MOSTLY MOVE TO REFER.

SOME COMMENT, THEN POSTPONEMENT BY THE HOUSE.

How Representatives Voted in the Appropriation Bill-Questions and Answers.

TWENTIETH DAY.

Afternoon.

Salary of clerk to sheriff, Hawaii, \$1,200.

Rep. Richards moved to have this item struck out.

Minister Smith said that the office was a necessity.

The sheriff was not expected to do the clerical work.

He had to be about the island. Rep. Rycroft was in favor of the item.

Passed.

Salary of clerk of sheriff, Kauai, \$600.

Rep. McBryde desired to know why the appropriations for the Island of Kauai were so much lower than those for Maui and Hawaii.

He understood Kauai paid \$53,000 in taxes, \$3,000 more than Maui.

Minister Smith said that it was because the residents of Kauai was a large abiding lot and the duties of the police were not arduous.

It was quite the opposite. The item passed as in the bill.

Salary of Deputy-Sheriff, Puna, \$950.

Rep. Rycroft thought that this item should be raised a little. The salary is not sufficient to pay for horse shoes.

Puna was twenty-seven miles from Hilo. The magistrate's office was in the center of the district.

He would move that the item be increased to \$1,200.

Minister Smith read from the report of the Chief Justice showing thirty-nine cases in the Puna district for the years 1894 and 1895.

There were very few people in Puna, Mr. Rycroft said a few others.

Rep. Rycroft said that several new plantations had been started in the Puna district and there had been a large influx of Japanese.

On motion of Rep. Richards the item passed as in the bill.

Pay of police, \$45,500, was referred to the Committee on Finance.

Pay of police, Maui, \$31,000, was on motion of Rep. Robertson, referred to the Finance Committee.

Salary of deputy-sheriff, Kauai, \$600.

Rep. Kaao moved that the item be increased to \$2,400. The deputy-sheriff of the district of Waimea was receiving \$2,400 and it was proposed to only give the deputy-sheriff of the district of \$1,900.

Minister Smith stated that the district of Waimea was a very populous district and this official had more responsibility. The item passed as in the bill.

Rep. Richards would like information on the items for police.

There was in the bill \$9000 for deputy-sheriffs on Kauai, and \$15,000 for the police on the same island.

On Maui the deputy-sheriff was getting over \$9000 and the police \$31,000.

Minister Smith explained that it was owing to the rocky roads and gulches which required a large number of police. The deputy-sheriffs represent the Government as prosecuting officers in their respective districts.

Salary of deputy-sheriff, Waianae, \$1,200.

Rep. Winston moved for an increase as the present incumbent was a capable man.

Minister Smith said that that was no reason for an increase in salary. It was in the line of promotion. Passed as in the bill.

Pay of police, Oahu, \$140,000.

Minister Smith said that formerly the sum of \$100,000 was appropriated, but on account of the mounted

patrol the sum had been increased to \$140,000. The patrol was a very efficient force, and the Executive would like to keep it on. Rep. Rycroft moved that the item be referred to a committee.

Rep. Richards desired to call the attention of the members to the fact that over \$300,000 was being appropriated for policing the island of Oahu.

Minister Smith said the member should remember that one-third of the police population of the islands was in Oahu. In the district of Hilo last year there were 802 cases, while in the District Court of Honolulu alone there were 570 cases during the same time. Referred.

Pay of jailors, guards and lunas of prisoners, \$55,000 was referred to the Finance Committee on motion of Rep. Winston.

Rep. Rycroft moved that the seven items aggregating \$140,000 in the Bureau of Public Instruction be referred to a committee.

Minister Smith moved that the first four items pass. Salary of inspector-general, including traveling expenses, \$6,500; salary of deputy-inspector and school agent, \$3,600 salary of clerk and secretary, \$3,000. Messenger and book clerk \$1,200.

