NATURE'S DARLING HAD CHERRIES

"The Nature Man's" innocent trust in humanity and his equally innocent willingness to be fed by humanity without expense to himself, were imposed upon several days ago. As a result of the imposition there are those who say that the nature man ought to have acquired considerable of a jag,—not a roaring Hun like that described by experts as being "ossified," but a mild sizzle, such as should have made nature seem a little farther off.

Nature's Darling visited a number of local saloons in the course of his investigations of Honolulu and how the civilized part of the human race lives. In accordance with custom, he was not averse to accepting trifles, whether in the shape of "Nikiz" or dmez or good things to eat. In one place he was supplied with some fruit. They were beautiful round red cherries, offered to him by a tempter who thought the nature man would simply sample them and pronounce upon them. Instead the nature man declared the first one very good, the second better and then proceeded to "polish off" all the contents of the bottle. He returned the bottle, remarking that the cherries were excellent.

The cherries had been cooked and steeped in a preparation of which alcohol is not a small ingredient. They were intended for cocktails and if the nature man hadn't happened along and taken a fancy to them, they would have entered into cocktails enough to make a dozen nature men boyfied.

Darling hasn't given his "impressions" after taking the cherries. There are those who say that Darling ought to have had an edge after the cherries did their business, but the nature man isn't saying anything about it. The perpetrator of the joke confidently expects him to call for more cherries.

MONGOLIA WILL NOT ENTER PORT

Harbor Not Deep Enough to Warrant Coming Inside as She Will be Deep With Oriental Cargo.

It is more than probable that the big S. S. Mongolia will not enter the harbor next month on her initial trip from San Francisco to the Orient. According to advices from the Coast, the Mongolia is to be loaded full with cargo on her first trip to the Orient. In this event the local agents do not think that she can enter the harbor. Nothing definite can be known however until she arrives here, but the indications are that she will remain outside of the harbor.

If she is drawing more than 29 feet 6 inches, she will not enter. This seems to be the maximum depth that vessels can draw and enter the harbor. The probabilities are that the Mongolia will be drawing considerably over thirty feet.

On her return trip from the Orient she may also be full with cargo and in such an event, there will be considerable trouble in discharging cargo for this port. If she is too deep in the water she will not be able to enter the harbor and considerable of her stuff will have to be lightered ashore.

COURT INTIMATED ITS DECISION

Tribunal at Washington Showed During Argument Its Tendency in the Fisheries Case.

The fisheries decision was not much of a surprise to Attorney General Andrews on his arrival yesterday, as the court at Washington during the argument of the case intimated its view that the private rights should be sustained. In the questions put to counsel, the members of the court more than once showed that they regarded unfavorably the attitude of the court here, in deciding against rights which have been upheld in the islands for half a century.

Printed briefs were filed, according to the rule of the court, by Attorney General Andrews and Hatch & Silliman. Andrews' brief is a valuable booklet to attorneys here in that it contains all the laws regarding fisheries in Hawaii, down to the last supreme court decision.

To Appraise Machinery Of Maui Plantations

VISIT OF E. POLLITZ IS SAID TO BE IN CONNECTION WITH CLAIM THAT HAWAIIAN COMMERCIAL COMPANY WAS ENTITLED TO LARGER APPRAISEMENT HOLDINGS THAN OTHER CONCERNS IN MAUI DEAL.

The visit of E. Pollitz, the stock broker of San Francisco, is understood to be in connection with the consolidation of the various plantation interests on the Island of Maui whereby it is proposed to incorporate Hawaiian Commercial with the Maui Agricultural Company.

There is said to have been a slight hitch in the matter of the appraisal of the machinery portion of the various plantations. C. Hedeman of the Honolulu Iron Works left yesterday for Maui by the steamer Mauna Loa. He is understood to have been engaged as the special referee, to appraise the various machinery and plants of the Maui company and Hawaiian Commercial plantation in order that the deal could be settled and the various plantations assigned their proportion of the stock in the new deal.

According to a well defined rumor in stock circles, Pollitz is understood to have made the claim that Hawaiian Commercial Company had the latest improved and most modern machinery, while the other did not have machinery of such modern type. He is alleged to have made the contention that the holders of Hawaiian Commercial were entitled to a larger proportion in the new concern on account of the difference in valuation of the machinery. It was decided to appoint C. Hedeman as referee to pass on the valuation of the machinery of the various plantations, and he has gone to Maui for that purpose, it is stated.

E. M. Walsh of Oakland is a large stockholder in Hawaiian Commercial. He came down with Mr. Pollitz yesterday by the S. S. Alameda. Mr. Walsh is understood to have come here in connection with the present matter relating to the plantation in which he is interested.

SHIPPING INFORMATION.

