HAVE CAPTURED THE DOPE

THIRTEEN HUNDRED TINS OF OPIUM FOUND.

Part was Cached in the Sands of Kahoolawe Beach and Part was Sunk With an Anchor.

The authorities have captured a part of the opium cargo brought to this country by the schooner Labrador, which is now on the beach at Makena, Maui. There are 1,300 tins in the lot. The story of the capture is told in a letter from Chester Doyle to Marshal Brown, received by the Noeau yesterday afternoon.

The Japanese cook of the Labrador disclosed the place where the opium had been cached. It was buried in the sand on th Island of Kahoolawe. Yesterday morning the tug, with Sheriff Baldwin, Port Surveyor Stratemeyer, Interpreter Doyle and the Japanese, went over from Lahaina to the Island. The Japanese cook led the way to a smooth place in the sand near the beach where he said the Labrador's treasure was buried. This proved to be the case.

The dope was packed in kerosene cans, fifty tins to the container. There were ten cans, making 500 tins. The stuff was taken out and transferred to the tug.

Just before the Noeau sailed the additional 800 tins were found. They had been sunk with the missing anchor of the Labrador.

It is expected that the schooner will be gotten off the beach at Makena today. It is stated with respect to her that she is high and dry on the beach, having been forced even farther up after she was abandoned, by the action of the waves. An unconfirmed report at the Marshal's office has it that her masts were pulled out in the effort of the smugglers to get her off.

Chester Doyle, the Japanese interpreter, succeeded in getting the whole story of the expedition from the Japanese cook, and is was through him that the stuff was found.

Collector General McStocker is naturally elated over this success, which duplicates his success in capturing the Henrietta, December 22, 1895.

The trial of the men captured in connection with the expedition will come off Monday, in Judge Stanley's court.

A PRISONER REBELS.

Iwata, a Japanese prisoner, in for a long term of years, for murder, assaulted Luna Anderson this morning, and is now on the rations of the incorrigibles. The gang was working on the road to the powder magazine. Iwata refused to obey orders and he struck the luna viciously upon the arm. He was immediately tied and returned to the prison.

COAL COMING.

The British bark Cerito, coal loaden, was sighted at 2 o'clock this afternoon.

THE SENATE.

Seven members showed up in the Senate this morning. After the usual preliminaries adjournment was taken to Monday morning.

SOLDIERS.

"True Patriotism," "Muster Day" and "The Present War" will be the subjects of Colonel Evans' talks before the Salvation Army on Saturday, Sunday and Monday evenings.

Sergeant Charles C. Dudley, Company G, Seventh Regiment, California Volunteers, who will be in the next Manila expedition, is a cousin of Lieutenant Needham, Company D.

Mr. P. Ketcham of Pike City, Cali., says: "During my brother's late sickness from sciatic rheumatism, Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by Benson, Smith & Co., wholesale agents for the Hawaiian Islands. All druggists and dealers.

HIGH HOPES FOR HAWAII

BACKBONE OF ANTI-ANNEXATION BROKEN.

Great and Favorable Change in Sentiment—Reed has Agreed to Allow a Vote in the House.

The following telegram from Victoria dated June 2, was received by a prominent business house in Honolulu, by the Aorangi:

Day before yesterday the prospects of annexation at this session seemed discouraging. A great and favorable change has occurred in the past forty-eight hours. Opponents are losing hope. Reed, although still opposed, has agreed to allow a vote in the House.

The present indications are strong that the backbone of the opposition is broken and that a speedy vote will soon be taken in both houses,

SUGAR GOING UP.

THE ALERT'S TROUBLES.

Had a Hard Time to Coal at Acapulco.

SAN FRANCISCO, May 27.—Officers of the United Ctates steamer Alert say that vigorous measures had to be taken by the cruiser to secure coal on her recent trip from South America. At Acapulco, a Mexican town, of which half of the inhabitants are Spanish, the captain applied to a steamship company for coal. He was told that he could have coal, at the rate of $20 per ton in gold, provided he took it himself, as the company could not deliver. The captain accordingly took possession of a lighter and sent the ship's marine guard to protect the coal passers. When they arrived at the wharf it was crowded with natives, who attempted to prevent the coal leaving the dock. The marines cleared the wharf and then stretched a rope across. They loaded their rifles and informed the natives that the first one to cross the rope would be shot. After that 150 tons of coal were loaded on the ship without further molestation. Previous efforts had been made through the Consul to secure coal, but without success.

WE HELPED DEWEY.

The schooner Honolulu, which sold coal to Commodore Dewey at Manila, just after the battle, is a Hawaiian vessel, and was registered by John Ena. Her principal owners reside at New Brunswick. She left Newcastle on February 11th and arrived at Manila on April 21st. The Troop and Austria, from which Dewey also obtained a vast supply of coal, are British vessels.

AORANGI PASSENGERS.

Among the passengers on the Aorangi are Mr. and Mrs. Curtis, Professor and Mrs. Dante and others belonging to a company about to pay a visit to New Zealand, Australia and elsewhere, and Honolulu on the route, to give exhibitions of legerdemain and slight of hand.

TOM KEENE DEAD.

NEW YORK, June 2—Thomas Keene the actor died tonight.

THE GRAND OLD MAN.

Great Throngs View Gladstone's Remains at Westminster Abbey.

LONDON, May 26.—Impressive scenes have been witnessed at Westminister Abbey since 2 o'clock this morning, when the arrivals commenced of those anxious to view the remains of Mr. Gladstone. There were lighted candles in each corner and a large gilt cross at the head of the casket. By 10 o'clock, it is computed, 100 persons a minute were passing the body. By noon over 40,000 had already taken a last glance at the remains of the great statesman.

