

THE HAWAIIAN STAR.

PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY BY THE HAWAIIAN STAR NEWS-PAPER ASSOCIATION, Ltd.

ED TOWSE, EDITOR F. L. HOOGS, BUSINESS MANAGER MONDAY, APRIL 20, 1896

EVERYBODY seems to be entirely willing that the "other fellow" should be taxed.

AMERICAN patriotism will do due time prove the tincture of a new Aloha Aina.

SEVERAL expert estimates place the Cuban sugar crop at minus 87 per cent. To Hawaii this is an incident of "ill wind, etc."

A SURE and certain means of increasing revenue and adjusting tax burden must be adopted. Experiments cannot be attempted at this stage.

MR. THRO. H. DAVIES takes the prize as an entertainer. Few men are able to figure acceptably as a double host. Mr. Davies is adding very largely to the social life of the community during his stay.

THERE has now developed room for doubt as to the genuineness of the enthusiasm in certain quarters for an Electric Car line for Honolulu that was so rampant at the time the snap franchise was before the special session.

WITHIN twelve months two new churches have been dedicated in Honolulu. At the Christian church service it was announced that no collection would be taken, as other financial arrangements had been made. At the Methodist church it was stated and shown that the new institution was wholly free of debt. This is the way Honolulu does things of this sort.

IT is seldom that a mention like the following appears in Bradstreet's or any other publication: "The new bituminous coal combination, Columbus, Ohio, for the lake market, which has been formed, covers about 15,000,000 tons annual output, and most of the small increase in price, it is said, will go to the colliers in the form of more wages."

THEY have kahunaism at San Francisco. A Mrs. Deuss had "her fortune told." She was crazed by the information from the sorceress. Thereupon she killed her three little children and herself. This is worse than the history of the practice of Black Art by Hawaii's "Witch of Lanai," now serving a sentence in the Government prison.

AND now it is claimed that the Japanese knew all about the X ray several hundred years ago and have been calmly amusing themselves with it. Up to the time of war between Japan and China it was the invariable custom to set out that any new and startling discovery had long been familiar to the Chinese. Japan now gets this credit as one of the fruits of victory by arms on land and sea.

SEVERAL important and interesting recommendations are made in the report of Postmaster General Out. He suggests: An island parcels post system, stamped envelopes for letters to be mailed aboard steamers, appointment of pursers of inter-island steamers as mail agents and a new merchant street front for the Honolulu postoffice. Note is made of several improvements in the service, especially of a new route on Hawaii. This bureau, all in all, is making a fine record and is entitled to any concession from the government that the managers think will increase efficiency.

IN DISCUSSING national finances Mr. L. A. Thurston is not original as usual. No one has questioned the wisdom of securing a reduction in the interest on public debt. As to heaping up outstanding obligations at this time, that is another matter. The Republic is young yet for that step and, besides, there is every reason to believe that re-adjustment of the tax system, which has long been a crying need, will provide funds for improvements such as are deemed essential. With the Nation, as with the individual, it must be recognized that debt increase is an expedient of the last resort character.

SPAIN INSOLVENT.

The London Statist says: "Practically Spain has never paid her way. She has always had to borrow to pay the charge for her debt. She has again and again defaulted. She has reorganized the debt. She has reduced it in all manner of ways. And since the last settlement with her creditors she has paid the interest out of borrowed money just as before. Spain, therefore, in the truest and most literal sense of the word, is insolvent. But she has somehow or another managed to raise money enough to pay her creditors up to the present. It is said that negotiations are going on with France which will result in another Spanish loan being brought out in Paris. That remains to be seen. A French loan, of course, would be an immense advantage for the time being. But it would be a much greater advantage to Spain than the French investors."

RIVER AND HARBOR APPROPRIATION BILL NEARLY FINISHED BY THE HOUSE COMMITTEE.

Fifty Thousand Dollars Provided by the Expended Upon It During the Coming Year.

EVIDENCES OF LOGROLLING.

The above is a heading to a dispatch received by the N. Y. Herald as a report of the doing of the House Committee on Rivers and Harbors in West Virginia, Pennsylvania and Ohio. The House and Senate of these Islands seem to be on a "saving tack" by the way they are cutting some of the appropriations and salaries. What do they intend doing with all of this money that should be used in public improvement of some kind? Why not make a greater harbor for Honolulu? The demand for one has been brought very forcibly to the eyes of the public in the last few months on account of the number of vessels that have called here for sugar.

Docks could be put up on ground that today is of comparatively small value, but in the years to come might have to be purchased at a very high figure.

In the future when ships from European countries bound for the Orient utilize the Nicaragua Canal, Honolulu will be in their most direct and shortest path and a great many will depend upon stocking up here with provisions. Others will take cargo for these Islands in conjunction with Oriental freight. Then the benefits of ample dockage and a larger harbor will be derived.

