TRIED TO BLOW HIM UP

WITH DYNAMITE AND BLASTING POWDER. The Infernal Arrangement Old Man Cruze Found in a Drawer Last Night—His Narrow Escape.

An infernal arrangement consisting of fulminating powder attached to a coil of fuse placed in an ordinary half gallon tin bucket, at the bottom of which was about two pounds of coarse grained blasting powder, is what William Cruze claims his wife prepared as a means of hastening his exit from this world, and furthermore he says that she confessed to him that she made it ready for him.

He told the following story in the deputy marshal's office this morning: "About 7 o'clock last night I had occasion to use a hammer in my house, and went to a bureau drawer in which it was usually kept. It was just about dark and I had no light with me, as I thought I could find the hammer in the dark. Upon placing my hand in the drawer where the hammer should have been it came up against something that ought not to have been there. I had some matches in my pocket and struck a light. The first match went and before I got it to the drawer, I lit a second one and held it over the open drawer. When I saw what was there I blew that match out in a hurry, you bet. I had held it right over an open tin containing a quantity of loose powder, a coil of fuse and part of a rifle cartridge. I knew at once that it was intended to blow me up. My wife and boy were out, and after considering the matter I concluded to wait and see what turned up. So I put the tin and its contents in a safe place and went to bed. Nothing happened in the night and this morning I took the tin out and showed it to my wife and asked her if she had put it in the drawer with the intention of blowing me up. She said that she had. Both she and the boy had threatened to kill me last week, and I had the boy brought before Judge Wilcox for it. I thought the best thing I could do was to bring the tin to the station house and let the marshal do what is best."

When examined at the deputy marshal's office, the fuse was coiled three or four times round the tin and rested on the loose powder. The cartridge proved to be about a 70 calibre one. The bullet had been taken out and a little screw of paper inserted in the metallic case to keep the powder from falling out. At the other end a cross incision had been made with a file, exposing the powder. Mr. Cruze explained that when he first examined it the end of the fuse was resting right over this incision, but in moving the tin the cartridge fell away from the fuse.

Mrs. Cruze, who was sent for later in the day and questioned by Deputy Marshal Chillingworth, denies the statements of her lord and master. She claims that the powder and fuse was some that was left over from some blasting work her son had been engaged in and that it had been in the same drawer for months. The cartridge she had never seen before and knew nothing about it. She claims that the old man manufactured the story to use in the divorce case he wants to bring.

The filing on the cartridge shell is very new, and looks very much as if it had been done this morning.

THE CABINET. The time of the Executive Council today was taken up with the wine and beer licenses to the exclusion of other matters. The matter of additional restrictions to the regular spirit licenses will come up again tomorrow.

A GOOD RECORD. The Pennsylvania carried the First Montana and 300 recruits for the First California. Though she was the most crowded of all the transports she was one of the very few which did not bury a single man at sea between San Francisco and Manila. She made the trip from here in nineteen days.

At Guam on the return she found everything quiet though there was a good deal of irregularity in the conduct of public affairs.

CHAPLAIN FREEMAN'S END

HIS LAST THOUGHTS WERE OF HIS WIFE. Inquest on the Body Held by the United States Consul at Nagasaki—Melancholy Caused Suicide.

The Japan Mail gives a full report of the inquest on the body of Rev. T. S. Freeman, chaplain of the U. S. S. Baltimore, from which the following is extracted: The inquest was held September 13, on board the Zealandia at Nagasaki, before the United States consul, C. H. Harris, acting as coroner, and a special jury consisting of Messrs. W. H. Evans, R. H. Powers and the Rev. J. C. Davidson.

Thomas Dowdall sworn, said: I am master of the Zealandia. Chaplain Freeman came on board at Manila, from the Baltimore, as a passenger to San Francisco. I never noticed anything about him, save melancholy. He looked naturally. He was not put in anyone's charge, and I did not think it necessary to confine him, but kept watch on him to see that he was not allowed to leave the ship. He occasionally went ashore with some one. A quartermaster reported to the chief officer at 4 a. m. on Monday that Chaplain Freeman had jumped overboard. The body was recovered about 12 o'clock, midnight, the same day.

