Supreme Court—In Banco.

HARRIS AND JUDD, J. J.

In re the estate of S. Pahi, deceased.

This was a motion by the counsel of the heirs of His late Majesty Kamehameha V., to set aside the probate of a second will of the decedent as having been fraudulently obtained.

It appeared that letters of administration had been granted to one John Ii together with one Sylva, upon the above estate, by the Circuit Judge of Maui, on the 20th of Jan. 1872: that said John Ii (who now offered the present will) upon that hearing was, a witness, and swore that Pahi died without making a will. On the 9th of December 1872, a will of Pahi's was offered for probate in the Supreme Court of Honolulu, which was in favor of His Majesty Kamehameha V., and was duly admitted to Probate, the said Ii being a witness, and testifying that Pahi did not tell him to whom he had left his property.

On the 28th of October, 1873, a second will was offered for probate, differing from the first will, by devising certain land on Molokai to J. M. Kanoa.

The application to prove the last mentioned will was made under the name of Kanoa, whilst he testified before Judge Fornander and at the hearing for probate of the first will under the name of John Ii, so that no suspicions were excited as to his identity and the second will was duly admitted to probate. But it having been discovered that the man who propounded the second will (Kanoa) was the same as testified at Lahaina under the name of Ii, motion was made to set aside the probate of the second will as having been fraudulently obtained.

It appeared from the evidence that he was known under both names, and that he wrote the will himself, but had not the testimony been very conclusive that the second will was properly made and executed, his conduct would have broken it down.

The court adjudged the second will to be the last will and testament of S. Pahi, deceased, and also that John Ii alias Kanoa pay all the costs which have been incurred from the attempt to prove the first will to the present time.

After the court had delivered its decision John Ii alias J. M. Kanoa was arraigned under a charge of perjury in the above case and committed by Mr. Justice Harris to take his trial at the next October term of the Supreme Court. Bail to be allowed for $5000.

In Probate.

Aug. 11.—Guardianship of George Launui, a minor. Petition of Waiamau w, that letters of administration be issued to Ai, her present husband, of the person and property of the above minor, her child by a former husband. The minor appeared to be about thirteen years old, and on being questioned stated that he wished Ai k. to be his guardian, whereupon the court ordered Letters to be issued to said Ai upon his filing a bond in the sum of $500. Inventory to be filed within 30 days.

THE JAMESTOWN.—This ship-of-war, lately of the United States Navy, is now under the control of the Board of Supervisors of the city of San Francisco, having been detailed by the Secretary of the Navy for the purpose of being employed as a training-ship for the benefit of boys who desire to become seamen. The idea is a new one for this coast, but the experiment so far has been attended with the most happy results. Applications for places have been numerous and it is expected eventually that the number of sailor-scholars will be over a hundred. There are at present sixty-four boys on board between the ages of ten and eighteen, and they appear to be a healthy and active set of youngsters, and to enjoy life. They receive instruction regularly in the elements of a common school education, and the thorough and strict drill to which they are subjected works wonderful changes in them for the better in a very short period. The ship left San Francisco on the 21st ult and arrived at Honolulu on Thursday the 10th instant. She will leave again on her return trip soon after the arrival of the down steamer, (on or about August 26.) and as Commander Glass desires to spend sometime at sea for the purposes of instruction, she will not probably arrive over inside of thirty days. Following is a list of her officers:

Commander	Lieut. Com. Henry Glass, U. S. N.
Executive	Lieut. Nelson T. Houston, U. S. N.
Navigator	Master Thos. S. Plunkett, U. S. N.
Surgeon	Dr. F. Phillips.
Instructor	R. Espinosa.

IMPROVEMENTS.—Mr S. Magnin has removed the two old crazy wooden structures, lately occupying the lot purchased by him on Nuuanu Street, and workmen are now engaged in laying the foundations for a commodious brick building to take their place, which he will occupy as a store.

HAWAIIAN GAZETTE

AN INDEPENDENT JOURNAL,
DEVOTED TO HAWAIIAN PROGRESS.

PUBLISHED AND EDITED BY
HENRY M. WHITNEY.

WEDNESDAY, AUGUST 16.

WE commence, in this issue, the publication of the laws passed at this session of the Legislative Assembly, several of which will be found on the fourth page. With the exception of the first in the list, they are all laws to repeal or amend previous enactments. The first makes provision to exempt from duties certain articles enumerated in the reciprocity treaty, such exemption to continue as long as that convention may last. The passage of the Act became a necessity, from the fact that the treaty was not finally ratified before the meeting of the Legislature.

NOTICE has been given in the Assembly by the Minister of Finance, that a bill will be introduced soon, making American gold and silver our legal tender, the former to be the standard in all contracts, and the latter a legal tender in limited sums. Provision is made for fixing the rates at which other gold and silver coins will be received at the public treasury, as now by the Privy Council. The date at which the law is to take effect will be early in 1877. Such an act seems to be a necessity, and will, we think, help to guard our people and their commerce against the fluctuations in silver which are now taking place in some other countries, and creating so much loss and distress.

PROGRESS in postal systems as well as in other things is still the order of the day. The great and cosmopolitan Postal Union is marching on with the growth of ideas, and is embracing in succession the most distant nations of earth in its arms of beneficence, and as we believe is accelerating in no small degree the dawn of that hoped-for day when all the inhabitants of the globe shall be brothers in practice as well as theory. British India and all the French colonies have recently entered the General Postal Union, and henceforth letters may be sent from any country included in the Union to India, Aden or Zanzibar at the reduced rate, and newspapers at the rate of 2 cents per 4 ounces. Letters to St. Pierre et Miquelon, Marquesas Islands and Tahiti, by any route, 5 cents per half-ounce, and newspapers 2 cents per 4 ounces; and to all other French colonies and the French settlements in India, Cochin China and New Caledonia at the same rates as to British India. Hawaii, wheel into line.

Our Water Supply.

