AN APPEAL TO ROME

MEMORIAL BY CATHOLIC LAITY

Changes They Think Necessary or Expedient Which may Influence the Selection of the Bishop Coadjutor.

In connection with the recommendation sent by Bishop Gulstan for the appointment of a coadjutor who shall be practically a successor to him, the Catholic laity of Honolulu have sent a memorial to the headquarters of the Order of the Sacred Hearts of Jesus and Mary in Paris, as well as to the college of the Propaganda at Rome on the subject of the selection of the new bishop and asking for provisions for another church here, as it is deemed proper that there should be separate houses of worship for the Portuguese, who wish to hold service in their own language and the English-speaking members of the laity.

The memorial went forward by the Coptic last Thursday. It sets forth the conditions here, there being large numbers of Portuguese who have services in their own language and this interferes with the English-speaking congregation. There is a conflict of hours and it is thought that a separation of the large congregation here into two congregations would be very desirable.

The memorialists also ask for assistance in the establishment of Catholic societies here. Hawaii has not the usual organizations of this character which are found all over the Mainland, and the laity propose to form them. The matter of a successor to the Bishop, who even if he recovers from his present illness does not want to resume his active duties, is referred to in connection with the desire for the organization of societies. The memorial says that a man is wanted as Bishop who will lead in these movements as well as in the church work proper. If the memorial is favorably regarded by the Propaganda it is likely that the successor to Bishop Gulstan will be a much younger man.

THE WICKED ABBOT AND THE VERY WILY YAMEN RUNNERS

The Yuan Taotal of Shanghai learning that the Buddhist Abbot of Lunghua Pagoda and Monastery had turned part of the Monastery into a gambling place, a tea house, and the meeting place of so-called female vegetarian societies, directed the magistrate to issue a summons for the Abbot's arrest. The Yamen runners scenting loot from the gaming tables and presents from the guilty Abbot and monks, anticipated the legal service of summons and raided the Monastery on their own account. They caught the Abbot and a large number of patrons at the gaming table. Among the patrons were a considerable number of women of the wealthier classes of the native city and foreign settlements. It is said the booty from the raid was like a day's looting after the capture of Peking by the Powers—North China News.

TWENTY-SEVEN CASES OF TYPHOID

REPORTED FROM NORTH HILO DURING MONTH OF NOVEMBER—STRONG DRUGS SOLD.

Dr. A. Irwin, government physician for the district of North Hilo, in his report to the Board of Health for the month of November, states that there were 27 cases of typhoid fever in the district during the month, and has a complaint to make regarding the sale of strong drugs by Japanese medicine peddlers. The number of typhoid cases is unusual, but health conditions otherwise are reported good. The doctor says:

"I would recommend that some stricture be put on the indiscriminate sale of such drugs as antipyrin, antifebrin or acetanilide by Japanese medicine peddlers, as I have seen a number of cases of fever which have died in the first week of their illness, in which I am morally sure the cause of death was overdoses of these strong heart depressants. Incidentally I might also mention seeing by accident a case of a native woman in the fourth week of enteric with a pulse barely perceptible and very fast, being dosed with antifebrin every three hours by one of our recent Japanese medical brothers." The doctors all report fairly good conditions, and they have few recommendations to make. Without exception the answer to the questions as to whether consumption is increasing is in the negative.

MRS. FLINT'S ANSWER.
Mrs. Nina I. Flint has filed an answer denying the charges brought against her in H. W. Flint's suit for divorce. She has also filed a petition stating that she is destitute and without means of support or money to defend the suit, and asking the court to order her husband to pay her \$50 for an attorney's fee and alimony while the suit is pending.

BISHOP GULSTAN RETURNS TODAY

WILL BE TAKEN TO THE MISSION—IS STILL A VERY SICK MAN—WAS ANXIOUS TO RETURN.

Bishop Gulstan returned from Hilo today in the care of Father Valentine. He was the first to mount the gangway followed by the local fathers. The litter was kept in readiness, but Dr. Herbert, after seeing the bishop, decided to wait until the passengers had left and the dock was cleared and quiet before transporting the sick man. He will be taken to the mission and there attended. He stood the trip well and was very anxious to get back to Honolulu. While improved he is still a very sick man and hopes of recovery are still of the slightest.

STOCKBROKERS TO USE CABLE

NEW RATES OF COMMISSION ARRANGED—H. P. EAKIN ELECTED TO MEMBERSHIP.

At a meeting of the Honolulu Bond and Stock Exchange this morning, cable communication from the mainland was resolved upon as far as daily quotations are concerned and new rates of commission were established. H. P. Eakin was appointed to take the place of W. M. Giffard whose resignation was read and accepted.

The new holder of the seat has handled stocks for some time past and will in future conduct his operations on a larger scale. He was congratulated upon his election by the assembled members. The question of cable communication was taken up and left to the president, James F. Morgan, for consideration. It is practically certain however that the exchange will make arrangements to obtain daily quotations from the mainland though the extent of this action is not yet decided upon.

The new rates of commission are as follows: On stocks selling at \$5 and under, 6 1/2 cents per share; over \$5 and up to \$25, 12 1/2 cents per share; over \$25 and up to \$50, 25 cents per share. Above that amount the rate is fixed at one half of one per cent. On bonds the rate will be one quarter of one per cent.

