A BRAKEMAN KILLED.

HENRY FERN LOSES HIS LIFE IN THE OAHU RAILWAY YARDS.

Was Handy at the Work, but Became Careless—A Young Man Whose Love Is Felt.

Henry Fern, Hawaiian, aged 21, nephew of the car driver by the same name, was run over by an Oahu Railway flat-car at 3:30 Wednesday afternoon and killed.

The train, a freight, was shifting two cars from one side track to another. Fern was in the car shop when the accident occurred.

The train was backing slowly, but before it could be stopped the wheels had crossed over him, mangling his legs and body on the left side.

Superintendent Dennison was two cars behind the poor fellow when he went down. The engineer was a Portuguese. Maguire, the yard man, was close enough to witness the whole of the accident.

All heard Fern's death scream, and the engine's lever was instantly jerked back. The train moved perhaps 25 feet.

When Superintendent Dennison realized the situation he called loudly for help. Every man in the shop and on the yard responded.

For Fern was then lying between the trucks, fastened under the wheels, torn, bleeding and in a dying condition. The car was jacked up and inside of five minutes Fern had been carefully removed from under it.

In the meantime Dr. Herbert had been summoned by telephone and arrived post haste. He was at the depot in five minutes after the call.

Nothing could be done for the wounded man and in a few minutes he was dead. Henry Fern was well known. He was a graduate of Kamehameha school. Of late years he has been conspicuous in many sporting events of the H. A. A. C. and in the events of the field days of the colleges.

He played football in the last meet of the city teams. He was a member of the city team.

Do you want anything better than that?

NO TROUBLE TO SHOW GOODS. We challenge anyone to sell the same goods for the same money.

Irritating and Disfiguring ERUPTIONS

On the Face, Cured by Ayer's Sarsaparilla

Remarkable Experience of Miss Dorothy Maher, Pittsburg, Victoria, whose portrait we are privileged to give below.

"I take pleasure in testifying to the great benefit I derived from Ayer's Sarsaparilla. I suffered from eruptions on my face of a very irritating and vexatious nature.

For a considerable time I experimented with various so-called blood medicines, but without any alleviation of my trouble.

At last, your Sarsaparilla being strongly recommended to me, I began to use it, and after taking two bottles it was most gratifying to see and feel the effect in allaying the irritation and reducing the eruptions.

When I had used three bottles the eruptions disappeared altogether, without leaving a mark on my face, and I have never been troubled with anything of the kind since."

AYER'S SARSAPARILLA

How Patent Leather is Made.

Japanese leather, generally called patent leather, was first made in America.

It is made from the hide of a cow, which is first tanned in calfskin in France. The leather is curled expressly for this purpose, and particular care is taken to keep it as free as possible from grease.

The skins are then tacked on frames and coated with a composition of linseed oil and turpentine to the proper consistency. Lamphole is also added when the composition is applied in order to give color and body. From three to four coats of this are necessary to form a substance to receive the varnish. They are laid on with a knife or scraper. To render the goods soft and pliant each coat must be very light and thoroughly dried after each application. A thin coat is afterward applied of the same composition of proper consistency to be put on with a brush, and with sufficient lamphole added in it to make a perfect black. When thoroughly dry, it is cut down with a scraper having turned edges, when it is ready to varnish. The principal varnish used is made of linseed oil and turpentine, boiled to the thickness of printer's ink. It is reduced with spirits of turpentine to a suitable consistency to work with a brush, and then applied in two or three separate coats, which are scraped and polished until the leather is perfectly filled and smooth.—New York Telegram.

Tricks of Ancient Gold Workers.

There is a pagurus which gives recipes for various alloys used in the manufacture of cups and vases, for making gold and silver, for coloring and staining, and for testing the purity of precious metals.

Other recipes teach the method of falsifying gold by adding base metal—an operation called diluting, or doubling, for the mass of the gold and silver was doubled, and the color remained unchanged, and, as the compiler of the manual remarks, a skilled workman would find it difficult or even impossible to detect the fraud. The recipes which recur most frequently describe various modes of preparing a metal which originally was not a natural alloy of gold and silver known to the Greeks as electrum. It was at first looked upon as a distinct metal, was considered sacred to Jupiter and was designated by the sign of that planet, but at a later period the name was applied to all alloys, and M. Berthollet remarks that in this fact seems to lie the explanation of the origin of alchemy. Both gold and silver could be extracted from genuine seams, and it seemed as though it could be changed at the will of the operator into either one or the other. It would also be made artificially by mingling gold and silver, or closely mixed by some other means, such as rolling, or by the use of a mallet, or by the use of a hammer, or by the use of a pestle and mortar, or by the use of a pestle and mortar, or by the use of a pestle and mortar.

