IS GIVEN A RECEPTION

SUMMER SCHOOL PEOPLE GREET PROFESSOR DRESSLAR.

Music and a Recitation—Refreshments and Social—All Pleased—Tendered a Band Concert.

A reception was given at the High School building last evenng by the teachers and pupils of the Summer School to Professor Dresslar, of California. This gentleman is the specially engaged lecturer on Methods, etc. He made a very favorable impression upon all of the large number who met him last evening.

A prepared program opened with an instrumental solo by Miss Clymer, of the Kamehameha Girls' School. J. B. Alexander then gave a song and an encore, to accompaniment by Mrs. Alexander.

A strong recitation, "The Witch's Daughter," rendered by Mrs. J. L. Dumas, was the next number.

Master Willie Smith sang two melodious native songs, with a chorus of boys.

Following the music and recitations there were refreshments and conversation, all spending the evening very pleasantly.

Among the seventy-five present were Inspector Townsend and Deputy Scott, Rev. Alex. Mackintosh, Secretary Rodgers, of the Bureau of Education, Miss Gear, a new Kamehameha teacher and Miss Mudge.

Professor Berger has made the tender of a special complimentary concert to the Summer School, upon the High School grounds, at a time to be selected later.

The school is now proceeding smoothly with its work and all the students are making rapid progress.

QUEEN'S HOSPITAL.

Wording of Charter Changed and H. Waterhouse Made a Trustee.

The trustees of the Queen's hospital held a special meeting in the Chamber of Commerce this morning. The principal business before the body was the proposed amendments to the charter and by-laws, to make them conform to the present form of Government. Under the by-laws amendments must be presented and read a month prior to adoption. This made the special meeting necessary. The changes to be made are the words "Republic of Hawaii" in place of the "King" and "the Hawaiian Kingdom."

Henry Waterhouse was elected a member of the Board of Trustees to succeed the late John T. Waterhouse.

A NEW TELEPHONE MAN

MUTUAL MANAGER ARRIVES TO TAKE CHARGE.

Exeprienced Superintendent from San Jose—Staff to Remain—Says He Can Stop the Induction Burring.

John Gillespie, the new electrician and superintendent of the Mutual Telephone Company, arrived by the Australia. He will look over the town for a few days and will likely be installed on Saturday. Charles Crane, who has been acting superintendent since the resignation of Mr. Cassidy, goes back to his duties of chief of the staff of operators and right bower of the manager.

Mr. Gillespie comes from San Jose. He is 33 years of age, unmarried and of a very quiet disposition. His life study has been electricity and the telephone business. For the past ten years he has been superintendent of the Sunset Telephone Company, with headquarters at San Jose. He is said to be a very capable man.

Mr. Gillespie is an old friend of Theo. Hoffman of the Hawaiian Electric Company, to whose good offices he is indebted for the position he comes to accept. His brother is superintendent of an electric light system in San Jose.

It is understood that no changes will for the present at least, be made in the working force of the office. Crane will leave in a few days on a tour of inspection of country lines. All the operators who desire to remain will be retained under the new management.

Mr. Gillespie was asked today if he could rid the telephone of the rumbling noise so bothersome at night. He replied: "The induction complained of will be the least of my troubles."

VELOCITY MATES.

The chief officer of the bark Velocity left very "sore" on Honolulu. He was arrested last week for indulging too freely uptown. Bail was furnished and forfeited. Prior to sailing Capt. Martin explained how it was Murphy was not with him this trip. It appears the Chinese agents did not want Murphy on the vessel on account of his opium smuggling proclivities.

Light on the Stomach

Such is the verdict of all those who have tried Seattle Brewing and Malting Co's. product.

Some beers lie heavy on the stomach.

That is certainly not desirable.

Avoid such beers.

By using the Rainier of Olympic brand you are sure of a mild, light beer, one that is easy to digest and nutritious. Sold at the Criterion saloon.

FROM THE TOWN OF HILO

RESOLUTIONS ON THE DEATH OF "FATHER" BOND.

Six Hundred Tons Direct Freight—Hotel Open Again—New Manager—Seaman Loses His Life.

(Hilo Tribune.)

"FATHER" BOND.

The following action reported to the Trustees of the Hilo Boarding School by a committee appointed for this purpose, was unanimously adopted at a meeting held on Monday, July 27, 1896:

"Since it has pleased our Heavenly Father to remove from this earthly life our most esteemed and venerable associate, the Reverend Elias Bond, D. D., of Kohala, who has been a trustee of the Hilo Boarding School during the last fifty-five years, we desire to put on record our deep sense of personal loss, as well as of that which has befallen the school.

"The oldest members of the Board have not forgotten the Boy's School in Kohala where he carefully and thoroughly fitted so many boys to enter the Hilo Boarding School from year to year, when instruction was imparted in the Hawaiian language and the higher branches were taught.

"In counsel he was eminently wise, judicious and practical, and his gifts to the funds of the school were generous.

"To the family and near friends of our departed comrade we offer our heartfelt sympathy and the Secretary is hereby directed to transmit to them this expression of the sense of the loss which we have sustained and our sorrow with them in their bereavement.

"CHAS. H. WETMORE.
"C. W. HILL."

DIRECT FREIGHT.

The Rhoderick Dhu, Capt. Rocke, arrived in port Thursday morning, eighteen days from San Francisco. There were three passengers: E. D. Sparrow, F. S. Scott and J. W. Morris. Her cargo, consisting of general merchandise and feed, amounted to about 600 tons, chiefly for local dealers and plantations.

A NEW MANAGER.

Mr. E. D. Sparrow, of San Francisco, arrived in Hilo last Thursday by the ship Rhoderick Dhu. This gentleman has come to Hilo to take the business management of the Hilo Tribune. Mr. Sparrow has been for the past twenty-five years engaged in newspaper work on the Coast and comes very highly recommended.

SEAMAN DEAD.

There was an accident aboard the S. S. Hawaii last Monday while she was in port that resulted in the death of a kanaka seaman named George. The men were at work when a block fell on the unfortunate man, fracturing his skull and breaking a leg in two different places. The man lingered till Friday.

NOTES.

The lumber for the new Hilo jail has arrived from Honolulu. Cutting has already begun. The foundation will be begun next week. The outside walls will remain. They will be whitwashed.

The second mate of the Annie Johnson, who was sometime ago injured by the falling of a sling of hay while that vessel was in port, is reported to be crazy and has been entered at an insane asylum in California.

The Hilo Hotel, under the management of Mr. Joseph Vierra, was opened again last Wednesday. Until further developments the establishment will be run by Mr. Vierra.

The Ookala mill stopped grinding for the season this week. The crop exceeded the expectations of the most sanguine. Next year's crop will be larger still.

NEW CAPTAIN FOR COMPANY E.

A new captain will be selected early next week at the latest for Company E, N. G. H. It is generally understood that Lieut. Arthur Coyne will go for the place. In this event Sergt. Moore may be appointed lieutenant. Capt. Camara of Company C is an applicant for the latter position. A report that Capt. Schaefer will take command of Company E is incorrect. That officer will remain at headquarters.

NEWS OF THE WORLD

LI HUNG CHANG MAKES COMPLAINT TO ENGLAND.

"Busted" Oil Boom—Bicycle Failures—Cholera in Egypt—Air Power Used—Salmon Crop Big.

"SYMPATHETIC."

CLEVELAND, O., Aug. 2.—At a meeting of the representatives of the labor unions of this city tonight it was determined to urge upon the Central Labor Union at its meeting Wednesday the calling of a sympathetic strike on account of the Brown Hoisting Company trouble.