Why it is that nothing has yet been done to increase and perpetuate the supply of water for the metropolis, transcends our powers of imagination. Here we are, a city at the foot of arid hills, on a plain, which, were it not for the water furnished by the valley for irrigation would be during half the year, parched and verdureless, and without attractions as a place of residence. Upon the valley water we are entirely dependent for security and safety from the arch-fiend, Fire. The water works of the city is one of the best paying investments in the country, public or private, and the Government might any day sell them for their full value. An increase of the water supply would be signalized by an extension of the city; its decrease on the other hand will inevitably be marked by a retrograde movement in suburban settlements, by a deterioration of values, and by an increase of disease and mortality. We see the Nuuanu stream dwindling year by year from well known causes, until at the present time the amount of surplus water after the reservoir pipe is filled, might run through a one inch pipe. Next year will behold Kapena and the stream below perfectly dry if the Summer is like the present. Why does the Government wait? Is it for want of authority? No, ample authority was granted at the last session of the Legislature. Is it on account of the poverty of the country? That is one of the strongest reasons which can be cited in favor of promptly doing what may be necessary to preserve, undiminished its present revenues. Were the property private does any one suppose that the owners would sit calmly and see its value depreciating year by year without an effort to prevent it? And why should the administration apathetically behold public property, and public interests which they are paid to maintain and preserve, slowly but surely tending to destruction?

We again, as we have repeatedly done in times past, urge upon the Government to engage upon this most important work immediately. Let the leases for the upper part of the valley be cancelled, and all herbivorous animals be excluded from its sacred precincts, and let some suitable man be engaged to plant the entire region with trees. We would recommend for this purpose Mr. Holstein, an eminent arboriculturist who at present is out of employment and is endeavoring to amuse himself by inflicting upon the public doses *ad nauseam* of his stale and profitless wit. We are confident that with three or four of those chinamen, of whom he is so fond, to help him, he would in a very short period transform the bare hillsides and flats of the valley into charming groves, where the musical song of the water would be heard at all seasons of the year, and by which means an abundance of water for all the possible future needs of Honolulu would be guaranteed.

The Legislature.

The usual biennial pow-wow over the horse tax has been held, giving country members the opportunity to air their eloquence before the admiring groundlings. It is upon action on this question that the member expects to base his claims for re-election. The motion to reduce the tax to fifty cents was only defeated by the vote of the President of the Assembly.

On Thursday the item in the Appropriation Act for expenses of the steamer Pele was under consideration. The Hon. Mr. Rhodes suggested that the government might possibly make arrangements with private parties to undertake the towage of the port. His Ex the Minister of Foreign Affairs immediately suggested that the Honorable Noble give the Assembly some practicable plan. Mr. Rhodes in reply, said—"Yes, that is the way with the Ministers, they have no ideas, no plans of their own creation, always asking for plans from others." The Hon. Mr. Preston then interrogated the Ministry as to the items of expenditure comprehended in the sum asked for.

The Ministers replied that the salary of the Captain was one item; that was $1800 a year. Mr. Preston asked if this was the only sum paid to the Captain. The Ministers replied affirmatively. Mr. Preston said that the street talk was that this officer was also paid an extra sum for supervising work on the wharves, and that he was also allowed a commission for collecting sums for towage. Considerable surprise was expressed at this statement, and the matter was, on motion of Mr. Preston, referred to a select committee.

The Honorable member from Lahaina has proved to be a valuable assistant to the Ministerial side, in developing matter in the departments which has heretofore been as a sealed book. It would seem to be the better plan to pay all government officials a stated salary, and have the sum thus paid appear in the Appropriation Act. *All fees and perquisites should be paid into the Treasury.* At the same time we believe that the salaries paid should be liberal, but we must protest against salaried officials being allowed commissions for revenues collected by them. The Hon. Mr. Preston assured the Assembly that Governors and Sheriffs charged, and were allowed, a commission of ten per cent. for moneys collected for licenses issued in their districts.

The Constitutional amendment, by which *all Judges* will be debarred from holding seats as representatives in the Assembly, was passed by a rousing majority, only two votes being recorded against. Another amendment by which the qualification of representatives is fixed at ownership of five hundred dollars worth of real or personal property was also carried. We shall not again be permitted to hear honorable members prove an income of two hundred and fifty dollars.

On Friday the Assembly had a spasm of liberality and sums were voted for markets at Lahaina, Wailuku, Hilo and other localities.

On Monday the usual weekly vote of want of confidence in somebody, this time the Governor of Oahu, consumed the morning hours, and as usual was lost. The point was that the governor had discharged six policemen without giving them a reason, or allowing them to be heard in defense. We would say in passing that the discharge of any public servant summarily, without cause assigned, has a demoralizing tendency.

The appropriation for Agriculture and Immigration caused a long debate. The members however voted $22,000 in order that the Ministers may be enabled to meet existing contracts; but whether it is well to vote any further sum to initiate a systematic plan for repeopling the kingdom had not been settled up to Tuesday morning, when the Assembly was adjourned, for lack of a quorum, until 1 o'clock P. M. In the afternoon, the additional sum of $50,000 was voted by a large majority, making a total of $72,000.

In the debate on the subject of immigration, the Hon. Mr. Rhodes quoted the proverb: "Whom the Gods would destroy they first make mad," and intimated that the members who opposed the item were now mad. The Hon. Mr. Kalankea opposed the appropriation on the ground that there was no guarantee that the Ministers would not spend it for public balls and other matters having no relation to immigration or agriculture, and referred to the Budget as sustaining his position. This however may be guarded against, by the wording of the act.

Three Months.

The Legislative Assembly of the kingdom has now been in session over three months,—to-day is its eighty-eighth working day,—and it may be well to glance backward over the history of these days, and see what has been accomplished for the permanent good of the country, what reforms have been instituted, and what compliance has been granted to the desires of the community—that is, of the intelligent part of it; for the less attention there is paid to the voice of the people as manifested by the scores of puerile petitions which pour in to the Legislature from all parts of the Kingdom—they already number for this session about 350,—the better.

