WHAT SAILOR MEN TALK OF

KLONDIKE STEAMER NOW DUE FROM SYDNEY.
Cylinder of Kinau's Engine Broken—Some Heavily Laden Vessels in Port—News and Gossip of the Front.

The Kauai arrived this morning from Kauai, with 7,296 bags of sugar for the schooner Inca.
The Robert Searls has been chartered to load Makaweli sugar for New York, via San Francisco.
The schooner Inca was backed out into the stream this morning to make room for the Robert Searls, and is now anchored in the row.
The Claudine sailed at 2 o'clock this afternoon for Hilo and way ports, with her cabins full of passengers, and a big cargo of freight.
The Albert anchored in the stream this morning. She will probably complete her cargo tomorrow, and get away for the Coast about Thursday.
The schooner Olga has hauled into the Mail wharf where she commenced discharging this morning. She took the Planter's berth, the Planter having moved up town.
The steamer Iwa is again ready for sea, after a few days on the railway. She had to have a new piece put in her propeller shaft. Captain Townsend says she is a "ten knoter" now.
The Arago's cargo will be out this afternoon, and she will then be hauled over to the new wharf at the upper end of the harbor, where she will be until the necessary repairs are made.
When the last mail steamer sailed from Australia the vessels in port at Newcasttle, loading coal for this port, were the American schooner Defiance, 525 tons, and Argentine barkentine Himalaya, 1,908 tons.
The Mauna Ala hauled into Wilder's wharf this morning, to take a lot of sugar left there by the Kinau. She will probably get away for the Coast tomorrow. Captain Smith is still suffering considerably from rheumatism, but is able to get around the decks.
The damage to the Kinau's machinery is more serious than was at first anticipated. It has been found that one of her cylinders is cracked, and she will probably be laid up a month or six weeks before it can be overhauled. In the meantime the Claudine will have her route, the Maui and the Helene doing the other work.
The schooner Robert Searls, which arrived yesterday from Newcastle, is docked at the coal wharf this morning, and commenced discharging. She has a big load of coal, part of which is piled on her deck. The Albert Meyer, which arrived yesterday from the Sound, is another heavily loaded vessel. The lumber is piled twenty feet high on her decks. Yet the captain says she could take more, if there was room left for sails.
The 4,000 ton English steamship Ottawa, bound from Sydney to Victoria with 300 Klondikers, is expected here daily. She was to have left Sydney about ten days after the S. S. Mauna, which sailed on the 14th. As she is to come direct, it is likely that she will make a twelve day passage. None of the local steamship agents have been advised of her coming, so that it is likely that she will be consigned to the British Consul at this port.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give me any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved, and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by all druggists and dealers, Benson, Smith & Co., wholesale agents for the Hawaiian Islands.

THIRTY THOUSAND JAPS

ARE CONTRACTED TO LABOR IN PERU.

Over Two Thousand Came to Hawaii Last Year—The Great Majority were Contract Laborers.

During last year 3,526 Japanese men and 513 women laborers left their native land for abroad. Of this number 2,258 came to Hawaii.

Of the laborers that came to Hawaii 1,593 men and 333 women were contract laborers, and 197 men and 35 women were free, according to a report sent out from Japan.

Nearly 1,000 Japanese laborers went to Australia. The remainder emigrated to China, Korea, the United States, England, Russia, France, Germany, Holland and Siam.

A Japanese immigration company has just contracted to send 30,000 Japanese laborers to South America this year. This same company refused to send any Japanese to Brazil on account of conditions existing there.

Further, compared to Italy, the shipping of emigrants from Japan is seriously handicapped, for while a sum of 40 yen is sufficient for an Italian emigrant, a Japanese emigrant requires at least 100 yen.

The 30,000 Japanese laborers will work for fifty-three agricultural associations in Peru. The emigrants are to be between 20 and 45 years of age, are to undertake farm work of ten hours a day, except Sundays and national holidays, and are to receive 25 yen per month. The contract period will be four years. The emigrants are of course at liberty to take their families with them.

A law was in force forbidding the marriage of Peruvian subjects with foreigners, but this law is said to have been repealed, especially in view of encouraging the arrival of Japanese, and their marriage with Peruvian women. For indeed the partiality of the Peruvian people for the Japanese seems to be almost without parallel.

