this statement is obviously incorrect. All discharges made were for cause. We have received instructions from Mr. C. A. Spreckels to engage white men here to work on our plantation on the island of Maui, to fill vacancies caused by the dismissals. Yours respectfully,
HAWAIIAN COMMERCIAL AND SUGAR COMPANY.
J. H. DANFORD, Secretary.

It would now appear that Mr. Spreckels has temporarily employed Asiatics until white men could be secured from the Coast. By the Claudine the news came that Messrs. Horner and Britton, employed on the plantation under the Center regime, had been given good positions on the plantation.

The San Francisco Chronicle, in commenting on affairs at Spreckelsville, says:

"The news of the wholesale discharge of white overseers, bosses and mechanics on the big Spreckels plantation on Maui and the appointment of Chinese and Japanese to fill their places shows that the movement in favor of coolie labor is spreading in Hawaii. Coming at this time, when there is so much excitement over the influx of Asiatics, these changes will be sure to create trouble in Honolulu.

BE SURE YOU ARE RIGHT.
And then go ahead. If your blood is impre, your appetite failing, your nerves weak, you may be sure that Hood's Sarsaparilla is what you need. Then take no substitute. Insist upon Hood's and only Hood's This is the medicine which has the largest sales in the world. Hood's Sarsaparilla is the One True Blood Purifier.

Sulphume!
The curative properties of su'phur have been known for ages, but owing to the crudeness of the drug, its use to a greater or less degree has been restricted. The leading chemists of the world have labored for years endeavoring to liquify sulphur in order that suffering humanity might be benefitted. By the aid of electricity this grave obstacle has been overcome.

Liquified
The old fashioned way of taking sulphur with molasses as a spring medicine has been done away with.
This wonderful discovery has furnished us with a preparation that is pleasant to take and positive in its effect.
Everyone is familiar with the name "sulphur," and generally understand that as a blood purifier and skin cure it has no equal.

Sulphur.
Sulphume is not a patent medicine, but simply sulphur rendered liquid by the aid of electricity.
Testimonials from men of such prominence as Dr. W. S. Fowler, Chicago's noted Physician; Nelson A. Miles, General of the United States Army; Rev. J. Hennis, and a score of others, certainly could not have been obtained unless the preparation was meritorious.
Sulphume will cure pimples on your face and clear your skin.

SUGAR TRUST AND ANNEXATION.

In speaking of the Hawaiian question yesterday The Star pointed out the change that had come across the San Francisco press in regard to annexation. The powerful petition which had been got up and signed by banks, mercantile houses, wholesale and retail and mercantile organizations, suddenly opened the eyes of the big dailies to the fact that their supporters had a very strong opinion upon the point and that it was time to really look into the merits of the case. There has thus been an almost entire change of front.

But it is not only in San Francisco that one notices the strong leaning towards annexation that is displayed by the press. The Washington papers are full of the question. The Washington Post is a strong political organ and the mouthpiece of the Sugar Trust. When that paper comes squarely forward and advocates annexation, it is clear that the Sugar Trust is strongly in favor of annexation, and this means a very powerful factor in the future of this question.

In its issue of April 2nd the Post alludes, editorially, to the story "now current that the Sugar Trust is opposing the annexation of Hawaii. The direct purpose of this is to make the refiners odious, as being obstacles to a consummation which a great majority of the American people ardently desire." Further on it says: "the simple truth of the matter is that the sugar refiners are strong advocates of annexation. It is true that Mr. Claus Spreckels at one time opposed it, but he was not then speaking for the so-called Sugar Trust, and really antagonized the situation because he thought it would injure him to the advantage of the Trust."

In point of fact it is to the advantage of the refiners to annex Hawaii and Cuba, or any other sugar growing country close to the shores of the United States. What they want is the cheap crude material exempt from tariff tax upon raw material. It is not from the Sugar Trust that the opposition comes, says The Post, "It is from the mugwumps and cuckoos—from people who have no warmth of feeling for the country, who do not want to see it grow in power, who object to navies, armies, self respect, influence, expansion, everything virile, positive and patriotic." This language is clear and distinct and foreshadows action in Congress.

The support of the Sugar Trust is given distinctly to annexation, not to the present condition of affairs. It wants the islands as a part of the United States and will hail with satisfaction every success the islands make when so incorporated. When the islands are annexed the cane sugar growers of Louisiana and the beet sugar growers of Kentucky, Nebraska and California will have nothing to protest against. At present they protest because they regard the Hawaiian Islands as a foreign country, which it is in name, though in reality it is an outlying position of the United States. Its religion, laws, social conditions, schools, language and business methods are all the same as those of the United States, while its political aspirations are squarely and thoroughly republican. Still it is regarded as a foreign land by those who do not see the tendency of events. But once annexed and those very interests which are at present antagonistic to the progress of Hawaii would be come most friendly and would regard its advancement as a portion of the nation's political, commercial and material greatness. It is justly said that, "It is one thing to feel agrieved at discrimination in favor of a foreign country. It is quite another thing to applaud an expansion and strengthening of the Union."

