

ADMIRAL SKRYDLOFF

Here is a new picture of Admiral Skrydloff, the Russian naval commander who has achieved the most conspicuous Russian successes of the war so far. Skrydloff is still in command of the Russian squadron at Vladivostok and the world is waiting to see what he will do next. The admiral's destruction of Japanese transports in his flying raid, is believed to have interrupted the plans of Generals Kuroki and Oku, by depriving them of reinforcements, thus delaying the campaign against Kuropatkin and Port Arthur. It may eventually change the course of the war, by giving much additional time to Kuropatkin to strengthen his forces.

Over 10,000 Tons Of Sugar Arrive Today

CALIFORNIAN REACHES HER DESTINATION WITH ABOUT 8000 TONS OF SUGAR—ALAMEDA MAKES SAN FRANCISCO WITH SUGAR AND ALSO SCHOONER DEFENDER AND H. C. WRIGHT ARRIVE AT COAST PORT TODAY.

This is likely to be the banner sugar day for these islands. Dispatches to the local branch of the Marine Exchange today tell of the arrival of four sugar cargoes at various mainland ports. The S. S. Alameda arrived this morning at San Francisco from Honolulu, the schooner Defender from Puako, and the schooner H. C. Wright from Mahukona, also reached San Francisco with cargoes of sugar.

But the most material cargo to arrive was that on the S. S. Californian which was reported off Delaware Breakwater this morning. The latter vessel had about 8,000 tons. The combined cargoes are over 10,000 tons. The price at New York is \$78.75 a ton, which is a very good quotation.

Convict Woods Again Plans An Escape

On a charge of assisting convict Woods in a new plot to escape from Oahu jail, W. J. Glenn, a sailor of the training ship Adams, was charged, tried and found guilty in the police court this morning with a rapidity which, as he was unrepresented by counsel, aroused the comment that he was "railroaded" to jail. He was brought from jail, where he was already serving time, charged, tried, convicted, sentenced and taken back, all in a morning and with no attorney to represent him.

The case is one about which was maintained a degree of secrecy more characteristic of some dark age than present day methods of American institutions of justice. W. J. Glenn, a sailor from the training ship Adams, was charged with aiding and abetting Fred Woods, the notorious negro prisoner, to escape from the jail. For some unknown reason the authorities shrouded the entire proceedings in mystery. Nothing of the attempt on the part of Woods to escape from prison was made public, no charge was filed against Glenn until this morning when his name was added to the police court calendar, but after the list had been made out in the regular form.

It appears that Woods, whose sentence of life imprisonment for burglary was recently commuted to ten years, was not satisfied with the executive clemency and has been planning to escape. He made a pair of trousers out of a black blanket which together with some other effects for disguise, he hid near the stone quarry where he and the rest of the prison gang are in the habit of working. Wood's plan was to watch his chance and make a break for liberty while at work, don the disguise and try to escape from the island aboard some transport. Glenn was charged with having aided and abetted him to the extent of giving him a note to some friend aboard the transport Thomas, with the request that assistance be given to Wood.

According to the evidence this morning Woods planned to escape July 4. On July 5 he spoke to Glenn. The latter was serving a three months' sentence for assault with a weapon, so was a prison mate of the negro convict. Wood claimed that he first spoke to Glenn in the store room at the prison and asked him if he knew anything about any transports coming to Honolulu. Woods wanted to secure from the man some letter or advice about getting away on the vessel. Glenn finally said that the Thomas was expected to arrive about the 15th of the month, and went out of the place and beckoned to Woods going to the closet. In the closet Wood explained the purpose of his desire to es-

cape and get away on some transport. Glenn then wrote a note which he gave to Woods. This note was addressed to one "Henry Lewis," a friend of Glenn. Wood's idea in securing this note was to hand it to the man on the transport who would assist him in escaping. The note was introduced later in evidence and was as follows:

Honolulu, T. H., July 5, 1904.

Mr. Henry Lewis: Sir—Henry, this fellow is a good friend of mine and is in need of a little help, and you will do me a favor by giving him a hand. He will tell you the story himself.

I remain, your friend, W. J. GLENN.

Warden Henry of the Oahu prison where both men were confined, testified to having heard of Wood's desire to escape and having found the note in Wood's possession. Wood refused at first to divulge anything of the scheme to escape but later did so. Glenn was called into the office of the Warden and asked to write something on a piece of paper which was also produced by the witness. The purpose in getting Glenn to write this record note was to compare the handwriting with the note held by Wood. The Warden was satisfied that the handwriting was similar. Wood finally confessed everything in the matter.

