Mrs. Booth Tucker In a R. R. Wreck

ONE OF THE DAUGHTERS OF GENERAL BOOTH, THE FOUNDER AND LEADER OF THE SALVATION ARMY, KILLED IN A RAILROAD COLLISION NEAR KANSAS CITY—HER CAREER.

Associated Press Cable to the Star.

KANSAS CITY, Missouri, Oct. 29.—Mrs. Booth Tucker was killed in a railroad wreck today. Mrs. Booth Tucker was a daughter of General Booth, founder of the Salvation Army. Her husband was in early life converted through the Salvation Army and to the Salvation Army methods, and joined its work, and a few years later married the daughter of the founder of the Army. He and his wife had charge of the work on the continent for a while. Some years ago, Ballington Booth, who had been the commandant of the American forces of the Army, and Mr. and Mrs. Booth-Tucker who had been in command in Canada, were appointed to succeed him. Ballington Booth and his wife, however, refused to accept a recall from America to England, and left the Army, organizing the Volunteers of America, which have had some success in some parts of the country, but nothing like the widespread success that the Army has had. Like the husbands of each of the daughters of General Booth, Tucker added his wife's name to his own, following a custom quite usual on the continent, and not unusual in England.

CHARGES OF FRAUD AFTER TEN YEARS

REMARKABLE ALLEGATIONS IN A SUIT FILED AGAINST THE JAMES CAMPBELL ESTATE—KAILUA SAYS SHE WAS FORCED BY THE LATE MILLIONAIRE TO SIGN A DEED FOR VALUABLE REAL ESTATE.

Some very sensational charges against the late James Campbell and also against Cecil Brown, are set forth in picturesque and even poetic language in a complaint filed this morning in the Circuit Court by Attorney J. P. Ball, representing Kailua (w) against the trustees of the Campbell estate. Kailua claims to have inherited valuable property from her daughter and to have been forced, by physical violence, to sign a deed transferring it to James Campbell, in 1893. Her complaint begins as follows:

"Now comes Kailua, by her attorney, J. P. Ball, a resident of Honolulu, Oahu, Territory of Hawaii, an aged woman who for many years has been wrongfully deprived of certain valuable properties situate within the jurisdiction of this Honorable Court and asks to be permitted to unfold her tale of wrongs that the same may be looked into and investigated by this Court with a view of having her said wrongs righted and of securing to herself and surviving heir said properties to which she is rightfully entitled and of which she is deprived by illegal and inequitable means and which have been wrested from her by deception fraud, force and undue coercive influence and without her assent and consent and without any lawful consideration whatsoever, by James Campbell, formerly a resident of said Honolulu, but now deceased, whose estate is made respondent herein, through the Trustees thereof, Abigail K. Campbell-Parker, Joseph O. Carter and Cecil Brown."

The plaintiff sets forth the fact of her daughter's death, when owner of the property, and says that Campbell claimed ownership from another deed, but knowing that he had no title conspired to get the property from her, knowing that she was weak in intellect and of less than ordinary firmness, and that he laid and executed plans to wrest it from her by fraud and duplicity. The complaint says that Campbell conspired with Cecil Brown to seize the property by force and deception and that they entrapped her to leave her home and that at the office of Brown she was shown a deed which she refused to sign. Plaintiff says:

"That when after much persuasion and coaxing your petitioner still refused to voluntarily sign said prepared document, her hand was then taken hold of by said James Campbell, an inked pen placed therein, and she was then and there forcibly and without her consent and against her intent and contrary and against her will made to touch or imprint upon said prepared document a scratch or mark which your petitioner has since learned purported to be her name or signautre all of which this petitioner strenuously denies and disavows, and now affirmatively declares that though forced by violence to imprint said mark on said document that it was against her will and wish and that the same is not her signature, made thereto voluntarily or of her own will, nor is it her signature at all."

After denying that she ever acknowledged the signature, and repeating her charges of fraud, the plaintiff says:

"Petitioner verily believes and therefore states to be the fact that she has been made the victim of a conspiracy to divest her of valuable properties and that depending upon her submissiveness of temperament characteristic of her people, and of her financial inability to prosecute to a finalty in the courts her claims herein set forth, and further depending upon the potency, wealth and influence of those whose interests she would necessarily antagonize by prosecuting her claim herein, said James Campbell, deceased, and successors have since the 6th day of November, 1893, placed this petitioner in such a state of unfixedness of purpose that she has been for years in a state of uncertainty of mind whether to completely lay down and surrender as a weak and docile victim of a well-laid and successful conspiracy, or whether to assert her just rights and stand the assaults and imprecations of those high in social and financial affairs. Depending upon the fairness, integrity, ability, independence and love of justice of the courts of this Territory, and after many years of doubt and vacillation, fear and trembling, and on the very eve of the time limit of law, and as her sun is partly dipped in the horizon of life, though she leaves a son still in the meridian of life, this petitioner now presents her case to this Honorable Court for adjudication, feeling that though low and humble herself, and notwithstanding the overtowering and superior status of her opponents, yet even-handed justice will be meted out to her and her heir and that no undue and unconscienable advantage will be allowed to be taken of her."

Immediate possession of the property and damages in the sum of $10,000 are asked.

DISASTER AT SEA.

Associated Press Cable to the Star.

HAKODATE, Japan, Oct. 29.—The Japanese merchant vessel Tokaimaru was sunk today at sea not far from this coast in collision with the steamer Progress. Forty-four were lost in the disaster. Hakodate is on the Island of Ezo, one of the northernmost of the Japanese group.

The Tokaimaru is a steamship of good type which was used as the flagship of the Japanese transport fleet which carried the Japanese army across the Gulf of Pechili during the war between Japan and China.

SIGNING IS BEGUN

SIGNING THE ISSUE BY TREASURER KEPOIKAI AND REGISTRAR HAPAI WILL BE FINISHED THIS AFTERNOON AND THE EXECUTED BONDS WILL BE TAKEN TO NEW YORK ON THE KOREA.

Secretary George R. Carter arrived on the Siberia this morning with a million dollars' worth of Territorial bonds, accompanied by F. H. Howland, of the United States Mortgage and Trust Company, who came to witness the signature of the bonds, make affidavit that they were signed by the proper officials and take them back to New York on the next steamer. According to the arrangements made it is believed that the cash will be available for use here by about the 25th of next month and that the bonds will sell for over 98.