Rep. Robertson moved that the item creating the new office of District Inspector and School Agent be struck out. He was in favor of retrenchment in the expenses of the Government. The Government employees were well paid, began work late and quit early. They should be made to do some hard work.

Minister Smith thought that if the member would think the matter over he would note the necessity of an officer who would be executive officer.

Rep. Robertson's motion to kill the office was lost.

Motion to refer the entire items in the Bureau of Instructions to the Education Committee carried.

Rep. Richards moved to refer items of the Commission of Public Lands to the Committee on Public Lands. Carried.

The Speaker announced the following select committee to whom was referred all the items in the Postal and Customs Departments: McBryde, Kaao and Richards. House adjourned.

Knowing Ones.

Knowing ones invariably call for Pabst Milwaukee instead of merely asking for Milwaukee beer. Any one desirous of ascertaining what Pabst Milwaukee Draught Beer is, can do so by calling at the Royal, Pacific and Cosmopolitan saloons, where it will be served to them cold and sparkling and at the same price as other beers.

Whoever desires to publish the following extract from a letter of Chas. M. Canfield, of Berkeley, Fresno Co., Cal., as he handles the remedy referred to and wants his customers to know what a splendid medicine it is:

"It is with pleasure I tell you that by one day's use of Chamberlain's Cough Remedy I was relieved of a very severe cold. My head was completely stopped up and I could not sleep at night. I can recommend this remedy. A cold nearly always starts in the head and afterwards extends to the throat and lungs. By using this remedy freely as soon as one cold has been contracted it will cure the cold at once and prevent it from extending to the lungs. A FLOWERPOT COVER.

Something to conceal "the Rough, Red Flowerpot, Sweeter Than Sin."

Many persons dislike the appearance of the "rough, red flowerpot, sweeter than sin," in which plants are usually placed, but as china jardiniere, besides being less wholesome for the majority of plants, are not always within reach

of the hand. The flowerpot cover, however, something more durable is required, and pretty covers may be made of pasteboard cut fan shaped to fit the pot and fastened to the sides of the pot, with manuscript clamps. The right size and shape may be ascertained by holding a piece of paper smoothly around the pot and crossing the line where the edges come. Before the pasteboard is fastened together it may be covered with china silk, paper or other material, the edge of which may be neatly turned over on the inside and pasted down.

If it is desired, the covers may be made of heavy water color paper, white or tinted, and decorated with a painted design.

A King Who Could Change the Winds.

King Ericus of Sweden publicly confessed that he was a sorcerer and magician. He was the owner of an enchanted cap, which he pretended enabled him to control the winds and change the direction of the winds at pleasure. So firmly did his subjects believe in the supernatural powers of their ruler, that when a storm arose they would exclaim, "Ah, the king is again wearing his magic cap!"—St. Louis Republic

Ripans Tabules

The Home Bureau for Delicacies for the Sick, and Nurses' Registry, at 15 West Fort-second St., N. Y., under date of Oct. 20, 1891, writes: "Please send one dozen boxes Ripans Tabules to the Nurses' Club, 104 West Forty-first street. Reports of the Tabules for troubles resulting from disordered digestion come very frequently to our attention here. This Bureau does not dispense medicines, but has opportunity to hear frequent discussions concerning the merits of remedies. It seems to be conceded that the Tabules are a reliable auxiliary to the physician. Some of our patrons use them to a considerable extent, and physicians assure us that the formula is excellent."

Ripans Tabules are sold by druggists, or by mail if the price on a box is sent to the Ripans Chemical Company, No. 10 Spruce St., New York. Sample via prepaid.

ED TOOLS, - BUSINESS MANAGER

It is perhaps a good thing for the Appropriation Act that the Cabinet Ministers have the privilege of the floor of the House.

JUST HOW THE STAR managed to place Levi P. Morton alongside Governor Pattison as a Democrat is difficult to explain.

IT IS ADVISABLE to have signed and in operation before the first mail leaves, repeal of the absurd law which permits the arrest of boys for selling San Francisco papers on the streets of Honolulu.