Glenn had no attorney. He took the stand in his own behalf and made a very straightforward statement regarding the matter. He denied having written the note which Wood claimed had been handed to him, and also denied having had anything to do with any attempt on the part of Wood to escape. The witness denied positively the testimony of Wood, regarding the meeting in the closet. Wood had questioned the witness in the store room regarding

LATE ARRESTS

Hookaku was taken into custody by the police this afternoon pending investigation. The wife of the man is a lei seller and she claimed that her husband was spending her earnings in a wasteful manner. She wanted his extravagance stopped.

Thomas Marshall charged with stowing away on the S. S. Sonoma at Sydney was transferred to the police station today to await the arrival of the S. S. Sierra. He will be put aboard the Sierra and sent back to Sydney. Several alleged gamblers were arrested this afternoon by the police.

CRABBE FOR POSTMASTER

Senator C. L. Crabbe will retire from the chairmanship of the Republican Territorial Central Committee, it is stated, before the opening of the coming campaign. Crabbe was chairman all through the last canvass and proved a very successful campaign manager but it is not thought that he will undertake the work again.

Present advices are that the senator will retire from politics and will be postmaster of Honolulu. It is said that Governor Carter when he left here left with the intention of recommending that Crabbe be made postmaster, not knowing at the time that the commission of J. M. Ott would not expire until next December. According to well founded reports the recommendation and appointment would have been made by this time, but for this discovery, and the appointment will be made when the time comes.

Crabbe was president of the Senate through the last regular and special sessions. His political career has been one of much success, he having been one of the leaders in the real organization of the Republican party throughout the Territory. It was this perfect organization which had much to do with the Republican success and reversal of the Home Rule victory of the first Territorial campaign.

The question of a successor in the event of his retirement from the head of the party management, is already being discussed.

LOOKING UP LAND PRICES

The federal government is investigating prices of Pearl City land, presumably with a view to ascertaining at what price lands for lighthouse site can be secured. Some of the owners of lots in Pearl City have been receiving letters asking them to give the government the minimum figures at which they would be willing to sell.

Lieutenant Slattery, engineer of the lighthouse corps, is at present in the islands working on the lighthouse proposition, and it is said to be the intention to locate a station at Pearl City or thereabouts, for the benefit of Pearl Harbor commerce and war vessels, when there are any. Little is being done with Pearl Harbor since the channel was dredged, but the work on the lighthouse proposition is evidence of the general policy to eventually open the harbor.

ANOTHER EXPOSITION

Governor A. J. Montague of the State of Virginia has addressed an official communication to the governor of Hawaii asking that the Territorial legislature be informed of the intention of the State of Virginia to celebrate the anniversary of the landing of the first colony of English-speaking people in America at Jamestown, Va. This event occurred on May 13, 1607, and Virginia was a colony with a fully organized assembly two years before the landing of the heroic pilgrims at Plymouth Rock. The General Assembly of Virginia has passed a joint resolution favoring the holding of a great industrial exposition on the shores of Hampton Roads in 1907 and the co-operation and assistance of all sections of the country are asked.

LAW LAID DOWN BY THE COURT

CONCLUSIONS STATED IN EIGHT SYLLABI OF DECISIONS HANDED DOWN BY THE SUPREME COURT YESTERDAY—TWENTY-SIX STATEMENTS OF LAW APPLIED TO THE VARIOUS CASES WHICH WERE DECIDED.

The Supreme Court's eight decisions of yesterday were a deluge of law points for the local legal fraternity. In the eight syllabi are twenty-six conclusions of law as stated by the court, all of which will form part of the next Hawaiian report and as they were unanimous can be relied upon to remain as the law of the land. The legal rulings in the various cases are as follows:

E. H. F. Wolters vs. F. H. Redward, First Circuit: A party offering secondary evidence of the contents of a lost paper must show that he has in good faith exhausted in a reasonable degree all sources of information and means of discovery which the nature of the case would naturally suggest and which were accessible to him.

The character and importance of a lost document will control as to the degree of diligence to be used in the search.

In a suit against the principal on a bond by the surety who had paid the bond, the same having been given to a building committee of a Masonic Lodge to secure the performance of a building contract, search for the lost bond having been made of each of the surviving members of the building committee and of the secretary of the lodge and of the attorney who compelled payment by the surety, held secondary evidence was admissible.

J. Alfred Magoon, Guardian of Kalua Kapukini, a spendthrift, Plaintiff in error, v. Thomas Fitch, defendant in error, First Circuit: A Circuit Judge sitting in probate has jurisdiction to allow fee to counsel representing a ward in an unsuccessful attempt to obtain revocation of an order of guardianship.