The bonds are a remarkably fine piece of engraving. The paper is made specially by the Trust company and the steel engraving is as fine as can be done in the world. The name, "United States Mortgage and Trust Company" is done in tiny letters which can scarcely be read without a magnifying glass, almost all over the design and over the spot where Treasurer Kepoikai and Registrar Hapai affix their signatures. It is impossible to scratch or alter anything on the paper, which represents the latest and most perfect work done in preparation of such documents.

Less than an hour after the Siberia docked the bonds were in Secretay Carter's office,and Treasurer Kepoikai and Registrar Hapai began the work of affixing their signatures.Howland sat at the table with them, representing the trust company, to whom he will make affidavit that the proper Hawaiian government officials wrote their signatures. This done he will take the bonds back and they will be placed in the vaults of the trust company, which will handle them. About the time they get back, bids will have been accepted, and by the 24th of this month, says Secretary Carter, the money will probably be available for use here. Cable arrangements can be made in the meantime, for the acceptance of bids and transfer of money.

"Hawaii is the first Territory to get such assistance from the national government as we have in this matter," said Secretary Carter. "The result was due more to the activity of friends than to any efforts I was able to use. Mr. Shaw was away, I think in Ohio, when the matter received favorable consideration from others and he was telegraphed to and replied that he would be back the following Saturday. We had to wait until then. When he gave out his decision allowing the bonds to be received as national bank securities it was cabled over the country by the Associated Press, and I received inquiries from Denver, Richmond and other places, showing the interest aroused. The inquiries were sent to the Treasury and referred to the Interior Department and then to me.

"The best argument I was able to use in favor of our bonds was that since our first loan made fifty years ago, in spite of all the changes of government Hawaii has gone through, no payment on a loan has ever been repudiated. This was very effective at Washington and with all bankers and bond dealers. I spent much of the time making the acquaintance of bankers and other financial men and booming our issue.

"It is hard to estimate what the bonds will bring," said the secretary in answer to a question, "but I feel sure that they will bring more than 98. If I had not thought so I should not have reduced the rate of interest to 4½. If under the law I could have made a private sale, I could have had the money here forty days ago and sold the bonds at a higher price than the bid of Pollitz, which was 98. The firm of Baring, Magoun & Company of New York, which handled the British loan of fifty

SUED FOR DOING A FAVOR.

Because a good hearted business man was kind enough to go on a friend's bond a few years ago, he has been a party to a long-drawn-out and expensive lawsuit, and the end is not yet. It would have been many times cheaper and less annoying for him to have paid the henry waterhouse trust company to furnish a good surety bond for his friend.

BUTTONED TO CHRISTIANITY.

And When Button Hole Broke Savage Convert Benged.

NEW YORK, Oct. 11.—Dr. Parkhurst delivered himself of a story in the course of his sermon in the Madison Square Presbyterian church this morning. This is the story:

"An African chief converted and moved to London, where he wore fashionable clothes and behaved in every way as an irreproachable man. One day he was giving a lecture in a church on the advantages of a peaceful, civilized life. His collar did not fit well, and in attempting to adjust it he tore open the buttonhole.

"The ripping shirt band brought back all his old savagery, and he shouted out that civilization was all a sham, and he wished he was back in his old life. Whereupon he pulled off his collar, his coat, and trousers, and finally stood in the garb of the unadorned savage. Then he set fire to the church and took to the woods.

"If his buttonhole had been a little stronger," added Dr. Parkhurst, "he would probably have remained an irreproachable man the rest of his life. That's the way with much of our civilization and virtue. A very small thing will reveal the real conditions."

Shaving with ordinary razors is not "easy" for anybody. It takes months yes, years of practice, and few, during this period escape many and serious cuts. Even with experience despite care, cuts may be inflicted. Use the "NEW GEM" SAFETY RAZOR, shave every morning with absolute EASE COMFORT and SECURITY. None who have tried them truthfully gainsay this. BE YOUR BEARD ROUGH OR MILD, WITHOUT THE SLIGHTEST DIFFICULTY, WITH NO EXPERIENCE, YOU CAN GIVE YOURSELF A CLOSE, CLEAN SHAVE.

Once used, you'll never give up the "New Gem" Safety Razor.

DR. SLOGGETT COMING BACK

IS APPOINTED SUPERINTENDENT OF THE ASYLUM FOR INSANE. THE SITE QUESTION.

The Board of Health yesterday afternoon made a unanimous choice of Dr. Sloggett for superintendent of the Asylum for Insane. Dr. Sloggett sent his application from Shanghai, where he went some time ago to take the position of medical inspector for the Oriental Insurance company. He will be cabled the news of his appointment and is expected to start here at once. Other applicants for the position were Dr. C. F. Peterson and Dr. E. S. Goodhue.

President Cooper called the attention of the members to the matter of choosing a new site for the asylum. He said that the Palolo site appeared to be favored by the Governor and Superintendent Cooper and mentioned some of its advantages. A choice should be made as soon as possible, said Dr. Cooper, and he advised the members to give the matter consideration and make a recommendation.

A letter was received from Secretary Hawes, stating that Governor Dole had been asked for a pardon for Akiona, who is doing time at the settlement for selling swipes. On report by Superintendent McVeigh that a former prisoner after pardon had immediately gone into the same business again, the board asked the governor not to pardon Akiona.

Thomas K. Nathaniel's petition for permission to import pork and fish over the settlement pali was denied, as likely to furnish opportunities for smuggling tabu goods into the settlement. Nathaniel will have to bring his stuff in by steamer and have it inspected at the landing. John Kiaaina's petition to have his wife come to him as a kokua was granted.

A regulation prohibiting the manufacture of swipes at the Settlement was adopted.

Dr. E. S. Goodhue tendered his resignation as Government physician for Lihue and Koloa, to take effect December 31. Dr. C. R. McLean applied for the position having the backing of McBryde Sugar Company which has engaged him as plantation physician.

The Lihue people wanted their plantation doctor appointed, but the Board decided it was better to have Dr. McLean as residing in a central location.

Harry Kanakahi was appointed clerk in the Health office at $50 a month.

Solomon Paawela was appointed assistant fish inspector at the public market.

Dr. James R. Judd was recommended for a license to practice medicine on a favorable report of the board of medical examiners.

Dr. J .T. McDonald, bacteriologist, was granted leave of absence for five weeks from October 5, with full salary.

OAHU COLLEGE AND ITS LIBRARY

THE ISLAND INSTITUTION OF LEARNING MAKES AN APPEAL TO ITS FRIENDS FOR BOOKS.

