THE EQUAL RIGHTS ISSUE.

The British subjects who are at work in the privacy of the Bulletin's columns to convince the natives that union with America would mean loss of civil rights, are hard pressed for fact and argument. They start with the postulate that Hawaiians would fare, in the event of annexation, as badly as "Alaskans and Californians" did; but when one comes to look into this plea, particularly where it touches the Californians, its utter absurdity appears.

The Alaskan native bears about the same relation to the Hawaiian that a bushman of Australia does to a Spaniard or a Greek. He is a blubbereating savage who cares nothing about civil rights and would not use them if he had any. He has never sought the ed will take practical form; and that, suffrage nor could he, if asked, tell its uses or its value. To say that because such a creature was not made to vote egainst his will, when Alaska was bought by the United States, the civilized and Christian Hawaiian would be put on his political level by union with set in motion. So, no doubt, will the the same country, is to insult the natives of the Sandwich group and to of patriotic and fair-minded people. appeal to the instincts of the demagogue.

denied the suffrage and has always, since his country was annexed, voted freely. Even the Bulletin's special where he wishes to exercise the suffrage, wanted to establish a falsehood, he ance to its government. He should should have built up so complete a refutation of it. The Hawaiian may well prevailing language and who is not a ask himself if there is likelihood that transient resident, coming for a short he would fare worse than the Californian did and he may search the Bulle- where. Neither should he be in any tin's tedious columns in vain to find why such should be the case. If the Calicare of in the same way? What is to prevent?

It has always been the plan of the United States to enfranchise those who come into its body politic with a purpose to become good citizens. All European nations are included in the circle of this beneficent policy. The Mexicans of California, the Creoles of Louisiana, the Africans of the South, the semi-civilized tribes of the Indian Territory exercise the voting privilege, Only the Mormons who break the laws, the Indians who are untamed and murderous, the Esquimaux who are sodden brutes and the Chinese who do not assimilate with the Anglo-Saxon, fail of suffrage. Into one of these classes the annexed Hawaiian would fall. We leave and not by its decision in the matter of it for the Bulletin to class him with removing its foes from the civil list. the inhibited barbarians, law-breakers and heathen. As for the STAR it places him where he belongs, among enlightened peoples to whom the door of American suffrage is hospitably open.

One thing more. The only danger that ever menaced Hawaiian suffrage under the American flag was the demand of the whites in these islands that it should be withheld. This demand no longer exists because its unwisdom is clear from beginning to end. The consent of the whole annexation party will freely go with an Americanized native to the ballot-box; and he will be welcomed there by a power which prides itself in the thought that it is an asylum for the down-trodden and oppressed who come to it in good faith to secure its equal blessings.

TO ABJURE IS TO ABDICATE.

The critical days of January, following Liliuokalani's abjuring her allegiance to the then existing fundamental law, were practically days of anarchy, fraught with great dangers to the community.

The Provisional Government which was declared on Monday, January 17th, was, in no proper sense, revolu-

of her obligations to govern by the royalists without a leg to stand on. Constitution, and her attempt to gov ern by force of her own personal proclamation, could not be ignored because she was afterwards induced to sign a retraction of her revolutionary purpose. There was no doubting that the original plan was still in mind, awaiting the earliest opportunity to carry it out. In the statement recently given by her authority for publication in the United States, she claims that she had a right to do what she attempted, in order to gratify the natives. That statement, of itself, is ample proothat she did not regard herself as bound by Constitutional obligations. She is even made to intimate in that remarkable document that the Chief Justice misled her into taking oath to apport the Constitution of 1887.

It is singular that those who prepared that paper did not see that the only thing which had made the Queen a Constitutional Sovereign was that very Constitution of 1887, and that i was only by her swearing to support i that she was "qualified" to reign.

Her whole story shows that there is nore than one way for a sovereign to

NATIVE POLITICS.