Thomas P. Deering sworn, said: I am chief officer of the Zealandia. A few minutes before 4 a. m. on Monday, Quartermaster Lowrath came and reported that Chaplain Freeman had jumped overboard. I turned out and used every endeavor to recover the body.

William Lowrath sworn, said: I am a quartermaster on the Zealandia. At 3:50 a. m. on Monday, I came up on the port side to call the watch. I called the quartermaster on the port side and was coming over to the starboard side around the corner of the house, when I heard some one calling out, "Telegraph my wife the result of this and send her my money." As soon as I heard this I ran aft, some fifteen or thirty feet from where I stood. I saw a man standing over the side of the ship. One foot was on the chock of a davit five feet down the ship's side, and one hand was holding on to the edge of the ship's side. I stooped down, trying to catch him, but did not get a good hold. At the same instant the deceased let go and dropped. I saw that he had lead sinkers tied round his waist. I then waited for some minutes and then called the chief officer. He told me to put a hand lead line over the side and tie something over the side so we would know where he went down. I thought the deceased eccentric and very restless. I have since seen the body, having assisted to recover it, and recognize it as that of Mr. Freeman.

The verdict returned was that the deceased took his life by drowning himself while under a temporary aberration of mind, produced by melancholy, while the vessel was lying at anchor in Nagasaki harbor. We find that deceased was well treated by the officers of the vessel and that Lieutenant Elliot, U. S. N., was particularly kind and watchful to deceased.

AMATEUR PLAY. The Dramatic Circle of the Art League is making progress with the plays to be given shortly. Dr. Nichols, who is in charge, is very much encouraged with the success of the rehearsals and the enthusiasm of the amateur players. There is quite a treat in store for the theater goers.

ARRIVAL OF THE AZTEC

BRINGS OVER SEVEN HUNDRED CONTRACT LABORERS. Twelve Hundred More are to Follow in a Few Days—Vessel Will Sail at Midnight.

The S. S. Aztec, Captain G. G. Trask, flying the Hawaiian flag, arrived off port about 10 o'clock last night, and came up to the mail wharf early this morning.

She will sail at midnight tonight. She left Hongkong September 12th and Yokohama September 21st. At the latter place she took on 713 Japanese laborers for Hawaii which were collected and forwarded by the Kumamoto, the Morioka, the Hiroshima and the Tokyo Immigration companies. Two other batches, one of 700 and one of 500 were to follow on two tramp steamers sailing September 23 and September 25 respectively. Besides these Japanese laborers and three Japanese stowaways the Aztec brings no passengers. She brings 675 tons of freight for this port largely food stuffs for the Japanese.

Fine weather was experienced all the way.

The Boston was at Hongkong when the Aztec was there and the Baltimore had just been there. Purser Eugene Bufandeau brings with him an interesting souvenir in the shape of a shell taken from the Reina Christina after the battle of Manila. It was given him by an officer of the Boston and is the exact counterpart of those that went through the Baltimore.

CELESTIAL VIEWS. How the Heathen Chinese Regards the Foreign Devil.

The Chinese Mail says: A Chinese living near Shanghai has been interviewed, and among other things, says, concerning the "barbarian" Europeans: "They certainly do not know how to amuse themselves. You never see them enjoy themselves by sitting quietly upon their ancestors' graves. They jump around and kick balls as if they were paid to do it. Again you will find them making long tramps into the country; but that is probably a religious duty, for when they tramp they wave sticks in the air, nobody knows why. They have no sense of dignity, for they may be found walking with women. They even sit down at the same table with women, and the latter are served first."

RUSSIA IN CHINA. LONDON, September 23.—A dispatch to the Globe from Hongkong gives the details of a secret convention signed at Peking on March 27th. It appears that the Chinese thereby concluded an agreement with St. Petersburg by which China ceded Port Arthur and Talien Wan, stipulating that only Russian and Chinese warships enter or dock at Port Arthur. Russia it appears gets the exclusive use of the inner harbor of Talien Wan, the sole administration of the ceded territory and a tract of land north of Talien Wan designated as Buffer Belt.

