## FROM CAPT. PAUL SMITH TO KONA, FIFTEEN DAYS

### HIS FIRST SERGEANT IS ON THE INDIANA.

The Honolulu Officer has had His Share of Civil Administration and Will Now Have Some Fighting.

Oscar H. Benjamin, First Duty Sergeant of Company F, 40th Infantry, United States Volunteers, is on his way home on the Indiana, invalided because of rheumatism.

Sergeant Benjamin is in Captain Paul Smith's company and brings the latest tidings of Captain Smith to his home town. When Sergeant Benjamin left his company it was at Cagayan, Island of Mindanao, under General Kobbe who is in command of the department of Mindanao and Jolo. A series of active operations against the Visayans was just commencing and Captain Smith was likely to have opportunity to win glory.

Captain Smith's company went to the Philippines, by the transport Indiana. The very night they landed at Manila they were sent out on the firing line. After remaining in and near Manila for some time the company was sent to the southern part of Luzon and remained there until last March. Then it was sent to Mindanao. It was intended to undertake some active operations against the Filipinos in Mindanao. But the Americans floundered a serious reverse, almost at the outset and very little effort to renew activities was made until nearly the first of this year. Sergeant Benjamin was on this expedition in which the hill where the Americans suffered the reverse last June, was recaptured. Although the hill is only about three hours march from Cagayan the Americans went around to the other side, taking five days to do it, and capturing the hill with artillery. Sergeant Benjamin was out ten days on this expedition and was brought into the hospital suffering from rheumatism.

This action was understood to be the beginning of active operations against the insurgents of Mindanao.

While the troops were at Cagayan, Captain Smith's company, which he had gained an excellent reputation as such. He was the ranking captain of the department.

At Yligan, Sergeant Benjamin says, there was very little trouble with the natives. At Cagayan, however, there was evidence of a different state of feeling. In Mindanao and Jolo, a part of the population are boro, a Malay people, mahometans in religion and governed by Sultans and minor officials. So far they have not come in conflict with the United States authority. If they ever are roused, Sergeant Benjamin thinks they will be much more difficult to subdue than the Visayans.

In Mindanao the Chinese entirely control trade not only the small retail trade, but the wholesale trade and export business. They own and control nearly all the steamships plying between different parts of the islands.

## GILL CASE IS POSTPONED

NOW SET FOR HEARING MONDAY MORNING.

Plea Reserved to Indictment by Grand Jury—Bail, Fixed at \$500, is Promptly Furnished.

The Gill shooting case went over in the Circuit court this morning to Monday morning. This was upon motion of defendant's attorney, F. W. Hankey, and it was stated that there were certain facts the defense wished to look up before going to trial. Bail was fixed at \$500, and J. A. Magoon became surety on the bond.

When the Gill case was called the indictment of the grand jury, which had been referred to the Deputy Attorney General, was read by that official. It recited the allegations of the shooting and concluded with the charge that Gill was guilty of assault and battery with a weapon obviously dangerous to life, to wit a pistol. There was no plea, the motion for continuance interrupting it.

Mr. Gill is charged with shooting Mortimer I. Stevens on the night of February 6. The circumstances are still fresh in the community. The case was taken up directly by the grand jury before the district court had finished with it. It will now be dropped by the latter court. Lorrin Andrews will assist the prosecution in the case. W. F. Hankey and Magoon & Peters will appear for Mr. Gill.

The court room was quite well filled most of those present expecting to see the case go on. Disappointment was general among them that it did not.

## TO KONA, FIFTEEN DAYS

### THE LITTLE UPOLU RIDES THE ENTIRE STORM.

One of the Hardest Island Trips on Record—Freshets on Haleakala's Slopes.

"The channel between Molokai and Lanai looks like the mouth of the Mississippi after a big freshet," said Captain Dalton of the little steamer Upolu, which returned to Honolulu this morning after making a trip of fifteen days to Kona and back. The Upolu had probably the toughest experience of the storm.

"All about the channel," continued the captain, "there are tree stumps and branches, weeds and brush floating, as a result of the heavy washouts. The water of the ocean is muddy for a distance of at least two miles from shore and there is a strong current. I think it must be at least a five-knot current."

The slopes of Haleakala were the scene of some splendid-looking freshets as we passed. Great columns of water were coming down the mountain sides and striking the ocean with such force that there were clouds of spray.

One of the hands on the Upolu insists that the ocean water in the channel is fresh, but Captain Dalton refused to believe him. The deck hand said he had tasted the water in the channel and would take his oath that there was no salt in it. He thought that so much rain had fallen that the salt water was not in it any more. He could not drink much of it, however, and could not persuade others to even try the experiment.

The Upolu was at sea throughout the entire Kona. From one port to another she struggled to find good anchorage and several times it seemed that she could not last much longer. She was in Kailua for two days, at Alalae, Kiholo, Kawaihae, Puuko, Hana and other places were visited, but everywhere the sea was the same. Food supplies began to give out, and as it seemed impossible to get ashore, the situation was secured and at Alalae, where the vessel was when the weather moderated, supplies were brought.

Captain Dalton's cabin was filled with water for days. It was eight days this morning since he had used his berth, having in the meantime only snatches of sleep on the sofa or on the floor. The Upolu is one of the smallest of the island steamers and the waves literally rolled over her, while the drenching rain was driven in everywhere by the high wind.

The Upolu reports that the schooner Queen, which had to leave Mahukona when the storm broke, has not yet returned. The schooner Emma Claudina, which also found Mahukona unsafe, went to sea after the Queen. She was off port when the Upolu left, and has probably returned to her anchorage by this time.

## STEAMER SANTA ANNA HERE

COMES IN PLACE OF THE CENTENNIAL.

A Small Vessel That Can Carry Many Passengers—Will Return to the Nome Trade.

The steamer Santa Ana, Captain C. F. Strand, arrived this morning from Seattle, coming here for the British-American line in place of the Centennial, which is to San Francisco being repaired. The Santa Ana was just 12 days making the trip, having left Seattle at noon on the third of this month.

The Santa Ana was built a year ago for the Cape Nome trade and will go into that trade again. She has been chartered for only one trip to Honolulu, but may make another one. After that she will go to Nome and St. Michaels for the North American Trading and Transportation Company, of Seattle.

The Santa Ana was built for carrying passengers and plenty of them. She has accommodations for no less than 432 passengers, half of them first class. The Nome trade taxed all her accommodations and will probably do so again. She is a vessel of 1550 tons register. C. F. Strand is her master and W. H. Trigg purser.

The Santa Ana will be in port only about 48 hours, going from here to load sugar at Kahului. From there she goes to San Francisco and then to Seattle. She brought 710 tons of general merchandise from Seattle this time.

