How would a Hawaiian Popular Loan do?

IMPROVEMENT of the condition of the Hilo Library is as good an investment as money put into schools.

THE Third House sits tonight and that will probably be the last of the Japanese and several other problems.

THE Legislature cannot afford to ignore suggestions from the Board of Health on matters of sanitation in Honolulu.

THE House member who wants the Executive building used for a presidential mansion scarcely appreciates the temper of the new order of things.

AT THE next meeting of the Fire Commissioners with Chief Hunt there will be action upon plans for more "liberty" for the men in the department. It is believed that a quite satisfactory change will be the result.

SOME of the Legislators seem to believe that the appropriation acts were drawn up for the special object of squandering public money. It should occur to them that the authors of the acts at least desire to make a good showing at administration.

JEROME K. JEROME has been speaking disrespectfully of the dead languages. He says that "a knowledge of the dead languages has generally been found to hamper a man in every walk of life, except schoolmastering, which is the perpetuation of the follies of our ancestors."

THE STAR fails utterly to see where "allusions to General Coxey in connection with the Portuguese demonstration are entirely unwarranted." The spectacle of several hundred men taking a half holiday from Government and other service to turn out with an alleged army of unemployed is a clear incident of Coxey being out-Coxeyed in far-off and pent-up Hawaii.

THE Advertiser is again suffering with an acute attack of hindsight pains. It sees a danger because the Portuguese procession of "steep hundreds was permitted to enter the grounds of the Executive Building. Strange that this aspect of the proposed demonstration did not appeal to the Custom House paper in advance. Perhaps it had mislaid its copy of the British statutes providing that not more than two persons shall present a petition under penalty of ten pounds sterling fine. It is also pretty late and perhaps not any too upon the part of the Advertiser to suggest that a demonstration by the Japanese is now in order.

IN THIS matter of the Portuguese colony and its alleged grievances it is perfectly safe to chuck the fineness of methods to the winds and talk facts on a horse sense basis. The vast majority of the Portuguese are laboring men. It is presumed that enforced idleness causes them to agitate. If this is not the case they are simply being used. If it is the fact the remedy may readily be found by providing employment for those who wish it. Engagement is offered by the planters to more men than it is claimed marched Wednesday because they had nothing else to do. The statement of the Portuguese that the Government has broken faith with them or injured them is a matter to be considered aside from immediate necessities and is a phase of the public situation that will receive thought and that will be acted upon as the Government deems best.

MAKE IT TABU.

It is proposed to start the merry-go-round up again in the vicinity of the depot and prison. Now here is a chance for the local reformers to get in and do something. Their plain duty is to head off an evil before it is everlasting too late. If this notorious establishment is permitted to resume operations it will be much more difficult to handle or stop than to suppress it at the inception. At its old stand the merry-go-round was a nuisance, a standing and active insult to decency and law and order and a burden to the police department. In its new stand, being removed from the center of the city the merry-go-round will be more than ever the vehicle, the scene of revolting saturnals. More policemen will be required to preserve order and with the lessened restraint gained by the new location it is safe to predict that within a few weeks the establishment will develop something that will startle and horrify the community. Honolulu can get along very well without the merry-go-round.

Unfortunate Outcome.

The Americans in Hawaii are beginning to fear that the islands may be absorbed by Japan. That would be rather an unfortunate outcome of the Cleveland-Gresham Hawaiian policy.

Timey Topics.

March 25, 1896.

AN AFFAIR OF HONOR.

Two prominent gentlemen of Pittsburgh got into a personal difficulty the other day over a political question, and one of them talked violently about slapping the other's face. This was taken as an insult, and the aggrieved party sent a friend to request an apology or to arrange for a quiet meeting or the rendering of due satisfaction. The challenged party replied that he had nothing to retract or apologize for, and that if the other was thirsting for his gore he would meet him at the north pole on the 31st of February, 1999, to settle the affair with squirt-guns. It is hinted that this may not be the end of the matter, as both of the parties have "said." Honesty in business dealings is the only ladder to success and a firm whose prosperity and reputation is built upon the honor and truthfulness of their statements will eventually surmount all difficulties. We always make it "an affair of honor" when stating that the HENRY BREAKER is one of the articles for plantation use that has helped more managers than you have any idea of.

