NO PILIKIA.

THE STAR does not apprehend any serious results from the summary deportation of a trio of conspirators. There are times when the bull must be taken by the horns, as it were. Devotion of the rule of a fair trial for everybody is rarely warranted. In this instance the police department made a showing that justified extraordinary action and warranted the sanction of the Cabinet. The Government was fully advised.

The individual cases of Cranston, Mueller and Johnston merit little, if any attention. The points made by those who condemn the banishment are not to be passed over lightly. The responsible men know that they are near the danger line. They realize the possibility of embarrassing results and the likelihood of injustice being done in certain cases. They are well aware that the precedent has its encumbrances, present and future. All these things were considered in advance.

This paper is by no means enthusiastic over the new departure. But we admire decisive action, command courage and proclaim the conviction that the Government is as capable of working on this line as on any other.

As we understand it now, Major Hawes, T. Rain Walker, Minister Willis, Consul Mills and Consul Hackfeld all agreed that the Republic knew what it was doing. THE STAR is not in the business of abusing Minister Willis just now. But if he "commits an overt act," watch the fury. It is true, we learn, that Mr. Willis is rather free with counsel and comment. Most recent American envoys to Hawaii have been troubled with the same ailment. And where, oh, where are they?

CREDIT IS DUE.

THE thousands of Asiatics on the Islands behaved themselves splendidly during the insurrection. Their commendable conduct is notable for many reasons. The Chinese have assimilated to some degree with the natives, but retain their rare good judgment and averseness to useless conflict. They are a peaceful people here, and to a man favor the new order political.

Had they so minded, the Japanese might have made no end of trouble. The body of them know less of Hawaii than the Chinese, who have been a factor in Island population and affairs many years.

The friendly, sensible demeanor of the Japanese is due almost solely to the wisdom of their diplomats and leading men here.

ORDERS FOR THE STAR's second edition war book will now be received.

IT is expected that within a fortnight an annexation campaign that will be effective will be inaugurated.

WE EXPECT that the correspondence between this Government and the United States on the shipment of Cranston will grow into a contentious story rivalling in interest a tariff debate.

AFTER every war here, there has been talk of a service certificate or button. This time the proposal has taken definite form. In a very short time every veteran will be provided with a memento of the uprising of 1895.

IN HAWAII, the same as anywhere else, the best thing a man can do is to arraign himself on the side of law and order, avoid entangling alliances, regulate the itch for office and gold, and enlist under the banner of good Government.

ADMIRAL BEARDSLEE and staff stood on the bridge of the Philadelphia and watched the flagship of the Hawaiian navy tow in a prize. It is asserted that the ambient atmosphere in the neighborhood of the great white cruiser took on a bright green hue. Our navy is little, but oh, my!

### NATIONAL CANE SHREDDER.

Patented under the laws of  
Hawaiian Republic.

One of these Shredders has recently been installed at the mill of the Paahau Plantation Company, Hamakua, Hawaii, and Mr. Andrew Moore, the manager, writes concerning it:

PAAHAU PLANTATION CO.,  
HAMAKUA, JUN. 10, 1895.

W. O. IRVING & CO., LTD., HONOLULU,  
GENTLEMEN.—The mill has been running during the past two weeks, with the National Cane shredder lately installed, giving the most satisfactory results.

Our mill consists of three sets of two rollers, 32 in. dia by 72 in. long, the shredder discs being 5 ft. 7 in. long, driven by an engine 11 in. dia cylinder by 14 in. stroke.

The Rattan cane being killed is hard and brittle, and is liable to break, but, by being reduced to a pulp, it becomes more pliable, and is easily ground.

Now quite a number of people are helping keep the secret of the verdicts and sentences. As far as THE STAR can learn the commission reached conclusions shown in the following:

Sam Nowlein—To be hanged. Robt. W. Wilcox—To be hanged.

W. H. Rickard—To be hanged. Chas. T. Gulick—To be hanged. Major Stewart—To be hanged. Henry Bertelmann—To be hanged.

Tom Walker—To be hanged. (Perhaps this is not correct.) Carl Widemann, W. C. Greig, Louis Marshall—Long terms of imprisonment and heavy fines.

Much more on this subject has leaked." The foregoing is believed to be entirely fact.

