## WOMEN KISS A MURDERER

Henry Napuupahee, who is charged with the murder of his father-in-law Moemoe, near Hookena, April 11th, was brought to Honolulu on the steamer Upolu this morning. He came in charge of Policeman Kaimana. He was committed for trial at the next term of the circuit court for the third circuit, by Thomas Wright, district magistrate for South Kona. He is charged with murder in the first degree. He was brought here for detention in Oahu jail until court convenes in July.

It is believed that he is insane. On the steamer he was quiet, almost morose, and seemed to have no appreciation of the enormity of his crime.

At Kailua, where he was taken on board the Upolu, a most remarkable scene was enacted. There were a large number of natives at the landing, more, Captain Henningsen says, than he ever saw there before. The crowd included nearly fifty native women of all ages. Just as he was about to be put in the boat to go to the steamer the women crowded around him, hugging and kissing him. Every individual woman insisted on an opportunity to hug and kiss him. He was handcuffed but gave no indications or any emotions while these strange tokens of a strange sentiment were bestowed on him, accepting them with stolid indifference.

The Hawaiian Star, Honolulu, H. I.

Dear Sirs: You will please discontinue our advertisement of the Sterling bicycle until you receive further instructions. It is simply impossible to supply the demand for them at the rate the factory has been shipping them to us. You may, however, fill up our three-inch space with a notice to the effect that we have twenty-five High Grade Remingtons and Crescent bicycles on hand that we will sell at cost. We are compelled to do this to make room for a carload of '99 Sterlings now in transit. We find it necessary to order them in carload lots in order that we may sell them at $60. We have cancelled all contracts for other makes of wheels and in the future will handle the Sterling exclusively. Yours truly,

## TERRITORIAL STATUS SURE

HAWAII WILL NOT BE MADE A COLONY.

Senator Clark Thinks Fear on That Score Groundless—What a Delegation at Washington Could Do.

"There is no ground for the fear which I have heard expressed since I have been here, that Hawaii wil be made a colony. There are too many friends of the Islands in congress—too many who will hold out and grow to their seats before they will permit such an injustice to the Islands."

Such is Senator C. D. Clark's view of a fear that has found expression here lately. It seems tobe based on the fact that congress took no action and that in the general discussion and provision for "our new possessions" Hawaii may be lumped with Porto Rico and the Philippines.

In regard to this Senator Clark says he does not think it affords any basis for the fear drawn from it.

"Congress took no action," he says, "simply because it had so many other things to do and there was a general feeling that things would go along very well here for the time being, without any action. I, myself, though I was very anxious that action should be taken, am rather glad now that it was not. For I can see that in the haste and press of consideration things might have crept into the legislation that would have been an injury to the Islands which are not likely to creep in with fuller information and more deliberate action.

"The bill to give a territorial form of government to Hawaii, represents, I think, the prevailing sentiment in regard to the Islands. All the annexationists in congress of course favor a territorial government, and a great many who opposed annexation favor it. There are no interests that are opposed to it and none I believe that can be marshaled against it. I have heard it suggested that one reason why no action was taken was that it was thought action in regard to Hawaii would develop the administration's intentions toward Porto Rico and the Philippines. I do not think there is anything in this. Hawaii stands separate and on her own merits and conditions.

"I rather think that the Hawaiian bill will come up for action early in the next session, and that there is no doubt she will be made a territory with the widest possible local control of local matters.

"There is one way in which the people of the Islands could be of great assistance to congress and of course of great assistance to themselves. That is by having a delegation in Washington from whom information on every subject that legislation will touch can be readily obtained. In the superficial observations of my short stay here, I can readily see how things might creep in that the Islands do not want and that their friends do not want, simply for lack of information.

"As to the character of that delegation it ought to be composed of the very men who can't afford to go. In other words it ought to be composed of men of the highest standing, who will go at their own expense and who will get no benefit from going except what they share in common with all the people of the Islands in the way of well informed and liberal legislation. Such men would have more influence than a delegation of men who might be supposed to have come either because of the prominence that would accrue to them from coming or because of a salary attached to the position."

Senator Clark is wonderfully impressed with the Islands, their resources and their conditions. He thinks they have the most promising future of any part of the world, and that the only danger to be feared is that the tide of new comers setting this way may carry them away from a clear grasp of real conditions and resources into an era of speculation and booming both material and political.

## ENGINEERS; ARTILLERYMEN

GARRISON TRANSFER AT POST HONOLULU.

Interesting Guard Mount This Morning—The New Commandant—Military Confraternity.

There was a fine exhibition of military confraternity and soldierly comradeship at Post Honolulu yesterday afternoon when the Sixth artillery arrived, and this morning at guard mount when the new garrison assumed charge.

When the artillerymen marched into camp they were heartily greeted by the volunteer engineers. The engineers gave three rousing cheers for the artillerymen, and the latter responded with three for the engineers, and then both joined in three cheers for the army and the flag.

The engineers gave every help possible to the new garrison in getting straightened out and in preparation of supper. They gave up half their barracks, and though even with that there were not enough barracks to go round, and some of the artillerymen had to sleep on the porches, it was a very pleasing welcome.

At guard mount this morning the post was formerly turned over to the new garrison and the command of Colonel Mills. Guard mount was made a striking military spectacle. The officers of the day ending with guard mount were Lieutenant Brittain, officer of the day; Sergeant Maguire, sergeant of the guard, and Bugler George Cooke, bugler of the guard. The last call to guard mount before the transfer to the new garrison was given by Bugler Cook of the engineers. The engineers were all out to witness the ceremony. After it was over the engineers mingled with the artillerymen, wishing them pleasant duty here and giving all kinds of praise for the people of Honolulu, expressing regret that so many pleasant relations must be broken up by their departure, though they were glad on the whole they were to be mustered out of service.

