KING PETER WOULD QUIT

SUCCESSOR TO THE ASSASSINATED RULER OF SERBIA IS ALREADY ANXIOUS TO LAY ASIDE HIS CROWN—PROPOSES TO RELINQUISH THE THRONE AND HAVE THE POWERS NAME HIS SUCCESSOR.

Associated Press Cable to the Star.

VIENNA, Jan. 19.—King Peter of Serbia has proposed to renounce his throne. He desires to relinquish the rulership of the kingdom and proposes that the Powers of Europe name his successor on the throne. The dangers of assassination and the difficulties of government are understood to furnish the reasons why he has so soon decided that he has had enough of kingship.

RUSSIA IS TO ANSWER

Associated Press Cable to the Star.

TOKIO, Jan. 19.—The Russian reply to Japan's latest note will, it is expected, make concessions, but it is possible that they will be insufficient to prevent hostilities.

NUMBER DEAD INCREASING

Associated Press Cable to the Star.

BLOEMFONTEIN, Jan. 19.—The damage done by the bursting of the reservoir was much greater than was first reported. Sixty people were drowned instead of thirty.

Mysterious Movement Of Russian Troops

Associated Press Cable to the Star.

PORT ARTHUR, Jan. 19.—A column of Russian troops numbering 4,000 men will leave for the northward tomorrow. Their destination is unknown. It is thought that the movement of this force is in connection with the possibility of a Japanese landing party in Korea.

REICHSTAG TO SUCCOR GERMANS

Associated Press Cable to the Star.

BERLIN, Jan. 19.—The credits for the expenses of the South African expedition to protect the German colonists in that section passed second reading in the Reichstag today.

KOREANS ARE ANTIFOREIGN

Associated Press Cable to the Star.

SEOUL, Jan. 19.—The anti-foreign feeling is increasing. It is expected that demonstrations of violence will soon be made. It is likely that the various legation guards will be increased.

American Consuls Named

Associated Press Cable to the Star.

WASHINGTON, D. C., Jan. 19.—President Roosevelt has sent to the Senate the nominations of F. D. Cheshire as consul-general to Mukden, J. W. Davidson as consul at Antung, and E. V. Morgan at Dalney.

Henry Waterhouse is resting easily today.

TO DISPLACE MEDICINE

DR. HUMPHRIS SAYS GREAT STRIDES HAVE BEEN MADE IN USE OF ELECTRICITY FOR MEDICAL PURPOSES IN LAST TWO YEARS—WAS DISAPPOINTED IN THE PROPERTIES OF THE NEW ELEMENT, RADIUM.

Dr. F. Howard Humphris returned from the R. A. Siberia last week from an extended absence of six months on the mainland and in England. During his absence Dr. Humphris visited London, New York, Pittsburgh and other places. His trip to England was made in the interests of his borax mine in Lower California. He decided not to complete the deal whereby his mine would have been sold, but preferred to retain control of the property which is proving very valuable.

Practically all of his time was devoted to attending lectures in the New York colleges of medicine. Dr. Humphris had not been in New York for two years. He was especially impressed with the advances that had been made in electro-medical science during that time.

"The advance that has been made in electricity," he said "for medical uses has been most remarkable. The advance within the last two years has been as great as any other within the past twenty four years. I regard electricity as the coming medicine. Not that we shall be able to dispense entirely with drugs for I do not think that condition will be reached, but certainly astonishing results are obtainable by the use of electricity. Cases which had hitherto been regarded as in-

CLERKS RETURN TO PUBLIC WORKS OFFICE

THE DEPARTMENT RUNNING WITH A FULL FORCE AGAIN INSTEAD OF ONLY ONE CLERK AS AFTER JANUARY 4—WORK GIVEN TO SUPERVISORS GOES BACK TO THE DEPARTMENT.

The Public Works Department is running with a complete staff again, in view of the determination of the administration to carry on affairs under the old appropriation bills. On January 4 a majority of the clerks retired from the service, as there was no provision in the new bill for more than one clerk and a stenographer.

Today Superintendent Holloway reinstated the clerks. It is expected that all will get the salaries they would have got if the six months' bill had been made the law for the entire period of two years. All the work which the department turned over to boards of supervisors has been turned back to the department, and it is running again as it was before January 4.

PAHOA DEAL COMPLETED

THE GOVERNMENT PAYS \$75,000 OF LOAN MONEY FOR THE PAHOA WATER WORKS—DIAMOND HEAD RESERVOIR WILL BE FILLED AND MAINS LAID TO SUPPLY KAPIOLANI PARK.

Superintendent Holloway today completed the deal for the purchase of the Pahoa waterworks and appurtenances, provided for by an appropriation of loan funds. The legislature provided \$75,000 for the purchase. The deeds were signed and turned over today by Gear, Lansing and Company, and the cash was paid.

The government's purchase includes land reservations, two artesian wells, pipe lines and a Risdon pump having a capacity of three million gallons daily also a reservoir with a capacity of about 600,000 gallons. The supply is stated to be constant and sufficient for Kaimuki and Waikiki districts. Rights of way for mains are also acquired by the government.

One of the immediate results of the completion of the purchase will be the provision of a water supply for the improvement of Kapiolani park, and the relieving of the Beretania pump of a large part of its work. Under present conditions the Beretania station has to pump water to Waikiki, over such distances that a great deal of power is lost by friction. The new supply will be distributed throughout Waikiki and Kaimuki.