DECISION FOR "CABBY BROWN"

JUDGE GEAR HOLDS THAT HE IS ENTITLED TO REMAIN MANAGER OF THE JOHN II ESTATE.

"Cabby" Brown is entitled to hold his position as manager of the John II estate, limited, according to a decision rendered this morning by Judge Gear. Gear overrules the demurrer in the case of C. A. Brown vs. A. W. Carter et al, in which an injunction was asked for to restrain the defendants from applying new by-laws for the corporation, under which they might have ousted Brown. This is the case that brought Brown back in a hurry, on a summons from his attorney, after he had got as far as New York on a tour to Europe.

Judge Gear quotes the charter provision that Brown shall retain the office of manager as long as he owns a quarter of the stock of the corporation, also the proposed new by-laws, under which he might be removed if he left the Territory, or for other reasons. The court says:

"It is plain from the by-laws quoted that they are absolutely inconsistent and contrary to these provisions of the contract or charter of the incorporation." The provision requiring the officers to be residents of Hawaii is held to be inconsistent in so far as it affects any officer named in the charter to hold office. The decision says that the plaintiff has "an absolute right, so long as he owns a quarter of the stock of the corporation, to hold the office of manager." If he leaves the Territory and thereby injures the corporation there is remedy in equity.

The demurrer is overruled and the defendants are given five days in which to answer if they are so advised.

CHANGE OF CENSOR EXPEDITES MAIL ABOUT TWO MONTHS

Something of the effect of the Russian censorship is indicated in the following from the Japan Herald: "When it was stated some time ago by a Hongkong journal that all newspapers sent to Vladivostok had first to go to Moscow to be censored there, doubt of the accuracy of the statement was expressed. Now it is confirmed by a postal regulation just promulgated at St. Petersburg, that arrangement has been made to have all foreign newspapers and journals addressed to Vladivostok and Eastern Siberia hereafter examined by censors at Vladivostok instead of sending the same for this purpose on to Moscow, which has been done for nearly ten months now, thus depriving the public of immediate foreign commercial and other news from abroad, nearly two months elapsing before the journals are again received from Moscow."

WORK OF THE MAUI CIRCUIT COURT

PILIPILI GETS TWO YEARS FOR WHAT CONVICT WOODS GOT LIFE—KAHUNA CASE.

Judge Kalua of Maui sentenced two more burglars at the term of court just held, but not for life. The court disposed of about twenty cases, D. H. Case acting as Deputy Attorney General.

The most important case was that of Fugita Kicharo, who was charged with murder in the first degree. He killed a Japanese woman named Mamono, stabbing her to death with a pocket knife. The motive was jealousy, with the usual Japanese murder story of one man infatuated with another man's wife. Fugita was placed on trial and one witness was examined, when he decided to make a plea of guilty, to escape hanging. The plea was accepted, the jury discharged, and Fugita was sentenced by Judge Kalua to life imprisonment.

Pilipili pleaded guilty to burglary in the first degree, and was given two years' hard labor. Convict Woods got life for the same offense in the same court. Domingo Kinton, charged with burglary in the first degree, pleaded guilty of burglary in the second degree, and was given one year.

Among the cases on the calendar was that of Neau, an aged Hawaiian woman charged with kahunalism. She is alleged to have practicing her sorcerous arts upon sick persons, with the result that three Hawaiians who followed her advice when they were ill have died.

Three cases were dismissed because the complaints from the District Court charged the defendants only on "information and belief," and Case declared that he didn't believe such complaints were legally sufficient.

THE GOVERNOR'S COMMITTEE ACTS

If Only one Federal Building is Obtainable the Present Custom House Site is Agreed on.

Two sites have been recommended by the governor's committee on federal sites and buildings. One of them has alternative proposals tacked to it and will not be submitted to other bodies for consideration until definite action between the owners of the property and the government has been consummated. One of the two, the post office site, is that of the Bishop property opposite the Young building. The other, the custom house site, is the present site with the addition of adjoining land.

If only one building is forthcoming it is the present sense that it should be placed on the enlarged customs site and that any spare land shall be turned into parks giving Honolulu a new and attractive waterfront and a tropical Castle Garden.

These decisions were arrived at this morning at a meeting of the committee with Commissioner Eustis in the director's room of Alexander and Baldwin. Present were Commissioner Eustis, R. Carter, A. Gartley, S. K. Ka-ne, Gen. Stewart, Postmaster Oat, Collector Stackable, Dr. Cofer and Appraiser Sharp all of whom discussed the questions presented at length.

The new post office site question will be thrashed out as speedily as possible to allow of the commissioner's departure but Governor Dole will have to be reached through wireless telegraph which, it is feared may be a lengthy as well as expensive undertaking. The question hinges upon the mutual agreement of the Bishop Estate and the government upon lands exchangeable and the valuation thereof. The alternative suggestions are those of the Union Feed Company and the Allen sites. The latter is obtainable as a price of between \$3.25 and \$3.50 per square foot.