The amount of such allowance is not reviewable on writ of error except in case of abuse of discretion by the Probate Judge.

Allen & Robinson, Limited v. Annie S. Reist, First Circuit: An owner is not personally liable in assumpsit upon an implied promise to a sub-contractor or materialman for materials furnished to the contractor.

A materialman's lien is dependent upon though not created by contract, express or implied. A mere trespasser has no lien under the statute for materials furnished and used in a building on another's land. An allegation merely that the materialman furnished materials which were used on the building is not sufficient.

There is a variance, justifying a directed verdict, between an allegation of a contract between the owner and materialman and proof of a contract between the owner and a contractor and another between the contractor and materialman.

William R. Castle, Trustee, plaintiff in error, v. Kapiolani Estate, Limited, defendant in error, First Circuit: All of the parties to an action must join in a writ of error, unless there has been a severance of interests.

It is error to enter several judgments in ejectment where several parties are made defendants and one cause of action only is set out. Judgment must conform to the verdict or findings.

Wo Sing Company v. Kwong Mau Wai Company, First Circuit: In an action on a note signed in a partnership name by one partner, it need not be alleged that the partner had authority to sign or that the partnership was a trading partnership. An allegation that the defendant partners made and delivered the note, etc., is sufficient.

Wo Sing and Company, v. Kwong Chong Wai Company, First Circuit: It is sufficient in general assumpsit for goods sold and delivered to allege the facts from which a promise may be implied, without alleging the promise itself.

A general objection to the admission of evidence on the ground that it is incompetent is as a rule insufficient if the evidence is admissible for any purpose or if the objection can be obviated.

A note originally unstamped may be stamped afterwards in the manner prescribed by statute, and, if it is not stamped and was given in payment for goods sold and delivered and was not paid at maturity, a recovery may be had on the original consideration.

A mere scintilla of evidence is insufficient to support a verdict.

Territory of Hawaii v. Jacintho A. de Nobrega, Mathias Baptista and Joao Cordeiro, Fourth Circuit: This Court has no jurisdiction of a motion to discharge the defendants on the ground presented here for the first time that the record shows no sentence passed in the court below.

A witness for the prosecution having testified that he visited a locality at night to watch his cattle may properly testify 'We had been missing cattle right along and proposed to go up that night and watch for cattle thieves.'

It is not prejudicial error to rule out on cross-examination of a witness for the prosecution the question whether one of the defendants had a short time before purchased certain cattle for butchering purposes, the defendant himself afterwards having testified fully on the subject.

A witness having testified for the prosecution that he had found the hide of the stolen steer under C's house the question asked on cross-examination whether there was "No attempt to hide it?" is properly ruled out.

The question of an alleged defect in an indictment for larceny of a steer averring the property to be in one the Estate of William H. Rickard, deceased, ought to be raised by demurrer on motion in arrest and not for the first time in this Court on an exception that the verdict is contrary to law and the evidence; but the Court is of the opinion that the indictment is sufficient under the statute.

Robert M. Fuller v. Honolulu Rapid Transit and Land Company, First Circuit: The court takes judicial notice of Chapter 69 of the Act of 1898, authorizing a street railway in Honolulu, but if this were not so the defendant's admission that it was a corporation organized under the Act would dispense with proof of the Act.

The right of way mentioned in Section 11 of the Act does not require that persons lawfully using the highway shall not pass in front of the defendant's cars under any circumstances, nor authorize defendant's cars to cross intersecting streets at times and under circumstances endangering the lives or property of persons attempting to cross in front of the cars. The defendant corporation's duty requires it to exercise due and proper care to avoid injury to other persons.

It is not contributory negligence on the part of the plaintiff to step upon the outer platform of defendant's car while stopping for passengers and to walk forward on the standing board to find room to sit in the car, it appearing that the car was full.

The evidence in the case is not such as to permit of but one reasonable inference concerning the defendant's negligence, consequently a decision by the court, jury waived, in favor of the plaintiff cannot be set aside on the ground that there was no evidence on which defendant's negligence might reasonably be inferred.

Whether in a case like the present a defendant is entitled to obtain physical examination of the plaintiff is not required to be determined in this case, since if such right exists in any case the examination ought to be applied for before entering upon the trial.

COAL COLOR.
If a pound of coal is subjected to a dry distillation and the products and residual treated chemically by the processes for obtaining the well-known coal tar colors, it will yield enough magenta to color 500 yards of flannel, vermilion for 2500 yards, aurine for 120 yards and alizarin sufficient for 155 yards of red cloth.