For the artillerymen it is a pretty busy day. They are establishing themselves in their new quarters and getting accustomed to new surroundings. At the same time there was lots of work in getting their stores and belongings from the wharf out to the camp. Colonel Ruhlin furnished ten wagons for this purpose. Among the first things sent out were the tents, for until the engineers leave tomorrow there is not enough room in the barracks for all. During the day tents have been put up so that every one will have a roof to sleep under tonight.

The Sixth artillery is one of the new artillery regiments organized at the beginning of the war. The different batteries have been on duty at different points on the Atlantic coast, some in New York, some at Fort Monroe, Virginia, and some in Florida.

A good many of the engineers expect to return to Honolulu as soon as they are mustered out of the service, a large number of them having secured positions of one kind and another. There were strong hopes entertained until after the arrival of the Nippon Maru that orders would be received authorizing those who wished it to be discharged here. Rumors that such orders would be received have been current for some time and they have been looked for by every steamer. But they did not come, and so everybody will return to the coast to be mustered out there and those who intend to make this their home will return as citizens.

### STRANGERS' FRIEND SOCIETY.

The Strangers' Friend Society will meet at the Y. M. C. A. hall at 10 a. m. tomorrow, Thursday. Important business is to be laid before the members for consideration and all of them are requested to be present.

### DEAD SOLDIER.

William A. Wray, Battery I, Sixth artillery, who died at sea two days before the Nippon Maru arrived at this port, will be buried from the undertaking parlors of Ed A. Williams tomorrow afternoon. Deceased was a native of Charlotte, N. C., and was only 19 years of age. An older brother belongs to Battery I.

### MRS. CARTER MARRIED.

Mrs. Mary Horton Scott Carter and Dr. Charles Edmond Davis were married at the Church of Zion and St. Timothy, in New York City, on Thursday evening, April 6th. Cards announcing the ceremony were received in this city by the Nippon Maru yesterday.

### KAHUKU RIOTERS.

The Japanese murder cases are still on in the district court. It is expected that a decision on the second charge will be reached this afternoon. There was a commitment in the first case and one other charge to be preferred. It is now certain that it will be next week before the men charged with rioting will be before the court. There are seventeen in this batch.

### COMMENCED GRINDING.

KOLOA, April 18.—The Koloa Sugar Company's mill started to grind yesterday.

### BORN.

GUERRERO—In this city, April 18, 1899, to the wife of M. Guerrero, a son.

### OFFICERS TO RETURN.

Lieutenant Coolidge, adjutant of the Engineers battalion, may return from San Francisco to the Islands to reside permanently. He has made himself very popular while here and will be welcomed back by a host of friends. Another officer who may return is Lieutenant Brittain. He is a prominent attorney of San Francisco, and has been admitted to practice law in the Islands.

If you want a new carriage or your old one repaired call on W. W. Wright.

### GREAT SCARCITY OF RAW SILK

But no scarcity of the manufactured article as far as the Sachs Dry Goods Company is concerned. They are offering some lovely goods, all recent importations. Also a lot of pure silk French taffetas, for 75 cents per yard that cannot be duplicated.

## THE THEATRICAL SEASON

JANET WALDORF'S COMING DEBUT IN HONOLULU.

Sketch of the Talented Young Actress Who Will Open With Viola on Saturday Evening.

Two years ago the name of Janet Waldorf was hardly known in the theatrical world, but two years is a long time when one has talent and is constantly showing the public that the spark of genius is bursting into a flame and it is in just that length of time that she has become a star. Miss Waldorf is of a retiring disposition and when off the stage looks as little like an actress as one can imagine, but when the play is on and her natural way is laid aside and the character she is portraying is in her soul, one would hardly believe that she is the same quiet, good natured, matter of fact, woman of every day life.

A woman who can put her whole life and soul into a Julia, Parthenia, Beatrice, Juliet, Viola, Galatea, Rosalind, Camille or Pauline, and forget her own nature, must certainly have talent and will reach the pinnacle of fame that is sought by many and gained by few.

The introductory performance of the Waldorf Company on Saturday night will show Miss Waldorf as one of the twins in Shakespeare's classical comedies "Twelfth Night." William McVay a legitimate actor who has won fame with such stars as Mary Anderson, Margaret Mather and Julia Marlowe, will play the character of Sir Toby Belch, while Norval McGregor will portray Malvolio. The other members of the company are all professionals of experience and the old comedy will be given in a manner, as to acting and costuming, perfectly satisfactory to all lovers of the bard's works.

Next Tuesday evening Shakespeare's pastoral drama, "As You Like It," with Janet Waldorf as the Fair Rosalind, will be the play.

Single reserved seats will be on sale tomorrow for all performances.

### COMPLIMENTARY CONCERT.

The band will play at Makee Island this evening complimentary to the United States engineers, who leave by the Australia at noon tomorrow for the mainland to be mustered out. Following is the program:

### TRANSPORT BRUTUS.

Has Started for Samoa Under Sealed Orders.

SAN FRANCISCO, April 11.—Uncle Sam wants coal at Samoa and wants it in a hurry, too. In consequence the United States collier Brutus sailed at 10 a. m. yesterday with 4,500 tons on board, and the supposition is that she will go direct to Apia. This is change from the regular original plans. When the collier came down from Mare Island and began taking on her cargo it was given out that she was going to Guam with a supply of coal for the warships there. The arrival of the Mariposa from Samoa last Friday, with news from Admiral Kautz of the Philadelphia, changed all these plans, however. The work of loading the Brutus was rushed to a conclusion and yesterday she sailed under sealed orders.

Captain Cottman, U. S. N., is in command of the Brutus, and with him are Lieutenants Tarbox, McCully and Safford and Dr. Stone. The supposition is that the collier will go from here to Apia, Samoa, and there coal the Philadelphia. From there she will go to Honolulu, take on another cargo of coal and proceed to Guam as originally intended. The Brutus is a good nine knot ship and should make the run to Samoa in fourteen days.

### GOING OF ENGINEERS.

There will be a record breaking crowd at the Australia wharf tomorrow to see the Engineers off. The steamer will sail at 12 o'clock noon. At 9 in the morning the engineers will leave the camp at Waikiki and begin the march into town. At the Waikiki turn the column will be met by the Hawaiian band and escorted from there to the city. The band will play on the wharf until the Australia pulls out.