To talk of the annexation question having fallen flat is the veriest balderdash. It is a live question and one that is exercising the minds of the statesmen and thinkers of the United States and further it exercises the minds of a large majority of the people. The annexation of Hawaii is popular with the masses. Beyond the commercial side there is a political and sentimental side to the question.

The command of the islands is the key of the Pacific ocean. It will control that growing trade which will increase to enormous volume in the near future. Twenty-five years ago one steamer a month from the coast was all that these islands ever saw. Today they come into Honolulu harbor over a dozen a month, and this is but as a pebble on the sea shore to the volume of trade in the future. This most people see. The sentimental side appeals to another class. This class considers the efforts of the pioneers to plant American civilization in this distant outpost and appreciates the effort highly. To preserve this condition of affairs it is evident that nothing but annexation will avail, and annexation is thoroughly popular with them. With so many elements in its favor annexation must come.

JAPANESE FINANCE.

The new financial system in Japan is a great blow to the theories of the silverites. Japan has practically tried their theory and failed, and has had to resort to the gold standard. The chief features of the measure are as follows:

1. Gold shall be the sole standard of currency.
2. The coinage of silver shall be strictly limited for the subsidiary purpose.
3. The present silver money and bank note payable in silver shall be exchanged for gold at the ratio of 32, 34—1.
4. The present gold coin shall be doubled in the denomination of value. That is to say, the gold coin which is stamped "five yens" shall be used for ten yens.
5. The silver coin and bank note payable in silver shall be withdrawn from the circulation as soon as the opportunity offers itself, and these shall be replaced by the gold coin and gold bank note.
6. A part of the Chinese indemnity, (250,000,000 yen), which is due in the near future, shall be turned into the new gold coin.
7. The old gold coin, which amounts to about 70,000,000 yen, shall be recoined as soon as possible.

The working of this financial scheme will be watched with interest by all parties, whether wedded to silver or gold. Japan is striving to come into line with the great commercial and financial nations of the earth. To take her place among the great powers, as is her ambition, one of the most vital things to do is to adjust the finances properly. This bill is the step toward it, and, having been carefully thought out, it will, with very little doubt, reach the desired result.

Every now and again some one writes about the whaling fleet rotting by the wharves of New Bedford. The Republican Standard points out that this idea is due to the out-of-date geographies and cheap encyclopedias. New Bedford has now thirty-one whaling vessels, and the number lying disused at the wharves consists of three barks and six schooners, and these are not rotting, but will go into other lines of trade. New Bedford has ceased to be a whaling port and is now a prosperous manufacturing town, but the picture of its rotting whaling fleet and its ghostly sailors wandering round with nothing to do is so much sheer rot. Years ago how close were the relations of Honolulu to New Bedford.

The so-called log of the Mayflower is not really the log, but is the history of Plymouth Plantation, by Governor Bradford. It was carried away from the Old South Church in Boston by Governor Hutchinson. In 1848 it was discovered in the Fulham Library, in the diocese of London. The Massachusetts Historical Society obtained a transcript and published it in 1856. Now the original goes back to the United States. The greatest care should be taken of this historical document, for the iconoclast is always to the fore and ready to snip a signature off at any moment. Even in Hawaii the iconoclast turns up, a number of valuable and interesting signatures have disappeared from the pamphlets kept by our Historical Society.

The unauthorized publication of portraits in newspapers now entails a penalty of $1000 in New York. Moreover a verbal permission is not sufficient, it must be given in writing. The law will undoubtedly be adopted by other States. The comic papers get a great chance out of it. One subeditor is represented as explaining to the editor that Mrs. Montressor has brought suit for unauthorized publication of her portrait but is willing to compromise if they will run it twice a week for the next six months. There is a great deal of truth in the joke.

NEW ADMIRAL.

Commodore George Dewey will probably be an Admiral within a day or two, says a late dispatch. The nomination by the President of Capt. A. S. Crowninshield to be chief of the Bureau of Navigation presages, according to advices from Washington, the promotion of Commodores Sicard and Dewey and their assignment to the command of the Atlantic and Pacific stations respectively. Admiral Dewey, as he will soon be called, will, in that event, succeed Admiral Beardslee.

Timely Topics.

100 Pieces Bleached Cotton at 20 yards for $1.
87 Pieces Bleached Cotton at 15 yards for $1.
50 Pieces 42-inch Pillow Casing at 8 yards for $1.
25 Pieces 81-inch Bleached Sheeting at 16c per yard.
53 Pieces 81-inch Bleached Sheeting at 20c per yard.
38 Pieces 90-inch Bleached Sheeting at 22½c per yard.
250 (only) Bedspreads, ready for immediate use, at $1.
15 Pieces Brown Linen Damask at 3 yards for $1.
75 dozen Bleached Damask Napkins ranging from $1.25 to $6.00 per dozen.
225 dozen White Honeycomb Towels at 35c, 55c, and 75c per dozen.
45 Pieces Canton Flannel at 15 yards for $1.

