THE KILLED WHERE IS UP TO DATE THE THETIS?

JAPANESE OFFICIAL REPORTS SHOW 12,055 CASUALTIES UP TO AUGUST 1.

WASHINGTON, D. C., August 12.—The Japanese legation has received a revised list of casualties on the Japanese side from the battle of Chingju, March 28, up to and including the battle of Yangtzing, August 1, showing the total estimated casualties to be 12,055. The biggest losses resulted from the battles of Kinchow and Nanshan, when thirty-three officers and 716 men were killed and 3,455 men were wounded. The next biggest loss was suffered in the battle of Telissu, June 15, when the total casualties were 1,173, including seven officers killed and forty-three officers wounded. The actual known losses for the period of this report are given as follows: Killed—Officers, 54; men 1,509. Wounded—Officers, 96; men 6,330, to which are added the estimated casualties for some of the engagements amounting to 4,066, making the grand total of 12,055.

LEFT HONOLULU JULY 5 AND FAILED TO SHOW UP IN ALASKAN WATERS.

WASHINGTON, Aug. 7.—Nothing has been heard of the revenue cutter Thetis since she sailed from Honolulu for Dutch harbor on the 5th of July, and unless her arrival in Alaskan waters is reported before long the department will feel some anxiety for her safety. The distance from Honolulu to Dutch harbor is 2,916 miles, and under ordinary conditions the Thetis should have made the voyage in nine or ten days, at the longest. There is no telegraphic communication with Dutch harbor, however, and the vessel would probably not be reported until her arrival at St. Michael, whither she was expected to proceed immediately on her way to Point Barrow for the annual Arctic ocean cruise.

MAN PARKER TALKS TO

WILLIAM F. SHEEHAN.

William F. Sheehan is the man to whom Judge Parker addressed his famous telegram which was read in the Democratic National Convention, declaring for the gold standard after he had been nominated. He was until recently Parker's only political confidant, but even Sheehan claimed not to know the judge's views on the money question until the telegram was sent. Sheehan was one of the most active Parker managers at the St. Louis convention and was talked of for chairman of the national committee, but Parker did not want him and chose Taggart.

PUNCHBOWL BUILDINGS

TROUBLE OVER PROVISIONS IN THE LEASES UNDER WHICH PORTUGUESE HOLD LAND ON PUNCHBOWL SLOPES—TENANTS WHO THINK THEY CAN REMOVE BUILDINGS AT EXPIRATION OF THE LEASES THEY NOW HOLD.

There is trouble along the Punchbowl cottages and disappeared. It did not appear to be any part of his duty to re-build them so he merely reported the matter to the Superintendent of Public Works.

An enquiry based on a claim made by St. Anna to the effect that he had a right to take the material away from the lots showed that in the sub-lease which he had assumed there was an in-termination expressly allowing him to remove buildings. The sub-lease was granted in 1891, but the provision allowing removal of buildings was of course beyond the power of the original lessor. The matter will have to be arranged somehow with the Attorney General's Department.

Meanwhile there are several other sub-lessees who will be in the same difficult position. A. V. Peters, J. F. Rosa, M. G. Corderio and F. Averio all have holdings under similar conditions.

GUARD WEBBER WAS WOUNDED

PORTO RICAN CONVICT STRUCK HIM IN THE HEAD WITH A PICKAX.

The attack by Sedal Torres the Porto Rican convict on Guard Webber yesterday at the Makiki quarry, was due to the guard separating the Porto Rican from a fight with Grant Snow, a negro convict.

Torres got angry at Snow while they were at dinner. A quarrel of some character over the division of the food or some other cause, arose. Torres grabbed a spoon and attempted to strike the negro in the head with it. Webber saved the spoon being broken by grabbing hold of Torres and preventing the row. Later in the afternoon, another set-to between the convicts occurred. Torres was resentful toward Webber and while the guard was not looking, struck at him with a pickax. One of the guards saw the attack and yelled to Webber of the danger. Webber placed his arm up in line to check the force of the blow. A gash in the guard's scalp was made however, by the pick.