The transport Thomas will leave San Francisco today for Honolulu, Guam and Manila. She is due here May 7.

The Pacific Mail steamer Mongolia and Manchuria will not call at Wosung, the China seaport of Shanghai. These vessels are too deep. They will go to Manila instead.

The steamer Likelike starts on the Lehua's semi-week runs next week.

The S. S. Nevada sailed from San Francisco yesterday afternoon for Honolulu.

The ship Bangalore and bark Olympic have arrived at Kahului and Kapaemahu respectively, from Honolulu.

The survey steamer C. P. Patterson started from Seattle for Honolulu some weeks ago but had to put into San Francisco as her boilers leaked.

The barkentine S. G. Wilder arrived off the island last night 16 days from San Francisco.

WATER FRONT ESPLANADE.

Superintendent of Public Works Holloway is preparing to begin work on opening the waterfront space, from Queen street to the wharves, and making it a broad esplanade. The old custom house, now occupied by the California Feed Company, is to be torn down, and the Brewer warehouse is to be moved.

LOADING HEAVY MACHINERY.

The schooner Ka Mo'i is loading some heavy pieces of machinery for Kohala Plantation for shipment to Honolulu. Parts of a sugar boiler are being put aboard the little schooner. The shipment of machinery for the plantation will amount to 42 tons. The vessel will probably sail on Monday for Honolulu and Kohala.

CAPTAIN CUTLER IN KLIKITAT.

The report published in some of the coast papers that Captain Cutler had retired from the command of the barkentine Klikitat, was incorrect. Captain Cutler arrived on the vessel day before yesterday. His numerous friends in Honolulu were surprised to see him as the report had mentioned his retirement. The vessel brought a cargo of 65,000 feet of lumber for this port. She was 25 days making the trip from Port Ludlow.

THE YACHT CLUB RACE.

The Hawaii Yacht Club's opening race of the season will be held May 1. It is a race for yachts of the first and third class. The course will be from Pearl Harbor out into the open sea and around the bell buoy off the Harbor of Honolulu, and return. The "chowder" planned for tonight has been given up on account of there being too many counter attractions.

GLASS SAILS FROM PANAMA.

WASHINGTON, April 18.—The flagship New York and the cruiser Marchand and Bonington of the Pacific squadron, commanded by Rear-Admiral Glass, have started from Panama on their cruise to the Aleutian islands by way of Honolulu. They first will proceed up the coast to Acapulco, whence they will sail to the Hawaiian Islands, a distance of 2000 miles. The next run will be from Honolulu to Unalaska in the Aleutian group, a distance of about 2025 miles. The squadron will be joined in Alaskan waters by the gunboat Petrel, now fitted out at San Francisco, and also by the gunboat Concord which left Acapulco for Avapulco on her way to San Francisco for repairs.

EXPERIENCE OF GRAND DUKE

CYRIL DESCRIBES THE SENSATIONS HE FELT WHEN THE EXPLOSION OCCURRED.

LONDON, April 29.—A dispatch to the Daily Mail from Harbin says that Grand Duke Cyril, who was wounded in the explosion that sank the Petropavlovsk, has arrived there on his way to St. Petersburg. His injuries are not severe. His back and loins are bruised. The Grand Duke says he was at one end of the bridge of the battleship and Makaroff at the other, when it suddenly seemed as though the world, sky and sea had been rent asunder, and from the gulf arose a deafening cloud of flame, which burst with a deafening roar into suffocating fumes. Although scorched, blinded and stunned, the Grand Duke recovered consciousness sufficiently to recognize that the Petropavlovsk had settled at the head. He descended from the bridge and hastened aft.

From a porthole he dived deeply into the sea. When he reached the surface he had the good fortune to find some floating wreckage, to which he clung. He was able also to help another swimmer to reach the wreckage. He then looked around for the Petropavlovsk, but she could not be seen and there was no trace of her, except floating bodies and a few buoyant articles and still a few swimmers. The sea had hidden the tragedy of the great ship.

RESCUED JAPANESE SOLDIERS.

Associated Press, Morning Service. KOBE, April 29.—A schooner has rescued fifty soldiers from the Kinshu Maru which was sunk by the Vladivostok squadron.

POSSESSES OVER Tin, Iron and Steel Roofing IT CANNOT RUST.

Gases, fumes, moisture, coal soot and smoke cannot injure or effect cement roofing. It is better adapted for application over uneven surfaces, such as old shingles or metal roofs, obviating the expense of removing the same. It will not rattle from wind and storm, nor create any noise from rain falling upon it. The materials used in cement roofing are the best non-conductors of heat and cold known, therefore it will keep the building warmer in winter and cooler in summer than a metal roof. SOLD HIS HEART. Edward Lewis, a Pole, has sold his heart to Johns Hopkins university for \$5,000. It is said that this organ is quite musical, and that phenomenon is attributed to a saber wound received in Russia years ago. This is a high price for a heart. Most people give theirs away and are willing to pay a round sum for a certificate of acceptance. Some of these hearts are musical, too, others artistic and sentimental, but all claim to be loving.