The most careful review will fail to indicate any genuine comprehension of the true needs of the country, or any honest endeavor to solve the problems of national import presented. There have been long and resultless discussions on the right of the Ministers to vote: on the question as to whether the Reciprocity Treaty will be a blessing or a curse; on the proposition to deprive a large number of property-holders of rights which the Constitution guarantees them, by making private fishing grounds public property. There have been grave attempts made to amend laws long since repealed; the accounts of past secretaries have been overhauled and discussed and voted upon. The privilege of imbibing the poisonous and destructive infusion of Awa has been extended and that most beneficent law of last session prohibiting the sale of opium in compliance with the petitions of large numbers of victims of the opium habit, will undoubtedly be repealed, all for the sake of a few dollars more of revenue. The coat of arms of Hawaii might very properly be a vulture feeding on its own vitals. We loudly bluster about "*Hooulu Lahui*," and at the same are engaged in peddling out the blood of the nation for filthy lucre. As a notable example of the eminent ability of the aborigines for independent legislation we have the Bill of the Hon. Thomas Martin, one of the Nobles of the land, to increase the people. Although drawn up with the greatest care, and introduced with the utmost solemnity, it provokes in the intelligent mind naught but derision and contempt. The bill to put the natives on an equal footing with foreigners in the matter of getting drunk, evoked a long discussion; the much-needed law of 1874 to promote industrial and agricultural pursuits in public schools, which if properly amended and fully carried out, would have been a real and permanent benefit to the country by inculcating habits of industry in the rising generation, has been ruthlessly killed in accordance with the growing sentiment of Young Hawaii that manual labor is undesirable and degrading. An unlimited amount of fervid eloquence has been uttered upon such momentous questions as the right of illegally-elected members to their seats, and in abortive attempts to eject those who were legally elected for such crimes as ill-health. Resolutions of want of confidence in the Ministry, the Board of Health, etc. have absorbed so much time that the public would have no objections whatever to have the Ministry retaliate by requesting the King to express their want of confidence in the Assembly by proroguing it.

Matters of vast import to the nation, like the value of the lunches devoured at the session of two years ago, have solicited high-toned flights of eloquence and savage phillipics. An immense amount of energy has been directed towards the destruction of some of the most beneficent institutions of the land, as in the case of the resolution to abolish the Reformatory School, when two rabid advocates of the resolution occupied a whole day in the attempt to prove that the school was an infringement upon the liberties of the people because the oppressed inmates were compelled to work four or five hours a day. The poll-tax has been quietly abolished in the face of an anticipated deficiency in revenue; the horse-tax has all but followed suit, and it would be no more than there is reason to expect, if a similar attempt should be made on both the road-tax and the school-tax. Half a century ago Hawaiians were taxed without limit, and their respect for their rulers was also without limit; to-day they have neither respect nor love for their government, and it is but natural that they should wish to evade their share of its burdens if possible. But if they desire to retain the reins of government in their own hands, it would be well for them to study the problem how long the white element will be contented to pay the expenses of an unnecessarily expensive government, and at the same time be deprived the exercise of its proper influence in it.

But to proceed with the consideration of the work so far accomplished. Whole days have been devoted to the ventilation of crude theories and vain opinions on the subject of leprosy, abounding in scornful allusions to the knowledge of foreign doctors on the subject. The Inspector General, who, like some other people, is not quite perfect, and has in addition to some other failings the unfortunate habit of wearing a white integument, (which in the eyes of the Legislature constitutes an unpardonable sin), has furnished them with a sweet morsel, and they have rolled his reputation under their tongues, until, if their judgment had any weight, there would be nothing left of it. Discussions as to whether the supply of ice per day should be increased from five to ten pounds have been most earnest and excited, that being a range of subject well adapted to the capacity of the Hawaiian mind,—one whose utmost bounds it finds no difficulty in grasping. The question was deemed of sufficient importance to justify a call for the ayes and noes, while in others, which to the ordinary mind appear of infinitely greater importance, the vote goes unrecorded.

Thus far but ten or twelve bills have passed the final reading, and received the King's signature, and a perusal of them, (the majority of them may be found on the fourth page of this issue,) will not be found favorable to the belief that the hope of the country is in the Legislature.

The promoters of this undertaking have in view the purchase of the plant and premises of the *Pacific Commercial Advertiser*, and to run a newspaper in the Chinese language. An editor will be imported either from the Celestial land, or from Mt. Haleakala, where an embryo one may be procured at small cost, and who is an embryo Professor of rum gauges. The principal article of expense will be in procuring new type in the Chinese language, although it may be feared that it will not circulate amongst the foreign residents, the promoters do not think this a valid objection as it has been proved that the *Pacific C. A.* has circulated for some time although it might as well have been printed in Chinese, or read upside down, from right to left, or in any other way, for any sense that has ever been got from it. The substitution of the Chinese for the type of the *Advertiser* will not be missed by the community.

It is confidently anticipated that the sale of articles of virtu which will be taken over from the *P. C. A.* will realize sufficient to pay a dividend of 25 per cent. on the first six months of the venture. The articles will all be fumigated so that no contagion is likely to afflict the purchaser. Amongst the collection are the following articles—

Lot 1.—1 Slang slinger.
" 2.—1 Editor's chair, with weathercock attachment.
" 3.—1 Notorious devil, Editor's own, (nearly solid sulphur).
" 4.—1 Mangle.
" 5.—1 Bushel of blunt quill pens.
" 6.—A magnificent etching by the Editor,—"A camel going through the eye of a needle."
" 7.—The ten commandments—in wonderful preservation, having been hung face to the wall in the *Advertiser's* sanctum for many years.
" 8.—Another first rate "itching" (author incog). The cats and the chestnuts. Very good, the scared look on the face of the cat being "par excellent."

It is further confidently believed that the present editor will offer a large bonus to be retained in his present position. The promoters propose to accept the money and then bring a pressure upon His Majesty's Ministers to appoint him Chancellor of the Kingdom, if they refuse to do so, (which is hardly probable) a memorial will be signed to His Majesty insisting that he must install him in the aforesaid position.