Superintendent Holloway will call for tenders for laying mains from the Pahoa supply to Kapiolani park. A twelve inch main will probably be laid. Diamond Head reservoir will be filled

An Extra Session Is The Alternative

Only an extra session of the legislature can relieve the situation if the supreme court decides that the government cannot legally proceed under the six months' appropriation bill or the

REFUSED THE GIFT OF A MILLION

Most people have heard of Albert Hubbard, Prince of Hypocrites, of Aurora, New York. He is the leader of a cult which has in it some of the elements of genuineness of perception and of handicraft of the Pre-Highlanders, of the hatred of materialism of Ruskin, of the labor-of-the-hand of later faddists, all tinged with the bonhomie of the blower criticism. Lately, he with his son has started a college or school in which the students shall earn their own living by the work of their hands, while pursuing their studies. The school is a protest against the tendency towards heavy endowments which institutions of higher learning have shown of late. John Pearson, a rich and somewhat eccentric banker of Chicago offered to give a million dollars to carry on the work of this school but, his offer was refused, as being subversive of the very foundation principles Hubbard had in mind. Last year Mrs. Hubbard sued for a divorce from her hypocrite husband, naming Miss Alice Moore of Concord, Massachusetts as correspondent. The divorce was granted and Hubbard married Miss Moore the first of this year.

THE CHARGE IS A FELONY

MEHEULA NOT ALLOWED TO WAIVE READING OF THE INDICTMENTS AGAINST HIM.

The indictments against E. Meheula, charging him as clerk of the House with the destruction of vouchers of the regular and extra sessions, were read to him this morning in the United States District Court and pleas of not guilty were entered. There are four counts in one indictment and three in the other, involving seven vouchers in all. The cases were set for trial April 15.

C. W. Ashford, attorney for Meheula, offered to waive reading of the indictments and plead without that formality District Attorney Breckons stated that the government could not agree to that if the offense charged was a felony, and Judge Dole stated that the punishment provided by the statute settled the question of whether the offense was a felony or not. Breckons sent for the revised statutes. "It is a felony," he said, after consulting the law, which provides for hard labor. Meheula was released on his own re-

cognizance, to appear in court April 15, next term, for trial.

NOTICE TO STOCKHOLDERS. The notice of stockholders in incorporated companies is particularly directed to the following remarkable statement of facts.

There is one corporation in the islands which has been doing business for over ten years and which is not affected by either hard times or hard times; ways received not only every dollar paid in on their stock, but good and substantial accumulated profits. It is called the Pioneer Building & Loan Association of Hawaii, and has just moved its office to No. 122 King street.

OFFICE NECESSITIES. Good box letter files 45 cents, Envelopes 2.25 thousand at A. B. Arleigh & Co.'s bookellers, 156 Fort Street.

ANOTHER JANUARY SALE. Shirt waists at almost half price and silk waists greatly reduced for one week only, beginning Monday, January 15, at Rich's. All bona fide reductions.

Times of the tide are taken from the U. S. Coast and Geodetic Survey tables. The tides at Honolulu and Hilo occur about one hour earlier than at Honolulu. Hawaiian standard time is 10 hours 20 minutes slower than Greenwich time, being that of the meridian of 167 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 2 hours, 0 minutes. The Sun and moon are for local time for the whole group.

BAD WEATHER AT CAPE HORN.

Bad weather was encountered about Cape Horn by the bark Fording Sney which arrived yesterday afternoon 150 days from New York. She rounded the Cape in 35 days once but was beaten back into the Atlantic. Captain Willett's vessel sustained no damage except loosening the back stays. While off the Cape, the ship Wilcott was sighted. The Wilcott's rigging had been damaged and she was busy trying to clear her decks of the wreckage. The Wilcott finally had to put back to Port Stanley, Falkland Islands for repairs. Captain Willett attributes his getting here ahead of other New York vessels to the fact that he stood close in shore on the way to the Cape while other vessels stood far out to sea. The Fording Sney brought general cargo. She had had sugar for Delaware Breakwater.

FORESTRY NOW HAS AN INNING

RALPH S. HOMER THE SCIENTIFIC FORESTER HAS NOW BEGUN HIS WORK.

Ralph S. Homer who has been appointed superintendent of Forestry for Hawaii, left on the Kinu this afternoon with A. E. Carter of the Board of Agriculture and Forestry for Kaula and Hamakua where he will make a study of conditions. He will make his headquarters at Waimea for the present. It being considered that this is the center of the region most prospectively requiring attention in relation to

forests, at the present time.

Mr. Homer is a Massachusetts man and has spent the most of his life in and about Boston. He is a graduate of Harvard '94, and holds the degree of Bachelor of Agricultural Science from that institution. He also holds the degree Master of Forestry from Yale University, and was a member of the first graduating class from the Yale Forest School, receiving his degree in 1902. During his term there Mr. Homer also acted as one of the instructors, giving lectures in forest measurement, having been granted a furlough for that purpose by the Bureau of Forestry.

Since the spring of 1896 Mr. Homer has been connected with the United States Department of Agriculture; for two and a half years in the division, now the Bureau of soils; and since November, 1898, he has been with the Bureau of Forestry. Mr. Homer was one of the first professional foresters whom Clifford Pinchot gathered around him after he became head of the bureau in July 1898.

Mr. Homer's work with the Bureau of Forestry has been largely in the northeastern part of the country until this summer when he was placed in charge of the co-operative investigation carried on by the Bureau of Forestry and the State of California in the southern part of the State.

In connection with his work in the Adirondacks in New York State, Mr. Homer with Eugene S. Bruce published a pamphlet on "A Forestry Working Plan for Township 36," which is one of the tracts owned by the State in the Adirondack forest reserve. Mr. Homer also published in the last annual report of the Forest Commissioner of Maine "A Study of the Spruce on Cut-Over Lands in Maine," being the result of a season's work on a tract of land near Moosehead Lake.

Mr. Homer is accompanied to Honolulu by his mother, Mrs. George Herbert Homer, who will make her home with her son in Honolulu.

JAPANESE ANNUAL.

The Hawaiian-Japanese Annual for 1904 has just been published by the Hawaii Shimpo. It is a publication of much usefulness and convenience to Japanese merchants and other Japanese. It contains portraits of most of the territorial officials and a number of the most prominent Japanese residents in the islands. Besides there are a number of photo-engraved reproductions of pictures of places of beauty or interest in the islands. There is a complete list of the sugar plantations of the islands, together with the names of the manager of each and his post office address. The matter is well prepared and the typographical appearance of the pamphlet is excellent.