THAT YACHT RACE. W. A. Wall, one of the time keepers in the recent yacht race, disclaims any responsibility for the delay in the decision of the senior yacht race, saying that the time keepers have made their report to the judges long since. Mr. Wall suggests that all parties interested in the purse forego their claims and donate the money to charity.

SUIT TO QUIET TITLE. A. Mouritz has commenced an action to quiet title against Mary Lewis, Kumukahi and Isaac Cockett for the December term. Plaintiff claims title in fee simple to the Ahupuaa of Mapulehu, on the island of Molokai, and wants the adverse claim of defendants throto adjudicated. A jury trial is asked for.

A DECREE RENDERED. In the case of M. F. Scott et al. vs. E. N. Pillip a decree of partition has been signed. A commission consisting of William A. Wall and J. D. Paris is appointed to examine the land, take testimony and report recommendations to the court as to the advisability of selling the land in question, what portions are suitable for division and whether certain portions of land shall not be deeded in fee in exchange for certain leases.

THEIR FALLEN COMRADES

REMEMBERED BY THE AMERICAN SOLDIERS. The Memorial Services at the Catholic Cathedral—Attended by About 600 of the Boys in Blue.

The memorial services for the soldier dead at the Catholic cathedral this morning was attended by about 600 of the soldiers from Camps McKinley and Otis.

The services were the requiem high mass, the Bishop of Panopolis officiating, with Father Cupper as deacon and Brother Adelbert as sub-deacon. Within the chancel was a black draped catafalque symbolical of the occasion. At the foot was a magnificent cross of white carnations sent by an Hawaiian lady.

General leave was given in both camps to all soldiers who desired to attend the services. They were put under command of Captain Sheahan of Company L, First New York, and marched into town in military order. Every company of the Engineers was represented. The New Yorkers sent a large number. About 100 of Captain Killan's company from the Nebraska regiment was in attendance. Every organization in camp was represented. General King and two members of his staff besides about a dozen company officers were in attendance.

Following the service in the church breakfast was served on the mission grounds by the ladies of the Cathedral congregation. Those having charge of this were: Mrs. McDonald, Mrs. Murphy, Mrs. Cunha, Mrs. Bowler, Mrs. McChesney, Mrs. J. Lucas, Mrs. J. Sullivan, Miss Pless, Miss Harrison, Mrs. Wight, Mrs. Zeigler, Mrs. Douglas, Mrs. Cowes and Mrs. P. Lucas. They were assisted in serving by a number of the soldiers, among them Privates and Non-Commissioned Officers Al Smith, Corbally, King, the camp vocalist; J. J. Kelly, O'Neal, Cullter, Burke, Isneal, Bagley, Graham and McGeen.

Breakfast consisted of coffee, sandwiches, bread and butter, pies and cakes. After breakfast a group photograph was taken showing the boys in blue, the church and churchyard, the ladies who served breakfast and many citizens who came as interested spectators.

DEATH OF GEORGE PAUNCEFOTE. In the Japan Mail the death is announced of George Pauncefote, who was well known here in 1872-3. He was a Shakespearean actor, and while here gave many recitations and also lectures in elocution. If memory serves he coached Major Hauke, then a school boy, in the part of Hamlet, which he appeared in at Iolani College. Mr. Pauncefote sailed for Japan in the clipper ship Ganges, and there established the Shakespeare Inn. In 1874, and was thus, at his death one of the oldest foreign residents of Yokohama. He was seventy-eight years of age at his death. Old Kamaeinas will remember him well.

THE LAW LIBRARY. In speaking of the law library this morning Chief Justice Judd complained bitterly of the practice of certain attorneys in taking away books from the law library and not returning them. Volumes of text books, reports and works of reference are missing, destroying the usefulness of the library and creating loss of time and temper to those who use the library. This is sent forth as a gentle reminder to delinquents.

CULEBRA ISLAND.

To be Made Coaling Station Instead of San Juan.