NATIVE PASTORS CONFER.

Native pastors had an interesting and important conference in Kawaiahao church last night on the subject of Christian work throughout the Islands. Chief Justice Judd presided. Reports were received from many districts and congregations. President Lyle A. Dickey, of the Y. P. S. C. E., made a verbal statement of the work of the year, speaking in specially glowing terms of the advancement of the Kawaiahao society.

WHY NOT BUY A SINGER?

You want a sewing machine? Then why not buy a singer; there has been more of them sold than any other make. They wear longer, run lighter and do better work than any other make. They have never been a cut price machine, the workmanship on the Singer will not admit of cut prices. A few dollars in the original cost between a good machine and a poor one counts for nothing. B. Bergerson, agent, Bethel street.

NEVER BEFORE OFFERED.

The ladies are flocking to L. B. Kerr's millinery sale, and those who are competent to judge express the opinion that such values were never before offered in this or any other country.

CERVERA FOUND AT LAST

AN ENGAGEMENT REPORTED AT SANTIAGO.

Meager and Conflicting Reports Indicate That the Battle was Indecisive —Both Sides Claim Victory.

NEW YORK, June2.—A Journal dispatch from Cape Haytien purporting to give details of the Santiago fight of May 31st, says

The torpedo boat Porter arrived at St. Nicholas with dispatches for Washington. She left immediately, but before going she left the following story of the fight with a Journal correspondent at the Mole: The American squadron, augmented by the torpedo boat Porter, and the auxiliary cruiser St. Paul, and protected by the cruiser New Orleans, formerly the Amazonas, approached the entrance of the harbor of Santiago at about 12:30 p. m., the Iowa leading. Inside the entrance to the harbor was one of the warships of Cervera's fleet stripped for action. As the American fleet drew near, the New Orleans detached and steamed forward ahead of the Iowa, Texas and Massachusetts. One of the forts opened fire on her, the other two ships directing their fire on the battery on Punta Gorda within the harbor and westward of the position occupied by the Spanish ship. The latter replied to the fire and immediately became a target for the American ships engaged in the battle.

"FIGHTING BOB" EVANS.

The Iowa, directed by Captain "Fighting Bob" Evans; Massachusetts, Captain Hagginson; Texas, Captain Phillips, and the New Orleans, Captain Folger, kept up a terrific fire against Morro, Socapa and Punta Gorda forts for two hours, their projectiles of enormous size doing tremendous damage to the defences of the harbor. The masonry on Socopa and Morro were battered almost to dust and the forms of Spanish artillery and infantry could be plainly seen flying for safety behind neighboring hills. The auxiliary cruiser which joined Schley's fleet just before the battle took place, was hit by shells from the forts and it is believed that she has been seriously damaged. After seeking the protection of the jutting headlands, the Spanish warships continued to fire projectiles over the hills toward the fleet, but had no range, not even direction, to their shots, and the shells fell harmlessly into the sea. That the number of killed and wounded on the Spanish side was enormous no one doubts, for time and again the American shells hit the batteries squarely and amid the flying masonry and the dismantled guns the forms of the men could be seen. The damage done to the American fleet cannot be learned, but it is not thought that any person was killed if indeed any one was wounded.

ANOTHER ACCOUNT.

PORT ANTONIO, Ja., June 1.—(Delayed in transmission.)—The Associated Press steamer Dandy which arrived here tonight reports that the fleet of Commodore Schley yesterday attacked the batteries at Santiago, and the fleet of Cervera lying in the harbor. The Spanish flagship Cristobal Colon was struck twice by shells from the Massachusetts and the batteries were badly damaged by the firing of the cruiser New Orleans. Three hundred shots were fired by the Spaniards and one-fourth of that number by the Americans. No American vessel was hit and no one on the ships injured. The Spanish loss was not heavy.

CERVERA IN A TRAP.

NEW YORK, June 2.—A dispatch to the World from San Domingo says: The American fleet, attempting to force the Spanish squadron which has taken refuge in Santiago de Cuba to engage in battle on Tuesday, our vessels bombarded Forts Morro, Socapa and Punta Gorda, discharging 70 shots. The Spanish did not dare to place themselves in a position to return the fire of the American fleet. Only the cruiser Colon discharged a few useless shots. The Spanish feeling at Santiago now is that Admiral Cervera's fleet is in a rat trap. Private news from Porto Rico shows that 42 persons were injured during the bombardment of San Juan. The land batteries suffered heavy damage. The Americans and Cubans here have today transmitted by mail a pre-announced petition to President McKinley, expressing the urgent necessity of retaining Consul Grimpke at his post.

SPAIN CLAIMS VICTORY.

MADRID, June 2.—In the Senate Count Casa Valencia asked "if the news of the American repulse was official?" The Minister of Marine, Captain Aunon, replied affirmatively, adding "the news is a good augury for further victories which the courage and high merit of our sailors give reason to hope for." The Senate unanimously "noted with satisfaction the brilliant victory of the Spanish forces."

DONS DENY DEFEAT.

MADRID, June 2.—Official circles ridicule the American pretensions to treat the Santiago affair as a simple reconnaisance. They point out the unlikelihood of four vessels being employed in a reconnaisance leading to a combat of five hours duration. The truth is, as official circles see it, the Americans tried to force an entry to the bay and were repulsed. It is held to be equally improbable that the American squadron destroyed the batteries at El Morro, which are situated at a height of 62 metres (about 200 feet), commanding the sea.