KAHOOLAWE TO THE FRONT.

C. C. Conradt, who recently purchased the lease of Kahoolawe, together with all the live stock on the island, including 5,000 sheep, 50 head of cattle and a small band of horses, has assumed active control of the property. He has already contracted with two butcher shops to deliver a supply of mutton every two weeks, the first shipment of which arrived recently.

Mr. Conradt is preparing to fence off the island into two or three large pastures, and will confine his sheep in one pasture till it is eaten clean thus giving the grass in the other pastures time to grow. He is also experimenting in new grasses.

In addition to this, Mr. Conradt is preparing to furnish Maui with fresh fish.—Maui News.

ELKS BASEBALL.

The Elks yesterday elected Frank Richardson manager of their baseball team, F. M. Brooks declining a re-election. Captain J. B. Gorman was chosen captain of the team. Twelve men announced themselves ready to begin practice.

OLYMPIAN FIELD DAY TO BE HELD

WILL FORMALLY DEDICATE THE NEW TRACK OF THE BOYS OF HONOLULU ATHLETIC FIELD.

"The Boys of Honolulu," is the new name that has been adopted for the organization heretofore known as the "Boys Brigade." The Athletic Field which is now being completed near the Kaula school is to be formally dedicated by a field day to be held March 15. The date was set last evening by the committee comprising Messrs. Anderson, of Punahou, Livingstone of Kamehameha, Young of the Y. M. C. A. and W. H. Habbitt and Allan Dunn. Theodore Richards presented the matter of the field day to the committee. He offered a silver cup to be won by the club obtaining the greatest number of points in three years. After this Field Day, which is open to all clubs already in existence, it will be followed by another for the "Boys of Honolulu" only.

Allan Dunn was selected as chairman of the committee, with Stanley Livingstone as secretary. They will send out invitations today to all athletic organizations, including the H. A. C.'s, Mailes, Punahou, Kamehamehas, Artillery, Y. M. C. A., High School, Iolani College, St. Louis College, Scottish Thistle Club, etc. The club entries must be in by February 15.

The program was arranged as follows: 50-yard dash; 100-yard dash; 220-yard dash; 230 yard hurdle race; quarter mile; half mile; high jump; broad jump; pole vault; shotput; hammer throw; relay race.

As there may be some clubs which would not appear to advantage in the above program the committee will add other events, consisting of throwing a baseball and drop kick for football which will give them three points each. One point each will be given for a potato race and three-legged race.

The track will be one of the best. It is a quarter of a mile stretch made of crushed stone covered with cinders and packed down hard. It is to be completed in five weeks. Bleachers will probably be erected, and an entrance to the inner field will permit carriages to go in. The winners will be crowned in the Olympian manner with maile leis.

DEMOCRATS OPPOSE TREATY.

Associated Press, Morning Service. WASHINGTON, January 18.—The President has sent to the Senate the Panama correspondence. A letter from General Goyes declared that American capital and United States cruisers had abetted the revolution. It proposed a reference of the case to The Hague and denied that world interests demanded the recognition of the established republic. The Panama treaty has been reported to the Senate. The Democrats are opposed.

PEACE PARTY ASCENDANT.

Associated Press, Morning Service. ST. PETERSBURG, January 18.—The peace party is now in the ascendant. The Japanese Minister declares that war will be mutually expensive, disastrous and indecisive.

TO JOIN ALEXIEFF.

Associated Press, Morning Service. PEKING, January 18.—The commandant of the Legation guard has been ordered to join Alexieff.

RESERVOIR BURSTS.

Associated Press, Morning Service. BLOEMFONTEIN, January 18.—A reservoir burst today and thirty people were drowned. Three hotels and 174 houses were destroyed. Bloemfontein is the chief city of the Orange River Colony, formerly the Orange Free State and is situated on a small tributary of the Modder river. In the hills but a few miles back of the city are reservoirs and in the city itself reservoirs were constructed during the Boer war by the British and these latter were filled from artesian wells. It is probably a reservoir in the hills which broke loose and caused the disaster.

STATE OF DEFENCE.

Associated Press, Morning Service. WASHINGTON, January 18.—Secretary Root has transmitted a supplemental estimate of \$3,500,000 for the armament of the sea-coast forts to the House Military Committee. The general appropriation for the Army carries \$75,000,000.

MORE TROOPS FOR MANCHURIA.

Associated Press, Morning Service. LONDON, January 18.—Four more regiments have arrived in Manchuria. It is believed that Russia is mobilizing 300,000 men.

JAPANESE COMMISSIONER.

If no war is declared between Japan and Russia before that date, S. Minogishi will leave Japan on the America Maru which leaves Yokohama on the 20th inst. Minogishi is the gentleman whose name was mentioned in an associated press cable sometime ago from Panama as Commissioner Minogishi for the Agricultural Department of the Japanese Government. This time, it is understood, he goes to the United States in the interest of the Treasury Department of the same government and in company with a high official from the same department.

THE SOLUTION.

The financial question as far as carrying on is concerned has been satisfactorily settled. Where the eighteen months' bill is lacking, the six months' bill is to be taken as a guide until a decision of the supreme court is obtained. This is a satisfactory solution of a very pressing and a very important question. To have gone entirely to the six months' bill would have cut out some needed appropriations. There never was a greater mix-up than the double appropriation bill which the legislature in its lack of wisdom produced. There never were two documents which more clearly showed the utter incapacity of the majority of the members.

Appropriations for the six months' bill were too large in some cases. When it came to the eighteen months' bill they were far too small or vice versa. Salaries for exactly similar work were fifty per cent higher in one bill than in the other. Indeed, in some cases, where it was natural that the work would increase, the salaries became smaller in direct ratio to the increase of the work. In much of this the fine hand of Mr. Kumalae and his solid band of quasi patriots appeared.