Early application for shares is desirable. Sols and pesos taken at full dollar value. It is not intended to call up all the capital at once. Apply at the office of the P. C. ADVERTISER.

Kamehameha the Great
And our Centennial Exhibition of 1878.

MR. EDITOR:—Your remarks that Hawaiians have "to thank their stars," for the help of such foreigners as Richards, Judd, and Wyllie, in saving them from the political condition of Fijians and Samoans leads me to a few reflections for which I beg a little space.

No one in our community can be disposed to appreciate more highly than I do, the ability and disinterestedness of these foreigners in establishing the nationality, and in promoting the welfare of Hawaii; but I feel that the world will recognize that Hawaiians have to thank their stars mainly because Providence sent to them one of their own race to be a conquering and an organizing genius, who established a foundation for the achievements of foreign diplomacy.

I must say that I cannot cease to wonder at the great Polynesian Barbarian, who consolidated this Archipelago under conditions of greater difficulty than those which beset Egbert in the establishment of the English monarchy. The Saxon hero united contiguous states, whilst the Hawaiian had to bridge over wide ocean channels; and in respect to the construction of fleets and the organization and transportation of forces wherein was displayed so pre-eminently the military genius of Cæsar, there has not been a higher exemplification since his day, than when Kamehameha dug the Peleleu fleet out of almost inaccessible forests with rude adzes, and transported on his Polynesian galleys ten thousand warriors, as admirably disciplined on the wave as on the shore.

I wonder again at the policy and organizing capacity of this savage mind. The red race has not produced anything like him either in America or Asia. Other savage conquering chiefs have exercised only brute force, traversing neighboring regions and islands to slay and plunder, and then return to their own tribe to riot in the ill-gotten spoil. But this great red man sought to device increased wealth, and permanent place and independence from the conquest of these islands.

The union of these islands is their safe-guard. Without it a Wyllie would have diplomatised in vain. For want of a Kamehameha, the native races of Samoa, of Fiji, of Tawai Punamu and Ika na Maui, (or New Zealand,) have lost all hope of any independent political existence. Therefore how much cause have Hawaiians who now sit and take such an influential part in a national Parliament to revere the memory of their great chief who founded their state. The contemplation of his genius should rebuke all littleness of spirit and jealousy of race among his countrymen. His superior soul, though barbarous, and unlettered, saw and felt the influence of races. He appreciated the overshadowing genius and the overwhelming numbers of the Caucasian peoples; therefore he early sought and maintained a confiding alliance with the white race for the preservation of his own. And if Kamehameha who had perhaps two hundred thousand subjects and twenty thousand devoted fighting men, should deem it his best policy to confide in the alliance and counsel of the whites, even although he obtained his first counsellors from a vessel, the *Eleanor* which perpetrated a massacre of his people; how much more the Hawaiian race at this time, when it is reduced to one fourth of the numbers of the early days of the monarchy, and has hardly one faithful warrior to be depended upon, has need to identify its political hope, and fortunes with the prosperity of the white race in this Archipelago.—Therefore what a fitting occasion will the proposed Hawaiian exhibition of 1878 afford to the Polynesian and European races in this Archipelago to unite together heartily in order to celebrate discovery, the achievements of a Kamehameha, the establishment of a nation, the spread of light and knowledge, the development of industries and civilization; and so unite with mutual confidence and heartiness of purpose and hopefulness that with a new era there may be a new departure for Hawaii which shall enable her to satisfactorily illustrate what is so much hoped for, a genuine tropical civilization.

DIED.

HALL—In this city August 15th, 1876, Mrs. S. L. Hall, wife of the Hon. E. O. Hall, aged sixty-four years.

[illegible] Clara.—This fascinating artiste in the art of arts, the sublime and divine art of music, has flashed upon our benighted inter-ocean oasis like an angel of light, and in shedding upon us the beams of her brilliant genius she has accomplished that beyond which the purest and most exalted ambition searcheth not, the loving labor of conferring happiness. What rank Miss Clara may hold among living violinists is not for us to decide, but that her skill on the most vocal, the most delicate, the most expressive of instruments is superb we are prepared to vouch. We judge of music by its effect upon us, and her's is of the kind that thrills every nerve, and renders one oblivious to everything else, enraptures, intoxicates the soul with its heavenly harmonies. She has given two concerts since her arrival, the first on Thursday evening last, and the second on Monday evening; both at the Hawaiian Theatre. In the first, she was assisted by Mrs. Kaneakua, Mr. Schmidt and the Hawaiian Band, and on the occasion of the last by Miss Carrie Castle, Dr. Hoffmann and Mr Schmidt. At these concerts she has delighted critical audiences with choice selections from Leonard, Seligmann, Vieuxtemps, Mendelssohn and Alard. The "Grand Concerto" on Monday evening from Mendelssohn was inimitable in its marvelously delightful effects. The genius displayed in its execution was worthy of the exalted genius of the composer. The violin duett from Leonard, in which Mons. Forest contributed his talent, which is of a remarkable high order for an amateur, was one of the most enjoyable treats of the evening. Miss Castle, whose skill on the piano is well known in this community, especially distinguished herself on this occasion in "Home, sweet Home" from Thalberg. To her and Dr. Hoffman is due no small share of credit for the success of the concert. We understand that Miss Castle expects to leave shortly in company with her brother for the States and Europe, for the purpose of perfecting herself in the vocation for which she evinces such a decided talent. Mr. Schmidt's performances on the cornet, of which he is an undoubted master, were very fine and were thoroughly appreciated. We are happy to learn that Mdlle Clara will give another concert during the latter part of the week in which she will be assisted by a lady amateur recently from San Francisco, who is a proficient upon the piano and banjo. No true lover of music will fail to be present.

NOTES OF THE WEEK.

☞ As we go to press the steamer from the South is telegraphed.

☞ Rev. Charles Clark, the lecturer, may be expected to-day by the mail steamer from Sydney.