HENRY'S BREAKER.

Since introducing the HENRY BREAKER we have placed orders with numerous plantations which after giving them a thorough test have discarded those formerly used and supplanted them with the HENRY BREAKER, and we have the satisfaction of reading glowing testimonials from the managers of twenty-seven plantations. Its superiority over other breakers is not a speculation but an assured fact. Being of light draught and strongly built by being thoroughly protected and braced where the strain is the greatest it is practically indestructible. It will do the work of twelve or fourteen mules with eight, and you can consequently use the surplus power, that would otherwise be required for plowing, for other purposes. As a "working mate" to the above plow we offer the HENRY DOUBLE FERROW. One of the features of this plow lies in the fact that the mould boards are sufficiently high to prevent the dirt from falling back into the furrow after the plow goes over the ground. Two less animals are required to pull it than any other plow. Now that the plantation managers are working night and day to produce sugar and forward it to the market, we can help them materially in the matter of supplies, because our prices "are right" and the quality of the goods superior to the average.

We have had wonderful success with our COLORADO LUBRICATING OILS for the reason that they are manufactured of the very best ingredients. The oils, after a most thorough test with other oils have proven better than any other imported to the Islands. We have these oils in use on nearly all the plantations and are constantly obtaining new customers who become permanent buyers. Engine oil has taken the place of lard oil on many plantations. There is economy in using oils as there is in anything else. Dynamo, engine, machine, car box and valve oil make up the list that covers every branch of machinery for which oil is made. Cylinder Oil may be used six times before it will separate; this cannot be done with any other grade of oil.

W.W. DIMOND'S

Dimond's Store policy is based on letting you be your own judge as to the goods you need.

You come here as you'd go to a pantry or store room for what you want. It is our pleasure to help you.

So much for the dollar and cents side of business. Absolute satisfaction to you. That is the keynote of the Dimond store—unlike any other store. Singularly better.

Suppose you want a mat—cocoa or wire—you've seen both kinds elsewhere and didn't like them. We could tell you that our flexible wire door mats are better than others, but we won't. There is no necessity for it because you can see for yourself that it is absolutely flat and will not turn up around the edges as most mats do. You will see, also, that it is jointed so you can stand it on the side when you are sweeping and you will see also that it is always in shape.

In the same make of goods we have wire carpet for veranda steps. This is jointed so as to fit snugly on the steps or it will answer for halls where the public has access.

Dr. W. Dimond.

Another Bullet Proof Garment. A new bullet proof garment which has recently been experimented with and described by THE PAPER TRADE JOURNAL.

Common paper pulp is worked up into yarn and then coated with aluminum by a special process which renders the metal flexible. A special thin ply weave is employed in making the shirt in order to obtain thickness, the fabric then is available as soft woven, but each thread in it is as stout as wire. It feels comfortable to the wearer and can be rolled up in small compass.

It is asserted that an ordinary rifle bullet will not penetrate this garment. The projectile merely strikes up in the threads and stays there. The wearer would experience a severe thump or blow, for the correct texture does not operate as a hard plate or shield, but the skin remains unharmed, and no blood is shed.

BILL WAS TOO BRASH. He Met Up With a Red-headed Man and Wouldn't Turn Out.

On top of a load of hay which came into the western haymarket yesterday was a man of 60 and a young man of about 25—father and son. The vehicles had no sooner come to a halt than both scrambled down and it was then seen that the young man's nose was about twice its normal size, and his eyes were blackened and puffed until he could scarcely see daylight.

"No, Williams didn't run agin a bridge or have a tree fall on him," said the father as he wet his handkerchief at the drinking trough and wiped away the blood. "The fact is that he met with a disappointment on the road as we were coming in."

"What sort of a disappointment?" queried a policeman who intended to recommend raw beef and perfect quiet for three or four days.