It was intended to prosecute Torres for assault but as there are a number of sentences hanging over the fellow and he has a long period to serve in jail, it was decided not to impose further sentence. He will be disciplined however by the prison authorities.

GEAR WILL BE SUSTAINED

PUBLIC WORKS DEPARTMENT WILL DO IT NO MATTER WHAT THE SUPREME COURT SAYS.

Judge Gear's appeal to the powers that he did not fall upon deaf ears and some action will be taken towards seeing just how safe or unsafe the judge's court room is at present. The floors will be raised so that the condition of the rafters may be ascertained and if they are found to be as worm eaten as they are said to be some means will be sought for bracing them underneath. The danger to Judge Gear's court room in particular is owing to the wide floor space which by the peculiar construction of the old building, has very little support from below. Its weight comes almost solidly on the beams which in turn are supported by the outer walls, and one inner wall.

Work Of Convention Is Cut And Dried

TERRITORIAL REPUBLICANS LIKE THOSE OF THE NATION AT LARGE, HAVE NO CONTESTS TO FIGHT OUT IN CONVENTION—SOME OF THE PROBABLE FEATURES OF THE PLATFORM TO BE ADOPTED.

Republicans of Hawaii are as harmonious as those of the national convention, and the Territorial convention to be held in Hilo next week is likely to get through with its work in a single day. The choice of a chairman is agreed on and there is no question about who will be the nominee for delegate. All that remains is the adoption of a platform and the selection of members of the central committee. There may be some small contests over these, but they are local affairs and will be quickly disposed of.

The Republican platform will be in marked contrast to the Democratic in much the same way as the national platforms differ.

Like the national Democracy the Hawaiians "deplore" and like the national Republicans, the Hawaiian Republicans will "point with pride." It is understood that the platform will contain endorsements of Roosevelt and Fairbanks and of the national platform, as well as of Governor Carter's administration and of the efforts of Delegate Kuhio at Washington.

County government will be supported in a straight declaration committing the party and its nominees to do all in their power in the next legislature to inaugurate a system of county government throughout the islands. This is assured by the sentiments already expressed in precinct and district meetings. There will probably be a platform declaring for a policy of opening public lands to settlement on the most liberal terms possible, and one asking for Congressional appropriations for federal buildings, harbor improvements, etc. Another plank which is likely to be in the platform will relate to the school question. It is proposed to declare for larger appropriations for the schools of the Territory, in order to provide better pay for teachers.

The Fourth District delegates, Honolulu, will caucus on Monday evening at the party headquarters on Fort street. The meeting is for the purpose of ascertaining definitely how many of the delegates will go to the convention, and discussing policies.

Hilo is making great preparations to receive the delegates. The Tribune has the following regarding the arrangements:

"The Republicans of the several precinct clubs met Wednesday night and have mapped out an interesting program for the entertainment of visiting delegates to the Territorial convention next week. The convention convenes Thursday morning at Spreckels Hall, and it is expected the work of the convention will be completed in one day, although an effort is being made through the Wilder S. S. Co. to have the Kinau lay over until Friday evening. Upon arrival of the steamer, the Hilo band and reception committee will meet the delegates and escort them to the various quarters provided for them. At night a band concert at the hotel grounds has been arranged, at which Republican orators like H. L. Holstein, John Wise, T. McCants Stewart, A. G. M. Robertson will speak. Admiral Moohau may also be prevailed upon to deliver a few remarks.

"After finishing their convention labors on Thursday the delegates will be entertained at a luau at 5 o'clock under the auspices of the committee given at the residence of Rev. S. L. Desha. This will be an especially elaborate affair and in the nature of a love feast, presided over by Delegate Kuhio. Providing the postal authorities will permit the delay of the United States mail, the Kinau will leave Hilo on Friday at 5 o'clock, in which event the transportation committee have arranged an excursion on the Hilo Railroad to Glenwood and Puna, as well as drives about the city which will be of interest to the visiting delegates.

