

TWO PRISONERS MARRIED

ESTEE PROMISES TO ASK FOR A PARDON.

Federal Defendants Made Husband and Wife Before They Leave to Serve a Sentence.

Judge Estee was instrumental in establishing a happy home this morning, by bringing about the marriage of two of the defendants in his court. Francisco Harafoff and Julia Aparado, two of the defendants indicted for fornication by the Grand Jury, were anxious to be made one, and with the encouragement of the court they had the knot tied at once, in the office of United States Marshal Hendry.

Julia gave her age as only 18 and Francisco said he was 20. They pleaded guilty and their attorney, Frank E. Thompson, pleaded for mercy in their behalf. The judge said that he didn't want to punish two such young people as severely as he might punish older persons for the same offense, especially if they wanted to get married. In the event of their deciding to marry and establish a home, he would try to see that they were not punished. The court would see the governor, it was explained, and state the circumstances, with a view to seeing if the executive would not grant a pardon. Sentences of 30 days was then passed upon each of the two defendants.

Julia and Francisco left the courtroom in the custody of the Marshal. Julia in tears and both anxious for the services of a priest. The prospect of avoiding a month in Oahu jail naturally added to the eagerness of both bride and groom, and Father Valentine was sent for post haste.

The priest came at once, and the ceremony was performed in the marshal's office, in the presence of Thompson, Marshal Hendry, Deputy Hendry, and the rest of the federal defendants, who were waiting for trials. During the ceremony the bride shed tears and laughed by turns, while the groom looked as serious as graven usually do at such moments. When the ceremony was over the couple sat down side by side, and waited to begin their married life in Oahu jail. The bridal carriage was the police patrol wagon, and the honeymoon began there this morning. Unless the governor comes to the rescue the couple will have to spend a thirty day honeymoon in that secluded resort.

The Organic Act provides that the governor shall have full pardoning power in cases of violations of laws of the Territory, and that when United States laws are concerned he shall have power to grant a reprieve, until the case is presented to the President and decided by him.

HILLO JAPANESE DROWNED.

Hilololo a Japanese carpenter who was thought to be demented, was drowned in the Wailuku river a week ago last Saturday night near Hilo. The man had been employed as a carpenter on the Oloa flume and on Saturday night went to the store of a countryman at Fuaou and after eating something, walked out. That was the last seen of him alive, so far as is now known, but on Wednesday his body, in a decomposed condition, was found floating in the river near Bridge street, Hilo. It is supposed that during a fit of insanity, the Japanese removed his clothing and sprang into the river and was drowned.

RECORD BREAKING CROWD

THE JUDICIARY BUILDING HAS A LIVELY DAY.

A Hundred Criminal Defendants and Their Witnesses and Lawyers—Need of More Room.

The Judiciary Building has not been so busy for many a day as it was this morning. The opening of the November term of the First Circuit Court, with almost a hundred criminal cases on its calendar and a new trial jury summoned and the beginning of criminal trials in the United States Circuit Court, before a jury drew nearly all the attorneys in Honolulu to the building, and many jurors and witnesses. Judge Humphreys took the bench for the first time since the exciting close of his last term, in June.

'Too much jury duty,' is beginning to be quite a general howl among Honolulu business men and the bailiffs report a good deal of trouble in picking out the required number of good and true citizens. With a federal grand jury and a federal petit jury in session and a territorial grand jury and trial jury just excused the officers of the court on every hand meet men who think they have done their share and want to get home. The English speaking population of Honolulu probably furnishes as many citizens for jury duty as an equal number of people anywhere are called upon to supply.

Judge Humphreys took the Waikiki court room, occupied by the Supreme Court when it is in session. Next Monday it will be in session and there will be a serious lack of court room. One of the circuit judges will have to hold court in chambers as there is no room left, unless the court wants to occupy the stenographers' room.

It is third judge is appointed for the First Circuit bench, as is foreshadowed by the latest dispatches from Washington, the conditions will be much worse, and some alteration in the Judiciary building will be almost a necessity. The building could easily be made large enough for the business it has.

The chambers of the judges are too large, with the exception of that of Judge Estee. Each of the others is as big as a court room. By tearing down partitions and subdividing the upper floor over again to new court rooms might be provided for each judge given suitable chambers instead of the big rooms of which they occupy only corners now.

MAY BE PUNISHED TWICE

The United States Court this morning began the trials of the men and women indicted by the present federal grand jury, beginning with the case of A. Rodriguez and Miralda. The morning session was occupied with the selection of a jury. District Attorney Dunne being somewhat particular and exacting in all his peremptory challenges.

ARTILLERY AT ATHLETICS

MILITARY DRILL GIVES PLACE TO SPORTS.

Racing, Jumping, Pole Vaulting Dumb-bell Exercises—Foot Ball and Games Take the Place of Drill.

Beginning today there is to be no more drill at Camp McKinley for the next two months. But the artillerymen are not to be idle. In accordance with general order 187, issued by Lieutenant General Miles commanding the United States Army, daily drill at Camp McKinley, as at all other military posts, is to be suspended during the months of November and December and its place is to be taken by exercise and training in general athletics. The purpose of this is the general physical development of the individual soldier.

The new exercises began this morning. The hour from 8:30 to 9:30 usually occupied by drill was given up to field track and general athletics. The men will be taught and practiced in running, jumping, both broad and high, hurdle racing, pole vaulting, putting the shot throwing the hammer. They will be given regular dumb-bell exercises following Pett's Manual. They will practice football, baseball and hand ball. A foot ball team will be organized in each company and play and instruction will be regular and systematic.

