JAPANESE VALJEANS

GET TO IWILEI BY WAY OF A SEWER

M'Clanahan Says There is no Evidence That They Landed—Estee Thinks They Did Not Walk to Japan.

The prosecution ended this morning in the cases of the United States vs. H Hackfeld & Company, and McClanahan made a motion to instruct the jury to acquit. The evidence showed that the illegally landed Japs escaped from Quarantine Island by way of the sewer, as Jean Valjean escaped under the streets of Paris—only the sewer is different. The thirteen Japs let themselves down through a small sewer into the harbor. The water is very shallow at the place where they dropped down, and they were able to wade across to Iwilei.

McClanahan said in the course of his argument that there was no proof that the Japs ever escaped to the United States.

"Well, they came here and are here yet," remarked the judge.

"There is no proof that they landed here," said McClanahan. "They might have gone back to Japan the other way, for all the evidence shows."

Judge Estee said that people didn't usually walk to Japan from Honolulu and McClanahan admitted that walking on the water was not a usual modern mode of travel. "But they might have taken a sampan," he said, "and been picked up by some vessel at sea and taken somewhere else."

After this intermission McClanahan proceeded to argue his legal point, which was that the statute exempted the steamship company from responsibility when the escapes were from where the federal officials designated as the place for examination of the immigrants.

The jurors had to listen to the arguments. Breckons suggested dismissing them, but when the court asked if either counsel wanted them to go both attorneys said they didn't. "Only," said the District Attorney, "the arguments of lawyers, while of interest to the court and to each other, are not always interesting to jurors, and the preparations Mr. McClanahan is making indicate that he will [illegible] more than two minutes."

"In this case we happen to be happily situated," said Judge Estee, "for we have attorneys on both sides who will interest everybody."

Judge Estee denied the motion for an instructed verdict, and the defense's case began. F. W. Klebahn and S. Keller were called as witnesses. The defense is seeking to show that the responsibility for the escape of the Japs rests with the customs guards. The case will probably go to the jury early this afternoon.

FOUND BODY IN A SHARK

PROBABLE FATE OF MISSING JAPANESE SAILOR LEARNED AT NAWILIWILI SOME DAYS AGO.

The probable fate of the Japanese sailor who disappeared so mysteriously from the steamer Waialeale the early part of this month, was learned a few days after his disappearance by George Wilcox, Mr. Rice and others at Nawiliwili, Kauai.

On Wednesday afternoon, April 1, while the steamer was at Nawiliwili the Japanese complained to Captain Mosher of feeling ill. The latter gave him some medicine and told him to go to the forecastle and rest. This was the last seen of the Japanese. Hours after, while the vessel was going from Nawiliwili to Kilauea, Captain Mosher ordered one of the officers to see how the sick sailor was getting along. No trace of the sick man could be found. The vessel was searched from stem to stern but no clue to the Jap was secured. Captain Mosher surmised that the Jap had either jumped or fallen overboard and been drowned. This surmise proved correct in the main although the Japanese evidently met a more horrible death than drowning.

Three days after the disappearance of the Jap, Wilcox and Rice caught a big shark at Nawiliwili. The shark was cut open and in its stomach was found a part of a man's right arm. The arm had been in the shark's stomach several days. The finders could not determine whether the arm belonged to a Japanese or a white man. It had been bitten off just above the elbow.

Evidently this arm belonged to the sick Japanese. The shark no doubt, attacked him after he fell into the water from the Waialeale and soon settled any chance the man had of swimming ashore.

DOLE SIGNS

Governor Dole will sign the county government act and send with it a special message to the legislature, recommending some amendments, it is stated. This is the result of his careful examination of the act, with the members of the Executive council. A number of features were found of which the executive does not approve and some he thinks are in conflict with the Organic act, but the act on the whole meets with his approval and the objections are not held to be serious enough to warrant a veto.

DORIC ARRIVES LATE.

The S. S. Doric arrived this afternoon at 2 o'clock from the Orient. She left Yokohama April 11 and encountered head winds and seas and was delayed. She has about 1050 tons of freight for this port. She will sail at midnight today for San Francisco. The vessel has a big crowd of through passengers.

WAS HEAVILY FINED.

Ishii a Japanese was fined $250 this morning by Judge Wilcox for violating the law regarding the sale of poison to persons not entitled to purchase it or not having proper authority. The arrest of the Japanese was made for the purpose of putting a stop to the indiscriminate sale of poison. A bill to make the law more severe on this point is now before the legislature.

CLAIMANTS ANXIOUS

A resolution to cable to Washington and ask that Treasury Agent McLennan be instructed to pay out the million dollars of fire claims money was introduced in the House by Henry Vida, just before the noon recess. It provides for the sending of a cable to the Treasury Department, asking for a return cable which will cause the immediate distribution of the money that is here without waiting for the sale of the bonds. It was ordered referred to a special committee and the chair appointed Vida, Harris and Purdy.

Since the opening of the bids for the bonds yesterday, the claimants are beginning to wonder if they will have to wait for their money until the bonds are floated, and they object to such a wait. McLennan has not yet stated what course he would pursue, though on arrival he said that he would probably pay out his million dollars pro rata among the claimants. The million dollars is lying idle, and the claimants are getting ready to make a big kick if there is any more delay.

Treasury Agent McLennan had a conference with W. G. Cooper, Cashier of the First National Bank this morning and announced his intention of getting together all the holders of claims larger than $1,000 and seeking to induce them to take up the entire remaining $325,000 of the bond issue, distributing them among themselves pro rata in proportion to the amount of each one's claim. There are about 500 claimants whose claims are $1,000 or over. Distributed among these, pro rata, the whole $325,000 of bonds would be disposed of and $1,000,000 in cash released.

For instance, the trustees of Kaumakapili church have an award of $50,000. If they took their proportion of bonds they would still receive a considerable amount of cash. It is understood that some of the big wholesale houses hold a considerable amount of the certificates taken for debts from oriental traders, or as security for debts. If these took their share of bonds and the $1,000,000 in cash were released it would put all that amount of money in circulation to the benefit of the firms holding the certificates of award as security.

One of the fireat difficulties in the way of paying out the cash on hand before the bonds are disposed of is that the act of Congress provides that the money appropriated and realized from the boards shall be in full for all claims against the Territory or the United States and claimants shall sign a release to that effect. It is a question whether a disbursing agent would be safe in paying out any money without securing a release of the whole claim, and whether claimants should sign a release of the whole claim when only an instalment is paid.