MORE TROOPS NEXT WEEK

TRANSPORTS PROBABLY START TODAY.

That was the Expectation on the Coast, According to Mail Advices—No Positive Date Set.

The latest papers from the Coast do not state when the next convoy will leave, though every effort is being made to push it forward for early dispatch, but private letters received here say that it is expected to leave on the 10th and should be here not later than the 17th or 18th. The following is the latest telegram published:

SAN FRANCISCO, June 1.—Orders have been received from Washington to rush the work on preparing the second fleet of transports for dispatch to Manila. The work on the steamers Zealandia, Colon and China is progressing rapidly, but they cannot possible be ready before the middle of next week.

The steamers Centennial and Ohio will not arrive from Puget Sound for some days yet. It is doubtful if these vessels can sail with the other vessels of the fleet.

The steamer Cleveland was inspected today and the ship Roanoke was also examined. The Roanoke is a four masted vessel of enormous carrying capacity, and it is understood that, should she be chartered, she would be used as a hospital ship. It will take her about sixty-five days to sail to the Philippines.

VALLEJO, June 1.—It seems to be well understood at the Mare Island navy yard that the Monadnock has been ordered to go to Manila, and that the government has purchased the British ship Whitgift to accompany her.

SIX HUMAN SKELETONS.

While excavating for the foundation of George Beckley's new house, on the side of Punchbowl yesterday, workmen unearthed a ghastly spectacle, consisting of six human skeletons One was of a young girl. The remains of long, thick hair clung to the skull. All of the bones were fairly well preserved. The bodies were buried many years ago, perhaps as far back as the conquest of Oahu.

EXCURSION TO WAIALUA.

Enjoyable Trip Over the Oahu Railway Extension.

The excursion train to Waialua yesterday was a success. The various newspapers of the city were well represented. The road ends for the present at a bridge now building below Halstead's mill. Thence at noon the train ran back to Walter Dillingham's ranch at Mokuleia, where the gentlemen of the press were entertained with a sumptuous lunch. A number of toasts were drank, with speeches, highly appreciative of the wisdom, persistence and success of B. F. Dillingham. His son Walter responded with an able and modest speech. Mr. G. P. Wilder aided in entertaining the journalistic guests, and told how his own father had been foiled eleven years ago in a similar enterprise at Hilo, at the same time with Mr. Dillingham, but had not lived, like the latter to conquer the obstacle.

Walter now ships the milk as well as the cattle of the ranch by train, to Honolulu. It is hoped to reach Kahuku with the trains in December. The heavy cuttings at and south of Kaena Point are a marvel. The time home from Mokuleia, 53 miles, was two hours and ten minutes. Going out the run of 33 miles without stopping was made to Waianae in seventy minutes.

NEW BICYCLE STORE.

The Tribune and March wheels are two of the best wheels on the market and Messrs. Eakin and Whitman have secured the agency for both. The agency of the Tribune wheel having been transferred to them from the Hawaiian Hardware Company; the March wheel, while new to this country, is well known to wheelmen.

They are located on Fort street, opposite Lewers & Cooke's, and will make a specialty of renting and repairing. They ask for a share of the public patronage.

ONLY THREE DAYS MORE.

In which you can get millinery at half price at L. B. Kerr's great sale, now drawing to a close. This is a grand opportunity, and will not soon be repeated.

The store that never disappoints. McInerny Shoe Store.

AN INVINCIBLE COMBINATION.

Tom Cooper, one of the fastest and best known National Circuit chasers, who holds a record that is the envy of every bicycle rider, will this year ride a "White" bicycle, which is noted for its durability and workmanship. The Pacific Cycle and Manufacturing Co. will from now on handle this wheel so well known in the United States.

COLONEL EVANS.

Colonel Evans and Adjutant Simonson of the Salvation Army are at Hilo and other points in Hawaii this week. They are expected to return Saturday morning.

Honolulu Mesenger Service deliver messages and packages. Telephone, 378.

HONOLULU'S DERBY DAY

FINE RACE PROGRAM PROMISED TOMORROW.

All Ordinary Sports are Sidetracked for the Day—Lots of Good Horses are Entered.

The races tomorrow at Kapiolani Park track will begin at 9 a. m. sharp and will continue until about 5 in the afternoon. A holiday has been declared by the government and most of the business houses in town will not open. Manager Pain will put on extra cars to transport the big crowds back and forth and all the busses in the city will be out.

Programs of the races will be out late this afternoon. They show all the entries and the order in which the events will come. In the free for all, W. Wood, Loupe and Creole will try for honors. Both of the first two named are new here. They have a bang-up regputation on the coast and their local owners are backing them to a strong limit. Creole is admitted by horsemen to be in better trim than ever and considerable is expected of him.

Among the other animals entered are Cornwell's Venus and Garterline; Wolter's Flora G., Fashion and Royalist; Rodeik's Antidote; Wilson's J. R.; Lucas' Amerino; Schuman's Sympathetic's Last; Halstead's Confederate and Magnet; Gibson's Sans Souci; Decker's Corabel and Winfield; McDonald's Watermelon Joe and Telephone; McCandless' Irish Lassie; Quinn's Violin; Norton's Gerster and Directress; Gear's Trenson.

This is a longer list than ever before and will make things hum on the track. Undoubtedly the races will be witnessed by the largest crowd that ever visited the park for any purpose.

The Hawaiian band will play the entire day. Lunch will be served under the grand stand by George Lycurgus and outside by J. W. Chapman.