After December, drill in military exercises will be taken up again, but the drill time of two days in the week will be given to athletics. It is proposed a time to give a regular field day program of sports in which cash prizes will be awarded.

The daily exercises of the men in these athletics will be held in the camp and on the race track. They continue from 8:30 to 9:30 each morning and doubtless will attract a good many sight-seers.

BUSH COURT INTERPRETER.

John E. Bush has been appointed interpreter in the First Circuit Court by Judge Humphreys. Bush was the interpreter when the legislature began its sessions. He was made interpreter for the Senate and secured an excuse from the judge, with the understanding that he should have the position back again when the legislature adjourned. Judge Gear had no knowledge of this understanding and appointed C. K. Stillman interpreter, while Judge Humphreys was away. On being acquainted with the situation Stillman resigned last Saturday afternoon, and Bush was duly appointed in his place.

AFTER THIRTY YEARS.

HILO, November 1.—The estate of Akou, an Hawaiian who died intestate thirty years ago was probated in Court last Monday. During all these thirty years the estate had not been probated until this week and the first generation of heirs, Judge Gear's sons, has passed away requiring the probate of four more estates before the property in question is capable of passing by an unclouded title.

The estate of Akou is now valued at \$15,000 and the heirs consist of a widow and five children. The property consists of real estate which has been more or less equitably used by the different heirs for the past three decades. At present sixty-nine acres of the estate are under annual lease to the Hilo Sugar Company at \$10 per acre.

THE CRIMINAL CALENDAR

HUMPHREYS AND EXCUSERS OF JURORS.

Attorneys Appointed to Defend Prisoners Who are Without Counsel—A Long List of Cases.

The November term of the First Circuit Court was opened this morning by Judge Humphreys, and the calling of the criminal calendar was begun. A trial jury, but no grand jury, had been summoned for the term, and all the jurors were present when the court began its session. P. D. Keiell acted as clerk of the court, with John Bush as interpreter and bailiffs Hopkins and Ellis officers of the court.

The jurors summoned were as follows: Isaiah Hray, James K. Merenberg, John A. Noble, Louis A. Rostin, Edwin K. Blake, Charles E. Lake, John M. Davis, Jonah K. Nakila, Arthur K. Jones, Ruby A. Dexter, Charles Dudoit, Jr., John W. Smithies, Hermann Levy, Abraham Chad Paganon, C. E. Johnston, George W. Harrison, David Notley, Jacob Lande, George W. Aney, George K. Kala, James M. Sims, John G. M. Sheldon, and Benjamin R. Campbell.

After the jury had been called, Judge Humphreys invited all who had excuses to give them, and several jurors offered reasons why they should not serve. The first was A. S. Charles Pihanala, who stated that he was a law clerk. He was excused. M. R. Levy, J. M. Sims, S. W. Spencer, A. W. Jones and I. H. Harbottle offered their excuses in turn. Spencer was allowed to go for the term, and Harbottle got an excuse of ten days to go to Maui on business. Sims told the court that he would lose his position if he were forced to serve on the jury as he would not be able to attend to business. The court gave him a Humphreys' answer, 'If the business men of the community intend to discharge their employees because they have to serve on juries, it is time we found it out,' said the court 'The excuse is denied.' The court further remarked, in reference to the excuse of Juror Jones, that there were 26 jurors on the panel and only 12 would be needed at a time it was not likely that any juror would have to be in court more than a third of the time.

The calling of the criminal calendar began as soon as the jurors' excuses had been disposed of. The first case was S. G. Gill, which was on the calendar by mistake. A nolle prosequi was entered by the Attorney General in this case nearly two months ago, but the clerk put the case on the calendar by mistake.

Eighty-four cases were gone through at morning session, all trials being set for various dates throughout the term. Most of the defendants were present. In the case of Kane, charged with larceny in the second degree no appearance was made, and his bonds were declared forfeited. Several other defendants were absent on account of being under advisement by Judge Gear, pleas in abatement having been made.

Judge Humphreys appointed attorneys to defend those among the defendants who had no counsel, distributing the 'favours' well about the courtroom. When the Territory adjourns, Yong Mung, alias Mung Kong, larceny in the second degree, went to C. A. Long, A. L. C. Atkinson was appointed to defend Ah Cheong from a similar charge. E. B. McClanahan was named to appear for William Kalahiki, also charged with larceny. Kamano Koa-ha, another alleged larcenist, is to be defended by Enoch Johnson Ukiohi and Mori, who are charged with malicious injury, are to be looked after by I. M. Long. J. T. de Bolt was deputized to handle the case of Grant Carpenter, charged with assault with a dangerous weapon. W. Stanley is to plead for Manuel Vanocelles also charged with assault with a dangerous weapon. The last appointment was B. L. Marx, who is to defend Thomas Kane, charged with the same offense.

WEALTHY CHINESE DROWNED.

A wealthy Chinese of Honolulu was drowned last Friday night while fishing. The Chinese went to his fishing pond Friday night and did not return to his home. Some time the following morning, the body of the Chinese was found on the banks of the pond by W. Kua, Purser I. Simerson of the Noou reports the death of the Chinese and says that when the vessel left Kau no one seemed to know how the Chinese came to be drowned.

PORTO RICANS FIGHT JAPS.

A crowd of Porto Ricans and Japanese got into an altercation at Lihue plantation last Thursday and, in the melee, several Porto Ricans set upon one Japanese and cut him severely with a knife and broke his leg in two places. The rowdy party was brought by the W. G. Hall but no further particulars were obtained.

MADE INSANE BY AN ACCIDENT.