As a Snake Charmer.

Steady now! Steady! Now you hold her. Look sharp! Luff her, you fool! Luff! I say! Oh, Lord, why don't you luff her? There she goes! Ah! Oh, my! Oh, my! she comes up into the wind beautifully that time, though! Easy! Let her off—easy—on about. Great Heavens, how it blows!

Had a port! Jump, jump her! Quick, quick! For goodness' sake, luff her! Starboard, starboard! Hard alee on the other tack! Luff her, luff her, luff her! Starboard, starboard! Oh, my! Oh, my! luff her! Put her back! Let everything go! For heaven's sake, catch it!

Bang! Bang!

Gentle reader, is this a harrowing description of a terrible shipwreck, to be contained in the next number of "The Weekly Arabian Nights"?

Nay, it is simply an old friend Chilly talking to himself while trying to navigate his new straw hat and tie five inch brim up Broadway in a gale of wind.—Truth.

WEEKLY STAR, \$4.00 per year.

Yale's La Freckla

is Miss Yale's infallible cure for Freckles, Tan and Sunburn. It is the only remedy ever compounded that will remove freckles so completely and surely.

The freckles and more delicate the skin the more likely it is to freckle and the more it will look after it is freckled.

Thousands of women, otherwise beautiful are disgraced by these unsightly, brown blotches. Nothing will hide them. They are a source of misery, but they can be cured. La Freckla is the death-warrant to freckles.

The preparation of La Freckla is one of Miss Yale's greatest achievements. There are many imitations, some of them very dangerous and harmful to the skin; none of them really effective. For safety and certainty, insist always on getting the genuine and original La Freckla.

Price: \$1 at drug stores, or by mail, M.M.F. YALE'S Health and Beauty specialties, 116 State St. Chicago. Beauty Guide mailed free.

THE HOBSON DRUG CO., Sole Agents.

IF THE SUN WENT OUT.

What Would Happen if the Orb of Day Suddenly Became Extinct?

The boldest imagination may well stand appalled at the consequences of a sudden extinction of the sun. For 24 minutes—the length of time that it takes the light of the sun to reach the earth—we should not know that anything had happened. Then the darkness would fall upon the world, neither the moon nor the planets would give any light, and the five stars would shine like tiny points of fire out of a coal black sky.

The moisture of the atmosphere would be condensed and fall on the ground as rain. The heat of the sun would be lost, and the earth would rapidly cool. The atmosphere would be so cold that it would be impossible to breathe. The water of the oceans would freeze, and the world would be a frozen wasteland.

Without the sun, life on earth would be impossible. The sun is the source of all life on earth. Without it, the world would be a dead, frozen wasteland.

Ripans Tabules

James D. Lynch, who lives in Depew Avenue, Nyack, is salesman for a New York printing ink manufactory, and although not a drinking man, it is not infrequently happens that while discussing the qualities of inks with a pressman, the two are led to discuss sundry glasses of beer and that sort of thing.

Sometimes, as a result of his operations, Mr. Lynch used to notice a dark brown taste in his mouth of a morning. One day a friend told him about Ripans Tabules. He procured a supply, and now he always takes two before going to bed.

"When I get up in the morning my head is as clear as a bell, and I think they are the greatest medicine ever made. I actually do!" These were Mr. Lynch's earnest words.

Ripans Tabules are sold by druggists, or by mail if the price 50 cents a box is sent to the Carter-Lewis Company, No. 16 Spruce St., New York. Sample 50 cents.

FUR THE FAVORITE.

It is impossible to overstate the importance of the most approved styles, especially in trimmings, and fur manufactory is mentioned as the leading favorite this winter.

New ways of employing it are continually being sought out, and its value as a protection against the cold is being more and more appreciated. All varieties of fur are worn, and as the fashions of different animals show great diversity of color and fur are used in combination with each other there is room for much originality of design and idea to display itself.

Sable used to be considered only suitable for the wear of mature women, but now we have changed all that, and the richest furs are quite as likely to be seen upon a young person as upon a middle-aged one. The same may be said of valuable lace and brocades. The question of age seems to be entirely set aside, and youthful fancy runs riot among the costliest furs and fabrics that the market offers. The old-fashioned, reserved, rich and sumptuous attire for maturity is rather a pleasing and certainly a reasonable one, however, for dignity and respect seem more appropriate to magnificence than do frivolity and activity.