CRICKET GAMES TOMORROW.

Mr. Coleman invites friends of the Y. M. C. A. to attend the fourth game in the basket ball tournament to be played in the gymnasium from 7:30 to 9 o'clock this evening.

Cricket teams for tomorrow are organized. They will be captained by H. L. Herbert and A. St. M. Mackintosh. The "Wild Man From the Carolines" will bowl for the former. It is expected that the game will begin at 9 a. m. and last all day.

There will be no baseball tomorrow afternoon; no golf; the Marlin trophy shoot of the military at Kakaako butts has also been postponed. With the church picnics off, it may be said that the 11th this year will be one of few events.

TROOPS START TODAY.

Mrs. H. W. Peck writes from San Francisco to relatives in this city, that the second expedition would leave the Coast on the 10th, which is today. This would bring the troops here next Friday.

MRS. PECK COMING.

Mrs. H. W. Peck writes that she will arrive in Honolulu by the Moana, on June 22nd, to remain two years. She will be accompanied by the children. Rev. Mr. Peck is going to Boston to take a two years course in theology.

IN GOOD HANDS.

The refreshment privilege at the races Saturday has been secured by George Lycurgus, who will serve the public under the grand stand. His reputation is a guarantee that everything will be first class and orderly. During the day an excellent lunch will be ready at all times at Sans Souci, which will be a great accommodation to the public, as it is only a short distance from the track.

STILL INCREASING.

The patronage of the Criterion barber shop is still on the increase. Many shops derive an increase for a time, but it drops off again, while at the Criterion barber shop the motto still stands good, "Once a patron, always a patron."

Awarded Highest Honors—World's Fair. Gold Medal, Midwinter Fair.

The Miowera brought thirty tons of general merchandise for this port and the Aorangi 140 tons.

The Waialeale yesterday brought 300 bags of rice and 321 bags of paddy, besides 27 packages of sundries.

The Noeau brought 4,744 bags of sugar this morning. Of this there was 3,000 bags of A and 584 bags of AA from the Hawaiian Sugar Company, and 1,000 bags of A and 160 bags of B from the Pioneer Sugar mill. Besides this her cargo consisted of 97 packages of hides and 21 packages of sundries.

The R. M. S. Miowera, F. A. Hemming commander, left Sydney at 8:18 p. m. on the 23rd of May, arriving at Wellington on the 28th. Left Wellington (Beucarron Head) at 4 p. m. same date, passed the R. M. S. Warrimoo bound south same evening, and arrived at Suva at 5:45 a. m. on the 2nd of June. Left Suva at 1:25 same day. Crossing the Equator on the 5th. Experienced moderate to fresh trades south of the line, then frequent rain squalls with moderate E. N. E. to N. E. seas, arrising at Honolulu at 8 a. m. on the 10th inst.

The R. M. S. Aorangi, Campbell Hepworth, lieutenant R. N. R., commander, left Vancouver at 5:15 p. m. on the 2nd inst, and Victoria, B. C., at daylight the following morning. On her northeastward voyage she made better time than had been made hitherto by any of the steamers of the line, and thus she holds the record both to and from Vancouver and Sydney. Professor Dante favored the passengers with a performance during the voyage between Victoria and this port, and it was agreed by all that the talent displayed by him was marvelous and not surpassed by Maskelyne and Cooke, Hermann, or other well known conjurors. Exceptionally fine weather has been experienced throughout.

SCHOONER JANE GRAY LOST.

Thirty-four Out of Sixty-one are Said to be Lost.

VANCOUVER, June 2.—Another terrible catastrophe has been added to the list of fatalities off Cape Flattery. This time 34 persons out of a total of 61 on board the wrecked vessel perished. The vessel was the American whaling schooner Jane Gray. She left Seattle on May 19th and foundered three days later while lying to in a moderate gale.

The Jane Gray was built for the whaling business, of 107 tons. For carrying passengers a house had been erected on the foredeck. The sides not being made tight the water rushed in, and was unable to run out, the scuppers having been stopped up.

It was early on the Saturday morning after the schooner left Seattle, and just as she was passing Cape Flattery, encountering a moderate gale, that the vessel was put about to allow the holes to be stopped up. But even this did not keep the makeshift cabin free of water.

That evening the vessel was hove to. At midnight the schooner was pumped out and reported all right, but two hours later she took a decided list to starboard. The schooner was by this time on her beam ends and two launches were easily launched, the Kennorma, in which the survivors reached shore, being the first in the water.

The second launch has not been heard from yet.

Bad management keeps more people in poor circumstances that any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays 25 cents, the other is out a hundred dollars, and then wonders why his neighbor is getting richer while he is getting poorer. THE SITUATION AT MANILA

SICKNESS IS REPORTED AMONG DEWEY'S MEN.

This However is Denied—Spaniards Threaten to Shoot Captain Pau of the Callao—Insurgents Neutral.

LONDON, May 31.—A dispatch to the Daily Telegraph from Manila, dated May 26th, via Hongkong, says: The American warships are still in the bay, except a couple of the smaller ones, which are being used for patrol duty outside. Rear Admiral Dewey is losing men from disease almost daily. Smallpox and dysentery are said to be rife in the American squadron.

Aguinaldo, the insurgent chief, has reached Cavite from the interior, and soon after his arrival went aboard one of the warships. He is working hard to gain over the rebels to the side of the Americans in view of the active co-operations when Dewey's reinforcements arrive.

HONGKONG, May 30.—The British second class cruiser Pique has arrived here from Iloilo and Manila; she reports all quiet at both places.