In a cave-in of a tunnel on the Pala plantation last Thursday, a number of Portuguese were injured and one killed outright among those injured, was a man named Manuel Abru. The man had been released from the insane asylum some time ago, but the injuries appeared to bring on his mental illness again and he had to be recommitted to the asylum from Wailuku, being brought over on the Claudine yesterday.

HILLO HAWAIIANS NOMINATE

NAME J. D. LEWIS AS EWALIKO'S SUCCESSOR.

Beginning of the Campaign for the Special Election to be Held in Hilo in December.

HILO, November 1.—At a meeting held at the Armory Wednesday evening James D. Lewis was nominated for member of the House of Representatives to fill the vacancy caused by the death of J. Ewaliko. The meeting that nominated Lewis was composed almost entirely of Hawaiians. The Hilo Tribune says that the invitation to attend this meeting was extended to all citizens without respect to party affiliation. It seems to have been called by the student in the Independent Home Rule party which is trying to carry out Wilcox's scheme of making the party the independent Home Rule Republican party—Home Rule to run things locally, and Republican for office getting at Washington. The meeting was called by the regular Republican party organization.

EXECUTIVE COUNCIL BUSY

At the executive council this morning the petition for a pardon and restoration to civil rights from T. Spencer Jr., of Hilo was approved. Spencer was tried for forgery somewhere about 1877.

The Honolulu Rapid Transit and Land Company presented a lengthy petition signed by land owners for the right to extend their line of track along Alexander and McCully streets to Westward. The petition was handed to Superintendent Boyd for him to report upon.

S. Freeman of Lahaina applied for a hotel liquor license. Action was deferred in this matter until the parties interested could be present. Au Kong Chow applied for the renewal of his light wine and beer license at Kapa. Action was deferred as the present license has still some time to run. The light wine and beer license granted to William McKay of Waipio, Hawaii was recommended for renewal. A light wine and beer license was recommended for J. J. Mello of Keokua, South Kona.

In the question of the exchange of property for the purpose of widening Beretania street Superintendent Boyd was recommended to go ahead in the matter. The land in question is at the head of Kekaulike street and is the property of Anna Kentwell. The by-laws and constitution of the Hilo Swimming Club were submitted to the meeting and approved by them as satisfactory. Permission was consequently granted for them to utilize Coconut Island as requested on the understanding that they would not cut down any trees and endeavor to keep the island in a sanitary condition.

VALUABLE PONY INJURED.

W. Walters is mourning the loss of his valuable pony yesterday. Through an unfortunate accident yesterday, the tendons of both rear legs of the pony were severed, which will render the animal useless.

The horse broke loose from Mr. Walters' yard on Hackfeld street yesterday and ran away. The pony finally turned into the yard at Mr. Kennedy's place on Victoria street and dashed into the kitchen. During its progress the animal cut the tendons in its hind legs.

Mounted Officer Frank Ferreira caught the horse at Mr. Kennedy's place. Mr. Walters refused to have the animal killed. He prizes the animal so much that he intends to try and save its life, even though its days of usefulness be past.

THE FIRST ANNIVERSARY

PACIFIC HEIGHTS WILL CELEBRATE ON THURSDAY.

Has Carried Nearly Half a Million Passengers Since the Opening of the Road.

The first anniversary of the Pacific Heights Railroad falls due on the seventh of this month and will be celebrated in a quiet way by its promoter, C. K. Deaky. 'It was my original intention,' said Mr. Deaky this morning, 'to have opened the road on November 6th of last year, in celebration of McKinley's election. Of course we did not have any certain knowledge of the election but we were as sure as mortality certain of the affair going that way that we were willing to take chances. Despite all efforts however we had to postpone the opening a day. The late Marshal Ray, who was intensely interested in the road from the start was the first to take a trip up the line. Since then we have carried over 400,000 passengers without a single mishap, a feat which we are all proud of.'

J. C. Pratt, general manager for Mr. Deaky, states that while there have been no mishaps on the road, there have been no mishaps beyond those of an hour or two owing to changes of machinery, blowing out of boilers or repairing of some weak spot in the line.

'It takes traffic to show you the weak spots in the road,' said Mr. Pratt, 'and when we remember the people who prospected that we could never run a line up there and recollect the difficulties we encountered in running the road I think we have a right to feel proud of Mr. Deaky's enterprise. The strain on the machinery has been great. We have carried as many as 108 passengers on a car built for 32 which shows our popularity as well as the perfection of the system.'

'Our receipts have been above our expectations and, while the number of day passengers has been lessened by the new line, the night traffic continues to counterbalance. Folks come up here for the view and the air. 'The Pacific Heights enterprise is the largest carried out in this city by one man with perhaps the exception of the Young building and was carried out at a cost of \$1,000,000. The electric traction will have four cars running by the end of the year, and we have fulfilled all other conditions as to water and other matters, while improving the place by walks and planting trees beyond what we actually promised. We will have a most satisfactory first birthday on Thursday.'

ASKS FOR DIVORCE.

Mrs. May L. Walker has filed a libel for divorce against her husband F. G. E. Walker on the grounds of cruelty and failure to provide. She claims that the libel has acted in an unnatural and cruel manner toward her, thereby causing her much physical and mental suffering. She claims that he has not supported her, although he was perfectly able so to do. She asks for the custody of their three-year old girl.

THE WAILUKU RESERVOIR

EXPERT OPINION OF JAMES T. TAYLOR.

Tells What The Damage Is, How It Occurred and Makes Estimate of Probable Cost of Repairs.

EDITORIAL: The recent reports of the condition of the Wailuku Reservoir, and the damage to the same, and the estimated cost of necessary repairs, have all been so greatly exaggerated that the writer makes the following statement of facts regarding the same. On Monday the 21st of October I made a careful examination of the Wailuku Reservoir and found, in a general manner and method of making the necessary repairs.