### HAWAIIAN RELIEF.

An important business meeting of the Hawaiian Relief Society will be held at the residence of Mrs. S. C. Allen, Alakea street, at 10 o'clock Friday morning. All members are urged to be present.

### MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergerson, agent, Bethel street.

Only one BEST bicycle. The 99 Cleveland. Come and see.

AMERICAN MESSENGER SERVICE Masonic Temple. Telephone 444.

### ANOTHER GREAT SALE.

L. B. Kerr must have room for new goods to arrive, and will commence tomorrow morning another great sale of dry goods. Prices will be cut to a point beyond any former sales.

## HAWAII IS GAINING WEALTH

ADDITIONAL PROFIT ON SUGAR OF $3,115,000.

Quite a Sack to Fall to the Islands as the Result of Advance in Price of Raws in the East.

The advance in the price of raw sugar on the mainland means a great deal to the Islands. When stock advances $5 a day a holder says, "I am worth $5 a share more than I was yesterday," and if he has 100 shares of the boom stock he is worth $5,000 more than he was yesterday, and so on.

Thus, while Hawaii has been putting vast sums of idle capital into new plantations and the taxable wealth of the country has increased enormously in the past few months, the hand of fortune has been liberal in other ways.

It is easy to see how the Islands will clear a large sum of money over last year on the same output of sugar. Or, coming straight to the past, present and future figures, the result would be something like this, calculating upon an output of 250,000 tons.

Had the crop been sold in January, or even February or March, when the figures were 4 3-8 cents a pound, the receipts would have been $21,870,000. On the basis of figures by the last mail which are spot 4 9-16, the output would bring $22,807,500. This represents an additional profit in a few days—like finding it, as the old proverbs might have said—of $937,500.

Now, as to the future. Letters state that the figures are apt to reach within a month 5 cents flat. On that basis the Hawaiian output would bring the handsome sum of $25,000,000—a little more than Ed Pollitz's big check. The second additional profit, over a sale on the present basis, would therefore be $2,187,500, or a total increase of profit since the advance began of $3,115,000.

The word "profit" is here used synonymously with the word advance. But if there was a profit when the figures were 4 3-8 cents, it would appear that the $3,115,000 was a sort of "pick up."

All in all the prospects of very healthy dividends were never better than for the campaign of 1899.

### CAPTAIN GEORGE ANKERS.

All Hope for the Missing Skipper Now Given Up.

Captain George Ankers of the schooner Oceania Vance, is still missing and his relatives and friends at San Francisco have given him up for dead. The supposition is that in passing down the long wharf to Oakland he fell between the stringers and was drowned. The long wharf is not boarded and in order to pass railroad cars one has to do some work similar to walking railroad ties. At night the difficulty can well be imagined.

Private information from relatives of the captain, received here per the Nippon Maru, is to the same effect. Ankers carried considerable life insurance. A move to collect it has already been made, but the effort is being attended by the difficulties so usual in disappearance cases.

Captain Murchison of the Uncle John has been appointed to command the Oceania Vance in place of the missing man. The latter vessel sailed on the 6th for the Sound.

### THE WEATHER.

Bureau, Punahou, 1:30 p. m.

Wind moderate, northeast, weather fair, very light showers tonight.

Morning minimum thermometer 70, midday maximum do 79; barometer, 30.06, steady; rainfall, none; humidity, 59 per cent; dew point, 61.

CURTIS J. LYONS, Observer.

### ABOUT THE BRUTUS.

San Francisco paers do not known, apparently, about the destination of the collier Brutus, which sailed from the Golden Gate on April 11th. In their shipping columns the papers give the destination of the mosquito fleet's flagship as Guam, but publish dispatches from Washington stating that the vessel will go to Apia, Samoa. If Guam is correct the Brutus should arrive here tomorrow or Friday. If Samoa is her destination the collier will not necessarily call her at all.

### THE NEW GARRISON.

Uniform the Same as the Local Regiment of Volunteers.

Since their arrival yesterday the men of the Sixth artillery have been busy getting themselves in shape at Post Honolulu. Thus far few have been in town, but tonight considerable liberty will be gven. A squad of twenty-five men were detailed this morning to the old barracks for saluting purposes.

The uniform of the garrison is the same as that of the First regiment, N. G. H., except that they have not white trousers and still have a few campaign hats. It is stated that white trousers will be adopted for ordinary service here, which will bring the battalion directly in line with the local volunteer troops.

### DREDGER MACHINERY.

Tenders were opened at the Interior office at noon for a new centripetal pump and engine for the dredger. There was only one bid, this from Henshall, Buckley & Co., of San Francisco. Several plans were submitted, and it will take several days for Mr. Rowell to decide about the contract.

### SUFFERED FOR FOURTEEN YEARS.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering. I had tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did, and was immediately relieved and in a short time cured. I am happy to say that it has not since returned.—Josh. Edgar, Germantown, Cal. For sale by all dealers and druggists. Benson, Smith & Co. general agents, Hawaiian Islands.

Received, ex Mohican, handsome line of carriages and phaetons. W. W. Wright.

## ORPHEUM LICENSE MATTER

DESKY WOULD MANDAMUS THE MINISTER OF INTERIOR.

Claims That the Tax is Exorbitant and Asks for Relief—Minister Says O. K., but Points to the Law.

The Orpheum license matter has found its way into the circuit court. First, Marshal Brown summoned Mr. Desky to answer to the charge of running a theater without a license. Prior to that the manager of the Orpheum had had something to say to Minister King about charging $5 a night for every night in the year. T. McCants Stewart, attorney for Mr. Desky, ran up against Marshal Brown and was put out of that official's office.

This morning Mr. Desky filed in the circuit court a petition for a writ of mandamus to compel the minister of interior to give him a license for the Orpheum from the 20th of April to December 31st. It is shown therein that the Orpheum is open every night and every Saturday afternoon and that the license fee of $5 for each performance is out of reason and unconstitutional.