Last week in order to satisfy ourselves as to the merits of the "NEW PROCESS" BLUE FLAME Coal Oil Stove we decided to try its cooking and baking qualities. We gave it a most thorough test and in both the baking and roasting we were agreeably disappointed.

One of the gentlemen present, by invitation, became so enthusiastic that he wanted to send the stove to his home at once.

No. 105 NEW PROCESS.

The advantage of the "NEW PROCESS" Blue Flame Coal Oil Stove over the gasoline stove is the first cost of the material used. There is nearly one dollar's difference in cost in favor of coal oil. A case of gasoline (10 gallons) will only last two weeks, while an equal quantity of coal oil used in the "NEW PROCESS" will last a month.

This estimate is made on the basis of the stoves cooking three meals a day, the dinner to be comprised of the full number of courses.

We have these stoves in two styles. The number "105" is as per the above cut and consists of three burners. This stove is very convenient for a medium sized family, having all the fixtures upon the larger stove. In the above cut the oven is shown in position for baking or roasting.

When not in use for either it can be conveniently pushed back and the burner used for other purposes. The weight of the "105" is only 130 pounds and costs complete \$22.50.

The No 106 stove is exactly the same as the "105" except that it has four burners instead of three. The cost of the "106" is \$25 complete. The weight is 140 pounds.

All the burners can be used for cooking at the same time. The wick raiser is strong and positive in its action. One wick will last a whole season with constant use if proper care is taken. The enameling and decorations are of the highest order.

W.W. DIMOND'S

The local in the morning paper, the other day, to the effect that our clerks were busy until midnight placing steamer goods was not a joke—it was a hard, cold fact. Such an aggregation of implements for the garden you never saw.

Shovels and spades, hoes and rakes, lawn mowers, regular high grass cutters, at \$9.50, that will cause your yard man to ask for a decrease in his wages; garden wheelbarrows and garden hose that last so long that it is an injury to our business to sell it, forms a stock that you will wonder how we get the goods.

It is the natural way to prove prices by comparison, but we are scrupulously careful that the price comparisons we mention to you when you come in. No successful competition is successful now. Any store can meet the Dimond price on a single item—by losing money; no other store can meet the collection at any price.

NO CHILDREN NEED APPLY.

That was the rule, but a Brainy Young Man Changed Things. The young man admitted that he had children, and the real estate man frowned and shook his head.

"I am very sorry," returned the young man meekly, "and it seems rather hard that a man should be made to suffer for what is no fault of his own, but I suppose it can't be helped."

The cold spell raised a fight at home. They all have lots of pride. Each thinks he knows a great deal more than all the rest besides. It seems remarkable, doesn't it? But it's a fact, and they were determined to be very estimable people too.

Not Called on to Clear It Up. Gangs of boys now barred the passage of Hannibal and his army across the Alps. "We will split those rocks," announced Hannibal, "by heating them."

Out of Sight. O'Harrity—Did you go to the poster exhibit? O'Flaherty—I did. "How were the posters?" "Sure, they were out of sight. Muldoon's goat got into the room where they were before the show began."

The Juicy Frog. Frogs are mainly juicy. If they try to make more than a short journey away from water and their bodies will dry away. The frog's bones are so soft that they leave scarcely any skeleton.

Wheels Have Gone Up.

COLUMBIAS IN A FIRE. Destruction of Wheels in the Pope Building.

BOSTON, March 13. - The Pope Manufacturing Company's building was completely gutted by fire shortly before 4 o'clock today.

The block was a five-story structure of brick, profusely ornamented with terra cotta trimmings.

The contents, which were ruined, consisted of 1700 new bicycles, 175 second hand wheels and about 20,000 pieces of bicycle fittings, besides several thousand tires.

The Pope Company has a total loss on its stock and fixtures conservatively estimated at \$150,000 and \$200,000, on the building. The loss is covered by insurance.

The above shows that a good many wheels have gone up in smoke but that does not mean that they have gone up in price, or that we will not be able to furnish you with a wheel, for our 1896 stock is complete, and we have plenty of wheels to sell, though not "to burn."

When you come to us you have "Columbias," "Ramblers," "Stearns," "Pierce" and "Hartfords" to pick from, and with such a choice you are bound to be suited, but if you are not, buy a "Perkins," that is a wheel that will go around in a dead calm, even if you don't move a leg.

Call and examine our Stock. E. O. Hall & Son.

NEW LAND. DOWN WENT M'GINTY. STEAMER GOES TO THE BOTTOM LYING ALONGSIDE.

Made a Sunday Feature—Something Left Open—Easily Raised Again.