## VISITS TO THE SCHOOLS

### LEGISLATORS CALL AT SEVERAL IN HONOLULU.

A Large Party of Senators and Representatives Shown the Schools by Superintendent Atkinson and Others.

A number of Senators and Representatives-elect paid visits to several of the schools in Honolulu this morning, with a view to familiarizing themselves with the conditions before the legislative meets.

Those in the party were Senators J. T. Brown of Hilo, J. B. Kaohi of Kohala, L. Nakapaahu of Kauai, I. H. Kahilua of Kauai, D. Kaniokalani, Sr., of Honolulu and D. Kanihaha of Honolulu; Representatives R. H. Makiu of Hamakua, J. Ewaloiki of Hilo, S. H. Haheo of Puna, H. M. Kanhoi of Kohala, F. W. Beckley of Molokai, Solomon Kawaihoa of Maui, W. Mossman, Jr., of Honolulu, J. K. Paele of Koolapoko, J. K. Kaauwai of Kauai, F. Puiki of Kauai, the Rev. J. N. Kaniokalani of Puna, and J. N. Keolahi of Honolulu. Superintendent of Public Instruction A. T. Atkinson, Inspector-General Gibson and Miss Davison, school agent, took the visitors to the various schools.

The legislators rode in hacks, calling at Kanihaha school, the Normal, Royal and High Schools. Every opportunity was given for study of the work being done, and the visitors expressed themselves as much gratified at the showing made.

## INDICTMENTS PRESENTED

### PRISONERS ARRAIGNED IN COURT THIS MORNING.

Not a Single Plea of Guilty—Mostly Larceny Matters—Estate Cases are Disposed of.

Okakichi was arraigned in Judge Humphrey's court this morning on indictment of the grand jury for assault and battery on Goo Kim and a plea of not guilty was entered. Bail was fixed at \$250 and was guaranteed by J. M. Burns.

Kamehameha pleaded not guilty to the charge of larceny of \$4.50 from a Chinaman on January 23. United States Commissioner Robinson was detailed by the court as his attorney and the case went over to Monday.

In the matter of the Territory vs. Sneed, a soldier, larceny in the second degree, defendant pleaded not guilty.

Kanaha, charged with larceny in the second degree, taking some sake from the stores on an inter-island schooner, was arraigned, his attorney, W. W. Thayer announcing that the young man desired to change his plea from one of not guilty to guilty in the hope of getting off lighter. When this statement was interpreted to him, however, the boy denied that he was guilty and stuck to his original plea.

Solomon Kauahi, charged with larceny, reserved his plea. W. J. Robinson was assigned by the court as his attorney.

The petition of H. E. McIntyre, executor, and Jane S. Walker, executrix, for allowance of accounts in the matter of the estate of the late J. S. Walker was allowed. Mrs. Walker was instructed that as she was the sole devisee under the will she need not file further annual accounts.

The petition of George Boardman for allowance of accounts as executor of the will of the late Eliza J. Boardman was granted and the petitioner discharged.

Henry Smith's petition for allowance of accounts and discharge in the matter of the estate of the late Captain Harry Smith was allowed. The three sons are to be given one fourth each and the three grand children of deceased receive the other fourth. The amount accruing to the grand children is so small that no guardian was deemed necessary to pay the money over to some discreet and reliable person who would use it properly in their behalf.

James A. Thompson was appointed a commissioner to take the testimony of Rev. Father Leonard in the matter of the estate of the late A. A. Dalton. James N. K. Keola was appointed a commissioner on Maui in the same matter to take the deposition of J. A. Aluli.

Tomorrow morning the matters entitled E. Lamb vs. George Washington Smith, et al., and S. C. Allen vs. the same, petition for approval of sale of land, will be heard.

HITTING CASE GOES OVER. Hearing Deferred Until Next Monday Morning.

In the United States district court this morning the case of C. C. Biting, petition for liberty under a writ of habeas corpus, was called but was continued until next Monday. A letter from petitioner's attorney, George A. Davis, stated that he was ill and a postponement was requested. Attorney Strauss also stated to the court that Mr. Davis was not well and urged the plea for postponement. The request was acceded to and the case accordingly went over.

The bond of \$250 for the appearance of Mr. Biting when called still holds good. In open court yesterday various bills for expenses were formally approved.

## IT IS NOW "HER MAJESTY"

### OLD STYLE FOR LILUOKALANI RENEWED.

Attorney-General Sets Example in a Court Paper—First Time Since the Overthrow.

"Her Majesty, Liliuokalani." Those are the words on the face of an injunction issued out of Judge Humphrey's court today, enjoining the late Queen and J. H. Wilson from removing sand from below high water mark at Waikiki beach.

The words were written by the Attorney-General of the Territory of Hawaii in the injunction and the paper is signed by the First Judge of the Court without attachment.

This is the first time since the overthrow of the Monarchy in 1893 that the words "Her Majesty" have been used in an official paper in connection with Queen Liliuokalani. Though suits and state papers have contained her name "Liliuokalani," Mrs. Dominitis or "Ex-Queen Liliuokalani." The name given in the indictment against her for misprision of treason in 1895 was "Mrs. Dominitis."

The change from "Mrs. Dominitis" and all those other things to "Her Majesty Liliuokalani," was not an accident, by all accounts. It is the intention of the Territorial Government to so style the late ruler in all official matters. It will be observed that the word "Queen" is left out.

Sometime ago the Territory applied for an injunction to restrain Liliuokalani and J. H. Wilson from taking sand from Waikiki beach. No answer to the petition was ever filed. In the injunction it is ruled that the defendants are declared to be in default.

## CHINESE NOT MUSTERED

### CAPTAIN WINSLOW WINS ONE POINT.

He is Allowed to Look Out for Chinese on the Solace Himself—The Oopack Watched.

The Honolulu custom house officers are not bothering the heavy transport Solace this time, except by watching her, if that be bothering, and seeing that no packages are brought ashore. Captain Winslow won one point of his kick at last trip and he is looking after his own Chinese.

Instructions from Washington were received, it is said, placing the responsibility of seeing that the Chinese on the Solace do not stop in Honolulu on the shoulders of Captain Winslow. Last time he was here the custom house officers wanted to carry out the usual plan of mustering the Chinese aboard, according to the department orders, to see that none have escaped. This had been done with other transports, but Captain Winslow objected. He said that customs authorities had nothing to do with the Solace. This is not a transport, it's a merchant vessel, he said, and the custom house officer who was on board.