Late this afternoon Minister King will file a reply. It will admit to be true all that the complaint alleges, but at the end will point to the statutes, leaving the rest to the courts to decide. The law provides a license which shall cost $5 for each performance. It is almost certain that the legislature did not have in mind continuous shows when the law was made.

Mr. Desky tells the court that by following the letter of the law he will pay in the year nearly $2,000 for his license, which will be more than is assessed upon any other business of a like income. It is nearly twice as much as is required of a saloon, and is as much as is collected from a mercantile establishment doing a million dollar business.

In the matter of James J. Byrne vs. F. J. Voeller, suit for salary in the sum of $1,120, defendant has filed an answer denying the claim and giving of reliance upon payment and release.

The matter of the Kaneohe Ranch Company vs. Charlotte King, et. al., right of way, was argued before Judge Stanley at chambers today. The court took the matter under advisement. Andrews for petitioner; Gear for Victoria Ellis, one of the respondents.

### COUPLE OF NEW MEN.

J. L. Logan of the postoffice department, and Fred B. Damon of the Bank of Hawaii, will become of age on Friday. These young men were born 6,000 miles apart, in later years went to school together and still later worked together in their first public service business venture in the money order department of the postoffice.

### TEACHERS' SALARIES.

The department of education is preparing and will send out notices to all the teachers of the Islands that the teachers' schedule of wages has been suspended and must remain so until the next meeting of the legislature.

The notice quotes the action of the commissioners on the subject as follows:

"No salaries shall be raised from now on until the next appropriation by the legislature for any cause whatever, nor shall the board consider any applications for increase of any salary, whether in or out of the schedule, nor shall any salaries be raised by virtue of this schedule, which is hereby suspended until the next legislative appropriation, or otherwise."

### ARRIVED.

Wednesday, April 19.

Am. schr. Iroquois, C. Thomson, from New York December 7, to T. H. Davies & Co.; 2,805 tons of general merchandise.

### SALVAGE STOPPED.

Coal salvage from the Edward O'Brien has stopped. The owner of the reef has posted notice forbidding trespass and today there is no coal being gathered.

### COMPLETE CHANGE.

There will be an entire change of program at the Orpheum tonight.

Tonight James Post will present for the first time his laughable comedy called "A Secret." M. W. Howard will do a new eccentric musical act, Miss Violet Dale by special request will repeat her artistic dance and cake walk. Matt Keefe, the boy tenor, will sing some new and popular songs. Miss Myrtle Graham, the clever singer of coon and Italian songs will sing something new. U. J. Ordway has been retained and will introduce some new music. Du Bell, the aerial wonder, will introduce some new and startling features.

### AN OPPORTUNITY.

Easter has passed for 1899 and the balance of our hats, trimmed and untrimmed, will be closed out regardless of price. This opportunity only comes once a year. L. B. Kerr, Queen street.

### ALWAYS THE BEST.

On every steamer Camarinos receives fresh goods from the Coast. His facilities at the Coast for securing the best on the market cannot be excelled. As for Hawaiian fruits and vegetables, he is fortunate in having a plantation of his own. When you cannot get what you wish in fruits and vegetables at Camarinos', King street, it is safe to conclude that it cannot be found in the city.

THE IOWA.

SAN FRANCISCO, April 9.—The repairs to the battleship Iowa are nearly completed and the warship will now come back to her old anchorage off Folsom street wharf. From here she will go to Port Orchard to go on the dry dock, after which she will proceed to Manila to join Admiral Dewey's fleet.

J. C. PFLUGER.

SAN FRANCISCO, April 6—The German bark J. C. Pfluger got away for Liverpool yesterday. Captain Hoever had been down with the grip and on that account the vessel was detained in the stream since last Thursday. He was almost well again yesterday.

COLLIER NERO READY.

VALLEJO, April 8.—The collier Nero will be placed in commission the first of next week. The Nero has been thoroughly overhauled at Mare Island and is fitted out for special survey work between Honolulu and Manila. Paymaster Clerk J. J. Cunningham has been assigned to duty on the Independence upon the recommendation of Paymaster L. C. Kerr.

GIBRALTAR'S GUNS.

It is a current belief in England according to the Daily Mail, that Gibraltar has always commanded the straits which bear its name. That belief, however, was until recently incorrect. The straits are twelve and a half miles wide, and the best guns mounted at Gibraltar would not reach across. But now two of the newest 9.2 inch wire guns, 36 feet long, and firing a shell of 380 pounds, are being mounted at Europa Point. These guns have a total range of fifteen miles, and will put their shot at close quarters, through 3 feet of iron, so that they are most formidable weapons. They can be loaded and handled by two or three men, and are so well mounted that they can fire a shot a minute. Though only weighing 27 tons, they are vastly superior to the old 38 ton and 100 ton muzzle loading guns at Gibraltar. A great deal of work is being quietly done upon the defences of Gibraltar, which now may be pronounced impregnable.

FULLY APPRECIATED.

"I fully appreciate the curative powers of Hood's Sarsaparilla. Previous to taking it my blood was in a bad condition, but since I have taken three bottles of this medicine I am feeling better than ever before in my life. My complexion is now clear." Loren Goodwin, San Luis Obispo, California.

## THE SAD SIDE OF WARFARE

BODIES OF THE FALLEN ARE BROUGHT HOME.

Return of Wounded and Sick Officers and Soldiers—The Happy Bride Returns a Mourning Widow.

SAN FRANCISCO, April 12.—The United States transport Morgan City arrived in port yesterday from Manila, bringing from there one discharged officer, eight discharged soldiers and the bodies of three officers killed in action.

SAN FRANCISCO, April 7.—Four officers and 136 fighting men, invalided in the Philippines, arrived here yesterday noon in the big transport steamer Arizona, twenty-eight days from Manila. They represent practically every volunteer command and all but the latest regular regiments in Otis' army. About twenty are convalescing from wounds received in battle, the rest from disease incident to soldier life in the tropics. But three are serious cases, and they are consumptives. The others improved during the sea voyage, which was remarkable in that not a death occurred on the trip and because of a typhoon that compelled the vessel to lay to for two days east of Japan.