The President of Peru has requested a batch of Japanese carpenters and other mechanics to build for the President a model Japanese house. The Union Club, a club organized by fashionable gentlemen, wanted to engage twenty Japanese boys to wait upon them at the club, at a salary of \$12, with food and clothing.

The director of the Telephone Bureau and his wife, who have not been blessed with children, have decided to adopt a Japanese child, a girl by preference, if there be one among the families of the laborers.

A MULE'S TAIL UTILIZED.

A traveler going through a sparsely settled section of Canada came to a lonely cabin and finding the door open, went in, says the Ontario Banner. Nobody was in sight, but in the center of the room he saw a cradle with a baby lying in it fast asleep. The cradle was rocked back and fourth with great regularity, and he was puzzled to know what kept it in motion. On examination he found a stout cord attached to a nail driven into the side of the cradle and passed through an auger hole in the side of the house. He took up a trail, which led him to a ravine, where a mule was standing, switching his tail. The mystery was explained. The other end of the cord was attached to the mule's tail, and the constant switching kept the cradle in motion. It was an ingenious device on the part of the mother to keep her baby asleep while she went off for a time.

GOOD WOOD POLISH.

In these days of uncarpeted floors and Persian rugs a good wood polish is always welcome. A polish that hails from Japan is said to be very fine for furniture, as well as floors. It consists of one pint each of linseed oil and cold, strong tea, the whites of two eggs and two ounces of spirits of salts. These several ingredients to be mixed thoroughly together and at once poured into a bottle, which is to be well shaken before the polish is used. A few drops are poured upon a rubbing pad of soft silk and the wood rubbed with it, being afterward polished with an old silk handkerchief. The process is tedious and fatiguing for the cleaner, but its effect surpasses that of any easier and quick method.

MEASURING MEMORY.

Attempts have been recently made in France by Prof. Alfred Binet to "measure memory." One of the experiments consists in reading a series of figures to the subject, at a regular speed of about two per second, and observing how many he can repeat without error in the order in which they were given. The faculty of voluntary attention is, of course, called into play in this experiment. Children 6 to 8 years old retain on the average five figures; children 10 years old six figures, and adults seven figures. Jacques Inaudi, the lightning calculator, can retain more than forty figures.

HOPE ABANDONED.

Whoa, There!

Pull up your noble animal at the time-honored headquarters for horse and carriage outfitting, corner of King and Fort streets. Then step in and see the first installment of absolutely the most select and largest stock of Harness Hardware and Trimmings, and Riding and Driving accessories ever brought to Honolulu.

Perhaps you noticed that the steamship Australia was a little lower down in the water than usual. Well, among other things, she brought to

The Manufacturing Harness Co.

Goods in the lines here mentioned, to wit:

Ladies' Driving Whips, a large assortment; Select Assortment of Trimmings for fine made harness. Leather, direct from the tannery, such as has never before been imported to Honolulu.

Horse Boots of all descriptions, Hoods, Sheets, Salt Sacks, Blanket Pins, Hobbles, in fact everything pertaining to race track outfits—for the glorious 17th of March, do you mind? Cable Trace Chains, Hames and Collars, etc., for our plantation friends.

And now the steamer Zealandia has arrived with more of these beautiful goods. Such glittering gear, but solid value. Bits in great variety, Trimmings that outshine Klondike gold, Rein Buttons, etc. Everything good to choose from. Come in and see. It takes too much time to describe the display. When the Zealandia returns she will bring more still of this splendid stock.

THE AMENDMENT.

Representative Loebenstein brought in his amendment to the Constitution yesterday afternoon and made a set oration in its behalf. The article in question reads:

ARTICLE 101.

Oath of Office, Electors, Legislators and Jurors.

No person shall be eligible to be an Officer, Senator or Representative under the Republic, or an Elector of Senators or Representatives, or a Juror, until he shall have taken and subscribed the following oath or affirmation, viz: I do solemnly swear (or affirm) in the presence of Almighty God, that I will support the Constitution, Laws and Government of the Republic of Hawaii; and will not, either directly or indirectly, encourage or assist in the restoration or establishment of a Monarchical form of Government in the Hawaiian Islands.