ACCORDING to Representative Robertson a Government bill is rather a "soft snap."

S. M. DAMON, the Minister of Finance, has done Hawaii a signal commercial and political service this day.

THOSE who get their good that admirable and altogether good citizen "Parson" Fred Smith will readily realize with THE STAR that his adventure in the mountains was one growing out of a higher mission and a holier errand than a search for scenery or curios.

ALASKA REFRIGERATORS.

TO MEET THE DEMAND FOR FIRST CLASS REFRIGERATORS.

Built Within the Means of everybody and Finished in the Same Manner as High Priced Boxes.

There no longer exists in the minds of the public any doubt that the Alaska Refrigerator does produce dry, cold air in its provision chamber.

The peculiar and scientific construction of the Alaska creates a thorough and constant circulation by which all vapors arising from foods in the provision chamber are condensed in the ice pass, and run off with the melting ice.

Most refrigerators are so constructed that vapors from various kinds of foods are chilled to bead drops of water within the provision chamber.

In the Alaska no vapors are allowed to remain; but, by a perfect circulation of air, they are drawn through the flues into the ice chest and are condensed there.

The provision chamber of the Alaska never coats from condensation, but is always clean and free from foul odor.

The points sought for in a refrigerator are: 1st. The preservation of perishable foods.

2nd. The disposal of foul vapors which constantly exhale from provisions.

3rd. Dryness of atmosphere in the provision chamber.

4th. Low and unvarying temperature.

5th. Economical use of ice. These results are best produced by the Alaska, and are plainly demonstrable upon the scientific principles used in the build, by which low temperature and dryness of air are naturally and inevitably obtained.

The provision shelf of the Alaska is solid galvanized iron and the slots are corrugated, and are wide enough so that any dish can be placed on them without tipping over.

W.W. DIMOND'S

The lawns in Honolulu form an attractive feature to tourists and residents. The visitor arriving here at this season from a locality where blizzards, snow and sleet have been characteristic of the north are impressed with the beautiful greens unfolded to their view here in Paradise.

But nice lawns and well kept gardens do not come spontaneously; they are the result of hard work by the yardman and artistic planning on the part of the head of the house.

The "New Model" is a superior mower because the materials from which it is made are of the finest quality.

The steel blades are hardened so that they will not nick and break when they are run against an algeroba bane.

In this place, where lawns are sometimes neglected and where the grass grows rapidly a high grass cutter is a necessity.

A Good Rival to Have.

We have just received from N. Y. a large shipment of the best low priced Ranges made in the U. S. One style is known as the "Rival Manhattan," and it is a low priced, five-hole Range, with large fire box fitted with shaking and dumping grate, automatic oven shelf, large top end shelf, drop broiler door, and nickel oven door panel.

Number 6 has an oven 13 by 13, and number 7 has one 15 by 15. These are not the ordinary stove, such as you will find in most of the stores, but a complete range, with five holes; and room enough to do all the cooking for a good sized family, and yet small enough to go into a small kitchen, and still leave plenty of room.

A lady saw these ranges going into our warehouse yesterday; and bought one just as it stood on the drey, saying that, as she had only five to cook for she wanted just such a range, so she could get rid of a larger old style stove have more room, and burn less fuel. We sell this range for \$12, so it is within the reach of any family.

IF YOU WANT A "MASCOT" let us know, for we have a lot. This is another five hole Range, and No. 6 has a 14 by 14, No. 7 a 16 by 16 and No. 8 a 18 by 18 oven. It is a little more expensive than the "Rival," but not much, and though it is fully worth \$20, you can have it for \$14, as we intend to sell ranges, and will put them to begin with where every body can afford to have the best little range in town.

Besides the above the "Hollister" brought us many tons of new goods, but as they are not put away yet we will tell you all about them later. We still sell WHEELS.

Reply to a Correspondent in the Senate Report.