Treasury Agent McLennan when he first came here said he would pay out the cash pro rata if the bonds were not sold. He now says he has not fully made up his mind on that point; and that at any rate he should require a release in full on the payment of any part of the claim.

However, even if the money were all in hand the payment of the claims could not be completed at this time for the reason that Mr. McLennan has not received the certified record of the awards of the Fire Claims Court from the Governor and Secretary of the Territory.

Meanwhile, claimants are getting anxious.

TO SHUT OFF TALKERS

"Resolved that on and after the adoption of this resolution no member of this House shall speak more than five minutes on any matter discussed in this House, except by a majority vote of the members present."

The above resolution is the latest scheme for hurrying business in the House, proposed by Keliinoi. It will break the hearts of several long-winded members if adopted, but other members want to do a lot of business in the last week of the session.

"GOD SAVE THE KING"

MANILIA TO ROOSEVELT

MESSAGE TO BE SENT OVER THE NEW LINE VIA HONOLULU ON JULY 4.

"We expect to send a cable message from Manila to President Roosevelt on July 4," said Charles Cuttriss, electrical engineer of the Commercial Pacific Cable company, who arrived this morning on the Gaelic on his way to Manila. He is going to await the arrival of the Anglia and Colonia expected about the 20th of next month, and to lay the shore cable line to the offices o fthe company in Manila.

"We already have a station in Manila," said the engineer, "but there are about three miles of underground cable to lay. This will be done in time to make connection before July 4, and according to present plans on that holiday a message will be flashed from Manila across the ocean to the President. It is the intention to send him the first message, as was done when the cable was connected at Honolulu."

THEY OVERPAID PILOT BILLS

AMERICAN-HAWAIIAN S. S. COMPANY WANTS $900 BACK IT PAID UNDER A MISUNDERSTANDING.

Superintendent of Public Works Cooper this morning submitted to the House a claim of the Hawaiian-American Steamship Company for $900 for 36 overcharges of $25 each for pilots for the steamers of the company entering and leaving Honolulu harbor. The claim was made in a letter to former Superintendent Boyd, on August 11, 1902, as follows:

"We beg to hand you herewith claim of the American-Hawaiian Steamship Company, for excessive pilotage paid at this port from January 29, 1901, to date, amounting to $900.

"Captain Fuller, the Harbormaster, has presented bills at all times against the steamers of this company based on the rate of $75 inward and $75 outward, and as we presumed this was in accordance with local laws, same were duly paid. It has now come to our attention, however, that the law reads that the rate of pilotage on all "mail steamers" is $50 inward and $50 outward, and as the steamers of this company have from the time mentioned carried mails under contract with the United States Government, we are prompted in the spirit of justice to make the enclosed claim, which we trust will have your earliest consideration and approval."

In a letter submitting the matter to the House Chief Clerk C. M. White of the Public Works Department states that the money received is a Government realization and the department has no power to pay it back.

BERGER PLAYED AND HOUSE RUBBERED

The Incident of Two Years Ago Repeated This Morning—The House Took a "Rubber" Recess.

The House took a "rubber recess" this morning and it repeated the incident of the session of 1900 by rising respectfully as one man as the strains of "God Save the King" sounded in the Capitol grounds, Kappelmeister Berger having played in honor of a visit by Captain Windham of H. M. S. Amphitrite. The name rubber recess was invented by those who saw the members run out to rubber, so many leaving that Vice-Speaker Knudsen declared a recess of five minutes.

The clerk was reading the bill reorganizing the bureau of agriculture when the notes of "God Save the King" suddenly burst in on the proceedings. Several of the members rose at once and the others gradually followed suit. Like the members of the last House, they thought it was "America."

There was a general exodus from the room, compelling a recess and everyone went to "rubber." At the head of the steps of the Capitol building Captain Hawes, of the Governor's staff, in full uniform, was waiting to receive the commander of the British war vessel. Captain Windham drove up to the building and it was as his carriage entered the grounds that the band began "God Save the King." Consul W. R. Hoare accompanied the British captain and all were escorted by Captain Hawes to the Governor's office upstairs and had a chat with the executive.

There was considerable difficulty in getting the members together again. The agricultural bill is by no means exciting to listen to and as it was 11:30 a recess to 1:30 was proposed. Knudsen pounded with his gavel, however, and the members came in and no one moved the recess. Captain Windham was still with the Governor and all unconscious of the unusual honor paid to him and his national hymn by the Hawaiian House of Representatives.

Important Reasons

Why Herring-Hall-Marvin Safe Co.'s Safes and Locks are the Best?

The concrete filling makes these safes absolutely Fire-Proof and positively Damp-Proof. The solid angle corners add greatly to their security in time of fire, and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning, and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, THERE IS NOT A SINGLE INSTANCE ON RECORD WHEREIN ONE OF THEM EVER FAILED TO PRESERVE ITS CONTENTS PERFECTLY. They make safes for county treasurers, county recorders, county clerks, jewelers, Hotels, residences, churches and corporations. We have a large assortment of safes on ha and will be pleased to show same.

SENATE MADE MANY CHANGES

Added Number of Items Last Night To Current Appropriation Bill and Finally Passed Measure.

The Senate resumed the second reading of the Insurance bill yesterday afternoon. There were various amendments. Section 22 and 23 were stricken out. These regulate the holding of real estate and the imposing of penalties. The 2 per cent tax on all premiums is to be paid to the insurance commissioner instead of the tax assessor. It was decided that the Territorial treasurer should be the commissioner. The citizenship requirement for agents was stricken out. All fees collected are to be paid into the treasury. The act is to go into effect October 1, of this year.

The bill providing for enforcement of liens by shipping companies passed second reading.

Senator Achi wanted the appropriation bill deferred until Monday. The Senator was accused of trying to force an extra session. The matter was finally ordered considered at the evening session.

The medical law amendment passed second reading on the adoption of the committee's report.

The bills that passed third reading were bill amending law relating to pounds and estrays; bill to provide for incorporation of societies for the prevention of cruelty to children; bill appropriating $5,000 for a breakwater at Kalaupapa; House Bill No. 83, providing for right of action for damages; Senate bill amending general railroad law; bill amending the beer license; bill amending law relating to stamp duties; bill amending forestry law; bill amending law relating to currency.