What Representative Loebenstein wishes to do is to strike out the lines immediately following the words "Laws and Government of the Republic of Hawaii," that is:

And will not, either directly or indirectly, encourage or assist in the restoration or establishment of a Monarchical form of Government in the Hawaiian Islands.

Representative Loebenstein backed up the proposal with much rhetoric, and told the House he was not talking to it, but to the American people, though why some member did not call him down and say that if he was not talking to the House he should not occupy the floor, but had better hire a hall in San Francisco and do his talking there, does not appear clear. Probably the members wanted to show courtesy to the member from Hilo.

The subject undoubtedly merits careful attention. The Constitution was passed at a time when it was necessary to protect the infant Republic. In periods of danger strong measures have to be taken. The wheat has to be winnowed from the chaff, and there was no way of winnowing the true supporters of the Republic from those who were not in favor of it, but this. The danger to the young Republic lay in a return to monarchy. Is that danger over? Until we have annexation it will be a never ending menace, and until that event comes about, or that cause has been completely lost, the article which is meant for the protection of the Republic, must remain intact in the organic law of this country.

If we look back into history we will see that people often protected themselves in this way, and years and even centuries may pass before the protective laws were abrogated. During the time of the Georges an oath against the pretender was exacted. It was even a crime to drink his health, and many were the methods by which the Jacobites both in song and toast tried to evade the penalties which would be inflicted. There was also at one time said to be danger to the body politic in England from the Roman Catholic party. Whether that danger was real, or whether it was grossly exaggerated does not have anything to do with the argument. The majority in Parliament thought it real and passed the test act, which excluded Roman Catholics from active political life for considerably over one hundred years.

If we look at the French Revolution there were acts enough to protect the people from the Aristocrats, many of them frightfully harsh. And if we pause for a moment to think of events in our own day, we find that the Orleans Princes, who were willing to serve the Republic in its armies and were known to be gallant soldiers, were refused that privilege, and banished from France for the supposed protection of the Republic. The Declaration of Independence clearly put the position of those who were against monarchy, and the oath of naturalization in the United States is also clear enough upon the point.

What we have to consider is the present condition of affairs and not any ideal condition of affairs; it is the practical and not the theoretical that we must deal with.

There may have been no reason after the '45 to enforce the laws against the Jacobites, but they were enforced, nevertheless. For years there was no reason to enforce the test act, but it was enforced. The Parliament of the country was a long time convinced that there was no necessity for it before it was repealed.

With us here the measure has been one of safety. The time for keeping

this section in force has not gone by. If we are annexed it will of course disappear, but it is ill swapping horses as we are crossing a stream. If we begin tinkering with the Constitution it is the beginning of endless trouble. Upon what the Constitution is, as it stands, have the offers of annexation to the United States gone forward. Under that Constitution a treaty has been signed between our Government and that of the United States and ratified by our Senate. By that Constitution as it stands today, all Annexationists must stand. Our word is pledged. If any one has the true spirit of Republicanism he can say, "I will not, either directly or indirectly, encourage or assist in the restoration or establishment of a monarchical form of government in the Hawaiian Islands." If this oath offends him he is a Royalist at heart, and wishes to leave himself a loophole out of which he can crawl. It is sufficient to know that this amendment is endorsed by Senator Pettigrew and Ex-Senator Dubois to see what is inspiring the proposer, who may or may not be a catspaw.

The Star and the party it represents stand by the integrity of Article 101 in the Constitution. They await the decision of the Legislature of the United States, and even if it prove that the Legislative will not act this time, they will, like Texas, continue to knock until the door is opened, and Hawaii enters upon that freer, higher destiny which she will enjoy when, instead of a petty state, considered a football among the nations of the Pacific, the Stars and Stripes float over her sea girt shores and coral strands proclaiming peace and safety to every one who seeks its protecting shadow.