MARKING BALLOTS.

Mr. Holstein's contest with Mr. Young for the Hawaii Senatorship is based upon the marking of two ballots.

The court returned developed a tie. Holstein claims the seat by petitioning that two votes included in Young's total be thrown out entirely.

Of course the names of the two candidates appeared on a single sheet and preference was to be indicated by placing a cross after the name of the man favored.

In one instance Mr. Young's name was also written on the ballot and in the other there was a double cross after his name.

This case brings the election law before the Supreme Court for interpretation. That body will decide whether the many detail requirements of the system are strictly mandatory or in a large measure directory.

A number here are ardent and fixed for support and enforcement of the letter of the statute. This is chiefly on the ground, as this question occurs, that there should be absolutely effective provision against any possibility of having a ballot so marked by any means that it could afterward be identified.

ART AND COMMON PEOPLE.

There are features and phases of the local esthetic world apparently overlooked altogether by the Kilo-hana Art League. One of these is especially worthy of note and of the study of the devoted students of the philosophy of taste.

The popular pictures in the homes of these common people are two of the art print supplements issued by THE STAR, President Dole and Gladstone being the subjects. These sheets are found in all the homes and are highly prized.

Recent arrivals brought us some handsome little Ormulu clocks. Keep perfect time. Are both good and cheap.

You won't lose your keys if you have a ring. We have some in polished nickel-steel. Get one; you won't regret it.

Chicago papers at ten (10) cents a copy are being peddled about town, and some are bought, although the Evening Bulletin gives double value for half the money.

A horse belonging to a King street store keeper was overcome by sleep yesterday and lay down for a nap.

THE STAR of the 13th sold like hot cakes at Martini's.

If the Government will always act on the suggestions of the Independent, it will be a permanent government and truly the "best" government Hawaii ever had.

THE STAR of last night states that during the circus performance at Ewa, Nigel Jackson was quite badly injured.

Just Like the Bulletin. (Evening Bulletin.) THE STAR of last night states that during the circus performance at Ewa, Nigel Jackson was quite badly injured.

Timely Topics.

The last mail brought good news for the people of these islands. It is stated that there will be no grinding of sugar cane in Cuba this year, owing to the rebellion, and consequently the world's supply will be decreased by 1,000,000 tons.

In pursuance of an order made by the Hon. W. A. King, First Judge of the Circuit Court, for the First Circuit, in a case entitled Wong Wa Foy, et al., vs. Kaili Kaili et al., duly filed in said court, on the 24th day of December, 1895, the undersigned will offer for sale at public auction, at marks entrance to the Judiciary Building, on

FRIDAY, JANUARY 31, 1896, at 12 o'clock noon.

All of the undermentioned and described lands, situated in the Island of Oahu, belonging to the estate of the late Felipe Kakuhi, deceased intestate. As the widow's dower in said estate is to be awarded to her in money, this sale will therefore include her interest in all the lands to be sold.

LIST OF THE LANDS: LOT 1. One hundred and dwelling thereon in Kapukuku, Honolulu, being R. P. 2728 of L. C. A. 28 to Kilauea, containing 40-100 of an acre, more or less.

LOT 2. Two pieces of land adjoining the above being R. P. 2282 of L. C. A. 65 to Kilauea, containing 23-100 of an acre more or less.

LOT 3. Two pieces of land in Malamauna, Kailua, Koolaula, being R. P. 1431 of L. C. A. 530 to Kaili, containing 1.28 acre more or less.

LOT 4. One piece of land in Moanaloa, being R. P. 351 of L. C. A. 1217, to Pakiki, containing 35-100 of an acre more or less.

LOT 5. One piece of land on Kailua, near the lands of Gaspar Silva of Wailana, and Johnathan Shaw of Honolulu, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 6. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 7. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 8. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 9. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 10. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 11. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 12. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 13. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 14. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 15. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

LOT 16. One piece of land in Kailua, being R. P. 1650 of L. C. A. 422 to Kilauea, containing 1.28 acre more or less.

VOCAL INSTRUCTION.