SAN FRANCISCO, April 8.—The U. S. transport Scindia arrived in port yesterday afternoon, 27 days from Manila.

She brings with her sixty-seven regulars and volunteers, all of whom are invalided, and the bodies of four officers, who died in Manila. The passage was uneventful and no new cases of sickness developed on the trip. Captain Hart, commander of the steamer, points with pride to the appearance of his ship. She is as spic and span as a new pin, and advantage has been taken of the long voyage to give her a coat of white paint from one end to the other. She called in at Nagasaki on the trip up and took on coal there for two days. All the passengers are loud in their praises of the skipper and his officers for the way they were treated on the voyage home.

The two sons of Captain D. S. Elliott of Company G of the Twentieth Kansas regiment, who was killed in action at Caloocan by sharpshooters, accompanied the body of their father home. The body of Major McConville of the First Idaho regiment, who was also killed in action at Caloocan, is escorted by his son, a private of Company B. The bodies of Colonel William C. Smith of the First Tennessee regiment, who died of apoplexy on the firing line before Manila, and Lieutenant E. S. French of the First North Dakota regment, who was killed in action at Caloocan, were also on the Scandia and will be sent east immediately by the military authorities.

Notable among the few who came on the Arizona as cabin passengers were Mrs. Leland, widow of the late Chaplain Leland of the Tennessee regiment, who died in Iloilo of smallpox, and Mrs. Barr, wife of Major Barr, chief surgeon of the Tennessee regiment, who came partly to keep Mrs. Leland company. At the pier Mrs. Leland was met by her uncle and aunt, Mr. and Mrs. Russell J. Wilson of this city, and by Mr. Dutton, her father, a well known insurance man. It was a sad and tearful welcome home to the young widow, who but a few months ago left here a happy bride.

WEDNESDAY, APRIL 19, 1899.

The prospects of the sugar market are more brilliant than they have been for years. The last quotation was 4 9-16, and according to a forecast by a gentleman who was well posted there need be no surprise if 5 cents are reached before the end of the month. Cuba is in such condition that she is out of the sugar market for some while to come. Her recovery will not be so rapid as was at first anticipated. The war has also had a considerable effect upon Philippine sugar. Those tropical countries which are ready with their crop as we are will reap the harvest which falls to them. Sugar crops on these Islands are in fine condition and the market prospects are splendid.

The Philippine war, like Pope's Alexandrine, "drags its slow length along." It is a wearying war, with little or no chance of any general engagement, but a steady wearying and wearing drain upon both officers and men. It is developing the magnificent fighting and staying qualities of American troops. This was the kind of work which the Spaniards were utterly unable to undertake, and which lost for them their prestige with the Filipinos. The Spaniard practically gave up, the American never will. To use an old expression, he will fight it out on this line if it takes all summer. He is bound to reach his objective no matter what he has to go through in order to gain it. It is the Anglo-Saxon grit that will never give in, for to yield would be national disgrace. If only Aguinaldo could be laid hands on, much future difficulty would be avoided.

The next senate will in all probability have eighty-seven members. California, Delaware and Utah have failed to elect. Pennsylvania will probably elect and Florida will certainly elect. Upon the basis of eighty-seven the new senate will have fifty-two Republicans, twenty-six Democrats, four Populists, four Silver Republicans and one Independent. As some of the Democrats and others vote in favor of the administration upon several questions, notably upon questions dealing with foreign affairs, there will in everything be a clear majority in support of the measures proposed by McKinley and his cabinet. The gold standard will have a majority and so will the tariff question. The prospects therefore in the senate are extremely bright. A two-thirds majority will require fifty-eight votes, but there will not be much legislation that will require this, most of it, if not all, will be carried by a mere working majority, which will be always in hand.

### ILL NEWS.

A thrill of horror will go through the civilized world at the barbarious mutilations practiced by the Samoans. Their pleasant little amenities of head cutting are a national custom, and this is by no means the first time that either Europeans or Americans have seen them practiced. Ten years ago like barbarities were enacted under the orders of Mataafa upon the Germans who were caught in a somewhat similar ambush to that in which the Americans and British were trapped on the first of this month.

The Samoans have remained savage in spite of the veneer of civilization whole population is supposed to have quired, and in spite of the fact that the whole population is supposed to have embraced Christianity. The brutality which was in January shown towards the followers of Malietoa Tanus never fully reached the outside world, though it was well known through letters here, and was published in the local papers. The houses of the beaten faction were looted and rings and earrings were snatched from the persons of Samoan women, the fingers in some cases being chopped off and the ears torn by the spoilers.

If you scratch the Russian it is said you find the Tartar; if you scratch the Samoan you find the savage. In dealing with such races it is only the strong hand that should be used. The pandering to their vanity and acknowledging their barbaric princes and the pretenses of civilization only results in sham, which ever and again, as now, has broken out in bloody earnest.

It is to be hoped that Admiral Kautz will have force enough to teach Mataafa's warriors a thorough lesson. In fighting with semi-barbarians like these, clemency is criminal weakness. The admiral has ample time to act before the commission reaches Samoa, and it is to be greatly desired that he will make the best use of his time.

For the gallant fellows who fell there must be sincere sympathy. Two of them were known to a large number of people here. Lieutenant Lansdale was married last June, and practically spent a part of his honeymoon here, and both he and his wife were ex-

tremely popular. There is a poem of Kipling's commencing "There's a widow in sleepy Chester," which it is to be hoped will inspire the comrades of the slaughtered officers.

### A LITERARY PLEASURE.

A Shakesperian season is an event for Honolulu. During a thirty years acquaintance with things theatrical in this city one recalls but one Shakesperian performance, and that not a whole play, but portions of it rendered by Leathes and an actress whose name is forgotten. Romeo and Juliet was the play. Earlier than that Walter Montgomery gave readings which were wonderful, and comparatively recently Richardson gave entertainments in which he repeated entire plays. But Shakesperian plays properly staged have never appeared upon the Honolulu boards.