The morning journal's petty flings at a body of men who are really in earnest, who have the good of the whole community at heart, who wish to raise this State to a greater position, and who have spent and are spending money in support of their cause, are very lame and very puerile. Instead of posing as a general critic and belittling everything that all men do, belittling the Islands, belittling the Hawaiian race, belittling the settlers here, belittling the Legislature, and in fact occupying that Mugwump attitude of nothing good under the sun, it would be much better to outline a policy of what should be done and stick to it. But of course it is hardly to be expected that one whose policy when Attorney General was to dance attendance upon King Kalakaua on his trip around the world, and amuse his royal master by playing the jester for the party, is likely to outline a policy in any crisis.

As steel spurs help the linemen to clumb quickly, so surely does The Star help its advertisers to rise in the public favor.

THE HEALTHY WOMAN.

Aside from form or features, she has an attractiveness all her own. The bloom on her cheek, the elasticity in her step, the ring of her voice, her enjoyment of life—all these are magnets which draw others to her side. Wonderful and valuable as it is, health is not so difficult a thing to obtain as some discouraged ones think. Most of the troubles of women arise from impure blood, impaired nutrition, low vitality, and general debility. Modern science furnishes the most successful of remedies for this condition—namely

WAMPOLE'S PREPARATION.

It contains the flesh-building and nourishing properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, without its nauseous taste and smell, the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry Bark. Taken before meals it improves the appetite, makes fat, restores vitality, enriches the blood and cures these weaknesses peculiar to the sex, which are the seat of their troubles. It is a blessing to Tired Wives, Nursing Mothers and Girls growing into womanhood. It colors the pale faces and rounds out the hollow chests. In a word it nourishes and develops the entire body, and brings happy surprises to feeble, hopeless and discouraged sufferers. It is the typical medicinal success of our age. Palatable as honey. You cannot be disappointed in it. At chemists.

Timely Topics.

March 2, 1898.

The use of Sewing Machines has become universal. Almost every family has one, and cannot see how they could possibly get along without it. It has been said that the introduction of the Sewing Machine has multiplied the sewing of the family very much, as where one tuck or none used to satisfy, the proper thing now approaches nearly one hundred.

Be that as it may, we want to sell you a machine if you have none, or if your old machine is worn out, or runs hard, or is doing inferior work.

We imported a number of
WERTHEIM MACHINES.

They are a high priced Sewing Machine, triplex, with Triplet Stitch, Plain Stitch, Lock Stitch and Chain Stitch, and usually sell for \$50. We have reduced the price to \$35, and at this price they ought to go quickly. They are a genuine bargain at \$35. Call and see them and you will agree with us.

We also have a stock of the
VICTOR HAND MACHINE.

which we claim is the very best hand Sewing Machine on the market.

Refrigerators.

\$7.50 to \$75.

Something that is absolutely necessary in this climate if economy with the table is in question.

Why do we

sell so many GURNEY CLEANABLE REFRIGERATORS? We have just received another carload of them, which makes 300 within a year.

Where do they all go?

Because

you can now have ten pounds of ice a day for \$3 a month, which used to cost you \$4.50

And because

you can now buy a GURNEY CLEANABLE REFRIGERATOR for a fourth less than you could buy one of an inferior make a little while ago.

Also,

you can rent of us one of these for a moderate monthly payment, and if you keep it up for six months the Refrigerator is yours.

In substance,

we have done the lion's share to put a necessity, and a first class one at that, within the reach of all, and we are doing our whole trading on the same business principles.

DEAR SIR: The Secretary Disc Plow I purchased from you is giving us satisfaction. We are using it to plow under a crop of lupins. They are three feet high and very thick. Your plow turns them completely under, at the same time plowing the land fourteen inches deep.

I feel satisfied that with this plow the draft for the same quantity and depth of work is as six to eight. That is, with the old plow, to do the same work, it takes eight good mules; with your plow it takes only six, and they are less tired at night.

Please send me another plow by the first schooner leaving for this.

You are at liberty to use this in any way you may see fit.

Yours truly,

SOME EFFECTS OF COLOR.

The thermometer seems to fall six degrees when you walk into a blue room. Yellow is an advancing color; therefore a room fitted up in yellow will appear smaller than it is. On the other hand blue of a certain shade introduced generously into a room will give an idea of space. Red makes no difference in regard to size. Green makes very little.

the House. He said he was speaking to the American people. If so, let him go over to San Francisco, hire a hall and speak to them at shorter range.