Dr. Cofer explained that with the present accommodations his department was greatly embarrassed. At present his office was entirely insufficient consisting of only one large room partitioned into three, giving no privacy for heads of departments and causing much confusion between the three branches of quarantine, marine hospital and immigration. There was no territorial equivalent for Castle Garden and immigrants at present were sent to the quarantine yards for inspection. For immediate attention to water front accidents there is no accommodation and the fact of the offices being situated perforce upstairs where sick men have to climb a long flight of stairs creates further inconvenience. An emergency ward was wanted and at least five rooms of offices. There is no available space in the Custom House which would be more convenient for Dr. Cofer's department than the present close quarters.

Collector Stackable stated that the buildings, built of coral in 1890, were in constant need of repairs and totally inadequate. He showed plans of each department with the location of desks.

REASONS AGAINST ASIATIC LABOR

COMMISSIONER FORTUNE TELLS BUILDERS AND TRADERS WHY ASIATICS ARE UNDESIRABLE.

Speaking at the request of the Builders and Traders' Exchange before their meeting on Monday evening, Commissioner Fortune outlined the general objections to Oriental labor as held on the mainland and which he thinks will effectively gain any attempt to get Oriental labor in this territory. He further suggested remedies and, at the urgent request of those present, outlined what could be done in the way of obtaining negro labor, prefacing his remarks with the statement that he did not intend to advocate their importation and understood that there was a decided objection to such a course, but spoke merely to state that if such labor was wanted he could show means of securing it and a practical guarantee that it would prove satisfactory.

Commissioner Fortune stated that he was reluctant to talk upon the labor subject but would do so unofficially and purely as an observer. This was after a considerable discussion of the Asiatic labor problem had taken place between the members. "I am afraid," said the speaker, "that I shall have to speak rather strongly as it may seem to you, on the ideas of the Exchange, which I believe far from the solution of the important question, according to the lines you seem to be working on at present." He then proceeded in effect as follows:

"The Asiatic laborer is not upon the same scale as his American rival. He benefits from the high civilization which has resulted in the great oriental concentration of the art of living, which means cheap wages. Along the lines of domestic economy there is no comparison between the races. The Asiatic eats less and feeds cheaper. His clothing amounts to nothing beside that of an American. His residence does not increase a demand for home products but assists Oriental industries at the expense of our own, while ultimately the Asiatic becomes a competitor of the white man in many walks of life beside field work and in which the latter has to live on a much higher scale."

"The Oriental is not available as a fighting force in time of war and might indeed, in a territory like this, become a complication. The Oriental should either be a citizen with all the responsibilities that privilege or exit the country. The idea of ultimate return to their own land was too forcibly implanted in them."
"White men will not come to the territory which shows so much Oriental domination in numbers and aggressive competition. The cheapest man will always be employed and the white man cannot begin to compete with the Oriental. It was a question of economics not race. Chinese and Japanese were alike disliked. The remedy he thought was easy. Chinese restriction was brought by the call from the laboring men of America and a previous treaty revoked. If a treaty was changed for the Chinese it could be with the Japanese."

In answer to a question as to the policy of this, the speaker said that the Japanese had many ideas as to their universal greatness which had yet to be exploded and that America was neither dependent upon nor afraid of the Japanese nation.
Asked to talk about negro labor and its application here Mr. Fortune was very loath to discuss the matter, stating that he was not here to talk and make suggestions. Besides he understood that there was a great objection to their coming here and that most thought the negro vicious, lazy and fit for jail. Those who had come here, said the speaker, were very likely all of them better off in jail but they were the wrong kind. There were many negroes who would be the best kind of field hands who were now dissatisfied with legal conditions at home and thousands of them had paid their own fare to go to the west coast of Africa where their wages were far smaller than at home.
Senator Dickey estimated that the

plantations would be willing to pay sixty cents a day throughout the year with house, water and in some cases wood. Mr. Fortune stated that it was not a question of wages with the men. If they were wanted, he and five others he could name could procure them and one negro he would guarantee could do twice the work of any Oriental. The climatic conditions were not as bad here as in the Southern states and the men would not leave the plantations but rear children upon them to work after them.

They should all be men with families and affiliated with some church organization as most of the class he was talking of were. The local legislature could inaugurate a strict inspection of laborers, mentally, morally and physically to supplement an inspection that could be made before they started. On these lines he would be willing to guarantee seventy-five per cent of them as good laborers and good citizens who would consent to stay on the plantations and not interfere with white citizens in trades or business.

The commissioner intended leaving for the Philippines on January 3 but so important did Hawaii seem, so close was it to the mainland and so interested that he believed he would be excused at Washington if he overstepped his previously calculated limit.

JACKIES IN A FIGHT.

Six jackies from the transport Solace got into a row in the Encore Saloon Thursday. When the police tried to arrest them, Tom Doyle, one of the number interfered. The result was that Doyle was before Judge Wilcox this morning to answer to a charge of obstructing and preventing justice. C. Lupton was charged with being intoxicated and P. H. Carfr and Carl Joy were charged with affray. The other men were not arraigned as they had escaped arrest. Inasmuch as the trouble appeared to have originated in a drunken argument, they were fined small sums of \$2 and costs each. Doyle however being fined \$6 and costs.

What Next?