"The reception committee, of which E. N. Holmes is chairman, do not as-

MIOWERA AHEAD OF TIME.

The S. S. Miowera arrived at 7 o'clock last night from Victoria and Vancouver. She sailed from those ports August 10. The vessel experienced good weather. Dr. W. S. Noblit, who was a delegate to St. Louis, returned from an extended trip to the mainland. The Miowera made the trip to this port much faster than usual, as she was not due until this morning. She made faster speed, however, as she had to load about 250 tons of coal at this place, there having been so much freight on the Canadian docks that she could not remain to load all of her fuel. She brought some passengers for Honolulu. She got away about 9 o'clock this morning for Suva, Brisbane and Sydney.

HAY'S STATEMENT OF POSITION

THE AMERICAN SECRETARY OF STATE REPLIES TO RUSSIA IN A CIRCULAR ADDRESSED TO THE AMBASSADORS OF THE UNITED STATES IN EUROPE—REASONS WHY COAL AND COTTON CANNOT BE CALLED ABSOLUTELY CONTRABAND.

WASHINGTON, D. C., August 8.—Secretary Hay today made public a circular regarding the rights of neutral ships and neutral commerce which is of great importance in view of the recent action of the Russian government. This circular is dated June 10, 1904, and is addressed to the ambassadors of the United States in Europe. It is as follows:

Gentlemen:—It appears from public documents that coal, naphtha, alcohol and other fuel has been declared contraband of war by the Russian government.

These articles enter into general consumption in the arts of peace, to which they are vitally necessary. They are usually treated not as "absolutely contraband of war," like articles that are intended primarily for military purposes in time of war, such as ordnance, arms, ammunition, etc., but rather as "conditionally contraband"—that is to say, articles that may be used for or

when they are transported for account of or in destination to the enemy, yet all kinds of fuel, such as coal, naphtha, alcohol, are classified along with arms, ammunition and other articles intended for warfar on land or sea.

The test in determining whether articles are contraband of war is their destination for the military uses of a belligerent. Mr. Dana in his Notes to Wheaton's International Law says: "The chief circumstance of inquiry would naturally be the port of destination, if that is a naval arsenal or a port in which vessels of war are usually fitted out or in which a fleet is lying or a garrison town or a place from which a military expedition is fitting out the presumption of military use would be raised more or less strongly according to the circumstances."

In the wars of 1859 and 1870 coal was declared by France not to be contraband. During the latter war Great Britain held that the character of coal

converted to the purposes of war or peace, according to circumstances. They may rather be classed with provisions and food stuffs of ordinarily innocent use, but which may become absolutely contraband of war when actually and especially destined for the military or naval forces of the enemy.

In the war between the United States and Spain the Navy Department, General Orders No. 492 issued June 20, 1898, declared, in article 19, as follows: "The term contraband of war comprehends only articles having a belligerent destination." Among articles absolutely contraband it declared ordnance, machine guns and other articles of military or naval warfare. It declared as conditionally contraband "coal, when destined for a naval station, a port of call, or a ship or ships of the enemy." It likewise declared provisions to be conditionally contraband "when destined for the enemy's ship or ships, or for a place that is besieged."

The above rules as to articles absolutely or conditionally contraband of war were adopted in the naval war code promulgated by the Navy Department June 27, 1900.

While it appears from the documents mentioned that rice, food stuffs, horses, beasts of burden and other animals which may be used in time of war are declared to be contraband of war only

dependent upon its destination, and refused to permit vessels to sail with it to the French fleet in the North sea. Where coal or other fuel is shipped to a port of a belligerent, with no presumption against its pacific use, to condemn it as absolutely contraband would seem to be an extreme measure.

Mr. Hall, International Law, says: "During the West African conference, in 1884, Russia took occasion to dissent vigorously from the inclusion of coal amongst articles contraband of war, and declared that she would categorically refuse her consent to any articles in any treaty, convention or instrument whatever which would imply its recognition as such."