Mr. Atkinson hoped the amendment would be postponed.

Rep. Loebenstein replied at some length.

Rep. Paris said he would support the amendment because he believed it would strengthen the Government.

Rep. Gear said the American papers would say of this amendment that "a move to restore the Monarchy is on in Hawaii."

Rep. Achi said the Republic was so firmly established that there was no longer need of it.

Rep. Atkinson wished to reply to a remark of Rep. Loebenstein in effect that "you have alienated the native support," meaning, the speaker thought, the party which elected the House. He denied that the party had antagonized the native. It had been done by others long ago. If Mr. Loebenstein meant to say that the party had done it; he was simply misstating the facts.

Reps. McCandless, Pogue, Robertson, Richards and Kaeo all spoke against the amendment, and Repls. Kaai and Wilder in favor of it.

The motion to indefinitely postpone was carried by the following vote:

Ayes—Richards, Gear, Pogue, Robertson, Kaeo, McCandless, Atkinson, Wilder, Isenberg, Kaulukau—10.

Noes—Loebenstein, Paris, Achi, Kaai, Kahaulelio—5.

A WOMAN PAEK PEDDLER.

"I saw the first woman paek peddler I ever ran across, while on a tobacco buying trip on Green river last week," said Fred Thompson, to a Louisville Post reporter. "I was going over from Woodbury to Morgantown, and while at a village store talking to three grovers I knew, saw walking up the road a swarthy complexioned woman, swaying under a load on her back that would have made me cry 'enough' before I had toted it very far. The female peddler, for such she proved to be, said she came from New York to Tennessee last year, and had started near Milan tramping back in this direction. She looked to be 35, had strength like a wood chopper and seemed to be well pleased with her novel profession. She said she was making money and expected to return to the east this year to marry the man she loved, who was taking her earnings to put with his own and pay for a little cottage."

CONSOLATION ON THE SCAFFOLD.

Upon one occasion Charles Dickens was upholding the theory that whatever trials and difficulties might stand in a man's path there was always something to be thankful for.

"Let me, in proof, relate a tale," remarked the great story writer. "Two men were to be hanged at Newgate for murder. The morning and hour approached, the prisoners were pruned and the ropes adjusted about the poor men's necks. Thousands of morbid curiosity spectators stood in front watching, when at that instant, an infuriated cow, passing in the street, broke its rope and charged the mob. The animal scattered the people everywhere with its horns. Whereupon one of the condemned men turned to his equally unfortunate companion and observed quietly: 'I say, Jack, it's a good thing we ain't in that crowd.'"

CAUSE OF GRAY HAIR.

Gray hair is caused solely by the loss of pigment which gives it color. Grayness may occur at any period of life, irrespective of age; it is also hereditary.

INSIDE INFORMATION.

The London papers of January 5th have the following: L. B. Kerr, a Honolulu merchant, happened to be in London with plenty of ready cash, and bought up all the saleable goods at the underwriters sale of dry goods yesterday. He purchased everything that was free from damage at the sale. Evidently he had inside information, and made good use of it.

Stomach Was Too Weak to Retain Food

A Complete Cure Effected by Hood's Sarsaparilla

Now Enjoying the Best of Health, With Digestion Perfect.

"My mother was subject to sick headaches and indigestion for over a year. She was unable to stand for any length of time, and was obliged to stay in a dark room as she could not bear the light. She had no appetite whatever and her stomach was so weak she could not retain what food she did eat. She also had severe pains in her head. She suffered so much that she became but the shadow of herself. One day I happened to read a testimonial about Hood's Sarsaparilla. It

Sounded So Truthful

I persuaded her to try this medicine. Before finishing the first bottle there was an improvement in her condition. She no longer threw up her food and her headache was not so severe. She took in all four bottles of Hood's Sarsaparilla and several boxes of Hood's Pills and regained her weight. She is now enjoying the best of health. Her digestion is good and she can eat almost anything she wishes. She is 42 years old and says she feels as well as when she was 16. Hood's Sarsaparilla made a complete cure in her case."

BRAVE MILITARY SHOW

THE NATIONAL GUARD OUT IN REVIEW.