HONOLULU, H. I., March 17. STAR NEWSPAPER:—It will require more than a bit of long distance argument or saucy comment or wads of taffy to pacify the California Wine Growers' Association. This is the strongest industrial and the most powerful political combination west of the Rocky Mountains. And it has branches, allies, aides, friends and servants in the East and at Washington. The wine growers have come to the conclusion that they are being discriminated against, injured and assailed in Hawaii. Representations made in debate, to defend the positions of Honolulu citizens or societies, will not at this time remove that impression or stem the tide of their active opposition to the trade conditions or national plans of the Islands. The wine growers must now have an assurance that their interests here will be moved against. They demand this in no uncertain tone. Nothing less will satisfy them. They decline to temporize. Unless they are appeased without delay they will strike some blows that will be felt here. Official statements, innocent of all weak theorizing, should go to the Association by the next mail.

MINISTER DAMON SPEAKS OF CALIFORNIA WINES TOLLS. Of Tariff Generally on American Products—An Old Account in the House.

Mr. Brown read a petition on water rights statutes from twenty-five prominent citizens. It is requested that the law be amended to have such cases come before magistrates and circuit judges instead of commissioners. Referred.

Mr. Rice presented a petition from fifty residents of Kauai asking that \$5,000 be appropriated for a road. Referred to Public Lands Committee.

Also a petition of natives of Honolulu asking that the option bill be indefinitely postponed.

Mr. Brown gave notice of two bills, one to license distilling spirits from pineapple and other island products; the second to amend the Act to reorganize the Judiciary department.

Mr. McCandless asked the Minister of Finance if it was the intention of the Executive to increase the duty on California wines.

Mr. Damon replied: "The Executive have not had nor have they under consideration the matter of increasing the duty on California wines or any goods imported from the United States. The situation this country is in with reference to the United States is so important that any measure tending to arouse feeling in California or the United States against us would be suicidal. I do not know why the newspapers should make use of such statements. Personally, I would say that if our revenues would permit I would be in favor of granting to importers now can either import from grapes, a rebate of 15 per cent. on products that do not run over 18 per cent. This I consider, would be a temperance measure, as such wines are not nearly so harmful as cheap products. There is absolutely no foundation for the report that this Government has in contemplation any advance in the duty on any American products whatever."

Mr. Rice asked if the Government had entered into any contracts with Steamship Companies for carrying the mails, under a law of the Provisional Government.

The Minister of Finance replied that correspondence had been going on between his department and the various steamship companies, but no such benefits had yet been availed of by the companies.

Mr. Lyman gave notice of a bill for the relief of the Hilo Library and Reading Association.

The Honorable Mr. King read a letter from the commissioner asking for an appropriation of \$5,000 for preliminary roads and trails.

Mr. Lyman moved to increase the appropriation for Hilo water works from \$500 to \$5,000. It was desired to increase the number of pipes.

Minister King reported that an item of \$5,000 for this purpose had been inserted in the loan bill.

Minister Cooper reported a bill received in Sept. 1894, from a firm in Paris for 7091 francs, or \$1438.38, for the manufacture of certain articles and ornaments ordered by the Chamberlain of the late queen during the monarchical incumbency. He would like this bill paid.

Mr. Brown opposed the appropriation and explained that the transaction was purely a private one between the late King and the manufacturers.

Motion carried. Senator Lyman asked for \$5,500 for lighting the streets of Hilo.

Minister King reported that the Executive had the matter under consideration and that it would be brought up later in the House.

Minister Smith gave notice for the Minister of Interior to introduce an act to amend Chapter 70 of the Laws of 1892 relative to the vending of goods, wares and merchandise with the Hawaiian Kingdom.

Minister Smith gave notice of his intention to introduce an act to amend Chapter 70 of the Laws of 1892 relative to the vending of goods, wares and merchandise with the Hawaiian Kingdom.

Rep. Robertson read for the first time his bill relative to the importation of kerosene oil for fuel and mechanical purposes. Referred to the Printing Committee.