Gent's Straw Hats at 25c and 35c each. These must go.
45 Men's Ready Made Suits at $4.25 per suit.
60 pairs Ready Made Pants at $1 per pair.
27 dozen Cloth Caps at 45c each.
75 dozen Men's Neckties at 2 for 25c, or $1.25 per dozen.

Don't fail to grasp this opportunity. Chances like these dont come every day.

Come early and make sure.

QUEEN ST., **L. B. KERR'S,** HONOLULU, H. I.

Indian Curry

is to the people of the East, What Catsup or Worsestershire Sauce is to those of the West.

Anyone who has traveled in Japan, China or the East Indies knows that there is no more palatable dish prepared than curry and rice, or the many other ways in which it is brought into use by residents of those countries.

The demand is so great that inferior preparations are placed on the market and sold to the uninitiated as the real article.

"While the palate is still hot with a curry, an unflavored dish seems insipid."

No one has ever disputed the fact that the people of the East know how to, and do, live on the best the land affords.

In the lower Fort street window of our store is a display of the

Genuine Indian Curry Powder

that is prepared by us strictly according to the original receipt, and when the Pacific Club, Hotel and commissary department use it and no other, we have no hesitancy in selling it and recommending it to the public as the STRICTLY PURE Curry Powder. A trial is all that is required.

MISSION OF THE CRUISER

(Continued from Page One.)

social visits to each of the men of war now in port and that was all. "Yesterday Mr. Irwin and myself were on board the Philadelphia," said Mr. Carter. "We called upon Admiral Beardslee and afterward on Capt. Cotton. Later we went to the ward room mess and left our cards."

There is a leaning on all sides toward the theory that Uncle Sam has sent the big cruiser here at the request of Acting Minister Mills to protect citizens of the United States and their property in case of trouble with the Japanese Government over the refusal of this Government to permit Japanese immigrants to land here. Minister Shimamura practically admitted in a recent interview that he had sent a request to his Government for a warship to protect the rights of her citizens on the islands. It was immediately after the arrival of the news in the United States that the Philadelphia was ordered to prepare for sea. At that time it was expected that a powerful Japanese man-of-war would arrive here first, hence the dispatch of the Philadelphia.

Some local coloring is added to this story by the fact that Minister Shimamura has not yet paid his respects to Admiral Beardslee. This morning British Commissioner Hawes, Portuguese Charge d'Affiaires Canavarro, M. Vizzoni, of the French legation, Danish Consul H. R. Macfarlane and German Consul Hackfeld all called upon the Admiral and paid their respects. Minister Shimamura was expected, but did not go aboard. Naturally the feeling is that the relations between Japan and the United States are somewhat strained.

Meanwhile Admiral Beardslee maintains a discreet silence whenever the subject of his mission is broached, laughs at theories and takes as prominent a part in social pleasures as his duties and dignity will permit.

ON TRIAL AGAIN.

John Radin, the hackman, who was fined $250 in the Police Court recently, for having opium in his possession found at his home, was tried again this morning in the same court for having opium in his possession when arrested on the Allen street wharf. A. G. M. Robertson defended Radin. No decision was reached by Judge De la Vergne.

Fractured.

[illegible]—Frank has fractured [illegible]

[illegible]—How is that?

[illegible]—He fell and broke his right arm.—Adams Freeman.

Often and Often.

"Ah, my poor man," said the benevolent old lady, "I suppose you are often pinched by want and hunger, are you not?"

During my absence from the Republic of Hawaii Mr. Fred W. Macfarlane will act for me under full Power of Attorney.

W. F. ALLEN.

Honolulu, April 7th, 1897.

A PRETTY WEDDING.

Rev. V. H. Kitcat and Miss Danford Married Last Evening.

St. Andrew's Cathedral was the scene of a very brilliant wedding last evening, when the Rev. Vincent H. Kitcat and Miss Lily M. Danford, daughter of Lady Heron, were made man and wife, the ceremony being performed by the Revs. John Usborne and Alex Mackintosh. The decorations were extremely beautiful, the work of the pupils of St. Andrew's Priory. At the head of the nave was an arch floral heart hanging from the center. Under this the couple were married. The chancel and the altar decorations had been arranged with much skill and the general effect was delightful. The Cathedral was crowded in every part and many people were unable to gain admittance.