Supplies reach Manila plentifully from the surrounding country. There is no panic in Manila. The Spaniards are working upon the fortifications, but the guns are old and useless, and the garrison is short of ammunition. Rear Admiral Dewey has informed the authorities of Manila that he will hold them responsible for the life of the captain of the Spanish gunboat Callao, captured by the United States fleet. The Spaniards have been threatening to shoot him for surrendering, although he was confronted by the whole American fleet. All the American ships are at Cavite, Manila Bay. Salt provisions are plentiful, but fresh provisions are not obtainable. There is no sickness in the American fleet.

The governor of Hongkong has prohibited the United States auxiliary cruiser Zafiro from taking war stores to the American fleet, but has permitted her to take ship officers' luxuries. The Zafiro sails from here for Manila today.

HONGKONG, May 30.—The Americans captured the Spanish gunboat Leyte, which was attempting to run dispatches into Iloilo. A steamer is reported to have landed 6,000 rifles at Cavite for the use of the insurgents. The Spaniards have offered $25,000 reward for the head of Aguinaldo, the insurgent leader.

In reply to the Spanish attempt to win over Aguinaldo's men, the insurgents are said to have informed the Spaniards that they are neutral and will await events. The Spanish gunboat El Cano, which captured the American bark Saranac, loaded with coal, owned by William Simpson, Jr., of New York, left Iloilo and has gone to the Samoangan river. It is asserted that the Spanish released the Saranac owing to the fact that the steamer hoisted the British flag prior to her capture.

TROOPS HAVE NOT LEFT.

SPAIN WANTS PEACE.

Castillo Charged to Ask the Powers to Intervene.

LONDON, June 2.—The Madrid correspondent of the Morning Post says: Senor Castillo, Spanish ambassador to France, at a recent conference with the Queen Regent and Senor Sagasta, was officially charged to ask the powers to intervene to obtain peace on such terms as would protect the honor of Spain. The ambassador will urge for the reason of such intervention the danger and loss of trade to the powers themselves in the event of a continuation of the war. Political and diplomatic circles in Madrid believe Castillo will succeed.

THE SINEWS OF WAR.

Biggest Deficiency Bill Ever Presented to Congress.

The Secretary of War has asked Congress for an additional appropriation of $5,871,000, made up of the following items: Torpedoes, $1,286,000, including $150,000 for the defense of Manila harbor; torpedoes and guns and mortor batteries, $450,000; contingencies of the army, $100,000; armament for fortifications, $735,000, and ordnance stores and supplies, $3,200,000.

This is expected practically to complete the naval and war deficiency estimates, so far as can be seen, save for the items of between $40,000,000 and $50,000,000, to be submitted immediately, to cover the expenses of the Volunteers under the President's second call.

Chairman Cannon of the House Appropriations committee was in consultation today with war department officials over these estimates, and they will be incorporated in the general deficiency bill. With everything now in sight the total carried by the general deficiency bill will reach $207,769,805, making it the largest deficiency bill ever presented to Congress. It will be submitted to Congress in the next few days.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, give it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much, and the second bottle has absolutely cured me. I have not had as good health for twenty years. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. ANNEXATION.

A most encouraging telegram was received today with regard to annexation. In fact the most encouraging since the campaign began. To hear that the "backbone of opposition" to annexation has been broken is a piece of news which should make every one rejoice in the Islands. And the opposition will diminish still more when the reception given to the Boys in Blue comes to be known in the States. This time we are on the crest of an advancing wave, and there is every reason to think that like the rider on a surf board, we shall swiftly reach the desired shore, in safety. Annexation never looked nearer than today.

THE WAR.

The war news remains still indefinite. The action off Santiago de Cuba seems to have resulted in considerable loss of life to the Spaniards and the destruction of their fortifications, but the Spanish fleet did not come out and the United States squadron could not force its way in. There appears to have been no damage done to the American ships and no loss of life. According to the reports of the British naval officers, however, the defeat and annihilation of the Spanish fleet is only a question of time. It has been a regular game of hide and seek as it was between Nelson and Villeneuve, but it will come to an end very much sooner than the celebrated chase did. One thing is certain, no fleet is headed south.

It is amusing to note how eager the Spaniards are to claim a victory. It is evident that the action off Santiago was indecisive, and if loss was sustained it was by the Spaniards. Yet the remarks in the Spanish Cortez were most grandiloquent. When people do more talking than fighting their cause is not a very good one. You cannot win by bulletin, though many people try it.

As to Dewey's position, which interests us more nearly than the actions in the Atlantic, the accounts are conflicting, but that which comes from the British gunboat Pique is undoubtedly the most worthy of credence. According to this Dewey is able to maintain a strict blockade from the sea, but supplies come from the surrounding country. The health of his crews is good, and the statement to the contrary from other sources should be doubted.

Apparently the insurgents are now waiting to see how the cat jumps. The delay in further operations after the bombardment has somewhat puzzled them, but when the transports convoyed by the Charleston arrive, there will be a very different state of feeling. Doubtless, e'er this, Admiral Dewey has heard of the sailing of the convoy, for the news would be telegraphed to Hongkong, and his dispatch boat is constantly running between there and Manila.

Viewed from this distance both of time and place, it seems as if nothing decisive may be expected for a week or more. Preparations are still being pushed by both belligerents, but it is evident that those of the United States are most ready, and that the decisive blow will fall in Cuba and Manila almost simultaneously. It is all very well for the Spanish to boast in their Cortez, but their race is run.

GARBAGE.