There is a point beyond which the tired brain and worn-out nerves seem to lose all power of recuperation, and when that point is reached the only end is insanity and death. If you are nervous, restless, irritable of temper, have no appetite for food and cannot sleep at night; if you are despondent, melancholy, have no ambition for work and no ability to concentrate your thoughts, ask yourself that question, "What next?" There is one thing you can do that will bring the answer you so much desire. If you will begin at once with Dr. Miles' Nervine it will give you the rest, the quiet, the sweet, refreshing sleep that leads to life renewed and health restored.

"For six months I was so nervous that I could not sleep in bed, and would sometimes have to be carried out of doors to get fresh air. Then my body would get numb and perspiration would drip from every pore. I would have spells of blues and melancholy, frequently breaking out with sobs and crying. The best doctors here could give me no relief, and seeing an advertisement of Dr. Miles' Nervine I decided to try it. After using it two days I went to bed and slept all night—the first time in nearly a year. Then a load seemed to fall from my shoulders and from that day I continued to get strong until my health was completely restored." Mrs. L. B. MILLARD, North Clarendon, Pa.

GOOD YEAR FOR SALVATIONISTS

EIGHTH ANNUAL REPORT OF THE ARMY HERE CONTAINS INTERESTING SHOWING OF RESULTS.

The Salvation Army officers in charge of the work here have issued their eighth annual report of work in the Islands, making a showing of very successful results during the year. The army's work shows steady progress at all points. "During the year," says the report "five thousand nine hundred and seventy-five open air meetings; Honolulu, 468; Hilo, 339; Waialuku, 265; Koloa, 153; Waimea, 118.

"During the year there were 555 conversions, distributed as follows: Honolulu, 265; Waialuku, 89; Hilo, 83; Waimea, 70; Koloa, 45. The report says: "During the year our officers conducted one thousand three hundred and seventy-five open air meetings; Honolulu, 468; Hilo, 339; Waialuku, 265; Koloa, 153; Waimea, 118.

"In Honolulu we hold meetings in our hall every night in the week, but at some of the circuit corps we are not able to do that, for some of the officers have to do so much circuit riding. Still, during the year we have had six thousand eight hundred and fifty persons attend the indoor meetings: Honolulu, 26,917; Hilo, 12,742; Waialuku, 7,079; Koloa, 4,107; Waimea, 4,104.

"We have a very good work being carried on among the young people, and after all, the young people are the hope of the future. We are, therefore, very anxious to increase our work amongst this class. Still, we are glad for what is already being done, for we find during the year we had an attendance of twenty-eight thousand and sixty-two: Hilo, 8,909; Waialuku, 8,404; Waimea, 5,625; Koloa, 3,912; Honolulu, 1,212.

"What the mainspring is to a watch is to a corps. Therefore we cannot possibly have too much visiting, and the more we have the better. Still, the officers on the islands show a very good record, for during the year five thousand nine hundred and seventy-five hours have been spent among soldiers, the poor, and the sick and needy: Koloa, 1,636; Hilo, 1,498; Honolulu, 1,275; Waialuku, 975; Waimea, 535.

"We are very anxious to advance our work. Among other moves to be made, we want to open up a native corps in Honolulu; also a Chinese and Japanese corps. I feel sure this will be possible in the near future. But at the present we are arranging to open a circuit corps on Oahu. At the close of the council Captain McLeod will go and make his headquarters in Ewa, and from there he will work the different plantations. The captain is a man of good experience and ability. We therefore feel confident that a blessed work will be done on the new circuit.

In the amount collected for army work Honolulu naturally leads, with \$2,829.65. Waialuku is second with \$1,056. Hilo gave \$744.65, Koloa \$775.80 and Waimea \$440.70. Practically all the money has been spent. Honolulu shows \$12.10 on hand and Hilo \$2.35, while the other headquarters came out exactly even. Honolulu collections were as follows:

Brought forward	\$ 1 35
Collections	1,220 54
Donations	977 18
Publications	146 50
Return Loan	30 09
Merchandise	22 75
Harvest Festival	149 90
Self Denial	287 43
Total	\$2,829 65

All the reports sent in the principal expenditure. Three officers' salaries for the year in Honolulu amounted to \$443.48, while traveling, sick and wounded funds, loans, etc., make up the rest. The army loaned \$35.20 to persons who were hard up during the year, just about offsetting \$30 repaid from such loans.

GOLF PLAYERS.
The following are the officers of the Honolulu Golf Club for 1902. President S. E. Dannon; vice-president, T. Clive Davies; captain, C. S. Cole, vice-captain, A. Garvie; secretary and treasurer H. B. Sinclair. Ex-officio members of council, W. M. Giffard, D. W. Anderson, George F. Davies.

FOOTBALL TODAY.
The Pacifics and Males Hinas will play the first regular association football game at Mackie this afternoon to start at four o'clock sharp. The line up is as follows: J. W. Waldron will referee.