Frank L. Hoogs, Manager. TUESDAY, JULY 12, 1904

The animating purpose of the "Forest City" series of World's Fair Art Portfolios is to transfer the Fair in permanent and enduring form to the printed page...

Improving Our Bad Record

The reorganized supreme court has begun its work in a way very satisfactory to attorneys and litigants. The Star recently published statistics showing that in the number of dissenting opinions in her highest court...

It is impossible that a litigant should feel a due measure of respect for the law when he finds the judges themselves so utterly unable to agree. The man who fights a case in the lower courts and then in the higher and is finally defeated with one judge out of the three to determine the issue...

Where the fault has been for the unfortunate record of reversals and disagreements of the past, it is useless to say at this time, and perhaps impossible also. We have passed through an unhappy period of judicial turmoil, during which it has almost seemed that we had factions on the bench.

Roosevelt Is The Issue

The Republican campaign issue is Roosevelt. The man in the White House is really the head and front of the whole canvass, and the real question to be submitted to American balloting next November is whether there shall be four more years of Roosevelt or not.

The young president is the subject of some extraordinary eulogies, as well as of harsh attacks, but it is noteworthy that the enemies of the man find nothing, beyond the yellow and absurd generality that he has "surrendered to the trusts," except that he is "unsafe."

"Property should be protected, capital should be preserved, enterprise should be fostered, liberty should be protected, the laboring man should have fair wage. Yes! Yes! But for the sacred interests that gave birth to this club, for the perpetuity of the institutions which we love, for our children's children's sake, the one thing needful is that truth and honor and love of country, and the service of mankind, shall be the goal set before the eyes of the President of the United States."

"We are passing! This club goes on. Our country goes on. Whether the standards be low or high, whether they be the standards of the hour's expediency or the standards of civilization's progress, time only can tell; but that they shall be the latter, the work of Theodore Roosevelt, as President of the United States, is more weighty than that of any one, of any score of all of his detractors put together."

This is high sounding praise. Coming from a man like Root, is a truly remarkable tribute. It paints the sort of man the American people instinctively want for a hero and leader. It is the sort of praise that creates a stronger impression of admiration and support than a thousand tariff speeches.

Expositions multiply. Portland is to have one to celebrate the Lewis and Clarke expedition, which opened the Northwest Territory. Virginia is preparing to celebrate the landing of Jamestown by an exposition. What is the matter with a Hawaiian exposition, to celebrate Captain Cook's arrival? We can go back far beyond Lewis and Clarke's days.

The assailant of Billy Patterson, the author of the Letters of Junius and Democratic National Committeeman "Koa" are equally mysterious individuals.

The question which is interesting the world and especially Russia at the present time, is where is Japan going to stop?

When the matter is calmly considered there seems no reason to suppose that there was anything quixotic about the bold declaration of Judge Parker to the effect that he was a gold man and would if elected act as his judgment directed on the currency question.

The time is approaching for campaign work in the islands. The National committees are organizing their work, and Hawaiian Republican and Democratic committees will soon be doing the same.

The strategists of Europe are calculating many courses for General Kuropatkin. They all seem to agree that if he could win a battle it would relieve the situation, and that is as far as their agreement goes.

hundred and ten boys on its books, it is no small concern. They are kept usefully employed and unquestionably many of them who had seemed hopelessly started on the wrong track before they were committed, will leave the institution well equipped for useful careers.

If yesterday's dispatch stating that the war correspondents have been allowed to go to the front means that Japan has begun to abandon her policy of extra strictness, some of those who have returned from the Far East will be sorry they did not wait. It is possible that Japan has begun to feel that she is injuring her cause by her treatment of the correspondents.

The Department of Commerce and Labor in its consular reports of June 25, has the following:

"It is reported that upward of 2,000,000 tons of waste sugar cane are available in the Hawaiian Islands annually, suitable for the manufacture of certain grades of paper. The problem of disposing of this vast accumulation has, in the absence of any local paper plants, been partially solved by its being consumed as fuel for the motive power used on the sugar plantations. It is suggested that this information may be useful to paper manufacturers throughout the United States."

KONA LAND CASE. In the case of Agnes C. Galt against Lulla Waiianuha regarding the ownership of certain lands in the district of Kona, a reservation, at the request of both parties, has been filed for the consideration of the Supreme Court by Judge Gear. The questions to be decided are whether the plaintiff has shown title to herself in the premises in controversy, whether the evidence tending to show continued possession since 1873 is admissible and whether the proceedings on which the Land Commission Awards and Royal Patent were based are admissible for any purpose.