"Well, you see, William was driven when we left home. We had come along about three miles when we meets a red-headed man leadin a calf. A fellow with a calf order turn out and give the road to a load of hay, but this one wouldn't. He just turned out half way and stood still and yelled that he'd be durned if he moves an inch. Then I says to Bill, says I 'Bill, he's a peppy, case, and you'd better turn out.'"

"Then you gave him half the road?" asked the officer.

"No, I wanted to, but Bill he says to me, says he: 'I'll be hanged if I do! If he don't turn out, I'll get down and make him wish he'd never bin born into this sinful world.' The fact is that he came and warns him of what is to come, but the red-head don't skeer with a cent. He ties the calf to a bush and spits on his hands and screams for both of us to come down to once."

"Then you gave him half the road?" asked the officer.

He ties the calf to a bush and spits on his hands and screams for both of us to come down to once."

"What did Bill say?" asked the officer.

"'Nawthin that I heard. Bill, did you say anything when you come to?'"

"'Num,' replied Bill, with a solemn shake of the head.

"'And you didn't say anything for the next two miles, did you?'"

"'Num.'"

"'That's all, as far as I kin remember,' continued the father, 'and now if you'll sorter look out for my boy I'll lead Bill to a doctor and see whether he's mortally injured or only crippled for life. Come on, Bill. You hain't bin scyin a word since you was struck, and all you've got to do now is to step high and lean on daddy's arm.'—Detroit Free Press.

A Good Rival to Have. We have just received from N. Y. a large shipment of the best low priced Ranges made in the U. S. One style is known as the "Rival Manhattan," and it is a low priced, five-hole Range, with large fire box fitted with shaking and dumping grate, automatic oven shelf, large top end shelf, drop broiler door, and nickel oven door panel. Number 6 has an oven 15 by 13, and number 7 has one 15 by 15. These are not the ordinary stove, such as you will find in most of the stores, but a complete range, with five holes; and room enough to do all the cooking for a good sized family, and yet small enough to go into a small kitchen, and still leave plenty of room. A lady says these ranges go into our warehouse yesterday; and bought one just as it stood on the dray, saying that, as she had only five to cook for she wanted just such a range, so she could get rid of a larger old style stove have more room, and burn less fuel. We sell this range for \$12, so it is within the reach of any family.

IF YOU WANT A "MASCOT" let us know, for we have a lot. This is another five hole Range, and No. 6 has a 14 by 14, No. 7 a 16 by 16 and No. 8 a 18 by 18 oven. It is a little more expensive than the "Rival," but not much, and though it is fully worth \$20 you can have it for \$14, as we intend to sell ranges, and will put them to begin with where every body can afford to have the best little range in town. Besides the above the "Holliswood" brought us many tons of new goods, but as they are not put away yet we will tell you all about them later. We still sell WHEELS. E. O. Hall & Son.

W. S. Luce, AUCTIONEER.

GOES TO THE ASYLUM. "THE COURT" TO BE PUT UNDER CLOSE RESTRAINT. Says He is a Wealthy Aristocrat - Gives Prominent References - He Has Claims.

Thomas von Krauer, familiarly known as "the Count," the old gardener of the Hawaiian Hotel, was examined by Dr. Emerson this morning and adjudged by the District Magistrate to be insane.

He will be sent to the asylum for treatment. When asked for references by the examining physician, von Krauer gave the Vanderbilt family of New York and the Emperor of Germany.

This very eccentric man labors under the hallucination that he is the rightful owner of fabulous wealth somewhere in the world. He has a Monte Christo, with its mine of jewels and gold, but his ideas of its location are rather vague.

But in most positive terms he declares that he is the rightful claimant to the throne of Germany, and that Emperor Wilhelm is a usurper. He also claims to be related to the Vanderbilts and to be lineally connected with the Kalaikaua dynasty.

Will Close Soon. The popular guessing contest will soon close at Kerk's. Make your purchases now and get your blanks. This week goods are being sold at cost, and it is positively the last opportunity the public will have of winning that superb "New England" piano.