ANNIS MONTAGUE (Mrs. Chas. Turner) Takes pleasure in announcing that she is prepared to receive pupils at her residence, in correct and natural production of the voice, based on natural and artistic principles, and applying the Italian Method to English singing, regulating and developing the voice equally throughout the entire range of the voice given by the mouth, quarterly or by a series of eight, twelve, or twenty-four lessons. Apply personally or by letter.

W. H. RICKARD, General Business Agent, Will attend to CONVEYANCING in all its Branches, COLLECTING, and all Business Matters of Trust.

All Business entrusted to him will receive prompt and careful attention. Office—Honolulu, Hawaii.

Forty Tom Gats

tied together by the tails would not make as much noise on these cold mornings as one of our

ALARM GLOGKS.

Fellow tried one the other day; and the only way he could stop it was to fire a brick at it. Trouble was, he didn't know how to handle it; wound it up in full, and of course the blamed thing wouldn't stop until it was ready. One turn is enough to rouse the heaviest sleeper. They're not cheap—they're good—and that's what you buy an alarm clock for. Talk about clocks. We have so many we have to keep them under cover. Store wouldn't hold them.

H. F. WICHMAN.

COFFEE ESTATE AND LANDS FOR SALE.

I am directed to sell at Public Auction on Wednesday, May 27, 1896

at 12 o'clock noon of said day at my sales rooms on Queen street, in Honolulu, (unless sooner disposed of) at private sale the following described property, namely:

A tract of land about 2,300 acres in fee simple situated at Kolo and Ololemana in the South Kona, Island of Hawaii, about eight miles by a good road from Hilo, one of the largest villages in Kona. There is an excellent landing on the land itself from where the coffee and other produce could be shipped and a good site for a mill near the landing. Fifty acres of land are in coffee. Roughly estimated there is about seven hundred acres of splendid coffee land lying all in one block in both sides of the Government Road. Right divided across lying above and to the East of the seven hundred acres above mentioned is also excellent land and situated at a higher altitude is no doubt also well adapted for coffee culture. The low land below the coffee belt is suitable for pineapples and such. There is a drying house, store and work rooms, a Gordon's pump, laborers quarters and water tanks at the plantation and the land is partly well. There has never been any blight on this land, although coffee was planted there a great many years ago. Old residents of Kona like the late H. H. Nahini, J. W. Kumukahi and others have testified to the fact. There is a saw millery adjacent to Ololemana.

Terms cash or part of the purchase price can remain on mortgage at eight per cent. per annum. Deeds and stamps at the expense of purchaser.

A map of the property can be seen and further particulars obtained at my sales room.

Jas. F. Morgan, AUCTIONEER.

BY TELEPHONE TO M'GINTY.

How a Submarine Diver May Talk Through His Helmet. M'Ginty may now be interviewed at the bottom of the sea, and the submarine diver may hereafter talk through his helmet without being called down when he had rather be called up. He may also talk with other divers elsewhere beneath the waves on the same mission bent, thereby securing greater economy of effort and pathos in the necessarily limited time at their disposal beneath the water.

These advantages are secured by an adaptation of the telephone made by Wrecker Whitehead of San Francisco, who has devised certain improvements on the Bell instrument to fit it for submarine use. The transmitter and receiver are placed within the diver's big brass helmet, one at his lips and the other at his ear. They do not in the least change the appearance of the cumbersome hood nor cause any appreciable difference in weight. The wires run up to the surface through the tube which supplies the diver with air. Electricity is employed to form the sound down into the water, but the magnetic telephone permits transmission of the reply without direct electrical agency. The wire is not grounded.

When the diver wants to talk, there are no preliminary pulls at the line, as in the case of a diver's bell, but he speaks and does not have to wait in his work and does not have to wait in his work and does not have to wait in his work.

THE M'GINTY SUBMARINE TELEPHONE. vote his hands to getting the attention of the people above. He simply talks in a common tone, and the answer comes distinctly and quickly.

It needs but a moment's thought to understand how this improvement in communication will facilitate the diver's work. Another great advantage is the lessening of the risk he takes. When the only method of signaling is by tugging at the life line, there is a chance for fatal mistakes. The line may become fouled and useless or be wrenched by floating debris into giving false signals. With the telephone in use there can be no false signals, and the message the wire carries upward cannot be checked by any accident that does not also cut off the diver's supply of air by severing the tube through which the wire runs.

The submarine telephone is no longer an experiment. It has been placed in actual use at Point Benita, on the northern shore of the Golden Gate, where the wreckers are at work on the Pacific Mail steamer City of New York, which was sunk there last year. Hereafter as submarine diver's outfit will be up to date unless it includes a telephone.