RIOTING STRIKERS.

NEW YORK, Aug. 2.—Rioting was the chief feature of the tailors' strike on the East side today, and although there were but few arrests made, Acting Captain Hogan kept his reserve ready to quell any disturbance that might occur.

INDIAN JUSTICE.

SOUTH McALLISTER, I. T., Aug. 2.—The Indian court sitting at Wetumpka has sentenced two men to death for cattle stealing and others to undergo the whipping post for having committed similar offenses.

CHOLERA IN EGYPT.

WASHINGTON, Aug. 2.—Advices received at the Marine Hospital yesterday from Alexandria, Egypt, show that the cholera outbreak there has got beyond the control of the sanitary authorities. During the seven days up to the 1st ult., 1200 deaths were reported, and in the following six days 1,700 deaths. So far 8069 deaths have occurred from the present outbreak, and it is feared that these figures will be largely increased before the disease runs its course.

BICYCLE COMPANY FAILS.

NEW YORK, July 31.—John R. Hardin was appointed receiver for the Liberty Cycle Company. Its liabilities are about $200,000 and assets about 187,000.

BICYCLE ATTACHMENT.

BUFFALO, N. Y., July 31.—The Queen City Cycle Works at Idlewild, near this city, were seized last night by Deputy Sheriff Sloan on an attachment of $4,000.

AIR POWER.

NEW YORK, N. Y., July 31.—One of the new air-motor cars recently received by the Third-avenue Railroad Company in this city, which, it was promised, would revolutionize surface traction, was privately tested yesterday with the most satisfactory results.

PLENTY SALMON.

ASTORIA, Or., July 31.—Receipts of salmon at the various lower river canneries are unusually heavy and far in excess of the capacity of the packing establishments to handle them.

REPROACHES ENGLAND.

LONDON, Aug. 3.—The first day in England of Li Hung Chang was quiet, and his occupation was confined to a drive around Hyde Park and Pall Mall.

The Times this morning has an article regarding Li Hung Chang's views and the object of his mission to England. The Chinese statesman considers, this article says, that England could, if she had chosen, have prevented China's disastrous war with Japan. He therefore reproaches England with waning friendship and contends that China was taken by surprise when entirely unprepared for war.

"BUSTED" BOOM.

LOS ANGELES, Aug. 3.—Secretary Strasbury of the oil exchange said this afternoon:

"I hate very much to admit it, but the fact is that it is only the question of a few weeks when the oil industry of Los Angeles will be a thing of the past. The American Oil Company has just sunk a new well, and the production is only about eight barrels. For the last four months the supply has been 40,000 barrels short of the consumption. This is an average of 10,000 barrels monthly. It will not be long until the furnaces here are again consuming coal."

CRAMP'S FIRE.

PHILADELPHIA, Aug. 2.—The big yards of the Cramp Ship and Engine Building Company were last night the scene of a fire which, before it could be extinguished, swept out of existence the great paint shop with most of its contents, entailing a loss of about $40,000, which, however, is fully covered by insurance. The burned structure was of frame, 200 feet long by 90 feet wide.

COFFEE A FAILURE.

WASHINGTON, Aug. 1.—Consul Schoepe at Vera Cruz, in a report to the state department on a new tax placed by the Vera Cruz Legislature on coffee and tobacco planting, warns Americans against embarking in the coffee raising business and cites figures to show that in those parts of Mexico with which he is familiar the stories of great wealth to be gained by coffee planters does not apply. On land costing $10 an acre it appears from his figures it would cost $24 in four years to get $93 in return. He declares that the average annual product is nearer a half-pound per three acres than three pounds per acre, as oftener stated.

PROCLAMATION NO. 2.

Washington, July 30.—The President has issued a proclamation bearing date of July 27th, again commanding citizens to observe neutrality laws in respect to the Cuban insurrection, and giving notice that all violations will be vigorously prosecuted. The President cites the decision of the Supreme Court in the Wiborg case in order that citizens may not be misled as to the meaning of military laws.

FOR M'KINLEY.

Chicago, July 30.—The commercial travelers of the country are going to wage war against free silver. There are 120,000 of them in the United States, and of this number 98 per cent are said to be champions of McKinley.

MAKING CHANGES.

Extensive alterations are being made in the arrangement of Hart's ice cream parlors. All the partitions on the Ewa side have been taken out and the rooms are thrown into one large apartment. The advantage in the change is that it gives space for three or four more tables and is so much cooler. The rooms on the Diamond Head side have been left for the benefit of private parties.

BAD COAL.

From all accounts San Francisco is at present annoyed with the worst coal ever seen in that market. It does not seem to be confined to any particular shipment or kind, but all is bad. All steamers sailing from that port within the past month have been delayed from twelve hours to a day in the passage of a week. This on an average. The China on her last trip down was nearly seven days making Honolulu, and the last two trips of the Australia have been the slowest in a year. It is said that the San Francisco coal is so bad that it can hardly be used for ordinary stove purposes.

A RECEPTION.

The young ladies and gentlemen of Mrs. Johnson's boarding house in Union street gave a reception to their friends Tuesday evening. Messrs. Schermerhorn, Ed Dekum, A. [illegible]ris, Sayers, George Otterson, [illegible], Charles Ramsey, and J. W. Bergstrom composed the committee of arrangements and were the hosts of the evening. About two dozen ladies and gentlemen were present. The Kawaiahau Club furnished music for the occasion.

COMMISSIONER HOME.

Joseph Marsden, commissioner of Agriculture, returned from Hawaii by the W. G. Hall Tuesday afternoon, looking the picture of health and of a man who has enjoyed a long vacation. Since away Mr. Marsden has visited every district of the big island, gathering information and imparting such as might prove of advantage to the planters. Most of his excursions into the rural neighborhoods were made afoot.

"Can't Go Wrong"

That is how visitors feel, directly they step into Kerr's store on Queen street, and it requires no special exertion on the part of the management to place the very best and newest goods at the lowest prices at the disposal of intending purchasers.

Glad to Know It!

Is the remark made by a tourist when informed that the famous Pabst Milwaukee Beer is on draught at the Royal, Pacific and Cosmopolitan saloons. Gold medal and diploma of honor at Munich International Exposition, 1895, which is a complete triumph for American beer in the very cradle of the art of brewing.

The Company known throughout the world as the

CALIFORNIA FIG SYRUP CO.

Having met with the highest success in the manufacture and sale of the excellent liquid laxative remedy, Syrup of Figs, it has become important to all to have knowledge of the Company and its products. The great value of the remedy as a medicinal agent, and of the Company's efforts, is attested by the sale of millions of bottles annually and by the high approval of most eminent physicians.

The California Fig Syrup Co. was organized more than twelve years ago, for the special purpose of manufacturing and selling a laxative remedy, which would be more pleasant to the taste and more beneficial in its effects than any other known. In the process of manufacturing, figs are used, as they are pleasant to the taste, and healthful in their tendencies, but the medicinal properties of the remedy are obtained from an excellent combination of plants known to be medicinally laxative, and to act most beneficially.

If in the enjoyment of good health, and the system is regular, then laxative or other remedies are not needed. If afflicted with any actual disease one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Every Piece is Thoroughly Seasoned.

The workmanship is perfect, and every joint as true as will be found in higher grade goods.