There was a very keen debate yesterday in the House as to the removal of garbage in the city of Honolulu. Two of the country members desired the item struck out, others wished the collection and clearing away to be done by contract. The sum asked by the government for this purpose was $10,000. The report showed that out of a similar appropriation during the last biennial period some $6,000 had been spent, leaving a balance unexpended of $4,000. On this ground some argued that the amount of the item should be reduced.

That the town should be kept clean was clear to all members, but it was not so clear to them as to the payment for it. It is a matter which should, undoubtedly, be under the direct control of the Board of Health, and there can be equally no doubt that a system of letting out by contract would be quite unsatisfactory. Indeed in all civilized cities now-a-days the collection of garbage is conducted by the authorities, in place of the old system of letting out by contract. Of course were Honolulu a municipality the garbage could be collected at the expense of the municipality, but it is not, we have no such organization as yet, and everything throughout the Islands comes out of the expenses of the general government.

Without an efficient system of garbage collection this city would be very unhealthy and would develop diseases of many kinds. Such is the condition of many of the cities under Spanish rule. A place like San Juan in Puerto Rico, which was bombarded the other day, is not necessarily unhealthy, its topographical situation is excellent, and it has good natural drainage, while the trade wind sweeps through it, but disease is rife among the population, fevers, diphtheria, and all the filth diseases are rampant, simply because the town reeks with garbage. The same tale is told of many another city according to the Consular Reports.

There is no other way of paying for the garbage collection of the city of Honolulu but by means of the general expenses of the government, and it is of far greater necessity than many of the expenditures so charged. If Honolulu proves unhealthy and contagious disease were to be developed it would affect the other Islands, so that the country districts are directly interested in the sanitary condition of the capital.

With regard to the fact that there was a balance over from the amount allowed last biennial period, that only shows that the Board of Health was economical. It is well that in such a matter ample margin should be given to the Executive. A stitch in time saves nine. It might be found necessary to redouble sanitary precautions and to extend the present sphere of work, which is really confined to the center of the town. It is better to have enough on hand to carry out sanitary precautions than to wait till an epidemic is upon us and then to draw money through the advisory council as a measure or urgency. The precautions of the Board of Health at the cost of a few hundred dollars, may save thousands upon thousands of dollars, which would have to be expended were those precautions not taken.

It does not seem as if laws are trash. Nor does it seem necessary for Minister Damon to step out. His officials seem to have enforced the law to some purpose when the news of five hundred tins of opium was brought in this morning from Kahoolanu, where it had been landed by the schooner Labrador. It appears as if the Morning grandmother was rather previous this morning.

YOU AND YOUR WORK.

We are all the time hearing men, and women, too, talk like this. "My work is too much for me; it worries me and wears me out; it upsets me so I can hardly eat, drink or sleep;" and so on. Once in a while, no doubt, that is so; but, commonly, it is not, their work that is too much for them, but their poor health, their weakness. They are out of sorts in any one or more of a hundred ways. Condensed, the idea is this: Bad Digestion, Thin Blood, Loss of Strength and, perhaps, Flesh, Tendency to fret and worry over small things, Lack of Courage to attend to details and face risks, etc. In two words, *low vitality*. What is needed is a short course of

WAMPOLE'S
PREPARATION,

of the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and Extracts of Malt and Wild Cherry Bark. Palatable as honey, it drives out disease germs and makes the blood rich, red and full of constructive elements. You grow warm, strong and elastic; and soon find you are enough, and to spare, for any business. Unlike worthless relics of a dead medicinal past, the preparation does not boast of its age; but of its excellence. The sick who use it keep step with the march of progress, and get well. You cannot be disappointed in it. Sold by chemists.

No piece of furniture is more economical to the family or more convenient to the housewife than a first-class Refrigerator. The warm season is now upon us and all perishable eatables must be kept on ice. When making the purchase of a Refrigerator why not buy a make that does its work thoroughly and at the same time is economical in the quantity of ice used. We refer to the

"Alaska" Refrigerator.

The large number in use and the full satisfaction they give is a sufficent guarantee of this superior make. We keep them in all sizes from the small ice box for two in family up to the extra large size for Hotels and Steamer use.

DEAR SIR: The **Secretary Disc Plow** I purchased from you is giving us satisfaction. We are using it to plow under a crop of lupins. They are three feet high and very thick. Your plow turns them completely under, at the same time plowing the land fourteen inches deep.

I feel satisfied that with this plow the draft for the same quantity and depth of work is as six to eight. That is, with the old plow, to do the same work, it takes eight good mules; with your plow it takes only six, and they are less tired at night.

Please send me another plow by the first schooner leaving for this.

You are at liberty to use this in any way you may see fit.

Yours truly,
A. LIDGATE.

A Good Article

Is worth striking for. And in nothing is this better illustrated than in Footwear.

Ten cents taken out of the sole, and fifteen cents taken out of the upper, in the factory, makes the biggest kind of a difference when the Shoe is put into actual service. It's wise in the end to spend the extra twenty-five cents and thus secure security for your feet and pocket-book.

There are heaps of job lots sold at $2.49 a pair, when an outlay of a few cents more would secure for you the real article.

Don't be led away by odd figures. A Shoe dealer with a reputation to sustain cannot afford at any time to put out a shoe that will not sustain this reputation of value.

We have a reputation to sustain.

An Empty Head!
An Empty Heart!
or, An Empty Purse!

Which of these three are the worst?

A summary of the whole would prove that all are bad, and without doubt an Empty Purse the worst.