Relations became strained between the collector and the captain and an order went forth on the Solace that no custom house officer be allowed up the gangway. Sentries even ordered away custom house officers in uniform when they came close to the vessel, within the sentries line of patrol.

The last order from Washington appears to sustain Captain Winslow as far as the mustering is concerned. Custom house men are not paying any attention to the Chinese on board the Solace and don't care if they come ashore.

At the transport Oopack a different state of affairs exists. Here the custom house maintains a guard under orders to keep the Chinese on board. Captain Barber, however, keeps such an efficient watch with his crew that the work of the customs men is easy. No Chinese are likely to escape from the Oopack. She is a British vessel and would be fined \$500 for every Chinaman she left on American soil.

Some comment is aroused by the fact that Chinese are kept on the Solace. Not long since there was vigorous agitation by the trade's unions of the Pacific Coast against employment of Chinese on the army transports. The agitation was successful to such an extent that the Chinese were removed and those on the Hancock were discharged in San Francisco and sent home in the steerage of a mail steamer. The navy department does not seem to have taken the same move.

## FROM THE PHILIPPINES

### SICK TROOPS ON THE TRANSPORT ALMOST COMPLETE TURN OVER TODAY.

Promotions and One Vacancy Filled by Appointment from Postoffice—Active Work to Begin.

The force in the United States revenue office, except the Chinese registration section of it, was this morning almost completely reorganized. Mr. Hasson retired last night, but will have to visit the office a few times more to straighten out certain matters. He will give a private little time to his late colleagues tonight at which there will be a dinner and some speechmaking. It is rumored that the retiring deputy will be given the usual commission awarded to exceptionally good men in the local revenue service.

The local revenue force as now constituted is as follows: Roy Chamberlain, collector; H. D. Cousins, chief deputy; Philip R. Whelan, cashier; Walter F. Drake, division deputy; Albert M. Webster, deputy and gauger; Charles Chong, deputy and messenger. Mr. Cousins goes up a notch. Mr. Whelan was formerly gauger, having succeeded Albert Hoogs, resigned, in that office. His successor, Albert M. Webster, goes from the postoffice where he has been a clerk. Drake and Chong continue in their old positions.

After now there will be a great deal more outside work but it will not be so hard as formerly, as the routine in the cities and towns is already in hand. The fun will come when the deputies start after illicit liquor, manufactures and sellers. It is the intention of Collector Chamberlain to institute a vigorous campaign all along the line.

## TO BE A COAL SCOW

### THE W. H. DIMOND'S LAST TRIP.

The Well Known Honolulu-San Francisco Barkentine Has Done With the High Seas.

The barkentine W. H. Dimond, Captain Hanson, arrived today from San Francisco on the last of a long series of trips between that port and Honolulu. She is done with the high seas and will be made into a coal barge here.

The Dimond is one of Hawaii's oldesttimers. She was coming here regularly in the days when Honolulu got its coal news from sailing vessels, so long were the intervals between steamers. With scarcely an intermission she has run to and fro between San Francisco and Honolulu carrying general merchandise one way and sugar the other, ever since she was built.

The Dimond is one of Irwin's vessels. She was built in San Francisco in 1831, so that she is nearly twenty years old. She has been a quick sailor and a money-making vessel. She is a barkentine of 390 tons register.

The Dimond was 23 days in coming from San Francisco this time having had weather near the islands like the Aloha and Robert Lewers. She will discharge at Brewers' wharf.

MANY GAMBLERS CAUGHT. Deputy Sheriff Chillingworth arrested fifty Chinese on charges of gambling last night. They were arranged this morning in the police court and the cases were postponed till tomorrow, Attorney Robertson appearing for them.

GRAND JURY INSPECTION. The Grand Jury started this afternoon on a tour of inspection of public institutions, Oahu jail, the insane asylum and the Reform school are to be visited.

A PROGRESSIVE COMPANY. Samuel B. Towner, a wealthy citizen of Baltimore, Maryland, writes to the Provident Savings in this way: "It is with feeling of much satisfaction that I note the progressive spirit shown by the management of the Provident Savings in the remarkable gains in new business written and the substantial increase along all points material to the well-being of a progressive and conservative insurance office." The company is represented in Honolulu by I. R. Burns; office in Magoon Building.

**THE MAINE TO BE RAISED**  
CHICAGO CONTRACTORS SECURE THE JOB.  
The Successful Bidders Expect to Make More Than One Million Dollars by the Undertaking.

CHICAGO, February 3.—A firm of Chicago contractors was notified today that it was the successful bidder for the work of raising the wreck of the battle-ship Maine from the waters of Havana harbor. If not hitch occurs in the process of drawing up the contract, Chamberlain & Co., who have offices at 225 Dearborn street, will undertake the task. With it is coupled the job of raising the Spanish transport Alfonso XII, which is beached on the shore near the Maine.  
The Chamberlain agreement is to raise both vessels for the salvage there is in them. It also covenants to pay the United States Government 3 per cent of all proceeds, besides restoring all personal property which belonged to the officers and crew of the Maine. If the contract is fulfilled the ambition cherished for two years by the president of the company, N. E. Chamberlain, will be realized. The company was formed expressly for the purpose, and, according to President Chamberlain, it is expected that more than \$1,000,000 will be made by the concern in the undertaking.

**THE WISCONSIN.**  
The Battle Ship Formally Turned Over.

SAN FRANCISCO, February 4.—With very little ceremony the battle-ship Wisconsin, the newest and speediest of the United States fighting craft, today formally became the property of the United States Government.  
The Wisconsin was constructed at the Union Iron Works and had her trial trip a few months ago off Santa Barbara. She attained at that time a speed that was greater than that of any of her older sisters.  
The Wisconsin will probably be ready for sea in two weeks and then she will go to a Mexican port for drill and target practice. In addition to Captain Reiter the officers of the Wisconsin are Lieutenant George Washington McElroy, chief engineer; lieutenant commander, John B. Milton; lieutenant commander, H. T. Mayo; watch officers, Lieutenants Wiley, Williams, Senn, Vogelvang and Blakeley; marine officers, Captain Davis and Lieutenant Cutts; naval cadets, Gilmer, Winston and Church.

**COMMUNICATIONS OPENED.**  
BERLIN, February 3.—The German War Office has received a dispatch from Count von Waldersee, dated Peking, which announces that railway communication has been restored between Peking, Fengtai and Paoiatingu.

**ANOTHER CITIZEN.**  
Henry Delanux, a native of France, was yesterday admitted to citizenship by Judge Estee. He has lived in the Islands about eighteen years. His witnesses were P. M. Lucas and T. McTigue.