Oahu College Students Real Mad And Kicking

REQUIRED TO DENY THEMSELVES USUAL SATURDAY HOLIDAY IN ORDER THAT MEMBERS OF COLLEGE FACULTY, IT IS REPORTED, MAY ENJOY A LONGER VACATION—HAVE TO MISS BASE BALL GAMES.

A new custom which is not proving very satisfactory to the students has been inaugurated at Oahu College. The students are now required to go without their usual week day holiday and to devote that day to school work. Where the course at Oahu College called for five days attendance at school, as is done the world over, the new rule compels students to attend school on Saturdays too. This innovation is to be only temporary, it is said, but it is causing considerable complaint and kicking among the students. In fact some big "hollers" have been made.

The faculty is responsible for the inauguration of the new rule. It is understood among the students that the reason for an extra day being added every week to their school course, is to enable members of the faculty to get away a week earlier on vacation. Several plans to shorten the school term a week were suggested to the students. One of these was to increase the daily curriculum and another was to add Saturdays to the course. Those who made any decision seemed to favor adding Saturday. The result was that the weekly course was extended.

President Griffiths is said by students to have been largely instrumental in forcing the regulation on them. It was argued that by shortening the school term one week, it would enable members of the faculty to get away to the mainland earlier. Naturally this suggestion was received with delight by the faculty, but it did not meet with such cordial favor from the students. It is said, that last term an attempt was made to run the same scheme through, but the opposition from students and parents was such that the matter could not be arranged.

The new rule is especially distasteful to the various students today. Baseball season opens at the park this afternoon. Many of the students had planned to attend the games, but owing to their presence being required in school, the pleasure of witnessing the opening of the season has to be denied them. It is stated that the new rule will be in force for only four Saturdays. There seems to be among some of the students enough kicking for a score of extra Saturdays.

NEW SYSTEM OF EDUCATION

RADICAL CHANGES WILL BE MADE AT THE UNIVERSITY OF CHICAGO—PLANS CONTEMPLATE THE EXPENDITURE OF THREE MILLION DOLLARS IN ERECTION OF BUILDINGS SIMILAR TO THOSE AT OXFORD

CHICAGO, April 18.—Radical changes in American educational policies and a departure from the university idea of teaching will be made at the University of Chicago at an expense of \$3,000,000. Plans for a complete system of small colleges, both for men and women, involving the erection of two entire blocks of buildings, were announced today in the report of the University of Chicago building committee.

The arrangements provide for a plot of women's colleges similar to the colleges of Oxford, with sixteen dormitories and accommodations for 1200 women, and a like institution for men. The two separate groups will be situated on either side of the present university campus buildings, which will be used for higher classes, graduate and research work. The new million-dollar institutions are to include in their curriculum courses similar to the work of junior colleges.

"So up-to-date are our plans, that the women will not have any of their food prepared within the grounds," said Professor Burton, in defining the scheme. "There is to be a commissary department near the power-house near Ellis avenue and Fifty-eighth street, where all the baking and cooking will be done.

"The system of education, which the university will have when these colleges are gotten under way, is an entirely new one for this country," said President Harper. "Only in Oxford, England, do I know of such system being used and when our plan is carried out we will have for the first time in America, the small college idea personified."

SUGGESTION OF RETIREMENT.

ST. PETERSBURG, April 18.—The Russ discusses the suggestion of the retirement of the Russians from Port Arthur, recalling the abandonment of Moscow in 1812, and pointing out that General Noutouff, who recommended it, was first thought to be mad, yet it proved in the end to be the undoing of Napoleon, and also Admiral Nachimoff's advice which was not followed, for a desperate sortie from Sebastopol with the wooden ships against the allies in 1854.

TO THE KNIFE.

It is war to the knife between Russia and Japan. It is doubtless whether the Russians realize the intense feeling of the Japanese.

The present war between Russia and Japan is utterly different from the wars which have been waged in recent times.

It is by no means the first time in the world's history that a similar condition of affairs has taken place.

Now of the Japanese we know that death has no terrors. To the soldier class, the samurai, death is infinitely better than dishonor.

The attitude that the Japanese troops took on the captured transports, when they would rather die than surrender, shows this characteristic of the Japanese.

This is a war which excites wonder in the world, but it should not do. It has been precipitated by Russia, which should have known what she was about.