Oahu College has sent out to friends a circular letter giving facts about the library at Punahou." It is an appeal to friends for funds and books for the library. It is as follows:

The trustees of the college realize that there are a large number of friends of Punahou who are grateful for what it has done for them and who are anxious to assist in its work for others but who feel able to contribute only a small sum. This appeal is sent out especially to reach them. It asks them to show their good will towards the College and their interest in its progress by giving from their library some useful book or set of books or a sum of money to buy books with. Our library fund is small and we must rely upon the generosity of our friends to give us the books we need. Already, we have had two gifts of $100 each for immediate expenditure and we feel confident that, when our wants are known, many friends will generously respond.

The following is a list with the prices of books very much needed in the College work. It does not contain, by any means, all of the books which are wanted but is suggestive of the kind that are desirable. A gift of any of these books, or of money by which they may be purchased will help to make the work of the teachers and of the students easier and more efficient.

(Here follows a list of standard works in science, biology, economics, history, and belles lettres, and the circular then proceeds.)

In addition to the above books, stories for young people, sets of standard fiction, books of travel, adventure, and science and books of general interest and instruction are much needed in both the College and the Preparatory School.

Books for supplementary work in English and History are most in demand. Although not many are enumerated above, sets of standard authors, critical texts on the books studied for the college examinations in English and the lives and works, notably, of Scott, Chaucer, George Eliot, Shakespeare, Macaulay, Burke, Milton, Thackeray, Goldsmith, Tennyson, Irving, Lowell et al, standard histories, biographies and books bearing on historical, religious, scientific, and literary problems and advances are necessities for the best work in the class-room. And for these we solicit your contributions in any amount that you can afford to give.

An attempt is also being made to collect a small special library of readable and interesting books by which it is hoped to cultivate habits of reading among the board students. Contributions of single volumes of good fiction or of books of interest to boys and girls will be thankfully received. May we not receive from you those novels and other books which you have read and enjoyed that others may enjoy them too?

THURSDAY.....OCTOBER 29, 1903.

EDUCATION AND CRIME.

The greatness and success of the United States is based upon the free school system, but it takes all of our efforts to overcome the dense mass of ignorance which is imported monthly from the countries of Eastern Europe. Eastern Europe is much worse educated than Western Europe. Of all countries in the world Germany stands pre-eminent as being well educated and she has been in the lead since 1840. Scandinavia and Switzerland show an equal advancement, but their population are small, and therefore more easily handled.

A recent publication in Germany has been reviewing the educational question and has prepared some very interesting tables upon the subject. Taking the year 1840, the year in which modern educational movements may be said to have got fully under way, and comparing it with the year 1896, the year for which statistics are completed accurately for most countries, for some statistics are wofully behind, the percentage of those who could read and write in those years is as follows:

Country.	1840. Per ct.	1896. Per ct.	Country.	1840. Per ct.	1896. Per ct.
Great Britain	59	94	Spain	14	42
France	47	95	Holland	70	90
Germany	82	99	Belgium	45	83
Russia	2	22	Scandinavia	80	99
Austria	21	69	Switzerland	80	99
Italy	16	56	United States	80	83

These figures show a wonderful advance, and they show some terrible defects. In 1840 only two per cent of the inhabitants of Russia could read and write, and even at the close of the century only twenty-two people out of every hundred were able to do so. Spain remains wofully ignorant, since at the close of the century less than half the population could read and write. The percentage of those able to read and write in the United States in 1890 was 92 per 100, and it will be noted that in six years it had sunk to 83 per 100 of the population. It was during this period that the immigration from Western Europe began to fall off, while that from Eastern and Southern Europe began to increase enormously, and is increasing enormously today. Russia, Hungary, Austria, the Danubian provinces and Italy have been pouring in their surplus population, and the effect has been to throw down the percentage of education in the United States. This is a very serious question, and it must be remembered that these hordes of ignorant immigrants keep increasing instead of diminishing, and that New York, for instance, cannot cope with the educational question, and has had to turn away children from the schools by the thousands.

There is another basis where we can gain some insight into the comparative educational merits of European nations. In most of them the system of conscription holds, and here absolutely accurate figures can be obtained. Great Britain has no conscription and therefore does not appear. Of the young men thus called to military service the following table shows the number per thousand who were unable to read and write:

Country.	Per 1,000	Country.	Per 1,000
Germany	1	Austria-Hungary	220
Sweden	1	Greece	300
Denmark	4	Italy	380
Switzerland	22	Russia	620
Holland	40	Servia	790
France	49	Roumania	890
Belgium	128		

Germany again stands first and until one passes France on the list, the numbers per thousand are small. Belgium is a surprise, and from that onward the figures make a dreadful showing. Russia with 620 out of every thousand unable to read or write. Russia may have an immense army, but it must be a terribly ignorant one, and we have found that an educated army is almost invincible, while an ignorant army, though it may be brave, is subject to panic.

Here is yet another test of the advance of education. The number of men in Great Britain who could sign the marriage register was 67 per cent in 1841 and 88 per cent in 1888; of the brides, 51 per cent could write in 1841 and 84 per cent in 1888. In France 55 per cent of the women and 71 per cent of the men could write in the marriage register in 1861 and 78 per cent of the women and 86 per cent of the men in 1883. In Italy the conditions, though bad, are encouraging. In 1871 only 23 per cent of the women were able to write in the marriage register; in 1883, 33 per cent. It all indicates the marvelous progress of modern times in the matter of education. France in particular is a shining example. She now leads, and Germany steps back from first place. The amounts paid by France for education increased more than fivefold from 1860 to 1892. Between 1880 and 1892 they more than doubled. In other words, they went from $6,664,000 in 1860 to $15,708,000 in 1880 and $35,224,000 in 1892, although the population was practically at a standstill.

Now the question is how education affects crime. There are two views of the subject. Mulhall, a great authority, was of the opinion that there was a direct connection between ignorance and crime. As a proof of this he furnished the following figures showing the illiteracy and crime in Great Britain:

Description.	1841-1850	1851-1860	1861-1870.	1871-1880.	1887.
Children at school to every 1,000 of population	11	26	47	82	125
Criminals to each 1,000 of population	122	96	68	50	38

Die Woche, commenting on this, says: "The number of youthful criminals fell from 45.8 per 100,000 of population to 21.5, and this brilliant result was attributed by Mr. Mulhall directly to the improvement in education. Now, we are the last in the world to depreciate the value of education as an aid to good morals and civic virtue, but it seems to us to be going too far when we give the school all the credit for this great change for the better. For, alas! in other lands, equally well provided with schools and educational facilities, the number of youthful criminals is increasing. In Germany 741 per 100,000 of population in 1886 and 873 in 1895 were condemned for crimes; but the number of youthful criminals went up from 31,500 to 44,380, or from 89 per 1,000 to 98 per 1,000 of those sentenced. There was an increase in youthful crimes of 40 per cent, while the population increased but 10 per cent. This shows that the connection between crimes of young people and education is not so close as Mr. Mulhall would have had us believe."