We are also informed that it is intended to treat raw cotton as contraband of war. While it is true that raw cotton could be made up into clothing for the military uses of a belligerent a military use for the supply of an army or garrison might possibly be made of food stuffs of every description which might be shipped from neutral ports to the non-blockaded ports of a belligerent. The principle under consideration might, therefore, be extended so as to apply to every article of human use, which might be declared contraband of war simply because it might ultimately be, come in any degree useful to a belli-

gent for military purposes.
Coal and other fuel and cotton are employed for a great many innocent purposes. Many nations are dependent on them for the conduct of inoffensive industries, and no sufficient presumption of an intended warlike use seems to be afforded by the mere fact of their destination to a belligerent port. The recognition, in principle, of the treatment of coal and other fuel and raw cotton as absolutely contraband of war might ultimately lead to a total inhibition of the sale, by neutrals, to the people of belligerent states, of all articles which could be finally converted to military uses. Such an extension of the principle by treating coal and all other fuel and raw cotton as absolutely contraband of war, simply because they are shipped by a neutral to a non-blockaded port of a belligerent, would not appear to be in accord with the reasonable and lawful rights of a neutral commerce.

How Are You Fixed For Keeping Food Fresh and Pure?

If you want a real good refrigerator—one that has been tested and not found wanting, we do not hesitate to recommend the "Leonard Cleanable Refrigerator."

Refrigerators that are damp and allow food to become mouldy give lodgement to germs.
A microbe hasn't a chance to live in a "Leonard."
It is dry, safe and reliable, because it is made on the most scientific principles of refrigeration. It has eight walls, porcelain lined, air tight doors and its perfect air circulation will not permit the different articles of food to taste of each other.
When you see it you will instantly recognize its superiority over other refrigerators.

Hawaii Rate Of Population

The islands have a larger population to the square mile than twenty other states and territories. Hawaii is about sixty times as densely populated as Nevada, several hundred times as densely populated as Alaska, twenty times as densely populated as Idaho, Montana or New Mexico.

It is true that a large proportion of the Hawaii population consists of Asiatics, and that a large part of the land occupied is occupied by plantations. But the Asiatics live off the soil in the end, and the plantations occupy the best there is, for the production of the most profitable crop yet grown here on a large scale.

There are the valuable lands here unused, just as there are such lands almost all over the United States. But just as Governor Carter said, "the islands have been settled for many years and the opportunities of a new and rapidly developing country are lacking."

Bacteria Sent On Demand

has grown to such proportion that a hundred boxes of bacteria per day are now being mailed from Washington to various parts of the country. It is all a part of the great plan of scientific agriculture, with which Hawaii has long been so familiar by reason of the advanced methods employed here in the development of the sugar industry.

"Nitrogen, as is well known, is indispensable to plant life. The constant raising of crops for market results in the gradual impoverishment of the soil, necessitating the use of artificial fertilizers to restore nitrogenous elements. The world's visible supply of nitrate of soda—mainly located in Chile—has been diminishing of late, under the enormous drafts upon it, at an alarming rate.

"It was the discovery of these characteristics that led the U. S. Bureau of Plant Industry to undertake this novel traffic. The bacilla are sent out in pasteboard boxes, in a medium of raw cotton, and accompanied by careful directions, as considerable attention to detail is necessary in the culture of the germs. It is of special importance that they should not, during the period of their development, be brought into contact with microbes of another family, as a Kentucky feud might happen to exist between the two tribes, and the resultant shindy would be disastrous to the young and tender bacteria.

Governor Carter's statement regarding Hawaii that "the country is about as well taken up as any part of the United States" accords very well with population statistics. Hawaii is not at all sparsely populated in comparison with the rest of the Union.

is generally enough for a bushel of seed. If it is desired to inoculate soil, a quantity of dry earth is moistened with the liquid, and spread over the field like fertilizer.

"The boxes of bacteria are not distributed as are the seeds that Congressmen find so useful in solidifying their constituencies. They are sent only in response to individual requests, and are selected with special reference to the soil, the climate, and the crop to be grown. It is only a question of time when bacteria suited to other crops will be discovered, and their advantages are so marked, that the farmer of the future may regularly inoculate all his field before planting."