Senator Baldwin introduced a bill to provide for the protection of agriculture, horticulture and forestry, passed first reading. The Senate Bill No. 180 relating to the Auditor, and House Bill No. 142 relating to gambling, passed second reading. House Bill No. 134, providing for recreation grounds, but omitting Aala Park, was laid on the table.

At the evening session the current appropriation bill was taken up. The item of incidentals for the Secretary's office was increased from $2,400 to $3,000. The item of $2,000 for law books was raised to $4,000 after some discussion. The item for the payment of defending the fishery cases and other incidentals connected with the Attorney General's Department was raised from $40,000 to $45,000.

The item of $400 for patrol horses was raised to $700. An item of $30,000 for the expenses of inaugurating the Torrens land law was inserted. The item for repairs and additions for public buildings was increased from $30,000 to $50,000. The item of $8,000 for landings on Hawaii was made $10,000. An item of $12,000 for 70 new electric lights for Honolulu was added.

Other items inserted were $10,000 to reimburse merchants for defraying expenses of J. G. Pratt at Washington in interest of fire claims; $1,000 for incidentals Governor's office; $800.15 to reimburse Union Feed Company for money advanced for water pipes; $2,500 to pay River street property owners for sewerage pipes; $3,000 for repairs to Tantalus road; and all items in the Senate emergency bill except $2,000 for Waimea bridge.

Other items changed were: Maui buoys, $3,000 to $4,000; fencing and grading government lots, $2,000 to $10,000; item of $400 for jailer's house, Maui, inserted; item of $2,500 for water pipes in Kalihi inserted; 7,150 each for Lahaina and Wailuku fire departments inserted; $500 for railing around Diamond Head inserted; $600 for engineer on Waialae building inserted; passage of lepers and personal freight for Kalaupapa, $20,000, inserted, reconsidered and reduced to $5,000; for ambulance, Board of Health, $750 inserted; Associated Charities, $2,500 to $5,000; printing books and blanks for county officers, $12,000 inserted.

The bill then passed third reading.

CLEVELAND CHEERED; BRYAN HISSED

TAMMANY HALL DEMOCRATS AT A BANQUET IN NEW YORK CHEER THE MENTION OF CLEVELAND, BUT HAVE SCANT ENTHUSIASM FO RDAVID B. HILL AND NONE AT ALL FOR BRYAN.

NEW YORK, April 13.—Eight hundred Tammany Hall Democrats attended the Jefferson banquet given by the Tammany Hall general committee of the Bronx in Morrisania hall tonight. Among other letters of regret was one from Grover Cleveland, which was cheered by all the diners, the name of the former President being hailed as that of the next President. For a letter from former Senator David B. Hill there were scant cheers and no enthusiasm. For the letter written by William J. Bryan there was silence, but when Frank Campbell, chairman of the Democratic State Central Committee, announced that Bryan had received a special envoy last fall who had attempted to persuade him to stop the defection from the regular Democratic ticket in this State and had failed, and when the defeat of that ticke was placed against the account of Bryan, hisses were heard in various parts of the banquet hall.

In the course of his letter Cleveland said: "To deal with new issues first discover their character and their tendencies for good or evil and thereupon treat them in such a manner as will recognize constitutional restrictions and the necessity of safe conservatism, while at the same time we keep in sight as our unfailing guide and the supreme object of our political endeavor conscientious regard for the best and highest interests of the people of the land, without favoritism or unjust discrimination."

In the letter written from Wilferts Roost Senator Hill announced that "united Democracy can win a great contest in 1904 and rout the forces of plutocracy." A few moments later, in his speech, which was enthusiastically received, Attorney-General Cunnen laid great stress and emphasis upon the remark, "Men who rave about plutocracy are not good citizens."

THE FLOOD TIDE.

Now that there is a prospect of having our wharves put into the best of order, the work of dredging the harbor mouth should be pushed on. We have our great commercial opportunity now, and we should do everything in our power to seize the opportunity. We should remember that

> There is a tide in the affairs of men,
> Which, taken at the flood, leads on to fortune
> Omitted, all the voyage of their life
> Is bound in shallows and in miseries.

What is true of one man, is true of masses of men. The lines quoted above are generally applied to the opportunities of individuals, but they are really applicable to aggregations of individuals, as countries, states, territories or cities. Unless they catch the tide, and are carried on by the flood, they get entangled in the ebb and are left stranded in the shallows.

Bearing this in mind, and how important at this moment to the welfare of our Territory is our commercial prosperity, how childish much of the legislation which has been proposed in the legislature is, and how worse than childish have many of the so-called debates been. We can't help thinking of many of the members as no better than children digging with their little spades in the soft sea sand, and building toy castles, which will be washed away by the rising tide, that bears upon its breast the mighty ocean liners and the deep sea ships carrying a world's commerce, and embodying the united skill and brains of constructors, engineers and inventors.

It is almost, one may justly say it is utterly pitiful, to see how completely the greatness of the commercial issue is lost sight of, and how the most frivolous matters receive the most garnest attention. The main object of the Territory must be to increase its agricultural wealth, and to seize the commercial opportunity which will yield commercial wealth. Many things might go by default or might be waited for, but commercial facilities can not go by default and ought not to be waited for. The vote for the wharves, which has passed the Senate, should meet with no opposition in the House, but from previous experience, the latter is what we may expect. The merchants are alive to the chances, and the legislature should be guided by the advice of the merchants.

:o:

Kauai is to have its railway franchise in spite of Representative Kumalae, who has persistently opposed it. The Pauoa water scheme had had far more charms for this young statesman than the Kauai railroad.

:o:

The Pauoa water scheme has a very good chance of being vetoed. It is curious that in the House the country members have been the ones to back the scheme. Hence there have been so many kicks against Honolulu receiving so much public money, one is apt to look round for a reason why the country members should be so curious to expend a quarter of a million of dollars for the benefit of Honolulu, especially when a majority of the Honolulu representatives don't desire the benefit. The reason is certainly not on the surface, can there be anything underneath?