It is well understood that the sentences as published and ordered by the President may vary from the returns of the Commission. The order, however, will disclose the original findings.

## SOME LEAKS.

Several times within the past two days reports have come in of a strange schooner being seen off various points of Oahu and Molokai. Yesterday morning it was sighted off Waianae. Acting upon this information the tug put sea at 5 o'clock this morning intending to come up with the craft and learn her mission or assist her into port.

Captain King was in charge of the expedition. As a precaution ten Sharpshooters under Lieutenant Dodge, Sergeant Simonson of Citizens Guard, E. N. Hitchcock of the police, and a howitzer were sent to Honolulu for examination by the Government Analyst.

The Captain of the Jane Gray stated that he had encountered gales on the way down. Part of his rigging was carried away and his vessel was leaking. He desired to put into Honolulu for repairs, and asked for a line from the tug. The tug agreed to bring her to port for \$20. A line was put out and the schooner anchored in the stream off the fish market at 9:30 o'clock.

Off Koko Head Port Surveyor Sanders, Jack McVeigh of the Board of Health, and Lieutenant Elvin boarded the schooner and remained aboard until she was turned over to the Customs Department in port.

A thorough search of the Jane Gray was made. Forty rifles, a keg of powder and a considerable lot of bullets are aboard. A part of this lot is for another sealer now on the Asiatic side.

Night a small bag full of signal fuses with an implement for lighting them was found in a fishing boat belonging to Antone Costa. Costa found the owner of the materials in his boat, the man running away when the fisherman approached. It was very evident that the fuses were to be used to signal to some boat.

In some theorizing the schooner, the signal lights and a reported plot for a jail delivery have been connected. Friday night information was brought to the police station that warranted an increase of the guards. One of the latter at the reef, has told that he was approached by an outsider and sounded on the subject of assisting men to escape.

Foreign Missions.

The regular monthly meeting of the Woman's Board of Missions of Central Union Church will be held at 2:30 p.m. tomorrow. Mrs. U. Thompson will read a paper on missions in Siam and Laos. Miss Dudley, a returned missionary from Japan, will also address the Board.

SCHOOENER NORMA.

Heimsemen Under Arrest and Being Questioned.

Something radically wrong in the late cruise of the Norma from British Columbia to this port is developing. That she stopped at some point in the Hawaiian Islands and landed stores of some kind is thought to be well established.

Whether guns, ammunition or opium was smuggled is not known.

The Japanese boat-steerer of the Norma was arrested this morning and lodged in jail. He is being questioned and may give away a story that will result in other arrests.

The Popular Oath.

Another Dead Rebel.

A Portuguese boy found a dead Kanaka lying in a gulch in Pauoa valley yesterday afternoon. Though unarmed the man showed evidence of having been a soldier, and was shot. The Portuguese reported his find to P. H. Burnette and a friend who were walking on Tantalus ridge and they examined the body as well as might be. The man having been dead several weeks, decomposition had gone so far as to make identification doubtful. A wagon was sent up this morning to carry the body. Up to 3 o'clock it had not returned.

"But" continued he, "God makes all things work together for good. The rebellion has shown the strength of the Government to the world, and the weakness and cowardice of its foes. The native can no longer afford to follow his mad leaders, but will join hands with the Government and the men who are his friends."

Air Pump Bursts.

The Kaala left port this morning and when a few miles outside her air pump burst. She put back into port. The damage was repaired today and the Kaala will leave tomorrow.

## WAILUKU.

Feb. 2.—The body of a native, a woman, was found on the road near Keokea, Kula, early last Sunday morning. Coroner King investigated the case, but no inquest was deemed necessary.

Kan Fat, a Chinese cook at the Spreckelsville Club house, died under rather suspicious circumstances on the 27th inst. Deputy Sheriff Dickey, acting as Coroner, caused an autopsy to be performed by Dr. Edw. Armitage, before a foreign jury, which however revealed no direct cause of the man's death, the physician being of the opinion that death probably resulted from heartfailure. The authorities have caused the stomach of the unfortunate man to be sent to Honolulu for examination by the Government Analyst.

Mr. B. F. Hoffacker, the general manager of Spreckelsville, returned to Maui per last Claudine after a few months trip to San Francisco.