Pacifics.	Guard	Males.
H. B. Sinclair	J. Cumming	
A. S. Gullid	J. C. McGill	
S. Beardmore	R. H. Moore	
B. Clarke	J. Anderson	
L. G. Blackman	A. Morrison	
R. A. Churton	A. S. Miles	
	Forwards.	
J. A. Catterall	J. Lavid	
F. Young	E. G. Munro	
C. P. Morse	O. Mayall	
J. Stokes	R. Anderson	
W. Williams	Williams	

FOOTBALL RECEIPTS.
The football league divided \$600 as the receipts for the season. Of this the Oahu College got \$200 for their twenty-five per cent share for the use of the grounds, leaving \$400 apiece for the three clubs. The amounts will not entirely cover expenses but the players are satisfied and are already making plans for next year when they hope to play on an enclosed gridiron.

CHRISTMAS AT HAND.

The streets are lively up with the Christmas shoppers, and a large sum of ready money goes into circulation during this week and next.

The trade at Christmas time is in the majority of cases a cash trade. It is not a trade confined to the wealthy, and the very well to do, but it reaches into the purses of the humblest.

It is by no means in all European countries that Christmas is celebrated. Germany is really the home of the Christmas tree and the Christmas gifts.

Anyone who will go the round of the streets at this season will learn how very eagerly the season is prepared for. In the mornings there is quite a bustle, and in the afternoons there is now very much doing.

All are imbued with the same idea. It is to give the children a good time, and the cars are filled with mothers and fathers who have spent in many cases the hard earned wages in order to brighten the eyes and color the cheeks of their dear ones.

It may be unwise to be lavish, and it may be very wise to scrape and save, but it is a poor heart that never rejoices, and never relaxes its purse strings.

The preparation for Christmas is far more enjoyable if one is poor, than if one is rich. A fig for the wealth which can buy everything that it desires.

The schools have closed up for the Christmas vacation and the streets are bright with young faces.

The placing of the cable buoy is another indication of the approach of the cable to our shores.

The time expired men upon the Logan must be a pretty tough lot when General Davis has been obliged to put a company of infantry on board in order to get them across the ocean.

Another line of steamers to call at Honolulu, means more business and more supplies. The line from China to Mexico, while it will have no influence upon our mail facilities will have a considerable influence upon business.

Bishop Willis is making a strong mark in Tonga. He certainly is a most indefatigable worker. One would think that after his years of work he would be glad to rest, but he remains in the forefront of life's battle as strong and as determined as many men only half his years.

The Habeas Corpus case of Walter A. Wright is another development of em-

bezlement cases which came to light some time ago. The cases, owing to congested calendars have hung on for an unconscionable time, and every means has been used by the lawyers for the defense to get their men out of jail.

The manner in which stenographers notes upon cases disappear, or are left untranslated in the original short hand argues extreme carelessness in the courts. Not long ago notes had to be sent to a stenographer on the mainland to be transcribed. Now the notes in the United Chinese Societies' case have disappeared entirely. It would seem but reasonable if the notes in all cases should be transcribed and filed away for future reference.

A plot to assassinate Victor Emmanuel II of Italy has been discovered. Victor Emmanuel is a peculiarly amiable monarch, and has shown the keenest desire to lighten the burden of taxation. However his father King Humbert, was assassinated before him and the Italian anarchist does not see why

Count de Castellane's troubles in the French Chamber of Deputies would seem to qualify him for membership in the United States Senate. He appears to have the qualities of a combatant.—St. Louis Republic.

Count Boni, Anna Gould's encumbrance, has been deprived of his seat in the French Chamber of Deputies because he was too free with Gould dollars in the campaign preceding election.—Canton (Ill.) Daily Register.

If Count Boni de Castellane keeps on getting expelled from the Chamber and feasting royalties it is to be feared that the effort to restrict his expenditures to the beggarly sum of \$200,000 per annum will end in failure.—Pittsburg Dispatch.

TWO SITES SELECTED

(Continued from page one.)

He thought there should be a separate building for the quarantine department, immigration inspector and shipping commissioner away from the noise of opening merchandise. He called on appraiser Sharp to explain the difficulties of his department under present conditions. Mr. Sharp explained principally the lack of light for examination of textile fabrics. Immigration Commissioner J. K. Brown was shown to be forced to often examine foreign Japanese with possibly contagious diseases in a room totally inadequate in size.

P. A. Schaefer thought the present building, now 42 years old, should be done away with altogether. Collector Stackable thought the building should be moved back a block to conform with the forty foot clear space requirement. He added that while rates were so low that private individuals could not go into the bonded warehouse with profit, the Customs department would require space for the storage of bonded spirits. Mr. Thurston stated that an alternative proposal for a site had been laid before him which he thought advisable to take up in case of a hitch between the Bishop Estate and the government. He stated that there was some difficulty in the appointment of a board of appraisers to value the lands which the government would exchange for the Bishop property, the estate not agreeing to outside valuation.

The alternative proposal consists of an acre of land now owned by the Union Feed Company on which the company intended to erect buildings. The property lies back of the Hackfeld building and runs almost to Alakoa street. Down to this property the Bishop street extension would run. Mr. Macfarlane explained that this site would be exchanged for land without cash. He himself would vote for another site, but mercator Stackable stated to Commissioner Eustis his willingness to agree to including the Customs House on this site, unless it was possible to give his department a separate building in which case he preferred the present site as the most central for his work.