New Dredger Pipe. Mr. Rowell is preparing plans for fifteen joints of new dredger pipe. Thirty are almost constantly in use. Half of them are already in very bad condition. They have been in use a long time. Special effort will be made to let the contract for the piping, but the contractors will be invited. Another purchase of fifteen pieces will be made later.

Handsome Household Furniture. By request of His Ex. A. S. Willis, Minister Resident, Mr. W. S. Luce, auctioneer, is authorized to dispose of, on Tuesday, March 31 at 10 a. m., at his residence, King street, on account of temporary departure, his household furniture consisting of handsome parlor chairs, tables, etc. Five hall furniture, big chairs, mirrors etc. Beautiful bedroom set of bird's eye maple and imitation bamboo, something very handsome and useful, large folding desk, carved oak extension dining table and chairs, etc. Also one nearly new Stuber-baker surrey and harness.

Goods on view only on the morning of the sale.

The Present Season. Easter hats, easter dresses; the finest assortment, and lowest prices, at N. S. Sachs.

Democrat Contest. The general public is invited to the Democrat medal contest to take place in the Y. M. C. A. hall Saturday evening. A specially attractive program has been prepared. There will be a number of musical selections. The recital will begin at 8 o'clock.

MILITIA. Notes From Various Commands of the S. G. U. Company G had a spirited drill Wednesday evening.

There is a chip on D Company's shoulder for the second team of Company B.

The military opera stage will have four drops.

The drill of the second battalion tomorrow evening will be held on Army Square.

Company D's practice target may be located on the side of Punch-bowl hill. A condition to be imposed is that every goat killed must be paid for twice over and the shot counted a miss.

Recruit drill by Sergeant Perry at the armory this evening.

You can put up the most delicate fruits, uncooked, by using Antiferment in appearance and taste as when first picked.

Mystic Lodge No. 2, Knights of Pythias, will change its quarters on April 1. It goes from Harmony Hall on King street to the Oahu Lodge hall on Fort street. By this change the two lodges of Knights of Pythias will occupy the same room.

Hawaiian History. All are invited to the open meeting of the Y. H. I. at 8 o'clock this evening. As stated in a previous issue, Mr. J. M. Poepeo will read the paper of the evening. He will tell the story in the native language of how the Souths left their homes in the border seas and, after a long voyage in open boats, landed in these islands. Reference will also be made to later history.

Must Change Range. The police have been given orders to vacate the premises occupied by their target at Kakaako. Fishermen, who have rights in the tide water in front, have caused the pillikia. The police have not decided where they will go.

Pat Failed to Connect. Monday morning Pat Curtis went to W. L. Wilcox and proposed to take the yacht Spray to Maui to bring some freight down. "Oh, no you don't," said Wilcox; "you go right down and take the sails off that yacht." Mr. Wilcox holds the Spray now and Pat cannot make his connections so easy as before.

How to Cure Rheumatism. ARAO, Cook Co., Oregon, Nov. 10, 1895. -I wish to inform you of the great good Chamberlain's Pain Balm has done my wife. She has been troubled with rheumatism of the arms and hands for six months, and has tried many remedies prescribed for that complaint, but found no relief until she used this Pain Balm; one bottle of which completely cured her. I take pleasure in recommending it for that trouble. Yours truly, C. A. BULLOCK. 50 cents and \$1.00 bottles for sale by all Druggists and Dealers - BROWN, SMITH & CO., Agents for H. I.

WANT DIAMOND HEAD. PROPOSED CHANGE IN THE DESIGN FOR A GREAT SEAL.

Spirit Act Tabled - Wine Law to Be Amended - Petitions Work of the House.

TWENTY-NINTH DAY. Minister King reported the bill on a certain class of leases, signed by the President.

Minister Cooper reported the petition of the Portuguese Union noted yesterday. Referred to a committee of five to be appointed later.

Senator Lyman presented a petition from 275 native residents of different parts of the Islands asking that the opium license bill not pass. Referred to the committee on opium bill.

Senator Northrop, for the Judiciary Committee reported on the Great Seal matter, recommending a number of changes in the designs. Diamond Head in place of the Phoenix, is one of the changes proposed.