:o:

"Colonel" Lake is not a savory subject but it may be noted that even when he was proved guilty of a very mean piece of swindling some time ago, he received a great deal of sympathy from those who thought that Colonel was somewhat unjustly treated. He was supported by the extra good portion of the community, and made an easy raid upon charitable pocket books. Many a man who has only made a slight slip has received condemnation and found fast closed pockets, where a smooth talker like "Colonel" Lake has taken the full measure of the philanthropist's foot, and fitted a nice shoe on it.

:o:

Sir Thomas Lipton had another narrow escape the other day. Before the last cup regatta Shamrock II had a somewhat similar accident. King Edward was on board at the time and very narrowly escaped death. The disaster to Shamrock III has had a tragic termination. One of the crew was drowned, and Sir Thomas received some injury. The yacht, however, is undamaged and will be able to enter the race.

:o:

There is to be no extension of the present session. If the appropriation bills are not passed, there will be an extra session for the money bills. The legislature, this time, seems to be disposed to work, and barring a few foolish members has done very well indeed. Legislatures will improve as time goes on. In 1901 we reached the nadir of legislative foolishness.

:o:

Stanford is having an epidemic of typhoid fever. Some doctor has recently discovered what he claims to be a specific against typhoid. He might go to Stanford and carry out experiments upon an extended scale in a small area. Thirty-two cases are reported, and these could all be treated rapidly with the specific. But then there are people who do not believe in specifics.

:o:

The raising of the appropriation for wharves to $400,000 is undoubtedly a wise measure, even though other appropriations have to wait. The first thing we have to look after is our commercial prosperity. When the item comes before the House it should remain as it now stands. We need wharves very badly. Moreover they will prove remunerative to the whole Territory. They will be a paying investment.

:o:

The Pauoa gold brick has managed to pass the House and the Senate. There is, however, a very unpleasant odor about the scheme, and from the strong feeling displayed by some members of the lower house wherever the "odor" is mentioned, one is apt to think there is a nucleus from which the odor emanates. The gurgling of the Pauoa springs has a sort of metallic sound, and one is reminded of the words of the hymn which spoke of Africa's sunny fountains and a golden strand. Some of the old forty-niners should go prospecting up Pauoa.

:o:

The careless manner in which the bills have been copied, after their passage by the legislature, has been called attention to several times in these columns. The crowning point has been reached in the copying of the county bill. It is the most important measure which has been passed for years, yet it has been sent to the Governor in so mutilated a form, with mis-spellings, mis-punctuations, and omissions, that until it is properly corrected it cannot be signed. This condition of so important a bill does not speak well for the committee in charge. In fact it is openly stated that the work has been given to utterly incompetent people. This is a great pity, as it has delayed the work of legislation very materially.

:o:

The bids for the bonds to be issued for the payment of the fire claims did not come in in an overwhelming avalanche. Of course, though the amount seems to us large, it is a very small transaction, and capitalists do not care to be bothered with small affairs. The bid for a thousand dollars worth of bonds will not be accepted, because it would cost more than the money is worth to make arrangements for paying $40 interest annually in New York. The Governor is not obliged to accept every bid according to the regulations for the issue of the bonds. The question now is how much is each fire claims to receive in cash, and how much in bonds. Even when money is voted it is hard to get it. The fire claimants must be very hungry by this time.

Don't dip your fingers in the inkpot and then say the ink is "no good anyway." The stain is on your character as well as on your finger if you lose your temper.

When you have a good, cool seat on the electric car, keep it! Hang on tight! You are the only one that enjoys the "outside seat."

Should you see a man choking, laugh at him goodnaturedly and yell out, "Hope you choke!" It's funny. He sees the joke even if he doesn't tell you at the moment.

When the wind blows your hat about in the mud don't chase after it. Let it go. Stand still and laugh. You can "fool" the bystanders. They know you don't care a rap what becomes of that hat.

THE HAWAIIAN LANGUAGE.

From the Maui News.

English is the official language of the Territory and the Hawaiians wrong themselves and their children by seeking to revert to the official use of the Hawaiian language. We can but honor Hawaiians for the love they cherish for their old queen, their old flag and their old language, because if their hearts are true to those things, they will only the more surely be true and loyal to our present form of government. But the wheels of time cannot turn backward. A new order of things has come, and Hawaiians who are wise in their own generation, will make all these new things their own, and seek to live in the present and the future, rather than in the past. With some force it may be urged that many Hawaiians, otherwise capable of becoming good and wise legislators are handicapped by an insufficient knowledge of English, but on the other hand, there are as many, if not more wise and capable Hawaiians who do possess the requisite knowledge of English. Opportunities have been presented to all of them in the past to acquire a knowledge of English, and those of them who failed to grasp the opportunity must fall behind in the race. Hawaiians who hope to ultimately acquire statehood can find no broader or straighter road to that goal than that of a thorough and exclusive use and knowledge of the English language.

MANY AGAINST THE LONG BILL

SENATE HAS DISCUSSION OVER HOUSE MUNICIPAL BILL—MEASURE PASS SECON DREADING.

The preliminary fight against the Long Municipal bill creating a city out of the Island of Oahu, occurred in the Senate this morning. It ended in a victory for the Long bill advocates who succeeded in getting the measure passed second reading on the adoption of the report of the majority of the Judiciary Committee.

This morning Senator Cecil Brown as a minority of the Senate Judiciary Committee presented his report against the Long bill. Senator Achi and Senator Palmer Woods presented a majority report for the measure. The majority report made a large number of amendments to the House measure. This report was the same that was presented to the Senate last week, but withdrawn after a hot row had resulted over an attempt to force Senator Brown to file the minority report.

The report filed by Senator Brown today was in part as follows:

"The legislature has already passed an act providing for the incorporation and government of cities within the Territory of Hawaii which is now in the hands of the Governor awaiting his approval or disapproval. It seems to me that if the legislature of the erritory thought proper to incorporate the city and county of Honolulu it should have done so by making the provisions necessary for that purpose in the act already passed and referred to, and also to frame the act providing for the organization and government of counties in the Territory in such a manner so that the provisions of these two acts would not be in conflict one with the other. The Territory is no won the eve of a change in its political situation caused by annexation and the condition following that event and I believe that all changes should be gradual, and not made at once nor without any preparation for changes of a radical nature, especially in relation to our political affairs and existence.

"The organization into county governments and the work proper and necessaryto carry out the provisions necessary for that purpose, it seems to me, should first be thoroughly understood and properly carried out before we undertake the forming of a municipal government for the whole of the Island of Oahu.