The theater in most communities now is regarded in a serious light. Well managed it is not only a place of amusement, it is also a place of instruction. We regard the Shakesperian drama as standing at the head of our literature and our poetry. No man or woman can be considered cultivated without a thorough knowledge of it. If it is fascinating to read these gems of thought in the study, how much more fascinating to see it displayed upon the stage with the accompaniments of scenery and dress, and with the best and most carefully studied rendering by voice and gesture.

It is quite just then to regard a season of Shakesperian drama as an event. it appeals to the literary student, it appeals to the theater lover, it appeals to the young and to the old. The impression made by the good rendering of Shakespeare's plays is never effaced from the mind. What a roll of great names are associated with Shakespeare's works—Garrick, Siddons, Macready, Edmund Kean, Charles Kean, Ellen Tree, Lester Wallack, McCulloch, Barry Sullivan, Amy Sedgwick, Sir Henry Irving, Booth, Ellen Terry. The list is endless. To play Shakespeare well is the highest ambition of the actor or actress. To see it well played is the greatest privilege of the lover of literature. The best support should be given by all who love culture to those who travel a couple of thousand miles in order to bring a rendition to our doors.

### GOOD ADVICE.

The remarks of Senator Clark should be weighed by those of our citizens whose interests are large here. The view he takes of us is that which animates the citizens of any state or territory in the union. The men of influence and of wealth not only use the regular legislative methods, but they themselves go personally to Washington to be on hand to give information about their own locality.

A Californian or a New Yorker or a Wyoming man is a citizen of the United States, but he is also a citizen of his own particular state, and he is proud of the record of his state and the principal men of the state feel that they have a responsibility in looking after the fortunes of their state or territory. This is one of the first lessons in self reliance and responsibility that we must learn. We have to do things for ourselves, we will never get what we desire if we delegate our highest work to the hands of paid officials, we want to be represented by our very best, whose sole reward will be in the prosperity and advancement of the territory which is their home.

Senator Clark knows of what he is talking. He has actual experience of territorial government. He has said, in conversation, that everything in our territorial government depends upon our starting right, and we shall be started right if congress is properly informed of what we want. We must take this lesson to heart. Whatever we want done, must be clearly set forth now." It will be no use crying when the milk is spilled and the pitcher broken. Our tendency is to try and set things right after the event. We were able to do this with the plastic forms of government we formerly had. Now we have to deal wth no plastic form that we can shape to suit ourselves afterwards. What we get will remain fixed for a long time. Senator Clark's advice should be carefully considered and digested.

### POLICE DRILL.

The police, under Captain Parker had a long march and drill early this morning. The drill took place on Union square. Captains Thornton and Kanae assisted. Only the foot police were out. They were in mountain uniform, and made a good appearance.

## FRANCES STUART PARKER

WIFE OF COLONEL PARKER DIES AT CHICAGO.

Was in Honolulu With Her Husband Last Summer and Delivered Several Lectures—Her History.

The wife of Colonel F. W. Parker, of the Cooke County Normal school, is dead. She died at Chicago on April 1. Teachers throughout the entire group and many outside of the profession, who heard Mrs. Parker's lectures in Progress hall last summer, will sincerely regret the news of her demise. The sad news arrived by the steamer Nippon Maru yesterday. Of Mrs. Parker and her work the Chicago Inter Ocean of April 3rd says:

Frances Stuart Parker, wife of Colonel F. W. Parker, superintendent of the Cook County Normal school, died at her home yesterday morning, after an illness of more than a year. Mrs. Parker was born fifty years ago in the city of Boston, and made a distinguished name in that city in the work of education before she was married to Colonel Parker in 1882. At that time she was teacher of elocution and delsarte in the Boston University School of Oratory and Boston School of Oratory. As an exponent of Delsarte she was recognized as perhaps the best in America, and she made noteworthy contributions to the literature of the subject. Colonel Parker was, at the time of his marriage to Francis Stuart, supervisor of public schools in Boston, and he and his wife worked together in the Martha's Vineyard summer schools. Since coming west Mrs. Parker took the keenest interest in all the educational work in which her husband is engaged, and together they lectured from the same platform in as many as thirty states. A favorite subject with Mrs. Parker was that of dress reform, in which she was associated with Miss J. Miller. She was the authoress of a brochure on dress reform, entitled, "Dress and How to Improve It." Mrs. Parker was a very successful lecturer, largely owing to the charm of a fine, thoroughly trained voice. She was a member of the Chicago Woman's club and the first chairman of its educational committee. She was president of the Political Equality League of Women and the first president of the Englewood Woman's club. She was likewise a member of the Chicago Fortnightly club. Mrs. Parker's two daughters are Mrs. T. L. Sheperd of Brooklyn and Mrs. George Rolfe of Cambridge.

SENATOR TABOR DEAD.

DENVER, April 10.—Horace A. W. Tabor, postmaster of this city, and ex-United States senator, died at 9:30 a. m. today, of appendicitis, after an illness of three days. He leaves a widow (his second wife) and one son and two daughters.

WIDOW BURNING.

When the English put down widow burning (Sati) in India seventy years ago, says the London Times, it was predicted (by European officials as well as by natives) that social disturbances would result from so rash an interference with an honored and immemorial custom. But John Company did his duty to humanity and nothing worse happened than mutterings of discontent. Had the English kept possession of Java, the pearl of the eastern archepelago, widow sacrifice would have been made an end of there long ago. It is a disgrace to the Dutch government that this sacrifice, either in the Hindu form of burning or in the more horrible form of disembowling, is permitted to last in the Island of Lomank, administratively a part of Java. The sacrifice described by the European eye witness was performed by the kris, the native dagger. It seems the widows generally choose this mode of sacrifice in preference to burning. It is also said that the sacrifice is always voluntary. The same thing used to be said, and wrongly said, in India.