Cold Comfort. Miss Prettle—Why didn't you tell me my hair was in such a state? Lord Nabobs must have noticed it.

Miss Beattie—No need to worry, my dear. I am sure he did see it. He didn't ones look at you.—New York Week.

PUNAHOU COLLEGE TRACT. Having placed on the market this magnificent tract of land, divided into a number of large house lots we most cordially call the attention of home seekers to it. This tract is bounded by Makiki street, Wilder Avenue and Punahou street, at an elevation of about 75 feet, gently sloping towards the sea. A fine panoramic view can be had from the upper portions. These lots are offered at a very reasonable figure. By calling at our office we shall be pleased to give further information in regard to prices and terms. BRUCE WARING & CO., 308 Fort Street, near King Street. No charge for making deeds.

For Sale. I have 12 Houses and 26 Building Lots for Sale this week. All in desirable locations. Any one desiring to make a good paying investment will do well to call on me. The above properties will be sold on easy terms.

PERSONAL. H. S. Ewing, clerk for Waterhouse, is very ill at the Queen's hospital. C. D. Chase and family have moved to a cottage at Wright's Villa, Waikiki.

THE REGIMENT. D and the Field Pieces—New Members—The Big Show.

IN OLDEN TIMES. People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well informed people will not buy other laxatives, which act at a time, but finally injure the system.

The Woman's Era. Within Her Sphere She Reigns Supreme. Woman claims her own. Her field widens constantly. Every day brightens her prospects. Her progress foreshadows the greater triumph at hand. Emancipation and equality will be hers in the years to come. Prophetic of final victory were her achievements at the World's Fair. At her shrine there erected the nations bowed. The lesson taught at the "Woman's Building" will last "till time shall be no more." Their enlightening influence will be felt around the globe throughout the dawning century. Only less memorable were the honors gained at the Fair by Dr. Price's Cream Baking Powder. The highest award conferred on this peerless preparation, is a fitting accompaniment of the laurels won by the women of America. LEWIS & CO., Agents, Honolulu, H. I.

No business in Chambers again today. Circus tonight; best seats 75 cents. Four che fa players were arrested at noon. Mutual Telephone Company has declared a dividend. The Board of Education is in session this afternoon. The Healan crew will practice again at 4:30 this afternoon.

M. De Gouveia, bankrupt, has been discharged from his debts. The American League will hold a business meeting this evening. Cut out the list of new subscribers to the Mutual Telephone system. Louis T. Grant has made a successful trial run of the Hilo electric light plant. Work of building a forester's house at Molokai will be proceeded with at once. Cook's singing class at the Y. M. C. A. closes Friday. There were 30 scholars at the time. Chief Clerk Hassinger of the Interior Office is again confined to his home with neuritis. Marshal Brown is still sick. Fever is the trouble. He has not been down twice Sunday. There will be a pig hunt at Wirth's Circus tonight. The first one to touch the grunter gets him. There was a scramble for reserved seats for "Meredith's Old Coat" at Hobron's at 9 o'clock this morning.

British Commissioner Hawes entertained the Queensland Statesmen and local friends at dinner Wednesday evening. Next Monday will be the anniversary of General William's birth. The day will be observed here in the usual manner. Company D has given the Sharpshooters permission to use its target at Makiki when the latter desire to shoot out there. Appraiser Fishel of the Custom House has been for several days in the midst of piles of sweet smelling wares from the Orient. There were only three cases on the District Calendar this morning. Two of these were dismissed and the third was postponed. The report that U. S. Minister Willis will resign on account of ill health and return to the United States is officially denied. Prof. W. T. Brigham of Bishop University will leave by tomorrow's steamer on his trip around the world. He will stop over at Fiji. HEWITT SUIT. More of the Spectacles (Harrel and Pa. Cohen Shares). Rudolph Spreckels, by his Attorney P. L. Wooster of San Francisco, has begun a civil suit in the Circuit Court against Walter M. Giffard, agent of W. G. Irwin & Co., to restrain him from cancelling and reissuing certain Paauhau stock. The case is, in a measure, connected with the suit brought by the Spreckels' boys against Claus Spreckels in San Francisco in which 500 shares of the same stock figures. The complaint states that Mr. Giffard owned 3000 shares of Paauhau stock. He sent 2500 shares to Allen & Lewis of Portland and delivered the same, endorsed in blank, on Jan. 2, to Allen & Lewis straightaway deposited the stock with the Nevada Bank of San Francisco, with instructions to take such proceedings as would insure their protection.