"The act now in the hands of the Governor was drafted with that idea, and it is presumed the legislature in passing it thought likewise, and I do not see how at this late day the legislature should enact a law commanding the doing of an act when such act can be done in a manner that is duly provided for and designated by law. There are many provisions of the act under consideration that should be eliminated. * * * Should the Senate think proper to consider the bill with a view to its passage, many amendments to the bill should be recommended in addition to those of the majority, as well as amendments to the county bill." * * *

Senator Baldwin moved that the two reports be considered with the bill. This was voted down. Senator Kalauokalani's motion to adopt the report of the majority of the committee then came up for consideration. By adopting this report the Long measure would have been passed second reading. Senator Baldwin opposed the attempt to force the bill on the Senate. He declared that the bill should be read a second time. There had been altogether too much amending done on third reading and this had caused the mistakes and confusion in the various bills that had been sent to the governor.

Senator C. Brown declared that the Long bill provided no taxes. The time would come, declared Senator Brown, when every Senator who voted for this bill would be cursed from one end of the island to the other.

Senator Dickey also spoke against the measure.

Senator Achi defended the measure and said he would vote for it on account of the public demand for the law. The report was finally adopted by a vote of 8 to 5. Senators Woods, Achi and McCandless voting with the Home Rulers.

ASIATICS ON PUBLIC WORKS

SUPERINTENDENT COOPER REPLIES TO HOUSE RESOLUTION—GIVES POLICY OF DEPARTMENT.

The House received a reply from Superintendent Cooper this morning, to its resolution regarding employment of Asiatics on pubuic works labor. The letter contained the following:

"It is the policy of the department and officials acting under it have been advised accordingly to employ only American citizens so far as possible. But where citizen labor cannot be obtained, officials have been allowed the latitude of employing Asiatic labor rather than that the work should stop.

"No specific instructions to my knowledge have been issued to the Kona road board authorizing this step, during the incumbency of the present Superintendent, but I am informed that such discretion was conferred by former administrations.

"The department has been guided to a great extent by the local officials in this matter, and it is believed that not only is preference given to citizen labor but that Asiatic labor is absolutely excluded where other labor is obtainable."

With his letter Superintendent Cooper submitted a statement of which the following is a recapitulation:

	Amount paid citizens.	Asiatics.
Completing Huehue Road	$3,455.00	$8,491.60
Roads North Kona	5,394.40	1,443.65
Repairs Kailua-Keauhou	34.50	.....
Totals	$8,883.90	$9,935.25

The Miscellaneous Committee's reports recommending passage on second reading of the following bills, were all adopted: Oili's bill for the suppression of vice, Achi's bill to provide for quarantine of animals, Harris' bill to define and prevent the smoke nuisance. On the petition objecting to the appointment of Hitchcock as Sheriff of Molokai the committee reported that the matter was up to the sheriff and not within the purview of the House. Kupihea's resolution to send the band to Kalihi camp at 3 o'clock on last Sunday was approved, with an amendment providing that the Governor shall designate the time for the band to go. The reports were adopted.

The Public Expenditures Committee submitted a lot of reports recommending consideration of petitions for appropriations with the appropriation bill.

FOUGHT MANY BATTLES.

Rear Admiral Belknap Dead—Sounded The Pacific Ocean.

WASHINGTON, April 7.—A dispatch was received at the Navy Department to-day from Key West, announcing the death of Rear Admiral George ... Belknap, United States retired. Death resulted from Apoplexy. The deceased was detailed for duty in the execution of certain plans proposed by the general Board for establishing a Naval base. He will be buried at Brookline, Mass.

Rear Admiral Belknap entered the Navy in 1847, and rose by regular order of promotion to the rank he held. He fought with distinction during the Rebellion. He was executive officer of the new Ironside in twenty-seven engagements. In 1867, as commander of the Hartford, he was in charge of an expedition against Formosan natives. For a long period he was engaged in making soundings in the Pacific, and mapping the coast line. While engaged in this work he made the first correct reports on the depth of the Pacific and invented a device for bringing specimens from the ocean bed.

Belknap was assigned to the Mare Island Navy yard in 1886, and continued in charge for four years. In 1889 he was promoted to be Rear Admiral, and was in command of the Asiatic squadron until 1892.

THE DRAMA.

The Ellefford Company scored an unqualified success with their initial performance of the season, "The Lion's Heart," presented at the Orpheum last evening by a well balanced company, backed by special scenery and appropriate costumes.

The play is a melodrama of somewhat lurid effects and strong climaxes, which while not possessing the subtlety of an Ibsen problem play, do nevertheless, as far as ordinary mortals are concerned, make the breath come more quickly and the heart beat in smypathy when virtue triumphantly overcomes vice in the last act or while vice temporarily gets the upper hand at the beginning of the play.

While not underestimating the portrayers of the heavier characters, the Ellefford combination seems particularly fortunate in their comedians. Possible the style of play showed them to the greater advantage last night but the work of Corrigan an excellent actor and Myrtle Selwyn is of a character to be enjoyed at any time, the lady in addition being able to strengthen her popularity by songs rendered in a very sweet voice. True Boardman's specialty of Dr. Dooley-ooley-ooley was another hit.

The combination is well balanced and works harmoniously under the evident hard work of an intelligent stage manager. The company is decidedly superior to those of proceding seasons. Pietro Sosso proved a competent leading man with an excellent voice and natural manner. Lilian Elliot is eminently satisfactory in the role of heroine and leading lady. Lando and Edler deserves special mention in their portrayal of the "villains' parts," while Miss Washington was welcomed as a returning and clever member of last year's company.

Summing up, the Ellefords are a popular company at popular prices and have decidedly caught on. The crowded house that greeted them last evening will provide many free press agents for the remainder of the season. This evening "The Lion's Heart" will be repeated, being followed tomorrow by "In Mizzoura" a play much affected by Nat Goodwin.

THE WORD OF HONOUR.