Inspected by Members of the Legislature—Large Attendance of Citizen Spectators—Marksmanship Trophy.

In spite of the bad weather the Regimental parade and review of the National Guard of Hawaii at Makiki Park last night was a spirited and interesting display of the military forces of the Republic. The organization turned out almost to a man. Nearly every member of the Legislature, for whose special benefit the review has been ordered, was present to see it and with the inspecting party on the field.

The program attracted a very general attendance of citizens, and the grand stand was crowded, while parties in carriages and on horseback filled the carriage field. Much enthusiasm was manifested by the spectators during the evolutions, many of the movements, particularly those in regimental front, evoking vigorous applause. The Government Band came in for its share of the hand clapping, and shouts of approval, and if it had been simply a spectacle and not a review, Captain Berger would have been justified in responding to the evident desire for an encore of some of the maneuvers of his organization. The rain did not in the least effect the dash and spirit of the music he rendered, even if it did flatten the pitch and tone of the drums a little.

The Legislature has before it for consideration the appropriation for the military for the present biennial period. Some other legislation relating to the military organization is also desired. And the parade and review last night was designed to give the members a comprehensive idea of the effective force and pressing needs of the National Guard. An appropriation of \$110,000 is asked for the support of the military pay roll for the two years. Money to purchase much needed new uniforms, accoutrements and other necessaries will also be asked for.

Minister Cooper, within whose department military affairs come, was at the head of the reviewing party, which was composed, besides himself, of the members of the Committee on Military Affairs of the Senate and House. Several other members of the Government and the Legislature were among the spectators.

Colonel Fisher, Colonel Soper, Lieutenant Colonel McLeod, Major Jones and Major McCarthy have been appointed a committee from the military forces to present the changes in the statutes in relation to the military which are wanted. It is desired that a complete revision of these statutes may be made at this session if possible, and this committee will confer with the Military Committees of the two houses on this subject.

FOREIGN OFFICE TROPHY.

The Department of Foreign Affairs has offered a trophy to be known as "The Department Trophy for 1898." Marksmanship to be competed for by the several companies of the Guard. It is to become the property of the company that wins three matches. Terms will consist of twenty men. Shooting must be done in service uniform with belt, ten rounds per man, 200 yards, off hand. Colonel Fisher in announcing this trophy urged enthusiastic competition.

POETRY READERS.

A publishing house in New York has undertaken to collect statistics bearing upon the unpopular appreciation of poetry, and in the January number of Current Literature, the results are summarized as follows—"Yes" meaning that in the opinion of the person consulted, interest in poetry is declining. "No" meaning that it is not:

Poets and authors—Number of letters, 48; number of replies, 27; yes, 9; no, 24.

Editors and publishers—Number of letters, 100; number of replies, 88; yes, 11; no, 77.

Booksellers—Number of letters, 100; number of replies, 83; yes, 9; no, 74.

Librarians—Number of letters, 100; number of replies, 92; yes, 11; no, 81.

Out of the eighty-three book sellers only nine admit that there is such a decline.

BURNED TWELVE CENTURIES.

The sacred fires of India have not all been extinguished. The most ancient which still exists was consecrated twelve centuries ago in commemoration of the voyage made by the Parsees when they emigrated from Persia to India. The fire is fed five times every twenty-four hours with sandalwood and other fragrant materials, combined with very dry fuel. This fire, in the village of Oodwada, near Bulsar, is visited by Parsees in large numbers during the months allotted to the presiding genius of fire.

CHAMBERLAIN'S COUGH REMEDY.

This remedy is intended especially for coughs, colds, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good work; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by Benson, Smith & Co., wholesale agents for Hawaiian Islands. All druggists and dealers.

AWARDED FIRST PRIZE

Merit Wins.

One of the most attractive displays at the Mechanics' Fair this year was the one made by HILBERT BROS., Pacific Coast Agents for the Saint Louis A. B. C. Bohemian Beer. This beer was awarded FIRST PRIZE, notwithstanding it having had to compete with some of the best known brands whose names are household words. Pale and Sparkling with an excellent Hop Aroma, and renowned for its purity it makes an Ideal Family Beer. The beer is brewed from the finest growths of Bohemian Hops and the Choicest Selections of Barley by the American Brewing Company, St. Louis, Mo., whose brewing plant is conceded to be the model brewing plant of the world. The Saint Louis A. B. C. Bohemian Beer is bottled exclusively at the Brewery from stock not less than eight months old. (The above clipping is from the San Francisco Chronicle of late date.)