Argument was continued this morning before Judge Dole in the District Court in the case of Simerson and other shippers against the Inter-Island Steam Navigation Company. The men are trying to establish that under federal law the territory has no right to have part of their wages held back for payment of income tax. The case will finish today.

DEMOCRATS ARE AT SEA AGAIN

PRINCE DAVID SAID TO BE THE MAN WHOM LAUKEA AND PALMER WOODS HAD DECIDED ON FOR NATIONAL COMMITTEEMAN—WOODS' STRANGE RELUCTANCE TO TAKE AN OFFICE HE SPENT MANY MONTHS IN PURSUIT OF.

Democrats of Hawaii are in confusion once more over their representation on the National Committee, after over six months of contest, which were supposed to have ended the matter. Ever since the death of W. H. Cornwell, who was the former National Committeeman, Woods has been a candidate for the place, and has appeared to be very anxious for it, until his sudden wireless, followed by a letter, to Col. McCarthy, stating that he would not take it.

The fight for the position of Committeeman for Hawaii has been a peculiar one and has now become more peculiar than ever. It is said that there is "something doing" at the other end now, but local people are largely in the dark. They know that Laukea is there, with other delegates and that he has taken up the matter, but it is not known whether Woods has definitely cabled his resignation or not. In fact the Hawaii Democrats appear to be making a fine record for disagreements and changeableness.

Woods made a very energetic fight for the position he so quickly spurned when it came to him. As long ago as last January he and Colonel McCarthy were rival candidates. McCarthy was endorsed by the local party, and supposed his fight was won, but Woods stayed in the fight, and he won in the national committee in the face of the party here having spoken for McCarthy. He is said to have made an alliance with the Hearst forces here. It was a long time before he received his appointment, and there was much writing and cabling by the McCarthy side and the Woods side, consequently Woods' sudden decision that he did not want the job was a great shock.

It is thought by some that the "Koa" who is referred to in Woods' correspondence as the man to whom he and Laukea had decided that the committeeman's position should go, is Prince David Kawanakoa. He was quite prominent in the last Democratic convention here. Woods' last, however, is a statement that he proposes to resign in favor of McCarthy. The question remains as to what Laukea will do and how much influence he will command at St. Louis.

McCarthy, it is said, has opposition here again, and another fight may be precipitated. Some Democrats are indignant at the way in which Woods and Laukea, evidently before the latter left, got together and settled the whole matter for the party, apparently without consulting anyone or taking anyone into their confidence. It is a merry mix-up, and some accountings will have to be made to the organization by those who have been running the affair.

CARTER MAY STAY LONGER

CABLES TO "GOVERNOR JACK" TO KNOW IF HE MAY REMAIN ON THE MAINLAND UNTIL THE MIDDLE OF NEXT MONTH AND IS TOLD THAT HAWAII CAN DO WITHOUT HIM FOR A WHILE LONGER.

Governor Carter will probably not return until the middle of next month if he takes the advice gratuitously tendered him by Acting Governor Atkinson this morning.

The Acting Governor received a cable from the Governor dated at Rochester, New York, asking if it would be absolutely necessary for him to get home before the middle of August, and the Acting Governor employed all of his grey matter in drafting a reply which would respectfully intimate to the executive that the sun would still rise and set and the tides would ebb and flow even if he does determine to stay away for another month.

WOOD'S PLAN ESCAPE

(Continued from Page 1.)

any transport arriving in the city, but the defendant did not have anything to say to him, beyond stating that there would be a transport in during the month.

The witness admitted the conversation with Warden Henry and admitted having written the note that Warden Henry stated the witness had written in the office. The defendant stated that he would have no purpose in trying to help Wood escape. He denied positively ever having done anything of the sort. When cross-examined by High Sheriff Brown, the witness admitted that perhaps the two specimens of handwriting were similar, but he denied having written the note taken from Wood.

In spite of the fact that the case for the prosecution had closed, the High Sheriff took the stand after Glenn had made his statement and offered further testimony against the defendant, giving testimony that was in no way rebuttal in character.

High Sheriff Brown testified that he went to the prison yesterday and there in the presence of Warden Henry had questioned Wood and Glenn. Wood was very loath to say anything about the matter or to tell who the man had been who was supposed to help him escape. Glenn told that Wood had stated that he had written the note, began to blackguard Wood until further orders, whereupon Wood told Glenn that that was enough, and if he proposed to talk like that about him, he would tell everything. Wood then proceeded to do so, implicating Glenn.