Saturday night the little steamer Kaena, the old "Waimano," while lying at the Inter-Island dock, filled with water and sunk.

Her masts, part of the smokestack and the top of her pilot house were all that remained above water.

Captain Christian was on guard at the wharf at the time. About 1:45 a. m. he noticed that the little steamer had sunk very low into the water.

Investigation proved that water was pouring in through a sea cock or had been forced in. Even then the water was nearly up to the ports.

About 4 o'clock she settled to the bottom. With pulleys and a couple of davits Christian succeeded in raising her forward about two feet, and in that position she remained during Sunday.

The Kaena was empty at the time of the accident. All of her freight had been discharged the afternoon before. Damage to machinery, furniture, stores and other property is not yet known, but will not be large.

This morning a cable from the C. F. Sargent, lying alongside, was made fast to the Kaena, and by use of the winch, the little steamer is being slowly raised.

This afternoon she is several feet out of water. A fire engine has been engaged to pump her out. It will get to work during the evening.

ARE DOUBLING A PLANT.

INCREASING CAPACITY OF THE BIG FERTILIZER WORKS.

New Boiler in Place—Further Trackage—Handling Products and Chemicals.

Work of enlarging the manufacturing of the Pacific Guano & Fertilizer Co. at Kalihi has already begun.

The new boiler built by the Honolulu Iron Works is in place and will be welded in this week.

A new warehouse for crude material, 60 by 200 feet, is receiving the finishing touches and a new track has been laid to it. This will double the storage capacity.

Beyond the present buildings the foundation of a new acid factory has been laid.

This building will be a counterpart of the first one, the object being merely to double the capacity.

A new track will be laid out on the Ewa side to connect with these buildings. This track will take off all the manufactured goods for market.

The works will turn out about 6,000 tons of high grade fertilizer this year. It is calculated that 12,000 tons can be manufactured.

All through the process of manufacture these fertilizers are subjected to the most careful chemical tests, and not one pound is allowed to fall below prescribed standards.

Police Visits. Deputy-Marshal Hitchcock and a couple of policemen visited the dens of Chinatown Saturday evening.

Curtains in front of doors were ordered down, and other methods of reform instituted. Mr. Hitchcock says the law will give the police the right to enter questionable places without search warrant, he will undertake to mitigate the evils now existing in that part of the city.

The Regiment. Sergeant Ferry urges all raw recruits of the second battalion to meet him at the old barracks at 7:30 this evening. Complaint is made that Company D recruits do not turn out.

Company H will drill this evening. The regular evenings during this week.

PICNICS. The Two Entertainments Provided Saturday.

About 297 persons accepted Mr. Theo. H. Davies' invitation to the picnic at Remond Grove on Saturday.

The train left at 9 a. m. and returned at 3 p. m. Among the excursionists were the pupils and teachers of St. Andrew's Priory. A dozen native musicians were taken along and played on the grounds.

The day was spent in sports, feasting and dancing. The latter took place in the pavilion. Altogether the affair was most pleasant. It was given in honor of the 21st birthday of George Davies, eldest son of the host of the occasion.

At the close of the evening the guests were given the pupils and teachers of St. Andrew's Priory. A dozen native musicians were taken along and played on the grounds.

ARE DOUBLING A PLANT.

INCREASING CAPACITY OF THE BIG FERTILIZER WORKS.

New Boiler in Place—Further Trackage—Handling Products and Chemicals.

Work of enlarging the manufacturing of the Pacific Guano & Fertilizer Co. at Kalihi has already begun.

The new boiler built by the Honolulu Iron Works is in place and will be welded in this week.

A new warehouse for crude material, 60 by 200 feet, is receiving the finishing touches and a new track has been laid to it. This will double the storage capacity.

Beyond the present buildings the foundation of a new acid factory has been laid.

This building will be a counterpart of the first one, the object being merely to double the capacity.

A new track will be laid out on the Ewa side to connect with these buildings. This track will take off all the manufactured goods for market.

The works will turn out about 6,000 tons of high grade fertilizer this year. It is calculated that 12,000 tons can be manufactured.

All through the process of manufacture these fertilizers are subjected to the most careful chemical tests, and not one pound is allowed to fall below prescribed standards.

Police Visits. Deputy-Marshal Hitchcock and a couple of policemen visited the dens of Chinatown Saturday evening.

Curtains in front of doors were ordered down, and other methods of reform instituted. Mr. Hitchcock says the law will give the police the right to enter questionable places without search warrant, he will undertake to mitigate the evils now existing in that part of the city.

The Regiment. Sergeant Ferry urges all raw recruits of the second battalion to meet him at the old barracks at 7:30 this evening. Complaint is made that Company D recruits do not turn out.

Company H will drill this evening. The regular evenings during this week.