NEW YORK, September 21.—A special from Washington to the Herald says: If the recommendation of Captain C. M. Chester, commanding the cruiser Cincinnati, is adopted, Culebra Island, instead of San Juan, will be the site of the coaling station of the United States in the West Indies.

The investigation made by Rear Admiral Schley and Captain Chester has shown the unfitness of San Juan as a site for a naval station, because of the difficulty of entering the harbor, while battleships of great draught would find it difficult to secure sufficient water there.

Captain Chester examined Culebra Island, one of the former Spanish islands, lying between Porto Rico and St. Thomas, and found an excellent harbor, well protected by a coral reef and having twenty-nine feet of water. It can be easily dredged to a greater depth if desirable.

A DESERVED TRIBUTE.

Commenting upon the splendid service given the Colonies by the Oceanic Steamship Company, a late New Zealand Herald says:

"The regularity and punctuality of the mail steamers engaged in the San Francisco service are proverbial, and the Alameda, on her present voyage, has maintained the reputation of the line for rapid transit. During the time that the Union Steamship Company of New Zealand and Messrs. J. D. Spreckels & Co., of San Francisco, have had the mail contract, the steamers engaged in the service have never been once behind time in landing the mails at this port, and it is a matter of public comment that the steamers now make as good time as they did when they first started running on the line."

HIS HANDS WERE TIED.

"Our little boy broke out with eczema. We were obliged to tie his hands to keep him from scratching, and he suffered everything. We began giving him Hood's Sarsaparilla, and in a short time his face healed. He took five or six bottles and has not had a sick day since." Olney Soucie, Pioneerville, Idaho.

HOOD'S PILLS are the only pills to take with Hood's Sarsaparilla. Easy and yet efficient.

EXTRA SESSION NEEDED

CONGRESS CANNOT GET THROUGH IN FOUR MONTHS.

Business of Vast Importance Which Must be Acted On—Treaty of Peace Only the Beginning.

New members of Congress to be elected this fall are pretty likely to get a chance at legislation early next spring, says a late dispatch. It is becoming quite apparent to the administration that it will be necessary to call an extra session of congress soon after the adjournment, which will come on March 4th—the expiration of the term of the present Congress. The amount of business that has accumulated for the legislative branch of the government is amazing.

One of the first things to come up will be the work of framing new laws for the government of Hawaii. While little actual work will have to be done in this connection—thanks to the ability of the Hawaiian Commissioners who are preparing a report upon which to base legislation—the opportunities for debate will be almost unlimited, and there is no question that it will take many days of talk to dispose of this matter. Then there will be the subject of annexation of Porto Rico, or some disposition of the islands, which will come up. What is to happen on this in the talking line may be judged from the experience in getting Hawaii annexed. Cuban legislation will also be on hand, and the treaty of peace will have to be ratified by the Senate. This will take a long time.

The appropriation bills which will come up will give rise to an unlimited flow of debate. The regular army must be increased, according to the ideas of the war department, and this will cause a fight. Millions must be appropriated for the further construction of the new navy. The Philippine problem will be talked over, whether it is necessary or not, and Senator Morgan will bring forward plans for the construction of the Nicaragua canal early in the session. This is a subject that is really deserving of debate and consideration. It will receive both, for the tendency toward building the canal is growing. That bill is pretty certain to pass, but it will take a great deal of time in which to pass it for the reason that there are some senators who will attempt the old and familiar trick of talking it to death.

All in all, it will be a miracle if the urgent work of the session is cleared up before March 4th. Any one of the big matters left in an unfinished condition will undoubtedly be sufficient reason in the mind of the President for calling an extra session.

THE ALDEN BESSE.

SAN FRANCISCO, September 21.—The bark Alden Besse, which arrived yesterday, 22 days from Honolulu, had a most unusual experience off this coast. She was for over five days within 200 miles of the Golden Gate. There was no wind, and by the time the wind did come Captain Potter had almost given up hope of ever reaching San Francisco. On September 16th, at 8 p. m., when about 180 miles west of the Farallones, the Alden Besse encountered a heavy electric storm. The thunder roared and lightning turned the night into day. Heavy showers of rain fell at frequent intervals, but absolutely no wind accompanied the big storm. The storm continued until 10 a. m. of the 17th, and Captain Potter says that the occurrence was the strangest he had ever experienced.