Hawaii has probably led even the United States in the amount of study and expense devoted to the development of scientific agriculture and the combating of insect pests. The islands have a staff of entomologists of international repute, employed in various parts of the world and Dr Kosbele's last letter from Queensland seems to indicate good chances of success in discovering an enemy of the latest destructive pest. It is the old story of insect preying upon insect. Each tiny flea has other fleas which on him prey and these lesser ones have even smaller pests which bite 'em, as the oft-quoted verse says, "and so proceed ad infinitum."

The War Department has just secured a lot more Pearl Harbor real estate options. If the present method keeps on Uncle Sam will have options on all our water front property. This would not matter so much if the proceedings ever went beyond the option stage, but so far federal army and navy activity here, since the building of the naval wharves, has consisted mostly in the collection of options.

Parker's statement that he would decline a renomination at the end of his term as president, has recalled the fact that Grover Cleveland said something of the same kind. Yet Cleveland was a nominee twice after his first term, and was evidently quite willing to be a nominee again. Parker is a young man, and it is extremely likely that he will want to run again, if he has four years in office.

Sale of Lease

Land of Kawahae 2d--Kohala, Hawaii

By direction of the Executive Committee of the Board of Trustees of the Queen's Hospital, I will offer at public auction a leasehold of the Land of Kawahae 2d, Kohala, Hawaii, on Monday, September 19, 1904, at my salesrooms, in Kaahumanu street, Honolulu, at 12 o'clock noon.

This property comprises one of the most desirable grazing tracts of the District and the source of the Keawenui stream, an unfailing water supply, is located on the upper or mauka portion of the property which is considered the best fattening land in the neighborhood.

The property extends from a point near Kawahae Landing to the mountain known as Kaumu o Kalehohoe, a distance of about eight miles, varying in width from one to two miles.

At Kawahae there is on the property, adjoining the Parker place, a very desirable House lot.

The area of this land is 10,500 Acres, more or less.

The purchaser will be required under the terms of the lease to fence the forest portion of the property in the vicinity of the water heads or source of the Keawenui stream, and otherwise provide for the exclusion of cattle from the forest portion by the erection of a five-wire fence so constructed to keep the cattle out.

Lessee must also keep down the lantana on the property. No live timber to be cut on the forest portion except for fence posts to be used on the ground, and the cutting of algaroba on the lower portion must be confined to thinning out and trimming.

Upset price for 10 year term, \$2500.00 per annum, payable quarterly in advance.

A Map of the property is now posted at my salesroom.

For further particulars apply to the undersigned or A. B. Loebenstein, Surveyor, Hilo.

SATOLLI'S SPECIAL MISSION

NEW YORK, August 8.—Among the passengers booked on the outgoing steamships for Europe Saturday was Cardinal Satolli, formerly apostolic delegate at Washington and now the prefect of the congregation of studies.

Cardinal Satolli arrived in this country some five or six weeks ago, his visit, it is said, being due to a special mission with which he was entrusted by the Pope. The nature of this mission remains unknown to the general public. If the Cardinal came to America to investigate or settle the various church questions which have divided the American hierarchy for some years the fact has not become publicly known. It is certain, however, that he returns to the Vatican with a thorough knowledge of the situation as a result of his interviews with Cardinal Gibbons, Archbishop Quigley, Archbishop Ireland and other leading prelates of the Roman Catholic Church in America.

participate any difficulty in lodging all the delegates that come to the convention. Many prominent citizens have expressed their intention to entertain one or more parties, and those not provided for will be looked after by the committee. Delegate Kuhio and a number of Hawaiian delegates will be the guests of Rev. Desha. A. G. M. Robertson will be entertained by A. B. Loebenstein, and many of the other delegates will be taken care of in this manner. The committee requests that those who propose to personally entertain visiting members of the convention, indicate to the committee, the names of the parties who will be their guests so there will be no conflict in arrangements.