They said to the Nevada bank that they did not desire new certificates unless the same were absolutely necessary to their protection in the premises; that they were willing to give notice of the transfer of stock to the officers of the company if that also was necessary. But if their interests could be protected by simply having the stock transferred, to surrender the shares and have new certificates issued. Mr. Spreckels adds that he believes the stock was sent by the Nevada Bank to Spreckels Bank here, and is now in the hands of Mr. Giffard, who represents the bank interests and also those of the Paauhau Sugar Company. What he requires is the proper entry of the transfer of stock to Allen & Lewis is made in the corporation's books; that Mr. Giffard do not cancel the certificates, believed to be now in his hands for that purpose, and do not issue new ones. Mr. Spreckels tells the court that there is great danger of his suffering irreparable loss if such orders are not given. Mr. Giffard is at present out of town. Earthquake Last Night. The Weather Bureau reports that there will be light showers in the city this evening and tonight. There was a slight earthquake shock at 2:45 this morning. Vegetable Trade. This morning the police drove the Chinese vegetable hawkers, who block up Maunakea street, from that quarter. They were told to go to the market where there was plenty of room. This the Celestials did, but were surprised on arriving there to find that they had to rent stalls. As peddling of vegetables is allowed they will do this until the stalls are again open for rent.

IS ASTROLOGY A FAKER? Thousands of sober, sensible people are firm believers in Astrology, while some thousands laugh at it. The believers have tried it, the unbelievers, as a rule, have not. The great interest taken in this ancient science has led the Angier Chemical Company, Boston, Mass., to devote the larger part of a booklet to twelve horoscopes representing the twelve periods of the year, giving the lucky and unlucky dates of those born in each period. These horoscopes (which include yours) were cast by one of the world's most eminent astrologers. The Company says they neither confirm nor deny the claims of Astrology, but they do say that a copy of this entertaining and instructive little book will be forwarded to our readers if they send their address to HOBSON DRUG CO., Agents.

Chamberlain's Cough Remedy is famous for its cure of bad colds. It opens the secretions, relieves the lungs and aids nature in restoring the system to a healthy condition. It is as effective as soon as the cold has been contracted. It is a safe and certain remedy for the system. It has become settled in the minds of the people that it is the best remedy for a cold. For sale by all Druggists and Dealers—HOBSON, SMITH & CO., Agents for Hawaiian Islands.

KICKED THE BUCKET. Highest of all in Leavening Power.—Latest U. S. Gov't Report. Royal Baking Powder ABSOLUTELY PURE. SALE OF FRESH FISH. OF CENTRAL UNION. AN REPORT TO ESTABLISH STALLS AT VARIOUS CITY POINTS. REPORTS FROM OFFICERS READ AT ANNUAL MEETING.

Records of 1895.—Pastor Encouraged.—Steady growth of the Sabbath School. The annual meeting of Central Union Church was held Wednesday evening. Rev. Birnie made a report of his work since arriving in Honolulu and spoke encouragingly of the prospects for the future. The next report was that of J. B. Atherton, treasurer of the Board of Trustees, showing receipts and expenditures for the year. Mr. Robinson filed his report as church treasurer and W. W. Hall as clerk. Other reports were by W. J. Forbes, treasurer of the Sabbath School; W. F. Thrum, librarian; F. W. Damon on the Chinese mission and A. B. Wood, superintendent of the Sunday School. The latter was quite interesting. He said: "Although the year 1895 has been a trying one in many respects for the Sabbath School, as well as for other departments of church work, yet we have reason to be very thankful for the work that has been accomplished, and we wish to express our gratitude to our Heavenly Father for the opportunities and blessings of the year. For five Sabbaths during the year we had no school—Jan. 13, on account of martial law, and the first four Sabbaths of September on account of the cholera. Aside from the reduced number during the Summer, the attendance has been very creditable, the average for the year being 460. The highest attendance was on Dec. 8, with 559 present, and the lowest on Nov. 17, when the downpour of rain reduced the number to 180. On 16 Sabbaths there were 500 or more present, while there were only 200 on Sabbaths with less than 400. "One who is not well acquainted with the work may well wonder what is done with this small army, and under whose instruction it comes. It is pleasing to note that out of 80 officers and teachers, there has been an average attendance of 70, and there has been earnest and telling work. We already find our quarters too small, and we may soon have to ask for the erection of an annex to the church. "The paper closed with a description of the program of the school, and an earnest appeal for greater efforts during the new year. All of these reports have been packed away by the church clerk and will be published later in pamphlet form. A second meeting will be held next Wednesday evening when reports from the other departments will be read. The Sign of the Times. All point one way, and that is towards the fact that nearly, if not all, the people of Honolulu and suburbs will soon be reckoned as patrons of Kerr's store. All well-to-do people know where to buy dress goods, ribbons, hosiery, gloves and untrimmed hats, at the lowest possible prices for cash. For variety and quality Kerr stands pre-eminent. Visit Waianae. Minister King, B. F. Dillingham and E. D. Tenney accompanied the Queensland Government officials to Waianae today. A special was provided by Mr. Dillingham. On the return trip the party stopped over at Ewa and will reach town on the late train this afternoon.