Shortly after 8 o'clock the bride, attired in a handsome costume of white satin, and leaning on the arm of Sir Robert Herron walked slowly up the center aisle, the surpliced choir singing a wedding hymn. Arriving at the chancel they were met by the bridegroom and his best man, Mr. Clive Davies and Mr. Edw. Stiles, groomsman. The Misses Alice and Anna Danford were the bridesmaids. Soft music was played on the organ during the entire ceremony by Wray Taylor, who had the music in charge. The service was choral and very impressive. As the newly married couple left the Cathedral they were preceded by six little girls dressed in white, who scattered flowers in their pathway down the main aisle, the organist playing Wagner's Bridal March.

Many handsome and costly presents were received by the happy couple, who will spend their honeymoon at the Herbert residence, Kalihi. Next week they will take up their residence at the Bishop's college, Nuuanu valley.

A few of the immediate friends of Sir Robert and Lady Herron congregated at the Herron residence on King street after the ceremony at the church and drank to the health of the bride and groom.

A HAND BALL MATCH.

Hand ball is all the rage in the Y. M. C. A. gymnasium now. Dr. Burgess, Mr. Scanlon, Secretary Coleman and Sam Johnson are probably the strongest players in the court. A match has been arranged between the two first-named gentlemen to take place on the same night that the anniversary celebration of the association is held.

THE MAIL RECORD.

Louis Kenake says that the mail brought to Honolulu by the steamers Saturday consisted of 4,900 letters and 6183 papers. In the mail sent out by the Rio Janeiro to the Orient and the Warrimoo to the Colonies, were about 5000 letters and 300 papers.

The Australia on her last trip brought 11,192 letters and 18,900 papers.

THE CHARGE REDUCED.

Thomas B. Walker appeared before Judge De la Vergne in the Police Court this morning on the charge of assault upon John Eemmeluth with intent to kill. At the instance of his attorney, Charles Creighton, and with the consent of Marshal Brown, the charge was lessened to assault with a weapon obviously and imminently dangerous to life. Walker will be tried on the charge later in the week.

CYCLISTS DRINK IT

—in preference to all other beers—because Rainier is pure—because it's nourishing and strengthening—because "immoderate indulgence" does not give them a "head" the next morning. On tap or in bottles at the Criterion.

VALUES NOT TO BE BEATEN.

There are no better values to be found on the islands that at L. B. Kerr's. For bedspreads and curtains we lead the way. Likewise for hosiery, gloves and ribbons. These are positive facts. What are you going to do about it?

REMOVAL NOTICE.

On and after April 1st, Drs. Cooper & Raymond will occupy the offices of Dr. McGrew on Hotel street. Office hours from 8:30 to 10 a. m., 1:30 to 3 and 7 to 8 p. m. Telephone No. 154.

An effective advertisement is a fair estate.

ST. LOUIS COLLEGE HALL.

Stereopticon Exhibition

Saturday Eve, April 24

To be Given for the Benefit of St. Louis College Base Ball Club.

A Rare Selection of Local and Foreign Views will be presented.

ADMISSION, 25 and 50 Cents.
Commence at 7.30 o'clock.

OUT FOR THE '97 PENNANT

(Continued from Page One.)

Chris Willis, with the Stars, last year, first base.

Captain J. A. Thompson, second base.

Pat Gleason, third base.

William Cummings, short stop.

J. Hansmann, left fielder.

W. Simmerson, center fielder.

Walter Wood, brother of the famous island pitcher, George Woods, right fielder.

The substitutes are: W. Allen, T. Wilson, L. Gay, G. Milton, B. Joy and G. Clark.

Gleason, Cummings, Hansmann and Simmerson played in the Regiment team last year.

Captain Thompson was captain of the Hawaiis for two years, Captain of the Unknown during one season and played with the Honolulu team one season.

BUSINESS IS GOOD.

The merchants and business men are wearing 7 by 9 smiles these days. Inquiry has developed the fact that there has been a slight increase in business generally during the past week.

The presence of four men-of-war in port bids fair to maintain a good business for the stores. The Philadelphia, with her six hundred men and officers on board, it is calculated will distribute $10,000 among the business men every month. The Marion, with 200 officers and men, will expend $2000 to $3000 out of her monthly pay roll, while the Petrel and British gunboat, Wild Swan, will leave their share.

JOCKEY CLUB ELECTION.

Judge H. A. Wideman was unanimously chosen president of the Hawaiian Jockey Club at the annual meeting last evening. W. M. Giffard was chosen vice president; Samuel G. Wilder, secretary and J. G. Spencer, treasurer. The executive committee is composed of W. C. Wilder, Jr., J. S. Walker and Seely I. Shaw.

We want your tea trade for the rest of your life.

Don you see now how we can afford to say: "Get every sort of *Schilling's Best* of your grocer, and get your money back on what you don't like"?

That

Tired Feeling is exceedingly common and dangerously significant. It is a warning which must be heeded, or, as with the express which fails to regard the danger signal, disaster must follow. It is a sure indication of thin, weak, impure blood. It is certain admonition that the blood is not properly feeding the nerves, tissues and organs of the body. Weak, nervous,

Tired

men and women are found everywhere. Men strive too hard to "keep their business up," women work too much "on their nerves," all have too little sleep, there is excessive drain on strength and nervous energy, and all complain of that tired

Feeling.