If the interpretation of the law is as outlined by the papers much of this discrepancy can be overcome, but by no means all. Wrong will be done to some, and necessary work from current funds will have to cease, no matter what may happen. You cannot make mistakes and then patch them up afterwards. Mistakes bear a punishment which unfortunately falls upon others and not always upon those who commit them. The Territory paid a high price for the mistakes which have been made. It cost close on to a hundred thousand dollars to get a legislature to pass unworkable laws, and irreconcilable appropriation bills.

But after all the Territory is itself very seriously to blame. It was the Territory that voted for the incapable and corrupt members. If incapable and corrupt members are elected, they but represent the majority vote. To be refined and to be of value gold has to pass through the fire. To reach a proper form of self-government we have to pass through the fire of serious mistakes. That is one advantage, our failures teach us afterwards to make successes.

It is a fortunate thing that we have in the community men who will shoulder responsibility and will meet a crisis of the kind that has come upon us. The crisis had to be met, and there were two solutions. The best has been taken, but there will be an aftermath of virulent attack.

ELIHU ROOT.

Secretary Root who retires from the War Department as soon as Secretary Taft arrives in Washington has made an excellent record. He went to the department with no special knowledge of military affairs. He leaves it with a very thorough knowledge. He brought to the department a highly trained legal intellect and this enabled him to deal with the legal questions which came under the military administration in the Philippine Islands, Porto Rico and the occupation of Cuba.

One of his greatest feats was the organizing and equipping of 35,000 volunteers for the Philippines. The appointment of the officers to command this army was made under the direct supervision of the Secretary himself, and it was upon this selection that our success in the Philippines was secured. At the close of the war in the Philippines the Secretary devoted himself to the reorganization of the army and in this again he proved his ability. Military men speak highly of his efforts. He did not do all that he desired, but he laid down lines which must be followed. The General Staff bill was Mr. Root's bill and a wonderful change it has wrought and will produce in the future.

At the General Staff dinner given to Mr. Root on the eve of his departure to London recently, he made a speech, thoroughly characteristic, which most clearly shows the man and his aims. He said in closing:

"When I see the spirit and patriotism in all the departments and such esprit de corps in the army as a whole, it seems to me that I am justified in the most brilliant anticipations and in the most confident expectations for the future of the American army. Other wars are to come; when we know not; or with whom, we know not; but we know they are to come. Days of trial for our country are to come, and I confidently believe that, when those days are upon us, the American people will look back to the inauguration of the General Staff, and will look back to the inauguration of a good spirit of brotherhood in arms pervading all branches of the American army, as the beginning of a new day and the origin of an efficiency never known before in the defenders of our government and of our nation.

"I know that I shall not only look upon your work with confidence and trust, but I shall look back with gratitude and affection to all of you who have, with such faith and zeal and loyalty, wrought in the cause which has been so dear to me: for, knowing little of the army, knowing little of military affairs, I believe that I can claim whatever commendation is due for having been myself loyal to the best interests of the army of the United States. I believe that I have had no other sentiment and no desire but an army noble and true, effective and strong; worthy of the great country which relies upon it for defence, worthy of the great and noble men who have adorned its history, and worthy of the great trust which is imposed upon it. I firmly believe that you are all that; that the army which you are to train in the future will be all that; and I expect always to look back upon these happy days of effort and achievement with constant and kindly remembrance and affection."

JAPAN AND MANCHURIA.

A Japanese newspaper, Osaka Mainichi, edited in one of the most industrial districts of Japan, publishes the following statistical information on the commerce of Japan in Manchuria and northern China:

The imports and exports of the Japanese in the ports of Niuchwang, Tientsin, and Chefoo, not including Port Arthur, Dalny, and Tsiaodshow, amount to \$15,000,000. Including the latter three places the Japanese commerce exceeds that of any other country. The following figures of imports and exports into Tientsin and Chefoo in 1901 indicate the predominance of the Japanese: Japan, \$4,600,392; Hongkong, \$3,446,252; all other countries, \$1,635,738.

The same may be said of Japanese imports into Niuchwang, with the exception of the imports of cotton goods, in which business the Americans are at the head. Imports from the United States, \$2,946,500; from East Indies, \$2,357,200; from Japan, \$942,880.

On the other hand, Japan is leading in the business of exporting beans and bean cakes from Niuchwang, which average from \$3,535,800 to \$4,714,400 per annum.

Upon the whole, the commerce of Japan in Niuchwang is more than \$11,786,000 per annum.

The shipping business is also in full swing with the commercial activity and the enterprise of the Japanese. In 1901 Niuchwang was visited by 261 Japanese steamers, with cargoes of 202,230 tons; 192 English steamers, with cargoes of 196,282 tons; and steamers of other nationalities, with cargoes of 71,741 tons.

The foregoing shows how great are the interests of Japan in Man-

China. The latter country is of more consequence to Japan than Korea, and in the future Manchuria, with her large natural wealth and with the larger productiveness of her population in comparison to Korea, will become an active purveyor of agricultural and mineral products for Japan and will supply many of the raw materials for her manufacturing establishments.

Even now Japan has very large sums invested in improvements in the port of Tsin-tan-shan, with the intention of making this port the basis of her commercial dealings with northern China and Manchuria.

The Governor and the Secretary of the Territory are off to Hawaii to look into the Kohala ditch matter. It is important that the Governor should have a personal knowledge of the land, the watershed and the work proposed to be done. The Governor regards the project as one of the most important in the Territory and his regret is that it cannot be carried out as a public work, and the full control kept in the hands of the Government.

The death of the County Act has necessitated the reorganization of the police departments upon the other islands. The County Act brought out a good many men in their true colors, where the Home Rule majority prevailed. These men will now reap their reward. High Sheriff Brown makes a very important and a very interesting tour.

The Japanese have strange methods. The idea of a woman selling herself for \$200 for a definite period of time strikes us as horrible. Yet such sales are customary not only in Japan but in China. In the latter country, in times of famine, wives, sons and daughters are sold for definite periods. One is not quite sure whether there is not a trace of similar sale in our own civilization. Women do sell themselves even in the United States and Great Britain, but no documents are drawn up.