On the other hand ignorance is undoubtedly a prolific mother of crime for the same paper has to acknowledge "that there is a close connection between prostitution, vagabondage—this fruitful mother of crime—and crime. Among the masses of women who sell themselves the illiterate make up by far the largest part; on the other hand, the highly educated supply only a vanishing fraction. In Paris, out of 4,470 examined 2,392 could neither read nor write, 1,780 could barely read and write, and only 110 could do both well. In Manchester, not 1 per cent of those examined could read and write. Dr. Baer, the distinguished advocate of temperance, tells us that of Germany's criminals 14.4 per cent were analphabets—persons ignorant of the alphabet. In some penitentiaries east of the Elbe 54 per cent were illiterates. There is doubtless a connection between education and the decrease of crime but one must not forget that the almost miraculous change in England is largely due to the wonderful advantages offered by the progress in material things through which England has passed during the last fifty years."

The contention of the German periodical is that better education is not the only factor in progress, but that material prosperity cheap food and clothing, with the elimination of want as a temptation has had very much to do with the decrease of crime in some countries. There is much food for thought in this most interesting subject.

President Diaz of Mexico is the last ruler that has been a mark for a would be assassin. Of course every body knows that Diaz rules despotically, but he has certainly used his power for the advantage of his country. To the political assasin, however, it seems as if it matters not whether a ruler is a despot or an elected head of a state. He is against law and order, and should be dealt with as a wild beast.

Another Volcano has started up in Central America. Nicaragua is having quite a serious eruption. Few places are as fortunate as we are. When we have an eruption it does no damage, and affords a fine sight to those who are fortunate enough to visit our volcanic mountain.

Spain is having a serious strike which may end in bloodshed, for the troops have been called out in Bilbao and martial law has been proclaimed. It is all a part of the general unrest which seems to be permeating every port of the world ust now.

"Wait till my troops arrive" is the song of Viceroy Alexieff in Manchuria. Peace talk will be continued until the extra fifty thousand rifles reach Port Arthur or its vicinity. Then we shall have war rumors again.

When Russia talks peace it is time to look out for war. Russian diplomats always say the opposite of what they mean.

The name of Sylvano Nobriga comes forward continuously as selling adulterated milk. He is punished but the punishment seems to have absolutely no effect. The law against selling adulterated milk is not stringent enough. If Nobriga's milk were destroyed, as it would be in some cities of the mainland, he would very soon come to time, and would not be so defiant.

The high estimation in which Judge Estee was held by the community was shown by the large number of citizens who attended his funeral.

A solution of the difficulty between the American Government and the Friars in the Philippines will do much to straighten affairs out in those islands.

The strike situation at Bilbao in Spain has become a very serious one. A number of people have been shot and still more wounded. Spain is honeycombed with conspiracies, which are ready to break out into riot or revolution upon any opportunity. The strike will, in all probability, not be connned to the present limits and many of the conspirators will take a hand. The Socialists in and around Barcelona are always itching for a fight.

Our volcano keeps up its work, and shows no signs of diminution. More people have visited the summit of Mauna Loa within the last four weeks, than have ascended that mountain height in ten years previously. The present eruption is certainly continuing for a very long time and must be a grand sight.

To be alone on the Pacific, out of sight of land, and with no one in the boat who understood navigation, must have been an almost hopeless position. How the boatswain's boat from the Connetable de Richemont ever managed to bump on to Niihau seems marvellous. "The sweet little cherub that sits up aloft and takes care of the life of poor Jack," as Dibdin or one of the sea song poets write must have given special attention to the boatswain and his helpless crew.

Uncle Sam is looking after his interests in Hayti. The successful revolutionists in that Republic have a way of burning consulates and levying contributions upon foreign merchants, which eccentricities can only be put a stop to by means of six-inch shells and quick firing guns.

Canada having agreed to arbitration does not show a particularly good spirit in kicking at the award over the Alaskan boundary.

AN EXTRAORDINARY COUNTRY.

Louis Sherry, the caterer, tells an amusing story of a chef whom he brought from France. The chef, before his contract with Sherry began, lived in idleness for a month in Brooklyn. During the month he walked all over Brooklyn ,and he dined all over it as well. What impressed him was the multitude of churches that he saw and the uniformity with which everything he ate was served with a melted butter dressing. At the month's end when he reported for duty, Mr. Sherry said to him:

"Well Alphonso, you have had a month to look about you. What do you think of America?"

"It is an extraordinary country," Alphonso answered. "It has twenty religions and only one sauce."—Washington Times.

HOME RULERS AFTER CARTER

Want Him To Overrule Attorney General's Opinion Regarding Ballots.

Senator Kalauokalani and other Home Rulers called upon Secretary Carter this afternoon to discuss with him the matter of throwing out ballots on which there are errors in voting. The senator called this morning and asked to see Carter, and an appointment was made for later in the day. Kalauokalani and his associates object to the opinion of Attorney General Andrews to the effect that one error throws out a whole ballot.

Carter is inclined to take the view that he has notning to do with the legal end of the matter. The Home Rulers want him to ignore the opinion of the attorney general and instruct election officers throughout the Territory to the opposite effect. Carter, however, holds that it is the attorney general's business to interpret the law.

An instruction will probably be sent out today or tomorrow. The election officers on other islands will be notified by wireless except such as it may be possible to reach by mail before election day.

THE PROPHET DOWIE IN NEW YORK.

Has Rather a Turbulent Time With His Audiences and Some of His Followers Are Discouraged.

NEW YORK, Oct. 22.—Two hundred of the followers of John Alexander Dowie indicated that they were tired of the work of reforming New York city, and wanted to return to Zion City, when the "general overseer" invited all who wanted to give up the work and give others a chance to take it up to step forward at the early morning meeting in Madison-square Garden today.

Dowie at that meeting said he should endeavor to convert the Pope. He added that he had received many bogus checks since coming to New York, but that others had been good.

Turning his attention to kissing, Dowie said people should be careful of their kisses and use them carefully even in the family.

"Why, my son Gladstone never kissed a woman outside the family," he said.

About a thousand of the audience left the hall. A group of young men added to the disturbance by yelling and pounding on the side doors of the garden. Dowie closed the service suddenly.