"The committees in charge are as follows: General Committee: J. D. Lewis, G. F. Alfonso, I. E. Ray, George H. Williams, and R. A. Lyman, Jr. Reception: E. N. Holmes, P. Peck, J. T. Moir, J. D. Republican convention delegates will leave for Hilo on the Kinau next Tuesday and will return on the following Saturday.

The choice of A. G. M. Robertson for chairman of the convention and for chairman of the Territorial Central committee is practically assured, as he has the support of all elements.

The following have booked for the Kinau: For Hilo and way ports—A. G. M. Robertson, W. H. Rice Jr., Sam Parker, F. E. Thompson, J. L. Holt, N. Fernandez, E. D. Baldwin, C. A. Long, H. C. Pfeuger, W. PROSPECTS FOR COFFEE BETTER

PRODUCT ON HAWAII IS INCREASING AND MORE ACREAGE TO BE DEVOTED TO IT.

"There is no doubt in my mind," said E. W. Barnard of Laupahoehoe, "that the future of coffee in this section of the country is brighter than it has looked for several years. The Japanese are after land wherever it is suitable for the cultivation of coffee and I take that as a good indication for the Japanese are not fools.

"I have shipped to the coast this season more than fifty tons of coffee and I find that the demand is growing. There is not enough produced here to secure for it separate classification because the quality is superior to any sold in San Francisco and for that reason it is used as a blend. When our product is increased and we can have someone on the coast to represent us Hawaiian coffee will have a place in the hearts of the coffee drinkers that will increase the demand perceptibly.

"We harvest our own crop and have it cleaned and picked over in our own coffee house so that we know that only the selected product is shipped to the coast. The idea that the only good Hawaiian coffee comes from the Kona side of the island is erroneous and the people on the coast are finding out that there is as fine coffee on this side of Hawaii as there is in any part of the world.

Mr. Barnard came to Hilo last week on tax appeal business and went afterward with his wife and son to the Volcano House where they remained until Monday. He speaks in the highest terms of that hotel as it is now managed by Mr. Bidgood and says it is a pleasure to stop there. Judge Barnard left for home yesterday, and Mrs. Barnard and son will remain in Hilo for a few days.—Hawaii Herald.

HILO, August 26.—August seems to be a popular month for mating couples, and in these days of matrimonial activity, the ministers are kept busy. The latest addition to the growing list of benedicts is Harry Stein, conductor of the Puna division, Hilo Railroad. On Monday night at the parsonage of the First Foreign Church, Rev. Curtis E. Shields united Mr. Stein and Miss Maud A. Crabbe in marriage. Miss Maud is the daughter of Horace Crabbe of Honolulu, and the niece of Hon. Clarence Crabbe. She has been visiting Mrs. C. N. Arnold and daughters for the past three months in Hilo, where she first met Mr. Stein. Mr. and Mrs. Stein are residing at the Arnold cottage.

Sure Cure ANTI EXPANSION VIEW OF HAWAII

The debilitating effects of a warm climate and exposure to all kinds of weather are sure to bring on disorders of the blood and weaken the system.

Mr. Charles Giddes, of Mt. Malcolm, W. A., sends us his photograph, and tells of a sure cure for these conditions.

"For some time I have been landlord of the Royal Hotel in the Mt. Margaret gold fields district, eighty miles from the nearest railway. I have sold a great deal of Ayer's Sarsaparilla, and it gives the most universal satisfaction. When miners, prospectors and others become run down by lack of fresh vegetables and fruits, and from exposure to all kinds of weather, their blood becomes very impure and the whole system greatly weakened. But

AYER'S Sarsaparilla

is always a sure cure. I have known miners to send a hundred miles for it, such is their faith in it.

There are many imitation Sarsaparillas. Be sure you get "Ayer's." Ayer's Pills will greatly aid the action of the Sarsaparilla. They are all vegetable, mild, sugar-coated, and easy to take. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

Senator Lodge's reference to Hawaii in his speech at Point Shirley might fairly be made an occasion for controversy concerning the wisdom of Republican statesmanship in annexing those islands and making them a territory of the United States. "By their fruits ye shall know them," and the fruits of Hawaiian annexation are bitter indeed to the residents of the archipelago who brought about its change of political and international status.