The reservoir was constructed in June and July of 1900, the general design was a circular reservoir having a diameter of 32 1/2 feet and to hold about 10 feet of water. The walls and bottom of the reservoir were constructed of concrete with a double cement lining. The entire reservoir being covered by a roof of timber and shingled. The roof being supported by the walls of the reservoir.

In the opinion of the writer the first or original cause of the damage was due to the drainage of the same, a storm which was in the vicinity of Wailuku the most severe and disastrous known to the oldest inhabitant on Maui, and from the lack of proper surface drainage from the roof and reservoir site, a slight crack in the wall of the reservoir appeared and seepage commenced and continued until the earth outside the concrete walls became thoroughly saturated with water. This condition combined with the weight of roof, and maximum pressure of a full reservoir caused a slight settlement, with the effect of raising the concrete increasing the seepage, and creating an upward pressure from the bottom. The upward pressure from below would be increased by the rapid emptying of the reservoir through the waste pipe for the purposes of cleaning, or for examination faster than the surface of the water in the saturated masonry would be reduced by seepage through the soil, or the crack in the wall.

The supply, discharge and waste pipes leading to and from the reservoir, and the gates controlling the same are securely laid and strengthened by concrete and are in perfect condition at the time of my examination. Concrete and cement construction being perfectly rigid, the slightest settlement would cause a crack. The men employed on the concrete and cement work were Mr. Abbey and Peter Jap, both of whom are known to the writer as being of the strength of the cement used can only be obtained from careful tests of the concrete and cement linings now in place in the reservoir.

In my opinion the necessary repairs can be readily made and at a small cost. The total cost of the same, including water rights, rights of way, main and distributing pipes, reservoir site and reservoir, is approximately \$35,000. These works are one of the best investments of the Government, yielding an annual income of between three and four thousand dollars, besides furnishing an abundant supply of pure mountain water for all purposes. The few hundred dollars necessary to permanently repair the reservoir is a small item and could be easily arranged.

I will say in closing that the appearance of the reservoir in its present condition would naturally give a wrong impression and tend to greatly magnify the actual damage, and especially as to the cost of repairs in the absence of a knowledge of the methods used in constructing the reservoir. Yours respectfully, JAMES T. TAYLOR.

THE KINROSS STORY.

Under the heading "That Kinross Fake," the Maui News of November 2, says:

On last Saturday morning, just as the News was going to press, Capt. G. W. Murray, formerly of the Antiope but at present of the Kinross, drove up to the office of the News, called the editor out, and told him that on the previous night the Kinross had gone on a rock in Maunaloa Bay, and that he, to quote his own words, "had been sent over by Alexander & Baldwin to take charge of the wreck in the interests of all concerned." Upon being questioned further, he stated that Pilot Bob English was on board the Kinross at time of the wreck. In corroboration of his statement, he pointed to his luggage in the hack and explained that he was taking it over with him. Thereupon he got in the hack and drove off at once in the direction of Maunaloa Bay. Considering the statement as semi-official, coming from the source it did, no further effort was made to verify it, and the item was published.

As a matter of fact, the Kinross never went on a rock, and at the time the item was published, the vessel was lying serenely at anchor at Kihai. It is now up to Captain Murray to explain his part in the matter, for it is a very serious thing to cause the insertion of fakes of this class in a newspaper.

A VILLAGE BLACKSMITH SAVED HIS LITTLE SON'S LIFE.

Mr. H. H. Black, the well-known village blacksmith at Grahamsville, Sullivan Co., N. Y., says: "Our little son, five years old, has always been subject to croup, and so had have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by all dealers. A NEW SPORT.

Our public learned a little when they saw the polo game last Saturday. The Star has been striving for many months past to show that the game of polo was the King of games, but it hung in the brain. It was a doubtful quantity, till Honolulu saw it properly played on Saturday. Now it has "caught on," and Polo will be one of the most popular sports that our little community has ever seen.

There is so much to interest the on-looker in the game of polo. Skill in riding, skill in striking the ball, skill in combination and team work. If you take an interest in the speed of horses, polo gives you short dashes which are better than any races on the track for there is more real sport in them. If you admire pluck you will see it in polo, for a shiker cannot play the game without soon being found out. In fact to play polo a man must be a man, and after all a true man is what we all like to see.

It may not seem proper to discuss gravely a game, when one might be discussing the candidates for office or the tariff, or the judiciary or half a hundred other subjects. But the games of a people mark the people, and it is satisfaction to see our youth keeping abreast of the youths of the mainland, and of a more rugged climate. There can be nothing more heartening than the fact that Hawaiians horn and bred show no decadence, but are the equals, in some cases the superiors, as athletes, of men who are supposed to have the advantage of climate. People will insist that the Hawaiian climate is enervating, but any one who sees Hawaiian horn youths at football, rowing, tennis, polo, yachting and any amusement which requires strength, judgment and skill, will acknowledge that our climate neither makes the muscles more slack, nor the brain less clear. Indeed one is disposed to sometimes think that our climate produces the best of results.

"All work and no play makes Jack a dull boy," is a good wholesome proverb. Thirty and forty years ago on the Islands it used to be all work, and very little play, and what play there was, was of a somewhat pernicious character. The concluding quarter of last century saw the gradual introduction of healthy sport into the Islands, and nothing should receive greater support, and more intelligent applause than any addition to our field sports. A man is a better banker, a better merchant, a better public servant, for having had his muscles trained and hardened in the mimic strife of the playing fields. He learns judgment, temper, and courtesy, and these are good things to learn. Of course games, like anything else, can be overdone. Food is an excellent thing, but because one likes food, one need not become a glutton. The tendency, however, to give games an importance in University life, is not to be reprobated, as it is sometimes by the unthinking. We do not want a race of beings who are all mental, we want stout muscles to support the ready brain. Therefore whoever adds to our stock of healthy games, does good service to the state, and the addition of polo to our list of athletics may be regarded as a distinct gain to the community at large.