Referred to Printing Committee. Mr. Baldwin, for the Commerce Committee, reported on Senate Bill No. 16, relating to the distillation of spirits from Island fruits. As there is a bill already on the statutes, passed in 1892, covering the same matter, it was recommended that the bill be tabled. So ordered.

Senator Holstein gave notice of a bill to amend the law relating to the importation of wine from Island products.

Senate Bill No. 15, reconfirmation and revision of the civil code or compiled laws, came up and passed third reading.

Senate Bill No. 17, to amend the Act reorganizing the Judiciary Department passed final reading.

Senate Bill No. 22, an Act for the relief of the Hilo Library and Reading Room Association, was taken up and read for information. Referred to committee on Public Lands.

Senate report on the License Bill was made the order of the day for Friday.

House. Rep. Rycroft from the Committee on Public Education, to whom was referred the petition from the Leper Settlement reported as follows:

1. The Leper Settlement has been continually supplied with the Goto remedies for a long period of time and a large order for a new supply has already gone forward.

2. The Goto remedies have been and are furnished free to all lepers in the settlement; who faithfully use them according to instructions.

3. The erection of a public bath house at Kalaupapa, such as has been built at Kalawao, would cost in the neighborhood of \$3,000 and the Board of Health is not yet convinced of the necessity of going to that expense. But the Goto remedies are furnished free to all who wish to use them in their private baths.

4. Firewood is supplied free to all but coal is supplied only to the baths under the direction of the resident physician, and the furnishing of wood and charcoal would come entirely within the jurisdiction of the Superintendent.

Having found that the requests of the petitioners have been substantially complied with so far as is expedient, your committee recommends that the petition be laid on the table.

Rep. Kamaoia moved that the report be laid on the table to be reconsidered when more information can be secured on the subject. The committee had evidently only interviewed the president and the Board of Health authorities and took such statements for granted. He rather favored the selection of a committee who would visit and personally inspect the state of affairs. Motion carried.

Rep. Hanna from the committee on Foreign Relations and Commerce, reported on the petition from Punaluu for an appropriation of \$4,000 for the building of a road from Punaluu to Waikaloa. The committee find that the proposed road from Punaluu to Waikaloa would be a great improvement to that part of the country. In conversation with the Minister of the Interior the committee had learned that it was the intention of the Government to carry out the request of the petition, and that a bill will be introduced for the insertion of an item for this purpose. Report laid on the table to be considered when the bill comes up.

Rep. Hanna, from the same committee, reported on the petition from Napoopoo for an appropriation of \$1500 for a public warehouse and the improvement of the landing at that place. The committee find that it is not the

ALL ALONG THE DOCKS. A LOADED STEAMER WEATHER-BOUND AT KAHUKU. Strong Winds Throughout the Group - Two Not Seen Yet - Carrier Dove Departs.

The ship J. B. Brown will finish discharging her coal in a day or two.

The schooner Moiwahine emptied her sugar into the ship Kenilworth today.

The steamer Mikahala's sugar will go into the bark Paul Isenberg.

The steamer Lehua is the only Inter-Island boat out.

The steamer Iwani left at 9 o'clock this morning for Lahaina and Hamakua. She went up light.

Customs Inspector Theo. P. Severin will leave on the SS. Australia for San Francisco on a vacation, returning by the same boat.

The men on the steamer Lehua saw nothing of the little steamer Iwa which left here for Honolulu on Thursday of last week. R. R. Hind, owner, left by the steamer Kinai for Honolulu.

The steamer Kaala is weather-bound at Kahuku on the other side of this island. She has a full load of sugar. The Kaala has been behind the bar for the past two days unable to come out. Strong winds prevailed this morning.

The four-masted schooner Carrier Dove, Captain Brandt, sailed for San Francisco this morning with 20,307 bags of sugar weighing 1250 tons and valued at \$96,605. Shipment was made by W. G. Irwin & Co. to J. D. Sprackels Bros.

The German bark H. Hackfeld has postponed her departure until either Saturday or Sunday. Capt. Wulman has had trouble with his mate delaying work on the bark. The vessel has discharged all her bricks and is engaged today taking in ballast.