Chairman Thurston wished to bring the point to an issue and get a recommendation from the committee, presumably on the Bishop Estate, provided an arrangement could be made with the government. This recommendation could be submitted to the other bodies not to the commissioner. General Hartwell thought the committee would stultify itself by recommending a site, still with a spring to it, and George Carter agreed.

Commissioner Eustis stated that the question of a purchase of property would be an idle one to consider as far as the Federal government was concerned.

It was not thought advisable to let the Commissioner take back any proposed site to Washington unless a clear title was forthcoming. Mr. Eustis mentioned the Gore site and was informed that the sense of the meeting was that that site, while ideal, was not ready for consideration from the number of owners many of them absentee. The fact that one of the estates interested would want cash effectually disposed of the matter. The following motion was then made and passed unanimously.

That it is the sense of this committee that if the Bishop Estate come to a satisfactory agreement of exchange with the government, this committee will commend the Bishop estate lot at the corner of King and Bishop street for a building site for a post office and federal offices other than the Custom house. Chairman L. A. Thurston was appointed a committee of one to confer with the estate and obtain an agreement as soon as possible.

A motion of G. E. Carter's that 195 feet on both King and Bishop street should be acquired to allow ample room passed as did a motion of recommendation by the same mover that the territory should make over to the national government blocks 28, 29 and 30 of the esplanade adding this to the present site of the Customs House, giving plenty of space for the architects and an ample room for expansion. In all an area of 325-700 feet. This land is partly covered by lumber, the blocks as quoted being so numbered on the underwriters' map. The plan was to park spare land in similar manner to the naval station.

It was brought out that 95 office men were at work in the customs department aside from Dr. Foster's force. It was felt that with both sites offered free there would be good chance to get both buildings.

Commissioner Eustis thought the parking of the grounds admirable. Immigrants would have a pleasant place and the waterfront made more attractive. Collector Stackable emphasized the latter remark and said that when the canal was cut the shipping would vastly increase. Commissioner Eustis stated that his first pleasant impression in Honolulu was the Italian hotel its grounds and a fine building on the water front surrounded by tropical trees would greatly benefit the town.

The suggestion was brought up that the land belonging to the naval reservation behind the quarantine wharf, surrounded by the stone wall into which the sand dredgings of the channel were dumped and on which the South Sea village once occupied the seaward end should be turned into a park where tropical palms and grasses should catch the eye of the visitor. Commissioner Eustis strongly urged the beautifying of the harbor front, which was at present, he said, not calculated to enhance the inviting aspect of Honolulu. If present lumber and coal piles could be eliminated the harbor would be shaded trees he thought it should be done. During the discussion he stated that the Hilo site for the federal building was four hundred feet square and gave ample opportunity for such improvements.

EXCURSION TO VOLCANO.

The unusually low rate offered by the interested companies for the week's trip to the volcano is exciting considerable interest among people who have not heretofore visited Hawaii's greatest attraction. The trip as arranged will give passengers going by the "Kauai" on Tuesday a lay-over at Hilo to visit the points of interest there, after which the rail and stage journey will be made to the Volcano House. Here two or three days will be spent in viewing the active volcano and the many interesting objects which abound in its vicinity. The return trip will be made by stage from Hilo on the opposite side of Hawaii from Hilo and thence by the "Mauna Loa" back to Honolulu. The details of the trip are being arranged by Richard H. Trent, who is issuing tickets, covering all expenses, for only forty dollars.

PORTLAND'S FINE CUSTOM HOUSE

The committee of the Builders' and Traders' Exchange appointed to confer with Collector of the Customs Stackable on the question of his needs for a new building according to his plans deduced from actual experience of necessities, have brought some interesting statistics to light.

For example, Hawaii, with its receipts of \$1,350,000 annual revenue, stands eighth in the list of custom houses in the states. Our trade is one-third again as large as that of Portland and, leaving Portland out, one-half as large again as the whole of the Puget Sound district. Portland has a custom house that cost a million and a half of dollars.

"Hawaii," says Collector Stackable, "was first estimated by the government to collect revenues amounting to \$200,000. We have more than quintupled this estimate. It was a terribly hard task for us until we secured sufficient employees as our force and material was all at of \$25 on the estimate that we would handle five times less work than we did.

The Washington official report incorporating the business of the custom houses throughout America has just come to hand. The figures of the department agree with the local ones and by comparison some interesting figures show up. With our one million, unrefined and twenty-seven thousand odd dollars of revenue, it costs only seven and one-tenth of a cent to collect each dollar. Some offices beat us out in this respect, but many are far above us. Several costs of over one hundred dollars to collect one are to be noted, but the palm in this respect must be given to Albemarle, Elizabeth City, N. C., which collected but two dollars of customs duty in the year at a cost of \$25 for each dollar brought into the revenue receipts.

Collector Stackable will furnish information of office and floor space tomorrow to the Builders' and Traders' Exchange committee consisting of E. J. Amweg, C. W. Dickey, H. L. Kerr, A. Harrison and J. H. Craig. Sketches will be made from Collector Stackable's statistics and estimates made by architects and contractors as to the probable cost.

NIHAU FROM KAUIAI PORTS.