PLAYGROUNDS.

The attention of the general public is once more turned to public playgrounds. This is a subject which The Star has advocated for many years. That we need air spaces for the poorer classes of our children is self evident. For a long time an effort was made to get Aala as an air space, but an official constantly and effectually blocked any attempt. Even after the Legislature passed an act creating Aala into a public park or playground, nothing was done, and that open space remains a dumping ground for old tin cans, lumber, and rubbish of all kinds, while the good soil which it once had has been carted off elsewhere.

Aala would have been a bright spot across the river by this time, if it had not received so fierce a black eye from those in power. There was private money ready to push the scheme along, and there were people ready and willing to give their personal attention to the improvement of the tract. But though the scheme has up to the present failed, there is no reason why it should be given up. The Aala tract belongs to the people, and the time will come when it will be beautified and made a useful adjunct to the health and happiness of the people. Other schemes for similar work may be in the ascendant, but Aala must not be forgotten.

Just now attention is concentrated upon the tract of land behind the Kuluwela school. This will undoubtedly make an ideal playground, but it will not be entirely a public playground, as the admission to it will require joining a certain society. While The Star gives its cordial support to the cause Mr. Richards is advocating in that direction, it still must point out that there should be public playgrounds where there is no restriction of any kind. What land Mr. Richards has for the purpose he desires, he has obtained by strenuous effort, and he will so im-

prove it, that a good half of it will come in as entirely public playground later on. But what we need is the public playground now. But for the private funds spoken of in connection with Aala we could have no public playground now. We should have to wait till the Legislature met again, and see if that body would give attention to matters which are useful and for the general good of the public, or leave all public matters aside, and attend to their own selfish ends. A committee of citizens should be appointed to take over Aala and make a beginning. No better man could be chosen as head of that committee than the Rev. Frank Damon.

AN UNBELIEVING LAWYER.

It is very well for the unbelieving layman to inveigh against the law as an inexact science, and the Star has very frequently discussed the subject, but to hear a lawyer arise and state that "mathematics is the only exact science, while of all the other sciences, the science of law is the most inexact" makes the layman take a gasp. The gentleman who made this statement a day or so ago, the Star thinks mingled two distinct things into one. The theory of law is one thing. The practice of law is entirely a different thing.

The glorious uncertainties of the law belong to the latter category. It is the practice of law which is inexact and is no science at all, save in many instances the science of chicanery. The theory of the law is as clear cut and as scientific as mathematics, but the pure well has been choked by decisions, counter decisions, minority decisions, precedents and heaven knows what, until the limpid truth, which ought to be at the bottom of the legal well, is so befogged that no one can find it.

Law is not the only science which is wrested aside by its expounders. Religion has a like fate. There is a true science of religion, but it is hidden under such a mass of bulls, protests, covenants, catechisms and other "isms" that its true meaning is lost, and many a bark which would follow a pure beacon light, goes straying off after veritable will o' the wisps, and reaches in all probability final ship wreck, save for the mercy of God.

Even mathematics is not so exact as one would wish it to be. If it were exact we might square the circle, which we cannot do, there always being that interminable decimal over, which can never finish, carry it out as far as we choose to waste our time over it. Then there is the trouble over the additional dimension which only the most abstruse of mathematicians understand and which the ordinary layman cares nothing about.

There are plenty of inexactitudes all round, but law is by no means the only inexactitude. Why law is inexact is because it does not follow theory, but follows snap and very often vicious judgment. If the law libraries could all be burned, the chances are we should have more justice in the world.

The spendthrift trusts are getting some very rude handling and involve some hard legal hitting. As to the justice of such things, that does not seem to cut much figure in the legal battle.

Every letter that comes from the Philippines shows how exacting the work is there for school teachers. H. S. Townsend says that none but the strongest should go out. All pioneer work is hard, and tries the physique of a race. But pioneer work has to be done, and we have always found plenty of our race both ready and willing to do it.

The success of a canoe voyage from Canada to Samoa amply illustrates how it was possible for the most widespread Islands of the Pacific to be populated. Thousands upon thousands of bold voyagers may have been lost, but here and there enough survived to start the race on some new islet to which the frail barks drifted. Large vessels are by no means those which survive the dangers of the sea. A north country coble may weather a gale far better than an Atlantic liner.

Methylated spirits have again got their deadly work in. We can count over a dozen deaths to the discredit of this poison during the past year, and there are probably many more which can be counted up against it. We cannot alter the law till a Legislature meets, but the drug stores might join together and refuse to sell the poisonous stuff. It cannot be a pleasant thing to sell a spirit which you feel assured will sooner or later bring some person suddenly to the grave.

From the article written by R. C. L. Perkins, it would appear that we ought to go slow when introducing the woodpecker. People away from here do not realize the danger that lies in introducing strange fauna into Islands situated as ours are. The woodpecker may be an excellent help to forests in his own habitat, but he may be the very reverse here. We have had considerable experience in this line, but apparently we will not learn. The introduction of the mongoose can not be regarded as an unqualified success. It did not destroy the rat, as it was intended to do, but it did destroy many of our game birds and it sent up the price of poultry. Had it not been for a fortunate circumstance, we would have had a wholesale introduction of snakes, which would have made our lives a burden to us. The woodpecker may be an inoffensive bird in his own forests, but there seems every chance that he would play havoc in ours.