By purifying and vitalizing the blood, Hood's Sarsaparilla furnishes abundant supply of nourishment for every nerve, organ and tissue of the body. This fresh supply of nerve strength overcomes nervousness; the new vigor in the blood soon banishes that tired feeling; the tone given the stomach creates an appetite, cures indigestion and dyspepsia. Take

Hood's Sarsaparilla

The building papers are 1, 2, 3, and 4 ply They come in rolls, each roll containing 1000 square feet. They are water proof, acid and alkali proof and vermin proof. A house lined with building paper is far cooler than one that is not. There is also a cheaper grade of paper adapted for use under matting keeping out insects.

HONOLULU, July 29th, 1895.
MESSRS. W. G. IRWIN & CO., LTD.
GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted; I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied
J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. & B. Paint and Portland Cement

JASPER BENT ON MARRIAGE

THE YOUNG MAN OUTWITS HIS PARENT.

The Bride's Father is Said to Be a Resident of Hawaii—The Bridegroom Yet in His Teens.

Jasper M. von Bulow, son of Dr. F. von Bulow, of 822 Valencia street, is likely to feel the weight of parental anger, and serious consequences may result on account of his taking out a marriage license in Oakland yesterday to wed Miss Mary G. Mohrsman, a lady some years his senior, says a late Chronicle.

Young von Bulow, according to his father's statement, was born November 29, 1878, and is, consequently, only a few months past 19 years. The same authority gives the young lady's age as approaching 30 years. Upon the charge of perjury in swearing to the license, that he was past 21 years, will the old man direct his energies to have punishment meted out to his son.

"I drove my son from home about a year ago," said Dr. von Bulow last night. "He was crazy about that woman, and spent all my money for buggy rides and other things. He would not stop and I told him to go. She was living with a family named Miller on Guerrero street, near Twenty-first, and my boy used to go there to see her. Her father has lived in Hawaii for years. She is 28 or 29 and I have been trying to prevent the marriage. I told the County Clerk in this city and Marin county not to issue a license, but they fooled me, and I will make them suffer for it."

Jasper von Bulow went to Oakland yesterday, accompanied by a young woman whom he represented as his sister and after getting the license said he would come the next day and have the ceremony performed. He asked the address of a minister at whose church a marriage would not attract much attention. He was directed to the residence of Rev. A. Kummer, near Temescal.

A Vast Whispering Gallery.

In the Black Hills there is a natural telephone line operated without wires, poles or receivers. On each side of a valley 12 miles wide stand two tall peaks, several thousand feet high, and so rocky that they have been scaled only a few times.

Some time ago a party of tourists decided to make the ascent, and they divided into two parties, one for each peak, taking heliographs with them for the purpose of signaling to each other across the valley. The ascent was made, and one of the party on the north mountain was surprised to hear voices, which apparently came out of the air. He moved his position, and the sound was no longer heard. By changing his position several times he discovered that the voices were those of his friends on the other mountain. When the attention of the opposite party had been attracted, it was found that an ordinary conversation in an ordinary tone of voice was plainly heard from one mountain top to the other, over a distance of more than 12 miles. Think of that!

Scientists say that the cause is to be found in the form of the mountains, which serve as elliptical reflectors of sound, a vast whispering gallery made by nature. —Chicago Record.

Advertising.

Until business is successful without a proper store, proper employees, and the right amount of capital, it must be assumed that these three conditions are essential to the conduct of profitable trade, and it is as obvious that so long as advertising accompanies the business of profit that advertising is necessary for the upbuilding of business.

The mere appearance of advertising indicates that business is being done, or will be done, and so long as everybody prefers to buy of men of success rather than of men of failure just so long will the man who advertises be likely to do the largest business.—Hardware.

Cups and saucers are now all molded by mechanical appliances. The glaze is laid on, the finer qualities are hand painted and the cheaper are stamped with stencils ere the baking is done.

Until comparatively recent times the only harrow was a large pile of brush or tree branches, dragged across the field by a team of oxen.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years and find it to be the best medicine I ever used for cramps in the stomach and bowels." For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for H I.

The Perfect Article

Of the perfect article in draught beer don't hesitate to drink the famous Pabst Milwaukee Beer on tap at the Royal, Pacific and Cosmopolitan saloons. Scientifically accurate and as near perfection as possible. Supreme award at World's Fair.

The Secretary Disc Plow

is giving satisfaction on a number of plantations. A manager who has been using it for years, says:

"I am busy plowing a field with it now and it is doing fine work, and I hope for good results from the thorough plowing it is receiving."

THE PACIFIC HARDWARE COMPANY, LIMITED,

are agents for this Plow, and also for the

Vacuum Oils,

which are the standard of merit the world over.