Manila will be gay with officers and sailors and there will be great doings and entertainments. But there will be

no heartier welcome for the crews of the Atlantic squadron than was given to them here.

The Supervisors took a final leave of one another yesterday and decided to lay the question of their incidentals and the pay of their employees before the legislature. Supervisor Mahoe suggested that he and his colleagues having been in office just fourteen days, it was but just that they should be paid for one month. It was a modest request. Any one can see that Mr. Mahoe was thoroughly qualified for his position. Get all you can is the true motto of Supervisors of Mr. Mahoe's type. Another specimen of similar ability was shown by the Supervisors of East Hawaii who voted themselves telephones. From telephones they would have gone on to bugles and so forth. There is nothing mean about the Supervisor of this stripe. He is own brother to legislators such as Mr. Kumalae and others like him.

AN EXTRA SESSION IS THE ALTERNATIVE

(Continued from Page 1.)

The main topics was what should be done in the event that the plan approved yesterday, of going along until the old appropriation bills, should prove illegal.

All those present agreed that there was nothing else to do if the decision is unfavorable than call the legislature, though all were opposed to a session if one was avoidable. If the court decides that there are no appropriation bills in force to carry on the departments, however, the administration will not be able to proceed.

The matter of appropriations was generally discussed at the conference and Governor Carter's plan of economy was approved. The executive appears to have the support of members of the Senate of both parties, in the course that is being taken.

An appeal from the Auditor will probably be the form of the test case to be submitted to the supreme court. The preparation of the case is likely to be delayed till after the end of the present month, when salary warrants will be sent to the Auditor. He may then refuse to audit them, and an appeal may be taken from his decision direct to the supreme court, according to the special provisions of law allowing such appeals.

"If we can find a way to bring the matter up sooner we shall do so," said Attorney General Andrews. "An appeal from the Auditor seems to be the best and quickest way of getting the matter into court. Possibly it may not be necessary to hold up more than one warrant for the purpose of a test, but

NO HEAD TO THE GOVERNMENT

THE CAPITOL BUILDING LOSES BOTH GOVERNOR AND SECRETARY FOR THE FIRST TIME.

The departure of both Governor Carter and Secretary Atkinson on the Kihau today leaves Honolulu without a governor or representative of one for the first time. There has been some question as to the propriety of both leaving at the same time. If a disaster should overtake the Kihau the Territorial government would be crippled, for there is no legal provision for any successions.

The Organic act provides that in case of the absence, death or disqualification of the governor the secretary of the Territory shall be acting governor, but there is no provision for anyone to take the place of the secretary and if something should happen to both of them, the Territory would be without a head until President Roosevelt took action.

Senator Crabbe was among those who objected to both the governor and secretary going away at the same time. The governor however, thought that both would be nearly enough in touch by wireless, and Atkinson told the President of the Senate that it would be up to him, as the next official in line, to run the Territory.

INSPECTORS GO TO HILO

FEDERAL OFFICIALS WILL CONCLUDE WORK IN OTHER ISLANDS FIRST.

The Federal inspectors of hulls and boilers have established headquarters in rooms 309 and 310 Stangenwald building. No business will be transacted there however until after their return from Hawaii and Maui. The inspectors Captain George H. Whitney and Carl F. Lehnert, accompanied by George D. Claggett their secretary left on the steamer Kihau today for Hilo. The inspectors will conclude all of their work at Hilo by next Friday when they will return. They expect to leave the steamer at Lanaina and go over to Kahului on Saturday and complete their inspection on Maui in time to return to Honolulu by the Claudine Sunday morning. It is positive however that they may remain a week longer.

As soon as they resume business in Honolulu the rooms of the inspectors will be crowded with various officers who will take examinations. Both of the inspectors will be very busy examining the hulls and boilers of the various steamers. All of the island steamers are to be examined so that certificates can be issued to them. Captain Whitney as the inspector of hulls, will also examine the various American sailing vessels in port, that require a renewal of their licenses.

ENGINEERING ASSOCIATION.

The Hawaiian Engineering Association held its usual monthly meeting last evening. A paper on "Mechanical Refrigeration," by O. R. Williams, was read. There was an unusually large attendance and a great deal of interest was taken in the paper, the reading of which was followed by a lengthy discussion.

ATHLETIC CONTEST.

Next Friday evening there will be an athletic contest at the Y. M. C. A., the first of a series of six. Included in the numbers are springboard high jumps and fence vaulting, open to all members of the Association. There are three International Y. M. C. A. medals to be presented to the successful athletes.

HOWLAND FOR ENGINEER.

The Republican Executive committee yesterday recommended C. H. Howland for consulting engineer of the department of Public Works, to succeed Marston Campbell. The name of Guy Gere was suggested, but as it was understood that he was to remain traveling engineer, Howland was recommended. Howland has been an engineer at Oiaa and Puna plantations.

DE BOLT STOPS STRENUOUS HOURS

CALENDAR UP TO DATE AND JURORS ONLY REQUIRED FOR ORDINARY COURT HOURS.

Judge De Bolt has ceased keeping strenuous court hours and will hereafter conform to ordinary procedure. This morning he announced a new rule, stating that hereafter jury trials will be held from ten to twelve and from two to four. This is the customary court hours and the change will be a relief to attorneys. The calendar of De Bolt's court is up to date, and there is no further need for strenuous hours. The judge will open court at nine as usual, for the hearing of ex parte matters, motions and demurrers if there are any.

De Bolt's calendar was called this morning. A large number of cases were continued for the term, by consent of attorneys concerned. The following three were set for trial tomorrow morn-

THE TWO CHARLEYS ARE OUT AGAIN

EX-ROAD SUPERVISOR WILSON.

Charley Wilson is out of the road department, in spite of the County Act decision, which reinstated him and made void the appointment of Henry Vida. After the decision Vida vacated and Wilson took hold again, but today he was ousted by Superintendent Holloway, who did not desire to reappoint him.