Minister Smith gave notice of his intention to introduce an act to amend Chapter 70 of the Laws of 1892 relative to the vending of goods, wares and merchandise with the Hawaiian Kingdom.

Rep. Hanua pronounced the following questions to the Attorney-General.

1st—How many police officers are employed in each judicial district on the island of Maui?

2nd—What salary does each officer receive monthly?

The Registration Act came up for second reading.

The committee to whom the bill was referred submitted a substitute bill creating slight changes in the original one.

Rep. Robertson believed in giving the bill a fair trial in order to find out its practical effect. If it was found to be advisable the Legislature meeting in two years to importers now can either import from grapes, a rebate of 15 per cent. on products that do not run over 18 per cent. This I consider, would be a temperance measure, as such wines are not nearly so harmful as cheap products.

ALL ALONG THE DOCKS. SHIP ROANOKE ON THE WAY TO LOAD SUGAR.

The steamer W. G. Hall arrived late this afternoon. Paddy Curtis states that he is still the owner of the yacht Spray.

The ship Iroquois will leave on Thursday for New York with a full load of sugar.

The steamer Iwa takes a mail for Mahukona and Kohala. K. R. Hind, owner of the craft, is a passenger by her.

The barkentine C. C. Funk came alongside the Pacific Mail wharf yesterday to discharge her Department cargo.

The barkentine J. M. Griffiths will have all her lumber out by this evening. She will return to the Sound in ballast.

The schooner Carrier Dove will load sugar for San Francisco. She received her first installment from the steamer Kauai this morning.

The steamer Kauai arrived from ports on Kauai this morning with a full cargo of sugar and passengers. Good weather prevails on the Garden Isle.

The ship Roanoke left San Francisco on March 10 for Honolulu to load sugar for New York. "All hands" will be at the wharf when she arrives to see the largest wooden vessel afloat.

The engines of the steamer Iwa broke down and her departure has been delayed. She will likely get away late this evening or tomorrow morning. Repairs are being made by the Honolulu Iron Works.

The Morning Star brought a small quantity of firewood. She is at the lower end of Sorenson's wharf. Prior to making another voyage to the Southern Seas the vessel will go on the railway to be cleaned.

The schooner Kaulila after making one trip to the other side of the island for firewood went out in the stream and is now anchored in Rotten Row. Her Chinese owners use her only when firewood is scarce in the colony.

The new boiler of the steam launch Annie was tested this morning and everything worked satisfactorily. She may be given a trial run before being taken on board the H. Hackfeld. The engine was made at the Honolulu Iron Works.

NO.... DANGER for soda drinkers in our soda. We wish it distinctly understood that we manufacture all carbonated water right on the premises. We do not get an ounce from any local manufacturer. Our soda generator is modern; our tanks are of the most approved and safe pattern. The best materials are employed.

People marvel why our soda tastes better than the soda they get at other fountains. We believe that it doesn't pay to spare expense in soda. We never have. We always want the latest drinks, the best apparatus—every thing the newest and best. We take more pains than most people.

Fresh crushed strawberries and pineapples every day now. They are both in season. No artificial essence used to make them "go farther." Nothing but the pure fruits with white sugar to make them right. Nothing harmful in these. No harm in any amount of our soda.

SKETCHES BY M. QUAD. The station agent at Cannon City had a half grown cinnamon bear chained up...

He was waiting. He sat on a log in front of his shanty, smoking some sort of leaves or weeds...

"I see you have no crops in," I said as I looked over the rank fields. "Not a crop, and I'm kinder glad of it..."

"But will you tell me what on earth you are living for?" "Well, stranger, I will, but I'm answering as he got up and threw a piece of soil at a barking pup dog..."

"That's too bad," I said as I helped him to his feet and picked up his hat for him. "Oh, don't mind me," he exclaimed in reply...

"How was that?" "Poked me in the ribs and said he used to know my brother Cyrus and then asked me to have a beer with him..."