**SEVEN BAD DRUNKS.**  
Seven men from the steamer American were fined \$5 and costs each yesterday in the police court for drunkenness. They got drunk Wednesday and put up a lively fight on the railroad wharf when officers went to arrest them. At the station they also raised a row. Judge Wilcox thought they deserved more than the ordinary \$2 fine and so made it five. Two other drunks were fined \$2 and costs.

**PROTEST AGAINST REVENUE LAW**  
SAN JUAN, (Porto Rico), February 3.—A non-partisan meeting at which 5000 representative planters and merchants and taxpayers generally from all section of the islands are present is in session at the theater here to protest against the Hollander revenue law. Congress will be asked to nullify the law.

**FOREBODINGS.**  
"Brother," said Florence Dombay, "why are you so pensive this morning?"  
"I am thinking," responded little Paul Dombay, gazing dreamily out upon the boundless ocean, whose waves dashed the shores at their feet, "of the far off time in the future when Mr. Howells will be writing articles about us for the magazines and saying how staid, and unreal, and improbable we are!"—Chicago Tribune.  
**A GOOD THING.**  
There's one good thing when they feel dry.  
That business men cannot pass by.  
For far and wide it's fame you hear,  
They stop to drink of "Rainer" beer  
On draught or in bottle at Criterion.

Some Facts. Read This. So Much Is Said

And done in advertising to mislead the public that it is hard to pick out the grain from the chaff. Everybody says he's got the biggest stock—that his goods are better made and that he sells at the lowest prices.  
Here are a few facts that our brother clothiers in Honolulu can't dispute: This is the only store in Honolulu that sells ready-to-wear clothing exclusively. We MUST have variety and sizes to fit you, because we have no (big profit) made-to-order department to fall back on.  
We have two stores—each filled to overflowing with bright, new merchandise—every inch of space crowded. No other stores in Honolulu use more than one store for sale purposes.  
We buy every stitch of our own goods for spot cash. We certainly ought to own our goods at bottom figures, and we only grow bigger by selling that way.  
Nothing is too good for our trade. Suits this season as fine as cloth can be woven—up to \$25.00.  
This motto rules the business. If you buy it here and it goes wrong, it is made right and your money back if you want it.

"THE ANGLE LAMP"  
The Light that Never Fails

It seems almost incredible that any lamp could be good enough to take the place of electricity on even terms, yet such is the case with the ANGLE LAMP. All over the Islands people are throwing away their old lamps and replacing them with this lamp, not merely because it costs about one-tenth as much to maintain (cost is no object to some people) but besides being infinitely cheaper it is more brilliant and more reliable in the bargain. It is a revelation to every one who uses it, and simply demonstrates that the old-fashioned lamp was a barbarous contrivance. THE ANGLE LAMP never smokes, smells or gives any trouble, is lighted and extinguished as easily as gas, and is the ideal light from every standpoint. We carry these lamps from \$1.80 up.

# Overwork

and Worry bring on Nervous Prostration,  
Sleeplessness, and an endless train  
of Painful Disorders.

## Dr. Miles' Nervine.

When the nerves and organs of the body are well and strong, and the worn-out tissues and waste products are quickly removed from the system, a tremendous amount of hard work can be done without serious injury. It is when the nerve tissues and brain cells are used up faster than they are replaced by new ones, when the fires of life consume faster than the fuel can be furnished, that brain, nerves and vital organs suffer—cry out with neuralgia, heart disease, rheumatism, nervous dyspepsia—and finally break down. Dr. Miles' Restorative Nervine is food for the worn-out brain and wasted tissues. It gives a healthy appetite; makes the weak stomach strong; increases the flow of digestive juices and puts the lazy liver to work. It is the greatest blood vitalizer and nerve remedy science has produced.

"I was suffering from sleeplessness and painful nervous sensations, brought on from overwork and anxiety; and although I tried a number of different remedies for this disorder, I obtained little or no benefit from any of them. In fact some of the advertised remedies seemed to increase rather than diminish the difficulty, until one day I determined to give Dr. Miles' Nervine a trial. The first few doses convinced me that I had found a specific for my trouble and I continued its use with the most satisfactory results. It seemed to feed the nervous system, afford restful sleep without any of the after effects of an opiate or any artificial stimulant and can be discontinued at will. I deem it the best remedy for nervous people now on the market."

### CAPTAIN BERGSTROM DEAD

PASSED AWAY UNEXPECTEDLY  
YESTERDAY.  
Pneumonia and Heart Disease the Cause—Worked for Railroad and was a Prominent Guardsman.

Captain Olaf Bergstrom, familiarly known as "Frank" Bergstrom and "Frank Johnson," superintendent of the railroad wharf, died at his home in Kalahehi about 2:30 o'clock yesterday afternoon of pneumonia and heart disease. His last illness was of only about fifteen hours duration, and the news of his death proved a great shock to his friends in the city.

Bergstrom had had heart trouble for years, frequently complaining of severe pains in that region and being treated at different times for the trouble. A heavy cold developed into pneumonia Wednesday night and the two diseases proved too much for the sick man's constitution. As soon as his condition became apparent Dr. Galbraith was called in but could do nothing.

The wife and three children of the dead man have been visiting in Hamakua for a long time, and are expected back in the Ke Au Hou during today. The funeral will be conducted under the auspices of Mystic Lodge, K. of P., and Lodge le Progres, Masons. He was an old member of both of those lodges.

Bergstrom was a native of Sweden, aged 41. He had been in this country about fifteen years, and had been in the employ of the railroad about twelve years, about seven of which being as wharf superintendent. When quite a young man he left home and went to South America. There was at the time a war on between Chili and Peru being both a military man and a sailor services in the navy of the former were gladly accepted. His first, last and only fight in the war was in the terrific attack of the Chilian fleet on the fleet and forts of Peru at Calao.

After that Bergstrom joined the United States navy and served as a sergeant. While in the navy he became acquainted with Honolulu and that was the cause of his settling here.

At the time of the overthrow of the monarchy in 1893 Mr. Bergstrom cast his fortunes with the Provisional Government. In 1899 Captain Bergstrom, H. H., as a private but was soon made a sergeant and in the latter capacity served through the rebellion of 1895. In 1897 he became first lieutenant and upon the promotion of Captain McCarthy to Major, became captain of that company. In 1899 Captain Bergstrom was placed on the retired list with the rank of captain, he having served the requisite five years in the National Guard.

5. Japanese National Hymn.....Mrs. C. B. Cooper.  
6. French National Hymn.....Mrs. C. B. Cooper.  
7. "Hawaii Pono".....Led by Mr. King Kamehameha Boys.