These were the only witnesses. No handwriting expert was called. No expert testimony on this score decided that the handwriting was the same Glenn had under cross-examination declared that he thought that the reason Wood had accused him of helping him, was to shield some friend who, instead of Glenn, had actually tried to help him escape.

The court decided that the prisoner was guilty and sentenced him to serve six months at hard labor and to pay a fine of \$1 and costs, the sentence to begin at the expiration of Glenn's present three months' sentence. The defendant gave notice of an appeal.

MORTGAGES DISCOVERED.

Current rumor has it that there may be litigation over the title to different properties in the Kewalo tract which were sold by Charles S. Desky to different purchasers. The trouble is alleged to arise from the existence of a mortgage for \$10,000 on twenty-six of the twenty-nine lots sold by Desky on which \$7,500 still is due. The purchasers of the lots believed the property to be free of encumbrance when they bought it. The purchasers include W. Woiters, the California Feed Company, Willard E. Brown and F. C. Batters. The property was originally owned by the Cummins estate and the mortgage given in part payment to them was afterwards transferred to J. F. Haekfeld who now holds it.

WATERED TO THE LIMIT

NEW YORK, June 30.—The Journal says: Lawyers representing all sides to the litigation over the United States Shipbuilding Company in the United States Circuit Court at Trenton today fixed the figures relative to the shipyard trust. The figures are by experts, who have just finished the appraisal. It is admitted the amounts are too large rather than too small. The upset price to be demanded at the coming foreclosure sale was fixed at \$11,100,000, of which \$7,500,000 is to be for the Bethlehem Steel Company. The promoters put the Bethlehem Company into the trust two years ago at \$30,000,000.

The lawyers representing all the sides of the controversy today agreed that the true value of all shipyards in the trust is \$2,500,000. The promoters put these shipyards into the trust two years ago at \$41,000,000. The price at which the attempt was made to sell to the public is \$71,000,000. The watered stock now admitted amounts to \$59,900,000. The price at which another attempt is to be made by the reorganizationists to sell the same property to the public is \$30,000,000. The water in the reorganized trust is therefore \$19,900,000.

The proposed decree ordering the foreclosure was handed up to the court, and by way of concessions to Mrs. Ida E. Wood, the purchaser of 200 of the bonds, it was modified to reserve to her the privilege of taking up at any time after the sale the investigation which was dropped by Samuel Untermyer.

The Court reserved decision on the intervention as demanded by Mrs. Wood. It was agreed after the argument that the sale, when ordered, should be on condition that the purchasers put up \$600,000 cash as a fund out of which to pay Mrs. Wood and other bona fide bondholders in the event of other bonds used in the purchase of the property being held invalid.

The decree is also to provide that the purchaser shall furnish such further sums beyond the \$600,000 as may be called for in this connection. The decree is also to contain a provision that Mrs. Wood and other bondholders may appear before the master in chancery and litigate the question of the validity of all bonds originally reported by Receiver James Smith to be fraudulent.

The net meaning of all these provisions is that the sale must be made in the face of the fact that it is liable to be set aside if the bonds claimed by Receiver Smith and Attorney Untermyer to be fraudulent are so proved.

A Life Saved

Mr. Thos. H. Cashel, Barrel Creek, Dripstone, New South Wales, writes: "I feel it my duty to let suffering people know what a wonderful blood-purifying medicine is Ayer's Sarsaparilla. My illness began with sharp pains in the limbs, while I was handling wet wool. After a day or two I could not walk, and suffered terrible pains. My face turned nearly black, large red blotches came out all over my body, and then I became delirious. I was in two hospitals for some time, and everything was tried, but I grew weaker and weaker, and became convinced that nothing could be done for me. I had heard so much about Ayer's Sarsaparilla that I thought I would give it a trial as the last hope. After taking one bottle I thought I felt a little better. So I procured another bottle, and then another, and still another. I gradually improved, and in due time left my bed for the first time in six months. I am now in good health, and I say to every one that Ayer's Sarsaparilla saved my life."

AYER'S Sarsaparilla There are many imitation Sarsaparillas. Be sure you get "Ayer's." Prepared by Dr. J. C. Ayer Co., Lowell, Mass., U. S. A.

CHARGED WITH BRIBERY

PARIS, June 25.—The case of M. Combes, Premier and Minister of the Interior and of Public Worship, who is charged with bribery, is attracting wide attention among the people of France. M. Combes' alleged offenses occurred in connection with the deportation of Chartreuse monks from France. It is claimed by his friends that the charges are a result of religious prejudice on account of his official acts. The trial is expected to be a sensational one.