☞ Among the passengers expected by the City of San Francisco, next week Thursday, are, Rev. Dr. Damon, Rev. W. Frear, John Thomas Waterhouse and wife, and S. F. Dillingham and wife.

☞ Send files of the Gazette and also the Hawaiian Guide Book, to the friends at home. They serve as well as letters, and don't cost so much. Can be had ready for mailing at our counter.

A Singular Mania.—The mania for rabbits exists in Japan. Some time since it was apparently suppressed by the Government heavily taxing rabbits, but it seems to have again come up, a native paper mentioning the price of one lately for sale as $630.

☞ The steamer City of New York was due here last night, but this being the winter season in the South Pacific, when hurricanes prevail around the Fijis, and on the New Zealand coast, the steamers may not have connected promptly at Kandavu. She will be along to-day or to-morrow.

Uncurrent Coins.—The value of the Chilean, Peruvian and Mexican dollar pieces of new coinage is now 85 cents only, halves of the same coins being worth only 40 cts. Persons residing in country districts should bear this in mind. The five franc silver piece is of the same value as two American halves—one dollar.

☞ Death has taken off another of our old residents the present week—Mrs. E. O. Hall, who with her husband came out from Boston in the year 1835, and has resided here ever since that date, a period of 41 years. Mr. H. is at present absent on a visit to the United States. Mrs. H. died yesterday morning at the residence of her son-in-law and was buried in the family lot in Nuuanu Cemetery.

Sale of Real Estate.—The land of Honokahau was exposed for sale at public auction on Saturday last at the upset price of $2,000. It was knocked down to Mr. Greenwell for the sum of $2,700. This land comprising about 3,000 acres, is situated in Kona, Hawaii, in a country admirably adapted for coffee culture. The purchaser has made a bargain.

Fire at Hilo.—At daybreak on the morning of the 8th inst., the trash houses on the Spencer plantation at Hilo were totally consumed by fire. They were four in number, and the loss, including fuel, is estimated at about $2,500. A native employee of the plantation, who is supposed to have started the fire, has been arrested and brought to Honolulu to await his trial.

Lusus Naturæ.—On Sunday night a litter of seven pigs were born at Halawa, one of which (so our informant tell us,) has a pig's body, but a human head. The likeness to human features in every detail is said to be very striking. Thus do we have renewed illustrations of the truth of Darwin's theories. We know several men who there is reason to think are the distant results of freaks similar to that recorded above.

☞ By notice in the official column it will be seen that the Rev. T. Hascall has received the appointment of Vice-Consul for this port. He has been compelled by poor health to retire temporarily from the duties of the pulpit, and has entered upon the position for the sake of employment. Although he was educated for the ministry he has also studied law, having been at one time a fellow student in the law office of his father, in company with William A. Wheeler, Vice President of the United States to be.

New Consuls to Samoa.—The Queen of Great Britain and Ireland has been graciously pleased to appoint Lieutenant Edward Albert Liardet, R. N., to be Her Majesty's Consul in the Navigator Islands. The U. S. government has appointed Gilderoy W. Griffin late U. S. Consul at Copenhagen, Denmark, to be consul at the same place. The promptitude of these governments in sending to Samoa men of experience to represent them, betokens an intention to watch and sustain their respective interests in those islands.

☞ Williams, Blanchard & Co. the well known and popular firm of shipping and commission merchants, prominent in the Hawaiian and China trade, who were already acting as agents for the Panama Railroad Company's steamers, have been appointed agents for the Pacific Mail Steamship Company. No house in the city stands higher than Williams Blanchard & Co. as active, straightforward and capable men of business, with which reputation they combine the advantage of exceptional personal popularity on the part of the individual members of the firm. All the business part of the town, which has personal relations with the steam lines, is more than gratified at the new agency arrangements.—Sac. Union.

The Pacific Ocean Cable Company.—At this time it may be interesting to give the names of the Pacific Coast incorporators, who, associated with sundry citizens of New York and New Jersey, are: Alvinza Hayward, James C. Flood, Leland Stanford, Mark Hopkins, Isaac Friedlander, Louis Sloss, William Norris, John F. Miller, William Irwin, James McM. Shafter, O. H. La Grange, William Alvord, Eugene L. Sullivan, John P. Jackson, John B. Felton, Andrew J. Bryant, Philip A. Roach, Nat. W. Spaulding, Frank M. Pixley and J. Craig, of San Francisco, and Henry Failing and Julius Friedman, of Oregon. This array of names combines the natural resources of the Merchant's Exchange Bank, Nevada Bank of San Francisco and Bank of California, the political influence of the Democratic Governor of California and the Mayor of San Francisco, with the Republican Superintendent of the Mint, besides representative leaders not in office of both parties, the commercial representative of the Hawaiian Kingdom, not neglecting the important Oregon interest.

After a long discussion the committee rose and asked leave to sit again to-morrow. Adjourned.

European Correspondence—No. 14.

Dear Gazette:—Geneva is pleasantly situated on both sides of the Rhone, at the foot of the lake. Our pension was on the left bank of the lake, that is to the south-east side. Its front rooms faced the lake, the back rooms looked away to mountain ranges, with Mont Blanc the monarch above all. The beautiful avenue passing our door led on and on to the east, I know not how far; skirting the water and shaded by noble plane trees. I walked out on it three miles to the village of Vesenaz which attracts one from a distance by its pretty situation on a point jutting into the lake.

Returning to Geneva by a road a little inland, one passes among instead of in front of the elegant villas which cover all these shores. There is the villa Diodati, once the home of Lord Byron. From underneath the great trees which overshadow the sloping lawn he looked out upon exactly the lovely prospect he describes in the 3d Canto of Childe Harold. The place looks deserted now. It is kept in passable order by a porter who exhibits it to strangers. These visitors sometimes possess the relic-collecting hobby to a degree that becomes almost a mania. Some friends of mine related an incident of their visits among these chateaux. "The guide was showing us about, and mentioned that the grave he was pointing out was of such and such a great man. Quick as a wink, we each had a leaf, to his inconsolable grief. We offered him money, we even said pleadingly 'take the leaves, then, take them,' but he only mourned out, broken-hearted, 'why, they will not grow again!' It was almost impossible to believe that a franc would not comfort him."