Made From Hawaiian Fruit.

The Guava, like the Mango, a fruit which furnishes food for many a people throughout all tropical countries, possesses medicinal virtues which are certainly beneficial. A famous English writer, in treating on the subject, stated that the Almighty might have made a better fruit, but if so it had not been discovered.

Guava

Within our shores we grow a bountiful supply of these fruits, and as their value is well known the introduction of the name is sufficient to insure the endorsement of most all who have indulged in eating the fruit.

Cordial

We have prepared a Cordial from the fruit of the Guava which cannot be surpassed for correcting bowel troubles. A sure panacea for dysentery and summer complaint. Safe to administer to children. The taste is quite pleasant.

Corrects.

Most bowel correctants produce unsatisfactory results on account of their constipating tendency. Guava Cordial will not constipate.

Put up in 25-cent bottles. Ask your druggist for it, and take no substitute.

WEDNESDAY, OCTOBER 5 1898.

The Manila lottery was a favorite form of gambling in the Far East, and tickets were sold both in China and Japan. Now there is weeping and wailing among the fraternity that likes to try to make money without working for it, because it has realized that under American rule there will be no Manila lottery. The China Mail rejoices over the fact and says that the communities in the China coast ports and in Hongkong will be much benefited by having this source of temptation removed from them.

The labor market should be easing up somewhat. The Aztec brought 700 Japanese laborers last night, and according to the Japanese Mail two more lots amounting in all to 1200 men, will arrive in a few days. This certainly should do much to make things smooth on many plantations, which have been really suffering for want of hands. There does not appear to be much trouble in obtaining what labor is needed from Japan. This lot of laborers comes to the Islands through various immigration companies. They were arranged for under the rules of the Board of Immigration some six months ago. As long as Japan is open to the planter, together with the labor he will obtain from the mainland, it seems as if there will not be that labor famine that some predict.

A good commentary upon what would have come about under the opium law, had it been passed, is furnished by the police investigations into the methods of those men who have permits to smoke opium. It has been fairly proved that these men practically run opium joints on a small scale. They invite their friends in and all hands have a hit at the pipe. This was exactly one of the claims made by the opponents of the opium bill of last session. According to that law opium was only to be sold in certain stipulated quantities to those who were-registered opium smokers. The claim of those opposed to the law was that there would be false registration in the first place and that the registered men would establish joints in the second. And what the police have found out about the registered men now under the law as it stands, only goes to prove the absolute truth of the arguments against the opium law.

CONSTITUTIONAL RIGHT.

The first apologies for the employment of a member of the House of Representatives to do government work puts forward as argument, first that the individual in question has taken a contract to do certain work for the government, which is perfectly legal, and second that he is able in his profession. The latter point no one will deny, but it has nothing to do with the argument. The Star unhesitatingly agrees that Mr. Loebenstein is one of the ablest surveyors in the group. Whether he is or not, however, is not in question. The question is can a man who is a member of the Legislature accept pay from the government?

The Star showed clearly yesterday why it was that the framers of the Constitution put in the clauses that they did. No one for a moment charges the present Cabinet with acting as it did from improper motives; it is merely a question of abstract right or wrong under a given premiss.

The contention in defense is that a contract to do certain work for the government is not barred by the article in the Constitution. Let us see how that might work. There is no specific appointment in the appropriation bill for the High school. Simply a lump sum is voted to the Board of Education. What is there to prevent a Cabinet making an arrangement with a member through the Education Department to take a contract to run the High school. Or why could not a member take a contract to look after the roads of certain districts, or to collect the taxes, or carry the mails round the Island of Hawaii, or take the census, suppose there was the time for gathering that information, or in fact there is no end to the "contracts" which might be made by

which a member might be rewarded for services rendered.