Other Oils do not give the satisfaction that is obtained by using Vacuum Oils.

Do not misunderstand us. We are not trying to cry down other peoples' goods, but we are telling you a cold, naked fact. "We know of NO goods ANY BETTER than the Vacuum Oil Company's, and there are but very few brands which are as good," is written us by a gentleman of the largest experience in lubrication.

We have just received a choice assortment of

WHIPS

and expect at an early day a fresh line of

PICTURE MOULDINGS AND ARTISTS' REQUISITES.

If your Purse Leaked

You'd stop that leak instantly. How about your house? Is there any leakage there? A house is really a purse with lots of money in it. This wet weather is hard on your roof and unless properly looked after every cent's worth will leak out. Better see me now.

STERLING, THE PAINTER

Office: Union Square, oppo. Bell Tower

Any Additions Needed to Your House?

Is your house getting too small for your family? This spring is a good time to add two or three rooms. The improvement won't be costly if you figure with us. Perhaps you'll require new

Mattings,
Wall Papers,
Window Shades,

or find it advisable to touch up the house inside or outside with a coat of paint.

Think this question over, and if our suggestions are opportune, consult with us. We'll surprise you by making a new house at a small cost to you.

We keep in touch with your needs.

There will be Music In this Square

On Mondays, Wednesdays and Fridays of each week. To be sure, it will be "CHIN MUSIC," but then that is the most popular kind these days and is what you go to tea fights and musicales to listen to. Our range will be from A to Z, and we will compose a piece in honor of every different line of merchandise we carry in our large and varied stook.

Regular days for C. M. will be Mondays, Wednesdays, and Fridays. Concerts will be repeated by "special request" on Tuesdays, Thursday and Saturdays.

Rent a RAMBLER from us and attend the Concert.

E. O. HALL & SON,
Cor. Fort and King Sts.

RESTAURANT CHEATS

KNOWLEDGE OF HUMAN NATURE THE BEST PROTECTION.

The Cashier of a New York Restaurant Discusses Several Kinds of Deadbeats and the Methods by Which They Are Sometimes Detected In Time.

"Don't you often get cheated?" the customer asked the cashier of a down town restaurant who had just completed the work of bouncing a man who had failed to pay his check.

"No, not often," said the cashier. "That fellow I just put out is the first man who has got the best of me in a whole month. I ought to have had him arrested, but it wouldn't have done any good. It would only have been a lot of bother to me, and the house couldn't have got its money. The waiter hadn't any business to wait on him anyway. If I had seen him come in, I wouldn't have let him sit down at all."

"I should think that cheating would be a pretty easy business," remarked the customer.

"Think so?" replied the cashier. "Well, just come in and try it some day. I'll tell you," he went on, "if a man does get the best of us, it is for a very small amount. Now, suppose you come in here and sit at one of these tables around here. The waiter asks you what you want. If you should order more than 50 cents' worth of food, the waiter would go to the head waiter. Then he would get the stuff ordered, while the head waiter would walk down and size you up. Of course you wouldn't know he was doing it, but he would do it just the same, and if he didn't like your looks you would be watched from that moment. When you got up, there would be a man handy, and if you tried to bolt out through the door you would be collared so quick that your hair would be on end. If you had the money about you, you'd give up. If you didn't, you'd go to jail. If you sat up in those reserved seats, you might get 75 cents' worth of food inside of you. The waiters at those tables are allowed to serve that much without notifying the head waiter. The same process would be followed if you ordered more than the limit at that end."

"Suppose a man came in and ate a meal and then discovered that he had left his money in his other trousers, would that excuse go?"

"That would all depend," said the cashier. "That's a more or less common excuse, I must say. I can size a man up who is lying about a thing like that. When a man is honest about it, he is in a mighty embarrassing position, and he shows it. The honest man generally wants to leave a watch or a knife or a ring or something else as security. Now, we never ask a man to do anything like that here. We simply ask him to leave his name and call and pay the next time he is around. It isn't once a month that we make a mistake. In sizing a man up the size of his check plays an important part. You see, a man who eats and then finds he has left his money at home eats the same kind of meal he is accustomed to pay for. Well, if a fellow puts down a check for 50 or 75 cents and he looks like a 25 cent eater, the chances are that he is lying and that he came in and ate not intending to pay. If I make up my mind he did that, he goes to jail, because that is the kind of fellow we're looking for. But if he looks like a fairly good liver his excuse with that size check would go quicker than it would with a small check, because fellows who eat 50 or 75 cents' worth at a meal don't eat 25 cent meals.