It is well that this halt has been called. The world is not going to be bettered by the rule of the Muscovite.

The struggle between Russia and Japan is a world struggle. It is more important, more epoch-making than anything we have had to consider since the time of the battle of Tours.

Between Japan and Russia there is not at present a religious question, but there is a racial question which may grow into a religious question.

Solomon Meheula, clerk of the lower house in the Legislature of 1903 has been convicted of destroying public documents.

The case is of the utmost value because it will teach the legislators of the future that they and their officers are amenable to law.

It is a bad business to fool with the federal government. Its arm is long and its grasp is very strong.

That the first Legislature of the Territory of Hawaii had its vouchers destroyed and no notice was taken of it was no palliation of the act of Mr. Meheula.

There are other cases connected with this which will come before the Territorial courts, and the result of this one in the federal court will not make those involved feel too happy.

In Federal expenditures, if the appropriations run short, work has to stop until the new appropriation becomes available.

A. A. Wilder appeared as attorney for Richardson, and stated that a demurrer to the indictments would be filed. The cases were all postponed to next Wednesday. The indictments charge Richardson in his capacity as clerk of the water works, with embezzling government funds, the form of the indictment in each case declaring that Richardson "being then and there a person employed in the Department of Public Works of the said Territory of Hawaii, to wit: Clerk of the Honolulu Water Works, and being then and there, by law regulation and appointment, charged, as such Clerk of the Honolulu Water Works, with the safe-keeping, transfer and disbursement of money, notes, effects and property belonging to the said Territory of Hawaii, and having then and there, by virtue of his said employment as such Clerk of the Honolulu Water Works, in his possession, custody and control, by law regulation and appointment, divers sums of money, notes, effects and property, the character and value whereof is to the members of this Grand Jury unknown, amounting in the aggregate to a sum exceeding in amount and value the sum of two hundred dollars, the then property of and belonging to the Territory of Hawaii, and the same being then and there entrusted to him, the said Edward Vivian Richardson, by law regulation and appointment, as such Clerk of the Honolulu Water Works, by virtue of such his employment, as Clerk of the Honolulu Water Works as aforesaid, for safe-keeping, transfer and disbursement, feloniously did embezzle and fraudulently convert to his own use and benefit certain money of the Territory of Hawaii, to wit: the sum of one hundred and seventy-two (172) dollars and fifty (50) cents, of the value of one hundred and seventy-two (172) dollars and fifty (50) cents, a more particular description of which is to the members of this Grand Jury unknown, being parcel of the money, notes, effects and property of the said Territory of Hawaii, of which he, the said Edward Vivian Richardson, was then and there charged with the safe-keeping, transfer and disbursement, by law regulation and appointment, under and by virtue of his said employment, as Clerk of the Honolulu Water Works aforesaid, and did then and there feloniously embezzle and fraudulently convert the same to his own use and benefit, without the consent and against the will of the said Territory of Hawaii, the owner thereof, and entitled thereto, and did then and there and thereby commit the crime of embezzlement, contrary to the form of the statute in such case made and provided."

Hard Luck Story of Mate Worth, Indicted For Shooting a Japanese Sailor.

Most of the defendants indicted by the grand jury in its report of

last Thursday were arraigned this morning before Judge De Bolt. In the case of H. C. Worth, mate of the schooner Othello, who is charged with shooting a Japanese member of the crew, Attorney S. F. Chillingworth said that the schooner had left port, taking with it Worth's sextants, his clothing and other effects and his certificate or license as a mate, leaving him without means of livelihood. The complaining witness had also been taken on the schooner, said the attorney.

Deputy Attorney General Fleming said that a witness was of Molo-kai and could not be here until next Friday. After a good deal of argument the court set the case for next Wednesday.

In the case of George Harrison, charged with shooting at his wife Henry Hogan began a roast of the grand jury system, declaring that it is iniquitous.

"What do you want?" asked the court. "If you will state what you wish done, perhaps the court may be able to do it."

Hogan said he wanted his client allowed to withdraw the plea of not guilty made yesterday when no counsel was present. This was allowed and the case was set for Wednesday for plea.

F. C. Bertleman was arraigned on a charge of assault and battery on Mary D. Bertleman, and this case also was postponed.

MARS HAS A DROUGHT

A PROFESSOR WHO THINKS THE SO-CALLED CANALS ON THE PLANET ARE IN REALITY GREAT IRRIGATION DITCHES OR TRACTS OF LAND ON WHICH CROPS MAY BE SEEN TO RIPEN.

LONDON, April 29.—Percival Lowell, who has long made a special study of the planet Mars has lately made some curious observations, throwing new light on the probable inhabitants. In studying the canals which have been known for thirty years as intersecting the Martian continent in all directions, he discovered an interesting feature of their use. There are two canals, called by astronomers Thoth and Ameneth, which come alternately into the telescope's view of the planet. Lowell maintains it is evident they are dependent on a single water supply, which is admitted to each in turn.