There is a story out that the natives ire now willing to drop the "Queen's cause and unite for annexation with State rights. They see that so far as Mrs. Dominis is concerned, she can never be restored, and that any movement to that end will lead to confusion and defeat. On the other hand is the oledge and promise of American citizenship and good times, a status that it does not take a reasonable Hawaiian ong to make up his mind to prefer. The STAR as a friend of the native and a well-wisher of the islands, sincerely hopes that the movement now proposin place of royalist "leagues" and other forlorn hopes, the Hawaiians will band hemselves into Statehood societies and push for annexation. For one this ournal will support any liberal Statehood movement that the natives may Annexation Club and every other body

Much is urged by the Japanese about a "moral right" to vote in these As to the Californian he was never islands, which will not bear analysis. A moral right to vote inheres to an adult who was either born in the country pleader admits this fact and leaves a or who, after a certain length of resihapless reader to wonder why, if he dence there takes the oath of allegibe a man who can read and write the term and then intending to go elsesense a bonded chattel. If under such just rules as these, the Japanese fornian was especially provided for by can make a proper showing, then by America can not the Hawaiian be taken all means admit them, when the time comes to deal with the equal rights question, to the voting privilege. If not, then, to our mind, the question of Japanese moral right to a ballot may

be dismissed as an idle fancy. "CITIZEN" writes that the government shows conscious weakness, by turning royalists out of office. "Conscious weakness" is good. We suppose that the quadrennial clean sweep of office-holders in the United States-an act always performed when a new party comes into power at Washingtonpoints to the same sort of political debility there. Go too, Citizen, go to! It this government has been weak at all the quality has been shown by its delay

IT is in the line of every day progess to mark the streets and houses with their names and numbers. As Honolulu shows itself to the tourist now it is a maze of unidentified thoroughfares and undesignated dwellings. Under the system which A. R. Dunbar & Co. proposes this draw-back could be removed at very slight expense.

In this dry time cane planters cannot be too careful about fire. The loss of \$36,000 worth of sugar upon ON SATURDAY, APRIL 22d, one of the other islands shows what devastation may be made by a single spark. Once in flames dry cane is as HIS SEA - SIDE RESIDENCE hard to control as so much burning

Ir Sam Parker asked Col. Blount whether the United States would protect the Queen in case the natives hould restore her, he ought to be given the first vacancy in the political in-

Ir the natives will get up a petition sking for annexation with the suffrage, the STAR has no doubt that it would be signed by nine-tenths of the white people of the Islands.

Whether you need footwear for outdoor or indoor purposes, business or pleasure, its all the same; you can possess your sole in peace and comfort, if you buy of us. It's a queer foot we can't fit and a queerer taste we can't suit. There are varieties of both feet and taste, but not the variety we can't match. There's something of everything in our stock, and although you don't wint to buy everything, you want to see everything before

The "Ship of State" having changed ther course, the citizens Also some of those A1 Dent Gloves in 8-button Suede at \$1.75 MITCHELL & COMP'Y, Limited, of Hawaii are now sailing in smooth water, and on a course which is bound to lead to success. When we arrive at the port of Annexation the business of this community will be revolutionized. By this we mean that the methods of conducting business will be different. The business men of this community will be compelled to increase their energies in order to compete with new capital and fresh blood from abroad.

After considering this from all sides we have concluded not to wait until annexation is secured before changing our course. We intend to put the helm "hard-a-starboard" and let the breezes of competition fill our sails.

In order to do this we must begin by granting to all our customers who pay cash a discount of 10 per cent from the present retail prices on all merchandise which affords sufficient profit to enable us to do so. It is easy for the purchaser to comprehend what this will amount to on the purchases during the year. We are sure this will be appreciated by the public

I.SLAND POTATOES, Grown From New Zealand Seed.

Island Potatoes have heretofore given but scant satisfaction to local consumers. This has been partly attributable to the fact that they were in the hands of growers of small means who desired to realize on their crops as quickly as possible, to obtain which potatoes have invariably been harvested in an unripe condition. The undersigned proposes to market none other than produce in full maturity. Our Potatoes are grown from the Best New Zealand Seed, and from lots now coming to market are pronounced to be superior to any imported article. Shipments are received by every week's steamer and will be sold at special rates to the trade.