**CONSISTENT.**  
Tradesman—You evidently have no sympathy with the principle of "the greatest good to the greatest number."  
Capitalist—You are mistaken, sir! I espouse that very principle with all my soul, but, of course you understand that I believe the greatest number to be Number One—Richmond Dispatch.

**A BIT OF THINKING.**

The question of money for carrying on the Territorial government, and the many expenses which are going to be incurred is a very grave consideration. As the late Bishop of Oiba once said, "It is one thing to get an appropriation passed by the Legislature, and a totally different thing being able to get the money." Lavish expenditures for all kinds of purposes are easy to pass, but there must be something provided to meet these expenditures, or they go into the category of the might-have-beens. The Council of State, when it existed, voted \$75,000 for the erection of a building for the Royal School. Not a brick has been laid, nor a foundation dug, simply because there was no money to do the work with. No one can make bricks without straw, and the fact was emphasized as far back as the reign of the Pharaohs.

However ready the bills for the House and Senate may be, and The Star desires, right here, to compliment the members who have been giving their time and attention to such careful work and, in fact, to such self-sacrificing work,—however ready all this may be the whole of it pivots upon the committee of ways and means. This committee in the United States is really the pivotal point of each state Legislature and of the National Legislature itself.

One may have the most brilliant schemes for the amelioration of the race, one may have the most ardent aspirations for advancement, but unless there is the money in sight, the schemes come to naught. It is a materialistic view to take of the matter, but it is nevertheless a practical one. It is one which the coming Legislature should take well to heart. Executive officers, who have ability, will be only too happy to institute reforms if they have the means to do it with. They cannot make the reforms without the means. And it is no good voting subsidies, unless those who vote them are satisfied that there is available cash to carry them out.

In many cases attacks are made upon executive officers, because things are not done, when it is a fact that were the Angel Gabriel to come down from heaven, he could not carry out reforms by purely human means however much he might have been able to accomplish by supernatural means unless cash were forthcoming. The executive, whatever its personnel may be, needs no supernatural means, but it does need cash. If people want any innovations in and additions to their public institutions, the means for carrying these out must be supplied. What The Star wants emphatically to point out is, that it is useless to order things in the Legislature unless that body finds the means for having its behests carried out. It looks easy to vote money. It is a very hard thing to find money. There is food for thought in this.

**"BREATHES THERE A MAN."**

A traitor to his country is a most despicable character. "My country, right or wrong" is a watch word in the United States, and it is echoed by every nationality under the sun. A man may criticize the government of his country, he may be averse to the methods of his time, but when he dons the uniform of his country and goes forth to fight in her behalf, there can be little if anything to say in his palliation if he turns traitor.

More peculiarly is desertion to be condemned in such armies as those of the United States and Great Britain. There is no conscription no forcing men into the ranks, they can elect to go, or they can elect to stay at home. Nothing forces a man to be a soldier as he is forced to become in France, Germany, Russia, Italy or Spain. One can understand that a man might get into such a state of mind because of forced military service, that he has a hatred to his own native country for what he conceives the wrongs inflicted upon him. But even this position is abnormal. Even the conscript driven to fight against his will believes in his country, and is ready to sacrifice himself for his country.

Again the ordinary hireling soldier, the soldier of fortune, the man who sells his sword or his thews and sinews to any bidder, has the honor of his profession. He may be willing to fight on any side, but once he has elected to fight on a particular side, his allegiance is assured. That is the history of the Free Companions of Mediaeval times. They were an arrant set of blackguards and swashbucklers, but they kept faith with the people who hired them. They even would stand getting in arrears, and though they might grumble, still they remained staunch. But when their contract was out, they were ready to go over to the other side, if the pay was better and there was any chance of collecting it.

There is probably no better illustration of this class than is to be found in Scott's "Legend of Montrose," the ex-

emplar being Major Dugald Dalgetty, than whom no one need wish to meet a quainter or more original character. Scott drew many brilliant characters, but few can equal the Major for raucousness and true attic salt.

It might be asked to what does all this tend. It comes because in the Philippines in rare cases, very rare cases, American soldiers have gone over to the Filipino side and have led the enemies of the United States against United States troops. In most cases where this has occurred the discovery has been made when the dead body of the perverted man has been found among the slain. But occasionally the delinquent has found himself in so tight a place that he has surrendered. Military justice, in such cases calls for summary execution. It is to the credit of the United States officers in the Philippines that finding such a case, the substituted life imprisonment for sudden death. But it is a question, ethically whether the ruling of the Court was really more merciful than would have been the death sentence.

The present ruling condemns the unfortunate to life long penance, and to the scorn of everyone, whether criminal or honest, who has any spark of patriotism. And it is very plain that the thief, the immoral, the vicious as well as the wise and good, may and do have the highest feeling of patriotism, and in spite of all and every failing, may rise to heights of self abnegation and of self sacrifice. This is what makes the crime of the traitor doubly despicable. The noblest and the lowest can be awakened by patriotism. The traitor is held in contempt by all.

**KEEP UP A STANDARD.**

In order to keep any standard up, there requires to be machinery. Without constant inspection and supervision the very best of institutions may drop backward. Some years ago, in point of fact many years ago it was considered wise to have a school inspector, or as the title ran, an Inspector-General of Schools. In the seventies the school attendance ran down to about 7,000 and as many of the schools were of the most primary description, the work of the Inspector-General was not hard.

But times changed. The number of children attending school has grown rapidly, especially in the last few years, when it is now in 1901 over 15,500 for the Territory. It is quite evident that no one man could efficiently supervise the working of schools aggregating 15,500, when the same machinery was probably strained at 7,000 a few years ago.

It is on this ground that the Commissioners of Education recently made a division of the Territory and divided it into four circuits, over each of which an Inspector normal instructor was put in charge. To keep any work running in a proper groove requires constant attention. When there was but one Inspector the schools of the Islands were officially visited once a year, and possibly not even that. Under the present system they are visited at least three times a year, and the Inspectors have yet time to hark back and re-examine anything that they think may have been any way lax.

What the Legislature may be going to propose for our future school system, no one can tell. Like any other system it is open to grave criticism and should be criticized. But the aim of those connected with it has been always upward and onward, and it has been that noble aspiration which has imbued many, if not all, who have been connected with the department. In education is the word which will let down bars and gates to the advancement not only of the Hawaiian, but of every child, of whatever nationality born in this Territory.

The story published in the World that Edward VII was going to ask parliament to appropriate ten million pounds to pay his debts has a very fishy flavor. Whatever his financial difficulties were when he was Prince of Wales, they never could have amounted to this enormous sum, and no parliament would ever consider such a sum. It is a "canard," a wild duck, of the most pronounced character.