In the gardens of all these villas I saw most beautiful plants, many of them new to me, some of them old friends, such as Indian shot, and Kalo. They grew as thriftily in those grounds as in their native homes.

The residences of other famous people, now dead, are to be seen in the villages neighboring Geneva, or in the town itself. Necker and his daughters, Madame de Staël and Rousseau were born in Geneva.

Of course every one goes to the cathedral to see where Calvin preached reform. There are still to be seen the canopy under which he stood and the chair in which he sat. We attended an organ concert there. I then heard for the first time the imitation of a storm upon the organ. It was natural enough to make one shiver. But it is not every one who enjoys the changing of the dignified use of that noble instrument into a mechanical trickery of this sort to tickle the fancy, or create a short-lived wonder.

These organ concerts are common in cathedrals, and are free, so far as I know.

There are concerts of the same sort in American cities for which there is usually a small charge. One is pretty sure of hearing good music at these rehearsals. The programme, at any rate, is seldom poor, whatever the execution may be. The Lucerne and Fribourg organs are two famous ones of Switzerland, and there are weekly rehearsals upon them which every one may attend.

Among the attractions of Geneva are the well built quais which make fine promenades along the banks of the lake. The quai de Leman is the place from which to watch the sunset changes on Mont Blanc, which lies away off in the eastern distance and catches the reflected glories of the western skies.

The finest buildings front the lake, in the older part of the town the streets are narrow and the houses inferior.

There was a brilliant display of jewelry in the shop windows. I was told that such a display was reserved always till rather late in the season when the crowds of eager-buying tourists had departed. Then the windows were made especially attractive to tempt customers.

We went one Sunday morning to hear Pere Hyacinthe. He has no church, no followers, he stands nowhere in religious matters but by himself. But he has a crowd of curious listeners every Sunday, and the few francs he obtains by passing around the plate after the service, is all the remuneration he gets for his ministrations. Any one familiar with the gorgeous display of a Roman Catholic Sunday morning mass, or with the ceremonials of an English ritualistic service, even, would be surprised and saddened to see to what straits the reverend father has come to, to get assistance in carrying through his morning duties. He has no choir, no acolytes, no show of altar cloth and flowing vestments, but he is waited upon in a plain, dim room, on a bare platform, by four young men in business suits, who have an air of being bored by the whole business. They yawn and make communications to each other, are very slow in getting on to their knees, and very quick in getting off. The altar is a small stand on the platform, the organ, a melodeon behind a screen, the choir, one man who perhaps also plays the melodeon.

After Pere Hyacinthe had gone through with the mass, partaking alone of the communion, for, as may be imagined, neither catholic nor protestant would commune with him, he came to the front of the platform before the stand to preach.

His unwilling assistants put the censer and communion service out of sight and settled themselves in easy positions, glad of release from the kneeling and posturings which they were conscious, no doubt, of doing ungracefully without the customary shrouding of legs and boots in the flowing sweep of white robes.

Pere Hyacinthe is a little portly, and reminds me slightly in face and carriage of Mr. Beecher as he was about twelve years ago. Mr. Beecher is gray now, and grows to look venerable with his full figure and long white hair.

The speaker began slowly with his hands folded before him, and I wondered if he would warm into life at all.

It was impossible that he should not, for his theme, or I may say themes, were of profound interest to him—the suitableness of marriage for the clergy, and the falseness of the dogma of the infallibility of the Pope. It was not long that his tones dragged and his hands hung folded. He painted in glowing words the joys of married life, he asserted the freedom of the clergy in former times, and in present times, to partake of these "divine joys." he boldly attacked the modern dogma of papal infallibility, and he reiterated what he so often says, that he is a true catholic at heart.

He loves the mother church and her communion, and he still clings to her forms although she casts him out. But he holds those two opinions contrary to her doctrines, and acts upon them, and battle for them he must and will, though it brings him to poverty and sore trial. The man is said to have been in real pinching want at times. I understand that he is able now to support himself and family by writing and lecturing.

I heard also that day, Rev. Leonard Bacon jr., formerly of Baltimore. He is now living in Geneva to educate his family, and he edits a little paper in the English language called the Swiss Chronicle. His services are held in the salon of a hotel, in a pleasant informal way. He is his own organist and chorister, and his choir is his congregation. He has a fine musical taste, and has, I believe, taken a great interest in our Baltimore bird, Miss Montague.

He gives entertaining lectures on week days, and once a week he holds an evening reception where may be met a charming and intelligent company of visitors. He is a wide awake man, and knows equally well how to speak, and how to attract and entertain a pleasant social gathering.

During my stay in Geneva ocurred one of the Saturday morning markets. The market square facing the Rhone, and all the adjacent streets and squares were lively with wares and bustle. As at the Swiss now fairs, every article usually sold in shops was to be bought in the open air, or under booths gay with ribbons and flowers.

One finds in the Saturday markets of European cities, not only everything that is good to eat, but everything else besides. The scene is lively, animated, full of color and motion, and of not unmusical sounds of laughter and gay with talk. The stalls are arranged with an eye to the picturesque, and all one's senses are pleased, and he cannot feel dull, no matter how alone he may be in the crowd.

One of our days in Geneva was spent in an excursion to the Salève, a ridge to the S. E. of Geneva, between that canton and Savoy, or French Switzerland. The scene to the S. E. of this ridge is as ideal a Swiss view as those we admired so much in the lake region farther north. On the horizon lay the monarch Mt. Blanc, with his stately attendants, all displaying their white robed splendors against a perfect sky, just distant and dim enough to give the touch of tenderness one loves to see nestling about such grand beauty. Between us and them the valley of the Arve stretched back, filled with villages, smiling with harvests, a sunny land of height, warm life in sharp contrast with the calm, stately grandeur beyond. But icy exteriors sometimes cover generous hearts. from that pale, cold snow, rushed down the warm life blood that vivified all the sweet valley below.