CHANGE OF WINDOW DISPLAYS.

Last week you saw our large window filled with refrigerators and ice boxes, of all sizes.

This week you can see, in their place, several hundred useful articles for your home.

Last week, in the small window, you were attracted by a pretty display of beautiful articles in cut glass, art pottery, fine china, and sterling silver.

This week, in their place, you will find a display of piano, banquet and table lamps, at very reasonable prices.

When we advertised that we would take old stoves in part payment for new, you were surprised to find that although you thought your old stove was worthless, yet we made you an allowance, and removed it from your premises.

You found that the work we did for you in connecting the boiler to your new stove was very satisfactory.

You know that you get hot water as quick before, with a little fuel.

You are finding out day by day that we are not holding out promises or inducements to our customers, that are not bona fide.

You found, by actual experience, that the refrigerator you purchased from us used less ice than your old one. (This is a cold fact.)

That dinner set that you purchased looks just lovely on the table, and is admired by all your friends, and how comforting it is to know that you can replace any breakage, from our stock.

The rubber hose that you purchased from us under a guarantee gives you no worry.

You know that you will not have to purchase another one for a year at least.

Those cut glass tumblers, at \$2.50 per dozen, that we persuaded you to buy, in place of the blown tumblers, at \$1.00, are proving a good investment, and what a superior shape they are, to what you have been using.

If you will spend a little time in our store, when you are down town, we will show you a great many articles, that are good investments.

HANDLED DOCKET RAPIDLY.

Although there were thirty cases of
various kinds before Judge Wilcox this
morning, the court handled the cases
very rapidly and disposed of every-
thing in less than an hour. This was
done in order that Deputy High Sheriff
Chillingworth could attend the higher
court, as his presence is required there.

The warning cough is the
faithful sentinel. It tells of
the approach of consump-

THE MORMONS IN JAPAN

**A MORMON VIEW OF THE NEW
MOVEMENT.**

What the Deseret News Has to Say of
Apostle Heber Grant's Manifesto and
Disavowed Purpose.

The following taken from the Deseret
News, considered an organ of the Late-
day Saints, has been sent to the
Star by a member of the local organ-
ization of that church with the request
that it be published.

"The 'Mormon' mission to Japan is
attracting some attention outside the
dominion of the Albigans. It will
not make a stir in that empire, and
if it does not achieve what is com-
monly called success, that is extensive
conversion, it will accomplish its pur-
pose, which is the publication of the
fact that a new dispensation from God
to man has been opened, for the benefit
of all nations, and the warning of that
dispensation to the world of the approaching
advent of the Son of God.

The following editorial on 'The Ad-
vent of Mormonism in Japan,' is taken
from the Springfield Republican:

"By His authority we turn the divine
key which opens the kingdom of heaven
to the inhabitants of Japan. We say to
them all, come to the light which has
been shed forth from the sun or righte-
ousness! We offer you blessings that
are beyond price. * * * We bring to
you the truth in all its effulgence,
direct from the great Luminary of the
Heavens. From the East we have come
to the Japanese.

"Apostle Heber J. Grant, of the Mor-
mon Church of Utah, began his field op-
erations in Japan late in August with a
manifesto to the long-benighted inhabi-
tants of that country. He told them
what he had come for, and the Japanese
believers in that quietest peninsula
for which they are distinguished, the
missionary activities of the Mormon
Church are well known, and it must be
admitted that they are not without
tangible results. But this is their first
invasion of the oriental field and how
they will succeed with the Japanese
must be a question that will interest us
all.

"Missionary Grant and his associates
from Salt Lake City will find most am-
ple toleration for all religions in that
pagan land, although the other Christ-
ian missionaries are not permitted
to live in the same boarding house
with themselves in Yokohama. The
Japanese will give them a respectful
hearing, if only because of their 'in-
extinguishable curiosity,' as the Japan
Advertiser expresses it. Of the out-
come, however, what may be expected?
In this connection the editor of the Ad-
vertiser, who is evidently an English-
man of somewhat extended residence in
Japan, pronounces the opinion that the
Japanese people will care just about as
much for the theological doctrines of
the new sect as they do for those of the
old ones, whose teachers have already
invaded the land. The people will
closely watch the personal character of
the newest missionaries, and the new
faith will be judged entirely by its
practical fruits. But, apart from this,
when the question is raised whether
the Mormons are to bring about a revo-
lution in the religious thought of Japan
the means for accomplishing such an
object are perhaps more ludicrously in-
adequate than any which have ever
been tried by foreign propagandists. A
people which has failed thus far to be
much impressed with the Christian
supernatural substructure of Christianity
will be likely to be interested, yet at
the same time immensely amused by
the supernatural claims of a religion
that rests upon the curious adventures
of Joseph Smith with a hole in the
ground, in the State of New York,
early in the last century.

"The view taken by the Advertiser
seems sound. Among the 45,000,000
Japanese it would be strange if a few
converts to Mormonism could not be
netted. Almost anything can find con-
verts somewhere, provided the preacher
is zealous and persistent enough.
But Mormonism, one may be sure, will
never make appreciable headway in
Japan. The complete toleration the
Japanese will give to it is likely to be
a terrible handicap. On the other hand,
it is only fair to say that pure and self-
denying missionaries themselves would ex-
ercise some effect, while their charac-
teristic financial and executive abilities
would aid still more, in giving to the
propaganda a sort of foothold. Any
degree of success in Japan for the
Mormons must mean an extension of
their missionary zeal to China and other
parts of the Orient."