It was to stop any system of rewards that the Articles 42 and 43 were formed. Far be it from The Star to insinuate in any way that the present case is one of reward, but it is the thin end of the wedge which, had we unscrupulous men in the cabinet, might be used with fatal effect to the freedom of action of the House of Representatives. It is in no spirit of captiousness that the criticism has been made, but it is in the spirit of duty which every public print owes to its constituents that what appears to be unconstitutional should be discussed and made plain to the people.

THE HOLD UP.

There is a very strong feeling in town about the occurrence of Monday night, and much comment is made. Had the two officers been civilians they would undoubtedly have ended their escapade in the cooler and would have appeared before Judge Wilcox in the morning. But men who have special immunities should take special care to avoid giving cause for offense, if not on their own account, at least on account of their cloth. For an officer who misbehaves casts a slur upon his fellow officers.

It is not for a civilian to express what measure of military punishment should be adjudged, that is either for the commander directly in charge, or for the authorities in Washington to decide. But a man because he is an officer should not be shielded for an escapade of this kind, when a private in the ranks would be summarily dealt with.

An officer of the New York volunteers visited this office yesterday seeking information as to the effect of swipes, upon the making of which an article recently appeared in these columns. His object in seeking this information was to save, if possible, a private soldier, who had misbehaved while under the influence of the drink. He stated that the man stood a show for imprisonment.

No one expects soldiers to be angels. They live hard, and their amusements may be rough. But we have had, up to now, an excellent experience with those troops that have been here, and the whole army, or the whole regiment should not be condemned for the escapades of a few. There are plenty of good officers and plenty of good men.

THE PERFECT PLOWS

In all agricultural countries it is on a good plow that the tiller of the soil relies for a good crop. We carry all kinds of plows from the large

Sulky Plows

to the smallest

Rice Plows

But it is on our

Plantation

Breaking and

that we chiefly pride ourselves. These are in use on nearly every plantation on the Islands. Only within the last three weeks we have sold a number of the large plows to take the place of place of plows from other firms which had been returned as unsatisfactory.

The great advantage of the Perfect plow is that it requires less animals to draw it, and cuts an excellent furrow without digging down.

The matter of 5 or 10 cents upon a hundred pounds of feed should not concern you as much as the quality, as poor feed is dear at any price.

ON ITALIAN COLONIZATION

TERMS OFFERED HERE ARE NOT GOOD ENOUGH.

What Other Countries are Offering for the Best Class of Italian Agricultural Laborers.

Leaving out the question of desirability of Italians as citizens, it is said to be a matter of grave doubt whether the agricultural classes of Italy could be induced to emigrate to Hawaii on the terms offered by the planters. The Italian agriculturist wants a little land of his own, which he can cultivate for his own benefit. He does not want a little garden patch which may be his today and somebody's else tomorrow. The inducements offered by the Hawaiian planter are not comparable to those offered for the same class of labor elsewhere. Take the Argentine Republic for instance. The laws of that country offer the intending emigrant not less than twenty acres in fee simple, together with free passage for himself and family and provisions and seed enough to last him until his first crop is produced. He is even allowed the use of government teams and plows when required. Where special colonies are formed even greater inducements are offered, even to the extent of 160 acres of land to each head of a family.

Owing to these liberal inducements the best class of Italian agriculturists are to be found in Argentina. The inducements held out to Italian mechanics are also great; in fact, with the exception of a few English and Scotch mechanics of a high class, they have a monopoly of mason work, of brick laying, marble cutting, painting and frescoing, carpentering, etc. Out of a population of about 700,000 in the city of Buenos Ayres alone there are 40,000 Italian laborers and mechanics. Steamship travel to Italy is something enormous, there being no less than seven lines plying to Naples and Genoa, first class steamers of 14 to 18 knots. The rate of steerage fare is so low, \$20 for single trip and \$30 for the round trip, that large numbers of laborers make a practice of spending about eight months at work in Argentina and the other four in Italy in the wine season.

The climate of the Argentine Republic is very similar to that of Hawaii, but somewhat cooler. The Brazilian government offers greater inducements to immigrants but the climate is such that immigration is light.