This is further proof that the canals are not accidental markings of the planet's surface, but artificial channels of irrigation regulated by the Martians as the systems fed by the Nile and Ganges are regulated by Egypt and India.

The objection to this theory is the huge size of the canals. Many are calculated to be sixty miles wide. On the other hand, the so-called canals are perhaps not actual water channels themselves, but broad tracts of cultivated land, which are only distinguishable from the surrounding desert when the crops ripen.

Lowell concludes that the alteration of the visibility of Thoth and Ameneth proves that the Martians are obliged to economize their scanty supply of water for irrigating the cultivable land as to combat the perennial water famine.

PU LUN IN WASHINGTON

SPECIAL ATTENTION PAID TO THE VISITING CHINESE PRINCE BY PRESIDENT ROOSEVELT LEADS TO TALK OF THE POSSIBLE INTERNATIONAL IMPORTANCE OF THE VISIT OF THE CHINESE EMPEROR'S NEPHEW.

WASHINGTON, April 22.—Prince Pu Lun, nephew of the Emperor of China and head of the Chinese commission to the Louisiana Purchase Exposition, will arrive in Washington tomorrow. For three days he will be entertained as have few visiting dignitaries in recent years. He will be shown especial consideration by President Roosevelt. Secretary Hay will give a dinner complimentary to the Prince Tuesday night and the President will attend the function. It will be one of the most brilliant affairs of the season and will be notable for the galaxy of distinguished men attending.

All this gives rise to much speculation whether there is not a great deal of international politics involved in the visit of the Prince. It is stated that he has no official mission in this country, save to visit the exposition. Nevertheless, the attention which the President and Secretary Hay will bestow upon the visitor has an indirect connection with American-Chinese relations.

THE PUBLIC LANDS.

More than 22,824,209 acres of the public lands were turned over to private individuals last year. This means that an area almost equal to that of the state of Indiana has within that time been added to the productive regions of the United States. Most of these newly-opened lands were homesteaded by farmers.

HILO BANANAS VIA HONOLULU

The steamer Kinau arrived at 10:20 o'clock this morning from Hilo and way ports. There were fresh winds in the channels and considerable swell was experienced. The vessel did not bring as large a crowd as usual but her cargo contained one unusual shipment. This was the first consignment of bananas from Hilo for San Francisco via Honolulu. On the Kinau were 274 bunches of bananas to be re-shipped on the S. S. Alameda next Wednesday for the coast. The S. S. Enterprise had too much cargo to take this consignment so the shippers arranged to have the bananas sent by the Alameda. Admiral Beckley of the steamer Kinau reports that the banana industry between Hawaii and San Francisco is increasing rapidly.

Among the passengers who returned on the Kinau were Land Commissioner Frait and Deputy Attorney General E. C. Peters who came from Hilo where they went in connection with an alleged shortage in the land office at that place.

D. B. Macdonald of T. H. Davies and Company returned from a business trip to Hawaii.

John Watt who has been at Oahu several weeks as the expert for Bishop and Company, returned.

Miss Alice Campbell and Miss G. Dowsett were among the returning passengers.

Dr. J. H. Raymond returned from the other islands.

A ship was sighted off Oahu today. She is thought to be the Axyan now on its way from San Francisco.

BREAKS THE RECORD.

WAILUKU, April 29.—The full rigged ship A. J. Bopes, Captain Rivers, will most likely sail for the Atlantic on next Wednesday morning. She is

almost fully loaded and will take about 2500 tons of sugar from Kahului. She will sail for Delaware breakwater via Cape Horn. The Ropes is the biggest full rigged ship that has ever entered the harbor of Kahului. Heretofore the biggest vessel to visit the port was the A. J. Fuller, Captain Bernol, but the Ropes has a capacity of 600 more tons. The ship Bengatree arrived at Kahului during the week, and is now awaiting the completion of the Ropes' cargo, before she commences loading. The Bangalore like the Ropes will sail via Cape Horn. The warehouses on central Maui have been full of sugar for some time, but these two vessels are relieving the situation somewhat.

MAUI BASEBALL.

WAILUKU, April 29.—The game of baseball played at Well's Park on last Sunday between the Kahului and Makawao baseball teams was not as interesting as the one played the Sunday previous. The score was a bad one, although the game at times seemed to be rather interesting when the score stood even on two occasions. The Kahului team showed that they could play good ball and that the Makawao would have to do much better, if they ever expect to win a game during the season.