"You have to take all these things into consideration when a man comes up with a check and no money. The hardest man we ever have to deal with is the man who comes in and sits down at a table and after he gets through walks up to the desk and says: 'I've eaten 25 cents' worth of food because I was hungry, and I can't pay for it. What are you going to do about it?' Now, the chances are that that man is telling the absolute truth. He was hungry and desperate, and he came in deliberately intending to steal his meal. You don't want to lock such a man up. He's in hard luck, that's all. You say to him: 'Why didn't you tell me this before you sat down? It wasn't necessary for you to steal. I would have given it to you,' which is the truth. The boss never wants a deserving man turned away hungry, and if a man comes in and tells me he is hungry and I believe him I'll give him a good, substantial meal, probably more than he would order if he started in to cheat me out of it. But of course we don't get any credit for doing a thing like that, and nine times out of ten the man who comes up the way this man does I'm talking about he will laugh at you and say: 'That's all very well to say now that I've got the meal in me. But if I'd asked you for it you'd have turned me down just as I've been turned down a dozen times tonight.' There's only one thing to do with a man like that. That's to get the biggest man in the place and have him do stunts with him—turn him on his head, bang him about a little and then turn him out with a warning. It's a great deal better than arresting him.

"The ordinary cheat—that is, the man who comes in during the busy part of the day and sits down at one table and eats a big meal and gets a check for it and then on the way out drops down at another table and eats 10 cents' worth and gets another check, which he pays later, destroying the big check—there is nothing to do with except to prosecute. Whenever we get that kind of a cheat, we put him in jail, and then we will spend the price of 1,000 checks prosecuting him. He is a plain thief and probably would be a burglar or some other high grade criminal if he had the necessary nerve. There's just one thing that everybody should remember—that it pays to be honest in a cheap restaurant. If you are not honest, you are liable to get your head broken and get locked up in the bargain. If you are honest, you'll get along all right, money or no money, only don't ever get the idea in your head that a cheap restaurant is a charitable institution for honest men, for it isn't."—New York Sun.

Mascagni.

Apropos of Mascagni's facility in composing it is related that the composer was recently in Berlin directing the performance of one of his works. The orchestra was hurrying the time, notwithstanding his best efforts to keep it within bounds. Finally, after a long struggle, he lost his temper. "Body of Bacchus!" he cried, dropping his baton. "Do you think I expect you all to keep playing as fast as I compose?"

The Next Thing.

Mrs. Baldwon—That husband of mine is the most careless man. I expect he'll lose his head some of these days.

Mrs. Bunn—I see he's lost the next thing to it—his hair—Yonkers Statesman.

THE BICYCLE GUARANTEE.

How It Is Abused and Why It May Soon Be Dropped.

The surprising feature of the limiting of the bicycle guarantee by the national cycle board of trade to six months is the almost universal satisfaction this action has given to retail dealers in general, and should the guarantee be removed entirely in another season it is altogether probable that such a move would meet with the same approval by all reputable dealers and agents as has been granted the cutting in half of the former one year guarantee. Taking into consideration the enormous expense to which makers have been subjected in replacing so called "defective" parts, broken or damaged in the great majority of instances through the ignorance or wanton carelessness of the rider and the many well known abuses of the guarantee system, the makers themselves will no doubt be ready and willing to remove this relic of early days and sell their goods upon the reputations which they have established for honest dealing and conscientious endeavors to give value received for their goods. It is therefore no venturesome prediction to state that the limitation of a guarantee to six months in 1897 is but a preliminary step toward the abolishment of the guarantee system next year.

The guarantee is, after all, a misnomer, for it is only valuable to the extent of the liberality and ability of the maker to carry out. To the prospective buyer all guarantees are alike, but he finds, to his sorrow, when too late, that the guarantee is but a poor remedy for the evils of a poor mount, and when he makes his second investment he cares little for the guarantee, but much for the reputation of the wheel and the maker. It is a noticeable fact that in the great majority of sales of wheels, the quality of which has become recognized as high grade in fact as well as in name, the guarantee is never asked for. With the guarantee removed entirely no maker who is earnestly striving for a reputation and is zealous of the name of his goods would hesitate for a moment to freely replace defective materials or make good defective work, even though such defect be undiscovered for two years.

The maker is not the only sufferer from the guarantee system, as the retail dealer will testify. He is kept in hot water through the entire busy season adjusting differences between the rider and the factory and is put to unreasonable expense in the way of express charges to and from the factory upon parts which he knows are not defective, but upon which the insistent customer wishes to obtain free repairs if he can impose upon the liberality of the dealer to that extent.—Bearings.

How Women Mount Their Wheels.

In the variety of styles of mounting the bicycle the girls are fast equaling the men. There was a time when only one style was in general use, but as the riders became more expert and gain more confidence they are branching out in the style of mounting. The old style of mounting by standing out in the street, with the pedal raised, is not so easy to do in going up a hill. Now the curbstone mount is becoming popular. This is an easy way of mounting the wheel and a way that any one can learn. It saves the strain to a large extent on the frame of the wheel. A woman's wheel, by the way, is not as strong as the diamond frame of a man's bicycle. Perhaps the most graceful mount of any, and likewise the most difficult, is the female pedal mount. The right foot is placed on the right pedal, which is raised to nearly its highest point. A slight shove is given the wheel, and before the right pedal reaches its lowest point in its revolution the left foot has slipped through the frame and caught the left pedal just as it is coming up. It's pretty, but hard.—New York Telegram.