Wilson's official head has been in danger many times during the past year or so, and the Republican executive committee at one time had him "on the carpet," on account of statements that he was supporting Home Rulers. He satisfied the committee, however, and was not disturbed. Recently he is said to have had Home Rule endorsements for the position and it is stated that he was so endorsed by Home Rulers to the late Board of Supervisors. Instead of helping him to the position these endorsements by the enemy greatly hurt "Charley" with the Republicans. His resignation was called for at once when the County Act was knocked out. It is understood that this means the retirement of Charley Clark as well.

THREE GIRLS ESCAPED.

Maggie Place and two other girls escaped from the Girls' Industrial School at Kapalama yesterday. They turned their clothes inside out for the purposes of disguise and wrapped themselves in sheets which looked like holokus. All were captured a short distance from the school.

THE FIRST HARD LABOR CASE

JAILER HENRY GETS A FEDERAL PRISONER UNDER A HARD LABOR SENTENCE—J. W. CATHCART SAYS IMMIGRATION OFFICIALS LAID A TRAP FOR KINZO UEDA TO PERJURE HIMSELF.

The first federal prisoner ever given a hard labor sentence here was sentenced this morning by Judge Dole, Kinzo Ueda, who pleaded guilty to a charge of perjury, being given twelve months at hard labor and a fine of \$1. Perjury is one of the offenses for which the federal statute provides that the punishment shall be with hard labor, whereas most of the statutes require imprisonment only. Ueda's perjury was committed before the immigration officials, in giving a wrong name and swearing that he was the husband of a woman who was attempting to enter the country from Japan.

In making a plea for clemency J. W. Cathcart, declared that Ueda had been caught in a trap laid by the immigration officials. "It is beneath the dignity of the United States," he said, "that a man should be allowed to walk into such a trap in order to be brought up for trial. Before this woman arrived her husband went to the immigration officials and told them that Ueda was going to appear before them and claim her as his wife. They allowed Ueda to do so and then arrested him for perjury. It was a trap they laid for him and he walked into it."

Breckons said in reply that no trap had been laid. "The immigration officials have had experience in such matters," he said, "and they knew that it is hard to say who shall be believed in such matters. Ueda was allowed to tell his story in perfect good faith, in the proper investigation of the right of the woman to land, and he told a story that would have deceived many people. It was only when he was confronted with the real husband and with documents showing that the woman had come here with him before and with the fact that the husband knew the family history, that Ueda admitted that he had sworn falsely."

Ueda will be worked by Jailer Henry with the regular gangs of Territorial prisoners. He is the first federal prisoner Henry has put to work.

HOWLAND APPOINTED.

Superintendent of Public Works Howland has appointed J. Hastings Howland consulting engineer of the department, to succeed Marston Campbell. Howland will assume his duties on February 1. He left on the Kihau today for a trip to Hilo, to complete some business there. Howland was formerly engineer at Puna and Oiaa Plantations.

CIRCUIT COURT NOTES.

Ah Chop was tried before Judge Robinson and a jury yesterday afternoon on a charge of selling lottery tickets. The jury returned a verdict of not guilty after being out about an hour and a half. E. A. Douthitt defended.

Before Judge L. E. Bolt the suit of H. M. Dow vs. W. F. Joener, and Hollister Drug Co. as "amishers, was tried. H. D. Mead for plaintiff; C. C. Blitting for defendant. A directed verdict for plaintiff, for \$700 and 8 per cent interest from Dec. 8, 1902, was found by the jury.

Satisfaction of judgment is entered in the assumpsit suit of A. F. Franca vs. Mrs. E. C. Martins.

The following Jurors are required to appear before Judge Gear tomorrow morning at 9:30: John Edwards, Harry E. Webster, Andrea Nelson, John A. McCandless, A. M. Keoho, M. J. Carroll, V. Kealoha, C. C. Conradt, Wentworth M. Buchanan, E. J. Walker, J. M. Webb, H. C. Carter, W. C. Weedon, James Carly, T. J. Fitzpatrick, S. H. Meekapu, John A. Johnson, Albert Trask, David Keohohau, Arch-

Impure Blood

Impure blood will always make you sick. You suffer from headache, great depression, indigestion, sleeplessness, a bad skin, extreme exhaustion, and you can hardly drag yourself about.

Read what Mr. H. J. Matthews, of Wellington, New Zealand, says about this. He also sends his photograph.
"I have suffered a great deal from impure blood, especially from boils on my arms and back. I felt weak all over and was greatly depressed. I began to use Ayer's Sarsaparilla. After taking only a bottle of it I felt better, and soon my troubles disappeared. I believe this medicine is the best blood-purifier and the strongest tonic that any one can buy."

AYER'S Sarsaparilla

There are many imitations "Sarsaparilla." Be sure you get Ayer's.

Use Ayer's Pills every time your bowels become constipated, or when you are bilious or have sick headache. They cure quickly.

GEORGE FRANCIS TRAIN THE PRINCE OF ECCENTRICS

Associated Press. Morning Service.
NEW YORK, January 13.—George Francis Train is dead.

Following the completion of the Union Pacific railroad, the exposures of the Credit Mobilier, and the campaign of 1872, Train's constructive activities seem to have largely ceased. After that, while he managed at frequent intervals to bring himself conspicuously before the public in a frothy sensational sort of way, he never achieved any work at all comparable to that of his early activities. Yet even during this period he said many things and originated many ideas which other men utilized to advantage. And even in his sensation seeking, there was always a kindness that relieved it and him from any of the reproach of pure sensation seeking.

For many years, during the seventies and eighties, he lived at the Continental Hotel, New York, and spent a large part of each day when the weather was pleasant, in Union Square near by, playing with the children. During this time and for years, he refused to speak with an adult except through a child as a sort of psychic interpreter. He gave as a reason for this a sort of indefinite explanation of psychic sin in adults which was assent in children. When he traveled away from New York in those days, as he sometimes did, he was always interviewed by the newspapers where he went. But he would never speak to his interviewers, or allow them to speak directly to him, but invariably sent for a messenger boy, to act as the psychic medium for his interviews.