The steam launch Annie is being fitted up for low boat, and will be in first class condition when hoisted on the bark H. Hackfeld. The launch was imported by A. F. Cooke several years ago, and was then known as the Bismarck. She was later purchased by Dr. Trousdale and is now the property of H. Hackfeld & Co.

The prevailing strong winds seem to be general throughout the group. The steamer Mikahala which was expected from Kaula early this morning did not show up and it is the belief she was unable to take sugar at Hanalei, at which port she had to call before returning to Honolulu. She will likely arrive this evening.

ARRIVALS. THURSDAY, Mar 25. Schir Ka Mo (put back).

DEPARTURES. WEDNESDAY, Mar 25. Star J. A. Cummins, Nelson, for Oahu ports.

THURSDAY, Mar 26. Star Lehua, New for Lahaina. Star Iwani, Smythe, for Lahaina, Kukuhaele and Hamakua. An echr Carrier Dove, Brandt, for San Francisco.

IN DISRUPTED. Henry Bertelmann Put His Business in Court.

Henry Bertelmann went into voluntary bankruptcy this afternoon. He gives his liabilities at over \$20,000; assets nominal.

The principal creditors are the Hawaiian Government, \$10,000; Wilder & Co., \$4,000; John Phillips, \$2,000. The Hawaiian Government item Mr. Bertelmann says is the fine imposed by the Military Commission in January, '95, which has not been paid. Bertelmann's carpenter shop on King street was closed at 2:30.

HIGHER COURTS. Several Cases of Interest are Pending.

The Magoon-Afong injunction matter is being heard by Judge Carter in Chambers this afternoon.

The case of J. C. Cluney vs. Lee Wai, injunction, relating to the Chinese theater, was argued late Wednesday and submitted. The case of C. B. Maile vs. Chin Wo was disposed of in like manner.

The matter of Edna G. Trousdale vs. B. Cartwright, et al., executors of the will of the late George P. Trousdale, assumpsit, is being argued in the Supreme Court this afternoon. E. P. Dole is sitting in place of Mr. Justice Whiting, disqualified.

The Hayselden defendants in the Gibson estate matter, bill to foreclose mortgage, have filed a waiver of service.

In the equity case entitled Rudolph Spreckels vs. Walter M. Giffard, defendant has filed an amendment to his original answer, in which it is alleged, for reasons of the dates of transfer and the time of filing, that no pledge can further be made of stock to Allen & Lewis or anyone else by the plaintiff, Rudolph Spreckels.

Had a Bad Hook. Among the articles taken from Hoshino, the Japanese convicted of passing opium through the Custom house and selling it, was an intensely immoral book. The officer who seized the book thought it might be used to show one side of the man's character. It was not put in evidence, however, but is securely locked in the vault at the Station house.

In an Employer. (Cleveland Te. dec.) The Hawaiian editor who has been denouncing the officials of the Island republic in the newspapers of San Francisco talks as if he were in the employ of Grover Cleveland, president of the United States.

THE DUTY ON PAPERS. A PROPOSAL TO HAVE IT CUT OFF ENTIRELY. It is Ten Per Cent - United States Publications Exempt - Purpose of Suits.

Newsdealers are getting up another kick in re foreign papers and periodicals other than those imported from the United States. The contention is made that papers are not merchandise. Papers for the newsdealers arrive here as freight, which is a concession enabling them to handle their files promptly upon the arrival of steamers. On papers, periodicals and magazines from England, Germany and other countries than the United States a duty of ten per cent, ad valorem is imposed and collected. The fight will be made against this tax.

The question is not new. It has been brought up several times. Dealers contend that the Minister of Finance has the power to decide that newspapers are not merchandise, but the legal lights say no. It is perhaps worth of note that ten times as many European papers as the dealers handle pass through the Postoffice, upon which not a cent of tribute is collected.

It is now stated that the recent suit against say peddlers of San Francisco papers had for its purpose the prize of a decision that papers were not really merchandise at all in the common acceptance of the term. The matter is said to be noted in a proposed tariff act that is at present on the dry dock for amendment.