The question of the jail is now being discussed and blame is being thrown upon various people because there is only one place of detention. The matter has been reported upon over and over again, but no legislature has thought it worth while to attend to it. The blame, if there is any, rests upon the legislatures of the past. In matters of this kind it would be far better, instead of heaping abuse, to set firmly to work to remedy what is wrong. Reform and not vituperation is of value. The Territory is getting its fill of vituperation.

The Sampson and Schley controversy over the battle of Santiago is still going on, with the result that the rewards are withheld from all those engaged in that memorable victory. It is a very unfortunate circumstance. As regards popularity Schley overtops Sampson one hundred percent. In the procession, after the Dewey reception at the Capitol, the crowd yelled itself hoarse for Schley and passed Sampson by in silence. But popularity is one thing and justice is another. The man who planned the campaign and who kept every ship on watch before Santiago harbor is the man entitled to the honors, even if he was not in at the death. Sampson is not a popular man. Schley is. Hence the hitch that has occurred and is likely to continue to occur for some time to come. It is a case of justice running up against unthinking popular favor.

# PROPOSED LIQUOR BILL

FEATURES OF MEASURE TO COME BEFORE LEGISLATURE.

Differs Slightly From South Carolina Law and is More Liberal—Claimed it Will Pass.

The Dispensary bill drawn by the Home Rulers for presentation to the legislature differs from the South Carolina law in several interesting particulars. It is more liberal than the latter law, and in that is probably an improvement upon it. The promoters of the bill have evidently deeply studied the question as they have neatly gone around all the principal obstacles encountered in the Palmetto State.

Aside from the fact that after a certain date the Government of the Territory will assume absolute control of the liquor business, the next interesting feature is that the saloons and wholesalers will be allowed time to dispose of their stocks, and should any be left over it is to be purchased by the government. For instance, although the bill provides that the system will go into effect the first of next July, it will not as a matter of fact, do so until the last existing license has expired. Should the bill pass on March 15 and a man's license runs out on the 15th of that month, it will be renewed to July 1 and will then run out. Should it expire on March 14, however, and a new license for a year is issued, this license will be recognized and such saloon or wholesale house as may possess it will be entitled to run right on to March 14, 1902.

Honolulu will be divided into four liquor districts and each of the islands will also be divided in that manner. Absolute local option will be given as to whether the dispensaries are to be not and as to the number. Any liquor district of Honolulu may call an election at any time and settle the question at the polls. A unique feature just there is that not only men but the wives and daughters over 21 years of age may vote. This rule will apply throughout the group.

## To Attorneys,

And to whom it may concern:

I beg to call your attention to my capabilities as an auctioneer, and respectfully solicit such business as might be at your disposal. I act as referee; conduct such sales as are formally demanded in the transaction of legal affairs; make appraisements and act as administrator of estates. I have all the facilities necessary for the successful conduct of this special class of business. I am a licensed auctioneer, thoroughly familiar with all the requirements demanded in the office as such, and PERSONALLY CONDUCT all sales. In short, I will take full and complete charge of all affairs appertaining to real estate.

## Real Estate Owners.

My Real Estate Department is devoted to the listing and sale of Realty, and is most thoroughly equipped. My methods are peculiarly my own and are uniformly of satisfaction to all with whom I have business relations, as in all the departments the utmost courtesy is extended to all. Special attention given to the subdivisions of outlying tracts. Twenty-five and more years experience justifies this statement.

## House Renting

—AND—

## Collecting of Rents

In no department of the real estate business should greater caution be exercised than in these departments. EXPERIENCE, TRUSTWORTHINESS, AND AFFABILITY are absolutely necessary. Good judgment, business foresight and a devotion to the interests of my clients, while being guided by their personal preferences is my assurance I give to those placing their business in my hands.

The syndicate would facilitate the new relations proposed for the Kansas & Texas property, and the control of the Missouri, Kansas and Texas, it was asserted today had been practically already assured to the syndicate.

The syndicate's control of these properties made more feasible and desirable the control of the Southern Pacific, because it was the only remaining company west of the Mississippi whose lines were in intimate relations with the other properties controlled by the syndicate.

The Southern Pacific connection to San Francisco is essential to the Union Pacific and the Missouri-Pacific's Denver line lying between that of the Union Pacific and the Atchison, Topeka & Santa Fe and reaching the Mississippi river at St. Louis, gives an outlet to the lower Mississippi river essential to the broadest control of the markets of the West.

The Missouri-Pacific and other Gould lines, particularly the Texas & Pacific are, on the other hand, very closely interwoven with the Texas lines of the Southern Pacific. Both companies not only have long lines extending across the State of Texas from El Paso to the Gulf of Mexico at Galveston, but in the eastern portion of the State both the Missouri-Pacific and the Southern Pacific lines have an extensive mileage, largely competitive and reaching jointly all the important cities, including Fort Worth, Houston, Austin, etc.

Clearly, therefore, the acquisition of the Southern Pacific may be taken as completing the syndicate's control of the transportation facilities in the Southwest south of the Union Pacific line, rounding out a system which will include, besides the Union Pacific and the Central Pacific, the Missouri-Pacific, the Kansas & Texas and the Kansas City Southern west of the Mississippi river.

### PREPARING TO SAIL NORTH

#### EXPLORER BALDWIN SPEAKS OF HIS POLAR PLANS.

Says That He Has Secured an Admirable Equipment and Feels Confident That He Will be Successful.

NEW YORK, February 8.—Evelyn Baldwin, the Arctic explorer who next summer is to head the Baldwin-Ziegler expedition to the North Pole, returned today on the steamship New York. Mr. Baldwin has been abroad since December 1, securing vessels and equipment. He said:

"I remain here for several weeks and then I expect to go abroad again. As to many of the details of the expedition I cannot speak at present. I have succeeded in purchasing the Equinox, the largest whaling vessel I could find. She is admirably fitted for our work, having been built for just such work. I have renamed her the American.

In addition to this vessel I have chartered the Frijol, which was used last year by the Swedish expedition. The Frijol will accompany the American with supplies and equipment. She will leave Tromsø, Norway, June 25, with a party of scientists and sportsmen. She will go to Franz Josef Land, returning to the same port in September 1. The American is two and a half feet thick and is built of great holt, a hard tropical wood. I have my own plan for reaching the pole and I am confident of success. I never had a talk with Captain Joseph C. Bernier, the explorer, who, according to a cable dispatch, said that he had warned me that my plan would result in failure. I shall go over the Franz Josef route, probably starting early in June. We shall proceed north. We have not limited the time to one year.

I cannot tell the personnel of the expedition, but while many of the crew will not be Americans most of those comprising my party will be from this country.