I left Geneva with regrets. It is so pretty, and so surrounded with charming environs that one could spend months there with unflagging interest.

AN ACT

To carry into effect a Convention between His Majesty the King and the United States of America, signed at Washington on the 30th day of January, 1875.

WHEREAS, His Majesty the King did, on the 30th day of January, 1875, enter into a Convention with the United States of America, at the City of Washington, which said Convention was ratified by His Majesty at Honolulu on the 17th day of April, 1875, and ratifications were exchanged at the City of Washington on the 3d day of June of the same year.

AND WHEREAS, The said Convention provides in its 5th article, that it, the said Convention shall go into effect as soon as it has been approved and proclaimed by His Majesty the King of the Hawaiian Islands, and shall have been ratified and duly proclaimed on the part of the Government of the United States, but not until a law to carry it into operation shall have been passed by the Congress of the United States. Now therefore

BE IT ENACTED by the King and the Legislative Assembly of the Hawaiian Islands in the Legislature of the kingdom assembled:

That whensoever His Majesty shall have received satisfactory evidence that the Congress of the United States has passed laws to give a full effect to the provisions of said Convention, and shall proclaim that he has received such evidence, from and after the date of such proclamation the following articles being the growth, manufacture, or produce of the United States of America, to wit:

Agricultural implements, animals, beef, bacon, pork, ham, and all fresh, smoked or preserved meats, boots and shoes, grain, flour, meal and bran, bread and breadstuffs of all kinds, bricks, lime and cement, butter, cheese, lard, tallow, bullion, coal, cordage, naval stores, including tar, pitch, resin, turpentine raw and rectified, copper and composition sheathing, nails and bolts, cotton and manufactures of cotton, bleached and unbleached, and whether or not colored, stained, painted or printed, eggs, fish, oysters and all other creatures living in the water, and the products thereof, fruits, nuts and vegetables, green, dried or undried, preserved or unpreserved, hardware, hides, furs, skins and pelts, dressed or undressed, hoop iron and rivets, nails, spikes and bolts, tacks, brads or sprigs, ice, iron and steel and manufactures thereof, leather, lumber and timber of all kinds, round, hewed, sawed and unmanufactured, in whole or in part, doors, sashes, and blinds, machinery of all kinds, engines and parts thereof, oats and hay, paper, stationery and books, and all manufactures of paper or of paper and wood, petroleum and all oils for lubricating or illuminating purposes, plants, shrubs, trees and seeds, rice, sugar, refined or unrefined, salt, soap, shooks, staves and headings, wool and manufactures of wool other than ready made clothing, wagons and carts for the purposes of agriculture or of drayage, wood and manufactures of wood, or of wood and metal except furniture either upholstered or carved and carriages, textile manufactures made of a combination of wool, cotton, silk or linen, or of any two or more of them other than when ready made clothing, harness, and all manufactures of leather, starch, and tobacco, whether in leaf or manufactured, shall be introduced into this country free of duty so long as the said Convention shall remain in force.

Approved this 18th day of July, A. D. 1876.

To amend Section 1 chapter 37, of the Penal Code.

BE IT ENACTED by the King and the Legislative Assembly of the Hawaiian Islands in the Legislature of the kingdom assembled:

That Section 1 of chapter 37, of the Penal Code, be and is hereby amended so to read as follows—

SEC. 1—Any idle person who is able to work, who habitually goes about begging for his own support and profit, or for the support of his family, or who without visible means of support lives in idleness eating the food of others, and any person wandering abroad and not giving a good account of himself, may be arrested and carried before any police or district justice, who shall have the power of committing such person to prison with hard labor for any period not exceeding one year, or to bind out such idler to labor for a term not exceeding two years at any one time, with any agriculturist, planter or farmer, or with any mechanic, artisan or housekeeper. The hire (if any) paid for the services of such idler shall go, two-thirds to the person bound and one-third to the government, and in case the idler thus bound shall neglect or refuse to do the reasonable labor required of him, the person to whom he is bound is authorized to use such reasonable coercive measures as the police or district justice of the district in which he resides may from time to time indicate.

AN ACT

To amend Section 1 of chapter 14 of the laws of 1870 relating to the sale of awa.

BE IT ENACTED by the King and the Legislative Assembly of the Hawaiian Islands in the Legislature of the kingdom assembled:

SEC. 1.—That Section 1 of chapter 14 of the laws of 1870 be and the same is hereby amended so as to read as follows—

SEC. 1.—The Minister of the Interior may grant licenses for the term of one year to sell awa to any person of good character making application for the same, on receiving from the applicant the sum of five hundred dollars in Honolulu, three hundred dollars in Lahaina, Wailuku, or Hilo, and one hundred dollars in each other district. Provided that no more than three licenses shall be granted in Honolulu, and two in Lahaina, Wailuku and Hilo, and one in each other collection district.

It being however, expressly understood that every one wishing for the licenses shall make his application on or before the first day of November of each year, and the license shall take effect on the first day of January following, and if there shall be more applicants than the number of licenses which may be allowed by law, the licenses shall be set up at auction at such place in the district as the Minister of Interior may direct at an upset price not less than the price hereinabove prescribed.

SEC. 2.—This Act shall take effect and become a law from and after the date of its approval, and all laws inconsistent herewith are hereby repealed.

AN ACT.

To amend Sections 796, 797, 799 of the Civil Code.

BE IT ENACTED By the King and the Legislative Assembly of the Hawaiian Islands in the Legislature of the Kingdom assembled:

SEC. 1.—That Section 796 of the Civil Code be and the same is hereby amended so as to read as follows:

SECT. 796.—Whenever fifty or more of the voters of any district shall petition the Legislative Assembly setting forth that any person chosen as representative for said district has been elected through bribery, or any other unfair means, or that he is not qualified according to law the Legislative Assembly shall institute an enquiry into the truth of the charges in said petition; and if they find the charges to be true, they shall immediately declare his election null and void.