The primary object of the annexationists in Hawaii was commercial. Other material benefits also were sought. It was to be a glad time for everybody after the American flag was raised permanently over the islands. Please do not contradict us on this point, for the debate over Hawaiian annexation is still in the memory of living men. As to the outcome, after six years of experience with territorial absorption, let us now quote two unimpeachable witnesses. The insular governor and the health commissioner, who have been at Washington the past summer with tales of woe. In June last, Dr. Charles B. Cooper of Honolulu, the health commissioner, made public this statement: "Though annexation was hailed with delight, it has been to us a source of disappointment and financial loss. All our revenues derived from taxes on imports that used to go to local benefit are now sent to the Washington treasury, thereby making our burdens much heavier than formerly. Besides this, the application of the immigration laws of the United States has robbed us of the best laborers we could ever have—the Chinese." Even more authoritative is the statement made last week by the governor of the islands, George R. Carter:

"The annexation of the islands to the United States has not been a commercial success so far as the islands are concerned. Since we have been United States territory we have not made great progress. One reason for this is because the laws by which we are governed are not suited to the country. For instance, we have to obey the United States land laws, and cannot rent government land for a period of more than five years at a time. As it takes from two to four years to raise a crop in our climate we cannot find anybody who will rent land for such a short period as five years. Thus we are deprived of a big income from government lands. Since we have been annexed Congress has never dredged our harbor. It is filling up, and this prevents the landing of the largest vessels. As a result of this our traffic is falling off. We have dredged the harbor at our own expense since we have been annexed, but unless it is dredged again we will lose much of our traffic. Those who opposed this particular annexation may now be forgiven for saying that the Hawaiians got exactly what they wanted. Although prosperous as an independent republic, they sought annexation in the full legal or constitutional sense. They were even ready to abandon their system of oriental coolie labor on the plantations in order to become an American territory.

CZAR'S BABE IS A COLONEL

MADE COLONEL OF FINLAND GUARDS ALREADY AND SALUTED BY HIS INFERIOR.

ST. PETERSBURG, Aug. 14, 3.40 a. m.—The empress and the baby czarvitch, at last reports, were in the best of condition. The heir to the throne at his birth weighed ten and seven-tenths pounds, English weight and has dark hair like that of his paternal grandmother. The christening probably will occur August 20, but it may possibly be further delayed in order to give greater time for preparation.

Before he was 24 hours old the heir apparent received his first military honor, being made honorary colonel of the Finnish guards. The colonel of the regiment later went to the Alexandria to salute his baby chief. The heir apparent is described as a strong, healthy baby.

ARIZONAN AND ALASKAN TO BE CONVERTED AS RESULT OF NEBRASKAN'S SUCCESS.

SAN FRANCISCO, August 11.—Liquid fuel is to be used by the vessels plying between this port and New York since it has been demonstrated that vessels can make long ocean voyages burning oil instead of coal. The steamers Arizona and Alaskan of the American-Hawaiian fleet are to be converted into oil burners and other steamers will be similarly converted in the near future. The Arizona and Alaskan are now on their way to New York. Upon arriving there the steamers will be equipped with oil-burning plants and will return here using liquid fuel. Both craft will carry a sufficient supply of oil to carry them here without a stop. The steamer Nebraska was the first vessel to run from this port to New York using oil to make steam. The success of her trip has induced the American-Hawaiian Steamship Company to convert others of their line into oil burners.

NOTLEY IS A JOKE SAYS HAWAII

REPORTS OF POLITICAL SENTIMENT ON ISLAND OF HAWAII INDICATE THAT KUHIO IS STRONG

Reports from Hawaii today by a person who has just returned from an extended tour of that island are to the effect that the political conditions are taking well defined shape on the big island.