The men who do as they say; the things that prove to be what at they were said to be,—how cheering it is to come upon them. We all hate to be deceived; especially when the deception is intentional. But all men are not liars, even if David did say so in his haste. If they were society would be impossible. Everybody knows that business is based on credit, on faith. Millions are bought and sold daily on nothing more solid than the pledged promises of men,—not written, merely verbal. The Stock Exchanges are often called nests of gamblers, yet nowhere is a promise held in greater honour. Therefore when we say that the tried and effective modern remedy called **WAMPOLE'S PREPARATION** never deceives any who resort to it in hope of benefit and cure, we may expect to be believed. For this assurance is given on what it has done in the past in countless cases,—on its record. It is only recommended to accomplish what it was *made* to accomplish. Its action in Chlorosis, Anemia, La Grippe, General Debility, Throat and Lung Troubles, Blood Impurities, etc. is convincing. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Dr. Austin D. Irvine, of Canada, says: "I have used it in cases where cod liver oil was indicated but could not be taken by the patient, and the results following were very gratifying." It is effective from the first dose and agrees with the most sensitive and nervous stomachs. It cannot deceive or disappoint you, and comes to the rescue of those who have received no benefit from any other treatment. It stands for the medical triumphs of the age. At chemists.

BATH MONEY.

Among the Turks bath money forms an item in every marriage contract, the husband engaging to allow his wife a certain sum for bathing. If she makes official complaint in vain it is a ground for divorce.

THE CUP DEFENDERS.

BRISTOL, April 18.—The speed trials of the cup-defenders Reliance and Constitution will take place next week.

Can't Eat

You certainly don't want to eat if you are not hungry. But you must eat, and you must digest your food, too. If not, you will become weak, pale, thin. Good food, good appetite, good digestion,—these are essential.

Mr. Robert Venus, of Launceston, Tasmania, sends us his photograph and says: "I suffered greatly from loss of appetite, indigestion, pains in the stomach, weakness, and nervousness. Several doctors tried in vain to give me relief. A friend then induced me to try Ayer's Sarsaparilla, for it had done him much good. The first bottle worked wonders for me. Soon my appetite came back, my indigestion was cured, and I was strong and hearty."

AYER'S Sarsaparilla

There are many imitation "Sarsaparillas." Be sure you get Ayer's.

Keep your bowels in good condition by using Ayer's Pills. They cure constipation, coated tongue, biliousness, sick headache.

"BRITAIN'S ENORMOUS DEBT"

YESTERDAY'S CABLE DOES NOT REFER TO HER NATIONAL DEBT, BUT AS IT STATES TO HER LIABILITIES—THERE DOES NOT SEEM ANY OBSCURITY IN THE MESSAGE.

Yesterday's cable concerning Britain's liabilities seems to have attracted a great deal of attention and aroused considerable comment. The assumption of most of those who discuss the matter is that the cable refers to Great Britain's national debt and that therefore either the cable is wrong or that the afternoon papers have in some way misinterpreted the cable. A consideration of the whole matter will make it clear, it would seem, that the cable is probably correct and that the only uncertainty is whether it is eight hundred billion dollars, as the Star construed the cable, or eight hundred million pounds, as the Bulletin construed it.

The cable as it was received by each of these papers is as follows:

"London Britain's liabilities 800 Billions."

This was construed by the Star and published as follows:

LONDON, April 20.—A statement issued today shows that Great Britain's liabilities amount to eight hundred billion dollars.

The heading used was

BRITAIN'S ENORMOUS DEBT.

The Bulletin construed and published it as follows:

LONDON, England, April 20.—A statement given today in the House of Commons shows Great Britain's liabilities to amount to £800,000,000,000.

The heading used by the Bulletin was:

BRITAIN'S BIG DEBT.

The Star supplied the word dollars because, as a rule, the Associated Press in its cables reduces sums of money to the value in dollars no matter what the denomination of account may be in the country to which it relates. Thus in Great Britain, pounds sterling is the denomination of account, in France francs, in Germany marks, in China taels, in Japan yen. But to avoid using these words in cable messages, adding unnecessary expense, the Associated Press, as a rule, reduces all amounts to dollars, leaving that one word to be supplied, uniformly.

The Bulletin supplied the character to represent pounds sterling, doubtless because in Great Britain, sums of money are computed in pounds sterling.

But the real point is that neither in the cable itself nor in the construing of it by the afternoon papers is it stated that this is Great Britain's national debt. In the cable and in the afternoon papers it is stated that the 800 billions is the amount of Great Britain's liabilities, which naturally include private as well as public debts.

The probabilities are that this cable chronicles a statement publicly made of the public and private debts of Great Britain, such a statement as commercial agencies like Bradstreet or Dun might make. The appalling total might well make the statement, of news interest throughout the world.

Yet, when cooly considered, it is neither, appalling nor disquieting. There will never be any call to pay it all at once. Therefore the ratio of money in circulation to this total of liability has no bearing on the subject. To a very large extent, these liabilities balance each other, so that the process of liquidation would be and is simply a process of cancellation.

Eight hundred billion dollars, enormous as it is, is probably not an overestimate. In the United States the national debt is practically one billion; the aggregate debts of 68 American cities is over a billion dollars. The capital of the national banks, which in financial computations is counted as a liability, is about three-quarters of a billion dollars. The life insurance companies must have another billion or so; the railroads easily a billion; the telegraph and telephone companies another billion or so. Add to these, farm and other mortgages, state, county, school, water works, irrigation district and other municipal bonds; the obligations of the trusts and other industrial enterprises, and all other public and private indebtedness, and it is probable that the liabilities of the United States will figure up 800 billion dollars.

And yet one $1,000 bill set moving in the right channel, might pay them all.

The national debt of the United Kingdom of Great Britain and Ireland, is given by the Daily News Almanac for 1903 as $3,060,926,304, which is not as large as Russia's nor France's, and not so very much larger than Italy's. To this however must be added the British Indian public debt of $1,031,603,705, besides the debts of other British colonies.

All of which goes to show that with the possible uncertainty as to whether it is pounds instead of dollars, the cable is not "mixed" as has been stated. The only "mixing" comes from reading into the cable as published something that neither of the afternoon papers put there. That is, the "mixing" comes from assuming that the cable stated that Great Britain's national debt was 800 billions, when the cable stated and the afternoon papers published that her "liabilities" were 800 billions.

MERRY SAYS THEY ARE FORGERIES

SO DESCRIBES THE LETTERS ALLEGED TO HAVE BEEN WRITTEN BY HIM TO MRS. MARY ASHTON—MRS. ASHTON SAYS THEY ARE PROBABLY GARBLED EDITIONS OF LETTERS RECEIVED BY HER.