When you discover evil, then it is time to make preparations to offset the damage done.

To buy an article without considering, the condition of your purse:—the value received for money spent and the best place to make purchases, is an unwise action. Look well to your buying.

Especially shoes. Remember that we keep shoes that are new—that are cheap—and up-to-the-present-time.

WEDDING LAST EVENING.

The marriage of Edwin Benner, head of one of the departments of Castle & Cooke's business, and Miss Maude L. Barnum, took place in Central Union church, at 8 o'clock last evening. Rev. D. P. Birnie and Rev. C. R. Brown officiated. Professor Yarndley, Mr. Ingalls and a class from Kawaiahao Seminary, assisted in the music. The church was crowded during the ceremony.

A reception was held at the residence of W. O. Atwater. Many of the presents received were very pretty and of value.

COL. NORRIS SELLS OUT

PAHALA SUGAR COMPANY BUYS THE KAHUKU RANCH.

A $100,000 Deal—Total of 180,000 Acres of Land and 10,000 Head of Cattle Changes Hands.

The Pahala Sugar Company today bought out the Kahuku ranch, owned by Colonel Norris, lock, stock and barrel, for the sum of $100,000.

The directors of Pahala in a special meeting represented the plantation, and J. O. Carter signed for Colonel Norris.

In the transfer are 180,000 acres of land, and approximately 10,000 head of cattle, besides buildings and improvements. The property will be added at once to the estate of the Pahala Sugar Company, which adjoins it. The ranch interests will be continued. A part of the estate will be turned into sugar land. An important part of the deal to the plantation is the conservation of valuable water supplies.

LADIES' TEA PARTY.

There was a large gathering in Central Union church parlors yesterday afternoon of members and their families and the native pastors of the Hawaiian Evangelical Association. The occasion was the annual tea party of the ladies of the Woman's Board and after the social features were over short talks on church subjects were made by several of those present. Rev. O. P. Emerson presided during this part of the program.

POLYGLOT SERVICE.

At Central Union church, Sunday night, the services will be held in five different languages.

Woman's Friend

The Great Medicine that Gives Nerve Strength

Hood's Sarsaparilla Makes the Blood Rich and Pure, Creates an Appetite and Restores Health, Vigor and Vitality.

"I feel that I ought to write a few words in praise of Hood's Sarsaparilla, which has done great things for me. I was in a delicate condition and was sick at my stomach and constipated. I tried remedies highly recommended for female weaknesses, but the medicines brought on other troubles. I was so weak I could not attend to my household duties, and I then determined to try Hood's Sarsaparilla. After I had taken this medicine a short time I began to gain strength. I

Grew Stronger Each Day

until I was able to work all day without any inconvenience. I have taken Hood's Pills for constipation, and I am better today than I have been for five years. Since taking Hood's Sarsaparilla and Hood's Pills I feel rested in the morning. I am less nervous and am sure I have richer and purer blood. I have always been bothered with scrofula, but now I am rid of it. Before my last child was born I took Hood's Sarsaparilla, and my girl baby was fat and strong, while my other child was not well and lived to be only two years old." MRS. E. F. Hawaiian Electric Company.

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.

Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers

Poor Blood
Nervous Prostration

Tested and tried for 35 years in all parts of the world.

Such is the testimony of Mrs. E. B. Choppell, of Stawell, Victoria, Australia. She says:

"It is with great pleasure that I record my experience as a nurse for thirty-five years with the wonderful curative effects of

AYER'S Sarsaparilla

and Dr. Ayer's Pills. Both of these I have used in different parts of the world, including Australia, for myself and my patients, in cases of nervous prostration, poor blood, skin diseases and all complaints from weakness peculiar to women. I most heartily recommend these preparations to all sufferers from any of the above named distressing complaints."

For constipation take Dr. Ayer's Pills. They promptly relieve and surely cure. Take them with Dr. Ayer's Sarsaparilla: one aids the other.

THE BUDGET IN THE HOUSE

LEGISLATORS FIGURE ON THE NATIONAL EXPENSES.

Some Items Approved by the Senate are Reduced—Others are Increased and New Ones Added.

Minister of the Interior Cooper asked the House this morning until Monday to furnish the itemizd statement of proposed expenses under the appropriation of $120,000 asked for improvement of roads and bridges.

It was finally agreed to postpone action on the appropriation until the bill had been considered throughout.

Representative Pogue for the Finance Committee reported on appropriations connected with the finance, postal and customs department.

Under the Department of Finance an increase of $104,000 was added by the committee, including $15,000 for coining nickles, etc.

Representative McCandless opposed the item for a steam launch for the customs service.

Special mail carriage (foreign) was increased from $3,000 to $18,000, on recommendation of Finance Minister to the committee. A saving of $17,000 for the period will be made to the government under the change.

Report of the committee in the matter of subsidies recommended in addition to the usual amount of $20,000 to the Queen's Hospital, an appropriation of $5,000 toward the maintenance of a ward for consumptives, provided a like amount is raised by the trustees. Item deferred.

In the matter of steam communication between Maui, Lanai and Molokai the committee reported favorably on an appropriation of $5,200, with a Senate provision that the steamer must be of 120 tons capacity. Passed.

An appropriation of $50 per month was also granted the Wilder S. S. Co. for running to Pohoiki once a month.

A new item for telephone communication between Pohoiki, Puna and Hilo, $1,200, was ordered placed in the bill, with the provision that the government have free use of at least two telephone instruments.

The Public Lands Committee reported unfavorably on the claim of C. K. Aian, for $3,000, damage to that person's property during the flood, citing that the government should not be held accountable for the act of Providence.