A great crowd filled Madison-square Garden tonight at the Dowie service, and a still greater crowd massed out-side the big building. Two hundred and fifty police were gathered there to preserve order, but tonight their services were little required. The subject of Dowie's address was "The Claims of Christ as Universal King."

"The consummation of the age is rapidly approaching," he said, "and my mission is to tell you that the great and terrible day of the Lord is very near. God has never given up the government of his own world. What a farce to suppose that God, the creator, the sustainer, has relinquished his control. To whom? No. There is but one form of government acceptable to God, and that is theocratic government. Failures of men to understand the simple laws of God have been the cause of all human misery."

He recited a number of lines of verse and spoke a prayer, which his followers repeated after him a few words at a time.

"I desire to say that admission hereafter will be by ticket until a quarter after 7," he said, after the choir had sung. "After that hour the public will be admitted if there are any vacant seats. I desire to say that there will be no charge for the tickets. They will be given freely. our programme will be given freely. If you wish to give you may give freely.

Here the audience arose and began to leave and a brief benediction was spoken.

GIVE CONTROL OF ALUMINUM YIELD.

Sweeping Decision Given in a Patent Case Involves Entire Production of White Metal.

NEW YORK, Oct. 22—A case involving the entire aluminum industry of the country was decided here, when the United States Court of Appeals handed down a decision upholding the validity of the so-called Bradley patent for smelting by the use of electricity.

The suit was one brought by the Electric Smelting and Aluminum Company of Cleveland against the Pittsburg Reduction Company, the only concern manufacturing aluminum in this country, and the court reversed the decision of the lower court, granted the Cleveland company an injunction restraining the Pittsburg Reduction Company from the use of the process at present employed, and ordering an accounting of the profits for the time it has been manufacturing aluminum in infringement of the Bradley patent, some twelve years.

The Bradley patents sustained by the court were taken out by Charles S. Bradley in 1891 and 1892, and covered the use of the electric current to fuse and electrolize a material, the current acting both to maintain the compound in a fused state without the use of external heat, and to separate it into its constituent parts, aluminum being separated from clay in this manner. The patent is a general one, applying to the electrolysis of any material.

" BREAK UP THE GANGS."

Complaints are made in this as well as in other cities that gangs of young ruffians are causing trouble, and that they not only insult and threaten people, but that they are responsible for most of the minor robberies that occur. The mob which is the gang grown larger, can usually be handled, and the mob at its very worst is not responsible for a tithe of the loss that is caused by the gang. Mobs have caused hangings and burnings, and the sum-total of these murders and the subsequent violence against property, is considerable. But in New York alone there is not a week that passes without death occurring from the fights in which the gangs delight. New York is but one city, and all other cities fall in line in proportion to their size. The gang is the breeding place of the criminal. Young men who are too cowardly to act alone do not hesitate to act in concert with other youths of like viciousness and like cowardice. The result is an appalling list of crimes ranging from insult and assault to burglary and murder. There is in Worchester the nucleus of gangs that would go as far as any in the large cities. Usually these gangs are the primary school of tramps and criminals produced here. It is safe for the police to act on the presumption that the gang intends no good, and the police should consider it their duty to break up the gangs. It is only in this way that the city can be assured of safety.—Worchester Telegram.

AN OPEN LETTER

The undersigned nominee for supervisor of the County of Oahu, duly chosen by the primary delegates in Republican County Convention, having been physically disabled for the last three weeks to appear before the public hereby wishes to express himself in a few remarks in the columns of The Star.

TO THE VOTERS OF THE ISLAND OF OAHU:—

As the election day draws near, my earnest hope is that the electors will see the great necessity to cast their votes in favor of the Republican party.

It is the party whose credentials are honesty of purpose and determination to serve the wishes of the people to the best interest and welfare of all.

It is the Republican party who rules and governs the United States of America, and under its progressive and protective policy, its present national prosperity, financial and commercial, are so great, that she has become the envy of every nation.

The present county act is the child of the Republican party, and it is necessary to have the fostering care of its parent in its young days.

The results after its introduction will depend very much into whose hands the guidance and management it is entrusted to therewith.

The public official is the trustee of the people's confidence, and in executing their mandate he is responsible to them and no one else.

That those who hold office must not place upon the rank and file who elect them the stigma of corruption nor force faithful public servants to bear the odium of the misconduct of others.

Clean appointments, a capable police force, a business administration efficiently and honestly conducted, improvement in all directions, the desire to obtain for all citizens, security, health, comfort and happiness. Such is my conception of a good Republican county government.

I believe that that Republican serves his party best, who serves the people faithfully.

The election of the ticket that you have nominated will be but a step in the direction of Republican supremacy throughout the islands.

Success at the polls this year is not enough; it must be followed by a government of the county so efficient, so excellent that it will disarm criticism and meet the expectations of Republicans throughout the islands.

If the Republican party on attaining power is to retain it, it must show itself worthy of the trust.

To secure the success of the Republican ticket at the polls, will require the unanimity of action of every Republican to vote the straight ticket. Republicans may differ before the party convention has been held, as it is their right to do, but when ascertained Republicans are always loyal to the party.

I ask the people of Oahu to remember that we are not fighting this year for the triumph of any one man or any aggregation of men, but that we are struggling for good government in Hawaii nei and for the Supremacy of Republican principles.

Let us then forget the differences and the preferences of yesterday in the hope of the victory of tomorrow.

The launching of the county government into being, I would liken to the launching of a life boat to rescue life from off a wreck cast upon a dangerout reef. If the boat is manned with her complement of stalwart and experienced crew, used to each other, disciplined to obey orders given, having confidence in each others abilities, true to each other in case of danger. Such a crew can have the confidence of every one that they will accomplish what they so heroically started out to do. Would one have any confidence at all knowing that say half the crew were not to be depended on to pull together? Such a crew would bring disaster upon themselves and every body in the boat with them.

The law of cause and effect here comes in to play, or in the words of the parable: As ye sow, so shall you reap.

It behooves every voter to think seriously of how his own individual vote is going to help bring about good feeling. Prosperity and happiness and confidence in the land or just the very opposite; every man woman and child has to bear their share and burden for we are all in the one boat.

As a citizen of the county of Oahu justly proud of the confidence of so many of his fellows, as a Republican loyal to the platform adopted at the county convention, and profoundly grately for the honor shown by his party for the nomination I thank you.

FIND THE LETTER FIRST.