The game of the season will most likely come off on the coming Sunday when the Kahului will meet the Morning Stars on the Diamond. So far the Morning Stars and Kahului are on a par, each team having won two games. This game will decide the winner of the first series of six games. The Morning Stars are strong in their battery and infield support, while the Kahului have good support all around though it may be that their battery is not as strong as that of the Morning Stars. A large crowd is anticipated as next Sunday's game.

RAILROADED TO JAIL SAYS GALBRAITH

SOME SENSATIONAL STATEMENTS IN A DISSENTING OPINION IN TONG KAI BRIBERY CASE—COURT SUSTAINS CONVICTION OF CHINESE WHO ATTEMPTED TO BRIBE DEPUTY ATTORNEY GENERAL PETERS.

A decision was given this morning by the Supreme Court, Galbraith dissenting, in the case of Tong Kai, the Chinese who was convicted of attempting to bribe Deputy Attorney General Peters, in connection with gambling cases. The opinion of the court, by Perry, sustains the conviction and says there was ample evidence that Tong Kai offered Peters \$1,500 per week, while Galbraith dissents vigorously on all points. The dissenting justice finds that there was an apparent desire to "railroad" the defendant to prison and even accuses counsel for the defense of "offering little resistance" and seeming to almost share in the desire.

Tong Kai was caught by concealing witnesses in a cabinet in the attorney-general's office, to listen while he made a proposition to Peters. He was charged with corruptly promising Peters \$1,500 per week if Peters would see that Chinese gamblers were not prosecuted. The opinion of the court says:

"The evidence was such as to justify a finding that the plaintiff offered to Mr. Peters, as Deputy Attorney General the sum of \$1,500 per week as a gift or gratuity for the purpose of influencing him and the other officials of the attorney general's department to desist from arresting or prosecuting the plaintiff and certain associates of his in the event of their opening and conducting a certain lottery which they were desirous of maintaining in this city contrary to the provisions of our penal statutes."

"That the only relevant evidence presented to the trial jury against the plaintiff in error was the uncorroborated evidence of a confessed accomplice, then under indictment for the same offense. A conviction based upon the uncorroborated testimony of an accomplice is legal. Moreover, corroborating testimony was given by Mr. Peters and by the witness Ah Kum. It is also argued that there was an abuse of discretion in the court's failure to advise or caution the jury against convicting on the uncorroborated testimony of the accomplice, but this point is not assigned as error and cannot be considered."

Justice Galbraith in the course of his dissenting opinion says:

"The defendant might have admitted the truth of everything charged in the indictment and still insisted that he was guiltless of any offense against the law. He had a right to promise the Deputy Attorney General a gift or gratuity with intent to influence his official conduct provided he did not intend thereby to seduce him from the performance of some official duty. This charge fails to allege whether or not the defendant intended to induce the Deputy Attorney General to be good to him and to pursue his enemies in these criminal proceedings, either pending or impending, or whether he wanted to induce the Deputy Attorney General to dismiss or refrain from prosecuting proceedings against the defendant and his countrymen and to prosecute with vigor 'the stranger within our gates,' or the white man caught tempting the Chinese Goddess of Chance. In other words it fails to charge the defendant with any criminal act."

"I am impressed with the conviction that there was great haste exhibited to land this Chinaman in prison for some undisclosed reason. The indictment was returned May 14, charging the alleged offense May 10, and he was tried and convicted May 27. Whether or not he was ever arraigned or plead to the indictment the record here does not disclose. At any rate there seems to have been a prevalent desire to speed the defendant along to the reef. The counsel who then appeared for him offered very little resistance to the fulfillment of this desire, in fact the inference that he shared in the desire might be justified from his line of defense and the feebleness with which the same was presented."

J. A. Mathewman appeared for defendant and M. F. Prosser for the Territory, in the supreme court.

OPENING OF THE BASEBALL SEASON.

The baseball season opened today, and a large crowd went to the grounds in time for the first game at 1:45. The start of the season finds all the league teams well organized, and public interest in the series of games is as keen as ever.

The Punahou and Mailes were first on the list for the season's contests and had the honor of opening the season's play. The band was in attendance and the season had an opening which augurs well for a success more than equal to that of last year. The second game, to start at 3:30, is between the H. A. C.'s and the Elks.

Sure Cure

The debilitating effects of a warm climate and exposure to all kinds of weather are sure to bring on disorders of the blood and weaken the system.