In these days when ladies' fashions rule the world, a cheval glass in a dressing case is indispensable. The full length figure may be seen and a lady can see at a glance whether her skirt hangs straight or not. Another feature of the Dressing Cases in these $35 Sets is the hat box. The lady of the house can keep her evening hat without crushing it and entirely away from the dust.

The metal work on the Dressing Case and Wash Stand is of the latest design and is remarkable for the richness.

These Sets are superior to any ever shown in Honolulu and command higher prices elsewhere.

NOTES ON TWO CALLERS AT MAHUKONA PORT.

Hall and Claudine—Coasting Schooners—Discharging Coal—Waialeale Leaves for Kauai.

The schooner Moi Wahine will leave at 3 o'clock this afternoon for Kohalalele.

The bark Harvester docked at Fort street wharf yesterday afternoon to discharge her coal.

The steamer Kaala will leave for Kahuku, Punaluu and Waialua ports at 4 o'clock tomorrow afternoon.

The John G. North will load a full cargo of sugar and sail from Honoipu for San Francisco on the 11th inst.

The steamer Waialeale will leave for Nawiliwili and Waimea at 3 o'clock this afternoon with a load of lumber.

The schooner Kaukeaouli arrived early this morning from Hawaii with a load of sugar for the barkentine Archer.

The barkentine Archer hung her flag at half mast today out of respect to the late Mrs. J. M. Cooke. Castle & Cooke are the vessel's local agents.

The brigantine Consuelo, Capt. Jacobsen, sailed from Mahukona on the 4th inst. for San Francisco with 4444 bags sugar shipped by Castle & Cooke; 1836 bags, Halawa plantation, and 709 bags, Theo. H. Davies & Co.; total 7079 bags, 887,959 pounds; value $28,387.95; and 179 pieces hides, $507.46.

The steamer W. G. Hall was a little late in arrival yesterday from Maui and Hawaii, owing to a detention of two hours at Lahaina. Fine weather was had throughout. The Hall brought a full load of sugar and her usual assorted cargo. Part of her sugar went into the bark Alden Besse today.

The schooner John G. North, Capt. Rasmussen, arrived at Honoipu on the 5th inst, eighteen days from San Francisco. Cargo 45 tons barley, 10 tons bran, 1 road cart harness, 30 cases soap, 36 kegs horse shoes, 30 barrels cement, 60 barrels lime, 14 M feet assorted lumber, assorted groceries and plantation supplies.

The steamer Claudine left for Maui ports shortly after 5 o'clock yesterday afternoon. The band played prior to the steamer's departure in honor of President Dole, who left on a visit to Maui. As the Claudine steamed out of the harbor a salute of twenty-one guns was fired from the shore battery and the U. S. S. Adams dipped her flag.

The British bark Velocity, Capt. Martin, sailed Tuesday afternoon for Hongkong with seventy-eight Chinese passengers. Seventeen of these were men who refused to ship. All had passports. Capt. Martin expects to return to Honolulu about December or the beginning of next year. He is already assured of a full cargo for the Chinese new year's celebration.

PRETTY SOCIETY WEDDING

UNION OF MISS BLANCHE CORNWELL AND J. S. WALKER.

At St. Andrews Cathedral—Decorations and Music—The Reception—Many Beautiful Gifts.

The marriage of Miss Blanche Cornwell and Mr. John S. Walker was solemnized at St. Andrew's Cathedral at 8 o'clock Tuesday evening, Bishop Willis officiating. For the occasion the church was beautifully decorated with flowers, palms and maile.

The ceremony was simple. The groom was attended by J. O. Carter, Jr., and the bride by Misses Kate Cornwell and Walker. Col. W. H. Cornwell, the father, gave the bride away. Wray Taylor played Mendelssohn's Wedding March as the bridal party entered the church and Schubert's serenade in a low key as the ceremony was in progress. The church was crowded with the friends of the contracting parties.

From the Cathedral door the bridal party repaired to the home of Mrs. Walker in Nuuanu valley, where a reception was held. Owing to the recent death of the bride's grandmother, only a few near relatives and close friends were invited to this function. The young couple stood in the main parlor to the right of the entrance.

The grounds and house were beautifully illuminated for this occasion. Over the front entrance two Hawaiian flags were gracefully draped. In the hallway were potted plants and palms, handsomely arranged. The principal decorations, however, were in the room where the bride and groom received the congratulations of their friends. There appeared the beautiful floral pieces sent by friends of the bride from San Francisco, and the choicest selections of Hawaiian flowers in artistic and beautiful designs.

The remembrances were very pretty and valuable, and made a very striking display. Many of them came from friends of both the contracting parties in the States, though the largest number were from Island friends.

It is said that glacial action has in places on the Union Pacific road moved the mountains down on the narrow right of way along the Columbia river, where the cliff rises often 400 feet above the track, leaving now hardly a footing for the track.

Chicago's Art Institute has received as a gift from Harriet Hosmer the cast she made in 1853 of the clasped hands of Robert Browning and his wife. This is the cast of which Hawthorne wrote in "The Marble Faun," "It symbolizes the individuality and heroic union of two poetic lives."

The practice of cremation is growing so much in and around Philadelphia that patterns of urns for holding ashes are now exhibited and sold. Some are made of metal and others of onyx and marble, and more money can be put into an urn than in a coffin if relatives of the incinerated one are so inclined.

An esteemed contemporary of Milan has a new department, with the head, "Permanent Announcement," consisting of a list of names under this introduction, "The following persons are invited to call and settle their bills," the amounts of which are stated opposite the respective names. The announcement is only temporary in the cases of those who settle.

"It is the best patent medicine in the world" is what Mr. E. M. Hartman, of Marquam, Oregon, says of Chamberlain's Colic, Cholera and Diarrhoea Remedy. "What leads me to make this assertion is from the fact that dysentery in its worst form was prevalent around here last summer and it never took over two or three doses of that remedy to effect a complete cure." CLUBS OF THE WEST.

WOMEN INTERESTED IN POLITICAL ECONOMY AND CIVIC AFFAIRS.

A General View of Western and Northwestern Women's Clubs—Women Prominently Connected With Them—Twenty-five Clubs In Chicago Alone.

[Copyright, 1895, by American Press Association.]

In surveying the field of the G. F. W. C. it is impossible not to notice the progressive spirit and practical lines of work of the western clubs. Southern clubs are almost purely literary or social; eastern clubs followed the same general lines in their earlier history, but have of late shown a great tendency toward the development along lines of civic investigation and political economy, including such subjects as proportional representation, initiative and referendum, and the financial basis, which have been characteristic of the evolution of the club idea within the past decade. This particular trend is especially noticeable in western and northwestern clubs.

MRS. ALICE FOLK HILL.

To specify in detail in a comparatively limited article is impossible, but a general review of representative western clubs is one of the most interesting studies presented in the entire federation.

In the city of Chicago alone there are about 25 clubs in the federation. It is fair to presume that these clubs are as representative of the west as the clubs of New York city are for the east.

Among the more prominent of these may be mentioned Hull House, the Chicago Women's club, the Friday club, the Archi club, the Heliades, Friends In Council, Kindergarten club, the Klio club, the Society For Physical Culture and Correct Dress, and the National Household Economic association. Hull House is to Chicago what Toynbee Hall is to London, and Miss Jane Addams, its founder, head and inspiration, is one of the foremost humanitarians of the age and a living exponent of that practical Christianity which goes hand in hand with that rational philosophy of civilization which offers the proletarian of our great cities the benefits of this life as well as the promise of the life to come. The world has long been familiar with theoretical charity. It is such institutions as Hull House which convert those theories into practice, and the institutions themselves are like oases in the midst of the plague spots of our civilization.