The Finance Committee reported on Senate Bill No. 36, relating to licenses, limiting the jurisdiction of notaries to localities, instead of districts.

Public Lands Committee reported favorably on an appropriation of $5,000 to widen Nuuanize River street between King and Vineyard streets.

A motion prevailed to take up pilos and questions relative to political prisoners who paid fines and the amount of same, with the object of considering an appropriation to reimburse the parties, but no action was taken.

Adjourned until Monday.

DANCE OF THE BAND.

The dance of the band in the drill shed this evening will be a private although invitations have been extended to a very large number of friends. It will be assisted by one or two of the dancing classes for which the band orchestra has been playing.

HOPE ABANDONED.

"For fifteen years I suffered with indigestion and my whole system was broken down. I almost abandoned hope of recovery. I took Hood's Sarsaparilla and its effects were marvelous. I am now able to sleep well, have a good appetite and have gained in weight." James Wilder, Oroville, Washington.

FARMER HOPKINS' EVIDENCE

HE TELLS ABOUT THE SUFFERINGS OF HIS DAUGHTER.

A Victim of Nervous Prostration and Neuralgia Saved After Her Physician Abandoned Hope.

From the Republican, Columbus: While in the neighborhood of Rugby, Indiana, recently, a reporter was told that Miss Clara Hopkins, daughter of Mr. Dennis Hopkins, a prominent farmer of Bartholomew County, had been the subject of a remarkable transformation. The reporter decided to investigate and learn the particulars. He was driven to Mr. Hopkins' handsome country home, where he had an interesting conversation with that gentleman regarding the illness of his only daughter.

"You have been correctly informed," said Mr. Hopkins, "for Clara has indeed had a severe siege. She tried Dr. Williams Pink Pills and they did her more good than all other medicines together that she ever took. A few boxes of that medicine accomplished the cure of a case in a few months which had baffled physicians for years.

"About three years ago her health began to fail. The doctor who attended her said this was caused by weak digestion. This produced nervousness, which was accompanied by neuralgic troubles, which at first was located in the nerves about the heart. Of course this was a dangerous location for any such trouble, and she rapidly grew worse, notwithstanding that the physician was treating her. This continued until a year ago last November, at which time she was almost constantly confined to her bed.

"The neuralgia became gradually worse, and finally she was a confirmed victim to it.

"Nervous prostration set in and she was soon all run down. Her blood was impure and watery, and her complexion became colorless. She had no strength, and the least noise irritated her, she was so nervous. We had another physician and he treated her steadily for a year without doing her any good. He finally gave up the case as hopeless, and advised us to get Dr. Williams' Pink Pills, as he said they were the only thing that would benefit her.

"I procured a couple of boxes of the pills, and found that their use helped her considerably. She kept on taking them till she used about a dozen boxes, with the result that she was entirely well, and since then there has been no symptom whatever of her old trouble. Dr. Williams' Pink Pills are certainly a wonderful medicine which did a wonderful good in Clara's case, doing what several physicians failed to accomplish."

Everywhere Dr. Williams' Pink Pills for Pale People are regognized as a specific for diseases of the blood and nerves. For paralysis, locomotor ataxia, and other diseases long supposed incurable, they have proved their efficacy in thousands of cases. They are one of the greatest blessings ever bestowed upon mankind.

Sold by all dealers in medicine.

MARSHAL'S SALE.

BY VIRTUE OF AN EXECUTION issued out of the Circuit Court of the First Circuit on the 20th day of May, A. D. 1898, against M. F. Mendonca, defendant, in favor of J. C. MORNING STAR'S ORDERS

SHE MAY SPEND THE YEAR IN HONOLULU.

Has Received by Mail From Boston Directions to "Wait for Orders" Fears for the Missionaries.

It is now almost certain that the Morning Star will not make the 1898-99 cruise among the Mission fields of the South Seas. She received orders by the last mail from Boston to "wait for orders."

There was talk in San Francisco at last accounts of fitting out an expedition for the relief and rescue of the Missionaries in the Carolines. It was planned to take them away. Some such step will be necessary, for if the Morning Star does not go down there will soon be a scarcity of European food in the group. The greatest danger, however, lies in news of the war reaching the Spanish gunboat Quiros, now at Ponape. In such event the Missions would undoubtedly be destroyed and the Missionaries perhaps killed.

Mission people are disappointed that the warships and transports now passing on to Manila, do not call in at the Carolines and rescue American life and property. The Charleston could have captured the Quiros and annihilated the Spanish position in the Carolines in a few minutes. And Captain Bray is authority for the statement that she need not go a mile out of a straight course to do so.

Certainly this may be done. It may be a part of the sealed orders of the warships, which are known only to the Supreme power above the Navy Department at Washington and to Captain Glass. If so a sigh of relief will be brought to the American Board in the United States and the Missionaries here.

INDUSTRIES IN SCHOOLS.

Commissioners Decide to Teach Pupils to Work.

The Commissioners of Education yesterday granted Mrs. Frasher of the Beretania street school a life diploma, and Misses Toner and Sorenson of the Royal school certificates.

Miss Emma C. Lyons was appointed to succeed Miss Kate Howland, resigned.

Superintendent Needham of the Reformatory School, was granted a two months' leave of absence.

The matter of industrial training received considerable discussion. An order was placed for 500 copies of a pamphlet of instruction in plain sewing for the public schools, and the subject of lectures upon and practical demonstrations in agriculture in the Normal School were enlarged upon.