Three facts were self evident: In the first place the natives do not want Kauka for delegate. They declare that he is too "hookano." The second fact, a fact by the way which the Big Island is not alone acquainted, is that Notley is a joke. His Hilo customs house record is constantly mentioned. The third fact is that the people think that Prince Kuhio should receive another term. The sentiment is strongly in favor of Kuhio and it is expected that he will repeat his former success on the land of Hawaii.

CAPT. CAMERON CRITICALLY ILL

FORMER PILOT SUFFERS TWO STROKES OF PARALYSIS—NEARLY EXPIRED YESTERDAY.

Captain E. F. Cameron formerly one of the pilots of this port, is in a critical condition at his home on Bereta's street. He has been ill for nearly two months. He has suffered strokes of paralysis during that time and yesterday sustained an attack of weakness which for a time threatened to cause him to expire. He lost the use of both limbs recently. Captain Cameron is one of the best known seafaring men of these islands, having lived in Honolulu many years. He has been identified with shipping all of his life. He was always called upon to serve on boards of survey for the marine underwriters.

PFOTENHAUER IS RECEIVER

JUDGE DE BOLT PLACES HIM IN CHARGE OF PUNA UNDER \$25,000 BONDS.

Another step was made in the affairs of the Puna Sugar Company this morning by the appointment of W. W. Pfothenauer as receiver. The appointment was made on motion by Judge De Bolt all of the parties concerned agreeing. A bond of \$25,000 will be furnished. Pfothenauer is with Hackfeld & Co.

The Puna Plantation was started some five years ago by A. J. Campbell, at present territorial treasurer, and Mark Robinson. Its property includes about 12,000 acres about half of which is sugar land and about 2,000 acres are under cultivation now. There is no mill on the property but the cane has been sold to the Olan Plantation which adjoin it. The place is seventeen miles from Hilo, the Hilo Railroad going right past it. The plantation is equipped with some seven or eight miles of standard gauge railroad of its own. It is a particularly well favored piece of property as no irrigation is needed the rainfall being sufficient to supply the crops. The present state of affairs is brought about by the refusal of the agents H. F. Dillingham & Co. to make further advances nor will the Olan Sugar Company.

GANG INCENDIARIES ARE OPERATING

HUTCHINSON PLANTATION BESET WITH FIRES SINCE FIRST OF THE YEAR.

Kain Antone a half Spanish and Hawaiian youth, was arrested on a charge of setting fire to the Hutchinson Plantation trash house last week at Naaiehu. Chester Doyle prosecuted the case for the government and succeeded in presenting a strong case against the defendant and having him committed to the December term of court at Kailua. This case makes the fifth attempt at arson under the new management, since January of this year. There seems to be some one or a set of individuals who have it in for the plantation company at Naaiehu. It is thought that Kain may be induced to divulge the identity of others thought to be concerned in the series of arsons. There is quite a little snow on the summit of Maunakea. Old natives say that the indications point to activity in the crater of Mauna Loa. Smoke was issuing from the summit several weeks ago.

KOREA MAKING UP LOST TIME

SAILED FROM YOKOHAMA TODAY AND IS DUE HERE SEPTEMBER 5—PROBABLY SAIL SAME DAY.

H. Hackfeld and Company agents of the Pacific Mail S. S. Company received a cablegram this morning stating that the S. S. Korea had sailed from Yokohama today en route to Honolulu and San Francisco. The vessel has 900 tons of freight for Honolulu and accommodations for 110 cabin passengers.

The vessel is due here at daylight September 5. She has therefore, succeeded in making up most of the ten days she was behind leaving Honolulu, as she will reach this place only three days off her regular schedule. She will probably sail in the afternoon or evening of the day she arrives. *****pany since the rearrangements of its affairs. The Puna Company is capitalized at \$1,000,000 though this is not all issued, and it is bonded for \$500,000. The principal bond holders are understood to be M. P. Robinson, Hackfeld and Company and Fred Crocker of San Francisco. Of the stock, some ninety per cent is held by the Olan Sugar Company.