The Chicago Women's club declares in its constitution that it exists for "mutual sympathy and counsel, a united effort toward the higher civilization of humanity and general philanthropic and literary work." These declarations have been well borne out by its united work and by the achievements of distinguished individual members. Mrs. Lucy L. Flower, a trustee of the University of Chicago, has for 20 years been prominent in the philanthropic, educational and reform work in the city of Chicago. Mrs. Henrotin, the president of the federation; Mrs. Lindon W. Bates, Egyptologist, author and critic; Miss Ada C. Sweet, one of the foremost business women of Chicago; Mrs. Potter Palmer, who is an authority in her wide and varied information on woman's work throughout the civilized world, and especially in oriental countries; Mrs. Matilda B. Carse, the great worker in the W. C. T. U. and founder of the Woman's temple of Chicago; Mrs. John C. Coonley, the president of the Chicago Women's club, a brainy and energetic woman, and Dr. Sarah Hackett Stevenson, a prominent and successful physician, are some of the members of the Chicago Women's club, and on its honorary list are the names of Mrs. Laura Ormiston Chant, Miss Harriett Hosmer, Julia Ward Howe, Lady Henry Somerset and the Countess of Aberdeen. The practical work entered into by this club can probably not be excelled by the record of any in the country. It has entered extensively into moral and social reform and has assisted in improving the management of orphan asylums, workhouses and many public institutions. It has had its influence in obtaining better street cleaning and in placing women in charge at police stations. It has been interested in obtaining positions for women on the school board and placing them in libraries.

The Archi club is artistic. Its members are all associate members of the Art institute. Six years ago this club was organized, with 18 women. It now has a membership of over 600 and is the second largest club in the city. The Kindergarten club, the Society For Physical Culture and Correct Dress, and the National Household Economic association sufficiently indicate their lines of work by their names. The Heliades, Daughters of the Sun, from the Greek Helios, follows in its course all the lands upon which the sun shines.

San Francisco has in the federation such prosperous and influential clubs as the Century club of California, Sorosis, the Woman's council, the Laurel club, the Guidon club and the Presidio. The

Hawaiian Electric Company.
The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."
This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light.
Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.
We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

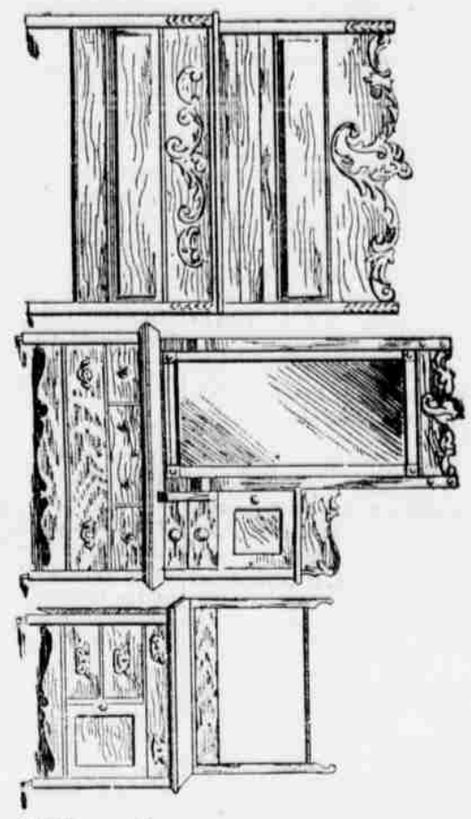
"Style" in Furniture

It is equally as poor taste to buy "out-of-date" Furniture as an "out-of-date" Bonnet or Wrap. We have the advantage of all others in having the only absolutely new and "up-to-date" stock of Furniture exhibited in Honolulu—and yet we ask less than you pay for the old elsewhere.

Bedroom Suits.

In Oak or Birch are selected by people whose tastes run to the refined or elegant. For room decoration as well as for service there is a certain elegance and richness about these woods, not found in any other, and yet the prices are not what you would imagine them to be. Birch sets, with dressing cases having cheval plate mirrors, are preferred by ladies, because the long glass allows them a view of the full figure. The old fashioned large, square glass is quite as fashionable and as much in demand because the bureaus to which they are attached give larger space for clothing.
We have them in all styles and in modern designs. Price, from $25 to $40.



Chiffoniers.

In these days when the ladies require many changes of clothing, there is a demand for space in which to put things away. The bureau drawers are crowded. A Chiffonier is necessary in every house where store room is scarce. These are made nowadays for gentlemen as well as ladies; some have a drop lid which unfolds to the gaze a regular receptacle for pens, ink, paper and other articles of stationery.

China Closets.

There is scarcely a family in Honolulu, or anywhere else on the Islands, who has not a few choice bits of china stowed away in out of the way places. Give them light—let your friends see them.
China Closets in oak are the proper thing, and a dining room is not complete without one;—the price has been an obstacle in the past, but over-production by a leading furniture maker in the States has helped us to offer them to you at ridiculously low prices. See those with the oval glass. Prices range from $20 to $45.

Secretary Book Cases.

Wall pockets and shelves for books are out of date; fashion demands something more modern and more artistic in design.

Side Boards.

Nothing sets off a dining room to more advantage, or adds to its convenience more than a Side Board. No dining room is complete without one. We have them to suit all tastes and purses.

WEDNESDAY, AUGUST, 12, 1896.

With the military sensation ended, the town, or the part of it that feeds and feasts on gossip, might go back to the previous question, if anyone can remember just what it was.

In blaming his country's disaster at arms on another power, Li Hung Chang talks like a Chinaman who wears a rust colored blouse instead of a yellow jacket.

The gold Democrats—and Republican allies—seem to be waiting for an opportune time to "spring" the third ticket. The project is now a flank movement or attack on paper. It will no doubt be pretty effectively made before the campaign is much older.

In the death of "Mother" Cooke, the moral and religious forces of the community lose a quiet but powerful factor. The demise of this estimable woman is the cause of deep and sincere grief to hundreds who for years had admired her beautiful Christian character.

Honolulu men will boom the bicycle in New Zealand. Some Honolulu hat would make a good thing by taking novelties or needfuls to Japan. In that country citizens of Hawaii, alone of all foreigners, are privileged to trade openly and freely in any part of the Empire.

From the best information the officers of the First Regiment, N. G. H., are able to get, they are satisfied that men armed and uniformed very rarely enter saloons. It is believed that an appeal to the honor and good sense of the volunteers will stop the practice entirely. Such a thing is not allowed at all among National Guardsmen in the States, but the advisability of issuing prohibitory orders rere is gravely questioned.

The finding of the Court Martial that sentenced Capt. John Good, Jr., to dishonorable dismissal from the service of the N. G. H., analyzed the whole case, as well as the evidence, pretty keenly and comprehensively. The Star does not think any comment required, excepting it might be remarked that it is passing peculiar to see noted the conviction and punishment of an accessory without any mention of the principal or principals.

The Hilo Tribune strongly advocates the letting of road building contracts to the lowest bidder. This is purely a matter of judgment with the Interior Department. Sometimes in isolated districts the possible builders combine instead of competing and the State is mulcted. The Tribune says it is committed to the policy of "get there" with almost any kind of a road. This is a serious mistake. It will be found that a bad road is worse than no road at all.