REFUSED $5,000.

The German emperor, like Admiral Dewey, according to the Berliner Zeitung, has refused a check for $5,000 by an enterprising American journal for an article.

## Facts About Health

### It is Easy to Keep Well if We Know How

### Some of the Conditions Necessary to Perfect Health.

The importance of maintaining good health is easily understood, and it is really a simple matter if we take a correct view of the conditions required. In perfect health the stomach promptly digests food and thus prepares nourishment. The blood is employed to carry this nourishment to the organs, nerves, muscles and tissues which need it. The first great essential for good health, therefore, is pure, rich blood. Now it is certainly a fact that no medicine has such

### A Record of Cures

as Hood's Sarsaparilla. It is literally true that there are hundreds of people alive and well today who would have been in their graves had they not taken Hood's Sarsaparilla. It is depended upon as a family medicine and general regulator of the system by tens of thousands of people. This is because Hood's Sarsaparilla makes the blood pure. This is the secret of its great success. Keep your system in good health by keeping your blood pure with Hood's Sarsaparilla, which absolutely cures when other medicines fail.

"I had pimples on my face and a large boil on one hand. I began taking Hood's Sarsaparilla and after using three bottles I was cured." J. W. JOHNSON, 3 South Broderick St., San Francisco, Cal.

This brew is from the "Capital Brewing Co." of Olympia, the capital of the State of Washington, and was received by the "Garonne." Mr. Schmidt, the leading spirit of this corporation, is a practical Chemist and Brewer, and after years of search and investigation located his plant at Olympia, on account of the peculiar virtues of the water of the Tum Falls, a stream that is noted for its distinctive qualities of clearness, coldness and lack of mineral and decaying vegetable impurities. Pure beer can only be made with pure water, and Tum water is traditional in Washington with the Indians and original white settlers. The "Olympia Draught" is under the special control and agency of Mr. Dee and he invites his patrons and friends to a personal test and is willing to abide by their judgment on the merits of his latest venture.

## GETS NO MEDAL OF HONOR

ROOSEVELT WAS BRAVE BUT ONLY DID HIS DUTY.

Only Twenty-five Medals of Honor Will be Awarded for Especial Gallantry in the Cuban War.

NEW YORK, April 11.—The Washington correspondent of the Herald telegraphs: Theodore Roosevelt will not receive a medal of honor in recognition of gallantry displayed by him in leading his regiment up San Juan hill. This is the decision of the board which has been considering the cases of officers and men entitled to medals, brevets, certificates of merit and honorable mention for their conduct during the war with Spain.

The board has decided Colonel Roosevelt, while behaving bravely, only performed his duty in leading his men, as reward for which he received two brevets, and that he did not perform any action which would entitle him to a medal of honor.

I was told today the board would recommend that less than twenty-five officers and men receive medals of honor. They performed meritorious acts of gallantry not contemplated in their orders and which exposed them to very grave personal danger.

It is understood the board will submit its report within a few days and will then be dissolved. A new board probably will soon be appointed, consisting of Brigadier General Schwan and Major Carter, members of the present board, to report upon the cases of officers recommended for reward for gallantry displayed in fighting against Filipino insurgents.

### THE POPE'S HEALTH.

ROME, April 11.—The pope today received the members of the Sacred College, who congratulated the pontiff on his restoration to health.

### ADMIRAL KAUTZ.

Gives a Sharp Reply to Consul Rose of Germany.

AUCKLAND, N. Z., April 12, 9 a. m. —The friendly Samoans also attacked the enemy during the latter's retreat and several rebels were killed and wounded. The friendlies carried one head through Apia, which made Captain Sturdee so furious that he went to the king and threatened to shoot any man found taking heads. The king then issued a proclamation forbidding the practice.

The German consul wrote to Admiral Kautz asking if two great Christian nations approved of this inhuman and barbarous practice against the laws of Christianity, and the decree of the supreme court.

The admiral replied agreeing with the consul as to the inhumanity of the practice and pointed out that had the German consul upheld the decree of the supreme court of January, there would have been no bloodshed; that the custom was an old Samoan one, but first made known to the world ten years ago, when the heads of honest German sailors were cut off by the barbarous chief, Mataafa, whom the representative of the great Christian nation, Germany, now supports.

Expeditions in armed cutters belonging to the Tauranga and Porpoise are doing considerable execution against Mataafa's strongholds along the coast. The British forces are being assisted by 100 Samoans. About forty-six of Mataafa's boats and several villages have been destroyed. In the meantime flying columns are being sent every day along the roads and through the brush near Apia.

### ENGINEERS' FAREWELL.

Odd Fellows Received Their Brothers in Blue.

There was a real jolly time in the reception room of Excelsior Lodge, I. O. O. F., last evening. Applause was frequent. The event was a farewell to the Odd Fellows of the Engineers corps at Camp McKinley. Short talks, music and refreshments were a leading feature.

Among the speakers were W. C. Parke, D. D. G. S.; J. D. McVeigh, V. G.; Dr. C. T. Rodgers, P. G.; George L. Dall, P. G. Music was supplied by the Wall, Nichols Co. mandolin and guitar club and a number of vocalists. The speeches all had reference to the departure of the Engineers, which was a subject of general regret. Several engineers replied gracefully to the remarks of their town brothers.

### RESEARCH CLUB.

The Research club will meet at 7:30 tomorrow evening at the residence of Rev. William M. Kincaid, in Nuuanu valley. George P. Castle will introduce the subject of the evening, which is cremation. There will be other speakers.

### USES OF BUTTER.

Butter, which is almost indispensible to the meal nowadays, was formely used solely as an ointment. Herodotus, the Greek historian, is the first writer when mentions butter, 500 years before Christ. The Spartans treated it very much the same as we do cold cream or vaseline, and Plutarch tells how a hostess was sickened at the sight of one of her visitors, a Spartan, who was saturated in butter. The Scythians introduced the article to the Greeks, and the Germans showed the Romans how to make it. But the latter did not use it for food. They, like the Spartans, anionted their bodies with it.