The Examiner of April 12, says:

"The letters which are spoken of are forgeries. They were never written by me."—Admiral Merry.

"The letters printed this morning are probably garbled editions of letters written to me by Admiral Merry."—Mrs. Ashton.

BOSTON, April 11.—Rear-Admiral J. F. Merry, U. S. N., retired, is boiling with wrath at the assertion attributed to Frank Ashton of San Francisco that he has love letters written by him to Mrs. Ashton and will have them read at the trial of the Ashton suit over the custody of a child. He says they are forgeries and part of a blackmail scheme. "The Examiner" correspondent brought him the first information of Mr. Ashton's alleged intention. The Admiral was in the office of his counsel, Lawyer Dodson.

"I corresponded with Mrs. Ashton," he said, "when I was in the West, but the letters were letters of advice and in no sense love letters, nor did they contain any expression of affection.

"The letters which are spoken of are forgeries. They were never written by me."

"And," interposed Lawyer Dodson, "they are libelous."

In the course of the conversation both gentlemen said that they had heard nothing of Mrs. Merry reopening the divorce case, and Mr. Dodson said that under the law of Massachusetts she could not do this if she wished.

Mrs. Merry is at present in Virginia. She never knew the Ashtons. Admiral Merry went to New York this afternoon. He says he will engage an attorney and protect his name at all cost. He was to have been one of the honorary pallbearers at Admiral Belknap's funeral, but instead he went to New York upon this business.

To show the high regard in which Admiral Merry is held here it may be said that a deputation from the Boston Chamber of Commerce waited upon Governor Bates yesterday and requested Merry's appointment as chairman of the Massachusetts nautical training school in Admiral Belknap's stead.

MERRY SAYS THEY ARE FORGERIES

(Continued from page 6.)

OAKLAND, April 11.—Another phase in the battle for the guardianship of pretty Aytla Leonie Ashton materialized today, when the the mother of the child, Mrs. Mary Ashton, filed a petition in Judge Green's court asking that she be given the custody of the child. It is understood that Mrs. Hattie Holland, whose petition to be appointed guardian of the child comes up in court April 22d for a hearing, has come to an agreement with the mother and both will exert their efforts to the end that the mother be given the care of the child.

"The letters printed this morning," said Mrs. Ashton today, "are probably garbled editions of letters written to me by Admiral Merry. The friendly portions of the letters I have no doubt the Admiral wrote. The portions in which he refers to me with affection were interjected into the letters by Mr. Ashton and his attorney, Ben Woolner. I repeat that I knew Admiral Merry only as a casual friend. Admiral Merry did sympathize with me in my troubles with Mr. Ashton, and he may have referred to that in a letter written to me."

The letters in question were made public by Attorney Ben Woolner, Frank Ashton's legal adviser, who represented that they had been written to Mrs. Ashton by Admiral Merry. Woolner denies that he had anything to do with the production of the letters.

"I have not seen them for some time," he said. "Ashton gave them to me, and I gave them back. I have not seen them for several weeks. I think Mrs. Ashton is mistaken in saying they were distorted or garbled."

GRAND HEGIRA OF OFFICIALS

GENERAL OFFICES OF WELLS, FARGO & CO., TO BE MOVED TO NEW YORK.

SAN FRANCISCO, April 14.—The general offices of Wells, Fargo & Co., which have been maintained in San Francisco ever since the establishment of the company over half a century ago, are to be removed to New York next month. President Dudley Evans and several other officials, whose offices are now located in the company's building at Second and Mission streets, are now engaged in packing up their effects preparatory to establishing themselves in the Eastern metropolis, and it is announced that there will be a general hegira of officials and clerks from the company's local offices shortly after the first of the month.

At repeated intervals for a year past there have been persistent rumors that the general offices of the company would be removed to New York, and the rumors have been emphatically denied as often as they made their appearance. The announcement is now officially given out that the oft-rumored charge is to be made. E. H. Herriman is said to be largely responsible for the innovation. Harriman, who is interested in the affairs of the express company to the extent of the Southern Pacific's ownership of stock in the corporation, is said to have been desirous for some time past to be placed in closer touch with the general office officials and with the other members of the board of directors, and has not met with much opposition in his effort to have the affairs of the company managed from offices in New York.

The matter was fought out at a recent meeting of the board of directors, at which a resolution was adopted providing for the removal of the general offices during May. Two prominent Eastern officials of the express company are now here assisting President Evans in adjusting the affairs of the local offices preparatory to the transfer of the company's general office affairs. They are E. A. Stedman, manager of the Atlantic division, with headquarters in New York, who is at present a guest at the Palace Hotel, and R. A. Wells of Kansas City, manager of the company's central division, who is making the Occidental Hotel his headquarters.

It is announced that the offices of the president, vice-president and general manager will all be established in New York, and possibly some of the lesser department heads. Just to what extent the local offices will be relieved of their clerical force is not stated. This is a matter that will have to be studied out, the officials say. The two superintendents of divisions whose offices are now located here will continue to conduct the affairs of their departments as under the old regime, with headquarters in this city. Directors' meeting will henceforth all be held in New York, as well as the annual meetings of the company, and the new arrangement, it is said, will in all probability necessitate some changes in the personnel of the board.

CHARGES AGAINST HITCHCOCK.

Attorney General Andrews and High Sheriff Brown are investigating charges preferred by Mrs. Emma M. Nakuina against Sheriff Hitchcock of Molokai. Mrs. Nakuina says that when she landed at Kaunakakai on March 27 a car with Hitchcock and others on board started down the causeway, which is fifteen feet from the ground, and that though she called to those on board to stop they whipped up their horses and she had to jump to save herself. As she jumped she was struck by the car and stunned. A week before that, says Mrs. Nakuina, a native was struck in the same way and probably fatally injured.

WAS ACCIDENTALLY KILLED.

A verdict of accidental death was returned yesterday by the coroner's jury in the case of Massaio a Japanese child. The little fellow was struck by an electric car last Saturday in Kalihi and died of his injuries.

DIED OF HER INJURIES.

Hirada, a Japanese woman died Sunday afternoon from the effects of injuries sustained by stepping off an electric car while it was moving at the corner of King and McCully streets.

BONILA IS PRESIDENT.

Associated Press Cable to the Star.