The friends of honest advance thought will smypathize with the conscientious socialists in their victory over the anarchists, who made every effort to capture the recent London Congress. Louise Michael, the Paris "Queen of Anarchy" and other prominent advocates of dynamite and the dagger as reform agents, were driven from the meetings, though they so hampered and interrupted the proceedings that nothing could be accomplished. The next Congress is to be held either in Germany in 1899 or Paris in 1900, with the ban upon anarchists.

In the Spanish Senate the other day the representative of Cuba, Senor Labra of Havana, declared that "Home Rule is the only hope for Cuba under Spanish influence." In this expression Gen. Campos, late Governor-General of Cuba, concurred, and what is more significant, Prime Minister Canovas acquiesced, saying, in addition, that Home Rule will be granted to Cuba, but not until the rebellion is wholly suppressed. Here is the error of the Ministry of Spain. The question is asked, then, if the Spanish Ministry is convinced that Home Rule is a Cuban right, why not make it a means to the suppression of the rebellion?

The report of a consul of the United States to the effect that promoters of coffee culture in both Central America and Mexico have made false and misleading statements will serve to dampen the enthusiasm or ardor of people who have become interested in these regions by the glowing circulars and pamphlets. Of coffee lands and possibilites in Hawaii the half is not told, which is a rather conservative, but an entirely safe course and one calculated to win in the long run. Several section in the group are showing results that would warrant colored posters. The Island steamer companies, the Government and the other immigration factors are following business rules when they present the exact facts. These are sufficient, but should be given wider publicity.

ARBITRATION.

Touching the question of a general system of arbitration between the United States and Great Britain, Lord Salisbury said there would be difficulty in dealing with cases so large as to contain issues of a vital character. After much discussion with the United States upon that point, he thought that the tendency of the United States was to desire the rapid and summary decision of a question. The British Government thought that the principle of obligatory arbitration was attended with considerable hazard. Proper machinery must be provided. In recent years the United States has evinced a disposition to take up the causes of many South American Republics, but the English had not quarreled with that disposition. Great Britain, he added, has taken similar interest in disputes regarding the frontiers of Sweden, Holland, Belgium and Portugal. In studying the welfare of neighboring people it is necessary to remember that the claims of such people may possibly become matters of arbitration, and hence that it is necessary to guard against an obligatory system of arbitration. For these reasons, his lordship said, he had approached the question with considerable caution.

SUPPOSED TO BE FUNNY.

(Mavericked.)

A recruit wishing to evade service was brought up for medical inspection, and the doctor asked him: "Have you any defects?" "Yes, sir; I am shortsighted." "How can you prove it?" "Easily enough, doctor. Do you see that nail up in yonder wall?" "Yes." "Well, I don't."

TRANSFERS.

District Court Declares the Tram Must Issue Them.

C. V. Sturtevant won his case in the District Court this afternoon against the Hawaiian Tramways Company. The point involved is the matter of transfers from one car line to the other for the one fare of five cents. Mr. Sturtevant rode in on King street and at Nuuanu demanded a transfer to go up the valley, which was declined. The case will go before the Supreme Court for final judgment.

INDUSTRIES.

Maj. Z. K. Pangborn Mentions Business Chances in the Islands.

(San Francisco Call.)

"Before I say anything about home affairs," said Maj. Pangborn, "allow me to say a little of that beautiful island Republic, Hawaii. I was there for several weeks and I can say with assurance that it presents a magnificent field for business—that is, an increasing and profitable business. This is particularly true of coffee, sugar and fruits of all kinds. There are vast tracts of land which have never been used but which are capable of returning almost untold wealth to those who are willing to venture their dollars. I think the islands could easily sustain three times the present population."

Timely Topics.

August 10, 1896

In every branch of industrial and mechanical activity there are manufacturers who, by superior talent and ability, attain a prominence and a reputation beyond that of all competitors and in few branches of trade has the march of progress wrought such a revolution as in cutlery and kindred lines of business. Only a few years ago it was impossible to induce a purchaser to use anything in the cutlery line, except what was made by two or three European houses, but experience has taught these very same purchasers that manufacturers in the United States can equal and in many cases excel their cousins across the water.

Prominent among these American houses is that of the John Russell Cutlery Co. of Turner Falls, Mass. What with invention, inprovements and the development of skill something closely akin to perfection has been reched by them in the manufacture of cutlery. We handle their goods in all lines from the largest and handsomest carvers to the desert knives. You can have your choice of the sets in White Bone (an excellent imitation of ivory) or the Black Hard Rubber. We have a bread knife that has the long, thin blade for cutting the wafer like slices. The handle has a sheaf of wheat carved in the natural wood, also the Jointing Carver, Cimeter Carver and Steel, a special feature is the welding of the handles to the blades in such a manner that water will not effect them.

We feel assured you will be pleased with the service they will give you.

STRANGE SELF DECEIT.

What a Morbid Love For the Sensational May Sometimes Accomplish.

A morbid love of the sensational sometimes leads young people, more especially young women, into strange paths. Many extraordinary instances are on record of the singular manner in which they have imposed upon relatives and friends, representing themselves as suffering from a baffling malady in some cases; in others as the victims of injustice or persecution.

A case of the latter kind was that of the Canadian girl said to be persecuted by the receipt of scurrilous anonymous letters. The whole population was roused into sympathy and indignation, and she herself was driven finally into her grave, amid the lamentations of the community, by her malevolent and undiscoverable accuser. Afterward an examination of her papers and letters revealed the fact that she herself had been the unknown writer. It would seem remarkable that one should be one's enemy to such an extent as to commit suicide by self persecution in this manner. Yet psychologists know that such cases are not infrequent.

A recent illustration of that is afforded by the story of a spinster milliner, who not only wrote herself persecuting letters, but actually set fire and destroyed some of her personal effects in her little shop in order to satisfy her morbid craving for the sympathy and attention of the community in which she lived.

Some years ago Portsmouth was treated to a rather more striking example of caprice when a young woman of good family carried out for a year or two a most extraordinary system of deception. She asserted that while traveling she had become acquainted with a young American of enormous wealth. They became attached to each other, corresponded and were engaged. Every week or so she received letters and cablegrams from her imaginary lover, and these she would read to and talk over with her many friends. The wedding day was actually set when a cablegram announced the death of her expected swain. The bride seemed overwhelmed with grief, but her friends became suspicious, and an investigation, quietly carried on, revealed the fact that the letters and messages originated with herself, and no lover had ever existed.—Pittsburg Dispatch.

WHAT THE SIGN SAID.

And How the Meal Served Demonstrated It Told the Truth.

Walter Mansfield, the board of trade attorney, is a most enthusiastic sportsman and an expert with either rod or gun, but he will never permit his enthusiasm to stint his stomach. If at the moment he had his gun on a flying quail a dinner bell should ring, he would drop his gun and go to dinner.

When Mansfield goes out on one of his trips, he always locates a place where he can get a good meal and so times his sport that he will reach it at the dinner hour. Once upon a time he went up on the Big Sulphur creek for a day's fishing, and as he started out at daybreak he saw a little wayside shanty, in front of which stood a horse trough and a sign, "Hot Meals at All Hours." The trough did double service as a drinking place for tired and dusty horses and a lavatory for the guests of the hotel.

"That's just the place," said Walter to himself. "I'll fish up stream and then down again, so that I'll reach here at noon."

He carried out his programme, went to the "hotel," where he rubbed soft soap around his neck and washed it off in the horse trough, and then seated himself at the wooden table. An old Missourian sat smoking in one corner and never budged or paid the slightest attention to Mansfield, who was nibbling at a cracker he found on the table.