A young and venturous man was one day talking with the wife of a member of the cabinet about some of the ironies of married life. "I can't imagine anything more dreadful," said he, "than for a woman, after mending her husband's coat, to find in one of the pockets an old love letter from a former sweetheart." "Fortunately, that could never happen," said the lady. "The woman would find the letter first, and then she would not mend the coat."—New York Tribune.

Can't Eat

You certainly don't want to eat if you are not hungry. But you must eat, and you must digest your food, too. If not, you will become weak, pale, thin. Good food, good appetite, good digestion,—these are essential.

Mr. Robert Venus, of Launceston, Tasmania, sends us his photograph and says:

"I suffered greatly from loss of appetite, indigestion, pains in the stomach, weakness, and nervousness. Several doctors tried in vain to give me relief. A friend then induced me to try Ayer's Sarsaparilla, for it had done him much good. The first bottle worked wonders for me. Soon my appetite came back, my indigestion was cured, and I was strong and hearty."

AYER'S Sarsaparilla

SILVER GOES UP.

NEW YORK, Oct. 13.—Commercial bar silver today touched the highest point established in years, 28d. per ounce in London and 60½ to 60⅝ cents here. The advance abroad is equal to ⅝d. as compared with yesterday's closing.

The New York market for silver reflects the price established in London, where the market has been strong for several months, the advance being attributed in great measure to the demand from India and to purchases by the United States Government for Philippine account.

Twenty-five cents pays for a Want ad in the Star. A bargain.

CARTER BRINGS THE BONDS

(Continued from page one.)

millions, offered to hand me a certified check for the entire issue, if I could give a negotiable receipt, but this was not possible under the law.

"The United States Mortgage and Trust Company did everything possible for me. They prepared the form of the bond and submitted it to Judge Dillon, also the form of the advertisement. They discussed the question of reducing interest and went out and made inquiries reaching people I could not reach, and it was on their advice that we reduced the interest.

"Judge Dillon is a remarkable man, a plain, hardworking lawyer of the old school, painstaking and careful. He went into every detail. There was no difficulty until he wanted to see the House and Senate journals and then I thought for half an hour that I should have to come back empty handed and tell Hawaii to wait another two years. Judge Dillon wanted to know if the journals showed that the loan act had passed three readings on separate days and had finally passed by a vote of the ayes and noes. The journal showed that the last passage in the Senate was by adoption of the conference report, and I could not show him by the journal that the ayes and noes were taken in the Senate. The difficulty was overcome, however. But the judge remarked that if the legislature of Hawaii cared to hear a suggestion from one so far away, he would advise that the final action on any bill be by recorded ayes and noes, to comply with the Organic Act.

"I was glad to make the acquaintance of officials in the Treasury Department and Attorney General's Department and become more familiar with their views and requirements as to Hawaiian affairs. I found many people interested in us and ready to assist us."

Secretary Carter spoke with regrets of the deaths of United States Judge Estee and ex-Delegate Wilcox. He had many callers during the first few hours after his arrival and a meeting of the Executive Council also claimed his attention.

Kepoikai and Hapai went steadily ahead with the signing of bonds getting through about 600 in the first hour, or signing their official names to $600,000 worth of securities for the loan.

The form of the bonds and coupons is as follows:

(FORM OF BOND.)

Number — UNITED STATES OF AMERICA. — Number
(Territorial Seal.)
$1,000 — TERRITORY OF HAWAII. — $1,000
Public Improvement Bond, Series 1903-04.

The Territory of Hawaii hereby acknowledges itself indebted for value received and promises to pay to the bearer the sum of

ONE THOUSAND DOLLARS

in gold coin of the United States of America or its equivalent at the present standard of weight and fineness, on the first day of October, 1918, with interest thereon at the rate of four and one-half per centum per annum payable semi-annually on the first day of April and the first day of October, on the presentation and surrender of the interest coupons hereto attached as they severally become due. The principal and interest of this bond are exempt from any and all taxes whatsoever and the payment thereof constitutes a charge upon the consolidated revenues of the Territory of Hawaii. Both principal and interest of this bond are payable at the office of the Treasurer of the Territory in Honolulu, Hawaii, or, at the option of the holder hereof, at Wells, Fargo & Company's Bank in the City of New York. The Territory of Hawaii reserves the right to redeem this bond at the end of five years from the date hereof, or at any time thereafter, on the payment of the principal and accrued interest.

This bond is one of a series of one thousand bonds of like date, tenor and amount, issued pursuant to an Act of the Congress of the United States of America, entitled "An Act to provide a government for the Territory of Hawaii," approved April 30, 1900, and pursuant to an Act of the Legislature of the Territory of Hawaii, entitled "An Act to provide for public loans," approved April 25, 1903, and an Act of the said Legislature entitled "An act making special appropriations for the use of the Government of the Territory of Hawaii during the two years which will end with the 30th day of June, A. D. 1905," approved July 11, 1903, and the said issue of bonds has been duly approved by the President of the United States.

It is hereby certified that all the conditions, acts and things essential to the validity of this bond exist, have happened and have been done and that every requirement of law affecting the issue thereof has been duly complied with, and that this bond is within every debt and other limit prescribed by the laws of the United States and of the Territory of Hawaii; and that the faith and credit of the Territory of Hawaii are hereby irrevocably pledged to the punctual payment of the principal and interest of this bond according to its terms.

In Witness Whereof the Territory of Hawaii has caused the official seal of its Treasurer to be affixed hereto and this bond to be signed by its Treasurer and by its Registrar of Public Accounts and the coupons hereto annexed to be signed with the engraved or lithographed signature of its Treasurer this first day of October, 1903.

A NOVEL BET.

Chicago has an alderman, in the person of Stanley Kunz, who has a somewhat novel way of backing up his convictions of municipal affairs. He has contended that the city has been paying exorbitant prices for street paving, and now that certain contracts are to be readvertised, he has wagered $5000 against two new hats that the price will be less than $4.22 per square yard. The hats are put up by the president and secretary of the board of local improvements, respectively.

NEW DESCRIPTION OF REAL PROPERTY

JUDGE WEAVER EXPLAINS THE NEW SYSTEM OF DESCRIPTION BY TRUE AZIMUTHS.

One of the new regulations of the land court is one requiring the description of real property by true azimuths. The following is an explanation of the change and of the new system by Judge Philip Weaver, Judge of the Land Court.

It is of interest to the owners of real property to know that the surveyor of the Court of Land Registration has included in his rules of survey for the court an important and simple change which will alter descriptions of real property hereafter to conform to the more modern methods of the United States Geodetic Survey. Almost all of the surveyors of Oahu have been interviewed and have approved the change on account of its great simplicity. It is proposed by these surveyors hereafter, to follow the rule of the Court of Land Registration in their surveys by describing all land by true azimuths. The surveyor of the Territory has issued orders that all descriptions of government land be made with true azimuths.