HONDURAS, April 20.—Bonilla is President. Arias is imprisoned and Sierra is a fugitive.

About four months ago the people of Honduras voted to elect a President to succeed General Sierra. There were only about 55,000 people eligible to vote under the constitution, but notwithstanding this fact about 80,000 votes were cast and of these Manuel Bonilla, one of the three candidates, received a plurality. President Sierra's term of office expired on February 1, and since that time Manuel Bonilla has been endeavoring to obtain possession of the Presidential chair. Under the circumstances the government took the ground that a new election was called for. The Honduras Congress took this view and sent Sierra into the field to subdue Bonilla.

To those unacquainted with Honduras the mention in the dispatches that a man named Bonilla was seeking the presidency led to the belief that ex-President Policarp Bonilla, the man whom some style "the Abraham Lincoln of Central America," had fallen away from his beliefs and taken up the Spanish-American idea of ruling by revolution. But ex-President Bonilla is leading a retired life in the capital and the man who has wrested the reins of government from Sierra is almost unknown outside of Honduras. He is known to be a comparatively young man and was brought forward by the Liberal party in 1891 as a candidate for President. He was defeated and finally driven out of the country as a conspirator. He took up his residence in Nicaragua and later with Nicaraguan rebels was defeated in an attempt to wrest the Presidency from Vasquez. Guatemala is said to have favored his cause.

Bonilla's army has been successful since the opening of the revolution three months ago.

General C. Arias, who is reported as being imprisoned, is a popular man in Honduras. He was President of the country in 1872, and has been in command of troops endeavoring to defeat Bonilla.

General Sierra has been President for about five years.

THE WORK IN THE SENATE

MANY BILLS UNDER CONSIDERATION—PARK FOR HILO—APPROPRIATIONS FOR SIX MONTHS.

The Senate this morning received several reports from the Judiciary Committee. One reported favorably on Senate Bill No. 140, giving magistrates power to issue commissions to take testimony. The report was adopted by the Senate, which passed second reading.

Senate Bill No. 179 which makes necessary reforms in the Treasury department; Senate Bill No. 181 which knocks out the provision permitting arrest for non-payment of taxes, and House Bill No. 141 increasing the penalty for vagrancy from six months to twelve months were favorably reported upon by the Judiciary Committee. The reports were adopted which passes them on second reading.

The House returned the Senate Bill regulating the employment of labor on public works with an amendment that this eight-hour rule should not apply to Saturdays or holidays. The amendment was concurred in.

GAELIC BRINGS LATER MAIL

ARRIVES THIS MORNING FROM SAN FRANCISCO AFTER AN UNEVENTFUL TRIP.

The S. S. Gaelic arrived this morning from San Francisco with three days later mail and news files. She left San Francisco April 14. Pleasant weather was experienced. Nothing of interest occurred during the voyage. The Gaelic brought no stop over passengers for this place. She has only a fair sized crowd of through passengers for Oriental ports.

Among her passengers are Rev. R. P. Alexander and family who are going out to Yokohama.

Mrs. A. C. Buell and Dr. and Mrs. E. L. Patten are New York tourists who are bound to Yokohama. They will attend the Osaki Exposition.

O. H. P. Noyes is the tea buyer of Jardine, Mattison. He is going to Yokohama.

Mrs. E. Emery and daughter are going out to Shanghai, from where they will proceed to Tien Tsin to join Mr. Emery who has charge of the establishment of the new mint at that place.

Dr. W. V. Koch and wife are going to Hong Kong where he has a government appointment in a medical corps.

Charles Cuttriss and W. H. Grant are engineers of the cable company, who are bound to Hong Kong in connection with laying the American cable from Manila to Honolulu.

Thomas J. Rose is the secretary of the big dock company at Hong Kong. He is accompanied by his wife.

Mrs. C. G. Smith is the wife of the secretary of the Philippine Commission. She is going to Yokohama and will wait in that place until the next Manila bound steamer arrives.

W. L. Crow is the purchasing man for Van Dine the New York curio dealer.

The Gaelic will sail at 5 p. m. today for the Orient. She will not go to Manila this trip.

NOTICE OF FORECLOSURE AND SALE.

Samuel C. Allen v. Nettie L. Scott et al.

Notice is hereby given that pursuant to a decree of foreclosure and sale made by the Honorable W. S. Edings, Judge of the Circuit Court of the Third Judicial Circuit, made on the 9th day of April A. D. 1903, in the above cause whereby the premises covered by that certain mortgage of Nettie L. Scott and M. F. Scott, of the District of Kona, Island of Hawaii, Territory of Hawaii, Mortgagors to Samuel C. Allen, of Honolulu, Island of Oahu, Territory of Hawaii, Mortgagees dated June 1st, 1900 and recorded in the Register office in said Honolulu in Liber 267 at pages 310, 311 and 312 were duly ordered sold to satisfy the said mortgage, I shall on the 29th day of April A. D. 1903 at the Court House at Kailua, Island of Hawaii, Territory of Hawaii, offer for sale and sell at public auction to the highest bidder all the right, title and interest of Nettie L. Scott and M. F. Scott, the Kona Sugar Co., Ltd., and F. L. Dortch as Receiver of the said Kona Sugar Co., Ltd., in and to the said premises, which are as follows:

"All that tract of one thousand acres of land situated in Holualoa, 1 and 2 North Kona, Hawaii, Territory of Hawaii, said land being in one block and bounded on the West by the upper Government road, North Kona, Hawaii and on the north and south by the North and South boundaries respectively of Holualoa, 1 and 2, and on the east by a line drawn to include said amount of 1000 acres; the said land being part of the premises described as Apana 43 of Land Commission Award to Victoria Kamamalu the said land being also described in a lease from M. A. Gonsalves, E. Hutchinson and William Lishman, co-partners to Nettie L. Scott, dated August 30th 1892 and recorded in the Hawaiian Registry of deeds Lib 140 pp 437 and 438.

"Also two acres of land situate at Laula, Holualoa, Kona, Hawaii, in the Northwest corner of the land described in Royal Patent 1593 to Naniani containing 80 acres, said premises being described in a lease from J. K. Nahale to Gonsalves & Co., dated December 15th, 1891, recorded in the Hawaiian Registry of Deeds in Liber 140 pages 132 and 133, and in lease from Kaelehiwa, Olahana (w) dated December 1st, A. D. 1891."