Mr. Charles Geddes, of Mt. Malcolm, W. A., sends us his photograph, and tells of a sure cure for these conditions.
"For some time I have been landlord of the Royal Hotel in the Mt. Margaret gold fields district, eighty miles from the nearest railway. I have sold a great deal of Ayer's Sarsaparilla, and it gives the most universal satisfaction. When miners, prospectors, and others become run down by lack of fresh vegetables and fruits, and from exposure to all kinds of weather, their blood becomes very impure and the whole system greatly weakened. But

AYER'S Sarsaparilla

is always a sure cure. I have known miners to walk a hundred miles for it, such is their faith in it.
There are many imitation Sarsaparillas. Be sure you get "Ayer's."
Ayer's Pills will greatly aid the action of the Sarsaparilla. They are all vegetable, mild, sugar-coated, and easy to take.
Prepared by Dr. J. C. Ayer Co., Lowell, Mass., U. S. A.

LOCAL ATTORNEY AN AUTHOR

Thomas Milner Harrison, the attorney who came here to fight the Hagey cure case and who is now associated with Henry E. Highton, is the author of a romance "Modern Arms and a Feudal Throne," just issued by R. F. Fenno and Company, New York publishers. The book is on sale at Wall, Nichol & Company's store.
Harrison's book is a story of adventure. The plot shows originality and powerful imagination. The chapters are all full of incident and readers will find the story a thrilling one. The author has shown much skill in the handling of his plot, and his effort is likely to meet the modern taste for stories of adventure. There is a love story, of course, mingled with the scenes of strife and bloodshed. Harrison has reason to be proud of his debut as an author of fiction and his effort will probably entertain many readers. There are several excellent illustrations.

HARSH TREATMENT OF CHINESE

COMPLAINT THAT THE AMERICAN EXCLUSION LAWS OPERATE HARSHLY AGAINST PROMINENT CHINESE WHO ENTER THE COUNTRY ON ST. LOUIS EXPOSITION BUSINESS.

ST. LOUIS, April 11.—A special to the Republic from Washington says: Diplomatic complications in the relations between China and the United States have arisen, according to information from sources closely identified with diplomatic circles, because of the harsh manner in which the Chinese exclusion laws are operating against Chinese of consequence who have business in this country at the St. Louis World's Fair.

Sir Chen Tung Liang Cheng, the Chinese Minister, has filed formal protests in the matter.
The situation is considered delicate, not to say serious, because of the war in the Far East, which embarrasses all the diplomacy of the Orient, and because of the added fact that the whole Chinese exclusion question is to come up for another solution, since the period covered by the existing treaty soon will expire. At the present time the passive friendship of China is of importance in Asia, that American interests may not suffer there.

The incidents cited by the protests are said to refer to two parties of prominent Chinese bound for the world's fair, who, though armed with certificates from their government and with papers indorsed by the American Consul-General at Shanghai, were detained at San Francisco. It is asserted that they were subjected to indignities which have been the cause of their bitter resentment.

In regard to the protest, Chang Youtong, secretary of the Chinese world's fair commission, said tonight:
"My countrymen were subjected to humiliating treatment at San Francisco, where they were held up by the customs officials for two days, despite the fact that they had sufficient money with them to justify the statements that they were reputable citizens of China and not paupers."

"They also had signed letters from the American Consul at Peking, stating their financial and social standing in China, but they were forced to furnish a bond in the sum of \$500 gold each before the customs officials would release them."

WILL EXTEND CABLE BUILDING.

NEW YORK, April 18.—Clarence Mackay has just accomplished two notable steps in his plan for the enlargement of the Commercial Cable building, and has incidentally put himself into position to take advantage of some of his antagonists in the real estate field.

He has bought out Jefferson M. Levy's interest in the Commercial Cable Building Company, making Mackay and his mother, Mrs. John W. Mackay, the only owners of the skyscraper at 20 Broad street.
He has also bought William F. Havemeyer's little parcel at the northeast corner of Exchange place and New street. On this plot, 26x46 feet, the Havemeyer-Savin Company a year ago proposed to erect a sixteen-story building, which would have darkened the proposed extension of the cable building.

The Commercial Cable Company now can go ahead and blanket the adjoining Blair building, without fear of retaliation. Mackay will shut out its westerly light because of a quarrel he once had with the millionaire interests which built it. This quarrel resulted in the Blair building being erected close against the Commercial Cable building, cutting off its southerly light.