MARRIED HIS WARD

NEW YORK, July 12.—Senator William Clark, of Montana, the billionaire copper king, was married three years ago to his ward Miss Ada La Chapelle. The marriage was unsuspected by even the most intimate friends of the senator and its late announcement caused a sensation. The ceremony took place in France. They have a daughter three years of age. Senator Clark of Montana is many times a millionaire and his income from his different mining properties is conservatively estimated at over a million a month. His first wife died ten years ago leaving him with two sons and one daughter all grown up. Ada La Chapelle is one of the daughters of a poor French-Canadian who was an employe of Clark's in Butte, Montana. The family was left destitute by the father and Clark, who heard of the matter gave orders that they be looked after. This was many years ago when Ada La Chapelle was a mere child. In her studies the girl gave evidence of the possession of a grand voice and this being brought to Clark's attention she was sent to Forest Glen Seminary in Washington where her success justified the trouble taken in the cultivation of her voice. It was at this time that the senator, now a widower for some years, began to take an interest in the girl personally for she had grown to be a beauty of the marked brunette type. She was sent to Paris to further complete her studies and there it was that the secret marriage took place. Clark is an active man of sixty-five and his name has been connected with more than one woman as a prospective husband. His regard for his ward was known but it had not been suspected that he cherished any warmer feeling for her. For some years past he has been building an immense mansion at the corner of Fifth avenue and Seventy-seventh street, New York City, a place which though very costly, is said to be one of the ugliest and most absolutely tasteless buildings in the world. Still it cost the price and the owner is doubtless satisfied no matter how the aesthetic may rave. It is to be presumed that the new Mrs. Clark will soon take possession.

THE ADVANTAGES CEMENT ROOFING POSSESSES OVER Tin, Iron and Steel Roofing IT CANNOT RUST. Gases, fumes, moisture, coal soot and smoke cannot injure or effect cement roofing. It is better adapted for application over uneven surfaces, such as old shingles or metal roofs, obviating the expense of removing the same. It will not rattle from wind and storm, nor create any noise from rain falling upon it. The materials used in cement roofing are the best non-conductors of heat and cold known, therefore it will keep the building warmer in winter and cooler in summer than a metal roof. FRATERNITIES FOR FILIPINOS ISLANDERS IN AMERICAN COLLEGES PLAN AN ELABORATE ORGANIZATION OF "FRATS." BERKELEY, June 30.—An extensive system of Filipino fraternities in the American colleges throughout the United States, with a national organization and chapter houses scattered throughout the country, is the elaborate scheme that is now being developed by the colony of Filipino students at the University of California. The Islanders now at Berkeley will begin their active work in this direction by organizing a chapter house in Berkeley before the opening of college in August. When their plans have been well matured, the scheme will be placed before the Filipino Commissioners who are now touring the United States. They will pass through San Francisco on their way home and then the local lads will lay their plans before them. As all these boys come from the homes of the wealthy class in the islands, they anticipate little difficulty in raising \$50,000 for a house in Berkeley. This would give them by far the finest clubhouse in the college town. In accordance with the present plan many Filipino boys are now being sent to the United States to be educated in the colleges throughout the country.

TWO STORES WERE ROBBED DETECTIVE McDUFFIE ARRESTS TWO YOUTHS AND CHARGES THEM WITH ROBBING STORES. Two youths were placed under arrest yesterday afternoon by Detective McDuffie on charges of burglary in the first degree. Their names are Larkins, a negro and Y. Hong a half breed Chinese. The pair are charged with breaking into the Kailhi Grocery store on July 3, and stealing a quantity of cigars and tobacco. They broke open the till and abstracted \$3 in cash it is alleged. The pair also admitted it is stated, having broken into a tea house on Pacific Heights some weeks ago and taking some tobacco.

PARKER STARTS SUIT

BRINGS SUIT AGAINST MEAT COMPANY TO COLLECT INCOME AND SETTLE RIGHTS.

Another ramification of the seemingly endless legal proceedings arising out of the Parker ranch ownership was made public today by the commencement of an assumpsit suit on behalf of Colonel Samuel Parker for the recovery of \$26,252.39 from the Metropolitan Meat Company of this city. The action is taken on the allegation that Colonel Parker is the sole surviving partner of the partnership between himself and the late John P. Parker and that the money is due for cattle and sheep delivered to the Metropolitan Meat Company between May 24th and June 15th of the present year.

It is not to be understood that the Metropolitan Meat Company either denies the indebtedness to the estate or is unwilling to pay it but its position in the present proceedings is that in the existing involved condition of affairs the point as to who is entitled to the money is not clear and the suit is accordingly entered in order to protect Colonel Parker's contentions.