As to the report that he had cornered the Arctic dog market, Mr. Baldwin said: "I got all the sold dogs I need, and that is all there is to that story. If the price of dogs went up I cannot help that."

Mr. Baldwin said that the America was now at Dundee, Scotland. While on the other side he purchased tents, furs and other equipment. He said that while on the vessel the men would eat good wholesome food, but that while pushing north they would have to subsist on condensed food. He looked over the market with a view of supplying the larder. He expects, however, to buy almost all of his food supply in this country.

#### RUSSIAN NOBLE SHOTS HIMSELF

ST. PETERSBURG, February 5.—Prince Pariatinsky, the young publisher of the Northern Courier, which was recently suppressed for its radical tendency, shot himself Thursday, inflicting a dangerous wound. His parents have never forgiven the marriage he made several years ago with Mile. Yavorskaya, an actress, nor did they approve of his newspaper enterprise, which absorbed the bulk of the estate of the Prince. The family ranks among the highest Russian nobility.

#### CHRISTIAN SCIENTISTS.

NEW YORK, February 2.—A special to the Times from Albany says: The hearing on the Bell bill to prevent Christian Scientists from practicing their art will be resumed next Wednesday, and promises to be of great interest.

At a hearing last Wednesday several of the Christian Scientists asserted that there was no danger in germ under the Christian Science treatment. It was stated that the belief of the Scientists in their immunity from germs would be put to the test.

One of the members of the State Medical Society, it is reported, will bring to the hearing next Wednesday a vial of typhoid fever germs. He will ask some of the Scientists to demonstrate their immunity by drinking those germs.

#### AMBUSHED BY FILIPINOS.

MANILA, February 2.—Lieutenant Hicken and a detachment of thirty of Company M, Thirty-fourth regiment, while crossing a river Tuesday night, were surprised by insurgent forces of the Fijeta San Lucia, island of Cobu. They were attacked in front and on both flanks by a hundred riflemen and more bolomen. Five Americans were killed, four were wounded and two are missing. The insurgent loss is believed to have been heavy.

Captain Malley, with a detachment, reinforced Lieutenant Hicken. They recovered some bodies, which were mutilated. Additional detachments were sent and are endeavoring to surround the insurgents.

#### AFRICAN LIQUOR TRADE.

WASHINGTON, February 2.—The United States Government has adhered formally to the Brussels convention for the prevention and restriction of the sale of spirituous liquors in certain regions of Africa.

#### AUSTIN-ANDERSON.

Franklin H. Austin and Mrs. Amy Anderson were married last evening in the parlor of Central Union church. Rev. William M. Kincaid was officiating clergyman. Mr. and Mrs. Austin left this morning for a short stay at the Wailua hotel.

#### DAVIS ENDORSED.

It was given out yesterday afternoon that George A. Davis had been endorsed by the Republican central committee for the office of second judge of the Circuit Court, to succeed R. D. Shilman, resigned. This action was kept secret for some time. The recommendation went forward by the last mail.

#### GALVESTON AND GOVERNMENT.

NEW YORK, February 2.—The city of Galveston, through committees, being about to ask the Senate of the Texas Legislature to pass certain laws repealing the charter of that city, and providing for its future government and the refunding of its indebtedness, Charles S. Fairchild, president of the New York Security and Trust Company; N. W. Halsey, representing N. W. Harris & Co., and the Connecticut Mutual Life Insurance Company of Hartford; John D. Howard of J. H. Fisher & Son, Baltimore; J. L. Grandin of Grandin Brothers, Boston; John W. Herbert of New York; John W. Edinger of N. W. Harris & Co., Chicago; and Charles E. Ballou of the Moonsocket, R. I., Institution for Savings, have been requested by a number of the principal bondholders to act as

bondholders' committee for the purpose of protecting their interests as holders of the city of Galveston securities.

#### ANTI-JESUIT DEMONSTRATIONS.

VALENCIA, (Spain), February 3.—The anti-Jesuit demonstrations which began in Madrid in connection with the anti-clerical play "Electra" have spread to Valencia. Today crowds gathered in front of the Jesuit Church of the Sacred Heart, where a confirmation of children was in progress, and shouted, "Liberty for every man!" "Down with the Jesuits!" A Jesuit who was leaving the church was hooted, and then the crowd marched to the Jesuit college and stoned the windows and doors, still shouting, "Down with the Jesuits!" Finally the demonstrators were dispersed by gendarmes.

#### DANGER OF COLDS AND GRIPPE.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the ten of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is certain preventive of that dangerous malady. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by all dealers. Benson, Smith & Co., general agents Hawaiian Islands.

## "THE VERDICT OF GOD"

EITHER CIVILIZE OR MOVE OFF  
THE EARTH.

Bishop Thoburn's Address at a Chicago  
Missionary Meeting Produces a Pro-  
found Sensation—Great Predictions.

CHICAGO, February 3.—"The verdict of God seems to be, 'Either civilize or move off the earth.' This was an utterance of Governor Shaw of Iowa at a missionary meeting here today, which was attended by leading divines in the Methodist organization. It furnished the keynote for an address by Bishop J. M. Thoburn, the echo of which is likely to sound around the world. Bishop Thoburn rules the destinies of thousands of Methodists in Southern Asia. His acquaintance with European and Asiatic politics is thorough and far-reaching, and it was knowledge of this fact by his audience that gave weight to his momentous statements.

The prelate predicted that astonishing changes in the map of the world were impending. New empires, he said, would arise, and there would be such alterations of old times that the geographers of today will be laughed at a few years hence. Especially significant were his remarks about England, Germany and the United States. The two former, in the Bishop's estimation, are to be world powers. He boldly predicted that within a short time Germany would be supreme over that part of Austria bordering on the Adriatic; would probably procure Asia Minor; would oust Russia in Turkestan districts, and, with England, would finally rule all Southern Asia from the Mediterranean to the Yellow sea.

The prelate had no hesitation in advocating American rule in the Philippines, insisting that our system of government would suppress crime in myriad form. Said he, tersely: "The United States would bring in light and shut out darkness."

He also declared that the Administration should be more emphatic in its Chinese policy, at the same time giving his audience to understand that he is against partition. The Bishop was most positive in declaring that when peace is restored in China an overwhelming wave of Christianity will sweep over that vast empire.

## PAULINE ASTOR IS TO WED

WILLIAM WALDORF REALIZES  
HIS AMBITION.

Daughter to Marry Duke of Roxburghe.  
Neck and Neck Race in the Matrimonial Market by Heiresses.