"Well, where is my dinner?" inquired the hungry sportsman.

"Thar," and the rancher aimed the stem of his pipe at the table.

"Why, your sign says 'Hot Meals at All Hours.'"

"Thar she is. Crackers an pepper sauce."—San Francisco Post.

Consumption Quarantine.

That consumption was contagious was an old theory, and the Spaniards, centuries ago, were in the habit of destroying the bedding and belongings of consumptives, and in some cases even the house in which they lived, for fear of the spreading of the plague. That it is not very actively contagious is proved sufficiently by the fact that the dwellers in cities are alive at all, for statistics prove that from one-tenth to one-fifth of all the deaths in large cities are due directly or indirectly to the disease, and that consequently a number of sufferers from the disease must be present in every large gathering of people. Except in the later stages the patient is not confined to his bed. He mingles in all social and industrial avocations of life. Not infrequently he is "the life of the party" or the "hardest worker of the office." In the present state of society, at least, such men cannot be condemned to a leper camp nor sent against their wills to a sanitarium, however excellent.—Baltimore Sun.

Lions In Repose.

When at last the lion pulled up, he trotted slowly back to his comrade, and then they both lay down on the bare, open ground, with their massive paws outstretched, their heads held high, and their mouths half open, with their tongues lolling out, for it was a very hot day.

They lay almost exactly in the position of Landseer's lions in Trafalgar Square, and it is quite a mistake to say that that great artist has made an error in representing lions lying with their forepaws straight out like a dog. When on the alert, a lion always lies like this, and only bends his paws inward like a cat when resting thoroughly at his ease.—Selous' Travels and Adventures in Southeast Africa.

Generalites in an ad leave no impression, and the ad that makes no impression might as well not have been written at all.

Even with a super abundance of depredatory bugs the average woman of Honolulu takes a great interest in plants. The taste of many runs to ferns because they are little or no trouble to raise. And there is money in it to persons who wish to raise them for sale. A plant for a quarter will be worth two or three dollars in a year if properly attended to. That's the reason we included Fern Pans of English Pottery among our goods.

They are new here and have never been seen before. If you are raising ferns come and look at our window. We've lots of things in there suited to the flower garden or in the house.

In the celebrated Monmouth Pottery we have Stone Jars holding from a half gallon to ten. Then there are Butter Crocks, Fruit Jars, Bean Pots, Stew Pans and Water Pots.

The factory at Monmouth, Illinois, holds the record for the best glazing on stone of any place in the United States. It is their goods we handle. We have also small and large flower pots, with and without saucers, and absolutely perfect. We carry no second quality. Then we have other and cheaper flower pots of both English and American make.

An inspection may be to your interest.

Cures Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine. Its great cures recorded in truthful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvelous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver and kidney troubles, catarrh and malaria.

Such Cures as This Prove Merit.

"My little nephew was a plump and healthy baby until a year and a half old, then sores broke out behind his ears and spread rapidly over his head, hands and body. A physician said the trouble was scrofula humor in the blood. The child became one complete sore. We had to restrain his hands to keep him from scratching the sores. We were induced to try Hood's Sarsaparilla, and in a short time he had more life. He improved rapidly, his skin became entirely clear of sores and he is now a healthy child." MRS. A MISSIONARY MOTHER

THE DEATH OF MRS. J. M. COOKE RIPE IN YEARS.

A Gospel Pioneer in Hawaii—Long and Earnest Worker—Her Efforts in Behalf of the Natives.

Mrs. Juliette Montague Cooke, known to all of late years as "Mother Cooke, died at 3:30 Tuesday afternoon after an illness of two weeks. She had been in bad health for several years, though death was not expected until a few days ago.

Mrs. Cooke was in the 84th year of her age. She was born at Sunderland, Mass., March 12, 1812, where she lived until after her marriage with Amos Starr Cooke of Danbury, Conn., in 1836. On December 14th following, less than a month after this marriage, the bride and groom set sail for Honolulu. They came under the auspices of the American Board in the "Mary Frazier," sailing around the Horn. There were thirty-two missionaries in the party.

The little vessel, with Mr. and Mrs. Cooke on board, arrived at this port April 10, 1837. In June following they began teaching in a school specially organized for the instruction of the royal children. This work was kept up until 1849. In the meantime the present Cooke homestead, near Kawaiahao church was built, and was occupied in 1850.

"Mother" Cooke in active life was one of the most earnest and thorough of the good, old missionary pioneers. Her whole soul was wrapped up in the education and evangelization of the Hawaiian race. Having the complete confidence and aloha of the rulers of the people her work among them was most effectual and important, and to her may be credited much of the accomplishments of the missionaries of the first half of this century.

In her declining years she was forced to retire from active missionary work, but was nevertheless a pillar of strength to all that tended to the uplifting and enlightenment of the people n whose interest her life was spent.

Mrs. Cooke leaves behind to mourn her loss the following surviving children: Charles M. Cooke, A. Frank Cooke, Mrs. J. B. Atherton and Mrs. A. M. Turner of Honolulu, and Mrs. Alexander of Oakland, Cal. Also twenty-two grand children and five great grand-children.

The funeral will take place from the residence at 4 o'clock this afternoon.

A COAL AFFAIR.

Court Martial to Follow Purchase of Navy Fuel at This Port.

WASHINGTON, July 30.—Secretary Herbert is seriously considering the advisability of ordering a naval court martial to try the officers of the United States ship Charleston, which vessel recently arrived in San Francisco from Honolulu. It is charged against Capt. Coffin, his chief engineer and the paymaster that, instead of coaling the Charleston from the Government coal pile at Honolulu, the vessel's officers purchased fuel from private contractors at $12 per ton, the total cost being $6000. In justification of their conduct the Charleston's officers say that they did not like the Government coal at Honolulu.

The correspondent learned at the Navy Department today that a court martial would probably soon be convened at Mare Island.

Mr. C. G. Strong, principal of the public schools at Anderson, Cal., says: "I have used Chamberlain's Pain Balm and have found it an excellent remedy for lameness and slight wounds."

Lameness usually results from a sprain, or other injury, or from rheumatism, for which Chamberlain's Pain Balm is especially intended and unequalled. It affords almost instant relief and in a short time effects a permanent cure. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

Mr. L. A. Rocher is a farmer residing about three miles out of Colon, N. C. His home is somewhat in the back woods. In an interview with Mr. S. T. Godfrey, a correspondent of the Telegram and Sunday Times, Mr. Rocher on the 17th of June, 1895, said: "I am 61 years of age, and until I was nigh onto fifty years old, I was always well and peart, then for a long while and until last February, I suffered with indigestion and could not eat anything hardly at all. My daughter, who lives in the city, sent me some of Ripans Tabules, told me how to take them, and and they have completely cured me. My wife is now troubled with the same complaint, and has written daughter to send some more of Mr. Ripan's medicine. I want you to tell everybody how I got cured, for it is a blessing to humanity.

Health and Strength RESTORED

BY THE USE OF

Ayer's Sarsaparilla

Mrs. M. A. Cumming, of Yarraville, Victoria, Australia, Says:

"About a year ago, I had a severe attack of Influenza, which left me very weak, without energy, appetite, or interest in life. Obtaining little or no relief from doctors, or from the many remedies recommended to me, I finally tried Ayer's Sarsaparilla, and from that time, began to gain health and strength, I continued the treatment until fully recovered, and now have very great pleasure in telling my friends of the merits of Ayer's Sarsaparilla, and the happy results of its use. I consider it the best blood-purifier known."