BABIES AND CHILDREN

should be fairly plump. They ought to put on fat as fast as they use it up; for fat is fuel, and the burning of it makes power and force. Thin children—even along to the age of eighteen or twenty—are in danger from consumption, and from other wasting complaints. The children who starve, and the young men and women who are consumed—why, the very idea of it is frightful. For such as they there is always what the Bible calls a "mighty famine" in the land. Food, though it may be taken plentifully, does not nourish them. It makes no fat; it gives no strength. To prevent this, to cure this, to save the young ones at the mother's knees, and the bright boys and girls who are just looking at the world with ambitious eyes, is the purpose of WAMPOLE'S PREPARATION.

Its success is decided and settled. Thousands owe to it life and health. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and bone and blood diseases, nothing equals it; its tonic qualities are of the highest order. A Medical Institution says: "We have used your preparation in treating children for coughs, colds and inflammation; its application has never failed us in any case, even the most aggravated bordering on pneumonia. The children like it, they love the taste of it, it looks good to them, and it builds up their bodies; many little children owe their lives to it." Effective from the first dose. "You cannot be disappointed in it." Sold by chemists here and everywhere.

TO REGULATE LABOR.

Builders' Exchange Combine With Central Committee.

A committee of the Builders' and Traders' Exchange is, at the suggestion of Senator Dickey, in conference with the Republican territorial central committee on the drawing up of a bill for presentation to the next legislature, limiting the employment of labor on public works and the appointments to government positions to citizens.

The subject came under discussion at the last meeting of the Exchange with the talk on Asiatic labor, and Senator Dickey, an invited speaker, answered a query as to whether such a law could be passed in the local legislature in the affirmative, stating that

The schooner Ada, Captain Nelson, arrived yesterday from Kauai after being out five weeks. Captain Nelson says that in twenty year service about these islands he has never seen the weather so bad as it was during portions of his stay about Kauai. When off Eleele last month, all of the sails with the exception of the gib were blown away. The vessel laid for a week in Hanamaulu and was weather bound for another week in Hanalei. She returned with 800 sacks of rice. She may go to the other side of Oahu this afternoon for a load of rice.

A Bad Skin

Prick your skin with a needle. You will see it is full of blood, full all the time. But what kind of blood? Rich and pure? Or thin and impure? Pure blood makes the skin clear, smooth, healthy. Impure blood covers the skin with pimples, sores, boils, eczema, eruptions, tetter, salt-rheum.

Mr. Frank Hewett, of Kalgoolie, W. A., sends his photograph and tells what cured him. "When a boy my skin broke out in bad sores about my hands. After trying a great many remedies in vain, I took Ayer's Sarsaparilla and was quickly cured. Recently I was troubled again with severe boils, but one bottle of the same old remedy completely cured me. It's the greatest blood-purifying medicine in the world."

BUBONIC PLAGUE BUGABOO

From the Oakland Enquirer.
The bubonic plague will not down. It is now reported that the United States Surgeon General proposes to take active steps to determine once for all what is to be done regarding the occurrence of plague in San Francisco. There have been so many reports concerning the disease in that city, and these reports have been so greatly exaggerated that pressure is being brought to bear on the United States authorities by other cities to force them to act.
The situation is a peculiar one. The health authorities, both national and local, say the plague exists and has existed for months, but the trouble is that it is difficult to find a case, and the disease, differing from its usual practice, obstinately refuses to spread and become epidemic. While health authorities continue to affirm the presence of the bubonic plague, at least an equal number of doctors, of as great knowledge and as good reputation, affirm with equal positiveness, that the first set of doctors are mistaken and that the city is free from the dread Asiatic scourge. It is emphatically a case of doctors disagreeing.
There should be some way of settling the matter definitely. Either plague exists or it does not. If it does not, then there should be an authoritative statement of that fact. If it does, its existence should be proved beyond all peradventure, and the most vigorous means taken to stamp it out. San Francisco should no longer consent to remain under suspicion. That city should be the first to demand an investigation.

RHODES SCHOLARSHIPS

From the Springfield Republican.
Dr. G. R. Parkin, the commissioner who is charged with the distribution of the Cecil Rhodes scholarships in the colonies and the United States, has returned to New York from England. Dr. Parkin has spent several weeks at Oxford arranging details connected with the scholarships. "There are some 200 scholarships to be distributed in the states and colonies," he said yesterday. "I have been at Oxford for several weeks trying to get the wishes of the Oxford authorities on the manner of distribution. There are 21 colleges at Oxford, and each wants such scholarships as are awarded it to come under its own peculiar rules of entrance, and so forth. Some prefer to have post-graduate and others undergraduate scholarships. For the next year I shall be kept busy visiting and consulting with the leading educators of the states and colonies as to the best methods of selecting candidates for the various scholarships which were allotted to their several districts. Each of these scholarships carries with it \$1500 a year for three years. The first beneficiaries will go to Oxford in the fall of 1904; consequently the final awards will be made early in that year."