The flippant manner in which many
writers for the press approach the sub-
ject of "Mormonism" and its mission
work in the world, indicates their lack
of appreciation of its importance, and
their imperfect understanding of its
principles and spirit. The Republican
is mistaken in its assertion that this is
"the first invasion of the oriental field"
by "Mormon" missionaries. In 1853 a
number of Elders were sent to India,
China and Siam, and while they were
not successful in accomplishing much
in Siam or China, many converts were
made in India and some of the fruits
of that mission are seen in Utah today.
The Republican is equally mistaken in
its notion that the claims of our reli-
gion "rest upon the curious adventur-
es of Joseph Smith with a hole in the
ground."

If the Japanese fulfill the prediction
of the Republican, and give the mis-
sionaries "a respectful hearing," re-
ceiving them with "exquisite politeness,"
it will be very different treatment
to that usually accorded them by
"Christian" ministers and most of
their immediate followers. In the more
advanced nations of the earth, and it
will at least give an opportunity to
demonstrate that "Mormonism" em-
bodies principles of rational theology
and practical religion, so much
above the contradictory theories of
the sects with whose preachers and
their ways the Japanese are familiar,
as to not only excite their "insatiable
curiosity," but command their admira-
tion and respect. It may not meet with
any great degree of success judged by
the number of actual converts, but it
will sow seeds of truth and righteousness
which will ultimately bear good
fruit, and aid in accomplishing the
purpose of the Almighty in the redemp-
tion of the whole human race.

The Deseret News expects to be able
to furnish its readers with reliable par-
ticulars of the progress of the work in
Japan. Meanwhile, they may take the
rumors and canards which appear in
sensational dispatches, if at all, with
several grains of salt. And the com-
ments of papers that do not know
enough about "Mormonism" to treat it
with anything but a jeer, may be
passed by with pity for the ignorance
thus displayed.
Writers who speak of it as founded
upon the "adventures of Joseph Smith

with a hole in the ground," would be
apt to picture the claims of the Bible
as founded on the adventures of Moses
with a flaming bush and two tablets of
stone; of Joshua with ram's horns and
a story about the sun and moon; of
Samson with his hair; of David, of
Elisha with his bears and ravens; of
Daniel with the sixwinged seraphim;
of Jeremiah with his "hole in the
ground," of Ezekiel with his "wheels"
and his "flying scroll," and of the sac-
red Dispenser with his mystic birth,
miraculous wanderings and marvellous
ascension from earth, the same vein
of skeptical and satirical derision.

"Mormonism" has a mission to perform
in preaching the Gospel of the King-
dom, as a witness to all nations
of the approaching advent of the Mes-
siah, and in warning the world—of
judgments to come. And people who
have sense enough to examine its
claims to their credence will find, that
instead of being based on anything
earthly, they are founded on heavenly
revelations of everlasting truth which
will conquer error and abide forever.
If the Japanese or any of them re-
ceive it in its true spirit and power,
they will gain a treasure which is be-
yond price and which will shine in their
souls while eternity endures.

"BARBARA FRIETCHIE"
The Play That Will Open the Neil
Season.

Tomorrow will be the last day that
the season tickets can be had at Wall,
Nichols for the engagement beginning
at the Hawaiian Opera House, Wed-
nesday evening the same will commence
for the single night tickets.

Of the play "Barbara Frietchie" it is
said: "The American stage has many
war plays and plays dealing with in-
cidents of the war of the rebellion, but
never had there been one to equal 'Bar-
bara Frietchie' in which James Neill
and his company will be seen here next
Saturday night. Never has there been
one so consistently written, one in
which both the sentiments of the North
and South are treated with equal fair-
ness, nor one which so stirs the truest
emotions of the human heart. The
opening act is said to catch the audi-
ence and its influence is felt through-
out the other acts.

"There are strong situations in every
act, and a most effective climax in the
last act with the flag ends the play very
dramatically.

"In spite of the tragedy of war, of
Confederates and Federals the under-
current of the lighter shades is steadily
suggested. The many characters are
admirably contrasted, and the great
part of this wonderful drama is the
close attention of its audience to the
plot curtain.

"Clyde Fitch, the author of the great-
est play of the period, 'Barbara Friet-
chie' which James Neill will present
here is but 26 years of age.
"He has had more plays accepted
than any other American dramatist. He
considers the power of amusing the
most essential quality in a play to
sure success. He puts much emphasis
upon a moral, though he is careful not
to let it be obtrusive. This advice from
such an experienced, gifted, fortunate
and prolific writer should be extremely
valuable to young stage-aspirants in
literature."

GAVE ELABORATE L'AU.

Lugan.

An elaborate luau was given Satur-
day evening at the residence of Mrs. J.
K. Miles on the Asylum Road, in honor
of the twentieth birthday of M. P.
Lugan, of the Inter-Island company. A
large number of friends were present
and congratulated Mr. Lugan and they
brought leis in the greatest profusion
for him.

The table was artistically decorated
with flowers and was loaded down with
the utmost variety of good things to eat
and drink. The health of Mr. Lugan
was drank many times. After the feast
which was an ahaaina nui in every re-
spect, the guests adjourned to the lanai,
where music singing and dancing was
enjoyed until a late hour.

Those present were: M. P. Lugan,
D. K. Aimoku, Albert Nawahi, Henry

DRANK WOOD ALCOHOL

HAWAIIANS DRINK DEADLY CON-
TENTS OF BOTTLE.

Two Natives Dead and Two Made
Seriously Ill From Contents of Pur-
loined Bottle.

A coroner's jury was empanelled at
noon yesterday by Deputy Sheriff Chil-
lingworth and viewed the remains of
Holopi, a native employed by contractor
George Bertlemann. Holopi died from
drinking methylated spirits.