He afterwards gave up this peculiarity, and spoke directly to adults and allowed them to speak directly to him.

In 1887, shortly before the execution of the Chicago anarchists, he came out to Chicago, proclaimed himself a "Psycho Anarchist," and began the publication of a daily paper, the "Daily Psycho Anarchist." There was never but one issue of this paper published. He probably never intended that there should be. But in any event public sentiment was in such a state of hysterical excitement at this time that the authorities suppressed further issues. This one issue, however, sold for weeks at five cents a copy, and Train undoubtedly made several thousand dollars from its sale. He announced a series of lectures on the subject of "Psycho Anarchy" at this time. The police, for the same reason that they suppressed his paper refused to issue him a license under the amusement ordinance authorizing him to charge an admittance fee at the door. He announced that his lectures would be free. They were largely attended, and he always took up a collection from his audience before beginning his lecture, so that he lost very little by not being able to charge an admittance fee. He was the Prince of Advertisers. It is doubtful if even P. T. Barnum himself, was as fertile in ideas for successful advertising as George Francis Train.

The Argonaut of Jan. 19, 1903, contained this autobiographical account of George Francis Train in the form of a book review:

Few of the younger generation are familiar with the name of George Francis Train, and yet, at one time, he was one of the best-known Americans on the face of the globe. His career has been decidedly checked, and his rec-

ord of achievement is certainly remarkable. He organized the clipper-ship line that sailed around Cape Horn to San Francisco, and made American shipping lead the world; he organized the Credit Mobilier and the Union Pacific Railroad; he figured prominently in the French Commune; he was an independent candidate for the Presidency, against Grant and Greeley; he broke the around-the-world record three times, and gave Jules Verne the suggestion for his interesting romance, "Around the World in Eighty Days;" he has been in jail fifteen times, although he never committed a crime; he formerly lived in a villa at Newport and spent \$2,000 a week in maintaining it, while today, at the age of seventy-three, he lives in seclusion in the Mills Hotel in New York at a total expenditure of \$3.00 a week.

At the earnest request of friends, "Citizen" Train—as he calls himself—was induced to dictate his biography, which, with his characteristic speed, he accomplished in thirty-five hours. He calls it "My Life in Many States and in Foreign Lands," and in his preface says: "I beg my readers to remember that this book was spoken, not written, by me. It is my own life story that I have related. It may not, in every part, agree with the recollections of others; but I am sure that it is as accurate in statement as it is blameless in purpose. If I should fail at any point, this will be due to some wavering of memory, and not to intention. Thanks to my early Methodist training, I have never knowingly told a lie, and I shall not begin at this time of life." Mr. Train makes a vague promise of other volumes to come—his views and opinions of men and things and a collection of his speeches and addresses.

When in his fourth year, his father's family was wiped out by a cholera epidemic, he was sent to his grandparents in Massachusetts, where he was reared in the strictest tenets of Methodism. Nevertheless, he observed some strange inconsistencies in preaching and practice in the daily life of his grandparents. He was constantly being warned against smoking and drinking.

At the age of ten, he was accustomed to drive fourteen miles alone to Boston and market the products of his aunt's farm. George Ripley, the Brook Farm leader and associate of Charles A. Dana, was at one time his school-teacher. The boys organized a library committee at Waltham, and got Ralph Waldo Emerson to lecture to them. "I will come to lecture for \$5 for myself," wrote Emerson, "but ask you for four quarters of oats for my horse." The discourse that Emerson delivered for this modest honorarium was his famous one on "Nature," for which in after years he received \$500 a night.

By a characteristic bit of audacity he secured a place as a boy in the large shipping firm of Train & Co., of Boston, of which his cousin was the head. Here he rapidly developed brilliant business qualities and began leading the house into daring but successful schemes. The California gold craze was just then creating an eager demand for vessel transportation. Young Train went to Donald Mackay, the Boston ship-builder, and ordered a sailing vessel of 2,000 tons, an unprecedented ton-

GEORGE FRANCIS TRAIN IS DEAD

(Continued from page 6.)

"I shall call it the Flying Cloud," he said. By the time the Flying Cloud was finished the whole world was talking about it, and its launching was a historic event. The demand for it was so eager that it was sold for \$90,000 to a Liverpool firm. It sailed from New York to San Francisco in eighty-six days, paying for itself in a single voyage out and back. That was the beginning of the great epoch of American clippers. Within a year or two Mr. Train had launched forty of these trading vessels. At the age of twenty he was a partner of the firm, with the management of a Liverpool branch and an income of \$100,000 a year. According to his own figures, he was receiving \$15,000 at the age of twenty-two, and a few years later had an income of \$95,000.

Mr. Train's participation in the Commune in France was the result of chance. He arrived in Marseilles on his eighty-day tour of the world, and was hailed as "liberator" and invited to join the revolutionary movement. He addressed an immense audience in the Cirque, rousing it to a pitch of frenzied enthusiasm. Here is a vivid incident which he relates:

"I saw from my window an army marching down the street. I thought it was our army, and went out on the balcony and began shouting 'Vive la Republique!' and 'Vive la Commune!' with the people in the street; but there was an ominous silence in the ranks of the troops. They did not respond to these revolutionary sentiments. Then I saw the new prefect, M. Gent, Gambetta's man, in a carriage, with the army. Suddenly I heard a shot, and Gent dropped to the bottom of the vehicle. Some one had tried to kill him, but missed, and the prefect did not care to be conspicuous again. The troops came to a halt directly in front of the hotel, and I saw that the officers were regarding with anger the flag of the Commune that floated from the balcony. Orders were given, and five men, a firing squad, stepped from the ranks and knelt, with their rifles in hand, ready to fire. I knew that it was their purpose to shoot me. I do not know why, but I felt that if the thing had to be, I should die in the most dramatic manner possible. There were two other flags on the balcony, the colors of France and America. I seized both of these, and wrapped them quickly about my body. Then I stepped forward and knelt at the front of the balcony, in the same military posture as the soldiers below me. I then shouted to the officers in French: 'Fire, fire, you miserable cowards! Fire upon the flags of France and America wrapped around the body of an American citizen—if you have the courage!' An order was spoken, too low for me to catch, but the

knelling soldiers dropped their rifles, and then rose and rejoined the ranks. Another order was shouted along the line, and the troops marched on down the street and out of sight."