Has been the cry with a good many people for the past few years. It reminds us that we have sold seventeen wheels during the past week since the Zealandia came, while a year or two ago one a week was good business.

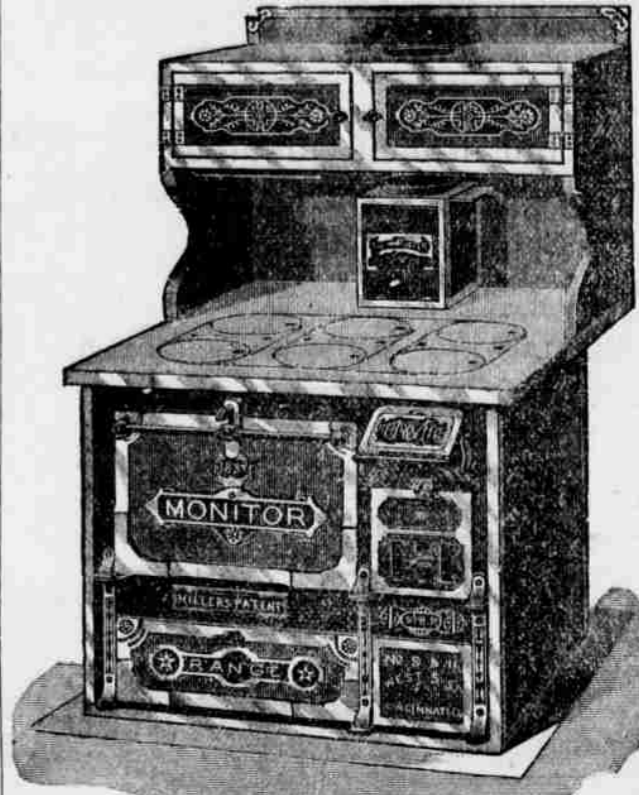

We received thirty-five Bicycles by the Zealandia last week, and thought we were stocked up, and so we are today except for Ramblers. The sales of this popular Wheel have been so great this year that we cannot keep a stock, as the San Francisco house cannot keep enough to give us all we want.

All our '98 Ladies' Ramblers were sold during the past week, and a good part of the Gents. We ordered thirty-four Bicycles to come back by the Zealandia—all Ramblers, and as there were four short shipped last trip, we will have thirty-eight Ramblers in three weeks. Remember, the Rambler is the Wheel that is the result of nineteen years' experience in bicycle building, and has the great G. and J. Tire on, the most practical and easily repaired tire made.

Other makers buy G. and J. Tires, and put them on their wheels, but they can't furnish Ramblers.

Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.
Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

THE EX-QUEEN'S STORY

REVIEWED BY A PROMINENT BOSTON JOURNAL.

Book Will Win Sympathy from Uninformed Public—Her Publishers Feared Libel Suits—About Kalakaua

The following review of Liliuokalani's book is taken from the Boston Watchman. It is interesting reading:

The author may be congratulated on her ability to write good English, her gift of alluding to debating questions without committing herself, and her power of not saying too much about well known events. Her record of her early days is very interesting. Her recital of the motives underlying her more mature acts is the exhibition of a character remarkable for probity, discretion and self control; and her life, as set forth by herself, is evidence that the work of the American missionaries, whose memory is now unsavory to her, was not in vain. The effect of her story, on those who read "between the lines," will be in accordance with the amount of information on both sides which the readers possess. The book will win sympathy from the uninformed public, and is timely in connection with the Congressional debates on the annexation of the Islands. Her standpoint is very unique and the reliability of her statements is largely affected by the personal equation. As early as page 30, the ex-Queen tells of the "right of life and death," always a prerogative of Hawaiian sovereigns. This has its value in connection with the word "beheaded," which Minister Willis declared was used in the famous interview which he had with Liliuokalani; but it is most unfortunate that the lady's early allusion was apologetic of King Liholilo's killing his own secretary in a fit of passion. On page 96, may be noted the ex-Queen's pain in signing a death warrant as an official act. On page 274, she writes that she signed her abdication to save six others from execution, and when she was nervously prostrated. More than two weeks afterward, at the trial (page 280), she testified to the statement and affirmed that it was made "by the advice of friends" and "to complete the work of saving (those) lives." At this later date it is presumed that her physical condition had much improved. In Chapter 39, with the heading, "Crimes I am Charged With," her reasons for signing the lottery and opium bills will hardly commend themselves to the average conscience of American citizens as consistent with the lofty motives professed by the signer in other transactions. She claims a right to give a Constitution of her own to her people, on the ground that it was "a prerogative of Hawaiian sovereigns" (a most useful phrase in an emergency), and elides the arbitrary substitution by Prince Lot of his own Constitution of 1864 for that of 1852; the former being "an ably drawn" document, under which his reign was "prosperous for twenty-three years." It will doubtless be news to Mr. Dole that the "conspirators" (page 181) had taken measures to have Kalakaua assassinated if he refused to sign the Constitution of 1887. It will also "astonish the natives" to be told that the good natured King fell a martyr to the interests of the "missionaries" who had done him so much wrong (page 206). It is a matter of regret that the ex-Queen could not clear her skirts of all complicity with the insurrection of 1895, and that in referring to the shooting at that time of Mr. Charles L. Carter, the son of one of her oldest friends, she contented herself with the remark that his death and the wounding of a policeman "were, I believe, all the serious casualties of the day." The second paragraph of Chapter 29, on the "mercantile element," seems ill advised, in that it includes in its sweeping denunciation all persons who have acquired considerable property on the Islands by legitimate enterprise. It is also unfortunate that the ex-Queen, not content with saying that the honored missionaries, Dr. G. P. Judd, Mr. W. Richards and Mr. B. Armstrong (father of General Armstrong), "resigned their meagre salaries from the A. B. C. F. M., and found positions in the Councils and Cabinets of the Kamehamehas more lucrative and presumably more satisfactory to them," should have charged these men as office seekers and office holders, with a treasury "deficiency, so inexplicable, that the Cabinet was required to resign immediately;" that is, the defaulters were detected and dishonored. Friends can refute this charge, on page 323, at their own convenience. It is not surprising that, with such men as the "missionaries" to loot the treasury and to debase the national morals, the ex-Queen should have chosen commissioners from her own people, who spent her money in the United States without having anything to show for the expenditure. And the average reader will note with surprise that, although the "mercantile element" controlled by "missionaries" was mercenary and grasping, "Kalakaua's reign was, in a material sense, the golden age of Hawaiian history." But space forbids the selection of other examples of unintentional contradictions, by which the cause of the ex-Queen is not promoted. It is regrettable that her admirable self-control weakens towards the close of the volume, and that she has cleared her mind concerning her opponents, in a less pleasing way that the earlier pages promised. It would have been wiser for her to have refrained from telling the public that her publisher "hastily" refused to print some of her reflections for fear of libel suits. As to the legal value of the whole apology pro sua vita, a shrewd lawyer would pick the argument to pieces in short order, and if an American jury, instead of the high court of the Hawaiian Republic, had finally disposed of the case, it may be feared that this much persecuted woman, with unimpeachable record, would have still more leisure forced upon her in which to rewrite her "Life," with the addition of mature reflections on the instability of fortune, and the ingratitude of Republics.

Saturday evening, January 29, a party of eight left the city for a trip around the Islands on bicycles. The list was made up of some of the leading wheels represented here, among them a '97 Overland Special, which is handled here by the HONOLULU BICYCLE COMPANY. The Overland was the Only Wheel in the Lot which made the round trip without trouble of any kind. OVERLANDS are the kind of wheels that take you away from home and Bring You Back Again.
By the last Australia we received a few samples of the '98 OVERLANDS. They are as much superior to the '97 product as daylight is superior to darkness, and are without exception the most beautiful models, and the highest grade wheels ever shown here for anything near the price which we shall sell them—\$65. We defy all competition, even at a much higher figure.