Beer must be pure
to be good; must be brewed only from the best materials; must be scientifically filtered, thoroughly aged, bottled at the brewery and sterilized after bottling. It must always be shipped in the bottle, for beer shipped in bulk and bottled at supply depots is sure to absorb impurities.
The Famous A.B.C. Beers
are guaranteed absolutely pure and free from all preservatives and chemicals
used in other brands of bottled beers, which are injurious to the health. They are never sold in bulk—are the only beers bottled exclusively at the brewery. Made from the finest Bohemian hops, they are aged for months, then filtered and piped direct from the brewery vaults into bottles by means of hermetically closed filling machines. This prevents the beer from coming in contact with the outside air, and insures absolute freedom from bacteria. It also preserves its natural effervescence and zest.
Six Points of A.B.C. Excellence
1—Purity. We absolutely guarantee the purity of all our beers.
2—Flavor. This is the distinctive, individual characteristic of any beverage, peculiar to it alone, and is the quality that has made A. B. C. Bohemian Beer famous.
3—Brilliance, clearness and polish, proving perfect brewing and fermentation.
4—Clean Taste. No disagreeable foreign or aftertaste, proving scrupulous cleanliness during brewing process.
5—Keeping Quality. The most trying test for bottled beer. A. B. C. Bohemian will keep and retain all of its qualities under varying conditions.
6—Solid, Creamy Foam, denoting body age and excellence of brewing materials.

AMATEUR OPERA

Much has been said in the preliminary notices of the men who have the principal work in the production of The Ahkond of Swat, supposedly as the piece is a comedy and women in comedy are few. But it is the good fortune of the Ahkond company to have several principals who are the peers of the men in finely drawn comedy work. They have plenty to do, too, and there will be no lagging of the fun from unpreparedness on their part.
To Mrs. E. D. Tenney will fall the principal work. As the soubrette she will have the most striking scene with the fake prince, and the way in which she brings out her specialty, a song and dance, is the very first order and is sure to make one of the biggest

bits of the show. Mrs. Tenney has an opportunity for some fine work both comedy and serious, and her two songs are as widely different as may be imagined, yet she is showing a strong capacity for the work and enters into it with heart and soul.
Mrs. Percy Benson as Mrs. Poppleton has a part in which she appears as the struggling woman, reaching for a high society position, and always apprehensive, often convinced that her husband the ex-pork packer, will not be amenable to the strings of society as the East understands it. This and her gush over the prince gives opportunity for strong character study and during the preliminaries Mrs. Benson has shown excellently.
Miss Hartnagle as the dairymaid has some clever scenes with the prince and the gallor, and one song which is effectively sung, the by play being of a highly comical order.
The most serious work of the piece is done by Mrs. Dr. Camp, who as Mrs. Vanderhoff is the real society leader and has to work along with the two princes and her daughter, Mrs. Hibberdine who has another serious part they taking much of the hardest work vocally and carrying through the finale of the three acts. Miss Fisher as Miss Poppleton and the three summer girls, Mrs. E. M. Boyd, Mrs. James Dougherty and Miss Giffard have parts in which they assist in the general merry making and help to carry off the ensembles of the piece.

There are still some very good seats to be had at Wall, Nichols Co.

Williams undertaking parlors until Sunday morning when the body will be transferred to the Wilder residence. The pall bearers are A. M. Brown, E. A. McInerney, A. J. Campbell, Judge Stanley, Associate Justice Galbraith and Eben Low.

NO ARCHIVE BUILDING.
The plan to erect a building for the preservation of legal and other documents, on the Judiciary building grounds has been given up. An appropriation of \$75,000, was made in the loan bill for such a building, but Governor Carter and Superintendent Holloway decided not to spend the money. The governor favors a new building for the government departments, each department having its own fire proof vaults, rather than one building devoted exclusively to records.

RIGGS REPLIES TO THE JUDGES

Jury Commissioner Riggs has sent the following reply to the letter sent him by Judges De Bolt, Gear and Robinson, complaining of numerous jurors on the list for the year being disqualified:

"I beg to acknowledge the receipt of your esteemed favor of the 26th instant with reference to the large number of legally disqualified persons among the list of 250 selected to serve as jurors in the circuit court for 1904, and to state in connection therewith, that among the 65 or 70 names mentioned in that list, one of those names, only (Mr. Bruce Cartwright), was selected by the writer. I can not understand why he should be exempt from jury duty as he is an American citizen and there appears to be no clause in the Act which would permit him to be excused from jury duty. Quoting from your letter I beg leave to respectfully state: 'In the interests of justice and to the proper and economical administration thereof,' that while sitting in court for several days for one of the previous terms since this list of jurors was drawn, and listening to the excuses given by a number of Hawaiians who claimed that they could not understandingly read and write the English language, I feel that if a thorough investigation had been made as to their qualifications for speaking and reading and writing the English language, a number of them could not have been excused from serving. 'Each and every name selected by the writer and filed with the Honorable Court was taken from the list of registered voters. In addition to this I personally interviewed a number of men whose names I had intended putting on the list, as to their qualifications. 'I feel therefore that I have conscientiously performed the duties which devolved upon me as jury commissioner and have selected the names to the best of my ability and trust my explanation will dispel any doubt in your mind as to that fact. Yours very truly, 'J. M. RIGGS, 'Jury Commissioner, T. H., First Circuit.'"