WITH THE FIRST REGIMENT

BUSINESS TALKED AT A MEETING OF THE OFFICERS.

Men and Saloons—Drill of B—G Tonight—Friday Engagements—Capt. Good—Campaign in Full Blast.

Company B at the old barracks Tuesday evening. The turnout was rather small. The men were instructed on Armory Square by Lieuts. Jacobsen and Johnson.

Sergt. Ferry held his school for the instruction of non-coms. Tuesday evening. About a dozen of D, G and H men were out. Through the kindness of Sergt. King the school was permitted to use the room of the drum corps. Sergt. Ferry will instruct recruits at the same place this evening.

Company G will have a business meeting and drill at the old barracks at 7:30 this evening.

C, D, G and H will drill on Friday evening.

Capt. John Good left the barracks Tuesday afternoon after a term of three and a half years as commander of Company E. In the evening he was with friends down town. Capt. Good discusses freely the circumstances of his recent trouble. He seems to think the military court rather severe in a part of its judgment. His version of the whole affair is the same as he stated it before the court. The ex-officer has not yet decided what he will do. He may visit the Coast before settling down again.

Capt. E. O. White, Company B, left San Francisco on the 10th for the East. He expects to get back home about the last of September.

A part of Company A will be instructed this evening. Regular drill Saturday night.

The lieutenancy campaign in H is in full blast.

Men of the regiment promise heavy patronage if "Under Two Flags" is repeated.

There was a good attendance for the regular monthly meeting of the officers of the Regiment last evening. The chief discussions were on uniformed and armed men entering saloons and on new range assignment. The shooting quarters go according to letters. No rule was adopted or formulated as to men entering saloons, but many suggestions were offered, and it is believed further scandal will be avoided.

FEED THE NERVES

Upon pure, rich blood and you need not fear nervous prostration. Nerves are weak when they are improperly and insufficiently nourished. Pure blood is their proper food, and pure blood comes by taking Hood's Sarsaparilla, which is thus the greatest and best nerve tonic. It also builds up the whole system.

Ricketts—You must have traveled a long distance.—Tit-Bits.

A Frequent Occurrence.

"Do you meet your bills regularly?"
"Well, I should say. I meet a bill every time the mail carrier calls."

A Rare Plant.

A lot of Detroit girls were talking about the young men of their acquaintance, as girls in Detroit and every other town are wont to do, and one they called George seemed to be in their estimation a degree above his fellows.

"Yes," said a blond with lovely brown eyes, "i do think George is nice."

"I should say so," chimed in a sparkling brunette. "He knows more than most of them and isn't so horribly soft—at least not all the time. Indeed I consider him quite deciduous."

"Deciduous?" chimed the crowd "What do you mean by that?"

"Oh, he isn't evergreen," she said smartly, and the sentiment passed unanimously.—Detroit Free Press.

One night when Mr. Isaac Reese was stopping with me, says M. F. Hatch, a prominent merchant of Quartermaster, Washington, I heard him groaning. On going to his room I found him suffering from cramp colic. He was in such agony that I feared he would die. I hastily gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was soon relieved and the first words he uttered were, "what was that stuff you gave me?" I informed him. A few days ago we wer talking about his attack and he said he was never without that remedy now. I have used it in my family for several years. I know its worth and do not hesitate to recommend t to my friends and cusomers. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

ROYAL ARCANUM.

Grand Regent of the Order In New York. Council Clippings.

Bro. James A. Rierdon, grand regent of the grand council of New York, was born in New York city 42 years ago. He is the first resident of the great metropolis who has ever been honored by the order in the state with the highest office in its gift. Mr. Rierdon was educated in the public schools and is a successful business man. Bro. Rierdon is also a member of the Loyal Additional Benefit association and a past commander of the Knights of St. John and Malta. The coming year will no doubt prove the wisdom of the grand council in selecting Bro. Rierdon as its foremost exponent in the Empire State.

J. A. RIERDON.

The Arcanumites of St. Paul have organized a minstrel troop for the purpose of giving entertainments in nearby towns.

The whole amount which has been paid to widows and orphans and dependents since the organization of the order is $33,700,548.30.

During the years 1894 and 1895 there were 131 deaths in the order by suicide.

The salaries of the supreme officers for the coming year will be $4,100 larger than last year.

The supreme regent was given authority by the supreme council to take such action as he shall deem best under the legislation in the province of Quebec.

The next session of the supreme council will be held at Boston.

Policemen and firemen will hereafter be classed in the table of extra hazardous risks which must be referred to the medical examiner in chief.

The supreme council refused to permit subordinate councils to remit dues of suspended members.

MASONIC.

Inability to Pay Dues Should Be No Bar. Chips From the Temple.

A brother who has waxed old and infirm, or who through misfortune has become poor and destitute ought not to feel obliged to dimit from his lodge on account of inability to pay dues, nor should he be permitted to do so. A remission of his dues and a cordial welcome is by right his due. A lodge so mercenary as to refuse to do so forgets the first principles of Masonry and ought not to have an existence.—Masonic Tidings.

The brethren of Memphis recently had a double funeral—a burial of the remains of two deceased craftsmen on the same day and in the presence of the same people. The graves were but a few feet apart, and the first interment was immediately followed by the second.

The grand lodge of New York will apply to the legislature to be allowed to increase the value of the real estate to be owned under the charter from $3,000,000 to $5,000,000 to provide for future contingencies.

The one hundred and eighth anniversary festival of the Royal Masonic Institution for Girls, held at Freemasons' tavern, London, was productive of about $78,000.

If you practice out of the lodge those virtues which you are taught within its sacred portals, you will add luster to the name of your lodge and you will increase the good reputation and honor of the fraternity.

Up to December, 1895, the number of lodges warranted by the Prince of Wales was 1,076, an average of 51 for each year of his grand mastership.

Each lodge should judge of the physical as well as all other qualifications of its candidates.

Alameda chapter, No. 70, Order of the Eastern Star, has now one of the most beautifully decorated halls on the Pacific coast.

There are 46 chapters of the Order of the Eastern Star in Massachusetts, with a membership of 5,210.

Red Men.

The salary of the great chief of records of Pennsylvania has been increased from $1,200 to $1,500, and he is authorized to employ an assistant.

Notices of the kindling of 166 new council fires since the first of last buck moon have been received by the great incohonee.

The order in St. Joseph and Kansas City reports a steady increase of members.

Deputy Great Incohonee Dewey of Elizabeth City, N. C., promises three new tribes in his vicinity this term.

Obenakis tribe of Bangor has fitted up its new wigwam very handsomely.

The councils of Pocahontas in Pennsylvania have voted against the organization of a great council of Pocahontas.

Modern Woodmen.

The injunction restraining the removal of the head offices from Fulton to Rock Island, Ills., has been dissolved.

Don't let politics interfere with your attendance at meetings of your camp.

Have you proposed one name for membership this year? If you have not, do you deserve to skip an assessment, as usual?

Camp No. 474 of Creston, Ills., dedicated a handsome new Woodman block recently.

The head camp of the Royal Neighbors has by judicious legislation placed that organization on a better basis than ever before.

Daughters of Malta.

This sisterhood of the Knights Hospitalers of St. John of Jerusalem, Palestine, Rhodes and Malta is under the control of the Zenodacia, the governing body of the order on this continent.

The first three past supreme commanders of the Ancient and Illustrious Order of the Knights of Malta are active workers in the organization.

The headquarters of the order is in Philadelphia.

Sons of Benjamin.