CHAMBERLAIN'S COUGH REMEDY

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for it s cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. It is especially prized by mothers for their children, as it never fails to effect a speedy cure, and because they have found that there is not the least danger in giving it, even to babies, as it contains nothing injurious. Sold by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

## TO STAY IN PHILIPPINES

VOLUNTEER TROOPS WILL NOT BE MUSTERED OUT.

How the Services of the Enlisted Men Will be Retained—Practically a Very Handsome Bounty to be Paid.

One of the most important effects of the president's peace proclamation will be the disbandment of the volunteer army organized especially for the war with Spain. In anticipation of this result officials of the war department have for some time past been engaged in the muster out of all troops enlisted for the war, and this work has so far progressed that there are only four volunteer regiments on duty in Cuba. These are the so-called immune regiments. There are no volunteers in Porto Rico and Hawaii.

There are about 18,000 volunteer soldiers in the Philippines. They have rendered most gallant service in the campaigns against the Filipino insurgents and their immediate muster out would seriously interfere with the successful prosecution of military operations now in progress.

It is said at the war department that no such embarrassment is apt to occur in consequence of the president's proclamation, as arrangements will be now made under existing laws for the continuance in service of all these volunteer troops who may elect to remain in the Philippines. The law which called the army into existence will be construed at the war department to mean that the muster out of troops in the Philippines will be upon the orders of the executive, and that in the natural order of things such a result cannot be accomplished within less than two or three months.

In the law for the promotion of the efficiency of the army passed just before the adjournment of congress there was a provision authorizing the president "to enlist in the Philippines officers and men, individually or by organization, now in those islands, and about to be discharged, provided their retention shall not extend beyond six months."

As a special inducement for the re-enlistment of these regular and volunteer troops in the Philippines, the war department has decided in case of such re-enlistment that the men will be allowed full travel pay on their return to the United States, including a trip by sea, as well as by land, to the place of their original enlistment. It is calculated that this travel pay will easily amount to between $500 and $600 in the case of each soldier who re-enlists in the Philippines. Besides this, they will get credit for service already rendered, and will also receive the two months extra pay provided for soldiers who rendered service outside of the United States.

These special inducements, it is hoped, will have the effect of inducing most of the troops to continue in the military service for the next six months at least. In support of the statement that the execution of the law for the disbandment of the volunteers will require several months' time, attention is called to the conditions that existed in the army at the close of the civil war. There was a similar law then directing the disbandment of the volunteer army. The proclamation declaring the war closed was issued in October, 1866, and the regiments still remaining in the service were mustered out from time to time, the last volunteer regiment to be mustered out being held until a year and six months after peace had been proclaimed by the president. Under this construction a number of the volunteer regiments may be retained in the Philippines for some time, although it is known that those who desire to return home will be allowed to do so.

BRITAIN'S ARMADA.

Some striking facts about the navy are attracting attention. The year 1899 will be unique in British records, for not only will the personnel reach 110,640 men, twice as many as ten years ago, but no fewer than fifty warships of different types will enter the navy ready to hoist the pennant for action. These include the five great battleships Albion, Canopus, Glory, Goliah and Ocean, totalling 54,750 tons, and costing £5,000,000; fourteen protected cruisers and thirty-one unprotected ships. Moreover six new armored vessels will be begun, making a total of thirty-two armored ships. Seventeen protected vessels and forty-nine unarmored vessels are completing, advancing or beginning, so that 1899 will see the stupendous number of ninety-eight British warships under construction, representing an outlay of £175,000,000.

### NIULII STOCKHOLDERS.

Some outside complications have arisen on account of the passing of Niulii plantation. One man who had bought of another man a receipt for 25 shares at $21 claims that man No. 2 did not deliver the goods and should therefore return $25. No. 2 says that No. 1 bought a chance and got the result of the chance. There may be a suit. Several other purchases at $21 and $22 were made, and the final owners are trying to recover of somebody.

### INTERVIEWS HERING.

Rudolph Hering and Mr. Edwards met President Dole and Mr. Rowell this morning on the subject of sewerage. Mr. Edwards reported considerable progress in primary work. During the interview Mr. Hering and the cabinet ministers present exchanged ideas as to how the work of putting in the big system might best be prosecuted.

HAS MADE A CHANGE.

C. H. McGURRIN has Adopted a New Typewriter.

The Fact That He Holds the World's Championship Record Makes the Event One of Considerable Interest to Thousands of Operators All Over the Country.

C. H. McGurrin, circuit court stenographer, has adopted the Remington-Sholes typewriter, and now has three of that company's late model machines for use in his official work.

The fact that Mr. McGurrin is the present holder of the world's championship record in typewriting, and adopting a new machine makes the event of unusual interest to the thousands of operators throughout the country. Being interview on the subject, Mr. McGurrin said unhesitatingly, that the Remington-Sholes possesses points of advantage over the Remington Standard, which every expert operator will readily admit, among which are the matter of ease and light running qualities, the securely fastened light carriage, perfect alignment, with steady, noisless operation, so important, especially in dictation work.

KODAKS.

You are told that "there is no Kodak but the Eastman Kodak." We handle only Eastman Kodaks. Their goods are a guarantee of quality. We have them from $5 to $35, and whether you buy the lowest priced instrument or the highest, they will be found just as represented. Kodaks make the best of Holiday Presents, acceptable to either sex.

FILMS.

Eastman Films are good Films. That is the reason we handle them exclusively. You will always find our Films fresh, and fresh Films insure the best work.

Developing and Printing.

Many amateurs enjoy the work of developing and printing. There are others who have not the time or inclination to do the work themselves. We make a specialty of this branch of the Kodak business. Our customers are kind enough to say we turn out better work than they get elsewhere. We take pride in this department of our business. Every Film developed carefully. If our photographer finds you are making mistakes he will correct you. That's a very important advantage. Let us show you what we can do.