The plaintiff's petition has been filed by his attorneys Magoon & Lightfoot with Judge De Bolt.

The papers set forth that the plaintiff has ever since the death of John P. Parker carried on the business of the Parker Ranch. He claims on the first count that cattle and sheep to the value of \$28,457.64, with charges thereon amounting to \$2,775.25, have been shipped to the defendant company. The second count runs in effect that the defendant company is indebted to the plaintiff in the amount mentioned and the third count recites that though requested to pay, the defendant company has hitherto refused and still refuses to do so.

"It is more of a friendly suit than anything else" said J. Alfred Magoon, Colonel Parker's attorney this morning. "It is brought to ensure Colonel Parker's right to the money. We have no quarrel with the meat company. They have no objection to paying but in the present condition of affairs they want to be sure that they are paying the right parties."

NOW CERTAIN \$30,000 SHORT

AUDITOR FISHER HAS RETURNS MAKING LAND OFFICE LOSSES AT LEAST THAT SUM.

According to the best figures at present obtainable the Territory of Hawaii is short some \$30,000 through the peculations of U. S. Boyd of the Land Office and further investigations may increase the amount.

"Some people are so slow in making their returns that it is impossible to get the exact amount at present" said Territorial Auditor Fisher this morning "but the shortage will amount to \$30,000 in any event. I cannot tell how much of this shortage is Boyd's and how much is Mahaulu's at the present moment. I am going ahead to collect all the balances showing on the books and this will cause everyone to show what receipts they may have for money not credited them. This will be the only way of getting the complete figures."

MUST EMPLOY CITIZEN LABOR

RESPONSE TO THE MIDWAY CALL EFFECTS LOCAL CONTRACTORS-BUILDERS' EXCHANGE.

The Builders' and Traders' Exchange held an important meeting last night, at which a partial reorganization of the association was decided upon. Incidentally, it was stated by some of those present that the number of the applications for positions, by citizen labor, in response to the call for men for Midway Island, would lead to a stricter enforcement by the government of the law compelling the use of citizen labor on all public works. Under the law, permits for use of Asiatic or other labor may be secured in cases where citizen labor cannot be secured. In view of the large number of white men who were ready to go to Midway, contractors will be required to make more definite showing that they cannot get citizens, before such permits will be granted. If so many are willing to go to Midway, it is thought that perhaps many would go to other Hawaiian islands. The coin paid out to citizen labor stays here, while Japanese and others send all they get out of the country.

The exchange decided to organize Master Builders', Plumbers' and Painters' Associations, within the exchange, with a view to encouraging membership from followers of those crafts. It was also decided to make an amendment to the by-laws, which will give all the members more participation in the affairs of the concern. With the directors, J. D. Avery was re-elected secretary of the Exchange, for the coming fiscal period. The vacancy caused by the resignation of W. S. Rowlett, as a director, will be filled at a meeting to be held on June 21, when other changes will be effected. In addition to those already

DESERTIONS BY HONOLULU MEN

TWO WHO ENLISTED IN THE AMERICAN FLEET HAVE SKIPPED OUT SINCE.

Uncle Sam got at least two bad bargains for his navy in Honolulu according to official papers received by the Acting Governor today. These are notices of the desertion of Albert Ernest Hutton from the U. S. S. New Orleans and of the similar crime on the part of Manuel T. Figueredo who left the cruiser New York without leave. Both men enlisted here and gave Honolulu as their residence. Hutton disappeared from the New Orleans while she was at Shanghai but it is not stated where Figueredo took his French leave.

Commander Harber of the New Orleans in a note for the identification of Hutton describes his simply by saying "Mole on the abdomen," so those in search of the man had better go to Waikiki.

Both men have forfeited civil rights and persons harboring them or failing to give notice of their whereabouts are liable to fine or imprisonment.

CONSUMPTION KEEPS ITS LEAD

CAUSED MORE THAN TWICE AS MANY DEATHS AS ANY OTHER DISEASE LAST MONTH.

The mortality report of the Board of Health for the month of June shows generally good conditions. Tuberculosis, as usual, leads all other diseases as a cause of death, there having been 14 fatal cases. Typhoid fever comes next with six cases and there were five cases of pneumonia. The following summary is from the official records: Population of Honolulu. Official census, 1900, 39,305. Total deaths from all causes 79; monthly death rate per 1000 of population 1.73; Marriages reported, 57; Births reported 53.

The fish inspector's report shows 171, 74 fish examined during the month and 2, 298 of them condemned. There were 101 samples of milk and 10 samples of food tested by the food commissioner and 13 adulterations were detected.