On Friday Holopi and George Apiki,
both workmen for Bertlemann were
working in the latter's shop and dis-
covered the bottle of spirits which is
kept on the premises for the purpose
of boiling wood. Holopi usually
put in the bottle but in the present in-
stance the alcohol had been, but lately
purchased and the practice had not
been carried out.

Both men drank freely of their find,
Holopi taking the remainder to his
home where his wife, Leleka, also took
her share of the bottle on Saturday the
effects became apparent. Apiki, at
work at Bertlemann's became deadly sick
and confessed what they had done. He
was removed to Queen's Hospital and a
rapid visit to Holopi's home revealed
the fact that he was already dead. Leleka,
his wife was lying prostrate, blind-
ed and dangerously ill from drinking
the stuff and was removed to the hos-
pital.

The effect on the body after drinking
the spirits is that of paralysis of the
heart as evidenced by the tingling
sensation while the mucous mem-
brane of the stomach is completely de-
stroyed by the liquid. The action is
not immediate but, as in the case of
Holopi and his wife and friend is some-
times deferred for several hours. Dr.
Shorey is making an examination of the
liquid and the jury will meet on Sat-
urday evening to render a verdict if the
witnesses are sufficiently recovered to
testify.

On Saturday night a man named Kal-
po died from pneumonia, caused by
drinking either adulterated spirits or
alcohol was attended by Dr. Nobility.

Contractor Bertlemann states that
Apiki and Holopi were both good work-
men and were sober on Friday. He
thinks that they drank the liquid in
ignorance of its deadly qualities. Hol-
opi was a fine looking native apparently
about thirty-two or three years of age
and in good physical condition.

POLO SEASON OPENS.

Society Turns Out to See Two Good
Matches.

The first polo of the season proved en-
tirely satisfactory from the player and
spectator's view point alike. The former
had a good ground and an interested
helpful crowd as witnesses and the latter
had the satisfaction of an excellent
view point and seeing some very fair
play.

The statement that the ground is good
is to be modified by the fact that it is
not as level as might be desired al-
though an ideal spot from a spectacular
point of view. A great proportion of the

crowd came out in their carriages, mak-
ing the opening of the season a thor-
oughly social function.

The handicapper understood his work
in the first game between the Inkers
and the Horsts the latter having a
handicap of two goals and winning with
the score at 8 to 5. The Inkers were the
better mounted but the disparity in
horses failed to counterbalance the
handicap while the playing on either
side was pretty equal, being distinguished
by good clean polo, steady playing
and open hitting. Dole played the best
game for the winners with Dillingham
and Atkinson perhaps a little the best
on the other side.

The Business Men brought the Artillery
team into camp with a score of 5
to 4, the Artillery having besides a
handicap of 2. The playing shown in
the game should result in fresh handi-
capping. The match was interesting
but was not distinguished by any team
work and was punctuated with fre-
quent scrimmages that a little head
work would have prevented.

Lieutenant Hancock played a good
game, while excitement and lack of
practice balked a great many of the
well meant efforts of the others. Judge
Perry allowed his enthusiasm to lead
him into frequent fouls.

The horses showed up well and will
harden during the season. It takes
more than one match to get a polo pony
into the ideal wiry condition. Dilling-
ham and Shingle were well mounted al-
though the latter's horse has more
speed than polo sense at present.

BASEBALL SATURDAY.

Two Exciting Games To Three Teams
For Second.

The close contests at baseball on Sat-
urday at Makiki kept the interest of
about 500 spectators at a high point.
The ball played was not all that it
might have been, but the excitement
fully made up for lack of brilliancy.

The Police won from the Holt sime
by a score of 12 to 10, Leslie contrib-
uting excellent work for the winners.
The Customs won from the Capitols
as was expected, but had to hustle to
do it. The Capitols played up strongly
in spots and showed that they have the
making of an excellent team. They
made lots of bungling plays and errors
and contributed liberally towards the
Customs victory. If the Capitols would
put in a little more time next week
they would stand a good chance of
winning the League than they do at present.

The Customs House game, next with
an unbroken record of 150, was great
while the three remaining teams, the
Halls, the Capitol and the Police, are
all tied at 23 for second place which
will entitle them to the final series
which commences on Saturday next.

MIKADO'S JUBILEE.
The Emperor's Birthday celebration was generally observed by the Japanese of the Islands yesterday and Saturday evening. This was the occasion of the fiftieth anniversary of the Emperor's birth although no special celebration in the nature of a jubilee was observed. The Japanese Mercantile Union entertained Marshal Hendry and some of the Federal authorities at Palama on Saturday night, when the health of the President of the United States and the Mikado were exchanged. A reception was held at the consulate in the forenoon of yesterday and patriotic speeches were made at the Japanese school on Nuuanu street. Flags and lanterns were freely displayed not only at the consulate but at many informal dinners, the lanterns being illuminated in the evening, while smaller editions of the national flag hung somewhere on the premises of every Japanese colony or family in town. This morning the Territorial band played at the Consulate in honor of the occasion.

A Curtain Department Unrivaled.....
In the Economy Basement

If there's one department we've more pride in than another, it's that of our Curtains and Housekeeping Linens. Wherever else we may be strong or weak, in that Basement department we unquestionably excel.
Nor is that only our own opinion—we merely echo the general verdict. What has made that department pre-eminant?
Factors not a few—among them this: For several months after we started business it was run at a loss, when it could have shown a profit.
How so? Was that wise management?
It was, as the sequel proves.
Come what might we were determined to have the most satisfactory assortment in the city, and we did.