Venezuela is the latest in the field with offers for Italian labor. The inducements offered may be gathered from a contract which has just been signed by the Italian Colonization Society and the government of Venezuela, under the terms of which the Company will send 3,000 families of agriculturists to Venezuela in three years. The Venezuelan government promises to give each family 15 acres of good land, and the association will provide houses, other buildings, animals and farm implements. After four years the houses will become the property of the colonists.

A PLEASING CONCERT.

The Amateur Orchestra Provides a Creditable Entertainment.

A large and enthusiastic audience attended the initial concert given by the Amateur Orchestra at Y. M. C. A. hall last night. The capacity of the hall was tested.

The orchestra presented three numbers and Wray Taylor, who wielded the baton, ought to feel encouraged by the result of his aim of cultivating genuine musical taste, appreciation and effort.

The concert introduced several new singers and instrumentalists. Miss Maud Kinney in her violin solo, showed a grasp and understanding of the principles of her instrument which augurs well for her future.

E. A. Sherman made a good impression in his bass solo. Mrs. E. V. Titus and Mrs. Howard were most pleasing in their duet. Mrs. E. W. Glade has a captivating manner that brought a recall. Professor F. W. Jacobs and Professor Jacobs, the blind vocalist from San Francisco were both meritorious. W. A. Eames showed himself a master of the technique of the guitar.

It is to be hoped that this is only the first concert of a series under the same auspices.

THE CASE OF MARIA BROWN.

Legal Fight Over the Guardianship of the Ruttman Child.

A peculiar case came before the supreme court this week on appeal from the Fourth judicial circuit. It being the aftermath of the Ruttman case in Hilo, in which a newly born child of the Ruttman's was thrown into a cesspool and left to die. The child was rescued and cared for by Policeman W. C. E. Brown and his wife, and afterwards letters of guardianship over the waif, who was named Maria Brown, were granted to Brown by Judge Hitchcock. Otto W. Rose, claiming to be an uncle of the child, afterwards filed a cross petition for guardianship by right of relationship, which Judge Hitchcock denied, and he now appeals to the supreme court, which has heard argument and taken the case under consideration.

SUPREME COURT.

In the supreme court this afternoon Judge Whiting, L. A. Thurston and J. T. de Bolt occupying the bench, argument is being heard in the case of E. C. Macfarlane vs. E. K. Wilder.

Scrofula, which is one of the worst affections of the human race, and comes from impure blood.

Eczema, a most offensive and uncomfortable affection of the skin, also due to impure blood.

Pimples, which so disfigure the skin, and make the human face divine anything but a thing of beauty, but which are Nature's advertisement of foul blood.

Catarrh, which very often comes from a chronic affection of the circulation, is a constant offense to one's self and all his friends.

Rheumatism, which all authorities now attribute to various acidities in the blood, which this great blood purifier of the age, Hood's Sarsaparilla, corrects.

Hawaiian Electric Company.

The cleanest, brightest, safest and really the longest run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks." This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want. We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

Came Very Near Dying

Blood Bad; Abscesses Formed; Health Gone.

We are glad to publish the testimonial of Mrs. Anne Snook of Auckland, New Zealand, who suffered intensely for years, and who was quickly cured when she obtained the right remedy.

"I was a strong, healthy woman until about five years ago, and while living in England was recovering from an attack of measles. I took a chill, had a relapse and came very near dying. My blood was left in a very bad state, abscesses formed on my body. I was confined to my bed two-thirds of the time. At times I was unable to move. For two years I failed to obtain any relief. So finally I was advised to come to New Zealand. After coming here I remained about the same, trying many remedies without obtaining any benefit. About a year ago after reading one of your advertisements I determined to try

DR. AYER'S Sarsaparilla

Very soon after using it the abscesses began to heal and my general health very greatly improved. I followed up the treatment and am now as strong as ever. I cannot too highly recommend Ayer's Sarsaparilla as a blood purifier and tonic.

For constipation take Dr. Ayer's Pills. They promptly relieve and surely cure. Take them with Dr. Ayer's Sarsaparilla; one aids the other.

GOING INTO COMMISSION

CRUISERS CHICAGO AND ATLANTA READY FOR DUTY.