ART CONCEALED BY ART

From the Chicago Daily News.
Senators and members of congress have been having great fun with the president's new business quarters since they returned to Washington for the session. During the summer they read a great deal about the structure and how art was concealed in art in the making of a harmonious exterior and interior. In front of the main entrance of the president's building there is a coal hole. At the same door stands a galvanized garbage can which serves as an umbrella holder. The architects had forgotten all about the coal hole until it was too late to put it elsewhere than in the most conspicuous place and the umbrella holder was totally unprovided for until one of the doortenders thought of the garbage can.
"I never knew how much art concealed by art there was in my district until I called on the president," said Congressman Sulzer, who represents a poor district in New York. "Why, almost every house in my district has a garbage can at the front door, and we are so proud of our coal holes that frequently we don't cover them up."

**THE IOWA
-
ICONOCLAST**

From the Chicago Daily News.
Secretary Shaw says that Washington is very different from Denison, Iowa, where he kept bank before becoming a member of President Roosevelt's cabinet. "In Denison," said the secretary in making his point, "we were taught in common with a great many other simple country people that cleanliness is next to godliness. Here in Washington this old proverb is reversed and cleanliness is desecration."
The secretary started out to carry his Denison training into effect as soon as the dull summer months set in, and he is still working at his job. He put a force of painters and decorators at work in the treasury building who cleared away the dust accumulations and brightened the walls with fresh paint and new decorations. The Washington public did not take the secretary's action seriously until he began on the exterior of the building. The eastern side of the granite structure was black and grimy with deposits of dust and smoke, and as such a condition of affairs did not accord with the Denison idea of respectability Mr. Shaw secured the services of a Chicago firm that cleans the exteriors of stone buildings with a sand blast and instructed that all evidences of age and filth be removed. The cleaning is now in progress, but the commendation which Mr. Shaw expected from the Washington public did not manifest itself. Instead came denunciation. Mr. Shaw was proclaimed an Iowa iconoclast and it was asserted that he was destroying the chief beauty of the magnificent building over which he has temporary control.
"Might as well take a sand blast and remove the moss of ages from Westminster abbey or the tower of London," said the Washingtonians, "as remove the grime from the treasury building."
Mr. Shaw stopped the sand blast for a couple of days to think it over. Then it started up again and each day a bright clean column supports a clean section of the long building as the sand blast moves along the building.

POLO MEN TO MEET.
The Polo club, which will meet on Tuesday evening in Elks' Hall to settle up the affairs of this season and possibly discuss those of the next will also elect officers for the ensuing year.
The tournament expenses were very heavy and despite the liberal subscriptions and good gate receipts, the club funds were drawn upon to the amount of nearly five hundred dollars. The gate receipts were divided up pro rata, each of the visiting clubs receiving a little more than \$100 with which to pay their pony freightage. This sum was ample in every case and more than offset expense. The polo ball was paid for out of Oahu club funds entirely the subscriptions footing the field expenses, amounting to \$800 for fencing and improvement.

A meeting of the Exposition Association of Hawaii, formed in connection with the exhibits to be shown at Osaka and St. Louis was held Wednesday afternoon in the office of C. M. Cooke, chairman of the organization. Reports of various committees were presented showing work to be well advanced. The sum of \$3,000 has been raised. Of this \$1000 has been sent to Commissioner R. W. Irwin in Japan for use in the Osaka exhibit.

There will be no school exhibit for Japan but the Kamehameha schools have raised \$100 with which a collection of photographs will be purchased. St. Louis College may send an exhibit.

Native woods will be well represented. Twenty-six samples have been sent in from Makawao, Maui, by Senator H. P. Baldwin and Eben Low and Senator Paris will send woods from the big island. Allan Herbert reported on the advanced state of his exhibits of fruit and vegetable products. All those who have agricultural products worth exhibiting can have the same preserved and placed in suitable jars free of cost by applying to Mr. Herbert, Hawaiian Manufacturers Association, not yet in line and a special effort will be made to hasten this branch of the exhibit. Five hundred dollars will be expended upon photographs covering municipal, industrial, and scenic views of the island, arranged in twenty-two groups and several separate pictures. This exhibit may be augmented for St. Louis.

The catalogues for Osaka will be printed in Japan in both Japanese and English. The entire exhibit destined for Osaka will be placed on local exhibition in the vacant ground floor suite of the Stangenwald building before being shipped.

ANOTHER BOXER UPRISING FEARED

SHANTUNG BOXER CHIEFS INVADING CHIHLI AND PREACHING PROPAGANDA OF REVENGE.

SHANGHAI, December 2.—The North China Daily News says:

A serious report and one that is pregnant with danger and a menace to the peace and safety this winter of foreigners in the interior towns, especially of Chihli province, is published in a local vernacular paper, the truth of which report we are expected to accept, as corroborative news has already been received here at various times, some of which has appeared in these "notes."

This is the report that Chihli is being gradually again invaded, as in 1900, by Boxer propagandists from Shantung, the land of the Society's birth, and that the invaders are finding not the least difficulty in obtaining proselytes, as in 1900. In the present instance, as stated in the vernacular paper in question, a band of some thirty odd Boxer "chiefs" have lately appeared in the district cities of Ch'ingyungshien and Yenhsanhsien, having come over from Shantung by coast junk.

The raising, and therefore more dangerous, idea in the propaganda of this special body of Boxers, is that of revenge for the disasters suffered by the members of the Society in 1900 and 1901 at the hands of the Allies. For this reason this new body of Shantung Boxers are all attired in white mourning clothes, and