OF THE NEW DEPUTY. EDMUND F. DOLE, ASSISTANT TO THE ATTORNEY-GENERAL. Born Back in a Yankee State—Consist of the President—Education and Practice. E. P. Dole, the new Deputy Attorney-General, though in Hawaii but about a year has rapidly won his way to the top of the profession. He is a cousin of the President. The fathers of the young man were brothers, and were born and reared at Skowhegan, Maine. At the same place, February 28, 1850, the subject of this sketch was born. He was educated at Wesleyan University, Middletown, Conn., leaving college he studied law in the offices of Hon. C. H. Berrus of New Hampshire and Charles Robinson, Jr., of Boston. In 1875 he was admitted to the Massachusetts bar at Boston. After this he entered the Boston University School of Law, and after graduating began practice at Keene, N. H. In 1877 he formed a partnership with Hon. Farnum F. Lane, which continued until the death of the latter in 1887. In 1878 Mr. Dole was married to Miss Gertrude B. Davenport, a granddaughter of the first Governor of New Hampshire. Beginning with 1880 he was elected prosecuting attorney for five successive terms of two years each. This position he resigned in 1890, preparatory to coming to the Pacific States. In the latter part of 1890 he arrived at Seattle and practiced there until his removal to Honolulu in May, 1895. In 1887, Mr. Dole's book, "Talks on Law," was published. This work established for him a national if not international reputation. Prominent men and papers far and wide endorsed it. The fifth edition of this book is now being circulated and it is growing in favor. Mr. Dole has a wife and one child, a son 13 years of age. They are at present visiting in the East, and are now at Keene, N. H., the old home. In a conversation some time ago Mr. Dole said: "I have cast my fortunes with Hawaii, and here will I make my permanent home." He conducted cases for the Government at the recent term of court at Hilo.

Bank for Hilo. (Tribune.) A committee has been appointed by the Conservative Club of Hilo to investigate and report on the feasibility of instituting a bank in Hilo. MAL DOLE AT HILO. A Reception to the President by Representative Citizens. (Hilo Tribune.) On Monday evening a mass meeting of the people of Hilo and surrounding country was held in the Court House to formulate plans and perfect arrangements for a suitable reception of the President and his party when he should arrive. Committees were duly appointed to attend to the details. Agreeable to their plan a delegation of Hilo citizens, consisting of P. S. Lyman, E. D. Baldwin and W. W. Bruner, were sent to meet the President at the Volcano House and escort him to the city. They arrived Thursday evening and the President went directly to the home of L. Severance, whose guest he was to be while in Hilo. During the evening of Thursday the President received calls from the citizens of Hilo and the surrounding country. Friday the reception was given in Spreckels' Hall, which had been most tastefully decorated with flags, bunting, foliage, plants, ferns and flowers. At 8:30 President Dole took his position in the hall, attended and assisted by Judge and Mas. Austin, Judge and Mrs. Hapai, Mesdames Severance, Townsend, Jules Richardson and Wilder and Messrs. Waterhouse, Iauka and Broome. When for a time the ladies and gentlemen of Hawaii were presented and paid their respects to the President. After the formalities of the reception were over dancing was engaged in and refreshments were served. The reception was largely attended and the evening was pleasantly spent and enjoyed by all. It was thoroughly cosmopolitan and essentially republican in its simplicity and freedom from display and pomp. That Tired Feeling. Is a dangerous condition directly due to depleted or impure blood. It should not be taken lightly, as it is the forerunner of a system especially liable to serious attacks of illness. Hood's Sarsaparilla is the remedy for such a condition, and also for that weakness which prevails as the change of season. Hood's Pills are purely vegetable, carefully prepared from the best ingredients.