During his long career, Mr. Train has had many prison experiences, although he has never committed a crime. He declares:

"I have been imprisoned in almost every sort of jail that man has devised. I have been in police stations, in Marshalls in England and in Ireland, in common jails in Boston, in the Bastille of Lyons, in the Prefecture at Tours as the prisoner of Gambetta, dictator of France, and in the famous old Tombs of New York. I have used prisons well. They have been, as schools to me, where I have reflected and learned more about myself—and a man's own self is the best object of any one's study. I have also made jails the source of fruitful ideas, and from them have launched many of my most startling and useful projects and innovations."

The volume which is supplemented with several interesting illustrations of the author, closes with Mr. Train's account of his three record-breaking trips around the world in eighty, sixty-seven and a half, and sixty days, the last voyage still standing as the fastest time any one has circled the globe.

The new live fish company which is being promoted by Mr. Edmunds and Mr. Pain is having the Talula put into commission. The little tug will be used to bring in the fish caught by the Japanese. The idea of a new company is to have the tug visit all the Japanese sampans and purchase the live fish from the Japs, bringing the fish to Honolulu and selling it alive.

OPEN TEACHERS' MEETING.

The Teachers' Association will meet at the High School at 7:30 o'clock this evening. Principal M. M. Scott will speak on the question, "What shall be done with the pupil whose work is unsatisfactory?" after which there will be a general discussion of the matter. Pupils fail to do good work for several different reasons and different methods of treatment must be used accordingly. Under the present graded system, this is a vital question in school management. Parents and others who are interested are invited to attend and take part in the discussion. It is hoped that there will be a very large attendance of teachers.

Taroena

The Ideal Food

For Infants Invalids Dyspeptics

Taroena is essentially a pure, wholesome, natural food and is supplying a long-felt want. For the artificial feeding of infants there is nothing to equal it. It makes puny children strong and robust. Dyspeptics find Taroena dependable, feeling no distress after eating it. Read what others say:

EXCELLENT BABY FOOD.

Taroena in my opinion, is an excellent baby and invalid food, and in the many cases where I have used it, it has always proved satisfactory. I have four patients using it at present.

G. J. BUCKNELL, San Francisco, Cal.

FOR A WEAK STOMACH.

I have had an ample opportunity for testing the readiness with which a weak stomach will bear Taroena, and have relied on it in treating acute, feverish diseases and disorders of the stomach and bowels.

DR. PURVIS, Oakland, Cal.

INDIGESTION FOR YEARS.

My mother suffered with indigestion for years. By good luck we got hold of Taroena and mother tried it with milk. It caused her no distress and she actually lived on it for two years, when she got stronger and could eat ordinary food. We ascribe this great cure to Taroena.

M. E. MEYER, Los Angeles, Cal.

FOR SEASICKNESS.

I have had occasion to test the merits of a great number of prepared foods while treating cases of seasickness. I find none of them half as useful as Taroena. I am thoroughly convinced that Taroena is the most nutritious food I have ever used.

HIGH TRADES DETAIN BOATS

STEAMERS AND SCHOONERS ARE HELD IN PORT UNTIL THE WEATHER SUBSIDES.

The high trade winds that have prevailed for the last two days have been the cause of considerable of the inter-island shipping being suspended. The schooner Lady was to have gone out yesterday morning for Kooloa ports but owing to the strong head winds that have been encountered, the captain decided it safer to remain in Honolulu until the weather had subsided.

The Inter-Island Steam Navigation Company did not send out any of its boats. The steamer Ke Au Hou was to have gone on her regular run to windward Kauai ports. With the kind of weather prevailing that was in progress last night, it would have been impossible for the vessel to have worked at any of the Kauai ports, she was held. The steamer Noeau was not sent to Honokaa and Kukuihaele nor was the steamer Kauai sent out to Maui ports, Honuapo and Panalua. The Ke Au Hou and Kauai will be dispatched this afternoon. The Noeau may not go out until tomorrow.

The steamer Lehua was the only vessel to depart last night. She will find rough weather along the Molokai coast.

MANY ATTENDED SAILING OF KINAU

GOVERNOR CARTER, SECRETARY ATKINSON AND SHERIFF A. M. BROWN DEPART ON BUSINESS.

The departure of the steamer Kinau for Hilo and way ports was quite an event on the water front today. Despite the high weather and the certainty that the channels would prove very rough, there was a large crowd of passengers to leave on the vessel.

The departure of Governor Carter and party was the cause of much interest and a good sized crowd was at the wharf to see them depart. In addition to Governor Carter there were Secretary Atkinson and Frank D. Croedon, Governor Carter's private secretary. High Sheriff Brown was also a departing passenger. Governor Carter and Secretary Atkinson are to go as far as Mahukona where they will stop as the guests of Senator Palmer Woods. This party will be on the big island for about three weeks in connection with the Kohala Ditch proposition and various land matters.

High Sheriff Brown goes direct to Hilo. He will confer with Sheriffs Baldwin of Maui at Lahaina, and Andrews of Hawaii at Hilo regarding the police business on those islands. The High Sheriff will be absent about two weeks.

Captain George H. Whitney and Carl F. Lehnert the Federal inspectors of hulls and boilers, accompanied by G. D. Claggett their secretary were departing passengers for Hilo on official business.

B. F. Dillingham and E. E. Paxton are going to Hawaii on business connected with their interests on that island.

Eugene Duvachelle formerly of the mounted police left for Maui to accept a position with a ranch on that island. His family accompanied him. Captain Niblack, U. S. N., and wife were booked to depart by the steamer but did not sail.

Captain Berger and the band played the steamer away. She sailed promptly at noon.