NEW YORK, February 3.—A cable to the World from London says: The engagement of Pauline Astor to the young Duke of Roxburghe, which was on the tapis before he went to the war, has not yet been officially announced. The Duke rode yesterday at the head of the Household Cavalry detachment in the Queen's funeral parade. He is strong, a somewhat bulldog-looking young fellow, with a heavy under jaw, small snub nose, stolid eyes and fresh, healthy complexion. He is fairly rich, sensible and devoted to his profession.

It has been a neck and neck race for the past two years between match-makers which he should marry, May Goelet or Pauline Astor. Her mother, who is one of the masterful Churchills, was determined that he should marry a fortune, but by a chapter of accidents he only met Miss Goelet a couple of times before he went away to war. Now he has returned and the Astor match has been fixed before the rival millionaire heiress has had time to reappear on the field.

William Waldorf Astor professes to know nothing about the arrangement which was doubtless brought about by his daughter's chaperon, the Countess of Selkirk.

PLAGUE IN CARDIFF, WALES.  
CARDIFF, February 3.—A Cardiff workman has been attacked by a disease which is diagnosed as the bubonic plague.

TO ESCORT CHINESE EMPEROR.  
LONDON, February 4.—The Pall Mall Gazette's Tien Tsui correspondent cables as follows:

"There is an impression here that a German expedition commanded by Von Troth, has gone to the northwest for the purpose of escorting the Emperor to the capital. Von Walders will shortly join Von Troth's force."

INDEED IT DOES.

EDITOR STAR: I have noticed with interest that your paper has been taking a deep interest in the temperance movement. In order to maintain the high state of civilization that we as politicians have the happiness of enjoying, it requires a keen interest on behalf of every public citizen.

LOCAL OBSERVER.  
Honolulu, February 14.

VICTORIA'S ANCESTRY.

A Long Line of Noble Forebears for  
England's Sovereign.

The Queen's ancestry, if pursued back to the mists of antiquity, is complex enough. She could trace back her descent to Alfred and Egbert, through the Saxon Princess who married Henry I, and from whom Henry II, through his mother Matilda, obtained his title. She had also in her veins the blood of Rollo, founder of the Norman Dukedom, through the male line of the Norman Kings. She was descended from the ancient Kings of Scotland, through the ill-fated Mary Queen of Scots. Again, through the Tudor princess who was Mary's grandmother, she was connected with the old Royal family of Wales. Her descent from the Stuarts was through Sophia, grand-daughter of James I, who married the Elector of Hanover.

On the Elector's side her ancestors would be found to be connected with numerous Ducal and Imperial families of the Continent, and especially with the great Princes of the Holy Roman Empire. The family name of Gueff dates back from the eleventh century, and with the other name of Ghibelline occurs in every page of the troubled history of Italy and Germany during the days when the German Kings were attempting to make the Holy Roman Empire something more than a name.

There were two great German families, Wablinger and Wolf, afterwards corrupted into Ghibelline and Gueff, which headed rival parties in the German Empire, and Italy, which became the chief scene of the struggle between

## Most Superb

Now for the Mardi-Gras ball, the most elegant line of Ladies' dancing slippers, ever imported to this country. These new creations in slippers were selected personally by Mr. McInerny, from French exhibits at the Paris Exposition.

Ideal Kid, the substitute for Patent leather, is a new feature in these slippers and has proved a grand success in Dancing Slippers.

## McInerny's Shoe Store,

the two factions, was for centuries wasted by their contending adherents. From the Gueffs sprang the House of Brunswick, and through it the present Royal family of England. It is curious to think of the contrast between the quiet, peace-loving lady who has so long reigned over England, and her turbulent ancestors, Norman, Saxon, Scotch, Welsh, and German.

PEKING HEROINE TO WED.

Washington society is interested in the approaching marriage of Miss Mary Condit Smith, a belle of that city, to Richard Stewart Hooker, a grandson of Senator Stewart of Nevada and a Lieutenant of Marines at the Brooklyn Navy Yard. Miss Condit Smith was one of the heroines of the Peking siege returning from China only about a month ago. She is living in Washington with her mother's sister, Mrs. Field widow of the late Associate Justice Field of the Supreme Court. Another sister is the wife of Governor-General Wood of Cuba, and still another the wife of Lieutenant Key, now stationed at Tokio.

Lieutenant Hooker is 24 years old and was appointed by President McKinley to the Marine service last February. He had previously made an adventurous trip to the Klondike.

The wedding will be in St. John's Church, in Washington, on the 12th of this month.

**CRISIS IN THE PHILIPPINES**

NEW YORK, February 3.—A cable to the Sun from Manila says: The Federal party held a meeting today in the Rizal Theater. Subsequently there was a Protestant conference at the same place. Senor Buencamino addressed 500 persons present. He explained the non-political character of the meeting and reiterated popular arguments against the friars. He said they were threatening to renew the abuses of which they were guilty under Spanish rule, but he did not think they would be successful in re-establishing their rule. Buencamino advocated reform in the Catholic church and dramatically asked his applauding audience to choose between the church and the friars or the new freedom of thought. He skillfully advanced Protestantism as a remedy for many of the evils of which the people complained.  
 Upon the conclusion of Buencamino's speech he introduced Missionary Rodgers, who explained the evangelical principles. He distributed hymns, which the audience stood up and sang. Rodgers was followed by a Methodist and two native converts. At noon the meeting adjourned, but re-assembled in the afternoon.  
 The people seem to be approaching a political and religious crisis. The masses are easily swayed, and both political and religious elements are showing remarkable activity. Missionaries here state that they have received numerous letters from the provinces inquiring about Protestantism and asking for preachers.  
 Three hundred insurgents have surrendered in Panay, with 150 rifles.  
 The battle ship Kentucky arrived here this morning.

**THE DRESSY MEN**  
**Who Want Corroct Shirts**

This store is becoming a men's store as well as a women's store. And why, indeed, shouldn't men consult their pocket books when they buy, as well as women? This week we're going to give every man a chance to save many dollars on his shirt bill for a year to come. This wise.  
 We have placed on our counters and in our makai window, our entire shirt stock, and they're going, gentlemen, going

**Every Shirt at 75 cents**  
 without reserve or hold over.  
 Now these shirts are not old plugs or relics of the product of '95. They are up-to-date shirts; just such shirts as regular furnishers charge \$1.50 and \$2.00 for. We're selling them in a lump, so we can afford to take less than he.  
**THE LARGE SIZES** predominate, hence stout gentlemen, who sometimes find it hard to get suitable patterns in 16 or 17, will have great fun among this stock.  
 In conclusion—If you can't come in yourself, let your wife come and pick out a few for you. Shirts are not like cigars and this is too good an opportunity to be missed.