J. B. Johnson on the Theory and Practice of Engineering has the following definition, page 11:

"The azimuth of a line is the angle it forms with the meridian, and is measured from the south point, west, north, east, south, to 360 degrees. It becomes a definite direction when the angle alone is given."

To illustrate what this method is, let us take a compass with the circumference of the dial divided into 360 degrees, beginning to number at the south, which is marked 0. West is marked 90 degrees; north, 180 degrees; east, 270 degrees and south, 360 degrees, or zero. Let us suppose that the minute hand of a clock be attached to the compass with the hand pointing due south, or at VI o'clock. The direction taken by the hand is described as zero, or 360 degrees. This pointer may be supposed to move from left to right, as the hands of a clock, on the dial. The direction taken by this pointer is the direction of the line described. The direction of the pointer is indicated by the number of degrees it has traveled from the south, as read on the dial; as for example, due west is described as "90 degrees," or due east as "270 degrees." To take another example, let us look over an old description of the southerly line of Thomas Square on King street, Honolulu. We find that it reads: North 20 degrees 42 minutes east; this becomes by azimuth 200 degrees 42 minutes.

By moving the pointer from south around by west and north, we have passed 180 degrees, and we move the pointer 20 degrees 42 minutes eastward in addition thereto, or a total of 200 degrees 42 minutes from the starting point.

The measurement of the direction of the line on the ground is always taken to begin at the center of the dial and to run toward the circumference, as in this case from the center toward the mark 200 degrees and 42 minutes.

The method is simple in itself, and avoids the many chances of mistake which arise by interchanging the letters E and W in the old method of descriptions. Many errors are made also by describing the line running on the ground, as going north when the intent is to go south. Let us illustrate by reference to an old fashioned description of Thomas Square in Honolulu:

Beginning at the south corner of this land and running: 1, north 20 degrees 42 minutes east 650.5 feet along Victoria street; 2, north 58 degrees 12 minutes west 447.6 feet along Beretania street; 3, south 20 degrees 42 minutes west 644.5 feet along Kapiolani street; 4, south 69 degrees 18 minutes east 447.6 feet along King street to the point of beginning.

The new description would read:

Beginning at the north angle of King and Victoria streets, said point being 56.0 feet from a concrete post at the east angle of King and Victoria streets, as shown on government surely registered map No. 1100, of Kulaokahua, Honolulu, made by C. J. Lyons, surveyor, in 1873, and running by true azimuths:

1—200 deg. 42 min., 650.5 feet along Victoria street; 2—111 deg. 48 min., 447.6 feet, along Beretania street; 3—20 deg. 42 min., 644.5 feet along Kapiolani street; 4—290 deg. 42 min., 447.6 feet along King street to the point of beginning. Area 6 6-100 acres.

It may be noted that this description ties the corner to a government fixed monument, and refers to the surveyor's name with the date of survey, all of which are required by the rules of survey.

This method simplifies the getting of the angle of two lines such as one and two above. Subtract 111 deg. 48 min. from 200 deg. 42 min. and the difference 88 deg. 54 min., gives the angle at that corner. It can thus be seen that this method is simpler and more direct than the old one of dividing the compass into quadrants, and describing by them, and has the indorsement of many surveyors experienced in Hawaiian descriptions. Letters have been written to all the known surveyors on other islands, and all the replies received have been favorable. The reform is only launched and meets with the general approval of surveyors.

WAS HOLLOW FUNERAL.

How Some Relatives Jobbed Husband and State Corpse.

PAWTUCKET, R. I., Oct. 11.—Behind the quiet funeral of Mrs. Adilla C. Scharpless, which took place at the Friends' meeting-house in Sayleaville today, is a strange story of the secret removal of her remains and of the original casket and their shipment to this city, while her husband unknowingly accompanied an empty coffin to the cemetery at Springdale, Iowa.

Mrs. Scharpless was for fifteen years a preacher at the Friends' meeting-house in Sayleaville, and married E. V. Scharpless, a Friends minister of Salem, Iowa, since then residing there. She possessed a considerable fortune, and her relatives did not look upon her marriage favorably.

When she died a few days ago the funeral at Salem, Iowa, was attended by Pawtucket relatives, and the husband declared his intention of burying her at Springdale. The details were left to a nephew, who secretly removed the body and sent the empty coffin to Springdale. Scharpless will attempt to recover the body by legal process.

WEDDING TONIGHT.

The marriage of Miss E. F. Allen and Arthur R. Lyon will take place this evening at the residence of Mr. and Mrs. A. J. Lyon, Green street.

MARRIED.

WALL—DAVIS—At Halekuland, Waikiki, the residence of Mr. and Mrs. Arthur F. Wall, Honolulu, Hawaii, October 28, 1903, Canon Mackintosh officiating, Miss May Roselle Davis, daughter of Mr. and Mrs. F. C. Davis of Modesto, Cal., to Major Thomas E. Wall, N. G. H., of the well-known business house of Wall, Nichols Company. The ceremony was performed at 8:30 o'clock. The bride was given away by Robert Lewers. A reception followed the ceremony, and later the bride and groom took the train for Waialua where the early part of their married life will be spent. Later they will reside at the corner of King and Richard streets.

DIED.

ESTEE—At Miss Johnson's Sanitarium Honolulu, October 27, 1903, at 8:55 a. m., following a surgical operation performed October 24, for a kidney disorder, Morris M. Estee, United States District Judge for the District of Hawaii. He was born at Freehold, Pennsylvania in November 1834 and removed to California in 1853. He came to Honolulu to take his position as Judge in August 1900. In 1863 he married Frances, daughter of Judge Devine of San Jose, California. She survives him as does also one daughter, Mrs. Charles J. Deering of San Francisco. Funeral services under Masonic auspices were held in Central Union church, October 28, and the body was sent the same day to San Francisco, accompanied by the widow, by the steamship Alameda.

PADUCAH ON FIRE.

Associated Press. Morning Service.

LOUISVILLE, Ky., October 29.—The city of Paducah is burning. The loss has already reached $250,000.

Paducah is the county seat of McCracken County, Kentucky, and is situated at the junction of the Ohio and Tennessee rivers, in a region abounding in coal, iron, agricultural, and hardwood industries, and it has a large agricultural river, and manufacturing trade. It contains a number of tobacco factories and warehouses, a ship yard, timber mills, and wheel factories. It has a population of about twenty thousand people and in the past has been noted as having a very well equipped fire department.