Navy Department Sends Cruisers to Atlantic Station and Gunboat Yorktown to China Seas.

NEW YORK, September 20.—The Washington correspondent of the Herald telegraphs: It is the intention of the Navy Department to place three men of war in commission during the coming month. These are the cruisers Chicago and Atlanta, which have been undergoing repairs at the New York navy yard for two years, and the gunboat Yorktown, which has been put in condition for service at the Mare Island navy yard. The Chicago and Atlanta will be assigned to the North Atlantic fleet until the conclusion of the treaty of peace with Spain, when their future station will be determined.

The Yorktown will be assigned to the China station, where the need of smaller gunboats in the waters of China and the Philippines is especially felt.

Captain P. P. Cooper has been assigned to the command of the Chicago and Commander C. S. Perry, the equipment officer of the navy yard, has been selected to command the Yorktown. So far as can be learned, the Atlanta's commanding officer has not been determined upon. It will not be surprising if the Chicago is assigned to the European station to be relieved by Commodore J. W. Philip, in command of the second squadron of the North Atlantic fleet, in the event of continued peace, and assign him to duty as commandant of the Boston navy yard, is regarded as indicative of the intention of the authorities to send Commodore H. L. Howison to sea. As the European squadron will be the only commodore's post which will be vacant, it would not be surprising if he were assigned to that command.

COFFEE STATISTICS.
The Oloa planters have appointed members of their association to gather all the data of that coffee district, for the 1899 edition of Thrum's Annual, and to furnish an article on coffee planting for that work.—Hilo Tribune.

NEW JAPANESE TARIFFS

GO INTO EFFECT THE FIRST OF THE YEAR.

Export Duties are Abolished—Prison and Judicial Reform will be Taken Up—New Postal Status.

YOKOHAMA, September 21.—The new Japanese customs tariff, it is definitely announced, will go into effect on January 1, 1899. The ratification of the new commercial treaty with Austria concluded on December 5, 1897 has been gazetted, as also a notification to the effect that an agreement has been concluded between the two governments for the enforcement of an additional treaty on January 1st next, authorizing the application of new new tariff on specified goods imported into this country from Austria and Hungary.

The export duties will be entirely abolished simultaneously with the enforcement of the new tariff on January 1st. The reduction in revenue of two and a half million yen will be more than compensated for by the increase in the import receipts of about ten million yen. The home department has now be-

A CRITICAL TIME

During the Battle of Santiago.

SICK OR WELL, A RUSH NIGHT AND DAY

THE PACKERS AT THE BATTLE OF SANTIAGO DE CUBA WERE ALL HEROES—THEIR HEROIC EFFORTS IN GETTING AMMUNITION AND RATIONS TO THE FRONT SAVED THE DAY.

P. E. Butler, of pack train No. 3, writing from Santiago de Cuba, on July 23rd, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush, and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect savior of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrades and myself had the good fortune to lay in a supply of this medicine for our pack train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by all druggists and dealers. Benson, Smith & Co., wholesale agents for Hawaiian Islands.

A WONDERFUL COMPANY.
From the Victoria Daily Colonist: There is probably no company in the whole world that enjoys such a reputation for reliability as the Kickapoo Indian Medicine Company. Their remedies have been the marvel of all classes of people all over the civilized world. Each and every remedy has a reputation for itself. Many people in British Columbia today can only thank the Kickapoo Indian medicines for their lives. Thousands who have suffered for years with dyspepsia, catarrh, rheumatism, dropsy, liver and kidney disorders, have been cured by using Kickapoo Indian Sagwa. Kickapoo Indian Oil acts like magic in the case of aches, pains, sprains, etc., while Kickapoo Indian salve has mystified all who have used it upon old sores, skin and cutaneous diseases. Kickapoo Indian Pills have proven themselves the best for chronic constipation or headaches. Kickapoo Indian cough cure cures where all others fail.
Thousands of women who thought nothing was left for them but to undergo dangerous operations have been cured by Kickapoo Indian Prairie Plant. Children's lives are saved by using Kickapoo Indian worm killer.