The report of the grand secretary shows a gain of over 2,000 for the past two years. Present membership, 14,000.

Nearly $400,000 has been paid in endowments during the past two years.

Hon. Ferdinand Levy is grand master and Adolph Silberstein grand secretary.

ODD FELLOWS.

Won Over by the Children's Songs—Notes of the Rebekah Degree.

The grand lodge I. O. O. F. of Ohio decided at its convention held at Lima to impose a $1 per capita tax on all Ohio Odd Fellows for the erection of a fine administration building at the state home in Springfield. Most of the delegates were instructed to vote against it, but when they visited the home, and the children appeared on the front porch and recited, sang, repeated the Lord's Prayer in unison and in many ways showed the good work of the home, many of the men broke down and cried like children, having realized what could have been the condition of these children but for the home, and that many other orphans of Odd Fellows need the shelter and care of the home.

Thirty-one new Rebekah lodges have been organized and 8 reorganized in Missouri during the past year. Total membership, 8,500.

The grand lodge of California will petition the sovereign grand lodge to establish a visiting degree, enabling Rebekah lodges to exchange fraternal visits with subordinates; also to create a new section or part of a degree of Rebekahs by which they will be recognized by all Odd Fellows.

Oklahoma Rebekahs, though few in numbers, are workers, and a large increase in lodges is expected this year.

Sister Sarah Innis of Ohio, who has been justly styled the "Mother of the Ohio State Assembly," was honored at the recent state assembly by being unanimously voted a jewel with suitable emblems to be prepared and presented to her by the president.

Sister Eunice Melville, editor of The National Rebekah, is one of the most eloquent speakers of the order.

There are 324 Rebekah lodges in Ohio with a membership of 25,643.

The grand lodge of California empowered the Rebekah assembly to acquire the management of the new orphanage and to levy a per capita tax to maintain it.

Odd Fellows' homes are not designed to take the place of lodges in the care of the sick.

In 1869 the regalia to be worn by the brethren and sisters was prescribed.

In 1872 a committee consisting of seven members "on degree of Rebekah" were added to the standing committees of the sovereign grand lodge.

In 1858 the form of card to be issued by a subordinate lodge to a Daughter of Rebekah was prescribed.

UNITED WORKMEN.

End of the Dissension In the Iowa Jurisdiction—Bench Shavings.

The differences between the two branches of the A. O. U. W. in Iowa have at last been amicably settled, and the proceedings to enjoin each other dismissed. Each organization has about 9,000 members. Both branches will probably unite, a happy termination of the trouble which has been a drawback for years in Iowa.

The condition of the order in California is hardly encouraging. The grand master, however, has $6,000 at his disposal to put new life in the jurisdiction.

The following items in the appropriations of the grand lodge of Massachusetts give some idea of how they work in that jurisdiction: Deputies, $4,500; printing and supplies, $6,000; for instruction, $5,000; traveling expenses, $2,500.

Three thousand six hundred and sixty-nine homes were blessed by the benefactions of the A. O. U. W. during the year 1895.

It appears that 1 out of every 48 of the population of Kansas is a member of the order and 1 out of every 12 adult males.

Knights of Pythias.

The Iowa brigade will assemble in Minneapolis the first week in September for the purpose of holding the annual assembly of the Iowa brigade.

C. N. Harried is now grand chancellor of South Dakota and E. Warner grand keeper of records and seal.

Representatives to the grand lodge of California received for mileage 10 cents a mile one way.

The grand lodge of Ohio voted $5,000 toward the entertainment fund for the session of the supreme lodge to be held in Cleveland in August.

There are 127 lodges, with 13,184 members, in Massachusetts, a gain of 8 lodges and 1,283 members for last year. Net assets of lodges, $223,365.75.

Maine made a gain of 10 lodges and 696 members last year. Present membership, 11,055.

Otto Kalb is now grand chancellor of Indiana and Frank Bowers grand keeper of records and seal.

Chosen Friends.

Every year over $1,000,000 is paid out to the widows, orphans, dependents of departed Chosen Friends, mostly of poor people.

The order is experiencing a phenomenal growth all over the country. The new plan is creating quite a demand for its literature, and applications are freely coming in without much effort from the members.

The seventeenth anniversary was appropriately celebrated in nearly every jurisdiction.

Captain Morris is keeping the Chosen Friends banner at the masthead in Illinois.

Bro. Max Bohem, grand counselor of the Pacific jurisdiction, is the right man in the right place.

Sons of Hermann.

There are 33 lodges, with a membership of 1,450, in Missouri.

The jurisdiction of California consists of 1,801 members, with $50,482.30 capital. The ladies' lodge has 135 members and $1,447 capital. Sick benefits amounting to $120,831.55 and $38,000 funeral expenses have been paid since its organization.

The order today extends over the entire United States and has a membership of about 40,000.

The operations of the Sons of Hermann are based on the motto, "Friendship, Love and Fidelity."

Knights and Ladies of Honor.

Only one assessment was called for June, and a balance of $11,972 remains on hand.

So far in 1896 Massachusetts has drawn from the relief fund $3,000 more than has been paid in by members of the jurisdiction.

There were 26 less deaths on the June call than in May. New York had 22, Massachusetts 4 and Texas 3.

A reunion of the members of the order on a grand scale is one of the probabilities of the near future and is being discussed with great interest.

GENTLEMEN:—In reply to your inquiry as to how the Ideal Roof Paint you sold me lasted; I would say that I painted the roof of my house 12 months ago with your Red Ideal Roof Paint, and I find it is as fresh and bright in appearance today as when first applied; looking as well as others lately painted with other paints. I am more than satisfied.

J. G. ROTHWELL.

Have you a leaky gutter? If you have, make it perfectly clean and dry, apply a good coat of No. 3 P. and B. Paint over the leaky spots; then take a piece of stout Manila paper, or a piece of common cotton cloth, paint it well on both sides; lay it over the first coat, giving the whole a final coat, and there will be no more leak there. Or if the whole gutter is bad, make it clean and dry, and apply a paste of P. &B. Paint and Portland Cement.

C. S. SOAP

brings health and the color of health to many a sallow skin. This is done by a very natural process. The skin, if observed with a miscroscope is full of little glands which are constantly exuding waste matter. This dirt remains on the skin until washed off. A skin uncared for gets rough and sallow. The health is effected also for the glands or pores are clogged, retarding the circulation.

You've got to use good soap to get real clean. **Curative-Skin Soap** is the best for it doesn't irritate no matter how much you use it. It is particularly good for the baby's bath and should be used in preference to any other.

RHODES GOES.

Summary Dismissal of the Superintendent of the Nursery.

. H. J. Rhodes, who has been in charge of the Government nursery on King street for about two years, was summarily dismissed at noon today. This was done in a note from Commissioner Marsden with the concurrence or advice of Minister King. There had been complaint for some time that ... Rhodes was not a satisfactory superintendent of this important place. He will be succeeded by David Haughs, who has for a long time been at the forestry on Tantalus.

Minister King was asked about the matter by a Star reporter. He said at once that Rhodes' part in the sight episode and the nature of his evidence before the court martial had nothing to do with his discharge. "He is dropped on account of inattention to his duties," said the Minister. "There has been complaint for some time from Mr. Marsden and from many people who had occasion to visit the nursery. No outside matter was taken into consideration."

Mr. Rhodes is a carpenter by trade. His connection with the Government was told in the story of the trial of Capt. Good. So soon as he had given his testimony a police commission he held was revoked by Marshal Brown.