Bicycles In the French Army.

In France experiments with the bicycle as an aid to the army have been carried on with more enthusiasm than has been displayed in any other country. It has been demonstrated by the Frenchmen that on bicycles a force of soldiers can travel with far greater speed and effective fighting capacity than ever before. In a recent exhibition a soldier rode up at a speed of 12 miles an hour, took part in a sham battle, next folded his machine, fastened it to his shoulders, scaled a wall 8 feet high, fired again from the other side of the wall, unfolded and rode off on his wheel. The mounting of an entire army has not, of course, been advocated, but it is said that a certain company from each regiment could be trained to maneuver on the bike with advantage. It must also be remembered that in France the roads are much better than they are in this country, where a bicycle corps might not be so effective.—New York Sun.

A Wheel That Jumps.

A jumping bicycle is said to have been invented by a resident of Buenos Ayres. The jumping action is obtained by means of a powerful coil spring so arranged that it may be wound up by the pedaling action of the rider. At the moment the leap is to be taken a knob is touched, and two strong, light steel rods are released on either side of the front wheel, which, striking the ground just below the pedals, causes the machine to rise in the air and clear the fence or other obstruction. The arrangement is not, however, thought to be of much utility.—New York Journal.

A Doctor's Good Record.

An English doctor reports that he rode 6,324 miles last year, of which distance 4,524 miles was made on professional visits. There are not many medical men in this vicinity who have done so much, but a good many use their wheels very much oftener than their horses, and they say they get around faster. The expense is, of course, less, and to those that like the exercise the comfort is greater.—New York Post.

ITCHING SKIN DISEASES

Instantly Relieved by CUTICURA

A warm bath with **CUTICURA SOAP**, and a single application of **CUTICURA**, the great skin cure, followed by mild doses of **CUTICURA RESOLVENT** (the new blood purifier), will afford instant relief, permit rest and sleep, and point to a speedy, economical, and permanent cure of the most distressing of itching, burning, bleeding, scaly, and crusted skin and scalp diseases, after physicians, hospitals, and all other methods fail.

Sold throughout the world. British depot: F. NEWBERY & SONS, 1, King Edward-st., London, E. C. POTTER DRUG AND CHEMICAL CORPORATION, Sole Proprietors, Boston, U. S. A.

Women and Women Only Are most competent to fully appreciate the purity, sweetness, and delicacy of CUTICURA SOAP, and to discover new uses for it daily. In the preparation of curative washes, solutions, etc., for annoying irritations, chafings, and excoriations of the skin and mucous membrane, or too free or offensive perspiration, it has proved most grateful and comforting. Like all others of the CUTICURA REMEDIES, the CUTICURA SOAP appeals to the refined and cultivated everywhere, and is beyond all comparison the most effective skin purifying and beautifying soap in the world.

Williams' Art Studio.

Fort Street, Honolulu.

Honolulu has more flying roaches to the square foot than any place of the size. They eat clothing papers and the binding of books.

ROUGH=ON=BUGS

is the best thing thus far introduced that is really rough on bugs.

It will kill them the moment a drop falls and will destroy larvæ and **insects of all kinds.** A few drops in the hiding places of borers makes it so uncomfortable for them that they never return. The use of

ROUGH=ON=BUGS

in the kitchen around the crevices and water pipes **puts the kibosh** on the bug nuisance and keeps them away.

It is being successfully used in half the homes in Honolulu—the other half will use it when they realize the benefits.

By the bottle 25 cents.
A gallon at $1.50

Each bottle has a sprinkler attached.

HOBRON DRUG CO.

King & Fort.

Sterling Bicycle
"BUILT LIKE A WATCH"

Ladies, Attention.

Before you decide on a wheel, examine the "Ladies Sterling."

It is by far the most graceful and the easiest running machine on the market. In fact, it is so easy to propel, that you need never get off to rest when on a long ride.

Examination invited at
Household Supply Department of
CASTLE & COOKE, Ltd.

MRS. THOMAS WRIGHT,
Proprietress.

Delicate Dishes.

If you get your money's worth you get your money back. We do not sell goods that are not worth the money. We buy right. That's the first thing. You buy right when you buy from us.

Lots of good things to eat on the Routenbeck, and they came to us. From us they go to you at the lowest prices you ever heard of. Copeland's English Peas are a delicacy not often found in this market. We have a stock of them, and they have proven to be the finest ever sold in Honolulu.

English packers also put up another delicacy for the table: Cod's Roe. These fried in cracker or bread crumbs cannot be detected from the fresh article and they make a delicious entree. The price of the goods is nothing compared with the quality.