SUGAR BEETS IN RUSSIA. Over Eight Hundred Thousand Acres Under Cultivation. WASHINGTON, Jan. 6.—According to the information furnished by the Russian sugar manufacturers on November 1st last and transmitted to the State Department by United States Consul-General Karlov at St. Petersburg, the area of land in Russia under sugar cultivation in 1895 amounted to 814,419 acres or 29,855 acres more than in 1894. The quantity of sugar is estimated at 717,558 tons, which would be an increase of 115,607 tons over last year's crop. The Consul-General, however, points out that these estimates are founded on the most favorable conditions, which may not be realized. The price of sugar has risen abroad, causing an increased demand for Russian sugar.

The United States sugar trust is said to have taken 100,000 bags from Hamburg, considerably decreasing the stock there, and other elements of the increase are the influx of German sugar, and the bounty, and the existing raw weather which impedes the manufacture of sugar. The purchases by the United States sugar trust is taken as an indication that their stock accumulated before the passage of the Wilson bill has been exhausted, and a further cause for increased prices is the doubt existing as to whether Cuba can be relied upon to export any sugar this year. Farewell Reception. Mrs. H. T. Walker gave a reception at her home, King street, Wednesday evening in view of her early departure for a visit to Kohala. About twenty couples were present. There was music by the Kawaihau Club and dancing. A very enjoyable evening was passed. The affair closed at midnight. The Circus. Wirth's Circus entertained a fair sized house Wednesday evening. The program was almost entirely changed from those of the first evenings. Many of the jokes had local application and were well received. The second entertainment of the season will take place this evening. An entirely new program is announced. The circus will also be open tomorrow evening, Saturday afternoon and Saturday evening.

FOR SALE. A BLOCK OF Hilo Sugar Company Stock, In Lots to suit purchasers at a BIG BARGAIN. For particulars apply at the office of Hawaiian Safe Deposit and Investment Company. For Bread and Pastry DRIFTED SNOW FLOUR Has no Equal. Union Feed Co., Sole Agents.

ALL ALONG THE DOCKS. A WIND THAT BOTHERS SAILING VESSELS INWARD BOUND. Sugar at Kahuku—A Cargo for the Keeper—Handling Coal—Notes of the Waterfront. The bark Andrew Welch will leave for San Francisco tomorrow with a full load of sugar. The bark C. D. Bryant is daily expected from the Sound with lumber for Lewers & Cooke. A number of native women were fishing near the end of the Quarantine Island pier yesterday afternoon. The bark Spring is still discharging coal at Fort Street wharf. The vessel discharges a bucketful in about five minutes. The Widewakes is the name of a new society on the Pacific Mail wharf. Captain Rice, Major Lee and others are active members. "Dummer," formerly the Australia's dog, is now on the tug Eleu. Major Eugene Lee attends to the wants of the water front favorite. Johnsen, the ex-special, has been given an unlimited leave of absence from the U. S. S. Bennington, which ship he joined after being dropped from the police force. The steamer James Makee brought 2,600 bags of sugar for the ship Reaper lying in the stream. Fine weather is reported. She will leave again at 4 o'clock this afternoon. A bark was sighted off Diamond Head at 7 o'clock this morning. Up to a late hour this afternoon the name of the sail could not be made out at the lookout, and the tugboat did not go out. She is probably the C. D. Bryant from the Sound. There were at Kahuku plantation this morning 1,350 bags of sugar awaiting shipment to Honolulu. The management telephoned to town that by 11 o'clock tomorrow morning there would be 450 bags more. The steamer Kalia will call and relieve the plantation tomorrow. The whaling fleet will be hovering about the islands in about a month. There are two whalers now cruising off Hawaii, that will ultimately head for Honolulu for stores and provisions. The bulk of the fleet will be here during the month of March. The C. W. Mo'gan has already arrived and departed—the first of the season. Everything has been quiet about the water front during the past few days, one lone merchantman's arrival being noted. The dropping steamers are also slow in dropping in, consequently vessels waiting for a sugar cargo are kept waiting. The Albert, Andrew Welch and Robert Lewers have been in port several months waiting for sugar.

PLENTY Fresh Hay and... Grain CALIFORNIA FEED CO. Telephone 121. Mutual Telephone Co. Attention No. 1.