SECT. 2.—That Section 797 of the Civil Code be and the same is hereby amended so as to read as follows:

SECT. 797.—Whenever the Legislative Assembly shall declare the election of any person null and void as provided in the last preceding section, the clerk of said Legislative Assembly shall immediately notify the inspectors of election for the district in which such person was chosen of the fact of the annulment of his election; Said inspectors upon receiving such notification, shall give ten days previous public notice for holding a new election and the electors of such district shall accordingly proceed again to procure a representative in the same manner as at the regular election.

SEC. 3.—That Section 799 of the Civil Code be and the same is hereby amended so as to read as follows:

SEC. 799—In the event of any such vacancy occurring during the period in which the Legislature is in session it shall be the duty of the clerk of the Legislative Assembly immediately to notify the inspectors of election of the district in which such vacancy has occurred of that fact; and said inspectors shall proceed to order, notify and hold a new election, as provided in the last preceding section.

SEC. 4.—This Act shall take effect and become a Law from and after the date of its approval and all laws and parts of laws in conflict with the provisions of this act are hereby repealed.

AN ACT

To amend an Act entitled an Act "to limit the time within which claims against the estates of deceased persons, shall be presented and suits be commenced to enforce rejected claims, and amend Section 1247 of the Civil Code" approved on the 23d of June, A. D. 1868, and likewise to repeal the 21st chapter of the session laws of 1870.

BE IT ENACTED by the King and the Legislative Assembly of the Hawaiian Islands in the Legislature of the kingdom assembled:

SEC. 1.—That the second section of the Act entitled "an Act to limit the time within which claims of creditors against the estates of deceased persons shall be presented and suits be commenced to enforce rejected claims; and amend section 1247 of the Civil Code" approved on the 23d day of June, A. D. 1868 be and the same is hereby repealed.

SEC. 2.—And be it further enacted that the section 3d of the above recited Act be and the same is hereby amended, by striking out from the second line of the said section the words—"or by a Judge of Probate"—so that the section will read as follows—If the claims be rejected by the executor or administrator, a suit must be brought upon it against the executor or administrator within two months after such rejection or within two months after the same becomes due or it will be forever barred.

SEC. 3.—And be it further enacted that section 5th of the said Act be and the same is hereby amended by striking out the words—"or by the Judge of Probate"—in the last line of said section, so that the section shall read as follows—That section 1247 of the Civil Code be and the same is hereby amended by inserting therein after the word "granted" in the third line of said section, the words "except in cases of claims rejected by the executors or administrators" as provided in section 3 of this Act.

SEC. 4.—And be it further enacted, that inasmuch as the chapter 22 of the session laws of 1870, being an Act entitled "an Act relating to the approval of claims against the estate of deceased persons" which was approved on the 18th day of July, 1870, relates to the same subject and was intended for the carrying out the provisions of the section intended to be repealed by the 1st section of this Act. The said 21st chapter of the session laws of 1870, be and the same is hereby repealed.

Approved this 3d day of August, A. D. 1876.

HUNT'S REMEDY.

THIS REMEDY WAS ORIGINALLY PRESCRIBED by an eminent physician for a case of Dropsy in Mrs. Hunt's family. John Hunt, aged about 45, of a stout and plethoric habit, was seized with a sudden attack of general dropsy, which in a few days threatened his life. The ordinary remedies had all proved inefficacious, and under their use the patient was fast falling into an alarming state. The dropsy was general and extensive, legs swelled to an enormous size and the water increasing rapidly. He was entirely unable to lie down in bed, and was forced to remain night and day in a sitting posture. This state of things continued until by the advice of the physician alluded to, the present remedy was tried. In consequence of its peculiar nature it was necessary to prepare it with great care, and in order to insure this it was intrusted to the family of Mr. Hunt to procure and compound it.

The remedy was administered, and almost from the moment of its reception a decided improvement became manifest. The kidneys were immediately affected and roused to action; the swelling of the legs rapidly subsided, the lungs were freed and resumed their healthy and agreeable action; the flesh of limbs resumed its elasticity, "caking" remaining, and he was rapidly convalescing, when unfortunately, prompted by this rapid improvement, he gave up the remedy for a short time.

It was unfortunate, for the curative process was arrested, the kidneys flagged in their action, again becoming torpid, the water increased with frightful rapidity and he was soon again found himself in a very alarming state. The remedy was again had recourse to, and by its persevering use the disease was a second time subdued. But this was a most aggravated and severe case, and it took all the virtues of the Remedy, combined with care and time, to eradicate the effects of the disease. But through a persevering use of it a permanent cure was effected, and he resumed his active out-of-door occupation, within a short time, a well man.

This was the manner in which the Remedy was brought into notice, and since then for a period of twenty five (25) years the medicine has been prepared after the same approved formula by Mrs. Hunt, and used by our first physicians in their private practice, for this and similar complaints.

It has been well and favorably known and extensively used since that time by all classes, both with and without the advice of physicians, and has been the means of saving from a lingering and frightful disease, and untimely death, many of our most estimable and well-known citizens.

Rubber Paint.

Rubber Paint.

Rubber Paint.

Manufactured by the Pacific Rubber Paint Co. of San Francisco.

THE

BEST PAINT IN THE WORLD

THIS PAINT IS PUT UP IN QUARTER, one, and five gallon tins, also in five gallon pails and barrels. It is prepared in pure snow white, jet black, and all colors, comprising any number of different shades.

Is ready for immediate use,

being a great advantage as it can be used by any one.

The Rubber Paint is unaffected by change of temperature, is impervious to water, is adapted to all classes of work, and is every way a

Better Paint

for either outside or inside work than any other paint known, and will last at least twice as long.

For Wagons, Agricultural Implements, Boats and Vessels it has no equal.

The Rubber Paint dries with a gloss equal to varnish, and at the same time so adhesive and elastic that it will not crack or peel off, and is therefore admirably adapted for house painting in this climate.

In addition to the above it is the

Cheapest Paint ever imported here!

Sample cards of different shades to be seen at the office of the agent.