SEEKS TRADE IN ABYSSINNIA.

Associated Press, Morning Service.

NAPLES, October 29.—U. S. Consul Skinner has sailed for Abyssinnia to visit the Emperor Menelek.

Consul Skinner is on his way to Abyssinnia to make a trade treaty for the United States with the latter country. His mission has created a great deal of talk in Europe as it is considered that America is endeavoring to get trade that rightfully belongs to other countries. America already sells a vast amount of goods to Abyssinnia but most of these sales are made through London agencies. Skinner hopes to induce the Abyssinnians to export their fine coffees to the United States and take our goods in return.

MOODY AND A GRAND JURY.

Associated Press. Morning Service.

PORTLAND, Ore. October 29.—Ex-Congressman Moody has been indicted by the Federal Grand jury for withholding a letter belonging to another. Moody says it is a political scheme.

Malcolm A. Moody has represented the second district of Oregon in Congress for the past four years. He is a Republican and has been prominent in Oregon state politics and in national affairs. His father was Governor of Oregon from 1883 to 1887.

SIBERIA GOES TO MANILA

BROUGHT GOOD SIZED CROWD OF WELL KNOWN HONOLULUANS HOME—TOURISTS FOR ORIENT.

The S. S. Siberia arrived this morning from San Francisco after an uneventful trip. She brought a good sized crowd of passengers for Honolulu and had an unusually large crowd of through passengers. She is going to Manila this trip. The vessel is loaded deep with through freight. She went to the Naval wharf No. 2. She was greete dby a large crowd of people, as many well known Honolulu people were returning home. The vessel takes 500 tons of coal at this port.

W. G. Cooper, cashier of the First National Bank returned from a brief trip to San Francisco.

George R. Carter returned from his trip to the mainland in connection with the disposition of the Territorial bonds.

O. St. John Gilbert returned from a trip to California taken for his health.

C. C. von Hamm and wife returned from a trip to California.

A. B. Wood and family were returning Honoluluans.

N. S. Sachs and wife returned from a trip to the mainland.

Associate Justice Antonio Perry returned from a vacation on the mainland.

P. C. Jones was a returning passenger.

Mrs. A. C. Lovekin, son and nurse, returned from a nextended visit to her family in the east.

E. Halsted was a returning passenger.

Commanders G. B. Harber and H. Osterhaus are going out to Yokohama for assignment to duty on the Asiatic station.

Mrs. E. E. Custer the widow of the famous General Custar who was massacred at the Little Big Horn by Sitting Bull's Indian forces in the seventies, is a through passenger for Hong Kong. She is a member of a party of tourists that is under the guidance of Mrs. M. A. Crosley. There are three other parties o ftourists aboard the vesel, bound for Hong Kong.

The Siberia will sail for the Orient and Manila at 10 o'clock tonight.

IROQUOIS LOADING FOR MIDWAY TRIP

WILL TAKE 20 TONS FREIGHT FOR MIDWAY CABLE EMPLOYEES—BUYING OUTFIT FOR OPERATOR

The U. S. S. Iroquois may be able to get away for Midway Island tonight. Captain Rodman I staking the stores and other material aboard as fast as possible. About 20 tons of supplies will be taken to the cable station. A new outfit for S. McMichel the cable operator was ordered purchased by the cable officials and Manager Gaines of the local station has been busy purchasing the articles desired by the young man who lost all of his possessions when the Whalen was wrecked at Midway last week.

Captain Rodman will take a deckload of 2,000 feet of lumber for Fremont Morse of the Coast and Geodetic Survey office. Whether this load will be aboard the vessel when Midway is reached is problematical, in fact Captain Rodman has very grave doubts that it will. The weather is likely to be so rough going down that the lumber will probably be washed overboard.

The Iroquois has 205 tons of coal aboard at the present time. She may be given an additional 20 tons of sacked coal which will be put on deck.

Some minor repairs are being made to the machinery. After their completion the Iroquois will sail for Midway.

PRIVATE SLIP TOO SHALLOW

SIBERIA COULD NOT DOCK AT USUAL PLACE AND HAD TO GO TO NAVAL WHARF.

The need of deepening the harbor and slips and keeping them dredged was shown in a most striking manner this morning when the S. S. Siberia arrived from San Francisco. The vessel ordinarily would have gone to the Bishop slip. F. W. Klebahn the shipping representative of the local agents took the precautio nhowever to go out to the Siberia and ascertain how much water she was drawing. He found that she was drawing about 26 feet 9 inches forward and about 27 feet six inches aft. The vessel was loaded quite deep. In additio nto this condition, she required 500 tons of coal. This additional load would have brought her further down in to the water, so Klebahn at once realized that it would not be safe to have her dock at her usual berth. There was not over 28 feet of water in the Bishop slip and in some pjlaces, there was even less.

The Naval authorities were appealed to and asked if the Siberia could not go alongside the Naval wharf No. 2. The U. S. S. Iroquois was receiving her load for Midway at that slip, but the vessel was kindly moved over to the Waikiki side of the slip so as to enable the Siberia to dock. The docking of the vessel was delayed almost an hour by reason of the Bishop slip not being deep enough to accommodate her. Captain Sanders the pilot made a very pretty landing with the Siberia, the docking being almost perfect. It was 9:45 a. m. before the gangway was put in place.

TO CANADA.

A little while before John F. Gaynor took up his residence in Canada for his health he went to a lawyer and told him the story of his life and asked him what he thought about it from a legal standpoint. The lawyer, who was an old friend, looked Gaynor over and said, "You don't need a lawyer, John; what you need is a locomotive." And John took the locomotive.

Coughs Quickly Stopped

If you know what to take. They seem to be prevalent just at this time and we are having a continuous call for one of the best remedies ever sold here for coughs and colds.

Putnam's Cherry Cough Comfort

is so well known that it seems hardly necessary to mention the name because this remedy will be found in every home. The moment a cough developes a few doses stop it. You want to nip the cough at the start then it's easy. An old cough is troublesome to cure, but Putnam's Cherry Cough Comfort will stop any cough that's curable.

Another reason for its wide popularity is, it is easy to take. Children do not object to it. It does not contain injurious ingredients, like opium, but is made principally from the extract of wild cherries, one of the best remedies for throat and pulmonary troubles known.

Insist on having the genuine Putnam's Cherry Cough Comfort, and accept no other that is recommended "just as good" because you will be disappointed.
